Pseudoverrucomicrobium

Gr. masc. adjective *ÏĹÎţÏĚÎťÎőÏĆ*, false; L. neut. n. *Verrucomicrobium*, An existing genus; *Pseudoverrucomicrobium*: A genus related to but distinct from the existing genus Verrucomicrobium of false.

Pseudoverrucosispora

Gr. masc. adjective *ÏĹÎţÏĚÎťÎőÏĆ*, false; L. fem. n. *Verrucosispora*, An existing genus; *Pseudoverrucosispora*: A genus related to but distinct from the existing genus Verrucosispora of false.

Pseudoverticia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Verticia*, An existing genus; *Pseudoverticia*: A genus related to but distinct from the existing genus Verticia of false.

Pseudoverticiella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Verticiella*, An existing genus; *Pseudoverticiella*: A genus related to but distinct from the existing genus Verticiella of false.

Pseudovespertiliibacter

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. masc. n. *Vespertiliibacter*, An existing genus; *Pseudovespertiliibacter*: A genus related to but distinct from the existing genus Vespertiliibacter of false.

Pseudovibrio

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. masc. n. *Vibrio*, An existing genus; *Pseudovibrio*: A genus related to but distinct from the existing genus Vibrio of false.

Pseudovibrionimonas

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Vibrionimonas*, An existing genus; *Pseudovibrionimonas*: A genus related to but distinct from the existing genus Vibrionimonas of false.

Pseudovicinamibacter

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. masc. n. *Vicinamibacter*, An existing genus; *Pseudovicinamibacter*: A genus related to but distinct from the existing genus Vicinamibacter of false.

Pseudovicingus

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. masc. n. *Vicingus*, An existing genus; *Pseudovicingus*: A genus related to but distinct from the existing genus Vicingus of false.

Pseudovictivallis

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Victivallis*, An existing genus; *Pseudovictivallis*: A genus related to but distinct from the existing genus Victivallis of false.

Pseudovirgibacillus

Gr. masc. adjective *ïĹÎţïĚÎţÎőïĆ*, false; L. masc. n. *Virgibacillus*, An existing genus; *Pseudovirgibacillus*: A genus related to but distinct from the existing genus Virgibacillus of false.

Pseudoviridibacillus

Gr. masc. adjective *ïĹÎţïĚÎţÎőïĆ*, false; L. masc. n. *Viridibacillus*, An existing genus; *Pseudoviridibacillus*: A genus related to but distinct from the existing genus Viridibacillus of false.

Pseudoviridibacterium

Gr. masc. adjective *ïĹÎţïĚÎţÎőïĆ*, false; L. neut. n. *Viridibacterium*, An existing genus; *Pseudoviridibacterium*: A genus related to but distinct from the existing genus Viridibacterium of false.

Pseudovitellibacter

Gr. masc. adjective *ïĹÎţïĚÎţÎőïĆ*, false; L. masc. n. *Vitellibacter*, An existing genus; *Pseudovitellibacter*: A genus related to but distinct from the existing genus Vitellibacter of false.

Pseudovitiosangium

Gr. masc. adjective *ïĹÎţïĚÎţÎőïĆ*, false; L. neut. n. *Vitiosangium*, An existing genus; *Pseudovitiosangium*: A genus related to but distinct from the existing genus Vitiosangium of false.

Pseudovitreoscilla

Gr. masc. adjective *ïĹÎţïĚÎţÎőïĆ*, false; L. fem. n. *Vitreoscilla*, An existing genus; *Pseudovitreoscilla*: A genus related to but distinct from the existing genus Vitreoscilla of false.

Pseudovogesella

Gr. masc. adjective *ïĹÎţïĚÎţÎőïĆ*, false; L. fem. dim. n. *Vogesella*, An existing genus; *Pseudovogesella*: A genus related to but distinct from the existing genus Vogesella of false.

Pseudovolcaniella

Gr. masc. adjective *ïĹÎţïĚÎţÎőïĆ*, false; L. fem. dim. n. *Volcaniella*, An existing genus; *Pseudovolcaniella*: A genus related to but distinct from the existing genus Volcaniella of false.

Pseudovolucribacter

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. masc. n. *Volucribacter*, An existing genus; *Pseudovolucribacter*: A genus related to but distinct from the existing genus Volucribacter of false.

Pseudovulcanibacillus

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. masc. n. *Vulcanibacillus*, An existing genus; *Pseudovulcanibacillus*: A genus related to but distinct from the existing genus Vulcanibacillus of false.

Pseudovulcaniibacterium

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. neut. n. *Vulcaniibacterium*, An existing genus; *Pseudovulcaniibacterium*: A genus related to but distinct from the existing genus Vulcaniibacterium of false.

Pseudovulcanithermus

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. masc. n. *Vulcanithermus*, An existing genus; *Pseudovulcanithermus*: A genus related to but distinct from the existing genus Vulcanithermus of false.

Pseudovulgatibacter

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. masc. n. *Vulgatibacter*, An existing genus; *Pseudovulgatibacter*: A genus related to but distinct from the existing genus Vulgatibacter of false.

Pseudowaddlia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Waddlia*, An existing genus; *Pseudowaddlia*: A genus related to but distinct from the existing genus Waddlia of false.

Pseudowandonia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Wandonia*, An existing genus; *Pseudowandonia*: A genus related to but distinct from the existing genus Wandonia of false.

Pseudowangella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Wangella*, An existing genus; *Pseudowangella*: A genus related to but distinct from the existing genus Wangella of false.

Pseudowautersia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Wautersia*, An existing genus; *Pseudowautersia*: A genus related to but distinct from the existing genus Wautersia of false.

Pseudowautersiella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Wautersiella*, An existing genus; *Pseudowautersiella*: A genus related to but distinct from the existing genus Wautersiella of false.

Pseudoweeksella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Weeksella*, An existing genus; *Pseudoweeksella*: A genus related to but distinct from the existing genus Weeksella of false.

Pseudoweissella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Weissella*, An existing genus; *Pseudoweissella*: A genus related to but distinct from the existing genus Weissella of false.

Pseudowenxinia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Wenxinia*, An existing genus; *Pseudowenxinia*: A genus related to but distinct from the existing genus Wenxinia of false.

Pseudowenyingzhuangia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Wenyingzhuangia*, An existing genus; *Pseudowenyingzhuangia*: A genus related to but distinct from the existing genus Wenyingzhuangia of false.

Pseudowenzhouxiangella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Wenzhouxiangella*, An existing genus; *Pseudowenzhouxiangella*: A genus related to but distinct from the existing genus Wenzhouxiangella of false.

Pseudowestiellopsis

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Westiellopsis*, An existing genus; *Pseudowestiellopsis*: A genus related to but distinct from the existing genus Westiellopsis of false.

Pseudowigglesworthia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Wigglesworthia*, An existing genus; *Pseudowigglesworthia*: A genus related to but distinct from the existing genus Wigglesworthia of false.

Pseudowilliamsia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Williamsia*, An existing genus; *Pseudowilliamsia*: A genus related to but distinct from the existing genus Williamsia of false.

Pseudowilliamsoniiplasma

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. neut. n. *Williamsoniiplasma*, An existing genus; *Pseudowilliamsoniiplasma*: A genus related to but distinct from the existing genus Williamsoniiplasma of false.

Pseudowilliamwhitmania

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Williamwhitmania*, An existing genus; *Pseudowilliamwhitmania*: A genus related to but distinct from the existing genus Williamwhitmania of false.

Pseudowinkia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Winkia*, An existing genus; *Pseudowinkia*: A genus related to but distinct from the existing genus Winkia of false.

Pseudowinogradskyella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Winogradskyella*, An existing genus; *Pseudowinogradskyella*: A genus related to but distinct from the existing genus Winogradskyella of false.

Pseudowoeseia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Woeseia*, An existing genus; *Pseudowoeseia*: A genus related to but distinct from the existing genus Woeseia of false.

Pseudowohlfahrtiimonas

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Wohlfahrtiimonas*, An existing genus; *Pseudowohlfahrtiimonas*: A genus related to but distinct from the existing genus Wohlfahrtiimonas of false.

Pseudowolbachia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Wolbachia*, An existing genus; *Pseudowolbachia*: A genus related to but distinct from the existing genus Wolbachia of false.

Pseudowolinella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Wolinella*, An existing genus; *Pseudowolinella*: A genus related to but distinct from the existing genus Wolinella of false.

Pseudowolskyella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Wolskyella*, An existing genus; *Pseudowolskyella*: A genus related to but distinct from the existing genus Wolskyella of false.

Pseudowoodsholea

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Woodsholea*, An existing genus; *Pseudowoodsholea*: A genus related to but distinct from the existing genus Woodsholea of false.

Pseudowukongibacter

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. masc. n. *Wukongibacter*, An existing genus; *Pseudowukongibacter*: A genus related to but distinct from the existing genus Wukongibacter of false.

Pseudoxanthobacter

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. masc. n. *Xanthobacter*, An existing genus; *Pseudoxanthobacter*: A genus related to but distinct from the existing genus Xanthobacter of false.

Pseudoxanthomarina

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Xanthomarina*, An existing genus; *Pseudoxanthomarina*: A genus related to but distinct from the existing genus Xanthomarina of false.

Pseudoxanthomonas

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Xanthomonas*, An existing genus; *Pseudoxanthomonas*: A genus related to but distinct from the existing genus Xanthomonas of false.

Pseudoxanthovirga

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Xanthovirga*, An existing genus; *Pseudoxanthovirga*: A genus related to but distinct from the existing genus Xanthovirga of false.

Pseudoxenophilus

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. masc. n. *Xenophilus*, An existing genus; *Pseudoxenophilus*: A genus related to but distinct from the existing genus Xenophilus of false.

Pseudoxenorhabdus

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Xenorhabdus*, An existing genus; *Pseudoxenorhabdus*: A genus related to but distinct from the existing genus Xenorhabdus of false.

Pseudoxiangella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Xiangella*, An existing genus; *Pseudoxiangella*: A genus related to but distinct from the existing genus Xiangella of false.

Pseudoxinfangfangia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Xinfangfangia*, An existing genus; *Pseudoxinfangfangia*: A genus related to but distinct from the existing genus Xinfangfangia of false.

Pseudoxuhuaishuia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Xuhuaishuia*, An existing genus; *Pseudoxuhuaishuia*: A genus related to but distinct from the existing genus Xuhuaishuia of false.

Pseudoxylanibacillus

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. masc. n. *Xylanibacillus*, An existing genus; *Pseudoxylanibacillus*: A genus related to but distinct from the existing genus Xylanibacillus of false.

Pseudoxylanibacter

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. masc. n. *Xylanibacter*, An existing genus; *Pseudoxylanibacter*: A genus related to but distinct from the existing genus Xylanibacter of false.

Pseudoxylanibacterium

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. neut. n. *Xylanibacterium*, An existing genus; *Pseudoxylanibacterium*: A genus related to but distinct from the existing genus Xylanibacterium of false.

Pseudoxylanimicrobium

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. neut. n. *Xylanimicrobium*, An existing genus; *Pseudoxylanimicrobium*: A genus related to but distinct from the existing genus Xylanimicrobium of false.

Pseudoxylanimonas

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Xylanimonas*, An existing genus; *Pseudoxylanimonas*: A genus related to but distinct from the existing genus Xylanimonas of false.

Pseudoxylanivirga

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Xylanivirga*, An existing genus; *Pseudoxylanivirga*: A genus related to but distinct from the existing genus Xylanivirga of false.

Pseudoxylella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Xylella*, An existing genus; *Pseudoxylella*: A genus related to but distinct from the existing genus Xylella of false.

Pseudoxylophilus

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. masc. n. *Xylophilus*, An existing genus; *Pseudoxylophilus*: A genus related to but distinct from the existing genus Xylophilus of false.

Pseudoyangia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Yangia*, An existing genus; *Pseudoyangia*: A genus related to but distinct from the existing genus Yangia of false.

Pseudoyania

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Yania*, An existing genus; *Pseudoyania*: A genus related to but distinct from the existing genus Yania of false.

Pseudoyaniella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Yaniella*, An existing genus; *Pseudoyaniella*: A genus related to but distinct from the existing genus Yaniella of false.

Pseudoyeosuana

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Yeosuana*, An existing genus; *Pseudoyeosuana*: A genus related to but distinct from the existing genus Yeosuana of false.

Pseudoyersinia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Yersinia*, An existing genus; *Pseudoyersinia*: A genus related to but distinct from the existing genus Yersinia of false.

Pseudoyimella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Yimella*, An existing genus; *Pseudoyimella*: A genus related to but distinct from the existing genus Yimella of false.

Pseudoyinghuangia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Yinghuangia*, An existing genus; *Pseudoyinghuangia*: A genus related to but distinct from the existing genus Yinghuangia of false.

Pseudoyokenella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Yokenella*, An existing genus; *Pseudoyokenella*: A genus related to but distinct from the existing genus Yokenella of false.

Pseudoyonedaella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Yonedaella*, An existing genus; *Pseudoyonedaella*: A genus related to but distinct from the existing genus Yonedaella of false.

Pseudoyonghaparkia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Yonghaparkia*, An existing genus; *Pseudoyonghaparkia*: A genus related to but distinct from the existing genus Yonghaparkia of false.

Pseudoyoonia

Gr. masc. adjective *ÏĹÎţÏĚÎţÎőÏĆ*, false; L. fem. n. *Yoonia*, An existing genus; *Pseudoyoonia*: A genus related to but distinct from the existing genus Yoonia of false.

Pseudoyouhaiella

Gr. masc. adjective *ÏĹÎţÏĚÎţÎőÏĆ*, false; L. fem. dim. n. *Youhaiella*, An existing genus; *Pseudoyouhaiella*: A genus related to but distinct from the existing genus Youhaiella of false.

Pseudoyoungiibacter

Gr. masc. adjective *ÏĹÎţÏĚÎţÎőÏĆ*, false; L. masc. n. *Youngiibacter*, An existing genus; *Pseudoyoungiibacter*: A genus related to but distinct from the existing genus Youngiibacter of false.

Pseudoyoungimonas

Gr. masc. adjective *ÏĹÎţÏĚÎţÎőÏĆ*, false; L. fem. n. *Youngimonas*, An existing genus; *Pseudoyoungimonas*: A genus related to but distinct from the existing genus Youngimonas of false.

Pseudoyuhushiella

Gr. masc. adjective *ÏĹÎţÏĚÎţÎőÏĆ*, false; L. fem. dim. n. *Yuhushiella*, An existing genus; *Pseudoyuhushiella*: A genus related to but distinct from the existing genus Yuhushiella of false.

Pseudozavarzinella

Gr. masc. adjective *ÏĹÎţÏĚÎţÎőÏĆ*, false; L. fem. dim. n. *Zavarzinella*, An existing genus; *Pseudozavarzinella*: A genus related to but distinct from the existing genus Zavarzinella of false.

Pseudozavarzinia

Gr. masc. adjective *ÏĹÎţÏĚÎţÎőÏĆ*, false; L. fem. n. *Zavarzinia*, An existing genus; *Pseudozavarzinia*: A genus related to but distinct from the existing genus Zavarzinia of false.

Pseudozeaxanthinibacter

Gr. masc. adjective *ÏĹÎţÏĚÎţÎőÏĆ*, false; L. masc. n. *Zeaxanthinibacter*, An existing genus; *Pseudozeaxanthinibacter*: A genus related to but distinct from the existing genus Zeaxanthinibacter of false.

Pseudozehria

Gr. masc. adjective *ïĹÎţïĚÎtĺőïĆ*, false; L. fem. n. *Zehria*, An existing genus; *Pseudozehria*: A genus related to but distinct from the existing genus Zehria of false.

Pseudozestosphaera

Gr. masc. adjective *ïĹÎţïĚÎtĺőïĆ*, false; L. fem. n. *Zestosphaera*, An existing genus; *Pseudozestosphaera*: A genus related to but distinct from the existing genus Zestosphaera of false.

Pseudozhangella

Gr. masc. adjective *ïĹÎţïĚÎtĺőïĆ*, false; L. fem. dim. n. *Zhangella*, An existing genus; *Pseudozhangella*: A genus related to but distinct from the existing genus Zhangella of false.

Pseudozhaonella

Gr. masc. adjective *ïĹÎţïĚÎtĺőïĆ*, false; L. fem. dim. n. *Zhaonella*, An existing genus; *Pseudozhaonella*: A genus related to but distinct from the existing genus Zhaonella of false.

Pseudozhengella

Gr. masc. adjective *ïĹÎţïĚÎtĺőïĆ*, false; L. fem. dim. n. *Zhengella*, An existing genus; *Pseudozhengella*: A genus related to but distinct from the existing genus Zhengella of false.

Pseudozhihengliuella

Gr. masc. adjective *ïĹÎţïĚÎtĺőïĆ*, false; L. fem. dim. n. *Zhihengliuella*, An existing genus; *Pseudozhihengliuella*: A genus related to but distinct from the existing genus Zhihengliuella of false.

Pseudozhizhongheella

Gr. masc. adjective *ïĹÎţïĚÎtĺőïĆ*, false; L. fem. dim. n. *Zhizhongheella*, An existing genus; *Pseudozhizhongheella*: A genus related to but distinct from the existing genus Zhizhongheella of false.

Pseudozhongshania

Gr. masc. adjective *ïĹÎţïĚÎtĺőïĆ*, false; L. fem. n. *Zhongshania*, An existing genus; *Pseudozhongshania*: A genus related to but distinct from the existing genus Zhongshania of false.

Pseudozhouia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Zhouia*, An existing genus; *Pseudozhouia*: A genus related to but distinct from the existing genus Zhouia of false.

Pseudozimmermannella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Zimmermannella*, An existing genus; *Pseudozimmermannella*: A genus related to but distinct from the existing genus Zimmermannella of false.

Pseudozobellella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Zobellella*, An existing genus; *Pseudozobellella*: A genus related to but distinct from the existing genus Zobellella of false.

Pseudozobellia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Zobellia*, An existing genus; *Pseudozobellia*: A genus related to but distinct from the existing genus Zobellia of false.

Pseudozoogloea

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Zoogloea*, An existing genus; *Pseudozoogloea*: A genus related to but distinct from the existing genus Zoogloea of false.

Pseudozooshikella

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. dim. n. *Zooshikella*, An existing genus; *Pseudozooshikella*: A genus related to but distinct from the existing genus Zooshikella of false.

Pseudozunongwangia

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. fem. n. *Zunongwangia*, An existing genus; *Pseudozunongwangia*: A genus related to but distinct from the existing genus Zunongwangia of false.

Pseudozymobacter

Gr. masc. adjective *ïĹÎţïĚÎtÎőïĆ*, false; L. masc. n. *Zymobacter*, An existing genus; *Pseudozymobacter*: A genus related to but distinct from the existing genus Zymobacter of false.

Pseudozymomonas

Gr. masc. adjective *ïĹÎţÏĚÎtÎőÏĆ*, false; L. fem. n. *Zymomonas*, An existing genus; *Pseudozymomonas*: A genus related to but distinct from the existing genus Zymomonas of false.

Pseudozymophilus

Gr. masc. adjective *ïĹÎţÏĚÎtÎőÏĆ*, false; L. masc. n. *Zymophilus*, An existing genus; *Pseudozymophilus*: A genus related to but distinct from the existing genus Zymophilus of false.

Quasiabditibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Abditibacterium*, An existing genus; *Quasiabditibacterium*: A genus related to but distinct from the existing genus Abditibacterium of as if.

Quasiabiotrophia

L. nan conjunction *quasi*, as if; L. fem. n. *Abiotrophia*, An existing genus; *Quasiabiotrophia*: A genus related to but distinct from the existing genus Abiotrophia of as if.

Quasiabsicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Absicoccus*, An existing genus; *Quasiabsicoccus*: A genus related to but distinct from the existing genus Absicoccus of as if.

Quasiabsiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Absiella*, An existing genus; *Quasiabsiella*: A genus related to but distinct from the existing genus Absiella of as if.

Quasiabyssibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Abyssibacter*, An existing genus; *Quasiabyssibacter*: A genus related to but distinct from the existing genus Abyssibacter of as if.

Quasiabyssicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Abyssicoccus*, An existing genus; *Quasiabyssicoccus*: A genus related to but distinct from the existing genus Abyssicoccus of as if.

Quasiabyssisolibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Abyssisolibacter*, An existing genus; *Quasiabyssisolibacter*: A genus related to but distinct from the existing genus Abyssisolibacter of as if.

Quasiabyssivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Abyssivirga*, An existing genus; *Quasiabyssivirga*: A genus related to but distinct from the existing genus Abyssivirga of as if.

Quasiacanthopleuribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Acanthopleuribacter*, An existing genus; *Quasiacanthopleuribacter*: A genus related to but distinct from the existing genus Acanthopleuribacter of as if.

Quasiacaricomes

L. nan conjunction *quasi*, as if; L. masc. n. *Acaricomes*, An existing genus; *Quasiacaricomes*: A genus related to but distinct from the existing genus Acaricomes of as if.

Quasiacaryochloris

L. nan conjunction *quasi*, as if; L. fem. n. *Acaryochloris*, An existing genus; *Quasiacaryochloris*: A genus related to but distinct from the existing genus Acaryochloris of as if.

Quasiacetanaerobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Acetanaerobacterium*, An existing genus; *Quasiacetanaerobacterium*: A genus related to but distinct from the existing genus Acetanaerobacterium of as if.

Quasiacetatifactor

L. nan conjunction *quasi*, as if; L. masc. n. *Acetatifactor*, An existing genus; *Quasiacetatifactor*: A genus related to but distinct from the existing genus Acetatifactor of as if.

Quasiacetilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Acetilactobacillus*, An existing genus; *Quasiacetilactobacillus*: A genus related to but distinct from the existing genus Acetilactobacillus of as if.

Quasiacetitomaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Acetitomaculum*, An existing genus; *Quasiacetitomaculum*: A genus related to but distinct from the existing genus Acetitomaculum of as if.

Quasiacetivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Acetivibrio*, An existing genus; *Quasiacetivibrio*: A genus related to but distinct from the existing genus Acetivibrio of as if.

Quasiacetoanaerobium

L. nan conjunction *quasi*, as if; L. neut. n. *Acetoanaerobium*, An existing genus; *Quasiacetoanaerobium*: A genus related to but distinct from the existing genus Acetoanaerobium of as if.

Quasiacetobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Acetobacter*, An existing genus; *Quasiacetobacter*: A genus related to but distinct from the existing genus Acetobacter of as if.

Quasiacetobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Acetobacterium*, An existing genus; *Quasiacetobacterium*: A genus related to but distinct from the existing genus Acetobacterium of as if.

Quasiacetobacteroides

L. nan conjunction *quasi*, as if; L. masc. n. *Acetobacteroides*, An existing genus; *Quasiacetobacteroides*: A genus related to but distinct from the existing genus Acetobacteroides of as if.

Quasiacetofilamentum

L. nan conjunction *quasi*, as if; L. neut. n. *Acetofilamentum*, An existing genus; *Quasiacetofilamentum*: A genus related to but distinct from the existing genus Acetofilamentum of as if.

Quasiacetogenium

L. nan conjunction *quasi*, as if; L. neut. n. *Acetogenium*, An existing genus; *Quasiacetogenium*: A genus related to but distinct from the existing genus Acetogenium of as if.

Quasiacetohalobium

L. nan conjunction *quasi*, as if; L. neut. n. *Acetohalobium*, An existing genus; *Quasiacetohalobium*: A genus related to but distinct from the existing genus Acetohalobium of as if.

Quasiacetomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Acetomicrobium*, An existing genus; *Quasiacetomicrobium*: A genus related to but distinct from the existing genus Acetomicrobium of as if.

Quasiacetonema

L. nan conjunction *quasi*, as if; L. neut. n. *Acetonema*, An existing genus; *Quasiacetonema*: A genus related to but distinct from the existing genus Acetonema of as if.

Quasiacetothermus

L. nan conjunction *quasi*, as if; L. masc. n. *Acetothermus*, An existing genus; *Quasiacetothermus*: A genus related to but distinct from the existing genus Acetothermus of as if.

Quasiacholeplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Acholeplasma*, An existing genus; *Quasiacholeplasma*: A genus related to but distinct from the existing genus Acholeplasma of as if.

Quasiachromatium

L. nan conjunction *quasi*, as if; L. neut. n. *Achromatium*, An existing genus; *Quasiachromatium*: A genus related to but distinct from the existing genus Achromatium of as if.

Quasiachromobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Achromobacter*, An existing genus; *Quasiachromobacter*: A genus related to but distinct from the existing genus Achromobacter of as if.

Quasiacidaminobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Acidaminobacter*, An existing genus; *Quasiacidaminobacter*: A genus related to but distinct from the existing genus Acidaminobacter of as if.

Quasiacidaminococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Acidaminococcus*, An existing genus; *Quasiacidaminococcus*: A genus related to but distinct from the existing genus Acidaminococcus of as if.

Quasiacidianus

L. nan conjunction *quasi*, as if; L. masc. n. *Acidianus*, An existing genus; *Quasiacidianus*: A genus related to but distinct from the existing genus Acidianus of as if.

Quasiacidibrevibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Acidibrevibacterium*, An existing genus; *Quasiacidibrevibacterium*: A genus related to but distinct from the existing genus Acidibrevibacterium of as if.

Quasiacidicaldus

L. nan conjunction *quasi*, as if; L. masc. n. *Acidicaldus*, An existing genus; *Quasiacidicaldus*: A genus related to but distinct from the existing genus Acidicaldus of as if.

Quasiacidicapsa

L. nan conjunction *quasi*, as if; L. fem. n. *Acidicapsa*, An existing genus; *Quasiacidicapsa*: A genus related to but distinct from the existing genus Acidicapsa of as if.

Quasiacidiferrimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Acidiferrimicrobium*, An existing genus; *Quasiacidiferrimicrobium*: A genus related to but distinct from the existing genus Acidiferrimicrobium of as if.

Quasiacidiferrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Acidiferrobacter*, An existing genus; *Quasiacidiferrobacter*: A genus related to but distinct from the existing genus Acidiferrobacter of as if.

Quasiacidihalobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Acidihalobacter*, An existing genus; *Quasiacidihalobacter*: A genus related to but distinct from the existing genus Acidihalobacter of as if.

Quasiacidilobus

L. nan conjunction *quasi*, as if; L. masc. n. *Acidilobus*, An existing genus; *Quasiacidilobus*: A genus related to but distinct from the existing genus Acidilobus of as if.

Quasiacidimangrovimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Acidimangrovimonas*, An existing genus; *Quasiacidimangrovimonas*: A genus related to but distinct from the existing genus Acidimangrovimonas of as if.

Quasiacidimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Acidimicrobium*, An existing genus; *Quasiacidimicrobium*: A genus related to but distinct from the existing genus Acidimicrobium of as if.

Quasiacidiphilium

L. nan conjunction *quasi*, as if; L. neut. n. *Acidiphilium*, An existing genus; *Quasiacidiphilium*: A genus related to but distinct from the existing genus Acidiphilium of as if.

Quasiacidiplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Acidiplasma*, An existing genus; *Quasiacidiplasma*: A genus related to but distinct from the existing genus Acidiplasma of as if.

Quasiacidipropionibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Acidipropionibacterium*, An existing genus; *Quasiacidipropionibacterium*: A genus related to but distinct from the existing genus Acidipropionibacterium of as if.

Quasiacidisarcina

L. nan conjunction *quasi*, as if; L. fem. n. *Acidisarcina*, An existing genus; *Quasiacidisarcina*: A genus related to but distinct from the existing genus Acidisarcina of as if.

Quasiacidisoma

L. nan conjunction *quasi*, as if; L. neut. n. *Acidisoma*, An existing genus; *Quasiacidisoma*: A genus related to but distinct from the existing genus Acidisoma of as if.

Quasiacidisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Acidisphaera*, An existing genus; *Quasiacidisphaera*: A genus related to but distinct from the existing genus Acidisphaera of as if.

Quasiacidithiobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Acidithiobacillus*, An existing genus; *Quasiacidithiobacillus*: A genus related to but distinct from the existing genus Acidithiobacillus of as if.

Quasiacidithrix

L. nan conjunction *quasi*, as if; L. fem. n. *Acidithrix*, An existing genus; *Quasiacidithrix*: A genus related to but distinct from the existing genus Acidithrix of as if.

Quasiacidocella

L. nan conjunction *quasi*, as if; L. fem. n. *Acidocella*, An existing genus; *Quasiacidocella*: A genus related to but distinct from the existing genus Acidocella of as if.

Quasiacidovorax

L. nan conjunction *quasi*, as if; L. masc. n. *Acidovorax*, An existing genus; *Quasiacidovorax*: A genus related to but distinct from the existing genus Acidovorax of as if.

Quasiacinetobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Acinetobacter*, An existing genus; *Quasiacinetobacter*: A genus related to but distinct from the existing genus Acinetobacter of as if.

Quasiacrocarpospora

L. nan conjunction *quasi*, as if; L. fem. n. *Acrocarpospora*, An existing genus; *Quasiacrocarpospora*: A genus related to but distinct from the existing genus Acrocarpospora of as if.

Quasiactibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Actibacter*, An existing genus; *Quasiactibacter*: A genus related to but distinct from the existing genus Actibacter of as if.

Quasiactibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Actibacterium*, An existing genus; *Quasiactibacterium*: A genus related to but distinct from the existing genus Actibacterium of as if.

Quasiactimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Actimicrobium*, An existing genus; *Quasiactimicrobium*: A genus related to but distinct from the existing genus Actimicrobium of as if.

Quasiactinaurispora

L. nan conjunction *quasi*, as if; L. fem. n. *Actinaurispora*, An existing genus; *Quasiactinaurispora*: A genus related to but distinct from the existing genus Actinaurispora of as if.

Quasiactinoallomurus

L. nan conjunction *quasi*, as if; L. masc. n. *Actinoallomurus*, An existing genus; *Quasiactinoallomurus*: A genus related to but distinct from the existing genus Actinoallomurus of as if.

Quasiactinobispora

L. nan conjunction *quasi*, as if; L. fem. n. *Actinobispora*, An existing genus; *Quasiactinobispora*: A genus related to but distinct from the existing genus Actinobispora of as if.

Quasiactinocatenispora

L. nan conjunction *quasi*, as if; L. fem. n. *Actinocatenispora*, An existing genus; *Quasiactinocatenispora*: A genus related to but distinct from the existing genus Actinocatenispora of as if.

Quasiactinocorallia

L. nan conjunction *quasi*, as if; L. fem. n. *Actinocorallia*, An existing genus; *Quasiactinocorallia*: A genus related to but distinct from the existing genus Actinocorallia of as if.

Quasiactinocrinis

L. nan conjunction *quasi*, as if; L. masc. n. *Actinocrinis*, An existing genus; *Quasiactinocrinis*: A genus related to but distinct from the existing genus Actinocrinis of as if.

Quasiactinocrispum

L. nan conjunction *quasi*, as if; L. neut. n. *Actinocrispum*, An existing genus; *Quasiactinocrispum*: A genus related to but distinct from the existing genus Actinocrispum of as if.

Quasiactinokineospora

L. nan conjunction *quasi*, as if; L. fem. n. *Actinokineospora*, An existing genus; *Quasiactinokineospora*: A genus related to but distinct from the existing genus Actinokineospora of as if.

Quasiactinomadura

L. nan conjunction *quasi*, as if; L. fem. n. *Actinomadura*, An existing genus; *Quasiactinomadura*: A genus related to but distinct from the existing genus Actinomadura of as if.

Quasiactinomarinicola

L. nan conjunction *quasi*, as if; L. fem. n. *Actinomarinicola*, An existing genus; *Quasiactinomarinicola*: A genus related to but distinct from the existing genus Actinomarinicola of as if.

Quasiactinomyces

L. nan conjunction *quasi*, as if; L. masc. n. *Actinomyces*, An existing genus; *Quasiactinomyces*: A genus related to but distinct from the existing genus Actinomyces of as if.

Quasiactinomycetospora

L. nan conjunction *quasi*, as if; L. fem. n. *Actinomycetospora*, An existing genus; *Quasiactinomycetospora*: A genus related to but distinct from the existing genus Actinomycetospora of as if.

Quasiactinophytocola

L. nan conjunction *quasi*, as if; L. masc. n. *Actinophytocola*, An existing genus; *Quasiactinophytocola*: A genus related to but distinct from the existing genus Actinophytocola of as if.

Quasiactinoplanes

L. nan conjunction *quasi*, as if; L. masc. n. *Actinoplanes*, An existing genus; *Quasiactinoplanes*: A genus related to but distinct from the existing genus Actinoplanes of as if.

Quasiactinopolymorpha

L. nan conjunction *quasi*, as if; L. fem. n. *Actinopolymorpha*, An existing genus; *Quasiactinopolymorpha*: A genus related to but distinct from the existing genus Actinopolymorpha of as if.

Quasiactinopolyspora

L. nan conjunction *quasi*, as if; L. fem. n. *Actinopolyspora*, An existing genus; *Quasiactinopolyspora*: A genus related to but distinct from the existing genus Actinopolyspora of as if.

Quasiactinorectispora

L. nan conjunction *quasi*, as if; L. fem. n. *Actinorectispora*, An existing genus; *Quasiactinorectispora*: A genus related to but distinct from the existing genus Actinorectispora of as if.

Quasiactinorhabdospora

L. nan conjunction *quasi*, as if; L. fem. n. *Actinorhabdospora*, An existing genus; *Quasiactinorhabdospora*: A genus related to but distinct from the existing genus Actinorhabdospora of as if.

Quasiactinorugispora

L. nan conjunction *quasi*, as if; L. fem. n. *Actinorugispora*, An existing genus; *Quasiactinorugispora*: A genus related to but distinct from the existing genus Actinorugispora of as if.

Quasiactinospica

L. nan conjunction *quasi*, as if; L. fem. n. *Actinospica*, An existing genus; *Quasiactinospica*: A genus related to but distinct from the existing genus Actinospica of as if.

Quasiactinosporangium

L. nan conjunction *quasi*, as if; L. neut. n. *Actinosporangium*, An existing genus; *Quasiactinosporangium*: A genus related to but distinct from the existing genus Actinosporangium of as if.

Quasiactinosynnema

L. nan conjunction *quasi*, as if; L. neut. n. *Actinosynnema*, An existing genus; *Quasiactinosynnema*: A genus related to but distinct from the existing genus Actinosynnema of as if.

Quasiactinotalea

L. nan conjunction *quasi*, as if; L. fem. n. *Actinotalea*, An existing genus; *Quasiactinotalea*: A genus related to but distinct from the existing genus Actinotalea of as if.

Quasiactinotignum

L. nan conjunction *quasi*, as if; L. neut. n. *Actinotignum*, An existing genus; *Quasiactinotignum*: A genus related to but distinct from the existing genus Actinotignum of as if.

Quasiacutalibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Acutalibacter*, An existing genus; *Quasiacutalibacter*: A genus related to but distinct from the existing genus Acutalibacter of as if.

Quasiacuticoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Acuticoccus*, An existing genus; *Quasiacuticoccus*: A genus related to but distinct from the existing genus Acuticoccus of as if.

Quasiadhaeribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Adhaeribacter*, An existing genus; *Quasiadhaeribacter*: A genus related to but distinct from the existing genus Adhaeribacter of as if.

Quasiadlercreutzia

L. nan conjunction *quasi*, as if; L. fem. n. *Adlercreutzia*, An existing genus; *Quasiadlercreutzia*: A genus related to but distinct from the existing genus Adlercreutzia of as if.

Quasiadvenella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Advenella*, An existing genus; *Quasiadvenella*: A genus related to but distinct from the existing genus Advenella of as if.

Quasiaegyptianella

L. nan conjunction *quasi*, as if; L. fem. n. *Aegyptianella*, An existing genus; *Quasiaegyptianella*: A genus related to but distinct from the existing genus Aegyptianella of as if.

Quasiaequoribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Aequoribacter*, An existing genus; *Quasiaequoribacter*: A genus related to but distinct from the existing genus Aequoribacter of as if.

Quasiaequorivita

L. nan conjunction *quasi*, as if; L. fem. n. *Aequorivita*, An existing genus; *Quasiaequorivita*: A genus related to but distinct from the existing genus Aequorivita of as if.

Quasiaeribacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Aeribacillus*, An existing genus; *Quasiaeribacillus*: A genus related to but distinct from the existing genus Aeribacillus of as if.

Quasiaeriscardovia

L. nan conjunction *quasi*, as if; L. fem. n. *Aeriscardovia*, An existing genus; *Quasiaeriscardovia*: A genus related to but distinct from the existing genus Aeriscardovia of as if.

Quasiaerococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Aerococcus*, An existing genus; *Quasiaerococcus*: A genus related to but distinct from the existing genus Aerococcus of as if.

Quasiaeromicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Aeromicrobium*, An existing genus; *Quasiaeromicrobium*: A genus related to but distinct from the existing genus Aeromicrobium of as if.

Quasiaeropyrum

L. nan conjunction *quasi*, as if; L. neut. n. *Aeropyrum*, An existing genus; *Quasiaeropyrum*: A genus related to but distinct from the existing genus Aeropyrum of as if.

Quasiaerosakkonema

L. nan conjunction *quasi*, as if; L. neut. n. *Aerosakkonema*, An existing genus; *Quasiaerosakkonema*: A genus related to but distinct from the existing genus Aerosakkonema of as if.

Quasiaestuariibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Aestuariibacter*, An existing genus; *Quasiaestuariibacter*: A genus related to but distinct from the existing genus Aestuariibacter of as if.

Quasiaestuariibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Aestuariibaculum*, An existing genus; *Quasiaestuariibaculum*: A genus related to but distinct from the existing genus Aestuariibaculum of as if.

Quasiaestuariibius

L. nan conjunction *quasi*, as if; L. masc. n. *Aestuariibius*, An existing genus; *Quasiaestuariibius*: A genus related to but distinct from the existing genus Aestuariibius of as if.

Quasiaestuariicella

L. nan conjunction *quasi*, as if; L. fem. n. *Aestuariicella*, An existing genus; *Quasiaestuariicella*: A genus related to but distinct from the existing genus Aestuariicella of as if.

Quasiaestuariicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Aestuariicoccus*, An existing genus; *Quasiaestuariicoccus*: A genus related to but distinct from the existing genus Aestuariicoccus of as if.

Quasiaestuariicola

L. nan conjunction *quasi*, as if; L. masc. n. *Aestuariicola*, An existing genus; *Quasiaestuariicola*: A genus related to but distinct from the existing genus Aestuariicola of as if.

Quasiaestuariihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Aestuariihabitans*, An existing genus; *Quasiaestuariihabitans*: A genus related to but distinct from the existing genus Aestuariihabitans of as if.

Quasiaestuariimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Aestuariimicrobium*, An existing genus; *Quasiaestuariimicrobium*: A genus related to but distinct from the existing genus Aestuariimicrobium of as if.

Quasiaestuariirhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Aestuariirhabdus*, An existing genus; *Quasiaestuariirhabdus*: A genus related to but distinct from the existing genus Aestuariirhabdus of as if.

Quasiaestuariisphingobium

L. nan conjunction *quasi*, as if; L. neut. n. *Aestuariisphingobium*, An existing genus; *Quasiaestuariisphingobium*: A genus related to but distinct from the existing genus Aestuariisphingobium of as if.

Quasiaestuariivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Aestuariivirga*, An existing genus; *Quasiaestuariivirga*: A genus related to but distinct from the existing genus Aestuariivirga of as if.

Quasiaestuariivita

L. nan conjunction *quasi*, as if; L. fem. n. *Aestuariivita*, An existing genus; *Quasiaestuariivita*: A genus related to but distinct from the existing genus Aestuariivita of as if.

Quasiaestuarium

L. nan conjunction *quasi*, as if; L. neut. n. *Aestuarium*, An existing genus; *Quasiaestuarium*: A genus related to but distinct from the existing genus Aestuarium of as if.

Quasiaetherobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Aetherobacter*, An existing genus; *Quasiaetherobacter*: A genus related to but distinct from the existing genus Aetherobacter of as if.

Quasiafifella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Afifella*, An existing genus; *Quasiafifella*: A genus related to but distinct from the existing genus Afifella of as if.

Quasiafipia

L. nan conjunction *quasi*, as if; L. fem. n. *Afipia*, An existing genus; *Quasiafipia*: A genus related to but distinct from the existing genus Afipia of as if.

Quasiagaribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Agaribacter*, An existing genus; *Quasiagaribacter*: A genus related to but distinct from the existing genus Agaribacter of as if.

Quasiagaribacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Agaribacterium*, An existing genus; *Quasiagaribacterium*: A genus related to but distinct from the existing genus Agaribacterium of as if.

Quasiagaricicola

L. nan conjunction *quasi*, as if; L. masc. n. *Agaricicola*, An existing genus; *Quasiagaricicola*: A genus related to but distinct from the existing genus Agaricicola of as if.

Quasiagarilytica

L. nan conjunction *quasi*, as if; L. fem. n. *Agarilytica*, An existing genus; *Quasiagarilytica*: A genus related to but distinct from the existing genus Agarilytica of as if.

Quasiagarivorans

L. nan conjunction *quasi*, as if; L. masc. n. *Agarivorans*, An existing genus; *Quasiagarivorans*: A genus related to but distinct from the existing genus Agarivorans of as if.

Quasiagathobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Agathobacter*, An existing genus; *Quasiagathobacter*: A genus related to but distinct from the existing genus Agathobacter of as if.

Quasiagathobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Agathobaculum*, An existing genus; *Quasiagathobaculum*: A genus related to but distinct from the existing genus Agathobaculum of as if.

Quasiaggregatibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Aggregatibacter*, An existing genus; *Quasiaggregatibacter*: A genus related to but distinct from the existing genus Aggregatibacter of as if.

Quasiaggregatilinea

L. nan conjunction *quasi*, as if; L. fem. n. *Aggregatilinea*, An existing genus; *Quasiaggregatilinea*: A genus related to but distinct from the existing genus Aggregatilinea of as if.

Quasiaggregicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Aggregicoccus*, An existing genus; *Quasiaggregicoccus*: A genus related to but distinct from the existing genus Aggregicoccus of as if.

Quasiagitococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Agitococcus*, An existing genus; *Quasiagitococcus*: A genus related to but distinct from the existing genus Agitococcus of as if.

Quasiagreia

L. nan conjunction *quasi*, as if; L. fem. n. *Agreia*, An existing genus; *Quasiagreia*: A genus related to but distinct from the existing genus Agreia of as if.

Quasiagrilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Agrilactobacillus*, An existing genus; *Quasiagrilactobacillus*: A genus related to but distinct from the existing genus Agrilactobacillus of as if.

Quasiagrobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Agrobacterium*, An existing genus; *Quasiagrobacterium*: A genus related to but distinct from the existing genus Agrobacterium of as if.

Quasiagrococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Agrococcus*, An existing genus; *Quasiagrococcus*: A genus related to but distinct from the existing genus Agrococcus of as if.

Quasiagromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Agromonas*, An existing genus; *Quasiagromonas*: A genus related to but distinct from the existing genus Agromonas of as if.

Quasiagromyces

L. nan conjunction *quasi*, as if; L. masc. n. *Agromyces*, An existing genus; *Quasiagromyces*: A genus related to but distinct from the existing genus Agromyces of as if.

Quasiahniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Ahniella*, An existing genus; *Quasiahniella*: A genus related to but distinct from the existing genus Ahniella of as if.

Quasiahrensia

L. nan conjunction *quasi*, as if; L. fem. n. *Ahrensia*, An existing genus; *Quasiahrensia*: A genus related to but distinct from the existing genus Ahrensia of as if.

Quasiaidingibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Aidingibacillus*, An existing genus; *Quasiaidingibacillus*: A genus related to but distinct from the existing genus Aidingibacillus of as if.

Quasiaidingimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Aidingimonas*, An existing genus; *Quasiaidingimonas*: A genus related to but distinct from the existing genus Aidingimonas of as if.

Quasiakkermansia

L. nan conjunction *quasi*, as if; L. fem. n. *Akkermansia*, An existing genus; *Quasiakkermansia*: A genus related to but distinct from the existing genus Akkermansia of as if.

Quasialbertania

L. nan conjunction *quasi*, as if; L. fem. n. *Albertania*, An existing genus; *Quasialbertania*: A genus related to but distinct from the existing genus Albertania of as if.

Quasialbibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Albibacter*, An existing genus; *Quasialbibacter*: A genus related to but distinct from the existing genus Albibacter of as if.

Quasialbibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Albibacterium*, An existing genus; *Quasialbibacterium*: A genus related to but distinct from the existing genus Albibacterium of as if.

Quasialbidiferax

L. nan conjunction *quasi*, as if; L. masc. n. *Albidiferax*, An existing genus; *Quasialbidiferax*: A genus related to but distinct from the existing genus Albidiferax of as if.

Quasialbidovulum

L. nan conjunction *quasi*, as if; L. neut. n. *Albidovulum*, An existing genus; *Quasialbidovulum*: A genus related to but distinct from the existing genus Albidovulum of as if.

Quasialbimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Albimonas*, An existing genus; *Quasialbimonas*: A genus related to but distinct from the existing genus Albimonas of as if.

Quasialbirhodobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Albirhodobacter*, An existing genus; *Quasialbirhodobacter*: A genus related to but distinct from the existing genus Albirhodobacter of as if.

Quasialbrightia

L. nan conjunction *quasi*, as if; L. fem. n. *Albrightia*, An existing genus; *Quasialbrightia*: A genus related to but distinct from the existing genus Albrightia of as if.

Quasialcaligenes

L. nan conjunction *quasi*, as if; L. masc. n. *Alcaligenes*, An existing genus; *Quasialcaligenes*: A genus related to but distinct from the existing genus Alcaligenes of as if.

Quasialcanivorax

L. nan conjunction *quasi*, as if; L. masc. n. *Alcanivorax*, An existing genus; *Quasialcanivorax*: A genus related to but distinct from the existing genus Alcanivorax of as if.

Quasialdersonia

L. nan conjunction *quasi*, as if; L. fem. n. *Aldersonia*, An existing genus; *Quasialdersonia*: A genus related to but distinct from the existing genus Aldersonia of as if.

Quasialgibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Algibacter*, An existing genus; *Quasialgibacter*: A genus related to but distinct from the existing genus Algibacter of as if.

Quasialgicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Algicoccus*, An existing genus; *Quasialgicoccus*: A genus related to but distinct from the existing genus Algicoccus of as if.

Quasialgicola

L. nan conjunction *quasi*, as if; L. fem. n. *Algicola*, An existing genus; *Quasialgicola*: A genus related to but distinct from the existing genus Algicola of as if.

Quasialgihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Algihabitans*, An existing genus; *Quasialgihabitans*: A genus related to but distinct from the existing genus Algihabitans of as if.

Quasialgimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Algimonas*, An existing genus; *Quasialgimonas*: A genus related to but distinct from the existing genus Algimonas of as if.

Quasialginatibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Alginatibacterium*, An existing genus; *Quasialginatibacterium*: A genus related to but distinct from the existing genus Alginatibacterium of as if.

Quasialgiphilus

L. nan conjunction *quasi*, as if; L. masc. n. *Algiphilus*, An existing genus; *Quasialgiphilus*: A genus related to but distinct from the existing genus Algiphilus of as if.

Quasialgisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Algisphaera*, An existing genus; *Quasialgisphaera*: A genus related to but distinct from the existing genus Algisphaera of as if.

Quasialgitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Algitalea*, An existing genus; *Quasialgitalea*: A genus related to but distinct from the existing genus Algitalea of as if.

Quasialgivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Algivirga*, An existing genus; *Quasialgivirga*: A genus related to but distinct from the existing genus Algivirga of as if.

Quasialgoriella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Algoriella*, An existing genus; *Quasialgoriella*: A genus related to but distinct from the existing genus Algoriella of as if.

Quasialgorimarina

L. nan conjunction *quasi*, as if; L. fem. n. *Algorimarina*, An existing genus; *Quasialgorimarina*: A genus related to but distinct from the existing genus Algorimarina of as if.

Quasialgoriphagus

L. nan conjunction *quasi*, as if; L. masc. n. *Algoriphagus*, An existing genus; *Quasialgoriphagus*: A genus related to but distinct from the existing genus Algoriphagus of as if.

Quasialiagarivorans

L. nan conjunction *quasi*, as if; L. masc. n. *Aliagarivorans*, An existing genus; *Quasialiagarivorans*: A genus related to but distinct from the existing genus Aliagarivorans of as if.

Quasialiarcobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Aliarcobacter*, An existing genus; *Quasialiarcobacter*: A genus related to but distinct from the existing genus Aliarcobacter of as if.

Quasialicycliphilus

L. nan conjunction *quasi*, as if; L. masc. n. *Alicycliphilus*, An existing genus; *Quasialicycliphilus*: A genus related to but distinct from the existing genus Alicycliphilus of as if.

Quasialicyclobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Alicyclobacillus*, An existing genus; *Quasialicyclobacillus*: A genus related to but distinct from the existing genus Alicyclobacillus of as if.

Quasialienimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Alienimonas*, An existing genus; *Quasialienimonas*: A genus related to but distinct from the existing genus Alienimonas of as if.

Quasialiibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Aliibacillus*, An existing genus; *Quasialiibacillus*: A genus related to but distinct from the existing genus Aliibacillus of as if.

Quasialiicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Aliicoccus*, An existing genus; *Quasialiicoccus*: A genus related to but distinct from the existing genus Aliicoccus of as if.

Quasialiidiomarina

L. nan conjunction *quasi*, as if; L. fem. n. *Aliidiomarina*, An existing genus; *Quasialiidiomarina*: A genus related to but distinct from the existing genus Aliidiomarina of as if.

Quasialiidongia

L. nan conjunction *quasi*, as if; L. fem. n. *Aliidongia*, An existing genus; *Quasialiidongia*: A genus related to but distinct from the existing genus Aliidongia of as if.

Quasialiifodinibius

L. nan conjunction *quasi*, as if; L. masc. n. *Aliifodinibius*, An existing genus; *Quasialiifodinibius*: A genus related to but distinct from the existing genus Aliifodinibius of as if.

Quasialiiglaciecola

L. nan conjunction *quasi*, as if; L. fem. n. *Aliiglaciecola*, An existing genus; *Quasialiiglaciecola*: A genus related to but distinct from the existing genus Aliiglaciecola of as if.

Quasialiihoeflea

L. nan conjunction *quasi*, as if; L. fem. n. *Aliihoeflea*, An existing genus; *Quasialiihoeflea*: A genus related to but distinct from the existing genus Aliihoeflea of as if.

Quasialiikangiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Aliikangiella*, An existing genus; *Quasialiikangiella*: A genus related to but distinct from the existing genus Aliikangiella of as if.

Quasialiinostoc

L. nan conjunction *quasi*, as if; L. neut. n. *Aliinostoc*, An existing genus; *Quasialiinostoc*: A genus related to but distinct from the existing genus Aliinostoc of as if.

Quasialiiroseovarius

L. nan conjunction *quasi*, as if; L. masc. n. *Aliiroseovarius*, An existing genus; *Quasialiiroseovarius*: A genus related to but distinct from the existing genus Aliiroseovarius of as if.

Quasialiisedimentitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Aliisedimentitalea*, An existing genus; *Quasialiisedimentitalea*: A genus related to but distinct from the existing genus Aliisedimentitalea of as if.

Quasialiishimia

L. nan conjunction *quasi*, as if; L. fem. n. *Aliishimia*, An existing genus; *Quasialiishimia*: A genus related to but distinct from the existing genus Aliishimia of as if.

Quasialiivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Aliivibrio*, An existing genus; *Quasialiivibrio*: A genus related to but distinct from the existing genus Aliivibrio of as if.

Quasialishewanella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Alishewanella*, An existing genus; *Quasialishewanella*: A genus related to but distinct from the existing genus Alishewanella of as if.

Quasialistipes

L. nan conjunction *quasi*, as if; L. masc. n. *Alistipes*, An existing genus; *Quasialistipes*: A genus related to but distinct from the existing genus Alistipes of as if.

Quasialiterella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Aliterella*, An existing genus; *Quasialiterella*: A genus related to but distinct from the existing genus Aliterella of as if.

Quasialkalibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Alkalibacillus*, An existing genus; *Quasialkalibacillus*: A genus related to but distinct from the existing genus Alkalibacillus of as if.

Quasialkalibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Alkalibacter*, An existing genus; *Quasialkalibacter*: A genus related to but distinct from the existing genus Alkalibacter of as if.

Quasialkalibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Alkalibacterium*, An existing genus; *Quasialkalibacterium*: A genus related to but distinct from the existing genus Alkalibacterium of as if.

Quasialkalibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Alkalibaculum*, An existing genus; *Quasialkalibaculum*: A genus related to but distinct from the existing genus Alkalibaculum of as if.

Quasialkalicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Alkalicoccus*, An existing genus; *Quasialkalicoccus*: A genus related to but distinct from the existing genus Alkalicoccus of as if.

Quasialkaliflexus

L. nan conjunction *quasi*, as if; L. masc. n. *Alkaliflexus*, An existing genus; *Quasialkaliflexus*: A genus related to but distinct from the existing genus Alkaliflexus of as if.

Quasialkalihalobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Alkalihalobacillus*, An existing genus; *Quasialkalihalobacillus*: A genus related to but distinct from the existing genus Alkalihalobacillus of as if.

Quasialkalilactibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Alkalilactibacillus*, An existing genus; *Quasialkalilactibacillus*: A genus related to but distinct from the existing genus Alkalilactibacillus of as if.

Quasialkalilacustris

L. nan conjunction *quasi*, as if; L. masc. n. *Alkalilacustris*, An existing genus; *Quasialkalilacustris*: A genus related to but distinct from the existing genus Alkalilacustris of as if.

Quasialkalimarinus

L. nan conjunction *quasi*, as if; L. masc. n. *Alkalimarinus*, An existing genus; *Quasialkalimarinus*: A genus related to but distinct from the existing genus Alkalimarinus of as if.

Quasialkalimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Alkalimicrobium*, An existing genus; *Quasialkalimicrobium*: A genus related to but distinct from the existing genus Alkalimicrobium of as if.

Quasialkalimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Alkalimonas*, An existing genus; *Quasialkalimonas*: A genus related to but distinct from the existing genus Alkalimonas of as if.

Quasialkalinema

L. nan conjunction *quasi*, as if; L. neut. n. *Alkalinema*, An existing genus; *Quasialkalinema*: A genus related to but distinct from the existing genus Alkalinema of as if.

Quasialkaliphilus

L. nan conjunction *quasi*, as if; L. masc. n. *Alkaliphilus*, An existing genus; *Quasialkaliphilus*: A genus related to but distinct from the existing genus Alkaliphilus of as if.

Quasialkalispirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Alkalispirillum*, An existing genus; *Quasialkalispirillum*: A genus related to but distinct from the existing genus Alkalispirillum of as if.

Quasialkalispirochaeta

L. nan conjunction *quasi*, as if; L. fem. n. *Alkalispirochaeta*, An existing genus; *Quasialkalispirochaeta*: A genus related to but distinct from the existing genus Alkalispirochaeta of as if.

Quasialkalitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Alkalitalea*, An existing genus; *Quasialkalitalea*: A genus related to but distinct from the existing genus Alkalitalea of as if.

Quasialkanibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Alkanibacter*, An existing genus; *Quasialkanibacter*: A genus related to but distinct from the existing genus Alkanibacter of as if.

Quasialkanindiges

L. nan conjunction *quasi*, as if; L. masc. n. *Alkanindiges*, An existing genus; *Quasialkanindiges*: A genus related to but distinct from the existing genus Alkanindiges of as if.

Quasiallisonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Allisonella*, An existing genus; *Quasiallisonella*: A genus related to but distinct from the existing genus Allisonella of as if.

Quasialloactinosynnema

L. nan conjunction *quasi*, as if; L. neut. n. *Alloactinosynnema*, An existing genus; *Quasialloactinosynnema*: A genus related to but distinct from the existing genus Alloactinosynnema of as if.

Quasiallobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Allobacillus*, An existing genus; *Quasiallobacillus*: A genus related to but distinct from the existing genus Allobacillus of as if.

Quasiallobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Allobaculum*, An existing genus; *Quasiallobaculum*: A genus related to but distinct from the existing genus Allobaculum of as if.

Quasiallobranchiibius

L. nan conjunction *quasi*, as if; L. masc. n. *Allobranchiibius*, An existing genus; *Quasiallobranchiibius*: A genus related to but distinct from the existing genus Allobranchiibius of as if.

Quasiallocatelliglobosispora

L. nan conjunction *quasi*, as if; L. fem. n. *Allocatelliglobosispora*, An existing genus; *Quasiallocatelliglobosispora*: A genus related to but distinct from the existing genus Allocatelliglobosispora of as if.

Quasiallochromatium

L. nan conjunction *quasi*, as if; L. neut. n. *Allochromatium*, An existing genus; *Quasiallochromatium*: A genus related to but distinct from the existing genus Allochromatium of as if.

Quasiallofrancisella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Allofrancisella*, An existing genus; *Quasiallofrancisella*: A genus related to but distinct from the existing genus Allofrancisella of as if.

Quasiallofustis

L. nan conjunction *quasi*, as if; L. masc. n. *Allofustis*, An existing genus; *Quasiallofustis*: A genus related to but distinct from the existing genus Allofustis of as if.

Quasiallohahella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Allohahella*, An existing genus; *Quasiallohahella*: A genus related to but distinct from the existing genus Allohahella of as if.

Quasiallohumibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Allohumibacter*, An existing genus; *Quasiallohumibacter*: A genus related to but distinct from the existing genus Allohumibacter of as if.

Quasialloiococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Alloiococcus*, An existing genus; *Quasialloiococcus*: A genus related to but distinct from the existing genus Alloiococcus of as if.

Quasiallokutzneria

L. nan conjunction *quasi*, as if; L. fem. n. *Allokutzneria*, An existing genus; *Quasiallokutzneria*: A genus related to but distinct from the existing genus Allokutzneria of as if.

Quasiallomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Allomonas*, An existing genus; *Quasiallomonas*: A genus related to but distinct from the existing genus Allomonas of as if.

Quasiallonocardiopsis

L. nan conjunction *quasi*, as if; L. fem. n. *Allonocardiopsis*, An existing genus; *Quasiallonocardiopsis*: A genus related to but distinct from the existing genus Allonocardiopsis of as if.

Quasialloprevotella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Alloprevotella*, An existing genus; *Quasialloprevotella*: A genus related to but distinct from the existing genus Alloprevotella of as if.

Quasiallopseudarcicella

L. nan conjunction *quasi*, as if; L. fem. n. *Allopseudarcicella*, An existing genus; *Quasiallopseudarcicella*: A genus related to but distinct from the existing genus Allopseudarcicella of as if.

Quasiallorhizobium

L. nan conjunction *quasi*, as if; L. neut. n. *Allorhizobium*, An existing genus; *Quasiallorhizobium*: A genus related to but distinct from the existing genus Allorhizobium of as if.

Quasiallorhizocola

L. nan conjunction *quasi*, as if; L. masc. n. *Allorhizocola*, An existing genus; *Quasiallorhizocola*: A genus related to but distinct from the existing genus Allorhizocola of as if.

Quasiallosalinactinospora

L. nan conjunction *quasi*, as if; L. fem. n. *Allosalinactinospora*, An existing genus; *Quasiallosalinactinospora*: A genus related to but distinct from the existing genus Allosalinactinospora of as if.

Quasialloscardovia

L. nan conjunction *quasi*, as if; L. fem. n. *Alloscardovia*, An existing genus; *Quasialloscardovia*: A genus related to but distinct from the existing genus Alloscardovia of as if.

Quasiallostreptomyces

L. nan conjunction *quasi*, as if; L. masc. n. *Allostreptomyces*, An existing genus; *Quasiallostreptomyces*: A genus related to but distinct from the existing genus Allostreptomyces of as if.

Quasialpinimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Alpinimonas*, An existing genus; *Quasialpinimonas*: A genus related to but distinct from the existing genus Alpinimonas of as if.

Quasialsobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Alsobacter*, An existing genus; *Quasialsobacter*: A genus related to but distinct from the existing genus Alsobacter of as if.

Quasialtererythrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Altererythrobacter*, An existing genus; *Quasialtererythrobacter*: A genus related to but distinct from the existing genus Altererythrobacter of as if.

Quasialteribacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Alteribacillus*, An existing genus; *Quasialteribacillus*: A genus related to but distinct from the existing genus Alteribacillus of as if.

Quasialterileibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Alterileibacterium*, An existing genus; *Quasialterileibacterium*: A genus related to but distinct from the existing genus Alterileibacterium of as if.

Quasialterococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Alterococcus*, An existing genus; *Quasialterococcus*: A genus related to but distinct from the existing genus Alterococcus of as if.

Quasialteromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Alteromonas*, An existing genus; *Quasialteromonas*: A genus related to but distinct from the existing genus Alteromonas of as if.

Quasialtuibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Altuibacter*, An existing genus; *Quasialtuibacter*: A genus related to but distinct from the existing genus Altuibacter of as if.

Quasialysiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Alysiella*, An existing genus; *Quasialysiella*: A genus related to but distinct from the existing genus Alysiella of as if.

Quasiamantichitinum

L. nan conjunction *quasi*, as if; L. neut. n. *Amantichitinum*, An existing genus; *Quasiamantichitinum*: A genus related to but distinct from the existing genus Amantichitinum of as if.

Quasiamaricoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Amaricoccus*, An existing genus; *Quasiamaricoccus*: A genus related to but distinct from the existing genus Amaricoccus of as if.

Quasiamazoninema

L. nan conjunction *quasi*, as if; L. neut. n. *Amazoninema*, An existing genus; *Quasiamazoninema*: A genus related to but distinct from the existing genus Amazoninema of as if.

Quasiamedibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Amedibacillus*, An existing genus; *Quasiamedibacillus*: A genus related to but distinct from the existing genus Amedibacillus of as if.

Quasiamedibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Amedibacterium*, An existing genus; *Quasiamedibacterium*: A genus related to but distinct from the existing genus Amedibacterium of as if.

Quasiameyamaea

L. nan conjunction *quasi*, as if; L. fem. n. *Ameyamaea*, An existing genus; *Quasiameyamaea*: A genus related to but distinct from the existing genus Ameyamaea of as if.

Quasiaminiphilus

L. nan conjunction *quasi*, as if; L. masc. n. *Aminiphilus*, An existing genus; *Quasiaminiphilus*: A genus related to but distinct from the existing genus Aminiphilus of as if.

Quasiaminipila

L. nan conjunction *quasi*, as if; L. fem. n. *Aminipila*, An existing genus; *Quasiaminipila*: A genus related to but distinct from the existing genus Aminipila of as if.

Quasiaminivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Aminivibrio*, An existing genus; *Quasiaminivibrio*: A genus related to but distinct from the existing genus Aminivibrio of as if.

Quasiaminobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Aminobacter*, An existing genus; *Quasiaminobacter*: A genus related to but distinct from the existing genus Aminobacter of as if.

Quasiaminobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Aminobacterium*, An existing genus; *Quasiaminobacterium*: A genus related to but distinct from the existing genus Aminobacterium of as if.

Quasiaminomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Aminomonas*, An existing genus; *Quasiaminomonas*: A genus related to but distinct from the existing genus Aminomonas of as if.

Quasiammassolinea

L. nan conjunction *quasi*, as if; L. fem. n. *Ammassolinea*, An existing genus; *Quasiammassolinea*: A genus related to but distinct from the existing genus Ammassolinea of as if.

Quasiammonifex

L. nan conjunction *quasi*, as if; L. masc. n. *Ammonifex*, An existing genus; *Quasiammonifex*: A genus related to but distinct from the existing genus Ammonifex of as if.

Quasiammoniibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Ammoniibacillus*, An existing genus; *Quasiammoniibacillus*: A genus related to but distinct from the existing genus Ammoniibacillus of as if.

Quasiammoniphilus

L. nan conjunction *quasi*, as if; L. masc. n. *Ammoniphilus*, An existing genus; *Quasiammoniphilus*: A genus related to but distinct from the existing genus Ammoniphilus of as if.

Quasiamnibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Amnibacterium*, An existing genus; *Quasiamnibacterium*: A genus related to but distinct from the existing genus Amnibacterium of as if.

Quasiamniculibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Amniculibacterium*, An existing genus; *Quasiamniculibacterium*: A genus related to but distinct from the existing genus Amniculibacterium of as if.

Quasiamnimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Amnimonas*, An existing genus; *Quasiamnimonas*: A genus related to but distinct from the existing genus Amnimonas of as if.

Quasiamoebobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Amoebobacter*, An existing genus; *Quasiamoebobacter*: A genus related to but distinct from the existing genus Amoebobacter of as if.

Quasiamorphosporangium

L. nan conjunction *quasi*, as if; L. neut. n. *Amorphosporangium*, An existing genus; *Quasiamorphosporangium*: A genus related to but distinct from the existing genus Amorphosporangium of as if.

Quasiamorphus

L. nan conjunction *quasi*, as if; L. masc. n. *Amorphus*, An existing genus; *Quasiamorphus*: A genus related to but distinct from the existing genus Amorphus of as if.

Quasiamphibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Amphibacillus*, An existing genus; *Quasiamphibacillus*: A genus related to but distinct from the existing genus Amphibacillus of as if.

Quasiamphiheterocytum

L. nan conjunction *quasi*, as if; L. neut. n. *Amphiheterocytum*, An existing genus; *Quasiamphiheterocytum*: A genus related to but distinct from the existing genus Amphiheterocytum of as if.

Quasiamphiplicatus

L. nan conjunction *quasi*, as if; L. masc. n. *Amphiplicatus*, An existing genus; *Quasiamphiplicatus*: A genus related to but distinct from the existing genus Amphiplicatus of as if.

Quasiampullariella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Ampullariella*, An existing genus; *Quasiampullariella*: A genus related to but distinct from the existing genus Ampullariella of as if.

Quasiampullimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Ampullimonas*, An existing genus; *Quasiampullimonas*: A genus related to but distinct from the existing genus Ampullimonas of as if.

Quasiamycolata

L. nan conjunction *quasi*, as if; L. fem. n. *Amycolata*, An existing genus; *Quasiamycolata*: A genus related to but distinct from the existing genus Amycolata of as if.

Quasiamycolatopsis

L. nan conjunction *quasi*, as if; L. fem. n. *Amycolatopsis*, An existing genus; *Quasiamycolatopsis*: A genus related to but distinct from the existing genus Amycolatopsis of as if.

Quasiamycolicicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Amycolicicoccus*, An existing genus; *Quasiamycolicicoccus*: A genus related to but distinct from the existing genus Amycolicicoccus of as if.

Quasiamylibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Amylibacter*, An existing genus; *Quasiamylibacter*: A genus related to but distinct from the existing genus Amylibacter of as if.

Quasiamylolactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Amylolactobacillus*, An existing genus; *Quasiamylolactobacillus*: A genus related to but distinct from the existing genus Amylolactobacillus of as if.

Quasianaerobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Anaerobacillus*, An existing genus; *Quasianaerobacillus*: A genus related to but distinct from the existing genus Anaerobacillus of as if.

Quasianaerobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Anaerobacterium*, An existing genus; *Quasianaerobacterium*: A genus related to but distinct from the existing genus Anaerobacterium of as if.

Quasianaerobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Anaerobaculum*, An existing genus; *Quasianaerobaculum*: A genus related to but distinct from the existing genus Anaerobaculum of as if.

Quasianaerobiospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Anaerobiospirillum*, An existing genus; *Quasianaerobiospirillum*: A genus related to but distinct from the existing genus Anaerobiospirillum of as if.

Quasianaerobium

L. nan conjunction *quasi*, as if; L. neut. n. *Anaerobium*, An existing genus; *Quasianaerobium*: A genus related to but distinct from the existing genus Anaerobium of as if.

Quasianaerobranca

L. nan conjunction *quasi*, as if; L. fem. n. *Anaerobranca*, An existing genus; *Quasianaerobranca*: A genus related to but distinct from the existing genus Anaerobranca of as if.

Quasianaerobutyricum

L. nan conjunction *quasi*, as if; L. neut. n. *Anaerobutyricum*, An existing genus; *Quasianaerobutyricum*: A genus related to but distinct from the existing genus Anaerobutyricum of as if.

Quasianaerocella

L. nan conjunction *quasi*, as if; L. fem. n. *Anaerocella*, An existing genus; *Quasianaerocella*: A genus related to but distinct from the existing genus Anaerocella of as if.

Quasianaerococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Anaerococcus*, An existing genus; *Quasianaerococcus*: A genus related to but distinct from the existing genus Anaerococcus of as if.

Quasianaerofilum

L. nan conjunction *quasi*, as if; L. neut. n. *Anaerofilum*, An existing genus; *Quasianaerofilum*: A genus related to but distinct from the existing genus Anaerofilum of as if.

Quasianaeroglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Anaeroglobus*, An existing genus; *Quasianaeroglobus*: A genus related to but distinct from the existing genus Anaeroglobus of as if.

Quasianaerohalosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Anaerohalosphaera*, An existing genus; *Quasianaerohalosphaera*: A genus related to but distinct from the existing genus Anaerohalosphaera of as if.

Quasianaerolactibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Anaerolactibacter*, An existing genus; *Quasianaerolactibacter*: A genus related to but distinct from the existing genus Anaerolactibacter of as if.

Quasianaerolinea

L. nan conjunction *quasi*, as if; L. fem. n. *Anaerolinea*, An existing genus; *Quasianaerolinea*: A genus related to but distinct from the existing genus Anaerolinea of as if.

Quasianaeromicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Anaeromicrobium*, An existing genus; *Quasianaeromicrobium*: A genus related to but distinct from the existing genus Anaeromicrobium of as if.

Quasianaeromusa

L. nan conjunction *quasi*, as if; L. fem. n. *Anaeromusa*, An existing genus; *Quasianaeromusa*: A genus related to but distinct from the existing genus Anaeromusa of as if.

Quasianaeromyxobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Anaeromyxobacter*, An existing genus; *Quasianaeromyxobacter*: A genus related to but distinct from the existing genus Anaeromyxobacter of as if.

Quasianaerophaga

L. nan conjunction *quasi*, as if; L. fem. n. *Anaerophaga*, An existing genus; *Quasianaerophaga*: A genus related to but distinct from the existing genus Anaerophaga of as if.

Quasianaerophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Anaerophilus*, An existing genus; *Quasianaerophilus*: A genus related to but distinct from the existing genus Anaerophilus of as if.

Quasianaeroplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Anaeroplasma*, An existing genus; *Quasianaeroplasma*: A genus related to but distinct from the existing genus Anaeroplasma of as if.

Quasianaerorhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Anaerorhabdus*, An existing genus; *Quasianaerorhabdus*: A genus related to but distinct from the existing genus Anaerorhabdus of as if.

Quasianaerosalibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Anaerosalibacter*, An existing genus; *Quasianaerosalibacter*: A genus related to but distinct from the existing genus Anaerosalibacter of as if.

Quasianaerosolibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Anaerosolibacter*, An existing genus; *Quasianaerosolibacter*: A genus related to but distinct from the existing genus Anaerosolibacter of as if.

Quasianaerosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Anaerosphaera*, An existing genus; *Quasianaerosphaera*: A genus related to but distinct from the existing genus Anaerosphaera of as if.

Quasianaerospora

L. nan conjunction *quasi*, as if; L. fem. n. *Anaerospora*, An existing genus; *Quasianaerospora*: A genus related to but distinct from the existing genus Anaerospora of as if.

Quasianaerosporobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Anaerosporobacter*, An existing genus; *Quasianaerosporobacter*: A genus related to but distinct from the existing genus Anaerosporobacter of as if.

Quasianaerosporomusa

L. nan conjunction *quasi*, as if; L. fem. n. *Anaerosporomusa*, An existing genus; *Quasianaerosporomusa*: A genus related to but distinct from the existing genus Anaerosporomusa of as if.

Quasianaerotignum

L. nan conjunction *quasi*, as if; L. neut. n. *Anaerotignum*, An existing genus; *Quasianaerotignum*: A genus related to but distinct from the existing genus Anaerotignum of as if.

Quasianaerotruncus

L. nan conjunction *quasi*, as if; L. masc. n. *Anaerotruncus*, An existing genus; *Quasianaerotruncus*: A genus related to but distinct from the existing genus Anaerotruncus of as if.

Quasianaerovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Anaerovibrio*, An existing genus; *Quasianaerovibrio*: A genus related to but distinct from the existing genus Anaerovibrio of as if.

Quasianaerovirgula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Anaerovirgula*, An existing genus; *Quasianaerovirgula*: A genus related to but distinct from the existing genus Anaerovirgula of as if.

Quasianaerovorax

L. nan conjunction *quasi*, as if; L. masc. n. *Anaerovorax*, An existing genus; *Quasianaerovorax*: A genus related to but distinct from the existing genus Anaerovorax of as if.

Quasianaplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Anaplasma*, An existing genus; *Quasianaplasma*: A genus related to but distinct from the existing genus Anaplasma of as if.

Quasiancalochloris

L. nan conjunction *quasi*, as if; L. fem. n. *Ancalochloris*, An existing genus; *Quasiancalochloris*: A genus related to but distinct from the existing genus Ancalochloris of as if.

Quasiancalomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Ancalomicrobium*, An existing genus; *Quasiancalomicrobium*: A genus related to but distinct from the existing genus Ancalomicrobium of as if.

Quasiancylobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Ancylobacter*, An existing genus; *Quasiancylobacter*: A genus related to but distinct from the existing genus Ancylobacter of as if.

Quasiancylomarina

L. nan conjunction *quasi*, as if; L. fem. n. *Ancylomarina*, An existing genus; *Quasiancylomarina*: A genus related to but distinct from the existing genus Ancylomarina of as if.

Quasiancylothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Ancylothrix*, An existing genus; *Quasiancylothrix*: A genus related to but distinct from the existing genus Ancylothrix of as if.

Quasianderseniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Anderseniella*, An existing genus; *Quasianderseniella*: A genus related to but distinct from the existing genus Anderseniella of as if.

Quasiandreesenia

L. nan conjunction *quasi*, as if; L. fem. n. *Andreesenia*, An existing genus; *Quasiandreesenia*: A genus related to but distinct from the existing genus Andreesenia of as if.

Quasiandreprevotia

L. nan conjunction *quasi*, as if; L. fem. n. *Andreprevotia*, An existing genus; *Quasiandreprevotia*: A genus related to but distinct from the existing genus Andreprevotia of as if.

Quasianeurinibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Aneurinibacillus*, An existing genus; *Quasianeurinibacillus*: A genus related to but distinct from the existing genus Aneurinibacillus of as if.

Quasiangelakisella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Angelakisella*, An existing genus; *Quasiangelakisella*: A genus related to but distinct from the existing genus Angelakisella of as if.

Quasiangiococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Angiococcus*, An existing genus; *Quasiangiococcus*: A genus related to but distinct from the existing genus Angiococcus of as if.

Quasiangulomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Angulomicrobium*, An existing genus; *Quasiangulomicrobium*: A genus related to but distinct from the existing genus Angulomicrobium of as if.

Quasiangustibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Angustibacter*, An existing genus; *Quasiangustibacter*: A genus related to but distinct from the existing genus Angustibacter of as if.

Quasiannwoodia

L. nan conjunction *quasi*, as if; L. fem. n. *Annwoodia*, An existing genus; *Quasiannwoodia*: A genus related to but distinct from the existing genus Annwoodia of as if.

Quasianoxybacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Anoxybacillus*, An existing genus; *Quasianoxybacillus*: A genus related to but distinct from the existing genus Anoxybacillus of as if.

Quasianoxybacter

L. nan conjunction *quasi*, as if; L. masc. n. *Anoxybacter*, An existing genus; *Quasianoxybacter*: A genus related to but distinct from the existing genus Anoxybacter of as if.

Quasianoxynatronum

L. nan conjunction *quasi*, as if; L. neut. n. *Anoxynatronum*, An existing genus; *Quasianoxynatronum*: A genus related to but distinct from the existing genus Anoxynatronum of as if.

Quasianseongella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Anseongella*, An existing genus; *Quasianseongella*: A genus related to but distinct from the existing genus Anseongella of as if.

Quasiantarcticibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Antarcticibacterium*, An existing genus; *Quasiantarcticibacterium*: A genus related to but distinct from the existing genus Antarcticibacterium of as if.

Quasiantarcticimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Antarcticimicrobium*, An existing genus; *Quasiantarcticimicrobium*: A genus related to but distinct from the existing genus Antarcticimicrobium of as if.

Quasiantarcticimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Antarcticimonas*, An existing genus; *Quasiantarcticimonas*: A genus related to but distinct from the existing genus Antarcticimonas of as if.

Quasiantarctobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Antarctobacter*, An existing genus; *Quasiantarctobacter*: A genus related to but distinct from the existing genus Antarctobacter of as if.

Quasiantribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Antribacter*, An existing genus; *Quasiantribacter*: A genus related to but distinct from the existing genus Antribacter of as if.

Quasiantricoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Antricoccus*, An existing genus; *Quasiantricoccus*: A genus related to but distinct from the existing genus Antricoccus of as if.

Quasiaphanizomenon

L. nan conjunction *quasi*, as if; L. neut. n. *Aphanizomenon*, An existing genus; *Quasiaphanizomenon*: A genus related to but distinct from the existing genus Aphanizomenon of as if.

Quasiapibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Apibacter*, An existing genus; *Quasiapibacter*: A genus related to but distinct from the existing genus Apibacter of as if.

Quasiapilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Apilactobacillus*, An existing genus; *Quasiapilactobacillus*: A genus related to but distinct from the existing genus Apilactobacillus of as if.

Quasiaplanobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Aplanobacter*, An existing genus; *Quasiaplanobacter*: A genus related to but distinct from the existing genus Aplanobacter of as if.

Quasiaquabacter

L. nan conjunction *quasi*, as if; L. masc. n. *Aquabacter*, An existing genus; *Quasiaquabacter*: A genus related to but distinct from the existing genus Aquabacter of as if.

Quasiaquabacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Aquabacterium*, An existing genus; *Quasiaquabacterium*: A genus related to but distinct from the existing genus Aquabacterium of as if.

Quasiaquamicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Aquamicrobium*, An existing genus; *Quasiaquamicrobium*: A genus related to but distinct from the existing genus Aquamicrobium of as if.

Quasiaquaspirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Aquaspirillum*, An existing genus; *Quasiaquaspirillum*: A genus related to but distinct from the existing genus Aquaspirillum of as if.

Quasiaquaticitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Aquaticitalea*, An existing genus; *Quasiaquaticitalea*: A genus related to but distinct from the existing genus Aquaticitalea of as if.

Quasiaquella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Aquella*, An existing genus; *Quasiaquella*: A genus related to but distinct from the existing genus Aquella of as if.

Quasiaquibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Aquibacillus*, An existing genus; *Quasiaquibacillus*: A genus related to but distinct from the existing genus Aquibacillus of as if.

Quasiaquibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Aquibacter*, An existing genus; *Quasiaquibacter*: A genus related to but distinct from the existing genus Aquibacter of as if.

Quasiaquicella

L. nan conjunction *quasi*, as if; L. fem. n. *Aquicella*, An existing genus; *Quasiaquicella*: A genus related to but distinct from the existing genus Aquicella of as if.

Quasiaquichromatium

L. nan conjunction *quasi*, as if; L. neut. n. *Aquichromatium*, An existing genus; *Quasiaquichromatium*: A genus related to but distinct from the existing genus Aquichromatium of as if.

Quasiaquicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Aquicoccus*, An existing genus; *Quasiaquicoccus*: A genus related to but distinct from the existing genus Aquicoccus of as if.

Quasiaquidulcibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Aquidulcibacter*, An existing genus; *Quasiaquidulcibacter*: A genus related to but distinct from the existing genus Aquidulcibacter of as if.

Quasiaquifex

L. nan conjunction *quasi*, as if; L. masc. n. *Aquifex*, An existing genus; *Quasiaquifex*: A genus related to but distinct from the existing genus Aquifex of as if.

Quasiaquiflexum

L. nan conjunction *quasi*, as if; L. neut. n. *Aquiflexum*, An existing genus; *Quasiaquiflexum*: A genus related to but distinct from the existing genus Aquiflexum of as if.

Quasiaquihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Aquihabitans*, An existing genus; *Quasiaquihabitans*: A genus related to but distinct from the existing genus Aquihabitans of as if.

Quasiaquimarina

L. nan conjunction *quasi*, as if; L. fem. n. *Aquimarina*, An existing genus; *Quasiaquimarina*: A genus related to but distinct from the existing genus Aquimarina of as if.

Quasiaquimixticola

L. nan conjunction *quasi*, as if; L. masc. n. *Aquimixticola*, An existing genus; *Quasiaquimixticola*: A genus related to but distinct from the existing genus Aquimixticola of as if.

Quasiaquimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Aquimonas*, An existing genus; *Quasiaquimonas*: A genus related to but distinct from the existing genus Aquimonas of as if.

Quasiaquincola

L. nan conjunction *quasi*, as if; L. masc. n. *Aquincola*, An existing genus; *Quasiaquincola*: A genus related to but distinct from the existing genus Aquincola of as if.

Quasiaquipuribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Aquipuribacter*, An existing genus; *Quasiaquipuribacter*: A genus related to but distinct from the existing genus Aquipuribacter of as if.

Quasiaquirufa

L. nan conjunction *quasi*, as if; L. fem. n. *Aquirufa*, An existing genus; *Quasiaquirufa*: A genus related to but distinct from the existing genus Aquirufa of as if.

Quasiaquisalibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Aquisalibacillus*, An existing genus; *Quasiaquisalibacillus*: A genus related to but distinct from the existing genus Aquisalibacillus of as if.

Quasiaquisalimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Aquisalimonas*, An existing genus; *Quasiaquisalimonas*: A genus related to but distinct from the existing genus Aquisalimonas of as if.

Quasiaquisalinus

L. nan conjunction *quasi*, as if; L. masc. n. *Aquisalinus*, An existing genus; *Quasiaquisalinus*: A genus related to but distinct from the existing genus Aquisalinus of as if.

Quasiaquisediminimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Aquisediminimonas*, An existing genus; *Quasiaquisediminimonas*: A genus related to but distinct from the existing genus Aquisediminimonas of as if.

Quasiaquisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Aquisphaera*, An existing genus; *Quasiaquisphaera*: A genus related to but distinct from the existing genus Aquisphaera of as if.

Quasiaquitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Aquitalea*, An existing genus; *Quasiaquitalea*: A genus related to but distinct from the existing genus Aquitalea of as if.

Quasiarachidicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Arachidicoccus*, An existing genus; *Quasiarachidicoccus*: A genus related to but distinct from the existing genus Arachidicoccus of as if.

Quasiarachnia

L. nan conjunction *quasi*, as if; L. fem. n. *Arachnia*, An existing genus; *Quasiarachnia*: A genus related to but distinct from the existing genus Arachnia of as if.

Quasiarcanobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Arcanobacterium*, An existing genus; *Quasiarcanobacterium*: A genus related to but distinct from the existing genus Arcanobacterium of as if.

Quasiarchaeoglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Archaeoglobus*, An existing genus; *Quasiarchaeoglobus*: A genus related to but distinct from the existing genus Archaeoglobus of as if.

Quasiarchangium

L. nan conjunction *quasi*, as if; L. neut. n. *Archangium*, An existing genus; *Quasiarchangium*: A genus related to but distinct from the existing genus Archangium of as if.

Quasiarcicella

L. nan conjunction *quasi*, as if; L. fem. n. *Arcicella*, An existing genus; *Quasiarcicella*: A genus related to but distinct from the existing genus Arcicella of as if.

Quasiarcobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Arcobacter*, An existing genus; *Quasiarcobacter*: A genus related to but distinct from the existing genus Arcobacter of as if.

Quasiarcticibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Arcticibacter*, An existing genus; *Quasiarcticibacter*: A genus related to but distinct from the existing genus Arcticibacter of as if.

Quasiarcticibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Arcticibacterium*, An existing genus; *Quasiarcticibacterium*: A genus related to but distinct from the existing genus Arcticibacterium of as if.

Quasiarcticiflavibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Arcticiflavibacter*, An existing genus; *Quasiarcticiflavibacter*: A genus related to but distinct from the existing genus Arcticiflavibacter of as if.

Quasiardenticatena

L. nan conjunction *quasi*, as if; L. fem. n. *Ardenticatena*, An existing genus; *Quasiardenticatena*: A genus related to but distinct from the existing genus Ardenticatena of as if.

Quasiarenibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Arenibacillus*, An existing genus; *Quasiarenibacillus*: A genus related to but distinct from the existing genus Arenibacillus of as if.

Quasiarenibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Arenibacter*, An existing genus; *Quasiarenibacter*: A genus related to but distinct from the existing genus Arenibacter of as if.

Quasiarenicella

L. nan conjunction *quasi*, as if; L. fem. n. *Arenicella*, An existing genus; *Quasiarenicella*: A genus related to but distinct from the existing genus Arenicella of as if.

Quasiarenimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Arenimicrobium*, An existing genus; *Quasiarenimicrobium*: A genus related to but distinct from the existing genus Arenimicrobium of as if.

Quasiarenimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Arenimonas*, An existing genus; *Quasiarenimonas*: A genus related to but distinct from the existing genus Arenimonas of as if.

Quasiarenitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Arenitalea*, An existing genus; *Quasiarenitalea*: A genus related to but distinct from the existing genus Arenitalea of as if.

Quasiarhodomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Arhodomonas*, An existing genus; *Quasiarhodomonas*: A genus related to but distinct from the existing genus Arhodomonas of as if.

Quasiaridibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Aridibacter*, An existing genus; *Quasiaridibacter*: A genus related to but distinct from the existing genus Aridibacter of as if.

Quasiarmatimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Armatimonas*, An existing genus; *Quasiarmatimonas*: A genus related to but distinct from the existing genus Armatimonas of as if.

Quasiarsenicibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Arsenicibacter*, An existing genus; *Quasiarsenicibacter*: A genus related to but distinct from the existing genus Arsenicibacter of as if.

Quasiarsenicicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Arsenicicoccus*, An existing genus; *Quasiarsenicicoccus*: A genus related to but distinct from the existing genus Arsenicicoccus of as if.

Quasiarsenicitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Arsenicitalea*, An existing genus; *Quasiarsenicitalea*: A genus related to but distinct from the existing genus Arsenicitalea of as if.

Quasiarsenophonus

L. nan conjunction *quasi*, as if; L. masc. n. *Arsenophonus*, An existing genus; *Quasiarsenophonus*: A genus related to but distinct from the existing genus Arsenophonus of as if.

Quasiarsukibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Arsukibacterium*, An existing genus; *Quasiarsukibacterium*: A genus related to but distinct from the existing genus Arsukibacterium of as if.

Quasiarthrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Arthrobacter*, An existing genus; *Quasiarthrobacter*: A genus related to but distinct from the existing genus Arthrobacter of as if.

Quasiarthrospira

L. nan conjunction *quasi*, as if; L. fem. n. *Arthrospira*, An existing genus; *Quasiarthrospira*: A genus related to but distinct from the existing genus Arthrospira of as if.

Quasiarthrospiribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Arthrospiribacter*, An existing genus; *Quasiarthrospiribacter*: A genus related to but distinct from the existing genus Arthrospiribacter of as if.

Quasiarundinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Arundinibacter*, An existing genus; *Quasiarundinibacter*: A genus related to but distinct from the existing genus Arundinibacter of as if.

Quasiarvibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Arvibacter*, An existing genus; *Quasiarvibacter*: A genus related to but distinct from the existing genus Arvibacter of as if.

Quasiasaccharobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Asaccharobacter*, An existing genus; *Quasiasaccharobacter*: A genus related to but distinct from the existing genus Asaccharobacter of as if.

Quasiasaccharospora

L. nan conjunction *quasi*, as if; L. fem. n. *Asaccharospora*, An existing genus; *Quasiasaccharospora*: A genus related to but distinct from the existing genus Asaccharospora of as if.

Quasiasaia

L. nan conjunction *quasi*, as if; L. fem. n. *Asaia*, An existing genus; *Quasiasaia*: A genus related to but distinct from the existing genus Asaia of as if.

Quasiasanoa

L. nan conjunction *quasi*, as if; L. fem. n. *Asanoa*, An existing genus; *Quasiasanoa*: A genus related to but distinct from the existing genus Asanoa of as if.

Quasiascidiaceibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Ascidiaceibacter*, An existing genus; *Quasiascidiaceibacter*: A genus related to but distinct from the existing genus Ascidiaceibacter of as if.

Quasiascidiaceihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Ascidiaceihabitans*, An existing genus; *Quasiascidiaceihabitans*: A genus related to but distinct from the existing genus Ascidiaceihabitans of as if.

Quasiascidiimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Ascidiimonas*, An existing genus; *Quasiascidiimonas*: A genus related to but distinct from the existing genus Ascidiimonas of as if.

Quasiasinibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Asinibacterium*, An existing genus; *Quasiasinibacterium*: A genus related to but distinct from the existing genus Asinibacterium of as if.

Quasiasprobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Asprobacter*, An existing genus; *Quasiasprobacter*: A genus related to but distinct from the existing genus Asprobacter of as if.

Quasiaspromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Aspromonas*, An existing genus; *Quasiaspromonas*: A genus related to but distinct from the existing genus Aspromonas of as if.

Quasiasteroleplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Asteroleplasma*, An existing genus; *Quasiasteroleplasma*: A genus related to but distinct from the existing genus Asteroleplasma of as if.

Quasiasticcacaulis

L. nan conjunction *quasi*, as if; L. masc. n. *Asticcacaulis*, An existing genus; *Quasiasticcacaulis*: A genus related to but distinct from the existing genus Asticcacaulis of as if.

Quasiathalassotoga

L. nan conjunction *quasi*, as if; L. fem. n. *Athalassotoga*, An existing genus; *Quasiathalassotoga*: A genus related to but distinct from the existing genus Athalassotoga of as if.

Quasiatlantibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Atlantibacter*, An existing genus; *Quasiatlantibacter*: A genus related to but distinct from the existing genus Atlantibacter of as if.

Quasiatopobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Atopobacter*, An existing genus; *Quasiatopobacter*: A genus related to but distinct from the existing genus Atopobacter of as if.

Quasiatopobium

L. nan conjunction *quasi*, as if; L. neut. n. *Atopobium*, An existing genus; *Quasiatopobium*: A genus related to but distinct from the existing genus Atopobium of as if.

Quasiatopococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Atopococcus*, An existing genus; *Quasiatopococcus*: A genus related to but distinct from the existing genus Atopococcus of as if.

Quasiatopostipes

L. nan conjunction *quasi*, as if; L. masc. n. *Atopostipes*, An existing genus; *Quasiatopostipes*: A genus related to but distinct from the existing genus Atopostipes of as if.

Quasiaurantiacicella

L. nan conjunction *quasi*, as if; L. fem. n. *Aurantiacicella*, An existing genus; *Quasiaurantiacicella*: A genus related to but distinct from the existing genus Aurantiacicella of as if.

Quasiaurantibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Aurantibacter*, An existing genus; *Quasiaurantibacter*: A genus related to but distinct from the existing genus Aurantibacter of as if.

Quasiaurantimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Aurantimicrobium*, An existing genus; *Quasiaurantimicrobium*: A genus related to but distinct from the existing genus Aurantimicrobium of as if.

Quasiaurantimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Aurantimonas*, An existing genus; *Quasiaurantimonas*: A genus related to but distinct from the existing genus Aurantimonas of as if.

Quasiaurantisolimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Aurantisolimonas*, An existing genus; *Quasiaurantisolimonas*: A genus related to but distinct from the existing genus Aurantisolimonas of as if.

Quasiaurantivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Aurantivirga*, An existing genus; *Quasiaurantivirga*: A genus related to but distinct from the existing genus Aurantivirga of as if.

Quasiauraticoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Auraticoccus*, An existing genus; *Quasiauraticoccus*: A genus related to but distinct from the existing genus Auraticoccus of as if.

Quasiaureibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Aureibacillus*, An existing genus; *Quasiaureibacillus*: A genus related to but distinct from the existing genus Aureibacillus of as if.

Quasiaureibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Aureibacter*, An existing genus; *Quasiaureibacter*: A genus related to but distinct from the existing genus Aureibacter of as if.

Quasiaureibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Aureibaculum*, An existing genus; *Quasiaureibaculum*: A genus related to but distinct from the existing genus Aureibaculum of as if.

Quasiaureicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Aureicoccus*, An existing genus; *Quasiaureicoccus*: A genus related to but distinct from the existing genus Aureicoccus of as if.

Quasiaureimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Aureimonas*, An existing genus; *Quasiaureimonas*: A genus related to but distinct from the existing genus Aureimonas of as if.

Quasiaureisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Aureisphaera*, An existing genus; *Quasiaureisphaera*: A genus related to but distinct from the existing genus Aureisphaera of as if.

Quasiaureispira

L. nan conjunction *quasi*, as if; L. fem. n. *Aureispira*, An existing genus; *Quasiaureispira*: A genus related to but distinct from the existing genus Aureispira of as if.

Quasiaureitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Aureitalea*, An existing genus; *Quasiaureitalea*: A genus related to but distinct from the existing genus Aureitalea of as if.

Quasiaureivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Aureivirga*, An existing genus; *Quasiaureivirga*: A genus related to but distinct from the existing genus Aureivirga of as if.

Quasiaureliella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Aureliella*, An existing genus; *Quasiaureliella*: A genus related to but distinct from the existing genus Aureliella of as if.

Quasiaureobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Aureobacterium*, An existing genus; *Quasiaureobacterium*: A genus related to but distinct from the existing genus Aureobacterium of as if.

Quasiauricoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Auricoccus*, An existing genus; *Quasiauricoccus*: A genus related to but distinct from the existing genus Auricoccus of as if.

Quasiauritidibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Auritidibacter*, An existing genus; *Quasiauritidibacter*: A genus related to but distinct from the existing genus Auritidibacter of as if.

Quasiaustwickia

L. nan conjunction *quasi*, as if; L. fem. n. *Austwickia*, An existing genus; *Quasiaustwickia*: A genus related to but distinct from the existing genus Austwickia of as if.

Quasiavibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Avibacterium*, An existing genus; *Quasiavibacterium*: A genus related to but distinct from the existing genus Avibacterium of as if.

Quasiazoarcus

L. nan conjunction *quasi*, as if; L. masc. n. *Azoarcus*, An existing genus; *Quasiazoarcus*: A genus related to but distinct from the existing genus Azoarcus of as if.

Quasiazohydromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Azohydromonas*, An existing genus; *Quasiazohydromonas*: A genus related to but distinct from the existing genus Azohydromonas of as if.

Quasiazomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Azomonas*, An existing genus; *Quasiazomonas*: A genus related to but distinct from the existing genus Azomonas of as if.

Quasiazonexus

L. nan conjunction *quasi*, as if; L. masc. n. *Azonexus*, An existing genus; *Quasiazonexus*: A genus related to but distinct from the existing genus Azonexus of as if.

Quasiazorhizobium

L. nan conjunction *quasi*, as if; L. neut. n. *Azorhizobium*, An existing genus; *Quasiazorhizobium*: A genus related to but distinct from the existing genus Azorhizobium of as if.

Quasiazospira

L. nan conjunction *quasi*, as if; L. fem. n. *Azospira*, An existing genus; *Quasiazospira*: A genus related to but distinct from the existing genus Azospira of as if.

Quasiazospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Azospirillum*, An existing genus; *Quasiazospirillum*: A genus related to but distinct from the existing genus Azospirillum of as if.

Quasiazotobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Azotobacter*, An existing genus; *Quasiazotobacter*: A genus related to but distinct from the existing genus Azotobacter of as if.

Quasiazovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Azovibrio*, An existing genus; *Quasiazovibrio*: A genus related to but distinct from the existing genus Azovibrio of as if.

Quasibacilliculturomica

L. nan conjunction *quasi*, as if; L. fem. n. *Bacilliculturomica*, An existing genus; *Quasibacilliculturomica*: A genus related to but distinct from the existing genus Bacilliculturomica of as if.

Quasibacteriolyticum

L. nan conjunction *quasi*, as if; L. neut. n. *Bacteriolyticum*, An existing genus; *Quasibacteriolyticum*: A genus related to but distinct from the existing genus Bacteriolyticum of as if.

Quasibacterionema

L. nan conjunction *quasi*, as if; L. neut. n. *Bacterionema*, An existing genus; *Quasibacterionema*: A genus related to but distinct from the existing genus Bacterionema of as if.

Quasibacterioplanes

L. nan conjunction *quasi*, as if; L. masc. n. *Bacterioplanes*, An existing genus; *Quasibacterioplanes*: A genus related to but distinct from the existing genus Bacterioplanes of as if.

Quasibacterioplanoides

L. nan conjunction *quasi*, as if; L. neut. n. *Bacterioplanoides*, An existing genus; *Quasibacterioplanoides*: A genus related to but distinct from the existing genus Bacterioplanoides of as if.

Quasibacteriovorax

L. nan conjunction *quasi*, as if; L. masc. n. *Bacteriovorax*, An existing genus; *Quasibacteriovorax*: A genus related to but distinct from the existing genus Bacteriovorax of as if.

Quasibacteroides

L. nan conjunction *quasi*, as if; L. masc. n. *Bacteroides*, An existing genus; *Quasibacteroides*: A genus related to but distinct from the existing genus Bacteroides of as if.

Quasibaekduia

L. nan conjunction *quasi*, as if; L. fem. n. *Baekduia*, An existing genus; *Quasibaekduia*: A genus related to but distinct from the existing genus Baekduia of as if.

Quasibaia

L. nan conjunction *quasi*, as if; L. fem. n. *Baia*, An existing genus; *Quasibaia*: A genus related to but distinct from the existing genus Baia of as if.

Quasibailinhaonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Bailinhaonella*, An existing genus; *Quasibailinhaonella*: A genus related to but distinct from the existing genus Bailinhaonella of as if.

Quasibalnearium

L. nan conjunction *quasi*, as if; L. neut. n. *Balnearium*, An existing genus; *Quasibalnearium*: A genus related to but distinct from the existing genus Balnearium of as if.

Quasibalneicella

L. nan conjunction *quasi*, as if; L. fem. n. *Balneicella*, An existing genus; *Quasibalneicella*: A genus related to but distinct from the existing genus Balneicella of as if.

Quasibalneimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Balneimonas*, An existing genus; *Quasibalneimonas*: A genus related to but distinct from the existing genus Balneimonas of as if.

Quasibarnesiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Barnesiella*, An existing genus; *Quasibarnesiella*: A genus related to but distinct from the existing genus Barnesiella of as if.

Quasibarrientosiimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Barrientosiimonas*, An existing genus; *Quasibarrientosiimonas*: A genus related to but distinct from the existing genus Barrientosiimonas of as if.

Quasibartonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Bartonella*, An existing genus; *Quasibartonella*: A genus related to but distinct from the existing genus Bartonella of as if.

Quasibasfia

L. nan conjunction *quasi*, as if; L. fem. n. *Basfia*, An existing genus; *Quasibasfia*: A genus related to but distinct from the existing genus Basfia of as if.

Quasibasilea

L. nan conjunction *quasi*, as if; L. fem. n. *Basilea*, An existing genus; *Quasibasilea*: A genus related to but distinct from the existing genus Basilea of as if.

Quasibauldia

L. nan conjunction *quasi*, as if; L. fem. n. *Bauldia*, An existing genus; *Quasibauldia*: A genus related to but distinct from the existing genus Bauldia of as if.

Quasibavariicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Bavariicoccus*, An existing genus; *Quasibavariicoccus*: A genus related to but distinct from the existing genus Bavariicoccus of as if.

Quasibdellovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Bdellovibrio*, An existing genus; *Quasibdellovibrio*: A genus related to but distinct from the existing genus Bdellovibrio of as if.

Quasibeduinibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Beduinibacterium*, An existing genus; *Quasibeduinibacterium*: A genus related to but distinct from the existing genus Beduinibacterium of as if.

Quasibeggiatoa

L. nan conjunction *quasi*, as if; L. fem. n. *Beggiatoa*, An existing genus; *Quasibeggiatoa*: A genus related to but distinct from the existing genus Beggiatoa of as if.

Quasibeijerinckia

L. nan conjunction *quasi*, as if; L. fem. n. *Beijerinckia*, An existing genus; *Quasibeijerinckia*: A genus related to but distinct from the existing genus Beijerinckia of as if.

Quasibelliella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Belliella*, An existing genus; *Quasibelliella*: A genus related to but distinct from the existing genus Belliella of as if.

Quasibellilinea

L. nan conjunction *quasi*, as if; L. fem. n. *Bellilinea*, An existing genus; *Quasibellilinea*: A genus related to but distinct from the existing genus Bellilinea of as if.

Quasibelnapia

L. nan conjunction *quasi*, as if; L. fem. n. *Belnapia*, An existing genus; *Quasibelnapia*: A genus related to but distinct from the existing genus Belnapia of as if.

Quasibeneckea

L. nan conjunction *quasi*, as if; L. fem. n. *Beneckea*, An existing genus; *Quasibeneckea*: A genus related to but distinct from the existing genus Beneckea of as if.

Quasibergeriella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Bergeriella*, An existing genus; *Quasibergeriella*: A genus related to but distinct from the existing genus Bergeriella of as if.

Quasibergeyella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Bergeyella*, An existing genus; *Quasibergeyella*: A genus related to but distinct from the existing genus Bergeyella of as if.

Quasibermanella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Bermanella*, An existing genus; *Quasibermanella*: A genus related to but distinct from the existing genus Bermanella of as if.

Quasibernardetia

L. nan conjunction *quasi*, as if; L. fem. n. *Bernardetia*, An existing genus; *Quasibernardetia*: A genus related to but distinct from the existing genus Bernardetia of as if.

Quasibeutenbergia

L. nan conjunction *quasi*, as if; L. fem. n. *Beutenbergia*, An existing genus; *Quasibeutenbergia*: A genus related to but distinct from the existing genus Beutenbergia of as if.

Quasibhargavaea

L. nan conjunction *quasi*, as if; L. fem. n. *Bhargavaea*, An existing genus; *Quasibhargavaea*: A genus related to but distinct from the existing genus Bhargavaea of as if.

Quasibibersteinia

L. nan conjunction *quasi*, as if; L. fem. n. *Bibersteinia*, An existing genus; *Quasibibersteinia*: A genus related to but distinct from the existing genus Bibersteinia of as if.

Quasibifidobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Bifidobacterium*, An existing genus; *Quasibifidobacterium*: A genus related to but distinct from the existing genus Bifidobacterium of as if.

Quasibilophila

L. nan conjunction *quasi*, as if; L. fem. n. *Bilophila*, An existing genus; *Quasibilophila*: A genus related to but distinct from the existing genus Bilophila of as if.

Quasibiomaibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Biomaibacter*, An existing genus; *Quasibiomaibacter*: A genus related to but distinct from the existing genus Biomaibacter of as if.

Quasibiostraticola

L. nan conjunction *quasi*, as if; L. masc. n. *Biostraticola*, An existing genus; *Quasibiostraticola*: A genus related to but distinct from the existing genus Biostraticola of as if.

Quasibisgaardia

L. nan conjunction *quasi*, as if; L. fem. n. *Bisgaardia*, An existing genus; *Quasibisgaardia*: A genus related to but distinct from the existing genus Bisgaardia of as if.

Quasibizionia

L. nan conjunction *quasi*, as if; L. fem. n. *Bizionia*, An existing genus; *Quasibizionia*: A genus related to but distinct from the existing genus Bizionia of as if.

Quasiblastochloris

L. nan conjunction *quasi*, as if; L. fem. n. *Blastochloris*, An existing genus; *Quasiblastochloris*: A genus related to but distinct from the existing genus Blastochloris of as if.

Quasiblastococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Blastococcus*, An existing genus; *Quasiblastococcus*: A genus related to but distinct from the existing genus Blastococcus of as if.

Quasiblastopirellula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Blastopirellula*, An existing genus; *Quasiblastopirellula*: A genus related to but distinct from the existing genus Blastopirellula of as if.

Quasiblattabacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Blattabacterium*, An existing genus; *Quasiblattabacterium*: A genus related to but distinct from the existing genus Blattabacterium of as if.

Quasiblautia

L. nan conjunction *quasi*, as if; L. fem. n. *Blautia*, An existing genus; *Quasiblautia*: A genus related to but distinct from the existing genus Blautia of as if.

Quasibogoriella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Bogoriella*, An existing genus; *Quasibogoriella*: A genus related to but distinct from the existing genus Bogoriella of as if.

Quasibombella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Bombella*, An existing genus; *Quasibombella*: A genus related to but distinct from the existing genus Bombella of as if.

Quasibombilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Bombilactobacillus*, An existing genus; *Quasibombilactobacillus*: A genus related to but distinct from the existing genus Bombilactobacillus of as if.

Quasibombiscardovia

L. nan conjunction *quasi*, as if; L. fem. n. *Bombiscardovia*, An existing genus; *Quasibombiscardovia*: A genus related to but distinct from the existing genus Bombiscardovia of as if.

Quasibordetella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Bordetella*, An existing genus; *Quasibordetella*: A genus related to but distinct from the existing genus Bordetella of as if.

Quasiborrelia

L. nan conjunction *quasi*, as if; L. fem. n. *Borrelia*, An existing genus; *Quasiborrelia*: A genus related to but distinct from the existing genus Borrelia of as if.

Quasiborreliella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Borreliella*, An existing genus; *Quasiborreliella*: A genus related to but distinct from the existing genus Borreliella of as if.

Quasibosea

L. nan conjunction *quasi*, as if; L. fem. n. *Bosea*, An existing genus; *Quasibosea*: A genus related to but distinct from the existing genus Bosea of as if.

Quasiboseongicola

L. nan conjunction *quasi*, as if; L. masc. n. *Boseongicola*, An existing genus; *Quasiboseongicola*: A genus related to but distinct from the existing genus Boseongicola of as if.

Quasibotryobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Botryobacter*, An existing genus; *Quasibotryobacter*: A genus related to but distinct from the existing genus Botryobacter of as if.

Quasiboudabousia

L. nan conjunction *quasi*, as if; L. fem. n. *Boudabousia*, An existing genus; *Quasiboudabousia*: A genus related to but distinct from the existing genus Boudabousia of as if.

Quasibounagaea

L. nan conjunction *quasi*, as if; L. fem. n. *Bounagaea*, An existing genus; *Quasibounagaea*: A genus related to but distinct from the existing genus Bounagaea of as if.

Quasibowmanella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Bowmanella*, An existing genus; *Quasibowmanella*: A genus related to but distinct from the existing genus Bowmanella of as if.

Quasibrachyspira

L. nan conjunction *quasi*, as if; L. fem. n. *Brachyspira*, An existing genus; *Quasibrachyspira*: A genus related to but distinct from the existing genus Brachyspira of as if.

Quasibradyrhizobium

L. nan conjunction *quasi*, as if; L. neut. n. *Bradyrhizobium*, An existing genus; *Quasibradyrhizobium*: A genus related to but distinct from the existing genus Bradyrhizobium of as if.

Quasibranchiibius

L. nan conjunction *quasi*, as if; L. masc. n. *Branchiibius*, An existing genus; *Quasibranchiibius*: A genus related to but distinct from the existing genus Branchiibius of as if.

Quasibranhamella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Branhamella*, An existing genus; *Quasibranhamella*: A genus related to but distinct from the existing genus Branhamella of as if.

Quasibrassicibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Brassicibacter*, An existing genus; *Quasibrassicibacter*: A genus related to but distinct from the existing genus Brassicibacter of as if.

Quasibremerella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Bremerella*, An existing genus; *Quasibremerella*: A genus related to but distinct from the existing genus Bremerella of as if.

Quasibrenneria

L. nan conjunction *quasi*, as if; L. fem. n. *Brenneria*, An existing genus; *Quasibrenneria*: A genus related to but distinct from the existing genus Brenneria of as if.

Quasibreoghania

L. nan conjunction *quasi*, as if; L. fem. n. *Breoghania*, An existing genus; *Quasibreoghania*: A genus related to but distinct from the existing genus Breoghania of as if.

Quasibrevifollis

L. nan conjunction *quasi*, as if; L. masc. n. *Brevifollis*, An existing genus; *Quasibrevifollis*: A genus related to but distinct from the existing genus Brevifollis of as if.

Quasibrevilactibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Brevilactibacter*, An existing genus; *Quasibrevilactibacter*: A genus related to but distinct from the existing genus Brevilactibacter of as if.

Quasibrevinema

L. nan conjunction *quasi*, as if; L. neut. n. *Brevinema*, An existing genus; *Quasibrevinema*: A genus related to but distinct from the existing genus Brevinema of as if.

Quasibrevirhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Brevirhabdus*, An existing genus; *Quasibrevirhabdus*: A genus related to but distinct from the existing genus Brevirhabdus of as if.

Quasibrevundimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Brevundimonas*, An existing genus; *Quasibrevundimonas*: A genus related to but distinct from the existing genus Brevundimonas of as if.

Quasibreznakia

L. nan conjunction *quasi*, as if; L. fem. n. *Breznakia*, An existing genus; *Quasibreznakia*: A genus related to but distinct from the existing genus Breznakia of as if.

Quasibreznakibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Breznakibacter*, An existing genus; *Quasibreznakibacter*: A genus related to but distinct from the existing genus Breznakibacter of as if.

Quasibrochothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Brochothrix*, An existing genus; *Quasibrochothrix*: A genus related to but distinct from the existing genus Brochothrix of as if.

Quasibrockia

L. nan conjunction *quasi*, as if; L. fem. n. *Brockia*, An existing genus; *Quasibrockia*: A genus related to but distinct from the existing genus Brockia of as if.

Quasibrooklawnia

L. nan conjunction *quasi*, as if; L. fem. n. *Brooklawnia*, An existing genus; *Quasibrooklawnia*: A genus related to but distinct from the existing genus Brooklawnia of as if.

Quasibrucella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Brucella*, An existing genus; *Quasibrucella*: A genus related to but distinct from the existing genus Brucella of as if.

Quasibrumimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Brumimicrobium*, An existing genus; *Quasibrumimicrobium*: A genus related to but distinct from the existing genus Brumimicrobium of as if.

Quasibryantella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Bryantella*, An existing genus; *Quasibryantella*: A genus related to but distinct from the existing genus Bryantella of as if.

Quasibryobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Bryobacter*, An existing genus; *Quasibryobacter*: A genus related to but distinct from the existing genus Bryobacter of as if.

Quasibryocella

L. nan conjunction *quasi*, as if; L. fem. n. *Bryocella*, An existing genus; *Quasibryocella*: A genus related to but distinct from the existing genus Bryocella of as if.

Quasibuchananella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Buchananella*, An existing genus; *Quasibuchananella*: A genus related to but distinct from the existing genus Buchananella of as if.

Quasibuchnera

L. nan conjunction *quasi*, as if; L. fem. n. *Buchnera*, An existing genus; *Quasibuchnera*: A genus related to but distinct from the existing genus Buchnera of as if.

Quasibudvicia

L. nan conjunction *quasi*, as if; L. fem. n. *Budvicia*, An existing genus; *Quasibudvicia*: A genus related to but distinct from the existing genus Budvicia of as if.

Quasibulleidia

L. nan conjunction *quasi*, as if; L. fem. n. *Bulleidia*, An existing genus; *Quasibulleidia*: A genus related to but distinct from the existing genus Bulleidia of as if.

Quasiburkholderia

L. nan conjunction *quasi*, as if; L. fem. n. *Burkholderia*, An existing genus; *Quasiburkholderia*: A genus related to but distinct from the existing genus Burkholderia of as if.

Quasibuttiauxella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Buttiauxella*, An existing genus; *Quasibuttiauxella*: A genus related to but distinct from the existing genus Buttiauxella of as if.

Quasibutyratibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Butyratibacter*, An existing genus; *Quasibutyratibacter*: A genus related to but distinct from the existing genus Butyratibacter of as if.

Quasibutyricicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Butyricicoccus*, An existing genus; *Quasibutyricicoccus*: A genus related to but distinct from the existing genus Butyricicoccus of as if.

Quasibutyrivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Butyrivibrio*, An existing genus; *Quasibutyrivibrio*: A genus related to but distinct from the existing genus Butyrivibrio of as if.

Quasibyssophaga

L. nan conjunction *quasi*, as if; L. fem. n. *Byssophaga*, An existing genus; *Quasibyssophaga*: A genus related to but distinct from the existing genus Byssophaga of as if.

Quasibyssovorax

L. nan conjunction *quasi*, as if; L. fem. n. *Byssovorax*, An existing genus; *Quasibyssovorax*: A genus related to but distinct from the existing genus Byssovorax of as if.

Quasibythopirellula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Bythopirellula*, An existing genus; *Quasibythopirellula*: A genus related to but distinct from the existing genus Bythopirellula of as if.

Quasicaballeronia

L. nan conjunction *quasi*, as if; L. fem. n. *Caballeronia*, An existing genus; *Quasicaballeronia*: A genus related to but distinct from the existing genus Caballeronia of as if.

Quasicaecibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Caecibacterium*, An existing genus; *Quasicaecibacterium*: A genus related to but distinct from the existing genus Caecibacterium of as if.

Quasicaedibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Caedibacter*, An existing genus; *Quasicaedibacter*: A genus related to but distinct from the existing genus Caedibacter of as if.

Quasicaedimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Caedimonas*, An existing genus; *Quasicaedimonas*: A genus related to but distinct from the existing genus Caedimonas of as if.

Quasicaenibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Caenibacillus*, An existing genus; *Quasicaenibacillus*: A genus related to but distinct from the existing genus Caenibacillus of as if.

Quasicaenibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Caenibacterium*, An existing genus; *Quasicaenibacterium*: A genus related to but distinct from the existing genus Caenibacterium of as if.

Quasicaenimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Caenimonas*, An existing genus; *Quasicaenimonas*: A genus related to but distinct from the existing genus Caenimonas of as if.

Quasicaenispirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Caenispirillum*, An existing genus; *Quasicaenispirillum*: A genus related to but distinct from the existing genus Caenispirillum of as if.

Quasicalculibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Calculibacillus*, An existing genus; *Quasicalculibacillus*: A genus related to but distinct from the existing genus Calculibacillus of as if.

Quasicaldalkalibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Caldalkalibacillus*, An existing genus; *Quasicaldalkalibacillus*: A genus related to but distinct from the existing genus Caldalkalibacillus of as if.

Quasicaldanaerobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Caldanaerobacter*, An existing genus; *Quasicaldanaerobacter*: A genus related to but distinct from the existing genus Caldanaerobacter of as if.

Quasicaldanaerobius

L. nan conjunction *quasi*, as if; L. masc. n. *Caldanaerobius*, An existing genus; *Quasicaldanaerobius*: A genus related to but distinct from the existing genus Caldanaerobius of as if.

Quasicaldanaerovirga

L. nan conjunction *quasi*, as if; L. fem. n. *Caldanaerovirga*, An existing genus; *Quasicaldanaerovirga*: A genus related to but distinct from the existing genus Caldanaerovirga of as if.

Quasicalderihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Calderihabitans*, An existing genus; *Quasicalderihabitans*: A genus related to but distinct from the existing genus Calderihabitans of as if.

Quasicalderobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Calderobacterium*, An existing genus; *Quasicalderobacterium*: A genus related to but distinct from the existing genus Calderobacterium of as if.

Quasicaldibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Caldibacillus*, An existing genus; *Quasicaldibacillus*: A genus related to but distinct from the existing genus Caldibacillus of as if.

Quasicaldicellulosiruptor

L. nan conjunction *quasi*, as if; L. masc. n. *Caldicellulosiruptor*, An existing genus; *Quasicaldicellulosiruptor*: A genus related to but distinct from the existing genus Caldicellulosiruptor of as if.

Quasicaldicoprobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Caldicoprobacter*, An existing genus; *Quasicaldicoprobacter*: A genus related to but distinct from the existing genus Caldicoprobacter of as if.

Quasicaldilinea

L. nan conjunction *quasi*, as if; L. fem. n. *Caldilinea*, An existing genus; *Quasicaldilinea*: A genus related to but distinct from the existing genus Caldilinea of as if.

Quasicaldimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Caldimicrobium*, An existing genus; *Quasicaldimicrobium*: A genus related to but distinct from the existing genus Caldimicrobium of as if.

Quasicaldimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Caldimonas*, An existing genus; *Quasicaldimonas*: A genus related to but distinct from the existing genus Caldimonas of as if.

Quasicaldinitratiruptor

L. nan conjunction *quasi*, as if; L. masc. n. *Caldinitratiruptor*, An existing genus; *Quasicaldinitratiruptor*: A genus related to but distinct from the existing genus Caldinitratiruptor of as if.

Quasicaldisalinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Caldisalinibacter*, An existing genus; *Quasicaldisalinibacter*: A genus related to but distinct from the existing genus Caldisalinibacter of as if.

Quasicaldisericum

L. nan conjunction *quasi*, as if; L. neut. n. *Caldisericum*, An existing genus; *Quasicaldisericum*: A genus related to but distinct from the existing genus Caldisericum of as if.

Quasicaldisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Caldisphaera*, An existing genus; *Quasicaldisphaera*: A genus related to but distinct from the existing genus Caldisphaera of as if.

Quasicalditerricola

L. nan conjunction *quasi*, as if; L. masc. n. *Calditerricola*, An existing genus; *Quasicalditerricola*: A genus related to but distinct from the existing genus Calditerricola of as if.

Quasicalditerrivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Calditerrivibrio*, An existing genus; *Quasicalditerrivibrio*: A genus related to but distinct from the existing genus Calditerrivibrio of as if.

Quasicaldithrix

L. nan conjunction *quasi*, as if; L. fem. n. *Caldithrix*, An existing genus; *Quasicaldithrix*: A genus related to but distinct from the existing genus Caldithrix of as if.

Quasicaldovatus

L. nan conjunction *quasi*, as if; L. masc. n. *Caldovatus*, An existing genus; *Quasicaldovatus*: A genus related to but distinct from the existing genus Caldovatus of as if.

Quasicalenema

L. nan conjunction *quasi*, as if; L. neut. n. *Calenema*, An existing genus; *Quasicalenema*: A genus related to but distinct from the existing genus Calenema of as if.

Quasicalidifontibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Calidifontibacter*, An existing genus; *Quasicalidifontibacter*: A genus related to but distinct from the existing genus Calidifontibacter of as if.

Quasicalidifontimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Calidifontimicrobium*, An existing genus; *Quasicalidifontimicrobium*: A genus related to but distinct from the existing genus Calidifontimicrobium of as if.

Quasicalidithermus

L. nan conjunction *quasi*, as if; L. masc. n. *Calidithermus*, An existing genus; *Quasicalidithermus*: A genus related to but distinct from the existing genus Calidithermus of as if.

Quasicalochaete

L. nan conjunction *quasi*, as if; L. fem. n. *Calochaete*, An existing genus; *Quasicalochaete*: A genus related to but distinct from the existing genus Calochaete of as if.

Quasicaloramator

L. nan conjunction *quasi*, as if; L. masc. n. *Caloramator*, An existing genus; *Quasicaloramator*: A genus related to but distinct from the existing genus Caloramator of as if.

Quasicaloranaerobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Caloranaerobacter*, An existing genus; *Quasicaloranaerobacter*: A genus related to but distinct from the existing genus Caloranaerobacter of as if.

Quasicaloribacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Caloribacterium*, An existing genus; *Quasicaloribacterium*: A genus related to but distinct from the existing genus Caloribacterium of as if.

Quasicalorimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Calorimonas*, An existing genus; *Quasicalorimonas*: A genus related to but distinct from the existing genus Calorimonas of as if.

Quasicalorithrix

L. nan conjunction *quasi*, as if; L. fem. n. *Calorithrix*, An existing genus; *Quasicalorithrix*: A genus related to but distinct from the existing genus Calorithrix of as if.

Quasicalothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Calothrix*, An existing genus; *Quasicalothrix*: A genus related to but distinct from the existing genus Calothrix of as if.

Quasicalymmatobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Calymmatobacterium*, An existing genus; *Quasicalymmatobacterium*: A genus related to but distinct from the existing genus Calymmatobacterium of as if.

Quasicamelimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Camelimonas*, An existing genus; *Quasicamelimonas*: A genus related to but distinct from the existing genus Camelimonas of as if.

Quasicamelliibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Camelliibacillus*, An existing genus; *Quasicamelliibacillus*: A genus related to but distinct from the existing genus Camelliibacillus of as if.

Quasicaminibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Caminibacter*, An existing genus; *Quasicaminibacter*: A genus related to but distinct from the existing genus Caminibacter of as if.

Quasicaminicella

L. nan conjunction *quasi*, as if; L. fem. n. *Caminicella*, An existing genus; *Quasicaminicella*: A genus related to but distinct from the existing genus Caminicella of as if.

Quasicampylobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Campylobacter*, An existing genus; *Quasicampylobacter*: A genus related to but distinct from the existing genus Campylobacter of as if.

Quasicanaleparolina

L. nan conjunction *quasi*, as if; L. fem. n. *Canaleparolina*, An existing genus; *Quasicanaleparolina*: A genus related to but distinct from the existing genus Canaleparolina of as if.

Quasicandidimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Candidimonas*, An existing genus; *Quasicandidimonas*: A genus related to but distinct from the existing genus Candidimonas of as if.

Quasicanibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Canibacter*, An existing genus; *Quasicanibacter*: A genus related to but distinct from the existing genus Canibacter of as if.

Quasicapillus

L. nan conjunction *quasi*, as if; L. masc. n. *Capillus*, An existing genus; *Quasicapillus*: A genus related to but distinct from the existing genus Capillus of as if.

Quasicapnocytophaga

L. nan conjunction *quasi*, as if; L. fem. n. *Capnocytophaga*, An existing genus; *Quasicapnocytophaga*: A genus related to but distinct from the existing genus Capnocytophaga of as if.

Quasicaproicibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Caproicibacter*, An existing genus; *Quasicaproicibacter*: A genus related to but distinct from the existing genus Caproicibacter of as if.

Quasicaproiciproducens

L. nan conjunction *quasi*, as if; L. masc. n. *Caproiciproducens*, An existing genus; *Quasicaproiciproducens*: A genus related to but distinct from the existing genus Caproiciproducens of as if.

Quasicapsularis

L. nan conjunction *quasi*, as if; L. masc. n. *Capsularis*, An existing genus; *Quasicapsularis*: A genus related to but distinct from the existing genus Capsularis of as if.

Quasicapsulimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Capsulimonas*, An existing genus; *Quasicapsulimonas*: A genus related to but distinct from the existing genus Capsulimonas of as if.

Quasicarbophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Carbophilus*, An existing genus; *Quasicarbophilus*: A genus related to but distinct from the existing genus Carbophilus of as if.

Quasicarboxydocella

L. nan conjunction *quasi*, as if; L. fem. n. *Carboxydocella*, An existing genus; *Quasicarboxydocella*: A genus related to but distinct from the existing genus Carboxydocella of as if.

Quasicarboxydothermus

L. nan conjunction *quasi*, as if; L. masc. n. *Carboxydothermus*, An existing genus; *Quasicarboxydothermus*: A genus related to but distinct from the existing genus Carboxydothermus of as if.

Quasicardiobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Cardiobacterium*, An existing genus; *Quasicardiobacterium*: A genus related to but distinct from the existing genus Cardiobacterium of as if.

Quasicarideicomes

L. nan conjunction *quasi*, as if; L. masc. n. *Carideicomes*, An existing genus; *Quasicarideicomes*: A genus related to but distinct from the existing genus Carideicomes of as if.

Quasicarnimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Carnimonas*, An existing genus; *Quasicarnimonas*: A genus related to but distinct from the existing genus Carnimonas of as if.

Quasicarnobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Carnobacterium*, An existing genus; *Quasicarnobacterium*: A genus related to but distinct from the existing genus Carnobacterium of as if.

Quasicartusia

L. nan conjunction *quasi*, as if; L. fem. n. *Cartusia*, An existing genus; *Quasicartusia*: A genus related to but distinct from the existing genus Cartusia of as if.

Quasicaryophanon

L. nan conjunction *quasi*, as if; L. neut. n. *Caryophanon*, An existing genus; *Quasicaryophanon*: A genus related to but distinct from the existing genus Caryophanon of as if.

Quasicaseobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Caseobacter*, An existing genus; *Quasicaseobacter*: A genus related to but distinct from the existing genus Caseobacter of as if.

Quasicasimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Casimicrobium*, An existing genus; *Quasicasimicrobium*: A genus related to but distinct from the existing genus Casimicrobium of as if.

Quasicastellaniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Castellaniella*, An existing genus; *Quasicastellaniella*: A genus related to but distinct from the existing genus Castellaniella of as if.

Quasicatabacter

L. nan conjunction *quasi*, as if; L. masc. n. *Catabacter*, An existing genus; *Quasicatabacter*: A genus related to but distinct from the existing genus Catabacter of as if.

Quasicatalinimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Catalinimonas*, An existing genus; *Quasicatalinimonas*: A genus related to but distinct from the existing genus Catalinimonas of as if.

Quasicatellatospora

L. nan conjunction *quasi*, as if; L. fem. n. *Catellatospora*, An existing genus; *Quasicatellatospora*: A genus related to but distinct from the existing genus Catellatospora of as if.

Quasicatellibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Catellibacterium*, An existing genus; *Quasicatellibacterium*: A genus related to but distinct from the existing genus Catellibacterium of as if.

Quasicatellicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Catellicoccus*, An existing genus; *Quasicatellicoccus*: A genus related to but distinct from the existing genus Catellicoccus of as if.

Quasicatelliglobosispora

L. nan conjunction *quasi*, as if; L. fem. n. *Catelliglobosispora*, An existing genus; *Quasicatelliglobosispora*: A genus related to but distinct from the existing genus Catelliglobosispora of as if.

Quasicatenibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Catenibacillus*, An existing genus; *Quasicatenibacillus*: A genus related to but distinct from the existing genus Catenibacillus of as if.

Quasicatenibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Catenibacterium*, An existing genus; *Quasicatenibacterium*: A genus related to but distinct from the existing genus Catenibacterium of as if.

Quasicatenisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Catenisphaera*, An existing genus; *Quasicatenisphaera*: A genus related to but distinct from the existing genus Catenisphaera of as if.

Quasicatenococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Catenococcus*, An existing genus; *Quasicatenococcus*: A genus related to but distinct from the existing genus Catenococcus of as if.

Quasicatenovulum

L. nan conjunction *quasi*, as if; L. neut. n. *Catenovulum*, An existing genus; *Quasicatenovulum*: A genus related to but distinct from the existing genus Catenovulum of as if.

Quasicatenulispora

L. nan conjunction *quasi*, as if; L. fem. n. *Catenulispora*, An existing genus; *Quasicatenulispora*: A genus related to but distinct from the existing genus Catenulispora of as if.

Quasicatenuloplanes

L. nan conjunction *quasi*, as if; L. masc. n. *Catenuloplanes*, An existing genus; *Quasicatenuloplanes*: A genus related to but distinct from the existing genus Catenuloplanes of as if.

Quasicatonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Catonella*, An existing genus; *Quasicatonella*: A genus related to but distinct from the existing genus Catonella of as if.

Quasicaulifigura

L. nan conjunction *quasi*, as if; L. fem. n. *Caulifigura*, An existing genus; *Quasicaulifigura*: A genus related to but distinct from the existing genus Caulifigura of as if.

Quasicaulobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Caulobacter*, An existing genus; *Quasicaulobacter*: A genus related to but distinct from the existing genus Caulobacter of as if.

Quasicavicella

L. nan conjunction *quasi*, as if; L. fem. n. *Cavicella*, An existing genus; *Quasicavicella*: A genus related to but distinct from the existing genus Cavicella of as if.

Quasicaviibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Caviibacter*, An existing genus; *Quasicaviibacter*: A genus related to but distinct from the existing genus Caviibacter of as if.

Quasicaviibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Caviibacterium*, An existing genus; *Quasicaviibacterium*: A genus related to but distinct from the existing genus Caviibacterium of as if.

Quasicecembia

L. nan conjunction *quasi*, as if; L. fem. n. *Cecembia*, An existing genus; *Quasicecembia*: A genus related to but distinct from the existing genus Cecembia of as if.

Quasicedecea

L. nan conjunction *quasi*, as if; L. fem. n. *Cedecea*, An existing genus; *Quasicedecea*: A genus related to but distinct from the existing genus Cedecea of as if.

Quasicelerinatantimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Celerinatantimonas*, An existing genus; *Quasicelerinatantimonas*: A genus related to but distinct from the existing genus Celerinatantimonas of as if.

Quasicellulomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Cellulomonas*, An existing genus; *Quasicellulomonas*: A genus related to but distinct from the existing genus Cellulomonas of as if.

Quasicellulophaga

L. nan conjunction *quasi*, as if; L. fem. n. *Cellulophaga*, An existing genus; *Quasicellulophaga*: A genus related to but distinct from the existing genus Cellulophaga of as if.

Quasicellulosibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Cellulosibacter*, An existing genus; *Quasicellulosibacter*: A genus related to but distinct from the existing genus Cellulosibacter of as if.

Quasicellulosilyticum

L. nan conjunction *quasi*, as if; L. neut. n. *Cellulosilyticum*, An existing genus; *Quasicellulosilyticum*: A genus related to but distinct from the existing genus Cellulosilyticum of as if.

Quasicellulosimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Cellulosimicrobium*, An existing genus; *Quasicellulosimicrobium*: A genus related to but distinct from the existing genus Cellulosimicrobium of as if.

Quasicellvibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Cellvibrio*, An existing genus; *Quasicellvibrio*: A genus related to but distinct from the existing genus Cellvibrio of as if.

Quasicenarchaeum

L. nan conjunction *quasi*, as if; L. neut. n. *Cenarchaeum*, An existing genus; *Quasicenarchaeum*: A genus related to but distinct from the existing genus Cenarchaeum of as if.

Quasicephalothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Cephalothrix*, An existing genus; *Quasicephalothrix*: A genus related to but distinct from the existing genus Cephalothrix of as if.

Quasicephaloticoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Cephaloticoccus*, An existing genus; *Quasicephaloticoccus*: A genus related to but distinct from the existing genus Cephaloticoccus of as if.

Quasicerasibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Cerasibacillus*, An existing genus; *Quasicerasibacillus*: A genus related to but distinct from the existing genus Cerasibacillus of as if.

Quasicerasicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Cerasicoccus*, An existing genus; *Quasicerasicoccus*: A genus related to but distinct from the existing genus Cerasicoccus of as if.

Quasicereibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Cereibacter*, An existing genus; *Quasicereibacter*: A genus related to but distinct from the existing genus Cereibacter of as if.

Quasicesiribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Cesiribacter*, An existing genus; *Quasicesiribacter*: A genus related to but distinct from the existing genus Cesiribacter of as if.

Quasicetobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Cetobacterium*, An existing genus; *Quasicetobacterium*: A genus related to but distinct from the existing genus Cetobacterium of as if.

Quasichachezhania

L. nan conjunction *quasi*, as if; L. fem. n. *Chachezhania*, An existing genus; *Quasichachezhania*: A genus related to but distinct from the existing genus Chachezhania of as if.

Quasichainia

L. nan conjunction *quasi*, as if; L. fem. n. *Chainia*, An existing genus; *Quasichainia*: A genus related to but distinct from the existing genus Chainia of as if.

Quasichakia

L. nan conjunction *quasi*, as if; L. fem. n. *Chakia*, An existing genus; *Quasichakia*: A genus related to but distinct from the existing genus Chakia of as if.

Quasichakrabartia

L. nan conjunction *quasi*, as if; L. fem. n. *Chakrabartia*, An existing genus; *Quasichakrabartia*: A genus related to but distinct from the existing genus Chakrabartia of as if.

Quasichalicogloea

L. nan conjunction *quasi*, as if; L. fem. n. *Chalicogloea*, An existing genus; *Quasichalicogloea*: A genus related to but distinct from the existing genus Chalicogloea of as if.

Quasichamaethrix

L. nan conjunction *quasi*, as if; L. fem. n. *Chamaethrix*, An existing genus; *Quasichamaethrix*: A genus related to but distinct from the existing genus Chamaethrix of as if.

Quasichangchengzhania

L. nan conjunction *quasi*, as if; L. fem. n. *Changchengzhania*, An existing genus; *Quasichangchengzhania*: A genus related to but distinct from the existing genus Changchengzhania of as if.

Quasichania

L. nan conjunction *quasi*, as if; L. fem. n. *Chania*, An existing genus; *Quasichania*: A genus related to but distinct from the existing genus Chania of as if.

Quasicharonomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Charonomicrobium*, An existing genus; *Quasicharonomicrobium*: A genus related to but distinct from the existing genus Charonomicrobium of as if.

Quasichelativorans

L. nan conjunction *quasi*, as if; L. masc. n. *Chelativorans*, An existing genus; *Quasichelativorans*: A genus related to but distinct from the existing genus Chelativorans of as if.

Quasichelatobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Chelatobacter*, An existing genus; *Quasichelatobacter*: A genus related to but distinct from the existing genus Chelatobacter of as if.

Quasichelatococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Chelatococcus*, An existing genus; *Quasichelatococcus*: A genus related to but distinct from the existing genus Chelatococcus of as if.

Quasichelonobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Chelonobacter*, An existing genus; *Quasichelonobacter*: A genus related to but distinct from the existing genus Chelonobacter of as if.

Quasichenggangzhangella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Chenggangzhangella*, An existing genus; *Quasichenggangzhangella*: A genus related to but distinct from the existing genus Chenggangzhangella of as if.

Quasichengkuizengella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Chengkuizengella*, An existing genus; *Quasichengkuizengella*: A genus related to but distinct from the existing genus Chengkuizengella of as if.

Quasichiayiivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Chiayiivirga*, An existing genus; *Quasichiayiivirga*: A genus related to but distinct from the existing genus Chiayiivirga of as if.

Quasichimaereicella

L. nan conjunction *quasi*, as if; L. fem. n. *Chimaereicella*, An existing genus; *Quasichimaereicella*: A genus related to but distinct from the existing genus Chimaereicella of as if.

Quasichimaeribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Chimaeribacter*, An existing genus; *Quasichimaeribacter*: A genus related to but distinct from the existing genus Chimaeribacter of as if.

Quasichishuiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Chishuiella*, An existing genus; *Quasichishuiella*: A genus related to but distinct from the existing genus Chishuiella of as if.

Quasichitinasiproducens

L. nan conjunction *quasi*, as if; L. masc. n. *Chitinasiproducens*, An existing genus; *Quasichitinasiproducens*: A genus related to but distinct from the existing genus Chitinasiproducens of as if.

Quasichitinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Chitinibacter*, An existing genus; *Quasichitinibacter*: A genus related to but distinct from the existing genus Chitinibacter of as if.

Quasichitinilyticum

L. nan conjunction *quasi*, as if; L. neut. n. *Chitinilyticum*, An existing genus; *Quasichitinilyticum*: A genus related to but distinct from the existing genus Chitinilyticum of as if.

Quasichitiniphilus

L. nan conjunction *quasi*, as if; L. masc. n. *Chitiniphilus*, An existing genus; *Quasichitiniphilus*: A genus related to but distinct from the existing genus Chitiniphilus of as if.

Quasichitinispirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Chitinispirillum*, An existing genus; *Quasichitinispirillum*: A genus related to but distinct from the existing genus Chitinispirillum of as if.

Quasichitinivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Chitinivibrio*, An existing genus; *Quasichitinivibrio*: A genus related to but distinct from the existing genus Chitinivibrio of as if.

Quasichitinivorax

L. nan conjunction *quasi*, as if; L. masc. n. *Chitinivorax*, An existing genus; *Quasichitinivorax*: A genus related to but distinct from the existing genus Chitinivorax of as if.

Quasichitinolyticbacter

L. nan conjunction *quasi*, as if; L. masc. n. *Chitinolyticbacter*, An existing genus; *Quasichitinolyticbacter*: A genus related to but distinct from the existing genus Chitinolyticbacter of as if.

Quasichitinophaga

L. nan conjunction *quasi*, as if; L. fem. n. *Chitinophaga*, An existing genus; *Quasichitinophaga*: A genus related to but distinct from the existing genus Chitinophaga of as if.

Quasichlamydia

L. nan conjunction *quasi*, as if; L. fem. n. *Chlamydia*, An existing genus; *Quasichlamydia*: A genus related to but distinct from the existing genus Chlamydia of as if.

Quasichlamydophila

L. nan conjunction *quasi*, as if; L. fem. n. *Chlamydophila*, An existing genus; *Quasichlamydophila*: A genus related to but distinct from the existing genus Chlamydophila of as if.

Quasichloracidobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Chloracidobacterium*, An existing genus; *Quasichloracidobacterium*: A genus related to but distinct from the existing genus Chloracidobacterium of as if.

Quasichlorobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Chlorobaculum*, An existing genus; *Quasichlorobaculum*: A genus related to but distinct from the existing genus Chlorobaculum of as if.

Quasichlorobium

L. nan conjunction *quasi*, as if; L. neut. n. *Chlorobium*, An existing genus; *Quasichlorobium*: A genus related to but distinct from the existing genus Chlorobium of as if.

Quasichloroflexus

L. nan conjunction *quasi*, as if; L. masc. n. *Chloroflexus*, An existing genus; *Quasichloroflexus*: A genus related to but distinct from the existing genus Chloroflexus of as if.

Quasichloroherpeton

L. nan conjunction *quasi*, as if; L. neut. n. *Chloroherpeton*, An existing genus; *Quasichloroherpeton*: A genus related to but distinct from the existing genus Chloroherpeton of as if.

Quasichloronema

L. nan conjunction *quasi*, as if; L. neut. n. *Chloronema*, An existing genus; *Quasichloronema*: A genus related to but distinct from the existing genus Chloronema of as if.

Quasichondromyces

L. nan conjunction *quasi*, as if; L. masc. n. *Chondromyces*, An existing genus; *Quasichondromyces*: A genus related to but distinct from the existing genus Chondromyces of as if.

Quasichristensenella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Christensenella*, An existing genus; *Quasichristensenella*: A genus related to but distinct from the existing genus Christensenella of as if.

Quasichroakolemma

L. nan conjunction *quasi*, as if; L. neut. n. *Chroakolemma*, An existing genus; *Quasichroakolemma*: A genus related to but distinct from the existing genus Chroakolemma of as if.

Quasichromatium

L. nan conjunction *quasi*, as if; L. neut. n. *Chromatium*, An existing genus; *Quasichromatium*: A genus related to but distinct from the existing genus Chromatium of as if.

Quasichromatocurvus

L. nan conjunction *quasi*, as if; L. masc. n. *Chromatocurvus*, An existing genus; *Quasichromatocurvus*: A genus related to but distinct from the existing genus Chromatocurvus of as if.

Quasichromobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Chromobacterium*, An existing genus; *Quasichromobacterium*: A genus related to but distinct from the existing genus Chromobacterium of as if.

Quasichromohalobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Chromohalobacter*, An existing genus; *Quasichromohalobacter*: A genus related to but distinct from the existing genus Chromohalobacter of as if.

Quasichroococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Chroococcus*, An existing genus; *Quasichroococcus*: A genus related to but distinct from the existing genus Chroococcus of as if.

Quasichryseobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Chryseobacterium*, An existing genus; *Quasichryseobacterium*: A genus related to but distinct from the existing genus Chryseobacterium of as if.

Quasichryseoglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Chryseoglobus*, An existing genus; *Quasichryseoglobus*: A genus related to but distinct from the existing genus Chryseoglobus of as if.

Quasichryseolinea

L. nan conjunction *quasi*, as if; L. fem. n. *Chryseolinea*, An existing genus; *Quasichryseolinea*: A genus related to but distinct from the existing genus Chryseolinea of as if.

Quasichryseomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Chryseomicrobium*, An existing genus; *Quasichryseomicrobium*: A genus related to but distinct from the existing genus Chryseomicrobium of as if.

Quasichryseomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Chryseomonas*, An existing genus; *Quasichryseomonas*: A genus related to but distinct from the existing genus Chryseomonas of as if.

Quasichryseotalea

L. nan conjunction *quasi*, as if; L. fem. n. *Chryseotalea*, An existing genus; *Quasichryseotalea*: A genus related to but distinct from the existing genus Chryseotalea of as if.

Quasichrysiogenes

L. nan conjunction *quasi*, as if; L. masc. n. *Chrysiogenes*, An existing genus; *Quasichrysiogenes*: A genus related to but distinct from the existing genus Chrysiogenes of as if.

Quasichthoniobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Chthoniobacter*, An existing genus; *Quasichthoniobacter*: A genus related to but distinct from the existing genus Chthoniobacter of as if.

Quasichthonobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Chthonobacter*, An existing genus; *Quasichthonobacter*: A genus related to but distinct from the existing genus Chthonobacter of as if.

Quasichthonomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Chthonomonas*, An existing genus; *Quasichthonomonas*: A genus related to but distinct from the existing genus Chthonomonas of as if.

Quasichujaibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Chujaibacter*, An existing genus; *Quasichujaibacter*: A genus related to but distinct from the existing genus Chujaibacter of as if.

Quasichungangia

L. nan conjunction *quasi*, as if; L. fem. n. *Chungangia*, An existing genus; *Quasichungangia*: A genus related to but distinct from the existing genus Chungangia of as if.

Quasiciceribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Ciceribacter*, An existing genus; *Quasiciceribacter*: A genus related to but distinct from the existing genus Ciceribacter of as if.

Quasicitreibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Citreibacter*, An existing genus; *Quasicitreibacter*: A genus related to but distinct from the existing genus Citreibacter of as if.

Quasicitreicella

L. nan conjunction *quasi*, as if; L. fem. n. *Citreicella*, An existing genus; *Quasicitreicella*: A genus related to but distinct from the existing genus Citreicella of as if.

Quasicitreimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Citreimonas*, An existing genus; *Quasicitreimonas*: A genus related to but distinct from the existing genus Citreimonas of as if.

Quasicitreitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Citreitalea*, An existing genus; *Quasicitreitalea*: A genus related to but distinct from the existing genus Citreitalea of as if.

Quasicitricoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Citricoccus*, An existing genus; *Quasicitricoccus*: A genus related to but distinct from the existing genus Citricoccus of as if.

Quasicitrimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Citrimicrobium*, An existing genus; *Quasicitrimicrobium*: A genus related to but distinct from the existing genus Citrimicrobium of as if.

Quasicitrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Citrobacter*, An existing genus; *Quasicitrobacter*: A genus related to but distinct from the existing genus Citrobacter of as if.

Quasicitromicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Citromicrobium*, An existing genus; *Quasicitromicrobium*: A genus related to but distinct from the existing genus Citromicrobium of as if.

Quasicitroniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Citroniella*, An existing genus; *Quasicitroniella*: A genus related to but distinct from the existing genus Citroniella of as if.

Quasiclavibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Clavibacter*, An existing genus; *Quasiclavibacter*: A genus related to but distinct from the existing genus Clavibacter of as if.

Quasiclevelandina

L. nan conjunction *quasi*, as if; L. fem. n. *Clevelandina*, An existing genus; *Quasiclevelandina*: A genus related to but distinct from the existing genus Clevelandina of as if.

Quasicloacibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Cloacibacillus*, An existing genus; *Quasicloacibacillus*: A genus related to but distinct from the existing genus Cloacibacillus of as if.

Quasicloacibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Cloacibacterium*, An existing genus; *Quasicloacibacterium*: A genus related to but distinct from the existing genus Cloacibacterium of as if.

Quasiclostridiisalibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Clostridiisalibacter*, An existing genus; *Quasiclostridiisalibacter*: A genus related to but distinct from the existing genus Clostridiisalibacter of as if.

Quasiclostridioides

L. nan conjunction *quasi*, as if; L. neut. n. *Clostridioides*, An existing genus; *Quasiclostridioides*: A genus related to but distinct from the existing genus Clostridioides of as if.

Quasiclostridium

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Clostridium*, An existing genus; *Quasiclostridium*: A genus related to but distinct from the existing genus Clostridium of as if.

Quasicnuella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Cnuella*, An existing genus; *Quasicnuella*: A genus related to but distinct from the existing genus Cnuella of as if.

Quasicnuibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Cnuibacter*, An existing genus; *Quasicnuibacter*: A genus related to but distinct from the existing genus Cnuibacter of as if.

Quasicobetia

L. nan conjunction *quasi*, as if; L. fem. n. *Cobetia*, An existing genus; *Quasicobetia*: A genus related to but distinct from the existing genus Cobetia of as if.

Quasicochleicola

L. nan conjunction *quasi*, as if; L. masc. n. *Cochleicola*, An existing genus; *Quasicochleicola*: A genus related to but distinct from the existing genus Cochleicola of as if.

Quasicocleimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Cocleimonas*, An existing genus; *Quasicocleimonas*: A genus related to but distinct from the existing genus Cocleimonas of as if.

Quasicoenonia

L. nan conjunction *quasi*, as if; L. fem. n. *Coenonia*, An existing genus; *Quasicoenonia*: A genus related to but distinct from the existing genus Coenonia of as if.

Quasicoetzeea

L. nan conjunction *quasi*, as if; L. fem. n. *Coetzeea*, An existing genus; *Quasicoetzeea*: A genus related to but distinct from the existing genus Coetzeea of as if.

Quasicognaticolwellia

L. nan conjunction *quasi*, as if; L. fem. n. *Cognaticolwellia*, An existing genus; *Quasicognaticolwellia*: A genus related to but distinct from the existing genus Cognaticolwellia of as if.

Quasicognatishimia

L. nan conjunction *quasi*, as if; L. fem. n. *Cognatishimia*, An existing genus; *Quasicognatishimia*: A genus related to but distinct from the existing genus Cognatishimia of as if.

Quasicognatiyoonia

L. nan conjunction *quasi*, as if; L. fem. n. *Cognatiyoonia*, An existing genus; *Quasicognatiyoonia*: A genus related to but distinct from the existing genus Cognatiyoonia of as if.

Quasicohaesibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Cohaesibacter*, An existing genus; *Quasicohaesibacter*: A genus related to but distinct from the existing genus Cohaesibacter of as if.

Quasicohnella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Cohnella*, An existing genus; *Quasicohnella*: A genus related to but distinct from the existing genus Cohnella of as if.

Quasicoleofasciculus

L. nan conjunction *quasi*, as if; L. masc. dim. n. *Coleofasciculus*, An existing genus; *Quasicoleofasciculus*: A genus related to but distinct from the existing genus Coleofasciculus of as if.

Quasicollimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Collimonas*, An existing genus; *Quasicollimonas*: A genus related to but distinct from the existing genus Collimonas of as if.

Quasicollinsella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Collinsella*, An existing genus; *Quasicollinsella*: A genus related to but distinct from the existing genus Collinsella of as if.

Quasicolteronema

L. nan conjunction *quasi*, as if; L. neut. n. *Colteronema*, An existing genus; *Quasicolteronema*: A genus related to but distinct from the existing genus Colteronema of as if.

Quasicolwellia

L. nan conjunction *quasi*, as if; L. fem. n. *Colwellia*, An existing genus; *Quasicolwellia*: A genus related to but distinct from the existing genus Colwellia of as if.

Quasicomamonas

L. nan conjunction *quasi*, as if; L. fem. n. *Comamonas*, An existing genus; *Quasicomamonas*: A genus related to but distinct from the existing genus Comamonas of as if.

Quasicommensalibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Commensalibacter*, An existing genus; *Quasicommensalibacter*: A genus related to but distinct from the existing genus Commensalibacter of as if.

Quasicompactonostoc

L. nan conjunction *quasi*, as if; L. neut. n. *Compactonostoc*, An existing genus; *Quasicompactonostoc*: A genus related to but distinct from the existing genus Compactonostoc of as if.

Quasicompanilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Companilactobacillus*, An existing genus; *Quasicompanilactobacillus*: A genus related to but distinct from the existing genus Companilactobacillus of as if.

Quasicompostibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Compostibacillus*, An existing genus; *Quasicompostibacillus*: A genus related to but distinct from the existing genus Compostibacillus of as if.

Quasicompostimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Compostimonas*, An existing genus; *Quasicompostimonas*: A genus related to but distinct from the existing genus Compostimonas of as if.

Quasiconchiformibius

L. nan conjunction *quasi*, as if; L. masc. n. *Conchiformibius*, An existing genus; *Quasiconchiformibius*: A genus related to but distinct from the existing genus Conchiformibius of as if.

Quasiconexibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Conexibacter*, An existing genus; *Quasiconexibacter*: A genus related to but distinct from the existing genus Conexibacter of as if.

Quasiconfluentibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Confluentibacter*, An existing genus; *Quasiconfluentibacter*: A genus related to but distinct from the existing genus Confluentibacter of as if.

Quasiconfluentimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Confluentimicrobium*, An existing genus; *Quasiconfluentimicrobium*: A genus related to but distinct from the existing genus Confluentimicrobium of as if.

Quasiconglomeromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Conglomeromonas*, An existing genus; *Quasiconglomeromonas*: A genus related to but distinct from the existing genus Conglomeromonas of as if.

Quasicongregibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Congregibacter*, An existing genus; *Quasicongregibacter*: A genus related to but distinct from the existing genus Congregibacter of as if.

Quasiconservatibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Conservatibacter*, An existing genus; *Quasiconservatibacter*: A genus related to but distinct from the existing genus Conservatibacter of as if.

Quasiconsotaella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Consotaella*, An existing genus; *Quasiconsotaella*: A genus related to but distinct from the existing genus Consotaella of as if.

Quasiconstrictibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Constrictibacter*, An existing genus; *Quasiconstrictibacter*: A genus related to but distinct from the existing genus Constrictibacter of as if.

Quasiconvivina

L. nan conjunction *quasi*, as if; L. fem. n. *Convivina*, An existing genus; *Quasiconvivina*: A genus related to but distinct from the existing genus Convivina of as if.

Quasiconyzicola

L. nan conjunction *quasi*, as if; L. fem. n. *Conyzicola*, An existing genus; *Quasiconyzicola*: A genus related to but distinct from the existing genus Conyzicola of as if.

Quasicoprobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Coprobacillus*, An existing genus; *Quasicoprobacillus*: A genus related to but distinct from the existing genus Coprobacillus of as if.

Quasicoprobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Coprobacter*, An existing genus; *Quasicoprobacter*: A genus related to but distinct from the existing genus Coprobacter of as if.

Quasicoprococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Coprococcus*, An existing genus; *Quasicoprococcus*: A genus related to but distinct from the existing genus Coprococcus of as if.

Quasicoprothermobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Coprothermobacter*, An existing genus; *Quasicoprothermobacter*: A genus related to but distinct from the existing genus Coprothermobacter of as if.

Quasicoraliitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Coraliitalea*, An existing genus; *Quasicoraliitalea*: A genus related to but distinct from the existing genus Coraliitalea of as if.

Quasicoraliomargarita

L. nan conjunction *quasi*, as if; L. fem. n. *Coraliomargarita*, An existing genus; *Quasicoraliomargarita*: A genus related to but distinct from the existing genus Coraliomargarita of as if.

Quasicorallibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Corallibacter*, An existing genus; *Quasicorallibacter*: A genus related to but distinct from the existing genus Corallibacter of as if.

Quasicorallincola

L. nan conjunction *quasi*, as if; L. masc. n. *Corallincola*, An existing genus; *Quasicorallincola*: A genus related to but distinct from the existing genus Corallincola of as if.

Quasicorallococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Corallococcus*, An existing genus; *Quasicorallococcus*: A genus related to but distinct from the existing genus Corallococcus of as if.

Quasicoralloluteibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Coralloluteibacterium*, An existing genus; *Quasicoralloluteibacterium*: A genus related to but distinct from the existing genus Coralloluteibacterium of as if.

Quasicorallomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Corallomonas*, An existing genus; *Quasicorallomonas*: A genus related to but distinct from the existing genus Corallomonas of as if.

Quasicoralslurrinella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Coralslurrinella*, An existing genus; *Quasicoralslurrinella*: A genus related to but distinct from the existing genus Coralslurrinella of as if.

Quasicorticicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Corticicoccus*, An existing genus; *Quasicorticicoccus*: A genus related to but distinct from the existing genus Corticicoccus of as if.

Quasicorynebacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Corynebacterium*, An existing genus; *Quasicorynebacterium*: A genus related to but distinct from the existing genus Corynebacterium of as if.

Quasicosenzaea

L. nan conjunction *quasi*, as if; L. fem. n. *Cosenzaea*, An existing genus; *Quasicosenzaea*: A genus related to but distinct from the existing genus Cosenzaea of as if.

Quasicostertonia

L. nan conjunction *quasi*, as if; L. fem. n. *Costertonia*, An existing genus; *Quasicostertonia*: A genus related to but distinct from the existing genus Costertonia of as if.

Quasicouchioplanes

L. nan conjunction *quasi*, as if; L. masc. n. *Couchioplanes*, An existing genus; *Quasicouchioplanes*: A genus related to but distinct from the existing genus Couchioplanes of as if.

Quasicowdria

L. nan conjunction *quasi*, as if; L. fem. n. *Cowdria*, An existing genus; *Quasicowdria*: A genus related to but distinct from the existing genus Cowdria of as if.

Quasicoxiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Coxiella*, An existing genus; *Quasicoxiella*: A genus related to but distinct from the existing genus Coxiella of as if.

Quasicrabtreella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Crabtreella*, An existing genus; *Quasicrabtreella*: A genus related to but distinct from the existing genus Crabtreella of as if.

Quasicrassaminicella

L. nan conjunction *quasi*, as if; L. fem. n. *Crassaminicella*, An existing genus; *Quasicrassaminicella*: A genus related to but distinct from the existing genus Crassaminicella of as if.

Quasicrateriforma

L. nan conjunction *quasi*, as if; L. fem. n. *Crateriforma*, An existing genus; *Quasicrateriforma*: A genus related to but distinct from the existing genus Crateriforma of as if.

Quasicraterilacuibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Craterilacuibacter*, An existing genus; *Quasicraterilacuibacter*: A genus related to but distinct from the existing genus Craterilacuibacter of as if.

Quasicraurococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Craurococcus*, An existing genus; *Quasicraurococcus*: A genus related to but distinct from the existing genus Craurococcus of as if.

Quasicrenalkalicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Crenalkalicoccus*, An existing genus; *Quasicrenalkalicoccus*: A genus related to but distinct from the existing genus Crenalkalicoccus of as if.

Quasicrenotalea

L. nan conjunction *quasi*, as if; L. fem. n. *Crenotalea*, An existing genus; *Quasicrenotalea*: A genus related to but distinct from the existing genus Crenotalea of as if.

Quasicriblamydia

L. nan conjunction *quasi*, as if; L. fem. n. *Criblamydia*, An existing genus; *Quasicriblamydia*: A genus related to but distinct from the existing genus Criblamydia of as if.

Quasicribrihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Cribrihabitans*, An existing genus; *Quasicribrihabitans*: A genus related to but distinct from the existing genus Cribrihabitans of as if.

Quasicricetibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Cricetibacter*, An existing genus; *Quasicricetibacter*: A genus related to but distinct from the existing genus Cricetibacter of as if.

Quasicristispira

L. nan conjunction *quasi*, as if; L. fem. n. *Cristispira*, An existing genus; *Quasicristispira*: A genus related to but distinct from the existing genus Cristispira of as if.

Quasicroceibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Croceibacter*, An existing genus; *Quasicroceibacter*: A genus related to but distinct from the existing genus Croceibacter of as if.

Quasicroceibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Croceibacterium*, An existing genus; *Quasicroceibacterium*: A genus related to but distinct from the existing genus Croceibacterium of as if.

Quasicroceicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Croceicoccus*, An existing genus; *Quasicroceicoccus*: A genus related to but distinct from the existing genus Croceicoccus of as if.

Quasicroceifilum

L. nan conjunction *quasi*, as if; L. neut. n. *Croceifilum*, An existing genus; *Quasicroceifilum*: A genus related to but distinct from the existing genus Croceifilum of as if.

Quasicroceitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Croceitalea*, An existing genus; *Quasicroceitalea*: A genus related to but distinct from the existing genus Croceitalea of as if.

Quasicroceivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Croceivirga*, An existing genus; *Quasicroceivirga*: A genus related to but distinct from the existing genus Croceivirga of as if.

Quasicrocinitomix

L. nan conjunction *quasi*, as if; L. fem. n. *Crocinitomix*, An existing genus; *Quasicrocinitomix*: A genus related to but distinct from the existing genus Crocinitomix of as if.

Quasicrocosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Crocosphaera*, An existing genus; *Quasicrocosphaera*: A genus related to but distinct from the existing genus Crocosphaera of as if.

Quasicronobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Cronobacter*, An existing genus; *Quasicronobacter*: A genus related to but distinct from the existing genus Cronobacter of as if.

Quasicrossiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Crossiella*, An existing genus; *Quasicrossiella*: A genus related to but distinct from the existing genus Crossiella of as if.

Quasicruoricaptor

L. nan conjunction *quasi*, as if; L. masc. n. *Cruoricaptor*, An existing genus; *Quasicruoricaptor*: A genus related to but distinct from the existing genus Cruoricaptor of as if.

Quasicryobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Cryobacterium*, An existing genus; *Quasicryobacterium*: A genus related to but distinct from the existing genus Cryobacterium of as if.

Quasicryomorpha

L. nan conjunction *quasi*, as if; L. fem. n. *Cryomorpha*, An existing genus; *Quasicryomorpha*: A genus related to but distinct from the existing genus Cryomorpha of as if.

Quasicryptanaerobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Cryptanaerobacter*, An existing genus; *Quasicryptanaerobacter*: A genus related to but distinct from the existing genus Cryptanaerobacter of as if.

Quasicryptobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Cryptobacterium*, An existing genus; *Quasicryptobacterium*: A genus related to but distinct from the existing genus Cryptobacterium of as if.

Quasicryptococcum

L. nan conjunction *quasi*, as if; L. neut. n. *Cryptococcum*, An existing genus; *Quasicryptococcum*: A genus related to but distinct from the existing genus Cryptococcum of as if.

Quasicryptosporangium

L. nan conjunction *quasi*, as if; L. neut. n. *Cryptosporangium*, An existing genus; *Quasicryptosporangium*: A genus related to but distinct from the existing genus Cryptosporangium of as if.

Quasicucumibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Cucumibacter*, An existing genus; *Quasicucumibacter*: A genus related to but distinct from the existing genus Cucumibacter of as if.

Quasicumulibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Cumulibacter*, An existing genus; *Quasicumulibacter*: A genus related to but distinct from the existing genus Cumulibacter of as if.

Quasicuneatibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Cuneatibacter*, An existing genus; *Quasicuneatibacter*: A genus related to but distinct from the existing genus Cuneatibacter of as if.

Quasicuniculiplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Cuniculiplasma*, An existing genus; *Quasicuniculiplasma*: A genus related to but distinct from the existing genus Cuniculiplasma of as if.

Quasicupriavidus

L. nan conjunction *quasi*, as if; L. masc. n. *Cupriavidus*, An existing genus; *Quasicupriavidus*: A genus related to but distinct from the existing genus Cupriavidus of as if.

Quasicurtobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Curtobacterium*, An existing genus; *Quasicurtobacterium*: A genus related to but distinct from the existing genus Curtobacterium of as if.

Quasicurvibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Curvibacter*, An existing genus; *Quasicurvibacter*: A genus related to but distinct from the existing genus Curvibacter of as if.

Quasicutibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Cutibacterium*, An existing genus; *Quasicutibacterium*: A genus related to but distinct from the existing genus Cutibacterium of as if.

Quasicyanocohniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Cyanocohniella*, An existing genus; *Quasicyanocohniella*: A genus related to but distinct from the existing genus Cyanocohniella of as if.

Quasicyanocomperia

L. nan conjunction *quasi*, as if; L. fem. n. *Cyanocomperia*, An existing genus; *Quasicyanocomperia*: A genus related to but distinct from the existing genus Cyanocomperia of as if.

Quasicyanoderma

L. nan conjunction *quasi*, as if; L. neut. n. *Cyanoderma*, An existing genus; *Quasicyanoderma*: A genus related to but distinct from the existing genus Cyanoderma of as if.

Quasicyanosaccus

L. nan conjunction *quasi*, as if; L. masc. n. *Cyanosaccus*, An existing genus; *Quasicyanosaccus*: A genus related to but distinct from the existing genus Cyanosaccus of as if.

Quasicyclobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Cyclobacterium*, An existing genus; *Quasicyclobacterium*: A genus related to but distinct from the existing genus Cyclobacterium of as if.

Quasicycloclasticus

L. nan conjunction *quasi*, as if; L. masc. n. *Cycloclasticus*, An existing genus; *Quasicycloclasticus*: A genus related to but distinct from the existing genus Cycloclasticus of as if.

Quasicysteiniphilum

L. nan conjunction *quasi*, as if; L. neut. n. *Cysteiniphilum*, An existing genus; *Quasicysteiniphilum*: A genus related to but distinct from the existing genus Cysteiniphilum of as if.

Quasicystobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Cystobacter*, An existing genus; *Quasicystobacter*: A genus related to but distinct from the existing genus Cystobacter of as if.

Quasicytobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Cytobacillus*, An existing genus; *Quasicytobacillus*: A genus related to but distinct from the existing genus Cytobacillus of as if.

Quasicytophaga

L. nan conjunction *quasi*, as if; L. fem. n. *Cytophaga*, An existing genus; *Quasicytophaga*: A genus related to but distinct from the existing genus Cytophaga of as if.

Quasidactylosporangium

L. nan conjunction *quasi*, as if; L. neut. n. *Dactylosporangium*, An existing genus; *Quasidactylosporangium*: A genus related to but distinct from the existing genus Dactylosporangium of as if.

Quasidaeguia

L. nan conjunction *quasi*, as if; L. fem. n. *Daeguia*, An existing genus; *Quasidaeguia*: A genus related to but distinct from the existing genus Daeguia of as if.

Quasidaejeonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Daejeonella*, An existing genus; *Quasidaejeonella*: A genus related to but distinct from the existing genus Daejeonella of as if.

Quasidaejeonia

L. nan conjunction *quasi*, as if; L. fem. n. *Daejeonia*, An existing genus; *Quasidaejeonia*: A genus related to but distinct from the existing genus Daejeonia of as if.

Quasidankookia

L. nan conjunction *quasi*, as if; L. fem. n. *Dankookia*, An existing genus; *Quasidankookia*: A genus related to but distinct from the existing genus Dankookia of as if.

Quasidaptobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Daptobacter*, An existing genus; *Quasidaptobacter*: A genus related to but distinct from the existing genus Daptobacter of as if.

Quasidasania

L. nan conjunction *quasi*, as if; L. fem. n. *Dasania*, An existing genus; *Quasidasania*: A genus related to but distinct from the existing genus Dasania of as if.

Quasidechlorobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Dechlorobacter*, An existing genus; *Quasidechlorobacter*: A genus related to but distinct from the existing genus Dechlorobacter of as if.

Quasidechloromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Dechloromonas*, An existing genus; *Quasidechloromonas*: A genus related to but distinct from the existing genus Dechloromonas of as if.

Quasidechlorosoma

L. nan conjunction *quasi*, as if; L. neut. n. *Dechlorosoma*, An existing genus; *Quasidechlorosoma*: A genus related to but distinct from the existing genus Dechlorosoma of as if.

Quasideefgea

L. nan conjunction *quasi*, as if; L. fem. n. *Deefgea*, An existing genus; *Quasideefgea*: A genus related to but distinct from the existing genus Deefgea of as if.

Quasideferribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Deferribacter*, An existing genus; *Quasideferribacter*: A genus related to but distinct from the existing genus Deferribacter of as if.

Quasideferrisoma

L. nan conjunction *quasi*, as if; L. neut. n. *Deferrisoma*, An existing genus; *Quasideferrisoma*: A genus related to but distinct from the existing genus Deferrisoma of as if.

Quasidefluvibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Defluvibacter*, An existing genus; *Quasidefluvibacter*: A genus related to but distinct from the existing genus Defluvibacter of as if.

Quasidefluviicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Defluviicoccus*, An existing genus; *Quasidefluviicoccus*: A genus related to but distinct from the existing genus Defluviicoccus of as if.

Quasidefluviimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Defluviimonas*, An existing genus; *Quasidefluviimonas*: A genus related to but distinct from the existing genus Defluviimonas of as if.

Quasidefluviitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Defluviitalea*, An existing genus; *Quasidefluviitalea*: A genus related to but distinct from the existing genus Defluviitalea of as if.

Quasidefluviitoga

L. nan conjunction *quasi*, as if; L. fem. n. *Defluviitoga*, An existing genus; *Quasidefluviitoga*: A genus related to but distinct from the existing genus Defluviitoga of as if.

Quasidehalobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Dehalobacter*, An existing genus; *Quasidehalobacter*: A genus related to but distinct from the existing genus Dehalobacter of as if.

Quasidehalobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Dehalobacterium*, An existing genus; *Quasidehalobacterium*: A genus related to but distinct from the existing genus Dehalobacterium of as if.

Quasidehalogenimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Dehalogenimonas*, An existing genus; *Quasidehalogenimonas*: A genus related to but distinct from the existing genus Dehalogenimonas of as if.

Quasideinobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Deinobacter*, An existing genus; *Quasideinobacter*: A genus related to but distinct from the existing genus Deinobacter of as if.

Quasideinobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Deinobacterium*, An existing genus; *Quasideinobacterium*: A genus related to but distinct from the existing genus Deinobacterium of as if.

Quasideinococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Deinococcus*, An existing genus; *Quasideinococcus*: A genus related to but distinct from the existing genus Deinococcus of as if.

Quasideleya

L. nan conjunction *quasi*, as if; L. fem. n. *Deleya*, An existing genus; *Quasideleya*: A genus related to but distinct from the existing genus Deleya of as if.

Quasidelftia

L. nan conjunction *quasi*, as if; L. fem. n. *Delftia*, An existing genus; *Quasidelftia*: A genus related to but distinct from the existing genus Delftia of as if.

Quasidellaglioa

L. nan conjunction *quasi*, as if; L. fem. n. *Dellaglioa*, An existing genus; *Quasidellaglioa*: A genus related to but distinct from the existing genus Dellaglioa of as if.

Quasidemequina

L. nan conjunction *quasi*, as if; L. fem. n. *Demequina*, An existing genus; *Quasidemequina*: A genus related to but distinct from the existing genus Demequina of as if.

Quasidemetria

L. nan conjunction *quasi*, as if; L. fem. n. *Demetria*, An existing genus; *Quasidemetria*: A genus related to but distinct from the existing genus Demetria of as if.

Quasideminuibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Deminuibacter*, An existing genus; *Quasideminuibacter*: A genus related to but distinct from the existing genus Deminuibacter of as if.

Quasidenitratimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Denitratimonas*, An existing genus; *Quasidenitratimonas*: A genus related to but distinct from the existing genus Denitratimonas of as if.

Quasidenitratisoma

L. nan conjunction *quasi*, as if; L. neut. n. *Denitratisoma*, An existing genus; *Quasidenitratisoma*: A genus related to but distinct from the existing genus Denitratisoma of as if.

Quasidenitrobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Denitrobacterium*, An existing genus; *Quasidenitrobacterium*: A genus related to but distinct from the existing genus Denitrobacterium of as if.

Quasidenitrobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Denitrobaculum*, An existing genus; *Quasidenitrobaculum*: A genus related to but distinct from the existing genus Denitrobaculum of as if.

Quasidenitrovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Denitrovibrio*, An existing genus; *Quasidenitrovibrio*: A genus related to but distinct from the existing genus Denitrovibrio of as if.

Quasidermacoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Dermacoccus*, An existing genus; *Quasidermacoccus*: A genus related to but distinct from the existing genus Dermacoccus of as if.

Quasidermatophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Dermatophilus*, An existing genus; *Quasidermatophilus*: A genus related to but distinct from the existing genus Dermatophilus of as if.

Quasiderxia

L. nan conjunction *quasi*, as if; L. fem. n. *Derxia*, An existing genus; *Quasiderxia*: A genus related to but distinct from the existing genus Derxia of as if.

Quasidesemzia

L. nan conjunction *quasi*, as if; L. fem. n. *Desemzia*, An existing genus; *Quasidesemzia*: A genus related to but distinct from the existing genus Desemzia of as if.

Quasidesertibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Desertibacillus*, An existing genus; *Quasidesertibacillus*: A genus related to but distinct from the existing genus Desertibacillus of as if.

Quasidesertibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Desertibacter*, An existing genus; *Quasidesertibacter*: A genus related to but distinct from the existing genus Desertibacter of as if.

Quasidesertifilum

L. nan conjunction *quasi*, as if; L. neut. n. *Desertifilum*, An existing genus; *Quasidesertifilum*: A genus related to but distinct from the existing genus Desertifilum of as if.

Quasidesertihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Desertihabitans*, An existing genus; *Quasidesertihabitans*: A genus related to but distinct from the existing genus Desertihabitans of as if.

Quasidesertimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Desertimonas*, An existing genus; *Quasidesertimonas*: A genus related to but distinct from the existing genus Desertimonas of as if.

Quasidesikacharya

L. nan conjunction *quasi*, as if; L. fem. n. *Desikacharya*, An existing genus; *Quasidesikacharya*: A genus related to but distinct from the existing genus Desikacharya of as if.

Quasidesmospora

L. nan conjunction *quasi*, as if; L. fem. n. *Desmospora*, An existing genus; *Quasidesmospora*: A genus related to but distinct from the existing genus Desmospora of as if.

Quasidesnuesiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Desnuesiella*, An existing genus; *Quasidesnuesiella*: A genus related to but distinct from the existing genus Desnuesiella of as if.

Quasidesulfacinum

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfacinum*, An existing genus; *Quasidesulfacinum*: A genus related to but distinct from the existing genus Desulfacinum of as if.

Quasidesulfallas

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfallas*, An existing genus; *Quasidesulfallas*: A genus related to but distinct from the existing genus Desulfallas of as if.

Quasidesulfarculus

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfarculus*, An existing genus; *Quasidesulfarculus*: A genus related to but distinct from the existing genus Desulfarculus of as if.

Quasidesulfatibacillum

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfatibacillum*, An existing genus; *Quasidesulfatibacillum*: A genus related to but distinct from the existing genus Desulfatibacillum of as if.

Quasidesulfatiferula

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfatiferula*, An existing genus; *Quasidesulfatiferula*: A genus related to but distinct from the existing genus Desulfatiferula of as if.

Quasidesulfatiglans

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfatiglans*, An existing genus; *Quasidesulfatiglans*: A genus related to but distinct from the existing genus Desulfatiglans of as if.

Quasidesulfatirhabdium

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Desulfatirhabdium*, An existing genus; *Quasidesulfatirhabdium*: A genus related to but distinct from the existing genus Desulfatirhabdium of as if.

Quasidesulfatitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfatitalea*, An existing genus; *Quasidesulfatitalea*: A genus related to but distinct from the existing genus Desulfatitalea of as if.

Quasidesulfitibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfitibacter*, An existing genus; *Quasidesulfitibacter*: A genus related to but distinct from the existing genus Desulfitibacter of as if.

Quasidesulfitispora

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfitispora*, An existing genus; *Quasidesulfitispora*: A genus related to but distinct from the existing genus Desulfitispora of as if.

Quasidesulfitobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfitobacterium*, An existing genus; *Quasidesulfitobacterium*: A genus related to but distinct from the existing genus Desulfitobacterium of as if.

Quasidesulfobacca

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfobacca*, An existing genus; *Quasidesulfobacca*: A genus related to but distinct from the existing genus Desulfobacca of as if.

Quasidesulfobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfobacter*, An existing genus; *Quasidesulfobacter*: A genus related to but distinct from the existing genus Desulfobacter of as if.

Quasidesulfobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfobacterium*, An existing genus; *Quasidesulfobacterium*: A genus related to but distinct from the existing genus Desulfobacterium of as if.

Quasidesulfobacula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Desulfobacula*, An existing genus; *Quasidesulfobacula*: A genus related to but distinct from the existing genus Desulfobacula of as if.

Quasidesulfobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfobaculum*, An existing genus; *Quasidesulfobaculum*: A genus related to but distinct from the existing genus Desulfobaculum of as if.

Quasidesulfobotulus

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfobotulus*, An existing genus; *Quasidesulfobotulus*: A genus related to but distinct from the existing genus Desulfobotulus of as if.

Quasidesulfobulbus

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfobulbus*, An existing genus; *Quasidesulfobulbus*: A genus related to but distinct from the existing genus Desulfobulbus of as if.

Quasidesulfocapsa

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfocapsa*, An existing genus; *Quasidesulfocapsa*: A genus related to but distinct from the existing genus Desulfocapsa of as if.

Quasidesulfocarbo

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfocarbo*, An existing genus; *Quasidesulfocarbo*: A genus related to but distinct from the existing genus Desulfocarbo of as if.

Quasidesulfocella

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfocella*, An existing genus; *Quasidesulfocella*: A genus related to but distinct from the existing genus Desulfocella of as if.

Quasidesulfococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfococcus*, An existing genus; *Quasidesulfococcus*: A genus related to but distinct from the existing genus Desulfococcus of as if.

Quasidesulfocucumis

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfocucumis*, An existing genus; *Quasidesulfocucumis*: A genus related to but distinct from the existing genus Desulfocucumis of as if.

Quasidesulfocurvibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfocurvibacter*, An existing genus; *Quasidesulfocurvibacter*: A genus related to but distinct from the existing genus Desulfocurvibacter of as if.

Quasidesulfocurvus

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfocurvus*, An existing genus; *Quasidesulfocurvus*: A genus related to but distinct from the existing genus Desulfocurvus of as if.

Quasidesulfofaba

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfofaba*, An existing genus; *Quasidesulfofaba*: A genus related to but distinct from the existing genus Desulfofaba of as if.

Quasidesulfofarcimen

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfofarcimen*, An existing genus; *Quasidesulfofarcimen*: A genus related to but distinct from the existing genus Desulfofarcimen of as if.

Quasidesulfofrigus

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfofrigus*, An existing genus; *Quasidesulfofrigus*: A genus related to but distinct from the existing genus Desulfofrigus of as if.

Quasidesulfofundulus

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfofundulus*, An existing genus; *Quasidesulfofundulus*: A genus related to but distinct from the existing genus Desulfofundulus of as if.

Quasidesulfofustis

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfofustis*, An existing genus; *Quasidesulfofustis*: A genus related to but distinct from the existing genus Desulfofustis of as if.

Quasidesulfoglaeba

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfoglaeba*, An existing genus; *Quasidesulfoglaeba*: A genus related to but distinct from the existing genus Desulfoglaeba of as if.

Quasidesulfohalobium

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfohalobium*, An existing genus; *Quasidesulfohalobium*: A genus related to but distinct from the existing genus Desulfohalobium of as if.

Quasidesulfohalophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfohalophilus*, An existing genus; *Quasidesulfohalophilus*: A genus related to but distinct from the existing genus Desulfohalophilus of as if.

Quasidesulfohalotomaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfohalotomaculum*, An existing genus; *Quasidesulfohalotomaculum*: A genus related to but distinct from the existing genus Desulfohalotomaculum of as if.

Quasidesulfohalovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfohalovibrio*, An existing genus; *Quasidesulfohalovibrio*: A genus related to but distinct from the existing genus Desulfohalovibrio of as if.

Quasidesulfoluna

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfoluna*, An existing genus; *Quasidesulfoluna*: A genus related to but distinct from the existing genus Desulfoluna of as if.

Quasidesulfomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfomicrobium*, An existing genus; *Quasidesulfomicrobium*: A genus related to but distinct from the existing genus Desulfomicrobium of as if.

Quasidesulfomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfomonas*, An existing genus; *Quasidesulfomonas*: A genus related to but distinct from the existing genus Desulfomonas of as if.

Quasidesulfomonile

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfomonile*, An existing genus; *Quasidesulfomonile*: A genus related to but distinct from the existing genus Desulfomonile of as if.

Quasidesulfomusa

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfomusa*, An existing genus; *Quasidesulfomusa*: A genus related to but distinct from the existing genus Desulfomusa of as if.

Quasidesulfonatronobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfonatronobacter*, An existing genus; *Quasidesulfonatronobacter*: A genus related to but distinct from the existing genus Desulfonatronobacter of as if.

Quasidesulfonatronospira

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfonatronospira*, An existing genus; *Quasidesulfonatronospira*: A genus related to but distinct from the existing genus Desulfonatronospira of as if.

Quasidesulfonatronovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfonatronovibrio*, An existing genus; *Quasidesulfonatronovibrio*: A genus related to but distinct from the existing genus Desulfonatronovibrio of as if.

Quasidesulfonatronum

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfonatronum*, An existing genus; *Quasidesulfonatronum*: A genus related to but distinct from the existing genus Desulfonatronum of as if.

Quasidesulfonauticus

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfonauticus*, An existing genus; *Quasidesulfonauticus*: A genus related to but distinct from the existing genus Desulfonauticus of as if.

Quasidesulfonema

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfonema*, An existing genus; *Quasidesulfonema*: A genus related to but distinct from the existing genus Desulfonema of as if.

Quasidesulfonispora

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfonispora*, An existing genus; *Quasidesulfonispora*: A genus related to but distinct from the existing genus Desulfonispora of as if.

Quasidesulfopila

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfopila*, An existing genus; *Quasidesulfopila*: A genus related to but distinct from the existing genus Desulfopila of as if.

Quasidesulfoplanes

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfoplanes*, An existing genus; *Quasidesulfoplanes*: A genus related to but distinct from the existing genus Desulfoplanes of as if.

Quasidesulfoprunum

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfoprunum*, An existing genus; *Quasidesulfoprunum*: A genus related to but distinct from the existing genus Desulfoprunum of as if.

Quasidesulforegula

L. nan conjunction *quasi*, as if; L. fem. n. *Desulforegula*, An existing genus; *Quasidesulforegula*: A genus related to but distinct from the existing genus Desulforegula of as if.

Quasidesulforhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Desulforhabdus*, An existing genus; *Quasidesulforhabdus*: A genus related to but distinct from the existing genus Desulforhabdus of as if.

Quasidesulforhopalus

L. nan conjunction *quasi*, as if; L. masc. n. *Desulforhopalus*, An existing genus; *Quasidesulforhopalus*: A genus related to but distinct from the existing genus Desulforhopalus of as if.

Quasidesulfosalsimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfosalsimonas*, An existing genus; *Quasidesulfosalsimonas*: A genus related to but distinct from the existing genus Desulfosalsimonas of as if.

Quasidesulfosarcina

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfosarcina*, An existing genus; *Quasidesulfosarcina*: A genus related to but distinct from the existing genus Desulfosarcina of as if.

Quasidesulfosoma

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfosoma*, An existing genus; *Quasidesulfosoma*: A genus related to but distinct from the existing genus Desulfosoma of as if.

Quasidesulfospira

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfospira*, An existing genus; *Quasidesulfospira*: A genus related to but distinct from the existing genus Desulfospira of as if.

Quasidesulfosporomusa

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfosporomusa*, An existing genus; *Quasidesulfosporomusa*: A genus related to but distinct from the existing genus Desulfosporomusa of as if.

Quasidesulfosporosinus

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfosporosinus*, An existing genus; *Quasidesulfosporosinus*: A genus related to but distinct from the existing genus Desulfosporosinus of as if.

Quasidesulfotalea

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfotalea*, An existing genus; *Quasidesulfotalea*: A genus related to but distinct from the existing genus Desulfotalea of as if.

Quasidesulfothermobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfothermobacter*, An existing genus; *Quasidesulfothermobacter*: A genus related to but distinct from the existing genus Desulfothermobacter of as if.

Quasidesulfothermus

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfothermus*, An existing genus; *Quasidesulfothermus*: A genus related to but distinct from the existing genus Desulfothermus of as if.

Quasidesulfotignum

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfotignum*, An existing genus; *Quasidesulfotignum*: A genus related to but distinct from the existing genus Desulfotignum of as if.

Quasidesulfotomaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfotomaculum*, An existing genus; *Quasidesulfotomaculum*: A genus related to but distinct from the existing genus Desulfotomaculum of as if.

Quasidesulfovermiculus

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfovermiculus*, An existing genus; *Quasidesulfovermiculus*: A genus related to but distinct from the existing genus Desulfovermiculus of as if.

Quasidesulfovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfovibrio*, An existing genus; *Quasidesulfovibrio*: A genus related to but distinct from the existing genus Desulfovibrio of as if.

Quasidesulfovirga

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfovirga*, An existing genus; *Quasidesulfovirga*: A genus related to but distinct from the existing genus Desulfovirga of as if.

Quasidesulfovirgula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Desulfovirgula*, An existing genus; *Quasidesulfovirgula*: A genus related to but distinct from the existing genus Desulfovirgula of as if.

Quasidesulfurella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Desulfurella*, An existing genus; *Quasidesulfurella*: A genus related to but distinct from the existing genus Desulfurella of as if.

Quasidesulfuribacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfuribacillus*, An existing genus; *Quasidesulfuribacillus*: A genus related to but distinct from the existing genus Desulfuribacillus of as if.

Quasidesulfurispira

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfurispira*, An existing genus; *Quasidesulfurispira*: A genus related to but distinct from the existing genus Desulfurispira of as if.

Quasidesulfurispirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Desulfurispirillum*, An existing genus; *Quasidesulfurispirillum*: A genus related to but distinct from the existing genus Desulfurispirillum of as if.

Quasidesulfurispora

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfurispora*, An existing genus; *Quasidesulfurispora*: A genus related to but distinct from the existing genus Desulfurispora of as if.

Quasidesulfurivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfurivibrio*, An existing genus; *Quasidesulfurivibrio*: A genus related to but distinct from the existing genus Desulfurivibrio of as if.

Quasidesulfurobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Desulfurobacterium*, An existing genus; *Quasidesulfurobacterium*: A genus related to but distinct from the existing genus Desulfurobacterium of as if.

Quasidesulfurococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Desulfurococcus*, An existing genus; *Quasidesulfurococcus*: A genus related to but distinct from the existing genus Desulfurococcus of as if.

Quasidesulfuromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfuromonas*, An existing genus; *Quasidesulfuromonas*: A genus related to but distinct from the existing genus Desulfuromonas of as if.

Quasidesulfuromusa

L. nan conjunction *quasi*, as if; L. fem. n. *Desulfuromusa*, An existing genus; *Quasidesulfuromusa*: A genus related to but distinct from the existing genus Desulfuromusa of as if.

Quasidethiobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Dethiobacter*, An existing genus; *Quasidethiobacter*: A genus related to but distinct from the existing genus Dethiobacter of as if.

Quasidethiosulfatarculus

L. nan conjunction *quasi*, as if; L. masc. dim. n. *Dethiosulfatarculus*, An existing genus; *Quasidethiosulfatarculus*: A genus related to but distinct from the existing genus Dethiosulfatarculus of as if.

Quasidethiosulfatibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Dethiosulfatibacter*, An existing genus; *Quasidethiosulfatibacter*: A genus related to but distinct from the existing genus Dethiosulfatibacter of as if.

Quasidethiosulfovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Dethiosulfovibrio*, An existing genus; *Quasidethiosulfovibrio*: A genus related to but distinct from the existing genus Dethiosulfovibrio of as if.

Quasidevosia

L. nan conjunction *quasi*, as if; L. fem. n. *Devosia*, An existing genus; *Quasidevosia*: A genus related to but distinct from the existing genus Devosia of as if.

Quasidevriesea

L. nan conjunction *quasi*, as if; L. fem. n. *Devriesea*, An existing genus; *Quasidevriesea*: A genus related to but distinct from the existing genus Devriesea of as if.

Quasidiaminobutyricibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Diaminobutyricibacter*, An existing genus; *Quasidiaminobutyricibacter*: A genus related to but distinct from the existing genus Diaminobutyricibacter of as if.

Quasidiaminobutyricimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Diaminobutyricimonas*, An existing genus; *Quasidiaminobutyricimonas*: A genus related to but distinct from the existing genus Diaminobutyricimonas of as if.

Quasidiaphorobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Diaphorobacter*, An existing genus; *Quasidiaphorobacter*: A genus related to but distinct from the existing genus Diaphorobacter of as if.

Quasidichelobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Dichelobacter*, An existing genus; *Quasidichelobacter*: A genus related to but distinct from the existing genus Dichelobacter of as if.

Quasidichotomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Dichotomicrobium*, An existing genus; *Quasidichotomicrobium*: A genus related to but distinct from the existing genus Dichotomicrobium of as if.

Quasidickeya

L. nan conjunction *quasi*, as if; L. fem. n. *Dickeya*, An existing genus; *Quasidickeya*: A genus related to but distinct from the existing genus Dickeya of as if.

Quasidictyobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Dictyobacter*, An existing genus; *Quasidictyobacter*: A genus related to but distinct from the existing genus Dictyobacter of as if.

Quasidictyoglomus

L. nan conjunction *quasi*, as if; L. neut. n. *Dictyoglomus*, An existing genus; *Quasidictyoglomus*: A genus related to but distinct from the existing genus Dictyoglomus of as if.

Quasidielma

L. nan conjunction *quasi*, as if; L. fem. n. *Dielma*, An existing genus; *Quasidielma*: A genus related to but distinct from the existing genus Dielma of as if.

Quasidietzia

L. nan conjunction *quasi*, as if; L. fem. n. *Dietzia*, An existing genus; *Quasidietzia*: A genus related to but distinct from the existing genus Dietzia of as if.

Quasidinghuibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Dinghuibacter*, An existing genus; *Quasidinghuibacter*: A genus related to but distinct from the existing genus Dinghuibacter of as if.

Quasidinoroseobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Dinoroseobacter*, An existing genus; *Quasidinoroseobacter*: A genus related to but distinct from the existing genus Dinoroseobacter of as if.

Quasidiplocalyx

L. nan conjunction *quasi*, as if; L. masc. n. *Diplocalyx*, An existing genus; *Quasidiplocalyx*: A genus related to but distinct from the existing genus Diplocalyx of as if.

Quasidiplorickettsia

L. nan conjunction *quasi*, as if; L. fem. n. *Diplorickettsia*, An existing genus; *Quasidiplorickettsia*: A genus related to but distinct from the existing genus Diplorickettsia of as if.

Quasidiplosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Diplosphaera*, An existing genus; *Quasidiplosphaera*: A genus related to but distinct from the existing genus Diplosphaera of as if.

Quasidissulfuribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Dissulfuribacter*, An existing genus; *Quasidissulfuribacter*: A genus related to but distinct from the existing genus Dissulfuribacter of as if.

Quasidissulfurimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Dissulfurimicrobium*, An existing genus; *Quasidissulfurimicrobium*: A genus related to but distinct from the existing genus Dissulfurimicrobium of as if.

Quasidissulfurirhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Dissulfurirhabdus*, An existing genus; *Quasidissulfurirhabdus*: A genus related to but distinct from the existing genus Dissulfurirhabdus of as if.

Quasidokdonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Dokdonella*, An existing genus; *Quasidokdonella*: A genus related to but distinct from the existing genus Dokdonella of as if.

Quasidokdonia

L. nan conjunction *quasi*, as if; L. fem. n. *Dokdonia*, An existing genus; *Quasidokdonia*: A genus related to but distinct from the existing genus Dokdonia of as if.

Quasidolosicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Dolosicoccus*, An existing genus; *Quasidolosicoccus*: A genus related to but distinct from the existing genus Dolosicoccus of as if.

Quasidolosigranulum

L. nan conjunction *quasi*, as if; L. neut. n. *Dolosigranulum*, An existing genus; *Quasidolosigranulum*: A genus related to but distinct from the existing genus Dolosigranulum of as if.

Quasidomibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Domibacillus*, An existing genus; *Quasidomibacillus*: A genus related to but distinct from the existing genus Domibacillus of as if.

Quasidonghaeana

L. nan conjunction *quasi*, as if; L. fem. n. *Donghaeana*, An existing genus; *Quasidonghaeana*: A genus related to but distinct from the existing genus Donghaeana of as if.

Quasidonghicola

L. nan conjunction *quasi*, as if; L. masc. n. *Donghicola*, An existing genus; *Quasidonghicola*: A genus related to but distinct from the existing genus Donghicola of as if.

Quasidongia

L. nan conjunction *quasi*, as if; L. fem. n. *Dongia*, An existing genus; *Quasidongia*: A genus related to but distinct from the existing genus Dongia of as if.

Quasidongshaea

L. nan conjunction *quasi*, as if; L. fem. n. *Dongshaea*, An existing genus; *Quasidongshaea*: A genus related to but distinct from the existing genus Dongshaea of as if.

Quasidorea

L. nan conjunction *quasi*, as if; L. fem. n. *Dorea*, An existing genus; *Quasidorea*: A genus related to but distinct from the existing genus Dorea of as if.

Quasidraconibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Draconibacterium*, An existing genus; *Quasidraconibacterium*: A genus related to but distinct from the existing genus Draconibacterium of as if.

Quasidrancourtella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Drancourtella*, An existing genus; *Quasidrancourtella*: A genus related to but distinct from the existing genus Drancourtella of as if.

Quasidrouetiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Drouetiella*, An existing genus; *Quasidrouetiella*: A genus related to but distinct from the existing genus Drouetiella of as if.

Quasidubosiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Dubosiella*, An existing genus; *Quasidubosiella*: A genus related to but distinct from the existing genus Dubosiella of as if.

Quasiduganella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Duganella*, An existing genus; *Quasiduganella*: A genus related to but distinct from the existing genus Duganella of as if.

Quasidulcicalothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Dulcicalothrix*, An existing genus; *Quasidulcicalothrix*: A genus related to but distinct from the existing genus Dulcicalothrix of as if.

Quasiduncaniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Duncaniella*, An existing genus; *Quasiduncaniella*: A genus related to but distinct from the existing genus Duncaniella of as if.

Quasidyadobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Dyadobacter*, An existing genus; *Quasidyadobacter*: A genus related to but distinct from the existing genus Dyadobacter of as if.

Quasidyella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Dyella*, An existing genus; *Quasidyella*: A genus related to but distinct from the existing genus Dyella of as if.

Quasidysgonomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Dysgonomonas*, An existing genus; *Quasidysgonomonas*: A genus related to but distinct from the existing genus Dysgonomonas of as if.

Quasidysosmobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Dysosmobacter*, An existing genus; *Quasidysosmobacter*: A genus related to but distinct from the existing genus Dysosmobacter of as if.

Quasiechinicola

L. nan conjunction *quasi*, as if; L. fem. n. *Echinicola*, An existing genus; *Quasiechinicola*: A genus related to but distinct from the existing genus Echinicola of as if.

Quasiechinimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Echinimonas*, An existing genus; *Quasiechinimonas*: A genus related to but distinct from the existing genus Echinimonas of as if.

Quasiectothiorhodosinus

L. nan conjunction *quasi*, as if; L. masc. n. *Ectothiorhodosinus*, An existing genus; *Quasiectothiorhodosinus*: A genus related to but distinct from the existing genus Ectothiorhodosinus of as if.

Quasiectothiorhodospira

L. nan conjunction *quasi*, as if; L. fem. n. *Ectothiorhodospira*, An existing genus; *Quasiectothiorhodospira*: A genus related to but distinct from the existing genus Ectothiorhodospira of as if.

Quasiedaphobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Edaphobacillus*, An existing genus; *Quasiedaphobacillus*: A genus related to but distinct from the existing genus Edaphobacillus of as if.

Quasiedaphobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Edaphobacter*, An existing genus; *Quasiedaphobacter*: A genus related to but distinct from the existing genus Edaphobacter of as if.

Quasiedaphocola

L. nan conjunction *quasi*, as if; L. masc. n. *Edaphocola*, An existing genus; *Quasiedaphocola*: A genus related to but distinct from the existing genus Edaphocola of as if.

Quasiedwardiiplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Edwardiiplasma*, An existing genus; *Quasiedwardiiplasma*: A genus related to but distinct from the existing genus Edwardiiplasma of as if.

Quasiedwardsiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Edwardsiella*, An existing genus; *Quasiedwardsiella*: A genus related to but distinct from the existing genus Edwardsiella of as if.

Quasieffluviibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Effluviibacter*, An existing genus; *Quasieffluviibacter*: A genus related to but distinct from the existing genus Effluviibacter of as if.

Quasieffusibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Effusibacillus*, An existing genus; *Quasieffusibacillus*: A genus related to but distinct from the existing genus Effusibacillus of as if.

Quasieggerthella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Eggerthella*, An existing genus; *Quasieggerthella*: A genus related to but distinct from the existing genus Eggerthella of as if.

Quasieggerthia

L. nan conjunction *quasi*, as if; L. fem. n. *Eggerthia*, An existing genus; *Quasieggerthia*: A genus related to but distinct from the existing genus Eggerthia of as if.

Quasiegibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Egibacter*, An existing genus; *Quasiegibacter*: A genus related to but distinct from the existing genus Egibacter of as if.

Quasiegicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Egicoccus*, An existing genus; *Quasiegicoccus*: A genus related to but distinct from the existing genus Egicoccus of as if.

Quasiehrlichia

L. nan conjunction *quasi*, as if; L. fem. n. *Ehrlichia*, An existing genus; *Quasiehrlichia*: A genus related to but distinct from the existing genus Ehrlichia of as if.

Quasieikenella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Eikenella*, An existing genus; *Quasieikenella*: A genus related to but distinct from the existing genus Eikenella of as if.

Quasieilatimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Eilatimonas*, An existing genus; *Quasieilatimonas*: A genus related to but distinct from the existing genus Eilatimonas of as if.

Quasieionea

L. nan conjunction *quasi*, as if; L. fem. n. *Eionea*, An existing genus; *Quasieionea*: A genus related to but distinct from the existing genus Eionea of as if.

Quasieisenbergiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Eisenbergiella*, An existing genus; *Quasieisenbergiella*: A genus related to but distinct from the existing genus Eisenbergiella of as if.

Quasieisenibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Eisenibacter*, An existing genus; *Quasieisenibacter*: A genus related to but distinct from the existing genus Eisenibacter of as if.

Quasielainella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Elainella*, An existing genus; *Quasielainella*: A genus related to but distinct from the existing genus Elainella of as if.

Quasielioraea

L. nan conjunction *quasi*, as if; L. fem. n. *Elioraea*, An existing genus; *Quasielioraea*: A genus related to but distinct from the existing genus Elioraea of as if.

Quasielizabethkingia

L. nan conjunction *quasi*, as if; L. fem. n. *Elizabethkingia*, An existing genus; *Quasielizabethkingia*: A genus related to but distinct from the existing genus Elizabethkingia of as if.

Quasiellagibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Ellagibacter*, An existing genus; *Quasiellagibacter*: A genus related to but distinct from the existing genus Ellagibacter of as if.

Quasielstera

L. nan conjunction *quasi*, as if; L. fem. n. *Elstera*, An existing genus; *Quasielstera*: A genus related to but distinct from the existing genus Elstera of as if.

Quasielusimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Elusimicrobium*, An existing genus; *Quasielusimicrobium*: A genus related to but distinct from the existing genus Elusimicrobium of as if.

Quasielytrosporangium

L. nan conjunction *quasi*, as if; L. neut. n. *Elytrosporangium*, An existing genus; *Quasielytrosporangium*: A genus related to but distinct from the existing genus Elytrosporangium of as if.

Quasiembleya

L. nan conjunction *quasi*, as if; L. fem. n. *Embleya*, An existing genus; *Quasiembleya*: A genus related to but distinct from the existing genus Embleya of as if.

Quasiemcibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Emcibacter*, An existing genus; *Quasiemcibacter*: A genus related to but distinct from the existing genus Emcibacter of as if.

Quasiempedobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Empedobacter*, An existing genus; *Quasiempedobacter*: A genus related to but distinct from the existing genus Empedobacter of as if.

Quasiemticicia

L. nan conjunction *quasi*, as if; L. fem. n. *Emticicia*, An existing genus; *Quasiemticicia*: A genus related to but distinct from the existing genus Emticicia of as if.

Quasiendobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Endobacter*, An existing genus; *Quasiendobacter*: A genus related to but distinct from the existing genus Endobacter of as if.

Quasiendobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Endobacterium*, An existing genus; *Quasiendobacterium*: A genus related to but distinct from the existing genus Endobacterium of as if.

Quasiendomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Endomicrobium*, An existing genus; *Quasiendomicrobium*: A genus related to but distinct from the existing genus Endomicrobium of as if.

Quasiendothiovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Endothiovibrio*, An existing genus; *Quasiendothiovibrio*: A genus related to but distinct from the existing genus Endothiovibrio of as if.

Quasiendozoicomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Endozoicomonas*, An existing genus; *Quasiendozoicomonas*: A genus related to but distinct from the existing genus Endozoicomonas of as if.

Quasienhydrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Enhydrobacter*, An existing genus; *Quasienhydrobacter*: A genus related to but distinct from the existing genus Enhydrobacter of as if.

Quasienhygromyxa

L. nan conjunction *quasi*, as if; L. fem. n. *Enhygromyxa*, An existing genus; *Quasienhygromyxa*: A genus related to but distinct from the existing genus Enhygromyxa of as if.

Quasienorma

L. nan conjunction *quasi*, as if; L. fem. n. *Enorma*, An existing genus; *Quasienorma*: A genus related to but distinct from the existing genus Enorma of as if.

Quasiensifer

L. nan conjunction *quasi*, as if; L. masc. n. *Ensifer*, An existing genus; *Quasiensifer*: A genus related to but distinct from the existing genus Ensifer of as if.

Quasienteractinococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Enteractinococcus*, An existing genus; *Quasienteractinococcus*: A genus related to but distinct from the existing genus Enteractinococcus of as if.

Quasienterobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Enterobacter*, An existing genus; *Quasienterobacter*: A genus related to but distinct from the existing genus Enterobacter of as if.

Quasienterocloster

L. nan conjunction *quasi*, as if; L. masc. n. *Enterocloster*, An existing genus; *Quasienterocloster*: A genus related to but distinct from the existing genus Enterocloster of as if.

Quasienterococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Enterococcus*, An existing genus; *Quasienterococcus*: A genus related to but distinct from the existing genus Enterococcus of as if.

Quasienterorhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Enterorhabdus*, An existing genus; *Quasienterorhabdus*: A genus related to but distinct from the existing genus Enterorhabdus of as if.

Quasienteroscipio

L. nan conjunction *quasi*, as if; L. masc. n. *Enteroscipio*, An existing genus; *Quasienteroscipio*: A genus related to but distinct from the existing genus Enteroscipio of as if.

Quasienterovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Enterovibrio*, An existing genus; *Quasienterovibrio*: A genus related to but distinct from the existing genus Enterovibrio of as if.

Quasientomomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Entomomonas*, An existing genus; *Quasientomomonas*: A genus related to but distinct from the existing genus Entomomonas of as if.

Quasientomoplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Entomoplasma*, An existing genus; *Quasientomoplasma*: A genus related to but distinct from the existing genus Entomoplasma of as if.

Quasieperythrozoon

L. nan conjunction *quasi*, as if; L. neut. n. *Eperythrozoon*, An existing genus; *Quasieperythrozoon*: A genus related to but distinct from the existing genus Eperythrozoon of as if.

Quasiephemeroptericola

L. nan conjunction *quasi*, as if; L. masc. n. *Ephemeroptericola*, An existing genus; *Quasiephemeroptericola*: A genus related to but distinct from the existing genus Ephemeroptericola of as if.

Quasiepibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Epibacterium*, An existing genus; *Quasiepibacterium*: A genus related to but distinct from the existing genus Epibacterium of as if.

Quasiepidermidibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Epidermidibacterium*, An existing genus; *Quasiepidermidibacterium*: A genus related to but distinct from the existing genus Epidermidibacterium of as if.

Quasiepigloeosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Epigloeosphaera*, An existing genus; *Quasiepigloeosphaera*: A genus related to but distinct from the existing genus Epigloeosphaera of as if.

Quasiepilithonimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Epilithonimonas*, An existing genus; *Quasiepilithonimonas*: A genus related to but distinct from the existing genus Epilithonimonas of as if.

Quasiercella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Ercella*, An existing genus; *Quasiercella*: A genus related to but distinct from the existing genus Ercella of as if.

Quasiereboglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Ereboglobus*, An existing genus; *Quasiereboglobus*: A genus related to but distinct from the existing genus Ereboglobus of as if.

Quasieremococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Eremococcus*, An existing genus; *Quasieremococcus*: A genus related to but distinct from the existing genus Eremococcus of as if.

Quasierwinia

L. nan conjunction *quasi*, as if; L. fem. n. *Erwinia*, An existing genus; *Quasierwinia*: A genus related to but distinct from the existing genus Erwinia of as if.

Quasierysipelothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Erysipelothrix*, An existing genus; *Quasierysipelothrix*: A genus related to but distinct from the existing genus Erysipelothrix of as if.

Quasierythrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Erythrobacter*, An existing genus; *Quasierythrobacter*: A genus related to but distinct from the existing genus Erythrobacter of as if.

Quasierythromicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Erythromicrobium*, An existing genus; *Quasierythromicrobium*: A genus related to but distinct from the existing genus Erythromicrobium of as if.

Quasierythromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Erythromonas*, An existing genus; *Quasierythromonas*: A genus related to but distinct from the existing genus Erythromonas of as if.

Quasiescherichia

L. nan conjunction *quasi*, as if; L. fem. n. *Escherichia*, An existing genus; *Quasiescherichia*: A genus related to but distinct from the existing genus Escherichia of as if.

Quasiethanoligenens

L. nan conjunction *quasi*, as if; L. neut. n. *Ethanoligenens*, An existing genus; *Quasiethanoligenens*: A genus related to but distinct from the existing genus Ethanoligenens of as if.

Quasieubacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Eubacterium*, An existing genus; *Quasieubacterium*: A genus related to but distinct from the existing genus Eubacterium of as if.

Quasieucapsis

L. nan conjunction *quasi*, as if; L. fem. n. *Eucapsis*, An existing genus; *Quasieucapsis*: A genus related to but distinct from the existing genus Eucapsis of as if.

Quasieudoraea

L. nan conjunction *quasi*, as if; L. fem. n. *Eudoraea*, An existing genus; *Quasieudoraea*: A genus related to but distinct from the existing genus Eudoraea of as if.

Quasieuryhalocaulis

L. nan conjunction *quasi*, as if; L. masc. n. *Euryhalocaulis*, An existing genus; *Quasieuryhalocaulis*: A genus related to but distinct from the existing genus Euryhalocaulis of as if.

Quasieuzebya

L. nan conjunction *quasi*, as if; L. fem. n. *Euzebya*, An existing genus; *Quasieuzebya*: A genus related to but distinct from the existing genus Euzebya of as if.

Quasieuzebyella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Euzebyella*, An existing genus; *Quasieuzebyella*: A genus related to but distinct from the existing genus Euzebyella of as if.

Quasiewamiania

L. nan conjunction *quasi*, as if; L. fem. n. *Ewamiania*, An existing genus; *Quasiewamiania*: A genus related to but distinct from the existing genus Ewamiania of as if.

Quasiewingella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Ewingella*, An existing genus; *Quasiewingella*: A genus related to but distinct from the existing genus Ewingella of as if.

Quasiexcellospora

L. nan conjunction *quasi*, as if; L. fem. n. *Excellospora*, An existing genus; *Quasiexcellospora*: A genus related to but distinct from the existing genus Excellospora of as if.

Quasiexilibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Exilibacterium*, An existing genus; *Quasiexilibacterium*: A genus related to but distinct from the existing genus Exilibacterium of as if.

Quasiexilispira

L. nan conjunction *quasi*, as if; L. fem. n. *Exilispira*, An existing genus; *Quasiexilispira*: A genus related to but distinct from the existing genus Exilispira of as if.

Quasiextensimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Extensimonas*, An existing genus; *Quasiextensimonas*: A genus related to but distinct from the existing genus Extensimonas of as if.

Quasiextibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Extibacter*, An existing genus; *Quasiextibacter*: A genus related to but distinct from the existing genus Extibacter of as if.

Quasifabibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Fabibacter*, An existing genus; *Quasifabibacter*: A genus related to but distinct from the existing genus Fabibacter of as if.

Quasifabivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Fabivirga*, An existing genus; *Quasifabivirga*: A genus related to but distinct from the existing genus Fabivirga of as if.

Quasifacilibium

L. nan conjunction *quasi*, as if; L. neut. n. *Facilibium*, An existing genus; *Quasifacilibium*: A genus related to but distinct from the existing genus Facilibium of as if.

Quasifacklamia

L. nan conjunction *quasi*, as if; L. fem. n. *Facklamia*, An existing genus; *Quasifacklamia*: A genus related to but distinct from the existing genus Facklamia of as if.

Quasifaecalibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Faecalibacillus*, An existing genus; *Quasifaecalibacillus*: A genus related to but distinct from the existing genus Faecalibacillus of as if.

Quasifaecalibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Faecalibacter*, An existing genus; *Quasifaecalibacter*: A genus related to but distinct from the existing genus Faecalibacter of as if.

Quasifaecalibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Faecalibacterium*, An existing genus; *Quasifaecalibacterium*: A genus related to but distinct from the existing genus Faecalibacterium of as if.

Quasifaecalibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Faecalibaculum*, An existing genus; *Quasifaecalibaculum*: A genus related to but distinct from the existing genus Faecalibaculum of as if.

Quasifaecalicatena

L. nan conjunction *quasi*, as if; L. fem. n. *Faecalicatena*, An existing genus; *Quasifaecalicatena*: A genus related to but distinct from the existing genus Faecalicatena of as if.

Quasifaecalicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Faecalicoccus*, An existing genus; *Quasifaecalicoccus*: A genus related to but distinct from the existing genus Faecalicoccus of as if.

Quasifaecalimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Faecalimonas*, An existing genus; *Quasifaecalimonas*: A genus related to but distinct from the existing genus Faecalimonas of as if.

Quasifaecalitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Faecalitalea*, An existing genus; *Quasifaecalitalea*: A genus related to but distinct from the existing genus Faecalitalea of as if.

Quasifaenia

L. nan conjunction *quasi*, as if; L. fem. n. *Faenia*, An existing genus; *Quasifaenia*: A genus related to but distinct from the existing genus Faenia of as if.

Quasifalcatimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Falcatimonas*, An existing genus; *Quasifalcatimonas*: A genus related to but distinct from the existing genus Falcatimonas of as if.

Quasifalsarthrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Falsarthrobacter*, An existing genus; *Quasifalsarthrobacter*: A genus related to but distinct from the existing genus Falsarthrobacter of as if.

Quasifalsibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Falsibacillus*, An existing genus; *Quasifalsibacillus*: A genus related to but distinct from the existing genus Falsibacillus of as if.

Quasifalsigemmobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Falsigemmobacter*, An existing genus; *Quasifalsigemmobacter*: A genus related to but distinct from the existing genus Falsigemmobacter of as if.

Quasifalsiporphyromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Falsiporphyromonas*, An existing genus; *Quasifalsiporphyromonas*: A genus related to but distinct from the existing genus Falsiporphyromonas of as if.

Quasifalsirhodobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Falsirhodobacter*, An existing genus; *Quasifalsirhodobacter*: A genus related to but distinct from the existing genus Falsirhodobacter of as if.

Quasifalsochrobactrum

L. nan conjunction *quasi*, as if; L. neut. n. *Falsochrobactrum*, An existing genus; *Quasifalsochrobactrum*: A genus related to but distinct from the existing genus Falsochrobactrum of as if.

Quasifangia

L. nan conjunction *quasi*, as if; L. fem. n. *Fangia*, An existing genus; *Quasifangia*: A genus related to but distinct from the existing genus Fangia of as if.

Quasifannyhessea

L. nan conjunction *quasi*, as if; L. fem. n. *Fannyhessea*, An existing genus; *Quasifannyhessea*: A genus related to but distinct from the existing genus Fannyhessea of as if.

Quasifastidiosipila

L. nan conjunction *quasi*, as if; L. fem. n. *Fastidiosipila*, An existing genus; *Quasifastidiosipila*: A genus related to but distinct from the existing genus Fastidiosipila of as if.

Quasifaucicola

L. nan conjunction *quasi*, as if; L. fem. n. *Faucicola*, An existing genus; *Quasifaucicola*: A genus related to but distinct from the existing genus Faucicola of as if.

Quasifeifantangia

L. nan conjunction *quasi*, as if; L. fem. n. *Feifantangia*, An existing genus; *Quasifeifantangia*: A genus related to but distinct from the existing genus Feifantangia of as if.

Quasifenollaria

L. nan conjunction *quasi*, as if; L. fem. n. *Fenollaria*, An existing genus; *Quasifenollaria*: A genus related to but distinct from the existing genus Fenollaria of as if.

Quasifermentibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Fermentibacillus*, An existing genus; *Quasifermentibacillus*: A genus related to but distinct from the existing genus Fermentibacillus of as if.

Quasifermentimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Fermentimonas*, An existing genus; *Quasifermentimonas*: A genus related to but distinct from the existing genus Fermentimonas of as if.

Quasiferribacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Ferribacterium*, An existing genus; *Quasiferribacterium*: A genus related to but distinct from the existing genus Ferribacterium of as if.

Quasiferrigenium

L. nan conjunction *quasi*, as if; L. neut. n. *Ferrigenium*, An existing genus; *Quasiferrigenium*: A genus related to but distinct from the existing genus Ferrigenium of as if.

Quasiferrimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Ferrimicrobium*, An existing genus; *Quasiferrimicrobium*: A genus related to but distinct from the existing genus Ferrimicrobium of as if.

Quasiferrimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Ferrimonas*, An existing genus; *Quasiferrimonas*: A genus related to but distinct from the existing genus Ferrimonas of as if.

Quasiferriphaselus

L. nan conjunction *quasi*, as if; L. masc. n. *Ferriphaselus*, An existing genus; *Quasiferriphaselus*: A genus related to but distinct from the existing genus Ferriphaselus of as if.

Quasiferrithrix

L. nan conjunction *quasi*, as if; L. fem. n. *Ferrithrix*, An existing genus; *Quasiferrithrix*: A genus related to but distinct from the existing genus Ferrithrix of as if.

Quasiferroglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Ferroglobus*, An existing genus; *Quasiferroglobus*: A genus related to but distinct from the existing genus Ferroglobus of as if.

Quasiferroplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Ferroplasma*, An existing genus; *Quasiferroplasma*: A genus related to but distinct from the existing genus Ferroplasma of as if.

Quasiferrovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Ferrovibrio*, An existing genus; *Quasiferrovibrio*: A genus related to but distinct from the existing genus Ferrovibrio of as if.

Quasiferruginibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Ferruginibacter*, An existing genus; *Quasiferruginibacter*: A genus related to but distinct from the existing genus Ferruginibacter of as if.

Quasiferruginivarius

L. nan conjunction *quasi*, as if; L. masc. n. *Ferruginivarius*, An existing genus; *Quasiferruginivarius*: A genus related to but distinct from the existing genus Ferruginivarius of as if.

Quasifervidicella

L. nan conjunction *quasi*, as if; L. fem. n. *Fervidicella*, An existing genus; *Quasifervidicella*: A genus related to but distinct from the existing genus Fervidicella of as if.

Quasifervidicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Fervidicoccus*, An existing genus; *Quasifervidicoccus*: A genus related to but distinct from the existing genus Fervidicoccus of as if.

Quasifervidicola

L. nan conjunction *quasi*, as if; L. masc. n. *Fervidicola*, An existing genus; *Quasifervidicola*: A genus related to but distinct from the existing genus Fervidicola of as if.

Quasifervidobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Fervidobacterium*, An existing genus; *Quasifervidobacterium*: A genus related to but distinct from the existing genus Fervidobacterium of as if.

Quasifibrella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Fibrella*, An existing genus; *Quasifibrella*: A genus related to but distinct from the existing genus Fibrella of as if.

Quasifibrisoma

L. nan conjunction *quasi*, as if; L. neut. n. *Fibrisoma*, An existing genus; *Quasifibrisoma*: A genus related to but distinct from the existing genus Fibrisoma of as if.

Quasifibrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Fibrobacter*, An existing genus; *Quasifibrobacter*: A genus related to but distinct from the existing genus Fibrobacter of as if.

Quasifictibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Fictibacillus*, An existing genus; *Quasifictibacillus*: A genus related to but distinct from the existing genus Fictibacillus of as if.

Quasifilibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Filibacter*, An existing genus; *Quasifilibacter*: A genus related to but distinct from the existing genus Filibacter of as if.

Quasifilifactor

L. nan conjunction *quasi*, as if; L. masc. n. *Filifactor*, An existing genus; *Quasifilifactor*: A genus related to but distinct from the existing genus Filifactor of as if.

Quasifilimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Filimonas*, An existing genus; *Quasifilimonas*: A genus related to but distinct from the existing genus Filimonas of as if.

Quasifilobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Filobacillus*, An existing genus; *Quasifilobacillus*: A genus related to but distinct from the existing genus Filobacillus of as if.

Quasifilobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Filobacterium*, An existing genus; *Quasifilobacterium*: A genus related to but distinct from the existing genus Filobacterium of as if.

Quasifilomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Filomicrobium*, An existing genus; *Quasifilomicrobium*: A genus related to but distinct from the existing genus Filomicrobium of as if.

Quasifimbriiglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Fimbriiglobus*, An existing genus; *Quasifimbriiglobus*: A genus related to but distinct from the existing genus Fimbriiglobus of as if.

Quasifimbriimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Fimbriimonas*, An existing genus; *Quasifimbriimonas*: A genus related to but distinct from the existing genus Fimbriimonas of as if.

Quasifinegoldia

L. nan conjunction *quasi*, as if; L. fem. n. *Finegoldia*, An existing genus; *Quasifinegoldia*: A genus related to but distinct from the existing genus Finegoldia of as if.

Quasiflagellimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Flagellimonas*, An existing genus; *Quasiflagellimonas*: A genus related to but distinct from the existing genus Flagellimonas of as if.

Quasiflammeovirga

L. nan conjunction *quasi*, as if; L. fem. n. *Flammeovirga*, An existing genus; *Quasiflammeovirga*: A genus related to but distinct from the existing genus Flammeovirga of as if.

Quasiflaviaesturariibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Flaviaesturariibacter*, An existing genus; *Quasiflaviaesturariibacter*: A genus related to but distinct from the existing genus Flaviaesturariibacter of as if.

Quasiflavicella

L. nan conjunction *quasi*, as if; L. fem. n. *Flavicella*, An existing genus; *Quasiflavicella*: A genus related to but distinct from the existing genus Flavicella of as if.

Quasiflaviflagellibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Flaviflagellibacter*, An existing genus; *Quasiflaviflagellibacter*: A genus related to but distinct from the existing genus Flaviflagellibacter of as if.

Quasiflaviflexus

L. nan conjunction *quasi*, as if; L. masc. n. *Flaviflexus*, An existing genus; *Quasiflaviflexus*: A genus related to but distinct from the existing genus Flaviflexus of as if.

Quasiflavihumibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Flavihumibacter*, An existing genus; *Quasiflavihumibacter*: A genus related to but distinct from the existing genus Flavihumibacter of as if.

Quasiflavilitoribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Flavilitoribacter*, An existing genus; *Quasiflavilitoribacter*: A genus related to but distinct from the existing genus Flavilitoribacter of as if.

Quasiflavimaricola

L. nan conjunction *quasi*, as if; L. masc. n. *Flavimaricola*, An existing genus; *Quasiflavimaricola*: A genus related to but distinct from the existing genus Flavimaricola of as if.

Quasiflavimarina

L. nan conjunction *quasi*, as if; L. fem. n. *Flavimarina*, An existing genus; *Quasiflavimarina*: A genus related to but distinct from the existing genus Flavimarina of as if.

Quasiflavimobilis

L. nan conjunction *quasi*, as if; L. masc. n. *Flavimobilis*, An existing genus; *Quasiflavimobilis*: A genus related to but distinct from the existing genus Flavimobilis of as if.

Quasiflavimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Flavimonas*, An existing genus; *Quasiflavimonas*: A genus related to but distinct from the existing genus Flavimonas of as if.

Quasiflavipsychrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Flavipsychrobacter*, An existing genus; *Quasiflavipsychrobacter*: A genus related to but distinct from the existing genus Flavipsychrobacter of as if.

Quasiflaviramulus

L. nan conjunction *quasi*, as if; L. masc. dim. n. *Flaviramulus*, An existing genus; *Quasiflaviramulus*: A genus related to but distinct from the existing genus Flaviramulus of as if.

Quasiflavirhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Flavirhabdus*, An existing genus; *Quasiflavirhabdus*: A genus related to but distinct from the existing genus Flavirhabdus of as if.

Quasiflavisolibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Flavisolibacter*, An existing genus; *Quasiflavisolibacter*: A genus related to but distinct from the existing genus Flavisolibacter of as if.

Quasiflavitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Flavitalea*, An existing genus; *Quasiflavitalea*: A genus related to but distinct from the existing genus Flavitalea of as if.

Quasiflavivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Flavivirga*, An existing genus; *Quasiflavivirga*: A genus related to but distinct from the existing genus Flavivirga of as if.

Quasiflavobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Flavobacterium*, An existing genus; *Quasiflavobacterium*: A genus related to but distinct from the existing genus Flavobacterium of as if.

Quasiflavonifractor

L. nan conjunction *quasi*, as if; L. masc. n. *Flavonifractor*, An existing genus; *Quasiflavonifractor*: A genus related to but distinct from the existing genus Flavonifractor of as if.

Quasiflectobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Flectobacillus*, An existing genus; *Quasiflectobacillus*: A genus related to but distinct from the existing genus Flectobacillus of as if.

Quasiflexibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Flexibacter*, An existing genus; *Quasiflexibacter*: A genus related to but distinct from the existing genus Flexibacter of as if.

Quasiflexilinea

L. nan conjunction *quasi*, as if; L. fem. n. *Flexilinea*, An existing genus; *Quasiflexilinea*: A genus related to but distinct from the existing genus Flexilinea of as if.

Quasiflexistipes

L. nan conjunction *quasi*, as if; L. masc. n. *Flexistipes*, An existing genus; *Quasiflexistipes*: A genus related to but distinct from the existing genus Flexistipes of as if.

Quasiflexithrix

L. nan conjunction *quasi*, as if; L. fem. n. *Flexithrix*, An existing genus; *Quasiflexithrix*: A genus related to but distinct from the existing genus Flexithrix of as if.

Quasiflexivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Flexivirga*, An existing genus; *Quasiflexivirga*: A genus related to but distinct from the existing genus Flexivirga of as if.

Quasiflindersiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Flindersiella*, An existing genus; *Quasiflindersiella*: A genus related to but distinct from the existing genus Flindersiella of as if.

Quasiflintibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Flintibacter*, An existing genus; *Quasiflintibacter*: A genus related to but distinct from the existing genus Flintibacter of as if.

Quasifloricoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Floricoccus*, An existing genus; *Quasifloricoccus*: A genus related to but distinct from the existing genus Floricoccus of as if.

Quasifluoribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Fluoribacter*, An existing genus; *Quasifluoribacter*: A genus related to but distinct from the existing genus Fluoribacter of as if.

Quasifluviibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Fluviibacterium*, An existing genus; *Quasifluviibacterium*: A genus related to but distinct from the existing genus Fluviibacterium of as if.

Quasifluviicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Fluviicoccus*, An existing genus; *Quasifluviicoccus*: A genus related to but distinct from the existing genus Fluviicoccus of as if.

Quasifluviicola

L. nan conjunction *quasi*, as if; L. masc. n. *Fluviicola*, An existing genus; *Quasifluviicola*: A genus related to but distinct from the existing genus Fluviicola of as if.

Quasifluviimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Fluviimonas*, An existing genus; *Quasifluviimonas*: A genus related to but distinct from the existing genus Fluviimonas of as if.

Quasifluviispira

L. nan conjunction *quasi*, as if; L. fem. n. *Fluviispira*, An existing genus; *Quasifluviispira*: A genus related to but distinct from the existing genus Fluviispira of as if.

Quasifodinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Fodinibacter*, An existing genus; *Quasifodinibacter*: A genus related to but distinct from the existing genus Fodinibacter of as if.

Quasifodinibius

L. nan conjunction *quasi*, as if; L. masc. n. *Fodinibius*, An existing genus; *Quasifodinibius*: A genus related to but distinct from the existing genus Fodinibius of as if.

Quasifodinicola

L. nan conjunction *quasi*, as if; L. masc. n. *Fodinicola*, An existing genus; *Quasifodinicola*: A genus related to but distinct from the existing genus Fodinicola of as if.

Quasifodinicurvata

L. nan conjunction *quasi*, as if; L. fem. n. *Fodinicurvata*, An existing genus; *Quasifodinicurvata*: A genus related to but distinct from the existing genus Fodinicurvata of as if.

Quasifoliisarcina

L. nan conjunction *quasi*, as if; L. fem. n. *Foliisarcina*, An existing genus; *Quasifoliisarcina*: A genus related to but distinct from the existing genus Foliisarcina of as if.

Quasifontibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Fontibacillus*, An existing genus; *Quasifontibacillus*: A genus related to but distinct from the existing genus Fontibacillus of as if.

Quasifontibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Fontibacter*, An existing genus; *Quasifontibacter*: A genus related to but distinct from the existing genus Fontibacter of as if.

Quasifonticella

L. nan conjunction *quasi*, as if; L. fem. n. *Fonticella*, An existing genus; *Quasifonticella*: A genus related to but distinct from the existing genus Fonticella of as if.

Quasifontimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Fontimonas*, An existing genus; *Quasifontimonas*: A genus related to but distinct from the existing genus Fontimonas of as if.

Quasiformivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Formivibrio*, An existing genus; *Quasiformivibrio*: A genus related to but distinct from the existing genus Formivibrio of as if.

Quasiformosa

L. nan conjunction *quasi*, as if; L. fem. n. *Formosa*, An existing genus; *Quasiformosa*: A genus related to but distinct from the existing genus Formosa of as if.

Quasiformosimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Formosimonas*, An existing genus; *Quasiformosimonas*: A genus related to but distinct from the existing genus Formosimonas of as if.

Quasifournierella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Fournierella*, An existing genus; *Quasifournierella*: A genus related to but distinct from the existing genus Fournierella of as if.

Quasifrancisella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Francisella*, An existing genus; *Quasifrancisella*: A genus related to but distinct from the existing genus Francisella of as if.

Quasifranconibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Franconibacter*, An existing genus; *Quasifranconibacter*: A genus related to but distinct from the existing genus Franconibacter of as if.

Quasifrankia

L. nan conjunction *quasi*, as if; L. fem. n. *Frankia*, An existing genus; *Quasifrankia*: A genus related to but distinct from the existing genus Frankia of as if.

Quasifrateuria

L. nan conjunction *quasi*, as if; L. fem. n. *Frateuria*, An existing genus; *Quasifrateuria*: A genus related to but distinct from the existing genus Frateuria of as if.

Quasifrederiksenia

L. nan conjunction *quasi*, as if; L. fem. n. *Frederiksenia*, An existing genus; *Quasifrederiksenia*: A genus related to but distinct from the existing genus Frederiksenia of as if.

Quasifretibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Fretibacter*, An existing genus; *Quasifretibacter*: A genus related to but distinct from the existing genus Fretibacter of as if.

Quasifretibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Fretibacterium*, An existing genus; *Quasifretibacterium*: A genus related to but distinct from the existing genus Fretibacterium of as if.

Quasifriedmanniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Friedmanniella*, An existing genus; *Quasifriedmanniella*: A genus related to but distinct from the existing genus Friedmanniella of as if.

Quasifrigidibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Frigidibacter*, An existing genus; *Quasifrigidibacter*: A genus related to but distinct from the existing genus Frigidibacter of as if.

Quasifrigoribacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Frigoribacterium*, An existing genus; *Quasifrigoribacterium*: A genus related to but distinct from the existing genus Frigoribacterium of as if.

Quasifrischella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Frischella*, An existing genus; *Quasifrischella*: A genus related to but distinct from the existing genus Frischella of as if.

Quasifrisingicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Frisingicoccus*, An existing genus; *Quasifrisingicoccus*: A genus related to but distinct from the existing genus Frisingicoccus of as if.

Quasifrondibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Frondibacter*, An existing genus; *Quasifrondibacter*: A genus related to but distinct from the existing genus Frondibacter of as if.

Quasifrondicola

L. nan conjunction *quasi*, as if; L. masc. n. *Frondicola*, An existing genus; *Quasifrondicola*: A genus related to but distinct from the existing genus Frondicola of as if.

Quasifrondihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Frondihabitans*, An existing genus; *Quasifrondihabitans*: A genus related to but distinct from the existing genus Frondihabitans of as if.

Quasifructilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Fructilactobacillus*, An existing genus; *Quasifructilactobacillus*: A genus related to but distinct from the existing genus Fructilactobacillus of as if.

Quasifructobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Fructobacillus*, An existing genus; *Quasifructobacillus*: A genus related to but distinct from the existing genus Fructobacillus of as if.

Quasifuchsiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Fuchsiella*, An existing genus; *Quasifuchsiella*: A genus related to but distinct from the existing genus Fuchsiella of as if.

Quasifudania

L. nan conjunction *quasi*, as if; L. fem. n. *Fudania*, An existing genus; *Quasifudania*: A genus related to but distinct from the existing genus Fudania of as if.

Quasifuerstia

L. nan conjunction *quasi*, as if; L. fem. n. *Fuerstia*, An existing genus; *Quasifuerstia*: A genus related to but distinct from the existing genus Fuerstia of as if.

Quasifulvibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Fulvibacter*, An existing genus; *Quasifulvibacter*: A genus related to but distinct from the existing genus Fulvibacter of as if.

Quasifulvimarina

L. nan conjunction *quasi*, as if; L. fem. n. *Fulvimarina*, An existing genus; *Quasifulvimarina*: A genus related to but distinct from the existing genus Fulvimarina of as if.

Quasifulvimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Fulvimonas*, An existing genus; *Quasifulvimonas*: A genus related to but distinct from the existing genus Fulvimonas of as if.

Quasifulvitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Fulvitalea*, An existing genus; *Quasifulvitalea*: A genus related to but distinct from the existing genus Fulvitalea of as if.

Quasifulvivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Fulvivirga*, An existing genus; *Quasifulvivirga*: A genus related to but distinct from the existing genus Fulvivirga of as if.

Quasifundibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Fundibacter*, An existing genus; *Quasifundibacter*: A genus related to but distinct from the existing genus Fundibacter of as if.

Quasifundicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Fundicoccus*, An existing genus; *Quasifundicoccus*: A genus related to but distinct from the existing genus Fundicoccus of as if.

Quasifurfurilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Furfurilactobacillus*, An existing genus; *Quasifurfurilactobacillus*: A genus related to but distinct from the existing genus Furfurilactobacillus of as if.

Quasifuscovulum

L. nan conjunction *quasi*, as if; L. neut. n. *Fuscovulum*, An existing genus; *Quasifuscovulum*: A genus related to but distinct from the existing genus Fuscovulum of as if.

Quasifusibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Fusibacter*, An existing genus; *Quasifusibacter*: A genus related to but distinct from the existing genus Fusibacter of as if.

Quasifusicatenibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Fusicatenibacter*, An existing genus; *Quasifusicatenibacter*: A genus related to but distinct from the existing genus Fusicatenibacter of as if.

Quasifusimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Fusimonas*, An existing genus; *Quasifusimonas*: A genus related to but distinct from the existing genus Fusimonas of as if.

Quasifusobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Fusobacterium*, An existing genus; *Quasifusobacterium*: A genus related to but distinct from the existing genus Fusobacterium of as if.

Quasigabonia

L. nan conjunction *quasi*, as if; L. fem. n. *Gabonia*, An existing genus; *Quasigabonia*: A genus related to but distinct from the existing genus Gabonia of as if.

Quasigabonibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Gabonibacter*, An existing genus; *Quasigabonibacter*: A genus related to but distinct from the existing genus Gabonibacter of as if.

Quasigaetbulibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Gaetbulibacter*, An existing genus; *Quasigaetbulibacter*: A genus related to but distinct from the existing genus Gaetbulibacter of as if.

Quasigaetbulicola

L. nan conjunction *quasi*, as if; L. masc. n. *Gaetbulicola*, An existing genus; *Quasigaetbulicola*: A genus related to but distinct from the existing genus Gaetbulicola of as if.

Quasigaetbulimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Gaetbulimicrobium*, An existing genus; *Quasigaetbulimicrobium*: A genus related to but distinct from the existing genus Gaetbulimicrobium of as if.

Quasigaiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Gaiella*, An existing genus; *Quasigaiella*: A genus related to but distinct from the existing genus Gaiella of as if.

Quasigalbibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Galbibacter*, An existing genus; *Quasigalbibacter*: A genus related to but distinct from the existing genus Galbibacter of as if.

Quasigalbitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Galbitalea*, An existing genus; *Quasigalbitalea*: A genus related to but distinct from the existing genus Galbitalea of as if.

Quasigallaecimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Gallaecimonas*, An existing genus; *Quasigallaecimonas*: A genus related to but distinct from the existing genus Gallaecimonas of as if.

Quasigallibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Gallibacterium*, An existing genus; *Quasigallibacterium*: A genus related to but distinct from the existing genus Gallibacterium of as if.

Quasigallicola

L. nan conjunction *quasi*, as if; L. masc. n. *Gallicola*, An existing genus; *Quasigallicola*: A genus related to but distinct from the existing genus Gallicola of as if.

Quasigallionella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Gallionella*, An existing genus; *Quasigallionella*: A genus related to but distinct from the existing genus Gallionella of as if.

Quasigalliscardovia

L. nan conjunction *quasi*, as if; L. fem. n. *Galliscardovia*, An existing genus; *Quasigalliscardovia*: A genus related to but distinct from the existing genus Galliscardovia of as if.

Quasigandjariella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Gandjariella*, An existing genus; *Quasigandjariella*: A genus related to but distinct from the existing genus Gandjariella of as if.

Quasigangjinia

L. nan conjunction *quasi*, as if; L. fem. n. *Gangjinia*, An existing genus; *Quasigangjinia*: A genus related to but distinct from the existing genus Gangjinia of as if.

Quasigarciella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Garciella*, An existing genus; *Quasigarciella*: A genus related to but distinct from the existing genus Garciella of as if.

Quasigardnerella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Gardnerella*, An existing genus; *Quasigardnerella*: A genus related to but distinct from the existing genus Gardnerella of as if.

Quasigaricola

L. nan conjunction *quasi*, as if; L. masc. n. *Garicola*, An existing genus; *Quasigaricola*: A genus related to but distinct from the existing genus Garicola of as if.

Quasigarritya

L. nan conjunction *quasi*, as if; L. fem. n. *Garritya*, An existing genus; *Quasigarritya*: A genus related to but distinct from the existing genus Garritya of as if.

Quasigayadomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Gayadomonas*, An existing genus; *Quasigayadomonas*: A genus related to but distinct from the existing genus Gayadomonas of as if.

Quasigelatiniphilus

L. nan conjunction *quasi*, as if; L. masc. n. *Gelatiniphilus*, An existing genus; *Quasigelatiniphilus*: A genus related to but distinct from the existing genus Gelatiniphilus of as if.

Quasigelidibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Gelidibacter*, An existing genus; *Quasigelidibacter*: A genus related to but distinct from the existing genus Gelidibacter of as if.

Quasigellertiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Gellertiella*, An existing genus; *Quasigellertiella*: A genus related to but distinct from the existing genus Gellertiella of as if.

Quasigelria

L. nan conjunction *quasi*, as if; L. fem. n. *Gelria*, An existing genus; *Quasigelria*: A genus related to but distinct from the existing genus Gelria of as if.

Quasigemella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Gemella*, An existing genus; *Quasigemella*: A genus related to but distinct from the existing genus Gemella of as if.

Quasigeminicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Geminicoccus*, An existing genus; *Quasigeminicoccus*: A genus related to but distinct from the existing genus Geminicoccus of as if.

Quasigeminisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Geminisphaera*, An existing genus; *Quasigeminisphaera*: A genus related to but distinct from the existing genus Geminisphaera of as if.

Quasigeminobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Geminobacterium*, An existing genus; *Quasigeminobacterium*: A genus related to but distinct from the existing genus Geminobacterium of as if.

Quasigemmata

L. nan conjunction *quasi*, as if; L. fem. n. *Gemmata*, An existing genus; *Quasigemmata*: A genus related to but distinct from the existing genus Gemmata of as if.

Quasigemmatimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Gemmatimonas*, An existing genus; *Quasigemmatimonas*: A genus related to but distinct from the existing genus Gemmatimonas of as if.

Quasigemmatirosa

L. nan conjunction *quasi*, as if; L. fem. n. *Gemmatirosa*, An existing genus; *Quasigemmatirosa*: A genus related to but distinct from the existing genus Gemmatirosa of as if.

Quasigemmiger

L. nan conjunction *quasi*, as if; L. masc. n. *Gemmiger*, An existing genus; *Quasigemmiger*: A genus related to but distinct from the existing genus Gemmiger of as if.

Quasigeoalkalibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Geoalkalibacter*, An existing genus; *Quasigeoalkalibacter*: A genus related to but distinct from the existing genus Geoalkalibacter of as if.

Quasigeobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Geobacillus*, An existing genus; *Quasigeobacillus*: A genus related to but distinct from the existing genus Geobacillus of as if.

Quasigeobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Geobacter*, An existing genus; *Quasigeobacter*: A genus related to but distinct from the existing genus Geobacter of as if.

Quasigeodermatophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Geodermatophilus*, An existing genus; *Quasigeodermatophilus*: A genus related to but distinct from the existing genus Geodermatophilus of as if.

Quasigeofilum

L. nan conjunction *quasi*, as if; L. neut. n. *Geofilum*, An existing genus; *Quasigeofilum*: A genus related to but distinct from the existing genus Geofilum of as if.

Quasigeoglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Geoglobus*, An existing genus; *Quasigeoglobus*: A genus related to but distinct from the existing genus Geoglobus of as if.

Quasigeojedonia

L. nan conjunction *quasi*, as if; L. fem. n. *Geojedonia*, An existing genus; *Quasigeojedonia*: A genus related to but distinct from the existing genus Geojedonia of as if.

Quasigeomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Geomicrobium*, An existing genus; *Quasigeomicrobium*: A genus related to but distinct from the existing genus Geomicrobium of as if.

Quasigeomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Geomonas*, An existing genus; *Quasigeomonas*: A genus related to but distinct from the existing genus Geomonas of as if.

Quasigeopsychrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Geopsychrobacter*, An existing genus; *Quasigeopsychrobacter*: A genus related to but distinct from the existing genus Geopsychrobacter of as if.

Quasigeorgenia

L. nan conjunction *quasi*, as if; L. fem. n. *Georgenia*, An existing genus; *Quasigeorgenia*: A genus related to but distinct from the existing genus Georgenia of as if.

Quasigeorgfuchsia

L. nan conjunction *quasi*, as if; L. fem. n. *Georgfuchsia*, An existing genus; *Quasigeorgfuchsia*: A genus related to but distinct from the existing genus Georgfuchsia of as if.

Quasigeorhizobium

L. nan conjunction *quasi*, as if; L. neut. n. *Georhizobium*, An existing genus; *Quasigeorhizobium*: A genus related to but distinct from the existing genus Georhizobium of as if.

Quasigeosporobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Geosporobacter*, An existing genus; *Quasigeosporobacter*: A genus related to but distinct from the existing genus Geosporobacter of as if.

Quasigeothermobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Geothermobacter*, An existing genus; *Quasigeothermobacter*: A genus related to but distinct from the existing genus Geothermobacter of as if.

Quasigeothermobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Geothermobacterium*, An existing genus; *Quasigeothermobacterium*: A genus related to but distinct from the existing genus Geothermobacterium of as if.

Quasigeothermomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Geothermomicrobium*, An existing genus; *Quasigeothermomicrobium*: A genus related to but distinct from the existing genus Geothermomicrobium of as if.

Quasigeothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Geothrix*, An existing genus; *Quasigeothrix*: A genus related to but distinct from the existing genus Geothrix of as if.

Quasigeotoga

L. nan conjunction *quasi*, as if; L. fem. n. *Geotoga*, An existing genus; *Quasigeotoga*: A genus related to but distinct from the existing genus Geotoga of as if.

Quasigeovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Geovibrio*, An existing genus; *Quasigeovibrio*: A genus related to but distinct from the existing genus Geovibrio of as if.

Quasighiorsea

L. nan conjunction *quasi*, as if; L. fem. n. *Ghiorsea*, An existing genus; *Quasighiorsea*: A genus related to but distinct from the existing genus Ghiorsea of as if.

Quasigibbsiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Gibbsiella*, An existing genus; *Quasigibbsiella*: A genus related to but distinct from the existing genus Gibbsiella of as if.

Quasigiesbergeria

L. nan conjunction *quasi*, as if; L. fem. n. *Giesbergeria*, An existing genus; *Quasigiesbergeria*: A genus related to but distinct from the existing genus Giesbergeria of as if.

Quasigilliamella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Gilliamella*, An existing genus; *Quasigilliamella*: A genus related to but distinct from the existing genus Gilliamella of as if.

Quasigillisia

L. nan conjunction *quasi*, as if; L. fem. n. *Gillisia*, An existing genus; *Quasigillisia*: A genus related to but distinct from the existing genus Gillisia of as if.

Quasigilvibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Gilvibacter*, An existing genus; *Quasigilvibacter*: A genus related to but distinct from the existing genus Gilvibacter of as if.

Quasigilvimarinus

L. nan conjunction *quasi*, as if; L. masc. n. *Gilvimarinus*, An existing genus; *Quasigilvimarinus*: A genus related to but distinct from the existing genus Gilvimarinus of as if.

Quasigimesia

L. nan conjunction *quasi*, as if; L. fem. n. *Gimesia*, An existing genus; *Quasigimesia*: A genus related to but distinct from the existing genus Gimesia of as if.

Quasiglaciecola

L. nan conjunction *quasi*, as if; L. fem. n. *Glaciecola*, An existing genus; *Quasiglaciecola*: A genus related to but distinct from the existing genus Glaciecola of as if.

Quasiglaciibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Glaciibacter*, An existing genus; *Quasiglaciibacter*: A genus related to but distinct from the existing genus Glaciibacter of as if.

Quasiglaciihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Glaciihabitans*, An existing genus; *Quasiglaciihabitans*: A genus related to but distinct from the existing genus Glaciihabitans of as if.

Quasiglaciimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Glaciimonas*, An existing genus; *Quasiglaciimonas*: A genus related to but distinct from the existing genus Glaciimonas of as if.

Quasiglaesserella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Glaesserella*, An existing genus; *Quasiglaesserella*: A genus related to but distinct from the existing genus Glaesserella of as if.

Quasigleimia

L. nan conjunction *quasi*, as if; L. fem. n. *Gleimia*, An existing genus; *Quasigleimia*: A genus related to but distinct from the existing genus Gleimia of as if.

Quasiglobicatella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Globicatella*, An existing genus; *Quasiglobicatella*: A genus related to but distinct from the existing genus Globicatella of as if.

Quasigloeobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Gloeobacter*, An existing genus; *Quasigloeobacter*: A genus related to but distinct from the existing genus Gloeobacter of as if.

Quasigloeomargarita

L. nan conjunction *quasi*, as if; L. fem. n. *Gloeomargarita*, An existing genus; *Quasigloeomargarita*: A genus related to but distinct from the existing genus Gloeomargarita of as if.

Quasiglucerabacter

L. nan conjunction *quasi*, as if; L. masc. n. *Glucerabacter*, An existing genus; *Quasiglucerabacter*: A genus related to but distinct from the existing genus Glucerabacter of as if.

Quasigluconacetobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Gluconacetobacter*, An existing genus; *Quasigluconacetobacter*: A genus related to but distinct from the existing genus Gluconacetobacter of as if.

Quasigluconobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Gluconobacter*, An existing genus; *Quasigluconobacter*: A genus related to but distinct from the existing genus Gluconobacter of as if.

Quasiglutamicibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Glutamicibacter*, An existing genus; *Quasiglutamicibacter*: A genus related to but distinct from the existing genus Glutamicibacter of as if.

Quasiglycocaulis

L. nan conjunction *quasi*, as if; L. masc. n. *Glycocaulis*, An existing genus; *Quasiglycocaulis*: A genus related to but distinct from the existing genus Glycocaulis of as if.

Quasiglycomyces

L. nan conjunction *quasi*, as if; L. masc. n. *Glycomyces*, An existing genus; *Quasiglycomyces*: A genus related to but distinct from the existing genus Glycomyces of as if.

Quasigodleya

L. nan conjunction *quasi*, as if; L. fem. n. *Godleya*, An existing genus; *Quasigodleya*: A genus related to but distinct from the existing genus Godleya of as if.

Quasigomontiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Gomontiella*, An existing genus; *Quasigomontiella*: A genus related to but distinct from the existing genus Gomontiella of as if.

Quasigoodfellowia

L. nan conjunction *quasi*, as if; L. fem. n. *Goodfellowia*, An existing genus; *Quasigoodfellowia*: A genus related to but distinct from the existing genus Goodfellowia of as if.

Quasigoodfellowiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Goodfellowiella*, An existing genus; *Quasigoodfellowiella*: A genus related to but distinct from the existing genus Goodfellowiella of as if.

Quasigordona

L. nan conjunction *quasi*, as if; L. fem. n. *Gordona*, An existing genus; *Quasigordona*: A genus related to but distinct from the existing genus Gordona of as if.

Quasigordonia

L. nan conjunction *quasi*, as if; L. fem. n. *Gordonia*, An existing genus; *Quasigordonia*: A genus related to but distinct from the existing genus Gordonia of as if.

Quasigordonibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Gordonibacter*, An existing genus; *Quasigordonibacter*: A genus related to but distinct from the existing genus Gordonibacter of as if.

Quasigorillibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Gorillibacterium*, An existing genus; *Quasigorillibacterium*: A genus related to but distinct from the existing genus Gorillibacterium of as if.

Quasigottschalkia

L. nan conjunction *quasi*, as if; L. fem. n. *Gottschalkia*, An existing genus; *Quasigottschalkia*: A genus related to but distinct from the existing genus Gottschalkia of as if.

Quasigracilibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Gracilibacillus*, An existing genus; *Quasigracilibacillus*: A genus related to but distinct from the existing genus Gracilibacillus of as if.

Quasigracilibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Gracilibacter*, An existing genus; *Quasigracilibacter*: A genus related to but distinct from the existing genus Gracilibacter of as if.

Quasigracilimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Gracilimonas*, An existing genus; *Quasigracilimonas*: A genus related to but distinct from the existing genus Gracilimonas of as if.

Quasigrahamella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Grahamella*, An existing genus; *Quasigrahamella*: A genus related to but distinct from the existing genus Grahamella of as if.

Quasigramella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Gramella*, An existing genus; *Quasigramella*: A genus related to but distinct from the existing genus Gramella of as if.

Quasigranulibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Granulibacter*, An existing genus; *Quasigranulibacter*: A genus related to but distinct from the existing genus Granulibacter of as if.

Quasigranulicella

L. nan conjunction *quasi*, as if; L. fem. n. *Granulicella*, An existing genus; *Quasigranulicella*: A genus related to but distinct from the existing genus Granulicella of as if.

Quasigranulicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Granulicoccus*, An existing genus; *Quasigranulicoccus*: A genus related to but distinct from the existing genus Granulicoccus of as if.

Quasigranulosicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Granulosicoccus*, An existing genus; *Quasigranulosicoccus*: A genus related to but distinct from the existing genus Granulosicoccus of as if.

Quasigrimontia

L. nan conjunction *quasi*, as if; L. fem. n. *Grimontia*, An existing genus; *Quasigrimontia*: A genus related to but distinct from the existing genus Grimontia of as if.

Quasigryllotalpicola

L. nan conjunction *quasi*, as if; L. masc. n. *Gryllotalpicola*, An existing genus; *Quasigryllotalpicola*: A genus related to but distinct from the existing genus Gryllotalpicola of as if.

Quasigudongella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Gudongella*, An existing genus; *Quasigudongella*: A genus related to but distinct from the existing genus Gudongella of as if.

Quasiguggenheimella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Guggenheimella*, An existing genus; *Quasiguggenheimella*: A genus related to but distinct from the existing genus Guggenheimella of as if.

Quasigulbenkiania

L. nan conjunction *quasi*, as if; L. fem. n. *Gulbenkiania*, An existing genus; *Quasigulbenkiania*: A genus related to but distinct from the existing genus Gulbenkiania of as if.

Quasigulosibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Gulosibacter*, An existing genus; *Quasigulosibacter*: A genus related to but distinct from the existing genus Gulosibacter of as if.

Quasiguyparkeria

L. nan conjunction *quasi*, as if; L. fem. n. *Guyparkeria*, An existing genus; *Quasiguyparkeria*: A genus related to but distinct from the existing genus Guyparkeria of as if.

Quasigynuella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Gynuella*, An existing genus; *Quasigynuella*: A genus related to but distinct from the existing genus Gynuella of as if.

Quasigynurincola

L. nan conjunction *quasi*, as if; L. masc. n. *Gynurincola*, An existing genus; *Quasigynurincola*: A genus related to but distinct from the existing genus Gynurincola of as if.

Quasihaematomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Haematomicrobium*, An existing genus; *Quasihaematomicrobium*: A genus related to but distinct from the existing genus Haematomicrobium of as if.

Quasihaemobartonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Haemobartonella*, An existing genus; *Quasihaemobartonella*: A genus related to but distinct from the existing genus Haemobartonella of as if.

Quasihaemophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Haemophilus*, An existing genus; *Quasihaemophilus*: A genus related to but distinct from the existing genus Haemophilus of as if.

Quasihahella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Hahella*, An existing genus; *Quasihahella*: A genus related to but distinct from the existing genus Hahella of as if.

Quasihahyoungchilella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Hahyoungchilella*, An existing genus; *Quasihahyoungchilella*: A genus related to but distinct from the existing genus Hahyoungchilella of as if.

Quasihaladaptatus

L. nan conjunction *quasi*, as if; L. masc. n. *Haladaptatus*, An existing genus; *Quasihaladaptatus*: A genus related to but distinct from the existing genus Haladaptatus of as if.

Quasihalalkaliarchaeum

L. nan conjunction *quasi*, as if; L. neut. n. *Halalkaliarchaeum*, An existing genus; *Quasihalalkaliarchaeum*: A genus related to but distinct from the existing genus Halalkaliarchaeum of as if.

Quasihalalkalibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Halalkalibacillus*, An existing genus; *Quasihalalkalibacillus*: A genus related to but distinct from the existing genus Halalkalibacillus of as if.

Quasihalalkalicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Halalkalicoccus*, An existing genus; *Quasihalalkalicoccus*: A genus related to but distinct from the existing genus Halalkalicoccus of as if.

Quasihalanaeroarchaeum

L. nan conjunction *quasi*, as if; L. neut. n. *Halanaeroarchaeum*, An existing genus; *Quasihalanaeroarchaeum*: A genus related to but distinct from the existing genus Halanaeroarchaeum of as if.

Quasihalanaerobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Halanaerobacter*, An existing genus; *Quasihalanaerobacter*: A genus related to but distinct from the existing genus Halanaerobacter of as if.

Quasihalanaerobium

L. nan conjunction *quasi*, as if; L. neut. n. *Halanaerobium*, An existing genus; *Quasihalanaerobium*: A genus related to but distinct from the existing genus Halanaerobium of as if.

Quasihalanaerocella

L. nan conjunction *quasi*, as if; L. fem. n. *Halanaerocella*, An existing genus; *Quasihalanaerocella*: A genus related to but distinct from the existing genus Halanaerocella of as if.

Quasihalapricum

L. nan conjunction *quasi*, as if; L. neut. n. *Halapricum*, An existing genus; *Quasihalapricum*: A genus related to but distinct from the existing genus Halapricum of as if.

Quasihalarchaeum

L. nan conjunction *quasi*, as if; L. neut. n. *Halarchaeum*, An existing genus; *Quasihalarchaeum*: A genus related to but distinct from the existing genus Halarchaeum of as if.

Quasihalarsenatibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Halarsenatibacter*, An existing genus; *Quasihalarsenatibacter*: A genus related to but distinct from the existing genus Halarsenatibacter of as if.

Quasihalegenticoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Halegenticoccus*, An existing genus; *Quasihalegenticoccus*: A genus related to but distinct from the existing genus Halegenticoccus of as if.

Quasihaliangium

L. nan conjunction *quasi*, as if; L. neut. n. *Haliangium*, An existing genus; *Quasihaliangium*: A genus related to but distinct from the existing genus Haliangium of as if.

Quasihaliea

L. nan conjunction *quasi*, as if; L. fem. n. *Haliea*, An existing genus; *Quasihaliea*: A genus related to but distinct from the existing genus Haliea of as if.

Quasihalioglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Halioglobus*, An existing genus; *Quasihalioglobus*: A genus related to but distinct from the existing genus Halioglobus of as if.

Quasihalioxenophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Halioxenophilus*, An existing genus; *Quasihalioxenophilus*: A genus related to but distinct from the existing genus Halioxenophilus of as if.

Quasihaliscomenobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Haliscomenobacter*, An existing genus; *Quasihaliscomenobacter*: A genus related to but distinct from the existing genus Haliscomenobacter of as if.

Quasihallella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Hallella*, An existing genus; *Quasihallella*: A genus related to but distinct from the existing genus Hallella of as if.

Quasihaloactinobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Haloactinobacterium*, An existing genus; *Quasihaloactinobacterium*: A genus related to but distinct from the existing genus Haloactinobacterium of as if.

Quasihaloactinomyces

L. nan conjunction *quasi*, as if; L. masc. n. *Haloactinomyces*, An existing genus; *Quasihaloactinomyces*: A genus related to but distinct from the existing genus Haloactinomyces of as if.

Quasihaloactinopolyspora

L. nan conjunction *quasi*, as if; L. fem. n. *Haloactinopolyspora*, An existing genus; *Quasihaloactinopolyspora*: A genus related to but distinct from the existing genus Haloactinopolyspora of as if.

Quasihaloactinospora

L. nan conjunction *quasi*, as if; L. fem. n. *Haloactinospora*, An existing genus; *Quasihaloactinospora*: A genus related to but distinct from the existing genus Haloactinospora of as if.

Quasihaloarchaeobius

L. nan conjunction *quasi*, as if; L. masc. n. *Haloarchaeobius*, An existing genus; *Quasihaloarchaeobius*: A genus related to but distinct from the existing genus Haloarchaeobius of as if.

Quasihaloarcula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Haloarcula*, An existing genus; *Quasihaloarcula*: A genus related to but distinct from the existing genus Haloarcula of as if.

Quasihalobacteriovorax

L. nan conjunction *quasi*, as if; L. masc. n. *Halobacteriovorax*, An existing genus; *Quasihalobacteriovorax*: A genus related to but distinct from the existing genus Halobacteriovorax of as if.

Quasihalobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Halobacterium*, An existing genus; *Quasihalobacterium*: A genus related to but distinct from the existing genus Halobacterium of as if.

Quasihalobacteroides

L. nan conjunction *quasi*, as if; L. masc. n. *Halobacteroides*, An existing genus; *Quasihalobacteroides*: A genus related to but distinct from the existing genus Halobacteroides of as if.

Quasihalobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Halobaculum*, An existing genus; *Quasihalobaculum*: A genus related to but distinct from the existing genus Halobaculum of as if.

Quasihalobellus

L. nan conjunction *quasi*, as if; L. masc. n. *Halobellus*, An existing genus; *Quasihalobellus*: A genus related to but distinct from the existing genus Halobellus of as if.

Quasihalobiforma

L. nan conjunction *quasi*, as if; L. fem. n. *Halobiforma*, An existing genus; *Quasihalobiforma*: A genus related to but distinct from the existing genus Halobiforma of as if.

Quasihalobium

L. nan conjunction *quasi*, as if; L. neut. n. *Halobium*, An existing genus; *Quasihalobium*: A genus related to but distinct from the existing genus Halobium of as if.

Quasihalocalculus

L. nan conjunction *quasi*, as if; L. masc. n. *Halocalculus*, An existing genus; *Quasihalocalculus*: A genus related to but distinct from the existing genus Halocalculus of as if.

Quasihalocella

L. nan conjunction *quasi*, as if; L. fem. n. *Halocella*, An existing genus; *Quasihalocella*: A genus related to but distinct from the existing genus Halocella of as if.

Quasihalochromatium

L. nan conjunction *quasi*, as if; L. neut. n. *Halochromatium*, An existing genus; *Quasihalochromatium*: A genus related to but distinct from the existing genus Halochromatium of as if.

Quasihalococcoides

L. nan conjunction *quasi*, as if; L. neut. n. *Halococcoides*, An existing genus; *Quasihalococcoides*: A genus related to but distinct from the existing genus Halococcoides of as if.

Quasihalococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Halococcus*, An existing genus; *Quasihalococcus*: A genus related to but distinct from the existing genus Halococcus of as if.

Quasihalocynthiibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Halocynthiibacter*, An existing genus; *Quasihalocynthiibacter*: A genus related to but distinct from the existing genus Halocynthiibacter of as if.

Quasihalodesulfovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Halodesulfovibrio*, An existing genus; *Quasihalodesulfovibrio*: A genus related to but distinct from the existing genus Halodesulfovibrio of as if.

Quasihalodesulfurarchaeum

L. nan conjunction *quasi*, as if; L. neut. n. *Halodesulfurarchaeum*, An existing genus; *Quasihalodesulfurarchaeum*: A genus related to but distinct from the existing genus Halodesulfurarchaeum of as if.

Quasihalodurantibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Halodurantibacterium*, An existing genus; *Quasihalodurantibacterium*: A genus related to but distinct from the existing genus Halodurantibacterium of as if.

Quasihaloechinothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Haloechinothrix*, An existing genus; *Quasihaloechinothrix*: A genus related to but distinct from the existing genus Haloechinothrix of as if.

Quasihaloferax

L. nan conjunction *quasi*, as if; L. neut. n. *Haloferax*, An existing genus; *Quasihaloferax*: A genus related to but distinct from the existing genus Haloferax of as if.

Quasihaloferula

L. nan conjunction *quasi*, as if; L. fem. n. *Haloferula*, An existing genus; *Quasihaloferula*: A genus related to but distinct from the existing genus Haloferula of as if.

Quasihalofilum

L. nan conjunction *quasi*, as if; L. neut. n. *Halofilum*, An existing genus; *Quasihalofilum*: A genus related to but distinct from the existing genus Halofilum of as if.

Quasihaloflavibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Haloflavibacter*, An existing genus; *Quasihaloflavibacter*: A genus related to but distinct from the existing genus Haloflavibacter of as if.

Quasihalogeometricum

L. nan conjunction *quasi*, as if; L. neut. n. *Halogeometricum*, An existing genus; *Quasihalogeometricum*: A genus related to but distinct from the existing genus Halogeometricum of as if.

Quasihaloglycomyces

L. nan conjunction *quasi*, as if; L. masc. n. *Haloglycomyces*, An existing genus; *Quasihaloglycomyces*: A genus related to but distinct from the existing genus Haloglycomyces of as if.

Quasihalogranum

L. nan conjunction *quasi*, as if; L. neut. n. *Halogranum*, An existing genus; *Quasihalogranum*: A genus related to but distinct from the existing genus Halogranum of as if.

Quasihalohasta

L. nan conjunction *quasi*, as if; L. fem. n. *Halohasta*, An existing genus; *Quasihalohasta*: A genus related to but distinct from the existing genus Halohasta of as if.

Quasihaloimpatiens

L. nan conjunction *quasi*, as if; L. masc. n. *Haloimpatiens*, An existing genus; *Quasihaloimpatiens*: A genus related to but distinct from the existing genus Haloimpatiens of as if.

Quasihaloincola

L. nan conjunction *quasi*, as if; L. masc. n. *Haloincola*, An existing genus; *Quasihaloincola*: A genus related to but distinct from the existing genus Haloincola of as if.

Quasihalolactibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Halolactibacillus*, An existing genus; *Quasihalolactibacillus*: A genus related to but distinct from the existing genus Halolactibacillus of as if.

Quasihalolamina

L. nan conjunction *quasi*, as if; L. fem. n. *Halolamina*, An existing genus; *Quasihalolamina*: A genus related to but distinct from the existing genus Halolamina of as if.

Quasihaloleptolyngbya

L. nan conjunction *quasi*, as if; L. fem. n. *Haloleptolyngbya*, An existing genus; *Quasihaloleptolyngbya*: A genus related to but distinct from the existing genus Haloleptolyngbya of as if.

Quasihalomarina

L. nan conjunction *quasi*, as if; L. fem. n. *Halomarina*, An existing genus; *Quasihalomarina*: A genus related to but distinct from the existing genus Halomarina of as if.

Quasihalomethanococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Halomethanococcus*, An existing genus; *Quasihalomethanococcus*: A genus related to but distinct from the existing genus Halomethanococcus of as if.

Quasihalomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Halomicrobium*, An existing genus; *Quasihalomicrobium*: A genus related to but distinct from the existing genus Halomicrobium of as if.

Quasihalomicrococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Halomicrococcus*, An existing genus; *Quasihalomicrococcus*: A genus related to but distinct from the existing genus Halomicrococcus of as if.

Quasihalomicronema

L. nan conjunction *quasi*, as if; L. neut. n. *Halomicronema*, An existing genus; *Quasihalomicronema*: A genus related to but distinct from the existing genus Halomicronema of as if.

Quasihalomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Halomonas*, An existing genus; *Quasihalomonas*: A genus related to but distinct from the existing genus Halomonas of as if.

Quasihalonatronum

L. nan conjunction *quasi*, as if; L. neut. n. *Halonatronum*, An existing genus; *Quasihalonatronum*: A genus related to but distinct from the existing genus Halonatronum of as if.

Quasihalonotius

L. nan conjunction *quasi*, as if; L. masc. n. *Halonotius*, An existing genus; *Quasihalonotius*: A genus related to but distinct from the existing genus Halonotius of as if.

Quasihaloparvum

L. nan conjunction *quasi*, as if; L. neut. n. *Haloparvum*, An existing genus; *Quasihaloparvum*: A genus related to but distinct from the existing genus Haloparvum of as if.

Quasihalopelagius

L. nan conjunction *quasi*, as if; L. masc. n. *Halopelagius*, An existing genus; *Quasihalopelagius*: A genus related to but distinct from the existing genus Halopelagius of as if.

Quasihalopenitus

L. nan conjunction *quasi*, as if; L. masc. n. *Halopenitus*, An existing genus; *Quasihalopenitus*: A genus related to but distinct from the existing genus Halopenitus of as if.

Quasihalopeptonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Halopeptonella*, An existing genus; *Quasihalopeptonella*: A genus related to but distinct from the existing genus Halopeptonella of as if.

Quasihalopiger

L. nan conjunction *quasi*, as if; L. masc. n. *Halopiger*, An existing genus; *Quasihalopiger*: A genus related to but distinct from the existing genus Halopiger of as if.

Quasihaloplanus

L. nan conjunction *quasi*, as if; L. masc. n. *Haloplanus*, An existing genus; *Quasihaloplanus*: A genus related to but distinct from the existing genus Haloplanus of as if.

Quasihaloplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Haloplasma*, An existing genus; *Quasihaloplasma*: A genus related to but distinct from the existing genus Haloplasma of as if.

Quasihalopolyspora

L. nan conjunction *quasi*, as if; L. fem. n. *Halopolyspora*, An existing genus; *Quasihalopolyspora*: A genus related to but distinct from the existing genus Halopolyspora of as if.

Quasihaloprofundus

L. nan conjunction *quasi*, as if; L. masc. n. *Haloprofundus*, An existing genus; *Quasihaloprofundus*: A genus related to but distinct from the existing genus Haloprofundus of as if.

Quasihaloquadratum

L. nan conjunction *quasi*, as if; L. neut. n. *Haloquadratum*, An existing genus; *Quasihaloquadratum*: A genus related to but distinct from the existing genus Haloquadratum of as if.

Quasihalorhodospira

L. nan conjunction *quasi*, as if; L. fem. n. *Halorhodospira*, An existing genus; *Quasihalorhodospira*: A genus related to but distinct from the existing genus Halorhodospira of as if.

Quasihalorientalis

L. nan conjunction *quasi*, as if; L. fem. n. *Halorientalis*, An existing genus; *Quasihalorientalis*: A genus related to but distinct from the existing genus Halorientalis of as if.

Quasihalorubellus

L. nan conjunction *quasi*, as if; L. masc. n. *Halorubellus*, An existing genus; *Quasihalorubellus*: A genus related to but distinct from the existing genus Halorubellus of as if.

Quasihalorubrobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Halorubrobacterium*, An existing genus; *Quasihalorubrobacterium*: A genus related to but distinct from the existing genus Halorubrobacterium of as if.

Quasihalorubrum

L. nan conjunction *quasi*, as if; L. neut. n. *Halorubrum*, An existing genus; *Quasihalorubrum*: A genus related to but distinct from the existing genus Halorubrum of as if.

Quasihalorussus

L. nan conjunction *quasi*, as if; L. masc. n. *Halorussus*, An existing genus; *Quasihalorussus*: A genus related to but distinct from the existing genus Halorussus of as if.

Quasihalosarcina

L. nan conjunction *quasi*, as if; L. fem. n. *Halosarcina*, An existing genus; *Quasihalosarcina*: A genus related to but distinct from the existing genus Halosarcina of as if.

Quasihalosiccatus

L. nan conjunction *quasi*, as if; L. masc. n. *Halosiccatus*, An existing genus; *Quasihalosiccatus*: A genus related to but distinct from the existing genus Halosiccatus of as if.

Quasihalosimplex

L. nan conjunction *quasi*, as if; L. neut. n. *Halosimplex*, An existing genus; *Quasihalosimplex*: A genus related to but distinct from the existing genus Halosimplex of as if.

Quasihalospina

L. nan conjunction *quasi*, as if; L. fem. n. *Halospina*, An existing genus; *Quasihalospina*: A genus related to but distinct from the existing genus Halospina of as if.

Quasihalospirulina

L. nan conjunction *quasi*, as if; L. fem. n. *Halospirulina*, An existing genus; *Quasihalospirulina*: A genus related to but distinct from the existing genus Halospirulina of as if.

Quasihalostagnicola

L. nan conjunction *quasi*, as if; L. fem. n. *Halostagnicola*, An existing genus; *Quasihalostagnicola*: A genus related to but distinct from the existing genus Halostagnicola of as if.

Quasihalotalea

L. nan conjunction *quasi*, as if; L. fem. n. *Halotalea*, An existing genus; *Quasihalotalea*: A genus related to but distinct from the existing genus Halotalea of as if.

Quasihaloterrigena

L. nan conjunction *quasi*, as if; L. fem. n. *Haloterrigena*, An existing genus; *Quasihaloterrigena*: A genus related to but distinct from the existing genus Haloterrigena of as if.

Quasihalothermothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Halothermothrix*, An existing genus; *Quasihalothermothrix*: A genus related to but distinct from the existing genus Halothermothrix of as if.

Quasihalothiobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Halothiobacillus*, An existing genus; *Quasihalothiobacillus*: A genus related to but distinct from the existing genus Halothiobacillus of as if.

Quasihalotia

L. nan conjunction *quasi*, as if; L. fem. n. *Halotia*, An existing genus; *Quasihalotia*: A genus related to but distinct from the existing genus Halotia of as if.

Quasihalovarius

L. nan conjunction *quasi*, as if; L. masc. n. *Halovarius*, An existing genus; *Quasihalovarius*: A genus related to but distinct from the existing genus Halovarius of as if.

Quasihalovenus

L. nan conjunction *quasi*, as if; L. fem. n. *Halovenus*, An existing genus; *Quasihalovenus*: A genus related to but distinct from the existing genus Halovenus of as if.

Quasihalovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Halovibrio*, An existing genus; *Quasihalovibrio*: A genus related to but distinct from the existing genus Halovibrio of as if.

Quasihalovivax

L. nan conjunction *quasi*, as if; L. masc. n. *Halovivax*, An existing genus; *Quasihalovivax*: A genus related to but distinct from the existing genus Halovivax of as if.

Quasihalovulum

L. nan conjunction *quasi*, as if; L. neut. n. *Halovulum*, An existing genus; *Quasihalovulum*: A genus related to but distinct from the existing genus Halovulum of as if.

Quasihalpernia

L. nan conjunction *quasi*, as if; L. fem. n. *Halpernia*, An existing genus; *Quasihalpernia*: A genus related to but distinct from the existing genus Halpernia of as if.

Quasihamadaea

L. nan conjunction *quasi*, as if; L. fem. n. *Hamadaea*, An existing genus; *Quasihamadaea*: A genus related to but distinct from the existing genus Hamadaea of as if.

Quasihankyongella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Hankyongella*, An existing genus; *Quasihankyongella*: A genus related to but distinct from the existing genus Hankyongella of as if.

Quasihansschlegelia

L. nan conjunction *quasi*, as if; L. fem. n. *Hansschlegelia*, An existing genus; *Quasihansschlegelia*: A genus related to but distinct from the existing genus Hansschlegelia of as if.

Quasihanstruepera

L. nan conjunction *quasi*, as if; L. fem. n. *Hanstruepera*, An existing genus; *Quasihanstruepera*: A genus related to but distinct from the existing genus Hanstruepera of as if.

Quasihaoranjiania

L. nan conjunction *quasi*, as if; L. fem. n. *Haoranjiania*, An existing genus; *Quasihaoranjiania*: A genus related to but distinct from the existing genus Haoranjiania of as if.

Quasihaploangium

L. nan conjunction *quasi*, as if; L. neut. n. *Haploangium*, An existing genus; *Quasihaploangium*: A genus related to but distinct from the existing genus Haploangium of as if.

Quasiharryflintia

L. nan conjunction *quasi*, as if; L. fem. n. *Harryflintia*, An existing genus; *Quasiharryflintia*: A genus related to but distinct from the existing genus Harryflintia of as if.

Quasihartmannibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Hartmannibacter*, An existing genus; *Quasihartmannibacter*: A genus related to but distinct from the existing genus Hartmannibacter of as if.

Quasihasllibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Hasllibacter*, An existing genus; *Quasihasllibacter*: A genus related to but distinct from the existing genus Hasllibacter of as if.

Quasihathewaya

L. nan conjunction *quasi*, as if; L. fem. n. *Hathewaya*, An existing genus; *Quasihathewaya*: A genus related to but distinct from the existing genus Hathewaya of as if.

Quasihazenella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Hazenella*, An existing genus; *Quasihazenella*: A genus related to but distinct from the existing genus Hazenella of as if.

Quasihelcococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Helcococcus*, An existing genus; *Quasihelcococcus*: A genus related to but distinct from the existing genus Helcococcus of as if.

Quasihelicobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Helicobacter*, An existing genus; *Quasihelicobacter*: A genus related to but distinct from the existing genus Helicobacter of as if.

Quasiheliimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Heliimonas*, An existing genus; *Quasiheliimonas*: A genus related to but distinct from the existing genus Heliimonas of as if.

Quasiheliobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Heliobacterium*, An existing genus; *Quasiheliobacterium*: A genus related to but distinct from the existing genus Heliobacterium of as if.

Quasiheliophilum

L. nan conjunction *quasi*, as if; L. neut. n. *Heliophilum*, An existing genus; *Quasiheliophilum*: A genus related to but distinct from the existing genus Heliophilum of as if.

Quasiheliorestis

L. nan conjunction *quasi*, as if; L. fem. n. *Heliorestis*, An existing genus; *Quasiheliorestis*: A genus related to but distinct from the existing genus Heliorestis of as if.

Quasihellea

L. nan conjunction *quasi*, as if; L. fem. n. *Hellea*, An existing genus; *Quasihellea*: A genus related to but distinct from the existing genus Hellea of as if.

Quasihenriciella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Henriciella*, An existing genus; *Quasihenriciella*: A genus related to but distinct from the existing genus Henriciella of as if.

Quasiherbaspirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Herbaspirillum*, An existing genus; *Quasiherbaspirillum*: A genus related to but distinct from the existing genus Herbaspirillum of as if.

Quasiherbiconiux

L. nan conjunction *quasi*, as if; L. fem. n. *Herbiconiux*, An existing genus; *Quasiherbiconiux*: A genus related to but distinct from the existing genus Herbiconiux of as if.

Quasiherbidospora

L. nan conjunction *quasi*, as if; L. fem. n. *Herbidospora*, An existing genus; *Quasiherbidospora*: A genus related to but distinct from the existing genus Herbidospora of as if.

Quasiherbihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Herbihabitans*, An existing genus; *Quasiherbihabitans*: A genus related to but distinct from the existing genus Herbihabitans of as if.

Quasiherbinix

L. nan conjunction *quasi*, as if; L. fem. n. *Herbinix*, An existing genus; *Quasiherbinix*: A genus related to but distinct from the existing genus Herbinix of as if.

Quasiherbivorax

L. nan conjunction *quasi*, as if; L. fem. n. *Herbivorax*, An existing genus; *Quasiherbivorax*: A genus related to but distinct from the existing genus Herbivorax of as if.

Quasiherminiimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Herminiimonas*, An existing genus; *Quasiherminiimonas*: A genus related to but distinct from the existing genus Herminiimonas of as if.

Quasiherpetosiphon

L. nan conjunction *quasi*, as if; L. masc. n. *Herpetosiphon*, An existing genus; *Quasiherpetosiphon*: A genus related to but distinct from the existing genus Herpetosiphon of as if.

Quasihespellia

L. nan conjunction *quasi*, as if; L. fem. n. *Hespellia*, An existing genus; *Quasihespellia*: A genus related to but distinct from the existing genus Hespellia of as if.

Quasiheteroscytonema

L. nan conjunction *quasi*, as if; L. neut. n. *Heteroscytonema*, An existing genus; *Quasiheteroscytonema*: A genus related to but distinct from the existing genus Heteroscytonema of as if.

Quasihippea

L. nan conjunction *quasi*, as if; L. fem. n. *Hippea*, An existing genus; *Quasihippea*: A genus related to but distinct from the existing genus Hippea of as if.

Quasihirschia

L. nan conjunction *quasi*, as if; L. fem. n. *Hirschia*, An existing genus; *Quasihirschia*: A genus related to but distinct from the existing genus Hirschia of as if.

Quasihistidinibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Histidinibacterium*, An existing genus; *Quasihistidinibacterium*: A genus related to but distinct from the existing genus Histidinibacterium of as if.

Quasihistophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Histophilus*, An existing genus; *Quasihistophilus*: A genus related to but distinct from the existing genus Histophilus of as if.

Quasiholdemanella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Holdemanella*, An existing genus; *Quasiholdemanella*: A genus related to but distinct from the existing genus Holdemanella of as if.

Quasiholdemania

L. nan conjunction *quasi*, as if; L. fem. n. *Holdemania*, An existing genus; *Quasiholdemania*: A genus related to but distinct from the existing genus Holdemania of as if.

Quasihollandina

L. nan conjunction *quasi*, as if; L. fem. n. *Hollandina*, An existing genus; *Quasihollandina*: A genus related to but distinct from the existing genus Hollandina of as if.

Quasiholophaga

L. nan conjunction *quasi*, as if; L. fem. n. *Holophaga*, An existing genus; *Quasiholophaga*: A genus related to but distinct from the existing genus Holophaga of as if.

Quasiholospora

L. nan conjunction *quasi*, as if; L. fem. n. *Holospora*, An existing genus; *Quasiholospora*: A genus related to but distinct from the existing genus Holospora of as if.

Quasiholzapfelia

L. nan conjunction *quasi*, as if; L. fem. n. *Holzapfelia*, An existing genus; *Quasiholzapfelia*: A genus related to but distinct from the existing genus Holzapfelia of as if.

Quasihomoserinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Homoserinibacter*, An existing genus; *Quasihomoserinibacter*: A genus related to but distinct from the existing genus Homoserinibacter of as if.

Quasihomoserinimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Homoserinimonas*, An existing genus; *Quasihomoserinimonas*: A genus related to but distinct from the existing genus Homoserinimonas of as if.

Quasihongia

L. nan conjunction *quasi*, as if; L. fem. n. *Hongia*, An existing genus; *Quasihongia*: A genus related to but distinct from the existing genus Hongia of as if.

Quasihongiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Hongiella*, An existing genus; *Quasihongiella*: A genus related to but distinct from the existing genus Hongiella of as if.

Quasihoppeia

L. nan conjunction *quasi*, as if; L. fem. n. *Hoppeia*, An existing genus; *Quasihoppeia*: A genus related to but distinct from the existing genus Hoppeia of as if.

Quasihormathonema

L. nan conjunction *quasi*, as if; L. neut. n. *Hormathonema*, An existing genus; *Quasihormathonema*: A genus related to but distinct from the existing genus Hormathonema of as if.

Quasihormoscilla

L. nan conjunction *quasi*, as if; L. fem. n. *Hormoscilla*, An existing genus; *Quasihormoscilla*: A genus related to but distinct from the existing genus Hormoscilla of as if.

Quasihowardella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Howardella*, An existing genus; *Quasihowardella*: A genus related to but distinct from the existing genus Howardella of as if.

Quasihoyosella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Hoyosella*, An existing genus; *Quasihoyosella*: A genus related to but distinct from the existing genus Hoyosella of as if.

Quasihuaishuia

L. nan conjunction *quasi*, as if; L. fem. n. *Huaishuia*, An existing genus; *Quasihuaishuia*: A genus related to but distinct from the existing genus Huaishuia of as if.

Quasihuakuichenia

L. nan conjunction *quasi*, as if; L. fem. n. *Huakuichenia*, An existing genus; *Quasihuakuichenia*: A genus related to but distinct from the existing genus Huakuichenia of as if.

Quasihuanghella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Huanghella*, An existing genus; *Quasihuanghella*: A genus related to but distinct from the existing genus Huanghella of as if.

Quasihugenholtzia

L. nan conjunction *quasi*, as if; L. fem. n. *Hugenholtzia*, An existing genus; *Quasihugenholtzia*: A genus related to but distinct from the existing genus Hugenholtzia of as if.

Quasihugonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Hugonella*, An existing genus; *Quasihugonella*: A genus related to but distinct from the existing genus Hugonella of as if.

Quasihumibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Humibacillus*, An existing genus; *Quasihumibacillus*: A genus related to but distinct from the existing genus Humibacillus of as if.

Quasihumibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Humibacter*, An existing genus; *Quasihumibacter*: A genus related to but distinct from the existing genus Humibacter of as if.

Quasihumicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Humicoccus*, An existing genus; *Quasihumicoccus*: A genus related to but distinct from the existing genus Humicoccus of as if.

Quasihungateiclostridium

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Hungateiclostridium*, An existing genus; *Quasihungateiclostridium*: A genus related to but distinct from the existing genus Hungateiclostridium of as if.

Quasihungatella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Hungatella*, An existing genus; *Quasihungatella*: A genus related to but distinct from the existing genus Hungatella of as if.

Quasihwangdonia

L. nan conjunction *quasi*, as if; L. fem. n. *Hwangdonia*, An existing genus; *Quasihwangdonia*: A genus related to but distinct from the existing genus Hwangdonia of as if.

Quasihwanghaeella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Hwanghaeella*, An existing genus; *Quasihwanghaeella*: A genus related to but distinct from the existing genus Hwanghaeella of as if.

Quasihwanghaeicola

L. nan conjunction *quasi*, as if; L. masc. n. *Hwanghaeicola*, An existing genus; *Quasihwanghaeicola*: A genus related to but distinct from the existing genus Hwanghaeicola of as if.

Quasihyalangium

L. nan conjunction *quasi*, as if; L. neut. n. *Hyalangium*, An existing genus; *Quasihyalangium*: A genus related to but distinct from the existing genus Hyalangium of as if.

Quasihydrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Hydrobacter*, An existing genus; *Quasihydrobacter*: A genus related to but distinct from the existing genus Hydrobacter of as if.

Quasihydrocarboniclastica

L. nan conjunction *quasi*, as if; L. fem. n. *Hydrocarboniclastica*, An existing genus; *Quasihydrocarboniclastica*: A genus related to but distinct from the existing genus Hydrocarboniclastica of as if.

Quasihydrocarboniphaga

L. nan conjunction *quasi*, as if; L. fem. n. *Hydrocarboniphaga*, An existing genus; *Quasihydrocarboniphaga*: A genus related to but distinct from the existing genus Hydrocarboniphaga of as if.

Quasihydrogenibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Hydrogenibacillus*, An existing genus; *Quasihydrogenibacillus*: A genus related to but distinct from the existing genus Hydrogenibacillus of as if.

Quasihydrogeniiclostridium

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Hydrogeniiclostridium*, An existing genus; *Quasihydrogeniiclostridium*: A genus related to but distinct from the existing genus Hydrogeniiclostridium of as if.

Quasihydrogenimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Hydrogenimonas*, An existing genus; *Quasihydrogenimonas*: A genus related to but distinct from the existing genus Hydrogenimonas of as if.

Quasihydrogenispora

L. nan conjunction *quasi*, as if; L. fem. n. *Hydrogenispora*, An existing genus; *Quasihydrogenispora*: A genus related to but distinct from the existing genus Hydrogenispora of as if.

Quasihydrogenivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Hydrogenivirga*, An existing genus; *Quasihydrogenivirga*: A genus related to but distinct from the existing genus Hydrogenivirga of as if.

Quasihydrogenoanaerobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Hydrogenoanaerobacterium*, An existing genus; *Quasihydrogenoanaerobacterium*: A genus related to but distinct from the existing genus Hydrogenoanaerobacterium of as if.

Quasihydrogenobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Hydrogenobacter*, An existing genus; *Quasihydrogenobacter*: A genus related to but distinct from the existing genus Hydrogenobacter of as if.

Quasihydrogenophaga

L. nan conjunction *quasi*, as if; L. fem. n. *Hydrogenophaga*, An existing genus; *Quasihydrogenophaga*: A genus related to but distinct from the existing genus Hydrogenophaga of as if.

Quasihydrogenophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Hydrogenophilus*, An existing genus; *Quasihydrogenophilus*: A genus related to but distinct from the existing genus Hydrogenophilus of as if.

Quasihydrogenovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Hydrogenovibrio*, An existing genus; *Quasihydrogenovibrio*: A genus related to but distinct from the existing genus Hydrogenovibrio of as if.

Quasihydromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Hydromonas*, An existing genus; *Quasihydromonas*: A genus related to but distinct from the existing genus Hydromonas of as if.

Quasihydrotalea

L. nan conjunction *quasi*, as if; L. fem. n. *Hydrotalea*, An existing genus; *Quasihydrotalea*: A genus related to but distinct from the existing genus Hydrotalea of as if.

Quasihylemonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Hylemonella*, An existing genus; *Quasihylemonella*: A genus related to but distinct from the existing genus Hylemonella of as if.

Quasihymenobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Hymenobacter*, An existing genus; *Quasihymenobacter*: A genus related to but distinct from the existing genus Hymenobacter of as if.

Quasihypericibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Hypericibacter*, An existing genus; *Quasihypericibacter*: A genus related to but distinct from the existing genus Hypericibacter of as if.

Quasihyperthermus

L. nan conjunction *quasi*, as if; L. masc. n. *Hyperthermus*, An existing genus; *Quasihyperthermus*: A genus related to but distinct from the existing genus Hyperthermus of as if.

Quasihyphobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Hyphobacterium*, An existing genus; *Quasihyphobacterium*: A genus related to but distinct from the existing genus Hyphobacterium of as if.

Quasihyphococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Hyphococcus*, An existing genus; *Quasihyphococcus*: A genus related to but distinct from the existing genus Hyphococcus of as if.

Quasihyphomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Hyphomicrobium*, An existing genus; *Quasihyphomicrobium*: A genus related to but distinct from the existing genus Hyphomicrobium of as if.

Quasihyphomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Hyphomonas*, An existing genus; *Quasihyphomonas*: A genus related to but distinct from the existing genus Hyphomonas of as if.

Quasihypnocyclicus

L. nan conjunction *quasi*, as if; L. masc. n. *Hypnocyclicus*, An existing genus; *Quasihypnocyclicus*: A genus related to but distinct from the existing genus Hypnocyclicus of as if.

Quasihyunsoonleella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Hyunsoonleella*, An existing genus; *Quasihyunsoonleella*: A genus related to but distinct from the existing genus Hyunsoonleella of as if.

Quasiiamia

L. nan conjunction *quasi*, as if; L. fem. n. *Iamia*, An existing genus; *Quasiiamia*: A genus related to but distinct from the existing genus Iamia of as if.

Quasiichthyobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Ichthyobacterium*, An existing genus; *Quasiichthyobacterium*: A genus related to but distinct from the existing genus Ichthyobacterium of as if.

Quasiideonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Ideonella*, An existing genus; *Quasiideonella*: A genus related to but distinct from the existing genus Ideonella of as if.

Quasiidiomarina

L. nan conjunction *quasi*, as if; L. fem. n. *Idiomarina*, An existing genus; *Quasiidiomarina*: A genus related to but distinct from the existing genus Idiomarina of as if.

Quasiignatzschineria

L. nan conjunction *quasi*, as if; L. fem. n. *Ignatzschineria*, An existing genus; *Quasiignatzschineria*: A genus related to but distinct from the existing genus Ignatzschineria of as if.

Quasiignavigranum

L. nan conjunction *quasi*, as if; L. neut. n. *Ignavigranum*, An existing genus; *Quasiignavigranum*: A genus related to but distinct from the existing genus Ignavigranum of as if.

Quasiignicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Ignicoccus*, An existing genus; *Quasiignicoccus*: A genus related to but distinct from the existing genus Ignicoccus of as if.

Quasiignisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Ignisphaera*, An existing genus; *Quasiignisphaera*: A genus related to but distinct from the existing genus Ignisphaera of as if.

Quasiileibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Ileibacterium*, An existing genus; *Quasiileibacterium*: A genus related to but distinct from the existing genus Ileibacterium of as if.

Quasiilumatobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Ilumatobacter*, An existing genus; *Quasiilumatobacter*: A genus related to but distinct from the existing genus Ilumatobacter of as if.

Quasiimhoffiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Imhoffiella*, An existing genus; *Quasiimhoffiella*: A genus related to but distinct from the existing genus Imhoffiella of as if.

Quasiimmundisolibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Immundisolibacter*, An existing genus; *Quasiimmundisolibacter*: A genus related to but distinct from the existing genus Immundisolibacter of as if.

Quasiimperialibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Imperialibacter*, An existing genus; *Quasiimperialibacter*: A genus related to but distinct from the existing genus Imperialibacter of as if.

Quasiimtechella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Imtechella*, An existing genus; *Quasiimtechella*: A genus related to but distinct from the existing genus Imtechella of as if.

Quasiindibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Indibacter*, An existing genus; *Quasiindibacter*: A genus related to but distinct from the existing genus Indibacter of as if.

Quasiindiicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Indiicoccus*, An existing genus; *Quasiindiicoccus*: A genus related to but distinct from the existing genus Indiicoccus of as if.

Quasiindioceanicola

L. nan conjunction *quasi*, as if; L. masc. n. *Indioceanicola*, An existing genus; *Quasiindioceanicola*: A genus related to but distinct from the existing genus Indioceanicola of as if.

Quasiinediibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Inediibacterium*, An existing genus; *Quasiinediibacterium*: A genus related to but distinct from the existing genus Inediibacterium of as if.

Quasiinhella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Inhella*, An existing genus; *Quasiinhella*: A genus related to but distinct from the existing genus Inhella of as if.

Quasiiningainema

L. nan conjunction *quasi*, as if; L. neut. n. *Iningainema*, An existing genus; *Quasiiningainema*: A genus related to but distinct from the existing genus Iningainema of as if.

Quasiinmirania

L. nan conjunction *quasi*, as if; L. fem. n. *Inmirania*, An existing genus; *Quasiinmirania*: A genus related to but distinct from the existing genus Inmirania of as if.

Quasiinnacoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Innacoccus*, An existing genus; *Quasiinnacoccus*: A genus related to but distinct from the existing genus Innacoccus of as if.

Quasiinsolitispirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Insolitispirillum*, An existing genus; *Quasiinsolitispirillum*: A genus related to but distinct from the existing genus Insolitispirillum of as if.

Quasiintestinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Intestinibacter*, An existing genus; *Quasiintestinibacter*: A genus related to but distinct from the existing genus Intestinibacter of as if.

Quasiintestinibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Intestinibaculum*, An existing genus; *Quasiintestinibaculum*: A genus related to but distinct from the existing genus Intestinibaculum of as if.

Quasiintestinimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Intestinimonas*, An existing genus; *Quasiintestinimonas*: A genus related to but distinct from the existing genus Intestinimonas of as if.

Quasiintestinirhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Intestinirhabdus*, An existing genus; *Quasiintestinirhabdus*: A genus related to but distinct from the existing genus Intestinirhabdus of as if.

Quasiintrasporangium

L. nan conjunction *quasi*, as if; L. neut. n. *Intrasporangium*, An existing genus; *Quasiintrasporangium*: A genus related to but distinct from the existing genus Intrasporangium of as if.

Quasiiodidimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Iodidimonas*, An existing genus; *Quasiiodidimonas*: A genus related to but distinct from the existing genus Iodidimonas of as if.

Quasiiodobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Iodobacter*, An existing genus; *Quasiiodobacter*: A genus related to but distinct from the existing genus Iodobacter of as if.

Quasiirregularibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Irregularibacter*, An existing genus; *Quasiirregularibacter*: A genus related to but distinct from the existing genus Irregularibacter of as if.

Quasiisachenkonia

L. nan conjunction *quasi*, as if; L. fem. n. *Isachenkonia*, An existing genus; *Quasiisachenkonia*: A genus related to but distinct from the existing genus Isachenkonia of as if.

Quasiisobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Isobaculum*, An existing genus; *Quasiisobaculum*: A genus related to but distinct from the existing genus Isobaculum of as if.

Quasiisochromatium

L. nan conjunction *quasi*, as if; L. neut. n. *Isochromatium*, An existing genus; *Quasiisochromatium*: A genus related to but distinct from the existing genus Isochromatium of as if.

Quasiisoptericola

L. nan conjunction *quasi*, as if; L. masc. n. *Isoptericola*, An existing genus; *Quasiisoptericola*: A genus related to but distinct from the existing genus Isoptericola of as if.

Quasiisosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Isosphaera*, An existing genus; *Quasiisosphaera*: A genus related to but distinct from the existing genus Isosphaera of as if.

Quasiizhakiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Izhakiella*, An existing genus; *Quasiizhakiella*: A genus related to but distinct from the existing genus Izhakiella of as if.

Quasijacksonvillea

L. nan conjunction *quasi*, as if; L. fem. n. *Jacksonvillea*, An existing genus; *Quasijacksonvillea*: A genus related to but distinct from the existing genus Jacksonvillea of as if.

Quasijahnella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Jahnella*, An existing genus; *Quasijahnella*: A genus related to but distinct from the existing genus Jahnella of as if.

Quasijanibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Janibacter*, An existing genus; *Quasijanibacter*: A genus related to but distinct from the existing genus Janibacter of as if.

Quasijanthinobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Janthinobacterium*, An existing genus; *Quasijanthinobacterium*: A genus related to but distinct from the existing genus Janthinobacterium of as if.

Quasijatrophihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Jatrophihabitans*, An existing genus; *Quasijatrophihabitans*: A genus related to but distinct from the existing genus Jatrophihabitans of as if.

Quasijejubacter

L. nan conjunction *quasi*, as if; L. masc. n. *Jejubacter*, An existing genus; *Quasijejubacter*: A genus related to but distinct from the existing genus Jejubacter of as if.

Quasijejudonia

L. nan conjunction *quasi*, as if; L. fem. n. *Jejudonia*, An existing genus; *Quasijejudonia*: A genus related to but distinct from the existing genus Jejudonia of as if.

Quasijejuia

L. nan conjunction *quasi*, as if; L. fem. n. *Jejuia*, An existing genus; *Quasijejuia*: A genus related to but distinct from the existing genus Jejuia of as if.

Quasijeongeupia

L. nan conjunction *quasi*, as if; L. fem. n. *Jeongeupia*, An existing genus; *Quasijeongeupia*: A genus related to but distinct from the existing genus Jeongeupia of as if.

Quasijeotgalibaca

L. nan conjunction *quasi*, as if; L. fem. n. *Jeotgalibaca*, An existing genus; *Quasijeotgalibaca*: A genus related to but distinct from the existing genus Jeotgalibaca of as if.

Quasijeotgalibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Jeotgalibacillus*, An existing genus; *Quasijeotgalibacillus*: A genus related to but distinct from the existing genus Jeotgalibacillus of as if.

Quasijeotgalicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Jeotgalicoccus*, An existing genus; *Quasijeotgalicoccus*: A genus related to but distinct from the existing genus Jeotgalicoccus of as if.

Quasijhaorihella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Jhaorihella*, An existing genus; *Quasijhaorihella*: A genus related to but distinct from the existing genus Jhaorihella of as if.

Quasijiangella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Jiangella*, An existing genus; *Quasijiangella*: A genus related to but distinct from the existing genus Jiangella of as if.

Quasijiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Jiella*, An existing genus; *Quasijiella*: A genus related to but distinct from the existing genus Jiella of as if.

Quasijilinibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Jilinibacillus*, An existing genus; *Quasijilinibacillus*: A genus related to but distinct from the existing genus Jilinibacillus of as if.

Quasijindonia

L. nan conjunction *quasi*, as if; L. fem. n. *Jindonia*, An existing genus; *Quasijindonia*: A genus related to but distinct from the existing genus Jindonia of as if.

Quasijishengella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Jishengella*, An existing genus; *Quasijishengella*: A genus related to but distinct from the existing genus Jishengella of as if.

Quasijiulongibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Jiulongibacter*, An existing genus; *Quasijiulongibacter*: A genus related to but distinct from the existing genus Jiulongibacter of as if.

Quasijohnsonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Johnsonella*, An existing genus; *Quasijohnsonella*: A genus related to but distinct from the existing genus Johnsonella of as if.

Quasijonesia

L. nan conjunction *quasi*, as if; L. fem. n. *Jonesia*, An existing genus; *Quasijonesia*: A genus related to but distinct from the existing genus Jonesia of as if.

Quasijongsikchunia

L. nan conjunction *quasi*, as if; L. fem. n. *Jongsikchunia*, An existing genus; *Quasijongsikchunia*: A genus related to but distinct from the existing genus Jongsikchunia of as if.

Quasijonquetella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Jonquetella*, An existing genus; *Quasijonquetella*: A genus related to but distinct from the existing genus Jonquetella of as if.

Quasijoostella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Joostella*, An existing genus; *Quasijoostella*: A genus related to but distinct from the existing genus Joostella of as if.

Quasikaiparowitsia

L. nan conjunction *quasi*, as if; L. fem. n. *Kaiparowitsia*, An existing genus; *Quasikaiparowitsia*: A genus related to but distinct from the existing genus Kaiparowitsia of as if.

Quasikaistella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Kaistella*, An existing genus; *Quasikaistella*: A genus related to but distinct from the existing genus Kaistella of as if.

Quasikaistia

L. nan conjunction *quasi*, as if; L. fem. n. *Kaistia*, An existing genus; *Quasikaistia*: A genus related to but distinct from the existing genus Kaistia of as if.

Quasikalamiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Kalamiella*, An existing genus; *Quasikalamiella*: A genus related to but distinct from the existing genus Kalamiella of as if.

Quasikallipyga

L. nan conjunction *quasi*, as if; L. fem. n. *Kallipyga*, An existing genus; *Quasikallipyga*: A genus related to but distinct from the existing genus Kallipyga of as if.

Quasikallotenue

L. nan conjunction *quasi*, as if; L. neut. n. *Kallotenue*, An existing genus; *Quasikallotenue*: A genus related to but distinct from the existing genus Kallotenue of as if.

Quasikandeliimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Kandeliimicrobium*, An existing genus; *Quasikandeliimicrobium*: A genus related to but distinct from the existing genus Kandeliimicrobium of as if.

Quasikandleria

L. nan conjunction *quasi*, as if; L. fem. n. *Kandleria*, An existing genus; *Quasikandleria*: A genus related to but distinct from the existing genus Kandleria of as if.

Quasikangiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Kangiella*, An existing genus; *Quasikangiella*: A genus related to but distinct from the existing genus Kangiella of as if.

Quasikastovskya

L. nan conjunction *quasi*, as if; L. fem. n. *Kastovskya*, An existing genus; *Quasikastovskya*: A genus related to but distinct from the existing genus Kastovskya of as if.

Quasikeratinibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Keratinibaculum*, An existing genus; *Quasikeratinibaculum*: A genus related to but distinct from the existing genus Keratinibaculum of as if.

Quasikerstersia

L. nan conjunction *quasi*, as if; L. fem. n. *Kerstersia*, An existing genus; *Quasikerstersia*: A genus related to but distinct from the existing genus Kerstersia of as if.

Quasiketobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Ketobacter*, An existing genus; *Quasiketobacter*: A genus related to but distinct from the existing genus Ketobacter of as if.

Quasiketogulonicigenium

L. nan conjunction *quasi*, as if; L. neut. n. *Ketogulonicigenium*, An existing genus; *Quasiketogulonicigenium*: A genus related to but distinct from the existing genus Ketogulonicigenium of as if.

Quasikibdelosporangium

L. nan conjunction *quasi*, as if; L. neut. n. *Kibdelosporangium*, An existing genus; *Quasikibdelosporangium*: A genus related to but distinct from the existing genus Kibdelosporangium of as if.

Quasikiloniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Kiloniella*, An existing genus; *Quasikiloniella*: A genus related to but distinct from the existing genus Kiloniella of as if.

Quasikineobactrum

L. nan conjunction *quasi*, as if; L. neut. n. *Kineobactrum*, An existing genus; *Quasikineobactrum*: A genus related to but distinct from the existing genus Kineobactrum of as if.

Quasikineococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Kineococcus*, An existing genus; *Quasikineococcus*: A genus related to but distinct from the existing genus Kineococcus of as if.

Quasikineosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Kineosphaera*, An existing genus; *Quasikineosphaera*: A genus related to but distinct from the existing genus Kineosphaera of as if.

Quasikineosporia

L. nan conjunction *quasi*, as if; L. fem. n. *Kineosporia*, An existing genus; *Quasikineosporia*: A genus related to but distinct from the existing genus Kineosporia of as if.

Quasikineothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Kineothrix*, An existing genus; *Quasikineothrix*: A genus related to but distinct from the existing genus Kineothrix of as if.

Quasikingella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Kingella*, An existing genus; *Quasikingella*: A genus related to but distinct from the existing genus Kingella of as if.

Quasikinneretia

L. nan conjunction *quasi*, as if; L. fem. n. *Kinneretia*, An existing genus; *Quasikinneretia*: A genus related to but distinct from the existing genus Kinneretia of as if.

Quasikiritimatiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Kiritimatiella*, An existing genus; *Quasikiritimatiella*: A genus related to but distinct from the existing genus Kiritimatiella of as if.

Quasikistimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Kistimonas*, An existing genus; *Quasikistimonas*: A genus related to but distinct from the existing genus Kistimonas of as if.

Quasikitasatoa

L. nan conjunction *quasi*, as if; L. fem. n. *Kitasatoa*, An existing genus; *Quasikitasatoa*: A genus related to but distinct from the existing genus Kitasatoa of as if.

Quasikitasatospora

L. nan conjunction *quasi*, as if; L. fem. n. *Kitasatospora*, An existing genus; *Quasikitasatospora*: A genus related to but distinct from the existing genus Kitasatospora of as if.

Quasiklebsiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Klebsiella*, An existing genus; *Quasiklebsiella*: A genus related to but distinct from the existing genus Klebsiella of as if.

Quasiklenkia

L. nan conjunction *quasi*, as if; L. fem. n. *Klenkia*, An existing genus; *Quasiklenkia*: A genus related to but distinct from the existing genus Klenkia of as if.

Quasiklisinema

L. nan conjunction *quasi*, as if; L. neut. n. *Klisinema*, An existing genus; *Quasiklisinema*: A genus related to but distinct from the existing genus Klisinema of as if.

Quasiklugiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Klugiella*, An existing genus; *Quasiklugiella*: A genus related to but distinct from the existing genus Klugiella of as if.

Quasikluyvera

L. nan conjunction *quasi*, as if; L. fem. n. *Kluyvera*, An existing genus; *Quasikluyvera*: A genus related to but distinct from the existing genus Kluyvera of as if.

Quasikocuria

L. nan conjunction *quasi*, as if; L. fem. n. *Kocuria*, An existing genus; *Quasikocuria*: A genus related to but distinct from the existing genus Kocuria of as if.

Quasikofleria

L. nan conjunction *quasi*, as if; L. fem. n. *Kofleria*, An existing genus; *Quasikofleria*: A genus related to but distinct from the existing genus Kofleria of as if.

Quasikoinonema

L. nan conjunction *quasi*, as if; L. neut. n. *Koinonema*, An existing genus; *Quasikoinonema*: A genus related to but distinct from the existing genus Koinonema of as if.

Quasikomagatabacter

L. nan conjunction *quasi*, as if; L. masc. n. *Komagatabacter*, An existing genus; *Quasikomagatabacter*: A genus related to but distinct from the existing genus Komagatabacter of as if.

Quasikomagataeibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Komagataeibacter*, An existing genus; *Quasikomagataeibacter*: A genus related to but distinct from the existing genus Komagataeibacter of as if.

Quasikomarekiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Komarekiella*, An existing genus; *Quasikomarekiella*: A genus related to but distinct from the existing genus Komarekiella of as if.

Quasikomarkovaea

L. nan conjunction *quasi*, as if; L. fem. n. *Komarkovaea*, An existing genus; *Quasikomarkovaea*: A genus related to but distinct from the existing genus Komarkovaea of as if.

Quasikordia

L. nan conjunction *quasi*, as if; L. fem. n. *Kordia*, An existing genus; *Quasikordia*: A genus related to but distinct from the existing genus Kordia of as if.

Quasikordiimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Kordiimonas*, An existing genus; *Quasikordiimonas*: A genus related to but distinct from the existing genus Kordiimonas of as if.

Quasikoreibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Koreibacter*, An existing genus; *Quasikoreibacter*: A genus related to but distinct from the existing genus Koreibacter of as if.

Quasikosakonia

L. nan conjunction *quasi*, as if; L. fem. n. *Kosakonia*, An existing genus; *Quasikosakonia*: A genus related to but distinct from the existing genus Kosakonia of as if.

Quasikoserella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Koserella*, An existing genus; *Quasikoserella*: A genus related to but distinct from the existing genus Koserella of as if.

Quasikosmotoga

L. nan conjunction *quasi*, as if; L. fem. n. *Kosmotoga*, An existing genus; *Quasikosmotoga*: A genus related to but distinct from the existing genus Kosmotoga of as if.

Quasikovacikia

L. nan conjunction *quasi*, as if; L. fem. n. *Kovacikia*, An existing genus; *Quasikovacikia*: A genus related to but distinct from the existing genus Kovacikia of as if.

Quasikozakia

L. nan conjunction *quasi*, as if; L. fem. n. *Kozakia*, An existing genus; *Quasikozakia*: A genus related to but distinct from the existing genus Kozakia of as if.

Quasikrasilnikovia

L. nan conjunction *quasi*, as if; L. fem. n. *Krasilnikovia*, An existing genus; *Quasikrasilnikovia*: A genus related to but distinct from the existing genus Krasilnikovia of as if.

Quasikrasilnikoviella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Krasilnikoviella*, An existing genus; *Quasikrasilnikoviella*: A genus related to but distinct from the existing genus Krasilnikoviella of as if.

Quasikribbella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Kribbella*, An existing genus; *Quasikribbella*: A genus related to but distinct from the existing genus Kribbella of as if.

Quasikribbia

L. nan conjunction *quasi*, as if; L. fem. n. *Kribbia*, An existing genus; *Quasikribbia*: A genus related to but distinct from the existing genus Kribbia of as if.

Quasikriegella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Kriegella*, An existing genus; *Quasikriegella*: A genus related to but distinct from the existing genus Kriegella of as if.

Quasikrokinobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Krokinobacter*, An existing genus; *Quasikrokinobacter*: A genus related to but distinct from the existing genus Krokinobacter of as if.

Quasikroppenstedtia

L. nan conjunction *quasi*, as if; L. fem. n. *Kroppenstedtia*, An existing genus; *Quasikroppenstedtia*: A genus related to but distinct from the existing genus Kroppenstedtia of as if.

Quasikryptousia

L. nan conjunction *quasi*, as if; L. fem. n. *Kryptousia*, An existing genus; *Quasikryptousia*: A genus related to but distinct from the existing genus Kryptousia of as if.

Quasiktedonobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Ktedonobacter*, An existing genus; *Quasiktedonobacter*: A genus related to but distinct from the existing genus Ktedonobacter of as if.

Quasiktedonosporobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Ktedonosporobacter*, An existing genus; *Quasiktedonosporobacter*: A genus related to but distinct from the existing genus Ktedonosporobacter of as if.

Quasikurthia

L. nan conjunction *quasi*, as if; L. fem. n. *Kurthia*, An existing genus; *Quasikurthia*: A genus related to but distinct from the existing genus Kurthia of as if.

Quasikushneria

L. nan conjunction *quasi*, as if; L. fem. n. *Kushneria*, An existing genus; *Quasikushneria*: A genus related to but distinct from the existing genus Kushneria of as if.

Quasikutzneria

L. nan conjunction *quasi*, as if; L. fem. n. *Kutzneria*, An existing genus; *Quasikutzneria*: A genus related to but distinct from the existing genus Kutzneria of as if.

Quasikyrpidia

L. nan conjunction *quasi*, as if; L. fem. n. *Kyrpidia*, An existing genus; *Quasikyrpidia*: A genus related to but distinct from the existing genus Kyrpidia of as if.

Quasikyrtuthrix

L. nan conjunction *quasi*, as if; L. fem. n. *Kyrtuthrix*, An existing genus; *Quasikyrtuthrix*: A genus related to but distinct from the existing genus Kyrtuthrix of as if.

Quasikytococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Kytococcus*, An existing genus; *Quasikytococcus*: A genus related to but distinct from the existing genus Kytococcus of as if.

Quasilabedaea

L. nan conjunction *quasi*, as if; L. fem. n. *Labedaea*, An existing genus; *Quasilabedaea*: A genus related to but distinct from the existing genus Labedaea of as if.

Quasilabedella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Labedella*, An existing genus; *Quasilabedella*: A genus related to but distinct from the existing genus Labedella of as if.

Quasilabilibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Labilibaculum*, An existing genus; *Quasilabilibaculum*: A genus related to but distinct from the existing genus Labilibaculum of as if.

Quasilabilithrix

L. nan conjunction *quasi*, as if; L. fem. n. *Labilithrix*, An existing genus; *Quasilabilithrix*: A genus related to but distinct from the existing genus Labilithrix of as if.

Quasilabrenzia

L. nan conjunction *quasi*, as if; L. fem. n. *Labrenzia*, An existing genus; *Quasilabrenzia*: A genus related to but distinct from the existing genus Labrenzia of as if.

Quasilabrys

L. nan conjunction *quasi*, as if; L. masc. n. *Labrys*, An existing genus; *Quasilabrys*: A genus related to but distinct from the existing genus Labrys of as if.

Quasilaceyella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Laceyella*, An existing genus; *Quasilaceyella*: A genus related to but distinct from the existing genus Laceyella of as if.

Quasilachnoanaerobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Lachnoanaerobaculum*, An existing genus; *Quasilachnoanaerobaculum*: A genus related to but distinct from the existing genus Lachnoanaerobaculum of as if.

Quasilachnobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Lachnobacterium*, An existing genus; *Quasilachnobacterium*: A genus related to but distinct from the existing genus Lachnobacterium of as if.

Quasilachnoclostridium

L. nan conjunction *quasi*, as if; L. neut. n. *Lachnoclostridium*, An existing genus; *Quasilachnoclostridium*: A genus related to but distinct from the existing genus Lachnoclostridium of as if.

Quasilachnospira

L. nan conjunction *quasi*, as if; L. fem. n. *Lachnospira*, An existing genus; *Quasilachnospira*: A genus related to but distinct from the existing genus Lachnospira of as if.

Quasilachnotalea

L. nan conjunction *quasi*, as if; L. fem. n. *Lachnotalea*, An existing genus; *Quasilachnotalea*: A genus related to but distinct from the existing genus Lachnotalea of as if.

Quasilacibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Lacibacter*, An existing genus; *Quasilacibacter*: A genus related to but distinct from the existing genus Lacibacter of as if.

Quasilacibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Lacibacterium*, An existing genus; *Quasilacibacterium*: A genus related to but distinct from the existing genus Lacibacterium of as if.

Quasilacihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Lacihabitans*, An existing genus; *Quasilacihabitans*: A genus related to but distinct from the existing genus Lacihabitans of as if.

Quasilacimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Lacimicrobium*, An existing genus; *Quasilacimicrobium*: A genus related to but distinct from the existing genus Lacimicrobium of as if.

Quasilacimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Lacimonas*, An existing genus; *Quasilacimonas*: A genus related to but distinct from the existing genus Lacimonas of as if.

Quasilacinutrix

L. nan conjunction *quasi*, as if; L. fem. n. *Lacinutrix*, An existing genus; *Quasilacinutrix*: A genus related to but distinct from the existing genus Lacinutrix of as if.

Quasilacipirellula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Lacipirellula*, An existing genus; *Quasilacipirellula*: A genus related to but distinct from the existing genus Lacipirellula of as if.

Quasilacisediminihabitans

L. nan conjunction *quasi*, as if; L. fem. n. *Lacisediminihabitans*, An existing genus; *Quasilacisediminihabitans*: A genus related to but distinct from the existing genus Lacisediminihabitans of as if.

Quasilacisediminimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Lacisediminimonas*, An existing genus; *Quasilacisediminimonas*: A genus related to but distinct from the existing genus Lacisediminimonas of as if.

Quasilacrimispora

L. nan conjunction *quasi*, as if; L. fem. n. *Lacrimispora*, An existing genus; *Quasilacrimispora*: A genus related to but distinct from the existing genus Lacrimispora of as if.

Quasilacticaseibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Lacticaseibacillus*, An existing genus; *Quasilacticaseibacillus*: A genus related to but distinct from the existing genus Lacticaseibacillus of as if.

Quasilacticigenium

L. nan conjunction *quasi*, as if; L. neut. n. *Lacticigenium*, An existing genus; *Quasilacticigenium*: A genus related to but distinct from the existing genus Lacticigenium of as if.

Quasilactimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Lactimicrobium*, An existing genus; *Quasilactimicrobium*: A genus related to but distinct from the existing genus Lactimicrobium of as if.

Quasilactiplantibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Lactiplantibacillus*, An existing genus; *Quasilactiplantibacillus*: A genus related to but distinct from the existing genus Lactiplantibacillus of as if.

Quasilactivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Lactivibrio*, An existing genus; *Quasilactivibrio*: A genus related to but distinct from the existing genus Lactivibrio of as if.

Quasilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Lactobacillus*, An existing genus; *Quasilactobacillus*: A genus related to but distinct from the existing genus Lactobacillus of as if.

Quasilactococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Lactococcus*, An existing genus; *Quasilactococcus*: A genus related to but distinct from the existing genus Lactococcus of as if.

Quasilactonifactor

L. nan conjunction *quasi*, as if; L. masc. n. *Lactonifactor*, An existing genus; *Quasilactonifactor*: A genus related to but distinct from the existing genus Lactonifactor of as if.

Quasilactosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Lactosphaera*, An existing genus; *Quasilactosphaera*: A genus related to but distinct from the existing genus Lactosphaera of as if.

Quasilactovum

L. nan conjunction *quasi*, as if; L. neut. n. *Lactovum*, An existing genus; *Quasilactovum*: A genus related to but distinct from the existing genus Lactovum of as if.

Quasilacunisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Lacunisphaera*, An existing genus; *Quasilacunisphaera*: A genus related to but distinct from the existing genus Lacunisphaera of as if.

Quasilamprocystis

L. nan conjunction *quasi*, as if; L. fem. n. *Lamprocystis*, An existing genus; *Quasilamprocystis*: A genus related to but distinct from the existing genus Lamprocystis of as if.

Quasilampropedia

L. nan conjunction *quasi*, as if; L. fem. n. *Lampropedia*, An existing genus; *Quasilampropedia*: A genus related to but distinct from the existing genus Lampropedia of as if.

Quasilancefieldella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Lancefieldella*, An existing genus; *Quasilancefieldella*: A genus related to but distinct from the existing genus Lancefieldella of as if.

Quasilapidilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Lapidilactobacillus*, An existing genus; *Quasilapidilactobacillus*: A genus related to but distinct from the existing genus Lapidilactobacillus of as if.

Quasilapillicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Lapillicoccus*, An existing genus; *Quasilapillicoccus*: A genus related to but distinct from the existing genus Lapillicoccus of as if.

Quasilaribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Laribacter*, An existing genus; *Quasilaribacter*: A genus related to but distinct from the existing genus Laribacter of as if.

Quasilarkinella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Larkinella*, An existing genus; *Quasilarkinella*: A genus related to but distinct from the existing genus Larkinella of as if.

Quasilarsenia

L. nan conjunction *quasi*, as if; L. fem. n. *Larsenia*, An existing genus; *Quasilarsenia*: A genus related to but distinct from the existing genus Larsenia of as if.

Quasilarsenimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Larsenimonas*, An existing genus; *Quasilarsenimonas*: A genus related to but distinct from the existing genus Larsenimonas of as if.

Quasilaspinema

L. nan conjunction *quasi*, as if; L. neut. n. *Laspinema*, An existing genus; *Quasilaspinema*: A genus related to but distinct from the existing genus Laspinema of as if.

Quasilatilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Latilactobacillus*, An existing genus; *Quasilatilactobacillus*: A genus related to but distinct from the existing genus Latilactobacillus of as if.

Quasilautropia

L. nan conjunction *quasi*, as if; L. fem. n. *Lautropia*, An existing genus; *Quasilautropia*: A genus related to but distinct from the existing genus Lautropia of as if.

Quasilawsonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Lawsonella*, An existing genus; *Quasilawsonella*: A genus related to but distinct from the existing genus Lawsonella of as if.

Quasilawsonia

L. nan conjunction *quasi*, as if; L. fem. n. *Lawsonia*, An existing genus; *Quasilawsonia*: A genus related to but distinct from the existing genus Lawsonia of as if.

Quasilawsonibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Lawsonibacter*, An existing genus; *Quasilawsonibacter*: A genus related to but distinct from the existing genus Lawsonibacter of as if.

Quasileadbetterella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Leadbetterella*, An existing genus; *Quasileadbetterella*: A genus related to but distinct from the existing genus Leadbetterella of as if.

Quasilebetimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Lebetimonas*, An existing genus; *Quasilebetimonas*: A genus related to but distinct from the existing genus Lebetimonas of as if.

Quasilechevalieria

L. nan conjunction *quasi*, as if; L. fem. n. *Lechevalieria*, An existing genus; *Quasilechevalieria*: A genus related to but distinct from the existing genus Lechevalieria of as if.

Quasileclercia

L. nan conjunction *quasi*, as if; L. fem. n. *Leclercia*, An existing genus; *Quasileclercia*: A genus related to but distinct from the existing genus Leclercia of as if.

Quasileeia

L. nan conjunction *quasi*, as if; L. fem. n. *Leeia*, An existing genus; *Quasileeia*: A genus related to but distinct from the existing genus Leeia of as if.

Quasileekyejoonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Leekyejoonella*, An existing genus; *Quasileekyejoonella*: A genus related to but distinct from the existing genus Leekyejoonella of as if.

Quasileeuwenhoekiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Leeuwenhoekiella*, An existing genus; *Quasileeuwenhoekiella*: A genus related to but distinct from the existing genus Leeuwenhoekiella of as if.

Quasilegionella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Legionella*, An existing genus; *Quasilegionella*: A genus related to but distinct from the existing genus Legionella of as if.

Quasileifsonia

L. nan conjunction *quasi*, as if; L. fem. n. *Leifsonia*, An existing genus; *Quasileifsonia*: A genus related to but distinct from the existing genus Leifsonia of as if.

Quasileisingera

L. nan conjunction *quasi*, as if; L. fem. n. *Leisingera*, An existing genus; *Quasileisingera*: A genus related to but distinct from the existing genus Leisingera of as if.

Quasilelliottia

L. nan conjunction *quasi*, as if; L. fem. n. *Lelliottia*, An existing genus; *Quasilelliottia*: A genus related to but distinct from the existing genus Lelliottia of as if.

Quasileminorella

L. nan conjunction *quasi*, as if; L. fem. n. *Leminorella*, An existing genus; *Quasileminorella*: A genus related to but distinct from the existing genus Leminorella of as if.

Quasilemmermanniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Lemmermanniella*, An existing genus; *Quasilemmermanniella*: A genus related to but distinct from the existing genus Lemmermanniella of as if.

Quasilentibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Lentibacillus*, An existing genus; *Quasilentibacillus*: A genus related to but distinct from the existing genus Lentibacillus of as if.

Quasilentibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Lentibacter*, An existing genus; *Quasilentibacter*: A genus related to but distinct from the existing genus Lentibacter of as if.

Quasilentilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Lentilactobacillus*, An existing genus; *Quasilentilactobacillus*: A genus related to but distinct from the existing genus Lentilactobacillus of as if.

Quasilentilitoribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Lentilitoribacter*, An existing genus; *Quasilentilitoribacter*: A genus related to but distinct from the existing genus Lentilitoribacter of as if.

Quasilentimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Lentimicrobium*, An existing genus; *Quasilentimicrobium*: A genus related to but distinct from the existing genus Lentimicrobium of as if.

Quasilentisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Lentisphaera*, An existing genus; *Quasilentisphaera*: A genus related to but distinct from the existing genus Lentisphaera of as if.

Quasilentzea

L. nan conjunction *quasi*, as if; L. fem. n. *Lentzea*, An existing genus; *Quasilentzea*: A genus related to but distinct from the existing genus Lentzea of as if.

Quasileptobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Leptobacterium*, An existing genus; *Quasileptobacterium*: A genus related to but distinct from the existing genus Leptobacterium of as if.

Quasileptolinea

L. nan conjunction *quasi*, as if; L. fem. n. *Leptolinea*, An existing genus; *Quasileptolinea*: A genus related to but distinct from the existing genus Leptolinea of as if.

Quasileptonema

L. nan conjunction *quasi*, as if; L. neut. n. *Leptonema*, An existing genus; *Quasileptonema*: A genus related to but distinct from the existing genus Leptonema of as if.

Quasileptospira

L. nan conjunction *quasi*, as if; L. fem. n. *Leptospira*, An existing genus; *Quasileptospira*: A genus related to but distinct from the existing genus Leptospira of as if.

Quasileptospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Leptospirillum*, An existing genus; *Quasileptospirillum*: A genus related to but distinct from the existing genus Leptospirillum of as if.

Quasileptothoe

L. nan conjunction *quasi*, as if; L. fem. n. *Leptothoe*, An existing genus; *Quasileptothoe*: A genus related to but distinct from the existing genus Leptothoe of as if.

Quasileptothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Leptothrix*, An existing genus; *Quasileptothrix*: A genus related to but distinct from the existing genus Leptothrix of as if.

Quasileptotrichia

L. nan conjunction *quasi*, as if; L. fem. n. *Leptotrichia*, An existing genus; *Quasileptotrichia*: A genus related to but distinct from the existing genus Leptotrichia of as if.

Quasileucobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Leucobacter*, An existing genus; *Quasileucobacter*: A genus related to but distinct from the existing genus Leucobacter of as if.

Quasileuconostoc

L. nan conjunction *quasi*, as if; L. neut. n. *Leuconostoc*, An existing genus; *Quasileuconostoc*: A genus related to but distinct from the existing genus Leuconostoc of as if.

Quasileucothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Leucothrix*, An existing genus; *Quasileucothrix*: A genus related to but distinct from the existing genus Leucothrix of as if.

Quasilevilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Levilactobacillus*, An existing genus; *Quasilevilactobacillus*: A genus related to but distinct from the existing genus Levilactobacillus of as if.

Quasilevilinea

L. nan conjunction *quasi*, as if; L. fem. n. *Levilinea*, An existing genus; *Quasilevilinea*: A genus related to but distinct from the existing genus Levilinea of as if.

Quasilevinea

L. nan conjunction *quasi*, as if; L. fem. n. *Levinea*, An existing genus; *Quasilevinea*: A genus related to but distinct from the existing genus Levinea of as if.

Quasilevispirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Levispirillum*, An existing genus; *Quasilevispirillum*: A genus related to but distinct from the existing genus Levispirillum of as if.

Quasilewinella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Lewinella*, An existing genus; *Quasilewinella*: A genus related to but distinct from the existing genus Lewinella of as if.

Quasilibanicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Libanicoccus*, An existing genus; *Quasilibanicoccus*: A genus related to but distinct from the existing genus Libanicoccus of as if.

Quasiliberibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Liberibacter*, An existing genus; *Quasiliberibacter*: A genus related to but distinct from the existing genus Liberibacter of as if.

Quasilichenibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Lichenibacterium*, An existing genus; *Quasilichenibacterium*: A genus related to but distinct from the existing genus Lichenibacterium of as if.

Quasilichenicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Lichenicoccus*, An existing genus; *Quasilichenicoccus*: A genus related to but distinct from the existing genus Lichenicoccus of as if.

Quasilichenihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Lichenihabitans*, An existing genus; *Quasilichenihabitans*: A genus related to but distinct from the existing genus Lichenihabitans of as if.

Quasilightfootiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Lightfootiella*, An existing genus; *Quasilightfootiella*: A genus related to but distinct from the existing genus Lightfootiella of as if.

Quasiligilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Ligilactobacillus*, An existing genus; *Quasiligilactobacillus*: A genus related to but distinct from the existing genus Ligilactobacillus of as if.

Quasilignipirellula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Lignipirellula*, An existing genus; *Quasilignipirellula*: A genus related to but distinct from the existing genus Lignipirellula of as if.

Quasilihuaxuella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Lihuaxuella*, An existing genus; *Quasilihuaxuella*: A genus related to but distinct from the existing genus Lihuaxuella of as if.

Quasilimibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Limibacillus*, An existing genus; *Quasilimibacillus*: A genus related to but distinct from the existing genus Limibacillus of as if.

Quasilimibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Limibacter*, An existing genus; *Quasilimibacter*: A genus related to but distinct from the existing genus Limibacter of as if.

Quasilimibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Limibaculum*, An existing genus; *Quasilimibaculum*: A genus related to but distinct from the existing genus Limibaculum of as if.

Quasilimihaloglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Limihaloglobus*, An existing genus; *Quasilimihaloglobus*: A genus related to but distinct from the existing genus Limihaloglobus of as if.

Quasilimimaricola

L. nan conjunction *quasi*, as if; L. masc. n. *Limimaricola*, An existing genus; *Quasilimimaricola*: A genus related to but distinct from the existing genus Limimaricola of as if.

Quasilimimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Limimonas*, An existing genus; *Quasilimimonas*: A genus related to but distinct from the existing genus Limimonas of as if.

Quasilimisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Limisphaera*, An existing genus; *Quasilimisphaera*: A genus related to but distinct from the existing genus Limisphaera of as if.

Quasilimnobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Limnobacter*, An existing genus; *Quasilimnobacter*: A genus related to but distinct from the existing genus Limnobacter of as if.

Quasilimnobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Limnobaculum*, An existing genus; *Quasilimnobaculum*: A genus related to but distinct from the existing genus Limnobaculum of as if.

Quasilimnochorda

L. nan conjunction *quasi*, as if; L. fem. n. *Limnochorda*, An existing genus; *Quasilimnochorda*: A genus related to but distinct from the existing genus Limnochorda of as if.

Quasilimnoglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Limnoglobus*, An existing genus; *Quasilimnoglobus*: A genus related to but distinct from the existing genus Limnoglobus of as if.

Quasilimnohabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Limnohabitans*, An existing genus; *Quasilimnohabitans*: A genus related to but distinct from the existing genus Limnohabitans of as if.

Quasilimnolyngbya

L. nan conjunction *quasi*, as if; L. fem. n. *Limnolyngbya*, An existing genus; *Quasilimnolyngbya*: A genus related to but distinct from the existing genus Limnolyngbya of as if.

Quasilimnospira

L. nan conjunction *quasi*, as if; L. fem. n. *Limnospira*, An existing genus; *Quasilimnospira*: A genus related to but distinct from the existing genus Limnospira of as if.

Quasilimoniibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Limoniibacter*, An existing genus; *Quasilimoniibacter*: A genus related to but distinct from the existing genus Limoniibacter of as if.

Quasilimosilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Limosilactobacillus*, An existing genus; *Quasilimosilactobacillus*: A genus related to but distinct from the existing genus Limosilactobacillus of as if.

Quasilipingzhangella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Lipingzhangella*, An existing genus; *Quasilipingzhangella*: A genus related to but distinct from the existing genus Lipingzhangella of as if.

Quasiliquorilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Liquorilactobacillus*, An existing genus; *Quasiliquorilactobacillus*: A genus related to but distinct from the existing genus Liquorilactobacillus of as if.

Quasilishizhenia

L. nan conjunction *quasi*, as if; L. fem. n. *Lishizhenia*, An existing genus; *Quasilishizhenia*: A genus related to but distinct from the existing genus Lishizhenia of as if.

Quasilisteria

L. nan conjunction *quasi*, as if; L. fem. n. *Listeria*, An existing genus; *Quasilisteria*: A genus related to but distinct from the existing genus Listeria of as if.

Quasilistonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Listonella*, An existing genus; *Quasilistonella*: A genus related to but distinct from the existing genus Listonella of as if.

Quasilitoreibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Litoreibacter*, An existing genus; *Quasilitoreibacter*: A genus related to but distinct from the existing genus Litoreibacter of as if.

Quasilitoribacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Litoribacillus*, An existing genus; *Quasilitoribacillus*: A genus related to but distinct from the existing genus Litoribacillus of as if.

Quasilitoribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Litoribacter*, An existing genus; *Quasilitoribacter*: A genus related to but distinct from the existing genus Litoribacter of as if.

Quasilitoribaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Litoribaculum*, An existing genus; *Quasilitoribaculum*: A genus related to but distinct from the existing genus Litoribaculum of as if.

Quasilitoribrevibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Litoribrevibacter*, An existing genus; *Quasilitoribrevibacter*: A genus related to but distinct from the existing genus Litoribrevibacter of as if.

Quasilitoricola

L. nan conjunction *quasi*, as if; L. fem. n. *Litoricola*, An existing genus; *Quasilitoricola*: A genus related to but distinct from the existing genus Litoricola of as if.

Quasilitorihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Litorihabitans*, An existing genus; *Quasilitorihabitans*: A genus related to but distinct from the existing genus Litorihabitans of as if.

Quasilitorilinea

L. nan conjunction *quasi*, as if; L. fem. n. *Litorilinea*, An existing genus; *Quasilitorilinea*: A genus related to but distinct from the existing genus Litorilinea of as if.

Quasilitorilituus

L. nan conjunction *quasi*, as if; L. masc. n. *Litorilituus*, An existing genus; *Quasilitorilituus*: A genus related to but distinct from the existing genus Litorilituus of as if.

Quasilitorimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Litorimicrobium*, An existing genus; *Quasilitorimicrobium*: A genus related to but distinct from the existing genus Litorimicrobium of as if.

Quasilitorimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Litorimonas*, An existing genus; *Quasilitorimonas*: A genus related to but distinct from the existing genus Litorimonas of as if.

Quasilitorisediminicola

L. nan conjunction *quasi*, as if; L. masc. n. *Litorisediminicola*, An existing genus; *Quasilitorisediminicola*: A genus related to but distinct from the existing genus Litorisediminicola of as if.

Quasilitorisediminivivens

L. nan conjunction *quasi*, as if; L. masc. n. *Litorisediminivivens*, An existing genus; *Quasilitorisediminivivens*: A genus related to but distinct from the existing genus Litorisediminivivens of as if.

Quasilitorivita

L. nan conjunction *quasi*, as if; L. fem. n. *Litorivita*, An existing genus; *Quasilitorivita*: A genus related to but distinct from the existing genus Litorivita of as if.

Quasilitorivivens

L. nan conjunction *quasi*, as if; L. fem. n. *Litorivivens*, An existing genus; *Quasilitorivivens*: A genus related to but distinct from the existing genus Litorivivens of as if.

Quasiloigolactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Loigolactobacillus*, An existing genus; *Quasiloigolactobacillus*: A genus related to but distinct from the existing genus Loigolactobacillus of as if.

Quasilokiarchaeum

L. nan conjunction *quasi*, as if; L. neut. n. *Lokiarchaeum*, An existing genus; *Quasilokiarchaeum*: A genus related to but distinct from the existing genus Lokiarchaeum of as if.

Quasiloktanella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Loktanella*, An existing genus; *Quasiloktanella*: A genus related to but distinct from the existing genus Loktanella of as if.

Quasilonepinella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Lonepinella*, An existing genus; *Quasilonepinella*: A genus related to but distinct from the existing genus Lonepinella of as if.

Quasilongibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Longibaculum*, An existing genus; *Quasilongibaculum*: A genus related to but distinct from the existing genus Longibaculum of as if.

Quasilongicatena

L. nan conjunction *quasi*, as if; L. fem. n. *Longicatena*, An existing genus; *Quasilongicatena*: A genus related to but distinct from the existing genus Longicatena of as if.

Quasilongilinea

L. nan conjunction *quasi*, as if; L. fem. n. *Longilinea*, An existing genus; *Quasilongilinea*: A genus related to but distinct from the existing genus Longilinea of as if.

Quasilongimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Longimicrobium*, An existing genus; *Quasilongimicrobium*: A genus related to but distinct from the existing genus Longimicrobium of as if.

Quasilongimycelium

L. nan conjunction *quasi*, as if; L. neut. n. *Longimycelium*, An existing genus; *Quasilongimycelium*: A genus related to but distinct from the existing genus Longimycelium of as if.

Quasilongirhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Longirhabdus*, An existing genus; *Quasilongirhabdus*: A genus related to but distinct from the existing genus Longirhabdus of as if.

Quasilongispora

L. nan conjunction *quasi*, as if; L. fem. n. *Longispora*, An existing genus; *Quasilongispora*: A genus related to but distinct from the existing genus Longispora of as if.

Quasilongivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Longivirga*, An existing genus; *Quasilongivirga*: A genus related to but distinct from the existing genus Longivirga of as if.

Quasilonsdalea

L. nan conjunction *quasi*, as if; L. fem. n. *Lonsdalea*, An existing genus; *Quasilonsdalea*: A genus related to but distinct from the existing genus Lonsdalea of as if.

Quasiloriella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Loriella*, An existing genus; *Quasiloriella*: A genus related to but distinct from the existing genus Loriella of as if.

Quasiloriellopsis

L. nan conjunction *quasi*, as if; L. fem. n. *Loriellopsis*, An existing genus; *Quasiloriellopsis*: A genus related to but distinct from the existing genus Loriellopsis of as if.

Quasilottiidibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Lottiidibacillus*, An existing genus; *Quasilottiidibacillus*: A genus related to but distinct from the existing genus Lottiidibacillus of as if.

Quasilucibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Lucibacterium*, An existing genus; *Quasilucibacterium*: A genus related to but distinct from the existing genus Lucibacterium of as if.

Quasiluedemannella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Luedemannella*, An existing genus; *Quasiluedemannella*: A genus related to but distinct from the existing genus Luedemannella of as if.

Quasiluethyella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Luethyella*, An existing genus; *Quasiluethyella*: A genus related to but distinct from the existing genus Luethyella of as if.

Quasilujinxingia

L. nan conjunction *quasi*, as if; L. fem. n. *Lujinxingia*, An existing genus; *Quasilujinxingia*: A genus related to but distinct from the existing genus Lujinxingia of as if.

Quasiluminiphilus

L. nan conjunction *quasi*, as if; L. masc. n. *Luminiphilus*, An existing genus; *Quasiluminiphilus*: A genus related to but distinct from the existing genus Luminiphilus of as if.

Quasilunatimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Lunatimonas*, An existing genus; *Quasilunatimonas*: A genus related to but distinct from the existing genus Lunatimonas of as if.

Quasilusitaniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Lusitaniella*, An existing genus; *Quasilusitaniella*: A genus related to but distinct from the existing genus Lusitaniella of as if.

Quasilutaonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Lutaonella*, An existing genus; *Quasilutaonella*: A genus related to but distinct from the existing genus Lutaonella of as if.

Quasiluteibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Luteibacter*, An existing genus; *Quasiluteibacter*: A genus related to but distinct from the existing genus Luteibacter of as if.

Quasiluteibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Luteibaculum*, An existing genus; *Quasiluteibaculum*: A genus related to but distinct from the existing genus Luteibaculum of as if.

Quasiluteimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Luteimicrobium*, An existing genus; *Quasiluteimicrobium*: A genus related to but distinct from the existing genus Luteimicrobium of as if.

Quasiluteimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Luteimonas*, An existing genus; *Quasiluteimonas*: A genus related to but distinct from the existing genus Luteimonas of as if.

Quasiluteipulveratus

L. nan conjunction *quasi*, as if; L. masc. n. *Luteipulveratus*, An existing genus; *Quasiluteipulveratus*: A genus related to but distinct from the existing genus Luteipulveratus of as if.

Quasiluteitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Luteitalea*, An existing genus; *Quasiluteitalea*: A genus related to but distinct from the existing genus Luteitalea of as if.

Quasiluteithermobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Luteithermobacter*, An existing genus; *Quasiluteithermobacter*: A genus related to but distinct from the existing genus Luteithermobacter of as if.

Quasiluteivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Luteivirga*, An existing genus; *Quasiluteivirga*: A genus related to but distinct from the existing genus Luteivirga of as if.

Quasiluteococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Luteococcus*, An existing genus; *Quasiluteococcus*: A genus related to but distinct from the existing genus Luteococcus of as if.

Quasiluteolibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Luteolibacter*, An existing genus; *Quasiluteolibacter*: A genus related to but distinct from the existing genus Luteolibacter of as if.

Quasiluteovulum

L. nan conjunction *quasi*, as if; L. neut. n. *Luteovulum*, An existing genus; *Quasiluteovulum*: A genus related to but distinct from the existing genus Luteovulum of as if.

Quasilutibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Lutibacterium*, An existing genus; *Quasilutibacterium*: A genus related to but distinct from the existing genus Lutibacterium of as if.

Quasilutimaribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Lutimaribacter*, An existing genus; *Quasilutimaribacter*: A genus related to but distinct from the existing genus Lutimaribacter of as if.

Quasilutimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Lutimonas*, An existing genus; *Quasilutimonas*: A genus related to but distinct from the existing genus Lutimonas of as if.

Quasilutispora

L. nan conjunction *quasi*, as if; L. fem. n. *Lutispora*, An existing genus; *Quasilutispora*: A genus related to but distinct from the existing genus Lutispora of as if.

Quasilysinibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Lysinibacillus*, An existing genus; *Quasilysinibacillus*: A genus related to but distinct from the existing genus Lysinibacillus of as if.

Quasilysinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Lysinibacter*, An existing genus; *Quasilysinibacter*: A genus related to but distinct from the existing genus Lysinibacter of as if.

Quasilysinimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Lysinimicrobium*, An existing genus; *Quasilysinimicrobium*: A genus related to but distinct from the existing genus Lysinimicrobium of as if.

Quasilysinimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Lysinimonas*, An existing genus; *Quasilysinimonas*: A genus related to but distinct from the existing genus Lysinimonas of as if.

Quasilysobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Lysobacter*, An existing genus; *Quasilysobacter*: A genus related to but distinct from the existing genus Lysobacter of as if.

Quasilyticum

L. nan conjunction *quasi*, as if; L. neut. n. *Lyticum*, An existing genus; *Quasilyticum*: A genus related to but distinct from the existing genus Lyticum of as if.

Quasimabikibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Mabikibacter*, An existing genus; *Quasimabikibacter*: A genus related to but distinct from the existing genus Mabikibacter of as if.

Quasimacellibacteroides

L. nan conjunction *quasi*, as if; L. masc. n. *Macellibacteroides*, An existing genus; *Quasimacellibacteroides*: A genus related to but distinct from the existing genus Macellibacteroides of as if.

Quasimacrochaete

L. nan conjunction *quasi*, as if; L. fem. n. *Macrochaete*, An existing genus; *Quasimacrochaete*: A genus related to but distinct from the existing genus Macrochaete of as if.

Quasimacrococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Macrococcus*, An existing genus; *Quasimacrococcus*: A genus related to but distinct from the existing genus Macrococcus of as if.

Quasimageeibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Mageeibacillus*, An existing genus; *Quasimageeibacillus*: A genus related to but distinct from the existing genus Mageeibacillus of as if.

Quasimagnetococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Magnetococcus*, An existing genus; *Quasimagnetococcus*: A genus related to but distinct from the existing genus Magnetococcus of as if.

Quasimagnetospira

L. nan conjunction *quasi*, as if; L. fem. n. *Magnetospira*, An existing genus; *Quasimagnetospira*: A genus related to but distinct from the existing genus Magnetospira of as if.

Quasimagnetospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Magnetospirillum*, An existing genus; *Quasimagnetospirillum*: A genus related to but distinct from the existing genus Magnetospirillum of as if.

Quasimagnetovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Magnetovibrio*, An existing genus; *Quasimagnetovibrio*: A genus related to but distinct from the existing genus Magnetovibrio of as if.

Quasimahella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Mahella*, An existing genus; *Quasimahella*: A genus related to but distinct from the existing genus Mahella of as if.

Quasimalacoplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Malacoplasma*, An existing genus; *Quasimalacoplasma*: A genus related to but distinct from the existing genus Malacoplasma of as if.

Quasimaledivibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Maledivibacter*, An existing genus; *Quasimaledivibacter*: A genus related to but distinct from the existing genus Maledivibacter of as if.

Quasimalikia

L. nan conjunction *quasi*, as if; L. fem. n. *Malikia*, An existing genus; *Quasimalikia*: A genus related to but distinct from the existing genus Malikia of as if.

Quasimaliponia

L. nan conjunction *quasi*, as if; L. fem. n. *Maliponia*, An existing genus; *Quasimaliponia*: A genus related to but distinct from the existing genus Maliponia of as if.

Quasimameliella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Mameliella*, An existing genus; *Quasimameliella*: A genus related to but distinct from the existing genus Mameliella of as if.

Quasimangrovibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Mangrovibacter*, An existing genus; *Quasimangrovibacter*: A genus related to but distinct from the existing genus Mangrovibacter of as if.

Quasimangrovibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Mangrovibacterium*, An existing genus; *Quasimangrovibacterium*: A genus related to but distinct from the existing genus Mangrovibacterium of as if.

Quasimangrovicella

L. nan conjunction *quasi*, as if; L. fem. n. *Mangrovicella*, An existing genus; *Quasimangrovicella*: A genus related to but distinct from the existing genus Mangrovicella of as if.

Quasimangrovicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Mangrovicoccus*, An existing genus; *Quasimangrovicoccus*: A genus related to but distinct from the existing genus Mangrovicoccus of as if.

Quasimangroviflexus

L. nan conjunction *quasi*, as if; L. masc. n. *Mangroviflexus*, An existing genus; *Quasimangroviflexus*: A genus related to but distinct from the existing genus Mangroviflexus of as if.

Quasimangrovihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Mangrovihabitans*, An existing genus; *Quasimangrovihabitans*: A genus related to but distinct from the existing genus Mangrovihabitans of as if.

Quasimangrovimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Mangrovimonas*, An existing genus; *Quasimangrovimonas*: A genus related to but distinct from the existing genus Mangrovimonas of as if.

Quasimangrovitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Mangrovitalea*, An existing genus; *Quasimangrovitalea*: A genus related to but distinct from the existing genus Mangrovitalea of as if.

Quasimannheimia

L. nan conjunction *quasi*, as if; L. fem. n. *Mannheimia*, An existing genus; *Quasimannheimia*: A genus related to but distinct from the existing genus Mannheimia of as if.

Quasimarasmitruncus

L. nan conjunction *quasi*, as if; L. masc. n. *Marasmitruncus*, An existing genus; *Quasimarasmitruncus*: A genus related to but distinct from the existing genus Marasmitruncus of as if.

Quasimaribacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Maribacillus*, An existing genus; *Quasimaribacillus*: A genus related to but distinct from the existing genus Maribacillus of as if.

Quasimaribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Maribacter*, An existing genus; *Quasimaribacter*: A genus related to but distinct from the existing genus Maribacter of as if.

Quasimaribaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Maribaculum*, An existing genus; *Quasimaribaculum*: A genus related to but distinct from the existing genus Maribaculum of as if.

Quasimaribellus

L. nan conjunction *quasi*, as if; L. masc. n. *Maribellus*, An existing genus; *Quasimaribellus*: A genus related to but distinct from the existing genus Maribellus of as if.

Quasimaribius

L. nan conjunction *quasi*, as if; L. masc. n. *Maribius*, An existing genus; *Quasimaribius*: A genus related to but distinct from the existing genus Maribius of as if.

Quasimaricaulis

L. nan conjunction *quasi*, as if; L. masc. n. *Maricaulis*, An existing genus; *Quasimaricaulis*: A genus related to but distinct from the existing genus Maricaulis of as if.

Quasimarichromatium

L. nan conjunction *quasi*, as if; L. neut. n. *Marichromatium*, An existing genus; *Quasimarichromatium*: A genus related to but distinct from the existing genus Marichromatium of as if.

Quasimaricurvus

L. nan conjunction *quasi*, as if; L. masc. n. *Maricurvus*, An existing genus; *Quasimaricurvus*: A genus related to but distinct from the existing genus Maricurvus of as if.

Quasimarihabitans

L. nan conjunction *quasi*, as if; L. neut. n. *Marihabitans*, An existing genus; *Quasimarihabitans*: A genus related to but distinct from the existing genus Marihabitans of as if.

Quasimarileptolyngbya

L. nan conjunction *quasi*, as if; L. fem. n. *Marileptolyngbya*, An existing genus; *Quasimarileptolyngbya*: A genus related to but distinct from the existing genus Marileptolyngbya of as if.

Quasimarimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Marimicrobium*, An existing genus; *Quasimarimicrobium*: A genus related to but distinct from the existing genus Marimicrobium of as if.

Quasimarimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Marimonas*, An existing genus; *Quasimarimonas*: A genus related to but distinct from the existing genus Marimonas of as if.

Quasimarinactinospora

L. nan conjunction *quasi*, as if; L. fem. n. *Marinactinospora*, An existing genus; *Quasimarinactinospora*: A genus related to but distinct from the existing genus Marinactinospora of as if.

Quasimarinagarivorans

L. nan conjunction *quasi*, as if; L. masc. n. *Marinagarivorans*, An existing genus; *Quasimarinagarivorans*: A genus related to but distinct from the existing genus Marinagarivorans of as if.

Quasimarinibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Marinibacillus*, An existing genus; *Quasimarinibacillus*: A genus related to but distinct from the existing genus Marinibacillus of as if.

Quasimarinibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Marinibacterium*, An existing genus; *Quasimarinibacterium*: A genus related to but distinct from the existing genus Marinibacterium of as if.

Quasimarinibactrum

L. nan conjunction *quasi*, as if; L. neut. n. *Marinibactrum*, An existing genus; *Quasimarinibactrum*: A genus related to but distinct from the existing genus Marinibactrum of as if.

Quasimarinibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Marinibaculum*, An existing genus; *Quasimarinibaculum*: A genus related to but distinct from the existing genus Marinibaculum of as if.

Quasimariniblastus

L. nan conjunction *quasi*, as if; L. masc. n. *Mariniblastus*, An existing genus; *Quasimariniblastus*: A genus related to but distinct from the existing genus Mariniblastus of as if.

Quasimarinicauda

L. nan conjunction *quasi*, as if; L. fem. n. *Marinicauda*, An existing genus; *Quasimarinicauda*: A genus related to but distinct from the existing genus Marinicauda of as if.

Quasimarinicaulis

L. nan conjunction *quasi*, as if; L. masc. n. *Marinicaulis*, An existing genus; *Quasimarinicaulis*: A genus related to but distinct from the existing genus Marinicaulis of as if.

Quasimarinicella

L. nan conjunction *quasi*, as if; L. fem. n. *Marinicella*, An existing genus; *Quasimarinicella*: A genus related to but distinct from the existing genus Marinicella of as if.

Quasimarinicola

L. nan conjunction *quasi*, as if; L. masc. n. *Marinicola*, An existing genus; *Quasimarinicola*: A genus related to but distinct from the existing genus Marinicola of as if.

Quasimarinicrinis

L. nan conjunction *quasi*, as if; L. masc. n. *Marinicrinis*, An existing genus; *Quasimarinicrinis*: A genus related to but distinct from the existing genus Marinicrinis of as if.

Quasimarinifilum

L. nan conjunction *quasi*, as if; L. neut. n. *Marinifilum*, An existing genus; *Quasimarinifilum*: A genus related to but distinct from the existing genus Marinifilum of as if.

Quasimariniflexile

L. nan conjunction *quasi*, as if; L. neut. n. *Mariniflexile*, An existing genus; *Quasimariniflexile*: A genus related to but distinct from the existing genus Mariniflexile of as if.

Quasimarinilabilia

L. nan conjunction *quasi*, as if; L. fem. n. *Marinilabilia*, An existing genus; *Quasimarinilabilia*: A genus related to but distinct from the existing genus Marinilabilia of as if.

Quasimarinilactibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Marinilactibacillus*, An existing genus; *Quasimarinilactibacillus*: A genus related to but distinct from the existing genus Marinilactibacillus of as if.

Quasimariniluteicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Mariniluteicoccus*, An existing genus; *Quasimariniluteicoccus*: A genus related to but distinct from the existing genus Mariniluteicoccus of as if.

Quasimarinimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Marinimicrobium*, An existing genus; *Quasimarinimicrobium*: A genus related to but distinct from the existing genus Marinimicrobium of as if.

Quasimarininema

L. nan conjunction *quasi*, as if; L. neut. n. *Marininema*, An existing genus; *Quasimarininema*: A genus related to but distinct from the existing genus Marininema of as if.

Quasimariniphaga

L. nan conjunction *quasi*, as if; L. fem. n. *Mariniphaga*, An existing genus; *Quasimariniphaga*: A genus related to but distinct from the existing genus Mariniphaga of as if.

Quasimariniradius

L. nan conjunction *quasi*, as if; L. masc. n. *Mariniradius*, An existing genus; *Quasimariniradius*: A genus related to but distinct from the existing genus Mariniradius of as if.

Quasimarinirhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Marinirhabdus*, An existing genus; *Quasimarinirhabdus*: A genus related to but distinct from the existing genus Marinirhabdus of as if.

Quasimarinisporobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Marinisporobacter*, An existing genus; *Quasimarinisporobacter*: A genus related to but distinct from the existing genus Marinisporobacter of as if.

Quasimarinitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Marinitalea*, An existing genus; *Quasimarinitalea*: A genus related to but distinct from the existing genus Marinitalea of as if.

Quasimarinitenerispora

L. nan conjunction *quasi*, as if; L. fem. n. *Marinitenerispora*, An existing genus; *Quasimarinitenerispora*: A genus related to but distinct from the existing genus Marinitenerispora of as if.

Quasimarinithermofilum

L. nan conjunction *quasi*, as if; L. neut. n. *Marinithermofilum*, An existing genus; *Quasimarinithermofilum*: A genus related to but distinct from the existing genus Marinithermofilum of as if.

Quasimarinithermus

L. nan conjunction *quasi*, as if; L. masc. n. *Marinithermus*, An existing genus; *Quasimarinithermus*: A genus related to but distinct from the existing genus Marinithermus of as if.

Quasimarinitoga

L. nan conjunction *quasi*, as if; L. fem. n. *Marinitoga*, An existing genus; *Quasimarinitoga*: A genus related to but distinct from the existing genus Marinitoga of as if.

Quasimarinivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Marinivirga*, An existing genus; *Quasimarinivirga*: A genus related to but distinct from the existing genus Marinivirga of as if.

Quasimarinobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Marinobacter*, An existing genus; *Quasimarinobacter*: A genus related to but distinct from the existing genus Marinobacter of as if.

Quasimarinobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Marinobacterium*, An existing genus; *Quasimarinobacterium*: A genus related to but distinct from the existing genus Marinobacterium of as if.

Quasimarinococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Marinococcus*, An existing genus; *Quasimarinococcus*: A genus related to but distinct from the existing genus Marinococcus of as if.

Quasimarinomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Marinomonas*, An existing genus; *Quasimarinomonas*: A genus related to but distinct from the existing genus Marinomonas of as if.

Quasimarinoscillum

L. nan conjunction *quasi*, as if; L. neut. n. *Marinoscillum*, An existing genus; *Quasimarinoscillum*: A genus related to but distinct from the existing genus Marinoscillum of as if.

Quasimarinospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Marinospirillum*, An existing genus; *Quasimarinospirillum*: A genus related to but distinct from the existing genus Marinospirillum of as if.

Quasimarinosulfonomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Marinosulfonomonas*, An existing genus; *Quasimarinosulfonomonas*: A genus related to but distinct from the existing genus Marinosulfonomonas of as if.

Quasimarinovum

L. nan conjunction *quasi*, as if; L. neut. n. *Marinovum*, An existing genus; *Quasimarinovum*: A genus related to but distinct from the existing genus Marinovum of as if.

Quasimariprofundus

L. nan conjunction *quasi*, as if; L. masc. n. *Mariprofundus*, An existing genus; *Quasimariprofundus*: A genus related to but distinct from the existing genus Mariprofundus of as if.

Quasimaripseudobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Maripseudobacter*, An existing genus; *Quasimaripseudobacter*: A genus related to but distinct from the existing genus Maripseudobacter of as if.

Quasimarisediminicola

L. nan conjunction *quasi*, as if; L. fem. n. *Marisediminicola*, An existing genus; *Quasimarisediminicola*: A genus related to but distinct from the existing genus Marisediminicola of as if.

Quasimarisediminitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Marisediminitalea*, An existing genus; *Quasimarisediminitalea*: A genus related to but distinct from the existing genus Marisediminitalea of as if.

Quasimarispirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Marispirillum*, An existing genus; *Quasimarispirillum*: A genus related to but distinct from the existing genus Marispirillum of as if.

Quasimarispirochaeta

L. nan conjunction *quasi*, as if; L. fem. n. *Marispirochaeta*, An existing genus; *Quasimarispirochaeta*: A genus related to but distinct from the existing genus Marispirochaeta of as if.

Quasimaritalea

L. nan conjunction *quasi*, as if; L. fem. n. *Maritalea*, An existing genus; *Quasimaritalea*: A genus related to but distinct from the existing genus Maritalea of as if.

Quasimaritimibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Maritimibacter*, An existing genus; *Quasimaritimibacter*: A genus related to but distinct from the existing genus Maritimibacter of as if.

Quasimaritimimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Maritimimonas*, An existing genus; *Quasimaritimimonas*: A genus related to but distinct from the existing genus Maritimimonas of as if.

Quasimarivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Marivibrio*, An existing genus; *Quasimarivibrio*: A genus related to but distinct from the existing genus Marivibrio of as if.

Quasimarivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Marivirga*, An existing genus; *Quasimarivirga*: A genus related to but distinct from the existing genus Marivirga of as if.

Quasimarivita

L. nan conjunction *quasi*, as if; L. fem. n. *Marivita*, An existing genus; *Quasimarivita*: A genus related to but distinct from the existing genus Marivita of as if.

Quasimarixanthomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Marixanthomonas*, An existing genus; *Quasimarixanthomonas*: A genus related to but distinct from the existing genus Marixanthomonas of as if.

Quasimarmoricola

L. nan conjunction *quasi*, as if; L. masc. n. *Marmoricola*, An existing genus; *Quasimarmoricola*: A genus related to but distinct from the existing genus Marmoricola of as if.

Quasimarortus

L. nan conjunction *quasi*, as if; L. masc. n. *Marortus*, An existing genus; *Quasimarortus*: A genus related to but distinct from the existing genus Marortus of as if.

Quasimartelella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Martelella*, An existing genus; *Quasimartelella*: A genus related to but distinct from the existing genus Martelella of as if.

Quasimarvinbryantia

L. nan conjunction *quasi*, as if; L. fem. n. *Marvinbryantia*, An existing genus; *Quasimarvinbryantia*: A genus related to but distinct from the existing genus Marvinbryantia of as if.

Quasimassilibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Massilibacterium*, An existing genus; *Quasimassilibacterium*: A genus related to but distinct from the existing genus Massilibacterium of as if.

Quasimassiliimalia

L. nan conjunction *quasi*, as if; L. fem. n. *Massiliimalia*, An existing genus; *Quasimassiliimalia*: A genus related to but distinct from the existing genus Massiliimalia of as if.

Quasimechercharimyces

L. nan conjunction *quasi*, as if; L. masc. n. *Mechercharimyces*, An existing genus; *Quasimechercharimyces*: A genus related to but distinct from the existing genus Mechercharimyces of as if.

Quasimediterraneibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Mediterraneibacter*, An existing genus; *Quasimediterraneibacter*: A genus related to but distinct from the existing genus Mediterraneibacter of as if.

Quasimegamonas

L. nan conjunction *quasi*, as if; L. fem. n. *Megamonas*, An existing genus; *Quasimegamonas*: A genus related to but distinct from the existing genus Megamonas of as if.

Quasimeganema

L. nan conjunction *quasi*, as if; L. neut. n. *Meganema*, An existing genus; *Quasimeganema*: A genus related to but distinct from the existing genus Meganema of as if.

Quasimegasphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Megasphaera*, An existing genus; *Quasimegasphaera*: A genus related to but distinct from the existing genus Megasphaera of as if.

Quasimeiothermus

L. nan conjunction *quasi*, as if; L. masc. n. *Meiothermus*, An existing genus; *Quasimeiothermus*: A genus related to but distinct from the existing genus Meiothermus of as if.

Quasimelaminivora

L. nan conjunction *quasi*, as if; L. fem. n. *Melaminivora*, An existing genus; *Quasimelaminivora*: A genus related to but distinct from the existing genus Melaminivora of as if.

Quasimelghiribacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Melghiribacillus*, An existing genus; *Quasimelghiribacillus*: A genus related to but distinct from the existing genus Melghiribacillus of as if.

Quasimelghirimyces

L. nan conjunction *quasi*, as if; L. masc. n. *Melghirimyces*, An existing genus; *Quasimelghirimyces*: A genus related to but distinct from the existing genus Melghirimyces of as if.

Quasimelioribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Melioribacter*, An existing genus; *Quasimelioribacter*: A genus related to but distinct from the existing genus Melioribacter of as if.

Quasimelissococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Melissococcus*, An existing genus; *Quasimelissococcus*: A genus related to but distinct from the existing genus Melissococcus of as if.

Quasimelitea

L. nan conjunction *quasi*, as if; L. fem. n. *Melitea*, An existing genus; *Quasimelitea*: A genus related to but distinct from the existing genus Melitea of as if.

Quasimelittangium

L. nan conjunction *quasi*, as if; L. neut. n. *Melittangium*, An existing genus; *Quasimelittangium*: A genus related to but distinct from the existing genus Melittangium of as if.

Quasimembranicola

L. nan conjunction *quasi*, as if; L. masc. n. *Membranicola*, An existing genus; *Quasimembranicola*: A genus related to but distinct from the existing genus Membranicola of as if.

Quasimeniscus

L. nan conjunction *quasi*, as if; L. masc. n. *Meniscus*, An existing genus; *Quasimeniscus*: A genus related to but distinct from the existing genus Meniscus of as if.

Quasimerdibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Merdibacter*, An existing genus; *Quasimerdibacter*: A genus related to but distinct from the existing genus Merdibacter of as if.

Quasimerdimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Merdimonas*, An existing genus; *Quasimerdimonas*: A genus related to but distinct from the existing genus Merdimonas of as if.

Quasimeridianimaribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Meridianimaribacter*, An existing genus; *Quasimeridianimaribacter*: A genus related to but distinct from the existing genus Meridianimaribacter of as if.

Quasimeridianimarinicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Meridianimarinicoccus*, An existing genus; *Quasimeridianimarinicoccus*: A genus related to but distinct from the existing genus Meridianimarinicoccus of as if.

Quasimesoaciditoga

L. nan conjunction *quasi*, as if; L. fem. n. *Mesoaciditoga*, An existing genus; *Quasimesoaciditoga*: A genus related to but distinct from the existing genus Mesoaciditoga of as if.

Quasimesobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Mesobacillus*, An existing genus; *Quasimesobacillus*: A genus related to but distinct from the existing genus Mesobacillus of as if.

Quasimesocricetibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Mesocricetibacter*, An existing genus; *Quasimesocricetibacter*: A genus related to but distinct from the existing genus Mesocricetibacter of as if.

Quasimesoflavibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Mesoflavibacter*, An existing genus; *Quasimesoflavibacter*: A genus related to but distinct from the existing genus Mesoflavibacter of as if.

Quasimesohalobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Mesohalobacter*, An existing genus; *Quasimesohalobacter*: A genus related to but distinct from the existing genus Mesohalobacter of as if.

Quasimesomycoplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Mesomycoplasma*, An existing genus; *Quasimesomycoplasma*: A genus related to but distinct from the existing genus Mesomycoplasma of as if.

Quasimesonia

L. nan conjunction *quasi*, as if; L. fem. n. *Mesonia*, An existing genus; *Quasimesonia*: A genus related to but distinct from the existing genus Mesonia of as if.

Quasimesophilobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Mesophilobacter*, An existing genus; *Quasimesophilobacter*: A genus related to but distinct from the existing genus Mesophilobacter of as if.

Quasimesoplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Mesoplasma*, An existing genus; *Quasimesoplasma*: A genus related to but distinct from the existing genus Mesoplasma of as if.

Quasimesorhizobium

L. nan conjunction *quasi*, as if; L. neut. n. *Mesorhizobium*, An existing genus; *Quasimesorhizobium*: A genus related to but distinct from the existing genus Mesorhizobium of as if.

Quasimesosutterella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Mesosutterella*, An existing genus; *Quasimesosutterella*: A genus related to but distinct from the existing genus Mesosutterella of as if.

Quasimesotoga

L. nan conjunction *quasi*, as if; L. fem. n. *Mesotoga*, An existing genus; *Quasimesotoga*: A genus related to but distinct from the existing genus Mesotoga of as if.

Quasimetabacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Metabacillus*, An existing genus; *Quasimetabacillus*: A genus related to but distinct from the existing genus Metabacillus of as if.

Quasimetakosakonia

L. nan conjunction *quasi*, as if; L. fem. n. *Metakosakonia*, An existing genus; *Quasimetakosakonia*: A genus related to but distinct from the existing genus Metakosakonia of as if.

Quasimetallibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Metallibacterium*, An existing genus; *Quasimetallibacterium*: A genus related to but distinct from the existing genus Metallibacterium of as if.

Quasimetalliresistens

L. nan conjunction *quasi*, as if; L. masc. n. *Metalliresistens*, An existing genus; *Quasimetalliresistens*: A genus related to but distinct from the existing genus Metalliresistens of as if.

Quasimetallosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Metallosphaera*, An existing genus; *Quasimetallosphaera*: A genus related to but distinct from the existing genus Metallosphaera of as if.

Quasimetalysinibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Metalysinibacillus*, An existing genus; *Quasimetalysinibacillus*: A genus related to but distinct from the existing genus Metalysinibacillus of as if.

Quasimetamycoplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Metamycoplasma*, An existing genus; *Quasimetamycoplasma*: A genus related to but distinct from the existing genus Metamycoplasma of as if.

Quasimetaplanococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Metaplanococcus*, An existing genus; *Quasimetaplanococcus*: A genus related to but distinct from the existing genus Metaplanococcus of as if.

Quasimetascardovia

L. nan conjunction *quasi*, as if; L. fem. n. *Metascardovia*, An existing genus; *Quasimetascardovia*: A genus related to but distinct from the existing genus Metascardovia of as if.

Quasimetasolibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Metasolibacillus*, An existing genus; *Quasimetasolibacillus*: A genus related to but distinct from the existing genus Metasolibacillus of as if.

Quasimethanobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Methanobacterium*, An existing genus; *Quasimethanobacterium*: A genus related to but distinct from the existing genus Methanobacterium of as if.

Quasimethanobrevibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Methanobrevibacter*, An existing genus; *Quasimethanobrevibacter*: A genus related to but distinct from the existing genus Methanobrevibacter of as if.

Quasimethanocalculus

L. nan conjunction *quasi*, as if; L. masc. n. *Methanocalculus*, An existing genus; *Quasimethanocalculus*: A genus related to but distinct from the existing genus Methanocalculus of as if.

Quasimethanocaldococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Methanocaldococcus*, An existing genus; *Quasimethanocaldococcus*: A genus related to but distinct from the existing genus Methanocaldococcus of as if.

Quasimethanocella

L. nan conjunction *quasi*, as if; L. fem. n. *Methanocella*, An existing genus; *Quasimethanocella*: A genus related to but distinct from the existing genus Methanocella of as if.

Quasimethanococcoides

L. nan conjunction *quasi*, as if; L. neut. n. *Methanococcoides*, An existing genus; *Quasimethanococcoides*: A genus related to but distinct from the existing genus Methanococcoides of as if.

Quasimethanococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Methanococcus*, An existing genus; *Quasimethanococcus*: A genus related to but distinct from the existing genus Methanococcus of as if.

Quasimethanocorpusculum

L. nan conjunction *quasi*, as if; L. neut. n. *Methanocorpusculum*, An existing genus; *Quasimethanocorpusculum*: A genus related to but distinct from the existing genus Methanocorpusculum of as if.

Quasimethanoculleus

L. nan conjunction *quasi*, as if; L. masc. n. *Methanoculleus*, An existing genus; *Quasimethanoculleus*: A genus related to but distinct from the existing genus Methanoculleus of as if.

Quasimethanofervidicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Methanofervidicoccus*, An existing genus; *Quasimethanofervidicoccus*: A genus related to but distinct from the existing genus Methanofervidicoccus of as if.

Quasimethanofollis

L. nan conjunction *quasi*, as if; L. masc. n. *Methanofollis*, An existing genus; *Quasimethanofollis*: A genus related to but distinct from the existing genus Methanofollis of as if.

Quasimethanogenium

L. nan conjunction *quasi*, as if; L. neut. n. *Methanogenium*, An existing genus; *Quasimethanogenium*: A genus related to but distinct from the existing genus Methanogenium of as if.

Quasimethanohalobium

L. nan conjunction *quasi*, as if; L. neut. n. *Methanohalobium*, An existing genus; *Quasimethanohalobium*: A genus related to but distinct from the existing genus Methanohalobium of as if.

Quasimethanohalophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Methanohalophilus*, An existing genus; *Quasimethanohalophilus*: A genus related to but distinct from the existing genus Methanohalophilus of as if.

Quasimethanolacinia

L. nan conjunction *quasi*, as if; L. fem. n. *Methanolacinia*, An existing genus; *Quasimethanolacinia*: A genus related to but distinct from the existing genus Methanolacinia of as if.

Quasimethanolinea

L. nan conjunction *quasi*, as if; L. fem. n. *Methanolinea*, An existing genus; *Quasimethanolinea*: A genus related to but distinct from the existing genus Methanolinea of as if.

Quasimethanomassiliicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Methanomassiliicoccus*, An existing genus; *Quasimethanomassiliicoccus*: A genus related to but distinct from the existing genus Methanomassiliicoccus of as if.

Quasimethanomethylovorans

L. nan conjunction *quasi*, as if; L. fem. n. *Methanomethylovorans*, An existing genus; *Quasimethanomethylovorans*: A genus related to but distinct from the existing genus Methanomethylovorans of as if.

Quasimethanomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Methanomicrobium*, An existing genus; *Quasimethanomicrobium*: A genus related to but distinct from the existing genus Methanomicrobium of as if.

Quasimethanonatronarchaeum

L. nan conjunction *quasi*, as if; L. neut. n. *Methanonatronarchaeum*, An existing genus; *Quasimethanonatronarchaeum*: A genus related to but distinct from the existing genus Methanonatronarchaeum of as if.

Quasimethanoplanus

L. nan conjunction *quasi*, as if; L. masc. n. *Methanoplanus*, An existing genus; *Quasimethanoplanus*: A genus related to but distinct from the existing genus Methanoplanus of as if.

Quasimethanopyrus

L. nan conjunction *quasi*, as if; L. masc. n. *Methanopyrus*, An existing genus; *Quasimethanopyrus*: A genus related to but distinct from the existing genus Methanopyrus of as if.

Quasimethanoregula

L. nan conjunction *quasi*, as if; L. fem. n. *Methanoregula*, An existing genus; *Quasimethanoregula*: A genus related to but distinct from the existing genus Methanoregula of as if.

Quasimethanosaeta

L. nan conjunction *quasi*, as if; L. fem. n. *Methanosaeta*, An existing genus; *Quasimethanosaeta*: A genus related to but distinct from the existing genus Methanosaeta of as if.

Quasimethanosalsum

L. nan conjunction *quasi*, as if; L. neut. n. *Methanosalsum*, An existing genus; *Quasimethanosalsum*: A genus related to but distinct from the existing genus Methanosalsum of as if.

Quasimethanosarcina

L. nan conjunction *quasi*, as if; L. fem. n. *Methanosarcina*, An existing genus; *Quasimethanosarcina*: A genus related to but distinct from the existing genus Methanosarcina of as if.

Quasimethanosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Methanosphaera*, An existing genus; *Quasimethanosphaera*: A genus related to but distinct from the existing genus Methanosphaera of as if.

Quasimethanosphaerula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Methanosphaerula*, An existing genus; *Quasimethanosphaerula*: A genus related to but distinct from the existing genus Methanosphaerula of as if.

Quasimethanospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Methanospirillum*, An existing genus; *Quasimethanospirillum*: A genus related to but distinct from the existing genus Methanospirillum of as if.

Quasimethanothermobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Methanothermobacter*, An existing genus; *Quasimethanothermobacter*: A genus related to but distinct from the existing genus Methanothermobacter of as if.

Quasimethanothermococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Methanothermococcus*, An existing genus; *Quasimethanothermococcus*: A genus related to but distinct from the existing genus Methanothermococcus of as if.

Quasimethanothermus

L. nan conjunction *quasi*, as if; L. masc. n. *Methanothermus*, An existing genus; *Quasimethanothermus*: A genus related to but distinct from the existing genus Methanothermus of as if.

Quasimethanothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Methanothrix*, An existing genus; *Quasimethanothrix*: A genus related to but distinct from the existing genus Methanothrix of as if.

Quasimethanotorris

L. nan conjunction *quasi*, as if; L. masc. n. *Methanotorris*, An existing genus; *Quasimethanotorris*: A genus related to but distinct from the existing genus Methanotorris of as if.

Quasimethermicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Methermicoccus*, An existing genus; *Quasimethermicoccus*: A genus related to but distinct from the existing genus Methermicoccus of as if.

Quasimethylacidimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Methylacidimicrobium*, An existing genus; *Quasimethylacidimicrobium*: A genus related to but distinct from the existing genus Methylacidimicrobium of as if.

Quasimethylarcula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Methylarcula*, An existing genus; *Quasimethylarcula*: A genus related to but distinct from the existing genus Methylarcula of as if.

Quasimethylibium

L. nan conjunction *quasi*, as if; L. neut. n. *Methylibium*, An existing genus; *Quasimethylibium*: A genus related to but distinct from the existing genus Methylibium of as if.

Quasimethylicorpusculum

L. nan conjunction *quasi*, as if; L. neut. n. *Methylicorpusculum*, An existing genus; *Quasimethylicorpusculum*: A genus related to but distinct from the existing genus Methylicorpusculum of as if.

Quasimethylobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Methylobacillus*, An existing genus; *Quasimethylobacillus*: A genus related to but distinct from the existing genus Methylobacillus of as if.

Quasimethylobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Methylobacter*, An existing genus; *Quasimethylobacter*: A genus related to but distinct from the existing genus Methylobacter of as if.

Quasimethylobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Methylobacterium*, An existing genus; *Quasimethylobacterium*: A genus related to but distinct from the existing genus Methylobacterium of as if.

Quasimethylobrevis

L. nan conjunction *quasi*, as if; L. masc. n. *Methylobrevis*, An existing genus; *Quasimethylobrevis*: A genus related to but distinct from the existing genus Methylobrevis of as if.

Quasimethylocaldum

L. nan conjunction *quasi*, as if; L. neut. n. *Methylocaldum*, An existing genus; *Quasimethylocaldum*: A genus related to but distinct from the existing genus Methylocaldum of as if.

Quasimethylocapsa

L. nan conjunction *quasi*, as if; L. fem. n. *Methylocapsa*, An existing genus; *Quasimethylocapsa*: A genus related to but distinct from the existing genus Methylocapsa of as if.

Quasimethyloceanibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Methyloceanibacter*, An existing genus; *Quasimethyloceanibacter*: A genus related to but distinct from the existing genus Methyloceanibacter of as if.

Quasimethylocella

L. nan conjunction *quasi*, as if; L. fem. n. *Methylocella*, An existing genus; *Quasimethylocella*: A genus related to but distinct from the existing genus Methylocella of as if.

Quasimethylococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Methylococcus*, An existing genus; *Quasimethylococcus*: A genus related to but distinct from the existing genus Methylococcus of as if.

Quasimethylocucumis

L. nan conjunction *quasi*, as if; L. masc. n. *Methylocucumis*, An existing genus; *Quasimethylocucumis*: A genus related to but distinct from the existing genus Methylocucumis of as if.

Quasimethylocystis

L. nan conjunction *quasi*, as if; L. fem. n. *Methylocystis*, An existing genus; *Quasimethylocystis*: A genus related to but distinct from the existing genus Methylocystis of as if.

Quasimethyloferula

L. nan conjunction *quasi*, as if; L. fem. n. *Methyloferula*, An existing genus; *Quasimethyloferula*: A genus related to but distinct from the existing genus Methyloferula of as if.

Quasimethylogaea

L. nan conjunction *quasi*, as if; L. fem. n. *Methylogaea*, An existing genus; *Quasimethylogaea*: A genus related to but distinct from the existing genus Methylogaea of as if.

Quasimethyloglobulus

L. nan conjunction *quasi*, as if; L. masc. dim. n. *Methyloglobulus*, An existing genus; *Quasimethyloglobulus*: A genus related to but distinct from the existing genus Methyloglobulus of as if.

Quasimethylohalobius

L. nan conjunction *quasi*, as if; L. masc. n. *Methylohalobius*, An existing genus; *Quasimethylohalobius*: A genus related to but distinct from the existing genus Methylohalobius of as if.

Quasimethylohalomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Methylohalomonas*, An existing genus; *Quasimethylohalomonas*: A genus related to but distinct from the existing genus Methylohalomonas of as if.

Quasimethyloligella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Methyloligella*, An existing genus; *Quasimethyloligella*: A genus related to but distinct from the existing genus Methyloligella of as if.

Quasimethylolobus

L. nan conjunction *quasi*, as if; L. masc. n. *Methylolobus*, An existing genus; *Quasimethylolobus*: A genus related to but distinct from the existing genus Methylolobus of as if.

Quasimethylomagnum

L. nan conjunction *quasi*, as if; L. neut. n. *Methylomagnum*, An existing genus; *Quasimethylomagnum*: A genus related to but distinct from the existing genus Methylomagnum of as if.

Quasimethylomarinovum

L. nan conjunction *quasi*, as if; L. neut. n. *Methylomarinovum*, An existing genus; *Quasimethylomarinovum*: A genus related to but distinct from the existing genus Methylomarinovum of as if.

Quasimethylomarinum

L. nan conjunction *quasi*, as if; L. neut. n. *Methylomarinum*, An existing genus; *Quasimethylomarinum*: A genus related to but distinct from the existing genus Methylomarinum of as if.

Quasimethylomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Methylomicrobium*, An existing genus; *Quasimethylomicrobium*: A genus related to but distinct from the existing genus Methylomicrobium of as if.

Quasimethylomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Methylomonas*, An existing genus; *Quasimethylomonas*: A genus related to but distinct from the existing genus Methylomonas of as if.

Quasimethylomusa

L. nan conjunction *quasi*, as if; L. fem. n. *Methylomusa*, An existing genus; *Quasimethylomusa*: A genus related to but distinct from the existing genus Methylomusa of as if.

Quasimethylonatrum

L. nan conjunction *quasi*, as if; L. neut. n. *Methylonatrum*, An existing genus; *Quasimethylonatrum*: A genus related to but distinct from the existing genus Methylonatrum of as if.

Quasimethyloparacoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Methyloparacoccus*, An existing genus; *Quasimethyloparacoccus*: A genus related to but distinct from the existing genus Methyloparacoccus of as if.

Quasimethylophaga

L. nan conjunction *quasi*, as if; L. fem. n. *Methylophaga*, An existing genus; *Quasimethylophaga*: A genus related to but distinct from the existing genus Methylophaga of as if.

Quasimethylophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Methylophilus*, An existing genus; *Quasimethylophilus*: A genus related to but distinct from the existing genus Methylophilus of as if.

Quasimethylopila

L. nan conjunction *quasi*, as if; L. fem. n. *Methylopila*, An existing genus; *Quasimethylopila*: A genus related to but distinct from the existing genus Methylopila of as if.

Quasimethyloprofundus

L. nan conjunction *quasi*, as if; L. masc. n. *Methyloprofundus*, An existing genus; *Quasimethyloprofundus*: A genus related to but distinct from the existing genus Methyloprofundus of as if.

Quasimethylorhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Methylorhabdus*, An existing genus; *Quasimethylorhabdus*: A genus related to but distinct from the existing genus Methylorhabdus of as if.

Quasimethylorosula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Methylorosula*, An existing genus; *Quasimethylorosula*: A genus related to but distinct from the existing genus Methylorosula of as if.

Quasimethylorubrum

L. nan conjunction *quasi*, as if; L. neut. n. *Methylorubrum*, An existing genus; *Quasimethylorubrum*: A genus related to but distinct from the existing genus Methylorubrum of as if.

Quasimethylosarcina

L. nan conjunction *quasi*, as if; L. fem. n. *Methylosarcina*, An existing genus; *Quasimethylosarcina*: A genus related to but distinct from the existing genus Methylosarcina of as if.

Quasimethylosinus

L. nan conjunction *quasi*, as if; L. masc. n. *Methylosinus*, An existing genus; *Quasimethylosinus*: A genus related to but distinct from the existing genus Methylosinus of as if.

Quasimethylosoma

L. nan conjunction *quasi*, as if; L. neut. n. *Methylosoma*, An existing genus; *Quasimethylosoma*: A genus related to but distinct from the existing genus Methylosoma of as if.

Quasimethylosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Methylosphaera*, An existing genus; *Quasimethylosphaera*: A genus related to but distinct from the existing genus Methylosphaera of as if.

Quasimethylosulfonomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Methylosulfonomonas*, An existing genus; *Quasimethylosulfonomonas*: A genus related to but distinct from the existing genus Methylosulfonomonas of as if.

Quasimethylotenera

L. nan conjunction *quasi*, as if; L. fem. n. *Methylotenera*, An existing genus; *Quasimethylotenera*: A genus related to but distinct from the existing genus Methylotenera of as if.

Quasimethyloterricola

L. nan conjunction *quasi*, as if; L. fem. n. *Methyloterricola*, An existing genus; *Quasimethyloterricola*: A genus related to but distinct from the existing genus Methyloterricola of as if.

Quasimethyloterrigena

L. nan conjunction *quasi*, as if; L. fem. n. *Methyloterrigena*, An existing genus; *Quasimethyloterrigena*: A genus related to but distinct from the existing genus Methyloterrigena of as if.

Quasimethylothermus

L. nan conjunction *quasi*, as if; L. masc. n. *Methylothermus*, An existing genus; *Quasimethylothermus*: A genus related to but distinct from the existing genus Methylothermus of as if.

Quasimethylotuvimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Methylotuvimicrobium*, An existing genus; *Quasimethylotuvimicrobium*: A genus related to but distinct from the existing genus Methylotuvimicrobium of as if.

Quasimethyloversatilis

L. nan conjunction *quasi*, as if; L. fem. n. *Methyloversatilis*, An existing genus; *Quasimethyloversatilis*: A genus related to but distinct from the existing genus Methyloversatilis of as if.

Quasimethylovirgula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Methylovirgula*, An existing genus; *Quasimethylovirgula*: A genus related to but distinct from the existing genus Methylovirgula of as if.

Quasimethylovorus

L. nan conjunction *quasi*, as if; L. masc. n. *Methylovorus*, An existing genus; *Quasimethylovorus*: A genus related to but distinct from the existing genus Methylovorus of as if.

Quasimethylovulum

L. nan conjunction *quasi*, as if; L. neut. n. *Methylovulum*, An existing genus; *Quasimethylovulum*: A genus related to but distinct from the existing genus Methylovulum of as if.

Quasimicavibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Micavibrio*, An existing genus; *Quasimicavibrio*: A genus related to but distinct from the existing genus Micavibrio of as if.

Quasimicroaerobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Microaerobacter*, An existing genus; *Quasimicroaerobacter*: A genus related to but distinct from the existing genus Microaerobacter of as if.

Quasimicrobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Microbacterium*, An existing genus; *Quasimicrobacterium*: A genus related to but distinct from the existing genus Microbacterium of as if.

Quasimicrobispora

L. nan conjunction *quasi*, as if; L. fem. n. *Microbispora*, An existing genus; *Quasimicrobispora*: A genus related to but distinct from the existing genus Microbispora of as if.

Quasimicrobulbifer

L. nan conjunction *quasi*, as if; L. masc. n. *Microbulbifer*, An existing genus; *Quasimicrobulbifer*: A genus related to but distinct from the existing genus Microbulbifer of as if.

Quasimicrocella

L. nan conjunction *quasi*, as if; L. fem. n. *Microcella*, An existing genus; *Quasimicrocella*: A genus related to but distinct from the existing genus Microcella of as if.

Quasimicrococcoides

L. nan conjunction *quasi*, as if; L. neut. n. *Micrococcoides*, An existing genus; *Quasimicrococcoides*: A genus related to but distinct from the existing genus Micrococcoides of as if.

Quasimicrococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Micrococcus*, An existing genus; *Quasimicrococcus*: A genus related to but distinct from the existing genus Micrococcus of as if.

Quasimicrocyclus

L. nan conjunction *quasi*, as if; L. masc. n. *Microcyclus*, An existing genus; *Quasimicrocyclus*: A genus related to but distinct from the existing genus Microcyclus of as if.

Quasimicrocystis

L. nan conjunction *quasi*, as if; L. fem. n. *Microcystis*, An existing genus; *Quasimicrocystis*: A genus related to but distinct from the existing genus Microcystis of as if.

Quasimicroellobosporia

L. nan conjunction *quasi*, as if; L. fem. n. *Microellobosporia*, An existing genus; *Quasimicroellobosporia*: A genus related to but distinct from the existing genus Microellobosporia of as if.

Quasimicrolunatus

L. nan conjunction *quasi*, as if; L. masc. n. *Microlunatus*, An existing genus; *Quasimicrolunatus*: A genus related to but distinct from the existing genus Microlunatus of as if.

Quasimicromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Micromonas*, An existing genus; *Quasimicromonas*: A genus related to but distinct from the existing genus Micromonas of as if.

Quasimicromonospora

L. nan conjunction *quasi*, as if; L. fem. n. *Micromonospora*, An existing genus; *Quasimicromonospora*: A genus related to but distinct from the existing genus Micromonospora of as if.

Quasimicropepsis

L. nan conjunction *quasi*, as if; L. fem. n. *Micropepsis*, An existing genus; *Quasimicropepsis*: A genus related to but distinct from the existing genus Micropepsis of as if.

Quasimicropolyspora

L. nan conjunction *quasi*, as if; L. fem. n. *Micropolyspora*, An existing genus; *Quasimicropolyspora*: A genus related to but distinct from the existing genus Micropolyspora of as if.

Quasimicropruina

L. nan conjunction *quasi*, as if; L. fem. n. *Micropruina*, An existing genus; *Quasimicropruina*: A genus related to but distinct from the existing genus Micropruina of as if.

Quasimicroscilla

L. nan conjunction *quasi*, as if; L. fem. n. *Microscilla*, An existing genus; *Quasimicroscilla*: A genus related to but distinct from the existing genus Microscilla of as if.

Quasimicrosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Microsphaera*, An existing genus; *Quasimicrosphaera*: A genus related to but distinct from the existing genus Microsphaera of as if.

Quasimicroterricola

L. nan conjunction *quasi*, as if; L. fem. n. *Microterricola*, An existing genus; *Quasimicroterricola*: A genus related to but distinct from the existing genus Microterricola of as if.

Quasimicrotetraspora

L. nan conjunction *quasi*, as if; L. fem. n. *Microtetraspora*, An existing genus; *Quasimicrotetraspora*: A genus related to but distinct from the existing genus Microtetraspora of as if.

Quasimicrovirgula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Microvirgula*, An existing genus; *Quasimicrovirgula*: A genus related to but distinct from the existing genus Microvirgula of as if.

Quasimillisia

L. nan conjunction *quasi*, as if; L. fem. n. *Millisia*, An existing genus; *Quasimillisia*: A genus related to but distinct from the existing genus Millisia of as if.

Quasiminicystis

L. nan conjunction *quasi*, as if; L. fem. n. *Minicystis*, An existing genus; *Quasiminicystis*: A genus related to but distinct from the existing genus Minicystis of as if.

Quasiminiimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Miniimonas*, An existing genus; *Quasiminiimonas*: A genus related to but distinct from the existing genus Miniimonas of as if.

Quasiminiphocibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Miniphocibacter*, An existing genus; *Quasiminiphocibacter*: A genus related to but distinct from the existing genus Miniphocibacter of as if.

Quasiminunostoc

L. nan conjunction *quasi*, as if; L. neut. n. *Minunostoc*, An existing genus; *Quasiminunostoc*: A genus related to but distinct from the existing genus Minunostoc of as if.

Quasiminwuia

L. nan conjunction *quasi*, as if; L. fem. n. *Minwuia*, An existing genus; *Quasiminwuia*: A genus related to but distinct from the existing genus Minwuia of as if.

Quasimitsuaria

L. nan conjunction *quasi*, as if; L. fem. n. *Mitsuaria*, An existing genus; *Quasimitsuaria*: A genus related to but distinct from the existing genus Mitsuaria of as if.

Quasimitsuokella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Mitsuokella*, An existing genus; *Quasimitsuokella*: A genus related to but distinct from the existing genus Mitsuokella of as if.

Quasimixta

L. nan conjunction *quasi*, as if; L. fem. n. *Mixta*, An existing genus; *Quasimixta*: A genus related to but distinct from the existing genus Mixta of as if.

Quasimizugakiibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Mizugakiibacter*, An existing genus; *Quasimizugakiibacter*: A genus related to but distinct from the existing genus Mizugakiibacter of as if.

Quasimobilicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Mobilicoccus*, An existing genus; *Quasimobilicoccus*: A genus related to but distinct from the existing genus Mobilicoccus of as if.

Quasimobilifilum

L. nan conjunction *quasi*, as if; L. neut. n. *Mobilifilum*, An existing genus; *Quasimobilifilum*: A genus related to but distinct from the existing genus Mobilifilum of as if.

Quasimobilisporobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Mobilisporobacter*, An existing genus; *Quasimobilisporobacter*: A genus related to but distinct from the existing genus Mobilisporobacter of as if.

Quasimobilitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Mobilitalea*, An existing genus; *Quasimobilitalea*: A genus related to but distinct from the existing genus Mobilitalea of as if.

Quasimobiluncus

L. nan conjunction *quasi*, as if; L. masc. n. *Mobiluncus*, An existing genus; *Quasimobiluncus*: A genus related to but distinct from the existing genus Mobiluncus of as if.

Quasimodestobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Modestobacter*, An existing genus; *Quasimodestobacter*: A genus related to but distinct from the existing genus Modestobacter of as if.

Quasimodicisalibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Modicisalibacter*, An existing genus; *Quasimodicisalibacter*: A genus related to but distinct from the existing genus Modicisalibacter of as if.

Quasimoellerella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Moellerella*, An existing genus; *Quasimoellerella*: A genus related to but distinct from the existing genus Moellerella of as if.

Quasimogibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Mogibacterium*, An existing genus; *Quasimogibacterium*: A genus related to but distinct from the existing genus Mogibacterium of as if.

Quasimoheibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Moheibacter*, An existing genus; *Quasimoheibacter*: A genus related to but distinct from the existing genus Moheibacter of as if.

Quasimonaibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Monaibacterium*, An existing genus; *Quasimonaibacterium*: A genus related to but distinct from the existing genus Monaibacterium of as if.

Quasimonashia

L. nan conjunction *quasi*, as if; L. fem. n. *Monashia*, An existing genus; *Quasimonashia*: A genus related to but distinct from the existing genus Monashia of as if.

Quasimongoliibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Mongoliibacter*, An existing genus; *Quasimongoliibacter*: A genus related to but distinct from the existing genus Mongoliibacter of as if.

Quasimongoliicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Mongoliicoccus*, An existing genus; *Quasimongoliicoccus*: A genus related to but distinct from the existing genus Mongoliicoccus of as if.

Quasimongoliimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Mongoliimonas*, An existing genus; *Quasimongoliimonas*: A genus related to but distinct from the existing genus Mongoliimonas of as if.

Quasimongoliitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Mongoliitalea*, An existing genus; *Quasimongoliitalea*: A genus related to but distinct from the existing genus Mongoliitalea of as if.

Quasimonoglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Monoglobus*, An existing genus; *Quasimonoglobus*: A genus related to but distinct from the existing genus Monoglobus of as if.

Quasimoorea

L. nan conjunction *quasi*, as if; L. fem. n. *Moorea*, An existing genus; *Quasimoorea*: A genus related to but distinct from the existing genus Moorea of as if.

Quasimooreia

L. nan conjunction *quasi*, as if; L. fem. n. *Mooreia*, An existing genus; *Quasimooreia*: A genus related to but distinct from the existing genus Mooreia of as if.

Quasimoorella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Moorella*, An existing genus; *Quasimoorella*: A genus related to but distinct from the existing genus Moorella of as if.

Quasimoraxella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Moraxella*, An existing genus; *Quasimoraxella*: A genus related to but distinct from the existing genus Moraxella of as if.

Quasimorganella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Morganella*, An existing genus; *Quasimorganella*: A genus related to but distinct from the existing genus Morganella of as if.

Quasimoritella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Moritella*, An existing genus; *Quasimoritella*: A genus related to but distinct from the existing genus Moritella of as if.

Quasimorococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Morococcus*, An existing genus; *Quasimorococcus*: A genus related to but distinct from the existing genus Morococcus of as if.

Quasimoryella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Moryella*, An existing genus; *Quasimoryella*: A genus related to but distinct from the existing genus Moryella of as if.

Quasimotilibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Motilibacter*, An existing genus; *Quasimotilibacter*: A genus related to but distinct from the existing genus Motilibacter of as if.

Quasimotilimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Motilimonas*, An existing genus; *Quasimotilimonas*: A genus related to but distinct from the existing genus Motilimonas of as if.

Quasimotiliproteus

L. nan conjunction *quasi*, as if; L. masc. n. *Motiliproteus*, An existing genus; *Quasimotiliproteus*: A genus related to but distinct from the existing genus Motiliproteus of as if.

Quasimucinivorans

L. nan conjunction *quasi*, as if; L. masc. n. *Mucinivorans*, An existing genus; *Quasimucinivorans*: A genus related to but distinct from the existing genus Mucinivorans of as if.

Quasimucispirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Mucispirillum*, An existing genus; *Quasimucispirillum*: A genus related to but distinct from the existing genus Mucispirillum of as if.

Quasimumia

L. nan conjunction *quasi*, as if; L. fem. n. *Mumia*, An existing genus; *Quasimumia*: A genus related to but distinct from the existing genus Mumia of as if.

Quasimurdochiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Murdochiella*, An existing genus; *Quasimurdochiella*: A genus related to but distinct from the existing genus Murdochiella of as if.

Quasimuribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Muribacter*, An existing genus; *Quasimuribacter*: A genus related to but distinct from the existing genus Muribacter of as if.

Quasimuribaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Muribaculum*, An existing genus; *Quasimuribaculum*: A genus related to but distinct from the existing genus Muribaculum of as if.

Quasimuricauda

L. nan conjunction *quasi*, as if; L. fem. n. *Muricauda*, An existing genus; *Quasimuricauda*: A genus related to but distinct from the existing genus Muricauda of as if.

Quasimuricoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Muricoccus*, An existing genus; *Quasimuricoccus*: A genus related to but distinct from the existing genus Muricoccus of as if.

Quasimuricomes

L. nan conjunction *quasi*, as if; L. masc. n. *Muricomes*, An existing genus; *Quasimuricomes*: A genus related to but distinct from the existing genus Muricomes of as if.

Quasimuriicola

L. nan conjunction *quasi*, as if; L. masc. n. *Muriicola*, An existing genus; *Quasimuriicola*: A genus related to but distinct from the existing genus Muriicola of as if.

Quasimurimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Murimonas*, An existing genus; *Quasimurimonas*: A genus related to but distinct from the existing genus Murimonas of as if.

Quasimurinocardiopsis

L. nan conjunction *quasi*, as if; L. fem. n. *Murinocardiopsis*, An existing genus; *Quasimurinocardiopsis*: A genus related to but distinct from the existing genus Murinocardiopsis of as if.

Quasimyceligenerans

L. nan conjunction *quasi*, as if; L. neut. n. *Myceligenerans*, An existing genus; *Quasimyceligenerans*: A genus related to but distinct from the existing genus Myceligenerans of as if.

Quasimycetocola

L. nan conjunction *quasi*, as if; L. masc. n. *Mycetocola*, An existing genus; *Quasimycetocola*: A genus related to but distinct from the existing genus Mycetocola of as if.

Quasimycoavidus

L. nan conjunction *quasi*, as if; L. masc. n. *Mycoavidus*, An existing genus; *Quasimycoavidus*: A genus related to but distinct from the existing genus Mycoavidus of as if.

Quasimycobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Mycobacterium*, An existing genus; *Quasimycobacterium*: A genus related to but distinct from the existing genus Mycobacterium of as if.

Quasimycobacteroides

L. nan conjunction *quasi*, as if; L. neut. n. *Mycobacteroides*, An existing genus; *Quasimycobacteroides*: A genus related to but distinct from the existing genus Mycobacteroides of as if.

Quasimycolicibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Mycolicibacillus*, An existing genus; *Quasimycolicibacillus*: A genus related to but distinct from the existing genus Mycolicibacillus of as if.

Quasimycolicibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Mycolicibacter*, An existing genus; *Quasimycolicibacter*: A genus related to but distinct from the existing genus Mycolicibacter of as if.

Quasimycolicibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Mycolicibacterium*, An existing genus; *Quasimycolicibacterium*: A genus related to but distinct from the existing genus Mycolicibacterium of as if.

Quasimycoplana

L. nan conjunction *quasi*, as if; L. fem. n. *Mycoplana*, An existing genus; *Quasimycoplana*: A genus related to but distinct from the existing genus Mycoplana of as if.

Quasimycoplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Mycoplasma*, An existing genus; *Quasimycoplasma*: A genus related to but distinct from the existing genus Mycoplasma of as if.

Quasimycoplasmoides

L. nan conjunction *quasi*, as if; L. neut. n. *Mycoplasmoides*, An existing genus; *Quasimycoplasmoides*: A genus related to but distinct from the existing genus Mycoplasmoides of as if.

Quasimycoplasmopsis

L. nan conjunction *quasi*, as if; L. fem. n. *Mycoplasmopsis*, An existing genus; *Quasimycoplasmopsis*: A genus related to but distinct from the existing genus Mycoplasmopsis of as if.

Quasimyroides

L. nan conjunction *quasi*, as if; L. masc. n. *Myroides*, An existing genus; *Quasimyroides*: A genus related to but distinct from the existing genus Myroides of as if.

Quasimyxacorys

L. nan conjunction *quasi*, as if; L. fem. n. *Myxacorys*, An existing genus; *Quasimyxacorys*: A genus related to but distinct from the existing genus Myxacorys of as if.

Quasimyxococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Myxococcus*, An existing genus; *Quasimyxococcus*: A genus related to but distinct from the existing genus Myxococcus of as if.

Quasimzabimyces

L. nan conjunction *quasi*, as if; L. masc. n. *Mzabimyces*, An existing genus; *Quasimzabimyces*: A genus related to but distinct from the existing genus Mzabimyces of as if.

Quasinaasia

L. nan conjunction *quasi*, as if; L. fem. n. *Naasia*, An existing genus; *Quasinaasia*: A genus related to but distinct from the existing genus Naasia of as if.

Quasinafulsella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Nafulsella*, An existing genus; *Quasinafulsella*: A genus related to but distinct from the existing genus Nafulsella of as if.

Quasinakamurella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Nakamurella*, An existing genus; *Quasinakamurella*: A genus related to but distinct from the existing genus Nakamurella of as if.

Quasinamhaeicola

L. nan conjunction *quasi*, as if; L. masc. n. *Namhaeicola*, An existing genus; *Quasinamhaeicola*: A genus related to but distinct from the existing genus Namhaeicola of as if.

Quasinannocystis

L. nan conjunction *quasi*, as if; L. fem. n. *Nannocystis*, An existing genus; *Quasinannocystis*: A genus related to but distinct from the existing genus Nannocystis of as if.

Quasinatranaerobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Natranaerobaculum*, An existing genus; *Quasinatranaerobaculum*: A genus related to but distinct from the existing genus Natranaerobaculum of as if.

Quasinatranaerobius

L. nan conjunction *quasi*, as if; L. masc. n. *Natranaerobius*, An existing genus; *Quasinatranaerobius*: A genus related to but distinct from the existing genus Natranaerobius of as if.

Quasinatranaerovirga

L. nan conjunction *quasi*, as if; L. fem. n. *Natranaerovirga*, An existing genus; *Quasinatranaerovirga*: A genus related to but distinct from the existing genus Natranaerovirga of as if.

Quasinatrarchaeobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Natrarchaeobaculum*, An existing genus; *Quasinatrarchaeobaculum*: A genus related to but distinct from the existing genus Natrarchaeobaculum of as if.

Quasinatrarchaeobius

L. nan conjunction *quasi*, as if; L. masc. n. *Natrarchaeobius*, An existing genus; *Quasinatrarchaeobius*: A genus related to but distinct from the existing genus Natrarchaeobius of as if.

Quasinatrialba

L. nan conjunction *quasi*, as if; L. fem. n. *Natrialba*, An existing genus; *Quasinatrialba*: A genus related to but distinct from the existing genus Natrialba of as if.

Quasinatribacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Natribacillus*, An existing genus; *Quasinatribacillus*: A genus related to but distinct from the existing genus Natribacillus of as if.

Quasinatribaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Natribaculum*, An existing genus; *Quasinatribaculum*: A genus related to but distinct from the existing genus Natribaculum of as if.

Quasinatrinema

L. nan conjunction *quasi*, as if; L. neut. n. *Natrinema*, An existing genus; *Quasinatrinema*: A genus related to but distinct from the existing genus Natrinema of as if.

Quasinatroniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Natroniella*, An existing genus; *Quasinatroniella*: A genus related to but distinct from the existing genus Natroniella of as if.

Quasinatronoarchaeum

L. nan conjunction *quasi*, as if; L. neut. n. *Natronoarchaeum*, An existing genus; *Quasinatronoarchaeum*: A genus related to but distinct from the existing genus Natronoarchaeum of as if.

Quasinatronobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Natronobacillus*, An existing genus; *Quasinatronobacillus*: A genus related to but distinct from the existing genus Natronobacillus of as if.

Quasinatronobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Natronobacterium*, An existing genus; *Quasinatronobacterium*: A genus related to but distinct from the existing genus Natronobacterium of as if.

Quasinatronobiforma

L. nan conjunction *quasi*, as if; L. fem. n. *Natronobiforma*, An existing genus; *Quasinatronobiforma*: A genus related to but distinct from the existing genus Natronobiforma of as if.

Quasinatronocella

L. nan conjunction *quasi*, as if; L. fem. n. *Natronocella*, An existing genus; *Quasinatronocella*: A genus related to but distinct from the existing genus Natronocella of as if.

Quasinatronococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Natronococcus*, An existing genus; *Quasinatronococcus*: A genus related to but distinct from the existing genus Natronococcus of as if.

Quasinatronoflexus

L. nan conjunction *quasi*, as if; L. masc. n. *Natronoflexus*, An existing genus; *Quasinatronoflexus*: A genus related to but distinct from the existing genus Natronoflexus of as if.

Quasinatronolimnobius

L. nan conjunction *quasi*, as if; L. masc. n. *Natronolimnobius*, An existing genus; *Quasinatronolimnobius*: A genus related to but distinct from the existing genus Natronolimnobius of as if.

Quasinatronolimnohabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Natronolimnohabitans*, An existing genus; *Quasinatronolimnohabitans*: A genus related to but distinct from the existing genus Natronolimnohabitans of as if.

Quasinatronomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Natronomonas*, An existing genus; *Quasinatronomonas*: A genus related to but distinct from the existing genus Natronomonas of as if.

Quasinatronorubrum

L. nan conjunction *quasi*, as if; L. neut. n. *Natronorubrum*, An existing genus; *Quasinatronorubrum*: A genus related to but distinct from the existing genus Natronorubrum of as if.

Quasinatronospira

L. nan conjunction *quasi*, as if; L. fem. n. *Natronospira*, An existing genus; *Quasinatronospira*: A genus related to but distinct from the existing genus Natronospira of as if.

Quasinatronospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Natronospirillum*, An existing genus; *Quasinatronospirillum*: A genus related to but distinct from the existing genus Natronospirillum of as if.

Quasinatronovirga

L. nan conjunction *quasi*, as if; L. fem. n. *Natronovirga*, An existing genus; *Quasinatronovirga*: A genus related to but distinct from the existing genus Natronovirga of as if.

Quasinaumannella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Naumannella*, An existing genus; *Quasinaumannella*: A genus related to but distinct from the existing genus Naumannella of as if.

Quasinautella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Nautella*, An existing genus; *Quasinautella*: A genus related to but distinct from the existing genus Nautella of as if.

Quasinautilia

L. nan conjunction *quasi*, as if; L. fem. n. *Nautilia*, An existing genus; *Quasinautilia*: A genus related to but distinct from the existing genus Nautilia of as if.

Quasinaxibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Naxibacter*, An existing genus; *Quasinaxibacter*: A genus related to but distinct from the existing genus Naxibacter of as if.

Quasinecropsobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Necropsobacter*, An existing genus; *Quasinecropsobacter*: A genus related to but distinct from the existing genus Necropsobacter of as if.

Quasinegadavirga

L. nan conjunction *quasi*, as if; L. fem. n. *Negadavirga*, An existing genus; *Quasinegadavirga*: A genus related to but distinct from the existing genus Negadavirga of as if.

Quasinegativicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Negativicoccus*, An existing genus; *Quasinegativicoccus*: A genus related to but distinct from the existing genus Negativicoccus of as if.

Quasineiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Neiella*, An existing genus; *Quasineiella*: A genus related to but distinct from the existing genus Neiella of as if.

Quasineisseria

L. nan conjunction *quasi*, as if; L. fem. n. *Neisseria*, An existing genus; *Quasineisseria*: A genus related to but distinct from the existing genus Neisseria of as if.

Quasinemorella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Nemorella*, An existing genus; *Quasinemorella*: A genus related to but distinct from the existing genus Nemorella of as if.

Quasinemorincola

L. nan conjunction *quasi*, as if; L. fem. n. *Nemorincola*, An existing genus; *Quasinemorincola*: A genus related to but distinct from the existing genus Nemorincola of as if.

Quasineoasaia

L. nan conjunction *quasi*, as if; L. fem. n. *Neoasaia*, An existing genus; *Quasineoasaia*: A genus related to but distinct from the existing genus Neoasaia of as if.

Quasineobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Neobacillus*, An existing genus; *Quasineobacillus*: A genus related to but distinct from the existing genus Neobacillus of as if.

Quasineochlamydia

L. nan conjunction *quasi*, as if; L. fem. n. *Neochlamydia*, An existing genus; *Quasineochlamydia*: A genus related to but distinct from the existing genus Neochlamydia of as if.

Quasineokomagataea

L. nan conjunction *quasi*, as if; L. fem. n. *Neokomagataea*, An existing genus; *Quasineokomagataea*: A genus related to but distinct from the existing genus Neokomagataea of as if.

Quasineolyngbya

L. nan conjunction *quasi*, as if; L. fem. n. *Neolyngbya*, An existing genus; *Quasineolyngbya*: A genus related to but distinct from the existing genus Neolyngbya of as if.

Quasineomegalonema

L. nan conjunction *quasi*, as if; L. neut. n. *Neomegalonema*, An existing genus; *Quasineomegalonema*: A genus related to but distinct from the existing genus Neomegalonema of as if.

Quasineomicrococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Neomicrococcus*, An existing genus; *Quasineomicrococcus*: A genus related to but distinct from the existing genus Neomicrococcus of as if.

Quasineorhizobium

L. nan conjunction *quasi*, as if; L. neut. n. *Neorhizobium*, An existing genus; *Quasineorhizobium*: A genus related to but distinct from the existing genus Neorhizobium of as if.

Quasineorickettsia

L. nan conjunction *quasi*, as if; L. fem. n. *Neorickettsia*, An existing genus; *Quasineorickettsia*: A genus related to but distinct from the existing genus Neorickettsia of as if.

Quasineoscardovia

L. nan conjunction *quasi*, as if; L. fem. n. *Neoscardovia*, An existing genus; *Quasineoscardovia*: A genus related to but distinct from the existing genus Neoscardovia of as if.

Quasineowestiellopsis

L. nan conjunction *quasi*, as if; L. fem. n. *Neowestiellopsis*, An existing genus; *Quasineowestiellopsis*: A genus related to but distinct from the existing genus Neowestiellopsis of as if.

Quasineptunicella

L. nan conjunction *quasi*, as if; L. fem. n. *Neptunicella*, An existing genus; *Quasineptunicella*: A genus related to but distinct from the existing genus Neptunicella of as if.

Quasineptunicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Neptunicoccus*, An existing genus; *Quasineptunicoccus*: A genus related to but distinct from the existing genus Neptunicoccus of as if.

Quasineptuniibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Neptuniibacter*, An existing genus; *Quasineptuniibacter*: A genus related to but distinct from the existing genus Neptuniibacter of as if.

Quasineptunitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Neptunitalea*, An existing genus; *Quasineptunitalea*: A genus related to but distinct from the existing genus Neptunitalea of as if.

Quasineptunomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Neptunomonas*, An existing genus; *Quasineptunomonas*: A genus related to but distinct from the existing genus Neptunomonas of as if.

Quasinereida

L. nan conjunction *quasi*, as if; L. fem. n. *Nereida*, An existing genus; *Quasinereida*: A genus related to but distinct from the existing genus Nereida of as if.

Quasinesiotobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Nesiotobacter*, An existing genus; *Quasinesiotobacter*: A genus related to but distinct from the existing genus Nesiotobacter of as if.

Quasinesterenkonia

L. nan conjunction *quasi*, as if; L. fem. n. *Nesterenkonia*, An existing genus; *Quasinesterenkonia*: A genus related to but distinct from the existing genus Nesterenkonia of as if.

Quasinevskia

L. nan conjunction *quasi*, as if; L. fem. n. *Nevskia*, An existing genus; *Quasinevskia*: A genus related to but distinct from the existing genus Nevskia of as if.

Quasinguyenibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Nguyenibacter*, An existing genus; *Quasinguyenibacter*: A genus related to but distinct from the existing genus Nguyenibacter of as if.

Quasiniabella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Niabella*, An existing genus; *Quasiniabella*: A genus related to but distinct from the existing genus Niabella of as if.

Quasiniastella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Niastella*, An existing genus; *Quasiniastella*: A genus related to but distinct from the existing genus Niastella of as if.

Quasinibrella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Nibrella*, An existing genus; *Quasinibrella*: A genus related to but distinct from the existing genus Nibrella of as if.

Quasinibribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Nibribacter*, An existing genus; *Quasinibribacter*: A genus related to but distinct from the existing genus Nibribacter of as if.

Quasinibricoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Nibricoccus*, An existing genus; *Quasinibricoccus*: A genus related to but distinct from the existing genus Nibricoccus of as if.

Quasinicoletella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Nicoletella*, An existing genus; *Quasinicoletella*: A genus related to but distinct from the existing genus Nicoletella of as if.

Quasiningiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Ningiella*, An existing genus; *Quasiningiella*: A genus related to but distinct from the existing genus Ningiella of as if.

Quasinioella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Nioella*, An existing genus; *Quasinioella*: A genus related to but distinct from the existing genus Nioella of as if.

Quasinitratifractor

L. nan conjunction *quasi*, as if; L. masc. n. *Nitratifractor*, An existing genus; *Quasinitratifractor*: A genus related to but distinct from the existing genus Nitratifractor of as if.

Quasinitratireductor

L. nan conjunction *quasi*, as if; L. masc. n. *Nitratireductor*, An existing genus; *Quasinitratireductor*: A genus related to but distinct from the existing genus Nitratireductor of as if.

Quasinitratiruptor

L. nan conjunction *quasi*, as if; L. masc. n. *Nitratiruptor*, An existing genus; *Quasinitratiruptor*: A genus related to but distinct from the existing genus Nitratiruptor of as if.

Quasinitriliruptor

L. nan conjunction *quasi*, as if; L. masc. n. *Nitriliruptor*, An existing genus; *Quasinitriliruptor*: A genus related to but distinct from the existing genus Nitriliruptor of as if.

Quasinitrincola

L. nan conjunction *quasi*, as if; L. masc. n. *Nitrincola*, An existing genus; *Quasinitrincola*: A genus related to but distinct from the existing genus Nitrincola of as if.

Quasinitritalea

L. nan conjunction *quasi*, as if; L. fem. n. *Nitritalea*, An existing genus; *Quasinitritalea*: A genus related to but distinct from the existing genus Nitritalea of as if.

Quasinitrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Nitrobacter*, An existing genus; *Quasinitrobacter*: A genus related to but distinct from the existing genus Nitrobacter of as if.

Quasinitrococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Nitrococcus*, An existing genus; *Quasinitrococcus*: A genus related to but distinct from the existing genus Nitrococcus of as if.

Quasinitrolancea

L. nan conjunction *quasi*, as if; L. fem. n. *Nitrolancea*, An existing genus; *Quasinitrolancea*: A genus related to but distinct from the existing genus Nitrolancea of as if.

Quasinitrosarchaeum

L. nan conjunction *quasi*, as if; L. neut. n. *Nitrosarchaeum*, An existing genus; *Quasinitrosarchaeum*: A genus related to but distinct from the existing genus Nitrosarchaeum of as if.

Quasinitrosococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Nitrosococcus*, An existing genus; *Quasinitrosococcus*: A genus related to but distinct from the existing genus Nitrosococcus of as if.

Quasinitrosolobus

L. nan conjunction *quasi*, as if; L. masc. n. *Nitrosolobus*, An existing genus; *Quasinitrosolobus*: A genus related to but distinct from the existing genus Nitrosolobus of as if.

Quasinitrosomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Nitrosomonas*, An existing genus; *Quasinitrosomonas*: A genus related to but distinct from the existing genus Nitrosomonas of as if.

Quasinitrosopumilus

L. nan conjunction *quasi*, as if; L. masc. n. *Nitrosopumilus*, An existing genus; *Quasinitrosopumilus*: A genus related to but distinct from the existing genus Nitrosopumilus of as if.

Quasinitrososphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Nitrososphaera*, An existing genus; *Quasinitrososphaera*: A genus related to but distinct from the existing genus Nitrososphaera of as if.

Quasinitrosospira

L. nan conjunction *quasi*, as if; L. fem. n. *Nitrosospira*, An existing genus; *Quasinitrosospira*: A genus related to but distinct from the existing genus Nitrosospira of as if.

Quasinitrospina

L. nan conjunction *quasi*, as if; L. fem. n. *Nitrospina*, An existing genus; *Quasinitrospina*: A genus related to but distinct from the existing genus Nitrospina of as if.

Quasinitrospira

L. nan conjunction *quasi*, as if; L. fem. n. *Nitrospira*, An existing genus; *Quasinitrospira*: A genus related to but distinct from the existing genus Nitrospira of as if.

Quasiniveibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Niveibacterium*, An existing genus; *Quasiniveibacterium*: A genus related to but distinct from the existing genus Niveibacterium of as if.

Quasiniveispirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Niveispirillum*, An existing genus; *Quasiniveispirillum*: A genus related to but distinct from the existing genus Niveispirillum of as if.

Quasiniveitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Niveitalea*, An existing genus; *Quasiniveitalea*: A genus related to but distinct from the existing genus Niveitalea of as if.

Quasinocardia

L. nan conjunction *quasi*, as if; L. fem. n. *Nocardia*, An existing genus; *Quasinocardia*: A genus related to but distinct from the existing genus Nocardia of as if.

Quasinocardioides

L. nan conjunction *quasi*, as if; L. masc. n. *Nocardioides*, An existing genus; *Quasinocardioides*: A genus related to but distinct from the existing genus Nocardioides of as if.

Quasinocardiopsis

L. nan conjunction *quasi*, as if; L. fem. n. *Nocardiopsis*, An existing genus; *Quasinocardiopsis*: A genus related to but distinct from the existing genus Nocardiopsis of as if.

Quasinodosilinea

L. nan conjunction *quasi*, as if; L. fem. n. *Nodosilinea*, An existing genus; *Quasinodosilinea*: A genus related to but distinct from the existing genus Nodosilinea of as if.

Quasinonhongiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Nonhongiella*, An existing genus; *Quasinonhongiella*: A genus related to but distinct from the existing genus Nonhongiella of as if.

Quasinonomuraea

L. nan conjunction *quasi*, as if; L. fem. n. *Nonomuraea*, An existing genus; *Quasinonomuraea*: A genus related to but distinct from the existing genus Nonomuraea of as if.

Quasinosocomiicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Nosocomiicoccus*, An existing genus; *Quasinosocomiicoccus*: A genus related to but distinct from the existing genus Nosocomiicoccus of as if.

Quasinostoc

L. nan conjunction *quasi*, as if; L. neut. n. *Nostoc*, An existing genus; *Quasinostoc*: A genus related to but distinct from the existing genus Nostoc of as if.

Quasinotoacmeibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Notoacmeibacter*, An existing genus; *Quasinotoacmeibacter*: A genus related to but distinct from the existing genus Notoacmeibacter of as if.

Quasinovibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Novibacillus*, An existing genus; *Quasinovibacillus*: A genus related to but distinct from the existing genus Novibacillus of as if.

Quasinoviherbaspirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Noviherbaspirillum*, An existing genus; *Quasinoviherbaspirillum*: A genus related to but distinct from the existing genus Noviherbaspirillum of as if.

Quasinovimethylophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Novimethylophilus*, An existing genus; *Quasinovimethylophilus*: A genus related to but distinct from the existing genus Novimethylophilus of as if.

Quasinovipirellula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Novipirellula*, An existing genus; *Quasinovipirellula*: A genus related to but distinct from the existing genus Novipirellula of as if.

Quasinovispirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Novispirillum*, An existing genus; *Quasinovispirillum*: A genus related to but distinct from the existing genus Novispirillum of as if.

Quasinovosphingobium

L. nan conjunction *quasi*, as if; L. neut. n. *Novosphingobium*, An existing genus; *Quasinovosphingobium*: A genus related to but distinct from the existing genus Novosphingobium of as if.

Quasinovosphingopyxis

L. nan conjunction *quasi*, as if; L. fem. n. *Novosphingopyxis*, An existing genus; *Quasinovosphingopyxis*: A genus related to but distinct from the existing genus Novosphingopyxis of as if.

Quasinubsella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Nubsella*, An existing genus; *Quasinubsella*: A genus related to but distinct from the existing genus Nubsella of as if.

Quasinumidum

L. nan conjunction *quasi*, as if; L. neut. n. *Numidum*, An existing genus; *Quasinumidum*: A genus related to but distinct from the existing genus Numidum of as if.

Quasiobesumbacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Obesumbacterium*, An existing genus; *Quasiobesumbacterium*: A genus related to but distinct from the existing genus Obesumbacterium of as if.

Quasioblitimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Oblitimonas*, An existing genus; *Quasioblitimonas*: A genus related to but distinct from the existing genus Oblitimonas of as if.

Quasioccallatibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Occallatibacter*, An existing genus; *Quasioccallatibacter*: A genus related to but distinct from the existing genus Occallatibacter of as if.

Quasioccidentia

L. nan conjunction *quasi*, as if; L. fem. n. *Occidentia*, An existing genus; *Quasioccidentia*: A genus related to but distinct from the existing genus Occidentia of as if.

Quasioceanibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Oceanibacterium*, An existing genus; *Quasioceanibacterium*: A genus related to but distinct from the existing genus Oceanibacterium of as if.

Quasioceanibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Oceanibaculum*, An existing genus; *Quasioceanibaculum*: A genus related to but distinct from the existing genus Oceanibaculum of as if.

Quasioceanibium

L. nan conjunction *quasi*, as if; L. neut. n. *Oceanibium*, An existing genus; *Quasioceanibium*: A genus related to but distinct from the existing genus Oceanibium of as if.

Quasioceanicella

L. nan conjunction *quasi*, as if; L. fem. n. *Oceanicella*, An existing genus; *Quasioceanicella*: A genus related to but distinct from the existing genus Oceanicella of as if.

Quasioceanicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Oceanicoccus*, An existing genus; *Quasioceanicoccus*: A genus related to but distinct from the existing genus Oceanicoccus of as if.

Quasioceanicola

L. nan conjunction *quasi*, as if; L. masc. n. *Oceanicola*, An existing genus; *Quasioceanicola*: A genus related to but distinct from the existing genus Oceanicola of as if.

Quasioceaniglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Oceaniglobus*, An existing genus; *Quasioceaniglobus*: A genus related to but distinct from the existing genus Oceaniglobus of as if.

Quasioceanimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Oceanimonas*, An existing genus; *Quasioceanimonas*: A genus related to but distinct from the existing genus Oceanimonas of as if.

Quasioceaniradius

L. nan conjunction *quasi*, as if; L. masc. n. *Oceaniradius*, An existing genus; *Quasioceaniradius*: A genus related to but distinct from the existing genus Oceaniradius of as if.

Quasioceanirhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Oceanirhabdus*, An existing genus; *Quasioceanirhabdus*: A genus related to but distinct from the existing genus Oceanirhabdus of as if.

Quasioceanisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Oceanisphaera*, An existing genus; *Quasioceanisphaera*: A genus related to but distinct from the existing genus Oceanisphaera of as if.

Quasioceanispirochaeta

L. nan conjunction *quasi*, as if; L. fem. n. *Oceanispirochaeta*, An existing genus; *Quasioceanispirochaeta*: A genus related to but distinct from the existing genus Oceanispirochaeta of as if.

Quasioceanitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Oceanitalea*, An existing genus; *Quasioceanitalea*: A genus related to but distinct from the existing genus Oceanitalea of as if.

Quasioceanithermus

L. nan conjunction *quasi*, as if; L. masc. n. *Oceanithermus*, An existing genus; *Quasioceanithermus*: A genus related to but distinct from the existing genus Oceanithermus of as if.

Quasioceanivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Oceanivirga*, An existing genus; *Quasioceanivirga*: A genus related to but distinct from the existing genus Oceanivirga of as if.

Quasioceanobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Oceanobacillus*, An existing genus; *Quasioceanobacillus*: A genus related to but distinct from the existing genus Oceanobacillus of as if.

Quasioceanobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Oceanobacter*, An existing genus; *Quasioceanobacter*: A genus related to but distinct from the existing genus Oceanobacter of as if.

Quasioceanococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Oceanococcus*, An existing genus; *Quasioceanococcus*: A genus related to but distinct from the existing genus Oceanococcus of as if.

Quasioceanospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Oceanospirillum*, An existing genus; *Quasioceanospirillum*: A genus related to but distinct from the existing genus Oceanospirillum of as if.

Quasioceanotoga

L. nan conjunction *quasi*, as if; L. fem. n. *Oceanotoga*, An existing genus; *Quasioceanotoga*: A genus related to but distinct from the existing genus Oceanotoga of as if.

Quasiochrobactrum

L. nan conjunction *quasi*, as if; L. neut. n. *Ochrobactrum*, An existing genus; *Quasiochrobactrum*: A genus related to but distinct from the existing genus Ochrobactrum of as if.

Quasiochrovirga

L. nan conjunction *quasi*, as if; L. fem. n. *Ochrovirga*, An existing genus; *Quasiochrovirga*: A genus related to but distinct from the existing genus Ochrovirga of as if.

Quasioctadecabacter

L. nan conjunction *quasi*, as if; L. masc. n. *Octadecabacter*, An existing genus; *Quasioctadecabacter*: A genus related to but distinct from the existing genus Octadecabacter of as if.

Quasioculatella

L. nan conjunction *quasi*, as if; L. fem. n. *Oculatella*, An existing genus; *Quasioculatella*: A genus related to but distinct from the existing genus Oculatella of as if.

Quasiodorella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Odorella*, An existing genus; *Quasiodorella*: A genus related to but distinct from the existing genus Odorella of as if.

Quasiodoribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Odoribacter*, An existing genus; *Quasiodoribacter*: A genus related to but distinct from the existing genus Odoribacter of as if.

Quasioenococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Oenococcus*, An existing genus; *Quasioenococcus*: A genus related to but distinct from the existing genus Oenococcus of as if.

Quasioerskovia

L. nan conjunction *quasi*, as if; L. fem. n. *Oerskovia*, An existing genus; *Quasioerskovia*: A genus related to but distinct from the existing genus Oerskovia of as if.

Quasioharaeibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Oharaeibacter*, An existing genus; *Quasioharaeibacter*: A genus related to but distinct from the existing genus Oharaeibacter of as if.

Quasiohtaekwangia

L. nan conjunction *quasi*, as if; L. fem. n. *Ohtaekwangia*, An existing genus; *Quasiohtaekwangia*: A genus related to but distinct from the existing genus Ohtaekwangia of as if.

Quasiokeania

L. nan conjunction *quasi*, as if; L. fem. n. *Okeania*, An existing genus; *Quasiokeania*: A genus related to but distinct from the existing genus Okeania of as if.

Quasiokibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Okibacterium*, An existing genus; *Quasiokibacterium*: A genus related to but distinct from the existing genus Okibacterium of as if.

Quasiolegusella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Olegusella*, An existing genus; *Quasiolegusella*: A genus related to but distinct from the existing genus Olegusella of as if.

Quasioleiagrimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Oleiagrimonas*, An existing genus; *Quasioleiagrimonas*: A genus related to but distinct from the existing genus Oleiagrimonas of as if.

Quasioleibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Oleibacter*, An existing genus; *Quasioleibacter*: A genus related to but distinct from the existing genus Oleibacter of as if.

Quasioleiharenicola

L. nan conjunction *quasi*, as if; L. masc. n. *Oleiharenicola*, An existing genus; *Quasioleiharenicola*: A genus related to but distinct from the existing genus Oleiharenicola of as if.

Quasioleiliquidispirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Oleiliquidispirillum*, An existing genus; *Quasioleiliquidispirillum*: A genus related to but distinct from the existing genus Oleiliquidispirillum of as if.

Quasioleisolibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Oleisolibacter*, An existing genus; *Quasioleisolibacter*: A genus related to but distinct from the existing genus Oleisolibacter of as if.

Quasioleispira

L. nan conjunction *quasi*, as if; L. fem. n. *Oleispira*, An existing genus; *Quasioleispira*: A genus related to but distinct from the existing genus Oleispira of as if.

Quasioligella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Oligella*, An existing genus; *Quasioligella*: A genus related to but distinct from the existing genus Oligella of as if.

Quasioligoflexus

L. nan conjunction *quasi*, as if; L. masc. n. *Oligoflexus*, An existing genus; *Quasioligoflexus*: A genus related to but distinct from the existing genus Oligoflexus of as if.

Quasioligosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Oligosphaera*, An existing genus; *Quasioligosphaera*: A genus related to but distinct from the existing genus Oligosphaera of as if.

Quasioligotropha

L. nan conjunction *quasi*, as if; L. fem. n. *Oligotropha*, An existing genus; *Quasioligotropha*: A genus related to but distinct from the existing genus Oligotropha of as if.

Quasiolivibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Olivibacter*, An existing genus; *Quasiolivibacter*: A genus related to but distinct from the existing genus Olivibacter of as if.

Quasiolleya

L. nan conjunction *quasi*, as if; L. fem. n. *Olleya*, An existing genus; *Quasiolleya*: A genus related to but distinct from the existing genus Olleya of as if.

Quasiolsenella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Olsenella*, An existing genus; *Quasiolsenella*: A genus related to but distinct from the existing genus Olsenella of as if.

Quasionodrimia

L. nan conjunction *quasi*, as if; L. fem. n. *Onodrimia*, An existing genus; *Quasionodrimia*: A genus related to but distinct from the existing genus Onodrimia of as if.

Quasiopitutus

L. nan conjunction *quasi*, as if; L. masc. n. *Opitutus*, An existing genus; *Quasiopitutus*: A genus related to but distinct from the existing genus Opitutus of as if.

Quasiorenia

L. nan conjunction *quasi*, as if; L. fem. n. *Orenia*, An existing genus; *Quasiorenia*: A genus related to but distinct from the existing genus Orenia of as if.

Quasioribacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Oribacterium*, An existing genus; *Quasioribacterium*: A genus related to but distinct from the existing genus Oribacterium of as if.

Quasioribaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Oribaculum*, An existing genus; *Quasioribaculum*: A genus related to but distinct from the existing genus Oribaculum of as if.

Quasioricola

L. nan conjunction *quasi*, as if; L. fem. n. *Oricola*, An existing genus; *Quasioricola*: A genus related to but distinct from the existing genus Oricola of as if.

Quasiornatilinea

L. nan conjunction *quasi*, as if; L. fem. n. *Ornatilinea*, An existing genus; *Quasiornatilinea*: A genus related to but distinct from the existing genus Ornatilinea of as if.

Quasiornithinibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Ornithinibacillus*, An existing genus; *Quasiornithinibacillus*: A genus related to but distinct from the existing genus Ornithinibacillus of as if.

Quasiornithinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Ornithinibacter*, An existing genus; *Quasiornithinibacter*: A genus related to but distinct from the existing genus Ornithinibacter of as if.

Quasiornithinicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Ornithinicoccus*, An existing genus; *Quasiornithinicoccus*: A genus related to but distinct from the existing genus Ornithinicoccus of as if.

Quasiornithinimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Ornithinimicrobium*, An existing genus; *Quasiornithinimicrobium*: A genus related to but distinct from the existing genus Ornithinimicrobium of as if.

Quasiornithobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Ornithobacterium*, An existing genus; *Quasiornithobacterium*: A genus related to but distinct from the existing genus Ornithobacterium of as if.

Quasiorrella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Orrella*, An existing genus; *Quasiorrella*: A genus related to but distinct from the existing genus Orrella of as if.

Quasioryzihumus

L. nan conjunction *quasi*, as if; L. fem. n. *Oryzihumus*, An existing genus; *Quasioryzihumus*: A genus related to but distinct from the existing genus Oryzihumus of as if.

Quasioryzisolibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Oryzisolibacter*, An existing genus; *Quasioryzisolibacter*: A genus related to but distinct from the existing genus Oryzisolibacter of as if.

Quasioryzobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Oryzobacter*, An existing genus; *Quasioryzobacter*: A genus related to but distinct from the existing genus Oryzobacter of as if.

Quasioryzomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Oryzomicrobium*, An existing genus; *Quasioryzomicrobium*: A genus related to but distinct from the existing genus Oryzomicrobium of as if.

Quasioryzomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Oryzomonas*, An existing genus; *Quasioryzomonas*: A genus related to but distinct from the existing genus Oryzomonas of as if.

Quasioscillatoria

L. nan conjunction *quasi*, as if; L. fem. n. *Oscillatoria*, An existing genus; *Quasioscillatoria*: A genus related to but distinct from the existing genus Oscillatoria of as if.

Quasioscillibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Oscillibacter*, An existing genus; *Quasioscillibacter*: A genus related to but distinct from the existing genus Oscillibacter of as if.

Quasioscillochloris

L. nan conjunction *quasi*, as if; L. fem. n. *Oscillochloris*, An existing genus; *Quasioscillochloris*: A genus related to but distinct from the existing genus Oscillochloris of as if.

Quasioscillospira

L. nan conjunction *quasi*, as if; L. fem. n. *Oscillospira*, An existing genus; *Quasioscillospira*: A genus related to but distinct from the existing genus Oscillospira of as if.

Quasiotariodibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Otariodibacter*, An existing genus; *Quasiotariodibacter*: A genus related to but distinct from the existing genus Otariodibacter of as if.

Quasiottowia

L. nan conjunction *quasi*, as if; L. fem. n. *Ottowia*, An existing genus; *Quasiottowia*: A genus related to but distinct from the existing genus Ottowia of as if.

Quasiowenweeksia

L. nan conjunction *quasi*, as if; L. fem. n. *Owenweeksia*, An existing genus; *Quasiowenweeksia*: A genus related to but distinct from the existing genus Owenweeksia of as if.

Quasioxalobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Oxalobacter*, An existing genus; *Quasioxalobacter*: A genus related to but distinct from the existing genus Oxalobacter of as if.

Quasioxalophagus

L. nan conjunction *quasi*, as if; L. masc. n. *Oxalophagus*, An existing genus; *Quasioxalophagus*: A genus related to but distinct from the existing genus Oxalophagus of as if.

Quasioxobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Oxobacter*, An existing genus; *Quasioxobacter*: A genus related to but distinct from the existing genus Oxobacter of as if.

Quasioxynema

L. nan conjunction *quasi*, as if; L. neut. n. *Oxynema*, An existing genus; *Quasioxynema*: A genus related to but distinct from the existing genus Oxynema of as if.

Quasipacificibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pacificibacter*, An existing genus; *Quasipacificibacter*: A genus related to but distinct from the existing genus Pacificibacter of as if.

Quasipaenactinomyces

L. nan conjunction *quasi*, as if; L. masc. n. *Paenactinomyces*, An existing genus; *Quasipaenactinomyces*: A genus related to but distinct from the existing genus Paenactinomyces of as if.

Quasipaenalcaligenes

L. nan conjunction *quasi*, as if; L. masc. n. *Paenalcaligenes*, An existing genus; *Quasipaenalcaligenes*: A genus related to but distinct from the existing genus Paenalcaligenes of as if.

Quasipaenarthrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Paenarthrobacter*, An existing genus; *Quasipaenarthrobacter*: A genus related to but distinct from the existing genus Paenarthrobacter of as if.

Quasipaenibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Paenibacillus*, An existing genus; *Quasipaenibacillus*: A genus related to but distinct from the existing genus Paenibacillus of as if.

Quasipaeniclostridium

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Paeniclostridium*, An existing genus; *Quasipaeniclostridium*: A genus related to but distinct from the existing genus Paeniclostridium of as if.

Quasipaeniglutamicibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Paeniglutamicibacter*, An existing genus; *Quasipaeniglutamicibacter*: A genus related to but distinct from the existing genus Paeniglutamicibacter of as if.

Quasipaenimaribius

L. nan conjunction *quasi*, as if; L. masc. n. *Paenimaribius*, An existing genus; *Quasipaenimaribius*: A genus related to but distinct from the existing genus Paenimaribius of as if.

Quasipaenirhodobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Paenirhodobacter*, An existing genus; *Quasipaenirhodobacter*: A genus related to but distinct from the existing genus Paenirhodobacter of as if.

Quasipaenisporosarcina

L. nan conjunction *quasi*, as if; L. fem. n. *Paenisporosarcina*, An existing genus; *Quasipaenisporosarcina*: A genus related to but distinct from the existing genus Paenisporosarcina of as if.

Quasipaenochrobactrum

L. nan conjunction *quasi*, as if; L. neut. n. *Paenochrobactrum*, An existing genus; *Quasipaenochrobactrum*: A genus related to but distinct from the existing genus Paenochrobactrum of as if.

Quasipalaeococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Palaeococcus*, An existing genus; *Quasipalaeococcus*: A genus related to but distinct from the existing genus Palaeococcus of as if.

Quasipalleronia

L. nan conjunction *quasi*, as if; L. fem. n. *Palleronia*, An existing genus; *Quasipalleronia*: A genus related to but distinct from the existing genus Palleronia of as if.

Quasipaludibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Paludibacterium*, An existing genus; *Quasipaludibacterium*: A genus related to but distinct from the existing genus Paludibacterium of as if.

Quasipaludibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Paludibaculum*, An existing genus; *Quasipaludibaculum*: A genus related to but distinct from the existing genus Paludibaculum of as if.

Quasipaludicola

L. nan conjunction *quasi*, as if; L. masc. n. *Paludicola*, An existing genus; *Quasipaludicola*: A genus related to but distinct from the existing genus Paludicola of as if.

Quasipaludifilum

L. nan conjunction *quasi*, as if; L. neut. n. *Paludifilum*, An existing genus; *Quasipaludifilum*: A genus related to but distinct from the existing genus Paludifilum of as if.

Quasipaludisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Paludisphaera*, An existing genus; *Quasipaludisphaera*: A genus related to but distinct from the existing genus Paludisphaera of as if.

Quasipanacagrimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Panacagrimonas*, An existing genus; *Quasipanacagrimonas*: A genus related to but distinct from the existing genus Panacagrimonas of as if.

Quasipanacibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Panacibacter*, An existing genus; *Quasipanacibacter*: A genus related to but distinct from the existing genus Panacibacter of as if.

Quasipandoraea

L. nan conjunction *quasi*, as if; L. fem. n. *Pandoraea*, An existing genus; *Quasipandoraea*: A genus related to but distinct from the existing genus Pandoraea of as if.

Quasipannonibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pannonibacter*, An existing genus; *Quasipannonibacter*: A genus related to but distinct from the existing genus Pannonibacter of as if.

Quasipannus

L. nan conjunction *quasi*, as if; L. masc. n. *Pannus*, An existing genus; *Quasipannus*: A genus related to but distinct from the existing genus Pannus of as if.

Quasipantanalinema

L. nan conjunction *quasi*, as if; L. neut. n. *Pantanalinema*, An existing genus; *Quasipantanalinema*: A genus related to but distinct from the existing genus Pantanalinema of as if.

Quasipantoea

L. nan conjunction *quasi*, as if; L. fem. n. *Pantoea*, An existing genus; *Quasipantoea*: A genus related to but distinct from the existing genus Pantoea of as if.

Quasipapillibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Papillibacter*, An existing genus; *Quasipapillibacter*: A genus related to but distinct from the existing genus Papillibacter of as if.

Quasiparabacteroides

L. nan conjunction *quasi*, as if; L. masc. n. *Parabacteroides*, An existing genus; *Quasiparabacteroides*: A genus related to but distinct from the existing genus Parabacteroides of as if.

Quasiparablastomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Parablastomonas*, An existing genus; *Quasiparablastomonas*: A genus related to but distinct from the existing genus Parablastomonas of as if.

Quasiparaburkholderia

L. nan conjunction *quasi*, as if; L. fem. n. *Paraburkholderia*, An existing genus; *Quasiparaburkholderia*: A genus related to but distinct from the existing genus Paraburkholderia of as if.

Quasiparacandidimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Paracandidimonas*, An existing genus; *Quasiparacandidimonas*: A genus related to but distinct from the existing genus Paracandidimonas of as if.

Quasiparachlamydia

L. nan conjunction *quasi*, as if; L. fem. n. *Parachlamydia*, An existing genus; *Quasiparachlamydia*: A genus related to but distinct from the existing genus Parachlamydia of as if.

Quasiparaclostridium

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Paraclostridium*, An existing genus; *Quasiparaclostridium*: A genus related to but distinct from the existing genus Paraclostridium of as if.

Quasiparacnuella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Paracnuella*, An existing genus; *Quasiparacnuella*: A genus related to but distinct from the existing genus Paracnuella of as if.

Quasiparacoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Paracoccus*, An existing genus; *Quasiparacoccus*: A genus related to but distinct from the existing genus Paracoccus of as if.

Quasiparaconexibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Paraconexibacter*, An existing genus; *Quasiparaconexibacter*: A genus related to but distinct from the existing genus Paraconexibacter of as if.

Quasiparacraurococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Paracraurococcus*, An existing genus; *Quasiparacraurococcus*: A genus related to but distinct from the existing genus Paracraurococcus of as if.

Quasiparadesulfovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Paradesulfovibrio*, An existing genus; *Quasiparadesulfovibrio*: A genus related to but distinct from the existing genus Paradesulfovibrio of as if.

Quasiparadevosia

L. nan conjunction *quasi*, as if; L. fem. n. *Paradevosia*, An existing genus; *Quasiparadevosia*: A genus related to but distinct from the existing genus Paradevosia of as if.

Quasiparadonghicola

L. nan conjunction *quasi*, as if; L. masc. n. *Paradonghicola*, An existing genus; *Quasiparadonghicola*: A genus related to but distinct from the existing genus Paradonghicola of as if.

Quasiparaeggerthella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Paraeggerthella*, An existing genus; *Quasiparaeggerthella*: A genus related to but distinct from the existing genus Paraeggerthella of as if.

Quasiparaferrimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Paraferrimonas*, An existing genus; *Quasiparaferrimonas*: A genus related to but distinct from the existing genus Paraferrimonas of as if.

Quasiparafilimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Parafilimonas*, An existing genus; *Quasiparafilimonas*: A genus related to but distinct from the existing genus Parafilimonas of as if.

Quasiparaflavitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Paraflavitalea*, An existing genus; *Quasiparaflavitalea*: A genus related to but distinct from the existing genus Paraflavitalea of as if.

Quasiparafrigoribacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Parafrigoribacterium*, An existing genus; *Quasiparafrigoribacterium*: A genus related to but distinct from the existing genus Parafrigoribacterium of as if.

Quasiparageobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Parageobacillus*, An existing genus; *Quasiparageobacillus*: A genus related to but distinct from the existing genus Parageobacillus of as if.

Quasiparaglaciecola

L. nan conjunction *quasi*, as if; L. fem. n. *Paraglaciecola*, An existing genus; *Quasiparaglaciecola*: A genus related to but distinct from the existing genus Paraglaciecola of as if.

Quasiparaglycomyces

L. nan conjunction *quasi*, as if; L. masc. n. *Paraglycomyces*, An existing genus; *Quasiparaglycomyces*: A genus related to but distinct from the existing genus Paraglycomyces of as if.

Quasiparahaliea

L. nan conjunction *quasi*, as if; L. fem. n. *Parahaliea*, An existing genus; *Quasiparahaliea*: A genus related to but distinct from the existing genus Parahaliea of as if.

Quasiparaherbaspirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Paraherbaspirillum*, An existing genus; *Quasiparaherbaspirillum*: A genus related to but distinct from the existing genus Paraherbaspirillum of as if.

Quasiparalactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Paralactobacillus*, An existing genus; *Quasiparalactobacillus*: A genus related to but distinct from the existing genus Paralactobacillus of as if.

Quasiparalcaligenes

L. nan conjunction *quasi*, as if; L. masc. n. *Paralcaligenes*, An existing genus; *Quasiparalcaligenes*: A genus related to but distinct from the existing genus Paralcaligenes of as if.

Quasiparaliobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Paraliobacillus*, An existing genus; *Quasiparaliobacillus*: A genus related to but distinct from the existing genus Paraliobacillus of as if.

Quasiparalkalibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Paralkalibacillus*, An existing genus; *Quasiparalkalibacillus*: A genus related to but distinct from the existing genus Paralkalibacillus of as if.

Quasiparamaledivibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Paramaledivibacter*, An existing genus; *Quasiparamaledivibacter*: A genus related to but distinct from the existing genus Paramaledivibacter of as if.

Quasiparamesonia

L. nan conjunction *quasi*, as if; L. fem. n. *Paramesonia*, An existing genus; *Quasiparamesonia*: A genus related to but distinct from the existing genus Paramesonia of as if.

Quasiparamoritella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Paramoritella*, An existing genus; *Quasiparamoritella*: A genus related to but distinct from the existing genus Paramoritella of as if.

Quasiparamuribaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Paramuribaculum*, An existing genus; *Quasiparamuribaculum*: A genus related to but distinct from the existing genus Paramuribaculum of as if.

Quasiparaoerskovia

L. nan conjunction *quasi*, as if; L. fem. n. *Paraoerskovia*, An existing genus; *Quasiparaoerskovia*: A genus related to but distinct from the existing genus Paraoerskovia of as if.

Quasiparapedobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Parapedobacter*, An existing genus; *Quasiparapedobacter*: A genus related to but distinct from the existing genus Parapedobacter of as if.

Quasiparaperlucidibaca

L. nan conjunction *quasi*, as if; L. fem. n. *Paraperlucidibaca*, An existing genus; *Quasiparaperlucidibaca*: A genus related to but distinct from the existing genus Paraperlucidibaca of as if.

Quasiparaphaeobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Paraphaeobacter*, An existing genus; *Quasiparaphaeobacter*: A genus related to but distinct from the existing genus Paraphaeobacter of as if.

Quasiparaphotobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Paraphotobacterium*, An existing genus; *Quasiparaphotobacterium*: A genus related to but distinct from the existing genus Paraphotobacterium of as if.

Quasiparaprevotella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Paraprevotella*, An existing genus; *Quasiparaprevotella*: A genus related to but distinct from the existing genus Paraprevotella of as if.

Quasiparapseudoflavitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Parapseudoflavitalea*, An existing genus; *Quasiparapseudoflavitalea*: A genus related to but distinct from the existing genus Parapseudoflavitalea of as if.

Quasiparapusillimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Parapusillimonas*, An existing genus; *Quasiparapusillimonas*: A genus related to but distinct from the existing genus Parapusillimonas of as if.

Quasipararcticibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pararcticibacter*, An existing genus; *Quasipararcticibacter*: A genus related to but distinct from the existing genus Pararcticibacter of as if.

Quasipararheinheimera

L. nan conjunction *quasi*, as if; L. fem. n. *Pararheinheimera*, An existing genus; *Quasipararheinheimera*: A genus related to but distinct from the existing genus Pararheinheimera of as if.

Quasipararhizobium

L. nan conjunction *quasi*, as if; L. neut. n. *Pararhizobium*, An existing genus; *Quasipararhizobium*: A genus related to but distinct from the existing genus Pararhizobium of as if.

Quasipararhodobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pararhodobacter*, An existing genus; *Quasipararhodobacter*: A genus related to but distinct from the existing genus Pararhodobacter of as if.

Quasipararhodospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Pararhodospirillum*, An existing genus; *Quasipararhodospirillum*: A genus related to but distinct from the existing genus Pararhodospirillum of as if.

Quasipararobbsia

L. nan conjunction *quasi*, as if; L. fem. n. *Pararobbsia*, An existing genus; *Quasipararobbsia*: A genus related to but distinct from the existing genus Pararobbsia of as if.

Quasiparasaccharibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Parasaccharibacter*, An existing genus; *Quasiparasaccharibacter*: A genus related to but distinct from the existing genus Parasaccharibacter of as if.

Quasiparascardovia

L. nan conjunction *quasi*, as if; L. fem. n. *Parascardovia*, An existing genus; *Quasiparascardovia*: A genus related to but distinct from the existing genus Parascardovia of as if.

Quasiparasedimentitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Parasedimentitalea*, An existing genus; *Quasiparasedimentitalea*: A genus related to but distinct from the existing genus Parasedimentitalea of as if.

Quasiparasediminibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Parasediminibacterium*, An existing genus; *Quasiparasediminibacterium*: A genus related to but distinct from the existing genus Parasediminibacterium of as if.

Quasiparasegetibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Parasegetibacter*, An existing genus; *Quasiparasegetibacter*: A genus related to but distinct from the existing genus Parasegetibacter of as if.

Quasiparashewanella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Parashewanella*, An existing genus; *Quasiparashewanella*: A genus related to but distinct from the existing genus Parashewanella of as if.

Quasiparasphaerochaeta

L. nan conjunction *quasi*, as if; L. fem. n. *Parasphaerochaeta*, An existing genus; *Quasiparasphaerochaeta*: A genus related to but distinct from the existing genus Parasphaerochaeta of as if.

Quasiparasphingopyxis

L. nan conjunction *quasi*, as if; L. fem. n. *Parasphingopyxis*, An existing genus; *Quasiparasphingopyxis*: A genus related to but distinct from the existing genus Parasphingopyxis of as if.

Quasiparasphingorhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Parasphingorhabdus*, An existing genus; *Quasiparasphingorhabdus*: A genus related to but distinct from the existing genus Parasphingorhabdus of as if.

Quasiparasporobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Parasporobacterium*, An existing genus; *Quasiparasporobacterium*: A genus related to but distinct from the existing genus Parasporobacterium of as if.

Quasiparasutterella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Parasutterella*, An existing genus; *Quasiparasutterella*: A genus related to but distinct from the existing genus Parasutterella of as if.

Quasiparemcibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Paremcibacter*, An existing genus; *Quasiparemcibacter*: A genus related to but distinct from the existing genus Paremcibacter of as if.

Quasiparendozoicomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Parendozoicomonas*, An existing genus; *Quasiparendozoicomonas*: A genus related to but distinct from the existing genus Parendozoicomonas of as if.

Quasiparoceanicella

L. nan conjunction *quasi*, as if; L. fem. n. *Paroceanicella*, An existing genus; *Quasiparoceanicella*: A genus related to but distinct from the existing genus Paroceanicella of as if.

Quasiparolsenella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Parolsenella*, An existing genus; *Quasiparolsenella*: A genus related to but distinct from the existing genus Parolsenella of as if.

Quasiparvibium

L. nan conjunction *quasi*, as if; L. neut. n. *Parvibium*, An existing genus; *Quasiparvibium*: A genus related to but distinct from the existing genus Parvibium of as if.

Quasiparvimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Parvimonas*, An existing genus; *Quasiparvimonas*: A genus related to but distinct from the existing genus Parvimonas of as if.

Quasiparviterribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Parviterribacter*, An existing genus; *Quasiparviterribacter*: A genus related to but distinct from the existing genus Parviterribacter of as if.

Quasiparvularcula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Parvularcula*, An existing genus; *Quasiparvularcula*: A genus related to but distinct from the existing genus Parvularcula of as if.

Quasipasteurella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Pasteurella*, An existing genus; *Quasipasteurella*: A genus related to but distinct from the existing genus Pasteurella of as if.

Quasipasteuria

L. nan conjunction *quasi*, as if; L. fem. n. *Pasteuria*, An existing genus; *Quasipasteuria*: A genus related to but distinct from the existing genus Pasteuria of as if.

Quasipatiriisocius

L. nan conjunction *quasi*, as if; L. masc. n. *Patiriisocius*, An existing genus; *Quasipatiriisocius*: A genus related to but distinct from the existing genus Patiriisocius of as if.

Quasipatulibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Patulibacter*, An existing genus; *Quasipatulibacter*: A genus related to but distinct from the existing genus Patulibacter of as if.

Quasipaucibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Paucibacter*, An existing genus; *Quasipaucibacter*: A genus related to but distinct from the existing genus Paucibacter of as if.

Quasipaucilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Paucilactobacillus*, An existing genus; *Quasipaucilactobacillus*: A genus related to but distinct from the existing genus Paucilactobacillus of as if.

Quasipaucimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Paucimonas*, An existing genus; *Quasipaucimonas*: A genus related to but distinct from the existing genus Paucimonas of as if.

Quasipaucisalibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Paucisalibacillus*, An existing genus; *Quasipaucisalibacillus*: A genus related to but distinct from the existing genus Paucisalibacillus of as if.

Quasipauljensenia

L. nan conjunction *quasi*, as if; L. fem. n. *Pauljensenia*, An existing genus; *Quasipauljensenia*: A genus related to but distinct from the existing genus Pauljensenia of as if.

Quasipectinatus

L. nan conjunction *quasi*, as if; L. masc. n. *Pectinatus*, An existing genus; *Quasipectinatus*: A genus related to but distinct from the existing genus Pectinatus of as if.

Quasipectobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Pectobacterium*, An existing genus; *Quasipectobacterium*: A genus related to but distinct from the existing genus Pectobacterium of as if.

Quasipediococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Pediococcus*, An existing genus; *Quasipediococcus*: A genus related to but distinct from the existing genus Pediococcus of as if.

Quasipedobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pedobacter*, An existing genus; *Quasipedobacter*: A genus related to but distinct from the existing genus Pedobacter of as if.

Quasipedococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Pedococcus*, An existing genus; *Quasipedococcus*: A genus related to but distinct from the existing genus Pedococcus of as if.

Quasipedomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Pedomicrobium*, An existing genus; *Quasipedomicrobium*: A genus related to but distinct from the existing genus Pedomicrobium of as if.

Quasipegethrix

L. nan conjunction *quasi*, as if; L. fem. n. *Pegethrix*, An existing genus; *Quasipegethrix*: A genus related to but distinct from the existing genus Pegethrix of as if.

Quasipelagibaca

L. nan conjunction *quasi*, as if; L. fem. n. *Pelagibaca*, An existing genus; *Quasipelagibaca*: A genus related to but distinct from the existing genus Pelagibaca of as if.

Quasipelagibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Pelagibacillus*, An existing genus; *Quasipelagibacillus*: A genus related to but distinct from the existing genus Pelagibacillus of as if.

Quasipelagibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Pelagibacterium*, An existing genus; *Quasipelagibacterium*: A genus related to but distinct from the existing genus Pelagibacterium of as if.

Quasipelagibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Pelagibaculum*, An existing genus; *Quasipelagibaculum*: A genus related to but distinct from the existing genus Pelagibaculum of as if.

Quasipelagibius

L. nan conjunction *quasi*, as if; L. masc. n. *Pelagibius*, An existing genus; *Quasipelagibius*: A genus related to but distinct from the existing genus Pelagibius of as if.

Quasipelagicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Pelagicoccus*, An existing genus; *Quasipelagicoccus*: A genus related to but distinct from the existing genus Pelagicoccus of as if.

Quasipelagicola

L. nan conjunction *quasi*, as if; L. masc. n. *Pelagicola*, An existing genus; *Quasipelagicola*: A genus related to but distinct from the existing genus Pelagicola of as if.

Quasipelagihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Pelagihabitans*, An existing genus; *Quasipelagihabitans*: A genus related to but distinct from the existing genus Pelagihabitans of as if.

Quasipelagimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Pelagimonas*, An existing genus; *Quasipelagimonas*: A genus related to but distinct from the existing genus Pelagimonas of as if.

Quasipelagirhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Pelagirhabdus*, An existing genus; *Quasipelagirhabdus*: A genus related to but distinct from the existing genus Pelagirhabdus of as if.

Quasipelagitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Pelagitalea*, An existing genus; *Quasipelagitalea*: A genus related to but distinct from the existing genus Pelagitalea of as if.

Quasipelagivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Pelagivirga*, An existing genus; *Quasipelagivirga*: A genus related to but distinct from the existing genus Pelagivirga of as if.

Quasipelczaria

L. nan conjunction *quasi*, as if; L. fem. n. *Pelczaria*, An existing genus; *Quasipelczaria*: A genus related to but distinct from the existing genus Pelczaria of as if.

Quasipelistega

L. nan conjunction *quasi*, as if; L. fem. n. *Pelistega*, An existing genus; *Quasipelistega*: A genus related to but distinct from the existing genus Pelistega of as if.

Quasipelobium

L. nan conjunction *quasi*, as if; L. neut. n. *Pelobium*, An existing genus; *Quasipelobium*: A genus related to but distinct from the existing genus Pelobium of as if.

Quasipelodictyon

L. nan conjunction *quasi*, as if; L. neut. n. *Pelodictyon*, An existing genus; *Quasipelodictyon*: A genus related to but distinct from the existing genus Pelodictyon of as if.

Quasipelolinea

L. nan conjunction *quasi*, as if; L. fem. n. *Pelolinea*, An existing genus; *Quasipelolinea*: A genus related to but distinct from the existing genus Pelolinea of as if.

Quasipelomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Pelomicrobium*, An existing genus; *Quasipelomicrobium*: A genus related to but distinct from the existing genus Pelomicrobium of as if.

Quasipelomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Pelomonas*, An existing genus; *Quasipelomonas*: A genus related to but distinct from the existing genus Pelomonas of as if.

Quasipeloploca

L. nan conjunction *quasi*, as if; L. fem. n. *Peloploca*, An existing genus; *Quasipeloploca*: A genus related to but distinct from the existing genus Peloploca of as if.

Quasipelosinus

L. nan conjunction *quasi*, as if; L. masc. n. *Pelosinus*, An existing genus; *Quasipelosinus*: A genus related to but distinct from the existing genus Pelosinus of as if.

Quasipelospora

L. nan conjunction *quasi*, as if; L. fem. n. *Pelospora*, An existing genus; *Quasipelospora*: A genus related to but distinct from the existing genus Pelospora of as if.

Quasipelotomaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Pelotomaculum*, An existing genus; *Quasipelotomaculum*: A genus related to but distinct from the existing genus Pelotomaculum of as if.

Quasipeptacetobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Peptacetobacter*, An existing genus; *Quasipeptacetobacter*: A genus related to but distinct from the existing genus Peptacetobacter of as if.

Quasipeptidiphaga

L. nan conjunction *quasi*, as if; L. fem. n. *Peptidiphaga*, An existing genus; *Quasipeptidiphaga*: A genus related to but distinct from the existing genus Peptidiphaga of as if.

Quasipeptoanaerobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Peptoanaerobacter*, An existing genus; *Quasipeptoanaerobacter*: A genus related to but distinct from the existing genus Peptoanaerobacter of as if.

Quasipeptoclostridium

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Peptoclostridium*, An existing genus; *Quasipeptoclostridium*: A genus related to but distinct from the existing genus Peptoclostridium of as if.

Quasipeptococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Peptococcus*, An existing genus; *Quasipeptococcus*: A genus related to but distinct from the existing genus Peptococcus of as if.

Quasipeptoniphilus

L. nan conjunction *quasi*, as if; L. masc. n. *Peptoniphilus*, An existing genus; *Quasipeptoniphilus*: A genus related to but distinct from the existing genus Peptoniphilus of as if.

Quasipeptostreptococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Peptostreptococcus*, An existing genus; *Quasipeptostreptococcus*: A genus related to but distinct from the existing genus Peptostreptococcus of as if.

Quasiperedibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Peredibacter*, An existing genus; *Quasiperedibacter*: A genus related to but distinct from the existing genus Peredibacter of as if.

Quasiperexilibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Perexilibacter*, An existing genus; *Quasiperexilibacter*: A genus related to but distinct from the existing genus Perexilibacter of as if.

Quasiperibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Peribacillus*, An existing genus; *Quasiperibacillus*: A genus related to but distinct from the existing genus Peribacillus of as if.

Quasiperlucidibaca

L. nan conjunction *quasi*, as if; L. fem. n. *Perlucidibaca*, An existing genus; *Quasiperlucidibaca*: A genus related to but distinct from the existing genus Perlucidibaca of as if.

Quasipermianibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Permianibacter*, An existing genus; *Quasipermianibacter*: A genus related to but distinct from the existing genus Permianibacter of as if.

Quasipersicimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Persicimonas*, An existing genus; *Quasipersicimonas*: A genus related to but distinct from the existing genus Persicimonas of as if.

Quasipersicirhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Persicirhabdus*, An existing genus; *Quasipersicirhabdus*: A genus related to but distinct from the existing genus Persicirhabdus of as if.

Quasipersicitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Persicitalea*, An existing genus; *Quasipersicitalea*: A genus related to but distinct from the existing genus Persicitalea of as if.

Quasipersicivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Persicivirga*, An existing genus; *Quasipersicivirga*: A genus related to but distinct from the existing genus Persicivirga of as if.

Quasipersicobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Persicobacter*, An existing genus; *Quasipersicobacter*: A genus related to but distinct from the existing genus Persicobacter of as if.

Quasipersinema

L. nan conjunction *quasi*, as if; L. neut. n. *Persinema*, An existing genus; *Quasipersinema*: A genus related to but distinct from the existing genus Persinema of as if.

Quasiperspicuibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Perspicuibacter*, An existing genus; *Quasiperspicuibacter*: A genus related to but distinct from the existing genus Perspicuibacter of as if.

Quasipetrimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Petrimonas*, An existing genus; *Quasipetrimonas*: A genus related to but distinct from the existing genus Petrimonas of as if.

Quasipetrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Petrobacter*, An existing genus; *Quasipetrobacter*: A genus related to but distinct from the existing genus Petrobacter of as if.

Quasipetrocella

L. nan conjunction *quasi*, as if; L. fem. n. *Petrocella*, An existing genus; *Quasipetrocella*: A genus related to but distinct from the existing genus Petrocella of as if.

Quasipetroclostridium

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Petroclostridium*, An existing genus; *Quasipetroclostridium*: A genus related to but distinct from the existing genus Petroclostridium of as if.

Quasipetrothermobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Petrothermobacter*, An existing genus; *Quasipetrothermobacter*: A genus related to but distinct from the existing genus Petrothermobacter of as if.

Quasipetrotoga

L. nan conjunction *quasi*, as if; L. fem. n. *Petrotoga*, An existing genus; *Quasipetrotoga*: A genus related to but distinct from the existing genus Petrotoga of as if.

Quasipfennigia

L. nan conjunction *quasi*, as if; L. fem. n. *Pfennigia*, An existing genus; *Quasipfennigia*: A genus related to but distinct from the existing genus Pfennigia of as if.

Quasiphaeobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Phaeobacterium*, An existing genus; *Quasiphaeobacterium*: A genus related to but distinct from the existing genus Phaeobacterium of as if.

Quasiphaeochromatium

L. nan conjunction *quasi*, as if; L. neut. n. *Phaeochromatium*, An existing genus; *Quasiphaeochromatium*: A genus related to but distinct from the existing genus Phaeochromatium of as if.

Quasiphaeocystidibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Phaeocystidibacter*, An existing genus; *Quasiphaeocystidibacter*: A genus related to but distinct from the existing genus Phaeocystidibacter of as if.

Quasiphaeodactylibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Phaeodactylibacter*, An existing genus; *Quasiphaeodactylibacter*: A genus related to but distinct from the existing genus Phaeodactylibacter of as if.

Quasiphaeospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Phaeospirillum*, An existing genus; *Quasiphaeospirillum*: A genus related to but distinct from the existing genus Phaeospirillum of as if.

Quasiphaeovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Phaeovibrio*, An existing genus; *Quasiphaeovibrio*: A genus related to but distinct from the existing genus Phaeovibrio of as if.

Quasiphaeovulum

L. nan conjunction *quasi*, as if; L. neut. n. *Phaeovulum*, An existing genus; *Quasiphaeovulum*: A genus related to but distinct from the existing genus Phaeovulum of as if.

Quasiphascolarctobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Phascolarctobacterium*, An existing genus; *Quasiphascolarctobacterium*: A genus related to but distinct from the existing genus Phascolarctobacterium of as if.

Quasiphaselicystis

L. nan conjunction *quasi*, as if; L. fem. n. *Phaselicystis*, An existing genus; *Quasiphaselicystis*: A genus related to but distinct from the existing genus Phaselicystis of as if.

Quasiphaseolibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Phaseolibacter*, An existing genus; *Quasiphaseolibacter*: A genus related to but distinct from the existing genus Phaseolibacter of as if.

Quasiphenylobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Phenylobacterium*, An existing genus; *Quasiphenylobacterium*: A genus related to but distinct from the existing genus Phenylobacterium of as if.

Quasiphocaeicola

L. nan conjunction *quasi*, as if; L. masc. n. *Phocaeicola*, An existing genus; *Quasiphocaeicola*: A genus related to but distinct from the existing genus Phocaeicola of as if.

Quasiphocoenobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Phocoenobacter*, An existing genus; *Quasiphocoenobacter*: A genus related to but distinct from the existing genus Phocoenobacter of as if.

Quasiphorcysia

L. nan conjunction *quasi*, as if; L. fem. n. *Phorcysia*, An existing genus; *Quasiphorcysia*: A genus related to but distinct from the existing genus Phorcysia of as if.

Quasiphotobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Photobacterium*, An existing genus; *Quasiphotobacterium*: A genus related to but distinct from the existing genus Photobacterium of as if.

Quasiphotorhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Photorhabdus*, An existing genus; *Quasiphotorhabdus*: A genus related to but distinct from the existing genus Photorhabdus of as if.

Quasiphragmitibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Phragmitibacter*, An existing genus; *Quasiphragmitibacter*: A genus related to but distinct from the existing genus Phragmitibacter of as if.

Quasiphreatobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Phreatobacter*, An existing genus; *Quasiphreatobacter*: A genus related to but distinct from the existing genus Phreatobacter of as if.

Quasiphycicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Phycicoccus*, An existing genus; *Quasiphycicoccus*: A genus related to but distinct from the existing genus Phycicoccus of as if.

Quasiphycicola

L. nan conjunction *quasi*, as if; L. masc. n. *Phycicola*, An existing genus; *Quasiphycicola*: A genus related to but distinct from the existing genus Phycicola of as if.

Quasiphycisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Phycisphaera*, An existing genus; *Quasiphycisphaera*: A genus related to but distinct from the existing genus Phycisphaera of as if.

Quasiphycocomes

L. nan conjunction *quasi*, as if; L. masc. n. *Phycocomes*, An existing genus; *Quasiphycocomes*: A genus related to but distinct from the existing genus Phycocomes of as if.

Quasiphyllonema

L. nan conjunction *quasi*, as if; L. neut. n. *Phyllonema*, An existing genus; *Quasiphyllonema*: A genus related to but distinct from the existing genus Phyllonema of as if.

Quasiphytoactinopolyspora

L. nan conjunction *quasi*, as if; L. fem. n. *Phytoactinopolyspora*, An existing genus; *Quasiphytoactinopolyspora*: A genus related to but distinct from the existing genus Phytoactinopolyspora of as if.

Quasiphytobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Phytobacter*, An existing genus; *Quasiphytobacter*: A genus related to but distinct from the existing genus Phytobacter of as if.

Quasiphytohabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Phytohabitans*, An existing genus; *Quasiphytohabitans*: A genus related to but distinct from the existing genus Phytohabitans of as if.

Quasiphytohalomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Phytohalomonas*, An existing genus; *Quasiphytohalomonas*: A genus related to but distinct from the existing genus Phytohalomonas of as if.

Quasiphytomonospora

L. nan conjunction *quasi*, as if; L. fem. n. *Phytomonospora*, An existing genus; *Quasiphytomonospora*: A genus related to but distinct from the existing genus Phytomonospora of as if.

Quasipibocella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Pibocella*, An existing genus; *Quasipibocella*: A genus related to but distinct from the existing genus Pibocella of as if.

Quasipicrophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Picrophilus*, An existing genus; *Quasipicrophilus*: A genus related to but distinct from the existing genus Picrophilus of as if.

Quasipiezobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Piezobacter*, An existing genus; *Quasipiezobacter*: A genus related to but distinct from the existing genus Piezobacter of as if.

Quasipigmentiphaga

L. nan conjunction *quasi*, as if; L. fem. n. *Pigmentiphaga*, An existing genus; *Quasipigmentiphaga*: A genus related to but distinct from the existing genus Pigmentiphaga of as if.

Quasipilibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pilibacter*, An existing genus; *Quasipilibacter*: A genus related to but distinct from the existing genus Pilibacter of as if.

Quasipilimelia

L. nan conjunction *quasi*, as if; L. fem. n. *Pilimelia*, An existing genus; *Quasipilimelia*: A genus related to but distinct from the existing genus Pilimelia of as if.

Quasipillotina

L. nan conjunction *quasi*, as if; L. fem. n. *Pillotina*, An existing genus; *Quasipillotina*: A genus related to but distinct from the existing genus Pillotina of as if.

Quasipimelobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pimelobacter*, An existing genus; *Quasipimelobacter*: A genus related to but distinct from the existing genus Pimelobacter of as if.

Quasipinisolibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pinisolibacter*, An existing genus; *Quasipinisolibacter*: A genus related to but distinct from the existing genus Pinisolibacter of as if.

Quasipinocchia

L. nan conjunction *quasi*, as if; L. fem. n. *Pinocchia*, An existing genus; *Quasipinocchia*: A genus related to but distinct from the existing genus Pinocchia of as if.

Quasipirella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Pirella*, An existing genus; *Quasipirella*: A genus related to but distinct from the existing genus Pirella of as if.

Quasipirellula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Pirellula*, An existing genus; *Quasipirellula*: A genus related to but distinct from the existing genus Pirellula of as if.

Quasipiscicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Piscicoccus*, An existing genus; *Quasipiscicoccus*: A genus related to but distinct from the existing genus Piscicoccus of as if.

Quasipisciglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Pisciglobus*, An existing genus; *Quasipisciglobus*: A genus related to but distinct from the existing genus Pisciglobus of as if.

Quasipiscinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Piscinibacter*, An existing genus; *Quasipiscinibacter*: A genus related to but distinct from the existing genus Piscinibacter of as if.

Quasipiscirickettsia

L. nan conjunction *quasi*, as if; L. fem. n. *Piscirickettsia*, An existing genus; *Quasipiscirickettsia*: A genus related to but distinct from the existing genus Piscirickettsia of as if.

Quasipistricoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Pistricoccus*, An existing genus; *Quasipistricoccus*: A genus related to but distinct from the existing genus Pistricoccus of as if.

Quasiplanctobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Planctobacterium*, An existing genus; *Quasiplanctobacterium*: A genus related to but distinct from the existing genus Planctobacterium of as if.

Quasiplanctomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Planctomicrobium*, An existing genus; *Quasiplanctomicrobium*: A genus related to but distinct from the existing genus Planctomicrobium of as if.

Quasiplanctomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Planctomonas*, An existing genus; *Quasiplanctomonas*: A genus related to but distinct from the existing genus Planctomonas of as if.

Quasiplanctomyces

L. nan conjunction *quasi*, as if; L. masc. n. *Planctomyces*, An existing genus; *Quasiplanctomyces*: A genus related to but distinct from the existing genus Planctomyces of as if.

Quasiplanctopirus

L. nan conjunction *quasi*, as if; L. fem. n. *Planctopirus*, An existing genus; *Quasiplanctopirus*: A genus related to but distinct from the existing genus Planctopirus of as if.

Quasiplanifilum

L. nan conjunction *quasi*, as if; L. neut. n. *Planifilum*, An existing genus; *Quasiplanifilum*: A genus related to but distinct from the existing genus Planifilum of as if.

Quasiplanktomarina

L. nan conjunction *quasi*, as if; L. fem. n. *Planktomarina*, An existing genus; *Quasiplanktomarina*: A genus related to but distinct from the existing genus Planktomarina of as if.

Quasiplanktosalinus

L. nan conjunction *quasi*, as if; L. masc. n. *Planktosalinus*, An existing genus; *Quasiplanktosalinus*: A genus related to but distinct from the existing genus Planktosalinus of as if.

Quasiplanktotalea

L. nan conjunction *quasi*, as if; L. fem. n. *Planktotalea*, An existing genus; *Quasiplanktotalea*: A genus related to but distinct from the existing genus Planktotalea of as if.

Quasiplanktothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Planktothrix*, An existing genus; *Quasiplanktothrix*: A genus related to but distinct from the existing genus Planktothrix of as if.

Quasiplanobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Planobacterium*, An existing genus; *Quasiplanobacterium*: A genus related to but distinct from the existing genus Planobacterium of as if.

Quasiplanobispora

L. nan conjunction *quasi*, as if; L. fem. n. *Planobispora*, An existing genus; *Quasiplanobispora*: A genus related to but distinct from the existing genus Planobispora of as if.

Quasiplanococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Planococcus*, An existing genus; *Quasiplanococcus*: A genus related to but distinct from the existing genus Planococcus of as if.

Quasiplanomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Planomicrobium*, An existing genus; *Quasiplanomicrobium*: A genus related to but distinct from the existing genus Planomicrobium of as if.

Quasiplanomonospora

L. nan conjunction *quasi*, as if; L. fem. n. *Planomonospora*, An existing genus; *Quasiplanomonospora*: A genus related to but distinct from the existing genus Planomonospora of as if.

Quasiplanopolyspora

L. nan conjunction *quasi*, as if; L. fem. n. *Planopolyspora*, An existing genus; *Quasiplanopolyspora*: A genus related to but distinct from the existing genus Planopolyspora of as if.

Quasiplanosporangium

L. nan conjunction *quasi*, as if; L. neut. n. *Planosporangium*, An existing genus; *Quasiplanosporangium*: A genus related to but distinct from the existing genus Planosporangium of as if.

Quasiplanotetraspora

L. nan conjunction *quasi*, as if; L. fem. n. *Planotetraspora*, An existing genus; *Quasiplanotetraspora*: A genus related to but distinct from the existing genus Planotetraspora of as if.

Quasiplantactinospora

L. nan conjunction *quasi*, as if; L. fem. n. *Plantactinospora*, An existing genus; *Quasiplantactinospora*: A genus related to but distinct from the existing genus Plantactinospora of as if.

Quasiplastorhodobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Plastorhodobacter*, An existing genus; *Quasiplastorhodobacter*: A genus related to but distinct from the existing genus Plastorhodobacter of as if.

Quasipleionea

L. nan conjunction *quasi*, as if; L. fem. n. *Pleionea*, An existing genus; *Quasipleionea*: A genus related to but distinct from the existing genus Pleionea of as if.

Quasipleomorphobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Pleomorphobacterium*, An existing genus; *Quasipleomorphobacterium*: A genus related to but distinct from the existing genus Pleomorphobacterium of as if.

Quasipleomorphochaeta

L. nan conjunction *quasi*, as if; L. fem. n. *Pleomorphochaeta*, An existing genus; *Quasipleomorphochaeta*: A genus related to but distinct from the existing genus Pleomorphochaeta of as if.

Quasipleomorphomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Pleomorphomonas*, An existing genus; *Quasipleomorphomonas*: A genus related to but distinct from the existing genus Pleomorphomonas of as if.

Quasipleomorphovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Pleomorphovibrio*, An existing genus; *Quasipleomorphovibrio*: A genus related to but distinct from the existing genus Pleomorphovibrio of as if.

Quasiplesiocystis

L. nan conjunction *quasi*, as if; L. fem. n. *Plesiocystis*, An existing genus; *Quasiplesiocystis*: A genus related to but distinct from the existing genus Plesiocystis of as if.

Quasiplesiomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Plesiomonas*, An existing genus; *Quasiplesiomonas*: A genus related to but distinct from the existing genus Plesiomonas of as if.

Quasipleurocapsa

L. nan conjunction *quasi*, as if; L. fem. n. *Pleurocapsa*, An existing genus; *Quasipleurocapsa*: A genus related to but distinct from the existing genus Pleurocapsa of as if.

Quasipluralibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pluralibacter*, An existing genus; *Quasipluralibacter*: A genus related to but distinct from the existing genus Pluralibacter of as if.

Quasipokkaliibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pokkaliibacter*, An existing genus; *Quasipokkaliibacter*: A genus related to but distinct from the existing genus Pokkaliibacter of as if.

Quasipolaribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Polaribacter*, An existing genus; *Quasipolaribacter*: A genus related to but distinct from the existing genus Polaribacter of as if.

Quasipolaromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Polaromonas*, An existing genus; *Quasipolaromonas*: A genus related to but distinct from the existing genus Polaromonas of as if.

Quasipolyangium

L. nan conjunction *quasi*, as if; L. neut. n. *Polyangium*, An existing genus; *Quasipolyangium*: A genus related to but distinct from the existing genus Polyangium of as if.

Quasipolycladidibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Polycladidibacter*, An existing genus; *Quasipolycladidibacter*: A genus related to but distinct from the existing genus Polycladidibacter of as if.

Quasipolycladomyces

L. nan conjunction *quasi*, as if; L. masc. n. *Polycladomyces*, An existing genus; *Quasipolycladomyces*: A genus related to but distinct from the existing genus Polycladomyces of as if.

Quasipolycyclovorans

L. nan conjunction *quasi*, as if; L. masc. n. *Polycyclovorans*, An existing genus; *Quasipolycyclovorans*: A genus related to but distinct from the existing genus Polycyclovorans of as if.

Quasipolygonibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Polygonibacillus*, An existing genus; *Quasipolygonibacillus*: A genus related to but distinct from the existing genus Polygonibacillus of as if.

Quasipolymorphospora

L. nan conjunction *quasi*, as if; L. fem. n. *Polymorphospora*, An existing genus; *Quasipolymorphospora*: A genus related to but distinct from the existing genus Polymorphospora of as if.

Quasipolymorphum

L. nan conjunction *quasi*, as if; L. neut. n. *Polymorphum*, An existing genus; *Quasipolymorphum*: A genus related to but distinct from the existing genus Polymorphum of as if.

Quasipolynucleobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Polynucleobacter*, An existing genus; *Quasipolynucleobacter*: A genus related to but distinct from the existing genus Polynucleobacter of as if.

Quasipolystyrenella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Polystyrenella*, An existing genus; *Quasipolystyrenella*: A genus related to but distinct from the existing genus Polystyrenella of as if.

Quasipontibaca

L. nan conjunction *quasi*, as if; L. fem. n. *Pontibaca*, An existing genus; *Quasipontibaca*: A genus related to but distinct from the existing genus Pontibaca of as if.

Quasipontibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Pontibacillus*, An existing genus; *Quasipontibacillus*: A genus related to but distinct from the existing genus Pontibacillus of as if.

Quasipontibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pontibacter*, An existing genus; *Quasipontibacter*: A genus related to but distinct from the existing genus Pontibacter of as if.

Quasipontibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Pontibacterium*, An existing genus; *Quasipontibacterium*: A genus related to but distinct from the existing genus Pontibacterium of as if.

Quasiponticaulis

L. nan conjunction *quasi*, as if; L. masc. n. *Ponticaulis*, An existing genus; *Quasiponticaulis*: A genus related to but distinct from the existing genus Ponticaulis of as if.

Quasiponticoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Ponticoccus*, An existing genus; *Quasiponticoccus*: A genus related to but distinct from the existing genus Ponticoccus of as if.

Quasipontimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Pontimicrobium*, An existing genus; *Quasipontimicrobium*: A genus related to but distinct from the existing genus Pontimicrobium of as if.

Quasipontimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Pontimonas*, An existing genus; *Quasipontimonas*: A genus related to but distinct from the existing genus Pontimonas of as if.

Quasipontirhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Pontirhabdus*, An existing genus; *Quasipontirhabdus*: A genus related to but distinct from the existing genus Pontirhabdus of as if.

Quasipopulibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Populibacter*, An existing genus; *Quasipopulibacter*: A genus related to but distinct from the existing genus Populibacter of as if.

Quasipopulibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Populibacterium*, An existing genus; *Quasipopulibacterium*: A genus related to but distinct from the existing genus Populibacterium of as if.

Quasiporifericola

L. nan conjunction *quasi*, as if; L. masc. n. *Porifericola*, An existing genus; *Quasiporifericola*: A genus related to but distinct from the existing genus Porifericola of as if.

Quasiporphyrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Porphyrobacter*, An existing genus; *Quasiporphyrobacter*: A genus related to but distinct from the existing genus Porphyrobacter of as if.

Quasiporphyromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Porphyromonas*, An existing genus; *Quasiporphyromonas*: A genus related to but distinct from the existing genus Porphyromonas of as if.

Quasiportibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Portibacter*, An existing genus; *Quasiportibacter*: A genus related to but distinct from the existing genus Portibacter of as if.

Quasiporticoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Porticoccus*, An existing genus; *Quasiporticoccus*: A genus related to but distinct from the existing genus Porticoccus of as if.

Quasiposeidonibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Poseidonibacter*, An existing genus; *Quasiposeidonibacter*: A genus related to but distinct from the existing genus Poseidonibacter of as if.

Quasiposeidonocella

L. nan conjunction *quasi*, as if; L. fem. n. *Poseidonocella*, An existing genus; *Quasiposeidonocella*: A genus related to but distinct from the existing genus Poseidonocella of as if.

Quasipostechiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Postechiella*, An existing genus; *Quasipostechiella*: A genus related to but distinct from the existing genus Postechiella of as if.

Quasipotamolinea

L. nan conjunction *quasi*, as if; L. fem. n. *Potamolinea*, An existing genus; *Quasipotamolinea*: A genus related to but distinct from the existing genus Potamolinea of as if.

Quasipotamosiphon

L. nan conjunction *quasi*, as if; L. masc. n. *Potamosiphon*, An existing genus; *Quasipotamosiphon*: A genus related to but distinct from the existing genus Potamosiphon of as if.

Quasipovalibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Povalibacter*, An existing genus; *Quasipovalibacter*: A genus related to but distinct from the existing genus Povalibacter of as if.

Quasipradoshia

L. nan conjunction *quasi*, as if; L. fem. n. *Pradoshia*, An existing genus; *Quasipradoshia*: A genus related to but distinct from the existing genus Pradoshia of as if.

Quasipragia

L. nan conjunction *quasi*, as if; L. fem. n. *Pragia*, An existing genus; *Quasipragia*: A genus related to but distinct from the existing genus Pragia of as if.

Quasiprauserella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Prauserella*, An existing genus; *Quasiprauserella*: A genus related to but distinct from the existing genus Prauserella of as if.

Quasipreeria

L. nan conjunction *quasi*, as if; L. fem. n. *Preeria*, An existing genus; *Quasipreeria*: A genus related to but distinct from the existing genus Preeria of as if.

Quasiprescottella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Prescottella*, An existing genus; *Quasiprescottella*: A genus related to but distinct from the existing genus Prescottella of as if.

Quasiprevotella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Prevotella*, An existing genus; *Quasiprevotella*: A genus related to but distinct from the existing genus Prevotella of as if.

Quasipricia

L. nan conjunction *quasi*, as if; L. fem. n. *Pricia*, An existing genus; *Quasipricia*: A genus related to but distinct from the existing genus Pricia of as if.

Quasiprimorskyibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Primorskyibacter*, An existing genus; *Quasiprimorskyibacter*: A genus related to but distinct from the existing genus Primorskyibacter of as if.

Quasiprochlorococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Prochlorococcus*, An existing genus; *Quasiprochlorococcus*: A genus related to but distinct from the existing genus Prochlorococcus of as if.

Quasiprochloron

L. nan conjunction *quasi*, as if; L. neut. n. *Prochloron*, An existing genus; *Quasiprochloron*: A genus related to but distinct from the existing genus Prochloron of as if.

Quasiprochlorothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Prochlorothrix*, An existing genus; *Quasiprochlorothrix*: A genus related to but distinct from the existing genus Prochlorothrix of as if.

Quasiprofundibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Profundibacter*, An existing genus; *Quasiprofundibacter*: A genus related to but distinct from the existing genus Profundibacter of as if.

Quasiprofundibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Profundibacterium*, An existing genus; *Quasiprofundibacterium*: A genus related to but distinct from the existing genus Profundibacterium of as if.

Quasiprofundimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Profundimonas*, An existing genus; *Quasiprofundimonas*: A genus related to but distinct from the existing genus Profundimonas of as if.

Quasiprolinoborus

L. nan conjunction *quasi*, as if; L. masc. n. *Prolinoborus*, An existing genus; *Quasiprolinoborus*: A genus related to but distinct from the existing genus Prolinoborus of as if.

Quasiprolixibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Prolixibacter*, An existing genus; *Quasiprolixibacter*: A genus related to but distinct from the existing genus Prolixibacter of as if.

Quasipromicromonospora

L. nan conjunction *quasi*, as if; L. fem. n. *Promicromonospora*, An existing genus; *Quasipromicromonospora*: A genus related to but distinct from the existing genus Promicromonospora of as if.

Quasipropionibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Propionibacterium*, An existing genus; *Quasipropionibacterium*: A genus related to but distinct from the existing genus Propionibacterium of as if.

Quasipropionicicella

L. nan conjunction *quasi*, as if; L. fem. n. *Propionicicella*, An existing genus; *Quasipropionicicella*: A genus related to but distinct from the existing genus Propionicicella of as if.

Quasipropioniferax

L. nan conjunction *quasi*, as if; L. fem. n. *Propioniferax*, An existing genus; *Quasipropioniferax*: A genus related to but distinct from the existing genus Propioniferax of as if.

Quasipropionigenium

L. nan conjunction *quasi*, as if; L. neut. n. *Propionigenium*, An existing genus; *Quasipropionigenium*: A genus related to but distinct from the existing genus Propionigenium of as if.

Quasipropionimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Propionimicrobium*, An existing genus; *Quasipropionimicrobium*: A genus related to but distinct from the existing genus Propionimicrobium of as if.

Quasipropionispora

L. nan conjunction *quasi*, as if; L. fem. n. *Propionispora*, An existing genus; *Quasipropionispora*: A genus related to but distinct from the existing genus Propionispora of as if.

Quasipropionivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Propionivibrio*, An existing genus; *Quasipropionivibrio*: A genus related to but distinct from the existing genus Propionivibrio of as if.

Quasiprosthecobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Prosthecobacter*, An existing genus; *Quasiprosthecobacter*: A genus related to but distinct from the existing genus Prosthecobacter of as if.

Quasiprosthecochloris

L. nan conjunction *quasi*, as if; L. fem. n. *Prosthecochloris*, An existing genus; *Quasiprosthecochloris*: A genus related to but distinct from the existing genus Prosthecochloris of as if.

Quasiprosthecomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Prosthecomicrobium*, An existing genus; *Quasiprosthecomicrobium*: A genus related to but distinct from the existing genus Prosthecomicrobium of as if.

Quasiprotaetiibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Protaetiibacter*, An existing genus; *Quasiprotaetiibacter*: A genus related to but distinct from the existing genus Protaetiibacter of as if.

Quasiproteiniborus

L. nan conjunction *quasi*, as if; L. masc. n. *Proteiniborus*, An existing genus; *Quasiproteiniborus*: A genus related to but distinct from the existing genus Proteiniborus of as if.

Quasiproteiniclasticum

L. nan conjunction *quasi*, as if; L. neut. n. *Proteiniclasticum*, An existing genus; *Quasiproteiniclasticum*: A genus related to but distinct from the existing genus Proteiniclasticum of as if.

Quasiproteiniphilum

L. nan conjunction *quasi*, as if; L. neut. n. *Proteiniphilum*, An existing genus; *Quasiproteiniphilum*: A genus related to but distinct from the existing genus Proteiniphilum of as if.

Quasiproteinivorax

L. nan conjunction *quasi*, as if; L. neut. n. *Proteinivorax*, An existing genus; *Quasiproteinivorax*: A genus related to but distinct from the existing genus Proteinivorax of as if.

Quasiproteocatella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Proteocatella*, An existing genus; *Quasiproteocatella*: A genus related to but distinct from the existing genus Proteocatella of as if.

Quasiprotomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Protomonas*, An existing genus; *Quasiprotomonas*: A genus related to but distinct from the existing genus Protomonas of as if.

Quasiprovencibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Provencibacterium*, An existing genus; *Quasiprovencibacterium*: A genus related to but distinct from the existing genus Provencibacterium of as if.

Quasiprovidencia

L. nan conjunction *quasi*, as if; L. fem. n. *Providencia*, An existing genus; *Quasiprovidencia*: A genus related to but distinct from the existing genus Providencia of as if.

Quasipseudacidovorax

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudacidovorax*, An existing genus; *Quasipseudacidovorax*: A genus related to but distinct from the existing genus Pseudacidovorax of as if.

Quasipseudactinotalea

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudactinotalea*, An existing genus; *Quasipseudactinotalea*: A genus related to but distinct from the existing genus Pseudactinotalea of as if.

Quasipseudaeromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudaeromonas*, An existing genus; *Quasipseudaeromonas*: A genus related to but distinct from the existing genus Pseudaeromonas of as if.

Quasipseudaestuariivita

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudaestuariivita*, An existing genus; *Quasipseudaestuariivita*: A genus related to but distinct from the existing genus Pseudaestuariivita of as if.

Quasipseudahrensia

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudahrensia*, An existing genus; *Quasipseudahrensia*: A genus related to but distinct from the existing genus Pseudahrensia of as if.

Quasipseudaminobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudaminobacter*, An existing genus; *Quasipseudaminobacter*: A genus related to but distinct from the existing genus Pseudaminobacter of as if.

Quasipseudarcicella

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudarcicella*, An existing genus; *Quasipseudarcicella*: A genus related to but distinct from the existing genus Pseudarcicella of as if.

Quasipseudarthrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudarthrobacter*, An existing genus; *Quasipseudarthrobacter*: A genus related to but distinct from the existing genus Pseudarthrobacter of as if.

Quasipseudenhygromyxa

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudenhygromyxa*, An existing genus; *Quasipseudenhygromyxa*: A genus related to but distinct from the existing genus Pseudenhygromyxa of as if.

Quasipseudescherichia

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudescherichia*, An existing genus; *Quasipseudescherichia*: A genus related to but distinct from the existing genus Pseudescherichia of as if.

Quasipseudidiomarina

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudidiomarina*, An existing genus; *Quasipseudidiomarina*: A genus related to but distinct from the existing genus Pseudidiomarina of as if.

Quasipseudoalteromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudoalteromonas*, An existing genus; *Quasipseudoalteromonas*: A genus related to but distinct from the existing genus Pseudoalteromonas of as if.

Quasipseudoamycolata

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudoamycolata*, An existing genus; *Quasipseudoamycolata*: A genus related to but distinct from the existing genus Pseudoamycolata of as if.

Quasipseudobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudobacillus*, An existing genus; *Quasipseudobacillus*: A genus related to but distinct from the existing genus Pseudobacillus of as if.

Quasipseudobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudobacter*, An existing genus; *Quasipseudobacter*: A genus related to but distinct from the existing genus Pseudobacter of as if.

Quasipseudobacteriovorax

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudobacteriovorax*, An existing genus; *Quasipseudobacteriovorax*: A genus related to but distinct from the existing genus Pseudobacteriovorax of as if.

Quasipseudobacteroides

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudobacteroides*, An existing genus; *Quasipseudobacteroides*: A genus related to but distinct from the existing genus Pseudobacteroides of as if.

Quasipseudobizionia

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudobizionia*, An existing genus; *Quasipseudobizionia*: A genus related to but distinct from the existing genus Pseudobizionia of as if.

Quasipseudobowmanella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Pseudobowmanella*, An existing genus; *Quasipseudobowmanella*: A genus related to but distinct from the existing genus Pseudobowmanella of as if.

Quasipseudobutyrivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudobutyrivibrio*, An existing genus; *Quasipseudobutyrivibrio*: A genus related to but distinct from the existing genus Pseudobutyrivibrio of as if.

Quasipseudocaedibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudocaedibacter*, An existing genus; *Quasipseudocaedibacter*: A genus related to but distinct from the existing genus Pseudocaedibacter of as if.

Quasipseudochelatococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudochelatococcus*, An existing genus; *Quasipseudochelatococcus*: A genus related to but distinct from the existing genus Pseudochelatococcus of as if.

Quasipseudochrobactrum

L. nan conjunction *quasi*, as if; L. neut. n. *Pseudochrobactrum*, An existing genus; *Quasipseudochrobactrum*: A genus related to but distinct from the existing genus Pseudochrobactrum of as if.

Quasipseudocitrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudocitrobacter*, An existing genus; *Quasipseudocitrobacter*: A genus related to but distinct from the existing genus Pseudocitrobacter of as if.

Quasipseudoclavibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudoclavibacter*, An existing genus; *Quasipseudoclavibacter*: A genus related to but distinct from the existing genus Pseudoclavibacter of as if.

Quasipseudoclostridium

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Pseudoclostridium*, An existing genus; *Quasipseudoclostridium*: A genus related to but distinct from the existing genus Pseudoclostridium of as if.

Quasipseudocolwellia

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudocolwellia*, An existing genus; *Quasipseudocolwellia*: A genus related to but distinct from the existing genus Pseudocolwellia of as if.

Quasipseudodesulfovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudodesulfovibrio*, An existing genus; *Quasipseudodesulfovibrio*: A genus related to but distinct from the existing genus Pseudodesulfovibrio of as if.

Quasipseudodonghicola

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudodonghicola*, An existing genus; *Quasipseudodonghicola*: A genus related to but distinct from the existing genus Pseudodonghicola of as if.

Quasipseudoduganella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Pseudoduganella*, An existing genus; *Quasipseudoduganella*: A genus related to but distinct from the existing genus Pseudoduganella of as if.

Quasipseudoflavitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudoflavitalea*, An existing genus; *Quasipseudoflavitalea*: A genus related to but distinct from the existing genus Pseudoflavitalea of as if.

Quasipseudoflavonifractor

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudoflavonifractor*, An existing genus; *Quasipseudoflavonifractor*: A genus related to but distinct from the existing genus Pseudoflavonifractor of as if.

Quasipseudofrancisella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Pseudofrancisella*, An existing genus; *Quasipseudofrancisella*: A genus related to but distinct from the existing genus Pseudofrancisella of as if.

Quasipseudofulvibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudofulvibacter*, An existing genus; *Quasipseudofulvibacter*: A genus related to but distinct from the existing genus Pseudofulvibacter of as if.

Quasipseudofulvimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudofulvimonas*, An existing genus; *Quasipseudofulvimonas*: A genus related to but distinct from the existing genus Pseudofulvimonas of as if.

Quasipseudogemmobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudogemmobacter*, An existing genus; *Quasipseudogemmobacter*: A genus related to but distinct from the existing genus Pseudogemmobacter of as if.

Quasipseudoglutamicibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudoglutamicibacter*, An existing genus; *Quasipseudoglutamicibacter*: A genus related to but distinct from the existing genus Pseudoglutamicibacter of as if.

Quasipseudogracilibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudogracilibacillus*, An existing genus; *Quasipseudogracilibacillus*: A genus related to but distinct from the existing genus Pseudogracilibacillus of as if.

Quasipseudogulbenkiania

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudogulbenkiania*, An existing genus; *Quasipseudogulbenkiania*: A genus related to but distinct from the existing genus Pseudogulbenkiania of as if.

Quasipseudohaliea

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudohaliea*, An existing genus; *Quasipseudohaliea*: A genus related to but distinct from the existing genus Pseudohaliea of as if.

Quasipseudohalioglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudohalioglobus*, An existing genus; *Quasipseudohalioglobus*: A genus related to but distinct from the existing genus Pseudohalioglobus of as if.

Quasipseudohalocynthiibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudohalocynthiibacter*, An existing genus; *Quasipseudohalocynthiibacter*: A genus related to but distinct from the existing genus Pseudohalocynthiibacter of as if.

Quasipseudohoeflea

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudohoeflea*, An existing genus; *Quasipseudohoeflea*: A genus related to but distinct from the existing genus Pseudohoeflea of as if.

Quasipseudohongiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Pseudohongiella*, An existing genus; *Quasipseudohongiella*: A genus related to but distinct from the existing genus Pseudohongiella of as if.

Quasipseudokineococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudokineococcus*, An existing genus; *Quasipseudokineococcus*: A genus related to but distinct from the existing genus Pseudokineococcus of as if.

Quasipseudolabrys

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudolabrys*, An existing genus; *Quasipseudolabrys*: A genus related to but distinct from the existing genus Pseudolabrys of as if.

Quasipseudoleptotrichia

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudoleptotrichia*, An existing genus; *Quasipseudoleptotrichia*: A genus related to but distinct from the existing genus Pseudoleptotrichia of as if.

Quasipseudolysinimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudolysinimonas*, An existing genus; *Quasipseudolysinimonas*: A genus related to but distinct from the existing genus Pseudolysinimonas of as if.

Quasipseudolysobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudolysobacter*, An existing genus; *Quasipseudolysobacter*: A genus related to but distinct from the existing genus Pseudolysobacter of as if.

Quasipseudomaribius

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudomaribius*, An existing genus; *Quasipseudomaribius*: A genus related to but distinct from the existing genus Pseudomaribius of as if.

Quasipseudomaricurvus

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudomaricurvus*, An existing genus; *Quasipseudomaricurvus*: A genus related to but distinct from the existing genus Pseudomaricurvus of as if.

Quasipseudomethylobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudomethylobacillus*, An existing genus; *Quasipseudomethylobacillus*: A genus related to but distinct from the existing genus Pseudomethylobacillus of as if.

Quasipseudomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudomonas*, An existing genus; *Quasipseudomonas*: A genus related to but distinct from the existing genus Pseudomonas of as if.

Quasipseudonocardia

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudonocardia*, An existing genus; *Quasipseudonocardia*: A genus related to but distinct from the existing genus Pseudonocardia of as if.

Quasipseudooceanicola

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudooceanicola*, An existing genus; *Quasipseudooceanicola*: A genus related to but distinct from the existing genus Pseudooceanicola of as if.

Quasipseudooctadecabacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudooctadecabacter*, An existing genus; *Quasipseudooctadecabacter*: A genus related to but distinct from the existing genus Pseudooctadecabacter of as if.

Quasipseudopedobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudopedobacter*, An existing genus; *Quasipseudopedobacter*: A genus related to but distinct from the existing genus Pseudopedobacter of as if.

Quasipseudopelagicola

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudopelagicola*, An existing genus; *Quasipseudopelagicola*: A genus related to but distinct from the existing genus Pseudopelagicola of as if.

Quasipseudophaeobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudophaeobacter*, An existing genus; *Quasipseudophaeobacter*: A genus related to but distinct from the existing genus Pseudophaeobacter of as if.

Quasipseudopropionibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Pseudopropionibacterium*, An existing genus; *Quasipseudopropionibacterium*: A genus related to but distinct from the existing genus Pseudopropionibacterium of as if.

Quasipseudopuniceibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Pseudopuniceibacterium*, An existing genus; *Quasipseudopuniceibacterium*: A genus related to but distinct from the existing genus Pseudopuniceibacterium of as if.

Quasipseudoramibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudoramibacter*, An existing genus; *Quasipseudoramibacter*: A genus related to but distinct from the existing genus Pseudoramibacter of as if.

Quasipseudorhizobium

L. nan conjunction *quasi*, as if; L. neut. n. *Pseudorhizobium*, An existing genus; *Quasipseudorhizobium*: A genus related to but distinct from the existing genus Pseudorhizobium of as if.

Quasipseudorhodobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudorhodobacter*, An existing genus; *Quasipseudorhodobacter*: A genus related to but distinct from the existing genus Pseudorhodobacter of as if.

Quasipseudorhodoferax

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudorhodoferax*, An existing genus; *Quasipseudorhodoferax*: A genus related to but distinct from the existing genus Pseudorhodoferax of as if.

Quasipseudorhodoplanes

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudorhodoplanes*, An existing genus; *Quasipseudorhodoplanes*: A genus related to but distinct from the existing genus Pseudorhodoplanes of as if.

Quasipseudorivibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudorivibacter*, An existing genus; *Quasipseudorivibacter*: A genus related to but distinct from the existing genus Pseudorivibacter of as if.

Quasipseudoroseicyclus

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudoroseicyclus*, An existing genus; *Quasipseudoroseicyclus*: A genus related to but distinct from the existing genus Pseudoroseicyclus of as if.

Quasipseudoroseovarius

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudoroseovarius*, An existing genus; *Quasipseudoroseovarius*: A genus related to but distinct from the existing genus Pseudoroseovarius of as if.

Quasipseudoruegeria

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudoruegeria*, An existing genus; *Quasipseudoruegeria*: A genus related to but distinct from the existing genus Pseudoruegeria of as if.

Quasipseudoruminococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudoruminococcus*, An existing genus; *Quasipseudoruminococcus*: A genus related to but distinct from the existing genus Pseudoruminococcus of as if.

Quasipseudoscardovia

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudoscardovia*, An existing genus; *Quasipseudoscardovia*: A genus related to but distinct from the existing genus Pseudoscardovia of as if.

Quasipseudoseohaeicola

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudoseohaeicola*, An existing genus; *Quasipseudoseohaeicola*: A genus related to but distinct from the existing genus Pseudoseohaeicola of as if.

Quasipseudosphingobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Pseudosphingobacterium*, An existing genus; *Quasipseudosphingobacterium*: A genus related to but distinct from the existing genus Pseudosphingobacterium of as if.

Quasipseudospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Pseudospirillum*, An existing genus; *Quasipseudospirillum*: A genus related to but distinct from the existing genus Pseudospirillum of as if.

Quasipseudosporangium

L. nan conjunction *quasi*, as if; L. neut. n. *Pseudosporangium*, An existing genus; *Quasipseudosporangium*: A genus related to but distinct from the existing genus Pseudosporangium of as if.

Quasipseudostreptobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudostreptobacillus*, An existing genus; *Quasipseudostreptobacillus*: A genus related to but distinct from the existing genus Pseudostreptobacillus of as if.

Quasipseudotenacibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Pseudotenacibaculum*, An existing genus; *Quasipseudotenacibaculum*: A genus related to but distinct from the existing genus Pseudotenacibaculum of as if.

Quasipseudoteredinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudoteredinibacter*, An existing genus; *Quasipseudoteredinibacter*: A genus related to but distinct from the existing genus Pseudoteredinibacter of as if.

Quasipseudothermotoga

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudothermotoga*, An existing genus; *Quasipseudothermotoga*: A genus related to but distinct from the existing genus Pseudothermotoga of as if.

Quasipseudothioclava

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudothioclava*, An existing genus; *Quasipseudothioclava*: A genus related to but distinct from the existing genus Pseudothioclava of as if.

Quasipseudovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudovibrio*, An existing genus; *Quasipseudovibrio*: A genus related to but distinct from the existing genus Pseudovibrio of as if.

Quasipseudoxanthobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pseudoxanthobacter*, An existing genus; *Quasipseudoxanthobacter*: A genus related to but distinct from the existing genus Pseudoxanthobacter of as if.

Quasipseudoxanthomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudoxanthomonas*, An existing genus; *Quasipseudoxanthomonas*: A genus related to but distinct from the existing genus Pseudoxanthomonas of as if.

Quasipseudozobellia

L. nan conjunction *quasi*, as if; L. fem. n. *Pseudozobellia*, An existing genus; *Quasipseudozobellia*: A genus related to but distinct from the existing genus Pseudozobellia of as if.

Quasipsittacicella

L. nan conjunction *quasi*, as if; L. fem. n. *Psittacicella*, An existing genus; *Quasipsittacicella*: A genus related to but distinct from the existing genus Psittacicella of as if.

Quasipsychrilyobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Psychrilyobacter*, An existing genus; *Quasipsychrilyobacter*: A genus related to but distinct from the existing genus Psychrilyobacter of as if.

Quasipsychrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Psychrobacter*, An existing genus; *Quasipsychrobacter*: A genus related to but distinct from the existing genus Psychrobacter of as if.

Quasipsychrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Psychrobium*, An existing genus; *Quasipsychrobium*: A genus related to but distinct from the existing genus Psychrobium of as if.

Quasipsychroflexus

L. nan conjunction *quasi*, as if; L. masc. n. *Psychroflexus*, An existing genus; *Quasipsychroflexus*: A genus related to but distinct from the existing genus Psychroflexus of as if.

Quasipsychroglaciecola

L. nan conjunction *quasi*, as if; L. fem. n. *Psychroglaciecola*, An existing genus; *Quasipsychroglaciecola*: A genus related to but distinct from the existing genus Psychroglaciecola of as if.

Quasipsychromarinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Psychromarinibacter*, An existing genus; *Quasipsychromarinibacter*: A genus related to but distinct from the existing genus Psychromarinibacter of as if.

Quasipsychromicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Psychromicrobium*, An existing genus; *Quasipsychromicrobium*: A genus related to but distinct from the existing genus Psychromicrobium of as if.

Quasipsychroserpens

L. nan conjunction *quasi*, as if; L. masc. n. *Psychroserpens*, An existing genus; *Quasipsychroserpens*: A genus related to but distinct from the existing genus Psychroserpens of as if.

Quasipsychrosinus

L. nan conjunction *quasi*, as if; L. masc. n. *Psychrosinus*, An existing genus; *Quasipsychrosinus*: A genus related to but distinct from the existing genus Psychrosinus of as if.

Quasipsychrosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Psychrosphaera*, An existing genus; *Quasipsychrosphaera*: A genus related to but distinct from the existing genus Psychrosphaera of as if.

Quasipueribacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Pueribacillus*, An existing genus; *Quasipueribacillus*: A genus related to but distinct from the existing genus Pueribacillus of as if.

Quasipuia

L. nan conjunction *quasi*, as if; L. fem. n. *Puia*, An existing genus; *Quasipuia*: A genus related to but distinct from the existing genus Puia of as if.

Quasipukyongia

L. nan conjunction *quasi*, as if; L. fem. n. *Pukyongia*, An existing genus; *Quasipukyongia*: A genus related to but distinct from the existing genus Pukyongia of as if.

Quasipukyongiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Pukyongiella*, An existing genus; *Quasipukyongiella*: A genus related to but distinct from the existing genus Pukyongiella of as if.

Quasipuniceibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Puniceibacterium*, An existing genus; *Quasipuniceibacterium*: A genus related to but distinct from the existing genus Puniceibacterium of as if.

Quasipuniceicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Puniceicoccus*, An existing genus; *Quasipuniceicoccus*: A genus related to but distinct from the existing genus Puniceicoccus of as if.

Quasipusillimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Pusillimonas*, An existing genus; *Quasipusillimonas*: A genus related to but distinct from the existing genus Pusillimonas of as if.

Quasipustulibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Pustulibacterium*, An existing genus; *Quasipustulibacterium*: A genus related to but distinct from the existing genus Pustulibacterium of as if.

Quasiputridiphycobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Putridiphycobacter*, An existing genus; *Quasiputridiphycobacter*: A genus related to but distinct from the existing genus Putridiphycobacter of as if.

Quasipuzihella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Puzihella*, An existing genus; *Quasipuzihella*: A genus related to but distinct from the existing genus Puzihella of as if.

Quasipycnacronema

L. nan conjunction *quasi*, as if; L. neut. n. *Pycnacronema*, An existing genus; *Quasipycnacronema*: A genus related to but distinct from the existing genus Pycnacronema of as if.

Quasipyramidobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pyramidobacter*, An existing genus; *Quasipyramidobacter*: A genus related to but distinct from the existing genus Pyramidobacter of as if.

Quasipyrinomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Pyrinomonas*, An existing genus; *Quasipyrinomonas*: A genus related to but distinct from the existing genus Pyrinomonas of as if.

Quasipyrobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Pyrobaculum*, An existing genus; *Quasipyrobaculum*: A genus related to but distinct from the existing genus Pyrobaculum of as if.

Quasipyrococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Pyrococcus*, An existing genus; *Quasipyrococcus*: A genus related to but distinct from the existing genus Pyrococcus of as if.

Quasipyrodictium

L. nan conjunction *quasi*, as if; L. neut. n. *Pyrodictium*, An existing genus; *Quasipyrodictium*: A genus related to but distinct from the existing genus Pyrodictium of as if.

Quasipyruvatibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Pyruvatibacter*, An existing genus; *Quasipyruvatibacter*: A genus related to but distinct from the existing genus Pyruvatibacter of as if.

Quasipyxidicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Pyxidicoccus*, An existing genus; *Quasipyxidicoccus*: A genus related to but distinct from the existing genus Pyxidicoccus of as if.

Quasiqingshengfania

L. nan conjunction *quasi*, as if; L. fem. n. *Qingshengfania*, An existing genus; *Quasiqingshengfania*: A genus related to but distinct from the existing genus Qingshengfania of as if.

Quasiqipengyuania

L. nan conjunction *quasi*, as if; L. fem. n. *Qipengyuania*, An existing genus; *Quasiqipengyuania*: A genus related to but distinct from the existing genus Qipengyuania of as if.

Quasiquadricoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Quadricoccus*, An existing genus; *Quasiquadricoccus*: A genus related to but distinct from the existing genus Quadricoccus of as if.

Quasiquadrisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Quadrisphaera*, An existing genus; *Quasiquadrisphaera*: A genus related to but distinct from the existing genus Quadrisphaera of as if.

Quasiquasibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Quasibacillus*, An existing genus; *Quasiquasibacillus*: A genus related to but distinct from the existing genus Quasibacillus of as if.

Quasiquatrionicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Quatrionicoccus*, An existing genus; *Quasiquatrionicoccus*: A genus related to but distinct from the existing genus Quatrionicoccus of as if.

Quasiquinella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Quinella*, An existing genus; *Quasiquinella*: A genus related to but distinct from the existing genus Quinella of as if.

Quasiracemicystis

L. nan conjunction *quasi*, as if; L. fem. n. *Racemicystis*, An existing genus; *Quasiracemicystis*: A genus related to but distinct from the existing genus Racemicystis of as if.

Quasirahnella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Rahnella*, An existing genus; *Quasirahnella*: A genus related to but distinct from the existing genus Rahnella of as if.

Quasiraineya

L. nan conjunction *quasi*, as if; L. fem. n. *Raineya*, An existing genus; *Quasiraineya*: A genus related to but distinct from the existing genus Raineya of as if.

Quasiraineyella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Raineyella*, An existing genus; *Quasiraineyella*: A genus related to but distinct from the existing genus Raineyella of as if.

Quasiralstonia

L. nan conjunction *quasi*, as if; L. fem. n. *Ralstonia*, An existing genus; *Quasiralstonia*: A genus related to but distinct from the existing genus Ralstonia of as if.

Quasiramlibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Ramlibacter*, An existing genus; *Quasiramlibacter*: A genus related to but distinct from the existing genus Ramlibacter of as if.

Quasiramsaria

L. nan conjunction *quasi*, as if; L. fem. n. *Ramsaria*, An existing genus; *Quasiramsaria*: A genus related to but distinct from the existing genus Ramsaria of as if.

Quasiraoultella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Raoultella*, An existing genus; *Quasiraoultella*: A genus related to but distinct from the existing genus Raoultella of as if.

Quasirariglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Rariglobus*, An existing genus; *Quasirariglobus*: A genus related to but distinct from the existing genus Rariglobus of as if.

Quasirarimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Rarimicrobium*, An existing genus; *Quasirarimicrobium*: A genus related to but distinct from the existing genus Rarimicrobium of as if.

Quasirarobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Rarobacter*, An existing genus; *Quasirarobacter*: A genus related to but distinct from the existing genus Rarobacter of as if.

Quasirathayibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Rathayibacter*, An existing genus; *Quasirathayibacter*: A genus related to but distinct from the existing genus Rathayibacter of as if.

Quasiravibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Ravibacter*, An existing genus; *Quasiravibacter*: A genus related to but distinct from the existing genus Ravibacter of as if.

Quasirectinema

L. nan conjunction *quasi*, as if; L. neut. n. *Rectinema*, An existing genus; *Quasirectinema*: A genus related to but distinct from the existing genus Rectinema of as if.

Quasirehaibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Rehaibacterium*, An existing genus; *Quasirehaibacterium*: A genus related to but distinct from the existing genus Rehaibacterium of as if.

Quasireichenbachia

L. nan conjunction *quasi*, as if; L. fem. n. *Reichenbachia*, An existing genus; *Quasireichenbachia*: A genus related to but distinct from the existing genus Reichenbachia of as if.

Quasireichenbachiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Reichenbachiella*, An existing genus; *Quasireichenbachiella*: A genus related to but distinct from the existing genus Reichenbachiella of as if.

Quasireinekea

L. nan conjunction *quasi*, as if; L. fem. n. *Reinekea*, An existing genus; *Quasireinekea*: A genus related to but distinct from the existing genus Reinekea of as if.

Quasirenibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Renibacterium*, An existing genus; *Quasirenibacterium*: A genus related to but distinct from the existing genus Renibacterium of as if.

Quasireyranella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Reyranella*, An existing genus; *Quasireyranella*: A genus related to but distinct from the existing genus Reyranella of as if.

Quasirhabdaerophilum

L. nan conjunction *quasi*, as if; L. neut. n. *Rhabdaerophilum*, An existing genus; *Quasirhabdaerophilum*: A genus related to but distinct from the existing genus Rhabdaerophilum of as if.

Quasirhabdanaerobium

L. nan conjunction *quasi*, as if; L. neut. n. *Rhabdanaerobium*, An existing genus; *Quasirhabdanaerobium*: A genus related to but distinct from the existing genus Rhabdanaerobium of as if.

Quasirhabdobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Rhabdobacter*, An existing genus; *Quasirhabdobacter*: A genus related to but distinct from the existing genus Rhabdobacter of as if.

Quasirhabdochromatium

L. nan conjunction *quasi*, as if; L. neut. n. *Rhabdochromatium*, An existing genus; *Quasirhabdochromatium*: A genus related to but distinct from the existing genus Rhabdochromatium of as if.

Quasirheinheimera

L. nan conjunction *quasi*, as if; L. fem. n. *Rheinheimera*, An existing genus; *Quasirheinheimera*: A genus related to but distinct from the existing genus Rheinheimera of as if.

Quasirhizobium

L. nan conjunction *quasi*, as if; L. neut. n. *Rhizobium*, An existing genus; *Quasirhizobium*: A genus related to but distinct from the existing genus Rhizobium of as if.

Quasirhizocola

L. nan conjunction *quasi*, as if; L. masc. n. *Rhizocola*, An existing genus; *Quasirhizocola*: A genus related to but distinct from the existing genus Rhizocola of as if.

Quasirhizomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Rhizomicrobium*, An existing genus; *Quasirhizomicrobium*: A genus related to but distinct from the existing genus Rhizomicrobium of as if.

Quasirhizomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Rhizomonas*, An existing genus; *Quasirhizomonas*: A genus related to but distinct from the existing genus Rhizomonas of as if.

Quasirhizorhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Rhizorhabdus*, An existing genus; *Quasirhizorhabdus*: A genus related to but distinct from the existing genus Rhizorhabdus of as if.

Quasirhizorhapis

L. nan conjunction *quasi*, as if; L. fem. n. *Rhizorhapis*, An existing genus; *Quasirhizorhapis*: A genus related to but distinct from the existing genus Rhizorhapis of as if.

Quasirhodanobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Rhodanobacter*, An existing genus; *Quasirhodanobacter*: A genus related to but distinct from the existing genus Rhodanobacter of as if.

Quasirhodobaca

L. nan conjunction *quasi*, as if; L. fem. n. *Rhodobaca*, An existing genus; *Quasirhodobaca*: A genus related to but distinct from the existing genus Rhodobaca of as if.

Quasirhodobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Rhodobacter*, An existing genus; *Quasirhodobacter*: A genus related to but distinct from the existing genus Rhodobacter of as if.

Quasirhodobium

L. nan conjunction *quasi*, as if; L. neut. n. *Rhodobium*, An existing genus; *Quasirhodobium*: A genus related to but distinct from the existing genus Rhodobium of as if.

Quasirhodoblastus

L. nan conjunction *quasi*, as if; L. masc. n. *Rhodoblastus*, An existing genus; *Quasirhodoblastus*: A genus related to but distinct from the existing genus Rhodoblastus of as if.

Quasirhodocista

L. nan conjunction *quasi*, as if; L. fem. n. *Rhodocista*, An existing genus; *Quasirhodocista*: A genus related to but distinct from the existing genus Rhodocista of as if.

Quasirhodococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Rhodococcus*, An existing genus; *Quasirhodococcus*: A genus related to but distinct from the existing genus Rhodococcus of as if.

Quasirhodocyclus

L. nan conjunction *quasi*, as if; L. masc. n. *Rhodocyclus*, An existing genus; *Quasirhodocyclus*: A genus related to but distinct from the existing genus Rhodocyclus of as if.

Quasirhodocytophaga

L. nan conjunction *quasi*, as if; L. fem. n. *Rhodocytophaga*, An existing genus; *Quasirhodocytophaga*: A genus related to but distinct from the existing genus Rhodocytophaga of as if.

Quasirhodoferax

L. nan conjunction *quasi*, as if; L. masc. n. *Rhodoferax*, An existing genus; *Quasirhodoferax*: A genus related to but distinct from the existing genus Rhodoferax of as if.

Quasirhodoglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Rhodoglobus*, An existing genus; *Quasirhodoglobus*: A genus related to but distinct from the existing genus Rhodoglobus of as if.

Quasirhodohalobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Rhodohalobacter*, An existing genus; *Quasirhodohalobacter*: A genus related to but distinct from the existing genus Rhodohalobacter of as if.

Quasirhodoligotrophos

L. nan conjunction *quasi*, as if; L. masc. n. *Rhodoligotrophos*, An existing genus; *Quasirhodoligotrophos*: A genus related to but distinct from the existing genus Rhodoligotrophos of as if.

Quasirhodoluna

L. nan conjunction *quasi*, as if; L. fem. n. *Rhodoluna*, An existing genus; *Quasirhodoluna*: A genus related to but distinct from the existing genus Rhodoluna of as if.

Quasirhodomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Rhodomicrobium*, An existing genus; *Quasirhodomicrobium*: A genus related to but distinct from the existing genus Rhodomicrobium of as if.

Quasirhodonellum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Rhodonellum*, An existing genus; *Quasirhodonellum*: A genus related to but distinct from the existing genus Rhodonellum of as if.

Quasirhodophyticola

L. nan conjunction *quasi*, as if; L. masc. n. *Rhodophyticola*, An existing genus; *Quasirhodophyticola*: A genus related to but distinct from the existing genus Rhodophyticola of as if.

Quasirhodopila

L. nan conjunction *quasi*, as if; L. fem. n. *Rhodopila*, An existing genus; *Quasirhodopila*: A genus related to but distinct from the existing genus Rhodopila of as if.

Quasirhodopirellula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Rhodopirellula*, An existing genus; *Quasirhodopirellula*: A genus related to but distinct from the existing genus Rhodopirellula of as if.

Quasirhodoplanes

L. nan conjunction *quasi*, as if; L. masc. n. *Rhodoplanes*, An existing genus; *Quasirhodoplanes*: A genus related to but distinct from the existing genus Rhodoplanes of as if.

Quasirhodopseudomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Rhodopseudomonas*, An existing genus; *Quasirhodopseudomonas*: A genus related to but distinct from the existing genus Rhodopseudomonas of as if.

Quasirhodosalinus

L. nan conjunction *quasi*, as if; L. masc. n. *Rhodosalinus*, An existing genus; *Quasirhodosalinus*: A genus related to but distinct from the existing genus Rhodosalinus of as if.

Quasirhodospira

L. nan conjunction *quasi*, as if; L. fem. n. *Rhodospira*, An existing genus; *Quasirhodospira*: A genus related to but distinct from the existing genus Rhodospira of as if.

Quasirhodospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Rhodospirillum*, An existing genus; *Quasirhodospirillum*: A genus related to but distinct from the existing genus Rhodospirillum of as if.

Quasirhodothalassium

L. nan conjunction *quasi*, as if; L. neut. n. *Rhodothalassium*, An existing genus; *Quasirhodothalassium*: A genus related to but distinct from the existing genus Rhodothalassium of as if.

Quasirhodothermus

L. nan conjunction *quasi*, as if; L. masc. n. *Rhodothermus*, An existing genus; *Quasirhodothermus*: A genus related to but distinct from the existing genus Rhodothermus of as if.

Quasirhodovarius

L. nan conjunction *quasi*, as if; L. masc. n. *Rhodovarius*, An existing genus; *Quasirhodovarius*: A genus related to but distinct from the existing genus Rhodovarius of as if.

Quasirhodovastum

L. nan conjunction *quasi*, as if; L. neut. n. *Rhodovastum*, An existing genus; *Quasirhodovastum*: A genus related to but distinct from the existing genus Rhodovastum of as if.

Quasirhodovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Rhodovibrio*, An existing genus; *Quasirhodovibrio*: A genus related to but distinct from the existing genus Rhodovibrio of as if.

Quasirhodovulum

L. nan conjunction *quasi*, as if; L. neut. n. *Rhodovulum*, An existing genus; *Quasirhodovulum*: A genus related to but distinct from the existing genus Rhodovulum of as if.

Quasirickettsia

L. nan conjunction *quasi*, as if; L. fem. n. *Rickettsia*, An existing genus; *Quasirickettsia*: A genus related to but distinct from the existing genus Rickettsia of as if.

Quasirickettsiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Rickettsiella*, An existing genus; *Quasirickettsiella*: A genus related to but distinct from the existing genus Rickettsiella of as if.

Quasiriemerella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Riemerella*, An existing genus; *Quasiriemerella*: A genus related to but distinct from the existing genus Riemerella of as if.

Quasirikenella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Rikenella*, An existing genus; *Quasirikenella*: A genus related to but distinct from the existing genus Rikenella of as if.

Quasirippkaea

L. nan conjunction *quasi*, as if; L. fem. n. *Rippkaea*, An existing genus; *Quasirippkaea*: A genus related to but distinct from the existing genus Rippkaea of as if.

Quasirisungbinella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Risungbinella*, An existing genus; *Quasirisungbinella*: A genus related to but distinct from the existing genus Risungbinella of as if.

Quasirivibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Rivibacter*, An existing genus; *Quasirivibacter*: A genus related to but distinct from the existing genus Rivibacter of as if.

Quasirivicola

L. nan conjunction *quasi*, as if; L. masc. n. *Rivicola*, An existing genus; *Quasirivicola*: A genus related to but distinct from the existing genus Rivicola of as if.

Quasirivularia

L. nan conjunction *quasi*, as if; L. fem. n. *Rivularia*, An existing genus; *Quasirivularia*: A genus related to but distinct from the existing genus Rivularia of as if.

Quasirobbsia

L. nan conjunction *quasi*, as if; L. fem. n. *Robbsia*, An existing genus; *Quasirobbsia*: A genus related to but distinct from the existing genus Robbsia of as if.

Quasirobertkochia

L. nan conjunction *quasi*, as if; L. fem. n. *Robertkochia*, An existing genus; *Quasirobertkochia*: A genus related to but distinct from the existing genus Robertkochia of as if.

Quasirobiginitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Robiginitalea*, An existing genus; *Quasirobiginitalea*: A genus related to but distinct from the existing genus Robiginitalea of as if.

Quasirobiginitomaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Robiginitomaculum*, An existing genus; *Quasirobiginitomaculum*: A genus related to but distinct from the existing genus Robiginitomaculum of as if.

Quasirobinsoniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Robinsoniella*, An existing genus; *Quasirobinsoniella*: A genus related to but distinct from the existing genus Robinsoniella of as if.

Quasirochalimaea

L. nan conjunction *quasi*, as if; L. fem. n. *Rochalimaea*, An existing genus; *Quasirochalimaea*: A genus related to but distinct from the existing genus Rochalimaea of as if.

Quasirodentibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Rodentibacter*, An existing genus; *Quasirodentibacter*: A genus related to but distinct from the existing genus Rodentibacter of as if.

Quasiroholtiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Roholtiella*, An existing genus; *Quasiroholtiella*: A genus related to but distinct from the existing genus Roholtiella of as if.

Quasiromboutsia

L. nan conjunction *quasi*, as if; L. fem. n. *Romboutsia*, An existing genus; *Quasiromboutsia*: A genus related to but distinct from the existing genus Romboutsia of as if.

Quasiroseateles

L. nan conjunction *quasi*, as if; L. masc. n. *Roseateles*, An existing genus; *Quasiroseateles*: A genus related to but distinct from the existing genus Roseateles of as if.

Quasiroseburia

L. nan conjunction *quasi*, as if; L. fem. n. *Roseburia*, An existing genus; *Quasiroseburia*: A genus related to but distinct from the existing genus Roseburia of as if.

Quasiroseiarcus

L. nan conjunction *quasi*, as if; L. masc. n. *Roseiarcus*, An existing genus; *Quasiroseiarcus*: A genus related to but distinct from the existing genus Roseiarcus of as if.

Quasiroseibaca

L. nan conjunction *quasi*, as if; L. fem. n. *Roseibaca*, An existing genus; *Quasiroseibaca*: A genus related to but distinct from the existing genus Roseibaca of as if.

Quasiroseibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Roseibacillus*, An existing genus; *Quasiroseibacillus*: A genus related to but distinct from the existing genus Roseibacillus of as if.

Quasiroseibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Roseibacterium*, An existing genus; *Quasiroseibacterium*: A genus related to but distinct from the existing genus Roseibacterium of as if.

Quasiroseibacula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Roseibacula*, An existing genus; *Quasiroseibacula*: A genus related to but distinct from the existing genus Roseibacula of as if.

Quasiroseibium

L. nan conjunction *quasi*, as if; L. neut. n. *Roseibium*, An existing genus; *Quasiroseibium*: A genus related to but distinct from the existing genus Roseibium of as if.

Quasiroseicella

L. nan conjunction *quasi*, as if; L. fem. n. *Roseicella*, An existing genus; *Quasiroseicella*: A genus related to but distinct from the existing genus Roseicella of as if.

Quasiroseicitreum

L. nan conjunction *quasi*, as if; L. neut. n. *Roseicitreum*, An existing genus; *Quasiroseicitreum*: A genus related to but distinct from the existing genus Roseicitreum of as if.

Quasiroseicyclus

L. nan conjunction *quasi*, as if; L. masc. n. *Roseicyclus*, An existing genus; *Quasiroseicyclus*: A genus related to but distinct from the existing genus Roseicyclus of as if.

Quasiroseiflexus

L. nan conjunction *quasi*, as if; L. masc. n. *Roseiflexus*, An existing genus; *Quasiroseiflexus*: A genus related to but distinct from the existing genus Roseiflexus of as if.

Quasiroseimarinus

L. nan conjunction *quasi*, as if; L. masc. n. *Roseimarinus*, An existing genus; *Quasiroseimarinus*: A genus related to but distinct from the existing genus Roseimarinus of as if.

Quasiroseimaritima

L. nan conjunction *quasi*, as if; L. fem. n. *Roseimaritima*, An existing genus; *Quasiroseimaritima*: A genus related to but distinct from the existing genus Roseimaritima of as if.

Quasiroseimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Roseimicrobium*, An existing genus; *Quasiroseimicrobium*: A genus related to but distinct from the existing genus Roseimicrobium of as if.

Quasiroseinatronobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Roseinatronobacter*, An existing genus; *Quasiroseinatronobacter*: A genus related to but distinct from the existing genus Roseinatronobacter of as if.

Quasiroseisalinus

L. nan conjunction *quasi*, as if; L. masc. n. *Roseisalinus*, An existing genus; *Quasiroseisalinus*: A genus related to but distinct from the existing genus Roseisalinus of as if.

Quasiroseisolibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Roseisolibacter*, An existing genus; *Quasiroseisolibacter*: A genus related to but distinct from the existing genus Roseisolibacter of as if.

Quasiroseitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Roseitalea*, An existing genus; *Quasiroseitalea*: A genus related to but distinct from the existing genus Roseitalea of as if.

Quasiroseithermus

L. nan conjunction *quasi*, as if; L. masc. n. *Roseithermus*, An existing genus; *Quasiroseithermus*: A genus related to but distinct from the existing genus Roseithermus of as if.

Quasiroseivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Roseivirga*, An existing genus; *Quasiroseivirga*: A genus related to but distinct from the existing genus Roseivirga of as if.

Quasiroseivivax

L. nan conjunction *quasi*, as if; L. masc. n. *Roseivivax*, An existing genus; *Quasiroseivivax*: A genus related to but distinct from the existing genus Roseivivax of as if.

Quasirosenbergiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Rosenbergiella*, An existing genus; *Quasirosenbergiella*: A genus related to but distinct from the existing genus Rosenbergiella of as if.

Quasiroseobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Roseobacter*, An existing genus; *Quasiroseobacter*: A genus related to but distinct from the existing genus Roseobacter of as if.

Quasiroseococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Roseococcus*, An existing genus; *Quasiroseococcus*: A genus related to but distinct from the existing genus Roseococcus of as if.

Quasiroseofilum

L. nan conjunction *quasi*, as if; L. neut. n. *Roseofilum*, An existing genus; *Quasiroseofilum*: A genus related to but distinct from the existing genus Roseofilum of as if.

Quasiroseomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Roseomonas*, An existing genus; *Quasiroseomonas*: A genus related to but distinct from the existing genus Roseomonas of as if.

Quasiroseospira

L. nan conjunction *quasi*, as if; L. fem. n. *Roseospira*, An existing genus; *Quasiroseospira*: A genus related to but distinct from the existing genus Roseospira of as if.

Quasiroseospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Roseospirillum*, An existing genus; *Quasiroseospirillum*: A genus related to but distinct from the existing genus Roseospirillum of as if.

Quasiroseovarius

L. nan conjunction *quasi*, as if; L. masc. n. *Roseovarius*, An existing genus; *Quasiroseovarius*: A genus related to but distinct from the existing genus Roseovarius of as if.

Quasirosistilla

L. nan conjunction *quasi*, as if; L. fem. n. *Rosistilla*, An existing genus; *Quasirosistilla*: A genus related to but distinct from the existing genus Rosistilla of as if.

Quasirothia

L. nan conjunction *quasi*, as if; L. fem. n. *Rothia*, An existing genus; *Quasirothia*: A genus related to but distinct from the existing genus Rothia of as if.

Quasirouxiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Rouxiella*, An existing genus; *Quasirouxiella*: A genus related to but distinct from the existing genus Rouxiella of as if.

Quasiruania

L. nan conjunction *quasi*, as if; L. fem. n. *Ruania*, An existing genus; *Quasiruania*: A genus related to but distinct from the existing genus Ruania of as if.

Quasirubellimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Rubellimicrobium*, An existing genus; *Quasirubellimicrobium*: A genus related to but distinct from the existing genus Rubellimicrobium of as if.

Quasirubeoparvulum

L. nan conjunction *quasi*, as if; L. neut. n. *Rubeoparvulum*, An existing genus; *Quasirubeoparvulum*: A genus related to but distinct from the existing genus Rubeoparvulum of as if.

Quasirubidibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Rubidibacter*, An existing genus; *Quasirubidibacter*: A genus related to but distinct from the existing genus Rubidibacter of as if.

Quasirubidimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Rubidimonas*, An existing genus; *Quasirubidimonas*: A genus related to but distinct from the existing genus Rubidimonas of as if.

Quasirubinisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Rubinisphaera*, An existing genus; *Quasirubinisphaera*: A genus related to but distinct from the existing genus Rubinisphaera of as if.

Quasirubneribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Rubneribacter*, An existing genus; *Quasirubneribacter*: A genus related to but distinct from the existing genus Rubneribacter of as if.

Quasirubribacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Rubribacterium*, An existing genus; *Quasirubribacterium*: A genus related to but distinct from the existing genus Rubribacterium of as if.

Quasirubricella

L. nan conjunction *quasi*, as if; L. fem. n. *Rubricella*, An existing genus; *Quasirubricella*: A genus related to but distinct from the existing genus Rubricella of as if.

Quasirubricoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Rubricoccus*, An existing genus; *Quasirubricoccus*: A genus related to but distinct from the existing genus Rubricoccus of as if.

Quasirubrimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Rubrimonas*, An existing genus; *Quasirubrimonas*: A genus related to but distinct from the existing genus Rubrimonas of as if.

Quasirubripirellula

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Rubripirellula*, An existing genus; *Quasirubripirellula*: A genus related to but distinct from the existing genus Rubripirellula of as if.

Quasirubritalea

L. nan conjunction *quasi*, as if; L. fem. n. *Rubritalea*, An existing genus; *Quasirubritalea*: A genus related to but distinct from the existing genus Rubritalea of as if.

Quasirubritepida

L. nan conjunction *quasi*, as if; L. fem. n. *Rubritepida*, An existing genus; *Quasirubritepida*: A genus related to but distinct from the existing genus Rubritepida of as if.

Quasirubrivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Rubrivirga*, An existing genus; *Quasirubrivirga*: A genus related to but distinct from the existing genus Rubrivirga of as if.

Quasirubrivivax

L. nan conjunction *quasi*, as if; L. masc. n. *Rubrivivax*, An existing genus; *Quasirubrivivax*: A genus related to but distinct from the existing genus Rubrivivax of as if.

Quasirubrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Rubrobacter*, An existing genus; *Quasirubrobacter*: A genus related to but distinct from the existing genus Rubrobacter of as if.

Quasirudaea

L. nan conjunction *quasi*, as if; L. fem. n. *Rudaea*, An existing genus; *Quasirudaea*: A genus related to but distinct from the existing genus Rudaea of as if.

Quasirudaeicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Rudaeicoccus*, An existing genus; *Quasirudaeicoccus*: A genus related to but distinct from the existing genus Rudaeicoccus of as if.

Quasirudaibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Rudaibacter*, An existing genus; *Quasirudaibacter*: A genus related to but distinct from the existing genus Rudaibacter of as if.

Quasirudanella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Rudanella*, An existing genus; *Quasirudanella*: A genus related to but distinct from the existing genus Rudanella of as if.

Quasiruegeria

L. nan conjunction *quasi*, as if; L. fem. n. *Ruegeria*, An existing genus; *Quasiruegeria*: A genus related to but distinct from the existing genus Ruegeria of as if.

Quasirufibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Rufibacter*, An existing genus; *Quasirufibacter*: A genus related to but distinct from the existing genus Rufibacter of as if.

Quasiruficoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Ruficoccus*, An existing genus; *Quasiruficoccus*: A genus related to but distinct from the existing genus Ruficoccus of as if.

Quasirugamonas

L. nan conjunction *quasi*, as if; L. fem. n. *Rugamonas*, An existing genus; *Quasirugamonas*: A genus related to but distinct from the existing genus Rugamonas of as if.

Quasirugosibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Rugosibacter*, An existing genus; *Quasirugosibacter*: A genus related to but distinct from the existing genus Rugosibacter of as if.

Quasirugosimonospora

L. nan conjunction *quasi*, as if; L. fem. n. *Rugosimonospora*, An existing genus; *Quasirugosimonospora*: A genus related to but distinct from the existing genus Rugosimonospora of as if.

Quasiruminiclostridium

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Ruminiclostridium*, An existing genus; *Quasiruminiclostridium*: A genus related to but distinct from the existing genus Ruminiclostridium of as if.

Quasiruminobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Ruminobacter*, An existing genus; *Quasiruminobacter*: A genus related to but distinct from the existing genus Ruminobacter of as if.

Quasiruminococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Ruminococcus*, An existing genus; *Quasiruminococcus*: A genus related to but distinct from the existing genus Ruminococcus of as if.

Quasirummeliibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Rummeliibacillus*, An existing genus; *Quasirummeliibacillus*: A genus related to but distinct from the existing genus Rummeliibacillus of as if.

Quasirunella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Runella*, An existing genus; *Quasirunella*: A genus related to but distinct from the existing genus Runella of as if.

Quasirurimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Rurimicrobium*, An existing genus; *Quasirurimicrobium*: A genus related to but distinct from the existing genus Rurimicrobium of as if.

Quasiruthenibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Ruthenibacterium*, An existing genus; *Quasiruthenibacterium*: A genus related to but distinct from the existing genus Ruthenibacterium of as if.

Quasisabulilitoribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Sabulilitoribacter*, An existing genus; *Quasisabulilitoribacter*: A genus related to but distinct from the existing genus Sabulilitoribacter of as if.

Quasisaccharedens

L. nan conjunction *quasi*, as if; L. masc. n. *Saccharedens*, An existing genus; *Quasisaccharedens*: A genus related to but distinct from the existing genus Saccharedens of as if.

Quasisaccharibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Saccharibacillus*, An existing genus; *Quasisaccharibacillus*: A genus related to but distinct from the existing genus Saccharibacillus of as if.

Quasisaccharibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Saccharibacter*, An existing genus; *Quasisaccharibacter*: A genus related to but distinct from the existing genus Saccharibacter of as if.

Quasisaccharococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Saccharococcus*, An existing genus; *Quasisaccharococcus*: A genus related to but distinct from the existing genus Saccharococcus of as if.

Quasisaccharofermentans

L. nan conjunction *quasi*, as if; L. neut. n. *Saccharofermentans*, An existing genus; *Quasisaccharofermentans*: A genus related to but distinct from the existing genus Saccharofermentans of as if.

Quasisaccharolobus

L. nan conjunction *quasi*, as if; L. masc. n. *Saccharolobus*, An existing genus; *Quasisaccharolobus*: A genus related to but distinct from the existing genus Saccharolobus of as if.

Quasisaccharomonospora

L. nan conjunction *quasi*, as if; L. fem. n. *Saccharomonospora*, An existing genus; *Quasisaccharomonospora*: A genus related to but distinct from the existing genus Saccharomonospora of as if.

Quasisaccharophagus

L. nan conjunction *quasi*, as if; L. masc. n. *Saccharophagus*, An existing genus; *Quasisaccharophagus*: A genus related to but distinct from the existing genus Saccharophagus of as if.

Quasisaccharopolyspora

L. nan conjunction *quasi*, as if; L. fem. n. *Saccharopolyspora*, An existing genus; *Quasisaccharopolyspora*: A genus related to but distinct from the existing genus Saccharopolyspora of as if.

Quasisaccharospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Saccharospirillum*, An existing genus; *Quasisaccharospirillum*: A genus related to but distinct from the existing genus Saccharospirillum of as if.

Quasisaezia

L. nan conjunction *quasi*, as if; L. fem. n. *Saezia*, An existing genus; *Quasisaezia*: A genus related to but distinct from the existing genus Saezia of as if.

Quasisalana

L. nan conjunction *quasi*, as if; L. fem. n. *Salana*, An existing genus; *Quasisalana*: A genus related to but distinct from the existing genus Salana of as if.

Quasisalaquimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Salaquimonas*, An existing genus; *Quasisalaquimonas*: A genus related to but distinct from the existing genus Salaquimonas of as if.

Quasisalarchaeum

L. nan conjunction *quasi*, as if; L. neut. n. *Salarchaeum*, An existing genus; *Quasisalarchaeum*: A genus related to but distinct from the existing genus Salarchaeum of as if.

Quasisalegentibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Salegentibacter*, An existing genus; *Quasisalegentibacter*: A genus related to but distinct from the existing genus Salegentibacter of as if.

Quasisalibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Salibacillus*, An existing genus; *Quasisalibacillus*: A genus related to but distinct from the existing genus Salibacillus of as if.

Quasisalibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Salibacter*, An existing genus; *Quasisalibacter*: A genus related to but distinct from the existing genus Salibacter of as if.

Quasisalicibibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Salicibibacter*, An existing genus; *Quasisalicibibacter*: A genus related to but distinct from the existing genus Salicibibacter of as if.

Quasisalicola

L. nan conjunction *quasi*, as if; L. masc. n. *Salicola*, An existing genus; *Quasisalicola*: A genus related to but distinct from the existing genus Salicola of as if.

Quasisalilacibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Salilacibacter*, An existing genus; *Quasisalilacibacter*: A genus related to but distinct from the existing genus Salilacibacter of as if.

Quasisalileptolyngbya

L. nan conjunction *quasi*, as if; L. fem. n. *Salileptolyngbya*, An existing genus; *Quasisalileptolyngbya*: A genus related to but distinct from the existing genus Salileptolyngbya of as if.

Quasisalimesophilobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Salimesophilobacter*, An existing genus; *Quasisalimesophilobacter*: A genus related to but distinct from the existing genus Salimesophilobacter of as if.

Quasisalimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Salimicrobium*, An existing genus; *Quasisalimicrobium*: A genus related to but distinct from the existing genus Salimicrobium of as if.

Quasisalinactinospora

L. nan conjunction *quasi*, as if; L. fem. n. *Salinactinospora*, An existing genus; *Quasisalinactinospora*: A genus related to but distinct from the existing genus Salinactinospora of as if.

Quasisalinarchaeum

L. nan conjunction *quasi*, as if; L. neut. n. *Salinarchaeum*, An existing genus; *Quasisalinarchaeum*: A genus related to but distinct from the existing genus Salinarchaeum of as if.

Quasisalinibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Salinibacillus*, An existing genus; *Quasisalinibacillus*: A genus related to but distinct from the existing genus Salinibacillus of as if.

Quasisalinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Salinibacter*, An existing genus; *Quasisalinibacter*: A genus related to but distinct from the existing genus Salinibacter of as if.

Quasisalinibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Salinibacterium*, An existing genus; *Quasisalinibacterium*: A genus related to but distinct from the existing genus Salinibacterium of as if.

Quasisalinibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Salinibaculum*, An existing genus; *Quasisalinibaculum*: A genus related to but distinct from the existing genus Salinibaculum of as if.

Quasisalinibius

L. nan conjunction *quasi*, as if; L. masc. n. *Salinibius*, An existing genus; *Quasisalinibius*: A genus related to but distinct from the existing genus Salinibius of as if.

Quasisalinicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Salinicoccus*, An existing genus; *Quasisalinicoccus*: A genus related to but distinct from the existing genus Salinicoccus of as if.

Quasisalinicola

L. nan conjunction *quasi*, as if; L. masc. n. *Salinicola*, An existing genus; *Quasisalinicola*: A genus related to but distinct from the existing genus Salinicola of as if.

Quasisalinifilum

L. nan conjunction *quasi*, as if; L. neut. n. *Salinifilum*, An existing genus; *Quasisalinifilum*: A genus related to but distinct from the existing genus Salinifilum of as if.

Quasisalinigranum

L. nan conjunction *quasi*, as if; L. neut. n. *Salinigranum*, An existing genus; *Quasisalinigranum*: A genus related to but distinct from the existing genus Salinigranum of as if.

Quasisalinihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Salinihabitans*, An existing genus; *Quasisalinihabitans*: A genus related to but distinct from the existing genus Salinihabitans of as if.

Quasisalinimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Salinimicrobium*, An existing genus; *Quasisalinimicrobium*: A genus related to but distinct from the existing genus Salinimicrobium of as if.

Quasisalinimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Salinimonas*, An existing genus; *Quasisalinimonas*: A genus related to but distinct from the existing genus Salinimonas of as if.

Quasisalininema

L. nan conjunction *quasi*, as if; L. neut. n. *Salininema*, An existing genus; *Quasisalininema*: A genus related to but distinct from the existing genus Salininema of as if.

Quasisaliniradius

L. nan conjunction *quasi*, as if; L. masc. n. *Saliniradius*, An existing genus; *Quasisaliniradius*: A genus related to but distinct from the existing genus Saliniradius of as if.

Quasisalinirepens

L. nan conjunction *quasi*, as if; L. masc. n. *Salinirepens*, An existing genus; *Quasisalinirepens*: A genus related to but distinct from the existing genus Salinirepens of as if.

Quasisalinirubellus

L. nan conjunction *quasi*, as if; L. masc. n. *Salinirubellus*, An existing genus; *Quasisalinirubellus*: A genus related to but distinct from the existing genus Salinirubellus of as if.

Quasisalinirussus

L. nan conjunction *quasi*, as if; L. masc. n. *Salinirussus*, An existing genus; *Quasisalinirussus*: A genus related to but distinct from the existing genus Salinirussus of as if.

Quasisalinisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Salinisphaera*, An existing genus; *Quasisalinisphaera*: A genus related to but distinct from the existing genus Salinisphaera of as if.

Quasisalinispira

L. nan conjunction *quasi*, as if; L. fem. n. *Salinispira*, An existing genus; *Quasisalinispira*: A genus related to but distinct from the existing genus Salinispira of as if.

Quasisalinispirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Salinispirillum*, An existing genus; *Quasisalinispirillum*: A genus related to but distinct from the existing genus Salinispirillum of as if.

Quasisalinispora

L. nan conjunction *quasi*, as if; L. fem. n. *Salinispora*, An existing genus; *Quasisalinispora*: A genus related to but distinct from the existing genus Salinispora of as if.

Quasisalinithrix

L. nan conjunction *quasi*, as if; L. fem. n. *Salinithrix*, An existing genus; *Quasisalinithrix*: A genus related to but distinct from the existing genus Salinithrix of as if.

Quasisalinivenus

L. nan conjunction *quasi*, as if; L. fem. n. *Salinivenus*, An existing genus; *Quasisalinivenus*: A genus related to but distinct from the existing genus Salinivenus of as if.

Quasisalinivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Salinivibrio*, An existing genus; *Quasisalinivibrio*: A genus related to but distinct from the existing genus Salinivibrio of as if.

Quasisalinivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Salinivirga*, An existing genus; *Quasisalinivirga*: A genus related to but distinct from the existing genus Salinivirga of as if.

Quasisalinovum

L. nan conjunction *quasi*, as if; L. neut. n. *Salinovum*, An existing genus; *Quasisalinovum*: A genus related to but distinct from the existing genus Salinovum of as if.

Quasisaliphagus

L. nan conjunction *quasi*, as if; L. masc. n. *Saliphagus*, An existing genus; *Quasisaliphagus*: A genus related to but distinct from the existing genus Saliphagus of as if.

Quasisalipiger

L. nan conjunction *quasi*, as if; L. masc. n. *Salipiger*, An existing genus; *Quasisalipiger*: A genus related to but distinct from the existing genus Salipiger of as if.

Quasisalisaeta

L. nan conjunction *quasi*, as if; L. fem. n. *Salisaeta*, An existing genus; *Quasisalisaeta*: A genus related to but distinct from the existing genus Salisaeta of as if.

Quasisalisediminibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Salisediminibacterium*, An existing genus; *Quasisalisediminibacterium*: A genus related to but distinct from the existing genus Salisediminibacterium of as if.

Quasisaliterribacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Saliterribacillus*, An existing genus; *Quasisaliterribacillus*: A genus related to but distinct from the existing genus Saliterribacillus of as if.

Quasisalmonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Salmonella*, An existing genus; *Quasisalmonella*: A genus related to but distinct from the existing genus Salmonella of as if.

Quasisalsuginibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Salsuginibacillus*, An existing genus; *Quasisalsuginibacillus*: A genus related to but distinct from the existing genus Salsuginibacillus of as if.

Quasisalsuginimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Salsuginimonas*, An existing genus; *Quasisalsuginimonas*: A genus related to but distinct from the existing genus Salsuginimonas of as if.

Quasisamsonia

L. nan conjunction *quasi*, as if; L. fem. n. *Samsonia*, An existing genus; *Quasisamsonia*: A genus related to but distinct from the existing genus Samsonia of as if.

Quasisandaracinobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Sandaracinobacter*, An existing genus; *Quasisandaracinobacter*: A genus related to but distinct from the existing genus Sandaracinobacter of as if.

Quasisandaracinomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Sandaracinomonas*, An existing genus; *Quasisandaracinomonas*: A genus related to but distinct from the existing genus Sandaracinomonas of as if.

Quasisandaracinus

L. nan conjunction *quasi*, as if; L. masc. n. *Sandaracinus*, An existing genus; *Quasisandaracinus*: A genus related to but distinct from the existing genus Sandaracinus of as if.

Quasisandarakinorhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Sandarakinorhabdus*, An existing genus; *Quasisandarakinorhabdus*: A genus related to but distinct from the existing genus Sandarakinorhabdus of as if.

Quasisandarakinotalea

L. nan conjunction *quasi*, as if; L. fem. n. *Sandarakinotalea*, An existing genus; *Quasisandarakinotalea*: A genus related to but distinct from the existing genus Sandarakinotalea of as if.

Quasisansalvadorimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Sansalvadorimonas*, An existing genus; *Quasisansalvadorimonas*: A genus related to but distinct from the existing genus Sansalvadorimonas of as if.

Quasisaonia

L. nan conjunction *quasi*, as if; L. fem. n. *Saonia*, An existing genus; *Quasisaonia*: A genus related to but distinct from the existing genus Saonia of as if.

Quasisaprospira

L. nan conjunction *quasi*, as if; L. fem. n. *Saprospira*, An existing genus; *Quasisaprospira*: A genus related to but distinct from the existing genus Saprospira of as if.

Quasisarcina

L. nan conjunction *quasi*, as if; L. fem. n. *Sarcina*, An existing genus; *Quasisarcina*: A genus related to but distinct from the existing genus Sarcina of as if.

Quasisarcobium

L. nan conjunction *quasi*, as if; L. neut. n. *Sarcobium*, An existing genus; *Quasisarcobium*: A genus related to but distinct from the existing genus Sarcobium of as if.

Quasisavagea

L. nan conjunction *quasi*, as if; L. fem. n. *Savagea*, An existing genus; *Quasisavagea*: A genus related to but distinct from the existing genus Savagea of as if.

Quasisaxeibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Saxeibacter*, An existing genus; *Quasisaxeibacter*: A genus related to but distinct from the existing genus Saxeibacter of as if.

Quasiscandinavium

L. nan conjunction *quasi*, as if; L. neut. n. *Scandinavium*, An existing genus; *Quasiscandinavium*: A genus related to but distinct from the existing genus Scandinavium of as if.

Quasiscardovia

L. nan conjunction *quasi*, as if; L. fem. n. *Scardovia*, An existing genus; *Quasiscardovia*: A genus related to but distinct from the existing genus Scardovia of as if.

Quasischaalia

L. nan conjunction *quasi*, as if; L. fem. n. *Schaalia*, An existing genus; *Quasischaalia*: A genus related to but distinct from the existing genus Schaalia of as if.

Quasischaedlerella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Schaedlerella*, An existing genus; *Quasischaedlerella*: A genus related to but distinct from the existing genus Schaedlerella of as if.

Quasischineria

L. nan conjunction *quasi*, as if; L. fem. n. *Schineria*, An existing genus; *Quasischineria*: A genus related to but distinct from the existing genus Schineria of as if.

Quasischlegelella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Schlegelella*, An existing genus; *Quasischlegelella*: A genus related to but distinct from the existing genus Schlegelella of as if.

Quasischleiferella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Schleiferella*, An existing genus; *Quasischleiferella*: A genus related to but distinct from the existing genus Schleiferella of as if.

Quasischleiferia

L. nan conjunction *quasi*, as if; L. fem. n. *Schleiferia*, An existing genus; *Quasischleiferia*: A genus related to but distinct from the existing genus Schleiferia of as if.

Quasischleiferilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Schleiferilactobacillus*, An existing genus; *Quasischleiferilactobacillus*: A genus related to but distinct from the existing genus Schleiferilactobacillus of as if.

Quasischlesneria

L. nan conjunction *quasi*, as if; L. fem. n. *Schlesneria*, An existing genus; *Quasischlesneria*: A genus related to but distinct from the existing genus Schlesneria of as if.

Quasischnuerera

L. nan conjunction *quasi*, as if; L. fem. n. *Schnuerera*, An existing genus; *Quasischnuerera*: A genus related to but distinct from the existing genus Schnuerera of as if.

Quasischumannella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Schumannella*, An existing genus; *Quasischumannella*: A genus related to but distinct from the existing genus Schumannella of as if.

Quasischwartzia

L. nan conjunction *quasi*, as if; L. fem. n. *Schwartzia*, An existing genus; *Quasischwartzia*: A genus related to but distinct from the existing genus Schwartzia of as if.

Quasisciscionella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Sciscionella*, An existing genus; *Quasisciscionella*: A genus related to but distinct from the existing genus Sciscionella of as if.

Quasiscopulibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Scopulibacillus*, An existing genus; *Quasiscopulibacillus*: A genus related to but distinct from the existing genus Scopulibacillus of as if.

Quasiscytolyngbya

L. nan conjunction *quasi*, as if; L. fem. n. *Scytolyngbya*, An existing genus; *Quasiscytolyngbya*: A genus related to but distinct from the existing genus Scytolyngbya of as if.

Quasisebaldella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Sebaldella*, An existing genus; *Quasisebaldella*: A genus related to but distinct from the existing genus Sebaldella of as if.

Quasisecundilactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Secundilactobacillus*, An existing genus; *Quasisecundilactobacillus*: A genus related to but distinct from the existing genus Secundilactobacillus of as if.

Quasisedimentibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Sedimentibacter*, An existing genus; *Quasisedimentibacter*: A genus related to but distinct from the existing genus Sedimentibacter of as if.

Quasisedimenticola

L. nan conjunction *quasi*, as if; L. masc. n. *Sedimenticola*, An existing genus; *Quasisedimenticola*: A genus related to but distinct from the existing genus Sedimenticola of as if.

Quasisedimentisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Sedimentisphaera*, An existing genus; *Quasisedimentisphaera*: A genus related to but distinct from the existing genus Sedimentisphaera of as if.

Quasisedimentitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Sedimentitalea*, An existing genus; *Quasisedimentitalea*: A genus related to but distinct from the existing genus Sedimentitalea of as if.

Quasisediminibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Sediminibacillus*, An existing genus; *Quasisediminibacillus*: A genus related to but distinct from the existing genus Sediminibacillus of as if.

Quasisediminibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Sediminibacter*, An existing genus; *Quasisediminibacter*: A genus related to but distinct from the existing genus Sediminibacter of as if.

Quasisediminibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Sediminibacterium*, An existing genus; *Quasisediminibacterium*: A genus related to but distinct from the existing genus Sediminibacterium of as if.

Quasisediminicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Sediminicoccus*, An existing genus; *Quasisediminicoccus*: A genus related to but distinct from the existing genus Sediminicoccus of as if.

Quasisediminicola

L. nan conjunction *quasi*, as if; L. masc. n. *Sediminicola*, An existing genus; *Quasisediminicola*: A genus related to but distinct from the existing genus Sediminicola of as if.

Quasisediminihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Sediminihabitans*, An existing genus; *Quasisediminihabitans*: A genus related to but distinct from the existing genus Sediminihabitans of as if.

Quasisediminimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Sediminimonas*, An existing genus; *Quasisediminimonas*: A genus related to but distinct from the existing genus Sediminimonas of as if.

Quasisediminispirochaeta

L. nan conjunction *quasi*, as if; L. fem. n. *Sediminispirochaeta*, An existing genus; *Quasisediminispirochaeta*: A genus related to but distinct from the existing genus Sediminispirochaeta of as if.

Quasisediminitomix

L. nan conjunction *quasi*, as if; L. fem. n. *Sediminitomix*, An existing genus; *Quasisediminitomix*: A genus related to but distinct from the existing genus Sediminitomix of as if.

Quasisediminivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Sediminivirga*, An existing genus; *Quasisediminivirga*: A genus related to but distinct from the existing genus Sediminivirga of as if.

Quasisegeticoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Segeticoccus*, An existing genus; *Quasisegeticoccus*: A genus related to but distinct from the existing genus Segeticoccus of as if.

Quasisegniliparus

L. nan conjunction *quasi*, as if; L. masc. n. *Segniliparus*, An existing genus; *Quasisegniliparus*: A genus related to but distinct from the existing genus Segniliparus of as if.

Quasisegnochrobactrum

L. nan conjunction *quasi*, as if; L. neut. n. *Segnochrobactrum*, An existing genus; *Quasisegnochrobactrum*: A genus related to but distinct from the existing genus Segnochrobactrum of as if.

Quasiseinonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Seinonella*, An existing genus; *Quasiseinonella*: A genus related to but distinct from the existing genus Seinonella of as if.

Quasisejongia

L. nan conjunction *quasi*, as if; L. fem. n. *Sejongia*, An existing genus; *Quasisejongia*: A genus related to but distinct from the existing genus Sejongia of as if.

Quasiselenihalanaerobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Selenihalanaerobacter*, An existing genus; *Quasiselenihalanaerobacter*: A genus related to but distinct from the existing genus Selenihalanaerobacter of as if.

Quasiseleniivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Seleniivibrio*, An existing genus; *Quasiseleniivibrio*: A genus related to but distinct from the existing genus Seleniivibrio of as if.

Quasiselenomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Selenomonas*, An existing genus; *Quasiselenomonas*: A genus related to but distinct from the existing genus Selenomonas of as if.

Quasiseliberia

L. nan conjunction *quasi*, as if; L. fem. n. *Seliberia*, An existing genus; *Quasiseliberia*: A genus related to but distinct from the existing genus Seliberia of as if.

Quasisellimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Sellimonas*, An existing genus; *Quasisellimonas*: A genus related to but distinct from the existing genus Sellimonas of as if.

Quasisenegalimassilia

L. nan conjunction *quasi*, as if; L. fem. n. *Senegalimassilia*, An existing genus; *Quasisenegalimassilia*: A genus related to but distinct from the existing genus Senegalimassilia of as if.

Quasiseohaeicola

L. nan conjunction *quasi*, as if; L. masc. n. *Seohaeicola*, An existing genus; *Quasiseohaeicola*: A genus related to but distinct from the existing genus Seohaeicola of as if.

Quasiseonamhaeicola

L. nan conjunction *quasi*, as if; L. masc. n. *Seonamhaeicola*, An existing genus; *Quasiseonamhaeicola*: A genus related to but distinct from the existing genus Seonamhaeicola of as if.

Quasiseongchinamella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Seongchinamella*, An existing genus; *Quasiseongchinamella*: A genus related to but distinct from the existing genus Seongchinamella of as if.

Quasiserinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Serinibacter*, An existing genus; *Quasiserinibacter*: A genus related to but distinct from the existing genus Serinibacter of as if.

Quasiserinicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Serinicoccus*, An existing genus; *Quasiserinicoccus*: A genus related to but distinct from the existing genus Serinicoccus of as if.

Quasiserpentinicella

L. nan conjunction *quasi*, as if; L. fem. n. *Serpentinicella*, An existing genus; *Quasiserpentinicella*: A genus related to but distinct from the existing genus Serpentinicella of as if.

Quasiserpulina

L. nan conjunction *quasi*, as if; L. fem. n. *Serpulina*, An existing genus; *Quasiserpulina*: A genus related to but distinct from the existing genus Serpulina of as if.

Quasiserratia

L. nan conjunction *quasi*, as if; L. fem. n. *Serratia*, An existing genus; *Quasiserratia*: A genus related to but distinct from the existing genus Serratia of as if.

Quasishackletoniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Shackletoniella*, An existing genus; *Quasishackletoniella*: A genus related to but distinct from the existing genus Shackletoniella of as if.

Quasisharpea

L. nan conjunction *quasi*, as if; L. fem. n. *Sharpea*, An existing genus; *Quasisharpea*: A genus related to but distinct from the existing genus Sharpea of as if.

Quasishewanella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Shewanella*, An existing genus; *Quasishewanella*: A genus related to but distinct from the existing genus Shewanella of as if.

Quasishigella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Shigella*, An existing genus; *Quasishigella*: A genus related to but distinct from the existing genus Shigella of as if.

Quasishimazuella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Shimazuella*, An existing genus; *Quasishimazuella*: A genus related to but distinct from the existing genus Shimazuella of as if.

Quasishimia

L. nan conjunction *quasi*, as if; L. fem. n. *Shimia*, An existing genus; *Quasishimia*: A genus related to but distinct from the existing genus Shimia of as if.

Quasishimwellia

L. nan conjunction *quasi*, as if; L. fem. n. *Shimwellia*, An existing genus; *Quasishimwellia*: A genus related to but distinct from the existing genus Shimwellia of as if.

Quasishinella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Shinella*, An existing genus; *Quasishinella*: A genus related to but distinct from the existing genus Shinella of as if.

Quasishivajiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Shivajiella*, An existing genus; *Quasishivajiella*: A genus related to but distinct from the existing genus Shivajiella of as if.

Quasishuttleworthia

L. nan conjunction *quasi*, as if; L. fem. n. *Shuttleworthia*, An existing genus; *Quasishuttleworthia*: A genus related to but distinct from the existing genus Shuttleworthia of as if.

Quasisiccirubricoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Siccirubricoccus*, An existing genus; *Quasisiccirubricoccus*: A genus related to but distinct from the existing genus Siccirubricoccus of as if.

Quasisilanimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Silanimonas*, An existing genus; *Quasisilanimonas*: A genus related to but distinct from the existing genus Silanimonas of as if.

Quasisilicibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Silicibacter*, An existing genus; *Quasisilicibacter*: A genus related to but distinct from the existing genus Silicibacter of as if.

Quasisilicimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Silicimonas*, An existing genus; *Quasisilicimonas*: A genus related to but distinct from the existing genus Silicimonas of as if.

Quasisilvanigrella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Silvanigrella*, An existing genus; *Quasisilvanigrella*: A genus related to but distinct from the existing genus Silvanigrella of as if.

Quasisilvibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Silvibacterium*, An existing genus; *Quasisilvibacterium*: A genus related to but distinct from the existing genus Silvibacterium of as if.

Quasisilvimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Silvimonas*, An existing genus; *Quasisilvimonas*: A genus related to but distinct from the existing genus Silvimonas of as if.

Quasisimiduia

L. nan conjunction *quasi*, as if; L. fem. n. *Simiduia*, An existing genus; *Quasisimiduia*: A genus related to but distinct from the existing genus Simiduia of as if.

Quasisimkania

L. nan conjunction *quasi*, as if; L. fem. n. *Simkania*, An existing genus; *Quasisimkania*: A genus related to but distinct from the existing genus Simkania of as if.

Quasisimonsiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Simonsiella*, An existing genus; *Quasisimonsiella*: A genus related to but distinct from the existing genus Simonsiella of as if.

Quasisimplicispira

L. nan conjunction *quasi*, as if; L. fem. n. *Simplicispira*, An existing genus; *Quasisimplicispira*: A genus related to but distinct from the existing genus Simplicispira of as if.

Quasisimulacricoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Simulacricoccus*, An existing genus; *Quasisimulacricoccus*: A genus related to but distinct from the existing genus Simulacricoccus of as if.

Quasisingularimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Singularimonas*, An existing genus; *Quasisingularimonas*: A genus related to but distinct from the existing genus Singularimonas of as if.

Quasisingulisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Singulisphaera*, An existing genus; *Quasisingulisphaera*: A genus related to but distinct from the existing genus Singulisphaera of as if.

Quasisinibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Sinibacillus*, An existing genus; *Quasisinibacillus*: A genus related to but distinct from the existing genus Sinibacillus of as if.

Quasisinimarinibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Sinimarinibacterium*, An existing genus; *Quasisinimarinibacterium*: A genus related to but distinct from the existing genus Sinimarinibacterium of as if.

Quasisinobaca

L. nan conjunction *quasi*, as if; L. fem. n. *Sinobaca*, An existing genus; *Quasisinobaca*: A genus related to but distinct from the existing genus Sinobaca of as if.

Quasisinobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Sinobacter*, An existing genus; *Quasisinobacter*: A genus related to but distinct from the existing genus Sinobacter of as if.

Quasisinobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Sinobacterium*, An existing genus; *Quasisinobacterium*: A genus related to but distinct from the existing genus Sinobacterium of as if.

Quasisinococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Sinococcus*, An existing genus; *Quasisinococcus*: A genus related to but distinct from the existing genus Sinococcus of as if.

Quasisinomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Sinomicrobium*, An existing genus; *Quasisinomicrobium*: A genus related to but distinct from the existing genus Sinomicrobium of as if.

Quasisinorhizobium

L. nan conjunction *quasi*, as if; L. neut. n. *Sinorhizobium*, An existing genus; *Quasisinorhizobium*: A genus related to but distinct from the existing genus Sinorhizobium of as if.

Quasisinosporangium

L. nan conjunction *quasi*, as if; L. neut. n. *Sinosporangium*, An existing genus; *Quasisinosporangium*: A genus related to but distinct from the existing genus Sinosporangium of as if.

Quasisiphonobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Siphonobacter*, An existing genus; *Quasisiphonobacter*: A genus related to but distinct from the existing genus Siphonobacter of as if.

Quasiskermanella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Skermanella*, An existing genus; *Quasiskermanella*: A genus related to but distinct from the existing genus Skermanella of as if.

Quasiskermania

L. nan conjunction *quasi*, as if; L. fem. n. *Skermania*, An existing genus; *Quasiskermania*: A genus related to but distinct from the existing genus Skermania of as if.

Quasislackia

L. nan conjunction *quasi*, as if; L. fem. n. *Slackia*, An existing genus; *Quasislackia*: A genus related to but distinct from the existing genus Slackia of as if.

Quasismaragdicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Smaragdicoccus*, An existing genus; *Quasismaragdicoccus*: A genus related to but distinct from the existing genus Smaragdicoccus of as if.

Quasismithella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Smithella*, An existing genus; *Quasismithella*: A genus related to but distinct from the existing genus Smithella of as if.

Quasisneathia

L. nan conjunction *quasi*, as if; L. fem. n. *Sneathia*, An existing genus; *Quasisneathia*: A genus related to but distinct from the existing genus Sneathia of as if.

Quasisneathiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Sneathiella*, An existing genus; *Quasisneathiella*: A genus related to but distinct from the existing genus Sneathiella of as if.

Quasisnodgrassella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Snodgrassella*, An existing genus; *Quasisnodgrassella*: A genus related to but distinct from the existing genus Snodgrassella of as if.

Quasisnuella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Snuella*, An existing genus; *Quasisnuella*: A genus related to but distinct from the existing genus Snuella of as if.

Quasisodaleptolyngbya

L. nan conjunction *quasi*, as if; L. fem. n. *Sodaleptolyngbya*, An existing genus; *Quasisodaleptolyngbya*: A genus related to but distinct from the existing genus Sodaleptolyngbya of as if.

Quasisodalinema

L. nan conjunction *quasi*, as if; L. neut. n. *Sodalinema*, An existing genus; *Quasisodalinema*: A genus related to but distinct from the existing genus Sodalinema of as if.

Quasisoehngenia

L. nan conjunction *quasi*, as if; L. fem. n. *Soehngenia*, An existing genus; *Quasisoehngenia*: A genus related to but distinct from the existing genus Soehngenia of as if.

Quasisolentia

L. nan conjunction *quasi*, as if; L. fem. n. *Solentia*, An existing genus; *Quasisolentia*: A genus related to but distinct from the existing genus Solentia of as if.

Quasisolibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Solibacillus*, An existing genus; *Quasisolibacillus*: A genus related to but distinct from the existing genus Solibacillus of as if.

Quasisolimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Solimicrobium*, An existing genus; *Quasisolimicrobium*: A genus related to but distinct from the existing genus Solimicrobium of as if.

Quasisolirhodobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Solirhodobacter*, An existing genus; *Quasisolirhodobacter*: A genus related to but distinct from the existing genus Solirhodobacter of as if.

Quasisolirubrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Solirubrobacter*, An existing genus; *Quasisolirubrobacter*: A genus related to but distinct from the existing genus Solirubrobacter of as if.

Quasisolitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Solitalea*, An existing genus; *Quasisolitalea*: A genus related to but distinct from the existing genus Solitalea of as if.

Quasisolobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Solobacterium*, An existing genus; *Quasisolobacterium*: A genus related to but distinct from the existing genus Solobacterium of as if.

Quasisoonwooa

L. nan conjunction *quasi*, as if; L. fem. n. *Soonwooa*, An existing genus; *Quasisoonwooa*: A genus related to but distinct from the existing genus Soonwooa of as if.

Quasisoortia

L. nan conjunction *quasi*, as if; L. fem. n. *Soortia*, An existing genus; *Quasisoortia*: A genus related to but distinct from the existing genus Soortia of as if.

Quasisorangium

L. nan conjunction *quasi*, as if; L. neut. n. *Sorangium*, An existing genus; *Quasisorangium*: A genus related to but distinct from the existing genus Sorangium of as if.

Quasispecibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Specibacter*, An existing genus; *Quasispecibacter*: A genus related to but distinct from the existing genus Specibacter of as if.

Quasispelaeicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Spelaeicoccus*, An existing genus; *Quasispelaeicoccus*: A genus related to but distinct from the existing genus Spelaeicoccus of as if.

Quasispelaeonaias

L. nan conjunction *quasi*, as if; L. fem. n. *Spelaeonaias*, An existing genus; *Quasispelaeonaias*: A genus related to but distinct from the existing genus Spelaeonaias of as if.

Quasisphaerimonospora

L. nan conjunction *quasi*, as if; L. fem. n. *Sphaerimonospora*, An existing genus; *Quasisphaerimonospora*: A genus related to but distinct from the existing genus Sphaerimonospora of as if.

Quasisphaerisporangium

L. nan conjunction *quasi*, as if; L. neut. n. *Sphaerisporangium*, An existing genus; *Quasisphaerisporangium*: A genus related to but distinct from the existing genus Sphaerisporangium of as if.

Quasisphaerobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Sphaerobacter*, An existing genus; *Quasisphaerobacter*: A genus related to but distinct from the existing genus Sphaerobacter of as if.

Quasisphaerocavum

L. nan conjunction *quasi*, as if; L. neut. n. *Sphaerocavum*, An existing genus; *Quasisphaerocavum*: A genus related to but distinct from the existing genus Sphaerocavum of as if.

Quasisphaerochaeta

L. nan conjunction *quasi*, as if; L. fem. n. *Sphaerochaeta*, An existing genus; *Quasisphaerochaeta*: A genus related to but distinct from the existing genus Sphaerochaeta of as if.

Quasisphaerotilus

L. nan conjunction *quasi*, as if; L. masc. n. *Sphaerotilus*, An existing genus; *Quasisphaerotilus*: A genus related to but distinct from the existing genus Sphaerotilus of as if.

Quasisphingoaurantiacus

L. nan conjunction *quasi*, as if; L. masc. n. *Sphingoaurantiacus*, An existing genus; *Quasisphingoaurantiacus*: A genus related to but distinct from the existing genus Sphingoaurantiacus of as if.

Quasisphingobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Sphingobacterium*, An existing genus; *Quasisphingobacterium*: A genus related to but distinct from the existing genus Sphingobacterium of as if.

Quasisphingobium

L. nan conjunction *quasi*, as if; L. neut. n. *Sphingobium*, An existing genus; *Quasisphingobium*: A genus related to but distinct from the existing genus Sphingobium of as if.

Quasisphingomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Sphingomicrobium*, An existing genus; *Quasisphingomicrobium*: A genus related to but distinct from the existing genus Sphingomicrobium of as if.

Quasisphingomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Sphingomonas*, An existing genus; *Quasisphingomonas*: A genus related to but distinct from the existing genus Sphingomonas of as if.

Quasisphingopyxis

L. nan conjunction *quasi*, as if; L. fem. n. *Sphingopyxis*, An existing genus; *Quasisphingopyxis*: A genus related to but distinct from the existing genus Sphingopyxis of as if.

Quasisphingorhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Sphingorhabdus*, An existing genus; *Quasisphingorhabdus*: A genus related to but distinct from the existing genus Sphingorhabdus of as if.

Quasisphingosinicella

L. nan conjunction *quasi*, as if; L. fem. n. *Sphingosinicella*, An existing genus; *Quasisphingosinicella*: A genus related to but distinct from the existing genus Sphingosinicella of as if.

Quasisphingosinithalassobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Sphingosinithalassobacter*, An existing genus; *Quasisphingosinithalassobacter*: A genus related to but distinct from the existing genus Sphingosinithalassobacter of as if.

Quasispinactinospora

L. nan conjunction *quasi*, as if; L. fem. n. *Spinactinospora*, An existing genus; *Quasispinactinospora*: A genus related to but distinct from the existing genus Spinactinospora of as if.

Quasispirilliplanes

L. nan conjunction *quasi*, as if; L. masc. n. *Spirilliplanes*, An existing genus; *Quasispirilliplanes*: A genus related to but distinct from the existing genus Spirilliplanes of as if.

Quasispirillospora

L. nan conjunction *quasi*, as if; L. fem. n. *Spirillospora*, An existing genus; *Quasispirillospora*: A genus related to but distinct from the existing genus Spirillospora of as if.

Quasispirochaeta

L. nan conjunction *quasi*, as if; L. fem. n. *Spirochaeta*, An existing genus; *Quasispirochaeta*: A genus related to but distinct from the existing genus Spirochaeta of as if.

Quasispiroplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Spiroplasma*, An existing genus; *Quasispiroplasma*: A genus related to but distinct from the existing genus Spiroplasma of as if.

Quasispirosoma

L. nan conjunction *quasi*, as if; L. neut. n. *Spirosoma*, An existing genus; *Quasispirosoma*: A genus related to but distinct from the existing genus Spirosoma of as if.

Quasispodiobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Spodiobacter*, An existing genus; *Quasispodiobacter*: A genus related to but distinct from the existing genus Spodiobacter of as if.

Quasispongiactinospora

L. nan conjunction *quasi*, as if; L. fem. n. *Spongiactinospora*, An existing genus; *Quasispongiactinospora*: A genus related to but distinct from the existing genus Spongiactinospora of as if.

Quasispongiibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Spongiibacter*, An existing genus; *Quasispongiibacter*: A genus related to but distinct from the existing genus Spongiibacter of as if.

Quasispongiibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Spongiibacterium*, An existing genus; *Quasispongiibacterium*: A genus related to but distinct from the existing genus Spongiibacterium of as if.

Quasispongiiferula

L. nan conjunction *quasi*, as if; L. fem. n. *Spongiiferula*, An existing genus; *Quasispongiiferula*: A genus related to but distinct from the existing genus Spongiiferula of as if.

Quasispongiimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Spongiimicrobium*, An existing genus; *Quasispongiimicrobium*: A genus related to but distinct from the existing genus Spongiimicrobium of as if.

Quasispongiimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Spongiimonas*, An existing genus; *Quasispongiimonas*: A genus related to but distinct from the existing genus Spongiimonas of as if.

Quasispongiispira

L. nan conjunction *quasi*, as if; L. fem. n. *Spongiispira*, An existing genus; *Quasispongiispira*: A genus related to but distinct from the existing genus Spongiispira of as if.

Quasispongiivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Spongiivirga*, An existing genus; *Quasispongiivirga*: A genus related to but distinct from the existing genus Spongiivirga of as if.

Quasispongitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Spongitalea*, An existing genus; *Quasispongitalea*: A genus related to but distinct from the existing genus Spongitalea of as if.

Quasisporacetigenium

L. nan conjunction *quasi*, as if; L. neut. n. *Sporacetigenium*, An existing genus; *Quasisporacetigenium*: A genus related to but distinct from the existing genus Sporacetigenium of as if.

Quasisporanaerobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Sporanaerobacter*, An existing genus; *Quasisporanaerobacter*: A genus related to but distinct from the existing genus Sporanaerobacter of as if.

Quasisporichthya

L. nan conjunction *quasi*, as if; L. fem. n. *Sporichthya*, An existing genus; *Quasisporichthya*: A genus related to but distinct from the existing genus Sporichthya of as if.

Quasisporobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Sporobacter*, An existing genus; *Quasisporobacter*: A genus related to but distinct from the existing genus Sporobacter of as if.

Quasisporobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Sporobacterium*, An existing genus; *Quasisporobacterium*: A genus related to but distinct from the existing genus Sporobacterium of as if.

Quasisporocytophaga

L. nan conjunction *quasi*, as if; L. fem. n. *Sporocytophaga*, An existing genus; *Quasisporocytophaga*: A genus related to but distinct from the existing genus Sporocytophaga of as if.

Quasisporohalobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Sporohalobacter*, An existing genus; *Quasisporohalobacter*: A genus related to but distinct from the existing genus Sporohalobacter of as if.

Quasisporolactobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Sporolactobacillus*, An existing genus; *Quasisporolactobacillus*: A genus related to but distinct from the existing genus Sporolactobacillus of as if.

Quasisporolituus

L. nan conjunction *quasi*, as if; L. masc. n. *Sporolituus*, An existing genus; *Quasisporolituus*: A genus related to but distinct from the existing genus Sporolituus of as if.

Quasisporosalibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Sporosalibacterium*, An existing genus; *Quasisporosalibacterium*: A genus related to but distinct from the existing genus Sporosalibacterium of as if.

Quasisporosarcina

L. nan conjunction *quasi*, as if; L. fem. n. *Sporosarcina*, An existing genus; *Quasisporosarcina*: A genus related to but distinct from the existing genus Sporosarcina of as if.

Quasisporotalea

L. nan conjunction *quasi*, as if; L. fem. n. *Sporotalea*, An existing genus; *Quasisporotalea*: A genus related to but distinct from the existing genus Sporotalea of as if.

Quasisporotomaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Sporotomaculum*, An existing genus; *Quasisporotomaculum*: A genus related to but distinct from the existing genus Sporotomaculum of as if.

Quasistackebrandtia

L. nan conjunction *quasi*, as if; L. fem. n. *Stackebrandtia*, An existing genus; *Quasistackebrandtia*: A genus related to but distinct from the existing genus Stackebrandtia of as if.

Quasistagnimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Stagnimonas*, An existing genus; *Quasistagnimonas*: A genus related to but distinct from the existing genus Stagnimonas of as if.

Quasistakelama

L. nan conjunction *quasi*, as if; L. fem. n. *Stakelama*, An existing genus; *Quasistakelama*: A genus related to but distinct from the existing genus Stakelama of as if.

Quasistaleya

L. nan conjunction *quasi*, as if; L. fem. n. *Staleya*, An existing genus; *Quasistaleya*: A genus related to but distinct from the existing genus Staleya of as if.

Quasistanierella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Stanierella*, An existing genus; *Quasistanierella*: A genus related to but distinct from the existing genus Stanierella of as if.

Quasistaphylococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Staphylococcus*, An existing genus; *Quasistaphylococcus*: A genus related to but distinct from the existing genus Staphylococcus of as if.

Quasistaphylospora

L. nan conjunction *quasi*, as if; L. fem. n. *Staphylospora*, An existing genus; *Quasistaphylospora*: A genus related to but distinct from the existing genus Staphylospora of as if.

Quasistaphylothermus

L. nan conjunction *quasi*, as if; L. masc. n. *Staphylothermus*, An existing genus; *Quasistaphylothermus*: A genus related to but distinct from the existing genus Staphylothermus of as if.

Quasistappia

L. nan conjunction *quasi*, as if; L. fem. n. *Stappia*, An existing genus; *Quasistappia*: A genus related to but distinct from the existing genus Stappia of as if.

Quasistarkeya

L. nan conjunction *quasi*, as if; L. fem. n. *Starkeya*, An existing genus; *Quasistarkeya*: A genus related to but distinct from the existing genus Starkeya of as if.

Quasistarria

L. nan conjunction *quasi*, as if; L. fem. n. *Starria*, An existing genus; *Quasistarria*: A genus related to but distinct from the existing genus Starria of as if.

Quasistella

L. nan conjunction *quasi*, as if; L. fem. n. *Stella*, An existing genus; *Quasistella*: A genus related to but distinct from the existing genus Stella of as if.

Quasistenothermobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Stenothermobacter*, An existing genus; *Quasistenothermobacter*: A genus related to but distinct from the existing genus Stenothermobacter of as if.

Quasistenotrophobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Stenotrophobacter*, An existing genus; *Quasistenotrophobacter*: A genus related to but distinct from the existing genus Stenotrophobacter of as if.

Quasistenotrophobium

L. nan conjunction *quasi*, as if; L. neut. n. *Stenotrophobium*, An existing genus; *Quasistenotrophobium*: A genus related to but distinct from the existing genus Stenotrophobium of as if.

Quasistenotrophomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Stenotrophomonas*, An existing genus; *Quasistenotrophomonas*: A genus related to but distinct from the existing genus Stenotrophomonas of as if.

Quasistenoxybacter

L. nan conjunction *quasi*, as if; L. masc. n. *Stenoxybacter*, An existing genus; *Quasistenoxybacter*: A genus related to but distinct from the existing genus Stenoxybacter of as if.

Quasisteroidobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Steroidobacter*, An existing genus; *Quasisteroidobacter*: A genus related to but distinct from the existing genus Steroidobacter of as if.

Quasisterolibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Sterolibacterium*, An existing genus; *Quasisterolibacterium*: A genus related to but distinct from the existing genus Sterolibacterium of as if.

Quasistetteria

L. nan conjunction *quasi*, as if; L. fem. n. *Stetteria*, An existing genus; *Quasistetteria*: A genus related to but distinct from the existing genus Stetteria of as if.

Quasistigmatella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Stigmatella*, An existing genus; *Quasistigmatella*: A genus related to but distinct from the existing genus Stigmatella of as if.

Quasistigonema

L. nan conjunction *quasi*, as if; L. neut. n. *Stigonema*, An existing genus; *Quasistigonema*: A genus related to but distinct from the existing genus Stigonema of as if.

Quasistomatobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Stomatobaculum*, An existing genus; *Quasistomatobaculum*: A genus related to but distinct from the existing genus Stomatobaculum of as if.

Quasistomatococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Stomatococcus*, An existing genus; *Quasistomatococcus*: A genus related to but distinct from the existing genus Stomatococcus of as if.

Quasistreptacidiphilus

L. nan conjunction *quasi*, as if; L. masc. n. *Streptacidiphilus*, An existing genus; *Quasistreptacidiphilus*: A genus related to but distinct from the existing genus Streptacidiphilus of as if.

Quasistreptobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Streptobacillus*, An existing genus; *Quasistreptobacillus*: A genus related to but distinct from the existing genus Streptobacillus of as if.

Quasistreptococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Streptococcus*, An existing genus; *Quasistreptococcus*: A genus related to but distinct from the existing genus Streptococcus of as if.

Quasistreptohalobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Streptohalobacillus*, An existing genus; *Quasistreptohalobacillus*: A genus related to but distinct from the existing genus Streptohalobacillus of as if.

Quasistreptomonospora

L. nan conjunction *quasi*, as if; L. fem. n. *Streptomonospora*, An existing genus; *Quasistreptomonospora*: A genus related to but distinct from the existing genus Streptomonospora of as if.

Quasistreptomyces

L. nan conjunction *quasi*, as if; L. masc. n. *Streptomyces*, An existing genus; *Quasistreptomyces*: A genus related to but distinct from the existing genus Streptomyces of as if.

Quasistreptosporangium

L. nan conjunction *quasi*, as if; L. neut. n. *Streptosporangium*, An existing genus; *Quasistreptosporangium*: A genus related to but distinct from the existing genus Streptosporangium of as if.

Quasistreptoverticillium

L. nan conjunction *quasi*, as if; L. neut. n. *Streptoverticillium*, An existing genus; *Quasistreptoverticillium*: A genus related to but distinct from the existing genus Streptoverticillium of as if.

Quasistygiolobus

L. nan conjunction *quasi*, as if; L. masc. n. *Stygiolobus*, An existing genus; *Quasistygiolobus*: A genus related to but distinct from the existing genus Stygiolobus of as if.

Quasisubdoligranulum

L. nan conjunction *quasi*, as if; L. neut. n. *Subdoligranulum*, An existing genus; *Quasisubdoligranulum*: A genus related to but distinct from the existing genus Subdoligranulum of as if.

Quasisubsaxibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Subsaxibacter*, An existing genus; *Quasisubsaxibacter*: A genus related to but distinct from the existing genus Subsaxibacter of as if.

Quasisubsaximicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Subsaximicrobium*, An existing genus; *Quasisubsaximicrobium*: A genus related to but distinct from the existing genus Subsaximicrobium of as if.

Quasisuccinatimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Succinatimonas*, An existing genus; *Quasisuccinatimonas*: A genus related to but distinct from the existing genus Succinatimonas of as if.

Quasisucciniclasticum

L. nan conjunction *quasi*, as if; L. neut. n. *Succiniclasticum*, An existing genus; *Quasisucciniclasticum*: A genus related to but distinct from the existing genus Succiniclasticum of as if.

Quasisuccinispira

L. nan conjunction *quasi*, as if; L. fem. n. *Succinispira*, An existing genus; *Quasisuccinispira*: A genus related to but distinct from the existing genus Succinispira of as if.

Quasisuccinivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Succinivibrio*, An existing genus; *Quasisuccinivibrio*: A genus related to but distinct from the existing genus Succinivibrio of as if.

Quasisufflavibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Sufflavibacter*, An existing genus; *Quasisufflavibacter*: A genus related to but distinct from the existing genus Sufflavibacter of as if.

Quasisuicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Suicoccus*, An existing genus; *Quasisuicoccus*: A genus related to but distinct from the existing genus Suicoccus of as if.

Quasisulfitobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Sulfitobacter*, An existing genus; *Quasisulfitobacter*: A genus related to but distinct from the existing genus Sulfitobacter of as if.

Quasisulfodiicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Sulfodiicoccus*, An existing genus; *Quasisulfodiicoccus*: A genus related to but distinct from the existing genus Sulfodiicoccus of as if.

Quasisulfolobus

L. nan conjunction *quasi*, as if; L. masc. n. *Sulfolobus*, An existing genus; *Quasisulfolobus*: A genus related to but distinct from the existing genus Sulfolobus of as if.

Quasisulfophobococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Sulfophobococcus*, An existing genus; *Quasisulfophobococcus*: A genus related to but distinct from the existing genus Sulfophobococcus of as if.

Quasisulfuracidifex

L. nan conjunction *quasi*, as if; L. masc. n. *Sulfuracidifex*, An existing genus; *Quasisulfuracidifex*: A genus related to but distinct from the existing genus Sulfuracidifex of as if.

Quasisulfuricella

L. nan conjunction *quasi*, as if; L. fem. n. *Sulfuricella*, An existing genus; *Quasisulfuricella*: A genus related to but distinct from the existing genus Sulfuricella of as if.

Quasisulfuricurvum

L. nan conjunction *quasi*, as if; L. neut. n. *Sulfuricurvum*, An existing genus; *Quasisulfuricurvum*: A genus related to but distinct from the existing genus Sulfuricurvum of as if.

Quasisulfuriferula

L. nan conjunction *quasi*, as if; L. fem. n. *Sulfuriferula*, An existing genus; *Quasisulfuriferula*: A genus related to but distinct from the existing genus Sulfuriferula of as if.

Quasisulfuriflexus

L. nan conjunction *quasi*, as if; L. masc. n. *Sulfuriflexus*, An existing genus; *Quasisulfuriflexus*: A genus related to but distinct from the existing genus Sulfuriflexus of as if.

Quasisulfurihydrogenibium

L. nan conjunction *quasi*, as if; L. neut. n. *Sulfurihydrogenibium*, An existing genus; *Quasisulfurihydrogenibium*: A genus related to but distinct from the existing genus Sulfurihydrogenibium of as if.

Quasisulfurisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Sulfurisphaera*, An existing genus; *Quasisulfurisphaera*: A genus related to but distinct from the existing genus Sulfurisphaera of as if.

Quasisulfuritortus

L. nan conjunction *quasi*, as if; L. masc. n. *Sulfuritortus*, An existing genus; *Quasisulfuritortus*: A genus related to but distinct from the existing genus Sulfuritortus of as if.

Quasisulfurococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Sulfurococcus*, An existing genus; *Quasisulfurococcus*: A genus related to but distinct from the existing genus Sulfurococcus of as if.

Quasisulfurospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Sulfurospirillum*, An existing genus; *Quasisulfurospirillum*: A genus related to but distinct from the existing genus Sulfurospirillum of as if.

Quasisulfurovum

L. nan conjunction *quasi*, as if; L. neut. n. *Sulfurovum*, An existing genus; *Quasisulfurovum*: A genus related to but distinct from the existing genus Sulfurovum of as if.

Quasisungkyunkwania

L. nan conjunction *quasi*, as if; L. fem. n. *Sungkyunkwania*, An existing genus; *Quasisungkyunkwania*: A genus related to but distinct from the existing genus Sungkyunkwania of as if.

Quasisunxiuqinia

L. nan conjunction *quasi*, as if; L. fem. n. *Sunxiuqinia*, An existing genus; *Quasisunxiuqinia*: A genus related to but distinct from the existing genus Sunxiuqinia of as if.

Quasisuperficieibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Superficieibacter*, An existing genus; *Quasisuperficieibacter*: A genus related to but distinct from the existing genus Superficieibacter of as if.

Quasisutterella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Sutterella*, An existing genus; *Quasisutterella*: A genus related to but distinct from the existing genus Sutterella of as if.

Quasisuttonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Suttonella*, An existing genus; *Quasisuttonella*: A genus related to but distinct from the existing genus Suttonella of as if.

Quasiswaminathania

L. nan conjunction *quasi*, as if; L. fem. n. *Swaminathania*, An existing genus; *Quasiswaminathania*: A genus related to but distinct from the existing genus Swaminathania of as if.

Quasiswingsia

L. nan conjunction *quasi*, as if; L. fem. n. *Swingsia*, An existing genus; *Quasiswingsia*: A genus related to but distinct from the existing genus Swingsia of as if.

Quasiswionibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Swionibacillus*, An existing genus; *Quasiswionibacillus*: A genus related to but distinct from the existing genus Swionibacillus of as if.

Quasisymbiobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Symbiobacterium*, An existing genus; *Quasisymbiobacterium*: A genus related to but distinct from the existing genus Symbiobacterium of as if.

Quasisymbiotes

L. nan conjunction *quasi*, as if; L. masc. n. *Symbiotes*, An existing genus; *Quasisymbiotes*: A genus related to but distinct from the existing genus Symbiotes of as if.

Quasisynechocystis

L. nan conjunction *quasi*, as if; L. fem. n. *Synechocystis*, An existing genus; *Quasisynechocystis*: A genus related to but distinct from the existing genus Synechocystis of as if.

Quasisynergistes

L. nan conjunction *quasi*, as if; L. masc. n. *Synergistes*, An existing genus; *Quasisynergistes*: A genus related to but distinct from the existing genus Synergistes of as if.

Quasisyntrophaceticus

L. nan conjunction *quasi*, as if; L. masc. n. *Syntrophaceticus*, An existing genus; *Quasisyntrophaceticus*: A genus related to but distinct from the existing genus Syntrophaceticus of as if.

Quasisyntrophobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Syntrophobacter*, An existing genus; *Quasisyntrophobacter*: A genus related to but distinct from the existing genus Syntrophobacter of as if.

Quasisyntrophobotulus

L. nan conjunction *quasi*, as if; L. masc. n. *Syntrophobotulus*, An existing genus; *Quasisyntrophobotulus*: A genus related to but distinct from the existing genus Syntrophobotulus of as if.

Quasisyntrophococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Syntrophococcus*, An existing genus; *Quasisyntrophococcus*: A genus related to but distinct from the existing genus Syntrophococcus of as if.

Quasisyntrophomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Syntrophomonas*, An existing genus; *Quasisyntrophomonas*: A genus related to but distinct from the existing genus Syntrophomonas of as if.

Quasisyntrophorhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Syntrophorhabdus*, An existing genus; *Quasisyntrophorhabdus*: A genus related to but distinct from the existing genus Syntrophorhabdus of as if.

Quasisyntrophospora

L. nan conjunction *quasi*, as if; L. fem. n. *Syntrophospora*, An existing genus; *Quasisyntrophospora*: A genus related to but distinct from the existing genus Syntrophospora of as if.

Quasisyntrophothermus

L. nan conjunction *quasi*, as if; L. masc. n. *Syntrophothermus*, An existing genus; *Quasisyntrophothermus*: A genus related to but distinct from the existing genus Syntrophothermus of as if.

Quasisyntrophus

L. nan conjunction *quasi*, as if; L. masc. n. *Syntrophus*, An existing genus; *Quasisyntrophus*: A genus related to but distinct from the existing genus Syntrophus of as if.

Quasitabrizicola

L. nan conjunction *quasi*, as if; L. fem. n. *Tabrizicola*, An existing genus; *Quasitabrizicola*: A genus related to but distinct from the existing genus Tabrizicola of as if.

Quasitaeania

L. nan conjunction *quasi*, as if; L. fem. n. *Taeania*, An existing genus; *Quasitaeania*: A genus related to but distinct from the existing genus Taeania of as if.

Quasitaeseokella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Taeseokella*, An existing genus; *Quasitaeseokella*: A genus related to but distinct from the existing genus Taeseokella of as if.

Quasitagaea

L. nan conjunction *quasi*, as if; L. fem. n. *Tagaea*, An existing genus; *Quasitagaea*: A genus related to but distinct from the existing genus Tagaea of as if.

Quasitahibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Tahibacter*, An existing genus; *Quasitahibacter*: A genus related to but distinct from the existing genus Tahibacter of as if.

Quasitaibaiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Taibaiella*, An existing genus; *Quasitaibaiella*: A genus related to but distinct from the existing genus Taibaiella of as if.

Quasitamaricihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Tamaricihabitans*, An existing genus; *Quasitamaricihabitans*: A genus related to but distinct from the existing genus Tamaricihabitans of as if.

Quasitamilnaduibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Tamilnaduibacter*, An existing genus; *Quasitamilnaduibacter*: A genus related to but distinct from the existing genus Tamilnaduibacter of as if.

Quasitamlana

L. nan conjunction *quasi*, as if; L. fem. n. *Tamlana*, An existing genus; *Quasitamlana*: A genus related to but distinct from the existing genus Tamlana of as if.

Quasitamlicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Tamlicoccus*, An existing genus; *Quasitamlicoccus*: A genus related to but distinct from the existing genus Tamlicoccus of as if.

Quasitangfeifania

L. nan conjunction *quasi*, as if; L. fem. n. *Tangfeifania*, An existing genus; *Quasitangfeifania*: A genus related to but distinct from the existing genus Tangfeifania of as if.

Quasitannerella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Tannerella*, An existing genus; *Quasitannerella*: A genus related to but distinct from the existing genus Tannerella of as if.

Quasitanticharoenia

L. nan conjunction *quasi*, as if; L. fem. n. *Tanticharoenia*, An existing genus; *Quasitanticharoenia*: A genus related to but distinct from the existing genus Tanticharoenia of as if.

Quasitaonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Taonella*, An existing genus; *Quasitaonella*: A genus related to but distinct from the existing genus Taonella of as if.

Quasitapinothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Tapinothrix*, An existing genus; *Quasitapinothrix*: A genus related to but distinct from the existing genus Tapinothrix of as if.

Quasitardiphaga

L. nan conjunction *quasi*, as if; L. fem. n. *Tardiphaga*, An existing genus; *Quasitardiphaga*: A genus related to but distinct from the existing genus Tardiphaga of as if.

Quasitateyamaria

L. nan conjunction *quasi*, as if; L. fem. n. *Tateyamaria*, An existing genus; *Quasitateyamaria*: A genus related to but distinct from the existing genus Tateyamaria of as if.

Quasitatlockia

L. nan conjunction *quasi*, as if; L. fem. n. *Tatlockia*, An existing genus; *Quasitatlockia*: A genus related to but distinct from the existing genus Tatlockia of as if.

Quasitatumella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Tatumella*, An existing genus; *Quasitatumella*: A genus related to but distinct from the existing genus Tatumella of as if.

Quasitautonia

L. nan conjunction *quasi*, as if; L. fem. n. *Tautonia*, An existing genus; *Quasitautonia*: A genus related to but distinct from the existing genus Tautonia of as if.

Quasitaxeobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Taxeobacter*, An existing genus; *Quasitaxeobacter*: A genus related to but distinct from the existing genus Taxeobacter of as if.

Quasitaylorella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Taylorella*, An existing genus; *Quasitaylorella*: A genus related to but distinct from the existing genus Taylorella of as if.

Quasitectibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Tectibacter*, An existing genus; *Quasitectibacter*: A genus related to but distinct from the existing genus Tectibacter of as if.

Quasiteichococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Teichococcus*, An existing genus; *Quasiteichococcus*: A genus related to but distinct from the existing genus Teichococcus of as if.

Quasitelluria

L. nan conjunction *quasi*, as if; L. fem. n. *Telluria*, An existing genus; *Quasitelluria*: A genus related to but distinct from the existing genus Telluria of as if.

Quasitellurimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Tellurimicrobium*, An existing genus; *Quasitellurimicrobium*: A genus related to but distinct from the existing genus Tellurimicrobium of as if.

Quasitellurirhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Tellurirhabdus*, An existing genus; *Quasitellurirhabdus*: A genus related to but distinct from the existing genus Tellurirhabdus of as if.

Quasitelmatobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Telmatobacter*, An existing genus; *Quasitelmatobacter*: A genus related to but distinct from the existing genus Telmatobacter of as if.

Quasitelmatocola

L. nan conjunction *quasi*, as if; L. fem. n. *Telmatocola*, An existing genus; *Quasitelmatocola*: A genus related to but distinct from the existing genus Telmatocola of as if.

Quasitelmatospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Telmatospirillum*, An existing genus; *Quasitelmatospirillum*: A genus related to but distinct from the existing genus Telmatospirillum of as if.

Quasitemperatibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Temperatibacter*, An existing genus; *Quasitemperatibacter*: A genus related to but distinct from the existing genus Temperatibacter of as if.

Quasitenacibaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Tenacibaculum*, An existing genus; *Quasitenacibaculum*: A genus related to but distinct from the existing genus Tenacibaculum of as if.

Quasitenggerimyces

L. nan conjunction *quasi*, as if; L. masc. n. *Tenggerimyces*, An existing genus; *Quasitenggerimyces*: A genus related to but distinct from the existing genus Tenggerimyces of as if.

Quasitengunoibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Tengunoibacter*, An existing genus; *Quasitengunoibacter*: A genus related to but distinct from the existing genus Tengunoibacter of as if.

Quasitenuibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Tenuibacillus*, An existing genus; *Quasitenuibacillus*: A genus related to but distinct from the existing genus Tenuibacillus of as if.

Quasitepidamorphus

L. nan conjunction *quasi*, as if; L. masc. n. *Tepidamorphus*, An existing genus; *Quasitepidamorphus*: A genus related to but distinct from the existing genus Tepidamorphus of as if.

Quasitepidanaerobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Tepidanaerobacter*, An existing genus; *Quasitepidanaerobacter*: A genus related to but distinct from the existing genus Tepidanaerobacter of as if.

Quasitepidicaulis

L. nan conjunction *quasi*, as if; L. masc. n. *Tepidicaulis*, An existing genus; *Quasitepidicaulis*: A genus related to but distinct from the existing genus Tepidicaulis of as if.

Quasitepidicella

L. nan conjunction *quasi*, as if; L. fem. n. *Tepidicella*, An existing genus; *Quasitepidicella*: A genus related to but distinct from the existing genus Tepidicella of as if.

Quasitepidiforma

L. nan conjunction *quasi*, as if; L. fem. n. *Tepidiforma*, An existing genus; *Quasitepidiforma*: A genus related to but distinct from the existing genus Tepidiforma of as if.

Quasitepidimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Tepidimicrobium*, An existing genus; *Quasitepidimicrobium*: A genus related to but distinct from the existing genus Tepidimicrobium of as if.

Quasitepidiphilus

L. nan conjunction *quasi*, as if; L. masc. n. *Tepidiphilus*, An existing genus; *Quasitepidiphilus*: A genus related to but distinct from the existing genus Tepidiphilus of as if.

Quasitepidisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Tepidisphaera*, An existing genus; *Quasitepidisphaera*: A genus related to but distinct from the existing genus Tepidisphaera of as if.

Quasiterasakiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Terasakiella*, An existing genus; *Quasiterasakiella*: A genus related to but distinct from the existing genus Terasakiella of as if.

Quasiterasakiispira

L. nan conjunction *quasi*, as if; L. fem. n. *Terasakiispira*, An existing genus; *Quasiterasakiispira*: A genus related to but distinct from the existing genus Terasakiispira of as if.

Quasiteredinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Teredinibacter*, An existing genus; *Quasiteredinibacter*: A genus related to but distinct from the existing genus Teredinibacter of as if.

Quasiterrabacter

L. nan conjunction *quasi*, as if; L. masc. n. *Terrabacter*, An existing genus; *Quasiterrabacter*: A genus related to but distinct from the existing genus Terrabacter of as if.

Quasiterracidiphilus

L. nan conjunction *quasi*, as if; L. masc. n. *Terracidiphilus*, An existing genus; *Quasiterracidiphilus*: A genus related to but distinct from the existing genus Terracidiphilus of as if.

Quasiterracoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Terracoccus*, An existing genus; *Quasiterracoccus*: A genus related to but distinct from the existing genus Terracoccus of as if.

Quasiterribacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Terribacillus*, An existing genus; *Quasiterribacillus*: A genus related to but distinct from the existing genus Terribacillus of as if.

Quasiterriglobus

L. nan conjunction *quasi*, as if; L. masc. n. *Terriglobus*, An existing genus; *Quasiterriglobus*: A genus related to but distinct from the existing genus Terriglobus of as if.

Quasiterrilactibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Terrilactibacillus*, An existing genus; *Quasiterrilactibacillus*: A genus related to but distinct from the existing genus Terrilactibacillus of as if.

Quasiterrimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Terrimicrobium*, An existing genus; *Quasiterrimicrobium*: A genus related to but distinct from the existing genus Terrimicrobium of as if.

Quasiterrisporobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Terrisporobacter*, An existing genus; *Quasiterrisporobacter*: A genus related to but distinct from the existing genus Terrisporobacter of as if.

Quasitersicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Tersicoccus*, An existing genus; *Quasitersicoccus*: A genus related to but distinct from the existing genus Tersicoccus of as if.

Quasitessaracoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Tessaracoccus*, An existing genus; *Quasitessaracoccus*: A genus related to but distinct from the existing genus Tessaracoccus of as if.

Quasitestudinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Testudinibacter*, An existing genus; *Quasitestudinibacter*: A genus related to but distinct from the existing genus Testudinibacter of as if.

Quasitetracoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Tetracoccus*, An existing genus; *Quasitetracoccus*: A genus related to but distinct from the existing genus Tetracoccus of as if.

Quasitetragenococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Tetragenococcus*, An existing genus; *Quasitetragenococcus*: A genus related to but distinct from the existing genus Tetragenococcus of as if.

Quasitetrasphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Tetrasphaera*, An existing genus; *Quasitetrasphaera*: A genus related to but distinct from the existing genus Tetrasphaera of as if.

Quasitetrathiobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Tetrathiobacter*, An existing genus; *Quasitetrathiobacter*: A genus related to but distinct from the existing genus Tetrathiobacter of as if.

Quasitexcoconibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Texcoconibacillus*, An existing genus; *Quasitexcoconibacillus*: A genus related to but distinct from the existing genus Texcoconibacillus of as if.

Quasithalassobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Thalassobacillus*, An existing genus; *Quasithalassobacillus*: A genus related to but distinct from the existing genus Thalassobacillus of as if.

Quasithalassobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Thalassobacter*, An existing genus; *Quasithalassobacter*: A genus related to but distinct from the existing genus Thalassobacter of as if.

Quasithalassobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Thalassobaculum*, An existing genus; *Quasithalassobaculum*: A genus related to but distinct from the existing genus Thalassobaculum of as if.

Quasithalassobius

L. nan conjunction *quasi*, as if; L. masc. n. *Thalassobius*, An existing genus; *Quasithalassobius*: A genus related to but distinct from the existing genus Thalassobius of as if.

Quasithalassocella

L. nan conjunction *quasi*, as if; L. fem. n. *Thalassocella*, An existing genus; *Quasithalassocella*: A genus related to but distinct from the existing genus Thalassocella of as if.

Quasithalassococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Thalassococcus*, An existing genus; *Quasithalassococcus*: A genus related to but distinct from the existing genus Thalassococcus of as if.

Quasithalassocola

L. nan conjunction *quasi*, as if; L. fem. n. *Thalassocola*, An existing genus; *Quasithalassocola*: A genus related to but distinct from the existing genus Thalassocola of as if.

Quasithalassolituus

L. nan conjunction *quasi*, as if; L. masc. n. *Thalassolituus*, An existing genus; *Quasithalassolituus*: A genus related to but distinct from the existing genus Thalassolituus of as if.

Quasithalassomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Thalassomonas*, An existing genus; *Quasithalassomonas*: A genus related to but distinct from the existing genus Thalassomonas of as if.

Quasithalassorhabdomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Thalassorhabdomicrobium*, An existing genus; *Quasithalassorhabdomicrobium*: A genus related to but distinct from the existing genus Thalassorhabdomicrobium of as if.

Quasithalassorhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Thalassorhabdus*, An existing genus; *Quasithalassorhabdus*: A genus related to but distinct from the existing genus Thalassorhabdus of as if.

Quasithalassospira

L. nan conjunction *quasi*, as if; L. fem. n. *Thalassospira*, An existing genus; *Quasithalassospira*: A genus related to but distinct from the existing genus Thalassospira of as if.

Quasithalassotalea

L. nan conjunction *quasi*, as if; L. fem. n. *Thalassotalea*, An existing genus; *Quasithalassotalea*: A genus related to but distinct from the existing genus Thalassotalea of as if.

Quasithauera

L. nan conjunction *quasi*, as if; L. fem. n. *Thauera*, An existing genus; *Quasithauera*: A genus related to but distinct from the existing genus Thauera of as if.

Quasithaumasiovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Thaumasiovibrio*, An existing genus; *Quasithaumasiovibrio*: A genus related to but distinct from the existing genus Thaumasiovibrio of as if.

Quasithermacetogenium

L. nan conjunction *quasi*, as if; L. neut. n. *Thermacetogenium*, An existing genus; *Quasithermacetogenium*: A genus related to but distinct from the existing genus Thermacetogenium of as if.

Quasithermaerobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Thermaerobacter*, An existing genus; *Quasithermaerobacter*: A genus related to but distinct from the existing genus Thermaerobacter of as if.

Quasithermalkalibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Thermalkalibacillus*, An existing genus; *Quasithermalkalibacillus*: A genus related to but distinct from the existing genus Thermalkalibacillus of as if.

Quasithermanaeromonas

L. nan conjunction *quasi*, as if; L. fem. n. *Thermanaeromonas*, An existing genus; *Quasithermanaeromonas*: A genus related to but distinct from the existing genus Thermanaeromonas of as if.

Quasithermanaerothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Thermanaerothrix*, An existing genus; *Quasithermanaerothrix*: A genus related to but distinct from the existing genus Thermanaerothrix of as if.

Quasithermanaerovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Thermanaerovibrio*, An existing genus; *Quasithermanaerovibrio*: A genus related to but distinct from the existing genus Thermanaerovibrio of as if.

Quasithermasporomyces

L. nan conjunction *quasi*, as if; L. masc. n. *Thermasporomyces*, An existing genus; *Quasithermasporomyces*: A genus related to but distinct from the existing genus Thermasporomyces of as if.

Quasithermaurantimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Thermaurantimonas*, An existing genus; *Quasithermaurantimonas*: A genus related to but distinct from the existing genus Thermaurantimonas of as if.

Quasithermithiobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Thermithiobacillus*, An existing genus; *Quasithermithiobacillus*: A genus related to but distinct from the existing genus Thermithiobacillus of as if.

Quasithermoactinomyces

L. nan conjunction *quasi*, as if; L. masc. n. *Thermoactinomyces*, An existing genus; *Quasithermoactinomyces*: A genus related to but distinct from the existing genus Thermoactinomyces of as if.

Quasithermoactinospora

L. nan conjunction *quasi*, as if; L. fem. n. *Thermoactinospora*, An existing genus; *Quasithermoactinospora*: A genus related to but distinct from the existing genus Thermoactinospora of as if.

Quasithermoanaerobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Thermoanaerobacter*, An existing genus; *Quasithermoanaerobacter*: A genus related to but distinct from the existing genus Thermoanaerobacter of as if.

Quasithermoanaerobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Thermoanaerobacterium*, An existing genus; *Quasithermoanaerobacterium*: A genus related to but distinct from the existing genus Thermoanaerobacterium of as if.

Quasithermoanaerobaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Thermoanaerobaculum*, An existing genus; *Quasithermoanaerobaculum*: A genus related to but distinct from the existing genus Thermoanaerobaculum of as if.

Quasithermoanaerobium

L. nan conjunction *quasi*, as if; L. neut. n. *Thermoanaerobium*, An existing genus; *Quasithermoanaerobium*: A genus related to but distinct from the existing genus Thermoanaerobium of as if.

Quasithermobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Thermobacillus*, An existing genus; *Quasithermobacillus*: A genus related to but distinct from the existing genus Thermobacillus of as if.

Quasithermobacteroides

L. nan conjunction *quasi*, as if; L. masc. n. *Thermobacteroides*, An existing genus; *Quasithermobacteroides*: A genus related to but distinct from the existing genus Thermobacteroides of as if.

Quasithermobifida

L. nan conjunction *quasi*, as if; L. fem. n. *Thermobifida*, An existing genus; *Quasithermobifida*: A genus related to but distinct from the existing genus Thermobifida of as if.

Quasithermobispora

L. nan conjunction *quasi*, as if; L. fem. n. *Thermobispora*, An existing genus; *Quasithermobispora*: A genus related to but distinct from the existing genus Thermobispora of as if.

Quasithermobrachium

L. nan conjunction *quasi*, as if; L. neut. n. *Thermobrachium*, An existing genus; *Quasithermobrachium*: A genus related to but distinct from the existing genus Thermobrachium of as if.

Quasithermocatellispora

L. nan conjunction *quasi*, as if; L. fem. n. *Thermocatellispora*, An existing genus; *Quasithermocatellispora*: A genus related to but distinct from the existing genus Thermocatellispora of as if.

Quasithermochromatium

L. nan conjunction *quasi*, as if; L. neut. n. *Thermochromatium*, An existing genus; *Quasithermochromatium*: A genus related to but distinct from the existing genus Thermochromatium of as if.

Quasithermocladium

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Thermocladium*, An existing genus; *Quasithermocladium*: A genus related to but distinct from the existing genus Thermocladium of as if.

Quasithermoclostridium

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Thermoclostridium*, An existing genus; *Quasithermoclostridium*: A genus related to but distinct from the existing genus Thermoclostridium of as if.

Quasithermococcoides

L. nan conjunction *quasi*, as if; L. masc. n. *Thermococcoides*, An existing genus; *Quasithermococcoides*: A genus related to but distinct from the existing genus Thermococcoides of as if.

Quasithermococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Thermococcus*, An existing genus; *Quasithermococcus*: A genus related to but distinct from the existing genus Thermococcus of as if.

Quasithermocrinis

L. nan conjunction *quasi*, as if; L. masc. n. *Thermocrinis*, An existing genus; *Quasithermocrinis*: A genus related to but distinct from the existing genus Thermocrinis of as if.

Quasithermocrispum

L. nan conjunction *quasi*, as if; L. neut. n. *Thermocrispum*, An existing genus; *Quasithermocrispum*: A genus related to but distinct from the existing genus Thermocrispum of as if.

Quasithermodesulfatator

L. nan conjunction *quasi*, as if; L. masc. n. *Thermodesulfatator*, An existing genus; *Quasithermodesulfatator*: A genus related to but distinct from the existing genus Thermodesulfatator of as if.

Quasithermodesulfitimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Thermodesulfitimonas*, An existing genus; *Quasithermodesulfitimonas*: A genus related to but distinct from the existing genus Thermodesulfitimonas of as if.

Quasithermodesulfobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Thermodesulfobacterium*, An existing genus; *Quasithermodesulfobacterium*: A genus related to but distinct from the existing genus Thermodesulfobacterium of as if.

Quasithermodesulfobium

L. nan conjunction *quasi*, as if; L. neut. n. *Thermodesulfobium*, An existing genus; *Quasithermodesulfobium*: A genus related to but distinct from the existing genus Thermodesulfobium of as if.

Quasithermodesulforhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Thermodesulforhabdus*, An existing genus; *Quasithermodesulforhabdus*: A genus related to but distinct from the existing genus Thermodesulforhabdus of as if.

Quasithermodesulfovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Thermodesulfovibrio*, An existing genus; *Quasithermodesulfovibrio*: A genus related to but distinct from the existing genus Thermodesulfovibrio of as if.

Quasithermodiscus

L. nan conjunction *quasi*, as if; L. masc. n. *Thermodiscus*, An existing genus; *Quasithermodiscus*: A genus related to but distinct from the existing genus Thermodiscus of as if.

Quasithermofilum

L. nan conjunction *quasi*, as if; L. neut. n. *Thermofilum*, An existing genus; *Quasithermofilum*: A genus related to but distinct from the existing genus Thermofilum of as if.

Quasithermoflavifilum

L. nan conjunction *quasi*, as if; L. neut. n. *Thermoflavifilum*, An existing genus; *Quasithermoflavifilum*: A genus related to but distinct from the existing genus Thermoflavifilum of as if.

Quasithermoflavimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Thermoflavimicrobium*, An existing genus; *Quasithermoflavimicrobium*: A genus related to but distinct from the existing genus Thermoflavimicrobium of as if.

Quasithermoflexibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Thermoflexibacter*, An existing genus; *Quasithermoflexibacter*: A genus related to but distinct from the existing genus Thermoflexibacter of as if.

Quasithermoflexus

L. nan conjunction *quasi*, as if; L. masc. n. *Thermoflexus*, An existing genus; *Quasithermoflexus*: A genus related to but distinct from the existing genus Thermoflexus of as if.

Quasithermogemmatispora

L. nan conjunction *quasi*, as if; L. fem. n. *Thermogemmatispora*, An existing genus; *Quasithermogemmatispora*: A genus related to but distinct from the existing genus Thermogemmatispora of as if.

Quasithermogladius

L. nan conjunction *quasi*, as if; L. masc. n. *Thermogladius*, An existing genus; *Quasithermogladius*: A genus related to but distinct from the existing genus Thermogladius of as if.

Quasithermogutta

L. nan conjunction *quasi*, as if; L. fem. n. *Thermogutta*, An existing genus; *Quasithermogutta*: A genus related to but distinct from the existing genus Thermogutta of as if.

Quasithermogymnomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Thermogymnomonas*, An existing genus; *Quasithermogymnomonas*: A genus related to but distinct from the existing genus Thermogymnomonas of as if.

Quasithermohalobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Thermohalobacter*, An existing genus; *Quasithermohalobacter*: A genus related to but distinct from the existing genus Thermohalobacter of as if.

Quasithermohydrogenium

L. nan conjunction *quasi*, as if; L. neut. n. *Thermohydrogenium*, An existing genus; *Quasithermohydrogenium*: A genus related to but distinct from the existing genus Thermohydrogenium of as if.

Quasithermoleophilum

L. nan conjunction *quasi*, as if; L. neut. n. *Thermoleophilum*, An existing genus; *Quasithermoleophilum*: A genus related to but distinct from the existing genus Thermoleophilum of as if.

Quasithermoleptolyngbya

L. nan conjunction *quasi*, as if; L. fem. n. *Thermoleptolyngbya*, An existing genus; *Quasithermoleptolyngbya*: A genus related to but distinct from the existing genus Thermoleptolyngbya of as if.

Quasithermolithobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Thermolithobacter*, An existing genus; *Quasithermolithobacter*: A genus related to but distinct from the existing genus Thermolithobacter of as if.

Quasithermolongibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Thermolongibacillus*, An existing genus; *Quasithermolongibacillus*: A genus related to but distinct from the existing genus Thermolongibacillus of as if.

Quasithermomarinilinea

L. nan conjunction *quasi*, as if; L. fem. n. *Thermomarinilinea*, An existing genus; *Quasithermomarinilinea*: A genus related to but distinct from the existing genus Thermomarinilinea of as if.

Quasithermomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Thermomicrobium*, An existing genus; *Quasithermomicrobium*: A genus related to but distinct from the existing genus Thermomicrobium of as if.

Quasithermomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Thermomonas*, An existing genus; *Quasithermomonas*: A genus related to but distinct from the existing genus Thermomonas of as if.

Quasithermomonospora

L. nan conjunction *quasi*, as if; L. fem. n. *Thermomonospora*, An existing genus; *Quasithermomonospora*: A genus related to but distinct from the existing genus Thermomonospora of as if.

Quasithermonema

L. nan conjunction *quasi*, as if; L. neut. n. *Thermonema*, An existing genus; *Quasithermonema*: A genus related to but distinct from the existing genus Thermonema of as if.

Quasithermophagus

L. nan conjunction *quasi*, as if; L. masc. n. *Thermophagus*, An existing genus; *Quasithermophagus*: A genus related to but distinct from the existing genus Thermophagus of as if.

Quasithermoplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Thermoplasma*, An existing genus; *Quasithermoplasma*: A genus related to but distinct from the existing genus Thermoplasma of as if.

Quasithermopolyspora

L. nan conjunction *quasi*, as if; L. fem. n. *Thermopolyspora*, An existing genus; *Quasithermopolyspora*: A genus related to but distinct from the existing genus Thermopolyspora of as if.

Quasithermoproteus

L. nan conjunction *quasi*, as if; L. masc. n. *Thermoproteus*, An existing genus; *Quasithermoproteus*: A genus related to but distinct from the existing genus Thermoproteus of as if.

Quasithermorudis

L. nan conjunction *quasi*, as if; L. fem. n. *Thermorudis*, An existing genus; *Quasithermorudis*: A genus related to but distinct from the existing genus Thermorudis of as if.

Quasithermosediminibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Thermosediminibacter*, An existing genus; *Quasithermosediminibacter*: A genus related to but distinct from the existing genus Thermosediminibacter of as if.

Quasithermosinus

L. nan conjunction *quasi*, as if; L. masc. n. *Thermosinus*, An existing genus; *Quasithermosinus*: A genus related to but distinct from the existing genus Thermosinus of as if.

Quasithermosipho

L. nan conjunction *quasi*, as if; L. masc. n. *Thermosipho*, An existing genus; *Quasithermosipho*: A genus related to but distinct from the existing genus Thermosipho of as if.

Quasithermosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Thermosphaera*, An existing genus; *Quasithermosphaera*: A genus related to but distinct from the existing genus Thermosphaera of as if.

Quasithermosporothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Thermosporothrix*, An existing genus; *Quasithermosporothrix*: A genus related to but distinct from the existing genus Thermosporothrix of as if.

Quasithermostaphylospora

L. nan conjunction *quasi*, as if; L. fem. n. *Thermostaphylospora*, An existing genus; *Quasithermostaphylospora*: A genus related to but distinct from the existing genus Thermostaphylospora of as if.

Quasithermostilla

L. nan conjunction *quasi*, as if; L. fem. n. *Thermostilla*, An existing genus; *Quasithermostilla*: A genus related to but distinct from the existing genus Thermostilla of as if.

Quasithermosulfidibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Thermosulfidibacter*, An existing genus; *Quasithermosulfidibacter*: A genus related to but distinct from the existing genus Thermosulfidibacter of as if.

Quasithermosulfurimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Thermosulfurimonas*, An existing genus; *Quasithermosulfurimonas*: A genus related to but distinct from the existing genus Thermosulfurimonas of as if.

Quasithermosulfuriphilus

L. nan conjunction *quasi*, as if; L. masc. n. *Thermosulfuriphilus*, An existing genus; *Quasithermosulfuriphilus*: A genus related to but distinct from the existing genus Thermosulfuriphilus of as if.

Quasithermosyntropha

L. nan conjunction *quasi*, as if; L. fem. n. *Thermosyntropha*, An existing genus; *Quasithermosyntropha*: A genus related to but distinct from the existing genus Thermosyntropha of as if.

Quasithermotalea

L. nan conjunction *quasi*, as if; L. fem. n. *Thermotalea*, An existing genus; *Quasithermotalea*: A genus related to but distinct from the existing genus Thermotalea of as if.

Quasithermoterrabacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Thermoterrabacterium*, An existing genus; *Quasithermoterrabacterium*: A genus related to but distinct from the existing genus Thermoterrabacterium of as if.

Quasithermotoga

L. nan conjunction *quasi*, as if; L. fem. n. *Thermotoga*, An existing genus; *Quasithermotoga*: A genus related to but distinct from the existing genus Thermotoga of as if.

Quasithermotomaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Thermotomaculum*, An existing genus; *Quasithermotomaculum*: A genus related to but distinct from the existing genus Thermotomaculum of as if.

Quasithermotunica

L. nan conjunction *quasi*, as if; L. fem. n. *Thermotunica*, An existing genus; *Quasithermotunica*: A genus related to but distinct from the existing genus Thermotunica of as if.

Quasithermovenabulum

L. nan conjunction *quasi*, as if; L. neut. n. *Thermovenabulum*, An existing genus; *Quasithermovenabulum*: A genus related to but distinct from the existing genus Thermovenabulum of as if.

Quasithermovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Thermovibrio*, An existing genus; *Quasithermovibrio*: A genus related to but distinct from the existing genus Thermovibrio of as if.

Quasithermovirga

L. nan conjunction *quasi*, as if; L. fem. n. *Thermovirga*, An existing genus; *Quasithermovirga*: A genus related to but distinct from the existing genus Thermovirga of as if.

Quasithermovorax

L. nan conjunction *quasi*, as if; L. masc. n. *Thermovorax*, An existing genus; *Quasithermovorax*: A genus related to but distinct from the existing genus Thermovorax of as if.

Quasithermovum

L. nan conjunction *quasi*, as if; L. neut. n. *Thermovum*, An existing genus; *Quasithermovum*: A genus related to but distinct from the existing genus Thermovum of as if.

Quasithermus

L. nan conjunction *quasi*, as if; L. masc. n. *Thermus*, An existing genus; *Quasithermus*: A genus related to but distinct from the existing genus Thermus of as if.

Quasithioalbus

L. nan conjunction *quasi*, as if; L. masc. n. *Thioalbus*, An existing genus; *Quasithioalbus*: A genus related to but distinct from the existing genus Thioalbus of as if.

Quasithioalkalibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Thioalkalibacter*, An existing genus; *Quasithioalkalibacter*: A genus related to but distinct from the existing genus Thioalkalibacter of as if.

Quasithioalkalicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Thioalkalicoccus*, An existing genus; *Quasithioalkalicoccus*: A genus related to but distinct from the existing genus Thioalkalicoccus of as if.

Quasithioalkalimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Thioalkalimicrobium*, An existing genus; *Quasithioalkalimicrobium*: A genus related to but distinct from the existing genus Thioalkalimicrobium of as if.

Quasithioalkalispira

L. nan conjunction *quasi*, as if; L. fem. n. *Thioalkalispira*, An existing genus; *Quasithioalkalispira*: A genus related to but distinct from the existing genus Thioalkalispira of as if.

Quasithioalkalivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Thioalkalivibrio*, An existing genus; *Quasithioalkalivibrio*: A genus related to but distinct from the existing genus Thioalkalivibrio of as if.

Quasithiobaca

L. nan conjunction *quasi*, as if; L. fem. n. *Thiobaca*, An existing genus; *Quasithiobaca*: A genus related to but distinct from the existing genus Thiobaca of as if.

Quasithiobacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Thiobacillus*, An existing genus; *Quasithiobacillus*: A genus related to but distinct from the existing genus Thiobacillus of as if.

Quasithiobacimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Thiobacimonas*, An existing genus; *Quasithiobacimonas*: A genus related to but distinct from the existing genus Thiobacimonas of as if.

Quasithiobacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Thiobacterium*, An existing genus; *Quasithiobacterium*: A genus related to but distinct from the existing genus Thiobacterium of as if.

Quasithiocapsa

L. nan conjunction *quasi*, as if; L. fem. n. *Thiocapsa*, An existing genus; *Quasithiocapsa*: A genus related to but distinct from the existing genus Thiocapsa of as if.

Quasithioclava

L. nan conjunction *quasi*, as if; L. fem. n. *Thioclava*, An existing genus; *Quasithioclava*: A genus related to but distinct from the existing genus Thioclava of as if.

Quasithiococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Thiococcus*, An existing genus; *Quasithiococcus*: A genus related to but distinct from the existing genus Thiococcus of as if.

Quasithiocystis

L. nan conjunction *quasi*, as if; L. fem. n. *Thiocystis*, An existing genus; *Quasithiocystis*: A genus related to but distinct from the existing genus Thiocystis of as if.

Quasithiodictyon

L. nan conjunction *quasi*, as if; L. neut. n. *Thiodictyon*, An existing genus; *Quasithiodictyon*: A genus related to but distinct from the existing genus Thiodictyon of as if.

Quasithiofaba

L. nan conjunction *quasi*, as if; L. fem. n. *Thiofaba*, An existing genus; *Quasithiofaba*: A genus related to but distinct from the existing genus Thiofaba of as if.

Quasithiofilum

L. nan conjunction *quasi*, as if; L. neut. n. *Thiofilum*, An existing genus; *Quasithiofilum*: A genus related to but distinct from the existing genus Thiofilum of as if.

Quasithioflavicoccus

L. nan conjunction *quasi*, as if; L. masc. n. *Thioflavicoccus*, An existing genus; *Quasithioflavicoccus*: A genus related to but distinct from the existing genus Thioflavicoccus of as if.

Quasithioflexithrix

L. nan conjunction *quasi*, as if; L. fem. n. *Thioflexithrix*, An existing genus; *Quasithioflexithrix*: A genus related to but distinct from the existing genus Thioflexithrix of as if.

Quasithiofractor

L. nan conjunction *quasi*, as if; L. masc. n. *Thiofractor*, An existing genus; *Quasithiofractor*: A genus related to but distinct from the existing genus Thiofractor of as if.

Quasithiohalobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Thiohalobacter*, An existing genus; *Quasithiohalobacter*: A genus related to but distinct from the existing genus Thiohalobacter of as if.

Quasithiohalocapsa

L. nan conjunction *quasi*, as if; L. fem. n. *Thiohalocapsa*, An existing genus; *Quasithiohalocapsa*: A genus related to but distinct from the existing genus Thiohalocapsa of as if.

Quasithiohalomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Thiohalomonas*, An existing genus; *Quasithiohalomonas*: A genus related to but distinct from the existing genus Thiohalomonas of as if.

Quasithiohalophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Thiohalophilus*, An existing genus; *Quasithiohalophilus*: A genus related to but distinct from the existing genus Thiohalophilus of as if.

Quasithiohalorhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Thiohalorhabdus*, An existing genus; *Quasithiohalorhabdus*: A genus related to but distinct from the existing genus Thiohalorhabdus of as if.

Quasithiohalospira

L. nan conjunction *quasi*, as if; L. fem. n. *Thiohalospira*, An existing genus; *Quasithiohalospira*: A genus related to but distinct from the existing genus Thiohalospira of as if.

Quasithiolamprovum

L. nan conjunction *quasi*, as if; L. neut. n. *Thiolamprovum*, An existing genus; *Quasithiolamprovum*: A genus related to but distinct from the existing genus Thiolamprovum of as if.

Quasithiolapillus

L. nan conjunction *quasi*, as if; L. masc. n. *Thiolapillus*, An existing genus; *Quasithiolapillus*: A genus related to but distinct from the existing genus Thiolapillus of as if.

Quasithiolinea

L. nan conjunction *quasi*, as if; L. fem. n. *Thiolinea*, An existing genus; *Quasithiolinea*: A genus related to but distinct from the existing genus Thiolinea of as if.

Quasithiomargarita

L. nan conjunction *quasi*, as if; L. fem. n. *Thiomargarita*, An existing genus; *Quasithiomargarita*: A genus related to but distinct from the existing genus Thiomargarita of as if.

Quasithiomicrorhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Thiomicrorhabdus*, An existing genus; *Quasithiomicrorhabdus*: A genus related to but distinct from the existing genus Thiomicrorhabdus of as if.

Quasithiomicrospira

L. nan conjunction *quasi*, as if; L. fem. n. *Thiomicrospira*, An existing genus; *Quasithiomicrospira*: A genus related to but distinct from the existing genus Thiomicrospira of as if.

Quasithiomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Thiomonas*, An existing genus; *Quasithiomonas*: A genus related to but distinct from the existing genus Thiomonas of as if.

Quasithiopedia

L. nan conjunction *quasi*, as if; L. fem. n. *Thiopedia*, An existing genus; *Quasithiopedia*: A genus related to but distinct from the existing genus Thiopedia of as if.

Quasithiophaeococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Thiophaeococcus*, An existing genus; *Quasithiophaeococcus*: A genus related to but distinct from the existing genus Thiophaeococcus of as if.

Quasithioploca

L. nan conjunction *quasi*, as if; L. fem. n. *Thioploca*, An existing genus; *Quasithioploca*: A genus related to but distinct from the existing genus Thioploca of as if.

Quasithioprofundum

L. nan conjunction *quasi*, as if; L. neut. n. *Thioprofundum*, An existing genus; *Quasithioprofundum*: A genus related to but distinct from the existing genus Thioprofundum of as if.

Quasithiopseudomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Thiopseudomonas*, An existing genus; *Quasithiopseudomonas*: A genus related to but distinct from the existing genus Thiopseudomonas of as if.

Quasithioreductor

L. nan conjunction *quasi*, as if; L. masc. n. *Thioreductor*, An existing genus; *Quasithioreductor*: A genus related to but distinct from the existing genus Thioreductor of as if.

Quasithiorhodococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Thiorhodococcus*, An existing genus; *Quasithiorhodococcus*: A genus related to but distinct from the existing genus Thiorhodococcus of as if.

Quasithiorhodospira

L. nan conjunction *quasi*, as if; L. fem. n. *Thiorhodospira*, An existing genus; *Quasithiorhodospira*: A genus related to but distinct from the existing genus Thiorhodospira of as if.

Quasithiorhodovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Thiorhodovibrio*, An existing genus; *Quasithiorhodovibrio*: A genus related to but distinct from the existing genus Thiorhodovibrio of as if.

Quasithiosocius

L. nan conjunction *quasi*, as if; L. masc. n. *Thiosocius*, An existing genus; *Quasithiosocius*: A genus related to but distinct from the existing genus Thiosocius of as if.

Quasithiosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Thiosphaera*, An existing genus; *Quasithiosphaera*: A genus related to but distinct from the existing genus Thiosphaera of as if.

Quasithiospira

L. nan conjunction *quasi*, as if; L. fem. n. *Thiospira*, An existing genus; *Quasithiospira*: A genus related to but distinct from the existing genus Thiospira of as if.

Quasithiospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Thiospirillum*, An existing genus; *Quasithiospirillum*: A genus related to but distinct from the existing genus Thiospirillum of as if.

Quasithiothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Thiothrix*, An existing genus; *Quasithiothrix*: A genus related to but distinct from the existing genus Thiothrix of as if.

Quasithiovulum

L. nan conjunction *quasi*, as if; L. neut. n. *Thiovulum*, An existing genus; *Quasithiovulum*: A genus related to but distinct from the existing genus Thiovulum of as if.

Quasithorsellia

L. nan conjunction *quasi*, as if; L. fem. n. *Thorsellia*, An existing genus; *Quasithorsellia*: A genus related to but distinct from the existing genus Thorsellia of as if.

Quasitianweitania

L. nan conjunction *quasi*, as if; L. fem. n. *Tianweitania*, An existing genus; *Quasitianweitania*: A genus related to but distinct from the existing genus Tianweitania of as if.

Quasitibeticola

L. nan conjunction *quasi*, as if; L. masc. n. *Tibeticola*, An existing genus; *Quasitibeticola*: A genus related to but distinct from the existing genus Tibeticola of as if.

Quasitildeniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Tildeniella*, An existing genus; *Quasitildeniella*: A genus related to but distinct from the existing genus Tildeniella of as if.

Quasitimaviella

L. nan conjunction *quasi*, as if; L. fem. n. *Timaviella*, An existing genus; *Quasitimaviella*: A genus related to but distinct from the existing genus Timaviella of as if.

Quasitimonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Timonella*, An existing genus; *Quasitimonella*: A genus related to but distinct from the existing genus Timonella of as if.

Quasitindallia

L. nan conjunction *quasi*, as if; L. fem. n. *Tindallia*, An existing genus; *Quasitindallia*: A genus related to but distinct from the existing genus Tindallia of as if.

Quasitissierella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Tissierella*, An existing genus; *Quasitissierella*: A genus related to but distinct from the existing genus Tissierella of as if.

Quasitistlia

L. nan conjunction *quasi*, as if; L. fem. n. *Tistlia*, An existing genus; *Quasitistlia*: A genus related to but distinct from the existing genus Tistlia of as if.

Quasitistrella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Tistrella*, An existing genus; *Quasitistrella*: A genus related to but distinct from the existing genus Tistrella of as if.

Quasititanospirillum

L. nan conjunction *quasi*, as if; L. neut. dim. n. *Titanospirillum*, An existing genus; *Quasititanospirillum*: A genus related to but distinct from the existing genus Titanospirillum of as if.

Quasitolumonas

L. nan conjunction *quasi*, as if; L. fem. n. *Tolumonas*, An existing genus; *Quasitolumonas*: A genus related to but distinct from the existing genus Tolumonas of as if.

Quasitomitella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Tomitella*, An existing genus; *Quasitomitella*: A genus related to but distinct from the existing genus Tomitella of as if.

Quasitonsilliphilus

L. nan conjunction *quasi*, as if; L. masc. n. *Tonsilliphilus*, An existing genus; *Quasitonsilliphilus*: A genus related to but distinct from the existing genus Tonsilliphilus of as if.

Quasitoxifilum

L. nan conjunction *quasi*, as if; L. neut. n. *Toxifilum*, An existing genus; *Quasitoxifilum*: A genus related to but distinct from the existing genus Toxifilum of as if.

Quasitoxopsis

L. nan conjunction *quasi*, as if; L. fem. n. *Toxopsis*, An existing genus; *Quasitoxopsis*: A genus related to but distinct from the existing genus Toxopsis of as if.

Quasitoxothrix

L. nan conjunction *quasi*, as if; L. fem. n. *Toxothrix*, An existing genus; *Quasitoxothrix*: A genus related to but distinct from the existing genus Toxothrix of as if.

Quasitrabulsiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Trabulsiella*, An existing genus; *Quasitrabulsiella*: A genus related to but distinct from the existing genus Trabulsiella of as if.

Quasitranquillimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Tranquillimonas*, An existing genus; *Quasitranquillimonas*: A genus related to but distinct from the existing genus Tranquillimonas of as if.

Quasitraorella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Traorella*, An existing genus; *Quasitraorella*: A genus related to but distinct from the existing genus Traorella of as if.

Quasitreponema

L. nan conjunction *quasi*, as if; L. neut. n. *Treponema*, An existing genus; *Quasitreponema*: A genus related to but distinct from the existing genus Treponema of as if.

Quasitrichlorobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Trichlorobacter*, An existing genus; *Quasitrichlorobacter*: A genus related to but distinct from the existing genus Trichlorobacter of as if.

Quasitrichococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Trichococcus*, An existing genus; *Quasitrichococcus*: A genus related to but distinct from the existing genus Trichococcus of as if.

Quasitrinickia

L. nan conjunction *quasi*, as if; L. fem. n. *Trinickia*, An existing genus; *Quasitrinickia*: A genus related to but distinct from the existing genus Trinickia of as if.

Quasitritonibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Tritonibacter*, An existing genus; *Quasitritonibacter*: A genus related to but distinct from the existing genus Tritonibacter of as if.

Quasitropheryma

L. nan conjunction *quasi*, as if; L. neut. n. *Tropheryma*, An existing genus; *Quasitropheryma*: A genus related to but distinct from the existing genus Tropheryma of as if.

Quasitropicibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Tropicibacter*, An existing genus; *Quasitropicibacter*: A genus related to but distinct from the existing genus Tropicibacter of as if.

Quasitropicihabitans

L. nan conjunction *quasi*, as if; L. masc. n. *Tropicihabitans*, An existing genus; *Quasitropicihabitans*: A genus related to but distinct from the existing genus Tropicihabitans of as if.

Quasitropicimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Tropicimonas*, An existing genus; *Quasitropicimonas*: A genus related to but distinct from the existing genus Tropicimonas of as if.

Quasitruepera

L. nan conjunction *quasi*, as if; L. fem. n. *Truepera*, An existing genus; *Quasitruepera*: A genus related to but distinct from the existing genus Truepera of as if.

Quasitrueperella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Trueperella*, An existing genus; *Quasitrueperella*: A genus related to but distinct from the existing genus Trueperella of as if.

Quasitsukamurella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Tsukamurella*, An existing genus; *Quasitsukamurella*: A genus related to but distinct from the existing genus Tsukamurella of as if.

Quasituberibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Tuberibacillus*, An existing genus; *Quasituberibacillus*: A genus related to but distinct from the existing genus Tuberibacillus of as if.

Quasitullyiplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Tullyiplasma*, An existing genus; *Quasitullyiplasma*: A genus related to but distinct from the existing genus Tullyiplasma of as if.

Quasitumebacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Tumebacillus*, An existing genus; *Quasitumebacillus*: A genus related to but distinct from the existing genus Tumebacillus of as if.

Quasitundrisphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Tundrisphaera*, An existing genus; *Quasitundrisphaera*: A genus related to but distinct from the existing genus Tundrisphaera of as if.

Quasitunicatimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Tunicatimonas*, An existing genus; *Quasitunicatimonas*: A genus related to but distinct from the existing genus Tunicatimonas of as if.

Quasituricella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Turicella*, An existing genus; *Quasituricella*: A genus related to but distinct from the existing genus Turicella of as if.

Quasituricibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Turicibacter*, An existing genus; *Quasituricibacter*: A genus related to but distinct from the existing genus Turicibacter of as if.

Quasituricimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Turicimonas*, An existing genus; *Quasituricimonas*: A genus related to but distinct from the existing genus Turicimonas of as if.

Quasiturneriella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Turneriella*, An existing genus; *Quasiturneriella*: A genus related to but distinct from the existing genus Turneriella of as if.

Quasituwongella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Tuwongella*, An existing genus; *Quasituwongella*: A genus related to but distinct from the existing genus Tuwongella of as if.

Quasiuliginosibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Uliginosibacterium*, An existing genus; *Quasiuliginosibacterium*: A genus related to but distinct from the existing genus Uliginosibacterium of as if.

Quasiulvibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Ulvibacter*, An existing genus; *Quasiulvibacter*: A genus related to but distinct from the existing genus Ulvibacter of as if.

Quasiulvibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Ulvibacterium*, An existing genus; *Quasiulvibacterium*: A genus related to but distinct from the existing genus Ulvibacterium of as if.

Quasiumboniibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Umboniibacter*, An existing genus; *Quasiumboniibacter*: A genus related to but distinct from the existing genus Umboniibacter of as if.

Quasiumezawaea

L. nan conjunction *quasi*, as if; L. fem. n. *Umezawaea*, An existing genus; *Quasiumezawaea*: A genus related to but distinct from the existing genus Umezawaea of as if.

Quasiundibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Undibacterium*, An existing genus; *Quasiundibacterium*: A genus related to but distinct from the existing genus Undibacterium of as if.

Quasiureaplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Ureaplasma*, An existing genus; *Quasiureaplasma*: A genus related to but distinct from the existing genus Ureaplasma of as if.

Quasiurechidicola

L. nan conjunction *quasi*, as if; L. masc. n. *Urechidicola*, An existing genus; *Quasiurechidicola*: A genus related to but distinct from the existing genus Urechidicola of as if.

Quasiureibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Ureibacillus*, An existing genus; *Quasiureibacillus*: A genus related to but distinct from the existing genus Ureibacillus of as if.

Quasiurmitella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Urmitella*, An existing genus; *Quasiurmitella*: A genus related to but distinct from the existing genus Urmitella of as if.

Quasiursidibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Ursidibacter*, An existing genus; *Quasiursidibacter*: A genus related to but distinct from the existing genus Ursidibacter of as if.

Quasiuruburuella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Uruburuella*, An existing genus; *Quasiuruburuella*: A genus related to but distinct from the existing genus Uruburuella of as if.

Quasivadicella

L. nan conjunction *quasi*, as if; L. fem. n. *Vadicella*, An existing genus; *Quasivadicella*: A genus related to but distinct from the existing genus Vadicella of as if.

Quasivaginella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Vaginella*, An existing genus; *Quasivaginella*: A genus related to but distinct from the existing genus Vaginella of as if.

Quasivaginimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Vaginimicrobium*, An existing genus; *Quasivaginimicrobium*: A genus related to but distinct from the existing genus Vaginimicrobium of as if.

Quasivaginisenegalia

L. nan conjunction *quasi*, as if; L. fem. n. *Vaginisenegalia*, An existing genus; *Quasivaginisenegalia*: A genus related to but distinct from the existing genus Vaginisenegalia of as if.

Quasivagococcus

L. nan conjunction *quasi*, as if; L. masc. n. *Vagococcus*, An existing genus; *Quasivagococcus*: A genus related to but distinct from the existing genus Vagococcus of as if.

Quasivallitalea

L. nan conjunction *quasi*, as if; L. fem. n. *Vallitalea*, An existing genus; *Quasivallitalea*: A genus related to but distinct from the existing genus Vallitalea of as if.

Quasivampirovibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Vampirovibrio*, An existing genus; *Quasivampirovibrio*: A genus related to but distinct from the existing genus Vampirovibrio of as if.

Quasivaribaculum

L. nan conjunction *quasi*, as if; L. neut. n. *Varibaculum*, An existing genus; *Quasivaribaculum*: A genus related to but distinct from the existing genus Varibaculum of as if.

Quasivariovorax

L. nan conjunction *quasi*, as if; L. masc. n. *Variovorax*, An existing genus; *Quasivariovorax*: A genus related to but distinct from the existing genus Variovorax of as if.

Quasivarunaivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Varunaivibrio*, An existing genus; *Quasivarunaivibrio*: A genus related to but distinct from the existing genus Varunaivibrio of as if.

Quasivasilyevaea

L. nan conjunction *quasi*, as if; L. fem. n. *Vasilyevaea*, An existing genus; *Quasivasilyevaea*: A genus related to but distinct from the existing genus Vasilyevaea of as if.

Quasiveillonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Veillonella*, An existing genus; *Quasiveillonella*: A genus related to but distinct from the existing genus Veillonella of as if.

Quasivenenivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Venenivibrio*, An existing genus; *Quasivenenivibrio*: A genus related to but distinct from the existing genus Venenivibrio of as if.

Quasiventosimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Ventosimonas*, An existing genus; *Quasiventosimonas*: A genus related to but distinct from the existing genus Ventosimonas of as if.

Quasiverminephrobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Verminephrobacter*, An existing genus; *Quasiverminephrobacter*: A genus related to but distinct from the existing genus Verminephrobacter of as if.

Quasiverrucomicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Verrucomicrobium*, An existing genus; *Quasiverrucomicrobium*: A genus related to but distinct from the existing genus Verrucomicrobium of as if.

Quasiverrucosispora

L. nan conjunction *quasi*, as if; L. fem. n. *Verrucosispora*, An existing genus; *Quasiverrucosispora*: A genus related to but distinct from the existing genus Verrucosispora of as if.

Quasiverticia

L. nan conjunction *quasi*, as if; L. fem. n. *Verticia*, An existing genus; *Quasiverticia*: A genus related to but distinct from the existing genus Verticia of as if.

Quasiverticiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Verticiella*, An existing genus; *Quasiverticiella*: A genus related to but distinct from the existing genus Verticiella of as if.

Quasivespertiliibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Vespertiliibacter*, An existing genus; *Quasivespertiliibacter*: A genus related to but distinct from the existing genus Vespertiliibacter of as if.

Quasivibrio

L. nan conjunction *quasi*, as if; L. masc. n. *Vibrio*, An existing genus; *Quasivibrio*: A genus related to but distinct from the existing genus Vibrio of as if.

Quasivibrionimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Vibrionimonas*, An existing genus; *Quasivibrionimonas*: A genus related to but distinct from the existing genus Vibrionimonas of as if.

Quasivicinamibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Vicinamibacter*, An existing genus; *Quasivicinamibacter*: A genus related to but distinct from the existing genus Vicinamibacter of as if.

Quasivicingus

L. nan conjunction *quasi*, as if; L. masc. n. *Vicingus*, An existing genus; *Quasivicingus*: A genus related to but distinct from the existing genus Vicingus of as if.

Quasivictivallis

L. nan conjunction *quasi*, as if; L. fem. n. *Victivallis*, An existing genus; *Quasivictivallis*: A genus related to but distinct from the existing genus Victivallis of as if.

Quasivirgibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Virgibacillus*, An existing genus; *Quasivirgibacillus*: A genus related to but distinct from the existing genus Virgibacillus of as if.

Quasiviridibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Viridibacillus*, An existing genus; *Quasiviridibacillus*: A genus related to but distinct from the existing genus Viridibacillus of as if.

Quasiviridibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Viridibacterium*, An existing genus; *Quasiviridibacterium*: A genus related to but distinct from the existing genus Viridibacterium of as if.

Quasivitellibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Vitellibacter*, An existing genus; *Quasivitellibacter*: A genus related to but distinct from the existing genus Vitellibacter of as if.

Quasivitiosangium

L. nan conjunction *quasi*, as if; L. neut. n. *Vitiosangium*, An existing genus; *Quasivitiosangium*: A genus related to but distinct from the existing genus Vitiosangium of as if.

Quasivitreoscilla

L. nan conjunction *quasi*, as if; L. fem. n. *Vitreoscilla*, An existing genus; *Quasivitreoscilla*: A genus related to but distinct from the existing genus Vitreoscilla of as if.

Quasivogesella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Vogesella*, An existing genus; *Quasivogesella*: A genus related to but distinct from the existing genus Vogesella of as if.

Quasivolcaniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Volcaniella*, An existing genus; *Quasivolcaniella*: A genus related to but distinct from the existing genus Volcaniella of as if.

Quasivolucribacter

L. nan conjunction *quasi*, as if; L. masc. n. *Volucribacter*, An existing genus; *Quasivolucribacter*: A genus related to but distinct from the existing genus Volucribacter of as if.

Quasivulcanibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Vulcanibacillus*, An existing genus; *Quasivulcanibacillus*: A genus related to but distinct from the existing genus Vulcanibacillus of as if.

Quasivulcaniibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Vulcaniibacterium*, An existing genus; *Quasivulcaniibacterium*: A genus related to but distinct from the existing genus Vulcaniibacterium of as if.

Quasivulcanithermus

L. nan conjunction *quasi*, as if; L. masc. n. *Vulcanithermus*, An existing genus; *Quasivulcanithermus*: A genus related to but distinct from the existing genus Vulcanithermus of as if.

Quasivulgatibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Vulgatibacter*, An existing genus; *Quasivulgatibacter*: A genus related to but distinct from the existing genus Vulgatibacter of as if.

Quasiwaddlia

L. nan conjunction *quasi*, as if; L. fem. n. *Waddlia*, An existing genus; *Quasiwaddlia*: A genus related to but distinct from the existing genus Waddlia of as if.

Quasiwandonia

L. nan conjunction *quasi*, as if; L. fem. n. *Wandonia*, An existing genus; *Quasiwandonia*: A genus related to but distinct from the existing genus Wandonia of as if.

Quasiwangella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Wangella*, An existing genus; *Quasiwangella*: A genus related to but distinct from the existing genus Wangella of as if.

Quasiwautersia

L. nan conjunction *quasi*, as if; L. fem. n. *Wautersia*, An existing genus; *Quasiwautersia*: A genus related to but distinct from the existing genus Wautersia of as if.

Quasiwautersiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Wautersiella*, An existing genus; *Quasiwautersiella*: A genus related to but distinct from the existing genus Wautersiella of as if.

Quasiweeksella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Weeksella*, An existing genus; *Quasiweeksella*: A genus related to but distinct from the existing genus Weeksella of as if.

Quasiweissella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Weissella*, An existing genus; *Quasiweissella*: A genus related to but distinct from the existing genus Weissella of as if.

Quasiwenxinia

L. nan conjunction *quasi*, as if; L. fem. n. *Wenxinia*, An existing genus; *Quasiwenxinia*: A genus related to but distinct from the existing genus Wenxinia of as if.

Quasiwenyingzhuangia

L. nan conjunction *quasi*, as if; L. fem. n. *Wenyingzhuangia*, An existing genus; *Quasiwenyingzhuangia*: A genus related to but distinct from the existing genus Wenyingzhuangia of as if.

Quasiwenzhouxiangella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Wenzhouxiangella*, An existing genus; *Quasiwenzhouxiangella*: A genus related to but distinct from the existing genus Wenzhouxiangella of as if.

Quasiwestiellopsis

L. nan conjunction *quasi*, as if; L. fem. n. *Westiellopsis*, An existing genus; *Quasiwestiellopsis*: A genus related to but distinct from the existing genus Westiellopsis of as if.

Quasiwigglesworthia

L. nan conjunction *quasi*, as if; L. fem. n. *Wigglesworthia*, An existing genus; *Quasiwigglesworthia*: A genus related to but distinct from the existing genus Wigglesworthia of as if.

Quasiwilliamsia

L. nan conjunction *quasi*, as if; L. fem. n. *Williamsia*, An existing genus; *Quasiwilliamsia*: A genus related to but distinct from the existing genus Williamsia of as if.

Quasiwilliamsoniiplasma

L. nan conjunction *quasi*, as if; L. neut. n. *Williamsoniiplasma*, An existing genus; *Quasiwilliamsoniiplasma*: A genus related to but distinct from the existing genus Williamsoniiplasma of as if.

Quasiwilliamwhitmania

L. nan conjunction *quasi*, as if; L. fem. n. *Williamwhitmania*, An existing genus; *Quasiwilliamwhitmania*: A genus related to but distinct from the existing genus Williamwhitmania of as if.

Quasiwinkia

L. nan conjunction *quasi*, as if; L. fem. n. *Winkia*, An existing genus; *Quasiwinkia*: A genus related to but distinct from the existing genus Winkia of as if.

Quasiwinogradskyella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Winogradskyella*, An existing genus; *Quasiwinogradskyella*: A genus related to but distinct from the existing genus Winogradskyella of as if.

Quasiwoeseia

L. nan conjunction *quasi*, as if; L. fem. n. *Woeseia*, An existing genus; *Quasiwoeseia*: A genus related to but distinct from the existing genus Woeseia of as if.

Quasiwohlfahrtiimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Wohlfahrtiimonas*, An existing genus; *Quasiwohlfahrtiimonas*: A genus related to but distinct from the existing genus Wohlfahrtiimonas of as if.

Quasiwolbachia

L. nan conjunction *quasi*, as if; L. fem. n. *Wolbachia*, An existing genus; *Quasiwolbachia*: A genus related to but distinct from the existing genus Wolbachia of as if.

Quasiwolinella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Wolinella*, An existing genus; *Quasiwolinella*: A genus related to but distinct from the existing genus Wolinella of as if.

Quasiwolskyella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Wolskyella*, An existing genus; *Quasiwolskyella*: A genus related to but distinct from the existing genus Wolskyella of as if.

Quasiwoodsholea

L. nan conjunction *quasi*, as if; L. fem. n. *Woodsholea*, An existing genus; *Quasiwoodsholea*: A genus related to but distinct from the existing genus Woodsholea of as if.

Quasiwukongibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Wukongibacter*, An existing genus; *Quasiwukongibacter*: A genus related to but distinct from the existing genus Wukongibacter of as if.

Quasixanthobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Xanthobacter*, An existing genus; *Quasixanthobacter*: A genus related to but distinct from the existing genus Xanthobacter of as if.

Quasixanthomarina

L. nan conjunction *quasi*, as if; L. fem. n. *Xanthomarina*, An existing genus; *Quasixanthomarina*: A genus related to but distinct from the existing genus Xanthomarina of as if.

Quasixanthomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Xanthomonas*, An existing genus; *Quasixanthomonas*: A genus related to but distinct from the existing genus Xanthomonas of as if.

Quasixanthovirga

L. nan conjunction *quasi*, as if; L. fem. n. *Xanthovirga*, An existing genus; *Quasixanthovirga*: A genus related to but distinct from the existing genus Xanthovirga of as if.

Quasixenophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Xenophilus*, An existing genus; *Quasixenophilus*: A genus related to but distinct from the existing genus Xenophilus of as if.

Quasixenorhabdus

L. nan conjunction *quasi*, as if; L. fem. n. *Xenorhabdus*, An existing genus; *Quasixenorhabdus*: A genus related to but distinct from the existing genus Xenorhabdus of as if.

Quasixiangella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Xiangella*, An existing genus; *Quasixiangella*: A genus related to but distinct from the existing genus Xiangella of as if.

Quasixinfangfangia

L. nan conjunction *quasi*, as if; L. fem. n. *Xinfangfangia*, An existing genus; *Quasixinfangfangia*: A genus related to but distinct from the existing genus Xinfangfangia of as if.

Quasixuhuaishuia

L. nan conjunction *quasi*, as if; L. fem. n. *Xuhuaishuia*, An existing genus; *Quasixuhuaishuia*: A genus related to but distinct from the existing genus Xuhuaishuia of as if.

Quasixylanibacillus

L. nan conjunction *quasi*, as if; L. masc. n. *Xylanibacillus*, An existing genus; *Quasixylanibacillus*: A genus related to but distinct from the existing genus Xylanibacillus of as if.

Quasixylanibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Xylanibacter*, An existing genus; *Quasixylanibacter*: A genus related to but distinct from the existing genus Xylanibacter of as if.

Quasixylanibacterium

L. nan conjunction *quasi*, as if; L. neut. n. *Xylanibacterium*, An existing genus; *Quasixylanibacterium*: A genus related to but distinct from the existing genus Xylanibacterium of as if.

Quasixylanimicrobium

L. nan conjunction *quasi*, as if; L. neut. n. *Xylanimicrobium*, An existing genus; *Quasixylanimicrobium*: A genus related to but distinct from the existing genus Xylanimicrobium of as if.

Quasixylanimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Xylanimonas*, An existing genus; *Quasixylanimonas*: A genus related to but distinct from the existing genus Xylanimonas of as if.

Quasixylanivirga

L. nan conjunction *quasi*, as if; L. fem. n. *Xylanivirga*, An existing genus; *Quasixylanivirga*: A genus related to but distinct from the existing genus Xylanivirga of as if.

Quasixylella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Xylella*, An existing genus; *Quasixylella*: A genus related to but distinct from the existing genus Xylella of as if.

Quasixylophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Xylophilus*, An existing genus; *Quasixylophilus*: A genus related to but distinct from the existing genus Xylophilus of as if.

Quasiyangia

L. nan conjunction *quasi*, as if; L. fem. n. *Yangia*, An existing genus; *Quasiyangia*: A genus related to but distinct from the existing genus Yangia of as if.

Quasiyania

L. nan conjunction *quasi*, as if; L. fem. n. *Yania*, An existing genus; *Quasiyania*: A genus related to but distinct from the existing genus Yania of as if.

Quasiyaniella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Yaniella*, An existing genus; *Quasiyaniella*: A genus related to but distinct from the existing genus Yaniella of as if.

Quasiyeosuana

L. nan conjunction *quasi*, as if; L. fem. n. *Yeosuana*, An existing genus; *Quasiyeosuana*: A genus related to but distinct from the existing genus Yeosuana of as if.

Quasiyersinia

L. nan conjunction *quasi*, as if; L. fem. n. *Yersinia*, An existing genus; *Quasiyersinia*: A genus related to but distinct from the existing genus Yersinia of as if.

Quasiyimella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Yimella*, An existing genus; *Quasiyimella*: A genus related to but distinct from the existing genus Yimella of as if.

Quasiyinghuangia

L. nan conjunction *quasi*, as if; L. fem. n. *Yinghuangia*, An existing genus; *Quasiyinghuangia*: A genus related to but distinct from the existing genus Yinghuangia of as if.

Quasiyokenella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Yokenella*, An existing genus; *Quasiyokenella*: A genus related to but distinct from the existing genus Yokenella of as if.

Quasiyonedaella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Yonedaella*, An existing genus; *Quasiyonedaella*: A genus related to but distinct from the existing genus Yonedaella of as if.

Quasiyonghaparkia

L. nan conjunction *quasi*, as if; L. fem. n. *Yonghaparkia*, An existing genus; *Quasiyonghaparkia*: A genus related to but distinct from the existing genus Yonghaparkia of as if.

Quasiyoonia

L. nan conjunction *quasi*, as if; L. fem. n. *Yoonia*, An existing genus; *Quasiyoonia*: A genus related to but distinct from the existing genus Yoonia of as if.

Quasiyouhaiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Youhaiella*, An existing genus; *Quasiyouhaiella*: A genus related to but distinct from the existing genus Youhaiella of as if.

Quasiyoungiibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Youngiibacter*, An existing genus; *Quasiyoungiibacter*: A genus related to but distinct from the existing genus Youngiibacter of as if.

Quasiyoungimonas

L. nan conjunction *quasi*, as if; L. fem. n. *Youngimonas*, An existing genus; *Quasiyoungimonas*: A genus related to but distinct from the existing genus Youngimonas of as if.

Quasiyuhushiella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Yuhushiella*, An existing genus; *Quasiyuhushiella*: A genus related to but distinct from the existing genus Yuhushiella of as if.

Quasizavarzinella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Zavarzinella*, An existing genus; *Quasizavarzinella*: A genus related to but distinct from the existing genus Zavarzinella of as if.

Quasizavarzinia

L. nan conjunction *quasi*, as if; L. fem. n. *Zavarzinia*, An existing genus; *Quasizavarzinia*: A genus related to but distinct from the existing genus Zavarzinia of as if.

Quasizeaxanthinibacter

L. nan conjunction *quasi*, as if; L. masc. n. *Zeaxanthinibacter*, An existing genus; *Quasizeaxanthinibacter*: A genus related to but distinct from the existing genus Zeaxanthinibacter of as if.

Quasizehria

L. nan conjunction *quasi*, as if; L. fem. n. *Zehria*, An existing genus; *Quasizehria*: A genus related to but distinct from the existing genus Zehria of as if.

Quasizestosphaera

L. nan conjunction *quasi*, as if; L. fem. n. *Zestosphaera*, An existing genus; *Quasizestosphaera*: A genus related to but distinct from the existing genus Zestosphaera of as if.

Quasizhangella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Zhangella*, An existing genus; *Quasizhangella*: A genus related to but distinct from the existing genus Zhangella of as if.

Quasizhaonella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Zhaonella*, An existing genus; *Quasizhaonella*: A genus related to but distinct from the existing genus Zhaonella of as if.

Quasizhengella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Zhengella*, An existing genus; *Quasizhengella*: A genus related to but distinct from the existing genus Zhengella of as if.

Quasizhihengliuella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Zhihengliuella*, An existing genus; *Quasizhihengliuella*: A genus related to but distinct from the existing genus Zhihengliuella of as if.

Quasizhizhongheella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Zhizhongheella*, An existing genus; *Quasizhizhongheella*: A genus related to but distinct from the existing genus Zhizhongheella of as if.

Quasizhongshania

L. nan conjunction *quasi*, as if; L. fem. n. *Zhongshania*, An existing genus; *Quasizhongshania*: A genus related to but distinct from the existing genus Zhongshania of as if.

Quasizhouia

L. nan conjunction *quasi*, as if; L. fem. n. *Zhouia*, An existing genus; *Quasizhouia*: A genus related to but distinct from the existing genus Zhouia of as if.

Quasizimmermannella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Zimmermannella*, An existing genus; *Quasizimmermannella*: A genus related to but distinct from the existing genus Zimmermannella of as if.

Quasizobellella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Zobellella*, An existing genus; *Quasizobellella*: A genus related to but distinct from the existing genus Zobellella of as if.

Quasizobellia

L. nan conjunction *quasi*, as if; L. fem. n. *Zobellia*, An existing genus; *Quasizobellia*: A genus related to but distinct from the existing genus Zobellia of as if.

Quasizoogloea

L. nan conjunction *quasi*, as if; L. fem. n. *Zoogloea*, An existing genus; *Quasizoogloea*: A genus related to but distinct from the existing genus Zoogloea of as if.

Quasizooshikella

L. nan conjunction *quasi*, as if; L. fem. dim. n. *Zooshikella*, An existing genus; *Quasizooshikella*: A genus related to but distinct from the existing genus Zooshikella of as if.

Quasizunongwangia

L. nan conjunction *quasi*, as if; L. fem. n. *Zunongwangia*, An existing genus; *Quasizunongwangia*: A genus related to but distinct from the existing genus Zunongwangia of as if.

Quasizymobacter

L. nan conjunction *quasi*, as if; L. masc. n. *Zymobacter*, An existing genus; *Quasizymobacter*: A genus related to but distinct from the existing genus Zymobacter of as if.

Quasizymomonas

L. nan conjunction *quasi*, as if; L. fem. n. *Zymomonas*, An existing genus; *Quasizymomonas*: A genus related to but distinct from the existing genus Zymomonas of as if.

Quasizymophilus

L. nan conjunction *quasi*, as if; L. masc. n. *Zymophilus*, An existing genus; *Quasizymophilus*: A genus related to but distinct from the existing genus Zymophilus of as if.

Secusabditibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Abditibacterium*, An existing genus; *Secusabditibacterium*: A genus related to but distinct from the existing genus Abditibacterium of beside.

Secusabiotrophia

L. masc. preposition *secus*, beside; L. fem. n. *Abiotrophia*, An existing genus; *Secusabiotrophia*: A genus related to but distinct from the existing genus Abiotrophia of beside.

Secusabsicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Absicoccus*, An existing genus; *Secusabsicoccus*: A genus related to but distinct from the existing genus Absicoccus of beside.

Secusabsiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Absiella*, An existing genus; *Secusabsiella*: A genus related to but distinct from the existing genus Absiella of beside.

Secusabyssibacter

L. masc. preposition *secus*, beside; L. masc. n. *Abyssibacter*, An existing genus; *Secusabyssibacter*: A genus related to but distinct from the existing genus Abyssibacter of beside.

Secusabyssicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Abyssicoccus*, An existing genus; *Secusabyssicoccus*: A genus related to but distinct from the existing genus Abyssicoccus of beside.

Secusabyssisolibacter

L. masc. preposition *secus*, beside; L. masc. n. *Abyssisolibacter*, An existing genus; *Secusabyssisolibacter*: A genus related to but distinct from the existing genus Abyssisolibacter of beside.

Secusabyssivirga

L. masc. preposition *secus*, beside; L. fem. n. *Abyssivirga*, An existing genus; *Secusabyssivirga*: A genus related to but distinct from the existing genus Abyssivirga of beside.

Secusacanthopleuribacter

L. masc. preposition *secus*, beside; L. masc. n. *Acanthopleuribacter*, An existing genus; *Secusacanthopleuribacter*: A genus related to but distinct from the existing genus Acanthopleuribacter of beside.

Secusacaricomes

L. masc. preposition *secus*, beside; L. masc. n. *Acaricomes*, An existing genus; *Secusacaricomes*: A genus related to but distinct from the existing genus Acaricomes of beside.

Secusacaryochloris

L. masc. preposition *secus*, beside; L. fem. n. *Acaryochloris*, An existing genus; *Secusacaryochloris*: A genus related to but distinct from the existing genus Acaryochloris of beside.

Secusacetanaerobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Acetanaerobacterium*, An existing genus; *Secusacetanaerobacterium*: A genus related to but distinct from the existing genus Acetanaerobacterium of beside.

Secusacetatifactor

L. masc. preposition *secus*, beside; L. masc. n. *Acetatifactor*, An existing genus; *Secusacetatifactor*: A genus related to but distinct from the existing genus Acetatifactor of beside.

Secusacetilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Acetilactobacillus*, An existing genus; *Secusacetilactobacillus*: A genus related to but distinct from the existing genus Acetilactobacillus of beside.

Secusacetitomaculum

L. masc. preposition *secus*, beside; L. neut. n. *Acetitomaculum*, An existing genus; *Secusacetitomaculum*: A genus related to but distinct from the existing genus Acetitomaculum of beside.

Secusacetivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Acetivibrio*, An existing genus; *Secusacetivibrio*: A genus related to but distinct from the existing genus Acetivibrio of beside.

Secusacetoanaerobium

L. masc. preposition *secus*, beside; L. neut. n. *Acetoanaerobium*, An existing genus; *Secusacetoanaerobium*: A genus related to but distinct from the existing genus Acetoanaerobium of beside.

Secusacetobacter

L. masc. preposition *secus*, beside; L. masc. n. *Acetobacter*, An existing genus; *Secusacetobacter*: A genus related to but distinct from the existing genus Acetobacter of beside.

Secusacetobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Acetobacterium*, An existing genus; *Secusacetobacterium*: A genus related to but distinct from the existing genus Acetobacterium of beside.

Secusacetobacteroides

L. masc. preposition *secus*, beside; L. masc. n. *Acetobacteroides*, An existing genus; *Secusacetobacteroides*: A genus related to but distinct from the existing genus Acetobacteroides of beside.

Secusacetofilamentum

L. masc. preposition *secus*, beside; L. neut. n. *Acetofilamentum*, An existing genus; *Secusacetofilamentum*: A genus related to but distinct from the existing genus Acetofilamentum of beside.

Secusacetogenium

L. masc. preposition *secus*, beside; L. neut. n. *Acetogenium*, An existing genus; *Secusacetogenium*: A genus related to but distinct from the existing genus Acetogenium of beside.

Secusacetohalobium

L. masc. preposition *secus*, beside; L. neut. n. *Acetohalobium*, An existing genus; *Secusacetohalobium*: A genus related to but distinct from the existing genus Acetohalobium of beside.

Secusacetomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Acetomicrobium*, An existing genus; *Secusacetomicrobium*: A genus related to but distinct from the existing genus Acetomicrobium of beside.

Secusacetonema

L. masc. preposition *secus*, beside; L. neut. n. *Acetonema*, An existing genus; *Secusacetonema*: A genus related to but distinct from the existing genus Acetonema of beside.

Secusacetothermus

L. masc. preposition *secus*, beside; L. masc. n. *Acetothermus*, An existing genus; *Secusacetothermus*: A genus related to but distinct from the existing genus Acetothermus of beside.

Secusacholeplasma

L. masc. preposition *secus*, beside; L. neut. n. *Acholeplasma*, An existing genus; *Secusacholeplasma*: A genus related to but distinct from the existing genus Acholeplasma of beside.

Secusachromatium

L. masc. preposition *secus*, beside; L. neut. n. *Achromatium*, An existing genus; *Secusachromatium*: A genus related to but distinct from the existing genus Achromatium of beside.

Secusachromobacter

L. masc. preposition *secus*, beside; L. masc. n. *Achromobacter*, An existing genus; *Secusachromobacter*: A genus related to but distinct from the existing genus Achromobacter of beside.

Secusacidaminobacter

L. masc. preposition *secus*, beside; L. masc. n. *Acidaminobacter*, An existing genus; *Secusacidaminobacter*: A genus related to but distinct from the existing genus Acidaminobacter of beside.

Secusacidaminococcus

L. masc. preposition *secus*, beside; L. masc. n. *Acidaminococcus*, An existing genus; *Secusacidaminococcus*: A genus related to but distinct from the existing genus Acidaminococcus of beside.

Secusacidianus

L. masc. preposition *secus*, beside; L. masc. n. *Acidianus*, An existing genus; *Secusacidianus*: A genus related to but distinct from the existing genus Acidianus of beside.

Secusacidibrevibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Acidibrevibacterium*, An existing genus; *Secusacidibrevibacterium*: A genus related to but distinct from the existing genus Acidibrevibacterium of beside.

Secusacidicaldus

L. masc. preposition *secus*, beside; L. masc. n. *Acidicaldus*, An existing genus; *Secusacidicaldus*: A genus related to but distinct from the existing genus Acidicaldus of beside.

Secusacidicapsa

L. masc. preposition *secus*, beside; L. fem. n. *Acidicapsa*, An existing genus; *Secusacidicapsa*: A genus related to but distinct from the existing genus Acidicapsa of beside.

Secusacidiferrimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Acidiferrimicrobium*, An existing genus; *Secusacidiferrimicrobium*: A genus related to but distinct from the existing genus Acidiferrimicrobium of beside.

Secusacidiferrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Acidiferrobacter*, An existing genus; *Secusacidiferrobacter*: A genus related to but distinct from the existing genus Acidiferrobacter of beside.

Secusacidihalobacter

L. masc. preposition *secus*, beside; L. masc. n. *Acidihalobacter*, An existing genus; *Secusacidihalobacter*: A genus related to but distinct from the existing genus Acidihalobacter of beside.

Secusacidilobus

L. masc. preposition *secus*, beside; L. masc. n. *Acidilobus*, An existing genus; *Secusacidilobus*: A genus related to but distinct from the existing genus Acidilobus of beside.

Secusacidimangrovimonas

L. masc. preposition *secus*, beside; L. fem. n. *Acidimangrovimonas*, An existing genus; *Secusacidimangrovimonas*: A genus related to but distinct from the existing genus Acidimangrovimonas of beside.

Secusacidimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Acidimicrobium*, An existing genus; *Secusacidimicrobium*: A genus related to but distinct from the existing genus Acidimicrobium of beside.

Secusacidiphilium

L. masc. preposition *secus*, beside; L. neut. n. *Acidiphilium*, An existing genus; *Secusacidiphilium*: A genus related to but distinct from the existing genus Acidiphilium of beside.

Secusacidiplasma

L. masc. preposition *secus*, beside; L. neut. n. *Acidiplasma*, An existing genus; *Secusacidiplasma*: A genus related to but distinct from the existing genus Acidiplasma of beside.

Secusacidipropionibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Acidipropionibacterium*, An existing genus; *Secusacidipropionibacterium*: A genus related to but distinct from the existing genus Acidipropionibacterium of beside.

Secusacidisarcina

L. masc. preposition *secus*, beside; L. fem. n. *Acidisarcina*, An existing genus; *Secusacidisarcina*: A genus related to but distinct from the existing genus Acidisarcina of beside.

Secusacidisoma

L. masc. preposition *secus*, beside; L. neut. n. *Acidisoma*, An existing genus; *Secusacidisoma*: A genus related to but distinct from the existing genus Acidisoma of beside.

Secusacidisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Acidisphaera*, An existing genus; *Secusacidisphaera*: A genus related to but distinct from the existing genus Acidisphaera of beside.

Secusacidithiobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Acidithiobacillus*, An existing genus; *Secusacidithiobacillus*: A genus related to but distinct from the existing genus Acidithiobacillus of beside.

Secusacidithrix

L. masc. preposition *secus*, beside; L. fem. n. *Acidithrix*, An existing genus; *Secusacidithrix*: A genus related to but distinct from the existing genus Acidithrix of beside.

Secusacidocella

L. masc. preposition *secus*, beside; L. fem. n. *Acidocella*, An existing genus; *Secusacidocella*: A genus related to but distinct from the existing genus Acidocella of beside.

Secusacidovorax

L. masc. preposition *secus*, beside; L. masc. n. *Acidovorax*, An existing genus; *Secusacidovorax*: A genus related to but distinct from the existing genus Acidovorax of beside.

Secusacinetobacter

L. masc. preposition *secus*, beside; L. masc. n. *Acinetobacter*, An existing genus; *Secusacinetobacter*: A genus related to but distinct from the existing genus Acinetobacter of beside.

Secusacrocarpospora

L. masc. preposition *secus*, beside; L. fem. n. *Acrocarpospora*, An existing genus; *Secusacrocarpospora*: A genus related to but distinct from the existing genus Acrocarpospora of beside.

Secusactibacter

L. masc. preposition *secus*, beside; L. masc. n. *Actibacter*, An existing genus; *Secusactibacter*: A genus related to but distinct from the existing genus Actibacter of beside.

Secusactibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Actibacterium*, An existing genus; *Secusactibacterium*: A genus related to but distinct from the existing genus Actibacterium of beside.

Secusactimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Actimicrobium*, An existing genus; *Secusactimicrobium*: A genus related to but distinct from the existing genus Actimicrobium of beside.

Secusactinaurispora

L. masc. preposition *secus*, beside; L. fem. n. *Actinaurispora*, An existing genus; *Secusactinaurispora*: A genus related to but distinct from the existing genus Actinaurispora of beside.

Secusactinoallomurus

L. masc. preposition *secus*, beside; L. masc. n. *Actinoallomurus*, An existing genus; *Secusactinoallomurus*: A genus related to but distinct from the existing genus Actinoallomurus of beside.

Secusactinobispora

L. masc. preposition *secus*, beside; L. fem. n. *Actinobispora*, An existing genus; *Secusactinobispora*: A genus related to but distinct from the existing genus Actinobispora of beside.

Secusactinocatenispora

L. masc. preposition *secus*, beside; L. fem. n. *Actinocatenispora*, An existing genus; *Secusactinocatenispora*: A genus related to but distinct from the existing genus Actinocatenispora of beside.

Secusactinocorallia

L. masc. preposition *secus*, beside; L. fem. n. *Actinocorallia*, An existing genus; *Secusactinocorallia*: A genus related to but distinct from the existing genus Actinocorallia of beside.

Secusactinocrinis

L. masc. preposition *secus*, beside; L. masc. n. *Actinocrinis*, An existing genus; *Secusactinocrinis*: A genus related to but distinct from the existing genus Actinocrinis of beside.

Secusactinocrispum

L. masc. preposition *secus*, beside; L. neut. n. *Actinocrispum*, An existing genus; *Secusactinocrispum*: A genus related to but distinct from the existing genus Actinocrispum of beside.

Secusactinokineospora

L. masc. preposition *secus*, beside; L. fem. n. *Actinokineospora*, An existing genus; *Secusactinokineospora*: A genus related to but distinct from the existing genus Actinokineospora of beside.

Secusactinomadura

L. masc. preposition *secus*, beside; L. fem. n. *Actinomadura*, An existing genus; *Secusactinomadura*: A genus related to but distinct from the existing genus Actinomadura of beside.

Secusactinomarinicola

L. masc. preposition *secus*, beside; L. fem. n. *Actinomarinicola*, An existing genus; *Secusactinomarinicola*: A genus related to but distinct from the existing genus Actinomarinicola of beside.

Secusactinomyces

L. masc. preposition *secus*, beside; L. masc. n. *Actinomyces*, An existing genus; *Secusactinomyces*: A genus related to but distinct from the existing genus Actinomyces of beside.

Secusactinomycetospora

L. masc. preposition *secus*, beside; L. fem. n. *Actinomycetospora*, An existing genus; *Secusactinomycetospora*: A genus related to but distinct from the existing genus Actinomycetospora of beside.

Secusactinophytocola

L. masc. preposition *secus*, beside; L. masc. n. *Actinophytocola*, An existing genus; *Secusactinophytocola*: A genus related to but distinct from the existing genus Actinophytocola of beside.

Secusactinoplanes

L. masc. preposition *secus*, beside; L. masc. n. *Actinoplanes*, An existing genus; *Secusactinoplanes*: A genus related to but distinct from the existing genus Actinoplanes of beside.

Secusactinopolymorpha

L. masc. preposition *secus*, beside; L. fem. n. *Actinopolymorpha*, An existing genus; *Secusactinopolymorpha*: A genus related to but distinct from the existing genus Actinopolymorpha of beside.

Secusactinopolyspora

L. masc. preposition *secus*, beside; L. fem. n. *Actinopolyspora*, An existing genus; *Secusactinopolyspora*: A genus related to but distinct from the existing genus Actinopolyspora of beside.

Secusactinorectispora

L. masc. preposition *secus*, beside; L. fem. n. *Actinorectispora*, An existing genus; *Secusactinorectispora*: A genus related to but distinct from the existing genus Actinorectispora of beside.

Secusactinorhabdospora

L. masc. preposition *secus*, beside; L. fem. n. *Actinorhabdospora*, An existing genus; *Secusactinorhabdospora*: A genus related to but distinct from the existing genus Actinorhabdospora of beside.

Secusactinorugispora

L. masc. preposition *secus*, beside; L. fem. n. *Actinorugispora*, An existing genus; *Secusactinorugispora*: A genus related to but distinct from the existing genus Actinorugispora of beside.

Secusactinospica

L. masc. preposition *secus*, beside; L. fem. n. *Actinospica*, An existing genus; *Secusactinospica*: A genus related to but distinct from the existing genus Actinospica of beside.

Secusactinosporangium

L. masc. preposition *secus*, beside; L. neut. n. *Actinosporangium*, An existing genus; *Secusactinosporangium*: A genus related to but distinct from the existing genus Actinosporangium of beside.

Secusactinosynnema

L. masc. preposition *secus*, beside; L. neut. n. *Actinosynnema*, An existing genus; *Secusactinosynnema*: A genus related to but distinct from the existing genus Actinosynnema of beside.

Secusactinotalea

L. masc. preposition *secus*, beside; L. fem. n. *Actinotalea*, An existing genus; *Secusactinotalea*: A genus related to but distinct from the existing genus Actinotalea of beside.

Secusactinotignum

L. masc. preposition *secus*, beside; L. neut. n. *Actinotignum*, An existing genus; *Secusactinotignum*: A genus related to but distinct from the existing genus Actinotignum of beside.

Secusacutalibacter

L. masc. preposition *secus*, beside; L. masc. n. *Acutalibacter*, An existing genus; *Secusacutalibacter*: A genus related to but distinct from the existing genus Acutalibacter of beside.

Secusacuticoccus

L. masc. preposition *secus*, beside; L. masc. n. *Acuticoccus*, An existing genus; *Secusacuticoccus*: A genus related to but distinct from the existing genus Acuticoccus of beside.

Secusadhaeribacter

L. masc. preposition *secus*, beside; L. masc. n. *Adhaeribacter*, An existing genus; *Secusadhaeribacter*: A genus related to but distinct from the existing genus Adhaeribacter of beside.

Secusadlercreutzia

L. masc. preposition *secus*, beside; L. fem. n. *Adlercreutzia*, An existing genus; *Secusadlercreutzia*: A genus related to but distinct from the existing genus Adlercreutzia of beside.

Secusadvenella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Advenella*, An existing genus; *Secusadvenella*: A genus related to but distinct from the existing genus Advenella of beside.

Secusaegyptianella

L. masc. preposition *secus*, beside; L. fem. n. *Aegyptianella*, An existing genus; *Secusaegyptianella*: A genus related to but distinct from the existing genus Aegyptianella of beside.

Secusaequoribacter

L. masc. preposition *secus*, beside; L. masc. n. *Aequoribacter*, An existing genus; *Secusaequoribacter*: A genus related to but distinct from the existing genus Aequoribacter of beside.

Secusaequorivita

L. masc. preposition *secus*, beside; L. fem. n. *Aequorivita*, An existing genus; *Secusaequorivita*: A genus related to but distinct from the existing genus Aequorivita of beside.

Secusaeribacillus

L. masc. preposition *secus*, beside; L. masc. n. *Aeribacillus*, An existing genus; *Secusaeribacillus*: A genus related to but distinct from the existing genus Aeribacillus of beside.

Secusaeriscardovia

L. masc. preposition *secus*, beside; L. fem. n. *Aeriscardovia*, An existing genus; *Secusaeriscardovia*: A genus related to but distinct from the existing genus Aeriscardovia of beside.

Secusaerococcus

L. masc. preposition *secus*, beside; L. masc. n. *Aerococcus*, An existing genus; *Secusaerococcus*: A genus related to but distinct from the existing genus Aerococcus of beside.

Secusaeromicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Aeromicrobium*, An existing genus; *Secusaeromicrobium*: A genus related to but distinct from the existing genus Aeromicrobium of beside.

Secusaeropyrum

L. masc. preposition *secus*, beside; L. neut. n. *Aeropyrum*, An existing genus; *Secusaeropyrum*: A genus related to but distinct from the existing genus Aeropyrum of beside.

Secusaerosakkonema

L. masc. preposition *secus*, beside; L. neut. n. *Aerosakkonema*, An existing genus; *Secusaerosakkonema*: A genus related to but distinct from the existing genus Aerosakkonema of beside.

Secusaestuariibacter

L. masc. preposition *secus*, beside; L. masc. n. *Aestuariibacter*, An existing genus; *Secusaestuariibacter*: A genus related to but distinct from the existing genus Aestuariibacter of beside.

Secusaestuariibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Aestuariibaculum*, An existing genus; *Secusaestuariibaculum*: A genus related to but distinct from the existing genus Aestuariibaculum of beside.

Secusaestuariibius

L. masc. preposition *secus*, beside; L. masc. n. *Aestuariibius*, An existing genus; *Secusaestuariibius*: A genus related to but distinct from the existing genus Aestuariibius of beside.

Secusaestuariicella

L. masc. preposition *secus*, beside; L. fem. n. *Aestuariicella*, An existing genus; *Secusaestuariicella*: A genus related to but distinct from the existing genus Aestuariicella of beside.

Secusaestuariicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Aestuariicoccus*, An existing genus; *Secusaestuariicoccus*: A genus related to but distinct from the existing genus Aestuariicoccus of beside.

Secusaestuariicola

L. masc. preposition *secus*, beside; L. masc. n. *Aestuariicola*, An existing genus; *Secusaestuariicola*: A genus related to but distinct from the existing genus Aestuariicola of beside.

Secusaestuariihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Aestuariihabitans*, An existing genus; *Secusaestuariihabitans*: A genus related to but distinct from the existing genus Aestuariihabitans of beside.

Secusaestuariimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Aestuariimicrobium*, An existing genus; *Secusaestuariimicrobium*: A genus related to but distinct from the existing genus Aestuariimicrobium of beside.

Secusaestuariirhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Aestuariirhabdus*, An existing genus; *Secusaestuariirhabdus*: A genus related to but distinct from the existing genus Aestuariirhabdus of beside.

Secusaestuariisphingobium

L. masc. preposition *secus*, beside; L. neut. n. *Aestuariisphingobium*, An existing genus; *Secusaestuariisphingobium*: A genus related to but distinct from the existing genus Aestuariisphingobium of beside.

Secusaestuariivirga

L. masc. preposition *secus*, beside; L. fem. n. *Aestuariivirga*, An existing genus; *Secusaestuariivirga*: A genus related to but distinct from the existing genus Aestuariivirga of beside.

Secusaestuariivita

L. masc. preposition *secus*, beside; L. fem. n. *Aestuariivita*, An existing genus; *Secusaestuariivita*: A genus related to but distinct from the existing genus Aestuariivita of beside.

Secusaestuarium

L. masc. preposition *secus*, beside; L. neut. n. *Aestuarium*, An existing genus; *Secusaestuarium*: A genus related to but distinct from the existing genus Aestuarium of beside.

Secusaetherobacter

L. masc. preposition *secus*, beside; L. masc. n. *Aetherobacter*, An existing genus; *Secusaetherobacter*: A genus related to but distinct from the existing genus Aetherobacter of beside.

Secusafifella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Afifella*, An existing genus; *Secusafifella*: A genus related to but distinct from the existing genus Afifella of beside.

Secusafipia

L. masc. preposition *secus*, beside; L. fem. n. *Afipia*, An existing genus; *Secusafipia*: A genus related to but distinct from the existing genus Afipia of beside.

Secusagaribacter

L. masc. preposition *secus*, beside; L. masc. n. *Agaribacter*, An existing genus; *Secusagaribacter*: A genus related to but distinct from the existing genus Agaribacter of beside.

Secusagaribacterium

L. masc. preposition *secus*, beside; L. neut. n. *Agaribacterium*, An existing genus; *Secusagaribacterium*: A genus related to but distinct from the existing genus Agaribacterium of beside.

Secusagaricicola

L. masc. preposition *secus*, beside; L. masc. n. *Agaricicola*, An existing genus; *Secusagaricicola*: A genus related to but distinct from the existing genus Agaricicola of beside.

Secusagarilytica

L. masc. preposition *secus*, beside; L. fem. n. *Agarilytica*, An existing genus; *Secusagarilytica*: A genus related to but distinct from the existing genus Agarilytica of beside.

Secusagarivorans

L. masc. preposition *secus*, beside; L. masc. n. *Agarivorans*, An existing genus; *Secusagarivorans*: A genus related to but distinct from the existing genus Agarivorans of beside.

Secusagathobacter

L. masc. preposition *secus*, beside; L. masc. n. *Agathobacter*, An existing genus; *Secusagathobacter*: A genus related to but distinct from the existing genus Agathobacter of beside.

Secusagathobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Agathobaculum*, An existing genus; *Secusagathobaculum*: A genus related to but distinct from the existing genus Agathobaculum of beside.

Secusaggregatibacter

L. masc. preposition *secus*, beside; L. masc. n. *Aggregatibacter*, An existing genus; *Secusaggregatibacter*: A genus related to but distinct from the existing genus Aggregatibacter of beside.

Secusaggregatilinea

L. masc. preposition *secus*, beside; L. fem. n. *Aggregatilinea*, An existing genus; *Secusaggregatilinea*: A genus related to but distinct from the existing genus Aggregatilinea of beside.

Secusaggregicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Aggregicoccus*, An existing genus; *Secusaggregicoccus*: A genus related to but distinct from the existing genus Aggregicoccus of beside.

Secusagitococcus

L. masc. preposition *secus*, beside; L. masc. n. *Agitococcus*, An existing genus; *Secusagitococcus*: A genus related to but distinct from the existing genus Agitococcus of beside.

Secusagreia

L. masc. preposition *secus*, beside; L. fem. n. *Agreia*, An existing genus; *Secusagreia*: A genus related to but distinct from the existing genus Agreia of beside.

Secusagrilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Agrilactobacillus*, An existing genus; *Secusagrilactobacillus*: A genus related to but distinct from the existing genus Agrilactobacillus of beside.

Secusagrobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Agrobacterium*, An existing genus; *Secusagrobacterium*: A genus related to but distinct from the existing genus Agrobacterium of beside.

Secusagrococcus

L. masc. preposition *secus*, beside; L. masc. n. *Agrococcus*, An existing genus; *Secusagrococcus*: A genus related to but distinct from the existing genus Agrococcus of beside.

Secusagromonas

L. masc. preposition *secus*, beside; L. fem. n. *Agromonas*, An existing genus; *Secusagromonas*: A genus related to but distinct from the existing genus Agromonas of beside.

Secusagromyces

L. masc. preposition *secus*, beside; L. masc. n. *Agromyces*, An existing genus; *Secusagromyces*: A genus related to but distinct from the existing genus Agromyces of beside.

Secusahniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Ahniella*, An existing genus; *Secusahniella*: A genus related to but distinct from the existing genus Ahniella of beside.

Secusahrensia

L. masc. preposition *secus*, beside; L. fem. n. *Ahrensia*, An existing genus; *Secusahrensia*: A genus related to but distinct from the existing genus Ahrensia of beside.

Secusaidingibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Aidingibacillus*, An existing genus; *Secusaidingibacillus*: A genus related to but distinct from the existing genus Aidingibacillus of beside.

Secusaidingimonas

L. masc. preposition *secus*, beside; L. fem. n. *Aidingimonas*, An existing genus; *Secusaidingimonas*: A genus related to but distinct from the existing genus Aidingimonas of beside.

Secusakkermansia

L. masc. preposition *secus*, beside; L. fem. n. *Akkermansia*, An existing genus; *Secusakkermansia*: A genus related to but distinct from the existing genus Akkermansia of beside.

Secusalbertania

L. masc. preposition *secus*, beside; L. fem. n. *Albertania*, An existing genus; *Secusalbertania*: A genus related to but distinct from the existing genus Albertania of beside.

Secusalbibacter

L. masc. preposition *secus*, beside; L. masc. n. *Albibacter*, An existing genus; *Secusalbibacter*: A genus related to but distinct from the existing genus Albibacter of beside.

Secusalbibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Albibacterium*, An existing genus; *Secusalbibacterium*: A genus related to but distinct from the existing genus Albibacterium of beside.

Secusalbidiferax

L. masc. preposition *secus*, beside; L. masc. n. *Albidiferax*, An existing genus; *Secusalbidiferax*: A genus related to but distinct from the existing genus Albidiferax of beside.

Secusalbidovulum

L. masc. preposition *secus*, beside; L. neut. n. *Albidovulum*, An existing genus; *Secusalbidovulum*: A genus related to but distinct from the existing genus Albidovulum of beside.

Secusalbimonas

L. masc. preposition *secus*, beside; L. fem. n. *Albimonas*, An existing genus; *Secusalbimonas*: A genus related to but distinct from the existing genus Albimonas of beside.

Secusalbirhodobacter

L. masc. preposition *secus*, beside; L. masc. n. *Albirhodobacter*, An existing genus; *Secusalbirhodobacter*: A genus related to but distinct from the existing genus Albirhodobacter of beside.

Secusalbrightia

L. masc. preposition *secus*, beside; L. fem. n. *Albrightia*, An existing genus; *Secusalbrightia*: A genus related to but distinct from the existing genus Albrightia of beside.

Secusalcaligenes

L. masc. preposition *secus*, beside; L. masc. n. *Alcaligenes*, An existing genus; *Secusalcaligenes*: A genus related to but distinct from the existing genus Alcaligenes of beside.

Secusalcanivorax

L. masc. preposition *secus*, beside; L. masc. n. *Alcanivorax*, An existing genus; *Secusalcanivorax*: A genus related to but distinct from the existing genus Alcanivorax of beside.

Secusaldersonia

L. masc. preposition *secus*, beside; L. fem. n. *Aldersonia*, An existing genus; *Secusaldersonia*: A genus related to but distinct from the existing genus Aldersonia of beside.

Secusalgibacter

L. masc. preposition *secus*, beside; L. masc. n. *Algibacter*, An existing genus; *Secusalgibacter*: A genus related to but distinct from the existing genus Algibacter of beside.

Secusalgicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Algicoccus*, An existing genus; *Secusalgicoccus*: A genus related to but distinct from the existing genus Algicoccus of beside.

Secusalgicola

L. masc. preposition *secus*, beside; L. fem. n. *Algicola*, An existing genus; *Secusalgicola*: A genus related to but distinct from the existing genus Algicola of beside.

Secusalgihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Algihabitans*, An existing genus; *Secusalgihabitans*: A genus related to but distinct from the existing genus Algihabitans of beside.

Secusalgimonas

L. masc. preposition *secus*, beside; L. fem. n. *Algimonas*, An existing genus; *Secusalgimonas*: A genus related to but distinct from the existing genus Algimonas of beside.

Secusalginatibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Alginatibacterium*, An existing genus; *Secusalginatibacterium*: A genus related to but distinct from the existing genus Alginatibacterium of beside.

Secusalgiphilus

L. masc. preposition *secus*, beside; L. masc. n. *Algiphilus*, An existing genus; *Secusalgiphilus*: A genus related to but distinct from the existing genus Algiphilus of beside.

Secusalgisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Algisphaera*, An existing genus; *Secusalgisphaera*: A genus related to but distinct from the existing genus Algisphaera of beside.

Secusalgitalea

L. masc. preposition *secus*, beside; L. fem. n. *Algitalea*, An existing genus; *Secusalgitalea*: A genus related to but distinct from the existing genus Algitalea of beside.

Secusalgivirga

L. masc. preposition *secus*, beside; L. fem. n. *Algivirga*, An existing genus; *Secusalgivirga*: A genus related to but distinct from the existing genus Algivirga of beside.

Secusalgoriella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Algoriella*, An existing genus; *Secusalgoriella*: A genus related to but distinct from the existing genus Algoriella of beside.

Secusalgorimarina

L. masc. preposition *secus*, beside; L. fem. n. *Algorimarina*, An existing genus; *Secusalgorimarina*: A genus related to but distinct from the existing genus Algorimarina of beside.

Secusalgoriphagus

L. masc. preposition *secus*, beside; L. masc. n. *Algoriphagus*, An existing genus; *Secusalgoriphagus*: A genus related to but distinct from the existing genus Algoriphagus of beside.

Secusaliagarivorans

L. masc. preposition *secus*, beside; L. masc. n. *Aliagarivorans*, An existing genus; *Secusaliagarivorans*: A genus related to but distinct from the existing genus Aliagarivorans of beside.

Secusaliarcobacter

L. masc. preposition *secus*, beside; L. masc. n. *Aliarcobacter*, An existing genus; *Secusaliarcobacter*: A genus related to but distinct from the existing genus Aliarcobacter of beside.

Secusalicycliphilus

L. masc. preposition *secus*, beside; L. masc. n. *Alicycliphilus*, An existing genus; *Secusalicycliphilus*: A genus related to but distinct from the existing genus Alicycliphilus of beside.

Secusalicyclobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Alicyclobacillus*, An existing genus; *Secusalicyclobacillus*: A genus related to but distinct from the existing genus Alicyclobacillus of beside.

Secusalienimonas

L. masc. preposition *secus*, beside; L. fem. n. *Alienimonas*, An existing genus; *Secusalienimonas*: A genus related to but distinct from the existing genus Alienimonas of beside.

Secusaliibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Aliibacillus*, An existing genus; *Secusaliibacillus*: A genus related to but distinct from the existing genus Aliibacillus of beside.

Secusaliicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Aliicoccus*, An existing genus; *Secusaliicoccus*: A genus related to but distinct from the existing genus Aliicoccus of beside.

Secusaliidiomarina

L. masc. preposition *secus*, beside; L. fem. n. *Aliidiomarina*, An existing genus; *Secusaliidiomarina*: A genus related to but distinct from the existing genus Aliidiomarina of beside.

Secusaliidongia

L. masc. preposition *secus*, beside; L. fem. n. *Aliidongia*, An existing genus; *Secusaliidongia*: A genus related to but distinct from the existing genus Aliidongia of beside.

Secusaliifodinibius

L. masc. preposition *secus*, beside; L. masc. n. *Aliifodinibius*, An existing genus; *Secusaliifodinibius*: A genus related to but distinct from the existing genus Aliifodinibius of beside.

Secusaliiglaciecola

L. masc. preposition *secus*, beside; L. fem. n. *Aliiglaciecola*, An existing genus; *Secusaliiglaciecola*: A genus related to but distinct from the existing genus Aliiglaciecola of beside.

Secusaliihoeflea

L. masc. preposition *secus*, beside; L. fem. n. *Aliihoeflea*, An existing genus; *Secusaliihoeflea*: A genus related to but distinct from the existing genus Aliihoeflea of beside.

Secusaliikangiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Aliikangiella*, An existing genus; *Secusaliikangiella*: A genus related to but distinct from the existing genus Aliikangiella of beside.

Secusaliinostoc

L. masc. preposition *secus*, beside; L. neut. n. *Aliinostoc*, An existing genus; *Secusaliinostoc*: A genus related to but distinct from the existing genus Aliinostoc of beside.

Secusaliiroseovarius

L. masc. preposition *secus*, beside; L. masc. n. *Aliiroseovarius*, An existing genus; *Secusaliiroseovarius*: A genus related to but distinct from the existing genus Aliiroseovarius of beside.

Secusaliisedimentitalea

L. masc. preposition *secus*, beside; L. fem. n. *Aliisedimentitalea*, An existing genus; *Secusaliisedimentitalea*: A genus related to but distinct from the existing genus Aliisedimentitalea of beside.

Secusaliishimia

L. masc. preposition *secus*, beside; L. fem. n. *Aliishimia*, An existing genus; *Secusaliishimia*: A genus related to but distinct from the existing genus Aliishimia of beside.

Secusaliivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Aliivibrio*, An existing genus; *Secusaliivibrio*: A genus related to but distinct from the existing genus Aliivibrio of beside.

Secusalishewanella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Alishewanella*, An existing genus; *Secusalishewanella*: A genus related to but distinct from the existing genus Alishewanella of beside.

Secusalistipes

L. masc. preposition *secus*, beside; L. masc. n. *Alistipes*, An existing genus; *Secusalistipes*: A genus related to but distinct from the existing genus Alistipes of beside.

Secusaliterella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Aliterella*, An existing genus; *Secusaliterella*: A genus related to but distinct from the existing genus Aliterella of beside.

Secusalkalibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Alkalibacillus*, An existing genus; *Secusalkalibacillus*: A genus related to but distinct from the existing genus Alkalibacillus of beside.

Secusalkalibacter

L. masc. preposition *secus*, beside; L. masc. n. *Alkalibacter*, An existing genus; *Secusalkalibacter*: A genus related to but distinct from the existing genus Alkalibacter of beside.

Secusalkalibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Alkalibacterium*, An existing genus; *Secusalkalibacterium*: A genus related to but distinct from the existing genus Alkalibacterium of beside.

Secusalkalibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Alkalibaculum*, An existing genus; *Secusalkalibaculum*: A genus related to but distinct from the existing genus Alkalibaculum of beside.

Secusalkalicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Alkalicoccus*, An existing genus; *Secusalkalicoccus*: A genus related to but distinct from the existing genus Alkalicoccus of beside.

Secusalkaliflexus

L. masc. preposition *secus*, beside; L. masc. n. *Alkaliflexus*, An existing genus; *Secusalkaliflexus*: A genus related to but distinct from the existing genus Alkaliflexus of beside.

Secusalkalihalobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Alkalihalobacillus*, An existing genus; *Secusalkalihalobacillus*: A genus related to but distinct from the existing genus Alkalihalobacillus of beside.

Secusalkalilactibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Alkalilactibacillus*, An existing genus; *Secusalkalilactibacillus*: A genus related to but distinct from the existing genus Alkalilactibacillus of beside.

Secusalkalilacustris

L. masc. preposition *secus*, beside; L. masc. n. *Alkalilacustris*, An existing genus; *Secusalkalilacustris*: A genus related to but distinct from the existing genus Alkalilacustris of beside.

Secusalkalimarinus

L. masc. preposition *secus*, beside; L. masc. n. *Alkalimarinus*, An existing genus; *Secusalkalimarinus*: A genus related to but distinct from the existing genus Alkalimarinus of beside.

Secusalkalimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Alkalimicrobium*, An existing genus; *Secusalkalimicrobium*: A genus related to but distinct from the existing genus Alkalimicrobium of beside.

Secusalkalimonas

L. masc. preposition *secus*, beside; L. fem. n. *Alkalimonas*, An existing genus; *Secusalkalimonas*: A genus related to but distinct from the existing genus Alkalimonas of beside.

Secusalkalinema

L. masc. preposition *secus*, beside; L. neut. n. *Alkalinema*, An existing genus; *Secusalkalinema*: A genus related to but distinct from the existing genus Alkalinema of beside.

Secusalkaliphilus

L. masc. preposition *secus*, beside; L. masc. n. *Alkaliphilus*, An existing genus; *Secusalkaliphilus*: A genus related to but distinct from the existing genus Alkaliphilus of beside.

Secusalkalispirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Alkalispirillum*, An existing genus; *Secusalkalispirillum*: A genus related to but distinct from the existing genus Alkalispirillum of beside.

Secusalkalispirochaeta

L. masc. preposition *secus*, beside; L. fem. n. *Alkalispirochaeta*, An existing genus; *Secusalkalispirochaeta*: A genus related to but distinct from the existing genus Alkalispirochaeta of beside.

Secusalkalitalea

L. masc. preposition *secus*, beside; L. fem. n. *Alkalitalea*, An existing genus; *Secusalkalitalea*: A genus related to but distinct from the existing genus Alkalitalea of beside.

Secusalkanibacter

L. masc. preposition *secus*, beside; L. masc. n. *Alkanibacter*, An existing genus; *Secusalkanibacter*: A genus related to but distinct from the existing genus Alkanibacter of beside.

Secusalkanindiges

L. masc. preposition *secus*, beside; L. masc. n. *Alkanindiges*, An existing genus; *Secusalkanindiges*: A genus related to but distinct from the existing genus Alkanindiges of beside.

Secusallisonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Allisonella*, An existing genus; *Secusallisonella*: A genus related to but distinct from the existing genus Allisonella of beside.

Secusalloactinosynnema

L. masc. preposition *secus*, beside; L. neut. n. *Alloactinosynnema*, An existing genus; *Secusalloactinosynnema*: A genus related to but distinct from the existing genus Alloactinosynnema of beside.

Secusallobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Allobacillus*, An existing genus; *Secusallobacillus*: A genus related to but distinct from the existing genus Allobacillus of beside.

Secusallobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Allobaculum*, An existing genus; *Secusallobaculum*: A genus related to but distinct from the existing genus Allobaculum of beside.

Secusallobranchiibius

L. masc. preposition *secus*, beside; L. masc. n. *Allobranchiibius*, An existing genus; *Secusallobranchiibius*: A genus related to but distinct from the existing genus Allobranchiibius of beside.

Secusallocatelliglobosispora

L. masc. preposition *secus*, beside; L. fem. n. *Allocatelliglobosispora*, An existing genus; *Secusallocatelliglobosispora*: A genus related to but distinct from the existing genus Allocatelliglobosispora of beside.

Secusallochromatium

L. masc. preposition *secus*, beside; L. neut. n. *Allochromatium*, An existing genus; *Secusallochromatium*: A genus related to but distinct from the existing genus Allochromatium of beside.

Secusallofrancisella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Allofrancisella*, An existing genus; *Secusallofrancisella*: A genus related to but distinct from the existing genus Allofrancisella of beside.

Secusallofustis

L. masc. preposition *secus*, beside; L. masc. n. *Allofustis*, An existing genus; *Secusallofustis*: A genus related to but distinct from the existing genus Allofustis of beside.

Secusallohahella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Allohahella*, An existing genus; *Secusallohahella*: A genus related to but distinct from the existing genus Allohahella of beside.

Secusallohumibacter

L. masc. preposition *secus*, beside; L. masc. n. *Allohumibacter*, An existing genus; *Secusallohumibacter*: A genus related to but distinct from the existing genus Allohumibacter of beside.

Secusalloiococcus

L. masc. preposition *secus*, beside; L. masc. n. *Alloiococcus*, An existing genus; *Secusalloiococcus*: A genus related to but distinct from the existing genus Alloiococcus of beside.

Secusallokutzneria

L. masc. preposition *secus*, beside; L. fem. n. *Allokutzneria*, An existing genus; *Secusallokutzneria*: A genus related to but distinct from the existing genus Allokutzneria of beside.

Secusallomonas

L. masc. preposition *secus*, beside; L. fem. n. *Allomonas*, An existing genus; *Secusallomonas*: A genus related to but distinct from the existing genus Allomonas of beside.

Secusallonocardiopsis

L. masc. preposition *secus*, beside; L. fem. n. *Allonocardiopsis*, An existing genus; *Secusallonocardiopsis*: A genus related to but distinct from the existing genus Allonocardiopsis of beside.

Secusalloprevotella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Alloprevotella*, An existing genus; *Secusalloprevotella*: A genus related to but distinct from the existing genus Alloprevotella of beside.

Secusallopseudarcicella

L. masc. preposition *secus*, beside; L. fem. n. *Allopseudarcicella*, An existing genus; *Secusallopseudarcicella*: A genus related to but distinct from the existing genus Allopseudarcicella of beside.

Secusallorhizobium

L. masc. preposition *secus*, beside; L. neut. n. *Allorhizobium*, An existing genus; *Secusallorhizobium*: A genus related to but distinct from the existing genus Allorhizobium of beside.

Secusallorhizocola

L. masc. preposition *secus*, beside; L. masc. n. *Allorhizocola*, An existing genus; *Secusallorhizocola*: A genus related to but distinct from the existing genus Allorhizocola of beside.

Secusallosalinactinospora

L. masc. preposition *secus*, beside; L. fem. n. *Allosalinactinospora*, An existing genus; *Secusallosalinactinospora*: A genus related to but distinct from the existing genus Allosalinactinospora of beside.

Secusalloscardovia

L. masc. preposition *secus*, beside; L. fem. n. *Alloscardovia*, An existing genus; *Secusalloscardovia*: A genus related to but distinct from the existing genus Alloscardovia of beside.

Secusallostreptomyces

L. masc. preposition *secus*, beside; L. masc. n. *Allostreptomyces*, An existing genus; *Secusallostreptomyces*: A genus related to but distinct from the existing genus Allostreptomyces of beside.

Secusalpinimonas

L. masc. preposition *secus*, beside; L. fem. n. *Alpinimonas*, An existing genus; *Secusalpinimonas*: A genus related to but distinct from the existing genus Alpinimonas of beside.

Secusalsobacter

L. masc. preposition *secus*, beside; L. masc. n. *Alsobacter*, An existing genus; *Secusalsobacter*: A genus related to but distinct from the existing genus Alsobacter of beside.

Secusaltererythrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Altererythrobacter*, An existing genus; *Secusaltererythrobacter*: A genus related to but distinct from the existing genus Altererythrobacter of beside.

Secusalteribacillus

L. masc. preposition *secus*, beside; L. masc. n. *Alteribacillus*, An existing genus; *Secusalteribacillus*: A genus related to but distinct from the existing genus Alteribacillus of beside.

Secusalterileibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Alterileibacterium*, An existing genus; *Secusalterileibacterium*: A genus related to but distinct from the existing genus Alterileibacterium of beside.

Secusalterococcus

L. masc. preposition *secus*, beside; L. masc. n. *Alterococcus*, An existing genus; *Secusalterococcus*: A genus related to but distinct from the existing genus Alterococcus of beside.

Secusalteromonas

L. masc. preposition *secus*, beside; L. fem. n. *Alteromonas*, An existing genus; *Secusalteromonas*: A genus related to but distinct from the existing genus Alteromonas of beside.

Secusaltuibacter

L. masc. preposition *secus*, beside; L. masc. n. *Altuibacter*, An existing genus; *Secusaltuibacter*: A genus related to but distinct from the existing genus Altuibacter of beside.

Secusalysiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Alysiella*, An existing genus; *Secusalysiella*: A genus related to but distinct from the existing genus Alysiella of beside.

Secusamantichitinum

L. masc. preposition *secus*, beside; L. neut. n. *Amantichitinum*, An existing genus; *Secusamantichitinum*: A genus related to but distinct from the existing genus Amantichitinum of beside.

Secusamaricoccus

L. masc. preposition *secus*, beside; L. masc. n. *Amaricoccus*, An existing genus; *Secusamaricoccus*: A genus related to but distinct from the existing genus Amaricoccus of beside.

Secusamazoninema

L. masc. preposition *secus*, beside; L. neut. n. *Amazoninema*, An existing genus; *Secusamazoninema*: A genus related to but distinct from the existing genus Amazoninema of beside.

Secusamedibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Amedibacillus*, An existing genus; *Secusamedibacillus*: A genus related to but distinct from the existing genus Amedibacillus of beside.

Secusamedibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Amedibacterium*, An existing genus; *Secusamedibacterium*: A genus related to but distinct from the existing genus Amedibacterium of beside.

Secusameyamaea

L. masc. preposition *secus*, beside; L. fem. n. *Ameyamaea*, An existing genus; *Secusameyamaea*: A genus related to but distinct from the existing genus Ameyamaea of beside.

Secusaminiphilus

L. masc. preposition *secus*, beside; L. masc. n. *Aminiphilus*, An existing genus; *Secusaminiphilus*: A genus related to but distinct from the existing genus Aminiphilus of beside.

Secusaminipila

L. masc. preposition *secus*, beside; L. fem. n. *Aminipila*, An existing genus; *Secusaminipila*: A genus related to but distinct from the existing genus Aminipila of beside.

Secusaminivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Aminivibrio*, An existing genus; *Secusaminivibrio*: A genus related to but distinct from the existing genus Aminivibrio of beside.

Secusaminobacter

L. masc. preposition *secus*, beside; L. masc. n. *Aminobacter*, An existing genus; *Secusaminobacter*: A genus related to but distinct from the existing genus Aminobacter of beside.

Secusaminobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Aminobacterium*, An existing genus; *Secusaminobacterium*: A genus related to but distinct from the existing genus Aminobacterium of beside.

Secusaminomonas

L. masc. preposition *secus*, beside; L. fem. n. *Aminomonas*, An existing genus; *Secusaminomonas*: A genus related to but distinct from the existing genus Aminomonas of beside.

Secusammassolinea

L. masc. preposition *secus*, beside; L. fem. n. *Ammassolinea*, An existing genus; *Secusammassolinea*: A genus related to but distinct from the existing genus Ammassolinea of beside.

Secusammonifex

L. masc. preposition *secus*, beside; L. masc. n. *Ammonifex*, An existing genus; *Secusammonifex*: A genus related to but distinct from the existing genus Ammonifex of beside.

Secusammoniibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Ammoniibacillus*, An existing genus; *Secusammoniibacillus*: A genus related to but distinct from the existing genus Ammoniibacillus of beside.

Secusammoniphilus

L. masc. preposition *secus*, beside; L. masc. n. *Ammoniphilus*, An existing genus; *Secusammoniphilus*: A genus related to but distinct from the existing genus Ammoniphilus of beside.

Secusamnibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Amnibacterium*, An existing genus; *Secusamnibacterium*: A genus related to but distinct from the existing genus Amnibacterium of beside.

Secusamniculibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Amniculibacterium*, An existing genus; *Secusamniculibacterium*: A genus related to but distinct from the existing genus Amniculibacterium of beside.

Secusamnimonas

L. masc. preposition *secus*, beside; L. fem. n. *Amnimonas*, An existing genus; *Secusamnimonas*: A genus related to but distinct from the existing genus Amnimonas of beside.

Secusamoebobacter

L. masc. preposition *secus*, beside; L. masc. n. *Amoebobacter*, An existing genus; *Secusamoebobacter*: A genus related to but distinct from the existing genus Amoebobacter of beside.

Secusamorphosporangium

L. masc. preposition *secus*, beside; L. neut. n. *Amorphosporangium*, An existing genus; *Secusamorphosporangium*: A genus related to but distinct from the existing genus Amorphosporangium of beside.

Secusamorphus

L. masc. preposition *secus*, beside; L. masc. n. *Amorphus*, An existing genus; *Secusamorphus*: A genus related to but distinct from the existing genus Amorphus of beside.

Secusamphibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Amphibacillus*, An existing genus; *Secusamphibacillus*: A genus related to but distinct from the existing genus Amphibacillus of beside.

Secusamphiheterocytum

L. masc. preposition *secus*, beside; L. neut. n. *Amphiheterocytum*, An existing genus; *Secusamphiheterocytum*: A genus related to but distinct from the existing genus Amphiheterocytum of beside.

Secusamphiplicatus

L. masc. preposition *secus*, beside; L. masc. n. *Amphiplicatus*, An existing genus; *Secusamphiplicatus*: A genus related to but distinct from the existing genus Amphiplicatus of beside.

Secusampullariella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Ampullariella*, An existing genus; *Secusampullariella*: A genus related to but distinct from the existing genus Ampullariella of beside.

Secusampullimonas

L. masc. preposition *secus*, beside; L. fem. n. *Ampullimonas*, An existing genus; *Secusampullimonas*: A genus related to but distinct from the existing genus Ampullimonas of beside.

Secusamycolata

L. masc. preposition *secus*, beside; L. fem. n. *Amycolata*, An existing genus; *Secusamycolata*: A genus related to but distinct from the existing genus Amycolata of beside.

Secusamycolatopsis

L. masc. preposition *secus*, beside; L. fem. n. *Amycolatopsis*, An existing genus; *Secusamycolatopsis*: A genus related to but distinct from the existing genus Amycolatopsis of beside.

Secusamycolicicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Amycolicicoccus*, An existing genus; *Secusamycolicicoccus*: A genus related to but distinct from the existing genus Amycolicicoccus of beside.

Secusamylibacter

L. masc. preposition *secus*, beside; L. masc. n. *Amylibacter*, An existing genus; *Secusamylibacter*: A genus related to but distinct from the existing genus Amylibacter of beside.

Secusamylolactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Amylolactobacillus*, An existing genus; *Secusamylolactobacillus*: A genus related to but distinct from the existing genus Amylolactobacillus of beside.

Secusanaerobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Anaerobacillus*, An existing genus; *Secusanaerobacillus*: A genus related to but distinct from the existing genus Anaerobacillus of beside.

Secusanaerobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Anaerobacterium*, An existing genus; *Secusanaerobacterium*: A genus related to but distinct from the existing genus Anaerobacterium of beside.

Secusanaerobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Anaerobaculum*, An existing genus; *Secusanaerobaculum*: A genus related to but distinct from the existing genus Anaerobaculum of beside.

Secusanaerobiospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Anaerobiospirillum*, An existing genus; *Secusanaerobiospirillum*: A genus related to but distinct from the existing genus Anaerobiospirillum of beside.

Secusanaerobium

L. masc. preposition *secus*, beside; L. neut. n. *Anaerobium*, An existing genus; *Secusanaerobium*: A genus related to but distinct from the existing genus Anaerobium of beside.

Secusanaerobranca

L. masc. preposition *secus*, beside; L. fem. n. *Anaerobranca*, An existing genus; *Secusanaerobranca*: A genus related to but distinct from the existing genus Anaerobranca of beside.

Secusanaerobutyricum

L. masc. preposition *secus*, beside; L. neut. n. *Anaerobutyricum*, An existing genus; *Secusanaerobutyricum*: A genus related to but distinct from the existing genus Anaerobutyricum of beside.

Secusanaerocella

L. masc. preposition *secus*, beside; L. fem. n. *Anaerocella*, An existing genus; *Secusanaerocella*: A genus related to but distinct from the existing genus Anaerocella of beside.

Secusanaerococcus

L. masc. preposition *secus*, beside; L. masc. n. *Anaerococcus*, An existing genus; *Secusanaerococcus*: A genus related to but distinct from the existing genus Anaerococcus of beside.

Secusanaerofilum

L. masc. preposition *secus*, beside; L. neut. n. *Anaerofilum*, An existing genus; *Secusanaerofilum*: A genus related to but distinct from the existing genus Anaerofilum of beside.

Secusanaeroglobus

L. masc. preposition *secus*, beside; L. masc. n. *Anaeroglobus*, An existing genus; *Secusanaeroglobus*: A genus related to but distinct from the existing genus Anaeroglobus of beside.

Secusanaerohalosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Anaerohalosphaera*, An existing genus; *Secusanaerohalosphaera*: A genus related to but distinct from the existing genus Anaerohalosphaera of beside.

Secusanaerolactibacter

L. masc. preposition *secus*, beside; L. masc. n. *Anaerolactibacter*, An existing genus; *Secusanaerolactibacter*: A genus related to but distinct from the existing genus Anaerolactibacter of beside.

Secusanaerolinea

L. masc. preposition *secus*, beside; L. fem. n. *Anaerolinea*, An existing genus; *Secusanaerolinea*: A genus related to but distinct from the existing genus Anaerolinea of beside.

Secusanaeromicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Anaeromicrobium*, An existing genus; *Secusanaeromicrobium*: A genus related to but distinct from the existing genus Anaeromicrobium of beside.

Secusanaeromusa

L. masc. preposition *secus*, beside; L. fem. n. *Anaeromusa*, An existing genus; *Secusanaeromusa*: A genus related to but distinct from the existing genus Anaeromusa of beside.

Secusanaeromyxobacter

L. masc. preposition *secus*, beside; L. masc. n. *Anaeromyxobacter*, An existing genus; *Secusanaeromyxobacter*: A genus related to but distinct from the existing genus Anaeromyxobacter of beside.

Secusanaerophaga

L. masc. preposition *secus*, beside; L. fem. n. *Anaerophaga*, An existing genus; *Secusanaerophaga*: A genus related to but distinct from the existing genus Anaerophaga of beside.

Secusanaerophilus

L. masc. preposition *secus*, beside; L. masc. n. *Anaerophilus*, An existing genus; *Secusanaerophilus*: A genus related to but distinct from the existing genus Anaerophilus of beside.

Secusanaeroplasma

L. masc. preposition *secus*, beside; L. neut. n. *Anaeroplasma*, An existing genus; *Secusanaeroplasma*: A genus related to but distinct from the existing genus Anaeroplasma of beside.

Secusanaerorhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Anaerorhabdus*, An existing genus; *Secusanaerorhabdus*: A genus related to but distinct from the existing genus Anaerorhabdus of beside.

Secusanaerosalibacter

L. masc. preposition *secus*, beside; L. masc. n. *Anaerosalibacter*, An existing genus; *Secusanaerosalibacter*: A genus related to but distinct from the existing genus Anaerosalibacter of beside.

Secusanaerosolibacter

L. masc. preposition *secus*, beside; L. masc. n. *Anaerosolibacter*, An existing genus; *Secusanaerosolibacter*: A genus related to but distinct from the existing genus Anaerosolibacter of beside.

Secusanaerosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Anaerosphaera*, An existing genus; *Secusanaerosphaera*: A genus related to but distinct from the existing genus Anaerosphaera of beside.

Secusanaerospora

L. masc. preposition *secus*, beside; L. fem. n. *Anaerospora*, An existing genus; *Secusanaerospora*: A genus related to but distinct from the existing genus Anaerospora of beside.

Secusanaerosporobacter

L. masc. preposition *secus*, beside; L. masc. n. *Anaerosporobacter*, An existing genus; *Secusanaerosporobacter*: A genus related to but distinct from the existing genus Anaerosporobacter of beside.

Secusanaerosporomusa

L. masc. preposition *secus*, beside; L. fem. n. *Anaerosporomusa*, An existing genus; *Secusanaerosporomusa*: A genus related to but distinct from the existing genus Anaerosporomusa of beside.

Secusanaerotignum

L. masc. preposition *secus*, beside; L. neut. n. *Anaerotignum*, An existing genus; *Secusanaerotignum*: A genus related to but distinct from the existing genus Anaerotignum of beside.

Secusanaerotruncus

L. masc. preposition *secus*, beside; L. masc. n. *Anaerotruncus*, An existing genus; *Secusanaerotruncus*: A genus related to but distinct from the existing genus Anaerotruncus of beside.

Secusanaerovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Anaerovibrio*, An existing genus; *Secusanaerovibrio*: A genus related to but distinct from the existing genus Anaerovibrio of beside.

Secusanaerovirgula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Anaerovirgula*, An existing genus; *Secusanaerovirgula*: A genus related to but distinct from the existing genus Anaerovirgula of beside.

Secusanaerovorax

L. masc. preposition *secus*, beside; L. masc. n. *Anaerovorax*, An existing genus; *Secusanaerovorax*: A genus related to but distinct from the existing genus Anaerovorax of beside.

Secusanaplasma

L. masc. preposition *secus*, beside; L. neut. n. *Anaplasma*, An existing genus; *Secusanaplasma*: A genus related to but distinct from the existing genus Anaplasma of beside.

Secusancalochloris

L. masc. preposition *secus*, beside; L. fem. n. *Ancalochloris*, An existing genus; *Secusancalochloris*: A genus related to but distinct from the existing genus Ancalochloris of beside.

Secusancalomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Ancalomicrobium*, An existing genus; *Secusancalomicrobium*: A genus related to but distinct from the existing genus Ancalomicrobium of beside.

Secusancylobacter

L. masc. preposition *secus*, beside; L. masc. n. *Ancylobacter*, An existing genus; *Secusancylobacter*: A genus related to but distinct from the existing genus Ancylobacter of beside.

Secusancylomarina

L. masc. preposition *secus*, beside; L. fem. n. *Ancylomarina*, An existing genus; *Secusancylomarina*: A genus related to but distinct from the existing genus Ancylomarina of beside.

Secusancylothrix

L. masc. preposition *secus*, beside; L. fem. n. *Ancylothrix*, An existing genus; *Secusancylothrix*: A genus related to but distinct from the existing genus Ancylothrix of beside.

Secusanderseniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Anderseniella*, An existing genus; *Secusanderseniella*: A genus related to but distinct from the existing genus Anderseniella of beside.

Secusandreesenia

L. masc. preposition *secus*, beside; L. fem. n. *Andreesenia*, An existing genus; *Secusandreesenia*: A genus related to but distinct from the existing genus Andreesenia of beside.

Secusandreprevotia

L. masc. preposition *secus*, beside; L. fem. n. *Andreprevotia*, An existing genus; *Secusandreprevotia*: A genus related to but distinct from the existing genus Andreprevotia of beside.

Secusaneurinibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Aneurinibacillus*, An existing genus; *Secusaneurinibacillus*: A genus related to but distinct from the existing genus Aneurinibacillus of beside.

Secusangelakisella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Angelakisella*, An existing genus; *Secusangelakisella*: A genus related to but distinct from the existing genus Angelakisella of beside.

Secusangiococcus

L. masc. preposition *secus*, beside; L. masc. n. *Angiococcus*, An existing genus; *Secusangiococcus*: A genus related to but distinct from the existing genus Angiococcus of beside.

Secusangulomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Angulomicrobium*, An existing genus; *Secusangulomicrobium*: A genus related to but distinct from the existing genus Angulomicrobium of beside.

Secusangustibacter

L. masc. preposition *secus*, beside; L. masc. n. *Angustibacter*, An existing genus; *Secusangustibacter*: A genus related to but distinct from the existing genus Angustibacter of beside.

Secusannwoodia

L. masc. preposition *secus*, beside; L. fem. n. *Annwoodia*, An existing genus; *Secusannwoodia*: A genus related to but distinct from the existing genus Annwoodia of beside.

Secusanoxybacillus

L. masc. preposition *secus*, beside; L. masc. n. *Anoxybacillus*, An existing genus; *Secusanoxybacillus*: A genus related to but distinct from the existing genus Anoxybacillus of beside.

Secusanoxybacter

L. masc. preposition *secus*, beside; L. masc. n. *Anoxybacter*, An existing genus; *Secusanoxybacter*: A genus related to but distinct from the existing genus Anoxybacter of beside.

Secusanoxynatronum

L. masc. preposition *secus*, beside; L. neut. n. *Anoxynatronum*, An existing genus; *Secusanoxynatronum*: A genus related to but distinct from the existing genus Anoxynatronum of beside.

Secusanseongella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Anseongella*, An existing genus; *Secusanseongella*: A genus related to but distinct from the existing genus Anseongella of beside.

Secusantarcticibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Antarcticibacterium*, An existing genus; *Secusantarcticibacterium*: A genus related to but distinct from the existing genus Antarcticibacterium of beside.

Secusantarcticimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Antarcticimicrobium*, An existing genus; *Secusantarcticimicrobium*: A genus related to but distinct from the existing genus Antarcticimicrobium of beside.

Secusantarcticimonas

L. masc. preposition *secus*, beside; L. fem. n. *Antarcticimonas*, An existing genus; *Secusantarcticimonas*: A genus related to but distinct from the existing genus Antarcticimonas of beside.

Secusantarctobacter

L. masc. preposition *secus*, beside; L. masc. n. *Antarctobacter*, An existing genus; *Secusantarctobacter*: A genus related to but distinct from the existing genus Antarctobacter of beside.

Secusantribacter

L. masc. preposition *secus*, beside; L. masc. n. *Antribacter*, An existing genus; *Secusantribacter*: A genus related to but distinct from the existing genus Antribacter of beside.

Secusantricoccus

L. masc. preposition *secus*, beside; L. masc. n. *Antricoccus*, An existing genus; *Secusantricoccus*: A genus related to but distinct from the existing genus Antricoccus of beside.

Secusaphanizomenon

L. masc. preposition *secus*, beside; L. neut. n. *Aphanizomenon*, An existing genus; *Secusaphanizomenon*: A genus related to but distinct from the existing genus Aphanizomenon of beside.

Secusapibacter

L. masc. preposition *secus*, beside; L. masc. n. *Apibacter*, An existing genus; *Secusapibacter*: A genus related to but distinct from the existing genus Apibacter of beside.

Secusapilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Apilactobacillus*, An existing genus; *Secusapilactobacillus*: A genus related to but distinct from the existing genus Apilactobacillus of beside.

Secusaplanobacter

L. masc. preposition *secus*, beside; L. masc. n. *Aplanobacter*, An existing genus; *Secusaplanobacter*: A genus related to but distinct from the existing genus Aplanobacter of beside.

Secusaquabacter

L. masc. preposition *secus*, beside; L. masc. n. *Aquabacter*, An existing genus; *Secusaquabacter*: A genus related to but distinct from the existing genus Aquabacter of beside.

Secusaquabacterium

L. masc. preposition *secus*, beside; L. neut. n. *Aquabacterium*, An existing genus; *Secusaquabacterium*: A genus related to but distinct from the existing genus Aquabacterium of beside.

Secusaquamicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Aquamicrobium*, An existing genus; *Secusaquamicrobium*: A genus related to but distinct from the existing genus Aquamicrobium of beside.

Secusaquaspirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Aquaspirillum*, An existing genus; *Secusaquaspirillum*: A genus related to but distinct from the existing genus Aquaspirillum of beside.

Secusaquaticitalea

L. masc. preposition *secus*, beside; L. fem. n. *Aquaticitalea*, An existing genus; *Secusaquaticitalea*: A genus related to but distinct from the existing genus Aquaticitalea of beside.

Secusaquella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Aquella*, An existing genus; *Secusaquella*: A genus related to but distinct from the existing genus Aquella of beside.

Secusaquibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Aquibacillus*, An existing genus; *Secusaquibacillus*: A genus related to but distinct from the existing genus Aquibacillus of beside.

Secusaquibacter

L. masc. preposition *secus*, beside; L. masc. n. *Aquibacter*, An existing genus; *Secusaquibacter*: A genus related to but distinct from the existing genus Aquibacter of beside.

Secusaquicella

L. masc. preposition *secus*, beside; L. fem. n. *Aquicella*, An existing genus; *Secusaquicella*: A genus related to but distinct from the existing genus Aquicella of beside.

Secusaquichromatium

L. masc. preposition *secus*, beside; L. neut. n. *Aquichromatium*, An existing genus; *Secusaquichromatium*: A genus related to but distinct from the existing genus Aquichromatium of beside.

Secusaquicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Aquicoccus*, An existing genus; *Secusaquicoccus*: A genus related to but distinct from the existing genus Aquicoccus of beside.

Secusaquidulcibacter

L. masc. preposition *secus*, beside; L. masc. n. *Aquidulcibacter*, An existing genus; *Secusaquidulcibacter*: A genus related to but distinct from the existing genus Aquidulcibacter of beside.

Secusaquifex

L. masc. preposition *secus*, beside; L. masc. n. *Aquifex*, An existing genus; *Secusaquifex*: A genus related to but distinct from the existing genus Aquifex of beside.

Secusaquiflexum

L. masc. preposition *secus*, beside; L. neut. n. *Aquiflexum*, An existing genus; *Secusaquiflexum*: A genus related to but distinct from the existing genus Aquiflexum of beside.

Secusaquihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Aquihabitans*, An existing genus; *Secusaquihabitans*: A genus related to but distinct from the existing genus Aquihabitans of beside.

Secusaquimarina

L. masc. preposition *secus*, beside; L. fem. n. *Aquimarina*, An existing genus; *Secusaquimarina*: A genus related to but distinct from the existing genus Aquimarina of beside.

Secusaquimixticola

L. masc. preposition *secus*, beside; L. masc. n. *Aquimixticola*, An existing genus; *Secusaquimixticola*: A genus related to but distinct from the existing genus Aquimixticola of beside.

Secusaquimonas

L. masc. preposition *secus*, beside; L. fem. n. *Aquimonas*, An existing genus; *Secusaquimonas*: A genus related to but distinct from the existing genus Aquimonas of beside.

Secusaquincola

L. masc. preposition *secus*, beside; L. masc. n. *Aquincola*, An existing genus; *Secusaquincola*: A genus related to but distinct from the existing genus Aquincola of beside.

Secusaquipuribacter

L. masc. preposition *secus*, beside; L. masc. n. *Aquipuribacter*, An existing genus; *Secusaquipuribacter*: A genus related to but distinct from the existing genus Aquipuribacter of beside.

Secusaquirufa

L. masc. preposition *secus*, beside; L. fem. n. *Aquirufa*, An existing genus; *Secusaquirufa*: A genus related to but distinct from the existing genus Aquirufa of beside.

Secusaquisalibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Aquisalibacillus*, An existing genus; *Secusaquisalibacillus*: A genus related to but distinct from the existing genus Aquisalibacillus of beside.

Secusaquisalimonas

L. masc. preposition *secus*, beside; L. fem. n. *Aquisalimonas*, An existing genus; *Secusaquisalimonas*: A genus related to but distinct from the existing genus Aquisalimonas of beside.

Secusaquisalinus

L. masc. preposition *secus*, beside; L. masc. n. *Aquisalinus*, An existing genus; *Secusaquisalinus*: A genus related to but distinct from the existing genus Aquisalinus of beside.

Secusaquisediminimonas

L. masc. preposition *secus*, beside; L. fem. n. *Aquisediminimonas*, An existing genus; *Secusaquisediminimonas*: A genus related to but distinct from the existing genus Aquisediminimonas of beside.

Secusaquisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Aquisphaera*, An existing genus; *Secusaquisphaera*: A genus related to but distinct from the existing genus Aquisphaera of beside.

Secusaquitalea

L. masc. preposition *secus*, beside; L. fem. n. *Aquitalea*, An existing genus; *Secusaquitalea*: A genus related to but distinct from the existing genus Aquitalea of beside.

Secusarachidicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Arachidicoccus*, An existing genus; *Secusarachidicoccus*: A genus related to but distinct from the existing genus Arachidicoccus of beside.

Secusarachnia

L. masc. preposition *secus*, beside; L. fem. n. *Arachnia*, An existing genus; *Secusarachnia*: A genus related to but distinct from the existing genus Arachnia of beside.

Secusarcanobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Arcanobacterium*, An existing genus; *Secusarcanobacterium*: A genus related to but distinct from the existing genus Arcanobacterium of beside.

Secusarchaeoglobus

L. masc. preposition *secus*, beside; L. masc. n. *Archaeoglobus*, An existing genus; *Secusarchaeoglobus*: A genus related to but distinct from the existing genus Archaeoglobus of beside.

Secusarchangium

L. masc. preposition *secus*, beside; L. neut. n. *Archangium*, An existing genus; *Secusarchangium*: A genus related to but distinct from the existing genus Archangium of beside.

Secusarcicella

L. masc. preposition *secus*, beside; L. fem. n. *Arcicella*, An existing genus; *Secusarcicella*: A genus related to but distinct from the existing genus Arcicella of beside.

Secusarcobacter

L. masc. preposition *secus*, beside; L. masc. n. *Arcobacter*, An existing genus; *Secusarcobacter*: A genus related to but distinct from the existing genus Arcobacter of beside.

Secusarcticibacter

L. masc. preposition *secus*, beside; L. masc. n. *Arcticibacter*, An existing genus; *Secusarcticibacter*: A genus related to but distinct from the existing genus Arcticibacter of beside.

Secusarcticibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Arcticibacterium*, An existing genus; *Secusarcticibacterium*: A genus related to but distinct from the existing genus Arcticibacterium of beside.

Secusarcticiflavibacter

L. masc. preposition *secus*, beside; L. masc. n. *Arcticiflavibacter*, An existing genus; *Secusarcticiflavibacter*: A genus related to but distinct from the existing genus Arcticiflavibacter of beside.

Secusardenticatena

L. masc. preposition *secus*, beside; L. fem. n. *Ardenticatena*, An existing genus; *Secusardenticatena*: A genus related to but distinct from the existing genus Ardenticatena of beside.

Secusarenibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Arenibacillus*, An existing genus; *Secusarenibacillus*: A genus related to but distinct from the existing genus Arenibacillus of beside.

Secusarenibacter

L. masc. preposition *secus*, beside; L. masc. n. *Arenibacter*, An existing genus; *Secusarenibacter*: A genus related to but distinct from the existing genus Arenibacter of beside.

Secusarenicella

L. masc. preposition *secus*, beside; L. fem. n. *Arenicella*, An existing genus; *Secusarenicella*: A genus related to but distinct from the existing genus Arenicella of beside.

Secusarenimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Arenimicrobium*, An existing genus; *Secusarenimicrobium*: A genus related to but distinct from the existing genus Arenimicrobium of beside.

Secusarenimonas

L. masc. preposition *secus*, beside; L. fem. n. *Arenimonas*, An existing genus; *Secusarenimonas*: A genus related to but distinct from the existing genus Arenimonas of beside.

Secusarenitalea

L. masc. preposition *secus*, beside; L. fem. n. *Arenitalea*, An existing genus; *Secusarenitalea*: A genus related to but distinct from the existing genus Arenitalea of beside.

Secusarhodomonas

L. masc. preposition *secus*, beside; L. fem. n. *Arhodomonas*, An existing genus; *Secusarhodomonas*: A genus related to but distinct from the existing genus Arhodomonas of beside.

Secusaridibacter

L. masc. preposition *secus*, beside; L. masc. n. *Aridibacter*, An existing genus; *Secusaridibacter*: A genus related to but distinct from the existing genus Aridibacter of beside.

Secusarmatimonas

L. masc. preposition *secus*, beside; L. fem. n. *Armatimonas*, An existing genus; *Secusarmatimonas*: A genus related to but distinct from the existing genus Armatimonas of beside.

Secusarsenicibacter

L. masc. preposition *secus*, beside; L. masc. n. *Arsenicibacter*, An existing genus; *Secusarsenicibacter*: A genus related to but distinct from the existing genus Arsenicibacter of beside.

Secusarsenicicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Arsenicicoccus*, An existing genus; *Secusarsenicicoccus*: A genus related to but distinct from the existing genus Arsenicicoccus of beside.

Secusarsenicitalea

L. masc. preposition *secus*, beside; L. fem. n. *Arsenicitalea*, An existing genus; *Secusarsenicitalea*: A genus related to but distinct from the existing genus Arsenicitalea of beside.

Secusarsenophonus

L. masc. preposition *secus*, beside; L. masc. n. *Arsenophonus*, An existing genus; *Secusarsenophonus*: A genus related to but distinct from the existing genus Arsenophonus of beside.

Secusarsukibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Arsukibacterium*, An existing genus; *Secusarsukibacterium*: A genus related to but distinct from the existing genus Arsukibacterium of beside.

Secusarthrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Arthrobacter*, An existing genus; *Secusarthrobacter*: A genus related to but distinct from the existing genus Arthrobacter of beside.

Secusarthrospira

L. masc. preposition *secus*, beside; L. fem. n. *Arthrospira*, An existing genus; *Secusarthrospira*: A genus related to but distinct from the existing genus Arthrospira of beside.

Secusarthrospiribacter

L. masc. preposition *secus*, beside; L. masc. n. *Arthrospiribacter*, An existing genus; *Secusarthrospiribacter*: A genus related to but distinct from the existing genus Arthrospiribacter of beside.

Secusarundinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Arundinibacter*, An existing genus; *Secusarundinibacter*: A genus related to but distinct from the existing genus Arundinibacter of beside.

Secusarvibacter

L. masc. preposition *secus*, beside; L. masc. n. *Arvibacter*, An existing genus; *Secusarvibacter*: A genus related to but distinct from the existing genus Arvibacter of beside.

Secusasaccharobacter

L. masc. preposition *secus*, beside; L. masc. n. *Asaccharobacter*, An existing genus; *Secusasaccharobacter*: A genus related to but distinct from the existing genus Asaccharobacter of beside.

Secusasaccharospora

L. masc. preposition *secus*, beside; L. fem. n. *Asaccharospora*, An existing genus; *Secusasaccharospora*: A genus related to but distinct from the existing genus Asaccharospora of beside.

Secusasaia

L. masc. preposition *secus*, beside; L. fem. n. *Asaia*, An existing genus; *Secusasaia*: A genus related to but distinct from the existing genus Asaia of beside.

Secusasanoa

L. masc. preposition *secus*, beside; L. fem. n. *Asanoa*, An existing genus; *Secusasanoa*: A genus related to but distinct from the existing genus Asanoa of beside.

Secusascidiaceibacter

L. masc. preposition *secus*, beside; L. masc. n. *Ascidiaceibacter*, An existing genus; *Secusascidiaceibacter*: A genus related to but distinct from the existing genus Ascidiaceibacter of beside.

Secusascidiaceihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Ascidiaceihabitans*, An existing genus; *Secusascidiaceihabitans*: A genus related to but distinct from the existing genus Ascidiaceihabitans of beside.

Secusascidiimonas

L. masc. preposition *secus*, beside; L. fem. n. *Ascidiimonas*, An existing genus; *Secusascidiimonas*: A genus related to but distinct from the existing genus Ascidiimonas of beside.

Secusasinibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Asinibacterium*, An existing genus; *Secusasinibacterium*: A genus related to but distinct from the existing genus Asinibacterium of beside.

Secusasprobacter

L. masc. preposition *secus*, beside; L. masc. n. *Asprobacter*, An existing genus; *Secusasprobacter*: A genus related to but distinct from the existing genus Asprobacter of beside.

Secusaspromonas

L. masc. preposition *secus*, beside; L. fem. n. *Aspromonas*, An existing genus; *Secusaspromonas*: A genus related to but distinct from the existing genus Aspromonas of beside.

Secusasteroleplasma

L. masc. preposition *secus*, beside; L. neut. n. *Asteroleplasma*, An existing genus; *Secusasteroleplasma*: A genus related to but distinct from the existing genus Asteroleplasma of beside.

Secusasticcacaulis

L. masc. preposition *secus*, beside; L. masc. n. *Asticcacaulis*, An existing genus; *Secusasticcacaulis*: A genus related to but distinct from the existing genus Asticcacaulis of beside.

Secusathalassotoga

L. masc. preposition *secus*, beside; L. fem. n. *Athalassotoga*, An existing genus; *Secusathalassotoga*: A genus related to but distinct from the existing genus Athalassotoga of beside.

Secusatlantibacter

L. masc. preposition *secus*, beside; L. masc. n. *Atlantibacter*, An existing genus; *Secusatlantibacter*: A genus related to but distinct from the existing genus Atlantibacter of beside.

Secusatopobacter

L. masc. preposition *secus*, beside; L. masc. n. *Atopobacter*, An existing genus; *Secusatopobacter*: A genus related to but distinct from the existing genus Atopobacter of beside.

Secusatopobium

L. masc. preposition *secus*, beside; L. neut. n. *Atopobium*, An existing genus; *Secusatopobium*: A genus related to but distinct from the existing genus Atopobium of beside.

Secusatopococcus

L. masc. preposition *secus*, beside; L. masc. n. *Atopococcus*, An existing genus; *Secusatopococcus*: A genus related to but distinct from the existing genus Atopococcus of beside.

Secusatopostipes

L. masc. preposition *secus*, beside; L. masc. n. *Atopostipes*, An existing genus; *Secusatopostipes*: A genus related to but distinct from the existing genus Atopostipes of beside.

Secusaurantiacicella

L. masc. preposition *secus*, beside; L. fem. n. *Aurantiacicella*, An existing genus; *Secusaurantiacicella*: A genus related to but distinct from the existing genus Aurantiacicella of beside.

Secusaurantibacter

L. masc. preposition *secus*, beside; L. masc. n. *Aurantibacter*, An existing genus; *Secusaurantibacter*: A genus related to but distinct from the existing genus Aurantibacter of beside.

Secusaurantimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Aurantimicrobium*, An existing genus; *Secusaurantimicrobium*: A genus related to but distinct from the existing genus Aurantimicrobium of beside.

Secusaurantimonas

L. masc. preposition *secus*, beside; L. fem. n. *Aurantimonas*, An existing genus; *Secusaurantimonas*: A genus related to but distinct from the existing genus Aurantimonas of beside.

Secusaurantisolimonas

L. masc. preposition *secus*, beside; L. fem. n. *Aurantisolimonas*, An existing genus; *Secusaurantisolimonas*: A genus related to but distinct from the existing genus Aurantisolimonas of beside.

Secusaurantivirga

L. masc. preposition *secus*, beside; L. fem. n. *Aurantivirga*, An existing genus; *Secusaurantivirga*: A genus related to but distinct from the existing genus Aurantivirga of beside.

Secusauraticoccus

L. masc. preposition *secus*, beside; L. masc. n. *Auraticoccus*, An existing genus; *Secusauraticoccus*: A genus related to but distinct from the existing genus Auraticoccus of beside.

Secusaureibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Aureibacillus*, An existing genus; *Secusaureibacillus*: A genus related to but distinct from the existing genus Aureibacillus of beside.

Secusaureibacter

L. masc. preposition *secus*, beside; L. masc. n. *Aureibacter*, An existing genus; *Secusaureibacter*: A genus related to but distinct from the existing genus Aureibacter of beside.

Secusaureibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Aureibaculum*, An existing genus; *Secusaureibaculum*: A genus related to but distinct from the existing genus Aureibaculum of beside.

Secusaureicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Aureicoccus*, An existing genus; *Secusaureicoccus*: A genus related to but distinct from the existing genus Aureicoccus of beside.

Secusaureimonas

L. masc. preposition *secus*, beside; L. fem. n. *Aureimonas*, An existing genus; *Secusaureimonas*: A genus related to but distinct from the existing genus Aureimonas of beside.

Secusaureisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Aureisphaera*, An existing genus; *Secusaureisphaera*: A genus related to but distinct from the existing genus Aureisphaera of beside.

Secusaureispira

L. masc. preposition *secus*, beside; L. fem. n. *Aureispira*, An existing genus; *Secusaureispira*: A genus related to but distinct from the existing genus Aureispira of beside.

Secusaureitalea

L. masc. preposition *secus*, beside; L. fem. n. *Aureitalea*, An existing genus; *Secusaureitalea*: A genus related to but distinct from the existing genus Aureitalea of beside.

Secusaureivirga

L. masc. preposition *secus*, beside; L. fem. n. *Aureivirga*, An existing genus; *Secusaureivirga*: A genus related to but distinct from the existing genus Aureivirga of beside.

Secusaureliella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Aureliella*, An existing genus; *Secusaureliella*: A genus related to but distinct from the existing genus Aureliella of beside.

Secusaureobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Aureobacterium*, An existing genus; *Secusaureobacterium*: A genus related to but distinct from the existing genus Aureobacterium of beside.

Secusauricoccus

L. masc. preposition *secus*, beside; L. masc. n. *Auricoccus*, An existing genus; *Secusauricoccus*: A genus related to but distinct from the existing genus Auricoccus of beside.

Secusauritidibacter

L. masc. preposition *secus*, beside; L. masc. n. *Auritidibacter*, An existing genus; *Secusauritidibacter*: A genus related to but distinct from the existing genus Auritidibacter of beside.

Secusaustwickia

L. masc. preposition *secus*, beside; L. fem. n. *Austwickia*, An existing genus; *Secusaustwickia*: A genus related to but distinct from the existing genus Austwickia of beside.

Secusavibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Avibacterium*, An existing genus; *Secusavibacterium*: A genus related to but distinct from the existing genus Avibacterium of beside.

Secusazoarcus

L. masc. preposition *secus*, beside; L. masc. n. *Azoarcus*, An existing genus; *Secusazoarcus*: A genus related to but distinct from the existing genus Azoarcus of beside.

Secusazohydromonas

L. masc. preposition *secus*, beside; L. fem. n. *Azohydromonas*, An existing genus; *Secusazohydromonas*: A genus related to but distinct from the existing genus Azohydromonas of beside.

Secusazomonas

L. masc. preposition *secus*, beside; L. fem. n. *Azomonas*, An existing genus; *Secusazomonas*: A genus related to but distinct from the existing genus Azomonas of beside.

Secusazonexus

L. masc. preposition *secus*, beside; L. masc. n. *Azonexus*, An existing genus; *Secusazonexus*: A genus related to but distinct from the existing genus Azonexus of beside.

Secusazorhizobium

L. masc. preposition *secus*, beside; L. neut. n. *Azorhizobium*, An existing genus; *Secusazorhizobium*: A genus related to but distinct from the existing genus Azorhizobium of beside.

Secusazospira

L. masc. preposition *secus*, beside; L. fem. n. *Azospira*, An existing genus; *Secusazospira*: A genus related to but distinct from the existing genus Azospira of beside.

Secusazospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Azospirillum*, An existing genus; *Secusazospirillum*: A genus related to but distinct from the existing genus Azospirillum of beside.

Secusazotobacter

L. masc. preposition *secus*, beside; L. masc. n. *Azotobacter*, An existing genus; *Secusazotobacter*: A genus related to but distinct from the existing genus Azotobacter of beside.

Secusazovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Azovibrio*, An existing genus; *Secusazovibrio*: A genus related to but distinct from the existing genus Azovibrio of beside.

Secusbacilliculturomica

L. masc. preposition *secus*, beside; L. fem. n. *Bacilliculturomica*, An existing genus; *Secusbacilliculturomica*: A genus related to but distinct from the existing genus Bacilliculturomica of beside.

Secusbacteriolyticum

L. masc. preposition *secus*, beside; L. neut. n. *Bacteriolyticum*, An existing genus; *Secusbacteriolyticum*: A genus related to but distinct from the existing genus Bacteriolyticum of beside.

Secusbacterionema

L. masc. preposition *secus*, beside; L. neut. n. *Bacterionema*, An existing genus; *Secusbacterionema*: A genus related to but distinct from the existing genus Bacterionema of beside.

Secusbacterioplanes

L. masc. preposition *secus*, beside; L. masc. n. *Bacterioplanes*, An existing genus; *Secusbacterioplanes*: A genus related to but distinct from the existing genus Bacterioplanes of beside.

Secusbacterioplanoides

L. masc. preposition *secus*, beside; L. neut. n. *Bacterioplanoides*, An existing genus; *Secusbacterioplanoides*: A genus related to but distinct from the existing genus Bacterioplanoides of beside.

Secusbacteriovorax

L. masc. preposition *secus*, beside; L. masc. n. *Bacteriovorax*, An existing genus; *Secusbacteriovorax*: A genus related to but distinct from the existing genus Bacteriovorax of beside.

Secusbacteroides

L. masc. preposition *secus*, beside; L. masc. n. *Bacteroides*, An existing genus; *Secusbacteroides*: A genus related to but distinct from the existing genus Bacteroides of beside.

Secusbaekduia

L. masc. preposition *secus*, beside; L. fem. n. *Baekduia*, An existing genus; *Secusbaekduia*: A genus related to but distinct from the existing genus Baekduia of beside.

Secusbaia

L. masc. preposition *secus*, beside; L. fem. n. *Baia*, An existing genus; *Secusbaia*: A genus related to but distinct from the existing genus Baia of beside.

Secusbailinhaonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Bailinhaonella*, An existing genus; *Secusbailinhaonella*: A genus related to but distinct from the existing genus Bailinhaonella of beside.

Secusbalnearium

L. masc. preposition *secus*, beside; L. neut. n. *Balnearium*, An existing genus; *Secusbalnearium*: A genus related to but distinct from the existing genus Balnearium of beside.

Secusbalneicella

L. masc. preposition *secus*, beside; L. fem. n. *Balneicella*, An existing genus; *Secusbalneicella*: A genus related to but distinct from the existing genus Balneicella of beside.

Secusbalneimonas

L. masc. preposition *secus*, beside; L. fem. n. *Balneimonas*, An existing genus; *Secusbalneimonas*: A genus related to but distinct from the existing genus Balneimonas of beside.

Secusbarnesiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Barnesiella*, An existing genus; *Secusbarnesiella*: A genus related to but distinct from the existing genus Barnesiella of beside.

Secusbarrientosiimonas

L. masc. preposition *secus*, beside; L. fem. n. *Barrientosiimonas*, An existing genus; *Secusbarrientosiimonas*: A genus related to but distinct from the existing genus Barrientosiimonas of beside.

Secusbartonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Bartonella*, An existing genus; *Secusbartonella*: A genus related to but distinct from the existing genus Bartonella of beside.

Secusbasfia

L. masc. preposition *secus*, beside; L. fem. n. *Basfia*, An existing genus; *Secusbasfia*: A genus related to but distinct from the existing genus Basfia of beside.

Secusbasilea

L. masc. preposition *secus*, beside; L. fem. n. *Basilea*, An existing genus; *Secusbasilea*: A genus related to but distinct from the existing genus Basilea of beside.

Secusbauldia

L. masc. preposition *secus*, beside; L. fem. n. *Bauldia*, An existing genus; *Secusbauldia*: A genus related to but distinct from the existing genus Bauldia of beside.

Secusbavariicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Bavariicoccus*, An existing genus; *Secusbavariicoccus*: A genus related to but distinct from the existing genus Bavariicoccus of beside.

Secusbdellovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Bdellovibrio*, An existing genus; *Secusbdellovibrio*: A genus related to but distinct from the existing genus Bdellovibrio of beside.

Secusbeduinibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Beduinibacterium*, An existing genus; *Secusbeduinibacterium*: A genus related to but distinct from the existing genus Beduinibacterium of beside.

Secusbeggiatoa

L. masc. preposition *secus*, beside; L. fem. n. *Beggiatoa*, An existing genus; *Secusbeggiatoa*: A genus related to but distinct from the existing genus Beggiatoa of beside.

Secusbeijerinckia

L. masc. preposition *secus*, beside; L. fem. n. *Beijerinckia*, An existing genus; *Secusbeijerinckia*: A genus related to but distinct from the existing genus Beijerinckia of beside.

Secusbelliella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Belliella*, An existing genus; *Secusbelliella*: A genus related to but distinct from the existing genus Belliella of beside.

Secusbellilinea

L. masc. preposition *secus*, beside; L. fem. n. *Bellilinea*, An existing genus; *Secusbellilinea*: A genus related to but distinct from the existing genus Bellilinea of beside.

Secusbelnapia

L. masc. preposition *secus*, beside; L. fem. n. *Belnapia*, An existing genus; *Secusbelnapia*: A genus related to but distinct from the existing genus Belnapia of beside.

Secusbeneckea

L. masc. preposition *secus*, beside; L. fem. n. *Beneckea*, An existing genus; *Secusbeneckea*: A genus related to but distinct from the existing genus Beneckea of beside.

Secusbergeriella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Bergeriella*, An existing genus; *Secusbergeriella*: A genus related to but distinct from the existing genus Bergeriella of beside.

Secusbergeyella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Bergeyella*, An existing genus; *Secusbergeyella*: A genus related to but distinct from the existing genus Bergeyella of beside.

Secusbermanella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Bermanella*, An existing genus; *Secusbermanella*: A genus related to but distinct from the existing genus Bermanella of beside.

Secusbernardetia

L. masc. preposition *secus*, beside; L. fem. n. *Bernardetia*, An existing genus; *Secusbernardetia*: A genus related to but distinct from the existing genus Bernardetia of beside.

Secusbeutenbergia

L. masc. preposition *secus*, beside; L. fem. n. *Beutenbergia*, An existing genus; *Secusbeutenbergia*: A genus related to but distinct from the existing genus Beutenbergia of beside.

Secusbhargavaea

L. masc. preposition *secus*, beside; L. fem. n. *Bhargavaea*, An existing genus; *Secusbhargavaea*: A genus related to but distinct from the existing genus Bhargavaea of beside.

Secusbibersteinia

L. masc. preposition *secus*, beside; L. fem. n. *Bibersteinia*, An existing genus; *Secusbibersteinia*: A genus related to but distinct from the existing genus Bibersteinia of beside.

Secusbifidobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Bifidobacterium*, An existing genus; *Secusbifidobacterium*: A genus related to but distinct from the existing genus Bifidobacterium of beside.

Secusbilophila

L. masc. preposition *secus*, beside; L. fem. n. *Bilophila*, An existing genus; *Secusbilophila*: A genus related to but distinct from the existing genus Bilophila of beside.

Secusbiomaibacter

L. masc. preposition *secus*, beside; L. masc. n. *Biomaibacter*, An existing genus; *Secusbiomaibacter*: A genus related to but distinct from the existing genus Biomaibacter of beside.

Secusbiostraticola

L. masc. preposition *secus*, beside; L. masc. n. *Biostraticola*, An existing genus; *Secusbiostraticola*: A genus related to but distinct from the existing genus Biostraticola of beside.

Secusbisgaardia

L. masc. preposition *secus*, beside; L. fem. n. *Bisgaardia*, An existing genus; *Secusbisgaardia*: A genus related to but distinct from the existing genus Bisgaardia of beside.

Secusbizionia

L. masc. preposition *secus*, beside; L. fem. n. *Bizionia*, An existing genus; *Secusbizionia*: A genus related to but distinct from the existing genus Bizionia of beside.

Secusblastochloris

L. masc. preposition *secus*, beside; L. fem. n. *Blastochloris*, An existing genus; *Secusblastochloris*: A genus related to but distinct from the existing genus Blastochloris of beside.

Secusblastococcus

L. masc. preposition *secus*, beside; L. masc. n. *Blastococcus*, An existing genus; *Secusblastococcus*: A genus related to but distinct from the existing genus Blastococcus of beside.

Secusblastopirellula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Blastopirellula*, An existing genus; *Secusblastopirellula*: A genus related to but distinct from the existing genus Blastopirellula of beside.

Secusblattabacterium

L. masc. preposition *secus*, beside; L. neut. n. *Blattabacterium*, An existing genus; *Secusblattabacterium*: A genus related to but distinct from the existing genus Blattabacterium of beside.

Secusblautia

L. masc. preposition *secus*, beside; L. fem. n. *Blautia*, An existing genus; *Secusblautia*: A genus related to but distinct from the existing genus Blautia of beside.

Secusbogoriella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Bogoriella*, An existing genus; *Secusbogoriella*: A genus related to but distinct from the existing genus Bogoriella of beside.

Secusbombella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Bombella*, An existing genus; *Secusbombella*: A genus related to but distinct from the existing genus Bombella of beside.

Secusbombilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Bombilactobacillus*, An existing genus; *Secusbombilactobacillus*: A genus related to but distinct from the existing genus Bombilactobacillus of beside.

Secusbombiscardovia

L. masc. preposition *secus*, beside; L. fem. n. *Bombiscardovia*, An existing genus; *Secusbombiscardovia*: A genus related to but distinct from the existing genus Bombiscardovia of beside.

Secusbordetella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Bordetella*, An existing genus; *Secusbordetella*: A genus related to but distinct from the existing genus Bordetella of beside.

Secusborrelia

L. masc. preposition *secus*, beside; L. fem. n. *Borrelia*, An existing genus; *Secusborrelia*: A genus related to but distinct from the existing genus Borrelia of beside.

Secusborreliella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Borreliella*, An existing genus; *Secusborreliella*: A genus related to but distinct from the existing genus Borreliella of beside.

Secusbosea

L. masc. preposition *secus*, beside; L. fem. n. *Bosea*, An existing genus; *Secusbosea*: A genus related to but distinct from the existing genus Bosea of beside.

Secusboseongicola

L. masc. preposition *secus*, beside; L. masc. n. *Boseongicola*, An existing genus; *Secusboseongicola*: A genus related to but distinct from the existing genus Boseongicola of beside.

Secusbotryobacter

L. masc. preposition *secus*, beside; L. masc. n. *Botryobacter*, An existing genus; *Secusbotryobacter*: A genus related to but distinct from the existing genus Botryobacter of beside.

Secusboudabousia

L. masc. preposition *secus*, beside; L. fem. n. *Boudabousia*, An existing genus; *Secusboudabousia*: A genus related to but distinct from the existing genus Boudabousia of beside.

Secusbounagaea

L. masc. preposition *secus*, beside; L. fem. n. *Bounagaea*, An existing genus; *Secusbounagaea*: A genus related to but distinct from the existing genus Bounagaea of beside.

Secusbowmanella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Bowmanella*, An existing genus; *Secusbowmanella*: A genus related to but distinct from the existing genus Bowmanella of beside.

Secusbrachyspira

L. masc. preposition *secus*, beside; L. fem. n. *Brachyspira*, An existing genus; *Secusbrachyspira*: A genus related to but distinct from the existing genus Brachyspira of beside.

Secusbradyrhizobium

L. masc. preposition *secus*, beside; L. neut. n. *Bradyrhizobium*, An existing genus; *Secusbradyrhizobium*: A genus related to but distinct from the existing genus Bradyrhizobium of beside.

Secusbranchiibius

L. masc. preposition *secus*, beside; L. masc. n. *Branchiibius*, An existing genus; *Secusbranchiibius*: A genus related to but distinct from the existing genus Branchiibius of beside.

Secusbranhamella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Branhamella*, An existing genus; *Secusbranhamella*: A genus related to but distinct from the existing genus Branhamella of beside.

Secusbrassicibacter

L. masc. preposition *secus*, beside; L. masc. n. *Brassicibacter*, An existing genus; *Secusbrassicibacter*: A genus related to but distinct from the existing genus Brassicibacter of beside.

Secusbremerella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Bremerella*, An existing genus; *Secusbremerella*: A genus related to but distinct from the existing genus Bremerella of beside.

Secusbrenneria

L. masc. preposition *secus*, beside; L. fem. n. *Brenneria*, An existing genus; *Secusbrenneria*: A genus related to but distinct from the existing genus Brenneria of beside.

Secusbreoghania

L. masc. preposition *secus*, beside; L. fem. n. *Breoghania*, An existing genus; *Secusbreoghania*: A genus related to but distinct from the existing genus Breoghania of beside.

Secusbrevifollis

L. masc. preposition *secus*, beside; L. masc. n. *Brevifollis*, An existing genus; *Secusbrevifollis*: A genus related to but distinct from the existing genus Brevifollis of beside.

Secusbrevilactibacter

L. masc. preposition *secus*, beside; L. masc. n. *Brevilactibacter*, An existing genus; *Secusbrevilactibacter*: A genus related to but distinct from the existing genus Brevilactibacter of beside.

Secusbrevinema

L. masc. preposition *secus*, beside; L. neut. n. *Brevinema*, An existing genus; *Secusbrevinema*: A genus related to but distinct from the existing genus Brevinema of beside.

Secusbrevirhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Brevirhabdus*, An existing genus; *Secusbrevirhabdus*: A genus related to but distinct from the existing genus Brevirhabdus of beside.

Secusbrevundimonas

L. masc. preposition *secus*, beside; L. fem. n. *Brevundimonas*, An existing genus; *Secusbrevundimonas*: A genus related to but distinct from the existing genus Brevundimonas of beside.

Secusbreznakia

L. masc. preposition *secus*, beside; L. fem. n. *Breznakia*, An existing genus; *Secusbreznakia*: A genus related to but distinct from the existing genus Breznakia of beside.

Secusbreznakibacter

L. masc. preposition *secus*, beside; L. masc. n. *Breznakibacter*, An existing genus; *Secusbreznakibacter*: A genus related to but distinct from the existing genus Breznakibacter of beside.

Secusbrochothrix

L. masc. preposition *secus*, beside; L. fem. n. *Brochothrix*, An existing genus; *Secusbrochothrix*: A genus related to but distinct from the existing genus Brochothrix of beside.

Secusbrockia

L. masc. preposition *secus*, beside; L. fem. n. *Brockia*, An existing genus; *Secusbrockia*: A genus related to but distinct from the existing genus Brockia of beside.

Secusbrooklawnia

L. masc. preposition *secus*, beside; L. fem. n. *Brooklawnia*, An existing genus; *Secusbrooklawnia*: A genus related to but distinct from the existing genus Brooklawnia of beside.

Secusbrucella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Brucella*, An existing genus; *Secusbrucella*: A genus related to but distinct from the existing genus Brucella of beside.

Secusbrumimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Brumimicrobium*, An existing genus; *Secusbrumimicrobium*: A genus related to but distinct from the existing genus Brumimicrobium of beside.

Secusbryantella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Bryantella*, An existing genus; *Secusbryantella*: A genus related to but distinct from the existing genus Bryantella of beside.

Secusbryobacter

L. masc. preposition *secus*, beside; L. masc. n. *Bryobacter*, An existing genus; *Secusbryobacter*: A genus related to but distinct from the existing genus Bryobacter of beside.

Secusbryocella

L. masc. preposition *secus*, beside; L. fem. n. *Bryocella*, An existing genus; *Secusbryocella*: A genus related to but distinct from the existing genus Bryocella of beside.

Secusbuchananella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Buchananella*, An existing genus; *Secusbuchananella*: A genus related to but distinct from the existing genus Buchananella of beside.

Secusbuchnera

L. masc. preposition *secus*, beside; L. fem. n. *Buchnera*, An existing genus; *Secusbuchnera*: A genus related to but distinct from the existing genus Buchnera of beside.

Secusbudvicia

L. masc. preposition *secus*, beside; L. fem. n. *Budvicia*, An existing genus; *Secusbudvicia*: A genus related to but distinct from the existing genus Budvicia of beside.

Secusbulleidia

L. masc. preposition *secus*, beside; L. fem. n. *Bulleidia*, An existing genus; *Secusbulleidia*: A genus related to but distinct from the existing genus Bulleidia of beside.

Secusburkholderia

L. masc. preposition *secus*, beside; L. fem. n. *Burkholderia*, An existing genus; *Secusburkholderia*: A genus related to but distinct from the existing genus Burkholderia of beside.

Secusbuttiauxella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Buttiauxella*, An existing genus; *Secusbuttiauxella*: A genus related to but distinct from the existing genus Buttiauxella of beside.

Secusbutyratibacter

L. masc. preposition *secus*, beside; L. masc. n. *Butyratibacter*, An existing genus; *Secusbutyratibacter*: A genus related to but distinct from the existing genus Butyratibacter of beside.

Secusbutyricicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Butyricicoccus*, An existing genus; *Secusbutyricicoccus*: A genus related to but distinct from the existing genus Butyricicoccus of beside.

Secusbutyrivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Butyrivibrio*, An existing genus; *Secusbutyrivibrio*: A genus related to but distinct from the existing genus Butyrivibrio of beside.

Secusbyssophaga

L. masc. preposition *secus*, beside; L. fem. n. *Byssophaga*, An existing genus; *Secusbyssophaga*: A genus related to but distinct from the existing genus Byssophaga of beside.

Secusbyssovorax

L. masc. preposition *secus*, beside; L. fem. n. *Byssovorax*, An existing genus; *Secusbyssovorax*: A genus related to but distinct from the existing genus Byssovorax of beside.

Secusbythopirellula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Bythopirellula*, An existing genus; *Secusbythopirellula*: A genus related to but distinct from the existing genus Bythopirellula of beside.

Secuscaballeronia

L. masc. preposition *secus*, beside; L. fem. n. *Caballeronia*, An existing genus; *Secuscaballeronia*: A genus related to but distinct from the existing genus Caballeronia of beside.

Secuscaecibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Caecibacterium*, An existing genus; *Secuscaecibacterium*: A genus related to but distinct from the existing genus Caecibacterium of beside.

Secuscaedibacter

L. masc. preposition *secus*, beside; L. masc. n. *Caedibacter*, An existing genus; *Secuscaedibacter*: A genus related to but distinct from the existing genus Caedibacter of beside.

Secuscaedimonas

L. masc. preposition *secus*, beside; L. fem. n. *Caedimonas*, An existing genus; *Secuscaedimonas*: A genus related to but distinct from the existing genus Caedimonas of beside.

Secuscaenibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Caenibacillus*, An existing genus; *Secuscaenibacillus*: A genus related to but distinct from the existing genus Caenibacillus of beside.

Secuscaenibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Caenibacterium*, An existing genus; *Secuscaenibacterium*: A genus related to but distinct from the existing genus Caenibacterium of beside.

Secuscaenimonas

L. masc. preposition *secus*, beside; L. fem. n. *Caenimonas*, An existing genus; *Secuscaenimonas*: A genus related to but distinct from the existing genus Caenimonas of beside.

Secuscaenispirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Caenispirillum*, An existing genus; *Secuscaenispirillum*: A genus related to but distinct from the existing genus Caenispirillum of beside.

Secuscalculibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Calculibacillus*, An existing genus; *Secuscalculibacillus*: A genus related to but distinct from the existing genus Calculibacillus of beside.

Secuscaldalkalibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Caldalkalibacillus*, An existing genus; *Secuscaldalkalibacillus*: A genus related to but distinct from the existing genus Caldalkalibacillus of beside.

Secuscaldanaerobacter

L. masc. preposition *secus*, beside; L. masc. n. *Caldanaerobacter*, An existing genus; *Secuscaldanaerobacter*: A genus related to but distinct from the existing genus Caldanaerobacter of beside.

Secuscaldanaerobius

L. masc. preposition *secus*, beside; L. masc. n. *Caldanaerobius*, An existing genus; *Secuscaldanaerobius*: A genus related to but distinct from the existing genus Caldanaerobius of beside.

Secuscaldanaerovirga

L. masc. preposition *secus*, beside; L. fem. n. *Caldanaerovirga*, An existing genus; *Secuscaldanaerovirga*: A genus related to but distinct from the existing genus Caldanaerovirga of beside.

Secuscalderihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Calderihabitans*, An existing genus; *Secuscalderihabitans*: A genus related to but distinct from the existing genus Calderihabitans of beside.

Secuscalderobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Calderobacterium*, An existing genus; *Secuscalderobacterium*: A genus related to but distinct from the existing genus Calderobacterium of beside.

Secuscaldibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Caldibacillus*, An existing genus; *Secuscaldibacillus*: A genus related to but distinct from the existing genus Caldibacillus of beside.

Secuscaldicellulosiruptor

L. masc. preposition *secus*, beside; L. masc. n. *Caldicellulosiruptor*, An existing genus; *Secuscaldicellulosiruptor*: A genus related to but distinct from the existing genus Caldicellulosiruptor of beside.

Secuscaldicoprobacter

L. masc. preposition *secus*, beside; L. masc. n. *Caldicoprobacter*, An existing genus; *Secuscaldicoprobacter*: A genus related to but distinct from the existing genus Caldicoprobacter of beside.

Secuscaldilinea

L. masc. preposition *secus*, beside; L. fem. n. *Caldilinea*, An existing genus; *Secuscaldilinea*: A genus related to but distinct from the existing genus Caldilinea of beside.

Secuscaldimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Caldimicrobium*, An existing genus; *Secuscaldimicrobium*: A genus related to but distinct from the existing genus Caldimicrobium of beside.

Secuscaldimonas

L. masc. preposition *secus*, beside; L. fem. n. *Caldimonas*, An existing genus; *Secuscaldimonas*: A genus related to but distinct from the existing genus Caldimonas of beside.

Secuscaldinitratiruptor

L. masc. preposition *secus*, beside; L. masc. n. *Caldinitratiruptor*, An existing genus; *Secuscaldinitratiruptor*: A genus related to but distinct from the existing genus Caldinitratiruptor of beside.

Secuscaldisalinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Caldisalinibacter*, An existing genus; *Secuscaldisalinibacter*: A genus related to but distinct from the existing genus Caldisalinibacter of beside.

Secuscaldisericum

L. masc. preposition *secus*, beside; L. neut. n. *Caldisericum*, An existing genus; *Secuscaldisericum*: A genus related to but distinct from the existing genus Caldisericum of beside.

Secuscaldisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Caldisphaera*, An existing genus; *Secuscaldisphaera*: A genus related to but distinct from the existing genus Caldisphaera of beside.

Secuscalditerricola

L. masc. preposition *secus*, beside; L. masc. n. *Calditerricola*, An existing genus; *Secuscalditerricola*: A genus related to but distinct from the existing genus Calditerricola of beside.

Secuscalditerrivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Calditerrivibrio*, An existing genus; *Secuscalditerrivibrio*: A genus related to but distinct from the existing genus Calditerrivibrio of beside.

Secuscaldithrix

L. masc. preposition *secus*, beside; L. fem. n. *Caldithrix*, An existing genus; *Secuscaldithrix*: A genus related to but distinct from the existing genus Caldithrix of beside.

Secuscaldovatus

L. masc. preposition *secus*, beside; L. masc. n. *Caldovatus*, An existing genus; *Secuscaldovatus*: A genus related to but distinct from the existing genus Caldovatus of beside.

Secuscalenema

L. masc. preposition *secus*, beside; L. neut. n. *Calenema*, An existing genus; *Secuscalenema*: A genus related to but distinct from the existing genus Calenema of beside.

Secuscalidifontibacter

L. masc. preposition *secus*, beside; L. masc. n. *Calidifontibacter*, An existing genus; *Secuscalidifontibacter*: A genus related to but distinct from the existing genus Calidifontibacter of beside.

Secuscalidifontimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Calidifontimicrobium*, An existing genus; *Secuscalidifontimicrobium*: A genus related to but distinct from the existing genus Calidifontimicrobium of beside.

Secuscalidithermus

L. masc. preposition *secus*, beside; L. masc. n. *Calidithermus*, An existing genus; *Secuscalidithermus*: A genus related to but distinct from the existing genus Calidithermus of beside.

Secuscalochaete

L. masc. preposition *secus*, beside; L. fem. n. *Calochaete*, An existing genus; *Secuscalochaete*: A genus related to but distinct from the existing genus Calochaete of beside.

Secuscaloramator

L. masc. preposition *secus*, beside; L. masc. n. *Caloramator*, An existing genus; *Secuscaloramator*: A genus related to but distinct from the existing genus Caloramator of beside.

Secuscaloranaerobacter

L. masc. preposition *secus*, beside; L. masc. n. *Caloranaerobacter*, An existing genus; *Secuscaloranaerobacter*: A genus related to but distinct from the existing genus Caloranaerobacter of beside.

Secuscaloribacterium

L. masc. preposition *secus*, beside; L. neut. n. *Caloribacterium*, An existing genus; *Secuscaloribacterium*: A genus related to but distinct from the existing genus Caloribacterium of beside.

Secuscalorimonas

L. masc. preposition *secus*, beside; L. fem. n. *Calorimonas*, An existing genus; *Secuscalorimonas*: A genus related to but distinct from the existing genus Calorimonas of beside.

Secuscalorithrix

L. masc. preposition *secus*, beside; L. fem. n. *Calorithrix*, An existing genus; *Secuscalorithrix*: A genus related to but distinct from the existing genus Calorithrix of beside.

Secuscalothrix

L. masc. preposition *secus*, beside; L. fem. n. *Calothrix*, An existing genus; *Secuscalothrix*: A genus related to but distinct from the existing genus Calothrix of beside.

Secuscalymmatobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Calymmatobacterium*, An existing genus; *Secuscalymmatobacterium*: A genus related to but distinct from the existing genus Calymmatobacterium of beside.

Secuscamelimonas

L. masc. preposition *secus*, beside; L. fem. n. *Camelimonas*, An existing genus; *Secuscamelimonas*: A genus related to but distinct from the existing genus Camelimonas of beside.

Secuscamelliibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Camelliibacillus*, An existing genus; *Secuscamelliibacillus*: A genus related to but distinct from the existing genus Camelliibacillus of beside.

Secuscaminibacter

L. masc. preposition *secus*, beside; L. masc. n. *Caminibacter*, An existing genus; *Secuscaminibacter*: A genus related to but distinct from the existing genus Caminibacter of beside.

Secuscaminicella

L. masc. preposition *secus*, beside; L. fem. n. *Caminicella*, An existing genus; *Secuscaminicella*: A genus related to but distinct from the existing genus Caminicella of beside.

Secuscampylobacter

L. masc. preposition *secus*, beside; L. masc. n. *Campylobacter*, An existing genus; *Secuscampylobacter*: A genus related to but distinct from the existing genus Campylobacter of beside.

Secuscanaleparolina

L. masc. preposition *secus*, beside; L. fem. n. *Canaleparolina*, An existing genus; *Secuscanaleparolina*: A genus related to but distinct from the existing genus Canaleparolina of beside.

Secuscandidimonas

L. masc. preposition *secus*, beside; L. fem. n. *Candidimonas*, An existing genus; *Secuscandidimonas*: A genus related to but distinct from the existing genus Candidimonas of beside.

Secuscanibacter

L. masc. preposition *secus*, beside; L. masc. n. *Canibacter*, An existing genus; *Secuscanibacter*: A genus related to but distinct from the existing genus Canibacter of beside.

Secuscapillus

L. masc. preposition *secus*, beside; L. masc. n. *Capillus*, An existing genus; *Secuscapillus*: A genus related to but distinct from the existing genus Capillus of beside.

Secuscapnocytophaga

L. masc. preposition *secus*, beside; L. fem. n. *Capnocytophaga*, An existing genus; *Secuscapnocytophaga*: A genus related to but distinct from the existing genus Capnocytophaga of beside.

Secuscaproicibacter

L. masc. preposition *secus*, beside; L. masc. n. *Caproicibacter*, An existing genus; *Secuscaproicibacter*: A genus related to but distinct from the existing genus Caproicibacter of beside.

Secuscaproiciproducens

L. masc. preposition *secus*, beside; L. masc. n. *Caproiciproducens*, An existing genus; *Secuscaproiciproducens*: A genus related to but distinct from the existing genus Caproiciproducens of beside.

Secuscapsularis

L. masc. preposition *secus*, beside; L. masc. n. *Capsularis*, An existing genus; *Secuscapsularis*: A genus related to but distinct from the existing genus Capsularis of beside.

Secuscapsulimonas

L. masc. preposition *secus*, beside; L. fem. n. *Capsulimonas*, An existing genus; *Secuscapsulimonas*: A genus related to but distinct from the existing genus Capsulimonas of beside.

Secuscarbophilus

L. masc. preposition *secus*, beside; L. masc. n. *Carbophilus*, An existing genus; *Secuscarbophilus*: A genus related to but distinct from the existing genus Carbophilus of beside.

Secuscarboxydocella

L. masc. preposition *secus*, beside; L. fem. n. *Carboxydocella*, An existing genus; *Secuscarboxydocella*: A genus related to but distinct from the existing genus Carboxydocella of beside.

Secuscarboxydothermus

L. masc. preposition *secus*, beside; L. masc. n. *Carboxydothermus*, An existing genus; *Secuscarboxydothermus*: A genus related to but distinct from the existing genus Carboxydothermus of beside.

Secuscardiobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Cardiobacterium*, An existing genus; *Secuscardiobacterium*: A genus related to but distinct from the existing genus Cardiobacterium of beside.

Secuscarideicomes

L. masc. preposition *secus*, beside; L. masc. n. *Carideicomes*, An existing genus; *Secuscarideicomes*: A genus related to but distinct from the existing genus Carideicomes of beside.

Secuscarnimonas

L. masc. preposition *secus*, beside; L. fem. n. *Carnimonas*, An existing genus; *Secuscarnimonas*: A genus related to but distinct from the existing genus Carnimonas of beside.

Secuscarnobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Carnobacterium*, An existing genus; *Secuscarnobacterium*: A genus related to but distinct from the existing genus Carnobacterium of beside.

Secuscartusia

L. masc. preposition *secus*, beside; L. fem. n. *Cartusia*, An existing genus; *Secuscartusia*: A genus related to but distinct from the existing genus Cartusia of beside.

Secuscaryophanon

L. masc. preposition *secus*, beside; L. neut. n. *Caryophanon*, An existing genus; *Secuscaryophanon*: A genus related to but distinct from the existing genus Caryophanon of beside.

Secuscaseobacter

L. masc. preposition *secus*, beside; L. masc. n. *Caseobacter*, An existing genus; *Secuscaseobacter*: A genus related to but distinct from the existing genus Caseobacter of beside.

Secuscasimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Casimicrobium*, An existing genus; *Secuscasimicrobium*: A genus related to but distinct from the existing genus Casimicrobium of beside.

Secuscastellaniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Castellaniella*, An existing genus; *Secuscastellaniella*: A genus related to but distinct from the existing genus Castellaniella of beside.

Secuscatabacter

L. masc. preposition *secus*, beside; L. masc. n. *Catabacter*, An existing genus; *Secuscatabacter*: A genus related to but distinct from the existing genus Catabacter of beside.

Secuscatalinimonas

L. masc. preposition *secus*, beside; L. fem. n. *Catalinimonas*, An existing genus; *Secuscatalinimonas*: A genus related to but distinct from the existing genus Catalinimonas of beside.

Secuscatellatospora

L. masc. preposition *secus*, beside; L. fem. n. *Catellatospora*, An existing genus; *Secuscatellatospora*: A genus related to but distinct from the existing genus Catellatospora of beside.

Secuscatellibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Catellibacterium*, An existing genus; *Secuscatellibacterium*: A genus related to but distinct from the existing genus Catellibacterium of beside.

Secuscatellicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Catellicoccus*, An existing genus; *Secuscatellicoccus*: A genus related to but distinct from the existing genus Catellicoccus of beside.

Secuscatelliglobosispora

L. masc. preposition *secus*, beside; L. fem. n. *Catelliglobosispora*, An existing genus; *Secuscatelliglobosispora*: A genus related to but distinct from the existing genus Catelliglobosispora of beside.

Secuscatenibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Catenibacillus*, An existing genus; *Secuscatenibacillus*: A genus related to but distinct from the existing genus Catenibacillus of beside.

Secuscatenibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Catenibacterium*, An existing genus; *Secuscatenibacterium*: A genus related to but distinct from the existing genus Catenibacterium of beside.

Secuscatenisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Catenisphaera*, An existing genus; *Secuscatenisphaera*: A genus related to but distinct from the existing genus Catenisphaera of beside.

Secuscatenococcus

L. masc. preposition *secus*, beside; L. masc. n. *Catenococcus*, An existing genus; *Secuscatenococcus*: A genus related to but distinct from the existing genus Catenococcus of beside.

Secuscatenovulum

L. masc. preposition *secus*, beside; L. neut. n. *Catenovulum*, An existing genus; *Secuscatenovulum*: A genus related to but distinct from the existing genus Catenovulum of beside.

Secuscatenulispora

L. masc. preposition *secus*, beside; L. fem. n. *Catenulispora*, An existing genus; *Secuscatenulispora*: A genus related to but distinct from the existing genus Catenulispora of beside.

Secuscatenuloplanes

L. masc. preposition *secus*, beside; L. masc. n. *Catenuloplanes*, An existing genus; *Secuscatenuloplanes*: A genus related to but distinct from the existing genus Catenuloplanes of beside.

Secuscatonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Catonella*, An existing genus; *Secuscatonella*: A genus related to but distinct from the existing genus Catonella of beside.

Secuscaulifigura

L. masc. preposition *secus*, beside; L. fem. n. *Caulifigura*, An existing genus; *Secuscaulifigura*: A genus related to but distinct from the existing genus Caulifigura of beside.

Secuscaulobacter

L. masc. preposition *secus*, beside; L. masc. n. *Caulobacter*, An existing genus; *Secuscaulobacter*: A genus related to but distinct from the existing genus Caulobacter of beside.

Secuscavicella

L. masc. preposition *secus*, beside; L. fem. n. *Cavicella*, An existing genus; *Secuscavicella*: A genus related to but distinct from the existing genus Cavicella of beside.

Secuscaviibacter

L. masc. preposition *secus*, beside; L. masc. n. *Caviibacter*, An existing genus; *Secuscaviibacter*: A genus related to but distinct from the existing genus Caviibacter of beside.

Secuscaviibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Caviibacterium*, An existing genus; *Secuscaviibacterium*: A genus related to but distinct from the existing genus Caviibacterium of beside.

Secuscecembia

L. masc. preposition *secus*, beside; L. fem. n. *Cecembia*, An existing genus; *Secuscecembia*: A genus related to but distinct from the existing genus Cecembia of beside.

Secuscedecea

L. masc. preposition *secus*, beside; L. fem. n. *Cedecea*, An existing genus; *Secuscedecea*: A genus related to but distinct from the existing genus Cedecea of beside.

Secuscelerinatantimonas

L. masc. preposition *secus*, beside; L. fem. n. *Celerinatantimonas*, An existing genus; *Secuscelerinatantimonas*: A genus related to but distinct from the existing genus Celerinatantimonas of beside.

Secuscellulomonas

L. masc. preposition *secus*, beside; L. fem. n. *Cellulomonas*, An existing genus; *Secuscellulomonas*: A genus related to but distinct from the existing genus Cellulomonas of beside.

Secuscellulophaga

L. masc. preposition *secus*, beside; L. fem. n. *Cellulophaga*, An existing genus; *Secuscellulophaga*: A genus related to but distinct from the existing genus Cellulophaga of beside.

Secuscellulosibacter

L. masc. preposition *secus*, beside; L. masc. n. *Cellulosibacter*, An existing genus; *Secuscellulosibacter*: A genus related to but distinct from the existing genus Cellulosibacter of beside.

Secuscellulosilyticum

L. masc. preposition *secus*, beside; L. neut. n. *Cellulosilyticum*, An existing genus; *Secuscellulosilyticum*: A genus related to but distinct from the existing genus Cellulosilyticum of beside.

Secuscellulosimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Cellulosimicrobium*, An existing genus; *Secuscellulosimicrobium*: A genus related to but distinct from the existing genus Cellulosimicrobium of beside.

Secuscellvibrio

L. masc. preposition *secus*, beside; L. masc. n. *Cellvibrio*, An existing genus; *Secuscellvibrio*: A genus related to but distinct from the existing genus Cellvibrio of beside.

Secuscenarchaeum

L. masc. preposition *secus*, beside; L. neut. n. *Cenarchaeum*, An existing genus; *Secuscenarchaeum*: A genus related to but distinct from the existing genus Cenarchaeum of beside.

Secuscephalothrix

L. masc. preposition *secus*, beside; L. fem. n. *Cephalothrix*, An existing genus; *Secuscephalothrix*: A genus related to but distinct from the existing genus Cephalothrix of beside.

Secuscephaloticoccus

L. masc. preposition *secus*, beside; L. masc. n. *Cephaloticoccus*, An existing genus; *Secuscephaloticoccus*: A genus related to but distinct from the existing genus Cephaloticoccus of beside.

Secuscerasibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Cerasibacillus*, An existing genus; *Secuscerasibacillus*: A genus related to but distinct from the existing genus Cerasibacillus of beside.

Secuscerasicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Cerasicoccus*, An existing genus; *Secuscerasicoccus*: A genus related to but distinct from the existing genus Cerasicoccus of beside.

Secuscereibacter

L. masc. preposition *secus*, beside; L. masc. n. *Cereibacter*, An existing genus; *Secuscereibacter*: A genus related to but distinct from the existing genus Cereibacter of beside.

Secuscesiribacter

L. masc. preposition *secus*, beside; L. masc. n. *Cesiribacter*, An existing genus; *Secuscesiribacter*: A genus related to but distinct from the existing genus Cesiribacter of beside.

Secuscetobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Cetobacterium*, An existing genus; *Secuscetobacterium*: A genus related to but distinct from the existing genus Cetobacterium of beside.

Secuschachezhania

L. masc. preposition *secus*, beside; L. fem. n. *Chachezhania*, An existing genus; *Secuschachezhania*: A genus related to but distinct from the existing genus Chachezhania of beside.

Secuschainia

L. masc. preposition *secus*, beside; L. fem. n. *Chainia*, An existing genus; *Secuschainia*: A genus related to but distinct from the existing genus Chainia of beside.

Secuschakia

L. masc. preposition *secus*, beside; L. fem. n. *Chakia*, An existing genus; *Secuschakia*: A genus related to but distinct from the existing genus Chakia of beside.

Secuschakrabartia

L. masc. preposition *secus*, beside; L. fem. n. *Chakrabartia*, An existing genus; *Secuschakrabartia*: A genus related to but distinct from the existing genus Chakrabartia of beside.

Secuschalicogloea

L. masc. preposition *secus*, beside; L. fem. n. *Chalicogloea*, An existing genus; *Secuschalicogloea*: A genus related to but distinct from the existing genus Chalicogloea of beside.

Secuschamaethrix

L. masc. preposition *secus*, beside; L. fem. n. *Chamaethrix*, An existing genus; *Secuschamaethrix*: A genus related to but distinct from the existing genus Chamaethrix of beside.

Secuschangchengzhania

L. masc. preposition *secus*, beside; L. fem. n. *Changchengzhania*, An existing genus; *Secuschangchengzhania*: A genus related to but distinct from the existing genus Changchengzhania of beside.

Secuschania

L. masc. preposition *secus*, beside; L. fem. n. *Chania*, An existing genus; *Secuschania*: A genus related to but distinct from the existing genus Chania of beside.

Secuscharonomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Charonomicrobium*, An existing genus; *Secuscharonomicrobium*: A genus related to but distinct from the existing genus Charonomicrobium of beside.

Secuschelativorans

L. masc. preposition *secus*, beside; L. masc. n. *Chelativorans*, An existing genus; *Secuschelativorans*: A genus related to but distinct from the existing genus Chelativorans of beside.

Secuschelatobacter

L. masc. preposition *secus*, beside; L. masc. n. *Chelatobacter*, An existing genus; *Secuschelatobacter*: A genus related to but distinct from the existing genus Chelatobacter of beside.

Secuschelatococcus

L. masc. preposition *secus*, beside; L. masc. n. *Chelatococcus*, An existing genus; *Secuschelatococcus*: A genus related to but distinct from the existing genus Chelatococcus of beside.

Secuschelonobacter

L. masc. preposition *secus*, beside; L. masc. n. *Chelonobacter*, An existing genus; *Secuschelonobacter*: A genus related to but distinct from the existing genus Chelonobacter of beside.

Secuschenggangzhangella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Chenggangzhangella*, An existing genus; *Secuschenggangzhangella*: A genus related to but distinct from the existing genus Chenggangzhangella of beside.

Secuschengkuizengella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Chengkuizengella*, An existing genus; *Secuschengkuizengella*: A genus related to but distinct from the existing genus Chengkuizengella of beside.

Secuschiayiivirga

L. masc. preposition *secus*, beside; L. fem. n. *Chiayiivirga*, An existing genus; *Secuschiayiivirga*: A genus related to but distinct from the existing genus Chiayiivirga of beside.

Secuschimaereicella

L. masc. preposition *secus*, beside; L. fem. n. *Chimaereicella*, An existing genus; *Secuschimaereicella*: A genus related to but distinct from the existing genus Chimaereicella of beside.

Secuschimaeribacter

L. masc. preposition *secus*, beside; L. masc. n. *Chimaeribacter*, An existing genus; *Secuschimaeribacter*: A genus related to but distinct from the existing genus Chimaeribacter of beside.

Secuschishuiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Chishuiella*, An existing genus; *Secuschishuiella*: A genus related to but distinct from the existing genus Chishuiella of beside.

Secuschitinasiproducens

L. masc. preposition *secus*, beside; L. masc. n. *Chitinasiproducens*, An existing genus; *Secuschitinasiproducens*: A genus related to but distinct from the existing genus Chitinasiproducens of beside.

Secuschitinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Chitinibacter*, An existing genus; *Secuschitinibacter*: A genus related to but distinct from the existing genus Chitinibacter of beside.

Secuschitinilyticum

L. masc. preposition *secus*, beside; L. neut. n. *Chitinilyticum*, An existing genus; *Secuschitinilyticum*: A genus related to but distinct from the existing genus Chitinilyticum of beside.

Secuschitiniphilus

L. masc. preposition *secus*, beside; L. masc. n. *Chitiniphilus*, An existing genus; *Secuschitiniphilus*: A genus related to but distinct from the existing genus Chitiniphilus of beside.

Secuschitinispirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Chitinispirillum*, An existing genus; *Secuschitinispirillum*: A genus related to but distinct from the existing genus Chitinispirillum of beside.

Secuschitinivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Chitinivibrio*, An existing genus; *Secuschitinivibrio*: A genus related to but distinct from the existing genus Chitinivibrio of beside.

Secuschitinivorax

L. masc. preposition *secus*, beside; L. masc. n. *Chitinivorax*, An existing genus; *Secuschitinivorax*: A genus related to but distinct from the existing genus Chitinivorax of beside.

Secuschitinolyticbacter

L. masc. preposition *secus*, beside; L. masc. n. *Chitinolyticbacter*, An existing genus; *Secuschitinolyticbacter*: A genus related to but distinct from the existing genus Chitinolyticbacter of beside.

Secuschitinophaga

L. masc. preposition *secus*, beside; L. fem. n. *Chitinophaga*, An existing genus; *Secuschitinophaga*: A genus related to but distinct from the existing genus Chitinophaga of beside.

Secuschlamydia

L. masc. preposition *secus*, beside; L. fem. n. *Chlamydia*, An existing genus; *Secuschlamydia*: A genus related to but distinct from the existing genus Chlamydia of beside.

Secuschlamydophila

L. masc. preposition *secus*, beside; L. fem. n. *Chlamydophila*, An existing genus; *Secuschlamydophila*: A genus related to but distinct from the existing genus Chlamydophila of beside.

Secuschloracidobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Chloracidobacterium*, An existing genus; *Secuschloracidobacterium*: A genus related to but distinct from the existing genus Chloracidobacterium of beside.

Secuschlorobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Chlorobaculum*, An existing genus; *Secuschlorobaculum*: A genus related to but distinct from the existing genus Chlorobaculum of beside.

Secuschlorobium

L. masc. preposition *secus*, beside; L. neut. n. *Chlorobium*, An existing genus; *Secuschlorobium*: A genus related to but distinct from the existing genus Chlorobium of beside.

Secuschloroflexus

L. masc. preposition *secus*, beside; L. masc. n. *Chloroflexus*, An existing genus; *Secuschloroflexus*: A genus related to but distinct from the existing genus Chloroflexus of beside.

Secuschloroherpeton

L. masc. preposition *secus*, beside; L. neut. n. *Chloroherpeton*, An existing genus; *Secuschloroherpeton*: A genus related to but distinct from the existing genus Chloroherpeton of beside.

Secuschloronema

L. masc. preposition *secus*, beside; L. neut. n. *Chloronema*, An existing genus; *Secuschloronema*: A genus related to but distinct from the existing genus Chloronema of beside.

Secuschondromyces

L. masc. preposition *secus*, beside; L. masc. n. *Chondromyces*, An existing genus; *Secuschondromyces*: A genus related to but distinct from the existing genus Chondromyces of beside.

Secuschristensenella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Christensenella*, An existing genus; *Secuschristensenella*: A genus related to but distinct from the existing genus Christensenella of beside.

Secuschroakolemma

L. masc. preposition *secus*, beside; L. neut. n. *Chroakolemma*, An existing genus; *Secuschroakolemma*: A genus related to but distinct from the existing genus Chroakolemma of beside.

Secuschromatium

L. masc. preposition *secus*, beside; L. neut. n. *Chromatium*, An existing genus; *Secuschromatium*: A genus related to but distinct from the existing genus Chromatium of beside.

Secuschromatocurvus

L. masc. preposition *secus*, beside; L. masc. n. *Chromatocurvus*, An existing genus; *Secuschromatocurvus*: A genus related to but distinct from the existing genus Chromatocurvus of beside.

Secuschromobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Chromobacterium*, An existing genus; *Secuschromobacterium*: A genus related to but distinct from the existing genus Chromobacterium of beside.

Secuschromohalobacter

L. masc. preposition *secus*, beside; L. masc. n. *Chromohalobacter*, An existing genus; *Secuschromohalobacter*: A genus related to but distinct from the existing genus Chromohalobacter of beside.

Secuschroococcus

L. masc. preposition *secus*, beside; L. masc. n. *Chroococcus*, An existing genus; *Secuschroococcus*: A genus related to but distinct from the existing genus Chroococcus of beside.

Secuschryseobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Chryseobacterium*, An existing genus; *Secuschryseobacterium*: A genus related to but distinct from the existing genus Chryseobacterium of beside.

Secuschryseoglobus

L. masc. preposition *secus*, beside; L. masc. n. *Chryseoglobus*, An existing genus; *Secuschryseoglobus*: A genus related to but distinct from the existing genus Chryseoglobus of beside.

Secuschryseolinea

L. masc. preposition *secus*, beside; L. fem. n. *Chryseolinea*, An existing genus; *Secuschryseolinea*: A genus related to but distinct from the existing genus Chryseolinea of beside.

Secuschryseomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Chryseomicrobium*, An existing genus; *Secuschryseomicrobium*: A genus related to but distinct from the existing genus Chryseomicrobium of beside.

Secuschryseomonas

L. masc. preposition *secus*, beside; L. fem. n. *Chryseomonas*, An existing genus; *Secuschryseomonas*: A genus related to but distinct from the existing genus Chryseomonas of beside.

Secuschryseotalea

L. masc. preposition *secus*, beside; L. fem. n. *Chryseotalea*, An existing genus; *Secuschryseotalea*: A genus related to but distinct from the existing genus Chryseotalea of beside.

Secuschrysiogenes

L. masc. preposition *secus*, beside; L. masc. n. *Chrysiogenes*, An existing genus; *Secuschrysiogenes*: A genus related to but distinct from the existing genus Chrysiogenes of beside.

Secuschthoniobacter

L. masc. preposition *secus*, beside; L. masc. n. *Chthoniobacter*, An existing genus; *Secuschthoniobacter*: A genus related to but distinct from the existing genus Chthoniobacter of beside.

Secuschthonobacter

L. masc. preposition *secus*, beside; L. masc. n. *Chthonobacter*, An existing genus; *Secuschthonobacter*: A genus related to but distinct from the existing genus Chthonobacter of beside.

Secuschthonomonas

L. masc. preposition *secus*, beside; L. fem. n. *Chthonomonas*, An existing genus; *Secuschthonomonas*: A genus related to but distinct from the existing genus Chthonomonas of beside.

Secuschujaibacter

L. masc. preposition *secus*, beside; L. masc. n. *Chujaibacter*, An existing genus; *Secuschujaibacter*: A genus related to but distinct from the existing genus Chujaibacter of beside.

Secuschungangia

L. masc. preposition *secus*, beside; L. fem. n. *Chungangia*, An existing genus; *Secuschungangia*: A genus related to but distinct from the existing genus Chungangia of beside.

Secusciceribacter

L. masc. preposition *secus*, beside; L. masc. n. *Ciceribacter*, An existing genus; *Secusciceribacter*: A genus related to but distinct from the existing genus Ciceribacter of beside.

Secuscitreibacter

L. masc. preposition *secus*, beside; L. masc. n. *Citreibacter*, An existing genus; *Secuscitreibacter*: A genus related to but distinct from the existing genus Citreibacter of beside.

Secuscitreicella

L. masc. preposition *secus*, beside; L. fem. n. *Citreicella*, An existing genus; *Secuscitreicella*: A genus related to but distinct from the existing genus Citreicella of beside.

Secuscitreimonas

L. masc. preposition *secus*, beside; L. fem. n. *Citreimonas*, An existing genus; *Secuscitreimonas*: A genus related to but distinct from the existing genus Citreimonas of beside.

Secuscitreitalea

L. masc. preposition *secus*, beside; L. fem. n. *Citreitalea*, An existing genus; *Secuscitreitalea*: A genus related to but distinct from the existing genus Citreitalea of beside.

Secuscitricoccus

L. masc. preposition *secus*, beside; L. masc. n. *Citricoccus*, An existing genus; *Secuscitricoccus*: A genus related to but distinct from the existing genus Citricoccus of beside.

Secuscitrimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Citrimicrobium*, An existing genus; *Secuscitrimicrobium*: A genus related to but distinct from the existing genus Citrimicrobium of beside.

Secuscitrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Citrobacter*, An existing genus; *Secuscitrobacter*: A genus related to but distinct from the existing genus Citrobacter of beside.

Secuscitromicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Citromicrobium*, An existing genus; *Secuscitromicrobium*: A genus related to but distinct from the existing genus Citromicrobium of beside.

Secuscitroniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Citroniella*, An existing genus; *Secuscitroniella*: A genus related to but distinct from the existing genus Citroniella of beside.

Secusclavibacter

L. masc. preposition *secus*, beside; L. masc. n. *Clavibacter*, An existing genus; *Secusclavibacter*: A genus related to but distinct from the existing genus Clavibacter of beside.

Secusclevelandina

L. masc. preposition *secus*, beside; L. fem. n. *Clevelandina*, An existing genus; *Secusclevelandina*: A genus related to but distinct from the existing genus Clevelandina of beside.

Secuscloacibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Cloacibacillus*, An existing genus; *Secuscloacibacillus*: A genus related to but distinct from the existing genus Cloacibacillus of beside.

Secuscloacibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Cloacibacterium*, An existing genus; *Secuscloacibacterium*: A genus related to but distinct from the existing genus Cloacibacterium of beside.

Secusclostridiisalibacter

L. masc. preposition *secus*, beside; L. masc. n. *Clostridiisalibacter*, An existing genus; *Secusclostridiisalibacter*: A genus related to but distinct from the existing genus Clostridiisalibacter of beside.

Secusclostridioides

L. masc. preposition *secus*, beside; L. neut. n. *Clostridioides*, An existing genus; *Secusclostridioides*: A genus related to but distinct from the existing genus Clostridioides of beside.

Secusclostridium

L. masc. preposition *secus*, beside; L. neut. dim. n. *Clostridium*, An existing genus; *Secusclostridium*: A genus related to but distinct from the existing genus Clostridium of beside.

Secuscnuella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Cnuella*, An existing genus; *Secuscnuella*: A genus related to but distinct from the existing genus Cnuella of beside.

Secuscnuibacter

L. masc. preposition *secus*, beside; L. masc. n. *Cnuibacter*, An existing genus; *Secuscnuibacter*: A genus related to but distinct from the existing genus Cnuibacter of beside.

Secuscobetia

L. masc. preposition *secus*, beside; L. fem. n. *Cobetia*, An existing genus; *Secuscobetia*: A genus related to but distinct from the existing genus Cobetia of beside.

Secuscochleicola

L. masc. preposition *secus*, beside; L. masc. n. *Cochleicola*, An existing genus; *Secuscochleicola*: A genus related to but distinct from the existing genus Cochleicola of beside.

Secuscocleimonas

L. masc. preposition *secus*, beside; L. fem. n. *Cocleimonas*, An existing genus; *Secuscocleimonas*: A genus related to but distinct from the existing genus Cocleimonas of beside.

Secuscoenonia

L. masc. preposition *secus*, beside; L. fem. n. *Coenonia*, An existing genus; *Secuscoenonia*: A genus related to but distinct from the existing genus Coenonia of beside.

Secuscoetzeea

L. masc. preposition *secus*, beside; L. fem. n. *Coetzeea*, An existing genus; *Secuscoetzeea*: A genus related to but distinct from the existing genus Coetzeea of beside.

Secuscognaticolwellia

L. masc. preposition *secus*, beside; L. fem. n. *Cognaticolwellia*, An existing genus; *Secuscognaticolwellia*: A genus related to but distinct from the existing genus Cognaticolwellia of beside.

Secuscognatishimia

L. masc. preposition *secus*, beside; L. fem. n. *Cognatishimia*, An existing genus; *Secuscognatishimia*: A genus related to but distinct from the existing genus Cognatishimia of beside.

Secuscognatiyoonia

L. masc. preposition *secus*, beside; L. fem. n. *Cognatiyoonia*, An existing genus; *Secuscognatiyoonia*: A genus related to but distinct from the existing genus Cognatiyoonia of beside.

Secuscohaesibacter

L. masc. preposition *secus*, beside; L. masc. n. *Cohaesibacter*, An existing genus; *Secuscohaesibacter*: A genus related to but distinct from the existing genus Cohaesibacter of beside.

Secuscohnella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Cohnella*, An existing genus; *Secuscohnella*: A genus related to but distinct from the existing genus Cohnella of beside.

Secuscoleofasciculus

L. masc. preposition *secus*, beside; L. masc. dim. n. *Coleofasciculus*, An existing genus; *Secuscoleofasciculus*: A genus related to but distinct from the existing genus Coleofasciculus of beside.

Secuscollimonas

L. masc. preposition *secus*, beside; L. fem. n. *Collimonas*, An existing genus; *Secuscollimonas*: A genus related to but distinct from the existing genus Collimonas of beside.

Secuscollinsella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Collinsella*, An existing genus; *Secuscollinsella*: A genus related to but distinct from the existing genus Collinsella of beside.

Secuscolteronema

L. masc. preposition *secus*, beside; L. neut. n. *Colteronema*, An existing genus; *Secuscolteronema*: A genus related to but distinct from the existing genus Colteronema of beside.

Secuscolwellia

L. masc. preposition *secus*, beside; L. fem. n. *Colwellia*, An existing genus; *Secuscolwellia*: A genus related to but distinct from the existing genus Colwellia of beside.

Secuscomamonas

L. masc. preposition *secus*, beside; L. fem. n. *Comamonas*, An existing genus; *Secuscomamonas*: A genus related to but distinct from the existing genus Comamonas of beside.

Secuscommensalibacter

L. masc. preposition *secus*, beside; L. masc. n. *Commensalibacter*, An existing genus; *Secuscommensalibacter*: A genus related to but distinct from the existing genus Commensalibacter of beside.

Secuscompactonostoc

L. masc. preposition *secus*, beside; L. neut. n. *Compactonostoc*, An existing genus; *Secuscompactonostoc*: A genus related to but distinct from the existing genus Compactonostoc of beside.

Secuscompanilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Companilactobacillus*, An existing genus; *Secuscompanilactobacillus*: A genus related to but distinct from the existing genus Companilactobacillus of beside.

Secuscompostibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Compostibacillus*, An existing genus; *Secuscompostibacillus*: A genus related to but distinct from the existing genus Compostibacillus of beside.

Secuscompostimonas

L. masc. preposition *secus*, beside; L. fem. n. *Compostimonas*, An existing genus; *Secuscompostimonas*: A genus related to but distinct from the existing genus Compostimonas of beside.

Secusconchiformibius

L. masc. preposition *secus*, beside; L. masc. n. *Conchiformibius*, An existing genus; *Secusconchiformibius*: A genus related to but distinct from the existing genus Conchiformibius of beside.

Secusconexibacter

L. masc. preposition *secus*, beside; L. masc. n. *Conexibacter*, An existing genus; *Secusconexibacter*: A genus related to but distinct from the existing genus Conexibacter of beside.

Secusconfluentibacter

L. masc. preposition *secus*, beside; L. masc. n. *Confluentibacter*, An existing genus; *Secusconfluentibacter*: A genus related to but distinct from the existing genus Confluentibacter of beside.

Secusconfluentimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Confluentimicrobium*, An existing genus; *Secusconfluentimicrobium*: A genus related to but distinct from the existing genus Confluentimicrobium of beside.

Secusconglomeromonas

L. masc. preposition *secus*, beside; L. fem. n. *Conglomeromonas*, An existing genus; *Secusconglomeromonas*: A genus related to but distinct from the existing genus Conglomeromonas of beside.

Secuscongregibacter

L. masc. preposition *secus*, beside; L. masc. n. *Congregibacter*, An existing genus; *Secuscongregibacter*: A genus related to but distinct from the existing genus Congregibacter of beside.

Secusconservatibacter

L. masc. preposition *secus*, beside; L. masc. n. *Conservatibacter*, An existing genus; *Secusconservatibacter*: A genus related to but distinct from the existing genus Conservatibacter of beside.

Secusconsotaella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Consotaella*, An existing genus; *Secusconsotaella*: A genus related to but distinct from the existing genus Consotaella of beside.

Secusconstrictibacter

L. masc. preposition *secus*, beside; L. masc. n. *Constrictibacter*, An existing genus; *Secusconstrictibacter*: A genus related to but distinct from the existing genus Constrictibacter of beside.

Secusconvivina

L. masc. preposition *secus*, beside; L. fem. n. *Convivina*, An existing genus; *Secusconvivina*: A genus related to but distinct from the existing genus Convivina of beside.

Secusconyzicola

L. masc. preposition *secus*, beside; L. fem. n. *Conyzicola*, An existing genus; *Secusconyzicola*: A genus related to but distinct from the existing genus Conyzicola of beside.

Secuscoprobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Coprobacillus*, An existing genus; *Secuscoprobacillus*: A genus related to but distinct from the existing genus Coprobacillus of beside.

Secuscoprobacter

L. masc. preposition *secus*, beside; L. masc. n. *Coprobacter*, An existing genus; *Secuscoprobacter*: A genus related to but distinct from the existing genus Coprobacter of beside.

Secuscoprococcus

L. masc. preposition *secus*, beside; L. masc. n. *Coprococcus*, An existing genus; *Secuscoprococcus*: A genus related to but distinct from the existing genus Coprococcus of beside.

Secuscoprothermobacter

L. masc. preposition *secus*, beside; L. masc. n. *Coprothermobacter*, An existing genus; *Secuscoprothermobacter*: A genus related to but distinct from the existing genus Coprothermobacter of beside.

Secuscoraliitalea

L. masc. preposition *secus*, beside; L. fem. n. *Coraliitalea*, An existing genus; *Secuscoraliitalea*: A genus related to but distinct from the existing genus Coraliitalea of beside.

Secuscoraliomargarita

L. masc. preposition *secus*, beside; L. fem. n. *Coraliomargarita*, An existing genus; *Secuscoraliomargarita*: A genus related to but distinct from the existing genus Coraliomargarita of beside.

Secuscorallibacter

L. masc. preposition *secus*, beside; L. masc. n. *Corallibacter*, An existing genus; *Secuscorallibacter*: A genus related to but distinct from the existing genus Corallibacter of beside.

Secuscorallincola

L. masc. preposition *secus*, beside; L. masc. n. *Corallincola*, An existing genus; *Secuscorallincola*: A genus related to but distinct from the existing genus Corallincola of beside.

Secuscorallococcus

L. masc. preposition *secus*, beside; L. masc. n. *Corallococcus*, An existing genus; *Secuscorallococcus*: A genus related to but distinct from the existing genus Corallococcus of beside.

Secuscoralloluteibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Coralloluteibacterium*, An existing genus; *Secuscoralloluteibacterium*: A genus related to but distinct from the existing genus Coralloluteibacterium of beside.

Secuscorallomonas

L. masc. preposition *secus*, beside; L. fem. n. *Corallomonas*, An existing genus; *Secuscorallomonas*: A genus related to but distinct from the existing genus Corallomonas of beside.

Secuscoralslurrinella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Coralslurrinella*, An existing genus; *Secuscoralslurrinella*: A genus related to but distinct from the existing genus Coralslurrinella of beside.

Secuscorticicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Corticicoccus*, An existing genus; *Secuscorticicoccus*: A genus related to but distinct from the existing genus Corticicoccus of beside.

Secuscorynebacterium

L. masc. preposition *secus*, beside; L. neut. n. *Corynebacterium*, An existing genus; *Secuscorynebacterium*: A genus related to but distinct from the existing genus Corynebacterium of beside.

Secuscosenzaea

L. masc. preposition *secus*, beside; L. fem. n. *Cosenzaea*, An existing genus; *Secuscosenzaea*: A genus related to but distinct from the existing genus Cosenzaea of beside.

Secuscostertonia

L. masc. preposition *secus*, beside; L. fem. n. *Costertonia*, An existing genus; *Secuscostertonia*: A genus related to but distinct from the existing genus Costertonia of beside.

Secuscouchioplanes

L. masc. preposition *secus*, beside; L. masc. n. *Couchioplanes*, An existing genus; *Secuscouchioplanes*: A genus related to but distinct from the existing genus Couchioplanes of beside.

Secuscowdria

L. masc. preposition *secus*, beside; L. fem. n. *Cowdria*, An existing genus; *Secuscowdria*: A genus related to but distinct from the existing genus Cowdria of beside.

Secuscoxiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Coxiella*, An existing genus; *Secuscoxiella*: A genus related to but distinct from the existing genus Coxiella of beside.

Secuscrabtreella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Crabtreella*, An existing genus; *Secuscrabtreella*: A genus related to but distinct from the existing genus Crabtreella of beside.

Secuscrassaminicella

L. masc. preposition *secus*, beside; L. fem. n. *Crassaminicella*, An existing genus; *Secuscrassaminicella*: A genus related to but distinct from the existing genus Crassaminicella of beside.

Secuscrateriforma

L. masc. preposition *secus*, beside; L. fem. n. *Crateriforma*, An existing genus; *Secuscrateriforma*: A genus related to but distinct from the existing genus Crateriforma of beside.

Secuscraterilacuibacter

L. masc. preposition *secus*, beside; L. masc. n. *Craterilacuibacter*, An existing genus; *Secuscraterilacuibacter*: A genus related to but distinct from the existing genus Craterilacuibacter of beside.

Secuscraurococcus

L. masc. preposition *secus*, beside; L. masc. n. *Craurococcus*, An existing genus; *Secuscraurococcus*: A genus related to but distinct from the existing genus Craurococcus of beside.

Secuscrenalkalicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Crenalkalicoccus*, An existing genus; *Secuscrenalkalicoccus*: A genus related to but distinct from the existing genus Crenalkalicoccus of beside.

Secuscrenotalea

L. masc. preposition *secus*, beside; L. fem. n. *Crenotalea*, An existing genus; *Secuscrenotalea*: A genus related to but distinct from the existing genus Crenotalea of beside.

Secuscriblamydia

L. masc. preposition *secus*, beside; L. fem. n. *Criblamydia*, An existing genus; *Secuscriblamydia*: A genus related to but distinct from the existing genus Criblamydia of beside.

Secuscribrihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Cribrihabitans*, An existing genus; *Secuscribrihabitans*: A genus related to but distinct from the existing genus Cribrihabitans of beside.

Secuscricetibacter

L. masc. preposition *secus*, beside; L. masc. n. *Cricetibacter*, An existing genus; *Secuscricetibacter*: A genus related to but distinct from the existing genus Cricetibacter of beside.

Secuscristispira

L. masc. preposition *secus*, beside; L. fem. n. *Cristispira*, An existing genus; *Secuscristispira*: A genus related to but distinct from the existing genus Cristispira of beside.

Secuscroceibacter

L. masc. preposition *secus*, beside; L. masc. n. *Croceibacter*, An existing genus; *Secuscroceibacter*: A genus related to but distinct from the existing genus Croceibacter of beside.

Secuscroceibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Croceibacterium*, An existing genus; *Secuscroceibacterium*: A genus related to but distinct from the existing genus Croceibacterium of beside.

Secuscroceicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Croceicoccus*, An existing genus; *Secuscroceicoccus*: A genus related to but distinct from the existing genus Croceicoccus of beside.

Secuscroceifilum

L. masc. preposition *secus*, beside; L. neut. n. *Croceifilum*, An existing genus; *Secuscroceifilum*: A genus related to but distinct from the existing genus Croceifilum of beside.

Secuscroceitalea

L. masc. preposition *secus*, beside; L. fem. n. *Croceitalea*, An existing genus; *Secuscroceitalea*: A genus related to but distinct from the existing genus Croceitalea of beside.

Secuscroceivirga

L. masc. preposition *secus*, beside; L. fem. n. *Croceivirga*, An existing genus; *Secuscroceivirga*: A genus related to but distinct from the existing genus Croceivirga of beside.

Secuscrocinitomix

L. masc. preposition *secus*, beside; L. fem. n. *Crocinitomix*, An existing genus; *Secuscrocinitomix*: A genus related to but distinct from the existing genus Crocinitomix of beside.

Secuscrocosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Crocosphaera*, An existing genus; *Secuscrocosphaera*: A genus related to but distinct from the existing genus Crocosphaera of beside.

Secuscronobacter

L. masc. preposition *secus*, beside; L. masc. n. *Cronobacter*, An existing genus; *Secuscronobacter*: A genus related to but distinct from the existing genus Cronobacter of beside.

Secuscrossiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Crossiella*, An existing genus; *Secuscrossiella*: A genus related to but distinct from the existing genus Crossiella of beside.

Secuscruoricaptor

L. masc. preposition *secus*, beside; L. masc. n. *Cruoricaptor*, An existing genus; *Secuscruoricaptor*: A genus related to but distinct from the existing genus Cruoricaptor of beside.

Secuscryobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Cryobacterium*, An existing genus; *Secuscryobacterium*: A genus related to but distinct from the existing genus Cryobacterium of beside.

Secuscryomorpha

L. masc. preposition *secus*, beside; L. fem. n. *Cryomorpha*, An existing genus; *Secuscryomorpha*: A genus related to but distinct from the existing genus Cryomorpha of beside.

Secuscryptanaerobacter

L. masc. preposition *secus*, beside; L. masc. n. *Cryptanaerobacter*, An existing genus; *Secuscryptanaerobacter*: A genus related to but distinct from the existing genus Cryptanaerobacter of beside.

Secuscryptobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Cryptobacterium*, An existing genus; *Secuscryptobacterium*: A genus related to but distinct from the existing genus Cryptobacterium of beside.

Secuscryptococcum

L. masc. preposition *secus*, beside; L. neut. n. *Cryptococcum*, An existing genus; *Secuscryptococcum*: A genus related to but distinct from the existing genus Cryptococcum of beside.

Secuscryptosporangium

L. masc. preposition *secus*, beside; L. neut. n. *Cryptosporangium*, An existing genus; *Secuscryptosporangium*: A genus related to but distinct from the existing genus Cryptosporangium of beside.

Secuscucumibacter

L. masc. preposition *secus*, beside; L. masc. n. *Cucumibacter*, An existing genus; *Secuscucumibacter*: A genus related to but distinct from the existing genus Cucumibacter of beside.

Secuscumulibacter

L. masc. preposition *secus*, beside; L. masc. n. *Cumulibacter*, An existing genus; *Secuscumulibacter*: A genus related to but distinct from the existing genus Cumulibacter of beside.

Secuscuneatibacter

L. masc. preposition *secus*, beside; L. masc. n. *Cuneatibacter*, An existing genus; *Secuscuneatibacter*: A genus related to but distinct from the existing genus Cuneatibacter of beside.

Secuscuniculiplasma

L. masc. preposition *secus*, beside; L. neut. n. *Cuniculiplasma*, An existing genus; *Secuscuniculiplasma*: A genus related to but distinct from the existing genus Cuniculiplasma of beside.

Secuscupriavidus

L. masc. preposition *secus*, beside; L. masc. n. *Cupriavidus*, An existing genus; *Secuscupriavidus*: A genus related to but distinct from the existing genus Cupriavidus of beside.

Secuscurtobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Curtobacterium*, An existing genus; *Secuscurtobacterium*: A genus related to but distinct from the existing genus Curtobacterium of beside.

Secuscurvibacter

L. masc. preposition *secus*, beside; L. masc. n. *Curvibacter*, An existing genus; *Secuscurvibacter*: A genus related to but distinct from the existing genus Curvibacter of beside.

Secuscutibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Cutibacterium*, An existing genus; *Secuscutibacterium*: A genus related to but distinct from the existing genus Cutibacterium of beside.

Secuscyanocohniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Cyanocohniella*, An existing genus; *Secuscyanocohniella*: A genus related to but distinct from the existing genus Cyanocohniella of beside.

Secuscyanocomperia

L. masc. preposition *secus*, beside; L. fem. n. *Cyanocomperia*, An existing genus; *Secuscyanocomperia*: A genus related to but distinct from the existing genus Cyanocomperia of beside.

Secuscyanoderma

L. masc. preposition *secus*, beside; L. neut. n. *Cyanoderma*, An existing genus; *Secuscyanoderma*: A genus related to but distinct from the existing genus Cyanoderma of beside.

Secuscyanosaccus

L. masc. preposition *secus*, beside; L. masc. n. *Cyanosaccus*, An existing genus; *Secuscyanosaccus*: A genus related to but distinct from the existing genus Cyanosaccus of beside.

Secuscyclobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Cyclobacterium*, An existing genus; *Secuscyclobacterium*: A genus related to but distinct from the existing genus Cyclobacterium of beside.

Secuscycloclasticus

L. masc. preposition *secus*, beside; L. masc. n. *Cycloclasticus*, An existing genus; *Secuscycloclasticus*: A genus related to but distinct from the existing genus Cycloclasticus of beside.

Secuscysteiniphilum

L. masc. preposition *secus*, beside; L. neut. n. *Cysteiniphilum*, An existing genus; *Secuscysteiniphilum*: A genus related to but distinct from the existing genus Cysteiniphilum of beside.

Secuscystobacter

L. masc. preposition *secus*, beside; L. masc. n. *Cystobacter*, An existing genus; *Secuscystobacter*: A genus related to but distinct from the existing genus Cystobacter of beside.

Secuscytobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Cytobacillus*, An existing genus; *Secuscytobacillus*: A genus related to but distinct from the existing genus Cytobacillus of beside.

Secuscytophaga

L. masc. preposition *secus*, beside; L. fem. n. *Cytophaga*, An existing genus; *Secuscytophaga*: A genus related to but distinct from the existing genus Cytophaga of beside.

Secusdactylosporangium

L. masc. preposition *secus*, beside; L. neut. n. *Dactylosporangium*, An existing genus; *Secusdactylosporangium*: A genus related to but distinct from the existing genus Dactylosporangium of beside.

Secusdaeguia

L. masc. preposition *secus*, beside; L. fem. n. *Daeguia*, An existing genus; *Secusdaeguia*: A genus related to but distinct from the existing genus Daeguia of beside.

Secusdaejeonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Daejeonella*, An existing genus; *Secusdaejeonella*: A genus related to but distinct from the existing genus Daejeonella of beside.

Secusdaejeonia

L. masc. preposition *secus*, beside; L. fem. n. *Daejeonia*, An existing genus; *Secusdaejeonia*: A genus related to but distinct from the existing genus Daejeonia of beside.

Secusdankookia

L. masc. preposition *secus*, beside; L. fem. n. *Dankookia*, An existing genus; *Secusdankookia*: A genus related to but distinct from the existing genus Dankookia of beside.

Secusdaptobacter

L. masc. preposition *secus*, beside; L. masc. n. *Daptobacter*, An existing genus; *Secusdaptobacter*: A genus related to but distinct from the existing genus Daptobacter of beside.

Secusdasania

L. masc. preposition *secus*, beside; L. fem. n. *Dasania*, An existing genus; *Secusdasania*: A genus related to but distinct from the existing genus Dasania of beside.

Secusdechlorobacter

L. masc. preposition *secus*, beside; L. masc. n. *Dechlorobacter*, An existing genus; *Secusdechlorobacter*: A genus related to but distinct from the existing genus Dechlorobacter of beside.

Secusdechloromonas

L. masc. preposition *secus*, beside; L. fem. n. *Dechloromonas*, An existing genus; *Secusdechloromonas*: A genus related to but distinct from the existing genus Dechloromonas of beside.

Secusdechlorosoma

L. masc. preposition *secus*, beside; L. neut. n. *Dechlorosoma*, An existing genus; *Secusdechlorosoma*: A genus related to but distinct from the existing genus Dechlorosoma of beside.

Secusdeefgea

L. masc. preposition *secus*, beside; L. fem. n. *Deefgea*, An existing genus; *Secusdeefgea*: A genus related to but distinct from the existing genus Deefgea of beside.

Secusdeferribacter

L. masc. preposition *secus*, beside; L. masc. n. *Deferribacter*, An existing genus; *Secusdeferribacter*: A genus related to but distinct from the existing genus Deferribacter of beside.

Secusdeferrisoma

L. masc. preposition *secus*, beside; L. neut. n. *Deferrisoma*, An existing genus; *Secusdeferrisoma*: A genus related to but distinct from the existing genus Deferrisoma of beside.

Secusdefluvibacter

L. masc. preposition *secus*, beside; L. masc. n. *Defluvibacter*, An existing genus; *Secusdefluvibacter*: A genus related to but distinct from the existing genus Defluvibacter of beside.

Secusdefluviicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Defluviicoccus*, An existing genus; *Secusdefluviicoccus*: A genus related to but distinct from the existing genus Defluviicoccus of beside.

Secusdefluviimonas

L. masc. preposition *secus*, beside; L. fem. n. *Defluviimonas*, An existing genus; *Secusdefluviimonas*: A genus related to but distinct from the existing genus Defluviimonas of beside.

Secusdefluviitalea

L. masc. preposition *secus*, beside; L. fem. n. *Defluviitalea*, An existing genus; *Secusdefluviitalea*: A genus related to but distinct from the existing genus Defluviitalea of beside.

Secusdefluviitoga

L. masc. preposition *secus*, beside; L. fem. n. *Defluviitoga*, An existing genus; *Secusdefluviitoga*: A genus related to but distinct from the existing genus Defluviitoga of beside.

Secusdehalobacter

L. masc. preposition *secus*, beside; L. masc. n. *Dehalobacter*, An existing genus; *Secusdehalobacter*: A genus related to but distinct from the existing genus Dehalobacter of beside.

Secusdehalobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Dehalobacterium*, An existing genus; *Secusdehalobacterium*: A genus related to but distinct from the existing genus Dehalobacterium of beside.

Secusdehalogenimonas

L. masc. preposition *secus*, beside; L. fem. n. *Dehalogenimonas*, An existing genus; *Secusdehalogenimonas*: A genus related to but distinct from the existing genus Dehalogenimonas of beside.

Secusdeinobacter

L. masc. preposition *secus*, beside; L. masc. n. *Deinobacter*, An existing genus; *Secusdeinobacter*: A genus related to but distinct from the existing genus Deinobacter of beside.

Secusdeinobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Deinobacterium*, An existing genus; *Secusdeinobacterium*: A genus related to but distinct from the existing genus Deinobacterium of beside.

Secusdeinococcus

L. masc. preposition *secus*, beside; L. masc. n. *Deinococcus*, An existing genus; *Secusdeinococcus*: A genus related to but distinct from the existing genus Deinococcus of beside.

Secusdeleya

L. masc. preposition *secus*, beside; L. fem. n. *Deleya*, An existing genus; *Secusdeleya*: A genus related to but distinct from the existing genus Deleya of beside.

Secusdelftia

L. masc. preposition *secus*, beside; L. fem. n. *Delftia*, An existing genus; *Secusdelftia*: A genus related to but distinct from the existing genus Delftia of beside.

Secusdellaglioa

L. masc. preposition *secus*, beside; L. fem. n. *Dellaglioa*, An existing genus; *Secusdellaglioa*: A genus related to but distinct from the existing genus Dellaglioa of beside.

Secusdemequina

L. masc. preposition *secus*, beside; L. fem. n. *Demequina*, An existing genus; *Secusdemequina*: A genus related to but distinct from the existing genus Demequina of beside.

Secusdemetria

L. masc. preposition *secus*, beside; L. fem. n. *Demetria*, An existing genus; *Secusdemetria*: A genus related to but distinct from the existing genus Demetria of beside.

Secusdeminuibacter

L. masc. preposition *secus*, beside; L. masc. n. *Deminuibacter*, An existing genus; *Secusdeminuibacter*: A genus related to but distinct from the existing genus Deminuibacter of beside.

Secusdenitratimonas

L. masc. preposition *secus*, beside; L. fem. n. *Denitratimonas*, An existing genus; *Secusdenitratimonas*: A genus related to but distinct from the existing genus Denitratimonas of beside.

Secusdenitratisoma

L. masc. preposition *secus*, beside; L. neut. n. *Denitratisoma*, An existing genus; *Secusdenitratisoma*: A genus related to but distinct from the existing genus Denitratisoma of beside.

Secusdenitrobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Denitrobacterium*, An existing genus; *Secusdenitrobacterium*: A genus related to but distinct from the existing genus Denitrobacterium of beside.

Secusdenitrobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Denitrobaculum*, An existing genus; *Secusdenitrobaculum*: A genus related to but distinct from the existing genus Denitrobaculum of beside.

Secusdenitrovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Denitrovibrio*, An existing genus; *Secusdenitrovibrio*: A genus related to but distinct from the existing genus Denitrovibrio of beside.

Secusdermacoccus

L. masc. preposition *secus*, beside; L. masc. n. *Dermacoccus*, An existing genus; *Secusdermacoccus*: A genus related to but distinct from the existing genus Dermacoccus of beside.

Secusdermatophilus

L. masc. preposition *secus*, beside; L. masc. n. *Dermatophilus*, An existing genus; *Secusdermatophilus*: A genus related to but distinct from the existing genus Dermatophilus of beside.

Secusderxia

L. masc. preposition *secus*, beside; L. fem. n. *Derxia*, An existing genus; *Secusderxia*: A genus related to but distinct from the existing genus Derxia of beside.

Secusdesemzia

L. masc. preposition *secus*, beside; L. fem. n. *Desemzia*, An existing genus; *Secusdesemzia*: A genus related to but distinct from the existing genus Desemzia of beside.

Secusdesertibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Desertibacillus*, An existing genus; *Secusdesertibacillus*: A genus related to but distinct from the existing genus Desertibacillus of beside.

Secusdesertibacter

L. masc. preposition *secus*, beside; L. masc. n. *Desertibacter*, An existing genus; *Secusdesertibacter*: A genus related to but distinct from the existing genus Desertibacter of beside.

Secusdesertifilum

L. masc. preposition *secus*, beside; L. neut. n. *Desertifilum*, An existing genus; *Secusdesertifilum*: A genus related to but distinct from the existing genus Desertifilum of beside.

Secusdesertihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Desertihabitans*, An existing genus; *Secusdesertihabitans*: A genus related to but distinct from the existing genus Desertihabitans of beside.

Secusdesertimonas

L. masc. preposition *secus*, beside; L. fem. n. *Desertimonas*, An existing genus; *Secusdesertimonas*: A genus related to but distinct from the existing genus Desertimonas of beside.

Secusdesikacharya

L. masc. preposition *secus*, beside; L. fem. n. *Desikacharya*, An existing genus; *Secusdesikacharya*: A genus related to but distinct from the existing genus Desikacharya of beside.

Secusdesmospora

L. masc. preposition *secus*, beside; L. fem. n. *Desmospora*, An existing genus; *Secusdesmospora*: A genus related to but distinct from the existing genus Desmospora of beside.

Secusdesnuesiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Desnuesiella*, An existing genus; *Secusdesnuesiella*: A genus related to but distinct from the existing genus Desnuesiella of beside.

Secusdesulfacinum

L. masc. preposition *secus*, beside; L. neut. n. *Desulfacinum*, An existing genus; *Secusdesulfacinum*: A genus related to but distinct from the existing genus Desulfacinum of beside.

Secusdesulfallas

L. masc. preposition *secus*, beside; L. masc. n. *Desulfallas*, An existing genus; *Secusdesulfallas*: A genus related to but distinct from the existing genus Desulfallas of beside.

Secusdesulfarculus

L. masc. preposition *secus*, beside; L. masc. n. *Desulfarculus*, An existing genus; *Secusdesulfarculus*: A genus related to but distinct from the existing genus Desulfarculus of beside.

Secusdesulfatibacillum

L. masc. preposition *secus*, beside; L. neut. n. *Desulfatibacillum*, An existing genus; *Secusdesulfatibacillum*: A genus related to but distinct from the existing genus Desulfatibacillum of beside.

Secusdesulfatiferula

L. masc. preposition *secus*, beside; L. fem. n. *Desulfatiferula*, An existing genus; *Secusdesulfatiferula*: A genus related to but distinct from the existing genus Desulfatiferula of beside.

Secusdesulfatiglans

L. masc. preposition *secus*, beside; L. fem. n. *Desulfatiglans*, An existing genus; *Secusdesulfatiglans*: A genus related to but distinct from the existing genus Desulfatiglans of beside.

Secusdesulfatirhabdium

L. masc. preposition *secus*, beside; L. neut. dim. n. *Desulfatirhabdium*, An existing genus; *Secusdesulfatirhabdium*: A genus related to but distinct from the existing genus Desulfatirhabdium of beside.

Secusdesulfatitalea

L. masc. preposition *secus*, beside; L. fem. n. *Desulfatitalea*, An existing genus; *Secusdesulfatitalea*: A genus related to but distinct from the existing genus Desulfatitalea of beside.

Secusdesulfitibacter

L. masc. preposition *secus*, beside; L. masc. n. *Desulfitibacter*, An existing genus; *Secusdesulfitibacter*: A genus related to but distinct from the existing genus Desulfitibacter of beside.

Secusdesulfitispora

L. masc. preposition *secus*, beside; L. fem. n. *Desulfitispora*, An existing genus; *Secusdesulfitispora*: A genus related to but distinct from the existing genus Desulfitispora of beside.

Secusdesulfitobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Desulfitobacterium*, An existing genus; *Secusdesulfitobacterium*: A genus related to but distinct from the existing genus Desulfitobacterium of beside.

Secusdesulfobacca

L. masc. preposition *secus*, beside; L. fem. n. *Desulfobacca*, An existing genus; *Secusdesulfobacca*: A genus related to but distinct from the existing genus Desulfobacca of beside.

Secusdesulfobacter

L. masc. preposition *secus*, beside; L. masc. n. *Desulfobacter*, An existing genus; *Secusdesulfobacter*: A genus related to but distinct from the existing genus Desulfobacter of beside.

Secusdesulfobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Desulfobacterium*, An existing genus; *Secusdesulfobacterium*: A genus related to but distinct from the existing genus Desulfobacterium of beside.

Secusdesulfobacula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Desulfobacula*, An existing genus; *Secusdesulfobacula*: A genus related to but distinct from the existing genus Desulfobacula of beside.

Secusdesulfobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Desulfobaculum*, An existing genus; *Secusdesulfobaculum*: A genus related to but distinct from the existing genus Desulfobaculum of beside.

Secusdesulfobotulus

L. masc. preposition *secus*, beside; L. masc. n. *Desulfobotulus*, An existing genus; *Secusdesulfobotulus*: A genus related to but distinct from the existing genus Desulfobotulus of beside.

Secusdesulfobulbus

L. masc. preposition *secus*, beside; L. masc. n. *Desulfobulbus*, An existing genus; *Secusdesulfobulbus*: A genus related to but distinct from the existing genus Desulfobulbus of beside.

Secusdesulfocapsa

L. masc. preposition *secus*, beside; L. fem. n. *Desulfocapsa*, An existing genus; *Secusdesulfocapsa*: A genus related to but distinct from the existing genus Desulfocapsa of beside.

Secusdesulfocarbo

L. masc. preposition *secus*, beside; L. masc. n. *Desulfocarbo*, An existing genus; *Secusdesulfocarbo*: A genus related to but distinct from the existing genus Desulfocarbo of beside.

Secusdesulfocella

L. masc. preposition *secus*, beside; L. fem. n. *Desulfocella*, An existing genus; *Secusdesulfocella*: A genus related to but distinct from the existing genus Desulfocella of beside.

Secusdesulfococcus

L. masc. preposition *secus*, beside; L. masc. n. *Desulfococcus*, An existing genus; *Secusdesulfococcus*: A genus related to but distinct from the existing genus Desulfococcus of beside.

Secusdesulfocucumis

L. masc. preposition *secus*, beside; L. masc. n. *Desulfocucumis*, An existing genus; *Secusdesulfocucumis*: A genus related to but distinct from the existing genus Desulfocucumis of beside.

Secusdesulfocurvibacter

L. masc. preposition *secus*, beside; L. masc. n. *Desulfocurvibacter*, An existing genus; *Secusdesulfocurvibacter*: A genus related to but distinct from the existing genus Desulfocurvibacter of beside.

Secusdesulfocurvus

L. masc. preposition *secus*, beside; L. masc. n. *Desulfocurvus*, An existing genus; *Secusdesulfocurvus*: A genus related to but distinct from the existing genus Desulfocurvus of beside.

Secusdesulfofaba

L. masc. preposition *secus*, beside; L. fem. n. *Desulfofaba*, An existing genus; *Secusdesulfofaba*: A genus related to but distinct from the existing genus Desulfofaba of beside.

Secusdesulfofarcimen

L. masc. preposition *secus*, beside; L. neut. n. *Desulfofarcimen*, An existing genus; *Secusdesulfofarcimen*: A genus related to but distinct from the existing genus Desulfofarcimen of beside.

Secusdesulfofrigus

L. masc. preposition *secus*, beside; L. neut. n. *Desulfofrigus*, An existing genus; *Secusdesulfofrigus*: A genus related to but distinct from the existing genus Desulfofrigus of beside.

Secusdesulfofundulus

L. masc. preposition *secus*, beside; L. masc. n. *Desulfofundulus*, An existing genus; *Secusdesulfofundulus*: A genus related to but distinct from the existing genus Desulfofundulus of beside.

Secusdesulfofustis

L. masc. preposition *secus*, beside; L. masc. n. *Desulfofustis*, An existing genus; *Secusdesulfofustis*: A genus related to but distinct from the existing genus Desulfofustis of beside.

Secusdesulfoglaeba

L. masc. preposition *secus*, beside; L. fem. n. *Desulfoglaeba*, An existing genus; *Secusdesulfoglaeba*: A genus related to but distinct from the existing genus Desulfoglaeba of beside.

Secusdesulfohalobium

L. masc. preposition *secus*, beside; L. neut. n. *Desulfohalobium*, An existing genus; *Secusdesulfohalobium*: A genus related to but distinct from the existing genus Desulfohalobium of beside.

Secusdesulfohalophilus

L. masc. preposition *secus*, beside; L. masc. n. *Desulfohalophilus*, An existing genus; *Secusdesulfohalophilus*: A genus related to but distinct from the existing genus Desulfohalophilus of beside.

Secusdesulfohalotomaculum

L. masc. preposition *secus*, beside; L. neut. n. *Desulfohalotomaculum*, An existing genus; *Secusdesulfohalotomaculum*: A genus related to but distinct from the existing genus Desulfohalotomaculum of beside.

Secusdesulfohalovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Desulfohalovibrio*, An existing genus; *Secusdesulfohalovibrio*: A genus related to but distinct from the existing genus Desulfohalovibrio of beside.

Secusdesulfoluna

L. masc. preposition *secus*, beside; L. fem. n. *Desulfoluna*, An existing genus; *Secusdesulfoluna*: A genus related to but distinct from the existing genus Desulfoluna of beside.

Secusdesulfomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Desulfomicrobium*, An existing genus; *Secusdesulfomicrobium*: A genus related to but distinct from the existing genus Desulfomicrobium of beside.

Secusdesulfomonas

L. masc. preposition *secus*, beside; L. fem. n. *Desulfomonas*, An existing genus; *Secusdesulfomonas*: A genus related to but distinct from the existing genus Desulfomonas of beside.

Secusdesulfomonile

L. masc. preposition *secus*, beside; L. neut. n. *Desulfomonile*, An existing genus; *Secusdesulfomonile*: A genus related to but distinct from the existing genus Desulfomonile of beside.

Secusdesulfomusa

L. masc. preposition *secus*, beside; L. fem. n. *Desulfomusa*, An existing genus; *Secusdesulfomusa*: A genus related to but distinct from the existing genus Desulfomusa of beside.

Secusdesulfonatronobacter

L. masc. preposition *secus*, beside; L. masc. n. *Desulfonatronobacter*, An existing genus; *Secusdesulfonatronobacter*: A genus related to but distinct from the existing genus Desulfonatronobacter of beside.

Secusdesulfonatronospira

L. masc. preposition *secus*, beside; L. fem. n. *Desulfonatronospira*, An existing genus; *Secusdesulfonatronospira*: A genus related to but distinct from the existing genus Desulfonatronospira of beside.

Secusdesulfonatronovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Desulfonatronovibrio*, An existing genus; *Secusdesulfonatronovibrio*: A genus related to but distinct from the existing genus Desulfonatronovibrio of beside.

Secusdesulfonatronum

L. masc. preposition *secus*, beside; L. neut. n. *Desulfonatronum*, An existing genus; *Secusdesulfonatronum*: A genus related to but distinct from the existing genus Desulfonatronum of beside.

Secusdesulfonauticus

L. masc. preposition *secus*, beside; L. masc. n. *Desulfonauticus*, An existing genus; *Secusdesulfonauticus*: A genus related to but distinct from the existing genus Desulfonauticus of beside.

Secusdesulfonema

L. masc. preposition *secus*, beside; L. neut. n. *Desulfonema*, An existing genus; *Secusdesulfonema*: A genus related to but distinct from the existing genus Desulfonema of beside.

Secusdesulfonispora

L. masc. preposition *secus*, beside; L. fem. n. *Desulfonispora*, An existing genus; *Secusdesulfonispora*: A genus related to but distinct from the existing genus Desulfonispora of beside.

Secusdesulfopila

L. masc. preposition *secus*, beside; L. fem. n. *Desulfopila*, An existing genus; *Secusdesulfopila*: A genus related to but distinct from the existing genus Desulfopila of beside.

Secusdesulfoplanes

L. masc. preposition *secus*, beside; L. masc. n. *Desulfoplanes*, An existing genus; *Secusdesulfoplanes*: A genus related to but distinct from the existing genus Desulfoplanes of beside.

Secusdesulfoprunum

L. masc. preposition *secus*, beside; L. neut. n. *Desulfoprunum*, An existing genus; *Secusdesulfoprunum*: A genus related to but distinct from the existing genus Desulfoprunum of beside.

Secusdesulforegula

L. masc. preposition *secus*, beside; L. fem. n. *Desulforegula*, An existing genus; *Secusdesulforegula*: A genus related to but distinct from the existing genus Desulforegula of beside.

Secusdesulforhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Desulforhabdus*, An existing genus; *Secusdesulforhabdus*: A genus related to but distinct from the existing genus Desulforhabdus of beside.

Secusdesulforhopalus

L. masc. preposition *secus*, beside; L. masc. n. *Desulforhopalus*, An existing genus; *Secusdesulforhopalus*: A genus related to but distinct from the existing genus Desulforhopalus of beside.

Secusdesulfosalsimonas

L. masc. preposition *secus*, beside; L. fem. n. *Desulfosalsimonas*, An existing genus; *Secusdesulfosalsimonas*: A genus related to but distinct from the existing genus Desulfosalsimonas of beside.

Secusdesulfosarcina

L. masc. preposition *secus*, beside; L. fem. n. *Desulfosarcina*, An existing genus; *Secusdesulfosarcina*: A genus related to but distinct from the existing genus Desulfosarcina of beside.

Secusdesulfosoma

L. masc. preposition *secus*, beside; L. neut. n. *Desulfosoma*, An existing genus; *Secusdesulfosoma*: A genus related to but distinct from the existing genus Desulfosoma of beside.

Secusdesulfospira

L. masc. preposition *secus*, beside; L. fem. n. *Desulfospira*, An existing genus; *Secusdesulfospira*: A genus related to but distinct from the existing genus Desulfospira of beside.

Secusdesulfosporomusa

L. masc. preposition *secus*, beside; L. fem. n. *Desulfosporomusa*, An existing genus; *Secusdesulfosporomusa*: A genus related to but distinct from the existing genus Desulfosporomusa of beside.

Secusdesulfosporosinus

L. masc. preposition *secus*, beside; L. masc. n. *Desulfosporosinus*, An existing genus; *Secusdesulfosporosinus*: A genus related to but distinct from the existing genus Desulfosporosinus of beside.

Secusdesulfotalea

L. masc. preposition *secus*, beside; L. fem. n. *Desulfotalea*, An existing genus; *Secusdesulfotalea*: A genus related to but distinct from the existing genus Desulfotalea of beside.

Secusdesulfothermobacter

L. masc. preposition *secus*, beside; L. masc. n. *Desulfothermobacter*, An existing genus; *Secusdesulfothermobacter*: A genus related to but distinct from the existing genus Desulfothermobacter of beside.

Secusdesulfothermus

L. masc. preposition *secus*, beside; L. masc. n. *Desulfothermus*, An existing genus; *Secusdesulfothermus*: A genus related to but distinct from the existing genus Desulfothermus of beside.

Secusdesulfotignum

L. masc. preposition *secus*, beside; L. neut. n. *Desulfotignum*, An existing genus; *Secusdesulfotignum*: A genus related to but distinct from the existing genus Desulfotignum of beside.

Secusdesulfotomaculum

L. masc. preposition *secus*, beside; L. neut. n. *Desulfotomaculum*, An existing genus; *Secusdesulfotomaculum*: A genus related to but distinct from the existing genus Desulfotomaculum of beside.

Secusdesulfovermiculus

L. masc. preposition *secus*, beside; L. masc. n. *Desulfovermiculus*, An existing genus; *Secusdesulfovermiculus*: A genus related to but distinct from the existing genus Desulfovermiculus of beside.

Secusdesulfovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Desulfovibrio*, An existing genus; *Secusdesulfovibrio*: A genus related to but distinct from the existing genus Desulfovibrio of beside.

Secusdesulfovirga

L. masc. preposition *secus*, beside; L. fem. n. *Desulfovirga*, An existing genus; *Secusdesulfovirga*: A genus related to but distinct from the existing genus Desulfovirga of beside.

Secusdesulfovirgula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Desulfovirgula*, An existing genus; *Secusdesulfovirgula*: A genus related to but distinct from the existing genus Desulfovirgula of beside.

Secusdesulfurella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Desulfurella*, An existing genus; *Secusdesulfurella*: A genus related to but distinct from the existing genus Desulfurella of beside.

Secusdesulfuribacillus

L. masc. preposition *secus*, beside; L. masc. n. *Desulfuribacillus*, An existing genus; *Secusdesulfuribacillus*: A genus related to but distinct from the existing genus Desulfuribacillus of beside.

Secusdesulfurispira

L. masc. preposition *secus*, beside; L. fem. n. *Desulfurispira*, An existing genus; *Secusdesulfurispira*: A genus related to but distinct from the existing genus Desulfurispira of beside.

Secusdesulfurispirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Desulfurispirillum*, An existing genus; *Secusdesulfurispirillum*: A genus related to but distinct from the existing genus Desulfurispirillum of beside.

Secusdesulfurispora

L. masc. preposition *secus*, beside; L. fem. n. *Desulfurispora*, An existing genus; *Secusdesulfurispora*: A genus related to but distinct from the existing genus Desulfurispora of beside.

Secusdesulfurivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Desulfurivibrio*, An existing genus; *Secusdesulfurivibrio*: A genus related to but distinct from the existing genus Desulfurivibrio of beside.

Secusdesulfurobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Desulfurobacterium*, An existing genus; *Secusdesulfurobacterium*: A genus related to but distinct from the existing genus Desulfurobacterium of beside.

Secusdesulfurococcus

L. masc. preposition *secus*, beside; L. masc. n. *Desulfurococcus*, An existing genus; *Secusdesulfurococcus*: A genus related to but distinct from the existing genus Desulfurococcus of beside.

Secusdesulfuromonas

L. masc. preposition *secus*, beside; L. fem. n. *Desulfuromonas*, An existing genus; *Secusdesulfuromonas*: A genus related to but distinct from the existing genus Desulfuromonas of beside.

Secusdesulfuromusa

L. masc. preposition *secus*, beside; L. fem. n. *Desulfuromusa*, An existing genus; *Secusdesulfuromusa*: A genus related to but distinct from the existing genus Desulfuromusa of beside.

Secusdethiobacter

L. masc. preposition *secus*, beside; L. masc. n. *Dethiobacter*, An existing genus; *Secusdethiobacter*: A genus related to but distinct from the existing genus Dethiobacter of beside.

Secusdethiosulfatarculus

L. masc. preposition *secus*, beside; L. masc. dim. n. *Dethiosulfatarculus*, An existing genus; *Secusdethiosulfatarculus*: A genus related to but distinct from the existing genus Dethiosulfatarculus of beside.

Secusdethiosulfatibacter

L. masc. preposition *secus*, beside; L. masc. n. *Dethiosulfatibacter*, An existing genus; *Secusdethiosulfatibacter*: A genus related to but distinct from the existing genus Dethiosulfatibacter of beside.

Secusdethiosulfovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Dethiosulfovibrio*, An existing genus; *Secusdethiosulfovibrio*: A genus related to but distinct from the existing genus Dethiosulfovibrio of beside.

Secusdevosia

L. masc. preposition *secus*, beside; L. fem. n. *Devosia*, An existing genus; *Secusdevosia*: A genus related to but distinct from the existing genus Devosia of beside.

Secusdevriesea

L. masc. preposition *secus*, beside; L. fem. n. *Devriesea*, An existing genus; *Secusdevriesea*: A genus related to but distinct from the existing genus Devriesea of beside.

Secusdiaminobutyricibacter

L. masc. preposition *secus*, beside; L. masc. n. *Diaminobutyricibacter*, An existing genus; *Secusdiaminobutyricibacter*: A genus related to but distinct from the existing genus Diaminobutyricibacter of beside.

Secusdiaminobutyricimonas

L. masc. preposition *secus*, beside; L. fem. n. *Diaminobutyricimonas*, An existing genus; *Secusdiaminobutyricimonas*: A genus related to but distinct from the existing genus Diaminobutyricimonas of beside.

Secusdiaphorobacter

L. masc. preposition *secus*, beside; L. masc. n. *Diaphorobacter*, An existing genus; *Secusdiaphorobacter*: A genus related to but distinct from the existing genus Diaphorobacter of beside.

Secusdichelobacter

L. masc. preposition *secus*, beside; L. masc. n. *Dichelobacter*, An existing genus; *Secusdichelobacter*: A genus related to but distinct from the existing genus Dichelobacter of beside.

Secusdichotomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Dichotomicrobium*, An existing genus; *Secusdichotomicrobium*: A genus related to but distinct from the existing genus Dichotomicrobium of beside.

Secusdickeya

L. masc. preposition *secus*, beside; L. fem. n. *Dickeya*, An existing genus; *Secusdickeya*: A genus related to but distinct from the existing genus Dickeya of beside.

Secusdictyobacter

L. masc. preposition *secus*, beside; L. masc. n. *Dictyobacter*, An existing genus; *Secusdictyobacter*: A genus related to but distinct from the existing genus Dictyobacter of beside.

Secusdictyoglomus

L. masc. preposition *secus*, beside; L. neut. n. *Dictyoglomus*, An existing genus; *Secusdictyoglomus*: A genus related to but distinct from the existing genus Dictyoglomus of beside.

Secusdielma

L. masc. preposition *secus*, beside; L. fem. n. *Dielma*, An existing genus; *Secusdielma*: A genus related to but distinct from the existing genus Dielma of beside.

Secusdietzia

L. masc. preposition *secus*, beside; L. fem. n. *Dietzia*, An existing genus; *Secusdietzia*: A genus related to but distinct from the existing genus Dietzia of beside.

Secusdinghuibacter

L. masc. preposition *secus*, beside; L. masc. n. *Dinghuibacter*, An existing genus; *Secusdinghuibacter*: A genus related to but distinct from the existing genus Dinghuibacter of beside.

Secusdinoroseobacter

L. masc. preposition *secus*, beside; L. masc. n. *Dinoroseobacter*, An existing genus; *Secusdinoroseobacter*: A genus related to but distinct from the existing genus Dinoroseobacter of beside.

Secusdiplocalyx

L. masc. preposition *secus*, beside; L. masc. n. *Diplocalyx*, An existing genus; *Secusdiplocalyx*: A genus related to but distinct from the existing genus Diplocalyx of beside.

Secusdiplorickettsia

L. masc. preposition *secus*, beside; L. fem. n. *Diplorickettsia*, An existing genus; *Secusdiplorickettsia*: A genus related to but distinct from the existing genus Diplorickettsia of beside.

Secusdiplosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Diplosphaera*, An existing genus; *Secusdiplosphaera*: A genus related to but distinct from the existing genus Diplosphaera of beside.

Secusdissulfuribacter

L. masc. preposition *secus*, beside; L. masc. n. *Dissulfuribacter*, An existing genus; *Secusdissulfuribacter*: A genus related to but distinct from the existing genus Dissulfuribacter of beside.

Secusdissulfurimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Dissulfurimicrobium*, An existing genus; *Secusdissulfurimicrobium*: A genus related to but distinct from the existing genus Dissulfurimicrobium of beside.

Secusdissulfurirhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Dissulfurirhabdus*, An existing genus; *Secusdissulfurirhabdus*: A genus related to but distinct from the existing genus Dissulfurirhabdus of beside.

Secusdokdonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Dokdonella*, An existing genus; *Secusdokdonella*: A genus related to but distinct from the existing genus Dokdonella of beside.

Secusdokdonia

L. masc. preposition *secus*, beside; L. fem. n. *Dokdonia*, An existing genus; *Secusdokdonia*: A genus related to but distinct from the existing genus Dokdonia of beside.

Secusdolosicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Dolosicoccus*, An existing genus; *Secusdolosicoccus*: A genus related to but distinct from the existing genus Dolosicoccus of beside.

Secusdolosigranulum

L. masc. preposition *secus*, beside; L. neut. n. *Dolosigranulum*, An existing genus; *Secusdolosigranulum*: A genus related to but distinct from the existing genus Dolosigranulum of beside.

Secusdomibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Domibacillus*, An existing genus; *Secusdomibacillus*: A genus related to but distinct from the existing genus Domibacillus of beside.

Secusdonghaeana

L. masc. preposition *secus*, beside; L. fem. n. *Donghaeana*, An existing genus; *Secusdonghaeana*: A genus related to but distinct from the existing genus Donghaeana of beside.

Secusdonghicola

L. masc. preposition *secus*, beside; L. masc. n. *Donghicola*, An existing genus; *Secusdonghicola*: A genus related to but distinct from the existing genus Donghicola of beside.

Secusdongia

L. masc. preposition *secus*, beside; L. fem. n. *Dongia*, An existing genus; *Secusdongia*: A genus related to but distinct from the existing genus Dongia of beside.

Secusdongshaea

L. masc. preposition *secus*, beside; L. fem. n. *Dongshaea*, An existing genus; *Secusdongshaea*: A genus related to but distinct from the existing genus Dongshaea of beside.

Secusdorea

L. masc. preposition *secus*, beside; L. fem. n. *Dorea*, An existing genus; *Secusdorea*: A genus related to but distinct from the existing genus Dorea of beside.

Secusdraconibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Draconibacterium*, An existing genus; *Secusdraconibacterium*: A genus related to but distinct from the existing genus Draconibacterium of beside.

Secusdrancourtella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Drancourtella*, An existing genus; *Secusdrancourtella*: A genus related to but distinct from the existing genus Drancourtella of beside.

Secusdrouetiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Drouetiella*, An existing genus; *Secusdrouetiella*: A genus related to but distinct from the existing genus Drouetiella of beside.

Secusdubosiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Dubosiella*, An existing genus; *Secusdubosiella*: A genus related to but distinct from the existing genus Dubosiella of beside.

Secusduganella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Duganella*, An existing genus; *Secusduganella*: A genus related to but distinct from the existing genus Duganella of beside.

Secusdulcicalothrix

L. masc. preposition *secus*, beside; L. fem. n. *Dulcicalothrix*, An existing genus; *Secusdulcicalothrix*: A genus related to but distinct from the existing genus Dulcicalothrix of beside.

Secusduncaniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Duncaniella*, An existing genus; *Secusduncaniella*: A genus related to but distinct from the existing genus Duncaniella of beside.

Secusdyadobacter

L. masc. preposition *secus*, beside; L. masc. n. *Dyadobacter*, An existing genus; *Secusdyadobacter*: A genus related to but distinct from the existing genus Dyadobacter of beside.

Secusdyella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Dyella*, An existing genus; *Secusdyella*: A genus related to but distinct from the existing genus Dyella of beside.

Secusdysgonomonas

L. masc. preposition *secus*, beside; L. fem. n. *Dysgonomonas*, An existing genus; *Secusdysgonomonas*: A genus related to but distinct from the existing genus Dysgonomonas of beside.

Secusdysosmobacter

L. masc. preposition *secus*, beside; L. masc. n. *Dysosmobacter*, An existing genus; *Secusdysosmobacter*: A genus related to but distinct from the existing genus Dysosmobacter of beside.

Secusechinicola

L. masc. preposition *secus*, beside; L. fem. n. *Echinicola*, An existing genus; *Secusechinicola*: A genus related to but distinct from the existing genus Echinicola of beside.

Secusechinimonas

L. masc. preposition *secus*, beside; L. fem. n. *Echinimonas*, An existing genus; *Secusechinimonas*: A genus related to but distinct from the existing genus Echinimonas of beside.

Secusectothiorhodosinus

L. masc. preposition *secus*, beside; L. masc. n. *Ectothiorhodosinus*, An existing genus; *Secusectothiorhodosinus*: A genus related to but distinct from the existing genus Ectothiorhodosinus of beside.

Secusectothiorhodospira

L. masc. preposition *secus*, beside; L. fem. n. *Ectothiorhodospira*, An existing genus; *Secusectothiorhodospira*: A genus related to but distinct from the existing genus Ectothiorhodospira of beside.

Secusedaphobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Edaphobacillus*, An existing genus; *Secusedaphobacillus*: A genus related to but distinct from the existing genus Edaphobacillus of beside.

Secusedaphobacter

L. masc. preposition *secus*, beside; L. masc. n. *Edaphobacter*, An existing genus; *Secusedaphobacter*: A genus related to but distinct from the existing genus Edaphobacter of beside.

Secusedaphocola

L. masc. preposition *secus*, beside; L. masc. n. *Edaphocola*, An existing genus; *Secusedaphocola*: A genus related to but distinct from the existing genus Edaphocola of beside.

Secusedwardiiplasma

L. masc. preposition *secus*, beside; L. neut. n. *Edwardiiplasma*, An existing genus; *Secusedwardiiplasma*: A genus related to but distinct from the existing genus Edwardiiplasma of beside.

Secusedwardsiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Edwardsiella*, An existing genus; *Secusedwardsiella*: A genus related to but distinct from the existing genus Edwardsiella of beside.

Secuseffluviibacter

L. masc. preposition *secus*, beside; L. masc. n. *Effluviibacter*, An existing genus; *Secuseffluviibacter*: A genus related to but distinct from the existing genus Effluviibacter of beside.

Secuseffusibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Effusibacillus*, An existing genus; *Secuseffusibacillus*: A genus related to but distinct from the existing genus Effusibacillus of beside.

Secuseggerthella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Eggerthella*, An existing genus; *Secuseggerthella*: A genus related to but distinct from the existing genus Eggerthella of beside.

Secuseggerthia

L. masc. preposition *secus*, beside; L. fem. n. *Eggerthia*, An existing genus; *Secuseggerthia*: A genus related to but distinct from the existing genus Eggerthia of beside.

Secusegibacter

L. masc. preposition *secus*, beside; L. masc. n. *Egibacter*, An existing genus; *Secusegibacter*: A genus related to but distinct from the existing genus Egibacter of beside.

Secusegicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Egicoccus*, An existing genus; *Secusegicoccus*: A genus related to but distinct from the existing genus Egicoccus of beside.

Secusehrlichia

L. masc. preposition *secus*, beside; L. fem. n. *Ehrlichia*, An existing genus; *Secusehrlichia*: A genus related to but distinct from the existing genus Ehrlichia of beside.

Secuseikenella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Eikenella*, An existing genus; *Secuseikenella*: A genus related to but distinct from the existing genus Eikenella of beside.

Secuseilatimonas

L. masc. preposition *secus*, beside; L. fem. n. *Eilatimonas*, An existing genus; *Secuseilatimonas*: A genus related to but distinct from the existing genus Eilatimonas of beside.

Secuseionea

L. masc. preposition *secus*, beside; L. fem. n. *Eionea*, An existing genus; *Secuseionea*: A genus related to but distinct from the existing genus Eionea of beside.

Secuseisenbergiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Eisenbergiella*, An existing genus; *Secuseisenbergiella*: A genus related to but distinct from the existing genus Eisenbergiella of beside.

Secuseisenibacter

L. masc. preposition *secus*, beside; L. masc. n. *Eisenibacter*, An existing genus; *Secuseisenibacter*: A genus related to but distinct from the existing genus Eisenibacter of beside.

Secuselainella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Elainella*, An existing genus; *Secuselainella*: A genus related to but distinct from the existing genus Elainella of beside.

Secuselioraea

L. masc. preposition *secus*, beside; L. fem. n. *Elioraea*, An existing genus; *Secuselioraea*: A genus related to but distinct from the existing genus Elioraea of beside.

Secuselizabethkingia

L. masc. preposition *secus*, beside; L. fem. n. *Elizabethkingia*, An existing genus; *Secuselizabethkingia*: A genus related to but distinct from the existing genus Elizabethkingia of beside.

Secusellagibacter

L. masc. preposition *secus*, beside; L. masc. n. *Ellagibacter*, An existing genus; *Secusellagibacter*: A genus related to but distinct from the existing genus Ellagibacter of beside.

Secuselstera

L. masc. preposition *secus*, beside; L. fem. n. *Elstera*, An existing genus; *Secuselstera*: A genus related to but distinct from the existing genus Elstera of beside.

Secuselusimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Elusimicrobium*, An existing genus; *Secuselusimicrobium*: A genus related to but distinct from the existing genus Elusimicrobium of beside.

Secuselytrosporangium

L. masc. preposition *secus*, beside; L. neut. n. *Elytrosporangium*, An existing genus; *Secuselytrosporangium*: A genus related to but distinct from the existing genus Elytrosporangium of beside.

Secusembleya

L. masc. preposition *secus*, beside; L. fem. n. *Embleya*, An existing genus; *Secusembleya*: A genus related to but distinct from the existing genus Embleya of beside.

Secusemcibacter

L. masc. preposition *secus*, beside; L. masc. n. *Emcibacter*, An existing genus; *Secusemcibacter*: A genus related to but distinct from the existing genus Emcibacter of beside.

Secusempedobacter

L. masc. preposition *secus*, beside; L. masc. n. *Empedobacter*, An existing genus; *Secusempedobacter*: A genus related to but distinct from the existing genus Empedobacter of beside.

Secusemticicia

L. masc. preposition *secus*, beside; L. fem. n. *Emticicia*, An existing genus; *Secusemticicia*: A genus related to but distinct from the existing genus Emticicia of beside.

Secusendobacter

L. masc. preposition *secus*, beside; L. masc. n. *Endobacter*, An existing genus; *Secusendobacter*: A genus related to but distinct from the existing genus Endobacter of beside.

Secusendobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Endobacterium*, An existing genus; *Secusendobacterium*: A genus related to but distinct from the existing genus Endobacterium of beside.

Secusendomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Endomicrobium*, An existing genus; *Secusendomicrobium*: A genus related to but distinct from the existing genus Endomicrobium of beside.

Secusendothiovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Endothiovibrio*, An existing genus; *Secusendothiovibrio*: A genus related to but distinct from the existing genus Endothiovibrio of beside.

Secusendozoicomonas

L. masc. preposition *secus*, beside; L. fem. n. *Endozoicomonas*, An existing genus; *Secusendozoicomonas*: A genus related to but distinct from the existing genus Endozoicomonas of beside.

Secusenhydrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Enhydrobacter*, An existing genus; *Secusenhydrobacter*: A genus related to but distinct from the existing genus Enhydrobacter of beside.

Secusenhygromyxa

L. masc. preposition *secus*, beside; L. fem. n. *Enhygromyxa*, An existing genus; *Secusenhygromyxa*: A genus related to but distinct from the existing genus Enhygromyxa of beside.

Secusenorma

L. masc. preposition *secus*, beside; L. fem. n. *Enorma*, An existing genus; *Secusenorma*: A genus related to but distinct from the existing genus Enorma of beside.

Secusensifer

L. masc. preposition *secus*, beside; L. masc. n. *Ensifer*, An existing genus; *Secusensifer*: A genus related to but distinct from the existing genus Ensifer of beside.

Secusenteractinococcus

L. masc. preposition *secus*, beside; L. masc. n. *Enteractinococcus*, An existing genus; *Secusenteractinococcus*: A genus related to but distinct from the existing genus Enteractinococcus of beside.

Secusenterobacter

L. masc. preposition *secus*, beside; L. masc. n. *Enterobacter*, An existing genus; *Secusenterobacter*: A genus related to but distinct from the existing genus Enterobacter of beside.

Secusenterocloster

L. masc. preposition *secus*, beside; L. masc. n. *Enterocloster*, An existing genus; *Secusenterocloster*: A genus related to but distinct from the existing genus Enterocloster of beside.

Secusenterococcus

L. masc. preposition *secus*, beside; L. masc. n. *Enterococcus*, An existing genus; *Secusenterococcus*: A genus related to but distinct from the existing genus Enterococcus of beside.

Secusenterorhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Enterorhabdus*, An existing genus; *Secusenterorhabdus*: A genus related to but distinct from the existing genus Enterorhabdus of beside.

Secusenteroscipio

L. masc. preposition *secus*, beside; L. masc. n. *Enteroscipio*, An existing genus; *Secusenteroscipio*: A genus related to but distinct from the existing genus Enteroscipio of beside.

Secusenterovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Enterovibrio*, An existing genus; *Secusenterovibrio*: A genus related to but distinct from the existing genus Enterovibrio of beside.

Secusentomomonas

L. masc. preposition *secus*, beside; L. fem. n. *Entomomonas*, An existing genus; *Secusentomomonas*: A genus related to but distinct from the existing genus Entomomonas of beside.

Secusentomoplasma

L. masc. preposition *secus*, beside; L. neut. n. *Entomoplasma*, An existing genus; *Secusentomoplasma*: A genus related to but distinct from the existing genus Entomoplasma of beside.

Secuseperythrozoon

L. masc. preposition *secus*, beside; L. neut. n. *Eperythrozoon*, An existing genus; *Secuseperythrozoon*: A genus related to but distinct from the existing genus Eperythrozoon of beside.

Secusephemeroptericola

L. masc. preposition *secus*, beside; L. masc. n. *Ephemeroptericola*, An existing genus; *Secusephemeroptericola*: A genus related to but distinct from the existing genus Ephemeroptericola of beside.

Secusepibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Epibacterium*, An existing genus; *Secusepibacterium*: A genus related to but distinct from the existing genus Epibacterium of beside.

Secusepidermidibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Epidermidibacterium*, An existing genus; *Secusepidermidibacterium*: A genus related to but distinct from the existing genus Epidermidibacterium of beside.

Secusepigloeosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Epigloeosphaera*, An existing genus; *Secusepigloeosphaera*: A genus related to but distinct from the existing genus Epigloeosphaera of beside.

Secusepilithonimonas

L. masc. preposition *secus*, beside; L. fem. n. *Epilithonimonas*, An existing genus; *Secusepilithonimonas*: A genus related to but distinct from the existing genus Epilithonimonas of beside.

Secusercella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Ercella*, An existing genus; *Secusercella*: A genus related to but distinct from the existing genus Ercella of beside.

Secusereboglobus

L. masc. preposition *secus*, beside; L. masc. n. *Ereboglobus*, An existing genus; *Secusereboglobus*: A genus related to but distinct from the existing genus Ereboglobus of beside.

Secuseremococcus

L. masc. preposition *secus*, beside; L. masc. n. *Eremococcus*, An existing genus; *Secuseremococcus*: A genus related to but distinct from the existing genus Eremococcus of beside.

Secuserwinia

L. masc. preposition *secus*, beside; L. fem. n. *Erwinia*, An existing genus; *Secuserwinia*: A genus related to but distinct from the existing genus Erwinia of beside.

Secuserysipelothrix

L. masc. preposition *secus*, beside; L. fem. n. *Erysipelothrix*, An existing genus; *Secuserysipelothrix*: A genus related to but distinct from the existing genus Erysipelothrix of beside.

Secuserythrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Erythrobacter*, An existing genus; *Secuserythrobacter*: A genus related to but distinct from the existing genus Erythrobacter of beside.

Secuserythromicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Erythromicrobium*, An existing genus; *Secuserythromicrobium*: A genus related to but distinct from the existing genus Erythromicrobium of beside.

Secuserythromonas

L. masc. preposition *secus*, beside; L. fem. n. *Erythromonas*, An existing genus; *Secuserythromonas*: A genus related to but distinct from the existing genus Erythromonas of beside.

Secusescherichia

L. masc. preposition *secus*, beside; L. fem. n. *Escherichia*, An existing genus; *Secusescherichia*: A genus related to but distinct from the existing genus Escherichia of beside.

Secusethanoligenens

L. masc. preposition *secus*, beside; L. neut. n. *Ethanoligenens*, An existing genus; *Secusethanoligenens*: A genus related to but distinct from the existing genus Ethanoligenens of beside.

Secuseubacterium

L. masc. preposition *secus*, beside; L. neut. n. *Eubacterium*, An existing genus; *Secuseubacterium*: A genus related to but distinct from the existing genus Eubacterium of beside.

Secuseucapsis

L. masc. preposition *secus*, beside; L. fem. n. *Eucapsis*, An existing genus; *Secuseucapsis*: A genus related to but distinct from the existing genus Eucapsis of beside.

Secuseudoraea

L. masc. preposition *secus*, beside; L. fem. n. *Eudoraea*, An existing genus; *Secuseudoraea*: A genus related to but distinct from the existing genus Eudoraea of beside.

Secuseuryhalocaulis

L. masc. preposition *secus*, beside; L. masc. n. *Euryhalocaulis*, An existing genus; *Secuseuryhalocaulis*: A genus related to but distinct from the existing genus Euryhalocaulis of beside.

Secuseuzebya

L. masc. preposition *secus*, beside; L. fem. n. *Euzebya*, An existing genus; *Secuseuzebya*: A genus related to but distinct from the existing genus Euzebya of beside.

Secuseuzebyella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Euzebyella*, An existing genus; *Secuseuzebyella*: A genus related to but distinct from the existing genus Euzebyella of beside.

Secusewamiania

L. masc. preposition *secus*, beside; L. fem. n. *Ewamiania*, An existing genus; *Secusewamiania*: A genus related to but distinct from the existing genus Ewamiania of beside.

Secusewingella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Ewingella*, An existing genus; *Secusewingella*: A genus related to but distinct from the existing genus Ewingella of beside.

Secusexcellospora

L. masc. preposition *secus*, beside; L. fem. n. *Excellospora*, An existing genus; *Secusexcellospora*: A genus related to but distinct from the existing genus Excellospora of beside.

Secusexilibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Exilibacterium*, An existing genus; *Secusexilibacterium*: A genus related to but distinct from the existing genus Exilibacterium of beside.

Secusexilispira

L. masc. preposition *secus*, beside; L. fem. n. *Exilispira*, An existing genus; *Secusexilispira*: A genus related to but distinct from the existing genus Exilispira of beside.

Secusextensimonas

L. masc. preposition *secus*, beside; L. fem. n. *Extensimonas*, An existing genus; *Secusextensimonas*: A genus related to but distinct from the existing genus Extensimonas of beside.

Secusextibacter

L. masc. preposition *secus*, beside; L. masc. n. *Extibacter*, An existing genus; *Secusextibacter*: A genus related to but distinct from the existing genus Extibacter of beside.

Secusfabibacter

L. masc. preposition *secus*, beside; L. masc. n. *Fabibacter*, An existing genus; *Secusfabibacter*: A genus related to but distinct from the existing genus Fabibacter of beside.

Secusfabivirga

L. masc. preposition *secus*, beside; L. fem. n. *Fabivirga*, An existing genus; *Secusfabivirga*: A genus related to but distinct from the existing genus Fabivirga of beside.

Secusfacilibium

L. masc. preposition *secus*, beside; L. neut. n. *Facilibium*, An existing genus; *Secusfacilibium*: A genus related to but distinct from the existing genus Facilibium of beside.

Secusfacklamia

L. masc. preposition *secus*, beside; L. fem. n. *Facklamia*, An existing genus; *Secusfacklamia*: A genus related to but distinct from the existing genus Facklamia of beside.

Secusfaecalibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Faecalibacillus*, An existing genus; *Secusfaecalibacillus*: A genus related to but distinct from the existing genus Faecalibacillus of beside.

Secusfaecalibacter

L. masc. preposition *secus*, beside; L. masc. n. *Faecalibacter*, An existing genus; *Secusfaecalibacter*: A genus related to but distinct from the existing genus Faecalibacter of beside.

Secusfaecalibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Faecalibacterium*, An existing genus; *Secusfaecalibacterium*: A genus related to but distinct from the existing genus Faecalibacterium of beside.

Secusfaecalibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Faecalibaculum*, An existing genus; *Secusfaecalibaculum*: A genus related to but distinct from the existing genus Faecalibaculum of beside.

Secusfaecalicatena

L. masc. preposition *secus*, beside; L. fem. n. *Faecalicatena*, An existing genus; *Secusfaecalicatena*: A genus related to but distinct from the existing genus Faecalicatena of beside.

Secusfaecalicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Faecalicoccus*, An existing genus; *Secusfaecalicoccus*: A genus related to but distinct from the existing genus Faecalicoccus of beside.

Secusfaecalimonas

L. masc. preposition *secus*, beside; L. fem. n. *Faecalimonas*, An existing genus; *Secusfaecalimonas*: A genus related to but distinct from the existing genus Faecalimonas of beside.

Secusfaecalitalea

L. masc. preposition *secus*, beside; L. fem. n. *Faecalitalea*, An existing genus; *Secusfaecalitalea*: A genus related to but distinct from the existing genus Faecalitalea of beside.

Secusfaenia

L. masc. preposition *secus*, beside; L. fem. n. *Faenia*, An existing genus; *Secusfaenia*: A genus related to but distinct from the existing genus Faenia of beside.

Secusfalcatimonas

L. masc. preposition *secus*, beside; L. fem. n. *Falcatimonas*, An existing genus; *Secusfalcatimonas*: A genus related to but distinct from the existing genus Falcatimonas of beside.

Secusfalsarthrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Falsarthrobacter*, An existing genus; *Secusfalsarthrobacter*: A genus related to but distinct from the existing genus Falsarthrobacter of beside.

Secusfalsibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Falsibacillus*, An existing genus; *Secusfalsibacillus*: A genus related to but distinct from the existing genus Falsibacillus of beside.

Secusfalsigemmobacter

L. masc. preposition *secus*, beside; L. masc. n. *Falsigemmobacter*, An existing genus; *Secusfalsigemmobacter*: A genus related to but distinct from the existing genus Falsigemmobacter of beside.

Secusfalsiporphyromonas

L. masc. preposition *secus*, beside; L. fem. n. *Falsiporphyromonas*, An existing genus; *Secusfalsiporphyromonas*: A genus related to but distinct from the existing genus Falsiporphyromonas of beside.

Secusfalsirhodobacter

L. masc. preposition *secus*, beside; L. masc. n. *Falsirhodobacter*, An existing genus; *Secusfalsirhodobacter*: A genus related to but distinct from the existing genus Falsirhodobacter of beside.

Secusfalsochrobactrum

L. masc. preposition *secus*, beside; L. neut. n. *Falsochrobactrum*, An existing genus; *Secusfalsochrobactrum*: A genus related to but distinct from the existing genus Falsochrobactrum of beside.

Secusfangia

L. masc. preposition *secus*, beside; L. fem. n. *Fangia*, An existing genus; *Secusfangia*: A genus related to but distinct from the existing genus Fangia of beside.

Secusfannyhessea

L. masc. preposition *secus*, beside; L. fem. n. *Fannyhessea*, An existing genus; *Secusfannyhessea*: A genus related to but distinct from the existing genus Fannyhessea of beside.

Secusfastidiosipila

L. masc. preposition *secus*, beside; L. fem. n. *Fastidiosipila*, An existing genus; *Secusfastidiosipila*: A genus related to but distinct from the existing genus Fastidiosipila of beside.

Secusfaucicola

L. masc. preposition *secus*, beside; L. fem. n. *Faucicola*, An existing genus; *Secusfaucicola*: A genus related to but distinct from the existing genus Faucicola of beside.

Secusfeifantangia

L. masc. preposition *secus*, beside; L. fem. n. *Feifantangia*, An existing genus; *Secusfeifantangia*: A genus related to but distinct from the existing genus Feifantangia of beside.

Secusfenollaria

L. masc. preposition *secus*, beside; L. fem. n. *Fenollaria*, An existing genus; *Secusfenollaria*: A genus related to but distinct from the existing genus Fenollaria of beside.

Secusfermentibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Fermentibacillus*, An existing genus; *Secusfermentibacillus*: A genus related to but distinct from the existing genus Fermentibacillus of beside.

Secusfermentimonas

L. masc. preposition *secus*, beside; L. fem. n. *Fermentimonas*, An existing genus; *Secusfermentimonas*: A genus related to but distinct from the existing genus Fermentimonas of beside.

Secusferribacterium

L. masc. preposition *secus*, beside; L. neut. n. *Ferribacterium*, An existing genus; *Secusferribacterium*: A genus related to but distinct from the existing genus Ferribacterium of beside.

Secusferrigenium

L. masc. preposition *secus*, beside; L. neut. n. *Ferrigenium*, An existing genus; *Secusferrigenium*: A genus related to but distinct from the existing genus Ferrigenium of beside.

Secusferrimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Ferrimicrobium*, An existing genus; *Secusferrimicrobium*: A genus related to but distinct from the existing genus Ferrimicrobium of beside.

Secusferrimonas

L. masc. preposition *secus*, beside; L. fem. n. *Ferrimonas*, An existing genus; *Secusferrimonas*: A genus related to but distinct from the existing genus Ferrimonas of beside.

Secusferriphaselus

L. masc. preposition *secus*, beside; L. masc. n. *Ferriphaselus*, An existing genus; *Secusferriphaselus*: A genus related to but distinct from the existing genus Ferriphaselus of beside.

Secusferrithrix

L. masc. preposition *secus*, beside; L. fem. n. *Ferrithrix*, An existing genus; *Secusferrithrix*: A genus related to but distinct from the existing genus Ferrithrix of beside.

Secusferroglobus

L. masc. preposition *secus*, beside; L. masc. n. *Ferroglobus*, An existing genus; *Secusferroglobus*: A genus related to but distinct from the existing genus Ferroglobus of beside.

Secusferroplasma

L. masc. preposition *secus*, beside; L. neut. n. *Ferroplasma*, An existing genus; *Secusferroplasma*: A genus related to but distinct from the existing genus Ferroplasma of beside.

Secusferrovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Ferrovibrio*, An existing genus; *Secusferrovibrio*: A genus related to but distinct from the existing genus Ferrovibrio of beside.

Secusferruginibacter

L. masc. preposition *secus*, beside; L. masc. n. *Ferruginibacter*, An existing genus; *Secusferruginibacter*: A genus related to but distinct from the existing genus Ferruginibacter of beside.

Secusferruginivarius

L. masc. preposition *secus*, beside; L. masc. n. *Ferruginivarius*, An existing genus; *Secusferruginivarius*: A genus related to but distinct from the existing genus Ferruginivarius of beside.

Secusfervidicella

L. masc. preposition *secus*, beside; L. fem. n. *Fervidicella*, An existing genus; *Secusfervidicella*: A genus related to but distinct from the existing genus Fervidicella of beside.

Secusfervidicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Fervidicoccus*, An existing genus; *Secusfervidicoccus*: A genus related to but distinct from the existing genus Fervidicoccus of beside.

Secusfervidicola

L. masc. preposition *secus*, beside; L. masc. n. *Fervidicola*, An existing genus; *Secusfervidicola*: A genus related to but distinct from the existing genus Fervidicola of beside.

Secusfervidobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Fervidobacterium*, An existing genus; *Secusfervidobacterium*: A genus related to but distinct from the existing genus Fervidobacterium of beside.

Secusfibrella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Fibrella*, An existing genus; *Secusfibrella*: A genus related to but distinct from the existing genus Fibrella of beside.

Secusfibrisoma

L. masc. preposition *secus*, beside; L. neut. n. *Fibrisoma*, An existing genus; *Secusfibrisoma*: A genus related to but distinct from the existing genus Fibrisoma of beside.

Secusfibrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Fibrobacter*, An existing genus; *Secusfibrobacter*: A genus related to but distinct from the existing genus Fibrobacter of beside.

Secusfictibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Fictibacillus*, An existing genus; *Secusfictibacillus*: A genus related to but distinct from the existing genus Fictibacillus of beside.

Secusfilibacter

L. masc. preposition *secus*, beside; L. masc. n. *Filibacter*, An existing genus; *Secusfilibacter*: A genus related to but distinct from the existing genus Filibacter of beside.

Secusfilifactor

L. masc. preposition *secus*, beside; L. masc. n. *Filifactor*, An existing genus; *Secusfilifactor*: A genus related to but distinct from the existing genus Filifactor of beside.

Secusfilimonas

L. masc. preposition *secus*, beside; L. fem. n. *Filimonas*, An existing genus; *Secusfilimonas*: A genus related to but distinct from the existing genus Filimonas of beside.

Secusfilobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Filobacillus*, An existing genus; *Secusfilobacillus*: A genus related to but distinct from the existing genus Filobacillus of beside.

Secusfilobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Filobacterium*, An existing genus; *Secusfilobacterium*: A genus related to but distinct from the existing genus Filobacterium of beside.

Secusfilomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Filomicrobium*, An existing genus; *Secusfilomicrobium*: A genus related to but distinct from the existing genus Filomicrobium of beside.

Secusfimbriiglobus

L. masc. preposition *secus*, beside; L. masc. n. *Fimbriiglobus*, An existing genus; *Secusfimbriiglobus*: A genus related to but distinct from the existing genus Fimbriiglobus of beside.

Secusfimbriimonas

L. masc. preposition *secus*, beside; L. fem. n. *Fimbriimonas*, An existing genus; *Secusfimbriimonas*: A genus related to but distinct from the existing genus Fimbriimonas of beside.

Secusfinegoldia

L. masc. preposition *secus*, beside; L. fem. n. *Finegoldia*, An existing genus; *Secusfinegoldia*: A genus related to but distinct from the existing genus Finegoldia of beside.

Secusflagellimonas

L. masc. preposition *secus*, beside; L. fem. n. *Flagellimonas*, An existing genus; *Secusflagellimonas*: A genus related to but distinct from the existing genus Flagellimonas of beside.

Secusflammeovirga

L. masc. preposition *secus*, beside; L. fem. n. *Flammeovirga*, An existing genus; *Secusflammeovirga*: A genus related to but distinct from the existing genus Flammeovirga of beside.

Secusflaviaesturariibacter

L. masc. preposition *secus*, beside; L. masc. n. *Flaviaesturariibacter*, An existing genus; *Secusflaviaesturariibacter*: A genus related to but distinct from the existing genus Flaviaesturariibacter of beside.

Secusflavicella

L. masc. preposition *secus*, beside; L. fem. n. *Flavicella*, An existing genus; *Secusflavicella*: A genus related to but distinct from the existing genus Flavicella of beside.

Secusflaviflagellibacter

L. masc. preposition *secus*, beside; L. masc. n. *Flaviflagellibacter*, An existing genus; *Secusflaviflagellibacter*: A genus related to but distinct from the existing genus Flaviflagellibacter of beside.

Secusflaviflexus

L. masc. preposition *secus*, beside; L. masc. n. *Flaviflexus*, An existing genus; *Secusflaviflexus*: A genus related to but distinct from the existing genus Flaviflexus of beside.

Secusflavihumibacter

L. masc. preposition *secus*, beside; L. masc. n. *Flavihumibacter*, An existing genus; *Secusflavihumibacter*: A genus related to but distinct from the existing genus Flavihumibacter of beside.

Secusflavilitoribacter

L. masc. preposition *secus*, beside; L. masc. n. *Flavilitoribacter*, An existing genus; *Secusflavilitoribacter*: A genus related to but distinct from the existing genus Flavilitoribacter of beside.

Secusflavimaricola

L. masc. preposition *secus*, beside; L. masc. n. *Flavimaricola*, An existing genus; *Secusflavimaricola*: A genus related to but distinct from the existing genus Flavimaricola of beside.

Secusflavimarina

L. masc. preposition *secus*, beside; L. fem. n. *Flavimarina*, An existing genus; *Secusflavimarina*: A genus related to but distinct from the existing genus Flavimarina of beside.

Secusflavimobilis

L. masc. preposition *secus*, beside; L. masc. n. *Flavimobilis*, An existing genus; *Secusflavimobilis*: A genus related to but distinct from the existing genus Flavimobilis of beside.

Secusflavimonas

L. masc. preposition *secus*, beside; L. fem. n. *Flavimonas*, An existing genus; *Secusflavimonas*: A genus related to but distinct from the existing genus Flavimonas of beside.

Secusflavipsychrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Flavipsychrobacter*, An existing genus; *Secusflavipsychrobacter*: A genus related to but distinct from the existing genus Flavipsychrobacter of beside.

Secusflaviramulus

L. masc. preposition *secus*, beside; L. masc. dim. n. *Flaviramulus*, An existing genus; *Secusflaviramulus*: A genus related to but distinct from the existing genus Flaviramulus of beside.

Secusflavirhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Flavirhabdus*, An existing genus; *Secusflavirhabdus*: A genus related to but distinct from the existing genus Flavirhabdus of beside.

Secusflavisolibacter

L. masc. preposition *secus*, beside; L. masc. n. *Flavisolibacter*, An existing genus; *Secusflavisolibacter*: A genus related to but distinct from the existing genus Flavisolibacter of beside.

Secusflavitalea

L. masc. preposition *secus*, beside; L. fem. n. *Flavitalea*, An existing genus; *Secusflavitalea*: A genus related to but distinct from the existing genus Flavitalea of beside.

Secusflavivirga

L. masc. preposition *secus*, beside; L. fem. n. *Flavivirga*, An existing genus; *Secusflavivirga*: A genus related to but distinct from the existing genus Flavivirga of beside.

Secusflavobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Flavobacterium*, An existing genus; *Secusflavobacterium*: A genus related to but distinct from the existing genus Flavobacterium of beside.

Secusflavonifractor

L. masc. preposition *secus*, beside; L. masc. n. *Flavonifractor*, An existing genus; *Secusflavonifractor*: A genus related to but distinct from the existing genus Flavonifractor of beside.

Secusflectobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Flectobacillus*, An existing genus; *Secusflectobacillus*: A genus related to but distinct from the existing genus Flectobacillus of beside.

Secusflexibacter

L. masc. preposition *secus*, beside; L. masc. n. *Flexibacter*, An existing genus; *Secusflexibacter*: A genus related to but distinct from the existing genus Flexibacter of beside.

Secusflexilinea

L. masc. preposition *secus*, beside; L. fem. n. *Flexilinea*, An existing genus; *Secusflexilinea*: A genus related to but distinct from the existing genus Flexilinea of beside.

Secusflexistipes

L. masc. preposition *secus*, beside; L. masc. n. *Flexistipes*, An existing genus; *Secusflexistipes*: A genus related to but distinct from the existing genus Flexistipes of beside.

Secusflexithrix

L. masc. preposition *secus*, beside; L. fem. n. *Flexithrix*, An existing genus; *Secusflexithrix*: A genus related to but distinct from the existing genus Flexithrix of beside.

Secusflexivirga

L. masc. preposition *secus*, beside; L. fem. n. *Flexivirga*, An existing genus; *Secusflexivirga*: A genus related to but distinct from the existing genus Flexivirga of beside.

Secusflindersiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Flindersiella*, An existing genus; *Secusflindersiella*: A genus related to but distinct from the existing genus Flindersiella of beside.

Secusflintibacter

L. masc. preposition *secus*, beside; L. masc. n. *Flintibacter*, An existing genus; *Secusflintibacter*: A genus related to but distinct from the existing genus Flintibacter of beside.

Secusfloricoccus

L. masc. preposition *secus*, beside; L. masc. n. *Floricoccus*, An existing genus; *Secusfloricoccus*: A genus related to but distinct from the existing genus Floricoccus of beside.

Secusfluoribacter

L. masc. preposition *secus*, beside; L. masc. n. *Fluoribacter*, An existing genus; *Secusfluoribacter*: A genus related to but distinct from the existing genus Fluoribacter of beside.

Secusfluviibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Fluviibacterium*, An existing genus; *Secusfluviibacterium*: A genus related to but distinct from the existing genus Fluviibacterium of beside.

Secusfluviicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Fluviicoccus*, An existing genus; *Secusfluviicoccus*: A genus related to but distinct from the existing genus Fluviicoccus of beside.

Secusfluviicola

L. masc. preposition *secus*, beside; L. masc. n. *Fluviicola*, An existing genus; *Secusfluviicola*: A genus related to but distinct from the existing genus Fluviicola of beside.

Secusfluviimonas

L. masc. preposition *secus*, beside; L. fem. n. *Fluviimonas*, An existing genus; *Secusfluviimonas*: A genus related to but distinct from the existing genus Fluviimonas of beside.

Secusfluviispira

L. masc. preposition *secus*, beside; L. fem. n. *Fluviispira*, An existing genus; *Secusfluviispira*: A genus related to but distinct from the existing genus Fluviispira of beside.

Secusfodinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Fodinibacter*, An existing genus; *Secusfodinibacter*: A genus related to but distinct from the existing genus Fodinibacter of beside.

Secusfodinibius

L. masc. preposition *secus*, beside; L. masc. n. *Fodinibius*, An existing genus; *Secusfodinibius*: A genus related to but distinct from the existing genus Fodinibius of beside.

Secusfodinicola

L. masc. preposition *secus*, beside; L. masc. n. *Fodinicola*, An existing genus; *Secusfodinicola*: A genus related to but distinct from the existing genus Fodinicola of beside.

Secusfodinicurvata

L. masc. preposition *secus*, beside; L. fem. n. *Fodinicurvata*, An existing genus; *Secusfodinicurvata*: A genus related to but distinct from the existing genus Fodinicurvata of beside.

Secusfoliisarcina

L. masc. preposition *secus*, beside; L. fem. n. *Foliisarcina*, An existing genus; *Secusfoliisarcina*: A genus related to but distinct from the existing genus Foliisarcina of beside.

Secusfontibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Fontibacillus*, An existing genus; *Secusfontibacillus*: A genus related to but distinct from the existing genus Fontibacillus of beside.

Secusfontibacter

L. masc. preposition *secus*, beside; L. masc. n. *Fontibacter*, An existing genus; *Secusfontibacter*: A genus related to but distinct from the existing genus Fontibacter of beside.

Secusfonticella

L. masc. preposition *secus*, beside; L. fem. n. *Fonticella*, An existing genus; *Secusfonticella*: A genus related to but distinct from the existing genus Fonticella of beside.

Secusfontimonas

L. masc. preposition *secus*, beside; L. fem. n. *Fontimonas*, An existing genus; *Secusfontimonas*: A genus related to but distinct from the existing genus Fontimonas of beside.

Secusformivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Formivibrio*, An existing genus; *Secusformivibrio*: A genus related to but distinct from the existing genus Formivibrio of beside.

Secusformosa

L. masc. preposition *secus*, beside; L. fem. n. *Formosa*, An existing genus; *Secusformosa*: A genus related to but distinct from the existing genus Formosa of beside.

Secusformosimonas

L. masc. preposition *secus*, beside; L. fem. n. *Formosimonas*, An existing genus; *Secusformosimonas*: A genus related to but distinct from the existing genus Formosimonas of beside.

Secusfournierella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Fournierella*, An existing genus; *Secusfournierella*: A genus related to but distinct from the existing genus Fournierella of beside.

Secusfrancisella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Francisella*, An existing genus; *Secusfrancisella*: A genus related to but distinct from the existing genus Francisella of beside.

Secusfranconibacter

L. masc. preposition *secus*, beside; L. masc. n. *Franconibacter*, An existing genus; *Secusfranconibacter*: A genus related to but distinct from the existing genus Franconibacter of beside.

Secusfrankia

L. masc. preposition *secus*, beside; L. fem. n. *Frankia*, An existing genus; *Secusfrankia*: A genus related to but distinct from the existing genus Frankia of beside.

Secusfrateuria

L. masc. preposition *secus*, beside; L. fem. n. *Frateuria*, An existing genus; *Secusfrateuria*: A genus related to but distinct from the existing genus Frateuria of beside.

Secusfrederiksenia

L. masc. preposition *secus*, beside; L. fem. n. *Frederiksenia*, An existing genus; *Secusfrederiksenia*: A genus related to but distinct from the existing genus Frederiksenia of beside.

Secusfretibacter

L. masc. preposition *secus*, beside; L. masc. n. *Fretibacter*, An existing genus; *Secusfretibacter*: A genus related to but distinct from the existing genus Fretibacter of beside.

Secusfretibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Fretibacterium*, An existing genus; *Secusfretibacterium*: A genus related to but distinct from the existing genus Fretibacterium of beside.

Secusfriedmanniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Friedmanniella*, An existing genus; *Secusfriedmanniella*: A genus related to but distinct from the existing genus Friedmanniella of beside.

Secusfrigidibacter

L. masc. preposition *secus*, beside; L. masc. n. *Frigidibacter*, An existing genus; *Secusfrigidibacter*: A genus related to but distinct from the existing genus Frigidibacter of beside.

Secusfrigoribacterium

L. masc. preposition *secus*, beside; L. neut. n. *Frigoribacterium*, An existing genus; *Secusfrigoribacterium*: A genus related to but distinct from the existing genus Frigoribacterium of beside.

Secusfrischella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Frischella*, An existing genus; *Secusfrischella*: A genus related to but distinct from the existing genus Frischella of beside.

Secusfrisingicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Frisingicoccus*, An existing genus; *Secusfrisingicoccus*: A genus related to but distinct from the existing genus Frisingicoccus of beside.

Secusfrondibacter

L. masc. preposition *secus*, beside; L. masc. n. *Frondibacter*, An existing genus; *Secusfrondibacter*: A genus related to but distinct from the existing genus Frondibacter of beside.

Secusfrondicola

L. masc. preposition *secus*, beside; L. masc. n. *Frondicola*, An existing genus; *Secusfrondicola*: A genus related to but distinct from the existing genus Frondicola of beside.

Secusfrondihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Frondihabitans*, An existing genus; *Secusfrondihabitans*: A genus related to but distinct from the existing genus Frondihabitans of beside.

Secusfructilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Fructilactobacillus*, An existing genus; *Secusfructilactobacillus*: A genus related to but distinct from the existing genus Fructilactobacillus of beside.

Secusfructobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Fructobacillus*, An existing genus; *Secusfructobacillus*: A genus related to but distinct from the existing genus Fructobacillus of beside.

Secusfuchsiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Fuchsiella*, An existing genus; *Secusfuchsiella*: A genus related to but distinct from the existing genus Fuchsiella of beside.

Secusfudania

L. masc. preposition *secus*, beside; L. fem. n. *Fudania*, An existing genus; *Secusfudania*: A genus related to but distinct from the existing genus Fudania of beside.

Secusfuerstia

L. masc. preposition *secus*, beside; L. fem. n. *Fuerstia*, An existing genus; *Secusfuerstia*: A genus related to but distinct from the existing genus Fuerstia of beside.

Secusfulvibacter

L. masc. preposition *secus*, beside; L. masc. n. *Fulvibacter*, An existing genus; *Secusfulvibacter*: A genus related to but distinct from the existing genus Fulvibacter of beside.

Secusfulvimarina

L. masc. preposition *secus*, beside; L. fem. n. *Fulvimarina*, An existing genus; *Secusfulvimarina*: A genus related to but distinct from the existing genus Fulvimarina of beside.

Secusfulvimonas

L. masc. preposition *secus*, beside; L. fem. n. *Fulvimonas*, An existing genus; *Secusfulvimonas*: A genus related to but distinct from the existing genus Fulvimonas of beside.

Secusfulvitalea

L. masc. preposition *secus*, beside; L. fem. n. *Fulvitalea*, An existing genus; *Secusfulvitalea*: A genus related to but distinct from the existing genus Fulvitalea of beside.

Secusfulvivirga

L. masc. preposition *secus*, beside; L. fem. n. *Fulvivirga*, An existing genus; *Secusfulvivirga*: A genus related to but distinct from the existing genus Fulvivirga of beside.

Secusfundibacter

L. masc. preposition *secus*, beside; L. masc. n. *Fundibacter*, An existing genus; *Secusfundibacter*: A genus related to but distinct from the existing genus Fundibacter of beside.

Secusfundicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Fundicoccus*, An existing genus; *Secusfundicoccus*: A genus related to but distinct from the existing genus Fundicoccus of beside.

Secusfurfurilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Furfurilactobacillus*, An existing genus; *Secusfurfurilactobacillus*: A genus related to but distinct from the existing genus Furfurilactobacillus of beside.

Secusfuscovulum

L. masc. preposition *secus*, beside; L. neut. n. *Fuscovulum*, An existing genus; *Secusfuscovulum*: A genus related to but distinct from the existing genus Fuscovulum of beside.

Secusfusibacter

L. masc. preposition *secus*, beside; L. masc. n. *Fusibacter*, An existing genus; *Secusfusibacter*: A genus related to but distinct from the existing genus Fusibacter of beside.

Secusfusicatenibacter

L. masc. preposition *secus*, beside; L. masc. n. *Fusicatenibacter*, An existing genus; *Secusfusicatenibacter*: A genus related to but distinct from the existing genus Fusicatenibacter of beside.

Secusfusimonas

L. masc. preposition *secus*, beside; L. fem. n. *Fusimonas*, An existing genus; *Secusfusimonas*: A genus related to but distinct from the existing genus Fusimonas of beside.

Secusfusobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Fusobacterium*, An existing genus; *Secusfusobacterium*: A genus related to but distinct from the existing genus Fusobacterium of beside.

Secusgabonia

L. masc. preposition *secus*, beside; L. fem. n. *Gabonia*, An existing genus; *Secusgabonia*: A genus related to but distinct from the existing genus Gabonia of beside.

Secusgabonibacter

L. masc. preposition *secus*, beside; L. masc. n. *Gabonibacter*, An existing genus; *Secusgabonibacter*: A genus related to but distinct from the existing genus Gabonibacter of beside.

Secusgaetbulibacter

L. masc. preposition *secus*, beside; L. masc. n. *Gaetbulibacter*, An existing genus; *Secusgaetbulibacter*: A genus related to but distinct from the existing genus Gaetbulibacter of beside.

Secusgaetbulicola

L. masc. preposition *secus*, beside; L. masc. n. *Gaetbulicola*, An existing genus; *Secusgaetbulicola*: A genus related to but distinct from the existing genus Gaetbulicola of beside.

Secusgaetbulimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Gaetbulimicrobium*, An existing genus; *Secusgaetbulimicrobium*: A genus related to but distinct from the existing genus Gaetbulimicrobium of beside.

Secusgaiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Gaiella*, An existing genus; *Secusgaiella*: A genus related to but distinct from the existing genus Gaiella of beside.

Secusgalbibacter

L. masc. preposition *secus*, beside; L. masc. n. *Galbibacter*, An existing genus; *Secusgalbibacter*: A genus related to but distinct from the existing genus Galbibacter of beside.

Secusgalbitalea

L. masc. preposition *secus*, beside; L. fem. n. *Galbitalea*, An existing genus; *Secusgalbitalea*: A genus related to but distinct from the existing genus Galbitalea of beside.

Secusgallaecimonas

L. masc. preposition *secus*, beside; L. fem. n. *Gallaecimonas*, An existing genus; *Secusgallaecimonas*: A genus related to but distinct from the existing genus Gallaecimonas of beside.

Secusgallibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Gallibacterium*, An existing genus; *Secusgallibacterium*: A genus related to but distinct from the existing genus Gallibacterium of beside.

Secusgallicola

L. masc. preposition *secus*, beside; L. masc. n. *Gallicola*, An existing genus; *Secusgallicola*: A genus related to but distinct from the existing genus Gallicola of beside.

Secusgallionella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Gallionella*, An existing genus; *Secusgallionella*: A genus related to but distinct from the existing genus Gallionella of beside.

Secusgalliscardovia

L. masc. preposition *secus*, beside; L. fem. n. *Galliscardovia*, An existing genus; *Secusgalliscardovia*: A genus related to but distinct from the existing genus Galliscardovia of beside.

Secusgandjariella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Gandjariella*, An existing genus; *Secusgandjariella*: A genus related to but distinct from the existing genus Gandjariella of beside.

Secusgangjinia

L. masc. preposition *secus*, beside; L. fem. n. *Gangjinia*, An existing genus; *Secusgangjinia*: A genus related to but distinct from the existing genus Gangjinia of beside.

Secusgarciella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Garciella*, An existing genus; *Secusgarciella*: A genus related to but distinct from the existing genus Garciella of beside.

Secusgardnerella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Gardnerella*, An existing genus; *Secusgardnerella*: A genus related to but distinct from the existing genus Gardnerella of beside.

Secusgaricola

L. masc. preposition *secus*, beside; L. masc. n. *Garicola*, An existing genus; *Secusgaricola*: A genus related to but distinct from the existing genus Garicola of beside.

Secusgarritya

L. masc. preposition *secus*, beside; L. fem. n. *Garritya*, An existing genus; *Secusgarritya*: A genus related to but distinct from the existing genus Garritya of beside.

Secusgayadomonas

L. masc. preposition *secus*, beside; L. fem. n. *Gayadomonas*, An existing genus; *Secusgayadomonas*: A genus related to but distinct from the existing genus Gayadomonas of beside.

Secusgelatiniphilus

L. masc. preposition *secus*, beside; L. masc. n. *Gelatiniphilus*, An existing genus; *Secusgelatiniphilus*: A genus related to but distinct from the existing genus Gelatiniphilus of beside.

Secusgelidibacter

L. masc. preposition *secus*, beside; L. masc. n. *Gelidibacter*, An existing genus; *Secusgelidibacter*: A genus related to but distinct from the existing genus Gelidibacter of beside.

Secusgellertiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Gellertiella*, An existing genus; *Secusgellertiella*: A genus related to but distinct from the existing genus Gellertiella of beside.

Secusgelria

L. masc. preposition *secus*, beside; L. fem. n. *Gelria*, An existing genus; *Secusgelria*: A genus related to but distinct from the existing genus Gelria of beside.

Secusgemella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Gemella*, An existing genus; *Secusgemella*: A genus related to but distinct from the existing genus Gemella of beside.

Secusgeminicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Geminicoccus*, An existing genus; *Secusgeminicoccus*: A genus related to but distinct from the existing genus Geminicoccus of beside.

Secusgeminisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Geminisphaera*, An existing genus; *Secusgeminisphaera*: A genus related to but distinct from the existing genus Geminisphaera of beside.

Secusgeminobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Geminobacterium*, An existing genus; *Secusgeminobacterium*: A genus related to but distinct from the existing genus Geminobacterium of beside.

Secusgemmata

L. masc. preposition *secus*, beside; L. fem. n. *Gemmata*, An existing genus; *Secusgemmata*: A genus related to but distinct from the existing genus Gemmata of beside.

Secusgemmatimonas

L. masc. preposition *secus*, beside; L. fem. n. *Gemmatimonas*, An existing genus; *Secusgemmatimonas*: A genus related to but distinct from the existing genus Gemmatimonas of beside.

Secusgemmatirosa

L. masc. preposition *secus*, beside; L. fem. n. *Gemmatirosa*, An existing genus; *Secusgemmatirosa*: A genus related to but distinct from the existing genus Gemmatirosa of beside.

Secusgemmiger

L. masc. preposition *secus*, beside; L. masc. n. *Gemmiger*, An existing genus; *Secusgemmiger*: A genus related to but distinct from the existing genus Gemmiger of beside.

Secusgeoalkalibacter

L. masc. preposition *secus*, beside; L. masc. n. *Geoalkalibacter*, An existing genus; *Secusgeoalkalibacter*: A genus related to but distinct from the existing genus Geoalkalibacter of beside.

Secusgeobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Geobacillus*, An existing genus; *Secusgeobacillus*: A genus related to but distinct from the existing genus Geobacillus of beside.

Secusgeobacter

L. masc. preposition *secus*, beside; L. masc. n. *Geobacter*, An existing genus; *Secusgeobacter*: A genus related to but distinct from the existing genus Geobacter of beside.

Secusgeodermatophilus

L. masc. preposition *secus*, beside; L. masc. n. *Geodermatophilus*, An existing genus; *Secusgeodermatophilus*: A genus related to but distinct from the existing genus Geodermatophilus of beside.

Secusgeofilum

L. masc. preposition *secus*, beside; L. neut. n. *Geofilum*, An existing genus; *Secusgeofilum*: A genus related to but distinct from the existing genus Geofilum of beside.

Secusgeoglobus

L. masc. preposition *secus*, beside; L. masc. n. *Geoglobus*, An existing genus; *Secusgeoglobus*: A genus related to but distinct from the existing genus Geoglobus of beside.

Secusgeojedonia

L. masc. preposition *secus*, beside; L. fem. n. *Geojedonia*, An existing genus; *Secusgeojedonia*: A genus related to but distinct from the existing genus Geojedonia of beside.

Secusgeomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Geomicrobium*, An existing genus; *Secusgeomicrobium*: A genus related to but distinct from the existing genus Geomicrobium of beside.

Secusgeomonas

L. masc. preposition *secus*, beside; L. fem. n. *Geomonas*, An existing genus; *Secusgeomonas*: A genus related to but distinct from the existing genus Geomonas of beside.

Secusgeopsychrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Geopsychrobacter*, An existing genus; *Secusgeopsychrobacter*: A genus related to but distinct from the existing genus Geopsychrobacter of beside.

Secusgeorgenia

L. masc. preposition *secus*, beside; L. fem. n. *Georgenia*, An existing genus; *Secusgeorgenia*: A genus related to but distinct from the existing genus Georgenia of beside.

Secusgeorgfuchsia

L. masc. preposition *secus*, beside; L. fem. n. *Georgfuchsia*, An existing genus; *Secusgeorgfuchsia*: A genus related to but distinct from the existing genus Georgfuchsia of beside.

Secusgeorhizobium

L. masc. preposition *secus*, beside; L. neut. n. *Georhizobium*, An existing genus; *Secusgeorhizobium*: A genus related to but distinct from the existing genus Georhizobium of beside.

Secusgeosporobacter

L. masc. preposition *secus*, beside; L. masc. n. *Geosporobacter*, An existing genus; *Secusgeosporobacter*: A genus related to but distinct from the existing genus Geosporobacter of beside.

Secusgeothermobacter

L. masc. preposition *secus*, beside; L. masc. n. *Geothermobacter*, An existing genus; *Secusgeothermobacter*: A genus related to but distinct from the existing genus Geothermobacter of beside.

Secusgeothermobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Geothermobacterium*, An existing genus; *Secusgeothermobacterium*: A genus related to but distinct from the existing genus Geothermobacterium of beside.

Secusgeothermomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Geothermomicrobium*, An existing genus; *Secusgeothermomicrobium*: A genus related to but distinct from the existing genus Geothermomicrobium of beside.

Secusgeothrix

L. masc. preposition *secus*, beside; L. fem. n. *Geothrix*, An existing genus; *Secusgeothrix*: A genus related to but distinct from the existing genus Geothrix of beside.

Secusgeotoga

L. masc. preposition *secus*, beside; L. fem. n. *Geotoga*, An existing genus; *Secusgeotoga*: A genus related to but distinct from the existing genus Geotoga of beside.

Secusgeovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Geovibrio*, An existing genus; *Secusgeovibrio*: A genus related to but distinct from the existing genus Geovibrio of beside.

Secusghiorsea

L. masc. preposition *secus*, beside; L. fem. n. *Ghiorsea*, An existing genus; *Secusghiorsea*: A genus related to but distinct from the existing genus Ghiorsea of beside.

Secusgibbsiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Gibbsiella*, An existing genus; *Secusgibbsiella*: A genus related to but distinct from the existing genus Gibbsiella of beside.

Secusgiesbergeria

L. masc. preposition *secus*, beside; L. fem. n. *Giesbergeria*, An existing genus; *Secusgiesbergeria*: A genus related to but distinct from the existing genus Giesbergeria of beside.

Secusgilliamella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Gilliamella*, An existing genus; *Secusgilliamella*: A genus related to but distinct from the existing genus Gilliamella of beside.

Secusgillisia

L. masc. preposition *secus*, beside; L. fem. n. *Gillisia*, An existing genus; *Secusgillisia*: A genus related to but distinct from the existing genus Gillisia of beside.

Secusgilvibacter

L. masc. preposition *secus*, beside; L. masc. n. *Gilvibacter*, An existing genus; *Secusgilvibacter*: A genus related to but distinct from the existing genus Gilvibacter of beside.

Secusgilvimarinus

L. masc. preposition *secus*, beside; L. masc. n. *Gilvimarinus*, An existing genus; *Secusgilvimarinus*: A genus related to but distinct from the existing genus Gilvimarinus of beside.

Secusgimesia

L. masc. preposition *secus*, beside; L. fem. n. *Gimesia*, An existing genus; *Secusgimesia*: A genus related to but distinct from the existing genus Gimesia of beside.

Secusglaciecola

L. masc. preposition *secus*, beside; L. fem. n. *Glaciecola*, An existing genus; *Secusglaciecola*: A genus related to but distinct from the existing genus Glaciecola of beside.

Secusglaciibacter

L. masc. preposition *secus*, beside; L. masc. n. *Glaciibacter*, An existing genus; *Secusglaciibacter*: A genus related to but distinct from the existing genus Glaciibacter of beside.

Secusglaciihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Glaciihabitans*, An existing genus; *Secusglaciihabitans*: A genus related to but distinct from the existing genus Glaciihabitans of beside.

Secusglaciimonas

L. masc. preposition *secus*, beside; L. fem. n. *Glaciimonas*, An existing genus; *Secusglaciimonas*: A genus related to but distinct from the existing genus Glaciimonas of beside.

Secusglaesserella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Glaesserella*, An existing genus; *Secusglaesserella*: A genus related to but distinct from the existing genus Glaesserella of beside.

Secusgleimia

L. masc. preposition *secus*, beside; L. fem. n. *Gleimia*, An existing genus; *Secusgleimia*: A genus related to but distinct from the existing genus Gleimia of beside.

Secusglobicatella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Globicatella*, An existing genus; *Secusglobicatella*: A genus related to but distinct from the existing genus Globicatella of beside.

Secusgloeobacter

L. masc. preposition *secus*, beside; L. masc. n. *Gloeobacter*, An existing genus; *Secusgloeobacter*: A genus related to but distinct from the existing genus Gloeobacter of beside.

Secusgloeomargarita

L. masc. preposition *secus*, beside; L. fem. n. *Gloeomargarita*, An existing genus; *Secusgloeomargarita*: A genus related to but distinct from the existing genus Gloeomargarita of beside.

Secusglucerabacter

L. masc. preposition *secus*, beside; L. masc. n. *Glucerabacter*, An existing genus; *Secusglucerabacter*: A genus related to but distinct from the existing genus Glucerabacter of beside.

Secusgluconacetobacter

L. masc. preposition *secus*, beside; L. masc. n. *Gluconacetobacter*, An existing genus; *Secusgluconacetobacter*: A genus related to but distinct from the existing genus Gluconacetobacter of beside.

Secusgluconobacter

L. masc. preposition *secus*, beside; L. masc. n. *Gluconobacter*, An existing genus; *Secusgluconobacter*: A genus related to but distinct from the existing genus Gluconobacter of beside.

Secusglutamicibacter

L. masc. preposition *secus*, beside; L. masc. n. *Glutamicibacter*, An existing genus; *Secusglutamicibacter*: A genus related to but distinct from the existing genus Glutamicibacter of beside.

Secusglycocaulis

L. masc. preposition *secus*, beside; L. masc. n. *Glycocaulis*, An existing genus; *Secusglycocaulis*: A genus related to but distinct from the existing genus Glycocaulis of beside.

Secusglycomyces

L. masc. preposition *secus*, beside; L. masc. n. *Glycomyces*, An existing genus; *Secusglycomyces*: A genus related to but distinct from the existing genus Glycomyces of beside.

Secusgodleya

L. masc. preposition *secus*, beside; L. fem. n. *Godleya*, An existing genus; *Secusgodleya*: A genus related to but distinct from the existing genus Godleya of beside.

Secusgomontiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Gomontiella*, An existing genus; *Secusgomontiella*: A genus related to but distinct from the existing genus Gomontiella of beside.

Secusgoodfellowia

L. masc. preposition *secus*, beside; L. fem. n. *Goodfellowia*, An existing genus; *Secusgoodfellowia*: A genus related to but distinct from the existing genus Goodfellowia of beside.

Secusgoodfellowiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Goodfellowiella*, An existing genus; *Secusgoodfellowiella*: A genus related to but distinct from the existing genus Goodfellowiella of beside.

Secusgordona

L. masc. preposition *secus*, beside; L. fem. n. *Gordona*, An existing genus; *Secusgordona*: A genus related to but distinct from the existing genus Gordona of beside.

Secusgordonia

L. masc. preposition *secus*, beside; L. fem. n. *Gordonia*, An existing genus; *Secusgordonia*: A genus related to but distinct from the existing genus Gordonia of beside.

Secusgordonibacter

L. masc. preposition *secus*, beside; L. masc. n. *Gordonibacter*, An existing genus; *Secusgordonibacter*: A genus related to but distinct from the existing genus Gordonibacter of beside.

Secusgorillibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Gorillibacterium*, An existing genus; *Secusgorillibacterium*: A genus related to but distinct from the existing genus Gorillibacterium of beside.

Secusgottschalkia

L. masc. preposition *secus*, beside; L. fem. n. *Gottschalkia*, An existing genus; *Secusgottschalkia*: A genus related to but distinct from the existing genus Gottschalkia of beside.

Secusgracilibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Gracilibacillus*, An existing genus; *Secusgracilibacillus*: A genus related to but distinct from the existing genus Gracilibacillus of beside.

Secusgracilibacter

L. masc. preposition *secus*, beside; L. masc. n. *Gracilibacter*, An existing genus; *Secusgracilibacter*: A genus related to but distinct from the existing genus Gracilibacter of beside.

Secusgracilimonas

L. masc. preposition *secus*, beside; L. fem. n. *Gracilimonas*, An existing genus; *Secusgracilimonas*: A genus related to but distinct from the existing genus Gracilimonas of beside.

Secusgrahamella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Grahamella*, An existing genus; *Secusgrahamella*: A genus related to but distinct from the existing genus Grahamella of beside.

Secusgramella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Gramella*, An existing genus; *Secusgramella*: A genus related to but distinct from the existing genus Gramella of beside.

Secusgranulibacter

L. masc. preposition *secus*, beside; L. masc. n. *Granulibacter*, An existing genus; *Secusgranulibacter*: A genus related to but distinct from the existing genus Granulibacter of beside.

Secusgranulicella

L. masc. preposition *secus*, beside; L. fem. n. *Granulicella*, An existing genus; *Secusgranulicella*: A genus related to but distinct from the existing genus Granulicella of beside.

Secusgranulicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Granulicoccus*, An existing genus; *Secusgranulicoccus*: A genus related to but distinct from the existing genus Granulicoccus of beside.

Secusgranulosicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Granulosicoccus*, An existing genus; *Secusgranulosicoccus*: A genus related to but distinct from the existing genus Granulosicoccus of beside.

Secusgrimontia

L. masc. preposition *secus*, beside; L. fem. n. *Grimontia*, An existing genus; *Secusgrimontia*: A genus related to but distinct from the existing genus Grimontia of beside.

Secusgryllotalpicola

L. masc. preposition *secus*, beside; L. masc. n. *Gryllotalpicola*, An existing genus; *Secusgryllotalpicola*: A genus related to but distinct from the existing genus Gryllotalpicola of beside.

Secusgudongella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Gudongella*, An existing genus; *Secusgudongella*: A genus related to but distinct from the existing genus Gudongella of beside.

Secusguggenheimella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Guggenheimella*, An existing genus; *Secusguggenheimella*: A genus related to but distinct from the existing genus Guggenheimella of beside.

Secusgulbenkiania

L. masc. preposition *secus*, beside; L. fem. n. *Gulbenkiania*, An existing genus; *Secusgulbenkiania*: A genus related to but distinct from the existing genus Gulbenkiania of beside.

Secusgulosibacter

L. masc. preposition *secus*, beside; L. masc. n. *Gulosibacter*, An existing genus; *Secusgulosibacter*: A genus related to but distinct from the existing genus Gulosibacter of beside.

Secusguyparkeria

L. masc. preposition *secus*, beside; L. fem. n. *Guyparkeria*, An existing genus; *Secusguyparkeria*: A genus related to but distinct from the existing genus Guyparkeria of beside.

Secusgynuella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Gynuella*, An existing genus; *Secusgynuella*: A genus related to but distinct from the existing genus Gynuella of beside.

Secusgynurincola

L. masc. preposition *secus*, beside; L. masc. n. *Gynurincola*, An existing genus; *Secusgynurincola*: A genus related to but distinct from the existing genus Gynurincola of beside.

Secushaematomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Haematomicrobium*, An existing genus; *Secushaematomicrobium*: A genus related to but distinct from the existing genus Haematomicrobium of beside.

Secushaemobartonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Haemobartonella*, An existing genus; *Secushaemobartonella*: A genus related to but distinct from the existing genus Haemobartonella of beside.

Secushaemophilus

L. masc. preposition *secus*, beside; L. masc. n. *Haemophilus*, An existing genus; *Secushaemophilus*: A genus related to but distinct from the existing genus Haemophilus of beside.

Secushahella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Hahella*, An existing genus; *Secushahella*: A genus related to but distinct from the existing genus Hahella of beside.

Secushahyoungchilella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Hahyoungchilella*, An existing genus; *Secushahyoungchilella*: A genus related to but distinct from the existing genus Hahyoungchilella of beside.

Secushaladaptatus

L. masc. preposition *secus*, beside; L. masc. n. *Haladaptatus*, An existing genus; *Secushaladaptatus*: A genus related to but distinct from the existing genus Haladaptatus of beside.

Secushalalkaliarchaeum

L. masc. preposition *secus*, beside; L. neut. n. *Halalkaliarchaeum*, An existing genus; *Secushalalkaliarchaeum*: A genus related to but distinct from the existing genus Halalkaliarchaeum of beside.

Secushalalkalibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Halalkalibacillus*, An existing genus; *Secushalalkalibacillus*: A genus related to but distinct from the existing genus Halalkalibacillus of beside.

Secushalalkalicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Halalkalicoccus*, An existing genus; *Secushalalkalicoccus*: A genus related to but distinct from the existing genus Halalkalicoccus of beside.

Secushalanaeroarchaeum

L. masc. preposition *secus*, beside; L. neut. n. *Halanaeroarchaeum*, An existing genus; *Secushalanaeroarchaeum*: A genus related to but distinct from the existing genus Halanaeroarchaeum of beside.

Secushalanaerobacter

L. masc. preposition *secus*, beside; L. masc. n. *Halanaerobacter*, An existing genus; *Secushalanaerobacter*: A genus related to but distinct from the existing genus Halanaerobacter of beside.

Secushalanaerobium

L. masc. preposition *secus*, beside; L. neut. n. *Halanaerobium*, An existing genus; *Secushalanaerobium*: A genus related to but distinct from the existing genus Halanaerobium of beside.

Secushalanaerocella

L. masc. preposition *secus*, beside; L. fem. n. *Halanaerocella*, An existing genus; *Secushalanaerocella*: A genus related to but distinct from the existing genus Halanaerocella of beside.

Secushalapricum

L. masc. preposition *secus*, beside; L. neut. n. *Halapricum*, An existing genus; *Secushalapricum*: A genus related to but distinct from the existing genus Halapricum of beside.

Secushalarchaeum

L. masc. preposition *secus*, beside; L. neut. n. *Halarchaeum*, An existing genus; *Secushalarchaeum*: A genus related to but distinct from the existing genus Halarchaeum of beside.

Secushalarsenatibacter

L. masc. preposition *secus*, beside; L. masc. n. *Halarsenatibacter*, An existing genus; *Secushalarsenatibacter*: A genus related to but distinct from the existing genus Halarsenatibacter of beside.

Secushalegenticoccus

L. masc. preposition *secus*, beside; L. masc. n. *Halegenticoccus*, An existing genus; *Secushalegenticoccus*: A genus related to but distinct from the existing genus Halegenticoccus of beside.

Secushaliangium

L. masc. preposition *secus*, beside; L. neut. n. *Haliangium*, An existing genus; *Secushaliangium*: A genus related to but distinct from the existing genus Haliangium of beside.

Secushaliea

L. masc. preposition *secus*, beside; L. fem. n. *Haliea*, An existing genus; *Secushaliea*: A genus related to but distinct from the existing genus Haliea of beside.

Secushalioglobus

L. masc. preposition *secus*, beside; L. masc. n. *Halioglobus*, An existing genus; *Secushalioglobus*: A genus related to but distinct from the existing genus Halioglobus of beside.

Secushalioxenophilus

L. masc. preposition *secus*, beside; L. masc. n. *Halioxenophilus*, An existing genus; *Secushalioxenophilus*: A genus related to but distinct from the existing genus Halioxenophilus of beside.

Secushaliscomenobacter

L. masc. preposition *secus*, beside; L. masc. n. *Haliscomenobacter*, An existing genus; *Secushaliscomenobacter*: A genus related to but distinct from the existing genus Haliscomenobacter of beside.

Secushallella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Hallella*, An existing genus; *Secushallella*: A genus related to but distinct from the existing genus Hallella of beside.

Secushaloactinobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Haloactinobacterium*, An existing genus; *Secushaloactinobacterium*: A genus related to but distinct from the existing genus Haloactinobacterium of beside.

Secushaloactinomyces

L. masc. preposition *secus*, beside; L. masc. n. *Haloactinomyces*, An existing genus; *Secushaloactinomyces*: A genus related to but distinct from the existing genus Haloactinomyces of beside.

Secushaloactinopolyspora

L. masc. preposition *secus*, beside; L. fem. n. *Haloactinopolyspora*, An existing genus; *Secushaloactinopolyspora*: A genus related to but distinct from the existing genus Haloactinopolyspora of beside.

Secushaloactinospora

L. masc. preposition *secus*, beside; L. fem. n. *Haloactinospora*, An existing genus; *Secushaloactinospora*: A genus related to but distinct from the existing genus Haloactinospora of beside.

Secushaloarchaeobius

L. masc. preposition *secus*, beside; L. masc. n. *Haloarchaeobius*, An existing genus; *Secushaloarchaeobius*: A genus related to but distinct from the existing genus Haloarchaeobius of beside.

Secushaloarcula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Haloarcula*, An existing genus; *Secushaloarcula*: A genus related to but distinct from the existing genus Haloarcula of beside.

Secushalobacteriovorax

L. masc. preposition *secus*, beside; L. masc. n. *Halobacteriovorax*, An existing genus; *Secushalobacteriovorax*: A genus related to but distinct from the existing genus Halobacteriovorax of beside.

Secushalobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Halobacterium*, An existing genus; *Secushalobacterium*: A genus related to but distinct from the existing genus Halobacterium of beside.

Secushalobacteroides

L. masc. preposition *secus*, beside; L. masc. n. *Halobacteroides*, An existing genus; *Secushalobacteroides*: A genus related to but distinct from the existing genus Halobacteroides of beside.

Secushalobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Halobaculum*, An existing genus; *Secushalobaculum*: A genus related to but distinct from the existing genus Halobaculum of beside.

Secushalobellus

L. masc. preposition *secus*, beside; L. masc. n. *Halobellus*, An existing genus; *Secushalobellus*: A genus related to but distinct from the existing genus Halobellus of beside.

Secushalobiforma

L. masc. preposition *secus*, beside; L. fem. n. *Halobiforma*, An existing genus; *Secushalobiforma*: A genus related to but distinct from the existing genus Halobiforma of beside.

Secushalobium

L. masc. preposition *secus*, beside; L. neut. n. *Halobium*, An existing genus; *Secushalobium*: A genus related to but distinct from the existing genus Halobium of beside.

Secushalocalculus

L. masc. preposition *secus*, beside; L. masc. n. *Halocalculus*, An existing genus; *Secushalocalculus*: A genus related to but distinct from the existing genus Halocalculus of beside.

Secushalocella

L. masc. preposition *secus*, beside; L. fem. n. *Halocella*, An existing genus; *Secushalocella*: A genus related to but distinct from the existing genus Halocella of beside.

Secushalochromatium

L. masc. preposition *secus*, beside; L. neut. n. *Halochromatium*, An existing genus; *Secushalochromatium*: A genus related to but distinct from the existing genus Halochromatium of beside.

Secushalococcoides

L. masc. preposition *secus*, beside; L. neut. n. *Halococcoides*, An existing genus; *Secushalococcoides*: A genus related to but distinct from the existing genus Halococcoides of beside.

Secushalococcus

L. masc. preposition *secus*, beside; L. masc. n. *Halococcus*, An existing genus; *Secushalococcus*: A genus related to but distinct from the existing genus Halococcus of beside.

Secushalocynthiibacter

L. masc. preposition *secus*, beside; L. masc. n. *Halocynthiibacter*, An existing genus; *Secushalocynthiibacter*: A genus related to but distinct from the existing genus Halocynthiibacter of beside.

Secushalodesulfovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Halodesulfovibrio*, An existing genus; *Secushalodesulfovibrio*: A genus related to but distinct from the existing genus Halodesulfovibrio of beside.

Secushalodesulfurarchaeum

L. masc. preposition *secus*, beside; L. neut. n. *Halodesulfurarchaeum*, An existing genus; *Secushalodesulfurarchaeum*: A genus related to but distinct from the existing genus Halodesulfurarchaeum of beside.

Secushalodurantibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Halodurantibacterium*, An existing genus; *Secushalodurantibacterium*: A genus related to but distinct from the existing genus Halodurantibacterium of beside.

Secushaloechinothrix

L. masc. preposition *secus*, beside; L. fem. n. *Haloechinothrix*, An existing genus; *Secushaloechinothrix*: A genus related to but distinct from the existing genus Haloechinothrix of beside.

Secushaloferax

L. masc. preposition *secus*, beside; L. neut. n. *Haloferax*, An existing genus; *Secushaloferax*: A genus related to but distinct from the existing genus Haloferax of beside.

Secushaloferula

L. masc. preposition *secus*, beside; L. fem. n. *Haloferula*, An existing genus; *Secushaloferula*: A genus related to but distinct from the existing genus Haloferula of beside.

Secushalofilum

L. masc. preposition *secus*, beside; L. neut. n. *Halofilum*, An existing genus; *Secushalofilum*: A genus related to but distinct from the existing genus Halofilum of beside.

Secushaloflavibacter

L. masc. preposition *secus*, beside; L. masc. n. *Haloflavibacter*, An existing genus; *Secushaloflavibacter*: A genus related to but distinct from the existing genus Haloflavibacter of beside.

Secushalogeometricum

L. masc. preposition *secus*, beside; L. neut. n. *Halogeometricum*, An existing genus; *Secushalogeometricum*: A genus related to but distinct from the existing genus Halogeometricum of beside.

Secushaloglycomyces

L. masc. preposition *secus*, beside; L. masc. n. *Haloglycomyces*, An existing genus; *Secushaloglycomyces*: A genus related to but distinct from the existing genus Haloglycomyces of beside.

Secushalogranum

L. masc. preposition *secus*, beside; L. neut. n. *Halogranum*, An existing genus; *Secushalogranum*: A genus related to but distinct from the existing genus Halogranum of beside.

Secushalohasta

L. masc. preposition *secus*, beside; L. fem. n. *Halohasta*, An existing genus; *Secushalohasta*: A genus related to but distinct from the existing genus Halohasta of beside.

Secushaloimpatiens

L. masc. preposition *secus*, beside; L. masc. n. *Haloimpatiens*, An existing genus; *Secushaloimpatiens*: A genus related to but distinct from the existing genus Haloimpatiens of beside.

Secushaloincola

L. masc. preposition *secus*, beside; L. masc. n. *Haloincola*, An existing genus; *Secushaloincola*: A genus related to but distinct from the existing genus Haloincola of beside.

Secushalolactibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Halolactibacillus*, An existing genus; *Secushalolactibacillus*: A genus related to but distinct from the existing genus Halolactibacillus of beside.

Secushalolamina

L. masc. preposition *secus*, beside; L. fem. n. *Halolamina*, An existing genus; *Secushalolamina*: A genus related to but distinct from the existing genus Halolamina of beside.

Secushaloleptolyngbya

L. masc. preposition *secus*, beside; L. fem. n. *Haloleptolyngbya*, An existing genus; *Secushaloleptolyngbya*: A genus related to but distinct from the existing genus Haloleptolyngbya of beside.

Secushalomarina

L. masc. preposition *secus*, beside; L. fem. n. *Halomarina*, An existing genus; *Secushalomarina*: A genus related to but distinct from the existing genus Halomarina of beside.

Secushalomethanococcus

L. masc. preposition *secus*, beside; L. masc. n. *Halomethanococcus*, An existing genus; *Secushalomethanococcus*: A genus related to but distinct from the existing genus Halomethanococcus of beside.

Secushalomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Halomicrobium*, An existing genus; *Secushalomicrobium*: A genus related to but distinct from the existing genus Halomicrobium of beside.

Secushalomicrococcus

L. masc. preposition *secus*, beside; L. masc. n. *Halomicrococcus*, An existing genus; *Secushalomicrococcus*: A genus related to but distinct from the existing genus Halomicrococcus of beside.

Secushalomicronema

L. masc. preposition *secus*, beside; L. neut. n. *Halomicronema*, An existing genus; *Secushalomicronema*: A genus related to but distinct from the existing genus Halomicronema of beside.

Secushalomonas

L. masc. preposition *secus*, beside; L. fem. n. *Halomonas*, An existing genus; *Secushalomonas*: A genus related to but distinct from the existing genus Halomonas of beside.

Secushalonatronum

L. masc. preposition *secus*, beside; L. neut. n. *Halonatronum*, An existing genus; *Secushalonatronum*: A genus related to but distinct from the existing genus Halonatronum of beside.

Secushalonotius

L. masc. preposition *secus*, beside; L. masc. n. *Halonotius*, An existing genus; *Secushalonotius*: A genus related to but distinct from the existing genus Halonotius of beside.

Secushaloparvum

L. masc. preposition *secus*, beside; L. neut. n. *Haloparvum*, An existing genus; *Secushaloparvum*: A genus related to but distinct from the existing genus Haloparvum of beside.

Secushalopelagius

L. masc. preposition *secus*, beside; L. masc. n. *Halopelagius*, An existing genus; *Secushalopelagius*: A genus related to but distinct from the existing genus Halopelagius of beside.

Secushalopenitus

L. masc. preposition *secus*, beside; L. masc. n. *Halopenitus*, An existing genus; *Secushalopenitus*: A genus related to but distinct from the existing genus Halopenitus of beside.

Secushalopeptonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Halopeptonella*, An existing genus; *Secushalopeptonella*: A genus related to but distinct from the existing genus Halopeptonella of beside.

Secushalopiger

L. masc. preposition *secus*, beside; L. masc. n. *Halopiger*, An existing genus; *Secushalopiger*: A genus related to but distinct from the existing genus Halopiger of beside.

Secushaloplanus

L. masc. preposition *secus*, beside; L. masc. n. *Haloplanus*, An existing genus; *Secushaloplanus*: A genus related to but distinct from the existing genus Haloplanus of beside.

Secushaloplasma

L. masc. preposition *secus*, beside; L. neut. n. *Haloplasma*, An existing genus; *Secushaloplasma*: A genus related to but distinct from the existing genus Haloplasma of beside.

Secushalopolyspora

L. masc. preposition *secus*, beside; L. fem. n. *Halopolyspora*, An existing genus; *Secushalopolyspora*: A genus related to but distinct from the existing genus Halopolyspora of beside.

Secushaloprofundus

L. masc. preposition *secus*, beside; L. masc. n. *Haloprofundus*, An existing genus; *Secushaloprofundus*: A genus related to but distinct from the existing genus Haloprofundus of beside.

Secushaloquadratum

L. masc. preposition *secus*, beside; L. neut. n. *Haloquadratum*, An existing genus; *Secushaloquadratum*: A genus related to but distinct from the existing genus Haloquadratum of beside.

Secushalorhodospira

L. masc. preposition *secus*, beside; L. fem. n. *Halorhodospira*, An existing genus; *Secushalorhodospira*: A genus related to but distinct from the existing genus Halorhodospira of beside.

Secushalorientalis

L. masc. preposition *secus*, beside; L. fem. n. *Halorientalis*, An existing genus; *Secushalorientalis*: A genus related to but distinct from the existing genus Halorientalis of beside.

Secushalorubellus

L. masc. preposition *secus*, beside; L. masc. n. *Halorubellus*, An existing genus; *Secushalorubellus*: A genus related to but distinct from the existing genus Halorubellus of beside.

Secushalorubrobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Halorubrobacterium*, An existing genus; *Secushalorubrobacterium*: A genus related to but distinct from the existing genus Halorubrobacterium of beside.

Secushalorubrum

L. masc. preposition *secus*, beside; L. neut. n. *Halorubrum*, An existing genus; *Secushalorubrum*: A genus related to but distinct from the existing genus Halorubrum of beside.

Secushalorussus

L. masc. preposition *secus*, beside; L. masc. n. *Halorussus*, An existing genus; *Secushalorussus*: A genus related to but distinct from the existing genus Halorussus of beside.

Secushalosarcina

L. masc. preposition *secus*, beside; L. fem. n. *Halosarcina*, An existing genus; *Secushalosarcina*: A genus related to but distinct from the existing genus Halosarcina of beside.

Secushalosiccatus

L. masc. preposition *secus*, beside; L. masc. n. *Halosiccatus*, An existing genus; *Secushalosiccatus*: A genus related to but distinct from the existing genus Halosiccatus of beside.

Secushalosimplex

L. masc. preposition *secus*, beside; L. neut. n. *Halosimplex*, An existing genus; *Secushalosimplex*: A genus related to but distinct from the existing genus Halosimplex of beside.

Secushalospina

L. masc. preposition *secus*, beside; L. fem. n. *Halospina*, An existing genus; *Secushalospina*: A genus related to but distinct from the existing genus Halospina of beside.

Secushalospirulina

L. masc. preposition *secus*, beside; L. fem. n. *Halospirulina*, An existing genus; *Secushalospirulina*: A genus related to but distinct from the existing genus Halospirulina of beside.

Secushalostagnicola

L. masc. preposition *secus*, beside; L. fem. n. *Halostagnicola*, An existing genus; *Secushalostagnicola*: A genus related to but distinct from the existing genus Halostagnicola of beside.

Secushalotalea

L. masc. preposition *secus*, beside; L. fem. n. *Halotalea*, An existing genus; *Secushalotalea*: A genus related to but distinct from the existing genus Halotalea of beside.

Secushaloterrigena

L. masc. preposition *secus*, beside; L. fem. n. *Haloterrigena*, An existing genus; *Secushaloterrigena*: A genus related to but distinct from the existing genus Haloterrigena of beside.

Secushalothermothrix

L. masc. preposition *secus*, beside; L. fem. n. *Halothermothrix*, An existing genus; *Secushalothermothrix*: A genus related to but distinct from the existing genus Halothermothrix of beside.

Secushalothiobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Halothiobacillus*, An existing genus; *Secushalothiobacillus*: A genus related to but distinct from the existing genus Halothiobacillus of beside.

Secushalotia

L. masc. preposition *secus*, beside; L. fem. n. *Halotia*, An existing genus; *Secushalotia*: A genus related to but distinct from the existing genus Halotia of beside.

Secushalovarius

L. masc. preposition *secus*, beside; L. masc. n. *Halovarius*, An existing genus; *Secushalovarius*: A genus related to but distinct from the existing genus Halovarius of beside.

Secushalovenus

L. masc. preposition *secus*, beside; L. fem. n. *Halovenus*, An existing genus; *Secushalovenus*: A genus related to but distinct from the existing genus Halovenus of beside.

Secushalovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Halovibrio*, An existing genus; *Secushalovibrio*: A genus related to but distinct from the existing genus Halovibrio of beside.

Secushalovivax

L. masc. preposition *secus*, beside; L. masc. n. *Halovivax*, An existing genus; *Secushalovivax*: A genus related to but distinct from the existing genus Halovivax of beside.

Secushalovulum

L. masc. preposition *secus*, beside; L. neut. n. *Halovulum*, An existing genus; *Secushalovulum*: A genus related to but distinct from the existing genus Halovulum of beside.

Secushalpernia

L. masc. preposition *secus*, beside; L. fem. n. *Halpernia*, An existing genus; *Secushalpernia*: A genus related to but distinct from the existing genus Halpernia of beside.

Secushamadaea

L. masc. preposition *secus*, beside; L. fem. n. *Hamadaea*, An existing genus; *Secushamadaea*: A genus related to but distinct from the existing genus Hamadaea of beside.

Secushankyongella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Hankyongella*, An existing genus; *Secushankyongella*: A genus related to but distinct from the existing genus Hankyongella of beside.

Secushansschlegelia

L. masc. preposition *secus*, beside; L. fem. n. *Hansschlegelia*, An existing genus; *Secushansschlegelia*: A genus related to but distinct from the existing genus Hansschlegelia of beside.

Secushanstruepera

L. masc. preposition *secus*, beside; L. fem. n. *Hanstruepera*, An existing genus; *Secushanstruepera*: A genus related to but distinct from the existing genus Hanstruepera of beside.

Secushaoranjiania

L. masc. preposition *secus*, beside; L. fem. n. *Haoranjiania*, An existing genus; *Secushaoranjiania*: A genus related to but distinct from the existing genus Haoranjiania of beside.

Secushaploangium

L. masc. preposition *secus*, beside; L. neut. n. *Haploangium*, An existing genus; *Secushaploangium*: A genus related to but distinct from the existing genus Haploangium of beside.

Secusharryflintia

L. masc. preposition *secus*, beside; L. fem. n. *Harryflintia*, An existing genus; *Secusharryflintia*: A genus related to but distinct from the existing genus Harryflintia of beside.

Secushartmannibacter

L. masc. preposition *secus*, beside; L. masc. n. *Hartmannibacter*, An existing genus; *Secushartmannibacter*: A genus related to but distinct from the existing genus Hartmannibacter of beside.

Secushasllibacter

L. masc. preposition *secus*, beside; L. masc. n. *Hasllibacter*, An existing genus; *Secushasllibacter*: A genus related to but distinct from the existing genus Hasllibacter of beside.

Secushathewaya

L. masc. preposition *secus*, beside; L. fem. n. *Hathewaya*, An existing genus; *Secushathewaya*: A genus related to but distinct from the existing genus Hathewaya of beside.

Secushazenella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Hazenella*, An existing genus; *Secushazenella*: A genus related to but distinct from the existing genus Hazenella of beside.

Secushelcococcus

L. masc. preposition *secus*, beside; L. masc. n. *Helcococcus*, An existing genus; *Secushelcococcus*: A genus related to but distinct from the existing genus Helcococcus of beside.

Secushelicobacter

L. masc. preposition *secus*, beside; L. masc. n. *Helicobacter*, An existing genus; *Secushelicobacter*: A genus related to but distinct from the existing genus Helicobacter of beside.

Secusheliimonas

L. masc. preposition *secus*, beside; L. fem. n. *Heliimonas*, An existing genus; *Secusheliimonas*: A genus related to but distinct from the existing genus Heliimonas of beside.

Secusheliobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Heliobacterium*, An existing genus; *Secusheliobacterium*: A genus related to but distinct from the existing genus Heliobacterium of beside.

Secusheliophilum

L. masc. preposition *secus*, beside; L. neut. n. *Heliophilum*, An existing genus; *Secusheliophilum*: A genus related to but distinct from the existing genus Heliophilum of beside.

Secusheliorestis

L. masc. preposition *secus*, beside; L. fem. n. *Heliorestis*, An existing genus; *Secusheliorestis*: A genus related to but distinct from the existing genus Heliorestis of beside.

Secushellea

L. masc. preposition *secus*, beside; L. fem. n. *Hellea*, An existing genus; *Secushellea*: A genus related to but distinct from the existing genus Hellea of beside.

Secushenriciella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Henriciella*, An existing genus; *Secushenriciella*: A genus related to but distinct from the existing genus Henriciella of beside.

Secusherbaspirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Herbaspirillum*, An existing genus; *Secusherbaspirillum*: A genus related to but distinct from the existing genus Herbaspirillum of beside.

Secusherbiconiux

L. masc. preposition *secus*, beside; L. fem. n. *Herbiconiux*, An existing genus; *Secusherbiconiux*: A genus related to but distinct from the existing genus Herbiconiux of beside.

Secusherbidospora

L. masc. preposition *secus*, beside; L. fem. n. *Herbidospora*, An existing genus; *Secusherbidospora*: A genus related to but distinct from the existing genus Herbidospora of beside.

Secusherbihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Herbihabitans*, An existing genus; *Secusherbihabitans*: A genus related to but distinct from the existing genus Herbihabitans of beside.

Secusherbinix

L. masc. preposition *secus*, beside; L. fem. n. *Herbinix*, An existing genus; *Secusherbinix*: A genus related to but distinct from the existing genus Herbinix of beside.

Secusherbivorax

L. masc. preposition *secus*, beside; L. fem. n. *Herbivorax*, An existing genus; *Secusherbivorax*: A genus related to but distinct from the existing genus Herbivorax of beside.

Secusherminiimonas

L. masc. preposition *secus*, beside; L. fem. n. *Herminiimonas*, An existing genus; *Secusherminiimonas*: A genus related to but distinct from the existing genus Herminiimonas of beside.

Secusherpetosiphon

L. masc. preposition *secus*, beside; L. masc. n. *Herpetosiphon*, An existing genus; *Secusherpetosiphon*: A genus related to but distinct from the existing genus Herpetosiphon of beside.

Secushespellia

L. masc. preposition *secus*, beside; L. fem. n. *Hespellia*, An existing genus; *Secushespellia*: A genus related to but distinct from the existing genus Hespellia of beside.

Secusheteroscytonema

L. masc. preposition *secus*, beside; L. neut. n. *Heteroscytonema*, An existing genus; *Secusheteroscytonema*: A genus related to but distinct from the existing genus Heteroscytonema of beside.

Secushippea

L. masc. preposition *secus*, beside; L. fem. n. *Hippea*, An existing genus; *Secushippea*: A genus related to but distinct from the existing genus Hippea of beside.

Secushirschia

L. masc. preposition *secus*, beside; L. fem. n. *Hirschia*, An existing genus; *Secushirschia*: A genus related to but distinct from the existing genus Hirschia of beside.

Secushistidinibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Histidinibacterium*, An existing genus; *Secushistidinibacterium*: A genus related to but distinct from the existing genus Histidinibacterium of beside.

Secushistophilus

L. masc. preposition *secus*, beside; L. masc. n. *Histophilus*, An existing genus; *Secushistophilus*: A genus related to but distinct from the existing genus Histophilus of beside.

Secusholdemanella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Holdemanella*, An existing genus; *Secusholdemanella*: A genus related to but distinct from the existing genus Holdemanella of beside.

Secusholdemania

L. masc. preposition *secus*, beside; L. fem. n. *Holdemania*, An existing genus; *Secusholdemania*: A genus related to but distinct from the existing genus Holdemania of beside.

Secushollandina

L. masc. preposition *secus*, beside; L. fem. n. *Hollandina*, An existing genus; *Secushollandina*: A genus related to but distinct from the existing genus Hollandina of beside.

Secusholophaga

L. masc. preposition *secus*, beside; L. fem. n. *Holophaga*, An existing genus; *Secusholophaga*: A genus related to but distinct from the existing genus Holophaga of beside.

Secusholospora

L. masc. preposition *secus*, beside; L. fem. n. *Holospora*, An existing genus; *Secusholospora*: A genus related to but distinct from the existing genus Holospora of beside.

Secusholzapfelia

L. masc. preposition *secus*, beside; L. fem. n. *Holzapfelia*, An existing genus; *Secusholzapfelia*: A genus related to but distinct from the existing genus Holzapfelia of beside.

Secushomoserinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Homoserinibacter*, An existing genus; *Secushomoserinibacter*: A genus related to but distinct from the existing genus Homoserinibacter of beside.

Secushomoserinimonas

L. masc. preposition *secus*, beside; L. fem. n. *Homoserinimonas*, An existing genus; *Secushomoserinimonas*: A genus related to but distinct from the existing genus Homoserinimonas of beside.

Secushongia

L. masc. preposition *secus*, beside; L. fem. n. *Hongia*, An existing genus; *Secushongia*: A genus related to but distinct from the existing genus Hongia of beside.

Secushongiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Hongiella*, An existing genus; *Secushongiella*: A genus related to but distinct from the existing genus Hongiella of beside.

Secushoppeia

L. masc. preposition *secus*, beside; L. fem. n. *Hoppeia*, An existing genus; *Secushoppeia*: A genus related to but distinct from the existing genus Hoppeia of beside.

Secushormathonema

L. masc. preposition *secus*, beside; L. neut. n. *Hormathonema*, An existing genus; *Secushormathonema*: A genus related to but distinct from the existing genus Hormathonema of beside.

Secushormoscilla

L. masc. preposition *secus*, beside; L. fem. n. *Hormoscilla*, An existing genus; *Secushormoscilla*: A genus related to but distinct from the existing genus Hormoscilla of beside.

Secushowardella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Howardella*, An existing genus; *Secushowardella*: A genus related to but distinct from the existing genus Howardella of beside.

Secushoyosella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Hoyosella*, An existing genus; *Secushoyosella*: A genus related to but distinct from the existing genus Hoyosella of beside.

Secushuaishuia

L. masc. preposition *secus*, beside; L. fem. n. *Huaishuia*, An existing genus; *Secushuaishuia*: A genus related to but distinct from the existing genus Huaishuia of beside.

Secushuakuichenia

L. masc. preposition *secus*, beside; L. fem. n. *Huakuichenia*, An existing genus; *Secushuakuichenia*: A genus related to but distinct from the existing genus Huakuichenia of beside.

Secushuanghella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Huanghella*, An existing genus; *Secushuanghella*: A genus related to but distinct from the existing genus Huanghella of beside.

Secushugenholtzia

L. masc. preposition *secus*, beside; L. fem. n. *Hugenholtzia*, An existing genus; *Secushugenholtzia*: A genus related to but distinct from the existing genus Hugenholtzia of beside.

Secushugonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Hugonella*, An existing genus; *Secushugonella*: A genus related to but distinct from the existing genus Hugonella of beside.

Secushumibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Humibacillus*, An existing genus; *Secushumibacillus*: A genus related to but distinct from the existing genus Humibacillus of beside.

Secushumibacter

L. masc. preposition *secus*, beside; L. masc. n. *Humibacter*, An existing genus; *Secushumibacter*: A genus related to but distinct from the existing genus Humibacter of beside.

Secushumicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Humicoccus*, An existing genus; *Secushumicoccus*: A genus related to but distinct from the existing genus Humicoccus of beside.

Secushungateiclostridium

L. masc. preposition *secus*, beside; L. neut. dim. n. *Hungateiclostridium*, An existing genus; *Secushungateiclostridium*: A genus related to but distinct from the existing genus Hungateiclostridium of beside.

Secushungatella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Hungatella*, An existing genus; *Secushungatella*: A genus related to but distinct from the existing genus Hungatella of beside.

Secushwangdonia

L. masc. preposition *secus*, beside; L. fem. n. *Hwangdonia*, An existing genus; *Secushwangdonia*: A genus related to but distinct from the existing genus Hwangdonia of beside.

Secushwanghaeella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Hwanghaeella*, An existing genus; *Secushwanghaeella*: A genus related to but distinct from the existing genus Hwanghaeella of beside.

Secushwanghaeicola

L. masc. preposition *secus*, beside; L. masc. n. *Hwanghaeicola*, An existing genus; *Secushwanghaeicola*: A genus related to but distinct from the existing genus Hwanghaeicola of beside.

Secushyalangium

L. masc. preposition *secus*, beside; L. neut. n. *Hyalangium*, An existing genus; *Secushyalangium*: A genus related to but distinct from the existing genus Hyalangium of beside.

Secushydrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Hydrobacter*, An existing genus; *Secushydrobacter*: A genus related to but distinct from the existing genus Hydrobacter of beside.

Secushydrocarboniclastica

L. masc. preposition *secus*, beside; L. fem. n. *Hydrocarboniclastica*, An existing genus; *Secushydrocarboniclastica*: A genus related to but distinct from the existing genus Hydrocarboniclastica of beside.

Secushydrocarboniphaga

L. masc. preposition *secus*, beside; L. fem. n. *Hydrocarboniphaga*, An existing genus; *Secushydrocarboniphaga*: A genus related to but distinct from the existing genus Hydrocarboniphaga of beside.

Secushydrogenibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Hydrogenibacillus*, An existing genus; *Secushydrogenibacillus*: A genus related to but distinct from the existing genus Hydrogenibacillus of beside.

Secushydrogeniiclostridium

L. masc. preposition *secus*, beside; L. neut. dim. n. *Hydrogeniiclostridium*, An existing genus; *Secushydrogeniiclostridium*: A genus related to but distinct from the existing genus Hydrogeniiclostridium of beside.

Secushydrogenimonas

L. masc. preposition *secus*, beside; L. fem. n. *Hydrogenimonas*, An existing genus; *Secushydrogenimonas*: A genus related to but distinct from the existing genus Hydrogenimonas of beside.

Secushydrogenispora

L. masc. preposition *secus*, beside; L. fem. n. *Hydrogenispora*, An existing genus; *Secushydrogenispora*: A genus related to but distinct from the existing genus Hydrogenispora of beside.

Secushydrogenivirga

L. masc. preposition *secus*, beside; L. fem. n. *Hydrogenivirga*, An existing genus; *Secushydrogenivirga*: A genus related to but distinct from the existing genus Hydrogenivirga of beside.

Secushydrogenoanaerobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Hydrogenoanaerobacterium*, An existing genus; *Secushydrogenoanaerobacterium*: A genus related to but distinct from the existing genus Hydrogenoanaerobacterium of beside.

Secushydrogenobacter

L. masc. preposition *secus*, beside; L. masc. n. *Hydrogenobacter*, An existing genus; *Secushydrogenobacter*: A genus related to but distinct from the existing genus Hydrogenobacter of beside.

Secushydrogenophaga

L. masc. preposition *secus*, beside; L. fem. n. *Hydrogenophaga*, An existing genus; *Secushydrogenophaga*: A genus related to but distinct from the existing genus Hydrogenophaga of beside.

Secushydrogenophilus

L. masc. preposition *secus*, beside; L. masc. n. *Hydrogenophilus*, An existing genus; *Secushydrogenophilus*: A genus related to but distinct from the existing genus Hydrogenophilus of beside.

Secushydrogenovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Hydrogenovibrio*, An existing genus; *Secushydrogenovibrio*: A genus related to but distinct from the existing genus Hydrogenovibrio of beside.

Secushydromonas

L. masc. preposition *secus*, beside; L. fem. n. *Hydromonas*, An existing genus; *Secushydromonas*: A genus related to but distinct from the existing genus Hydromonas of beside.

Secushydrotalea

L. masc. preposition *secus*, beside; L. fem. n. *Hydrotalea*, An existing genus; *Secushydrotalea*: A genus related to but distinct from the existing genus Hydrotalea of beside.

Secushylemonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Hylemonella*, An existing genus; *Secushylemonella*: A genus related to but distinct from the existing genus Hylemonella of beside.

Secushymenobacter

L. masc. preposition *secus*, beside; L. masc. n. *Hymenobacter*, An existing genus; *Secushymenobacter*: A genus related to but distinct from the existing genus Hymenobacter of beside.

Secushypericibacter

L. masc. preposition *secus*, beside; L. masc. n. *Hypericibacter*, An existing genus; *Secushypericibacter*: A genus related to but distinct from the existing genus Hypericibacter of beside.

Secushyperthermus

L. masc. preposition *secus*, beside; L. masc. n. *Hyperthermus*, An existing genus; *Secushyperthermus*: A genus related to but distinct from the existing genus Hyperthermus of beside.

Secushyphobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Hyphobacterium*, An existing genus; *Secushyphobacterium*: A genus related to but distinct from the existing genus Hyphobacterium of beside.

Secushyphococcus

L. masc. preposition *secus*, beside; L. masc. n. *Hyphococcus*, An existing genus; *Secushyphococcus*: A genus related to but distinct from the existing genus Hyphococcus of beside.

Secushyphomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Hyphomicrobium*, An existing genus; *Secushyphomicrobium*: A genus related to but distinct from the existing genus Hyphomicrobium of beside.

Secushyphomonas

L. masc. preposition *secus*, beside; L. fem. n. *Hyphomonas*, An existing genus; *Secushyphomonas*: A genus related to but distinct from the existing genus Hyphomonas of beside.

Secushypnocyclicus

L. masc. preposition *secus*, beside; L. masc. n. *Hypnocyclicus*, An existing genus; *Secushypnocyclicus*: A genus related to but distinct from the existing genus Hypnocyclicus of beside.

Secushyunsoonleella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Hyunsoonleella*, An existing genus; *Secushyunsoonleella*: A genus related to but distinct from the existing genus Hyunsoonleella of beside.

Secusiamia

L. masc. preposition *secus*, beside; L. fem. n. *Iamia*, An existing genus; *Secusiamia*: A genus related to but distinct from the existing genus Iamia of beside.

Secusichthyobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Ichthyobacterium*, An existing genus; *Secusichthyobacterium*: A genus related to but distinct from the existing genus Ichthyobacterium of beside.

Secusideonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Ideonella*, An existing genus; *Secusideonella*: A genus related to but distinct from the existing genus Ideonella of beside.

Secusidiomarina

L. masc. preposition *secus*, beside; L. fem. n. *Idiomarina*, An existing genus; *Secusidiomarina*: A genus related to but distinct from the existing genus Idiomarina of beside.

Secusignatzschineria

L. masc. preposition *secus*, beside; L. fem. n. *Ignatzschineria*, An existing genus; *Secusignatzschineria*: A genus related to but distinct from the existing genus Ignatzschineria of beside.

Secusignavigranum

L. masc. preposition *secus*, beside; L. neut. n. *Ignavigranum*, An existing genus; *Secusignavigranum*: A genus related to but distinct from the existing genus Ignavigranum of beside.

Secusignicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Ignicoccus*, An existing genus; *Secusignicoccus*: A genus related to but distinct from the existing genus Ignicoccus of beside.

Secusignisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Ignisphaera*, An existing genus; *Secusignisphaera*: A genus related to but distinct from the existing genus Ignisphaera of beside.

Secusileibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Ileibacterium*, An existing genus; *Secusileibacterium*: A genus related to but distinct from the existing genus Ileibacterium of beside.

Secusilumatobacter

L. masc. preposition *secus*, beside; L. masc. n. *Ilumatobacter*, An existing genus; *Secusilumatobacter*: A genus related to but distinct from the existing genus Ilumatobacter of beside.

Secusimhoffiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Imhoffiella*, An existing genus; *Secusimhoffiella*: A genus related to but distinct from the existing genus Imhoffiella of beside.

Secusimmundisolibacter

L. masc. preposition *secus*, beside; L. masc. n. *Immundisolibacter*, An existing genus; *Secusimmundisolibacter*: A genus related to but distinct from the existing genus Immundisolibacter of beside.

Secusimperialibacter

L. masc. preposition *secus*, beside; L. masc. n. *Imperialibacter*, An existing genus; *Secusimperialibacter*: A genus related to but distinct from the existing genus Imperialibacter of beside.

Secusimtechella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Imtechella*, An existing genus; *Secusimtechella*: A genus related to but distinct from the existing genus Imtechella of beside.

Secusindibacter

L. masc. preposition *secus*, beside; L. masc. n. *Indibacter*, An existing genus; *Secusindibacter*: A genus related to but distinct from the existing genus Indibacter of beside.

Secusindiicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Indiicoccus*, An existing genus; *Secusindiicoccus*: A genus related to but distinct from the existing genus Indiicoccus of beside.

Secusindioceanicola

L. masc. preposition *secus*, beside; L. masc. n. *Indioceanicola*, An existing genus; *Secusindioceanicola*: A genus related to but distinct from the existing genus Indioceanicola of beside.

Secusinediibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Inediibacterium*, An existing genus; *Secusinediibacterium*: A genus related to but distinct from the existing genus Inediibacterium of beside.

Secusinhella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Inhella*, An existing genus; *Secusinhella*: A genus related to but distinct from the existing genus Inhella of beside.

Secusiningainema

L. masc. preposition *secus*, beside; L. neut. n. *Iningainema*, An existing genus; *Secusiningainema*: A genus related to but distinct from the existing genus Iningainema of beside.

Secusinmirania

L. masc. preposition *secus*, beside; L. fem. n. *Inmirania*, An existing genus; *Secusinmirania*: A genus related to but distinct from the existing genus Inmirania of beside.

Secusinnacoccus

L. masc. preposition *secus*, beside; L. masc. n. *Innacoccus*, An existing genus; *Secusinnacoccus*: A genus related to but distinct from the existing genus Innacoccus of beside.

Secusinsolitispirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Insolitispirillum*, An existing genus; *Secusinsolitispirillum*: A genus related to but distinct from the existing genus Insolitispirillum of beside.

Secusintestinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Intestinibacter*, An existing genus; *Secusintestinibacter*: A genus related to but distinct from the existing genus Intestinibacter of beside.

Secusintestinibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Intestinibaculum*, An existing genus; *Secusintestinibaculum*: A genus related to but distinct from the existing genus Intestinibaculum of beside.

Secusintestinimonas

L. masc. preposition *secus*, beside; L. fem. n. *Intestinimonas*, An existing genus; *Secusintestinimonas*: A genus related to but distinct from the existing genus Intestinimonas of beside.

Secusintestinirhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Intestinirhabdus*, An existing genus; *Secusintestinirhabdus*: A genus related to but distinct from the existing genus Intestinirhabdus of beside.

Secusintrasporangium

L. masc. preposition *secus*, beside; L. neut. n. *Intrasporangium*, An existing genus; *Secusintrasporangium*: A genus related to but distinct from the existing genus Intrasporangium of beside.

Secusiodidimonas

L. masc. preposition *secus*, beside; L. fem. n. *Iodidimonas*, An existing genus; *Secusiodidimonas*: A genus related to but distinct from the existing genus Iodidimonas of beside.

Secusiodobacter

L. masc. preposition *secus*, beside; L. masc. n. *Iodobacter*, An existing genus; *Secusiodobacter*: A genus related to but distinct from the existing genus Iodobacter of beside.

Secusirregularibacter

L. masc. preposition *secus*, beside; L. masc. n. *Irregularibacter*, An existing genus; *Secusirregularibacter*: A genus related to but distinct from the existing genus Irregularibacter of beside.

Secusisachenkonia

L. masc. preposition *secus*, beside; L. fem. n. *Isachenkonia*, An existing genus; *Secusisachenkonia*: A genus related to but distinct from the existing genus Isachenkonia of beside.

Secusisobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Isobaculum*, An existing genus; *Secusisobaculum*: A genus related to but distinct from the existing genus Isobaculum of beside.

Secusisochromatium

L. masc. preposition *secus*, beside; L. neut. n. *Isochromatium*, An existing genus; *Secusisochromatium*: A genus related to but distinct from the existing genus Isochromatium of beside.

Secusisoptericola

L. masc. preposition *secus*, beside; L. masc. n. *Isoptericola*, An existing genus; *Secusisoptericola*: A genus related to but distinct from the existing genus Isoptericola of beside.

Secusisosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Isosphaera*, An existing genus; *Secusisosphaera*: A genus related to but distinct from the existing genus Isosphaera of beside.

Secusizhakiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Izhakiella*, An existing genus; *Secusizhakiella*: A genus related to but distinct from the existing genus Izhakiella of beside.

Secusjacksonvillea

L. masc. preposition *secus*, beside; L. fem. n. *Jacksonvillea*, An existing genus; *Secusjacksonvillea*: A genus related to but distinct from the existing genus Jacksonvillea of beside.

Secusjahnella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Jahnella*, An existing genus; *Secusjahnella*: A genus related to but distinct from the existing genus Jahnella of beside.

Secusjanibacter

L. masc. preposition *secus*, beside; L. masc. n. *Janibacter*, An existing genus; *Secusjanibacter*: A genus related to but distinct from the existing genus Janibacter of beside.

Secusjanthinobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Janthinobacterium*, An existing genus; *Secusjanthinobacterium*: A genus related to but distinct from the existing genus Janthinobacterium of beside.

Secusjatrophihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Jatrophihabitans*, An existing genus; *Secusjatrophihabitans*: A genus related to but distinct from the existing genus Jatrophihabitans of beside.

Secusjejubacter

L. masc. preposition *secus*, beside; L. masc. n. *Jejubacter*, An existing genus; *Secusjejubacter*: A genus related to but distinct from the existing genus Jejubacter of beside.

Secusjejudonia

L. masc. preposition *secus*, beside; L. fem. n. *Jejudonia*, An existing genus; *Secusjejudonia*: A genus related to but distinct from the existing genus Jejudonia of beside.

Secusjejuia

L. masc. preposition *secus*, beside; L. fem. n. *Jejuia*, An existing genus; *Secusjejuia*: A genus related to but distinct from the existing genus Jejuia of beside.

Secusjeongeupia

L. masc. preposition *secus*, beside; L. fem. n. *Jeongeupia*, An existing genus; *Secusjeongeupia*: A genus related to but distinct from the existing genus Jeongeupia of beside.

Secusjeotgalibaca

L. masc. preposition *secus*, beside; L. fem. n. *Jeotgalibaca*, An existing genus; *Secusjeotgalibaca*: A genus related to but distinct from the existing genus Jeotgalibaca of beside.

Secusjeotgalibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Jeotgalibacillus*, An existing genus; *Secusjeotgalibacillus*: A genus related to but distinct from the existing genus Jeotgalibacillus of beside.

Secusjeotgalicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Jeotgalicoccus*, An existing genus; *Secusjeotgalicoccus*: A genus related to but distinct from the existing genus Jeotgalicoccus of beside.

Secusjhaorihella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Jhaorihella*, An existing genus; *Secusjhaorihella*: A genus related to but distinct from the existing genus Jhaorihella of beside.

Secusjiangella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Jiangella*, An existing genus; *Secusjiangella*: A genus related to but distinct from the existing genus Jiangella of beside.

Secusjiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Jiella*, An existing genus; *Secusjiella*: A genus related to but distinct from the existing genus Jiella of beside.

Secusjilinibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Jilinibacillus*, An existing genus; *Secusjilinibacillus*: A genus related to but distinct from the existing genus Jilinibacillus of beside.

Secusjindonia

L. masc. preposition *secus*, beside; L. fem. n. *Jindonia*, An existing genus; *Secusjindonia*: A genus related to but distinct from the existing genus Jindonia of beside.

Secusjishengella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Jishengella*, An existing genus; *Secusjishengella*: A genus related to but distinct from the existing genus Jishengella of beside.

Secusjiulongibacter

L. masc. preposition *secus*, beside; L. masc. n. *Jiulongibacter*, An existing genus; *Secusjiulongibacter*: A genus related to but distinct from the existing genus Jiulongibacter of beside.

Secusjohnsonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Johnsonella*, An existing genus; *Secusjohnsonella*: A genus related to but distinct from the existing genus Johnsonella of beside.

Secusjonesia

L. masc. preposition *secus*, beside; L. fem. n. *Jonesia*, An existing genus; *Secusjonesia*: A genus related to but distinct from the existing genus Jonesia of beside.

Secusjongsikchunia

L. masc. preposition *secus*, beside; L. fem. n. *Jongsikchunia*, An existing genus; *Secusjongsikchunia*: A genus related to but distinct from the existing genus Jongsikchunia of beside.

Secusjonquetella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Jonquetella*, An existing genus; *Secusjonquetella*: A genus related to but distinct from the existing genus Jonquetella of beside.

Secusjoostella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Joostella*, An existing genus; *Secusjoostella*: A genus related to but distinct from the existing genus Joostella of beside.

Secuskaiparowitsia

L. masc. preposition *secus*, beside; L. fem. n. *Kaiparowitsia*, An existing genus; *Secuskaiparowitsia*: A genus related to but distinct from the existing genus Kaiparowitsia of beside.

Secuskaistella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Kaistella*, An existing genus; *Secuskaistella*: A genus related to but distinct from the existing genus Kaistella of beside.

Secuskaistia

L. masc. preposition *secus*, beside; L. fem. n. *Kaistia*, An existing genus; *Secuskaistia*: A genus related to but distinct from the existing genus Kaistia of beside.

Secuskalamiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Kalamiella*, An existing genus; *Secuskalamiella*: A genus related to but distinct from the existing genus Kalamiella of beside.

Secuskallipyga

L. masc. preposition *secus*, beside; L. fem. n. *Kallipyga*, An existing genus; *Secuskallipyga*: A genus related to but distinct from the existing genus Kallipyga of beside.

Secuskallotenue

L. masc. preposition *secus*, beside; L. neut. n. *Kallotenue*, An existing genus; *Secuskallotenue*: A genus related to but distinct from the existing genus Kallotenue of beside.

Secuskandeliimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Kandeliimicrobium*, An existing genus; *Secuskandeliimicrobium*: A genus related to but distinct from the existing genus Kandeliimicrobium of beside.

Secuskandleria

L. masc. preposition *secus*, beside; L. fem. n. *Kandleria*, An existing genus; *Secuskandleria*: A genus related to but distinct from the existing genus Kandleria of beside.

Secuskangiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Kangiella*, An existing genus; *Secuskangiella*: A genus related to but distinct from the existing genus Kangiella of beside.

Secuskastovskya

L. masc. preposition *secus*, beside; L. fem. n. *Kastovskya*, An existing genus; *Secuskastovskya*: A genus related to but distinct from the existing genus Kastovskya of beside.

Secuskeratinibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Keratinibaculum*, An existing genus; *Secuskeratinibaculum*: A genus related to but distinct from the existing genus Keratinibaculum of beside.

Secuskerstersia

L. masc. preposition *secus*, beside; L. fem. n. *Kerstersia*, An existing genus; *Secuskerstersia*: A genus related to but distinct from the existing genus Kerstersia of beside.

Secusketobacter

L. masc. preposition *secus*, beside; L. masc. n. *Ketobacter*, An existing genus; *Secusketobacter*: A genus related to but distinct from the existing genus Ketobacter of beside.

Secusketogulonicigenium

L. masc. preposition *secus*, beside; L. neut. n. *Ketogulonicigenium*, An existing genus; *Secusketogulonicigenium*: A genus related to but distinct from the existing genus Ketogulonicigenium of beside.

Secuskibdelosporangium

L. masc. preposition *secus*, beside; L. neut. n. *Kibdelosporangium*, An existing genus; *Secuskibdelosporangium*: A genus related to but distinct from the existing genus Kibdelosporangium of beside.

Secuskiloniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Kiloniella*, An existing genus; *Secuskiloniella*: A genus related to but distinct from the existing genus Kiloniella of beside.

Secuskineobactrum

L. masc. preposition *secus*, beside; L. neut. n. *Kineobactrum*, An existing genus; *Secuskineobactrum*: A genus related to but distinct from the existing genus Kineobactrum of beside.

Secuskineococcus

L. masc. preposition *secus*, beside; L. masc. n. *Kineococcus*, An existing genus; *Secuskineococcus*: A genus related to but distinct from the existing genus Kineococcus of beside.

Secuskineosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Kineosphaera*, An existing genus; *Secuskineosphaera*: A genus related to but distinct from the existing genus Kineosphaera of beside.

Secuskineosporia

L. masc. preposition *secus*, beside; L. fem. n. *Kineosporia*, An existing genus; *Secuskineosporia*: A genus related to but distinct from the existing genus Kineosporia of beside.

Secuskineothrix

L. masc. preposition *secus*, beside; L. fem. n. *Kineothrix*, An existing genus; *Secuskineothrix*: A genus related to but distinct from the existing genus Kineothrix of beside.

Secuskingella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Kingella*, An existing genus; *Secuskingella*: A genus related to but distinct from the existing genus Kingella of beside.

Secuskinneretia

L. masc. preposition *secus*, beside; L. fem. n. *Kinneretia*, An existing genus; *Secuskinneretia*: A genus related to but distinct from the existing genus Kinneretia of beside.

Secuskiritimatiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Kiritimatiella*, An existing genus; *Secuskiritimatiella*: A genus related to but distinct from the existing genus Kiritimatiella of beside.

Secuskistimonas

L. masc. preposition *secus*, beside; L. fem. n. *Kistimonas*, An existing genus; *Secuskistimonas*: A genus related to but distinct from the existing genus Kistimonas of beside.

Secuskitasatoa

L. masc. preposition *secus*, beside; L. fem. n. *Kitasatoa*, An existing genus; *Secuskitasatoa*: A genus related to but distinct from the existing genus Kitasatoa of beside.

Secuskitasatospora

L. masc. preposition *secus*, beside; L. fem. n. *Kitasatospora*, An existing genus; *Secuskitasatospora*: A genus related to but distinct from the existing genus Kitasatospora of beside.

Secusklebsiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Klebsiella*, An existing genus; *Secusklebsiella*: A genus related to but distinct from the existing genus Klebsiella of beside.

Secusklenkia

L. masc. preposition *secus*, beside; L. fem. n. *Klenkia*, An existing genus; *Secusklenkia*: A genus related to but distinct from the existing genus Klenkia of beside.

Secusklisinema

L. masc. preposition *secus*, beside; L. neut. n. *Klisinema*, An existing genus; *Secusklisinema*: A genus related to but distinct from the existing genus Klisinema of beside.

Secusklugiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Klugiella*, An existing genus; *Secusklugiella*: A genus related to but distinct from the existing genus Klugiella of beside.

Secuskluyvera

L. masc. preposition *secus*, beside; L. fem. n. *Kluyvera*, An existing genus; *Secuskluyvera*: A genus related to but distinct from the existing genus Kluyvera of beside.

Secuskocuria

L. masc. preposition *secus*, beside; L. fem. n. *Kocuria*, An existing genus; *Secuskocuria*: A genus related to but distinct from the existing genus Kocuria of beside.

Secuskofleria

L. masc. preposition *secus*, beside; L. fem. n. *Kofleria*, An existing genus; *Secuskofleria*: A genus related to but distinct from the existing genus Kofleria of beside.

Secuskoinonema

L. masc. preposition *secus*, beside; L. neut. n. *Koinonema*, An existing genus; *Secuskoinonema*: A genus related to but distinct from the existing genus Koinonema of beside.

Secuskomagatabacter

L. masc. preposition *secus*, beside; L. masc. n. *Komagatabacter*, An existing genus; *Secuskomagatabacter*: A genus related to but distinct from the existing genus Komagatabacter of beside.

Secuskomagataeibacter

L. masc. preposition *secus*, beside; L. masc. n. *Komagataeibacter*, An existing genus; *Secuskomagataeibacter*: A genus related to but distinct from the existing genus Komagataeibacter of beside.

Secuskomarekiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Komarekiella*, An existing genus; *Secuskomarekiella*: A genus related to but distinct from the existing genus Komarekiella of beside.

Secuskomarkovaea

L. masc. preposition *secus*, beside; L. fem. n. *Komarkovaea*, An existing genus; *Secuskomarkovaea*: A genus related to but distinct from the existing genus Komarkovaea of beside.

Secuskordia

L. masc. preposition *secus*, beside; L. fem. n. *Kordia*, An existing genus; *Secuskordia*: A genus related to but distinct from the existing genus Kordia of beside.

Secuskordiimonas

L. masc. preposition *secus*, beside; L. fem. n. *Kordiimonas*, An existing genus; *Secuskordiimonas*: A genus related to but distinct from the existing genus Kordiimonas of beside.

Secuskoreibacter

L. masc. preposition *secus*, beside; L. masc. n. *Koreibacter*, An existing genus; *Secuskoreibacter*: A genus related to but distinct from the existing genus Koreibacter of beside.

Secuskosakonia

L. masc. preposition *secus*, beside; L. fem. n. *Kosakonia*, An existing genus; *Secuskosakonia*: A genus related to but distinct from the existing genus Kosakonia of beside.

Secuskoserella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Koserella*, An existing genus; *Secuskoserella*: A genus related to but distinct from the existing genus Koserella of beside.

Secuskosmotoga

L. masc. preposition *secus*, beside; L. fem. n. *Kosmotoga*, An existing genus; *Secuskosmotoga*: A genus related to but distinct from the existing genus Kosmotoga of beside.

Secuskovacikia

L. masc. preposition *secus*, beside; L. fem. n. *Kovacikia*, An existing genus; *Secuskovacikia*: A genus related to but distinct from the existing genus Kovacikia of beside.

Secuskozakia

L. masc. preposition *secus*, beside; L. fem. n. *Kozakia*, An existing genus; *Secuskozakia*: A genus related to but distinct from the existing genus Kozakia of beside.

Secuskrasilnikovia

L. masc. preposition *secus*, beside; L. fem. n. *Krasilnikovia*, An existing genus; *Secuskrasilnikovia*: A genus related to but distinct from the existing genus Krasilnikovia of beside.

Secuskrasilnikoviella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Krasilnikoviella*, An existing genus; *Secuskrasilnikoviella*: A genus related to but distinct from the existing genus Krasilnikoviella of beside.

Secuskribbella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Kribbella*, An existing genus; *Secuskribbella*: A genus related to but distinct from the existing genus Kribbella of beside.

Secuskribbia

L. masc. preposition *secus*, beside; L. fem. n. *Kribbia*, An existing genus; *Secuskribbia*: A genus related to but distinct from the existing genus Kribbia of beside.

Secuskriegella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Kriegella*, An existing genus; *Secuskriegella*: A genus related to but distinct from the existing genus Kriegella of beside.

Secuskrokinobacter

L. masc. preposition *secus*, beside; L. masc. n. *Krokinobacter*, An existing genus; *Secuskrokinobacter*: A genus related to but distinct from the existing genus Krokinobacter of beside.

Secuskroppenstedtia

L. masc. preposition *secus*, beside; L. fem. n. *Kroppenstedtia*, An existing genus; *Secuskroppenstedtia*: A genus related to but distinct from the existing genus Kroppenstedtia of beside.

Secuskryptousia

L. masc. preposition *secus*, beside; L. fem. n. *Kryptousia*, An existing genus; *Secuskryptousia*: A genus related to but distinct from the existing genus Kryptousia of beside.

Secusktedonobacter

L. masc. preposition *secus*, beside; L. masc. n. *Ktedonobacter*, An existing genus; *Secusktedonobacter*: A genus related to but distinct from the existing genus Ktedonobacter of beside.

Secusktedonosporobacter

L. masc. preposition *secus*, beside; L. masc. n. *Ktedonosporobacter*, An existing genus; *Secusktedonosporobacter*: A genus related to but distinct from the existing genus Ktedonosporobacter of beside.

Secuskurthia

L. masc. preposition *secus*, beside; L. fem. n. *Kurthia*, An existing genus; *Secuskurthia*: A genus related to but distinct from the existing genus Kurthia of beside.

Secuskushneria

L. masc. preposition *secus*, beside; L. fem. n. *Kushneria*, An existing genus; *Secuskushneria*: A genus related to but distinct from the existing genus Kushneria of beside.

Secuskutzneria

L. masc. preposition *secus*, beside; L. fem. n. *Kutzneria*, An existing genus; *Secuskutzneria*: A genus related to but distinct from the existing genus Kutzneria of beside.

Secuskyrpidia

L. masc. preposition *secus*, beside; L. fem. n. *Kyrpidia*, An existing genus; *Secuskyrpidia*: A genus related to but distinct from the existing genus Kyrpidia of beside.

Secuskyrtuthrix

L. masc. preposition *secus*, beside; L. fem. n. *Kyrtuthrix*, An existing genus; *Secuskyrtuthrix*: A genus related to but distinct from the existing genus Kyrtuthrix of beside.

Secuskytococcus

L. masc. preposition *secus*, beside; L. masc. n. *Kytococcus*, An existing genus; *Secuskytococcus*: A genus related to but distinct from the existing genus Kytococcus of beside.

Secuslabedaea

L. masc. preposition *secus*, beside; L. fem. n. *Labedaea*, An existing genus; *Secuslabedaea*: A genus related to but distinct from the existing genus Labedaea of beside.

Secuslabedella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Labedella*, An existing genus; *Secuslabedella*: A genus related to but distinct from the existing genus Labedella of beside.

Secuslabilibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Labilibaculum*, An existing genus; *Secuslabilibaculum*: A genus related to but distinct from the existing genus Labilibaculum of beside.

Secuslabilithrix

L. masc. preposition *secus*, beside; L. fem. n. *Labilithrix*, An existing genus; *Secuslabilithrix*: A genus related to but distinct from the existing genus Labilithrix of beside.

Secuslabrenzia

L. masc. preposition *secus*, beside; L. fem. n. *Labrenzia*, An existing genus; *Secuslabrenzia*: A genus related to but distinct from the existing genus Labrenzia of beside.

Secuslabrys

L. masc. preposition *secus*, beside; L. masc. n. *Labrys*, An existing genus; *Secuslabrys*: A genus related to but distinct from the existing genus Labrys of beside.

Secuslaceyella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Laceyella*, An existing genus; *Secuslaceyella*: A genus related to but distinct from the existing genus Laceyella of beside.

Secuslachnoanaerobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Lachnoanaerobaculum*, An existing genus; *Secuslachnoanaerobaculum*: A genus related to but distinct from the existing genus Lachnoanaerobaculum of beside.

Secuslachnobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Lachnobacterium*, An existing genus; *Secuslachnobacterium*: A genus related to but distinct from the existing genus Lachnobacterium of beside.

Secuslachnoclostridium

L. masc. preposition *secus*, beside; L. neut. n. *Lachnoclostridium*, An existing genus; *Secuslachnoclostridium*: A genus related to but distinct from the existing genus Lachnoclostridium of beside.

Secuslachnospira

L. masc. preposition *secus*, beside; L. fem. n. *Lachnospira*, An existing genus; *Secuslachnospira*: A genus related to but distinct from the existing genus Lachnospira of beside.

Secuslachnotalea

L. masc. preposition *secus*, beside; L. fem. n. *Lachnotalea*, An existing genus; *Secuslachnotalea*: A genus related to but distinct from the existing genus Lachnotalea of beside.

Secuslacibacter

L. masc. preposition *secus*, beside; L. masc. n. *Lacibacter*, An existing genus; *Secuslacibacter*: A genus related to but distinct from the existing genus Lacibacter of beside.

Secuslacibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Lacibacterium*, An existing genus; *Secuslacibacterium*: A genus related to but distinct from the existing genus Lacibacterium of beside.

Secuslacihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Lacihabitans*, An existing genus; *Secuslacihabitans*: A genus related to but distinct from the existing genus Lacihabitans of beside.

Secuslacimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Lacimicrobium*, An existing genus; *Secuslacimicrobium*: A genus related to but distinct from the existing genus Lacimicrobium of beside.

Secuslacimonas

L. masc. preposition *secus*, beside; L. fem. n. *Lacimonas*, An existing genus; *Secuslacimonas*: A genus related to but distinct from the existing genus Lacimonas of beside.

Secuslacinutrix

L. masc. preposition *secus*, beside; L. fem. n. *Lacinutrix*, An existing genus; *Secuslacinutrix*: A genus related to but distinct from the existing genus Lacinutrix of beside.

Secuslacipirellula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Lacipirellula*, An existing genus; *Secuslacipirellula*: A genus related to but distinct from the existing genus Lacipirellula of beside.

Secuslacisediminihabitans

L. masc. preposition *secus*, beside; L. fem. n. *Lacisediminihabitans*, An existing genus; *Secuslacisediminihabitans*: A genus related to but distinct from the existing genus Lacisediminihabitans of beside.

Secuslacisediminimonas

L. masc. preposition *secus*, beside; L. fem. n. *Lacisediminimonas*, An existing genus; *Secuslacisediminimonas*: A genus related to but distinct from the existing genus Lacisediminimonas of beside.

Secuslacrimispora

L. masc. preposition *secus*, beside; L. fem. n. *Lacrimispora*, An existing genus; *Secuslacrimispora*: A genus related to but distinct from the existing genus Lacrimispora of beside.

Secuslacticaseibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Lacticaseibacillus*, An existing genus; *Secuslacticaseibacillus*: A genus related to but distinct from the existing genus Lacticaseibacillus of beside.

Secuslacticigenium

L. masc. preposition *secus*, beside; L. neut. n. *Lacticigenium*, An existing genus; *Secuslacticigenium*: A genus related to but distinct from the existing genus Lacticigenium of beside.

Secuslactimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Lactimicrobium*, An existing genus; *Secuslactimicrobium*: A genus related to but distinct from the existing genus Lactimicrobium of beside.

Secuslactiplantibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Lactiplantibacillus*, An existing genus; *Secuslactiplantibacillus*: A genus related to but distinct from the existing genus Lactiplantibacillus of beside.

Secuslactivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Lactivibrio*, An existing genus; *Secuslactivibrio*: A genus related to but distinct from the existing genus Lactivibrio of beside.

Secuslactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Lactobacillus*, An existing genus; *Secuslactobacillus*: A genus related to but distinct from the existing genus Lactobacillus of beside.

Secuslactococcus

L. masc. preposition *secus*, beside; L. masc. n. *Lactococcus*, An existing genus; *Secuslactococcus*: A genus related to but distinct from the existing genus Lactococcus of beside.

Secuslactonifactor

L. masc. preposition *secus*, beside; L. masc. n. *Lactonifactor*, An existing genus; *Secuslactonifactor*: A genus related to but distinct from the existing genus Lactonifactor of beside.

Secuslactosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Lactosphaera*, An existing genus; *Secuslactosphaera*: A genus related to but distinct from the existing genus Lactosphaera of beside.

Secuslactovum

L. masc. preposition *secus*, beside; L. neut. n. *Lactovum*, An existing genus; *Secuslactovum*: A genus related to but distinct from the existing genus Lactovum of beside.

Secuslacunisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Lacunisphaera*, An existing genus; *Secuslacunisphaera*: A genus related to but distinct from the existing genus Lacunisphaera of beside.

Secuslamprocystis

L. masc. preposition *secus*, beside; L. fem. n. *Lamprocystis*, An existing genus; *Secuslamprocystis*: A genus related to but distinct from the existing genus Lamprocystis of beside.

Secuslampropedia

L. masc. preposition *secus*, beside; L. fem. n. *Lampropedia*, An existing genus; *Secuslampropedia*: A genus related to but distinct from the existing genus Lampropedia of beside.

Secuslancefieldella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Lancefieldella*, An existing genus; *Secuslancefieldella*: A genus related to but distinct from the existing genus Lancefieldella of beside.

Secuslapidilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Lapidilactobacillus*, An existing genus; *Secuslapidilactobacillus*: A genus related to but distinct from the existing genus Lapidilactobacillus of beside.

Secuslapillicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Lapillicoccus*, An existing genus; *Secuslapillicoccus*: A genus related to but distinct from the existing genus Lapillicoccus of beside.

Secuslaribacter

L. masc. preposition *secus*, beside; L. masc. n. *Laribacter*, An existing genus; *Secuslaribacter*: A genus related to but distinct from the existing genus Laribacter of beside.

Secuslarkinella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Larkinella*, An existing genus; *Secuslarkinella*: A genus related to but distinct from the existing genus Larkinella of beside.

Secuslarsenia

L. masc. preposition *secus*, beside; L. fem. n. *Larsenia*, An existing genus; *Secuslarsenia*: A genus related to but distinct from the existing genus Larsenia of beside.

Secuslarsenimonas

L. masc. preposition *secus*, beside; L. fem. n. *Larsenimonas*, An existing genus; *Secuslarsenimonas*: A genus related to but distinct from the existing genus Larsenimonas of beside.

Secuslaspinema

L. masc. preposition *secus*, beside; L. neut. n. *Laspinema*, An existing genus; *Secuslaspinema*: A genus related to but distinct from the existing genus Laspinema of beside.

Secuslatilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Latilactobacillus*, An existing genus; *Secuslatilactobacillus*: A genus related to but distinct from the existing genus Latilactobacillus of beside.

Secuslautropia

L. masc. preposition *secus*, beside; L. fem. n. *Lautropia*, An existing genus; *Secuslautropia*: A genus related to but distinct from the existing genus Lautropia of beside.

Secuslawsonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Lawsonella*, An existing genus; *Secuslawsonella*: A genus related to but distinct from the existing genus Lawsonella of beside.

Secuslawsonia

L. masc. preposition *secus*, beside; L. fem. n. *Lawsonia*, An existing genus; *Secuslawsonia*: A genus related to but distinct from the existing genus Lawsonia of beside.

Secuslawsonibacter

L. masc. preposition *secus*, beside; L. masc. n. *Lawsonibacter*, An existing genus; *Secuslawsonibacter*: A genus related to but distinct from the existing genus Lawsonibacter of beside.

Secusleadbetterella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Leadbetterella*, An existing genus; *Secusleadbetterella*: A genus related to but distinct from the existing genus Leadbetterella of beside.

Secuslebetimonas

L. masc. preposition *secus*, beside; L. fem. n. *Lebetimonas*, An existing genus; *Secuslebetimonas*: A genus related to but distinct from the existing genus Lebetimonas of beside.

Secuslechevalieria

L. masc. preposition *secus*, beside; L. fem. n. *Lechevalieria*, An existing genus; *Secuslechevalieria*: A genus related to but distinct from the existing genus Lechevalieria of beside.

Secusleclercia

L. masc. preposition *secus*, beside; L. fem. n. *Leclercia*, An existing genus; *Secusleclercia*: A genus related to but distinct from the existing genus Leclercia of beside.

Secusleeia

L. masc. preposition *secus*, beside; L. fem. n. *Leeia*, An existing genus; *Secusleeia*: A genus related to but distinct from the existing genus Leeia of beside.

Secusleekyejoonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Leekyejoonella*, An existing genus; *Secusleekyejoonella*: A genus related to but distinct from the existing genus Leekyejoonella of beside.

Secusleeuwenhoekiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Leeuwenhoekiella*, An existing genus; *Secusleeuwenhoekiella*: A genus related to but distinct from the existing genus Leeuwenhoekiella of beside.

Secuslegionella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Legionella*, An existing genus; *Secuslegionella*: A genus related to but distinct from the existing genus Legionella of beside.

Secusleifsonia

L. masc. preposition *secus*, beside; L. fem. n. *Leifsonia*, An existing genus; *Secusleifsonia*: A genus related to but distinct from the existing genus Leifsonia of beside.

Secusleisingera

L. masc. preposition *secus*, beside; L. fem. n. *Leisingera*, An existing genus; *Secusleisingera*: A genus related to but distinct from the existing genus Leisingera of beside.

Secuslelliottia

L. masc. preposition *secus*, beside; L. fem. n. *Lelliottia*, An existing genus; *Secuslelliottia*: A genus related to but distinct from the existing genus Lelliottia of beside.

Secusleminorella

L. masc. preposition *secus*, beside; L. fem. n. *Leminorella*, An existing genus; *Secusleminorella*: A genus related to but distinct from the existing genus Leminorella of beside.

Secuslemmermanniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Lemmermanniella*, An existing genus; *Secuslemmermanniella*: A genus related to but distinct from the existing genus Lemmermanniella of beside.

Secuslentibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Lentibacillus*, An existing genus; *Secuslentibacillus*: A genus related to but distinct from the existing genus Lentibacillus of beside.

Secuslentibacter

L. masc. preposition *secus*, beside; L. masc. n. *Lentibacter*, An existing genus; *Secuslentibacter*: A genus related to but distinct from the existing genus Lentibacter of beside.

Secuslentilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Lentilactobacillus*, An existing genus; *Secuslentilactobacillus*: A genus related to but distinct from the existing genus Lentilactobacillus of beside.

Secuslentilitoribacter

L. masc. preposition *secus*, beside; L. masc. n. *Lentilitoribacter*, An existing genus; *Secuslentilitoribacter*: A genus related to but distinct from the existing genus Lentilitoribacter of beside.

Secuslentimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Lentimicrobium*, An existing genus; *Secuslentimicrobium*: A genus related to but distinct from the existing genus Lentimicrobium of beside.

Secuslentisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Lentisphaera*, An existing genus; *Secuslentisphaera*: A genus related to but distinct from the existing genus Lentisphaera of beside.

Secuslentzea

L. masc. preposition *secus*, beside; L. fem. n. *Lentzea*, An existing genus; *Secuslentzea*: A genus related to but distinct from the existing genus Lentzea of beside.

Secusleptobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Leptobacterium*, An existing genus; *Secusleptobacterium*: A genus related to but distinct from the existing genus Leptobacterium of beside.

Secusleptolinea

L. masc. preposition *secus*, beside; L. fem. n. *Leptolinea*, An existing genus; *Secusleptolinea*: A genus related to but distinct from the existing genus Leptolinea of beside.

Secusleptonema

L. masc. preposition *secus*, beside; L. neut. n. *Leptonema*, An existing genus; *Secusleptonema*: A genus related to but distinct from the existing genus Leptonema of beside.

Secusleptospira

L. masc. preposition *secus*, beside; L. fem. n. *Leptospira*, An existing genus; *Secusleptospira*: A genus related to but distinct from the existing genus Leptospira of beside.

Secusleptospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Leptospirillum*, An existing genus; *Secusleptospirillum*: A genus related to but distinct from the existing genus Leptospirillum of beside.

Secusleptothoe

L. masc. preposition *secus*, beside; L. fem. n. *Leptothoe*, An existing genus; *Secusleptothoe*: A genus related to but distinct from the existing genus Leptothoe of beside.

Secusleptothrix

L. masc. preposition *secus*, beside; L. fem. n. *Leptothrix*, An existing genus; *Secusleptothrix*: A genus related to but distinct from the existing genus Leptothrix of beside.

Secusleptotrichia

L. masc. preposition *secus*, beside; L. fem. n. *Leptotrichia*, An existing genus; *Secusleptotrichia*: A genus related to but distinct from the existing genus Leptotrichia of beside.

Secusleucobacter

L. masc. preposition *secus*, beside; L. masc. n. *Leucobacter*, An existing genus; *Secusleucobacter*: A genus related to but distinct from the existing genus Leucobacter of beside.

Secusleuconostoc

L. masc. preposition *secus*, beside; L. neut. n. *Leuconostoc*, An existing genus; *Secusleuconostoc*: A genus related to but distinct from the existing genus Leuconostoc of beside.

Secusleucothrix

L. masc. preposition *secus*, beside; L. fem. n. *Leucothrix*, An existing genus; *Secusleucothrix*: A genus related to but distinct from the existing genus Leucothrix of beside.

Secuslevilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Levilactobacillus*, An existing genus; *Secuslevilactobacillus*: A genus related to but distinct from the existing genus Levilactobacillus of beside.

Secuslevilinea

L. masc. preposition *secus*, beside; L. fem. n. *Levilinea*, An existing genus; *Secuslevilinea*: A genus related to but distinct from the existing genus Levilinea of beside.

Secuslevinea

L. masc. preposition *secus*, beside; L. fem. n. *Levinea*, An existing genus; *Secuslevinea*: A genus related to but distinct from the existing genus Levinea of beside.

Secuslevispirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Levispirillum*, An existing genus; *Secuslevispirillum*: A genus related to but distinct from the existing genus Levispirillum of beside.

Secuslewinella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Lewinella*, An existing genus; *Secuslewinella*: A genus related to but distinct from the existing genus Lewinella of beside.

Secuslibanicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Libanicoccus*, An existing genus; *Secuslibanicoccus*: A genus related to but distinct from the existing genus Libanicoccus of beside.

Secusliberibacter

L. masc. preposition *secus*, beside; L. masc. n. *Liberibacter*, An existing genus; *Secusliberibacter*: A genus related to but distinct from the existing genus Liberibacter of beside.

Secuslichenibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Lichenibacterium*, An existing genus; *Secuslichenibacterium*: A genus related to but distinct from the existing genus Lichenibacterium of beside.

Secuslichenicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Lichenicoccus*, An existing genus; *Secuslichenicoccus*: A genus related to but distinct from the existing genus Lichenicoccus of beside.

Secuslichenihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Lichenihabitans*, An existing genus; *Secuslichenihabitans*: A genus related to but distinct from the existing genus Lichenihabitans of beside.

Secuslightfootiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Lightfootiella*, An existing genus; *Secuslightfootiella*: A genus related to but distinct from the existing genus Lightfootiella of beside.

Secusligilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Ligilactobacillus*, An existing genus; *Secusligilactobacillus*: A genus related to but distinct from the existing genus Ligilactobacillus of beside.

Secuslignipirellula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Lignipirellula*, An existing genus; *Secuslignipirellula*: A genus related to but distinct from the existing genus Lignipirellula of beside.

Secuslihuaxuella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Lihuaxuella*, An existing genus; *Secuslihuaxuella*: A genus related to but distinct from the existing genus Lihuaxuella of beside.

Secuslimibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Limibacillus*, An existing genus; *Secuslimibacillus*: A genus related to but distinct from the existing genus Limibacillus of beside.

Secuslimibacter

L. masc. preposition *secus*, beside; L. masc. n. *Limibacter*, An existing genus; *Secuslimibacter*: A genus related to but distinct from the existing genus Limibacter of beside.

Secuslimibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Limibaculum*, An existing genus; *Secuslimibaculum*: A genus related to but distinct from the existing genus Limibaculum of beside.

Secuslimihaloglobus

L. masc. preposition *secus*, beside; L. masc. n. *Limihaloglobus*, An existing genus; *Secuslimihaloglobus*: A genus related to but distinct from the existing genus Limihaloglobus of beside.

Secuslimimaricola

L. masc. preposition *secus*, beside; L. masc. n. *Limimaricola*, An existing genus; *Secuslimimaricola*: A genus related to but distinct from the existing genus Limimaricola of beside.

Secuslimimonas

L. masc. preposition *secus*, beside; L. fem. n. *Limimonas*, An existing genus; *Secuslimimonas*: A genus related to but distinct from the existing genus Limimonas of beside.

Secuslimisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Limisphaera*, An existing genus; *Secuslimisphaera*: A genus related to but distinct from the existing genus Limisphaera of beside.

Secuslimnobacter

L. masc. preposition *secus*, beside; L. masc. n. *Limnobacter*, An existing genus; *Secuslimnobacter*: A genus related to but distinct from the existing genus Limnobacter of beside.

Secuslimnobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Limnobaculum*, An existing genus; *Secuslimnobaculum*: A genus related to but distinct from the existing genus Limnobaculum of beside.

Secuslimnochorda

L. masc. preposition *secus*, beside; L. fem. n. *Limnochorda*, An existing genus; *Secuslimnochorda*: A genus related to but distinct from the existing genus Limnochorda of beside.

Secuslimnoglobus

L. masc. preposition *secus*, beside; L. masc. n. *Limnoglobus*, An existing genus; *Secuslimnoglobus*: A genus related to but distinct from the existing genus Limnoglobus of beside.

Secuslimnohabitans

L. masc. preposition *secus*, beside; L. masc. n. *Limnohabitans*, An existing genus; *Secuslimnohabitans*: A genus related to but distinct from the existing genus Limnohabitans of beside.

Secuslimnolyngbya

L. masc. preposition *secus*, beside; L. fem. n. *Limnolyngbya*, An existing genus; *Secuslimnolyngbya*: A genus related to but distinct from the existing genus Limnolyngbya of beside.

Secuslimnospira

L. masc. preposition *secus*, beside; L. fem. n. *Limnospira*, An existing genus; *Secuslimnospira*: A genus related to but distinct from the existing genus Limnospira of beside.

Secuslimoniibacter

L. masc. preposition *secus*, beside; L. masc. n. *Limoniibacter*, An existing genus; *Secuslimoniibacter*: A genus related to but distinct from the existing genus Limoniibacter of beside.

Secuslimosilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Limosilactobacillus*, An existing genus; *Secuslimosilactobacillus*: A genus related to but distinct from the existing genus Limosilactobacillus of beside.

Secuslipingzhangella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Lipingzhangella*, An existing genus; *Secuslipingzhangella*: A genus related to but distinct from the existing genus Lipingzhangella of beside.

Secusliquorilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Liquorilactobacillus*, An existing genus; *Secusliquorilactobacillus*: A genus related to but distinct from the existing genus Liquorilactobacillus of beside.

Secuslishizhenia

L. masc. preposition *secus*, beside; L. fem. n. *Lishizhenia*, An existing genus; *Secuslishizhenia*: A genus related to but distinct from the existing genus Lishizhenia of beside.

Secuslisteria

L. masc. preposition *secus*, beside; L. fem. n. *Listeria*, An existing genus; *Secuslisteria*: A genus related to but distinct from the existing genus Listeria of beside.

Secuslistonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Listonella*, An existing genus; *Secuslistonella*: A genus related to but distinct from the existing genus Listonella of beside.

Secuslitoreibacter

L. masc. preposition *secus*, beside; L. masc. n. *Litoreibacter*, An existing genus; *Secuslitoreibacter*: A genus related to but distinct from the existing genus Litoreibacter of beside.

Secuslitoribacillus

L. masc. preposition *secus*, beside; L. masc. n. *Litoribacillus*, An existing genus; *Secuslitoribacillus*: A genus related to but distinct from the existing genus Litoribacillus of beside.

Secuslitoribacter

L. masc. preposition *secus*, beside; L. masc. n. *Litoribacter*, An existing genus; *Secuslitoribacter*: A genus related to but distinct from the existing genus Litoribacter of beside.

Secuslitoribaculum

L. masc. preposition *secus*, beside; L. neut. n. *Litoribaculum*, An existing genus; *Secuslitoribaculum*: A genus related to but distinct from the existing genus Litoribaculum of beside.

Secuslitoribrevibacter

L. masc. preposition *secus*, beside; L. masc. n. *Litoribrevibacter*, An existing genus; *Secuslitoribrevibacter*: A genus related to but distinct from the existing genus Litoribrevibacter of beside.

Secuslitoricola

L. masc. preposition *secus*, beside; L. fem. n. *Litoricola*, An existing genus; *Secuslitoricola*: A genus related to but distinct from the existing genus Litoricola of beside.

Secuslitorihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Litorihabitans*, An existing genus; *Secuslitorihabitans*: A genus related to but distinct from the existing genus Litorihabitans of beside.

Secuslitorilinea

L. masc. preposition *secus*, beside; L. fem. n. *Litorilinea*, An existing genus; *Secuslitorilinea*: A genus related to but distinct from the existing genus Litorilinea of beside.

Secuslitorilituus

L. masc. preposition *secus*, beside; L. masc. n. *Litorilituus*, An existing genus; *Secuslitorilituus*: A genus related to but distinct from the existing genus Litorilituus of beside.

Secuslitorimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Litorimicrobium*, An existing genus; *Secuslitorimicrobium*: A genus related to but distinct from the existing genus Litorimicrobium of beside.

Secuslitorimonas

L. masc. preposition *secus*, beside; L. fem. n. *Litorimonas*, An existing genus; *Secuslitorimonas*: A genus related to but distinct from the existing genus Litorimonas of beside.

Secuslitorisediminicola

L. masc. preposition *secus*, beside; L. masc. n. *Litorisediminicola*, An existing genus; *Secuslitorisediminicola*: A genus related to but distinct from the existing genus Litorisediminicola of beside.

Secuslitorisediminivivens

L. masc. preposition *secus*, beside; L. masc. n. *Litorisediminivivens*, An existing genus; *Secuslitorisediminivivens*: A genus related to but distinct from the existing genus Litorisediminivivens of beside.

Secuslitorivita

L. masc. preposition *secus*, beside; L. fem. n. *Litorivita*, An existing genus; *Secuslitorivita*: A genus related to but distinct from the existing genus Litorivita of beside.

Secuslitorivivens

L. masc. preposition *secus*, beside; L. fem. n. *Litorivivens*, An existing genus; *Secuslitorivivens*: A genus related to but distinct from the existing genus Litorivivens of beside.

Secusloigolactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Loigolactobacillus*, An existing genus; *Secusloigolactobacillus*: A genus related to but distinct from the existing genus Loigolactobacillus of beside.

Secuslokiarchaeum

L. masc. preposition *secus*, beside; L. neut. n. *Lokiarchaeum*, An existing genus; *Secuslokiarchaeum*: A genus related to but distinct from the existing genus Lokiarchaeum of beside.

Secusloktanella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Loktanella*, An existing genus; *Secusloktanella*: A genus related to but distinct from the existing genus Loktanella of beside.

Secuslonepinella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Lonepinella*, An existing genus; *Secuslonepinella*: A genus related to but distinct from the existing genus Lonepinella of beside.

Secuslongibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Longibaculum*, An existing genus; *Secuslongibaculum*: A genus related to but distinct from the existing genus Longibaculum of beside.

Secuslongicatena

L. masc. preposition *secus*, beside; L. fem. n. *Longicatena*, An existing genus; *Secuslongicatena*: A genus related to but distinct from the existing genus Longicatena of beside.

Secuslongilinea

L. masc. preposition *secus*, beside; L. fem. n. *Longilinea*, An existing genus; *Secuslongilinea*: A genus related to but distinct from the existing genus Longilinea of beside.

Secuslongimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Longimicrobium*, An existing genus; *Secuslongimicrobium*: A genus related to but distinct from the existing genus Longimicrobium of beside.

Secuslongimycelium

L. masc. preposition *secus*, beside; L. neut. n. *Longimycelium*, An existing genus; *Secuslongimycelium*: A genus related to but distinct from the existing genus Longimycelium of beside.

Secuslongirhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Longirhabdus*, An existing genus; *Secuslongirhabdus*: A genus related to but distinct from the existing genus Longirhabdus of beside.

Secuslongispora

L. masc. preposition *secus*, beside; L. fem. n. *Longispora*, An existing genus; *Secuslongispora*: A genus related to but distinct from the existing genus Longispora of beside.

Secuslongivirga

L. masc. preposition *secus*, beside; L. fem. n. *Longivirga*, An existing genus; *Secuslongivirga*: A genus related to but distinct from the existing genus Longivirga of beside.

Secuslonsdalea

L. masc. preposition *secus*, beside; L. fem. n. *Lonsdalea*, An existing genus; *Secuslonsdalea*: A genus related to but distinct from the existing genus Lonsdalea of beside.

Secusloriella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Loriella*, An existing genus; *Secusloriella*: A genus related to but distinct from the existing genus Loriella of beside.

Secusloriellopsis

L. masc. preposition *secus*, beside; L. fem. n. *Loriellopsis*, An existing genus; *Secusloriellopsis*: A genus related to but distinct from the existing genus Loriellopsis of beside.

Secuslottiidibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Lottiidibacillus*, An existing genus; *Secuslottiidibacillus*: A genus related to but distinct from the existing genus Lottiidibacillus of beside.

Secuslucibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Lucibacterium*, An existing genus; *Secuslucibacterium*: A genus related to but distinct from the existing genus Lucibacterium of beside.

Secusluedemannella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Luedemannella*, An existing genus; *Secusluedemannella*: A genus related to but distinct from the existing genus Luedemannella of beside.

Secusluethyella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Luethyella*, An existing genus; *Secusluethyella*: A genus related to but distinct from the existing genus Luethyella of beside.

Secuslujinxingia

L. masc. preposition *secus*, beside; L. fem. n. *Lujinxingia*, An existing genus; *Secuslujinxingia*: A genus related to but distinct from the existing genus Lujinxingia of beside.

Secusluminiphilus

L. masc. preposition *secus*, beside; L. masc. n. *Luminiphilus*, An existing genus; *Secusluminiphilus*: A genus related to but distinct from the existing genus Luminiphilus of beside.

Secuslunatimonas

L. masc. preposition *secus*, beside; L. fem. n. *Lunatimonas*, An existing genus; *Secuslunatimonas*: A genus related to but distinct from the existing genus Lunatimonas of beside.

Secuslusitaniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Lusitaniella*, An existing genus; *Secuslusitaniella*: A genus related to but distinct from the existing genus Lusitaniella of beside.

Secuslutaonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Lutaonella*, An existing genus; *Secuslutaonella*: A genus related to but distinct from the existing genus Lutaonella of beside.

Secusluteibacter

L. masc. preposition *secus*, beside; L. masc. n. *Luteibacter*, An existing genus; *Secusluteibacter*: A genus related to but distinct from the existing genus Luteibacter of beside.

Secusluteibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Luteibaculum*, An existing genus; *Secusluteibaculum*: A genus related to but distinct from the existing genus Luteibaculum of beside.

Secusluteimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Luteimicrobium*, An existing genus; *Secusluteimicrobium*: A genus related to but distinct from the existing genus Luteimicrobium of beside.

Secusluteimonas

L. masc. preposition *secus*, beside; L. fem. n. *Luteimonas*, An existing genus; *Secusluteimonas*: A genus related to but distinct from the existing genus Luteimonas of beside.

Secusluteipulveratus

L. masc. preposition *secus*, beside; L. masc. n. *Luteipulveratus*, An existing genus; *Secusluteipulveratus*: A genus related to but distinct from the existing genus Luteipulveratus of beside.

Secusluteitalea

L. masc. preposition *secus*, beside; L. fem. n. *Luteitalea*, An existing genus; *Secusluteitalea*: A genus related to but distinct from the existing genus Luteitalea of beside.

Secusluteithermobacter

L. masc. preposition *secus*, beside; L. masc. n. *Luteithermobacter*, An existing genus; *Secusluteithermobacter*: A genus related to but distinct from the existing genus Luteithermobacter of beside.

Secusluteivirga

L. masc. preposition *secus*, beside; L. fem. n. *Luteivirga*, An existing genus; *Secusluteivirga*: A genus related to but distinct from the existing genus Luteivirga of beside.

Secusluteococcus

L. masc. preposition *secus*, beside; L. masc. n. *Luteococcus*, An existing genus; *Secusluteococcus*: A genus related to but distinct from the existing genus Luteococcus of beside.

Secusluteolibacter

L. masc. preposition *secus*, beside; L. masc. n. *Luteolibacter*, An existing genus; *Secusluteolibacter*: A genus related to but distinct from the existing genus Luteolibacter of beside.

Secusluteovulum

L. masc. preposition *secus*, beside; L. neut. n. *Luteovulum*, An existing genus; *Secusluteovulum*: A genus related to but distinct from the existing genus Luteovulum of beside.

Secuslutibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Lutibacterium*, An existing genus; *Secuslutibacterium*: A genus related to but distinct from the existing genus Lutibacterium of beside.

Secuslutimaribacter

L. masc. preposition *secus*, beside; L. masc. n. *Lutimaribacter*, An existing genus; *Secuslutimaribacter*: A genus related to but distinct from the existing genus Lutimaribacter of beside.

Secuslutimonas

L. masc. preposition *secus*, beside; L. fem. n. *Lutimonas*, An existing genus; *Secuslutimonas*: A genus related to but distinct from the existing genus Lutimonas of beside.

Secuslutispora

L. masc. preposition *secus*, beside; L. fem. n. *Lutispora*, An existing genus; *Secuslutispora*: A genus related to but distinct from the existing genus Lutispora of beside.

Secuslysinibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Lysinibacillus*, An existing genus; *Secuslysinibacillus*: A genus related to but distinct from the existing genus Lysinibacillus of beside.

Secuslysinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Lysinibacter*, An existing genus; *Secuslysinibacter*: A genus related to but distinct from the existing genus Lysinibacter of beside.

Secuslysinimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Lysinimicrobium*, An existing genus; *Secuslysinimicrobium*: A genus related to but distinct from the existing genus Lysinimicrobium of beside.

Secuslysinimonas

L. masc. preposition *secus*, beside; L. fem. n. *Lysinimonas*, An existing genus; *Secuslysinimonas*: A genus related to but distinct from the existing genus Lysinimonas of beside.

Secuslysobacter

L. masc. preposition *secus*, beside; L. masc. n. *Lysobacter*, An existing genus; *Secuslysobacter*: A genus related to but distinct from the existing genus Lysobacter of beside.

Secuslyticum

L. masc. preposition *secus*, beside; L. neut. n. *Lyticum*, An existing genus; *Secuslyticum*: A genus related to but distinct from the existing genus Lyticum of beside.

Secusmabikibacter

L. masc. preposition *secus*, beside; L. masc. n. *Mabikibacter*, An existing genus; *Secusmabikibacter*: A genus related to but distinct from the existing genus Mabikibacter of beside.

Secusmacellibacteroides

L. masc. preposition *secus*, beside; L. masc. n. *Macellibacteroides*, An existing genus; *Secusmacellibacteroides*: A genus related to but distinct from the existing genus Macellibacteroides of beside.

Secusmacrochaete

L. masc. preposition *secus*, beside; L. fem. n. *Macrochaete*, An existing genus; *Secusmacrochaete*: A genus related to but distinct from the existing genus Macrochaete of beside.

Secusmacrococcus

L. masc. preposition *secus*, beside; L. masc. n. *Macrococcus*, An existing genus; *Secusmacrococcus*: A genus related to but distinct from the existing genus Macrococcus of beside.

Secusmageeibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Mageeibacillus*, An existing genus; *Secusmageeibacillus*: A genus related to but distinct from the existing genus Mageeibacillus of beside.

Secusmagnetococcus

L. masc. preposition *secus*, beside; L. masc. n. *Magnetococcus*, An existing genus; *Secusmagnetococcus*: A genus related to but distinct from the existing genus Magnetococcus of beside.

Secusmagnetospira

L. masc. preposition *secus*, beside; L. fem. n. *Magnetospira*, An existing genus; *Secusmagnetospira*: A genus related to but distinct from the existing genus Magnetospira of beside.

Secusmagnetospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Magnetospirillum*, An existing genus; *Secusmagnetospirillum*: A genus related to but distinct from the existing genus Magnetospirillum of beside.

Secusmagnetovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Magnetovibrio*, An existing genus; *Secusmagnetovibrio*: A genus related to but distinct from the existing genus Magnetovibrio of beside.

Secusmahella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Mahella*, An existing genus; *Secusmahella*: A genus related to but distinct from the existing genus Mahella of beside.

Secusmalacoplasma

L. masc. preposition *secus*, beside; L. neut. n. *Malacoplasma*, An existing genus; *Secusmalacoplasma*: A genus related to but distinct from the existing genus Malacoplasma of beside.

Secusmaledivibacter

L. masc. preposition *secus*, beside; L. masc. n. *Maledivibacter*, An existing genus; *Secusmaledivibacter*: A genus related to but distinct from the existing genus Maledivibacter of beside.

Secusmalikia

L. masc. preposition *secus*, beside; L. fem. n. *Malikia*, An existing genus; *Secusmalikia*: A genus related to but distinct from the existing genus Malikia of beside.

Secusmaliponia

L. masc. preposition *secus*, beside; L. fem. n. *Maliponia*, An existing genus; *Secusmaliponia*: A genus related to but distinct from the existing genus Maliponia of beside.

Secusmameliella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Mameliella*, An existing genus; *Secusmameliella*: A genus related to but distinct from the existing genus Mameliella of beside.

Secusmangrovibacter

L. masc. preposition *secus*, beside; L. masc. n. *Mangrovibacter*, An existing genus; *Secusmangrovibacter*: A genus related to but distinct from the existing genus Mangrovibacter of beside.

Secusmangrovibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Mangrovibacterium*, An existing genus; *Secusmangrovibacterium*: A genus related to but distinct from the existing genus Mangrovibacterium of beside.

Secusmangrovicella

L. masc. preposition *secus*, beside; L. fem. n. *Mangrovicella*, An existing genus; *Secusmangrovicella*: A genus related to but distinct from the existing genus Mangrovicella of beside.

Secusmangrovicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Mangrovicoccus*, An existing genus; *Secusmangrovicoccus*: A genus related to but distinct from the existing genus Mangrovicoccus of beside.

Secusmangroviflexus

L. masc. preposition *secus*, beside; L. masc. n. *Mangroviflexus*, An existing genus; *Secusmangroviflexus*: A genus related to but distinct from the existing genus Mangroviflexus of beside.

Secusmangrovihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Mangrovihabitans*, An existing genus; *Secusmangrovihabitans*: A genus related to but distinct from the existing genus Mangrovihabitans of beside.

Secusmangrovimonas

L. masc. preposition *secus*, beside; L. fem. n. *Mangrovimonas*, An existing genus; *Secusmangrovimonas*: A genus related to but distinct from the existing genus Mangrovimonas of beside.

Secusmangrovitalea

L. masc. preposition *secus*, beside; L. fem. n. *Mangrovitalea*, An existing genus; *Secusmangrovitalea*: A genus related to but distinct from the existing genus Mangrovitalea of beside.

Secusmannheimia

L. masc. preposition *secus*, beside; L. fem. n. *Mannheimia*, An existing genus; *Secusmannheimia*: A genus related to but distinct from the existing genus Mannheimia of beside.

Secusmarasmitruncus

L. masc. preposition *secus*, beside; L. masc. n. *Marasmitruncus*, An existing genus; *Secusmarasmitruncus*: A genus related to but distinct from the existing genus Marasmitruncus of beside.

Secusmaribacillus

L. masc. preposition *secus*, beside; L. masc. n. *Maribacillus*, An existing genus; *Secusmaribacillus*: A genus related to but distinct from the existing genus Maribacillus of beside.

Secusmaribacter

L. masc. preposition *secus*, beside; L. masc. n. *Maribacter*, An existing genus; *Secusmaribacter*: A genus related to but distinct from the existing genus Maribacter of beside.

Secusmaribaculum

L. masc. preposition *secus*, beside; L. neut. n. *Maribaculum*, An existing genus; *Secusmaribaculum*: A genus related to but distinct from the existing genus Maribaculum of beside.

Secusmaribellus

L. masc. preposition *secus*, beside; L. masc. n. *Maribellus*, An existing genus; *Secusmaribellus*: A genus related to but distinct from the existing genus Maribellus of beside.

Secusmaribius

L. masc. preposition *secus*, beside; L. masc. n. *Maribius*, An existing genus; *Secusmaribius*: A genus related to but distinct from the existing genus Maribius of beside.

Secusmaricaulis

L. masc. preposition *secus*, beside; L. masc. n. *Maricaulis*, An existing genus; *Secusmaricaulis*: A genus related to but distinct from the existing genus Maricaulis of beside.

Secusmarichromatium

L. masc. preposition *secus*, beside; L. neut. n. *Marichromatium*, An existing genus; *Secusmarichromatium*: A genus related to but distinct from the existing genus Marichromatium of beside.

Secusmaricurvus

L. masc. preposition *secus*, beside; L. masc. n. *Maricurvus*, An existing genus; *Secusmaricurvus*: A genus related to but distinct from the existing genus Maricurvus of beside.

Secusmarihabitans

L. masc. preposition *secus*, beside; L. neut. n. *Marihabitans*, An existing genus; *Secusmarihabitans*: A genus related to but distinct from the existing genus Marihabitans of beside.

Secusmarileptolyngbya

L. masc. preposition *secus*, beside; L. fem. n. *Marileptolyngbya*, An existing genus; *Secusmarileptolyngbya*: A genus related to but distinct from the existing genus Marileptolyngbya of beside.

Secusmarimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Marimicrobium*, An existing genus; *Secusmarimicrobium*: A genus related to but distinct from the existing genus Marimicrobium of beside.

Secusmarimonas

L. masc. preposition *secus*, beside; L. fem. n. *Marimonas*, An existing genus; *Secusmarimonas*: A genus related to but distinct from the existing genus Marimonas of beside.

Secusmarinactinospora

L. masc. preposition *secus*, beside; L. fem. n. *Marinactinospora*, An existing genus; *Secusmarinactinospora*: A genus related to but distinct from the existing genus Marinactinospora of beside.

Secusmarinagarivorans

L. masc. preposition *secus*, beside; L. masc. n. *Marinagarivorans*, An existing genus; *Secusmarinagarivorans*: A genus related to but distinct from the existing genus Marinagarivorans of beside.

Secusmarinibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Marinibacillus*, An existing genus; *Secusmarinibacillus*: A genus related to but distinct from the existing genus Marinibacillus of beside.

Secusmarinibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Marinibacterium*, An existing genus; *Secusmarinibacterium*: A genus related to but distinct from the existing genus Marinibacterium of beside.

Secusmarinibactrum

L. masc. preposition *secus*, beside; L. neut. n. *Marinibactrum*, An existing genus; *Secusmarinibactrum*: A genus related to but distinct from the existing genus Marinibactrum of beside.

Secusmarinibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Marinibaculum*, An existing genus; *Secusmarinibaculum*: A genus related to but distinct from the existing genus Marinibaculum of beside.

Secusmariniblastus

L. masc. preposition *secus*, beside; L. masc. n. *Mariniblastus*, An existing genus; *Secusmariniblastus*: A genus related to but distinct from the existing genus Mariniblastus of beside.

Secusmarinicauda

L. masc. preposition *secus*, beside; L. fem. n. *Marinicauda*, An existing genus; *Secusmarinicauda*: A genus related to but distinct from the existing genus Marinicauda of beside.

Secusmarinicaulis

L. masc. preposition *secus*, beside; L. masc. n. *Marinicaulis*, An existing genus; *Secusmarinicaulis*: A genus related to but distinct from the existing genus Marinicaulis of beside.

Secusmarinicella

L. masc. preposition *secus*, beside; L. fem. n. *Marinicella*, An existing genus; *Secusmarinicella*: A genus related to but distinct from the existing genus Marinicella of beside.

Secusmarinicola

L. masc. preposition *secus*, beside; L. masc. n. *Marinicola*, An existing genus; *Secusmarinicola*: A genus related to but distinct from the existing genus Marinicola of beside.

Secusmarinicrinis

L. masc. preposition *secus*, beside; L. masc. n. *Marinicrinis*, An existing genus; *Secusmarinicrinis*: A genus related to but distinct from the existing genus Marinicrinis of beside.

Secusmarinifilum

L. masc. preposition *secus*, beside; L. neut. n. *Marinifilum*, An existing genus; *Secusmarinifilum*: A genus related to but distinct from the existing genus Marinifilum of beside.

Secusmariniflexile

L. masc. preposition *secus*, beside; L. neut. n. *Mariniflexile*, An existing genus; *Secusmariniflexile*: A genus related to but distinct from the existing genus Mariniflexile of beside.

Secusmarinilabilia

L. masc. preposition *secus*, beside; L. fem. n. *Marinilabilia*, An existing genus; *Secusmarinilabilia*: A genus related to but distinct from the existing genus Marinilabilia of beside.

Secusmarinilactibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Marinilactibacillus*, An existing genus; *Secusmarinilactibacillus*: A genus related to but distinct from the existing genus Marinilactibacillus of beside.

Secusmariniluteicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Mariniluteicoccus*, An existing genus; *Secusmariniluteicoccus*: A genus related to but distinct from the existing genus Mariniluteicoccus of beside.

Secusmarinimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Marinimicrobium*, An existing genus; *Secusmarinimicrobium*: A genus related to but distinct from the existing genus Marinimicrobium of beside.

Secusmarininema

L. masc. preposition *secus*, beside; L. neut. n. *Marininema*, An existing genus; *Secusmarininema*: A genus related to but distinct from the existing genus Marininema of beside.

Secusmariniphaga

L. masc. preposition *secus*, beside; L. fem. n. *Mariniphaga*, An existing genus; *Secusmariniphaga*: A genus related to but distinct from the existing genus Mariniphaga of beside.

Secusmariniradius

L. masc. preposition *secus*, beside; L. masc. n. *Mariniradius*, An existing genus; *Secusmariniradius*: A genus related to but distinct from the existing genus Mariniradius of beside.

Secusmarinirhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Marinirhabdus*, An existing genus; *Secusmarinirhabdus*: A genus related to but distinct from the existing genus Marinirhabdus of beside.

Secusmarinisporobacter

L. masc. preposition *secus*, beside; L. masc. n. *Marinisporobacter*, An existing genus; *Secusmarinisporobacter*: A genus related to but distinct from the existing genus Marinisporobacter of beside.

Secusmarinitalea

L. masc. preposition *secus*, beside; L. fem. n. *Marinitalea*, An existing genus; *Secusmarinitalea*: A genus related to but distinct from the existing genus Marinitalea of beside.

Secusmarinitenerispora

L. masc. preposition *secus*, beside; L. fem. n. *Marinitenerispora*, An existing genus; *Secusmarinitenerispora*: A genus related to but distinct from the existing genus Marinitenerispora of beside.

Secusmarinithermofilum

L. masc. preposition *secus*, beside; L. neut. n. *Marinithermofilum*, An existing genus; *Secusmarinithermofilum*: A genus related to but distinct from the existing genus Marinithermofilum of beside.

Secusmarinithermus

L. masc. preposition *secus*, beside; L. masc. n. *Marinithermus*, An existing genus; *Secusmarinithermus*: A genus related to but distinct from the existing genus Marinithermus of beside.

Secusmarinitoga

L. masc. preposition *secus*, beside; L. fem. n. *Marinitoga*, An existing genus; *Secusmarinitoga*: A genus related to but distinct from the existing genus Marinitoga of beside.

Secusmarinivirga

L. masc. preposition *secus*, beside; L. fem. n. *Marinivirga*, An existing genus; *Secusmarinivirga*: A genus related to but distinct from the existing genus Marinivirga of beside.

Secusmarinobacter

L. masc. preposition *secus*, beside; L. masc. n. *Marinobacter*, An existing genus; *Secusmarinobacter*: A genus related to but distinct from the existing genus Marinobacter of beside.

Secusmarinobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Marinobacterium*, An existing genus; *Secusmarinobacterium*: A genus related to but distinct from the existing genus Marinobacterium of beside.

Secusmarinococcus

L. masc. preposition *secus*, beside; L. masc. n. *Marinococcus*, An existing genus; *Secusmarinococcus*: A genus related to but distinct from the existing genus Marinococcus of beside.

Secusmarinomonas

L. masc. preposition *secus*, beside; L. fem. n. *Marinomonas*, An existing genus; *Secusmarinomonas*: A genus related to but distinct from the existing genus Marinomonas of beside.

Secusmarinoscillum

L. masc. preposition *secus*, beside; L. neut. n. *Marinoscillum*, An existing genus; *Secusmarinoscillum*: A genus related to but distinct from the existing genus Marinoscillum of beside.

Secusmarinospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Marinospirillum*, An existing genus; *Secusmarinospirillum*: A genus related to but distinct from the existing genus Marinospirillum of beside.

Secusmarinosulfonomonas

L. masc. preposition *secus*, beside; L. fem. n. *Marinosulfonomonas*, An existing genus; *Secusmarinosulfonomonas*: A genus related to but distinct from the existing genus Marinosulfonomonas of beside.

Secusmarinovum

L. masc. preposition *secus*, beside; L. neut. n. *Marinovum*, An existing genus; *Secusmarinovum*: A genus related to but distinct from the existing genus Marinovum of beside.

Secusmariprofundus

L. masc. preposition *secus*, beside; L. masc. n. *Mariprofundus*, An existing genus; *Secusmariprofundus*: A genus related to but distinct from the existing genus Mariprofundus of beside.

Secusmaripseudobacter

L. masc. preposition *secus*, beside; L. masc. n. *Maripseudobacter*, An existing genus; *Secusmaripseudobacter*: A genus related to but distinct from the existing genus Maripseudobacter of beside.

Secusmarisediminicola

L. masc. preposition *secus*, beside; L. fem. n. *Marisediminicola*, An existing genus; *Secusmarisediminicola*: A genus related to but distinct from the existing genus Marisediminicola of beside.

Secusmarisediminitalea

L. masc. preposition *secus*, beside; L. fem. n. *Marisediminitalea*, An existing genus; *Secusmarisediminitalea*: A genus related to but distinct from the existing genus Marisediminitalea of beside.

Secusmarispirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Marispirillum*, An existing genus; *Secusmarispirillum*: A genus related to but distinct from the existing genus Marispirillum of beside.

Secusmarispirochaeta

L. masc. preposition *secus*, beside; L. fem. n. *Marispirochaeta*, An existing genus; *Secusmarispirochaeta*: A genus related to but distinct from the existing genus Marispirochaeta of beside.

Secusmaritalea

L. masc. preposition *secus*, beside; L. fem. n. *Maritalea*, An existing genus; *Secusmaritalea*: A genus related to but distinct from the existing genus Maritalea of beside.

Secusmaritimibacter

L. masc. preposition *secus*, beside; L. masc. n. *Maritimibacter*, An existing genus; *Secusmaritimibacter*: A genus related to but distinct from the existing genus Maritimibacter of beside.

Secusmaritimimonas

L. masc. preposition *secus*, beside; L. fem. n. *Maritimimonas*, An existing genus; *Secusmaritimimonas*: A genus related to but distinct from the existing genus Maritimimonas of beside.

Secusmarivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Marivibrio*, An existing genus; *Secusmarivibrio*: A genus related to but distinct from the existing genus Marivibrio of beside.

Secusmarivirga

L. masc. preposition *secus*, beside; L. fem. n. *Marivirga*, An existing genus; *Secusmarivirga*: A genus related to but distinct from the existing genus Marivirga of beside.

Secusmarivita

L. masc. preposition *secus*, beside; L. fem. n. *Marivita*, An existing genus; *Secusmarivita*: A genus related to but distinct from the existing genus Marivita of beside.

Secusmarixanthomonas

L. masc. preposition *secus*, beside; L. fem. n. *Marixanthomonas*, An existing genus; *Secusmarixanthomonas*: A genus related to but distinct from the existing genus Marixanthomonas of beside.

Secusmarmoricola

L. masc. preposition *secus*, beside; L. masc. n. *Marmoricola*, An existing genus; *Secusmarmoricola*: A genus related to but distinct from the existing genus Marmoricola of beside.

Secusmarortus

L. masc. preposition *secus*, beside; L. masc. n. *Marortus*, An existing genus; *Secusmarortus*: A genus related to but distinct from the existing genus Marortus of beside.

Secusmartelella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Martelella*, An existing genus; *Secusmartelella*: A genus related to but distinct from the existing genus Martelella of beside.

Secusmarvinbryantia

L. masc. preposition *secus*, beside; L. fem. n. *Marvinbryantia*, An existing genus; *Secusmarvinbryantia*: A genus related to but distinct from the existing genus Marvinbryantia of beside.

Secusmassilibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Massilibacterium*, An existing genus; *Secusmassilibacterium*: A genus related to but distinct from the existing genus Massilibacterium of beside.

Secusmassiliimalia

L. masc. preposition *secus*, beside; L. fem. n. *Massiliimalia*, An existing genus; *Secusmassiliimalia*: A genus related to but distinct from the existing genus Massiliimalia of beside.

Secusmechercharimyces

L. masc. preposition *secus*, beside; L. masc. n. *Mechercharimyces*, An existing genus; *Secusmechercharimyces*: A genus related to but distinct from the existing genus Mechercharimyces of beside.

Secusmediterraneibacter

L. masc. preposition *secus*, beside; L. masc. n. *Mediterraneibacter*, An existing genus; *Secusmediterraneibacter*: A genus related to but distinct from the existing genus Mediterraneibacter of beside.

Secusmegamonas

L. masc. preposition *secus*, beside; L. fem. n. *Megamonas*, An existing genus; *Secusmegamonas*: A genus related to but distinct from the existing genus Megamonas of beside.

Secusmeganema

L. masc. preposition *secus*, beside; L. neut. n. *Meganema*, An existing genus; *Secusmeganema*: A genus related to but distinct from the existing genus Meganema of beside.

Secusmegasphaera

L. masc. preposition *secus*, beside; L. fem. n. *Megasphaera*, An existing genus; *Secusmegasphaera*: A genus related to but distinct from the existing genus Megasphaera of beside.

Secusmeiothermus

L. masc. preposition *secus*, beside; L. masc. n. *Meiothermus*, An existing genus; *Secusmeiothermus*: A genus related to but distinct from the existing genus Meiothermus of beside.

Secusmelaminivora

L. masc. preposition *secus*, beside; L. fem. n. *Melaminivora*, An existing genus; *Secusmelaminivora*: A genus related to but distinct from the existing genus Melaminivora of beside.

Secusmelghiribacillus

L. masc. preposition *secus*, beside; L. masc. n. *Melghiribacillus*, An existing genus; *Secusmelghiribacillus*: A genus related to but distinct from the existing genus Melghiribacillus of beside.

Secusmelghirimyces

L. masc. preposition *secus*, beside; L. masc. n. *Melghirimyces*, An existing genus; *Secusmelghirimyces*: A genus related to but distinct from the existing genus Melghirimyces of beside.

Secusmelioribacter

L. masc. preposition *secus*, beside; L. masc. n. *Melioribacter*, An existing genus; *Secusmelioribacter*: A genus related to but distinct from the existing genus Melioribacter of beside.

Secusmelissococcus

L. masc. preposition *secus*, beside; L. masc. n. *Melissococcus*, An existing genus; *Secusmelissococcus*: A genus related to but distinct from the existing genus Melissococcus of beside.

Secusmelitea

L. masc. preposition *secus*, beside; L. fem. n. *Melitea*, An existing genus; *Secusmelitea*: A genus related to but distinct from the existing genus Melitea of beside.

Secusmelittangium

L. masc. preposition *secus*, beside; L. neut. n. *Melittangium*, An existing genus; *Secusmelittangium*: A genus related to but distinct from the existing genus Melittangium of beside.

Secusmembranicola

L. masc. preposition *secus*, beside; L. masc. n. *Membranicola*, An existing genus; *Secusmembranicola*: A genus related to but distinct from the existing genus Membranicola of beside.

Secusmeniscus

L. masc. preposition *secus*, beside; L. masc. n. *Meniscus*, An existing genus; *Secusmeniscus*: A genus related to but distinct from the existing genus Meniscus of beside.

Secusmerdibacter

L. masc. preposition *secus*, beside; L. masc. n. *Merdibacter*, An existing genus; *Secusmerdibacter*: A genus related to but distinct from the existing genus Merdibacter of beside.

Secusmerdimonas

L. masc. preposition *secus*, beside; L. fem. n. *Merdimonas*, An existing genus; *Secusmerdimonas*: A genus related to but distinct from the existing genus Merdimonas of beside.

Secusmeridianimaribacter

L. masc. preposition *secus*, beside; L. masc. n. *Meridianimaribacter*, An existing genus; *Secusmeridianimaribacter*: A genus related to but distinct from the existing genus Meridianimaribacter of beside.

Secusmeridianimarinicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Meridianimarinicoccus*, An existing genus; *Secusmeridianimarinicoccus*: A genus related to but distinct from the existing genus Meridianimarinicoccus of beside.

Secusmesoaciditoga

L. masc. preposition *secus*, beside; L. fem. n. *Mesoaciditoga*, An existing genus; *Secusmesoaciditoga*: A genus related to but distinct from the existing genus Mesoaciditoga of beside.

Secusmesobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Mesobacillus*, An existing genus; *Secusmesobacillus*: A genus related to but distinct from the existing genus Mesobacillus of beside.

Secusmesocricetibacter

L. masc. preposition *secus*, beside; L. masc. n. *Mesocricetibacter*, An existing genus; *Secusmesocricetibacter*: A genus related to but distinct from the existing genus Mesocricetibacter of beside.

Secusmesoflavibacter

L. masc. preposition *secus*, beside; L. masc. n. *Mesoflavibacter*, An existing genus; *Secusmesoflavibacter*: A genus related to but distinct from the existing genus Mesoflavibacter of beside.

Secusmesohalobacter

L. masc. preposition *secus*, beside; L. masc. n. *Mesohalobacter*, An existing genus; *Secusmesohalobacter*: A genus related to but distinct from the existing genus Mesohalobacter of beside.

Secusmesomycoplasma

L. masc. preposition *secus*, beside; L. neut. n. *Mesomycoplasma*, An existing genus; *Secusmesomycoplasma*: A genus related to but distinct from the existing genus Mesomycoplasma of beside.

Secusmesonia

L. masc. preposition *secus*, beside; L. fem. n. *Mesonia*, An existing genus; *Secusmesonia*: A genus related to but distinct from the existing genus Mesonia of beside.

Secusmesophilobacter

L. masc. preposition *secus*, beside; L. masc. n. *Mesophilobacter*, An existing genus; *Secusmesophilobacter*: A genus related to but distinct from the existing genus Mesophilobacter of beside.

Secusmesoplasma

L. masc. preposition *secus*, beside; L. neut. n. *Mesoplasma*, An existing genus; *Secusmesoplasma*: A genus related to but distinct from the existing genus Mesoplasma of beside.

Secusmesorhizobium

L. masc. preposition *secus*, beside; L. neut. n. *Mesorhizobium*, An existing genus; *Secusmesorhizobium*: A genus related to but distinct from the existing genus Mesorhizobium of beside.

Secusmesosutterella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Mesosutterella*, An existing genus; *Secusmesosutterella*: A genus related to but distinct from the existing genus Mesosutterella of beside.

Secusmesotoga

L. masc. preposition *secus*, beside; L. fem. n. *Mesotoga*, An existing genus; *Secusmesotoga*: A genus related to but distinct from the existing genus Mesotoga of beside.

Secusmetabacillus

L. masc. preposition *secus*, beside; L. masc. n. *Metabacillus*, An existing genus; *Secusmetabacillus*: A genus related to but distinct from the existing genus Metabacillus of beside.

Secusmetakosakonia

L. masc. preposition *secus*, beside; L. fem. n. *Metakosakonia*, An existing genus; *Secusmetakosakonia*: A genus related to but distinct from the existing genus Metakosakonia of beside.

Secusmetallibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Metallibacterium*, An existing genus; *Secusmetallibacterium*: A genus related to but distinct from the existing genus Metallibacterium of beside.

Secusmetalliresistens

L. masc. preposition *secus*, beside; L. masc. n. *Metalliresistens*, An existing genus; *Secusmetalliresistens*: A genus related to but distinct from the existing genus Metalliresistens of beside.

Secusmetallosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Metallosphaera*, An existing genus; *Secusmetallosphaera*: A genus related to but distinct from the existing genus Metallosphaera of beside.

Secusmetalysinibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Metalysinibacillus*, An existing genus; *Secusmetalysinibacillus*: A genus related to but distinct from the existing genus Metalysinibacillus of beside.

Secusmetamycoplasma

L. masc. preposition *secus*, beside; L. neut. n. *Metamycoplasma*, An existing genus; *Secusmetamycoplasma*: A genus related to but distinct from the existing genus Metamycoplasma of beside.

Secusmetaplanococcus

L. masc. preposition *secus*, beside; L. masc. n. *Metaplanococcus*, An existing genus; *Secusmetaplanococcus*: A genus related to but distinct from the existing genus Metaplanococcus of beside.

Secusmetascardovia

L. masc. preposition *secus*, beside; L. fem. n. *Metascardovia*, An existing genus; *Secusmetascardovia*: A genus related to but distinct from the existing genus Metascardovia of beside.

Secusmetasolibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Metasolibacillus*, An existing genus; *Secusmetasolibacillus*: A genus related to but distinct from the existing genus Metasolibacillus of beside.

Secusmethanobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Methanobacterium*, An existing genus; *Secusmethanobacterium*: A genus related to but distinct from the existing genus Methanobacterium of beside.

Secusmethanobrevibacter

L. masc. preposition *secus*, beside; L. masc. n. *Methanobrevibacter*, An existing genus; *Secusmethanobrevibacter*: A genus related to but distinct from the existing genus Methanobrevibacter of beside.

Secusmethanocalculus

L. masc. preposition *secus*, beside; L. masc. n. *Methanocalculus*, An existing genus; *Secusmethanocalculus*: A genus related to but distinct from the existing genus Methanocalculus of beside.

Secusmethanocaldococcus

L. masc. preposition *secus*, beside; L. masc. n. *Methanocaldococcus*, An existing genus; *Secusmethanocaldococcus*: A genus related to but distinct from the existing genus Methanocaldococcus of beside.

Secusmethanocella

L. masc. preposition *secus*, beside; L. fem. n. *Methanocella*, An existing genus; *Secusmethanocella*: A genus related to but distinct from the existing genus Methanocella of beside.

Secusmethanococcoides

L. masc. preposition *secus*, beside; L. neut. n. *Methanococcoides*, An existing genus; *Secusmethanococcoides*: A genus related to but distinct from the existing genus Methanococcoides of beside.

Secusmethanococcus

L. masc. preposition *secus*, beside; L. masc. n. *Methanococcus*, An existing genus; *Secusmethanococcus*: A genus related to but distinct from the existing genus Methanococcus of beside.

Secusmethanocorpusculum

L. masc. preposition *secus*, beside; L. neut. n. *Methanocorpusculum*, An existing genus; *Secusmethanocorpusculum*: A genus related to but distinct from the existing genus Methanocorpusculum of beside.

Secusmethanoculleus

L. masc. preposition *secus*, beside; L. masc. n. *Methanoculleus*, An existing genus; *Secusmethanoculleus*: A genus related to but distinct from the existing genus Methanoculleus of beside.

Secusmethanofervidicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Methanofervidicoccus*, An existing genus; *Secusmethanofervidicoccus*: A genus related to but distinct from the existing genus Methanofervidicoccus of beside.

Secusmethanofollis

L. masc. preposition *secus*, beside; L. masc. n. *Methanofollis*, An existing genus; *Secusmethanofollis*: A genus related to but distinct from the existing genus Methanofollis of beside.

Secusmethanogenium

L. masc. preposition *secus*, beside; L. neut. n. *Methanogenium*, An existing genus; *Secusmethanogenium*: A genus related to but distinct from the existing genus Methanogenium of beside.

Secusmethanohalobium

L. masc. preposition *secus*, beside; L. neut. n. *Methanohalobium*, An existing genus; *Secusmethanohalobium*: A genus related to but distinct from the existing genus Methanohalobium of beside.

Secusmethanohalophilus

L. masc. preposition *secus*, beside; L. masc. n. *Methanohalophilus*, An existing genus; *Secusmethanohalophilus*: A genus related to but distinct from the existing genus Methanohalophilus of beside.

Secusmethanolacinia

L. masc. preposition *secus*, beside; L. fem. n. *Methanolacinia*, An existing genus; *Secusmethanolacinia*: A genus related to but distinct from the existing genus Methanolacinia of beside.

Secusmethanolinea

L. masc. preposition *secus*, beside; L. fem. n. *Methanolinea*, An existing genus; *Secusmethanolinea*: A genus related to but distinct from the existing genus Methanolinea of beside.

Secusmethanomassiliicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Methanomassiliicoccus*, An existing genus; *Secusmethanomassiliicoccus*: A genus related to but distinct from the existing genus Methanomassiliicoccus of beside.

Secusmethanomethylovorans

L. masc. preposition *secus*, beside; L. fem. n. *Methanomethylovorans*, An existing genus; *Secusmethanomethylovorans*: A genus related to but distinct from the existing genus Methanomethylovorans of beside.

Secusmethanomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Methanomicrobium*, An existing genus; *Secusmethanomicrobium*: A genus related to but distinct from the existing genus Methanomicrobium of beside.

Secusmethanonatronarchaeum

L. masc. preposition *secus*, beside; L. neut. n. *Methanonatronarchaeum*, An existing genus; *Secusmethanonatronarchaeum*: A genus related to but distinct from the existing genus Methanonatronarchaeum of beside.

Secusmethanoplanus

L. masc. preposition *secus*, beside; L. masc. n. *Methanoplanus*, An existing genus; *Secusmethanoplanus*: A genus related to but distinct from the existing genus Methanoplanus of beside.

Secusmethanopyrus

L. masc. preposition *secus*, beside; L. masc. n. *Methanopyrus*, An existing genus; *Secusmethanopyrus*: A genus related to but distinct from the existing genus Methanopyrus of beside.

Secusmethanoregula

L. masc. preposition *secus*, beside; L. fem. n. *Methanoregula*, An existing genus; *Secusmethanoregula*: A genus related to but distinct from the existing genus Methanoregula of beside.

Secusmethanosaeta

L. masc. preposition *secus*, beside; L. fem. n. *Methanosaeta*, An existing genus; *Secusmethanosaeta*: A genus related to but distinct from the existing genus Methanosaeta of beside.

Secusmethanosalsum

L. masc. preposition *secus*, beside; L. neut. n. *Methanosalsum*, An existing genus; *Secusmethanosalsum*: A genus related to but distinct from the existing genus Methanosalsum of beside.

Secusmethanosarcina

L. masc. preposition *secus*, beside; L. fem. n. *Methanosarcina*, An existing genus; *Secusmethanosarcina*: A genus related to but distinct from the existing genus Methanosarcina of beside.

Secusmethanosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Methanosphaera*, An existing genus; *Secusmethanosphaera*: A genus related to but distinct from the existing genus Methanosphaera of beside.

Secusmethanosphaerula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Methanosphaerula*, An existing genus; *Secusmethanosphaerula*: A genus related to but distinct from the existing genus Methanosphaerula of beside.

Secusmethanospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Methanospirillum*, An existing genus; *Secusmethanospirillum*: A genus related to but distinct from the existing genus Methanospirillum of beside.

Secusmethanothermobacter

L. masc. preposition *secus*, beside; L. masc. n. *Methanothermobacter*, An existing genus; *Secusmethanothermobacter*: A genus related to but distinct from the existing genus Methanothermobacter of beside.

Secusmethanothermococcus

L. masc. preposition *secus*, beside; L. masc. n. *Methanothermococcus*, An existing genus; *Secusmethanothermococcus*: A genus related to but distinct from the existing genus Methanothermococcus of beside.

Secusmethanothermus

L. masc. preposition *secus*, beside; L. masc. n. *Methanothermus*, An existing genus; *Secusmethanothermus*: A genus related to but distinct from the existing genus Methanothermus of beside.

Secusmethanothrix

L. masc. preposition *secus*, beside; L. fem. n. *Methanothrix*, An existing genus; *Secusmethanothrix*: A genus related to but distinct from the existing genus Methanothrix of beside.

Secusmethanotorris

L. masc. preposition *secus*, beside; L. masc. n. *Methanotorris*, An existing genus; *Secusmethanotorris*: A genus related to but distinct from the existing genus Methanotorris of beside.

Secusmethermicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Methermicoccus*, An existing genus; *Secusmethermicoccus*: A genus related to but distinct from the existing genus Methermicoccus of beside.

Secusmethylacidimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Methylacidimicrobium*, An existing genus; *Secusmethylacidimicrobium*: A genus related to but distinct from the existing genus Methylacidimicrobium of beside.

Secusmethylarcula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Methylarcula*, An existing genus; *Secusmethylarcula*: A genus related to but distinct from the existing genus Methylarcula of beside.

Secusmethylibium

L. masc. preposition *secus*, beside; L. neut. n. *Methylibium*, An existing genus; *Secusmethylibium*: A genus related to but distinct from the existing genus Methylibium of beside.

Secusmethylicorpusculum

L. masc. preposition *secus*, beside; L. neut. n. *Methylicorpusculum*, An existing genus; *Secusmethylicorpusculum*: A genus related to but distinct from the existing genus Methylicorpusculum of beside.

Secusmethylobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Methylobacillus*, An existing genus; *Secusmethylobacillus*: A genus related to but distinct from the existing genus Methylobacillus of beside.

Secusmethylobacter

L. masc. preposition *secus*, beside; L. masc. n. *Methylobacter*, An existing genus; *Secusmethylobacter*: A genus related to but distinct from the existing genus Methylobacter of beside.

Secusmethylobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Methylobacterium*, An existing genus; *Secusmethylobacterium*: A genus related to but distinct from the existing genus Methylobacterium of beside.

Secusmethylobrevis

L. masc. preposition *secus*, beside; L. masc. n. *Methylobrevis*, An existing genus; *Secusmethylobrevis*: A genus related to but distinct from the existing genus Methylobrevis of beside.

Secusmethylocaldum

L. masc. preposition *secus*, beside; L. neut. n. *Methylocaldum*, An existing genus; *Secusmethylocaldum*: A genus related to but distinct from the existing genus Methylocaldum of beside.

Secusmethylocapsa

L. masc. preposition *secus*, beside; L. fem. n. *Methylocapsa*, An existing genus; *Secusmethylocapsa*: A genus related to but distinct from the existing genus Methylocapsa of beside.

Secusmethyloceanibacter

L. masc. preposition *secus*, beside; L. masc. n. *Methyloceanibacter*, An existing genus; *Secusmethyloceanibacter*: A genus related to but distinct from the existing genus Methyloceanibacter of beside.

Secusmethylocella

L. masc. preposition *secus*, beside; L. fem. n. *Methylocella*, An existing genus; *Secusmethylocella*: A genus related to but distinct from the existing genus Methylocella of beside.

Secusmethylococcus

L. masc. preposition *secus*, beside; L. masc. n. *Methylococcus*, An existing genus; *Secusmethylococcus*: A genus related to but distinct from the existing genus Methylococcus of beside.

Secusmethylocucumis

L. masc. preposition *secus*, beside; L. masc. n. *Methylocucumis*, An existing genus; *Secusmethylocucumis*: A genus related to but distinct from the existing genus Methylocucumis of beside.

Secusmethylocystis

L. masc. preposition *secus*, beside; L. fem. n. *Methylocystis*, An existing genus; *Secusmethylocystis*: A genus related to but distinct from the existing genus Methylocystis of beside.

Secusmethyloferula

L. masc. preposition *secus*, beside; L. fem. n. *Methyloferula*, An existing genus; *Secusmethyloferula*: A genus related to but distinct from the existing genus Methyloferula of beside.

Secusmethylogaea

L. masc. preposition *secus*, beside; L. fem. n. *Methylogaea*, An existing genus; *Secusmethylogaea*: A genus related to but distinct from the existing genus Methylogaea of beside.

Secusmethyloglobulus

L. masc. preposition *secus*, beside; L. masc. dim. n. *Methyloglobulus*, An existing genus; *Secusmethyloglobulus*: A genus related to but distinct from the existing genus Methyloglobulus of beside.

Secusmethylohalobius

L. masc. preposition *secus*, beside; L. masc. n. *Methylohalobius*, An existing genus; *Secusmethylohalobius*: A genus related to but distinct from the existing genus Methylohalobius of beside.

Secusmethylohalomonas

L. masc. preposition *secus*, beside; L. fem. n. *Methylohalomonas*, An existing genus; *Secusmethylohalomonas*: A genus related to but distinct from the existing genus Methylohalomonas of beside.

Secusmethyloligella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Methyloligella*, An existing genus; *Secusmethyloligella*: A genus related to but distinct from the existing genus Methyloligella of beside.

Secusmethylolobus

L. masc. preposition *secus*, beside; L. masc. n. *Methylolobus*, An existing genus; *Secusmethylolobus*: A genus related to but distinct from the existing genus Methylolobus of beside.

Secusmethylomagnum

L. masc. preposition *secus*, beside; L. neut. n. *Methylomagnum*, An existing genus; *Secusmethylomagnum*: A genus related to but distinct from the existing genus Methylomagnum of beside.

Secusmethylomarinovum

L. masc. preposition *secus*, beside; L. neut. n. *Methylomarinovum*, An existing genus; *Secusmethylomarinovum*: A genus related to but distinct from the existing genus Methylomarinovum of beside.

Secusmethylomarinum

L. masc. preposition *secus*, beside; L. neut. n. *Methylomarinum*, An existing genus; *Secusmethylomarinum*: A genus related to but distinct from the existing genus Methylomarinum of beside.

Secusmethylomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Methylomicrobium*, An existing genus; *Secusmethylomicrobium*: A genus related to but distinct from the existing genus Methylomicrobium of beside.

Secusmethylomonas

L. masc. preposition *secus*, beside; L. fem. n. *Methylomonas*, An existing genus; *Secusmethylomonas*: A genus related to but distinct from the existing genus Methylomonas of beside.

Secusmethylomusa

L. masc. preposition *secus*, beside; L. fem. n. *Methylomusa*, An existing genus; *Secusmethylomusa*: A genus related to but distinct from the existing genus Methylomusa of beside.

Secusmethylonatrum

L. masc. preposition *secus*, beside; L. neut. n. *Methylonatrum*, An existing genus; *Secusmethylonatrum*: A genus related to but distinct from the existing genus Methylonatrum of beside.

Secusmethyloparacoccus

L. masc. preposition *secus*, beside; L. masc. n. *Methyloparacoccus*, An existing genus; *Secusmethyloparacoccus*: A genus related to but distinct from the existing genus Methyloparacoccus of beside.

Secusmethylophaga

L. masc. preposition *secus*, beside; L. fem. n. *Methylophaga*, An existing genus; *Secusmethylophaga*: A genus related to but distinct from the existing genus Methylophaga of beside.

Secusmethylophilus

L. masc. preposition *secus*, beside; L. masc. n. *Methylophilus*, An existing genus; *Secusmethylophilus*: A genus related to but distinct from the existing genus Methylophilus of beside.

Secusmethylopila

L. masc. preposition *secus*, beside; L. fem. n. *Methylopila*, An existing genus; *Secusmethylopila*: A genus related to but distinct from the existing genus Methylopila of beside.

Secusmethyloprofundus

L. masc. preposition *secus*, beside; L. masc. n. *Methyloprofundus*, An existing genus; *Secusmethyloprofundus*: A genus related to but distinct from the existing genus Methyloprofundus of beside.

Secusmethylorhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Methylorhabdus*, An existing genus; *Secusmethylorhabdus*: A genus related to but distinct from the existing genus Methylorhabdus of beside.

Secusmethylorosula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Methylorosula*, An existing genus; *Secusmethylorosula*: A genus related to but distinct from the existing genus Methylorosula of beside.

Secusmethylorubrum

L. masc. preposition *secus*, beside; L. neut. n. *Methylorubrum*, An existing genus; *Secusmethylorubrum*: A genus related to but distinct from the existing genus Methylorubrum of beside.

Secusmethylosarcina

L. masc. preposition *secus*, beside; L. fem. n. *Methylosarcina*, An existing genus; *Secusmethylosarcina*: A genus related to but distinct from the existing genus Methylosarcina of beside.

Secusmethylosinus

L. masc. preposition *secus*, beside; L. masc. n. *Methylosinus*, An existing genus; *Secusmethylosinus*: A genus related to but distinct from the existing genus Methylosinus of beside.

Secusmethylosoma

L. masc. preposition *secus*, beside; L. neut. n. *Methylosoma*, An existing genus; *Secusmethylosoma*: A genus related to but distinct from the existing genus Methylosoma of beside.

Secusmethylosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Methylosphaera*, An existing genus; *Secusmethylosphaera*: A genus related to but distinct from the existing genus Methylosphaera of beside.

Secusmethylosulfonomonas

L. masc. preposition *secus*, beside; L. fem. n. *Methylosulfonomonas*, An existing genus; *Secusmethylosulfonomonas*: A genus related to but distinct from the existing genus Methylosulfonomonas of beside.

Secusmethylotenera

L. masc. preposition *secus*, beside; L. fem. n. *Methylotenera*, An existing genus; *Secusmethylotenera*: A genus related to but distinct from the existing genus Methylotenera of beside.

Secusmethyloterricola

L. masc. preposition *secus*, beside; L. fem. n. *Methyloterricola*, An existing genus; *Secusmethyloterricola*: A genus related to but distinct from the existing genus Methyloterricola of beside.

Secusmethyloterrigena

L. masc. preposition *secus*, beside; L. fem. n. *Methyloterrigena*, An existing genus; *Secusmethyloterrigena*: A genus related to but distinct from the existing genus Methyloterrigena of beside.

Secusmethylothermus

L. masc. preposition *secus*, beside; L. masc. n. *Methylothermus*, An existing genus; *Secusmethylothermus*: A genus related to but distinct from the existing genus Methylothermus of beside.

Secusmethylotuvimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Methylotuvimicrobium*, An existing genus; *Secusmethylotuvimicrobium*: A genus related to but distinct from the existing genus Methylotuvimicrobium of beside.

Secusmethyloversatilis

L. masc. preposition *secus*, beside; L. fem. n. *Methyloversatilis*, An existing genus; *Secusmethyloversatilis*: A genus related to but distinct from the existing genus Methyloversatilis of beside.

Secusmethylovirgula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Methylovirgula*, An existing genus; *Secusmethylovirgula*: A genus related to but distinct from the existing genus Methylovirgula of beside.

Secusmethylovorus

L. masc. preposition *secus*, beside; L. masc. n. *Methylovorus*, An existing genus; *Secusmethylovorus*: A genus related to but distinct from the existing genus Methylovorus of beside.

Secusmethylovulum

L. masc. preposition *secus*, beside; L. neut. n. *Methylovulum*, An existing genus; *Secusmethylovulum*: A genus related to but distinct from the existing genus Methylovulum of beside.

Secusmicavibrio

L. masc. preposition *secus*, beside; L. masc. n. *Micavibrio*, An existing genus; *Secusmicavibrio*: A genus related to but distinct from the existing genus Micavibrio of beside.

Secusmicroaerobacter

L. masc. preposition *secus*, beside; L. masc. n. *Microaerobacter*, An existing genus; *Secusmicroaerobacter*: A genus related to but distinct from the existing genus Microaerobacter of beside.

Secusmicrobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Microbacterium*, An existing genus; *Secusmicrobacterium*: A genus related to but distinct from the existing genus Microbacterium of beside.

Secusmicrobispora

L. masc. preposition *secus*, beside; L. fem. n. *Microbispora*, An existing genus; *Secusmicrobispora*: A genus related to but distinct from the existing genus Microbispora of beside.

Secusmicrobulbifer

L. masc. preposition *secus*, beside; L. masc. n. *Microbulbifer*, An existing genus; *Secusmicrobulbifer*: A genus related to but distinct from the existing genus Microbulbifer of beside.

Secusmicrocella

L. masc. preposition *secus*, beside; L. fem. n. *Microcella*, An existing genus; *Secusmicrocella*: A genus related to but distinct from the existing genus Microcella of beside.

Secusmicrococcoides

L. masc. preposition *secus*, beside; L. neut. n. *Micrococcoides*, An existing genus; *Secusmicrococcoides*: A genus related to but distinct from the existing genus Micrococcoides of beside.

Secusmicrococcus

L. masc. preposition *secus*, beside; L. masc. n. *Micrococcus*, An existing genus; *Secusmicrococcus*: A genus related to but distinct from the existing genus Micrococcus of beside.

Secusmicrocyclus

L. masc. preposition *secus*, beside; L. masc. n. *Microcyclus*, An existing genus; *Secusmicrocyclus*: A genus related to but distinct from the existing genus Microcyclus of beside.

Secusmicrocystis

L. masc. preposition *secus*, beside; L. fem. n. *Microcystis*, An existing genus; *Secusmicrocystis*: A genus related to but distinct from the existing genus Microcystis of beside.

Secusmicroellobosporia

L. masc. preposition *secus*, beside; L. fem. n. *Microellobosporia*, An existing genus; *Secusmicroellobosporia*: A genus related to but distinct from the existing genus Microellobosporia of beside.

Secusmicrolunatus

L. masc. preposition *secus*, beside; L. masc. n. *Microlunatus*, An existing genus; *Secusmicrolunatus*: A genus related to but distinct from the existing genus Microlunatus of beside.

Secusmicromonas

L. masc. preposition *secus*, beside; L. fem. n. *Micromonas*, An existing genus; *Secusmicromonas*: A genus related to but distinct from the existing genus Micromonas of beside.

Secusmicromonospora

L. masc. preposition *secus*, beside; L. fem. n. *Micromonospora*, An existing genus; *Secusmicromonospora*: A genus related to but distinct from the existing genus Micromonospora of beside.

Secusmicropepsis

L. masc. preposition *secus*, beside; L. fem. n. *Micropepsis*, An existing genus; *Secusmicropepsis*: A genus related to but distinct from the existing genus Micropepsis of beside.

Secusmicropolyspora

L. masc. preposition *secus*, beside; L. fem. n. *Micropolyspora*, An existing genus; *Secusmicropolyspora*: A genus related to but distinct from the existing genus Micropolyspora of beside.

Secusmicropruina

L. masc. preposition *secus*, beside; L. fem. n. *Micropruina*, An existing genus; *Secusmicropruina*: A genus related to but distinct from the existing genus Micropruina of beside.

Secusmicroscilla

L. masc. preposition *secus*, beside; L. fem. n. *Microscilla*, An existing genus; *Secusmicroscilla*: A genus related to but distinct from the existing genus Microscilla of beside.

Secusmicrosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Microsphaera*, An existing genus; *Secusmicrosphaera*: A genus related to but distinct from the existing genus Microsphaera of beside.

Secusmicroterricola

L. masc. preposition *secus*, beside; L. fem. n. *Microterricola*, An existing genus; *Secusmicroterricola*: A genus related to but distinct from the existing genus Microterricola of beside.

Secusmicrotetraspora

L. masc. preposition *secus*, beside; L. fem. n. *Microtetraspora*, An existing genus; *Secusmicrotetraspora*: A genus related to but distinct from the existing genus Microtetraspora of beside.

Secusmicrovirgula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Microvirgula*, An existing genus; *Secusmicrovirgula*: A genus related to but distinct from the existing genus Microvirgula of beside.

Secusmillisia

L. masc. preposition *secus*, beside; L. fem. n. *Millisia*, An existing genus; *Secusmillisia*: A genus related to but distinct from the existing genus Millisia of beside.

Secusminicystis

L. masc. preposition *secus*, beside; L. fem. n. *Minicystis*, An existing genus; *Secusminicystis*: A genus related to but distinct from the existing genus Minicystis of beside.

Secusminiimonas

L. masc. preposition *secus*, beside; L. fem. n. *Miniimonas*, An existing genus; *Secusminiimonas*: A genus related to but distinct from the existing genus Miniimonas of beside.

Secusminiphocibacter

L. masc. preposition *secus*, beside; L. masc. n. *Miniphocibacter*, An existing genus; *Secusminiphocibacter*: A genus related to but distinct from the existing genus Miniphocibacter of beside.

Secusminunostoc

L. masc. preposition *secus*, beside; L. neut. n. *Minunostoc*, An existing genus; *Secusminunostoc*: A genus related to but distinct from the existing genus Minunostoc of beside.

Secusminwuia

L. masc. preposition *secus*, beside; L. fem. n. *Minwuia*, An existing genus; *Secusminwuia*: A genus related to but distinct from the existing genus Minwuia of beside.

Secusmitsuaria

L. masc. preposition *secus*, beside; L. fem. n. *Mitsuaria*, An existing genus; *Secusmitsuaria*: A genus related to but distinct from the existing genus Mitsuaria of beside.

Secusmitsuokella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Mitsuokella*, An existing genus; *Secusmitsuokella*: A genus related to but distinct from the existing genus Mitsuokella of beside.

Secusmixta

L. masc. preposition *secus*, beside; L. fem. n. *Mixta*, An existing genus; *Secusmixta*: A genus related to but distinct from the existing genus Mixta of beside.

Secusmizugakiibacter

L. masc. preposition *secus*, beside; L. masc. n. *Mizugakiibacter*, An existing genus; *Secusmizugakiibacter*: A genus related to but distinct from the existing genus Mizugakiibacter of beside.

Secusmobilicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Mobilicoccus*, An existing genus; *Secusmobilicoccus*: A genus related to but distinct from the existing genus Mobilicoccus of beside.

Secusmobilifilum

L. masc. preposition *secus*, beside; L. neut. n. *Mobilifilum*, An existing genus; *Secusmobilifilum*: A genus related to but distinct from the existing genus Mobilifilum of beside.

Secusmobilisporobacter

L. masc. preposition *secus*, beside; L. masc. n. *Mobilisporobacter*, An existing genus; *Secusmobilisporobacter*: A genus related to but distinct from the existing genus Mobilisporobacter of beside.

Secusmobilitalea

L. masc. preposition *secus*, beside; L. fem. n. *Mobilitalea*, An existing genus; *Secusmobilitalea*: A genus related to but distinct from the existing genus Mobilitalea of beside.

Secusmobiluncus

L. masc. preposition *secus*, beside; L. masc. n. *Mobiluncus*, An existing genus; *Secusmobiluncus*: A genus related to but distinct from the existing genus Mobiluncus of beside.

Secusmodestobacter

L. masc. preposition *secus*, beside; L. masc. n. *Modestobacter*, An existing genus; *Secusmodestobacter*: A genus related to but distinct from the existing genus Modestobacter of beside.

Secusmodicisalibacter

L. masc. preposition *secus*, beside; L. masc. n. *Modicisalibacter*, An existing genus; *Secusmodicisalibacter*: A genus related to but distinct from the existing genus Modicisalibacter of beside.

Secusmoellerella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Moellerella*, An existing genus; *Secusmoellerella*: A genus related to but distinct from the existing genus Moellerella of beside.

Secusmogibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Mogibacterium*, An existing genus; *Secusmogibacterium*: A genus related to but distinct from the existing genus Mogibacterium of beside.

Secusmoheibacter

L. masc. preposition *secus*, beside; L. masc. n. *Moheibacter*, An existing genus; *Secusmoheibacter*: A genus related to but distinct from the existing genus Moheibacter of beside.

Secusmonaibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Monaibacterium*, An existing genus; *Secusmonaibacterium*: A genus related to but distinct from the existing genus Monaibacterium of beside.

Secusmonashia

L. masc. preposition *secus*, beside; L. fem. n. *Monashia*, An existing genus; *Secusmonashia*: A genus related to but distinct from the existing genus Monashia of beside.

Secusmongoliibacter

L. masc. preposition *secus*, beside; L. masc. n. *Mongoliibacter*, An existing genus; *Secusmongoliibacter*: A genus related to but distinct from the existing genus Mongoliibacter of beside.

Secusmongoliicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Mongoliicoccus*, An existing genus; *Secusmongoliicoccus*: A genus related to but distinct from the existing genus Mongoliicoccus of beside.

Secusmongoliimonas

L. masc. preposition *secus*, beside; L. fem. n. *Mongoliimonas*, An existing genus; *Secusmongoliimonas*: A genus related to but distinct from the existing genus Mongoliimonas of beside.

Secusmongoliitalea

L. masc. preposition *secus*, beside; L. fem. n. *Mongoliitalea*, An existing genus; *Secusmongoliitalea*: A genus related to but distinct from the existing genus Mongoliitalea of beside.

Secusmonoglobus

L. masc. preposition *secus*, beside; L. masc. n. *Monoglobus*, An existing genus; *Secusmonoglobus*: A genus related to but distinct from the existing genus Monoglobus of beside.

Secusmoorea

L. masc. preposition *secus*, beside; L. fem. n. *Moorea*, An existing genus; *Secusmoorea*: A genus related to but distinct from the existing genus Moorea of beside.

Secusmooreia

L. masc. preposition *secus*, beside; L. fem. n. *Mooreia*, An existing genus; *Secusmooreia*: A genus related to but distinct from the existing genus Mooreia of beside.

Secusmoorella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Moorella*, An existing genus; *Secusmoorella*: A genus related to but distinct from the existing genus Moorella of beside.

Secusmoraxella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Moraxella*, An existing genus; *Secusmoraxella*: A genus related to but distinct from the existing genus Moraxella of beside.

Secusmorganella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Morganella*, An existing genus; *Secusmorganella*: A genus related to but distinct from the existing genus Morganella of beside.

Secusmoritella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Moritella*, An existing genus; *Secusmoritella*: A genus related to but distinct from the existing genus Moritella of beside.

Secusmorococcus

L. masc. preposition *secus*, beside; L. masc. n. *Morococcus*, An existing genus; *Secusmorococcus*: A genus related to but distinct from the existing genus Morococcus of beside.

Secusmoryella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Moryella*, An existing genus; *Secusmoryella*: A genus related to but distinct from the existing genus Moryella of beside.

Secusmotilibacter

L. masc. preposition *secus*, beside; L. masc. n. *Motilibacter*, An existing genus; *Secusmotilibacter*: A genus related to but distinct from the existing genus Motilibacter of beside.

Secusmotilimonas

L. masc. preposition *secus*, beside; L. fem. n. *Motilimonas*, An existing genus; *Secusmotilimonas*: A genus related to but distinct from the existing genus Motilimonas of beside.

Secusmotiliproteus

L. masc. preposition *secus*, beside; L. masc. n. *Motiliproteus*, An existing genus; *Secusmotiliproteus*: A genus related to but distinct from the existing genus Motiliproteus of beside.

Secusmucinivorans

L. masc. preposition *secus*, beside; L. masc. n. *Mucinivorans*, An existing genus; *Secusmucinivorans*: A genus related to but distinct from the existing genus Mucinivorans of beside.

Secusmucispirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Mucispirillum*, An existing genus; *Secusmucispirillum*: A genus related to but distinct from the existing genus Mucispirillum of beside.

Secusmumia

L. masc. preposition *secus*, beside; L. fem. n. *Mumia*, An existing genus; *Secusmumia*: A genus related to but distinct from the existing genus Mumia of beside.

Secusmurdochiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Murdochiella*, An existing genus; *Secusmurdochiella*: A genus related to but distinct from the existing genus Murdochiella of beside.

Secusmuribacter

L. masc. preposition *secus*, beside; L. masc. n. *Muribacter*, An existing genus; *Secusmuribacter*: A genus related to but distinct from the existing genus Muribacter of beside.

Secusmuribaculum

L. masc. preposition *secus*, beside; L. neut. n. *Muribaculum*, An existing genus; *Secusmuribaculum*: A genus related to but distinct from the existing genus Muribaculum of beside.

Secusmuricauda

L. masc. preposition *secus*, beside; L. fem. n. *Muricauda*, An existing genus; *Secusmuricauda*: A genus related to but distinct from the existing genus Muricauda of beside.

Secusmuricoccus

L. masc. preposition *secus*, beside; L. masc. n. *Muricoccus*, An existing genus; *Secusmuricoccus*: A genus related to but distinct from the existing genus Muricoccus of beside.

Secusmuricomes

L. masc. preposition *secus*, beside; L. masc. n. *Muricomes*, An existing genus; *Secusmuricomes*: A genus related to but distinct from the existing genus Muricomes of beside.

Secusmuriicola

L. masc. preposition *secus*, beside; L. masc. n. *Muriicola*, An existing genus; *Secusmuriicola*: A genus related to but distinct from the existing genus Muriicola of beside.

Secusmurimonas

L. masc. preposition *secus*, beside; L. fem. n. *Murimonas*, An existing genus; *Secusmurimonas*: A genus related to but distinct from the existing genus Murimonas of beside.

Secusmurinocardiopsis

L. masc. preposition *secus*, beside; L. fem. n. *Murinocardiopsis*, An existing genus; *Secusmurinocardiopsis*: A genus related to but distinct from the existing genus Murinocardiopsis of beside.

Secusmyceligenerans

L. masc. preposition *secus*, beside; L. neut. n. *Myceligenerans*, An existing genus; *Secusmyceligenerans*: A genus related to but distinct from the existing genus Myceligenerans of beside.

Secusmycetocola

L. masc. preposition *secus*, beside; L. masc. n. *Mycetocola*, An existing genus; *Secusmycetocola*: A genus related to but distinct from the existing genus Mycetocola of beside.

Secusmycoavidus

L. masc. preposition *secus*, beside; L. masc. n. *Mycoavidus*, An existing genus; *Secusmycoavidus*: A genus related to but distinct from the existing genus Mycoavidus of beside.

Secusmycobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Mycobacterium*, An existing genus; *Secusmycobacterium*: A genus related to but distinct from the existing genus Mycobacterium of beside.

Secusmycobacteroides

L. masc. preposition *secus*, beside; L. neut. n. *Mycobacteroides*, An existing genus; *Secusmycobacteroides*: A genus related to but distinct from the existing genus Mycobacteroides of beside.

Secusmycolicibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Mycolicibacillus*, An existing genus; *Secusmycolicibacillus*: A genus related to but distinct from the existing genus Mycolicibacillus of beside.

Secusmycolicibacter

L. masc. preposition *secus*, beside; L. masc. n. *Mycolicibacter*, An existing genus; *Secusmycolicibacter*: A genus related to but distinct from the existing genus Mycolicibacter of beside.

Secusmycolicibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Mycolicibacterium*, An existing genus; *Secusmycolicibacterium*: A genus related to but distinct from the existing genus Mycolicibacterium of beside.

Secusmycoplana

L. masc. preposition *secus*, beside; L. fem. n. *Mycoplana*, An existing genus; *Secusmycoplana*: A genus related to but distinct from the existing genus Mycoplana of beside.

Secusmycoplasma

L. masc. preposition *secus*, beside; L. neut. n. *Mycoplasma*, An existing genus; *Secusmycoplasma*: A genus related to but distinct from the existing genus Mycoplasma of beside.

Secusmycoplasmoides

L. masc. preposition *secus*, beside; L. neut. n. *Mycoplasmoides*, An existing genus; *Secusmycoplasmoides*: A genus related to but distinct from the existing genus Mycoplasmoides of beside.

Secusmycoplasmopsis

L. masc. preposition *secus*, beside; L. fem. n. *Mycoplasmopsis*, An existing genus; *Secusmycoplasmopsis*: A genus related to but distinct from the existing genus Mycoplasmopsis of beside.

Secusmyroides

L. masc. preposition *secus*, beside; L. masc. n. *Myroides*, An existing genus; *Secusmyroides*: A genus related to but distinct from the existing genus Myroides of beside.

Secusmyxacorys

L. masc. preposition *secus*, beside; L. fem. n. *Myxacorys*, An existing genus; *Secusmyxacorys*: A genus related to but distinct from the existing genus Myxacorys of beside.

Secusmyxococcus

L. masc. preposition *secus*, beside; L. masc. n. *Myxococcus*, An existing genus; *Secusmyxococcus*: A genus related to but distinct from the existing genus Myxococcus of beside.

Secusmzabimyces

L. masc. preposition *secus*, beside; L. masc. n. *Mzabimyces*, An existing genus; *Secusmzabimyces*: A genus related to but distinct from the existing genus Mzabimyces of beside.

Secusnaasia

L. masc. preposition *secus*, beside; L. fem. n. *Naasia*, An existing genus; *Secusnaasia*: A genus related to but distinct from the existing genus Naasia of beside.

Secusnafulsella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Nafulsella*, An existing genus; *Secusnafulsella*: A genus related to but distinct from the existing genus Nafulsella of beside.

Secusnakamurella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Nakamurella*, An existing genus; *Secusnakamurella*: A genus related to but distinct from the existing genus Nakamurella of beside.

Secusnamhaeicola

L. masc. preposition *secus*, beside; L. masc. n. *Namhaeicola*, An existing genus; *Secusnamhaeicola*: A genus related to but distinct from the existing genus Namhaeicola of beside.

Secusnannocystis

L. masc. preposition *secus*, beside; L. fem. n. *Nannocystis*, An existing genus; *Secusnannocystis*: A genus related to but distinct from the existing genus Nannocystis of beside.

Secusnatranaerobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Natranaerobaculum*, An existing genus; *Secusnatranaerobaculum*: A genus related to but distinct from the existing genus Natranaerobaculum of beside.

Secusnatranaerobius

L. masc. preposition *secus*, beside; L. masc. n. *Natranaerobius*, An existing genus; *Secusnatranaerobius*: A genus related to but distinct from the existing genus Natranaerobius of beside.

Secusnatranaerovirga

L. masc. preposition *secus*, beside; L. fem. n. *Natranaerovirga*, An existing genus; *Secusnatranaerovirga*: A genus related to but distinct from the existing genus Natranaerovirga of beside.

Secusnatrarchaeobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Natrarchaeobaculum*, An existing genus; *Secusnatrarchaeobaculum*: A genus related to but distinct from the existing genus Natrarchaeobaculum of beside.

Secusnatrarchaeobius

L. masc. preposition *secus*, beside; L. masc. n. *Natrarchaeobius*, An existing genus; *Secusnatrarchaeobius*: A genus related to but distinct from the existing genus Natrarchaeobius of beside.

Secusnatrialba

L. masc. preposition *secus*, beside; L. fem. n. *Natrialba*, An existing genus; *Secusnatrialba*: A genus related to but distinct from the existing genus Natrialba of beside.

Secusnatribacillus

L. masc. preposition *secus*, beside; L. masc. n. *Natribacillus*, An existing genus; *Secusnatribacillus*: A genus related to but distinct from the existing genus Natribacillus of beside.

Secusnatribaculum

L. masc. preposition *secus*, beside; L. neut. n. *Natribaculum*, An existing genus; *Secusnatribaculum*: A genus related to but distinct from the existing genus Natribaculum of beside.

Secusnatrinema

L. masc. preposition *secus*, beside; L. neut. n. *Natrinema*, An existing genus; *Secusnatrinema*: A genus related to but distinct from the existing genus Natrinema of beside.

Secusnatroniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Natroniella*, An existing genus; *Secusnatroniella*: A genus related to but distinct from the existing genus Natroniella of beside.

Secusnatronoarchaeum

L. masc. preposition *secus*, beside; L. neut. n. *Natronoarchaeum*, An existing genus; *Secusnatronoarchaeum*: A genus related to but distinct from the existing genus Natronoarchaeum of beside.

Secusnatronobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Natronobacillus*, An existing genus; *Secusnatronobacillus*: A genus related to but distinct from the existing genus Natronobacillus of beside.

Secusnatronobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Natronobacterium*, An existing genus; *Secusnatronobacterium*: A genus related to but distinct from the existing genus Natronobacterium of beside.

Secusnatronobiforma

L. masc. preposition *secus*, beside; L. fem. n. *Natronobiforma*, An existing genus; *Secusnatronobiforma*: A genus related to but distinct from the existing genus Natronobiforma of beside.

Secusnatronocella

L. masc. preposition *secus*, beside; L. fem. n. *Natronocella*, An existing genus; *Secusnatronocella*: A genus related to but distinct from the existing genus Natronocella of beside.

Secusnatronococcus

L. masc. preposition *secus*, beside; L. masc. n. *Natronococcus*, An existing genus; *Secusnatronococcus*: A genus related to but distinct from the existing genus Natronococcus of beside.

Secusnatronoflexus

L. masc. preposition *secus*, beside; L. masc. n. *Natronoflexus*, An existing genus; *Secusnatronoflexus*: A genus related to but distinct from the existing genus Natronoflexus of beside.

Secusnatronolimnobius

L. masc. preposition *secus*, beside; L. masc. n. *Natronolimnobius*, An existing genus; *Secusnatronolimnobius*: A genus related to but distinct from the existing genus Natronolimnobius of beside.

Secusnatronolimnohabitans

L. masc. preposition *secus*, beside; L. masc. n. *Natronolimnohabitans*, An existing genus; *Secusnatronolimnohabitans*: A genus related to but distinct from the existing genus Natronolimnohabitans of beside.

Secusnatronomonas

L. masc. preposition *secus*, beside; L. fem. n. *Natronomonas*, An existing genus; *Secusnatronomonas*: A genus related to but distinct from the existing genus Natronomonas of beside.

Secusnatronorubrum

L. masc. preposition *secus*, beside; L. neut. n. *Natronorubrum*, An existing genus; *Secusnatronorubrum*: A genus related to but distinct from the existing genus Natronorubrum of beside.

Secusnatronospira

L. masc. preposition *secus*, beside; L. fem. n. *Natronospira*, An existing genus; *Secusnatronospira*: A genus related to but distinct from the existing genus Natronospira of beside.

Secusnatronospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Natronospirillum*, An existing genus; *Secusnatronospirillum*: A genus related to but distinct from the existing genus Natronospirillum of beside.

Secusnatronovirga

L. masc. preposition *secus*, beside; L. fem. n. *Natronovirga*, An existing genus; *Secusnatronovirga*: A genus related to but distinct from the existing genus Natronovirga of beside.

Secusnaumannella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Naumannella*, An existing genus; *Secusnaumannella*: A genus related to but distinct from the existing genus Naumannella of beside.

Secusnautella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Nautella*, An existing genus; *Secusnautella*: A genus related to but distinct from the existing genus Nautella of beside.

Secusnautilia

L. masc. preposition *secus*, beside; L. fem. n. *Nautilia*, An existing genus; *Secusnautilia*: A genus related to but distinct from the existing genus Nautilia of beside.

Secusnaxibacter

L. masc. preposition *secus*, beside; L. masc. n. *Naxibacter*, An existing genus; *Secusnaxibacter*: A genus related to but distinct from the existing genus Naxibacter of beside.

Secusnecropsobacter

L. masc. preposition *secus*, beside; L. masc. n. *Necropsobacter*, An existing genus; *Secusnecropsobacter*: A genus related to but distinct from the existing genus Necropsobacter of beside.

Secusnegadavirga

L. masc. preposition *secus*, beside; L. fem. n. *Negadavirga*, An existing genus; *Secusnegadavirga*: A genus related to but distinct from the existing genus Negadavirga of beside.

Secusnegativicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Negativicoccus*, An existing genus; *Secusnegativicoccus*: A genus related to but distinct from the existing genus Negativicoccus of beside.

Secusneiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Neiella*, An existing genus; *Secusneiella*: A genus related to but distinct from the existing genus Neiella of beside.

Secusneisseria

L. masc. preposition *secus*, beside; L. fem. n. *Neisseria*, An existing genus; *Secusneisseria*: A genus related to but distinct from the existing genus Neisseria of beside.

Secusnemorella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Nemorella*, An existing genus; *Secusnemorella*: A genus related to but distinct from the existing genus Nemorella of beside.

Secusnemorincola

L. masc. preposition *secus*, beside; L. fem. n. *Nemorincola*, An existing genus; *Secusnemorincola*: A genus related to but distinct from the existing genus Nemorincola of beside.

Secusneoasaia

L. masc. preposition *secus*, beside; L. fem. n. *Neoasaia*, An existing genus; *Secusneoasaia*: A genus related to but distinct from the existing genus Neoasaia of beside.

Secusneobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Neobacillus*, An existing genus; *Secusneobacillus*: A genus related to but distinct from the existing genus Neobacillus of beside.

Secusneochlamydia

L. masc. preposition *secus*, beside; L. fem. n. *Neochlamydia*, An existing genus; *Secusneochlamydia*: A genus related to but distinct from the existing genus Neochlamydia of beside.

Secusneokomagataea

L. masc. preposition *secus*, beside; L. fem. n. *Neokomagataea*, An existing genus; *Secusneokomagataea*: A genus related to but distinct from the existing genus Neokomagataea of beside.

Secusneolyngbya

L. masc. preposition *secus*, beside; L. fem. n. *Neolyngbya*, An existing genus; *Secusneolyngbya*: A genus related to but distinct from the existing genus Neolyngbya of beside.

Secusneomegalonema

L. masc. preposition *secus*, beside; L. neut. n. *Neomegalonema*, An existing genus; *Secusneomegalonema*: A genus related to but distinct from the existing genus Neomegalonema of beside.

Secusneomicrococcus

L. masc. preposition *secus*, beside; L. masc. n. *Neomicrococcus*, An existing genus; *Secusneomicrococcus*: A genus related to but distinct from the existing genus Neomicrococcus of beside.

Secusneorhizobium

L. masc. preposition *secus*, beside; L. neut. n. *Neorhizobium*, An existing genus; *Secusneorhizobium*: A genus related to but distinct from the existing genus Neorhizobium of beside.

Secusneorickettsia

L. masc. preposition *secus*, beside; L. fem. n. *Neorickettsia*, An existing genus; *Secusneorickettsia*: A genus related to but distinct from the existing genus Neorickettsia of beside.

Secusneoscardovia

L. masc. preposition *secus*, beside; L. fem. n. *Neoscardovia*, An existing genus; *Secusneoscardovia*: A genus related to but distinct from the existing genus Neoscardovia of beside.

Secusneowestiellopsis

L. masc. preposition *secus*, beside; L. fem. n. *Neowestiellopsis*, An existing genus; *Secusneowestiellopsis*: A genus related to but distinct from the existing genus Neowestiellopsis of beside.

Secusneptunicella

L. masc. preposition *secus*, beside; L. fem. n. *Neptunicella*, An existing genus; *Secusneptunicella*: A genus related to but distinct from the existing genus Neptunicella of beside.

Secusneptunicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Neptunicoccus*, An existing genus; *Secusneptunicoccus*: A genus related to but distinct from the existing genus Neptunicoccus of beside.

Secusneptuniibacter

L. masc. preposition *secus*, beside; L. masc. n. *Neptuniibacter*, An existing genus; *Secusneptuniibacter*: A genus related to but distinct from the existing genus Neptuniibacter of beside.

Secusneptunitalea

L. masc. preposition *secus*, beside; L. fem. n. *Neptunitalea*, An existing genus; *Secusneptunitalea*: A genus related to but distinct from the existing genus Neptunitalea of beside.

Secusneptunomonas

L. masc. preposition *secus*, beside; L. fem. n. *Neptunomonas*, An existing genus; *Secusneptunomonas*: A genus related to but distinct from the existing genus Neptunomonas of beside.

Secusnereida

L. masc. preposition *secus*, beside; L. fem. n. *Nereida*, An existing genus; *Secusnereida*: A genus related to but distinct from the existing genus Nereida of beside.

Secusnesiotobacter

L. masc. preposition *secus*, beside; L. masc. n. *Nesiotobacter*, An existing genus; *Secusnesiotobacter*: A genus related to but distinct from the existing genus Nesiotobacter of beside.

Secusnesterenkonia

L. masc. preposition *secus*, beside; L. fem. n. *Nesterenkonia*, An existing genus; *Secusnesterenkonia*: A genus related to but distinct from the existing genus Nesterenkonia of beside.

Secusnevskia

L. masc. preposition *secus*, beside; L. fem. n. *Nevskia*, An existing genus; *Secusnevskia*: A genus related to but distinct from the existing genus Nevskia of beside.

Secusnguyenibacter

L. masc. preposition *secus*, beside; L. masc. n. *Nguyenibacter*, An existing genus; *Secusnguyenibacter*: A genus related to but distinct from the existing genus Nguyenibacter of beside.

Secusniabella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Niabella*, An existing genus; *Secusniabella*: A genus related to but distinct from the existing genus Niabella of beside.

Secusniastella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Niastella*, An existing genus; *Secusniastella*: A genus related to but distinct from the existing genus Niastella of beside.

Secusnibrella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Nibrella*, An existing genus; *Secusnibrella*: A genus related to but distinct from the existing genus Nibrella of beside.

Secusnibribacter

L. masc. preposition *secus*, beside; L. masc. n. *Nibribacter*, An existing genus; *Secusnibribacter*: A genus related to but distinct from the existing genus Nibribacter of beside.

Secusnibricoccus

L. masc. preposition *secus*, beside; L. masc. n. *Nibricoccus*, An existing genus; *Secusnibricoccus*: A genus related to but distinct from the existing genus Nibricoccus of beside.

Secusnicoletella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Nicoletella*, An existing genus; *Secusnicoletella*: A genus related to but distinct from the existing genus Nicoletella of beside.

Secusningiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Ningiella*, An existing genus; *Secusningiella*: A genus related to but distinct from the existing genus Ningiella of beside.

Secusnioella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Nioella*, An existing genus; *Secusnioella*: A genus related to but distinct from the existing genus Nioella of beside.

Secusnitratifractor

L. masc. preposition *secus*, beside; L. masc. n. *Nitratifractor*, An existing genus; *Secusnitratifractor*: A genus related to but distinct from the existing genus Nitratifractor of beside.

Secusnitratireductor

L. masc. preposition *secus*, beside; L. masc. n. *Nitratireductor*, An existing genus; *Secusnitratireductor*: A genus related to but distinct from the existing genus Nitratireductor of beside.

Secusnitratiruptor

L. masc. preposition *secus*, beside; L. masc. n. *Nitratiruptor*, An existing genus; *Secusnitratiruptor*: A genus related to but distinct from the existing genus Nitratiruptor of beside.

Secusnitriliruptor

L. masc. preposition *secus*, beside; L. masc. n. *Nitriliruptor*, An existing genus; *Secusnitriliruptor*: A genus related to but distinct from the existing genus Nitriliruptor of beside.

Secusnitrincola

L. masc. preposition *secus*, beside; L. masc. n. *Nitrincola*, An existing genus; *Secusnitrincola*: A genus related to but distinct from the existing genus Nitrincola of beside.

Secusnitritalea

L. masc. preposition *secus*, beside; L. fem. n. *Nitritalea*, An existing genus; *Secusnitritalea*: A genus related to but distinct from the existing genus Nitritalea of beside.

Secusnitrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Nitrobacter*, An existing genus; *Secusnitrobacter*: A genus related to but distinct from the existing genus Nitrobacter of beside.

Secusnitrococcus

L. masc. preposition *secus*, beside; L. masc. n. *Nitrococcus*, An existing genus; *Secusnitrococcus*: A genus related to but distinct from the existing genus Nitrococcus of beside.

Secusnitrolancea

L. masc. preposition *secus*, beside; L. fem. n. *Nitrolancea*, An existing genus; *Secusnitrolancea*: A genus related to but distinct from the existing genus Nitrolancea of beside.

Secusnitrosarchaeum

L. masc. preposition *secus*, beside; L. neut. n. *Nitrosarchaeum*, An existing genus; *Secusnitrosarchaeum*: A genus related to but distinct from the existing genus Nitrosarchaeum of beside.

Secusnitrosococcus

L. masc. preposition *secus*, beside; L. masc. n. *Nitrosococcus*, An existing genus; *Secusnitrosococcus*: A genus related to but distinct from the existing genus Nitrosococcus of beside.

Secusnitrosolobus

L. masc. preposition *secus*, beside; L. masc. n. *Nitrosolobus*, An existing genus; *Secusnitrosolobus*: A genus related to but distinct from the existing genus Nitrosolobus of beside.

Secusnitrosomonas

L. masc. preposition *secus*, beside; L. fem. n. *Nitrosomonas*, An existing genus; *Secusnitrosomonas*: A genus related to but distinct from the existing genus Nitrosomonas of beside.

Secusnitrosopumilus

L. masc. preposition *secus*, beside; L. masc. n. *Nitrosopumilus*, An existing genus; *Secusnitrosopumilus*: A genus related to but distinct from the existing genus Nitrosopumilus of beside.

Secusnitrososphaera

L. masc. preposition *secus*, beside; L. fem. n. *Nitrososphaera*, An existing genus; *Secusnitrososphaera*: A genus related to but distinct from the existing genus Nitrososphaera of beside.

Secusnitrosospira

L. masc. preposition *secus*, beside; L. fem. n. *Nitrosospira*, An existing genus; *Secusnitrosospira*: A genus related to but distinct from the existing genus Nitrosospira of beside.

Secusnitrospina

L. masc. preposition *secus*, beside; L. fem. n. *Nitrospina*, An existing genus; *Secusnitrospina*: A genus related to but distinct from the existing genus Nitrospina of beside.

Secusnitrospira

L. masc. preposition *secus*, beside; L. fem. n. *Nitrospira*, An existing genus; *Secusnitrospira*: A genus related to but distinct from the existing genus Nitrospira of beside.

Secusniveibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Niveibacterium*, An existing genus; *Secusniveibacterium*: A genus related to but distinct from the existing genus Niveibacterium of beside.

Secusniveispirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Niveispirillum*, An existing genus; *Secusniveispirillum*: A genus related to but distinct from the existing genus Niveispirillum of beside.

Secusniveitalea

L. masc. preposition *secus*, beside; L. fem. n. *Niveitalea*, An existing genus; *Secusniveitalea*: A genus related to but distinct from the existing genus Niveitalea of beside.

Secusnocardia

L. masc. preposition *secus*, beside; L. fem. n. *Nocardia*, An existing genus; *Secusnocardia*: A genus related to but distinct from the existing genus Nocardia of beside.

Secusnocardioides

L. masc. preposition *secus*, beside; L. masc. n. *Nocardioides*, An existing genus; *Secusnocardioides*: A genus related to but distinct from the existing genus Nocardioides of beside.

Secusnocardiopsis

L. masc. preposition *secus*, beside; L. fem. n. *Nocardiopsis*, An existing genus; *Secusnocardiopsis*: A genus related to but distinct from the existing genus Nocardiopsis of beside.

Secusnodosilinea

L. masc. preposition *secus*, beside; L. fem. n. *Nodosilinea*, An existing genus; *Secusnodosilinea*: A genus related to but distinct from the existing genus Nodosilinea of beside.

Secusnonhongiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Nonhongiella*, An existing genus; *Secusnonhongiella*: A genus related to but distinct from the existing genus Nonhongiella of beside.

Secusnonomuraea

L. masc. preposition *secus*, beside; L. fem. n. *Nonomuraea*, An existing genus; *Secusnonomuraea*: A genus related to but distinct from the existing genus Nonomuraea of beside.

Secusnosocomiicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Nosocomiicoccus*, An existing genus; *Secusnosocomiicoccus*: A genus related to but distinct from the existing genus Nosocomiicoccus of beside.

Secusnostoc

L. masc. preposition *secus*, beside; L. neut. n. *Nostoc*, An existing genus; *Secusnostoc*: A genus related to but distinct from the existing genus Nostoc of beside.

Secusnotoacmeibacter

L. masc. preposition *secus*, beside; L. masc. n. *Notoacmeibacter*, An existing genus; *Secusnotoacmeibacter*: A genus related to but distinct from the existing genus Notoacmeibacter of beside.

Secusnovibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Novibacillus*, An existing genus; *Secusnovibacillus*: A genus related to but distinct from the existing genus Novibacillus of beside.

Secusnoviherbaspirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Noviherbaspirillum*, An existing genus; *Secusnoviherbaspirillum*: A genus related to but distinct from the existing genus Noviherbaspirillum of beside.

Secusnovimethylophilus

L. masc. preposition *secus*, beside; L. masc. n. *Novimethylophilus*, An existing genus; *Secusnovimethylophilus*: A genus related to but distinct from the existing genus Novimethylophilus of beside.

Secusnovipirellula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Novipirellula*, An existing genus; *Secusnovipirellula*: A genus related to but distinct from the existing genus Novipirellula of beside.

Secusnovispirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Novispirillum*, An existing genus; *Secusnovispirillum*: A genus related to but distinct from the existing genus Novispirillum of beside.

Secusnovosphingobium

L. masc. preposition *secus*, beside; L. neut. n. *Novosphingobium*, An existing genus; *Secusnovosphingobium*: A genus related to but distinct from the existing genus Novosphingobium of beside.

Secusnovosphingopyxis

L. masc. preposition *secus*, beside; L. fem. n. *Novosphingopyxis*, An existing genus; *Secusnovosphingopyxis*: A genus related to but distinct from the existing genus Novosphingopyxis of beside.

Secusnubsella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Nubsella*, An existing genus; *Secusnubsella*: A genus related to but distinct from the existing genus Nubsella of beside.

Secusnumidum

L. masc. preposition *secus*, beside; L. neut. n. *Numidum*, An existing genus; *Secusnumidum*: A genus related to but distinct from the existing genus Numidum of beside.

Secusobesumbacterium

L. masc. preposition *secus*, beside; L. neut. n. *Obesumbacterium*, An existing genus; *Secusobesumbacterium*: A genus related to but distinct from the existing genus Obesumbacterium of beside.

Secusoblitimonas

L. masc. preposition *secus*, beside; L. fem. n. *Oblitimonas*, An existing genus; *Secusoblitimonas*: A genus related to but distinct from the existing genus Oblitimonas of beside.

Secusoccallatibacter

L. masc. preposition *secus*, beside; L. masc. n. *Occallatibacter*, An existing genus; *Secusoccallatibacter*: A genus related to but distinct from the existing genus Occallatibacter of beside.

Secusoccidentia

L. masc. preposition *secus*, beside; L. fem. n. *Occidentia*, An existing genus; *Secusoccidentia*: A genus related to but distinct from the existing genus Occidentia of beside.

Secusoceanibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Oceanibacterium*, An existing genus; *Secusoceanibacterium*: A genus related to but distinct from the existing genus Oceanibacterium of beside.

Secusoceanibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Oceanibaculum*, An existing genus; *Secusoceanibaculum*: A genus related to but distinct from the existing genus Oceanibaculum of beside.

Secusoceanibium

L. masc. preposition *secus*, beside; L. neut. n. *Oceanibium*, An existing genus; *Secusoceanibium*: A genus related to but distinct from the existing genus Oceanibium of beside.

Secusoceanicella

L. masc. preposition *secus*, beside; L. fem. n. *Oceanicella*, An existing genus; *Secusoceanicella*: A genus related to but distinct from the existing genus Oceanicella of beside.

Secusoceanicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Oceanicoccus*, An existing genus; *Secusoceanicoccus*: A genus related to but distinct from the existing genus Oceanicoccus of beside.

Secusoceanicola

L. masc. preposition *secus*, beside; L. masc. n. *Oceanicola*, An existing genus; *Secusoceanicola*: A genus related to but distinct from the existing genus Oceanicola of beside.

Secusoceaniglobus

L. masc. preposition *secus*, beside; L. masc. n. *Oceaniglobus*, An existing genus; *Secusoceaniglobus*: A genus related to but distinct from the existing genus Oceaniglobus of beside.

Secusoceanimonas

L. masc. preposition *secus*, beside; L. fem. n. *Oceanimonas*, An existing genus; *Secusoceanimonas*: A genus related to but distinct from the existing genus Oceanimonas of beside.

Secusoceaniradius

L. masc. preposition *secus*, beside; L. masc. n. *Oceaniradius*, An existing genus; *Secusoceaniradius*: A genus related to but distinct from the existing genus Oceaniradius of beside.

Secusoceanirhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Oceanirhabdus*, An existing genus; *Secusoceanirhabdus*: A genus related to but distinct from the existing genus Oceanirhabdus of beside.

Secusoceanisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Oceanisphaera*, An existing genus; *Secusoceanisphaera*: A genus related to but distinct from the existing genus Oceanisphaera of beside.

Secusoceanispirochaeta

L. masc. preposition *secus*, beside; L. fem. n. *Oceanispirochaeta*, An existing genus; *Secusoceanispirochaeta*: A genus related to but distinct from the existing genus Oceanispirochaeta of beside.

Secusoceanitalea

L. masc. preposition *secus*, beside; L. fem. n. *Oceanitalea*, An existing genus; *Secusoceanitalea*: A genus related to but distinct from the existing genus Oceanitalea of beside.

Secusoceanithermus

L. masc. preposition *secus*, beside; L. masc. n. *Oceanithermus*, An existing genus; *Secusoceanithermus*: A genus related to but distinct from the existing genus Oceanithermus of beside.

Secusoceanivirga

L. masc. preposition *secus*, beside; L. fem. n. *Oceanivirga*, An existing genus; *Secusoceanivirga*: A genus related to but distinct from the existing genus Oceanivirga of beside.

Secusoceanobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Oceanobacillus*, An existing genus; *Secusoceanobacillus*: A genus related to but distinct from the existing genus Oceanobacillus of beside.

Secusoceanobacter

L. masc. preposition *secus*, beside; L. masc. n. *Oceanobacter*, An existing genus; *Secusoceanobacter*: A genus related to but distinct from the existing genus Oceanobacter of beside.

Secusoceanococcus

L. masc. preposition *secus*, beside; L. masc. n. *Oceanococcus*, An existing genus; *Secusoceanococcus*: A genus related to but distinct from the existing genus Oceanococcus of beside.

Secusoceanospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Oceanospirillum*, An existing genus; *Secusoceanospirillum*: A genus related to but distinct from the existing genus Oceanospirillum of beside.

Secusoceanotoga

L. masc. preposition *secus*, beside; L. fem. n. *Oceanotoga*, An existing genus; *Secusoceanotoga*: A genus related to but distinct from the existing genus Oceanotoga of beside.

Secusochrobactrum

L. masc. preposition *secus*, beside; L. neut. n. *Ochrobactrum*, An existing genus; *Secusochrobactrum*: A genus related to but distinct from the existing genus Ochrobactrum of beside.

Secusochrovirga

L. masc. preposition *secus*, beside; L. fem. n. *Ochrovirga*, An existing genus; *Secusochrovirga*: A genus related to but distinct from the existing genus Ochrovirga of beside.

Secusoctadecabacter

L. masc. preposition *secus*, beside; L. masc. n. *Octadecabacter*, An existing genus; *Secusoctadecabacter*: A genus related to but distinct from the existing genus Octadecabacter of beside.

Secusoculatella

L. masc. preposition *secus*, beside; L. fem. n. *Oculatella*, An existing genus; *Secusoculatella*: A genus related to but distinct from the existing genus Oculatella of beside.

Secusodorella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Odorella*, An existing genus; *Secusodorella*: A genus related to but distinct from the existing genus Odorella of beside.

Secusodoribacter

L. masc. preposition *secus*, beside; L. masc. n. *Odoribacter*, An existing genus; *Secusodoribacter*: A genus related to but distinct from the existing genus Odoribacter of beside.

Secusoenococcus

L. masc. preposition *secus*, beside; L. masc. n. *Oenococcus*, An existing genus; *Secusoenococcus*: A genus related to but distinct from the existing genus Oenococcus of beside.

Secusoerskovia

L. masc. preposition *secus*, beside; L. fem. n. *Oerskovia*, An existing genus; *Secusoerskovia*: A genus related to but distinct from the existing genus Oerskovia of beside.

Secusoharaeibacter

L. masc. preposition *secus*, beside; L. masc. n. *Oharaeibacter*, An existing genus; *Secusoharaeibacter*: A genus related to but distinct from the existing genus Oharaeibacter of beside.

Secusohtaekwangia

L. masc. preposition *secus*, beside; L. fem. n. *Ohtaekwangia*, An existing genus; *Secusohtaekwangia*: A genus related to but distinct from the existing genus Ohtaekwangia of beside.

Secusokeania

L. masc. preposition *secus*, beside; L. fem. n. *Okeania*, An existing genus; *Secusokeania*: A genus related to but distinct from the existing genus Okeania of beside.

Secusokibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Okibacterium*, An existing genus; *Secusokibacterium*: A genus related to but distinct from the existing genus Okibacterium of beside.

Secusolegusella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Olegusella*, An existing genus; *Secusolegusella*: A genus related to but distinct from the existing genus Olegusella of beside.

Secusoleiagrimonas

L. masc. preposition *secus*, beside; L. fem. n. *Oleiagrimonas*, An existing genus; *Secusoleiagrimonas*: A genus related to but distinct from the existing genus Oleiagrimonas of beside.

Secusoleibacter

L. masc. preposition *secus*, beside; L. masc. n. *Oleibacter*, An existing genus; *Secusoleibacter*: A genus related to but distinct from the existing genus Oleibacter of beside.

Secusoleiharenicola

L. masc. preposition *secus*, beside; L. masc. n. *Oleiharenicola*, An existing genus; *Secusoleiharenicola*: A genus related to but distinct from the existing genus Oleiharenicola of beside.

Secusoleiliquidispirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Oleiliquidispirillum*, An existing genus; *Secusoleiliquidispirillum*: A genus related to but distinct from the existing genus Oleiliquidispirillum of beside.

Secusoleisolibacter

L. masc. preposition *secus*, beside; L. masc. n. *Oleisolibacter*, An existing genus; *Secusoleisolibacter*: A genus related to but distinct from the existing genus Oleisolibacter of beside.

Secusoleispira

L. masc. preposition *secus*, beside; L. fem. n. *Oleispira*, An existing genus; *Secusoleispira*: A genus related to but distinct from the existing genus Oleispira of beside.

Secusoligella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Oligella*, An existing genus; *Secusoligella*: A genus related to but distinct from the existing genus Oligella of beside.

Secusoligoflexus

L. masc. preposition *secus*, beside; L. masc. n. *Oligoflexus*, An existing genus; *Secusoligoflexus*: A genus related to but distinct from the existing genus Oligoflexus of beside.

Secusoligosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Oligosphaera*, An existing genus; *Secusoligosphaera*: A genus related to but distinct from the existing genus Oligosphaera of beside.

Secusoligotropha

L. masc. preposition *secus*, beside; L. fem. n. *Oligotropha*, An existing genus; *Secusoligotropha*: A genus related to but distinct from the existing genus Oligotropha of beside.

Secusolivibacter

L. masc. preposition *secus*, beside; L. masc. n. *Olivibacter*, An existing genus; *Secusolivibacter*: A genus related to but distinct from the existing genus Olivibacter of beside.

Secusolleya

L. masc. preposition *secus*, beside; L. fem. n. *Olleya*, An existing genus; *Secusolleya*: A genus related to but distinct from the existing genus Olleya of beside.

Secusolsenella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Olsenella*, An existing genus; *Secusolsenella*: A genus related to but distinct from the existing genus Olsenella of beside.

Secusonodrimia

L. masc. preposition *secus*, beside; L. fem. n. *Onodrimia*, An existing genus; *Secusonodrimia*: A genus related to but distinct from the existing genus Onodrimia of beside.

Secusopitutus

L. masc. preposition *secus*, beside; L. masc. n. *Opitutus*, An existing genus; *Secusopitutus*: A genus related to but distinct from the existing genus Opitutus of beside.

Secusorenia

L. masc. preposition *secus*, beside; L. fem. n. *Orenia*, An existing genus; *Secusorenia*: A genus related to but distinct from the existing genus Orenia of beside.

Secusoribacterium

L. masc. preposition *secus*, beside; L. neut. n. *Oribacterium*, An existing genus; *Secusoribacterium*: A genus related to but distinct from the existing genus Oribacterium of beside.

Secusoribaculum

L. masc. preposition *secus*, beside; L. neut. n. *Oribaculum*, An existing genus; *Secusoribaculum*: A genus related to but distinct from the existing genus Oribaculum of beside.

Secusoricola

L. masc. preposition *secus*, beside; L. fem. n. *Oricola*, An existing genus; *Secusoricola*: A genus related to but distinct from the existing genus Oricola of beside.

Secusornatilinea

L. masc. preposition *secus*, beside; L. fem. n. *Ornatilinea*, An existing genus; *Secusornatilinea*: A genus related to but distinct from the existing genus Ornatilinea of beside.

Secusornithinibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Ornithinibacillus*, An existing genus; *Secusornithinibacillus*: A genus related to but distinct from the existing genus Ornithinibacillus of beside.

Secusornithinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Ornithinibacter*, An existing genus; *Secusornithinibacter*: A genus related to but distinct from the existing genus Ornithinibacter of beside.

Secusornithinicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Ornithinicoccus*, An existing genus; *Secusornithinicoccus*: A genus related to but distinct from the existing genus Ornithinicoccus of beside.

Secusornithinimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Ornithinimicrobium*, An existing genus; *Secusornithinimicrobium*: A genus related to but distinct from the existing genus Ornithinimicrobium of beside.

Secusornithobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Ornithobacterium*, An existing genus; *Secusornithobacterium*: A genus related to but distinct from the existing genus Ornithobacterium of beside.

Secusorrella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Orrella*, An existing genus; *Secusorrella*: A genus related to but distinct from the existing genus Orrella of beside.

Secusoryzihumus

L. masc. preposition *secus*, beside; L. fem. n. *Oryzihumus*, An existing genus; *Secusoryzihumus*: A genus related to but distinct from the existing genus Oryzihumus of beside.

Secusoryzisolibacter

L. masc. preposition *secus*, beside; L. masc. n. *Oryzisolibacter*, An existing genus; *Secusoryzisolibacter*: A genus related to but distinct from the existing genus Oryzisolibacter of beside.

Secusoryzobacter

L. masc. preposition *secus*, beside; L. masc. n. *Oryzobacter*, An existing genus; *Secusoryzobacter*: A genus related to but distinct from the existing genus Oryzobacter of beside.

Secusoryzomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Oryzomicrobium*, An existing genus; *Secusoryzomicrobium*: A genus related to but distinct from the existing genus Oryzomicrobium of beside.

Secusoryzomonas

L. masc. preposition *secus*, beside; L. fem. n. *Oryzomonas*, An existing genus; *Secusoryzomonas*: A genus related to but distinct from the existing genus Oryzomonas of beside.

Secusoscillatoria

L. masc. preposition *secus*, beside; L. fem. n. *Oscillatoria*, An existing genus; *Secusoscillatoria*: A genus related to but distinct from the existing genus Oscillatoria of beside.

Secusoscillibacter

L. masc. preposition *secus*, beside; L. masc. n. *Oscillibacter*, An existing genus; *Secusoscillibacter*: A genus related to but distinct from the existing genus Oscillibacter of beside.

Secusoscillochloris

L. masc. preposition *secus*, beside; L. fem. n. *Oscillochloris*, An existing genus; *Secusoscillochloris*: A genus related to but distinct from the existing genus Oscillochloris of beside.

Secusoscillospira

L. masc. preposition *secus*, beside; L. fem. n. *Oscillospira*, An existing genus; *Secusoscillospira*: A genus related to but distinct from the existing genus Oscillospira of beside.

Secusotariodibacter

L. masc. preposition *secus*, beside; L. masc. n. *Otariodibacter*, An existing genus; *Secusotariodibacter*: A genus related to but distinct from the existing genus Otariodibacter of beside.

Secusottowia

L. masc. preposition *secus*, beside; L. fem. n. *Ottowia*, An existing genus; *Secusottowia*: A genus related to but distinct from the existing genus Ottowia of beside.

Secusowenweeksia

L. masc. preposition *secus*, beside; L. fem. n. *Owenweeksia*, An existing genus; *Secusowenweeksia*: A genus related to but distinct from the existing genus Owenweeksia of beside.

Secusoxalobacter

L. masc. preposition *secus*, beside; L. masc. n. *Oxalobacter*, An existing genus; *Secusoxalobacter*: A genus related to but distinct from the existing genus Oxalobacter of beside.

Secusoxalophagus

L. masc. preposition *secus*, beside; L. masc. n. *Oxalophagus*, An existing genus; *Secusoxalophagus*: A genus related to but distinct from the existing genus Oxalophagus of beside.

Secusoxobacter

L. masc. preposition *secus*, beside; L. masc. n. *Oxobacter*, An existing genus; *Secusoxobacter*: A genus related to but distinct from the existing genus Oxobacter of beside.

Secusoxynema

L. masc. preposition *secus*, beside; L. neut. n. *Oxynema*, An existing genus; *Secusoxynema*: A genus related to but distinct from the existing genus Oxynema of beside.

Secuspacificibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pacificibacter*, An existing genus; *Secuspacificibacter*: A genus related to but distinct from the existing genus Pacificibacter of beside.

Secuspaenactinomyces

L. masc. preposition *secus*, beside; L. masc. n. *Paenactinomyces*, An existing genus; *Secuspaenactinomyces*: A genus related to but distinct from the existing genus Paenactinomyces of beside.

Secuspaenalcaligenes

L. masc. preposition *secus*, beside; L. masc. n. *Paenalcaligenes*, An existing genus; *Secuspaenalcaligenes*: A genus related to but distinct from the existing genus Paenalcaligenes of beside.

Secuspaenarthrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Paenarthrobacter*, An existing genus; *Secuspaenarthrobacter*: A genus related to but distinct from the existing genus Paenarthrobacter of beside.

Secuspaenibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Paenibacillus*, An existing genus; *Secuspaenibacillus*: A genus related to but distinct from the existing genus Paenibacillus of beside.

Secuspaeniclostridium

L. masc. preposition *secus*, beside; L. neut. dim. n. *Paeniclostridium*, An existing genus; *Secuspaeniclostridium*: A genus related to but distinct from the existing genus Paeniclostridium of beside.

Secuspaeniglutamicibacter

L. masc. preposition *secus*, beside; L. masc. n. *Paeniglutamicibacter*, An existing genus; *Secuspaeniglutamicibacter*: A genus related to but distinct from the existing genus Paeniglutamicibacter of beside.

Secuspaenimaribius

L. masc. preposition *secus*, beside; L. masc. n. *Paenimaribius*, An existing genus; *Secuspaenimaribius*: A genus related to but distinct from the existing genus Paenimaribius of beside.

Secuspaenirhodobacter

L. masc. preposition *secus*, beside; L. masc. n. *Paenirhodobacter*, An existing genus; *Secuspaenirhodobacter*: A genus related to but distinct from the existing genus Paenirhodobacter of beside.

Secuspaenisporosarcina

L. masc. preposition *secus*, beside; L. fem. n. *Paenisporosarcina*, An existing genus; *Secuspaenisporosarcina*: A genus related to but distinct from the existing genus Paenisporosarcina of beside.

Secuspaenochrobactrum

L. masc. preposition *secus*, beside; L. neut. n. *Paenochrobactrum*, An existing genus; *Secuspaenochrobactrum*: A genus related to but distinct from the existing genus Paenochrobactrum of beside.

Secuspalaeococcus

L. masc. preposition *secus*, beside; L. masc. n. *Palaeococcus*, An existing genus; *Secuspalaeococcus*: A genus related to but distinct from the existing genus Palaeococcus of beside.

Secuspalleronia

L. masc. preposition *secus*, beside; L. fem. n. *Palleronia*, An existing genus; *Secuspalleronia*: A genus related to but distinct from the existing genus Palleronia of beside.

Secuspaludibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Paludibacterium*, An existing genus; *Secuspaludibacterium*: A genus related to but distinct from the existing genus Paludibacterium of beside.

Secuspaludibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Paludibaculum*, An existing genus; *Secuspaludibaculum*: A genus related to but distinct from the existing genus Paludibaculum of beside.

Secuspaludicola

L. masc. preposition *secus*, beside; L. masc. n. *Paludicola*, An existing genus; *Secuspaludicola*: A genus related to but distinct from the existing genus Paludicola of beside.

Secuspaludifilum

L. masc. preposition *secus*, beside; L. neut. n. *Paludifilum*, An existing genus; *Secuspaludifilum*: A genus related to but distinct from the existing genus Paludifilum of beside.

Secuspaludisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Paludisphaera*, An existing genus; *Secuspaludisphaera*: A genus related to but distinct from the existing genus Paludisphaera of beside.

Secuspanacagrimonas

L. masc. preposition *secus*, beside; L. fem. n. *Panacagrimonas*, An existing genus; *Secuspanacagrimonas*: A genus related to but distinct from the existing genus Panacagrimonas of beside.

Secuspanacibacter

L. masc. preposition *secus*, beside; L. masc. n. *Panacibacter*, An existing genus; *Secuspanacibacter*: A genus related to but distinct from the existing genus Panacibacter of beside.

Secuspandoraea

L. masc. preposition *secus*, beside; L. fem. n. *Pandoraea*, An existing genus; *Secuspandoraea*: A genus related to but distinct from the existing genus Pandoraea of beside.

Secuspannonibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pannonibacter*, An existing genus; *Secuspannonibacter*: A genus related to but distinct from the existing genus Pannonibacter of beside.

Secuspannus

L. masc. preposition *secus*, beside; L. masc. n. *Pannus*, An existing genus; *Secuspannus*: A genus related to but distinct from the existing genus Pannus of beside.

Secuspantanalinema

L. masc. preposition *secus*, beside; L. neut. n. *Pantanalinema*, An existing genus; *Secuspantanalinema*: A genus related to but distinct from the existing genus Pantanalinema of beside.

Secuspantoea

L. masc. preposition *secus*, beside; L. fem. n. *Pantoea*, An existing genus; *Secuspantoea*: A genus related to but distinct from the existing genus Pantoea of beside.

Secuspapillibacter

L. masc. preposition *secus*, beside; L. masc. n. *Papillibacter*, An existing genus; *Secuspapillibacter*: A genus related to but distinct from the existing genus Papillibacter of beside.

Secusparabacteroides

L. masc. preposition *secus*, beside; L. masc. n. *Parabacteroides*, An existing genus; *Secusparabacteroides*: A genus related to but distinct from the existing genus Parabacteroides of beside.

Secusparablastomonas

L. masc. preposition *secus*, beside; L. fem. n. *Parablastomonas*, An existing genus; *Secusparablastomonas*: A genus related to but distinct from the existing genus Parablastomonas of beside.

Secusparaburkholderia

L. masc. preposition *secus*, beside; L. fem. n. *Paraburkholderia*, An existing genus; *Secusparaburkholderia*: A genus related to but distinct from the existing genus Paraburkholderia of beside.

Secusparacandidimonas

L. masc. preposition *secus*, beside; L. fem. n. *Paracandidimonas*, An existing genus; *Secusparacandidimonas*: A genus related to but distinct from the existing genus Paracandidimonas of beside.

Secusparachlamydia

L. masc. preposition *secus*, beside; L. fem. n. *Parachlamydia*, An existing genus; *Secusparachlamydia*: A genus related to but distinct from the existing genus Parachlamydia of beside.

Secusparaclostridium

L. masc. preposition *secus*, beside; L. neut. dim. n. *Paraclostridium*, An existing genus; *Secusparaclostridium*: A genus related to but distinct from the existing genus Paraclostridium of beside.

Secusparacnuella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Paracnuella*, An existing genus; *Secusparacnuella*: A genus related to but distinct from the existing genus Paracnuella of beside.

Secusparacoccus

L. masc. preposition *secus*, beside; L. masc. n. *Paracoccus*, An existing genus; *Secusparacoccus*: A genus related to but distinct from the existing genus Paracoccus of beside.

Secusparaconexibacter

L. masc. preposition *secus*, beside; L. masc. n. *Paraconexibacter*, An existing genus; *Secusparaconexibacter*: A genus related to but distinct from the existing genus Paraconexibacter of beside.

Secusparacraurococcus

L. masc. preposition *secus*, beside; L. masc. n. *Paracraurococcus*, An existing genus; *Secusparacraurococcus*: A genus related to but distinct from the existing genus Paracraurococcus of beside.

Secusparadesulfovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Paradesulfovibrio*, An existing genus; *Secusparadesulfovibrio*: A genus related to but distinct from the existing genus Paradesulfovibrio of beside.

Secusparadevosia

L. masc. preposition *secus*, beside; L. fem. n. *Paradevosia*, An existing genus; *Secusparadevosia*: A genus related to but distinct from the existing genus Paradevosia of beside.

Secusparadonghicola

L. masc. preposition *secus*, beside; L. masc. n. *Paradonghicola*, An existing genus; *Secusparadonghicola*: A genus related to but distinct from the existing genus Paradonghicola of beside.

Secusparaeggerthella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Paraeggerthella*, An existing genus; *Secusparaeggerthella*: A genus related to but distinct from the existing genus Paraeggerthella of beside.

Secusparaferrimonas

L. masc. preposition *secus*, beside; L. fem. n. *Paraferrimonas*, An existing genus; *Secusparaferrimonas*: A genus related to but distinct from the existing genus Paraferrimonas of beside.

Secusparafilimonas

L. masc. preposition *secus*, beside; L. fem. n. *Parafilimonas*, An existing genus; *Secusparafilimonas*: A genus related to but distinct from the existing genus Parafilimonas of beside.

Secusparaflavitalea

L. masc. preposition *secus*, beside; L. fem. n. *Paraflavitalea*, An existing genus; *Secusparaflavitalea*: A genus related to but distinct from the existing genus Paraflavitalea of beside.

Secusparafrigoribacterium

L. masc. preposition *secus*, beside; L. neut. n. *Parafrigoribacterium*, An existing genus; *Secusparafrigoribacterium*: A genus related to but distinct from the existing genus Parafrigoribacterium of beside.

Secusparageobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Parageobacillus*, An existing genus; *Secusparageobacillus*: A genus related to but distinct from the existing genus Parageobacillus of beside.

Secusparaglaciecola

L. masc. preposition *secus*, beside; L. fem. n. *Paraglaciecola*, An existing genus; *Secusparaglaciecola*: A genus related to but distinct from the existing genus Paraglaciecola of beside.

Secusparaglycomyces

L. masc. preposition *secus*, beside; L. masc. n. *Paraglycomyces*, An existing genus; *Secusparaglycomyces*: A genus related to but distinct from the existing genus Paraglycomyces of beside.

Secusparahaliea

L. masc. preposition *secus*, beside; L. fem. n. *Parahaliea*, An existing genus; *Secusparahaliea*: A genus related to but distinct from the existing genus Parahaliea of beside.

Secusparaherbaspirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Paraherbaspirillum*, An existing genus; *Secusparaherbaspirillum*: A genus related to but distinct from the existing genus Paraherbaspirillum of beside.

Secusparalactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Paralactobacillus*, An existing genus; *Secusparalactobacillus*: A genus related to but distinct from the existing genus Paralactobacillus of beside.

Secusparalcaligenes

L. masc. preposition *secus*, beside; L. masc. n. *Paralcaligenes*, An existing genus; *Secusparalcaligenes*: A genus related to but distinct from the existing genus Paralcaligenes of beside.

Secusparaliobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Paraliobacillus*, An existing genus; *Secusparaliobacillus*: A genus related to but distinct from the existing genus Paraliobacillus of beside.

Secusparalkalibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Paralkalibacillus*, An existing genus; *Secusparalkalibacillus*: A genus related to but distinct from the existing genus Paralkalibacillus of beside.

Secusparamaledivibacter

L. masc. preposition *secus*, beside; L. masc. n. *Paramaledivibacter*, An existing genus; *Secusparamaledivibacter*: A genus related to but distinct from the existing genus Paramaledivibacter of beside.

Secusparamesonia

L. masc. preposition *secus*, beside; L. fem. n. *Paramesonia*, An existing genus; *Secusparamesonia*: A genus related to but distinct from the existing genus Paramesonia of beside.

Secusparamoritella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Paramoritella*, An existing genus; *Secusparamoritella*: A genus related to but distinct from the existing genus Paramoritella of beside.

Secusparamuribaculum

L. masc. preposition *secus*, beside; L. neut. n. *Paramuribaculum*, An existing genus; *Secusparamuribaculum*: A genus related to but distinct from the existing genus Paramuribaculum of beside.

Secusparaoerskovia

L. masc. preposition *secus*, beside; L. fem. n. *Paraoerskovia*, An existing genus; *Secusparaoerskovia*: A genus related to but distinct from the existing genus Paraoerskovia of beside.

Secusparapedobacter

L. masc. preposition *secus*, beside; L. masc. n. *Parapedobacter*, An existing genus; *Secusparapedobacter*: A genus related to but distinct from the existing genus Parapedobacter of beside.

Secusparaperlucidibaca

L. masc. preposition *secus*, beside; L. fem. n. *Paraperlucidibaca*, An existing genus; *Secusparaperlucidibaca*: A genus related to but distinct from the existing genus Paraperlucidibaca of beside.

Secusparaphaeobacter

L. masc. preposition *secus*, beside; L. masc. n. *Paraphaeobacter*, An existing genus; *Secusparaphaeobacter*: A genus related to but distinct from the existing genus Paraphaeobacter of beside.

Secusparaphotobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Paraphotobacterium*, An existing genus; *Secusparaphotobacterium*: A genus related to but distinct from the existing genus Paraphotobacterium of beside.

Secusparaprevotella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Paraprevotella*, An existing genus; *Secusparaprevotella*: A genus related to but distinct from the existing genus Paraprevotella of beside.

Secusparapseudoflavitalea

L. masc. preposition *secus*, beside; L. fem. n. *Parapseudoflavitalea*, An existing genus; *Secusparapseudoflavitalea*: A genus related to but distinct from the existing genus Parapseudoflavitalea of beside.

Secusparapusillimonas

L. masc. preposition *secus*, beside; L. fem. n. *Parapusillimonas*, An existing genus; *Secusparapusillimonas*: A genus related to but distinct from the existing genus Parapusillimonas of beside.

Secuspararcticibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pararcticibacter*, An existing genus; *Secuspararcticibacter*: A genus related to but distinct from the existing genus Pararcticibacter of beside.

Secuspararheinheimera

L. masc. preposition *secus*, beside; L. fem. n. *Pararheinheimera*, An existing genus; *Secuspararheinheimera*: A genus related to but distinct from the existing genus Pararheinheimera of beside.

Secuspararhizobium

L. masc. preposition *secus*, beside; L. neut. n. *Pararhizobium*, An existing genus; *Secuspararhizobium*: A genus related to but distinct from the existing genus Pararhizobium of beside.

Secuspararhodobacter

L. masc. preposition *secus*, beside; L. masc. n. *Pararhodobacter*, An existing genus; *Secuspararhodobacter*: A genus related to but distinct from the existing genus Pararhodobacter of beside.

Secuspararhodospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Pararhodospirillum*, An existing genus; *Secuspararhodospirillum*: A genus related to but distinct from the existing genus Pararhodospirillum of beside.

Secuspararobbsia

L. masc. preposition *secus*, beside; L. fem. n. *Pararobbsia*, An existing genus; *Secuspararobbsia*: A genus related to but distinct from the existing genus Pararobbsia of beside.

Secusparasaccharibacter

L. masc. preposition *secus*, beside; L. masc. n. *Parasaccharibacter*, An existing genus; *Secusparasaccharibacter*: A genus related to but distinct from the existing genus Parasaccharibacter of beside.

Secusparascardovia

L. masc. preposition *secus*, beside; L. fem. n. *Parascardovia*, An existing genus; *Secusparascardovia*: A genus related to but distinct from the existing genus Parascardovia of beside.

Secusparasedimentitalea

L. masc. preposition *secus*, beside; L. fem. n. *Parasedimentitalea*, An existing genus; *Secusparasedimentitalea*: A genus related to but distinct from the existing genus Parasedimentitalea of beside.

Secusparasediminibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Parasediminibacterium*, An existing genus; *Secusparasediminibacterium*: A genus related to but distinct from the existing genus Parasediminibacterium of beside.

Secusparasegetibacter

L. masc. preposition *secus*, beside; L. masc. n. *Parasegetibacter*, An existing genus; *Secusparasegetibacter*: A genus related to but distinct from the existing genus Parasegetibacter of beside.

Secusparashewanella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Parashewanella*, An existing genus; *Secusparashewanella*: A genus related to but distinct from the existing genus Parashewanella of beside.

Secusparasphaerochaeta

L. masc. preposition *secus*, beside; L. fem. n. *Parasphaerochaeta*, An existing genus; *Secusparasphaerochaeta*: A genus related to but distinct from the existing genus Parasphaerochaeta of beside.

Secusparasphingopyxis

L. masc. preposition *secus*, beside; L. fem. n. *Parasphingopyxis*, An existing genus; *Secusparasphingopyxis*: A genus related to but distinct from the existing genus Parasphingopyxis of beside.

Secusparasphingorhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Parasphingorhabdus*, An existing genus; *Secusparasphingorhabdus*: A genus related to but distinct from the existing genus Parasphingorhabdus of beside.

Secusparasporobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Parasporobacterium*, An existing genus; *Secusparasporobacterium*: A genus related to but distinct from the existing genus Parasporobacterium of beside.

Secusparasutterella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Parasutterella*, An existing genus; *Secusparasutterella*: A genus related to but distinct from the existing genus Parasutterella of beside.

Secusparemcibacter

L. masc. preposition *secus*, beside; L. masc. n. *Paremcibacter*, An existing genus; *Secusparemcibacter*: A genus related to but distinct from the existing genus Paremcibacter of beside.

Secusparendozoicomonas

L. masc. preposition *secus*, beside; L. fem. n. *Parendozoicomonas*, An existing genus; *Secusparendozoicomonas*: A genus related to but distinct from the existing genus Parendozoicomonas of beside.

Secusparoceanicella

L. masc. preposition *secus*, beside; L. fem. n. *Paroceanicella*, An existing genus; *Secusparoceanicella*: A genus related to but distinct from the existing genus Paroceanicella of beside.

Secusparolsenella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Parolsenella*, An existing genus; *Secusparolsenella*: A genus related to but distinct from the existing genus Parolsenella of beside.

Secusparvibium

L. masc. preposition *secus*, beside; L. neut. n. *Parvibium*, An existing genus; *Secusparvibium*: A genus related to but distinct from the existing genus Parvibium of beside.

Secusparvimonas

L. masc. preposition *secus*, beside; L. fem. n. *Parvimonas*, An existing genus; *Secusparvimonas*: A genus related to but distinct from the existing genus Parvimonas of beside.

Secusparviterribacter

L. masc. preposition *secus*, beside; L. masc. n. *Parviterribacter*, An existing genus; *Secusparviterribacter*: A genus related to but distinct from the existing genus Parviterribacter of beside.

Secusparvularcula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Parvularcula*, An existing genus; *Secusparvularcula*: A genus related to but distinct from the existing genus Parvularcula of beside.

Secuspasteurella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Pasteurella*, An existing genus; *Secuspasteurella*: A genus related to but distinct from the existing genus Pasteurella of beside.

Secuspasteuria

L. masc. preposition *secus*, beside; L. fem. n. *Pasteuria*, An existing genus; *Secuspasteuria*: A genus related to but distinct from the existing genus Pasteuria of beside.

Secuspatiriisocius

L. masc. preposition *secus*, beside; L. masc. n. *Patiriisocius*, An existing genus; *Secuspatiriisocius*: A genus related to but distinct from the existing genus Patiriisocius of beside.

Secuspatulibacter

L. masc. preposition *secus*, beside; L. masc. n. *Patulibacter*, An existing genus; *Secuspatulibacter*: A genus related to but distinct from the existing genus Patulibacter of beside.

Secuspaucibacter

L. masc. preposition *secus*, beside; L. masc. n. *Paucibacter*, An existing genus; *Secuspaucibacter*: A genus related to but distinct from the existing genus Paucibacter of beside.

Secuspaucilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Paucilactobacillus*, An existing genus; *Secuspaucilactobacillus*: A genus related to but distinct from the existing genus Paucilactobacillus of beside.

Secuspaucimonas

L. masc. preposition *secus*, beside; L. fem. n. *Paucimonas*, An existing genus; *Secuspaucimonas*: A genus related to but distinct from the existing genus Paucimonas of beside.

Secuspaucisalibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Paucisalibacillus*, An existing genus; *Secuspaucisalibacillus*: A genus related to but distinct from the existing genus Paucisalibacillus of beside.

Secuspauljensenia

L. masc. preposition *secus*, beside; L. fem. n. *Pauljensenia*, An existing genus; *Secuspauljensenia*: A genus related to but distinct from the existing genus Pauljensenia of beside.

Secuspectinatus

L. masc. preposition *secus*, beside; L. masc. n. *Pectinatus*, An existing genus; *Secuspectinatus*: A genus related to but distinct from the existing genus Pectinatus of beside.

Secuspectobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Pectobacterium*, An existing genus; *Secuspectobacterium*: A genus related to but distinct from the existing genus Pectobacterium of beside.

Secuspediococcus

L. masc. preposition *secus*, beside; L. masc. n. *Pediococcus*, An existing genus; *Secuspediococcus*: A genus related to but distinct from the existing genus Pediococcus of beside.

Secuspedobacter

L. masc. preposition *secus*, beside; L. masc. n. *Pedobacter*, An existing genus; *Secuspedobacter*: A genus related to but distinct from the existing genus Pedobacter of beside.

Secuspedococcus

L. masc. preposition *secus*, beside; L. masc. n. *Pedococcus*, An existing genus; *Secuspedococcus*: A genus related to but distinct from the existing genus Pedococcus of beside.

Secuspedomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Pedomicrobium*, An existing genus; *Secuspedomicrobium*: A genus related to but distinct from the existing genus Pedomicrobium of beside.

Secuspegethrix

L. masc. preposition *secus*, beside; L. fem. n. *Pegethrix*, An existing genus; *Secuspegethrix*: A genus related to but distinct from the existing genus Pegethrix of beside.

Secuspelagibaca

L. masc. preposition *secus*, beside; L. fem. n. *Pelagibaca*, An existing genus; *Secuspelagibaca*: A genus related to but distinct from the existing genus Pelagibaca of beside.

Secuspelagibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Pelagibacillus*, An existing genus; *Secuspelagibacillus*: A genus related to but distinct from the existing genus Pelagibacillus of beside.

Secuspelagibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Pelagibacterium*, An existing genus; *Secuspelagibacterium*: A genus related to but distinct from the existing genus Pelagibacterium of beside.

Secuspelagibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Pelagibaculum*, An existing genus; *Secuspelagibaculum*: A genus related to but distinct from the existing genus Pelagibaculum of beside.

Secuspelagibius

L. masc. preposition *secus*, beside; L. masc. n. *Pelagibius*, An existing genus; *Secuspelagibius*: A genus related to but distinct from the existing genus Pelagibius of beside.

Secuspelagicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Pelagicoccus*, An existing genus; *Secuspelagicoccus*: A genus related to but distinct from the existing genus Pelagicoccus of beside.

Secuspelagicola

L. masc. preposition *secus*, beside; L. masc. n. *Pelagicola*, An existing genus; *Secuspelagicola*: A genus related to but distinct from the existing genus Pelagicola of beside.

Secuspelagihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Pelagihabitans*, An existing genus; *Secuspelagihabitans*: A genus related to but distinct from the existing genus Pelagihabitans of beside.

Secuspelagimonas

L. masc. preposition *secus*, beside; L. fem. n. *Pelagimonas*, An existing genus; *Secuspelagimonas*: A genus related to but distinct from the existing genus Pelagimonas of beside.

Secuspelagirhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Pelagirhabdus*, An existing genus; *Secuspelagirhabdus*: A genus related to but distinct from the existing genus Pelagirhabdus of beside.

Secuspelagitalea

L. masc. preposition *secus*, beside; L. fem. n. *Pelagitalea*, An existing genus; *Secuspelagitalea*: A genus related to but distinct from the existing genus Pelagitalea of beside.

Secuspelagivirga

L. masc. preposition *secus*, beside; L. fem. n. *Pelagivirga*, An existing genus; *Secuspelagivirga*: A genus related to but distinct from the existing genus Pelagivirga of beside.

Secuspelczaria

L. masc. preposition *secus*, beside; L. fem. n. *Pelczaria*, An existing genus; *Secuspelczaria*: A genus related to but distinct from the existing genus Pelczaria of beside.

Secuspelistega

L. masc. preposition *secus*, beside; L. fem. n. *Pelistega*, An existing genus; *Secuspelistega*: A genus related to but distinct from the existing genus Pelistega of beside.

Secuspelobium

L. masc. preposition *secus*, beside; L. neut. n. *Pelobium*, An existing genus; *Secuspelobium*: A genus related to but distinct from the existing genus Pelobium of beside.

Secuspelodictyon

L. masc. preposition *secus*, beside; L. neut. n. *Pelodictyon*, An existing genus; *Secuspelodictyon*: A genus related to but distinct from the existing genus Pelodictyon of beside.

Secuspelolinea

L. masc. preposition *secus*, beside; L. fem. n. *Pelolinea*, An existing genus; *Secuspelolinea*: A genus related to but distinct from the existing genus Pelolinea of beside.

Secuspelomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Pelomicrobium*, An existing genus; *Secuspelomicrobium*: A genus related to but distinct from the existing genus Pelomicrobium of beside.

Secuspelomonas

L. masc. preposition *secus*, beside; L. fem. n. *Pelomonas*, An existing genus; *Secuspelomonas*: A genus related to but distinct from the existing genus Pelomonas of beside.

Secuspeloploca

L. masc. preposition *secus*, beside; L. fem. n. *Peloploca*, An existing genus; *Secuspeloploca*: A genus related to but distinct from the existing genus Peloploca of beside.

Secuspelosinus

L. masc. preposition *secus*, beside; L. masc. n. *Pelosinus*, An existing genus; *Secuspelosinus*: A genus related to but distinct from the existing genus Pelosinus of beside.

Secuspelospora

L. masc. preposition *secus*, beside; L. fem. n. *Pelospora*, An existing genus; *Secuspelospora*: A genus related to but distinct from the existing genus Pelospora of beside.

Secuspelotomaculum

L. masc. preposition *secus*, beside; L. neut. n. *Pelotomaculum*, An existing genus; *Secuspelotomaculum*: A genus related to but distinct from the existing genus Pelotomaculum of beside.

Secuspeptacetobacter

L. masc. preposition *secus*, beside; L. masc. n. *Peptacetobacter*, An existing genus; *Secuspeptacetobacter*: A genus related to but distinct from the existing genus Peptacetobacter of beside.

Secuspeptidiphaga

L. masc. preposition *secus*, beside; L. fem. n. *Peptidiphaga*, An existing genus; *Secuspeptidiphaga*: A genus related to but distinct from the existing genus Peptidiphaga of beside.

Secuspeptoanaerobacter

L. masc. preposition *secus*, beside; L. masc. n. *Peptoanaerobacter*, An existing genus; *Secuspeptoanaerobacter*: A genus related to but distinct from the existing genus Peptoanaerobacter of beside.

Secuspeptoclostridium

L. masc. preposition *secus*, beside; L. neut. dim. n. *Peptoclostridium*, An existing genus; *Secuspeptoclostridium*: A genus related to but distinct from the existing genus Peptoclostridium of beside.

Secuspeptococcus

L. masc. preposition *secus*, beside; L. masc. n. *Peptococcus*, An existing genus; *Secuspeptococcus*: A genus related to but distinct from the existing genus Peptococcus of beside.

Secuspeptoniphilus

L. masc. preposition *secus*, beside; L. masc. n. *Peptoniphilus*, An existing genus; *Secuspeptoniphilus*: A genus related to but distinct from the existing genus Peptoniphilus of beside.

Secuspeptostreptococcus

L. masc. preposition *secus*, beside; L. masc. n. *Peptostreptococcus*, An existing genus; *Secuspeptostreptococcus*: A genus related to but distinct from the existing genus Peptostreptococcus of beside.

Secusperedibacter

L. masc. preposition *secus*, beside; L. masc. n. *Peredibacter*, An existing genus; *Secusperedibacter*: A genus related to but distinct from the existing genus Peredibacter of beside.

Secusperexilibacter

L. masc. preposition *secus*, beside; L. masc. n. *Perexilibacter*, An existing genus; *Secusperexilibacter*: A genus related to but distinct from the existing genus Perexilibacter of beside.

Secusperibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Peribacillus*, An existing genus; *Secusperibacillus*: A genus related to but distinct from the existing genus Peribacillus of beside.

Secusperlucidibaca

L. masc. preposition *secus*, beside; L. fem. n. *Perlucidibaca*, An existing genus; *Secusperlucidibaca*: A genus related to but distinct from the existing genus Perlucidibaca of beside.

Secuspermianibacter

L. masc. preposition *secus*, beside; L. masc. n. *Permianibacter*, An existing genus; *Secuspermianibacter*: A genus related to but distinct from the existing genus Permianibacter of beside.

Secuspersicimonas

L. masc. preposition *secus*, beside; L. fem. n. *Persicimonas*, An existing genus; *Secuspersicimonas*: A genus related to but distinct from the existing genus Persicimonas of beside.

Secuspersicirhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Persicirhabdus*, An existing genus; *Secuspersicirhabdus*: A genus related to but distinct from the existing genus Persicirhabdus of beside.

Secuspersicitalea

L. masc. preposition *secus*, beside; L. fem. n. *Persicitalea*, An existing genus; *Secuspersicitalea*: A genus related to but distinct from the existing genus Persicitalea of beside.

Secuspersicivirga

L. masc. preposition *secus*, beside; L. fem. n. *Persicivirga*, An existing genus; *Secuspersicivirga*: A genus related to but distinct from the existing genus Persicivirga of beside.

Secuspersicobacter

L. masc. preposition *secus*, beside; L. masc. n. *Persicobacter*, An existing genus; *Secuspersicobacter*: A genus related to but distinct from the existing genus Persicobacter of beside.

Secuspersinema

L. masc. preposition *secus*, beside; L. neut. n. *Persinema*, An existing genus; *Secuspersinema*: A genus related to but distinct from the existing genus Persinema of beside.

Secusperspicuibacter

L. masc. preposition *secus*, beside; L. masc. n. *Perspicuibacter*, An existing genus; *Secusperspicuibacter*: A genus related to but distinct from the existing genus Perspicuibacter of beside.

Secuspetrimonas

L. masc. preposition *secus*, beside; L. fem. n. *Petrimonas*, An existing genus; *Secuspetrimonas*: A genus related to but distinct from the existing genus Petrimonas of beside.

Secuspetrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Petrobacter*, An existing genus; *Secuspetrobacter*: A genus related to but distinct from the existing genus Petrobacter of beside.

Secuspetrocella

L. masc. preposition *secus*, beside; L. fem. n. *Petrocella*, An existing genus; *Secuspetrocella*: A genus related to but distinct from the existing genus Petrocella of beside.

Secuspetroclostridium

L. masc. preposition *secus*, beside; L. neut. dim. n. *Petroclostridium*, An existing genus; *Secuspetroclostridium*: A genus related to but distinct from the existing genus Petroclostridium of beside.

Secuspetrothermobacter

L. masc. preposition *secus*, beside; L. masc. n. *Petrothermobacter*, An existing genus; *Secuspetrothermobacter*: A genus related to but distinct from the existing genus Petrothermobacter of beside.

Secuspetrotoga

L. masc. preposition *secus*, beside; L. fem. n. *Petrotoga*, An existing genus; *Secuspetrotoga*: A genus related to but distinct from the existing genus Petrotoga of beside.

Secuspfennigia

L. masc. preposition *secus*, beside; L. fem. n. *Pfennigia*, An existing genus; *Secuspfennigia*: A genus related to but distinct from the existing genus Pfennigia of beside.

Secusphaeobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Phaeobacterium*, An existing genus; *Secusphaeobacterium*: A genus related to but distinct from the existing genus Phaeobacterium of beside.

Secusphaeochromatium

L. masc. preposition *secus*, beside; L. neut. n. *Phaeochromatium*, An existing genus; *Secusphaeochromatium*: A genus related to but distinct from the existing genus Phaeochromatium of beside.

Secusphaeocystidibacter

L. masc. preposition *secus*, beside; L. masc. n. *Phaeocystidibacter*, An existing genus; *Secusphaeocystidibacter*: A genus related to but distinct from the existing genus Phaeocystidibacter of beside.

Secusphaeodactylibacter

L. masc. preposition *secus*, beside; L. masc. n. *Phaeodactylibacter*, An existing genus; *Secusphaeodactylibacter*: A genus related to but distinct from the existing genus Phaeodactylibacter of beside.

Secusphaeospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Phaeospirillum*, An existing genus; *Secusphaeospirillum*: A genus related to but distinct from the existing genus Phaeospirillum of beside.

Secusphaeovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Phaeovibrio*, An existing genus; *Secusphaeovibrio*: A genus related to but distinct from the existing genus Phaeovibrio of beside.

Secusphaeovulum

L. masc. preposition *secus*, beside; L. neut. n. *Phaeovulum*, An existing genus; *Secusphaeovulum*: A genus related to but distinct from the existing genus Phaeovulum of beside.

Secusphascolarctobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Phascolarctobacterium*, An existing genus; *Secusphascolarctobacterium*: A genus related to but distinct from the existing genus Phascolarctobacterium of beside.

Secusphaselicystis

L. masc. preposition *secus*, beside; L. fem. n. *Phaselicystis*, An existing genus; *Secusphaselicystis*: A genus related to but distinct from the existing genus Phaselicystis of beside.

Secusphaseolibacter

L. masc. preposition *secus*, beside; L. masc. n. *Phaseolibacter*, An existing genus; *Secusphaseolibacter*: A genus related to but distinct from the existing genus Phaseolibacter of beside.

Secusphenylobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Phenylobacterium*, An existing genus; *Secusphenylobacterium*: A genus related to but distinct from the existing genus Phenylobacterium of beside.

Secusphocaeicola

L. masc. preposition *secus*, beside; L. masc. n. *Phocaeicola*, An existing genus; *Secusphocaeicola*: A genus related to but distinct from the existing genus Phocaeicola of beside.

Secusphocoenobacter

L. masc. preposition *secus*, beside; L. masc. n. *Phocoenobacter*, An existing genus; *Secusphocoenobacter*: A genus related to but distinct from the existing genus Phocoenobacter of beside.

Secusphorcysia

L. masc. preposition *secus*, beside; L. fem. n. *Phorcysia*, An existing genus; *Secusphorcysia*: A genus related to but distinct from the existing genus Phorcysia of beside.

Secusphotobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Photobacterium*, An existing genus; *Secusphotobacterium*: A genus related to but distinct from the existing genus Photobacterium of beside.

Secusphotorhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Photorhabdus*, An existing genus; *Secusphotorhabdus*: A genus related to but distinct from the existing genus Photorhabdus of beside.

Secusphragmitibacter

L. masc. preposition *secus*, beside; L. masc. n. *Phragmitibacter*, An existing genus; *Secusphragmitibacter*: A genus related to but distinct from the existing genus Phragmitibacter of beside.

Secusphreatobacter

L. masc. preposition *secus*, beside; L. masc. n. *Phreatobacter*, An existing genus; *Secusphreatobacter*: A genus related to but distinct from the existing genus Phreatobacter of beside.

Secusphycicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Phycicoccus*, An existing genus; *Secusphycicoccus*: A genus related to but distinct from the existing genus Phycicoccus of beside.

Secusphycicola

L. masc. preposition *secus*, beside; L. masc. n. *Phycicola*, An existing genus; *Secusphycicola*: A genus related to but distinct from the existing genus Phycicola of beside.

Secusphycisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Phycisphaera*, An existing genus; *Secusphycisphaera*: A genus related to but distinct from the existing genus Phycisphaera of beside.

Secusphycocomes

L. masc. preposition *secus*, beside; L. masc. n. *Phycocomes*, An existing genus; *Secusphycocomes*: A genus related to but distinct from the existing genus Phycocomes of beside.

Secusphyllonema

L. masc. preposition *secus*, beside; L. neut. n. *Phyllonema*, An existing genus; *Secusphyllonema*: A genus related to but distinct from the existing genus Phyllonema of beside.

Secusphytoactinopolyspora

L. masc. preposition *secus*, beside; L. fem. n. *Phytoactinopolyspora*, An existing genus; *Secusphytoactinopolyspora*: A genus related to but distinct from the existing genus Phytoactinopolyspora of beside.

Secusphytobacter

L. masc. preposition *secus*, beside; L. masc. n. *Phytobacter*, An existing genus; *Secusphytobacter*: A genus related to but distinct from the existing genus Phytobacter of beside.

Secusphytohabitans

L. masc. preposition *secus*, beside; L. masc. n. *Phytohabitans*, An existing genus; *Secusphytohabitans*: A genus related to but distinct from the existing genus Phytohabitans of beside.

Secusphytohalomonas

L. masc. preposition *secus*, beside; L. fem. n. *Phytohalomonas*, An existing genus; *Secusphytohalomonas*: A genus related to but distinct from the existing genus Phytohalomonas of beside.

Secusphytomonospora

L. masc. preposition *secus*, beside; L. fem. n. *Phytomonospora*, An existing genus; *Secusphytomonospora*: A genus related to but distinct from the existing genus Phytomonospora of beside.

Secuspibocella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Pibocella*, An existing genus; *Secuspibocella*: A genus related to but distinct from the existing genus Pibocella of beside.

Secuspicrophilus

L. masc. preposition *secus*, beside; L. masc. n. *Picrophilus*, An existing genus; *Secuspicrophilus*: A genus related to but distinct from the existing genus Picrophilus of beside.

Secuspiezobacter

L. masc. preposition *secus*, beside; L. masc. n. *Piezobacter*, An existing genus; *Secuspiezobacter*: A genus related to but distinct from the existing genus Piezobacter of beside.

Secuspigmentiphaga

L. masc. preposition *secus*, beside; L. fem. n. *Pigmentiphaga*, An existing genus; *Secuspigmentiphaga*: A genus related to but distinct from the existing genus Pigmentiphaga of beside.

Secuspilibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pilibacter*, An existing genus; *Secuspilibacter*: A genus related to but distinct from the existing genus Pilibacter of beside.

Secuspilimelia

L. masc. preposition *secus*, beside; L. fem. n. *Pilimelia*, An existing genus; *Secuspilimelia*: A genus related to but distinct from the existing genus Pilimelia of beside.

Secuspillotina

L. masc. preposition *secus*, beside; L. fem. n. *Pillotina*, An existing genus; *Secuspillotina*: A genus related to but distinct from the existing genus Pillotina of beside.

Secuspimelobacter

L. masc. preposition *secus*, beside; L. masc. n. *Pimelobacter*, An existing genus; *Secuspimelobacter*: A genus related to but distinct from the existing genus Pimelobacter of beside.

Secuspinisolibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pinisolibacter*, An existing genus; *Secuspinisolibacter*: A genus related to but distinct from the existing genus Pinisolibacter of beside.

Secuspinocchia

L. masc. preposition *secus*, beside; L. fem. n. *Pinocchia*, An existing genus; *Secuspinocchia*: A genus related to but distinct from the existing genus Pinocchia of beside.

Secuspirella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Pirella*, An existing genus; *Secuspirella*: A genus related to but distinct from the existing genus Pirella of beside.

Secuspirellula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Pirellula*, An existing genus; *Secuspirellula*: A genus related to but distinct from the existing genus Pirellula of beside.

Secuspiscicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Piscicoccus*, An existing genus; *Secuspiscicoccus*: A genus related to but distinct from the existing genus Piscicoccus of beside.

Secuspisciglobus

L. masc. preposition *secus*, beside; L. masc. n. *Pisciglobus*, An existing genus; *Secuspisciglobus*: A genus related to but distinct from the existing genus Pisciglobus of beside.

Secuspiscinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Piscinibacter*, An existing genus; *Secuspiscinibacter*: A genus related to but distinct from the existing genus Piscinibacter of beside.

Secuspiscirickettsia

L. masc. preposition *secus*, beside; L. fem. n. *Piscirickettsia*, An existing genus; *Secuspiscirickettsia*: A genus related to but distinct from the existing genus Piscirickettsia of beside.

Secuspistricoccus

L. masc. preposition *secus*, beside; L. masc. n. *Pistricoccus*, An existing genus; *Secuspistricoccus*: A genus related to but distinct from the existing genus Pistricoccus of beside.

Secusplanctobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Planctobacterium*, An existing genus; *Secusplanctobacterium*: A genus related to but distinct from the existing genus Planctobacterium of beside.

Secusplanctomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Planctomicrobium*, An existing genus; *Secusplanctomicrobium*: A genus related to but distinct from the existing genus Planctomicrobium of beside.

Secusplanctomonas

L. masc. preposition *secus*, beside; L. fem. n. *Planctomonas*, An existing genus; *Secusplanctomonas*: A genus related to but distinct from the existing genus Planctomonas of beside.

Secusplanctomyces

L. masc. preposition *secus*, beside; L. masc. n. *Planctomyces*, An existing genus; *Secusplanctomyces*: A genus related to but distinct from the existing genus Planctomyces of beside.

Secusplanctopirus

L. masc. preposition *secus*, beside; L. fem. n. *Planctopirus*, An existing genus; *Secusplanctopirus*: A genus related to but distinct from the existing genus Planctopirus of beside.

Secusplanifilum

L. masc. preposition *secus*, beside; L. neut. n. *Planifilum*, An existing genus; *Secusplanifilum*: A genus related to but distinct from the existing genus Planifilum of beside.

Secusplanktomarina

L. masc. preposition *secus*, beside; L. fem. n. *Planktomarina*, An existing genus; *Secusplanktomarina*: A genus related to but distinct from the existing genus Planktomarina of beside.

Secusplanktosalinus

L. masc. preposition *secus*, beside; L. masc. n. *Planktosalinus*, An existing genus; *Secusplanktosalinus*: A genus related to but distinct from the existing genus Planktosalinus of beside.

Secusplanktotalea

L. masc. preposition *secus*, beside; L. fem. n. *Planktotalea*, An existing genus; *Secusplanktotalea*: A genus related to but distinct from the existing genus Planktotalea of beside.

Secusplanktothrix

L. masc. preposition *secus*, beside; L. fem. n. *Planktothrix*, An existing genus; *Secusplanktothrix*: A genus related to but distinct from the existing genus Planktothrix of beside.

Secusplanobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Planobacterium*, An existing genus; *Secusplanobacterium*: A genus related to but distinct from the existing genus Planobacterium of beside.

Secusplanobispora

L. masc. preposition *secus*, beside; L. fem. n. *Planobispora*, An existing genus; *Secusplanobispora*: A genus related to but distinct from the existing genus Planobispora of beside.

Secusplanococcus

L. masc. preposition *secus*, beside; L. masc. n. *Planococcus*, An existing genus; *Secusplanococcus*: A genus related to but distinct from the existing genus Planococcus of beside.

Secusplanomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Planomicrobium*, An existing genus; *Secusplanomicrobium*: A genus related to but distinct from the existing genus Planomicrobium of beside.

Secusplanomonospora

L. masc. preposition *secus*, beside; L. fem. n. *Planomonospora*, An existing genus; *Secusplanomonospora*: A genus related to but distinct from the existing genus Planomonospora of beside.

Secusplanopolyspora

L. masc. preposition *secus*, beside; L. fem. n. *Planopolyspora*, An existing genus; *Secusplanopolyspora*: A genus related to but distinct from the existing genus Planopolyspora of beside.

Secusplanosporangium

L. masc. preposition *secus*, beside; L. neut. n. *Planosporangium*, An existing genus; *Secusplanosporangium*: A genus related to but distinct from the existing genus Planosporangium of beside.

Secusplanotetraspora

L. masc. preposition *secus*, beside; L. fem. n. *Planotetraspora*, An existing genus; *Secusplanotetraspora*: A genus related to but distinct from the existing genus Planotetraspora of beside.

Secusplantactinospora

L. masc. preposition *secus*, beside; L. fem. n. *Plantactinospora*, An existing genus; *Secusplantactinospora*: A genus related to but distinct from the existing genus Plantactinospora of beside.

Secusplastorhodobacter

L. masc. preposition *secus*, beside; L. masc. n. *Plastorhodobacter*, An existing genus; *Secusplastorhodobacter*: A genus related to but distinct from the existing genus Plastorhodobacter of beside.

Secuspleionea

L. masc. preposition *secus*, beside; L. fem. n. *Pleionea*, An existing genus; *Secuspleionea*: A genus related to but distinct from the existing genus Pleionea of beside.

Secuspleomorphobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Pleomorphobacterium*, An existing genus; *Secuspleomorphobacterium*: A genus related to but distinct from the existing genus Pleomorphobacterium of beside.

Secuspleomorphochaeta

L. masc. preposition *secus*, beside; L. fem. n. *Pleomorphochaeta*, An existing genus; *Secuspleomorphochaeta*: A genus related to but distinct from the existing genus Pleomorphochaeta of beside.

Secuspleomorphomonas

L. masc. preposition *secus*, beside; L. fem. n. *Pleomorphomonas*, An existing genus; *Secuspleomorphomonas*: A genus related to but distinct from the existing genus Pleomorphomonas of beside.

Secuspleomorphovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Pleomorphovibrio*, An existing genus; *Secuspleomorphovibrio*: A genus related to but distinct from the existing genus Pleomorphovibrio of beside.

Secusplesiocystis

L. masc. preposition *secus*, beside; L. fem. n. *Plesiocystis*, An existing genus; *Secusplesiocystis*: A genus related to but distinct from the existing genus Plesiocystis of beside.

Secusplesiomonas

L. masc. preposition *secus*, beside; L. fem. n. *Plesiomonas*, An existing genus; *Secusplesiomonas*: A genus related to but distinct from the existing genus Plesiomonas of beside.

Secuspleurocapsa

L. masc. preposition *secus*, beside; L. fem. n. *Pleurocapsa*, An existing genus; *Secuspleurocapsa*: A genus related to but distinct from the existing genus Pleurocapsa of beside.

Secuspluralibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pluralibacter*, An existing genus; *Secuspluralibacter*: A genus related to but distinct from the existing genus Pluralibacter of beside.

Secuspokkaliibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pokkaliibacter*, An existing genus; *Secuspokkaliibacter*: A genus related to but distinct from the existing genus Pokkaliibacter of beside.

Secuspolaribacter

L. masc. preposition *secus*, beside; L. masc. n. *Polaribacter*, An existing genus; *Secuspolaribacter*: A genus related to but distinct from the existing genus Polaribacter of beside.

Secuspolaromonas

L. masc. preposition *secus*, beside; L. fem. n. *Polaromonas*, An existing genus; *Secuspolaromonas*: A genus related to but distinct from the existing genus Polaromonas of beside.

Secuspolyangium

L. masc. preposition *secus*, beside; L. neut. n. *Polyangium*, An existing genus; *Secuspolyangium*: A genus related to but distinct from the existing genus Polyangium of beside.

Secuspolycladidibacter

L. masc. preposition *secus*, beside; L. masc. n. *Polycladidibacter*, An existing genus; *Secuspolycladidibacter*: A genus related to but distinct from the existing genus Polycladidibacter of beside.

Secuspolycladomyces

L. masc. preposition *secus*, beside; L. masc. n. *Polycladomyces*, An existing genus; *Secuspolycladomyces*: A genus related to but distinct from the existing genus Polycladomyces of beside.

Secuspolycyclovorans

L. masc. preposition *secus*, beside; L. masc. n. *Polycyclovorans*, An existing genus; *Secuspolycyclovorans*: A genus related to but distinct from the existing genus Polycyclovorans of beside.

Secuspolygonibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Polygonibacillus*, An existing genus; *Secuspolygonibacillus*: A genus related to but distinct from the existing genus Polygonibacillus of beside.

Secuspolymorphospora

L. masc. preposition *secus*, beside; L. fem. n. *Polymorphospora*, An existing genus; *Secuspolymorphospora*: A genus related to but distinct from the existing genus Polymorphospora of beside.

Secuspolymorphum

L. masc. preposition *secus*, beside; L. neut. n. *Polymorphum*, An existing genus; *Secuspolymorphum*: A genus related to but distinct from the existing genus Polymorphum of beside.

Secuspolynucleobacter

L. masc. preposition *secus*, beside; L. masc. n. *Polynucleobacter*, An existing genus; *Secuspolynucleobacter*: A genus related to but distinct from the existing genus Polynucleobacter of beside.

Secuspolystyrenella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Polystyrenella*, An existing genus; *Secuspolystyrenella*: A genus related to but distinct from the existing genus Polystyrenella of beside.

Secuspontibaca

L. masc. preposition *secus*, beside; L. fem. n. *Pontibaca*, An existing genus; *Secuspontibaca*: A genus related to but distinct from the existing genus Pontibaca of beside.

Secuspontibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Pontibacillus*, An existing genus; *Secuspontibacillus*: A genus related to but distinct from the existing genus Pontibacillus of beside.

Secuspontibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pontibacter*, An existing genus; *Secuspontibacter*: A genus related to but distinct from the existing genus Pontibacter of beside.

Secuspontibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Pontibacterium*, An existing genus; *Secuspontibacterium*: A genus related to but distinct from the existing genus Pontibacterium of beside.

Secusponticaulis

L. masc. preposition *secus*, beside; L. masc. n. *Ponticaulis*, An existing genus; *Secusponticaulis*: A genus related to but distinct from the existing genus Ponticaulis of beside.

Secusponticoccus

L. masc. preposition *secus*, beside; L. masc. n. *Ponticoccus*, An existing genus; *Secusponticoccus*: A genus related to but distinct from the existing genus Ponticoccus of beside.

Secuspontimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Pontimicrobium*, An existing genus; *Secuspontimicrobium*: A genus related to but distinct from the existing genus Pontimicrobium of beside.

Secuspontimonas

L. masc. preposition *secus*, beside; L. fem. n. *Pontimonas*, An existing genus; *Secuspontimonas*: A genus related to but distinct from the existing genus Pontimonas of beside.

Secuspontirhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Pontirhabdus*, An existing genus; *Secuspontirhabdus*: A genus related to but distinct from the existing genus Pontirhabdus of beside.

Secuspopulibacter

L. masc. preposition *secus*, beside; L. masc. n. *Populibacter*, An existing genus; *Secuspopulibacter*: A genus related to but distinct from the existing genus Populibacter of beside.

Secuspopulibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Populibacterium*, An existing genus; *Secuspopulibacterium*: A genus related to but distinct from the existing genus Populibacterium of beside.

Secusporifericola

L. masc. preposition *secus*, beside; L. masc. n. *Porifericola*, An existing genus; *Secusporifericola*: A genus related to but distinct from the existing genus Porifericola of beside.

Secusporphyrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Porphyrobacter*, An existing genus; *Secusporphyrobacter*: A genus related to but distinct from the existing genus Porphyrobacter of beside.

Secusporphyromonas

L. masc. preposition *secus*, beside; L. fem. n. *Porphyromonas*, An existing genus; *Secusporphyromonas*: A genus related to but distinct from the existing genus Porphyromonas of beside.

Secusportibacter

L. masc. preposition *secus*, beside; L. masc. n. *Portibacter*, An existing genus; *Secusportibacter*: A genus related to but distinct from the existing genus Portibacter of beside.

Secusporticoccus

L. masc. preposition *secus*, beside; L. masc. n. *Porticoccus*, An existing genus; *Secusporticoccus*: A genus related to but distinct from the existing genus Porticoccus of beside.

Secusposeidonibacter

L. masc. preposition *secus*, beside; L. masc. n. *Poseidonibacter*, An existing genus; *Secusposeidonibacter*: A genus related to but distinct from the existing genus Poseidonibacter of beside.

Secusposeidonocella

L. masc. preposition *secus*, beside; L. fem. n. *Poseidonocella*, An existing genus; *Secusposeidonocella*: A genus related to but distinct from the existing genus Poseidonocella of beside.

Secuspostechiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Postechiella*, An existing genus; *Secuspostechiella*: A genus related to but distinct from the existing genus Postechiella of beside.

Secuspotamolinea

L. masc. preposition *secus*, beside; L. fem. n. *Potamolinea*, An existing genus; *Secuspotamolinea*: A genus related to but distinct from the existing genus Potamolinea of beside.

Secuspotamosiphon

L. masc. preposition *secus*, beside; L. masc. n. *Potamosiphon*, An existing genus; *Secuspotamosiphon*: A genus related to but distinct from the existing genus Potamosiphon of beside.

Secuspovalibacter

L. masc. preposition *secus*, beside; L. masc. n. *Povalibacter*, An existing genus; *Secuspovalibacter*: A genus related to but distinct from the existing genus Povalibacter of beside.

Secuspradoshia

L. masc. preposition *secus*, beside; L. fem. n. *Pradoshia*, An existing genus; *Secuspradoshia*: A genus related to but distinct from the existing genus Pradoshia of beside.

Secuspragia

L. masc. preposition *secus*, beside; L. fem. n. *Pragia*, An existing genus; *Secuspragia*: A genus related to but distinct from the existing genus Pragia of beside.

Secusprauserella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Prauserella*, An existing genus; *Secusprauserella*: A genus related to but distinct from the existing genus Prauserella of beside.

Secuspreeria

L. masc. preposition *secus*, beside; L. fem. n. *Preeria*, An existing genus; *Secuspreeria*: A genus related to but distinct from the existing genus Preeria of beside.

Secusprescottella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Prescottella*, An existing genus; *Secusprescottella*: A genus related to but distinct from the existing genus Prescottella of beside.

Secusprevotella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Prevotella*, An existing genus; *Secusprevotella*: A genus related to but distinct from the existing genus Prevotella of beside.

Secuspricia

L. masc. preposition *secus*, beside; L. fem. n. *Pricia*, An existing genus; *Secuspricia*: A genus related to but distinct from the existing genus Pricia of beside.

Secusprimorskyibacter

L. masc. preposition *secus*, beside; L. masc. n. *Primorskyibacter*, An existing genus; *Secusprimorskyibacter*: A genus related to but distinct from the existing genus Primorskyibacter of beside.

Secusprochlorococcus

L. masc. preposition *secus*, beside; L. masc. n. *Prochlorococcus*, An existing genus; *Secusprochlorococcus*: A genus related to but distinct from the existing genus Prochlorococcus of beside.

Secusprochloron

L. masc. preposition *secus*, beside; L. neut. n. *Prochloron*, An existing genus; *Secusprochloron*: A genus related to but distinct from the existing genus Prochloron of beside.

Secusprochlorothrix

L. masc. preposition *secus*, beside; L. fem. n. *Prochlorothrix*, An existing genus; *Secusprochlorothrix*: A genus related to but distinct from the existing genus Prochlorothrix of beside.

Secusprofundibacter

L. masc. preposition *secus*, beside; L. masc. n. *Profundibacter*, An existing genus; *Secusprofundibacter*: A genus related to but distinct from the existing genus Profundibacter of beside.

Secusprofundibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Profundibacterium*, An existing genus; *Secusprofundibacterium*: A genus related to but distinct from the existing genus Profundibacterium of beside.

Secusprofundimonas

L. masc. preposition *secus*, beside; L. fem. n. *Profundimonas*, An existing genus; *Secusprofundimonas*: A genus related to but distinct from the existing genus Profundimonas of beside.

Secusprolinoborus

L. masc. preposition *secus*, beside; L. masc. n. *Prolinoborus*, An existing genus; *Secusprolinoborus*: A genus related to but distinct from the existing genus Prolinoborus of beside.

Secusprolixibacter

L. masc. preposition *secus*, beside; L. masc. n. *Prolixibacter*, An existing genus; *Secusprolixibacter*: A genus related to but distinct from the existing genus Prolixibacter of beside.

Secuspromicromonospora

L. masc. preposition *secus*, beside; L. fem. n. *Promicromonospora*, An existing genus; *Secuspromicromonospora*: A genus related to but distinct from the existing genus Promicromonospora of beside.

Secuspropionibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Propionibacterium*, An existing genus; *Secuspropionibacterium*: A genus related to but distinct from the existing genus Propionibacterium of beside.

Secuspropionicicella

L. masc. preposition *secus*, beside; L. fem. n. *Propionicicella*, An existing genus; *Secuspropionicicella*: A genus related to but distinct from the existing genus Propionicicella of beside.

Secuspropioniferax

L. masc. preposition *secus*, beside; L. fem. n. *Propioniferax*, An existing genus; *Secuspropioniferax*: A genus related to but distinct from the existing genus Propioniferax of beside.

Secuspropionigenium

L. masc. preposition *secus*, beside; L. neut. n. *Propionigenium*, An existing genus; *Secuspropionigenium*: A genus related to but distinct from the existing genus Propionigenium of beside.

Secuspropionimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Propionimicrobium*, An existing genus; *Secuspropionimicrobium*: A genus related to but distinct from the existing genus Propionimicrobium of beside.

Secuspropionispora

L. masc. preposition *secus*, beside; L. fem. n. *Propionispora*, An existing genus; *Secuspropionispora*: A genus related to but distinct from the existing genus Propionispora of beside.

Secuspropionivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Propionivibrio*, An existing genus; *Secuspropionivibrio*: A genus related to but distinct from the existing genus Propionivibrio of beside.

Secusprosthecobacter

L. masc. preposition *secus*, beside; L. masc. n. *Prosthecobacter*, An existing genus; *Secusprosthecobacter*: A genus related to but distinct from the existing genus Prosthecobacter of beside.

Secusprosthecochloris

L. masc. preposition *secus*, beside; L. fem. n. *Prosthecochloris*, An existing genus; *Secusprosthecochloris*: A genus related to but distinct from the existing genus Prosthecochloris of beside.

Secusprosthecomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Prosthecomicrobium*, An existing genus; *Secusprosthecomicrobium*: A genus related to but distinct from the existing genus Prosthecomicrobium of beside.

Secusprotaetiibacter

L. masc. preposition *secus*, beside; L. masc. n. *Protaetiibacter*, An existing genus; *Secusprotaetiibacter*: A genus related to but distinct from the existing genus Protaetiibacter of beside.

Secusproteiniborus

L. masc. preposition *secus*, beside; L. masc. n. *Proteiniborus*, An existing genus; *Secusproteiniborus*: A genus related to but distinct from the existing genus Proteiniborus of beside.

Secusproteiniclasticum

L. masc. preposition *secus*, beside; L. neut. n. *Proteiniclasticum*, An existing genus; *Secusproteiniclasticum*: A genus related to but distinct from the existing genus Proteiniclasticum of beside.

Secusproteiniphilum

L. masc. preposition *secus*, beside; L. neut. n. *Proteiniphilum*, An existing genus; *Secusproteiniphilum*: A genus related to but distinct from the existing genus Proteiniphilum of beside.

Secusproteinivorax

L. masc. preposition *secus*, beside; L. neut. n. *Proteinivorax*, An existing genus; *Secusproteinivorax*: A genus related to but distinct from the existing genus Proteinivorax of beside.

Secusproteocatella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Proteocatella*, An existing genus; *Secusproteocatella*: A genus related to but distinct from the existing genus Proteocatella of beside.

Secusprotomonas

L. masc. preposition *secus*, beside; L. fem. n. *Protomonas*, An existing genus; *Secusprotomonas*: A genus related to but distinct from the existing genus Protomonas of beside.

Secusprovencibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Provencibacterium*, An existing genus; *Secusprovencibacterium*: A genus related to but distinct from the existing genus Provencibacterium of beside.

Secusprovidencia

L. masc. preposition *secus*, beside; L. fem. n. *Providencia*, An existing genus; *Secusprovidencia*: A genus related to but distinct from the existing genus Providencia of beside.

Secuspseudacidovorax

L. masc. preposition *secus*, beside; L. masc. n. *Pseudacidovorax*, An existing genus; *Secuspseudacidovorax*: A genus related to but distinct from the existing genus Pseudacidovorax of beside.

Secuspseudactinotalea

L. masc. preposition *secus*, beside; L. fem. n. *Pseudactinotalea*, An existing genus; *Secuspseudactinotalea*: A genus related to but distinct from the existing genus Pseudactinotalea of beside.

Secuspseudaeromonas

L. masc. preposition *secus*, beside; L. fem. n. *Pseudaeromonas*, An existing genus; *Secuspseudaeromonas*: A genus related to but distinct from the existing genus Pseudaeromonas of beside.

Secuspseudaestuariivita

L. masc. preposition *secus*, beside; L. fem. n. *Pseudaestuariivita*, An existing genus; *Secuspseudaestuariivita*: A genus related to but distinct from the existing genus Pseudaestuariivita of beside.

Secuspseudahrensia

L. masc. preposition *secus*, beside; L. fem. n. *Pseudahrensia*, An existing genus; *Secuspseudahrensia*: A genus related to but distinct from the existing genus Pseudahrensia of beside.

Secuspseudaminobacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudaminobacter*, An existing genus; *Secuspseudaminobacter*: A genus related to but distinct from the existing genus Pseudaminobacter of beside.

Secuspseudarcicella

L. masc. preposition *secus*, beside; L. fem. n. *Pseudarcicella*, An existing genus; *Secuspseudarcicella*: A genus related to but distinct from the existing genus Pseudarcicella of beside.

Secuspseudarthrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudarthrobacter*, An existing genus; *Secuspseudarthrobacter*: A genus related to but distinct from the existing genus Pseudarthrobacter of beside.

Secuspseudenhygromyxa

L. masc. preposition *secus*, beside; L. fem. n. *Pseudenhygromyxa*, An existing genus; *Secuspseudenhygromyxa*: A genus related to but distinct from the existing genus Pseudenhygromyxa of beside.

Secuspseudescherichia

L. masc. preposition *secus*, beside; L. fem. n. *Pseudescherichia*, An existing genus; *Secuspseudescherichia*: A genus related to but distinct from the existing genus Pseudescherichia of beside.

Secuspseudidiomarina

L. masc. preposition *secus*, beside; L. fem. n. *Pseudidiomarina*, An existing genus; *Secuspseudidiomarina*: A genus related to but distinct from the existing genus Pseudidiomarina of beside.

Secuspseudoalteromonas

L. masc. preposition *secus*, beside; L. fem. n. *Pseudoalteromonas*, An existing genus; *Secuspseudoalteromonas*: A genus related to but distinct from the existing genus Pseudoalteromonas of beside.

Secuspseudoamycolata

L. masc. preposition *secus*, beside; L. fem. n. *Pseudoamycolata*, An existing genus; *Secuspseudoamycolata*: A genus related to but distinct from the existing genus Pseudoamycolata of beside.

Secuspseudobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Pseudobacillus*, An existing genus; *Secuspseudobacillus*: A genus related to but distinct from the existing genus Pseudobacillus of beside.

Secuspseudobacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudobacter*, An existing genus; *Secuspseudobacter*: A genus related to but distinct from the existing genus Pseudobacter of beside.

Secuspseudobacteriovorax

L. masc. preposition *secus*, beside; L. masc. n. *Pseudobacteriovorax*, An existing genus; *Secuspseudobacteriovorax*: A genus related to but distinct from the existing genus Pseudobacteriovorax of beside.

Secuspseudobacteroides

L. masc. preposition *secus*, beside; L. masc. n. *Pseudobacteroides*, An existing genus; *Secuspseudobacteroides*: A genus related to but distinct from the existing genus Pseudobacteroides of beside.

Secuspseudobizionia

L. masc. preposition *secus*, beside; L. fem. n. *Pseudobizionia*, An existing genus; *Secuspseudobizionia*: A genus related to but distinct from the existing genus Pseudobizionia of beside.

Secuspseudobowmanella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Pseudobowmanella*, An existing genus; *Secuspseudobowmanella*: A genus related to but distinct from the existing genus Pseudobowmanella of beside.

Secuspseudobutyrivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Pseudobutyrivibrio*, An existing genus; *Secuspseudobutyrivibrio*: A genus related to but distinct from the existing genus Pseudobutyrivibrio of beside.

Secuspseudocaedibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudocaedibacter*, An existing genus; *Secuspseudocaedibacter*: A genus related to but distinct from the existing genus Pseudocaedibacter of beside.

Secuspseudochelatococcus

L. masc. preposition *secus*, beside; L. masc. n. *Pseudochelatococcus*, An existing genus; *Secuspseudochelatococcus*: A genus related to but distinct from the existing genus Pseudochelatococcus of beside.

Secuspseudochrobactrum

L. masc. preposition *secus*, beside; L. neut. n. *Pseudochrobactrum*, An existing genus; *Secuspseudochrobactrum*: A genus related to but distinct from the existing genus Pseudochrobactrum of beside.

Secuspseudocitrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudocitrobacter*, An existing genus; *Secuspseudocitrobacter*: A genus related to but distinct from the existing genus Pseudocitrobacter of beside.

Secuspseudoclavibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudoclavibacter*, An existing genus; *Secuspseudoclavibacter*: A genus related to but distinct from the existing genus Pseudoclavibacter of beside.

Secuspseudoclostridium

L. masc. preposition *secus*, beside; L. neut. dim. n. *Pseudoclostridium*, An existing genus; *Secuspseudoclostridium*: A genus related to but distinct from the existing genus Pseudoclostridium of beside.

Secuspseudocolwellia

L. masc. preposition *secus*, beside; L. fem. n. *Pseudocolwellia*, An existing genus; *Secuspseudocolwellia*: A genus related to but distinct from the existing genus Pseudocolwellia of beside.

Secuspseudodesulfovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Pseudodesulfovibrio*, An existing genus; *Secuspseudodesulfovibrio*: A genus related to but distinct from the existing genus Pseudodesulfovibrio of beside.

Secuspseudodonghicola

L. masc. preposition *secus*, beside; L. masc. n. *Pseudodonghicola*, An existing genus; *Secuspseudodonghicola*: A genus related to but distinct from the existing genus Pseudodonghicola of beside.

Secuspseudoduganella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Pseudoduganella*, An existing genus; *Secuspseudoduganella*: A genus related to but distinct from the existing genus Pseudoduganella of beside.

Secuspseudoflavitalea

L. masc. preposition *secus*, beside; L. fem. n. *Pseudoflavitalea*, An existing genus; *Secuspseudoflavitalea*: A genus related to but distinct from the existing genus Pseudoflavitalea of beside.

Secuspseudoflavonifractor

L. masc. preposition *secus*, beside; L. masc. n. *Pseudoflavonifractor*, An existing genus; *Secuspseudoflavonifractor*: A genus related to but distinct from the existing genus Pseudoflavonifractor of beside.

Secuspseudofrancisella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Pseudofrancisella*, An existing genus; *Secuspseudofrancisella*: A genus related to but distinct from the existing genus Pseudofrancisella of beside.

Secuspseudofulvibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudofulvibacter*, An existing genus; *Secuspseudofulvibacter*: A genus related to but distinct from the existing genus Pseudofulvibacter of beside.

Secuspseudofulvimonas

L. masc. preposition *secus*, beside; L. fem. n. *Pseudofulvimonas*, An existing genus; *Secuspseudofulvimonas*: A genus related to but distinct from the existing genus Pseudofulvimonas of beside.

Secuspseudogemmobacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudogemmobacter*, An existing genus; *Secuspseudogemmobacter*: A genus related to but distinct from the existing genus Pseudogemmobacter of beside.

Secuspseudoglutamicibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudoglutamicibacter*, An existing genus; *Secuspseudoglutamicibacter*: A genus related to but distinct from the existing genus Pseudoglutamicibacter of beside.

Secuspseudogracilibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Pseudogracilibacillus*, An existing genus; *Secuspseudogracilibacillus*: A genus related to but distinct from the existing genus Pseudogracilibacillus of beside.

Secuspseudogulbenkiania

L. masc. preposition *secus*, beside; L. fem. n. *Pseudogulbenkiania*, An existing genus; *Secuspseudogulbenkiania*: A genus related to but distinct from the existing genus Pseudogulbenkiania of beside.

Secuspseudohaliea

L. masc. preposition *secus*, beside; L. fem. n. *Pseudohaliea*, An existing genus; *Secuspseudohaliea*: A genus related to but distinct from the existing genus Pseudohaliea of beside.

Secuspseudohalioglobus

L. masc. preposition *secus*, beside; L. masc. n. *Pseudohalioglobus*, An existing genus; *Secuspseudohalioglobus*: A genus related to but distinct from the existing genus Pseudohalioglobus of beside.

Secuspseudohalocynthiibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudohalocynthiibacter*, An existing genus; *Secuspseudohalocynthiibacter*: A genus related to but distinct from the existing genus Pseudohalocynthiibacter of beside.

Secuspseudohoeflea

L. masc. preposition *secus*, beside; L. fem. n. *Pseudohoeflea*, An existing genus; *Secuspseudohoeflea*: A genus related to but distinct from the existing genus Pseudohoeflea of beside.

Secuspseudohongiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Pseudohongiella*, An existing genus; *Secuspseudohongiella*: A genus related to but distinct from the existing genus Pseudohongiella of beside.

Secuspseudokineococcus

L. masc. preposition *secus*, beside; L. masc. n. *Pseudokineococcus*, An existing genus; *Secuspseudokineococcus*: A genus related to but distinct from the existing genus Pseudokineococcus of beside.

Secuspseudolabrys

L. masc. preposition *secus*, beside; L. masc. n. *Pseudolabrys*, An existing genus; *Secuspseudolabrys*: A genus related to but distinct from the existing genus Pseudolabrys of beside.

Secuspseudoleptotrichia

L. masc. preposition *secus*, beside; L. fem. n. *Pseudoleptotrichia*, An existing genus; *Secuspseudoleptotrichia*: A genus related to but distinct from the existing genus Pseudoleptotrichia of beside.

Secuspseudolysinimonas

L. masc. preposition *secus*, beside; L. fem. n. *Pseudolysinimonas*, An existing genus; *Secuspseudolysinimonas*: A genus related to but distinct from the existing genus Pseudolysinimonas of beside.

Secuspseudolysobacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudolysobacter*, An existing genus; *Secuspseudolysobacter*: A genus related to but distinct from the existing genus Pseudolysobacter of beside.

Secuspseudomaribius

L. masc. preposition *secus*, beside; L. masc. n. *Pseudomaribius*, An existing genus; *Secuspseudomaribius*: A genus related to but distinct from the existing genus Pseudomaribius of beside.

Secuspseudomaricurvus

L. masc. preposition *secus*, beside; L. masc. n. *Pseudomaricurvus*, An existing genus; *Secuspseudomaricurvus*: A genus related to but distinct from the existing genus Pseudomaricurvus of beside.

Secuspseudomethylobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Pseudomethylobacillus*, An existing genus; *Secuspseudomethylobacillus*: A genus related to but distinct from the existing genus Pseudomethylobacillus of beside.

Secuspseudomonas

L. masc. preposition *secus*, beside; L. fem. n. *Pseudomonas*, An existing genus; *Secuspseudomonas*: A genus related to but distinct from the existing genus Pseudomonas of beside.

Secuspseudonocardia

L. masc. preposition *secus*, beside; L. fem. n. *Pseudonocardia*, An existing genus; *Secuspseudonocardia*: A genus related to but distinct from the existing genus Pseudonocardia of beside.

Secuspseudooceanicola

L. masc. preposition *secus*, beside; L. masc. n. *Pseudooceanicola*, An existing genus; *Secuspseudooceanicola*: A genus related to but distinct from the existing genus Pseudooceanicola of beside.

Secuspseudooctadecabacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudooctadecabacter*, An existing genus; *Secuspseudooctadecabacter*: A genus related to but distinct from the existing genus Pseudooctadecabacter of beside.

Secuspseudopedobacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudopedobacter*, An existing genus; *Secuspseudopedobacter*: A genus related to but distinct from the existing genus Pseudopedobacter of beside.

Secuspseudopelagicola

L. masc. preposition *secus*, beside; L. masc. n. *Pseudopelagicola*, An existing genus; *Secuspseudopelagicola*: A genus related to but distinct from the existing genus Pseudopelagicola of beside.

Secuspseudophaeobacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudophaeobacter*, An existing genus; *Secuspseudophaeobacter*: A genus related to but distinct from the existing genus Pseudophaeobacter of beside.

Secuspseudopropionibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Pseudopropionibacterium*, An existing genus; *Secuspseudopropionibacterium*: A genus related to but distinct from the existing genus Pseudopropionibacterium of beside.

Secuspseudopuniceibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Pseudopuniceibacterium*, An existing genus; *Secuspseudopuniceibacterium*: A genus related to but distinct from the existing genus Pseudopuniceibacterium of beside.

Secuspseudoramibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudoramibacter*, An existing genus; *Secuspseudoramibacter*: A genus related to but distinct from the existing genus Pseudoramibacter of beside.

Secuspseudorhizobium

L. masc. preposition *secus*, beside; L. neut. n. *Pseudorhizobium*, An existing genus; *Secuspseudorhizobium*: A genus related to but distinct from the existing genus Pseudorhizobium of beside.

Secuspseudorhodobacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudorhodobacter*, An existing genus; *Secuspseudorhodobacter*: A genus related to but distinct from the existing genus Pseudorhodobacter of beside.

Secuspseudorhodoferax

L. masc. preposition *secus*, beside; L. masc. n. *Pseudorhodoferax*, An existing genus; *Secuspseudorhodoferax*: A genus related to but distinct from the existing genus Pseudorhodoferax of beside.

Secuspseudorhodoplanes

L. masc. preposition *secus*, beside; L. masc. n. *Pseudorhodoplanes*, An existing genus; *Secuspseudorhodoplanes*: A genus related to but distinct from the existing genus Pseudorhodoplanes of beside.

Secuspseudorivibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudorivibacter*, An existing genus; *Secuspseudorivibacter*: A genus related to but distinct from the existing genus Pseudorivibacter of beside.

Secuspseudoroseicyclus

L. masc. preposition *secus*, beside; L. masc. n. *Pseudoroseicyclus*, An existing genus; *Secuspseudoroseicyclus*: A genus related to but distinct from the existing genus Pseudoroseicyclus of beside.

Secuspseudoroseovarius

L. masc. preposition *secus*, beside; L. masc. n. *Pseudoroseovarius*, An existing genus; *Secuspseudoroseovarius*: A genus related to but distinct from the existing genus Pseudoroseovarius of beside.

Secuspseudoruegeria

L. masc. preposition *secus*, beside; L. fem. n. *Pseudoruegeria*, An existing genus; *Secuspseudoruegeria*: A genus related to but distinct from the existing genus Pseudoruegeria of beside.

Secuspseudoruminococcus

L. masc. preposition *secus*, beside; L. masc. n. *Pseudoruminococcus*, An existing genus; *Secuspseudoruminococcus*: A genus related to but distinct from the existing genus Pseudoruminococcus of beside.

Secuspseudoscardovia

L. masc. preposition *secus*, beside; L. fem. n. *Pseudoscardovia*, An existing genus; *Secuspseudoscardovia*: A genus related to but distinct from the existing genus Pseudoscardovia of beside.

Secuspseudoseohaeicola

L. masc. preposition *secus*, beside; L. masc. n. *Pseudoseohaeicola*, An existing genus; *Secuspseudoseohaeicola*: A genus related to but distinct from the existing genus Pseudoseohaeicola of beside.

Secuspseudosphingobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Pseudosphingobacterium*, An existing genus; *Secuspseudosphingobacterium*: A genus related to but distinct from the existing genus Pseudosphingobacterium of beside.

Secuspseudospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Pseudospirillum*, An existing genus; *Secuspseudospirillum*: A genus related to but distinct from the existing genus Pseudospirillum of beside.

Secuspseudosporangium

L. masc. preposition *secus*, beside; L. neut. n. *Pseudosporangium*, An existing genus; *Secuspseudosporangium*: A genus related to but distinct from the existing genus Pseudosporangium of beside.

Secuspseudostreptobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Pseudostreptobacillus*, An existing genus; *Secuspseudostreptobacillus*: A genus related to but distinct from the existing genus Pseudostreptobacillus of beside.

Secuspseudotenacibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Pseudotenacibaculum*, An existing genus; *Secuspseudotenacibaculum*: A genus related to but distinct from the existing genus Pseudotenacibaculum of beside.

Secuspseudoteredinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudoteredinibacter*, An existing genus; *Secuspseudoteredinibacter*: A genus related to but distinct from the existing genus Pseudoteredinibacter of beside.

Secuspseudothermotoga

L. masc. preposition *secus*, beside; L. fem. n. *Pseudothermotoga*, An existing genus; *Secuspseudothermotoga*: A genus related to but distinct from the existing genus Pseudothermotoga of beside.

Secuspseudothioclava

L. masc. preposition *secus*, beside; L. fem. n. *Pseudothioclava*, An existing genus; *Secuspseudothioclava*: A genus related to but distinct from the existing genus Pseudothioclava of beside.

Secuspseudovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Pseudovibrio*, An existing genus; *Secuspseudovibrio*: A genus related to but distinct from the existing genus Pseudovibrio of beside.

Secuspseudoxanthobacter

L. masc. preposition *secus*, beside; L. masc. n. *Pseudoxanthobacter*, An existing genus; *Secuspseudoxanthobacter*: A genus related to but distinct from the existing genus Pseudoxanthobacter of beside.

Secuspseudoxanthomonas

L. masc. preposition *secus*, beside; L. fem. n. *Pseudoxanthomonas*, An existing genus; *Secuspseudoxanthomonas*: A genus related to but distinct from the existing genus Pseudoxanthomonas of beside.

Secuspseudozobellia

L. masc. preposition *secus*, beside; L. fem. n. *Pseudozobellia*, An existing genus; *Secuspseudozobellia*: A genus related to but distinct from the existing genus Pseudozobellia of beside.

Secuspsittacicella

L. masc. preposition *secus*, beside; L. fem. n. *Psittacicella*, An existing genus; *Secuspsittacicella*: A genus related to but distinct from the existing genus Psittacicella of beside.

Secuspsychrilyobacter

L. masc. preposition *secus*, beside; L. masc. n. *Psychrilyobacter*, An existing genus; *Secuspsychrilyobacter*: A genus related to but distinct from the existing genus Psychrilyobacter of beside.

Secuspsychrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Psychrobacter*, An existing genus; *Secuspsychrobacter*: A genus related to but distinct from the existing genus Psychrobacter of beside.

Secuspsychrobium

L. masc. preposition *secus*, beside; L. neut. n. *Psychrobium*, An existing genus; *Secuspsychrobium*: A genus related to but distinct from the existing genus Psychrobium of beside.

Secuspsychroflexus

L. masc. preposition *secus*, beside; L. masc. n. *Psychroflexus*, An existing genus; *Secuspsychroflexus*: A genus related to but distinct from the existing genus Psychroflexus of beside.

Secuspsychroglaciecola

L. masc. preposition *secus*, beside; L. fem. n. *Psychroglaciecola*, An existing genus; *Secuspsychroglaciecola*: A genus related to but distinct from the existing genus Psychroglaciecola of beside.

Secuspsychromarinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Psychromarinibacter*, An existing genus; *Secuspsychromarinibacter*: A genus related to but distinct from the existing genus Psychromarinibacter of beside.

Secuspsychromicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Psychromicrobium*, An existing genus; *Secuspsychromicrobium*: A genus related to but distinct from the existing genus Psychromicrobium of beside.

Secuspsychroserpens

L. masc. preposition *secus*, beside; L. masc. n. *Psychroserpens*, An existing genus; *Secuspsychroserpens*: A genus related to but distinct from the existing genus Psychroserpens of beside.

Secuspsychrosinus

L. masc. preposition *secus*, beside; L. masc. n. *Psychrosinus*, An existing genus; *Secuspsychrosinus*: A genus related to but distinct from the existing genus Psychrosinus of beside.

Secuspsychrosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Psychrosphaera*, An existing genus; *Secuspsychrosphaera*: A genus related to but distinct from the existing genus Psychrosphaera of beside.

Secuspueribacillus

L. masc. preposition *secus*, beside; L. masc. n. *Pueribacillus*, An existing genus; *Secuspueribacillus*: A genus related to but distinct from the existing genus Pueribacillus of beside.

Secuspuia

L. masc. preposition *secus*, beside; L. fem. n. *Puia*, An existing genus; *Secuspuia*: A genus related to but distinct from the existing genus Puia of beside.

Secuspukyongia

L. masc. preposition *secus*, beside; L. fem. n. *Pukyongia*, An existing genus; *Secuspukyongia*: A genus related to but distinct from the existing genus Pukyongia of beside.

Secuspukyongiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Pukyongiella*, An existing genus; *Secuspukyongiella*: A genus related to but distinct from the existing genus Pukyongiella of beside.

Secuspuniceibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Puniceibacterium*, An existing genus; *Secuspuniceibacterium*: A genus related to but distinct from the existing genus Puniceibacterium of beside.

Secuspuniceicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Puniceicoccus*, An existing genus; *Secuspuniceicoccus*: A genus related to but distinct from the existing genus Puniceicoccus of beside.

Secuspusillimonas

L. masc. preposition *secus*, beside; L. fem. n. *Pusillimonas*, An existing genus; *Secuspusillimonas*: A genus related to but distinct from the existing genus Pusillimonas of beside.

Secuspustulibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Pustulibacterium*, An existing genus; *Secuspustulibacterium*: A genus related to but distinct from the existing genus Pustulibacterium of beside.

Secusputridiphycobacter

L. masc. preposition *secus*, beside; L. masc. n. *Putridiphycobacter*, An existing genus; *Secusputridiphycobacter*: A genus related to but distinct from the existing genus Putridiphycobacter of beside.

Secuspuzihella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Puzihella*, An existing genus; *Secuspuzihella*: A genus related to but distinct from the existing genus Puzihella of beside.

Secuspycnacronema

L. masc. preposition *secus*, beside; L. neut. n. *Pycnacronema*, An existing genus; *Secuspycnacronema*: A genus related to but distinct from the existing genus Pycnacronema of beside.

Secuspyramidobacter

L. masc. preposition *secus*, beside; L. masc. n. *Pyramidobacter*, An existing genus; *Secuspyramidobacter*: A genus related to but distinct from the existing genus Pyramidobacter of beside.

Secuspyrinomonas

L. masc. preposition *secus*, beside; L. fem. n. *Pyrinomonas*, An existing genus; *Secuspyrinomonas*: A genus related to but distinct from the existing genus Pyrinomonas of beside.

Secuspyrobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Pyrobaculum*, An existing genus; *Secuspyrobaculum*: A genus related to but distinct from the existing genus Pyrobaculum of beside.

Secuspyrococcus

L. masc. preposition *secus*, beside; L. masc. n. *Pyrococcus*, An existing genus; *Secuspyrococcus*: A genus related to but distinct from the existing genus Pyrococcus of beside.

Secuspyrodictium

L. masc. preposition *secus*, beside; L. neut. n. *Pyrodictium*, An existing genus; *Secuspyrodictium*: A genus related to but distinct from the existing genus Pyrodictium of beside.

Secuspyruvatibacter

L. masc. preposition *secus*, beside; L. masc. n. *Pyruvatibacter*, An existing genus; *Secuspyruvatibacter*: A genus related to but distinct from the existing genus Pyruvatibacter of beside.

Secuspyxidicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Pyxidicoccus*, An existing genus; *Secuspyxidicoccus*: A genus related to but distinct from the existing genus Pyxidicoccus of beside.

Secusqingshengfania

L. masc. preposition *secus*, beside; L. fem. n. *Qingshengfania*, An existing genus; *Secusqingshengfania*: A genus related to but distinct from the existing genus Qingshengfania of beside.

Secusqipengyuania

L. masc. preposition *secus*, beside; L. fem. n. *Qipengyuania*, An existing genus; *Secusqipengyuania*: A genus related to but distinct from the existing genus Qipengyuania of beside.

Secusquadricoccus

L. masc. preposition *secus*, beside; L. masc. n. *Quadricoccus*, An existing genus; *Secusquadricoccus*: A genus related to but distinct from the existing genus Quadricoccus of beside.

Secusquadrisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Quadrisphaera*, An existing genus; *Secusquadrisphaera*: A genus related to but distinct from the existing genus Quadrisphaera of beside.

Secusquasibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Quasibacillus*, An existing genus; *Secusquasibacillus*: A genus related to but distinct from the existing genus Quasibacillus of beside.

Secusquatrionicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Quatrionicoccus*, An existing genus; *Secusquatrionicoccus*: A genus related to but distinct from the existing genus Quatrionicoccus of beside.

Secusquinella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Quinella*, An existing genus; *Secusquinella*: A genus related to but distinct from the existing genus Quinella of beside.

Secusracemicystis

L. masc. preposition *secus*, beside; L. fem. n. *Racemicystis*, An existing genus; *Secusracemicystis*: A genus related to but distinct from the existing genus Racemicystis of beside.

Secusrahnella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Rahnella*, An existing genus; *Secusrahnella*: A genus related to but distinct from the existing genus Rahnella of beside.

Secusraineya

L. masc. preposition *secus*, beside; L. fem. n. *Raineya*, An existing genus; *Secusraineya*: A genus related to but distinct from the existing genus Raineya of beside.

Secusraineyella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Raineyella*, An existing genus; *Secusraineyella*: A genus related to but distinct from the existing genus Raineyella of beside.

Secusralstonia

L. masc. preposition *secus*, beside; L. fem. n. *Ralstonia*, An existing genus; *Secusralstonia*: A genus related to but distinct from the existing genus Ralstonia of beside.

Secusramlibacter

L. masc. preposition *secus*, beside; L. masc. n. *Ramlibacter*, An existing genus; *Secusramlibacter*: A genus related to but distinct from the existing genus Ramlibacter of beside.

Secusramsaria

L. masc. preposition *secus*, beside; L. fem. n. *Ramsaria*, An existing genus; *Secusramsaria*: A genus related to but distinct from the existing genus Ramsaria of beside.

Secusraoultella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Raoultella*, An existing genus; *Secusraoultella*: A genus related to but distinct from the existing genus Raoultella of beside.

Secusrariglobus

L. masc. preposition *secus*, beside; L. masc. n. *Rariglobus*, An existing genus; *Secusrariglobus*: A genus related to but distinct from the existing genus Rariglobus of beside.

Secusrarimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Rarimicrobium*, An existing genus; *Secusrarimicrobium*: A genus related to but distinct from the existing genus Rarimicrobium of beside.

Secusrarobacter

L. masc. preposition *secus*, beside; L. masc. n. *Rarobacter*, An existing genus; *Secusrarobacter*: A genus related to but distinct from the existing genus Rarobacter of beside.

Secusrathayibacter

L. masc. preposition *secus*, beside; L. masc. n. *Rathayibacter*, An existing genus; *Secusrathayibacter*: A genus related to but distinct from the existing genus Rathayibacter of beside.

Secusravibacter

L. masc. preposition *secus*, beside; L. masc. n. *Ravibacter*, An existing genus; *Secusravibacter*: A genus related to but distinct from the existing genus Ravibacter of beside.

Secusrectinema

L. masc. preposition *secus*, beside; L. neut. n. *Rectinema*, An existing genus; *Secusrectinema*: A genus related to but distinct from the existing genus Rectinema of beside.

Secusrehaibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Rehaibacterium*, An existing genus; *Secusrehaibacterium*: A genus related to but distinct from the existing genus Rehaibacterium of beside.

Secusreichenbachia

L. masc. preposition *secus*, beside; L. fem. n. *Reichenbachia*, An existing genus; *Secusreichenbachia*: A genus related to but distinct from the existing genus Reichenbachia of beside.

Secusreichenbachiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Reichenbachiella*, An existing genus; *Secusreichenbachiella*: A genus related to but distinct from the existing genus Reichenbachiella of beside.

Secusreinekea

L. masc. preposition *secus*, beside; L. fem. n. *Reinekea*, An existing genus; *Secusreinekea*: A genus related to but distinct from the existing genus Reinekea of beside.

Secusrenibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Renibacterium*, An existing genus; *Secusrenibacterium*: A genus related to but distinct from the existing genus Renibacterium of beside.

Secusreyranella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Reyranella*, An existing genus; *Secusreyranella*: A genus related to but distinct from the existing genus Reyranella of beside.

Secusrhabdaerophilum

L. masc. preposition *secus*, beside; L. neut. n. *Rhabdaerophilum*, An existing genus; *Secusrhabdaerophilum*: A genus related to but distinct from the existing genus Rhabdaerophilum of beside.

Secusrhabdanaerobium

L. masc. preposition *secus*, beside; L. neut. n. *Rhabdanaerobium*, An existing genus; *Secusrhabdanaerobium*: A genus related to but distinct from the existing genus Rhabdanaerobium of beside.

Secusrhabdobacter

L. masc. preposition *secus*, beside; L. masc. n. *Rhabdobacter*, An existing genus; *Secusrhabdobacter*: A genus related to but distinct from the existing genus Rhabdobacter of beside.

Secusrhabdochromatium

L. masc. preposition *secus*, beside; L. neut. n. *Rhabdochromatium*, An existing genus; *Secusrhabdochromatium*: A genus related to but distinct from the existing genus Rhabdochromatium of beside.

Secusrheinheimera

L. masc. preposition *secus*, beside; L. fem. n. *Rheinheimera*, An existing genus; *Secusrheinheimera*: A genus related to but distinct from the existing genus Rheinheimera of beside.

Secusrhizobium

L. masc. preposition *secus*, beside; L. neut. n. *Rhizobium*, An existing genus; *Secusrhizobium*: A genus related to but distinct from the existing genus Rhizobium of beside.

Secusrhizocola

L. masc. preposition *secus*, beside; L. masc. n. *Rhizocola*, An existing genus; *Secusrhizocola*: A genus related to but distinct from the existing genus Rhizocola of beside.

Secusrhizomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Rhizomicrobium*, An existing genus; *Secusrhizomicrobium*: A genus related to but distinct from the existing genus Rhizomicrobium of beside.

Secusrhizomonas

L. masc. preposition *secus*, beside; L. fem. n. *Rhizomonas*, An existing genus; *Secusrhizomonas*: A genus related to but distinct from the existing genus Rhizomonas of beside.

Secusrhizorhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Rhizorhabdus*, An existing genus; *Secusrhizorhabdus*: A genus related to but distinct from the existing genus Rhizorhabdus of beside.

Secusrhizorhapis

L. masc. preposition *secus*, beside; L. fem. n. *Rhizorhapis*, An existing genus; *Secusrhizorhapis*: A genus related to but distinct from the existing genus Rhizorhapis of beside.

Secusrhodanobacter

L. masc. preposition *secus*, beside; L. masc. n. *Rhodanobacter*, An existing genus; *Secusrhodanobacter*: A genus related to but distinct from the existing genus Rhodanobacter of beside.

Secusrhodobaca

L. masc. preposition *secus*, beside; L. fem. n. *Rhodobaca*, An existing genus; *Secusrhodobaca*: A genus related to but distinct from the existing genus Rhodobaca of beside.

Secusrhodobacter

L. masc. preposition *secus*, beside; L. masc. n. *Rhodobacter*, An existing genus; *Secusrhodobacter*: A genus related to but distinct from the existing genus Rhodobacter of beside.

Secusrhodobium

L. masc. preposition *secus*, beside; L. neut. n. *Rhodobium*, An existing genus; *Secusrhodobium*: A genus related to but distinct from the existing genus Rhodobium of beside.

Secusrhodoblastus

L. masc. preposition *secus*, beside; L. masc. n. *Rhodoblastus*, An existing genus; *Secusrhodoblastus*: A genus related to but distinct from the existing genus Rhodoblastus of beside.

Secusrhodocista

L. masc. preposition *secus*, beside; L. fem. n. *Rhodocista*, An existing genus; *Secusrhodocista*: A genus related to but distinct from the existing genus Rhodocista of beside.

Secusrhodococcus

L. masc. preposition *secus*, beside; L. masc. n. *Rhodococcus*, An existing genus; *Secusrhodococcus*: A genus related to but distinct from the existing genus Rhodococcus of beside.

Secusrhodocyclus

L. masc. preposition *secus*, beside; L. masc. n. *Rhodocyclus*, An existing genus; *Secusrhodocyclus*: A genus related to but distinct from the existing genus Rhodocyclus of beside.

Secusrhodocytophaga

L. masc. preposition *secus*, beside; L. fem. n. *Rhodocytophaga*, An existing genus; *Secusrhodocytophaga*: A genus related to but distinct from the existing genus Rhodocytophaga of beside.

Secusrhodoferax

L. masc. preposition *secus*, beside; L. masc. n. *Rhodoferax*, An existing genus; *Secusrhodoferax*: A genus related to but distinct from the existing genus Rhodoferax of beside.

Secusrhodoglobus

L. masc. preposition *secus*, beside; L. masc. n. *Rhodoglobus*, An existing genus; *Secusrhodoglobus*: A genus related to but distinct from the existing genus Rhodoglobus of beside.

Secusrhodohalobacter

L. masc. preposition *secus*, beside; L. masc. n. *Rhodohalobacter*, An existing genus; *Secusrhodohalobacter*: A genus related to but distinct from the existing genus Rhodohalobacter of beside.

Secusrhodoligotrophos

L. masc. preposition *secus*, beside; L. masc. n. *Rhodoligotrophos*, An existing genus; *Secusrhodoligotrophos*: A genus related to but distinct from the existing genus Rhodoligotrophos of beside.

Secusrhodoluna

L. masc. preposition *secus*, beside; L. fem. n. *Rhodoluna*, An existing genus; *Secusrhodoluna*: A genus related to but distinct from the existing genus Rhodoluna of beside.

Secusrhodomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Rhodomicrobium*, An existing genus; *Secusrhodomicrobium*: A genus related to but distinct from the existing genus Rhodomicrobium of beside.

Secusrhodonellum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Rhodonellum*, An existing genus; *Secusrhodonellum*: A genus related to but distinct from the existing genus Rhodonellum of beside.

Secusrhodophyticola

L. masc. preposition *secus*, beside; L. masc. n. *Rhodophyticola*, An existing genus; *Secusrhodophyticola*: A genus related to but distinct from the existing genus Rhodophyticola of beside.

Secusrhodopila

L. masc. preposition *secus*, beside; L. fem. n. *Rhodopila*, An existing genus; *Secusrhodopila*: A genus related to but distinct from the existing genus Rhodopila of beside.

Secusrhodopirellula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Rhodopirellula*, An existing genus; *Secusrhodopirellula*: A genus related to but distinct from the existing genus Rhodopirellula of beside.

Secusrhodoplanes

L. masc. preposition *secus*, beside; L. masc. n. *Rhodoplanes*, An existing genus; *Secusrhodoplanes*: A genus related to but distinct from the existing genus Rhodoplanes of beside.

Secusrhodopseudomonas

L. masc. preposition *secus*, beside; L. fem. n. *Rhodopseudomonas*, An existing genus; *Secusrhodopseudomonas*: A genus related to but distinct from the existing genus Rhodopseudomonas of beside.

Secusrhodosalinus

L. masc. preposition *secus*, beside; L. masc. n. *Rhodosalinus*, An existing genus; *Secusrhodosalinus*: A genus related to but distinct from the existing genus Rhodosalinus of beside.

Secusrhodospira

L. masc. preposition *secus*, beside; L. fem. n. *Rhodospira*, An existing genus; *Secusrhodospira*: A genus related to but distinct from the existing genus Rhodospira of beside.

Secusrhodospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Rhodospirillum*, An existing genus; *Secusrhodospirillum*: A genus related to but distinct from the existing genus Rhodospirillum of beside.

Secusrhodothalassium

L. masc. preposition *secus*, beside; L. neut. n. *Rhodothalassium*, An existing genus; *Secusrhodothalassium*: A genus related to but distinct from the existing genus Rhodothalassium of beside.

Secusrhodothermus

L. masc. preposition *secus*, beside; L. masc. n. *Rhodothermus*, An existing genus; *Secusrhodothermus*: A genus related to but distinct from the existing genus Rhodothermus of beside.

Secusrhodovarius

L. masc. preposition *secus*, beside; L. masc. n. *Rhodovarius*, An existing genus; *Secusrhodovarius*: A genus related to but distinct from the existing genus Rhodovarius of beside.

Secusrhodovastum

L. masc. preposition *secus*, beside; L. neut. n. *Rhodovastum*, An existing genus; *Secusrhodovastum*: A genus related to but distinct from the existing genus Rhodovastum of beside.

Secusrhodovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Rhodovibrio*, An existing genus; *Secusrhodovibrio*: A genus related to but distinct from the existing genus Rhodovibrio of beside.

Secusrhodovulum

L. masc. preposition *secus*, beside; L. neut. n. *Rhodovulum*, An existing genus; *Secusrhodovulum*: A genus related to but distinct from the existing genus Rhodovulum of beside.

Secusrickettsia

L. masc. preposition *secus*, beside; L. fem. n. *Rickettsia*, An existing genus; *Secusrickettsia*: A genus related to but distinct from the existing genus Rickettsia of beside.

Secusrickettsiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Rickettsiella*, An existing genus; *Secusrickettsiella*: A genus related to but distinct from the existing genus Rickettsiella of beside.

Secusriemerella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Riemerella*, An existing genus; *Secusriemerella*: A genus related to but distinct from the existing genus Riemerella of beside.

Secusrikenella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Rikenella*, An existing genus; *Secusrikenella*: A genus related to but distinct from the existing genus Rikenella of beside.

Secusrippkaea

L. masc. preposition *secus*, beside; L. fem. n. *Rippkaea*, An existing genus; *Secusrippkaea*: A genus related to but distinct from the existing genus Rippkaea of beside.

Secusrisungbinella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Risungbinella*, An existing genus; *Secusrisungbinella*: A genus related to but distinct from the existing genus Risungbinella of beside.

Secusrivibacter

L. masc. preposition *secus*, beside; L. masc. n. *Rivibacter*, An existing genus; *Secusrivibacter*: A genus related to but distinct from the existing genus Rivibacter of beside.

Secusrivicola

L. masc. preposition *secus*, beside; L. masc. n. *Rivicola*, An existing genus; *Secusrivicola*: A genus related to but distinct from the existing genus Rivicola of beside.

Secusrivularia

L. masc. preposition *secus*, beside; L. fem. n. *Rivularia*, An existing genus; *Secusrivularia*: A genus related to but distinct from the existing genus Rivularia of beside.

Secusrobbsia

L. masc. preposition *secus*, beside; L. fem. n. *Robbsia*, An existing genus; *Secusrobbsia*: A genus related to but distinct from the existing genus Robbsia of beside.

Secusrobertkochia

L. masc. preposition *secus*, beside; L. fem. n. *Robertkochia*, An existing genus; *Secusrobertkochia*: A genus related to but distinct from the existing genus Robertkochia of beside.

Secusrobiginitalea

L. masc. preposition *secus*, beside; L. fem. n. *Robiginitalea*, An existing genus; *Secusrobiginitalea*: A genus related to but distinct from the existing genus Robiginitalea of beside.

Secusrobiginitomaculum

L. masc. preposition *secus*, beside; L. neut. n. *Robiginitomaculum*, An existing genus; *Secusrobiginitomaculum*: A genus related to but distinct from the existing genus Robiginitomaculum of beside.

Secusrobinsoniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Robinsoniella*, An existing genus; *Secusrobinsoniella*: A genus related to but distinct from the existing genus Robinsoniella of beside.

Secusrochalimaea

L. masc. preposition *secus*, beside; L. fem. n. *Rochalimaea*, An existing genus; *Secusrochalimaea*: A genus related to but distinct from the existing genus Rochalimaea of beside.

Secusrodentibacter

L. masc. preposition *secus*, beside; L. masc. n. *Rodentibacter*, An existing genus; *Secusrodentibacter*: A genus related to but distinct from the existing genus Rodentibacter of beside.

Secusroholtiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Roholtiella*, An existing genus; *Secusroholtiella*: A genus related to but distinct from the existing genus Roholtiella of beside.

Secusromboutsia

L. masc. preposition *secus*, beside; L. fem. n. *Romboutsia*, An existing genus; *Secusromboutsia*: A genus related to but distinct from the existing genus Romboutsia of beside.

Secusroseateles

L. masc. preposition *secus*, beside; L. masc. n. *Roseateles*, An existing genus; *Secusroseateles*: A genus related to but distinct from the existing genus Roseateles of beside.

Secusroseburia

L. masc. preposition *secus*, beside; L. fem. n. *Roseburia*, An existing genus; *Secusroseburia*: A genus related to but distinct from the existing genus Roseburia of beside.

Secusroseiarcus

L. masc. preposition *secus*, beside; L. masc. n. *Roseiarcus*, An existing genus; *Secusroseiarcus*: A genus related to but distinct from the existing genus Roseiarcus of beside.

Secusroseibaca

L. masc. preposition *secus*, beside; L. fem. n. *Roseibaca*, An existing genus; *Secusroseibaca*: A genus related to but distinct from the existing genus Roseibaca of beside.

Secusroseibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Roseibacillus*, An existing genus; *Secusroseibacillus*: A genus related to but distinct from the existing genus Roseibacillus of beside.

Secusroseibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Roseibacterium*, An existing genus; *Secusroseibacterium*: A genus related to but distinct from the existing genus Roseibacterium of beside.

Secusroseibacula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Roseibacula*, An existing genus; *Secusroseibacula*: A genus related to but distinct from the existing genus Roseibacula of beside.

Secusroseibium

L. masc. preposition *secus*, beside; L. neut. n. *Roseibium*, An existing genus; *Secusroseibium*: A genus related to but distinct from the existing genus Roseibium of beside.

Secusroseicella

L. masc. preposition *secus*, beside; L. fem. n. *Roseicella*, An existing genus; *Secusroseicella*: A genus related to but distinct from the existing genus Roseicella of beside.

Secusroseicitreum

L. masc. preposition *secus*, beside; L. neut. n. *Roseicitreum*, An existing genus; *Secusroseicitreum*: A genus related to but distinct from the existing genus Roseicitreum of beside.

Secusroseicyclus

L. masc. preposition *secus*, beside; L. masc. n. *Roseicyclus*, An existing genus; *Secusroseicyclus*: A genus related to but distinct from the existing genus Roseicyclus of beside.

Secusroseiflexus

L. masc. preposition *secus*, beside; L. masc. n. *Roseiflexus*, An existing genus; *Secusroseiflexus*: A genus related to but distinct from the existing genus Roseiflexus of beside.

Secusroseimarinus

L. masc. preposition *secus*, beside; L. masc. n. *Roseimarinus*, An existing genus; *Secusroseimarinus*: A genus related to but distinct from the existing genus Roseimarinus of beside.

Secusroseimaritima

L. masc. preposition *secus*, beside; L. fem. n. *Roseimaritima*, An existing genus; *Secusroseimaritima*: A genus related to but distinct from the existing genus Roseimaritima of beside.

Secusroseimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Roseimicrobium*, An existing genus; *Secusroseimicrobium*: A genus related to but distinct from the existing genus Roseimicrobium of beside.

Secusroseinatronobacter

L. masc. preposition *secus*, beside; L. masc. n. *Roseinatronobacter*, An existing genus; *Secusroseinatronobacter*: A genus related to but distinct from the existing genus Roseinatronobacter of beside.

Secusroseisalinus

L. masc. preposition *secus*, beside; L. masc. n. *Roseisalinus*, An existing genus; *Secusroseisalinus*: A genus related to but distinct from the existing genus Roseisalinus of beside.

Secusroseisolibacter

L. masc. preposition *secus*, beside; L. masc. n. *Roseisolibacter*, An existing genus; *Secusroseisolibacter*: A genus related to but distinct from the existing genus Roseisolibacter of beside.

Secusroseitalea

L. masc. preposition *secus*, beside; L. fem. n. *Roseitalea*, An existing genus; *Secusroseitalea*: A genus related to but distinct from the existing genus Roseitalea of beside.

Secusroseithermus

L. masc. preposition *secus*, beside; L. masc. n. *Roseithermus*, An existing genus; *Secusroseithermus*: A genus related to but distinct from the existing genus Roseithermus of beside.

Secusroseivirga

L. masc. preposition *secus*, beside; L. fem. n. *Roseivirga*, An existing genus; *Secusroseivirga*: A genus related to but distinct from the existing genus Roseivirga of beside.

Secusroseivivax

L. masc. preposition *secus*, beside; L. masc. n. *Roseivivax*, An existing genus; *Secusroseivivax*: A genus related to but distinct from the existing genus Roseivivax of beside.

Secusrosenbergiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Rosenbergiella*, An existing genus; *Secusrosenbergiella*: A genus related to but distinct from the existing genus Rosenbergiella of beside.

Secusroseobacter

L. masc. preposition *secus*, beside; L. masc. n. *Roseobacter*, An existing genus; *Secusroseobacter*: A genus related to but distinct from the existing genus Roseobacter of beside.

Secusroseococcus

L. masc. preposition *secus*, beside; L. masc. n. *Roseococcus*, An existing genus; *Secusroseococcus*: A genus related to but distinct from the existing genus Roseococcus of beside.

Secusroseofilum

L. masc. preposition *secus*, beside; L. neut. n. *Roseofilum*, An existing genus; *Secusroseofilum*: A genus related to but distinct from the existing genus Roseofilum of beside.

Secusroseomonas

L. masc. preposition *secus*, beside; L. fem. n. *Roseomonas*, An existing genus; *Secusroseomonas*: A genus related to but distinct from the existing genus Roseomonas of beside.

Secusroseospira

L. masc. preposition *secus*, beside; L. fem. n. *Roseospira*, An existing genus; *Secusroseospira*: A genus related to but distinct from the existing genus Roseospira of beside.

Secusroseospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Roseospirillum*, An existing genus; *Secusroseospirillum*: A genus related to but distinct from the existing genus Roseospirillum of beside.

Secusroseovarius

L. masc. preposition *secus*, beside; L. masc. n. *Roseovarius*, An existing genus; *Secusroseovarius*: A genus related to but distinct from the existing genus Roseovarius of beside.

Secusrosistilla

L. masc. preposition *secus*, beside; L. fem. n. *Rosistilla*, An existing genus; *Secusrosistilla*: A genus related to but distinct from the existing genus Rosistilla of beside.

Secusrothia

L. masc. preposition *secus*, beside; L. fem. n. *Rothia*, An existing genus; *Secusrothia*: A genus related to but distinct from the existing genus Rothia of beside.

Secusrouxiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Rouxiella*, An existing genus; *Secusrouxiella*: A genus related to but distinct from the existing genus Rouxiella of beside.

Secusruania

L. masc. preposition *secus*, beside; L. fem. n. *Ruania*, An existing genus; *Secusruania*: A genus related to but distinct from the existing genus Ruania of beside.

Secusrubellimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Rubellimicrobium*, An existing genus; *Secusrubellimicrobium*: A genus related to but distinct from the existing genus Rubellimicrobium of beside.

Secusrubeoparvulum

L. masc. preposition *secus*, beside; L. neut. n. *Rubeoparvulum*, An existing genus; *Secusrubeoparvulum*: A genus related to but distinct from the existing genus Rubeoparvulum of beside.

Secusrubidibacter

L. masc. preposition *secus*, beside; L. masc. n. *Rubidibacter*, An existing genus; *Secusrubidibacter*: A genus related to but distinct from the existing genus Rubidibacter of beside.

Secusrubidimonas

L. masc. preposition *secus*, beside; L. fem. n. *Rubidimonas*, An existing genus; *Secusrubidimonas*: A genus related to but distinct from the existing genus Rubidimonas of beside.

Secusrubinisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Rubinisphaera*, An existing genus; *Secusrubinisphaera*: A genus related to but distinct from the existing genus Rubinisphaera of beside.

Secusrubneribacter

L. masc. preposition *secus*, beside; L. masc. n. *Rubneribacter*, An existing genus; *Secusrubneribacter*: A genus related to but distinct from the existing genus Rubneribacter of beside.

Secusrubribacterium

L. masc. preposition *secus*, beside; L. neut. n. *Rubribacterium*, An existing genus; *Secusrubribacterium*: A genus related to but distinct from the existing genus Rubribacterium of beside.

Secusrubricella

L. masc. preposition *secus*, beside; L. fem. n. *Rubricella*, An existing genus; *Secusrubricella*: A genus related to but distinct from the existing genus Rubricella of beside.

Secusrubricoccus

L. masc. preposition *secus*, beside; L. masc. n. *Rubricoccus*, An existing genus; *Secusrubricoccus*: A genus related to but distinct from the existing genus Rubricoccus of beside.

Secusrubrimonas

L. masc. preposition *secus*, beside; L. fem. n. *Rubrimonas*, An existing genus; *Secusrubrimonas*: A genus related to but distinct from the existing genus Rubrimonas of beside.

Secusrubripirellula

L. masc. preposition *secus*, beside; L. fem. dim. n. *Rubripirellula*, An existing genus; *Secusrubripirellula*: A genus related to but distinct from the existing genus Rubripirellula of beside.

Secusrubritalea

L. masc. preposition *secus*, beside; L. fem. n. *Rubritalea*, An existing genus; *Secusrubritalea*: A genus related to but distinct from the existing genus Rubritalea of beside.

Secusrubritepida

L. masc. preposition *secus*, beside; L. fem. n. *Rubritepida*, An existing genus; *Secusrubritepida*: A genus related to but distinct from the existing genus Rubritepida of beside.

Secusrubrivirga

L. masc. preposition *secus*, beside; L. fem. n. *Rubrivirga*, An existing genus; *Secusrubrivirga*: A genus related to but distinct from the existing genus Rubrivirga of beside.

Secusrubrivivax

L. masc. preposition *secus*, beside; L. masc. n. *Rubrivivax*, An existing genus; *Secusrubrivivax*: A genus related to but distinct from the existing genus Rubrivivax of beside.

Secusrubrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Rubrobacter*, An existing genus; *Secusrubrobacter*: A genus related to but distinct from the existing genus Rubrobacter of beside.

Secusrudaea

L. masc. preposition *secus*, beside; L. fem. n. *Rudaea*, An existing genus; *Secusrudaea*: A genus related to but distinct from the existing genus Rudaea of beside.

Secusrudaeicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Rudaeicoccus*, An existing genus; *Secusrudaeicoccus*: A genus related to but distinct from the existing genus Rudaeicoccus of beside.

Secusrudaibacter

L. masc. preposition *secus*, beside; L. masc. n. *Rudaibacter*, An existing genus; *Secusrudaibacter*: A genus related to but distinct from the existing genus Rudaibacter of beside.

Secusrudanella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Rudanella*, An existing genus; *Secusrudanella*: A genus related to but distinct from the existing genus Rudanella of beside.

Secusruegeria

L. masc. preposition *secus*, beside; L. fem. n. *Ruegeria*, An existing genus; *Secusruegeria*: A genus related to but distinct from the existing genus Ruegeria of beside.

Secusrufibacter

L. masc. preposition *secus*, beside; L. masc. n. *Rufibacter*, An existing genus; *Secusrufibacter*: A genus related to but distinct from the existing genus Rufibacter of beside.

Secusruficoccus

L. masc. preposition *secus*, beside; L. masc. n. *Ruficoccus*, An existing genus; *Secusruficoccus*: A genus related to but distinct from the existing genus Ruficoccus of beside.

Secusrugamonas

L. masc. preposition *secus*, beside; L. fem. n. *Rugamonas*, An existing genus; *Secusrugamonas*: A genus related to but distinct from the existing genus Rugamonas of beside.

Secusrugosibacter

L. masc. preposition *secus*, beside; L. masc. n. *Rugosibacter*, An existing genus; *Secusrugosibacter*: A genus related to but distinct from the existing genus Rugosibacter of beside.

Secusrugosimonospora

L. masc. preposition *secus*, beside; L. fem. n. *Rugosimonospora*, An existing genus; *Secusrugosimonospora*: A genus related to but distinct from the existing genus Rugosimonospora of beside.

Secusruminiclostridium

L. masc. preposition *secus*, beside; L. neut. dim. n. *Ruminiclostridium*, An existing genus; *Secusruminiclostridium*: A genus related to but distinct from the existing genus Ruminiclostridium of beside.

Secusruminobacter

L. masc. preposition *secus*, beside; L. masc. n. *Ruminobacter*, An existing genus; *Secusruminobacter*: A genus related to but distinct from the existing genus Ruminobacter of beside.

Secusruminococcus

L. masc. preposition *secus*, beside; L. masc. n. *Ruminococcus*, An existing genus; *Secusruminococcus*: A genus related to but distinct from the existing genus Ruminococcus of beside.

Secusrummeliibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Rummeliibacillus*, An existing genus; *Secusrummeliibacillus*: A genus related to but distinct from the existing genus Rummeliibacillus of beside.

Secusrunella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Runella*, An existing genus; *Secusrunella*: A genus related to but distinct from the existing genus Runella of beside.

Secusrurimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Rurimicrobium*, An existing genus; *Secusrurimicrobium*: A genus related to but distinct from the existing genus Rurimicrobium of beside.

Secusruthenibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Ruthenibacterium*, An existing genus; *Secusruthenibacterium*: A genus related to but distinct from the existing genus Ruthenibacterium of beside.

Secussabulilitoribacter

L. masc. preposition *secus*, beside; L. masc. n. *Sabulilitoribacter*, An existing genus; *Secussabulilitoribacter*: A genus related to but distinct from the existing genus Sabulilitoribacter of beside.

Secussaccharedens

L. masc. preposition *secus*, beside; L. masc. n. *Saccharedens*, An existing genus; *Secussaccharedens*: A genus related to but distinct from the existing genus Saccharedens of beside.

Secussaccharibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Saccharibacillus*, An existing genus; *Secussaccharibacillus*: A genus related to but distinct from the existing genus Saccharibacillus of beside.

Secussaccharibacter

L. masc. preposition *secus*, beside; L. masc. n. *Saccharibacter*, An existing genus; *Secussaccharibacter*: A genus related to but distinct from the existing genus Saccharibacter of beside.

Secussaccharococcus

L. masc. preposition *secus*, beside; L. masc. n. *Saccharococcus*, An existing genus; *Secussaccharococcus*: A genus related to but distinct from the existing genus Saccharococcus of beside.

Secussaccharofermentans

L. masc. preposition *secus*, beside; L. neut. n. *Saccharofermentans*, An existing genus; *Secussaccharofermentans*: A genus related to but distinct from the existing genus Saccharofermentans of beside.

Secussaccharolobus

L. masc. preposition *secus*, beside; L. masc. n. *Saccharolobus*, An existing genus; *Secussaccharolobus*: A genus related to but distinct from the existing genus Saccharolobus of beside.

Secussaccharomonospora

L. masc. preposition *secus*, beside; L. fem. n. *Saccharomonospora*, An existing genus; *Secussaccharomonospora*: A genus related to but distinct from the existing genus Saccharomonospora of beside.

Secussaccharophagus

L. masc. preposition *secus*, beside; L. masc. n. *Saccharophagus*, An existing genus; *Secussaccharophagus*: A genus related to but distinct from the existing genus Saccharophagus of beside.

Secussaccharopolyspora

L. masc. preposition *secus*, beside; L. fem. n. *Saccharopolyspora*, An existing genus; *Secussaccharopolyspora*: A genus related to but distinct from the existing genus Saccharopolyspora of beside.

Secussaccharospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Saccharospirillum*, An existing genus; *Secussaccharospirillum*: A genus related to but distinct from the existing genus Saccharospirillum of beside.

Secussaezia

L. masc. preposition *secus*, beside; L. fem. n. *Saezia*, An existing genus; *Secussaezia*: A genus related to but distinct from the existing genus Saezia of beside.

Secussalana

L. masc. preposition *secus*, beside; L. fem. n. *Salana*, An existing genus; *Secussalana*: A genus related to but distinct from the existing genus Salana of beside.

Secussalaquimonas

L. masc. preposition *secus*, beside; L. fem. n. *Salaquimonas*, An existing genus; *Secussalaquimonas*: A genus related to but distinct from the existing genus Salaquimonas of beside.

Secussalarchaeum

L. masc. preposition *secus*, beside; L. neut. n. *Salarchaeum*, An existing genus; *Secussalarchaeum*: A genus related to but distinct from the existing genus Salarchaeum of beside.

Secussalegentibacter

L. masc. preposition *secus*, beside; L. masc. n. *Salegentibacter*, An existing genus; *Secussalegentibacter*: A genus related to but distinct from the existing genus Salegentibacter of beside.

Secussalibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Salibacillus*, An existing genus; *Secussalibacillus*: A genus related to but distinct from the existing genus Salibacillus of beside.

Secussalibacter

L. masc. preposition *secus*, beside; L. masc. n. *Salibacter*, An existing genus; *Secussalibacter*: A genus related to but distinct from the existing genus Salibacter of beside.

Secussalicibibacter

L. masc. preposition *secus*, beside; L. masc. n. *Salicibibacter*, An existing genus; *Secussalicibibacter*: A genus related to but distinct from the existing genus Salicibibacter of beside.

Secussalicola

L. masc. preposition *secus*, beside; L. masc. n. *Salicola*, An existing genus; *Secussalicola*: A genus related to but distinct from the existing genus Salicola of beside.

Secussalilacibacter

L. masc. preposition *secus*, beside; L. masc. n. *Salilacibacter*, An existing genus; *Secussalilacibacter*: A genus related to but distinct from the existing genus Salilacibacter of beside.

Secussalileptolyngbya

L. masc. preposition *secus*, beside; L. fem. n. *Salileptolyngbya*, An existing genus; *Secussalileptolyngbya*: A genus related to but distinct from the existing genus Salileptolyngbya of beside.

Secussalimesophilobacter

L. masc. preposition *secus*, beside; L. masc. n. *Salimesophilobacter*, An existing genus; *Secussalimesophilobacter*: A genus related to but distinct from the existing genus Salimesophilobacter of beside.

Secussalimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Salimicrobium*, An existing genus; *Secussalimicrobium*: A genus related to but distinct from the existing genus Salimicrobium of beside.

Secussalinactinospora

L. masc. preposition *secus*, beside; L. fem. n. *Salinactinospora*, An existing genus; *Secussalinactinospora*: A genus related to but distinct from the existing genus Salinactinospora of beside.

Secussalinarchaeum

L. masc. preposition *secus*, beside; L. neut. n. *Salinarchaeum*, An existing genus; *Secussalinarchaeum*: A genus related to but distinct from the existing genus Salinarchaeum of beside.

Secussalinibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Salinibacillus*, An existing genus; *Secussalinibacillus*: A genus related to but distinct from the existing genus Salinibacillus of beside.

Secussalinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Salinibacter*, An existing genus; *Secussalinibacter*: A genus related to but distinct from the existing genus Salinibacter of beside.

Secussalinibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Salinibacterium*, An existing genus; *Secussalinibacterium*: A genus related to but distinct from the existing genus Salinibacterium of beside.

Secussalinibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Salinibaculum*, An existing genus; *Secussalinibaculum*: A genus related to but distinct from the existing genus Salinibaculum of beside.

Secussalinibius

L. masc. preposition *secus*, beside; L. masc. n. *Salinibius*, An existing genus; *Secussalinibius*: A genus related to but distinct from the existing genus Salinibius of beside.

Secussalinicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Salinicoccus*, An existing genus; *Secussalinicoccus*: A genus related to but distinct from the existing genus Salinicoccus of beside.

Secussalinicola

L. masc. preposition *secus*, beside; L. masc. n. *Salinicola*, An existing genus; *Secussalinicola*: A genus related to but distinct from the existing genus Salinicola of beside.

Secussalinifilum

L. masc. preposition *secus*, beside; L. neut. n. *Salinifilum*, An existing genus; *Secussalinifilum*: A genus related to but distinct from the existing genus Salinifilum of beside.

Secussalinigranum

L. masc. preposition *secus*, beside; L. neut. n. *Salinigranum*, An existing genus; *Secussalinigranum*: A genus related to but distinct from the existing genus Salinigranum of beside.

Secussalinihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Salinihabitans*, An existing genus; *Secussalinihabitans*: A genus related to but distinct from the existing genus Salinihabitans of beside.

Secussalinimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Salinimicrobium*, An existing genus; *Secussalinimicrobium*: A genus related to but distinct from the existing genus Salinimicrobium of beside.

Secussalinimonas

L. masc. preposition *secus*, beside; L. fem. n. *Salinimonas*, An existing genus; *Secussalinimonas*: A genus related to but distinct from the existing genus Salinimonas of beside.

Secussalininema

L. masc. preposition *secus*, beside; L. neut. n. *Salininema*, An existing genus; *Secussalininema*: A genus related to but distinct from the existing genus Salininema of beside.

Secussaliniradius

L. masc. preposition *secus*, beside; L. masc. n. *Saliniradius*, An existing genus; *Secussaliniradius*: A genus related to but distinct from the existing genus Saliniradius of beside.

Secussalinirepens

L. masc. preposition *secus*, beside; L. masc. n. *Salinirepens*, An existing genus; *Secussalinirepens*: A genus related to but distinct from the existing genus Salinirepens of beside.

Secussalinirubellus

L. masc. preposition *secus*, beside; L. masc. n. *Salinirubellus*, An existing genus; *Secussalinirubellus*: A genus related to but distinct from the existing genus Salinirubellus of beside.

Secussalinirussus

L. masc. preposition *secus*, beside; L. masc. n. *Salinirussus*, An existing genus; *Secussalinirussus*: A genus related to but distinct from the existing genus Salinirussus of beside.

Secussalinisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Salinisphaera*, An existing genus; *Secussalinisphaera*: A genus related to but distinct from the existing genus Salinisphaera of beside.

Secussalinispira

L. masc. preposition *secus*, beside; L. fem. n. *Salinispira*, An existing genus; *Secussalinispira*: A genus related to but distinct from the existing genus Salinispira of beside.

Secussalinispirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Salinispirillum*, An existing genus; *Secussalinispirillum*: A genus related to but distinct from the existing genus Salinispirillum of beside.

Secussalinispora

L. masc. preposition *secus*, beside; L. fem. n. *Salinispora*, An existing genus; *Secussalinispora*: A genus related to but distinct from the existing genus Salinispora of beside.

Secussalinithrix

L. masc. preposition *secus*, beside; L. fem. n. *Salinithrix*, An existing genus; *Secussalinithrix*: A genus related to but distinct from the existing genus Salinithrix of beside.

Secussalinivenus

L. masc. preposition *secus*, beside; L. fem. n. *Salinivenus*, An existing genus; *Secussalinivenus*: A genus related to but distinct from the existing genus Salinivenus of beside.

Secussalinivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Salinivibrio*, An existing genus; *Secussalinivibrio*: A genus related to but distinct from the existing genus Salinivibrio of beside.

Secussalinivirga

L. masc. preposition *secus*, beside; L. fem. n. *Salinivirga*, An existing genus; *Secussalinivirga*: A genus related to but distinct from the existing genus Salinivirga of beside.

Secussalinovum

L. masc. preposition *secus*, beside; L. neut. n. *Salinovum*, An existing genus; *Secussalinovum*: A genus related to but distinct from the existing genus Salinovum of beside.

Secussaliphagus

L. masc. preposition *secus*, beside; L. masc. n. *Saliphagus*, An existing genus; *Secussaliphagus*: A genus related to but distinct from the existing genus Saliphagus of beside.

Secussalipiger

L. masc. preposition *secus*, beside; L. masc. n. *Salipiger*, An existing genus; *Secussalipiger*: A genus related to but distinct from the existing genus Salipiger of beside.

Secussalisaeta

L. masc. preposition *secus*, beside; L. fem. n. *Salisaeta*, An existing genus; *Secussalisaeta*: A genus related to but distinct from the existing genus Salisaeta of beside.

Secussalisediminibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Salisediminibacterium*, An existing genus; *Secussalisediminibacterium*: A genus related to but distinct from the existing genus Salisediminibacterium of beside.

Secussaliterribacillus

L. masc. preposition *secus*, beside; L. masc. n. *Saliterribacillus*, An existing genus; *Secussaliterribacillus*: A genus related to but distinct from the existing genus Saliterribacillus of beside.

Secussalmonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Salmonella*, An existing genus; *Secussalmonella*: A genus related to but distinct from the existing genus Salmonella of beside.

Secussalsuginibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Salsuginibacillus*, An existing genus; *Secussalsuginibacillus*: A genus related to but distinct from the existing genus Salsuginibacillus of beside.

Secussalsuginimonas

L. masc. preposition *secus*, beside; L. fem. n. *Salsuginimonas*, An existing genus; *Secussalsuginimonas*: A genus related to but distinct from the existing genus Salsuginimonas of beside.

Secussamsonia

L. masc. preposition *secus*, beside; L. fem. n. *Samsonia*, An existing genus; *Secussamsonia*: A genus related to but distinct from the existing genus Samsonia of beside.

Secussandaracinobacter

L. masc. preposition *secus*, beside; L. masc. n. *Sandaracinobacter*, An existing genus; *Secussandaracinobacter*: A genus related to but distinct from the existing genus Sandaracinobacter of beside.

Secussandaracinomonas

L. masc. preposition *secus*, beside; L. fem. n. *Sandaracinomonas*, An existing genus; *Secussandaracinomonas*: A genus related to but distinct from the existing genus Sandaracinomonas of beside.

Secussandaracinus

L. masc. preposition *secus*, beside; L. masc. n. *Sandaracinus*, An existing genus; *Secussandaracinus*: A genus related to but distinct from the existing genus Sandaracinus of beside.

Secussandarakinorhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Sandarakinorhabdus*, An existing genus; *Secussandarakinorhabdus*: A genus related to but distinct from the existing genus Sandarakinorhabdus of beside.

Secussandarakinotalea

L. masc. preposition *secus*, beside; L. fem. n. *Sandarakinotalea*, An existing genus; *Secussandarakinotalea*: A genus related to but distinct from the existing genus Sandarakinotalea of beside.

Secussansalvadorimonas

L. masc. preposition *secus*, beside; L. fem. n. *Sansalvadorimonas*, An existing genus; *Secussansalvadorimonas*: A genus related to but distinct from the existing genus Sansalvadorimonas of beside.

Secussaonia

L. masc. preposition *secus*, beside; L. fem. n. *Saonia*, An existing genus; *Secussaonia*: A genus related to but distinct from the existing genus Saonia of beside.

Secussaprospira

L. masc. preposition *secus*, beside; L. fem. n. *Saprospira*, An existing genus; *Secussaprospira*: A genus related to but distinct from the existing genus Saprospira of beside.

Secussarcina

L. masc. preposition *secus*, beside; L. fem. n. *Sarcina*, An existing genus; *Secussarcina*: A genus related to but distinct from the existing genus Sarcina of beside.

Secussarcobium

L. masc. preposition *secus*, beside; L. neut. n. *Sarcobium*, An existing genus; *Secussarcobium*: A genus related to but distinct from the existing genus Sarcobium of beside.

Secussavagea

L. masc. preposition *secus*, beside; L. fem. n. *Savagea*, An existing genus; *Secussavagea*: A genus related to but distinct from the existing genus Savagea of beside.

Secussaxeibacter

L. masc. preposition *secus*, beside; L. masc. n. *Saxeibacter*, An existing genus; *Secussaxeibacter*: A genus related to but distinct from the existing genus Saxeibacter of beside.

Secusscandinavium

L. masc. preposition *secus*, beside; L. neut. n. *Scandinavium*, An existing genus; *Secusscandinavium*: A genus related to but distinct from the existing genus Scandinavium of beside.

Secusscardovia

L. masc. preposition *secus*, beside; L. fem. n. *Scardovia*, An existing genus; *Secusscardovia*: A genus related to but distinct from the existing genus Scardovia of beside.

Secusschaalia

L. masc. preposition *secus*, beside; L. fem. n. *Schaalia*, An existing genus; *Secusschaalia*: A genus related to but distinct from the existing genus Schaalia of beside.

Secusschaedlerella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Schaedlerella*, An existing genus; *Secusschaedlerella*: A genus related to but distinct from the existing genus Schaedlerella of beside.

Secusschineria

L. masc. preposition *secus*, beside; L. fem. n. *Schineria*, An existing genus; *Secusschineria*: A genus related to but distinct from the existing genus Schineria of beside.

Secusschlegelella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Schlegelella*, An existing genus; *Secusschlegelella*: A genus related to but distinct from the existing genus Schlegelella of beside.

Secusschleiferella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Schleiferella*, An existing genus; *Secusschleiferella*: A genus related to but distinct from the existing genus Schleiferella of beside.

Secusschleiferia

L. masc. preposition *secus*, beside; L. fem. n. *Schleiferia*, An existing genus; *Secusschleiferia*: A genus related to but distinct from the existing genus Schleiferia of beside.

Secusschleiferilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Schleiferilactobacillus*, An existing genus; *Secusschleiferilactobacillus*: A genus related to but distinct from the existing genus Schleiferilactobacillus of beside.

Secusschlesneria

L. masc. preposition *secus*, beside; L. fem. n. *Schlesneria*, An existing genus; *Secusschlesneria*: A genus related to but distinct from the existing genus Schlesneria of beside.

Secusschnuerera

L. masc. preposition *secus*, beside; L. fem. n. *Schnuerera*, An existing genus; *Secusschnuerera*: A genus related to but distinct from the existing genus Schnuerera of beside.

Secusschumannella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Schumannella*, An existing genus; *Secusschumannella*: A genus related to but distinct from the existing genus Schumannella of beside.

Secusschwartzia

L. masc. preposition *secus*, beside; L. fem. n. *Schwartzia*, An existing genus; *Secusschwartzia*: A genus related to but distinct from the existing genus Schwartzia of beside.

Secussciscionella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Sciscionella*, An existing genus; *Secussciscionella*: A genus related to but distinct from the existing genus Sciscionella of beside.

Secusscopulibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Scopulibacillus*, An existing genus; *Secusscopulibacillus*: A genus related to but distinct from the existing genus Scopulibacillus of beside.

Secusscytolyngbya

L. masc. preposition *secus*, beside; L. fem. n. *Scytolyngbya*, An existing genus; *Secusscytolyngbya*: A genus related to but distinct from the existing genus Scytolyngbya of beside.

Secussebaldella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Sebaldella*, An existing genus; *Secussebaldella*: A genus related to but distinct from the existing genus Sebaldella of beside.

Secussecundilactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Secundilactobacillus*, An existing genus; *Secussecundilactobacillus*: A genus related to but distinct from the existing genus Secundilactobacillus of beside.

Secussedimentibacter

L. masc. preposition *secus*, beside; L. masc. n. *Sedimentibacter*, An existing genus; *Secussedimentibacter*: A genus related to but distinct from the existing genus Sedimentibacter of beside.

Secussedimenticola

L. masc. preposition *secus*, beside; L. masc. n. *Sedimenticola*, An existing genus; *Secussedimenticola*: A genus related to but distinct from the existing genus Sedimenticola of beside.

Secussedimentisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Sedimentisphaera*, An existing genus; *Secussedimentisphaera*: A genus related to but distinct from the existing genus Sedimentisphaera of beside.

Secussedimentitalea

L. masc. preposition *secus*, beside; L. fem. n. *Sedimentitalea*, An existing genus; *Secussedimentitalea*: A genus related to but distinct from the existing genus Sedimentitalea of beside.

Secussediminibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Sediminibacillus*, An existing genus; *Secussediminibacillus*: A genus related to but distinct from the existing genus Sediminibacillus of beside.

Secussediminibacter

L. masc. preposition *secus*, beside; L. masc. n. *Sediminibacter*, An existing genus; *Secussediminibacter*: A genus related to but distinct from the existing genus Sediminibacter of beside.

Secussediminibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Sediminibacterium*, An existing genus; *Secussediminibacterium*: A genus related to but distinct from the existing genus Sediminibacterium of beside.

Secussediminicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Sediminicoccus*, An existing genus; *Secussediminicoccus*: A genus related to but distinct from the existing genus Sediminicoccus of beside.

Secussediminicola

L. masc. preposition *secus*, beside; L. masc. n. *Sediminicola*, An existing genus; *Secussediminicola*: A genus related to but distinct from the existing genus Sediminicola of beside.

Secussediminihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Sediminihabitans*, An existing genus; *Secussediminihabitans*: A genus related to but distinct from the existing genus Sediminihabitans of beside.

Secussediminimonas

L. masc. preposition *secus*, beside; L. fem. n. *Sediminimonas*, An existing genus; *Secussediminimonas*: A genus related to but distinct from the existing genus Sediminimonas of beside.

Secussediminispirochaeta

L. masc. preposition *secus*, beside; L. fem. n. *Sediminispirochaeta*, An existing genus; *Secussediminispirochaeta*: A genus related to but distinct from the existing genus Sediminispirochaeta of beside.

Secussediminitomix

L. masc. preposition *secus*, beside; L. fem. n. *Sediminitomix*, An existing genus; *Secussediminitomix*: A genus related to but distinct from the existing genus Sediminitomix of beside.

Secussediminivirga

L. masc. preposition *secus*, beside; L. fem. n. *Sediminivirga*, An existing genus; *Secussediminivirga*: A genus related to but distinct from the existing genus Sediminivirga of beside.

Secussegeticoccus

L. masc. preposition *secus*, beside; L. masc. n. *Segeticoccus*, An existing genus; *Secussegeticoccus*: A genus related to but distinct from the existing genus Segeticoccus of beside.

Secussegniliparus

L. masc. preposition *secus*, beside; L. masc. n. *Segniliparus*, An existing genus; *Secussegniliparus*: A genus related to but distinct from the existing genus Segniliparus of beside.

Secussegnochrobactrum

L. masc. preposition *secus*, beside; L. neut. n. *Segnochrobactrum*, An existing genus; *Secussegnochrobactrum*: A genus related to but distinct from the existing genus Segnochrobactrum of beside.

Secusseinonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Seinonella*, An existing genus; *Secusseinonella*: A genus related to but distinct from the existing genus Seinonella of beside.

Secussejongia

L. masc. preposition *secus*, beside; L. fem. n. *Sejongia*, An existing genus; *Secussejongia*: A genus related to but distinct from the existing genus Sejongia of beside.

Secusselenihalanaerobacter

L. masc. preposition *secus*, beside; L. masc. n. *Selenihalanaerobacter*, An existing genus; *Secusselenihalanaerobacter*: A genus related to but distinct from the existing genus Selenihalanaerobacter of beside.

Secusseleniivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Seleniivibrio*, An existing genus; *Secusseleniivibrio*: A genus related to but distinct from the existing genus Seleniivibrio of beside.

Secusselenomonas

L. masc. preposition *secus*, beside; L. fem. n. *Selenomonas*, An existing genus; *Secusselenomonas*: A genus related to but distinct from the existing genus Selenomonas of beside.

Secusseliberia

L. masc. preposition *secus*, beside; L. fem. n. *Seliberia*, An existing genus; *Secusseliberia*: A genus related to but distinct from the existing genus Seliberia of beside.

Secussellimonas

L. masc. preposition *secus*, beside; L. fem. n. *Sellimonas*, An existing genus; *Secussellimonas*: A genus related to but distinct from the existing genus Sellimonas of beside.

Secussenegalimassilia

L. masc. preposition *secus*, beside; L. fem. n. *Senegalimassilia*, An existing genus; *Secussenegalimassilia*: A genus related to but distinct from the existing genus Senegalimassilia of beside.

Secusseohaeicola

L. masc. preposition *secus*, beside; L. masc. n. *Seohaeicola*, An existing genus; *Secusseohaeicola*: A genus related to but distinct from the existing genus Seohaeicola of beside.

Secusseonamhaeicola

L. masc. preposition *secus*, beside; L. masc. n. *Seonamhaeicola*, An existing genus; *Secusseonamhaeicola*: A genus related to but distinct from the existing genus Seonamhaeicola of beside.

Secusseongchinamella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Seongchinamella*, An existing genus; *Secusseongchinamella*: A genus related to but distinct from the existing genus Seongchinamella of beside.

Secusserinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Serinibacter*, An existing genus; *Secusserinibacter*: A genus related to but distinct from the existing genus Serinibacter of beside.

Secusserinicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Serinicoccus*, An existing genus; *Secusserinicoccus*: A genus related to but distinct from the existing genus Serinicoccus of beside.

Secusserpentinicella

L. masc. preposition *secus*, beside; L. fem. n. *Serpentinicella*, An existing genus; *Secusserpentinicella*: A genus related to but distinct from the existing genus Serpentinicella of beside.

Secusserpulina

L. masc. preposition *secus*, beside; L. fem. n. *Serpulina*, An existing genus; *Secusserpulina*: A genus related to but distinct from the existing genus Serpulina of beside.

Secusserratia

L. masc. preposition *secus*, beside; L. fem. n. *Serratia*, An existing genus; *Secusserratia*: A genus related to but distinct from the existing genus Serratia of beside.

Secusshackletoniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Shackletoniella*, An existing genus; *Secusshackletoniella*: A genus related to but distinct from the existing genus Shackletoniella of beside.

Secussharpea

L. masc. preposition *secus*, beside; L. fem. n. *Sharpea*, An existing genus; *Secussharpea*: A genus related to but distinct from the existing genus Sharpea of beside.

Secusshewanella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Shewanella*, An existing genus; *Secusshewanella*: A genus related to but distinct from the existing genus Shewanella of beside.

Secusshigella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Shigella*, An existing genus; *Secusshigella*: A genus related to but distinct from the existing genus Shigella of beside.

Secusshimazuella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Shimazuella*, An existing genus; *Secusshimazuella*: A genus related to but distinct from the existing genus Shimazuella of beside.

Secusshimia

L. masc. preposition *secus*, beside; L. fem. n. *Shimia*, An existing genus; *Secusshimia*: A genus related to but distinct from the existing genus Shimia of beside.

Secusshimwellia

L. masc. preposition *secus*, beside; L. fem. n. *Shimwellia*, An existing genus; *Secusshimwellia*: A genus related to but distinct from the existing genus Shimwellia of beside.

Secusshinella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Shinella*, An existing genus; *Secusshinella*: A genus related to but distinct from the existing genus Shinella of beside.

Secusshivajiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Shivajiella*, An existing genus; *Secusshivajiella*: A genus related to but distinct from the existing genus Shivajiella of beside.

Secusshuttleworthia

L. masc. preposition *secus*, beside; L. fem. n. *Shuttleworthia*, An existing genus; *Secusshuttleworthia*: A genus related to but distinct from the existing genus Shuttleworthia of beside.

Secussiccirubricoccus

L. masc. preposition *secus*, beside; L. masc. n. *Siccirubricoccus*, An existing genus; *Secussiccirubricoccus*: A genus related to but distinct from the existing genus Siccirubricoccus of beside.

Secussilanimonas

L. masc. preposition *secus*, beside; L. fem. n. *Silanimonas*, An existing genus; *Secussilanimonas*: A genus related to but distinct from the existing genus Silanimonas of beside.

Secussilicibacter

L. masc. preposition *secus*, beside; L. masc. n. *Silicibacter*, An existing genus; *Secussilicibacter*: A genus related to but distinct from the existing genus Silicibacter of beside.

Secussilicimonas

L. masc. preposition *secus*, beside; L. fem. n. *Silicimonas*, An existing genus; *Secussilicimonas*: A genus related to but distinct from the existing genus Silicimonas of beside.

Secussilvanigrella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Silvanigrella*, An existing genus; *Secussilvanigrella*: A genus related to but distinct from the existing genus Silvanigrella of beside.

Secussilvibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Silvibacterium*, An existing genus; *Secussilvibacterium*: A genus related to but distinct from the existing genus Silvibacterium of beside.

Secussilvimonas

L. masc. preposition *secus*, beside; L. fem. n. *Silvimonas*, An existing genus; *Secussilvimonas*: A genus related to but distinct from the existing genus Silvimonas of beside.

Secussimiduia

L. masc. preposition *secus*, beside; L. fem. n. *Simiduia*, An existing genus; *Secussimiduia*: A genus related to but distinct from the existing genus Simiduia of beside.

Secussimkania

L. masc. preposition *secus*, beside; L. fem. n. *Simkania*, An existing genus; *Secussimkania*: A genus related to but distinct from the existing genus Simkania of beside.

Secussimonsiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Simonsiella*, An existing genus; *Secussimonsiella*: A genus related to but distinct from the existing genus Simonsiella of beside.

Secussimplicispira

L. masc. preposition *secus*, beside; L. fem. n. *Simplicispira*, An existing genus; *Secussimplicispira*: A genus related to but distinct from the existing genus Simplicispira of beside.

Secussimulacricoccus

L. masc. preposition *secus*, beside; L. masc. n. *Simulacricoccus*, An existing genus; *Secussimulacricoccus*: A genus related to but distinct from the existing genus Simulacricoccus of beside.

Secussingularimonas

L. masc. preposition *secus*, beside; L. fem. n. *Singularimonas*, An existing genus; *Secussingularimonas*: A genus related to but distinct from the existing genus Singularimonas of beside.

Secussingulisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Singulisphaera*, An existing genus; *Secussingulisphaera*: A genus related to but distinct from the existing genus Singulisphaera of beside.

Secussinibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Sinibacillus*, An existing genus; *Secussinibacillus*: A genus related to but distinct from the existing genus Sinibacillus of beside.

Secussinimarinibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Sinimarinibacterium*, An existing genus; *Secussinimarinibacterium*: A genus related to but distinct from the existing genus Sinimarinibacterium of beside.

Secussinobaca

L. masc. preposition *secus*, beside; L. fem. n. *Sinobaca*, An existing genus; *Secussinobaca*: A genus related to but distinct from the existing genus Sinobaca of beside.

Secussinobacter

L. masc. preposition *secus*, beside; L. masc. n. *Sinobacter*, An existing genus; *Secussinobacter*: A genus related to but distinct from the existing genus Sinobacter of beside.

Secussinobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Sinobacterium*, An existing genus; *Secussinobacterium*: A genus related to but distinct from the existing genus Sinobacterium of beside.

Secussinococcus

L. masc. preposition *secus*, beside; L. masc. n. *Sinococcus*, An existing genus; *Secussinococcus*: A genus related to but distinct from the existing genus Sinococcus of beside.

Secussinomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Sinomicrobium*, An existing genus; *Secussinomicrobium*: A genus related to but distinct from the existing genus Sinomicrobium of beside.

Secussinorhizobium

L. masc. preposition *secus*, beside; L. neut. n. *Sinorhizobium*, An existing genus; *Secussinorhizobium*: A genus related to but distinct from the existing genus Sinorhizobium of beside.

Secussinosporangium

L. masc. preposition *secus*, beside; L. neut. n. *Sinosporangium*, An existing genus; *Secussinosporangium*: A genus related to but distinct from the existing genus Sinosporangium of beside.

Secussiphonobacter

L. masc. preposition *secus*, beside; L. masc. n. *Siphonobacter*, An existing genus; *Secussiphonobacter*: A genus related to but distinct from the existing genus Siphonobacter of beside.

Secusskermanella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Skermanella*, An existing genus; *Secusskermanella*: A genus related to but distinct from the existing genus Skermanella of beside.

Secusskermania

L. masc. preposition *secus*, beside; L. fem. n. *Skermania*, An existing genus; *Secusskermania*: A genus related to but distinct from the existing genus Skermania of beside.

Secusslackia

L. masc. preposition *secus*, beside; L. fem. n. *Slackia*, An existing genus; *Secusslackia*: A genus related to but distinct from the existing genus Slackia of beside.

Secussmaragdicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Smaragdicoccus*, An existing genus; *Secussmaragdicoccus*: A genus related to but distinct from the existing genus Smaragdicoccus of beside.

Secussmithella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Smithella*, An existing genus; *Secussmithella*: A genus related to but distinct from the existing genus Smithella of beside.

Secussneathia

L. masc. preposition *secus*, beside; L. fem. n. *Sneathia*, An existing genus; *Secussneathia*: A genus related to but distinct from the existing genus Sneathia of beside.

Secussneathiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Sneathiella*, An existing genus; *Secussneathiella*: A genus related to but distinct from the existing genus Sneathiella of beside.

Secussnodgrassella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Snodgrassella*, An existing genus; *Secussnodgrassella*: A genus related to but distinct from the existing genus Snodgrassella of beside.

Secussnuella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Snuella*, An existing genus; *Secussnuella*: A genus related to but distinct from the existing genus Snuella of beside.

Secussodaleptolyngbya

L. masc. preposition *secus*, beside; L. fem. n. *Sodaleptolyngbya*, An existing genus; *Secussodaleptolyngbya*: A genus related to but distinct from the existing genus Sodaleptolyngbya of beside.

Secussodalinema

L. masc. preposition *secus*, beside; L. neut. n. *Sodalinema*, An existing genus; *Secussodalinema*: A genus related to but distinct from the existing genus Sodalinema of beside.

Secussoehngenia

L. masc. preposition *secus*, beside; L. fem. n. *Soehngenia*, An existing genus; *Secussoehngenia*: A genus related to but distinct from the existing genus Soehngenia of beside.

Secussolentia

L. masc. preposition *secus*, beside; L. fem. n. *Solentia*, An existing genus; *Secussolentia*: A genus related to but distinct from the existing genus Solentia of beside.

Secussolibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Solibacillus*, An existing genus; *Secussolibacillus*: A genus related to but distinct from the existing genus Solibacillus of beside.

Secussolimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Solimicrobium*, An existing genus; *Secussolimicrobium*: A genus related to but distinct from the existing genus Solimicrobium of beside.

Secussolirhodobacter

L. masc. preposition *secus*, beside; L. masc. n. *Solirhodobacter*, An existing genus; *Secussolirhodobacter*: A genus related to but distinct from the existing genus Solirhodobacter of beside.

Secussolirubrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Solirubrobacter*, An existing genus; *Secussolirubrobacter*: A genus related to but distinct from the existing genus Solirubrobacter of beside.

Secussolitalea

L. masc. preposition *secus*, beside; L. fem. n. *Solitalea*, An existing genus; *Secussolitalea*: A genus related to but distinct from the existing genus Solitalea of beside.

Secussolobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Solobacterium*, An existing genus; *Secussolobacterium*: A genus related to but distinct from the existing genus Solobacterium of beside.

Secussoonwooa

L. masc. preposition *secus*, beside; L. fem. n. *Soonwooa*, An existing genus; *Secussoonwooa*: A genus related to but distinct from the existing genus Soonwooa of beside.

Secussoortia

L. masc. preposition *secus*, beside; L. fem. n. *Soortia*, An existing genus; *Secussoortia*: A genus related to but distinct from the existing genus Soortia of beside.

Secussorangium

L. masc. preposition *secus*, beside; L. neut. n. *Sorangium*, An existing genus; *Secussorangium*: A genus related to but distinct from the existing genus Sorangium of beside.

Secusspecibacter

L. masc. preposition *secus*, beside; L. masc. n. *Specibacter*, An existing genus; *Secusspecibacter*: A genus related to but distinct from the existing genus Specibacter of beside.

Secusspelaeicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Spelaeicoccus*, An existing genus; *Secusspelaeicoccus*: A genus related to but distinct from the existing genus Spelaeicoccus of beside.

Secusspelaeonaias

L. masc. preposition *secus*, beside; L. fem. n. *Spelaeonaias*, An existing genus; *Secusspelaeonaias*: A genus related to but distinct from the existing genus Spelaeonaias of beside.

Secussphaerimonospora

L. masc. preposition *secus*, beside; L. fem. n. *Sphaerimonospora*, An existing genus; *Secussphaerimonospora*: A genus related to but distinct from the existing genus Sphaerimonospora of beside.

Secussphaerisporangium

L. masc. preposition *secus*, beside; L. neut. n. *Sphaerisporangium*, An existing genus; *Secussphaerisporangium*: A genus related to but distinct from the existing genus Sphaerisporangium of beside.

Secussphaerobacter

L. masc. preposition *secus*, beside; L. masc. n. *Sphaerobacter*, An existing genus; *Secussphaerobacter*: A genus related to but distinct from the existing genus Sphaerobacter of beside.

Secussphaerocavum

L. masc. preposition *secus*, beside; L. neut. n. *Sphaerocavum*, An existing genus; *Secussphaerocavum*: A genus related to but distinct from the existing genus Sphaerocavum of beside.

Secussphaerochaeta

L. masc. preposition *secus*, beside; L. fem. n. *Sphaerochaeta*, An existing genus; *Secussphaerochaeta*: A genus related to but distinct from the existing genus Sphaerochaeta of beside.

Secussphaerotilus

L. masc. preposition *secus*, beside; L. masc. n. *Sphaerotilus*, An existing genus; *Secussphaerotilus*: A genus related to but distinct from the existing genus Sphaerotilus of beside.

Secussphingoaurantiacus

L. masc. preposition *secus*, beside; L. masc. n. *Sphingoaurantiacus*, An existing genus; *Secussphingoaurantiacus*: A genus related to but distinct from the existing genus Sphingoaurantiacus of beside.

Secussphingobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Sphingobacterium*, An existing genus; *Secussphingobacterium*: A genus related to but distinct from the existing genus Sphingobacterium of beside.

Secussphingobium

L. masc. preposition *secus*, beside; L. neut. n. *Sphingobium*, An existing genus; *Secussphingobium*: A genus related to but distinct from the existing genus Sphingobium of beside.

Secussphingomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Sphingomicrobium*, An existing genus; *Secussphingomicrobium*: A genus related to but distinct from the existing genus Sphingomicrobium of beside.

Secussphingomonas

L. masc. preposition *secus*, beside; L. fem. n. *Sphingomonas*, An existing genus; *Secussphingomonas*: A genus related to but distinct from the existing genus Sphingomonas of beside.

Secussphingopyxis

L. masc. preposition *secus*, beside; L. fem. n. *Sphingopyxis*, An existing genus; *Secussphingopyxis*: A genus related to but distinct from the existing genus Sphingopyxis of beside.

Secussphingorhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Sphingorhabdus*, An existing genus; *Secussphingorhabdus*: A genus related to but distinct from the existing genus Sphingorhabdus of beside.

Secussphingosinicella

L. masc. preposition *secus*, beside; L. fem. n. *Sphingosinicella*, An existing genus; *Secussphingosinicella*: A genus related to but distinct from the existing genus Sphingosinicella of beside.

Secussphingosinithalassobacter

L. masc. preposition *secus*, beside; L. masc. n. *Sphingosinithalassobacter*, An existing genus; *Secussphingosinithalassobacter*: A genus related to but distinct from the existing genus Sphingosinithalassobacter of beside.

Secusspinactinospora

L. masc. preposition *secus*, beside; L. fem. n. *Spinactinospora*, An existing genus; *Secusspinactinospora*: A genus related to but distinct from the existing genus Spinactinospora of beside.

Secusspirilliplanes

L. masc. preposition *secus*, beside; L. masc. n. *Spirilliplanes*, An existing genus; *Secusspirilliplanes*: A genus related to but distinct from the existing genus Spirilliplanes of beside.

Secusspirillospora

L. masc. preposition *secus*, beside; L. fem. n. *Spirillospora*, An existing genus; *Secusspirillospora*: A genus related to but distinct from the existing genus Spirillospora of beside.

Secusspirochaeta

L. masc. preposition *secus*, beside; L. fem. n. *Spirochaeta*, An existing genus; *Secusspirochaeta*: A genus related to but distinct from the existing genus Spirochaeta of beside.

Secusspiroplasma

L. masc. preposition *secus*, beside; L. neut. n. *Spiroplasma*, An existing genus; *Secusspiroplasma*: A genus related to but distinct from the existing genus Spiroplasma of beside.

Secusspirosoma

L. masc. preposition *secus*, beside; L. neut. n. *Spirosoma*, An existing genus; *Secusspirosoma*: A genus related to but distinct from the existing genus Spirosoma of beside.

Secusspodiobacter

L. masc. preposition *secus*, beside; L. masc. n. *Spodiobacter*, An existing genus; *Secusspodiobacter*: A genus related to but distinct from the existing genus Spodiobacter of beside.

Secusspongiactinospora

L. masc. preposition *secus*, beside; L. fem. n. *Spongiactinospora*, An existing genus; *Secusspongiactinospora*: A genus related to but distinct from the existing genus Spongiactinospora of beside.

Secusspongiibacter

L. masc. preposition *secus*, beside; L. masc. n. *Spongiibacter*, An existing genus; *Secusspongiibacter*: A genus related to but distinct from the existing genus Spongiibacter of beside.

Secusspongiibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Spongiibacterium*, An existing genus; *Secusspongiibacterium*: A genus related to but distinct from the existing genus Spongiibacterium of beside.

Secusspongiiferula

L. masc. preposition *secus*, beside; L. fem. n. *Spongiiferula*, An existing genus; *Secusspongiiferula*: A genus related to but distinct from the existing genus Spongiiferula of beside.

Secusspongiimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Spongiimicrobium*, An existing genus; *Secusspongiimicrobium*: A genus related to but distinct from the existing genus Spongiimicrobium of beside.

Secusspongiimonas

L. masc. preposition *secus*, beside; L. fem. n. *Spongiimonas*, An existing genus; *Secusspongiimonas*: A genus related to but distinct from the existing genus Spongiimonas of beside.

Secusspongiispira

L. masc. preposition *secus*, beside; L. fem. n. *Spongiispira*, An existing genus; *Secusspongiispira*: A genus related to but distinct from the existing genus Spongiispira of beside.

Secusspongiivirga

L. masc. preposition *secus*, beside; L. fem. n. *Spongiivirga*, An existing genus; *Secusspongiivirga*: A genus related to but distinct from the existing genus Spongiivirga of beside.

Secusspongitalea

L. masc. preposition *secus*, beside; L. fem. n. *Spongitalea*, An existing genus; *Secusspongitalea*: A genus related to but distinct from the existing genus Spongitalea of beside.

Secussporacetigenium

L. masc. preposition *secus*, beside; L. neut. n. *Sporacetigenium*, An existing genus; *Secussporacetigenium*: A genus related to but distinct from the existing genus Sporacetigenium of beside.

Secussporanaerobacter

L. masc. preposition *secus*, beside; L. masc. n. *Sporanaerobacter*, An existing genus; *Secussporanaerobacter*: A genus related to but distinct from the existing genus Sporanaerobacter of beside.

Secussporichthya

L. masc. preposition *secus*, beside; L. fem. n. *Sporichthya*, An existing genus; *Secussporichthya*: A genus related to but distinct from the existing genus Sporichthya of beside.

Secussporobacter

L. masc. preposition *secus*, beside; L. masc. n. *Sporobacter*, An existing genus; *Secussporobacter*: A genus related to but distinct from the existing genus Sporobacter of beside.

Secussporobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Sporobacterium*, An existing genus; *Secussporobacterium*: A genus related to but distinct from the existing genus Sporobacterium of beside.

Secussporocytophaga

L. masc. preposition *secus*, beside; L. fem. n. *Sporocytophaga*, An existing genus; *Secussporocytophaga*: A genus related to but distinct from the existing genus Sporocytophaga of beside.

Secussporohalobacter

L. masc. preposition *secus*, beside; L. masc. n. *Sporohalobacter*, An existing genus; *Secussporohalobacter*: A genus related to but distinct from the existing genus Sporohalobacter of beside.

Secussporolactobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Sporolactobacillus*, An existing genus; *Secussporolactobacillus*: A genus related to but distinct from the existing genus Sporolactobacillus of beside.

Secussporolituus

L. masc. preposition *secus*, beside; L. masc. n. *Sporolituus*, An existing genus; *Secussporolituus*: A genus related to but distinct from the existing genus Sporolituus of beside.

Secussporosalibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Sporosalibacterium*, An existing genus; *Secussporosalibacterium*: A genus related to but distinct from the existing genus Sporosalibacterium of beside.

Secussporosarcina

L. masc. preposition *secus*, beside; L. fem. n. *Sporosarcina*, An existing genus; *Secussporosarcina*: A genus related to but distinct from the existing genus Sporosarcina of beside.

Secussporotalea

L. masc. preposition *secus*, beside; L. fem. n. *Sporotalea*, An existing genus; *Secussporotalea*: A genus related to but distinct from the existing genus Sporotalea of beside.

Secussporotomaculum

L. masc. preposition *secus*, beside; L. neut. n. *Sporotomaculum*, An existing genus; *Secussporotomaculum*: A genus related to but distinct from the existing genus Sporotomaculum of beside.

Secusstackebrandtia

L. masc. preposition *secus*, beside; L. fem. n. *Stackebrandtia*, An existing genus; *Secusstackebrandtia*: A genus related to but distinct from the existing genus Stackebrandtia of beside.

Secusstagnimonas

L. masc. preposition *secus*, beside; L. fem. n. *Stagnimonas*, An existing genus; *Secusstagnimonas*: A genus related to but distinct from the existing genus Stagnimonas of beside.

Secusstakelama

L. masc. preposition *secus*, beside; L. fem. n. *Stakelama*, An existing genus; *Secusstakelama*: A genus related to but distinct from the existing genus Stakelama of beside.

Secusstaleya

L. masc. preposition *secus*, beside; L. fem. n. *Staleya*, An existing genus; *Secusstaleya*: A genus related to but distinct from the existing genus Staleya of beside.

Secusstanierella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Stanierella*, An existing genus; *Secusstanierella*: A genus related to but distinct from the existing genus Stanierella of beside.

Secusstaphylococcus

L. masc. preposition *secus*, beside; L. masc. n. *Staphylococcus*, An existing genus; *Secusstaphylococcus*: A genus related to but distinct from the existing genus Staphylococcus of beside.

Secusstaphylospora

L. masc. preposition *secus*, beside; L. fem. n. *Staphylospora*, An existing genus; *Secusstaphylospora*: A genus related to but distinct from the existing genus Staphylospora of beside.

Secusstaphylothermus

L. masc. preposition *secus*, beside; L. masc. n. *Staphylothermus*, An existing genus; *Secusstaphylothermus*: A genus related to but distinct from the existing genus Staphylothermus of beside.

Secusstappia

L. masc. preposition *secus*, beside; L. fem. n. *Stappia*, An existing genus; *Secusstappia*: A genus related to but distinct from the existing genus Stappia of beside.

Secusstarkeya

L. masc. preposition *secus*, beside; L. fem. n. *Starkeya*, An existing genus; *Secusstarkeya*: A genus related to but distinct from the existing genus Starkeya of beside.

Secusstarria

L. masc. preposition *secus*, beside; L. fem. n. *Starria*, An existing genus; *Secusstarria*: A genus related to but distinct from the existing genus Starria of beside.

Secusstella

L. masc. preposition *secus*, beside; L. fem. n. *Stella*, An existing genus; *Secusstella*: A genus related to but distinct from the existing genus Stella of beside.

Secusstenothermobacter

L. masc. preposition *secus*, beside; L. masc. n. *Stenothermobacter*, An existing genus; *Secusstenothermobacter*: A genus related to but distinct from the existing genus Stenothermobacter of beside.

Secusstenotrophobacter

L. masc. preposition *secus*, beside; L. masc. n. *Stenotrophobacter*, An existing genus; *Secusstenotrophobacter*: A genus related to but distinct from the existing genus Stenotrophobacter of beside.

Secusstenotrophobium

L. masc. preposition *secus*, beside; L. neut. n. *Stenotrophobium*, An existing genus; *Secusstenotrophobium*: A genus related to but distinct from the existing genus Stenotrophobium of beside.

Secusstenotrophomonas

L. masc. preposition *secus*, beside; L. fem. n. *Stenotrophomonas*, An existing genus; *Secusstenotrophomonas*: A genus related to but distinct from the existing genus Stenotrophomonas of beside.

Secusstenoxybacter

L. masc. preposition *secus*, beside; L. masc. n. *Stenoxybacter*, An existing genus; *Secusstenoxybacter*: A genus related to but distinct from the existing genus Stenoxybacter of beside.

Secussteroidobacter

L. masc. preposition *secus*, beside; L. masc. n. *Steroidobacter*, An existing genus; *Secussteroidobacter*: A genus related to but distinct from the existing genus Steroidobacter of beside.

Secussterolibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Sterolibacterium*, An existing genus; *Secussterolibacterium*: A genus related to but distinct from the existing genus Sterolibacterium of beside.

Secusstetteria

L. masc. preposition *secus*, beside; L. fem. n. *Stetteria*, An existing genus; *Secusstetteria*: A genus related to but distinct from the existing genus Stetteria of beside.

Secusstigmatella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Stigmatella*, An existing genus; *Secusstigmatella*: A genus related to but distinct from the existing genus Stigmatella of beside.

Secusstigonema

L. masc. preposition *secus*, beside; L. neut. n. *Stigonema*, An existing genus; *Secusstigonema*: A genus related to but distinct from the existing genus Stigonema of beside.

Secusstomatobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Stomatobaculum*, An existing genus; *Secusstomatobaculum*: A genus related to but distinct from the existing genus Stomatobaculum of beside.

Secusstomatococcus

L. masc. preposition *secus*, beside; L. masc. n. *Stomatococcus*, An existing genus; *Secusstomatococcus*: A genus related to but distinct from the existing genus Stomatococcus of beside.

Secusstreptacidiphilus

L. masc. preposition *secus*, beside; L. masc. n. *Streptacidiphilus*, An existing genus; *Secusstreptacidiphilus*: A genus related to but distinct from the existing genus Streptacidiphilus of beside.

Secusstreptobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Streptobacillus*, An existing genus; *Secusstreptobacillus*: A genus related to but distinct from the existing genus Streptobacillus of beside.

Secusstreptococcus

L. masc. preposition *secus*, beside; L. masc. n. *Streptococcus*, An existing genus; *Secusstreptococcus*: A genus related to but distinct from the existing genus Streptococcus of beside.

Secusstreptohalobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Streptohalobacillus*, An existing genus; *Secusstreptohalobacillus*: A genus related to but distinct from the existing genus Streptohalobacillus of beside.

Secusstreptomonospora

L. masc. preposition *secus*, beside; L. fem. n. *Streptomonospora*, An existing genus; *Secusstreptomonospora*: A genus related to but distinct from the existing genus Streptomonospora of beside.

Secusstreptomyces

L. masc. preposition *secus*, beside; L. masc. n. *Streptomyces*, An existing genus; *Secusstreptomyces*: A genus related to but distinct from the existing genus Streptomyces of beside.

Secusstreptosporangium

L. masc. preposition *secus*, beside; L. neut. n. *Streptosporangium*, An existing genus; *Secusstreptosporangium*: A genus related to but distinct from the existing genus Streptosporangium of beside.

Secusstreptoverticillium

L. masc. preposition *secus*, beside; L. neut. n. *Streptoverticillium*, An existing genus; *Secusstreptoverticillium*: A genus related to but distinct from the existing genus Streptoverticillium of beside.

Secusstygiolobus

L. masc. preposition *secus*, beside; L. masc. n. *Stygiolobus*, An existing genus; *Secusstygiolobus*: A genus related to but distinct from the existing genus Stygiolobus of beside.

Secussubdoligranulum

L. masc. preposition *secus*, beside; L. neut. n. *Subdoligranulum*, An existing genus; *Secussubdoligranulum*: A genus related to but distinct from the existing genus Subdoligranulum of beside.

Secussubsaxibacter

L. masc. preposition *secus*, beside; L. masc. n. *Subsaxibacter*, An existing genus; *Secussubsaxibacter*: A genus related to but distinct from the existing genus Subsaxibacter of beside.

Secussubsaximicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Subsaximicrobium*, An existing genus; *Secussubsaximicrobium*: A genus related to but distinct from the existing genus Subsaximicrobium of beside.

Secussuccinatimonas

L. masc. preposition *secus*, beside; L. fem. n. *Succinatimonas*, An existing genus; *Secussuccinatimonas*: A genus related to but distinct from the existing genus Succinatimonas of beside.

Secussucciniclasticum

L. masc. preposition *secus*, beside; L. neut. n. *Succiniclasticum*, An existing genus; *Secussucciniclasticum*: A genus related to but distinct from the existing genus Succiniclasticum of beside.

Secussuccinispira

L. masc. preposition *secus*, beside; L. fem. n. *Succinispira*, An existing genus; *Secussuccinispira*: A genus related to but distinct from the existing genus Succinispira of beside.

Secussuccinivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Succinivibrio*, An existing genus; *Secussuccinivibrio*: A genus related to but distinct from the existing genus Succinivibrio of beside.

Secussufflavibacter

L. masc. preposition *secus*, beside; L. masc. n. *Sufflavibacter*, An existing genus; *Secussufflavibacter*: A genus related to but distinct from the existing genus Sufflavibacter of beside.

Secussuicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Suicoccus*, An existing genus; *Secussuicoccus*: A genus related to but distinct from the existing genus Suicoccus of beside.

Secussulfitobacter

L. masc. preposition *secus*, beside; L. masc. n. *Sulfitobacter*, An existing genus; *Secussulfitobacter*: A genus related to but distinct from the existing genus Sulfitobacter of beside.

Secussulfodiicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Sulfodiicoccus*, An existing genus; *Secussulfodiicoccus*: A genus related to but distinct from the existing genus Sulfodiicoccus of beside.

Secussulfolobus

L. masc. preposition *secus*, beside; L. masc. n. *Sulfolobus*, An existing genus; *Secussulfolobus*: A genus related to but distinct from the existing genus Sulfolobus of beside.

Secussulfophobococcus

L. masc. preposition *secus*, beside; L. masc. n. *Sulfophobococcus*, An existing genus; *Secussulfophobococcus*: A genus related to but distinct from the existing genus Sulfophobococcus of beside.

Secussulfuracidifex

L. masc. preposition *secus*, beside; L. masc. n. *Sulfuracidifex*, An existing genus; *Secussulfuracidifex*: A genus related to but distinct from the existing genus Sulfuracidifex of beside.

Secussulfuricella

L. masc. preposition *secus*, beside; L. fem. n. *Sulfuricella*, An existing genus; *Secussulfuricella*: A genus related to but distinct from the existing genus Sulfuricella of beside.

Secussulfuricurvum

L. masc. preposition *secus*, beside; L. neut. n. *Sulfuricurvum*, An existing genus; *Secussulfuricurvum*: A genus related to but distinct from the existing genus Sulfuricurvum of beside.

Secussulfuriferula

L. masc. preposition *secus*, beside; L. fem. n. *Sulfuriferula*, An existing genus; *Secussulfuriferula*: A genus related to but distinct from the existing genus Sulfuriferula of beside.

Secussulfuriflexus

L. masc. preposition *secus*, beside; L. masc. n. *Sulfuriflexus*, An existing genus; *Secussulfuriflexus*: A genus related to but distinct from the existing genus Sulfuriflexus of beside.

Secussulfurihydrogenibium

L. masc. preposition *secus*, beside; L. neut. n. *Sulfurihydrogenibium*, An existing genus; *Secussulfurihydrogenibium*: A genus related to but distinct from the existing genus Sulfurihydrogenibium of beside.

Secussulfurisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Sulfurisphaera*, An existing genus; *Secussulfurisphaera*: A genus related to but distinct from the existing genus Sulfurisphaera of beside.

Secussulfuritortus

L. masc. preposition *secus*, beside; L. masc. n. *Sulfuritortus*, An existing genus; *Secussulfuritortus*: A genus related to but distinct from the existing genus Sulfuritortus of beside.

Secussulfurococcus

L. masc. preposition *secus*, beside; L. masc. n. *Sulfurococcus*, An existing genus; *Secussulfurococcus*: A genus related to but distinct from the existing genus Sulfurococcus of beside.

Secussulfurospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Sulfurospirillum*, An existing genus; *Secussulfurospirillum*: A genus related to but distinct from the existing genus Sulfurospirillum of beside.

Secussulfurovum

L. masc. preposition *secus*, beside; L. neut. n. *Sulfurovum*, An existing genus; *Secussulfurovum*: A genus related to but distinct from the existing genus Sulfurovum of beside.

Secussungkyunkwania

L. masc. preposition *secus*, beside; L. fem. n. *Sungkyunkwania*, An existing genus; *Secussungkyunkwania*: A genus related to but distinct from the existing genus Sungkyunkwania of beside.

Secussunxiuqinia

L. masc. preposition *secus*, beside; L. fem. n. *Sunxiuqinia*, An existing genus; *Secussunxiuqinia*: A genus related to but distinct from the existing genus Sunxiuqinia of beside.

Secussuperficieibacter

L. masc. preposition *secus*, beside; L. masc. n. *Superficieibacter*, An existing genus; *Secussuperficieibacter*: A genus related to but distinct from the existing genus Superficieibacter of beside.

Secussutterella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Sutterella*, An existing genus; *Secussutterella*: A genus related to but distinct from the existing genus Sutterella of beside.

Secussuttonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Suttonella*, An existing genus; *Secussuttonella*: A genus related to but distinct from the existing genus Suttonella of beside.

Secusswaminathania

L. masc. preposition *secus*, beside; L. fem. n. *Swaminathania*, An existing genus; *Secusswaminathania*: A genus related to but distinct from the existing genus Swaminathania of beside.

Secusswingsia

L. masc. preposition *secus*, beside; L. fem. n. *Swingsia*, An existing genus; *Secusswingsia*: A genus related to but distinct from the existing genus Swingsia of beside.

Secusswionibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Swionibacillus*, An existing genus; *Secusswionibacillus*: A genus related to but distinct from the existing genus Swionibacillus of beside.

Secussymbiobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Symbiobacterium*, An existing genus; *Secussymbiobacterium*: A genus related to but distinct from the existing genus Symbiobacterium of beside.

Secussymbiotes

L. masc. preposition *secus*, beside; L. masc. n. *Symbiotes*, An existing genus; *Secussymbiotes*: A genus related to but distinct from the existing genus Symbiotes of beside.

Secussynechocystis

L. masc. preposition *secus*, beside; L. fem. n. *Synechocystis*, An existing genus; *Secussynechocystis*: A genus related to but distinct from the existing genus Synechocystis of beside.

Secussynergistes

L. masc. preposition *secus*, beside; L. masc. n. *Synergistes*, An existing genus; *Secussynergistes*: A genus related to but distinct from the existing genus Synergistes of beside.

Secussyntrophaceticus

L. masc. preposition *secus*, beside; L. masc. n. *Syntrophaceticus*, An existing genus; *Secussyntrophaceticus*: A genus related to but distinct from the existing genus Syntrophaceticus of beside.

Secussyntrophobacter

L. masc. preposition *secus*, beside; L. masc. n. *Syntrophobacter*, An existing genus; *Secussyntrophobacter*: A genus related to but distinct from the existing genus Syntrophobacter of beside.

Secussyntrophobotulus

L. masc. preposition *secus*, beside; L. masc. n. *Syntrophobotulus*, An existing genus; *Secussyntrophobotulus*: A genus related to but distinct from the existing genus Syntrophobotulus of beside.

Secussyntrophococcus

L. masc. preposition *secus*, beside; L. masc. n. *Syntrophococcus*, An existing genus; *Secussyntrophococcus*: A genus related to but distinct from the existing genus Syntrophococcus of beside.

Secussyntrophomonas

L. masc. preposition *secus*, beside; L. fem. n. *Syntrophomonas*, An existing genus; *Secussyntrophomonas*: A genus related to but distinct from the existing genus Syntrophomonas of beside.

Secussyntrophorhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Syntrophorhabdus*, An existing genus; *Secussyntrophorhabdus*: A genus related to but distinct from the existing genus Syntrophorhabdus of beside.

Secussyntrophospora

L. masc. preposition *secus*, beside; L. fem. n. *Syntrophospora*, An existing genus; *Secussyntrophospora*: A genus related to but distinct from the existing genus Syntrophospora of beside.

Secussyntrophothermus

L. masc. preposition *secus*, beside; L. masc. n. *Syntrophothermus*, An existing genus; *Secussyntrophothermus*: A genus related to but distinct from the existing genus Syntrophothermus of beside.

Secussyntrophus

L. masc. preposition *secus*, beside; L. masc. n. *Syntrophus*, An existing genus; *Secussyntrophus*: A genus related to but distinct from the existing genus Syntrophus of beside.

Secustabrizicola

L. masc. preposition *secus*, beside; L. fem. n. *Tabrizicola*, An existing genus; *Secustabrizicola*: A genus related to but distinct from the existing genus Tabrizicola of beside.

Secustaeania

L. masc. preposition *secus*, beside; L. fem. n. *Taeania*, An existing genus; *Secustaeania*: A genus related to but distinct from the existing genus Taeania of beside.

Secustaeseokella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Taeseokella*, An existing genus; *Secustaeseokella*: A genus related to but distinct from the existing genus Taeseokella of beside.

Secustagaea

L. masc. preposition *secus*, beside; L. fem. n. *Tagaea*, An existing genus; *Secustagaea*: A genus related to but distinct from the existing genus Tagaea of beside.

Secustahibacter

L. masc. preposition *secus*, beside; L. masc. n. *Tahibacter*, An existing genus; *Secustahibacter*: A genus related to but distinct from the existing genus Tahibacter of beside.

Secustaibaiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Taibaiella*, An existing genus; *Secustaibaiella*: A genus related to but distinct from the existing genus Taibaiella of beside.

Secustamaricihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Tamaricihabitans*, An existing genus; *Secustamaricihabitans*: A genus related to but distinct from the existing genus Tamaricihabitans of beside.

Secustamilnaduibacter

L. masc. preposition *secus*, beside; L. masc. n. *Tamilnaduibacter*, An existing genus; *Secustamilnaduibacter*: A genus related to but distinct from the existing genus Tamilnaduibacter of beside.

Secustamlana

L. masc. preposition *secus*, beside; L. fem. n. *Tamlana*, An existing genus; *Secustamlana*: A genus related to but distinct from the existing genus Tamlana of beside.

Secustamlicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Tamlicoccus*, An existing genus; *Secustamlicoccus*: A genus related to but distinct from the existing genus Tamlicoccus of beside.

Secustangfeifania

L. masc. preposition *secus*, beside; L. fem. n. *Tangfeifania*, An existing genus; *Secustangfeifania*: A genus related to but distinct from the existing genus Tangfeifania of beside.

Secustannerella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Tannerella*, An existing genus; *Secustannerella*: A genus related to but distinct from the existing genus Tannerella of beside.

Secustanticharoenia

L. masc. preposition *secus*, beside; L. fem. n. *Tanticharoenia*, An existing genus; *Secustanticharoenia*: A genus related to but distinct from the existing genus Tanticharoenia of beside.

Secustaonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Taonella*, An existing genus; *Secustaonella*: A genus related to but distinct from the existing genus Taonella of beside.

Secustapinothrix

L. masc. preposition *secus*, beside; L. fem. n. *Tapinothrix*, An existing genus; *Secustapinothrix*: A genus related to but distinct from the existing genus Tapinothrix of beside.

Secustardiphaga

L. masc. preposition *secus*, beside; L. fem. n. *Tardiphaga*, An existing genus; *Secustardiphaga*: A genus related to but distinct from the existing genus Tardiphaga of beside.

Secustateyamaria

L. masc. preposition *secus*, beside; L. fem. n. *Tateyamaria*, An existing genus; *Secustateyamaria*: A genus related to but distinct from the existing genus Tateyamaria of beside.

Secustatlockia

L. masc. preposition *secus*, beside; L. fem. n. *Tatlockia*, An existing genus; *Secustatlockia*: A genus related to but distinct from the existing genus Tatlockia of beside.

Secustatumella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Tatumella*, An existing genus; *Secustatumella*: A genus related to but distinct from the existing genus Tatumella of beside.

Secustautonia

L. masc. preposition *secus*, beside; L. fem. n. *Tautonia*, An existing genus; *Secustautonia*: A genus related to but distinct from the existing genus Tautonia of beside.

Secustaxeobacter

L. masc. preposition *secus*, beside; L. masc. n. *Taxeobacter*, An existing genus; *Secustaxeobacter*: A genus related to but distinct from the existing genus Taxeobacter of beside.

Secustaylorella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Taylorella*, An existing genus; *Secustaylorella*: A genus related to but distinct from the existing genus Taylorella of beside.

Secustectibacter

L. masc. preposition *secus*, beside; L. masc. n. *Tectibacter*, An existing genus; *Secustectibacter*: A genus related to but distinct from the existing genus Tectibacter of beside.

Secusteichococcus

L. masc. preposition *secus*, beside; L. masc. n. *Teichococcus*, An existing genus; *Secusteichococcus*: A genus related to but distinct from the existing genus Teichococcus of beside.

Secustelluria

L. masc. preposition *secus*, beside; L. fem. n. *Telluria*, An existing genus; *Secustelluria*: A genus related to but distinct from the existing genus Telluria of beside.

Secustellurimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Tellurimicrobium*, An existing genus; *Secustellurimicrobium*: A genus related to but distinct from the existing genus Tellurimicrobium of beside.

Secustellurirhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Tellurirhabdus*, An existing genus; *Secustellurirhabdus*: A genus related to but distinct from the existing genus Tellurirhabdus of beside.

Secustelmatobacter

L. masc. preposition *secus*, beside; L. masc. n. *Telmatobacter*, An existing genus; *Secustelmatobacter*: A genus related to but distinct from the existing genus Telmatobacter of beside.

Secustelmatocola

L. masc. preposition *secus*, beside; L. fem. n. *Telmatocola*, An existing genus; *Secustelmatocola*: A genus related to but distinct from the existing genus Telmatocola of beside.

Secustelmatospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Telmatospirillum*, An existing genus; *Secustelmatospirillum*: A genus related to but distinct from the existing genus Telmatospirillum of beside.

Secustemperatibacter

L. masc. preposition *secus*, beside; L. masc. n. *Temperatibacter*, An existing genus; *Secustemperatibacter*: A genus related to but distinct from the existing genus Temperatibacter of beside.

Secustenacibaculum

L. masc. preposition *secus*, beside; L. neut. n. *Tenacibaculum*, An existing genus; *Secustenacibaculum*: A genus related to but distinct from the existing genus Tenacibaculum of beside.

Secustenggerimyces

L. masc. preposition *secus*, beside; L. masc. n. *Tenggerimyces*, An existing genus; *Secustenggerimyces*: A genus related to but distinct from the existing genus Tenggerimyces of beside.

Secustengunoibacter

L. masc. preposition *secus*, beside; L. masc. n. *Tengunoibacter*, An existing genus; *Secustengunoibacter*: A genus related to but distinct from the existing genus Tengunoibacter of beside.

Secustenuibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Tenuibacillus*, An existing genus; *Secustenuibacillus*: A genus related to but distinct from the existing genus Tenuibacillus of beside.

Secustepidamorphus

L. masc. preposition *secus*, beside; L. masc. n. *Tepidamorphus*, An existing genus; *Secustepidamorphus*: A genus related to but distinct from the existing genus Tepidamorphus of beside.

Secustepidanaerobacter

L. masc. preposition *secus*, beside; L. masc. n. *Tepidanaerobacter*, An existing genus; *Secustepidanaerobacter*: A genus related to but distinct from the existing genus Tepidanaerobacter of beside.

Secustepidicaulis

L. masc. preposition *secus*, beside; L. masc. n. *Tepidicaulis*, An existing genus; *Secustepidicaulis*: A genus related to but distinct from the existing genus Tepidicaulis of beside.

Secustepidicella

L. masc. preposition *secus*, beside; L. fem. n. *Tepidicella*, An existing genus; *Secustepidicella*: A genus related to but distinct from the existing genus Tepidicella of beside.

Secustepidiforma

L. masc. preposition *secus*, beside; L. fem. n. *Tepidiforma*, An existing genus; *Secustepidiforma*: A genus related to but distinct from the existing genus Tepidiforma of beside.

Secustepidimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Tepidimicrobium*, An existing genus; *Secustepidimicrobium*: A genus related to but distinct from the existing genus Tepidimicrobium of beside.

Secustepidiphilus

L. masc. preposition *secus*, beside; L. masc. n. *Tepidiphilus*, An existing genus; *Secustepidiphilus*: A genus related to but distinct from the existing genus Tepidiphilus of beside.

Secustepidisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Tepidisphaera*, An existing genus; *Secustepidisphaera*: A genus related to but distinct from the existing genus Tepidisphaera of beside.

Secusterasakiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Terasakiella*, An existing genus; *Secusterasakiella*: A genus related to but distinct from the existing genus Terasakiella of beside.

Secusterasakiispira

L. masc. preposition *secus*, beside; L. fem. n. *Terasakiispira*, An existing genus; *Secusterasakiispira*: A genus related to but distinct from the existing genus Terasakiispira of beside.

Secusteredinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Teredinibacter*, An existing genus; *Secusteredinibacter*: A genus related to but distinct from the existing genus Teredinibacter of beside.

Secusterrabacter

L. masc. preposition *secus*, beside; L. masc. n. *Terrabacter*, An existing genus; *Secusterrabacter*: A genus related to but distinct from the existing genus Terrabacter of beside.

Secusterracidiphilus

L. masc. preposition *secus*, beside; L. masc. n. *Terracidiphilus*, An existing genus; *Secusterracidiphilus*: A genus related to but distinct from the existing genus Terracidiphilus of beside.

Secusterracoccus

L. masc. preposition *secus*, beside; L. masc. n. *Terracoccus*, An existing genus; *Secusterracoccus*: A genus related to but distinct from the existing genus Terracoccus of beside.

Secusterribacillus

L. masc. preposition *secus*, beside; L. masc. n. *Terribacillus*, An existing genus; *Secusterribacillus*: A genus related to but distinct from the existing genus Terribacillus of beside.

Secusterriglobus

L. masc. preposition *secus*, beside; L. masc. n. *Terriglobus*, An existing genus; *Secusterriglobus*: A genus related to but distinct from the existing genus Terriglobus of beside.

Secusterrilactibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Terrilactibacillus*, An existing genus; *Secusterrilactibacillus*: A genus related to but distinct from the existing genus Terrilactibacillus of beside.

Secusterrimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Terrimicrobium*, An existing genus; *Secusterrimicrobium*: A genus related to but distinct from the existing genus Terrimicrobium of beside.

Secusterrisporobacter

L. masc. preposition *secus*, beside; L. masc. n. *Terrisporobacter*, An existing genus; *Secusterrisporobacter*: A genus related to but distinct from the existing genus Terrisporobacter of beside.

Secustersicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Tersicoccus*, An existing genus; *Secustersicoccus*: A genus related to but distinct from the existing genus Tersicoccus of beside.

Secustessaracoccus

L. masc. preposition *secus*, beside; L. masc. n. *Tessaracoccus*, An existing genus; *Secustessaracoccus*: A genus related to but distinct from the existing genus Tessaracoccus of beside.

Secustestudinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Testudinibacter*, An existing genus; *Secustestudinibacter*: A genus related to but distinct from the existing genus Testudinibacter of beside.

Secustetracoccus

L. masc. preposition *secus*, beside; L. masc. n. *Tetracoccus*, An existing genus; *Secustetracoccus*: A genus related to but distinct from the existing genus Tetracoccus of beside.

Secustetragenococcus

L. masc. preposition *secus*, beside; L. masc. n. *Tetragenococcus*, An existing genus; *Secustetragenococcus*: A genus related to but distinct from the existing genus Tetragenococcus of beside.

Secustetrasphaera

L. masc. preposition *secus*, beside; L. fem. n. *Tetrasphaera*, An existing genus; *Secustetrasphaera*: A genus related to but distinct from the existing genus Tetrasphaera of beside.

Secustetrathiobacter

L. masc. preposition *secus*, beside; L. masc. n. *Tetrathiobacter*, An existing genus; *Secustetrathiobacter*: A genus related to but distinct from the existing genus Tetrathiobacter of beside.

Secustexcoconibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Texcoconibacillus*, An existing genus; *Secustexcoconibacillus*: A genus related to but distinct from the existing genus Texcoconibacillus of beside.

Secusthalassobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Thalassobacillus*, An existing genus; *Secusthalassobacillus*: A genus related to but distinct from the existing genus Thalassobacillus of beside.

Secusthalassobacter

L. masc. preposition *secus*, beside; L. masc. n. *Thalassobacter*, An existing genus; *Secusthalassobacter*: A genus related to but distinct from the existing genus Thalassobacter of beside.

Secusthalassobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Thalassobaculum*, An existing genus; *Secusthalassobaculum*: A genus related to but distinct from the existing genus Thalassobaculum of beside.

Secusthalassobius

L. masc. preposition *secus*, beside; L. masc. n. *Thalassobius*, An existing genus; *Secusthalassobius*: A genus related to but distinct from the existing genus Thalassobius of beside.

Secusthalassocella

L. masc. preposition *secus*, beside; L. fem. n. *Thalassocella*, An existing genus; *Secusthalassocella*: A genus related to but distinct from the existing genus Thalassocella of beside.

Secusthalassococcus

L. masc. preposition *secus*, beside; L. masc. n. *Thalassococcus*, An existing genus; *Secusthalassococcus*: A genus related to but distinct from the existing genus Thalassococcus of beside.

Secusthalassocola

L. masc. preposition *secus*, beside; L. fem. n. *Thalassocola*, An existing genus; *Secusthalassocola*: A genus related to but distinct from the existing genus Thalassocola of beside.

Secusthalassolituus

L. masc. preposition *secus*, beside; L. masc. n. *Thalassolituus*, An existing genus; *Secusthalassolituus*: A genus related to but distinct from the existing genus Thalassolituus of beside.

Secusthalassomonas

L. masc. preposition *secus*, beside; L. fem. n. *Thalassomonas*, An existing genus; *Secusthalassomonas*: A genus related to but distinct from the existing genus Thalassomonas of beside.

Secusthalassorhabdomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Thalassorhabdomicrobium*, An existing genus; *Secusthalassorhabdomicrobium*: A genus related to but distinct from the existing genus Thalassorhabdomicrobium of beside.

Secusthalassorhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Thalassorhabdus*, An existing genus; *Secusthalassorhabdus*: A genus related to but distinct from the existing genus Thalassorhabdus of beside.

Secusthalassospira

L. masc. preposition *secus*, beside; L. fem. n. *Thalassospira*, An existing genus; *Secusthalassospira*: A genus related to but distinct from the existing genus Thalassospira of beside.

Secusthalassotalea

L. masc. preposition *secus*, beside; L. fem. n. *Thalassotalea*, An existing genus; *Secusthalassotalea*: A genus related to but distinct from the existing genus Thalassotalea of beside.

Secusthauera

L. masc. preposition *secus*, beside; L. fem. n. *Thauera*, An existing genus; *Secusthauera*: A genus related to but distinct from the existing genus Thauera of beside.

Secusthaumasiovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Thaumasiovibrio*, An existing genus; *Secusthaumasiovibrio*: A genus related to but distinct from the existing genus Thaumasiovibrio of beside.

Secusthermacetogenium

L. masc. preposition *secus*, beside; L. neut. n. *Thermacetogenium*, An existing genus; *Secusthermacetogenium*: A genus related to but distinct from the existing genus Thermacetogenium of beside.

Secusthermaerobacter

L. masc. preposition *secus*, beside; L. masc. n. *Thermaerobacter*, An existing genus; *Secusthermaerobacter*: A genus related to but distinct from the existing genus Thermaerobacter of beside.

Secusthermalkalibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Thermalkalibacillus*, An existing genus; *Secusthermalkalibacillus*: A genus related to but distinct from the existing genus Thermalkalibacillus of beside.

Secusthermanaeromonas

L. masc. preposition *secus*, beside; L. fem. n. *Thermanaeromonas*, An existing genus; *Secusthermanaeromonas*: A genus related to but distinct from the existing genus Thermanaeromonas of beside.

Secusthermanaerothrix

L. masc. preposition *secus*, beside; L. fem. n. *Thermanaerothrix*, An existing genus; *Secusthermanaerothrix*: A genus related to but distinct from the existing genus Thermanaerothrix of beside.

Secusthermanaerovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Thermanaerovibrio*, An existing genus; *Secusthermanaerovibrio*: A genus related to but distinct from the existing genus Thermanaerovibrio of beside.

Secusthermasporomyces

L. masc. preposition *secus*, beside; L. masc. n. *Thermasporomyces*, An existing genus; *Secusthermasporomyces*: A genus related to but distinct from the existing genus Thermasporomyces of beside.

Secusthermaurantimonas

L. masc. preposition *secus*, beside; L. fem. n. *Thermaurantimonas*, An existing genus; *Secusthermaurantimonas*: A genus related to but distinct from the existing genus Thermaurantimonas of beside.

Secusthermithiobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Thermithiobacillus*, An existing genus; *Secusthermithiobacillus*: A genus related to but distinct from the existing genus Thermithiobacillus of beside.

Secusthermoactinomyces

L. masc. preposition *secus*, beside; L. masc. n. *Thermoactinomyces*, An existing genus; *Secusthermoactinomyces*: A genus related to but distinct from the existing genus Thermoactinomyces of beside.

Secusthermoactinospora

L. masc. preposition *secus*, beside; L. fem. n. *Thermoactinospora*, An existing genus; *Secusthermoactinospora*: A genus related to but distinct from the existing genus Thermoactinospora of beside.

Secusthermoanaerobacter

L. masc. preposition *secus*, beside; L. masc. n. *Thermoanaerobacter*, An existing genus; *Secusthermoanaerobacter*: A genus related to but distinct from the existing genus Thermoanaerobacter of beside.

Secusthermoanaerobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Thermoanaerobacterium*, An existing genus; *Secusthermoanaerobacterium*: A genus related to but distinct from the existing genus Thermoanaerobacterium of beside.

Secusthermoanaerobaculum

L. masc. preposition *secus*, beside; L. neut. n. *Thermoanaerobaculum*, An existing genus; *Secusthermoanaerobaculum*: A genus related to but distinct from the existing genus Thermoanaerobaculum of beside.

Secusthermoanaerobium

L. masc. preposition *secus*, beside; L. neut. n. *Thermoanaerobium*, An existing genus; *Secusthermoanaerobium*: A genus related to but distinct from the existing genus Thermoanaerobium of beside.

Secusthermobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Thermobacillus*, An existing genus; *Secusthermobacillus*: A genus related to but distinct from the existing genus Thermobacillus of beside.

Secusthermobacteroides

L. masc. preposition *secus*, beside; L. masc. n. *Thermobacteroides*, An existing genus; *Secusthermobacteroides*: A genus related to but distinct from the existing genus Thermobacteroides of beside.

Secusthermobifida

L. masc. preposition *secus*, beside; L. fem. n. *Thermobifida*, An existing genus; *Secusthermobifida*: A genus related to but distinct from the existing genus Thermobifida of beside.

Secusthermobispora

L. masc. preposition *secus*, beside; L. fem. n. *Thermobispora*, An existing genus; *Secusthermobispora*: A genus related to but distinct from the existing genus Thermobispora of beside.

Secusthermobrachium

L. masc. preposition *secus*, beside; L. neut. n. *Thermobrachium*, An existing genus; *Secusthermobrachium*: A genus related to but distinct from the existing genus Thermobrachium of beside.

Secusthermocatellispora

L. masc. preposition *secus*, beside; L. fem. n. *Thermocatellispora*, An existing genus; *Secusthermocatellispora*: A genus related to but distinct from the existing genus Thermocatellispora of beside.

Secusthermochromatium

L. masc. preposition *secus*, beside; L. neut. n. *Thermochromatium*, An existing genus; *Secusthermochromatium*: A genus related to but distinct from the existing genus Thermochromatium of beside.

Secusthermocladium

L. masc. preposition *secus*, beside; L. neut. dim. n. *Thermocladium*, An existing genus; *Secusthermocladium*: A genus related to but distinct from the existing genus Thermocladium of beside.

Secusthermoclostridium

L. masc. preposition *secus*, beside; L. neut. dim. n. *Thermoclostridium*, An existing genus; *Secusthermoclostridium*: A genus related to but distinct from the existing genus Thermoclostridium of beside.

Secusthermococcoides

L. masc. preposition *secus*, beside; L. masc. n. *Thermococcoides*, An existing genus; *Secusthermococcoides*: A genus related to but distinct from the existing genus Thermococcoides of beside.

Secusthermococcus

L. masc. preposition *secus*, beside; L. masc. n. *Thermococcus*, An existing genus; *Secusthermococcus*: A genus related to but distinct from the existing genus Thermococcus of beside.

Secusthermocrinis

L. masc. preposition *secus*, beside; L. masc. n. *Thermocrinis*, An existing genus; *Secusthermocrinis*: A genus related to but distinct from the existing genus Thermocrinis of beside.

Secusthermocrispum

L. masc. preposition *secus*, beside; L. neut. n. *Thermocrispum*, An existing genus; *Secusthermocrispum*: A genus related to but distinct from the existing genus Thermocrispum of beside.

Secusthermodesulfatator

L. masc. preposition *secus*, beside; L. masc. n. *Thermodesulfatator*, An existing genus; *Secusthermodesulfatator*: A genus related to but distinct from the existing genus Thermodesulfatator of beside.

Secusthermodesulfitimonas

L. masc. preposition *secus*, beside; L. fem. n. *Thermodesulfitimonas*, An existing genus; *Secusthermodesulfitimonas*: A genus related to but distinct from the existing genus Thermodesulfitimonas of beside.

Secusthermodesulfobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Thermodesulfobacterium*, An existing genus; *Secusthermodesulfobacterium*: A genus related to but distinct from the existing genus Thermodesulfobacterium of beside.

Secusthermodesulfobium

L. masc. preposition *secus*, beside; L. neut. n. *Thermodesulfobium*, An existing genus; *Secusthermodesulfobium*: A genus related to but distinct from the existing genus Thermodesulfobium of beside.

Secusthermodesulforhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Thermodesulforhabdus*, An existing genus; *Secusthermodesulforhabdus*: A genus related to but distinct from the existing genus Thermodesulforhabdus of beside.

Secusthermodesulfovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Thermodesulfovibrio*, An existing genus; *Secusthermodesulfovibrio*: A genus related to but distinct from the existing genus Thermodesulfovibrio of beside.

Secusthermodiscus

L. masc. preposition *secus*, beside; L. masc. n. *Thermodiscus*, An existing genus; *Secusthermodiscus*: A genus related to but distinct from the existing genus Thermodiscus of beside.

Secusthermofilum

L. masc. preposition *secus*, beside; L. neut. n. *Thermofilum*, An existing genus; *Secusthermofilum*: A genus related to but distinct from the existing genus Thermofilum of beside.

Secusthermoflavifilum

L. masc. preposition *secus*, beside; L. neut. n. *Thermoflavifilum*, An existing genus; *Secusthermoflavifilum*: A genus related to but distinct from the existing genus Thermoflavifilum of beside.

Secusthermoflavimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Thermoflavimicrobium*, An existing genus; *Secusthermoflavimicrobium*: A genus related to but distinct from the existing genus Thermoflavimicrobium of beside.

Secusthermoflexibacter

L. masc. preposition *secus*, beside; L. masc. n. *Thermoflexibacter*, An existing genus; *Secusthermoflexibacter*: A genus related to but distinct from the existing genus Thermoflexibacter of beside.

Secusthermoflexus

L. masc. preposition *secus*, beside; L. masc. n. *Thermoflexus*, An existing genus; *Secusthermoflexus*: A genus related to but distinct from the existing genus Thermoflexus of beside.

Secusthermogemmatispora

L. masc. preposition *secus*, beside; L. fem. n. *Thermogemmatispora*, An existing genus; *Secusthermogemmatispora*: A genus related to but distinct from the existing genus Thermogemmatispora of beside.

Secusthermogladius

L. masc. preposition *secus*, beside; L. masc. n. *Thermogladius*, An existing genus; *Secusthermogladius*: A genus related to but distinct from the existing genus Thermogladius of beside.

Secusthermogutta

L. masc. preposition *secus*, beside; L. fem. n. *Thermogutta*, An existing genus; *Secusthermogutta*: A genus related to but distinct from the existing genus Thermogutta of beside.

Secusthermogymnomonas

L. masc. preposition *secus*, beside; L. fem. n. *Thermogymnomonas*, An existing genus; *Secusthermogymnomonas*: A genus related to but distinct from the existing genus Thermogymnomonas of beside.

Secusthermohalobacter

L. masc. preposition *secus*, beside; L. masc. n. *Thermohalobacter*, An existing genus; *Secusthermohalobacter*: A genus related to but distinct from the existing genus Thermohalobacter of beside.

Secusthermohydrogenium

L. masc. preposition *secus*, beside; L. neut. n. *Thermohydrogenium*, An existing genus; *Secusthermohydrogenium*: A genus related to but distinct from the existing genus Thermohydrogenium of beside.

Secusthermoleophilum

L. masc. preposition *secus*, beside; L. neut. n. *Thermoleophilum*, An existing genus; *Secusthermoleophilum*: A genus related to but distinct from the existing genus Thermoleophilum of beside.

Secusthermoleptolyngbya

L. masc. preposition *secus*, beside; L. fem. n. *Thermoleptolyngbya*, An existing genus; *Secusthermoleptolyngbya*: A genus related to but distinct from the existing genus Thermoleptolyngbya of beside.

Secusthermolithobacter

L. masc. preposition *secus*, beside; L. masc. n. *Thermolithobacter*, An existing genus; *Secusthermolithobacter*: A genus related to but distinct from the existing genus Thermolithobacter of beside.

Secusthermolongibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Thermolongibacillus*, An existing genus; *Secusthermolongibacillus*: A genus related to but distinct from the existing genus Thermolongibacillus of beside.

Secusthermomarinilinea

L. masc. preposition *secus*, beside; L. fem. n. *Thermomarinilinea*, An existing genus; *Secusthermomarinilinea*: A genus related to but distinct from the existing genus Thermomarinilinea of beside.

Secusthermomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Thermomicrobium*, An existing genus; *Secusthermomicrobium*: A genus related to but distinct from the existing genus Thermomicrobium of beside.

Secusthermomonas

L. masc. preposition *secus*, beside; L. fem. n. *Thermomonas*, An existing genus; *Secusthermomonas*: A genus related to but distinct from the existing genus Thermomonas of beside.

Secusthermomonospora

L. masc. preposition *secus*, beside; L. fem. n. *Thermomonospora*, An existing genus; *Secusthermomonospora*: A genus related to but distinct from the existing genus Thermomonospora of beside.

Secusthermonema

L. masc. preposition *secus*, beside; L. neut. n. *Thermonema*, An existing genus; *Secusthermonema*: A genus related to but distinct from the existing genus Thermonema of beside.

Secusthermophagus

L. masc. preposition *secus*, beside; L. masc. n. *Thermophagus*, An existing genus; *Secusthermophagus*: A genus related to but distinct from the existing genus Thermophagus of beside.

Secusthermoplasma

L. masc. preposition *secus*, beside; L. neut. n. *Thermoplasma*, An existing genus; *Secusthermoplasma*: A genus related to but distinct from the existing genus Thermoplasma of beside.

Secusthermopolyspora

L. masc. preposition *secus*, beside; L. fem. n. *Thermopolyspora*, An existing genus; *Secusthermopolyspora*: A genus related to but distinct from the existing genus Thermopolyspora of beside.

Secusthermoproteus

L. masc. preposition *secus*, beside; L. masc. n. *Thermoproteus*, An existing genus; *Secusthermoproteus*: A genus related to but distinct from the existing genus Thermoproteus of beside.

Secusthermorudis

L. masc. preposition *secus*, beside; L. fem. n. *Thermorudis*, An existing genus; *Secusthermorudis*: A genus related to but distinct from the existing genus Thermorudis of beside.

Secusthermosediminibacter

L. masc. preposition *secus*, beside; L. masc. n. *Thermosediminibacter*, An existing genus; *Secusthermosediminibacter*: A genus related to but distinct from the existing genus Thermosediminibacter of beside.

Secusthermosinus

L. masc. preposition *secus*, beside; L. masc. n. *Thermosinus*, An existing genus; *Secusthermosinus*: A genus related to but distinct from the existing genus Thermosinus of beside.

Secusthermosipho

L. masc. preposition *secus*, beside; L. masc. n. *Thermosipho*, An existing genus; *Secusthermosipho*: A genus related to but distinct from the existing genus Thermosipho of beside.

Secusthermosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Thermosphaera*, An existing genus; *Secusthermosphaera*: A genus related to but distinct from the existing genus Thermosphaera of beside.

Secusthermosporothrix

L. masc. preposition *secus*, beside; L. fem. n. *Thermosporothrix*, An existing genus; *Secusthermosporothrix*: A genus related to but distinct from the existing genus Thermosporothrix of beside.

Secusthermostaphylospora

L. masc. preposition *secus*, beside; L. fem. n. *Thermostaphylospora*, An existing genus; *Secusthermostaphylospora*: A genus related to but distinct from the existing genus Thermostaphylospora of beside.

Secusthermostilla

L. masc. preposition *secus*, beside; L. fem. n. *Thermostilla*, An existing genus; *Secusthermostilla*: A genus related to but distinct from the existing genus Thermostilla of beside.

Secusthermosulfidibacter

L. masc. preposition *secus*, beside; L. masc. n. *Thermosulfidibacter*, An existing genus; *Secusthermosulfidibacter*: A genus related to but distinct from the existing genus Thermosulfidibacter of beside.

Secusthermosulfurimonas

L. masc. preposition *secus*, beside; L. fem. n. *Thermosulfurimonas*, An existing genus; *Secusthermosulfurimonas*: A genus related to but distinct from the existing genus Thermosulfurimonas of beside.

Secusthermosulfuriphilus

L. masc. preposition *secus*, beside; L. masc. n. *Thermosulfuriphilus*, An existing genus; *Secusthermosulfuriphilus*: A genus related to but distinct from the existing genus Thermosulfuriphilus of beside.

Secusthermosyntropha

L. masc. preposition *secus*, beside; L. fem. n. *Thermosyntropha*, An existing genus; *Secusthermosyntropha*: A genus related to but distinct from the existing genus Thermosyntropha of beside.

Secusthermotalea

L. masc. preposition *secus*, beside; L. fem. n. *Thermotalea*, An existing genus; *Secusthermotalea*: A genus related to but distinct from the existing genus Thermotalea of beside.

Secusthermoterrabacterium

L. masc. preposition *secus*, beside; L. neut. n. *Thermoterrabacterium*, An existing genus; *Secusthermoterrabacterium*: A genus related to but distinct from the existing genus Thermoterrabacterium of beside.

Secusthermotoga

L. masc. preposition *secus*, beside; L. fem. n. *Thermotoga*, An existing genus; *Secusthermotoga*: A genus related to but distinct from the existing genus Thermotoga of beside.

Secusthermotomaculum

L. masc. preposition *secus*, beside; L. neut. n. *Thermotomaculum*, An existing genus; *Secusthermotomaculum*: A genus related to but distinct from the existing genus Thermotomaculum of beside.

Secusthermotunica

L. masc. preposition *secus*, beside; L. fem. n. *Thermotunica*, An existing genus; *Secusthermotunica*: A genus related to but distinct from the existing genus Thermotunica of beside.

Secusthermovenabulum

L. masc. preposition *secus*, beside; L. neut. n. *Thermovenabulum*, An existing genus; *Secusthermovenabulum*: A genus related to but distinct from the existing genus Thermovenabulum of beside.

Secusthermovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Thermovibrio*, An existing genus; *Secusthermovibrio*: A genus related to but distinct from the existing genus Thermovibrio of beside.

Secusthermovirga

L. masc. preposition *secus*, beside; L. fem. n. *Thermovirga*, An existing genus; *Secusthermovirga*: A genus related to but distinct from the existing genus Thermovirga of beside.

Secusthermovorax

L. masc. preposition *secus*, beside; L. masc. n. *Thermovorax*, An existing genus; *Secusthermovorax*: A genus related to but distinct from the existing genus Thermovorax of beside.

Secusthermovum

L. masc. preposition *secus*, beside; L. neut. n. *Thermovum*, An existing genus; *Secusthermovum*: A genus related to but distinct from the existing genus Thermovum of beside.

Secusthermus

L. masc. preposition *secus*, beside; L. masc. n. *Thermus*, An existing genus; *Secusthermus*: A genus related to but distinct from the existing genus Thermus of beside.

Secusthioalbus

L. masc. preposition *secus*, beside; L. masc. n. *Thioalbus*, An existing genus; *Secusthioalbus*: A genus related to but distinct from the existing genus Thioalbus of beside.

Secusthioalkalibacter

L. masc. preposition *secus*, beside; L. masc. n. *Thioalkalibacter*, An existing genus; *Secusthioalkalibacter*: A genus related to but distinct from the existing genus Thioalkalibacter of beside.

Secusthioalkalicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Thioalkalicoccus*, An existing genus; *Secusthioalkalicoccus*: A genus related to but distinct from the existing genus Thioalkalicoccus of beside.

Secusthioalkalimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Thioalkalimicrobium*, An existing genus; *Secusthioalkalimicrobium*: A genus related to but distinct from the existing genus Thioalkalimicrobium of beside.

Secusthioalkalispira

L. masc. preposition *secus*, beside; L. fem. n. *Thioalkalispira*, An existing genus; *Secusthioalkalispira*: A genus related to but distinct from the existing genus Thioalkalispira of beside.

Secusthioalkalivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Thioalkalivibrio*, An existing genus; *Secusthioalkalivibrio*: A genus related to but distinct from the existing genus Thioalkalivibrio of beside.

Secusthiobaca

L. masc. preposition *secus*, beside; L. fem. n. *Thiobaca*, An existing genus; *Secusthiobaca*: A genus related to but distinct from the existing genus Thiobaca of beside.

Secusthiobacillus

L. masc. preposition *secus*, beside; L. masc. n. *Thiobacillus*, An existing genus; *Secusthiobacillus*: A genus related to but distinct from the existing genus Thiobacillus of beside.

Secusthiobacimonas

L. masc. preposition *secus*, beside; L. fem. n. *Thiobacimonas*, An existing genus; *Secusthiobacimonas*: A genus related to but distinct from the existing genus Thiobacimonas of beside.

Secusthiobacterium

L. masc. preposition *secus*, beside; L. neut. n. *Thiobacterium*, An existing genus; *Secusthiobacterium*: A genus related to but distinct from the existing genus Thiobacterium of beside.

Secusthiocapsa

L. masc. preposition *secus*, beside; L. fem. n. *Thiocapsa*, An existing genus; *Secusthiocapsa*: A genus related to but distinct from the existing genus Thiocapsa of beside.

Secusthioclava

L. masc. preposition *secus*, beside; L. fem. n. *Thioclava*, An existing genus; *Secusthioclava*: A genus related to but distinct from the existing genus Thioclava of beside.

Secusthiococcus

L. masc. preposition *secus*, beside; L. masc. n. *Thiococcus*, An existing genus; *Secusthiococcus*: A genus related to but distinct from the existing genus Thiococcus of beside.

Secusthiocystis

L. masc. preposition *secus*, beside; L. fem. n. *Thiocystis*, An existing genus; *Secusthiocystis*: A genus related to but distinct from the existing genus Thiocystis of beside.

Secusthiodictyon

L. masc. preposition *secus*, beside; L. neut. n. *Thiodictyon*, An existing genus; *Secusthiodictyon*: A genus related to but distinct from the existing genus Thiodictyon of beside.

Secusthiofaba

L. masc. preposition *secus*, beside; L. fem. n. *Thiofaba*, An existing genus; *Secusthiofaba*: A genus related to but distinct from the existing genus Thiofaba of beside.

Secusthiofilum

L. masc. preposition *secus*, beside; L. neut. n. *Thiofilum*, An existing genus; *Secusthiofilum*: A genus related to but distinct from the existing genus Thiofilum of beside.

Secusthioflavicoccus

L. masc. preposition *secus*, beside; L. masc. n. *Thioflavicoccus*, An existing genus; *Secusthioflavicoccus*: A genus related to but distinct from the existing genus Thioflavicoccus of beside.

Secusthioflexithrix

L. masc. preposition *secus*, beside; L. fem. n. *Thioflexithrix*, An existing genus; *Secusthioflexithrix*: A genus related to but distinct from the existing genus Thioflexithrix of beside.

Secusthiofractor

L. masc. preposition *secus*, beside; L. masc. n. *Thiofractor*, An existing genus; *Secusthiofractor*: A genus related to but distinct from the existing genus Thiofractor of beside.

Secusthiohalobacter

L. masc. preposition *secus*, beside; L. masc. n. *Thiohalobacter*, An existing genus; *Secusthiohalobacter*: A genus related to but distinct from the existing genus Thiohalobacter of beside.

Secusthiohalocapsa

L. masc. preposition *secus*, beside; L. fem. n. *Thiohalocapsa*, An existing genus; *Secusthiohalocapsa*: A genus related to but distinct from the existing genus Thiohalocapsa of beside.

Secusthiohalomonas

L. masc. preposition *secus*, beside; L. fem. n. *Thiohalomonas*, An existing genus; *Secusthiohalomonas*: A genus related to but distinct from the existing genus Thiohalomonas of beside.

Secusthiohalophilus

L. masc. preposition *secus*, beside; L. masc. n. *Thiohalophilus*, An existing genus; *Secusthiohalophilus*: A genus related to but distinct from the existing genus Thiohalophilus of beside.

Secusthiohalorhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Thiohalorhabdus*, An existing genus; *Secusthiohalorhabdus*: A genus related to but distinct from the existing genus Thiohalorhabdus of beside.

Secusthiohalospira

L. masc. preposition *secus*, beside; L. fem. n. *Thiohalospira*, An existing genus; *Secusthiohalospira*: A genus related to but distinct from the existing genus Thiohalospira of beside.

Secusthiolamprovum

L. masc. preposition *secus*, beside; L. neut. n. *Thiolamprovum*, An existing genus; *Secusthiolamprovum*: A genus related to but distinct from the existing genus Thiolamprovum of beside.

Secusthiolapillus

L. masc. preposition *secus*, beside; L. masc. n. *Thiolapillus*, An existing genus; *Secusthiolapillus*: A genus related to but distinct from the existing genus Thiolapillus of beside.

Secusthiolinea

L. masc. preposition *secus*, beside; L. fem. n. *Thiolinea*, An existing genus; *Secusthiolinea*: A genus related to but distinct from the existing genus Thiolinea of beside.

Secusthiomargarita

L. masc. preposition *secus*, beside; L. fem. n. *Thiomargarita*, An existing genus; *Secusthiomargarita*: A genus related to but distinct from the existing genus Thiomargarita of beside.

Secusthiomicrorhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Thiomicrorhabdus*, An existing genus; *Secusthiomicrorhabdus*: A genus related to but distinct from the existing genus Thiomicrorhabdus of beside.

Secusthiomicrospira

L. masc. preposition *secus*, beside; L. fem. n. *Thiomicrospira*, An existing genus; *Secusthiomicrospira*: A genus related to but distinct from the existing genus Thiomicrospira of beside.

Secusthiomonas

L. masc. preposition *secus*, beside; L. fem. n. *Thiomonas*, An existing genus; *Secusthiomonas*: A genus related to but distinct from the existing genus Thiomonas of beside.

Secusthiopedia

L. masc. preposition *secus*, beside; L. fem. n. *Thiopedia*, An existing genus; *Secusthiopedia*: A genus related to but distinct from the existing genus Thiopedia of beside.

Secusthiophaeococcus

L. masc. preposition *secus*, beside; L. masc. n. *Thiophaeococcus*, An existing genus; *Secusthiophaeococcus*: A genus related to but distinct from the existing genus Thiophaeococcus of beside.

Secusthioploca

L. masc. preposition *secus*, beside; L. fem. n. *Thioploca*, An existing genus; *Secusthioploca*: A genus related to but distinct from the existing genus Thioploca of beside.

Secusthioprofundum

L. masc. preposition *secus*, beside; L. neut. n. *Thioprofundum*, An existing genus; *Secusthioprofundum*: A genus related to but distinct from the existing genus Thioprofundum of beside.

Secusthiopseudomonas

L. masc. preposition *secus*, beside; L. fem. n. *Thiopseudomonas*, An existing genus; *Secusthiopseudomonas*: A genus related to but distinct from the existing genus Thiopseudomonas of beside.

Secusthioreductor

L. masc. preposition *secus*, beside; L. masc. n. *Thioreductor*, An existing genus; *Secusthioreductor*: A genus related to but distinct from the existing genus Thioreductor of beside.

Secusthiorhodococcus

L. masc. preposition *secus*, beside; L. masc. n. *Thiorhodococcus*, An existing genus; *Secusthiorhodococcus*: A genus related to but distinct from the existing genus Thiorhodococcus of beside.

Secusthiorhodospira

L. masc. preposition *secus*, beside; L. fem. n. *Thiorhodospira*, An existing genus; *Secusthiorhodospira*: A genus related to but distinct from the existing genus Thiorhodospira of beside.

Secusthiorhodovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Thiorhodovibrio*, An existing genus; *Secusthiorhodovibrio*: A genus related to but distinct from the existing genus Thiorhodovibrio of beside.

Secusthiosocius

L. masc. preposition *secus*, beside; L. masc. n. *Thiosocius*, An existing genus; *Secusthiosocius*: A genus related to but distinct from the existing genus Thiosocius of beside.

Secusthiosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Thiosphaera*, An existing genus; *Secusthiosphaera*: A genus related to but distinct from the existing genus Thiosphaera of beside.

Secusthiospira

L. masc. preposition *secus*, beside; L. fem. n. *Thiospira*, An existing genus; *Secusthiospira*: A genus related to but distinct from the existing genus Thiospira of beside.

Secusthiospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Thiospirillum*, An existing genus; *Secusthiospirillum*: A genus related to but distinct from the existing genus Thiospirillum of beside.

Secusthiothrix

L. masc. preposition *secus*, beside; L. fem. n. *Thiothrix*, An existing genus; *Secusthiothrix*: A genus related to but distinct from the existing genus Thiothrix of beside.

Secusthiovulum

L. masc. preposition *secus*, beside; L. neut. n. *Thiovulum*, An existing genus; *Secusthiovulum*: A genus related to but distinct from the existing genus Thiovulum of beside.

Secusthorsellia

L. masc. preposition *secus*, beside; L. fem. n. *Thorsellia*, An existing genus; *Secusthorsellia*: A genus related to but distinct from the existing genus Thorsellia of beside.

Secustianweitania

L. masc. preposition *secus*, beside; L. fem. n. *Tianweitania*, An existing genus; *Secustianweitania*: A genus related to but distinct from the existing genus Tianweitania of beside.

Secustibeticola

L. masc. preposition *secus*, beside; L. masc. n. *Tibeticola*, An existing genus; *Secustibeticola*: A genus related to but distinct from the existing genus Tibeticola of beside.

Secustildeniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Tildeniella*, An existing genus; *Secustildeniella*: A genus related to but distinct from the existing genus Tildeniella of beside.

Secustimaviella

L. masc. preposition *secus*, beside; L. fem. n. *Timaviella*, An existing genus; *Secustimaviella*: A genus related to but distinct from the existing genus Timaviella of beside.

Secustimonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Timonella*, An existing genus; *Secustimonella*: A genus related to but distinct from the existing genus Timonella of beside.

Secustindallia

L. masc. preposition *secus*, beside; L. fem. n. *Tindallia*, An existing genus; *Secustindallia*: A genus related to but distinct from the existing genus Tindallia of beside.

Secustissierella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Tissierella*, An existing genus; *Secustissierella*: A genus related to but distinct from the existing genus Tissierella of beside.

Secustistlia

L. masc. preposition *secus*, beside; L. fem. n. *Tistlia*, An existing genus; *Secustistlia*: A genus related to but distinct from the existing genus Tistlia of beside.

Secustistrella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Tistrella*, An existing genus; *Secustistrella*: A genus related to but distinct from the existing genus Tistrella of beside.

Secustitanospirillum

L. masc. preposition *secus*, beside; L. neut. dim. n. *Titanospirillum*, An existing genus; *Secustitanospirillum*: A genus related to but distinct from the existing genus Titanospirillum of beside.

Secustolumonas

L. masc. preposition *secus*, beside; L. fem. n. *Tolumonas*, An existing genus; *Secustolumonas*: A genus related to but distinct from the existing genus Tolumonas of beside.

Secustomitella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Tomitella*, An existing genus; *Secustomitella*: A genus related to but distinct from the existing genus Tomitella of beside.

Secustonsilliphilus

L. masc. preposition *secus*, beside; L. masc. n. *Tonsilliphilus*, An existing genus; *Secustonsilliphilus*: A genus related to but distinct from the existing genus Tonsilliphilus of beside.

Secustoxifilum

L. masc. preposition *secus*, beside; L. neut. n. *Toxifilum*, An existing genus; *Secustoxifilum*: A genus related to but distinct from the existing genus Toxifilum of beside.

Secustoxopsis

L. masc. preposition *secus*, beside; L. fem. n. *Toxopsis*, An existing genus; *Secustoxopsis*: A genus related to but distinct from the existing genus Toxopsis of beside.

Secustoxothrix

L. masc. preposition *secus*, beside; L. fem. n. *Toxothrix*, An existing genus; *Secustoxothrix*: A genus related to but distinct from the existing genus Toxothrix of beside.

Secustrabulsiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Trabulsiella*, An existing genus; *Secustrabulsiella*: A genus related to but distinct from the existing genus Trabulsiella of beside.

Secustranquillimonas

L. masc. preposition *secus*, beside; L. fem. n. *Tranquillimonas*, An existing genus; *Secustranquillimonas*: A genus related to but distinct from the existing genus Tranquillimonas of beside.

Secustraorella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Traorella*, An existing genus; *Secustraorella*: A genus related to but distinct from the existing genus Traorella of beside.

Secustreponema

L. masc. preposition *secus*, beside; L. neut. n. *Treponema*, An existing genus; *Secustreponema*: A genus related to but distinct from the existing genus Treponema of beside.

Secustrichlorobacter

L. masc. preposition *secus*, beside; L. masc. n. *Trichlorobacter*, An existing genus; *Secustrichlorobacter*: A genus related to but distinct from the existing genus Trichlorobacter of beside.

Secustrichococcus

L. masc. preposition *secus*, beside; L. masc. n. *Trichococcus*, An existing genus; *Secustrichococcus*: A genus related to but distinct from the existing genus Trichococcus of beside.

Secustrinickia

L. masc. preposition *secus*, beside; L. fem. n. *Trinickia*, An existing genus; *Secustrinickia*: A genus related to but distinct from the existing genus Trinickia of beside.

Secustritonibacter

L. masc. preposition *secus*, beside; L. masc. n. *Tritonibacter*, An existing genus; *Secustritonibacter*: A genus related to but distinct from the existing genus Tritonibacter of beside.

Secustropheryma

L. masc. preposition *secus*, beside; L. neut. n. *Tropheryma*, An existing genus; *Secustropheryma*: A genus related to but distinct from the existing genus Tropheryma of beside.

Secustropicibacter

L. masc. preposition *secus*, beside; L. masc. n. *Tropicibacter*, An existing genus; *Secustropicibacter*: A genus related to but distinct from the existing genus Tropicibacter of beside.

Secustropicihabitans

L. masc. preposition *secus*, beside; L. masc. n. *Tropicihabitans*, An existing genus; *Secustropicihabitans*: A genus related to but distinct from the existing genus Tropicihabitans of beside.

Secustropicimonas

L. masc. preposition *secus*, beside; L. fem. n. *Tropicimonas*, An existing genus; *Secustropicimonas*: A genus related to but distinct from the existing genus Tropicimonas of beside.

Secustruepera

L. masc. preposition *secus*, beside; L. fem. n. *Truepera*, An existing genus; *Secustruepera*: A genus related to but distinct from the existing genus Truepera of beside.

Secustrueperella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Trueperella*, An existing genus; *Secustrueperella*: A genus related to but distinct from the existing genus Trueperella of beside.

Secustsukamurella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Tsukamurella*, An existing genus; *Secustsukamurella*: A genus related to but distinct from the existing genus Tsukamurella of beside.

Secustuberibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Tuberibacillus*, An existing genus; *Secustuberibacillus*: A genus related to but distinct from the existing genus Tuberibacillus of beside.

Secustullyiplasma

L. masc. preposition *secus*, beside; L. neut. n. *Tullyiplasma*, An existing genus; *Secustullyiplasma*: A genus related to but distinct from the existing genus Tullyiplasma of beside.

Secustumebacillus

L. masc. preposition *secus*, beside; L. masc. n. *Tumebacillus*, An existing genus; *Secustumebacillus*: A genus related to but distinct from the existing genus Tumebacillus of beside.

Secustundrisphaera

L. masc. preposition *secus*, beside; L. fem. n. *Tundrisphaera*, An existing genus; *Secustundrisphaera*: A genus related to but distinct from the existing genus Tundrisphaera of beside.

Secustunicatimonas

L. masc. preposition *secus*, beside; L. fem. n. *Tunicatimonas*, An existing genus; *Secustunicatimonas*: A genus related to but distinct from the existing genus Tunicatimonas of beside.

Secusturicella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Turicella*, An existing genus; *Secusturicella*: A genus related to but distinct from the existing genus Turicella of beside.

Secusturicibacter

L. masc. preposition *secus*, beside; L. masc. n. *Turicibacter*, An existing genus; *Secusturicibacter*: A genus related to but distinct from the existing genus Turicibacter of beside.

Secusturicimonas

L. masc. preposition *secus*, beside; L. fem. n. *Turicimonas*, An existing genus; *Secusturicimonas*: A genus related to but distinct from the existing genus Turicimonas of beside.

Secusturneriella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Turneriella*, An existing genus; *Secusturneriella*: A genus related to but distinct from the existing genus Turneriella of beside.

Secustuwongella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Tuwongella*, An existing genus; *Secustuwongella*: A genus related to but distinct from the existing genus Tuwongella of beside.

Secusuliginosibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Uliginosibacterium*, An existing genus; *Secusuliginosibacterium*: A genus related to but distinct from the existing genus Uliginosibacterium of beside.

Secusulvibacter

L. masc. preposition *secus*, beside; L. masc. n. *Ulvibacter*, An existing genus; *Secusulvibacter*: A genus related to but distinct from the existing genus Ulvibacter of beside.

Secusulvibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Ulvibacterium*, An existing genus; *Secusulvibacterium*: A genus related to but distinct from the existing genus Ulvibacterium of beside.

Secusumboniibacter

L. masc. preposition *secus*, beside; L. masc. n. *Umboniibacter*, An existing genus; *Secusumboniibacter*: A genus related to but distinct from the existing genus Umboniibacter of beside.

Secusumezawaea

L. masc. preposition *secus*, beside; L. fem. n. *Umezawaea*, An existing genus; *Secusumezawaea*: A genus related to but distinct from the existing genus Umezawaea of beside.

Secusundibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Undibacterium*, An existing genus; *Secusundibacterium*: A genus related to but distinct from the existing genus Undibacterium of beside.

Secusureaplasma

L. masc. preposition *secus*, beside; L. neut. n. *Ureaplasma*, An existing genus; *Secusureaplasma*: A genus related to but distinct from the existing genus Ureaplasma of beside.

Secusurechidicola

L. masc. preposition *secus*, beside; L. masc. n. *Urechidicola*, An existing genus; *Secusurechidicola*: A genus related to but distinct from the existing genus Urechidicola of beside.

Secusureibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Ureibacillus*, An existing genus; *Secusureibacillus*: A genus related to but distinct from the existing genus Ureibacillus of beside.

Secusurmitella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Urmitella*, An existing genus; *Secusurmitella*: A genus related to but distinct from the existing genus Urmitella of beside.

Secusursidibacter

L. masc. preposition *secus*, beside; L. masc. n. *Ursidibacter*, An existing genus; *Secusursidibacter*: A genus related to but distinct from the existing genus Ursidibacter of beside.

Secusuruburuella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Uruburuella*, An existing genus; *Secusuruburuella*: A genus related to but distinct from the existing genus Uruburuella of beside.

Secusvadicella

L. masc. preposition *secus*, beside; L. fem. n. *Vadicella*, An existing genus; *Secusvadicella*: A genus related to but distinct from the existing genus Vadicella of beside.

Secusvaginella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Vaginella*, An existing genus; *Secusvaginella*: A genus related to but distinct from the existing genus Vaginella of beside.

Secusvaginimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Vaginimicrobium*, An existing genus; *Secusvaginimicrobium*: A genus related to but distinct from the existing genus Vaginimicrobium of beside.

Secusvaginisenegalia

L. masc. preposition *secus*, beside; L. fem. n. *Vaginisenegalia*, An existing genus; *Secusvaginisenegalia*: A genus related to but distinct from the existing genus Vaginisenegalia of beside.

Secusvagococcus

L. masc. preposition *secus*, beside; L. masc. n. *Vagococcus*, An existing genus; *Secusvagococcus*: A genus related to but distinct from the existing genus Vagococcus of beside.

Secusvallitalea

L. masc. preposition *secus*, beside; L. fem. n. *Vallitalea*, An existing genus; *Secusvallitalea*: A genus related to but distinct from the existing genus Vallitalea of beside.

Secusvampirovibrio

L. masc. preposition *secus*, beside; L. masc. n. *Vampirovibrio*, An existing genus; *Secusvampirovibrio*: A genus related to but distinct from the existing genus Vampirovibrio of beside.

Secusvaribaculum

L. masc. preposition *secus*, beside; L. neut. n. *Varibaculum*, An existing genus; *Secusvaribaculum*: A genus related to but distinct from the existing genus Varibaculum of beside.

Secusvariovorax

L. masc. preposition *secus*, beside; L. masc. n. *Variovorax*, An existing genus; *Secusvariovorax*: A genus related to but distinct from the existing genus Variovorax of beside.

Secusvarunaivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Varunaivibrio*, An existing genus; *Secusvarunaivibrio*: A genus related to but distinct from the existing genus Varunaivibrio of beside.

Secusvasilyevaea

L. masc. preposition *secus*, beside; L. fem. n. *Vasilyevaea*, An existing genus; *Secusvasilyevaea*: A genus related to but distinct from the existing genus Vasilyevaea of beside.

Secusveillonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Veillonella*, An existing genus; *Secusveillonella*: A genus related to but distinct from the existing genus Veillonella of beside.

Secusvenenivibrio

L. masc. preposition *secus*, beside; L. masc. n. *Venenivibrio*, An existing genus; *Secusvenenivibrio*: A genus related to but distinct from the existing genus Venenivibrio of beside.

Secusventosimonas

L. masc. preposition *secus*, beside; L. fem. n. *Ventosimonas*, An existing genus; *Secusventosimonas*: A genus related to but distinct from the existing genus Ventosimonas of beside.

Secusverminephrobacter

L. masc. preposition *secus*, beside; L. masc. n. *Verminephrobacter*, An existing genus; *Secusverminephrobacter*: A genus related to but distinct from the existing genus Verminephrobacter of beside.

Secusverrucomicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Verrucomicrobium*, An existing genus; *Secusverrucomicrobium*: A genus related to but distinct from the existing genus Verrucomicrobium of beside.

Secusverrucosispora

L. masc. preposition *secus*, beside; L. fem. n. *Verrucosispora*, An existing genus; *Secusverrucosispora*: A genus related to but distinct from the existing genus Verrucosispora of beside.

Secusverticia

L. masc. preposition *secus*, beside; L. fem. n. *Verticia*, An existing genus; *Secusverticia*: A genus related to but distinct from the existing genus Verticia of beside.

Secusverticiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Verticiella*, An existing genus; *Secusverticiella*: A genus related to but distinct from the existing genus Verticiella of beside.

Secusvespertiliibacter

L. masc. preposition *secus*, beside; L. masc. n. *Vespertiliibacter*, An existing genus; *Secusvespertiliibacter*: A genus related to but distinct from the existing genus Vespertiliibacter of beside.

Secusvibrio

L. masc. preposition *secus*, beside; L. masc. n. *Vibrio*, An existing genus; *Secusvibrio*: A genus related to but distinct from the existing genus Vibrio of beside.

Secusvibrionimonas

L. masc. preposition *secus*, beside; L. fem. n. *Vibrionimonas*, An existing genus; *Secusvibrionimonas*: A genus related to but distinct from the existing genus Vibrionimonas of beside.

Secusvicinamibacter

L. masc. preposition *secus*, beside; L. masc. n. *Vicinamibacter*, An existing genus; *Secusvicinamibacter*: A genus related to but distinct from the existing genus Vicinamibacter of beside.

Secusvicingus

L. masc. preposition *secus*, beside; L. masc. n. *Vicingus*, An existing genus; *Secusvicingus*: A genus related to but distinct from the existing genus Vicingus of beside.

Secusvictivallis

L. masc. preposition *secus*, beside; L. fem. n. *Victivallis*, An existing genus; *Secusvictivallis*: A genus related to but distinct from the existing genus Victivallis of beside.

Secusvirgibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Virgibacillus*, An existing genus; *Secusvirgibacillus*: A genus related to but distinct from the existing genus Virgibacillus of beside.

Secusviridibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Viridibacillus*, An existing genus; *Secusviridibacillus*: A genus related to but distinct from the existing genus Viridibacillus of beside.

Secusviridibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Viridibacterium*, An existing genus; *Secusviridibacterium*: A genus related to but distinct from the existing genus Viridibacterium of beside.

Secusvitellibacter

L. masc. preposition *secus*, beside; L. masc. n. *Vitellibacter*, An existing genus; *Secusvitellibacter*: A genus related to but distinct from the existing genus Vitellibacter of beside.

Secusvitiosangium

L. masc. preposition *secus*, beside; L. neut. n. *Vitiosangium*, An existing genus; *Secusvitiosangium*: A genus related to but distinct from the existing genus Vitiosangium of beside.

Secusvitreoscilla

L. masc. preposition *secus*, beside; L. fem. n. *Vitreoscilla*, An existing genus; *Secusvitreoscilla*: A genus related to but distinct from the existing genus Vitreoscilla of beside.

Secusvogesella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Vogesella*, An existing genus; *Secusvogesella*: A genus related to but distinct from the existing genus Vogesella of beside.

Secusvolcaniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Volcaniella*, An existing genus; *Secusvolcaniella*: A genus related to but distinct from the existing genus Volcaniella of beside.

Secusvolucribacter

L. masc. preposition *secus*, beside; L. masc. n. *Volucribacter*, An existing genus; *Secusvolucribacter*: A genus related to but distinct from the existing genus Volucribacter of beside.

Secusvulcanibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Vulcanibacillus*, An existing genus; *Secusvulcanibacillus*: A genus related to but distinct from the existing genus Vulcanibacillus of beside.

Secusvulcaniibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Vulcaniibacterium*, An existing genus; *Secusvulcaniibacterium*: A genus related to but distinct from the existing genus Vulcaniibacterium of beside.

Secusvulcanithermus

L. masc. preposition *secus*, beside; L. masc. n. *Vulcanithermus*, An existing genus; *Secusvulcanithermus*: A genus related to but distinct from the existing genus Vulcanithermus of beside.

Secusvulgatibacter

L. masc. preposition *secus*, beside; L. masc. n. *Vulgatibacter*, An existing genus; *Secusvulgatibacter*: A genus related to but distinct from the existing genus Vulgatibacter of beside.

Secuswaddlia

L. masc. preposition *secus*, beside; L. fem. n. *Waddlia*, An existing genus; *Secuswaddlia*: A genus related to but distinct from the existing genus Waddlia of beside.

Secuswandonia

L. masc. preposition *secus*, beside; L. fem. n. *Wandonia*, An existing genus; *Secuswandonia*: A genus related to but distinct from the existing genus Wandonia of beside.

Secuswangella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Wangella*, An existing genus; *Secuswangella*: A genus related to but distinct from the existing genus Wangella of beside.

Secuswautersia

L. masc. preposition *secus*, beside; L. fem. n. *Wautersia*, An existing genus; *Secuswautersia*: A genus related to but distinct from the existing genus Wautersia of beside.

Secuswautersiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Wautersiella*, An existing genus; *Secuswautersiella*: A genus related to but distinct from the existing genus Wautersiella of beside.

Secusweeksella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Weeksella*, An existing genus; *Secusweeksella*: A genus related to but distinct from the existing genus Weeksella of beside.

Secusweissella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Weissella*, An existing genus; *Secusweissella*: A genus related to but distinct from the existing genus Weissella of beside.

Secuswenxinia

L. masc. preposition *secus*, beside; L. fem. n. *Wenxinia*, An existing genus; *Secuswenxinia*: A genus related to but distinct from the existing genus Wenxinia of beside.

Secuswenyingzhuangia

L. masc. preposition *secus*, beside; L. fem. n. *Wenyingzhuangia*, An existing genus; *Secuswenyingzhuangia*: A genus related to but distinct from the existing genus Wenyingzhuangia of beside.

Secuswenzhouxiangella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Wenzhouxiangella*, An existing genus; *Secuswenzhouxiangella*: A genus related to but distinct from the existing genus Wenzhouxiangella of beside.

Secuswestiellopsis

L. masc. preposition *secus*, beside; L. fem. n. *Westiellopsis*, An existing genus; *Secuswestiellopsis*: A genus related to but distinct from the existing genus Westiellopsis of beside.

Secuswigglesworthia

L. masc. preposition *secus*, beside; L. fem. n. *Wigglesworthia*, An existing genus; *Secuswigglesworthia*: A genus related to but distinct from the existing genus Wigglesworthia of beside.

Secuswilliamsia

L. masc. preposition *secus*, beside; L. fem. n. *Williamsia*, An existing genus; *Secuswilliamsia*: A genus related to but distinct from the existing genus Williamsia of beside.

Secuswilliamsoniiplasma

L. masc. preposition *secus*, beside; L. neut. n. *Williamsoniiplasma*, An existing genus; *Secuswilliamsoniiplasma*: A genus related to but distinct from the existing genus Williamsoniiplasma of beside.

Secuswilliamwhitmania

L. masc. preposition *secus*, beside; L. fem. n. *Williamwhitmania*, An existing genus; *Secuswilliamwhitmania*: A genus related to but distinct from the existing genus Williamwhitmania of beside.

Secuswinkia

L. masc. preposition *secus*, beside; L. fem. n. *Winkia*, An existing genus; *Secuswinkia*: A genus related to but distinct from the existing genus Winkia of beside.

Secuswinogradskyella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Winogradskyella*, An existing genus; *Secuswinogradskyella*: A genus related to but distinct from the existing genus Winogradskyella of beside.

Secuswoeseia

L. masc. preposition *secus*, beside; L. fem. n. *Woeseia*, An existing genus; *Secuswoeseia*: A genus related to but distinct from the existing genus Woeseia of beside.

Secuswohlfahrtiimonas

L. masc. preposition *secus*, beside; L. fem. n. *Wohlfahrtiimonas*, An existing genus; *Secuswohlfahrtiimonas*: A genus related to but distinct from the existing genus Wohlfahrtiimonas of beside.

Secuswolbachia

L. masc. preposition *secus*, beside; L. fem. n. *Wolbachia*, An existing genus; *Secuswolbachia*: A genus related to but distinct from the existing genus Wolbachia of beside.

Secuswolinella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Wolinella*, An existing genus; *Secuswolinella*: A genus related to but distinct from the existing genus Wolinella of beside.

Secuswolskyella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Wolskyella*, An existing genus; *Secuswolskyella*: A genus related to but distinct from the existing genus Wolskyella of beside.

Secuswoodsholea

L. masc. preposition *secus*, beside; L. fem. n. *Woodsholea*, An existing genus; *Secuswoodsholea*: A genus related to but distinct from the existing genus Woodsholea of beside.

Secuswukongibacter

L. masc. preposition *secus*, beside; L. masc. n. *Wukongibacter*, An existing genus; *Secuswukongibacter*: A genus related to but distinct from the existing genus Wukongibacter of beside.

Secusxanthobacter

L. masc. preposition *secus*, beside; L. masc. n. *Xanthobacter*, An existing genus; *Secusxanthobacter*: A genus related to but distinct from the existing genus Xanthobacter of beside.

Secusxanthomarina

L. masc. preposition *secus*, beside; L. fem. n. *Xanthomarina*, An existing genus; *Secusxanthomarina*: A genus related to but distinct from the existing genus Xanthomarina of beside.

Secusxanthomonas

L. masc. preposition *secus*, beside; L. fem. n. *Xanthomonas*, An existing genus; *Secusxanthomonas*: A genus related to but distinct from the existing genus Xanthomonas of beside.

Secusxanthovirga

L. masc. preposition *secus*, beside; L. fem. n. *Xanthovirga*, An existing genus; *Secusxanthovirga*: A genus related to but distinct from the existing genus Xanthovirga of beside.

Secusxenophilus

L. masc. preposition *secus*, beside; L. masc. n. *Xenophilus*, An existing genus; *Secusxenophilus*: A genus related to but distinct from the existing genus Xenophilus of beside.

Secusxenorhabdus

L. masc. preposition *secus*, beside; L. fem. n. *Xenorhabdus*, An existing genus; *Secusxenorhabdus*: A genus related to but distinct from the existing genus Xenorhabdus of beside.

Secusxiangella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Xiangella*, An existing genus; *Secusxiangella*: A genus related to but distinct from the existing genus Xiangella of beside.

Secusxinfangfangia

L. masc. preposition *secus*, beside; L. fem. n. *Xinfangfangia*, An existing genus; *Secusxinfangfangia*: A genus related to but distinct from the existing genus Xinfangfangia of beside.

Secusxuhuaishuia

L. masc. preposition *secus*, beside; L. fem. n. *Xuhuaishuia*, An existing genus; *Secusxuhuaishuia*: A genus related to but distinct from the existing genus Xuhuaishuia of beside.

Secusxylanibacillus

L. masc. preposition *secus*, beside; L. masc. n. *Xylanibacillus*, An existing genus; *Secusxylanibacillus*: A genus related to but distinct from the existing genus Xylanibacillus of beside.

Secusxylanibacter

L. masc. preposition *secus*, beside; L. masc. n. *Xylanibacter*, An existing genus; *Secusxylanibacter*: A genus related to but distinct from the existing genus Xylanibacter of beside.

Secusxylanibacterium

L. masc. preposition *secus*, beside; L. neut. n. *Xylanibacterium*, An existing genus; *Secusxylanibacterium*: A genus related to but distinct from the existing genus Xylanibacterium of beside.

Secusxylanimicrobium

L. masc. preposition *secus*, beside; L. neut. n. *Xylanimicrobium*, An existing genus; *Secusxylanimicrobium*: A genus related to but distinct from the existing genus Xylanimicrobium of beside.

Secusxylanimonas

L. masc. preposition *secus*, beside; L. fem. n. *Xylanimonas*, An existing genus; *Secusxylanimonas*: A genus related to but distinct from the existing genus Xylanimonas of beside.

Secusxylanivirga

L. masc. preposition *secus*, beside; L. fem. n. *Xylanivirga*, An existing genus; *Secusxylanivirga*: A genus related to but distinct from the existing genus Xylanivirga of beside.

Secusxylella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Xylella*, An existing genus; *Secusxylella*: A genus related to but distinct from the existing genus Xylella of beside.

Secusxylophilus

L. masc. preposition *secus*, beside; L. masc. n. *Xylophilus*, An existing genus; *Secusxylophilus*: A genus related to but distinct from the existing genus Xylophilus of beside.

Secusyangia

L. masc. preposition *secus*, beside; L. fem. n. *Yangia*, An existing genus; *Secusyangia*: A genus related to but distinct from the existing genus Yangia of beside.

Secusyania

L. masc. preposition *secus*, beside; L. fem. n. *Yania*, An existing genus; *Secusyania*: A genus related to but distinct from the existing genus Yania of beside.

Secusyaniella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Yaniella*, An existing genus; *Secusyaniella*: A genus related to but distinct from the existing genus Yaniella of beside.

Secusyeosuana

L. masc. preposition *secus*, beside; L. fem. n. *Yeosuana*, An existing genus; *Secusyeosuana*: A genus related to but distinct from the existing genus Yeosuana of beside.

Secusyersinia

L. masc. preposition *secus*, beside; L. fem. n. *Yersinia*, An existing genus; *Secusyersinia*: A genus related to but distinct from the existing genus Yersinia of beside.

Secusyimella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Yimella*, An existing genus; *Secusyimella*: A genus related to but distinct from the existing genus Yimella of beside.

Secusyinghuangia

L. masc. preposition *secus*, beside; L. fem. n. *Yinghuangia*, An existing genus; *Secusyinghuangia*: A genus related to but distinct from the existing genus Yinghuangia of beside.

Secusyokenella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Yokenella*, An existing genus; *Secusyokenella*: A genus related to but distinct from the existing genus Yokenella of beside.

Secusyonedaella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Yonedaella*, An existing genus; *Secusyonedaella*: A genus related to but distinct from the existing genus Yonedaella of beside.

Secusyonghaparkia

L. masc. preposition *secus*, beside; L. fem. n. *Yonghaparkia*, An existing genus; *Secusyonghaparkia*: A genus related to but distinct from the existing genus Yonghaparkia of beside.

Secusyoonia

L. masc. preposition *secus*, beside; L. fem. n. *Yoonia*, An existing genus; *Secusyoonia*: A genus related to but distinct from the existing genus Yoonia of beside.

Secusyouhaiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Youhaiella*, An existing genus; *Secusyouhaiella*: A genus related to but distinct from the existing genus Youhaiella of beside.

Secusyoungiibacter

L. masc. preposition *secus*, beside; L. masc. n. *Youngiibacter*, An existing genus; *Secusyoungiibacter*: A genus related to but distinct from the existing genus Youngiibacter of beside.

Secusyoungimonas

L. masc. preposition *secus*, beside; L. fem. n. *Youngimonas*, An existing genus; *Secusyoungimonas*: A genus related to but distinct from the existing genus Youngimonas of beside.

Secusyuhushiella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Yuhushiella*, An existing genus; *Secusyuhushiella*: A genus related to but distinct from the existing genus Yuhushiella of beside.

Secuszavarzinella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Zavarzinella*, An existing genus; *Secuszavarzinella*: A genus related to but distinct from the existing genus Zavarzinella of beside.

Secuszavarzinia

L. masc. preposition *secus*, beside; L. fem. n. *Zavarzinia*, An existing genus; *Secuszavarzinia*: A genus related to but distinct from the existing genus Zavarzinia of beside.

Secuszeaxanthinibacter

L. masc. preposition *secus*, beside; L. masc. n. *Zeaxanthinibacter*, An existing genus; *Secuszeaxanthinibacter*: A genus related to but distinct from the existing genus Zeaxanthinibacter of beside.

Secuszehria

L. masc. preposition *secus*, beside; L. fem. n. *Zehria*, An existing genus; *Secuszehria*: A genus related to but distinct from the existing genus Zehria of beside.

Secuszestosphaera

L. masc. preposition *secus*, beside; L. fem. n. *Zestosphaera*, An existing genus; *Secuszestosphaera*: A genus related to but distinct from the existing genus Zestosphaera of beside.

Secuszhangella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Zhangella*, An existing genus; *Secuszhangella*: A genus related to but distinct from the existing genus Zhangella of beside.

Secuszhaonella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Zhaonella*, An existing genus; *Secuszhaonella*: A genus related to but distinct from the existing genus Zhaonella of beside.

Secuszhengella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Zhengella*, An existing genus; *Secuszhengella*: A genus related to but distinct from the existing genus Zhengella of beside.

Secuszhihengliuella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Zhihengliuella*, An existing genus; *Secuszhihengliuella*: A genus related to but distinct from the existing genus Zhihengliuella of beside.

Secuszhizhongheella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Zhizhongheella*, An existing genus; *Secuszhizhongheella*: A genus related to but distinct from the existing genus Zhizhongheella of beside.

Secuszhongshania

L. masc. preposition *secus*, beside; L. fem. n. *Zhongshania*, An existing genus; *Secuszhongshania*: A genus related to but distinct from the existing genus Zhongshania of beside.

Secuszhouia

L. masc. preposition *secus*, beside; L. fem. n. *Zhouia*, An existing genus; *Secuszhouia*: A genus related to but distinct from the existing genus Zhouia of beside.

Secuszimmermannella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Zimmermannella*, An existing genus; *Secuszimmermannella*: A genus related to but distinct from the existing genus Zimmermannella of beside.

Secuszobellella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Zobellella*, An existing genus; *Secuszobellella*: A genus related to but distinct from the existing genus Zobellella of beside.

Secuszobellia

L. masc. preposition *secus*, beside; L. fem. n. *Zobellia*, An existing genus; *Secuszobellia*: A genus related to but distinct from the existing genus Zobellia of beside.

Secuszoogloea

L. masc. preposition *secus*, beside; L. fem. n. *Zoogloea*, An existing genus; *Secuszoogloea*: A genus related to but distinct from the existing genus Zoogloea of beside.

Secuszooshikella

L. masc. preposition *secus*, beside; L. fem. dim. n. *Zooshikella*, An existing genus; *Secuszooshikella*: A genus related to but distinct from the existing genus Zooshikella of beside.

Secuszunongwangia

L. masc. preposition *secus*, beside; L. fem. n. *Zunongwangia*, An existing genus; *Secuszunongwangia*: A genus related to but distinct from the existing genus Zunongwangia of beside.

Secuszymobacter

L. masc. preposition *secus*, beside; L. masc. n. *Zymobacter*, An existing genus; *Secuszymobacter*: A genus related to but distinct from the existing genus Zymobacter of beside.

Secuszymomonas

L. masc. preposition *secus*, beside; L. fem. n. *Zymomonas*, An existing genus; *Secuszymomonas*: A genus related to but distinct from the existing genus Zymomonas of beside.

Secuszymophilus

L. masc. preposition *secus*, beside; L. masc. n. *Zymophilus*, An existing genus; *Secuszymophilus*: A genus related to but distinct from the existing genus Zymophilus of beside.

Similiabditibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Abditibacterium*, An existing genus; *Similiabditibacterium*: A genus related to but distinct from the existing genus Abditibacterium of similar.

Similiabiotrophia

L. masc. adjective *similis*, similar; L. fem. n. *Abiotrophia*, An existing genus; *Similiabiotrophia*: A genus related to but distinct from the existing genus Abiotrophia of similar.

Similiabsicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Absicoccus*, An existing genus; *Similiabsicoccus*: A genus related to but distinct from the existing genus Absicoccus of similar.

Similiabsiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Absiella*, An existing genus; *Similiabsiella*: A genus related to but distinct from the existing genus Absiella of similar.

Similiabyssibacter

L. masc. adjective *similis*, similar; L. masc. n. *Abyssibacter*, An existing genus; *Similiabyssibacter*: A genus related to but distinct from the existing genus Abyssibacter of similar.

Similiabyssicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Abyssicoccus*, An existing genus; *Similiabyssicoccus*: A genus related to but distinct from the existing genus Abyssicoccus of similar.

Similiabyssisolibacter

L. masc. adjective *similis*, similar; L. masc. n. *Abyssisolibacter*, An existing genus; *Similiabyssisolibacter*: A genus related to but distinct from the existing genus Abyssisolibacter of similar.

Similiabyssivirga

L. masc. adjective *similis*, similar; L. fem. n. *Abyssivirga*, An existing genus; *Similiabyssivirga*: A genus related to but distinct from the existing genus Abyssivirga of similar.

Similiacanthopleuribacter

L. masc. adjective *similis*, similar; L. masc. n. *Acanthopleuribacter*, An existing genus; *Similiacanthopleuribacter*: A genus related to but distinct from the existing genus Acanthopleuribacter of similar.

Similiacaricomes

L. masc. adjective *similis*, similar; L. masc. n. *Acaricomes*, An existing genus; *Similiacaricomes*: A genus related to but distinct from the existing genus Acaricomes of similar.

Similiacaryochloris

L. masc. adjective *similis*, similar; L. fem. n. *Acaryochloris*, An existing genus; *Similiacaryochloris*: A genus related to but distinct from the existing genus Acaryochloris of similar.

Similiacetanaerobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Acetanaerobacterium*, An existing genus; *Similiacetanaerobacterium*: A genus related to but distinct from the existing genus Acetanaerobacterium of similar.

Similiacetatifactor

L. masc. adjective *similis*, similar; L. masc. n. *Acetatifactor*, An existing genus; *Similiacetatifactor*: A genus related to but distinct from the existing genus Acetatifactor of similar.

Similiacetilactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Acetilactobacillus*, An existing genus; *Similiacetilactobacillus*: A genus related to but distinct from the existing genus Acetilactobacillus of similar.

Similiacetitomaculum

L. masc. adjective *similis*, similar; L. neut. n. *Acetitomaculum*, An existing genus; *Similiacetitomaculum*: A genus related to but distinct from the existing genus Acetitomaculum of similar.

Similiacetivibrio

L. masc. adjective *similis*, similar; L. masc. n. *Acetivibrio*, An existing genus; *Similiacetivibrio*: A genus related to but distinct from the existing genus Acetivibrio of similar.

Similiacetoanaerobium

L. masc. adjective *similis*, similar; L. neut. n. *Acetoanaerobium*, An existing genus; *Similiacetoanaerobium*: A genus related to but distinct from the existing genus Acetoanaerobium of similar.

Similiacetobacter

L. masc. adjective *similis*, similar; L. masc. n. *Acetobacter*, An existing genus; *Similiacetobacter*: A genus related to but distinct from the existing genus Acetobacter of similar.

Similiacetobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Acetobacterium*, An existing genus; *Similiacetobacterium*: A genus related to but distinct from the existing genus Acetobacterium of similar.

Similiacetobacteroides

L. masc. adjective *similis*, similar; L. masc. n. *Acetobacteroides*, An existing genus; *Similiacetobacteroides*: A genus related to but distinct from the existing genus Acetobacteroides of similar.

Similiacetofilamentum

L. masc. adjective *similis*, similar; L. neut. n. *Acetofilamentum*, An existing genus; *Similiacetofilamentum*: A genus related to but distinct from the existing genus Acetofilamentum of similar.

Similiacetogenium

L. masc. adjective *similis*, similar; L. neut. n. *Acetogenium*, An existing genus; *Similiacetogenium*: A genus related to but distinct from the existing genus Acetogenium of similar.

Similiacetohalobium

L. masc. adjective *similis*, similar; L. neut. n. *Acetohalobium*, An existing genus; *Similiacetohalobium*: A genus related to but distinct from the existing genus Acetohalobium of similar.

Similiacetomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Acetomicrobium*, An existing genus; *Similiacetomicrobium*: A genus related to but distinct from the existing genus Acetomicrobium of similar.

Similiacetonema

L. masc. adjective *similis*, similar; L. neut. n. *Acetonema*, An existing genus; *Similiacetonema*: A genus related to but distinct from the existing genus Acetonema of similar.

Similiacetothermus

L. masc. adjective *similis*, similar; L. masc. n. *Acetothermus*, An existing genus; *Similiacetothermus*: A genus related to but distinct from the existing genus Acetothermus of similar.

Similiacholeplasma

L. masc. adjective *similis*, similar; L. neut. n. *Acholeplasma*, An existing genus; *Similiacholeplasma*: A genus related to but distinct from the existing genus Acholeplasma of similar.

Similiachromatium

L. masc. adjective *similis*, similar; L. neut. n. *Achromatium*, An existing genus; *Similiachromatium*: A genus related to but distinct from the existing genus Achromatium of similar.

Similiachromobacter

L. masc. adjective *similis*, similar; L. masc. n. *Achromobacter*, An existing genus; *Similiachromobacter*: A genus related to but distinct from the existing genus Achromobacter of similar.

Similiacidaminobacter

L. masc. adjective *similis*, similar; L. masc. n. *Acidaminobacter*, An existing genus; *Similiacidaminobacter*: A genus related to but distinct from the existing genus Acidaminobacter of similar.

Similiacidaminococcus

L. masc. adjective *similis*, similar; L. masc. n. *Acidaminococcus*, An existing genus; *Similiacidaminococcus*: A genus related to but distinct from the existing genus Acidaminococcus of similar.

Similiacidianus

L. masc. adjective *similis*, similar; L. masc. n. *Acidianus*, An existing genus; *Similiacidianus*: A genus related to but distinct from the existing genus Acidianus of similar.

Similiacidibrevibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Acidibrevibacterium*, An existing genus; *Similiacidibrevibacterium*: A genus related to but distinct from the existing genus Acidibrevibacterium of similar.

Similiacidicaldus

L. masc. adjective *similis*, similar; L. masc. n. *Acidicaldus*, An existing genus; *Similiacidicaldus*: A genus related to but distinct from the existing genus Acidicaldus of similar.

Similiacidicapsa

L. masc. adjective *similis*, similar; L. fem. n. *Acidicapsa*, An existing genus; *Similiacidicapsa*: A genus related to but distinct from the existing genus Acidicapsa of similar.

Similiacidiferrimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Acidiferrimicrobium*, An existing genus; *Similiacidiferrimicrobium*: A genus related to but distinct from the existing genus Acidiferrimicrobium of similar.

Similiacidiferrobacter

L. masc. adjective *similis*, similar; L. masc. n. *Acidiferrobacter*, An existing genus; *Similiacidiferrobacter*: A genus related to but distinct from the existing genus Acidiferrobacter of similar.

Similiacidihalobacter

L. masc. adjective *similis*, similar; L. masc. n. *Acidihalobacter*, An existing genus; *Similiacidihalobacter*: A genus related to but distinct from the existing genus Acidihalobacter of similar.

Similiacidilobus

L. masc. adjective *similis*, similar; L. masc. n. *Acidilobus*, An existing genus; *Similiacidilobus*: A genus related to but distinct from the existing genus Acidilobus of similar.

Similiacidimangrovimonas

L. masc. adjective *similis*, similar; L. fem. n. *Acidimangrovimonas*, An existing genus; *Similiacidimangrovimonas*: A genus related to but distinct from the existing genus Acidimangrovimonas of similar.

Similiacidimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Acidimicrobium*, An existing genus; *Similiacidimicrobium*: A genus related to but distinct from the existing genus Acidimicrobium of similar.

Similiacidiphilium

L. masc. adjective *similis*, similar; L. neut. n. *Acidiphilium*, An existing genus; *Similiacidiphilium*: A genus related to but distinct from the existing genus Acidiphilium of similar.

Similiacidiplasma

L. masc. adjective *similis*, similar; L. neut. n. *Acidiplasma*, An existing genus; *Similiacidiplasma*: A genus related to but distinct from the existing genus Acidiplasma of similar.

Similiacidipropionibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Acidipropionibacterium*, An existing genus; *Similiacidipropionibacterium*: A genus related to but distinct from the existing genus Acidipropionibacterium of similar.

Similiacidisarcina

L. masc. adjective *similis*, similar; L. fem. n. *Acidisarcina*, An existing genus; *Similiacidisarcina*: A genus related to but distinct from the existing genus Acidisarcina of similar.

Similiacidisoma

L. masc. adjective *similis*, similar; L. neut. n. *Acidisoma*, An existing genus; *Similiacidisoma*: A genus related to but distinct from the existing genus Acidisoma of similar.

Similiacidisphaera

L. masc. adjective *similis*, similar; L. fem. n. *Acidisphaera*, An existing genus; *Similiacidisphaera*: A genus related to but distinct from the existing genus Acidisphaera of similar.

Similiacidithiobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Acidithiobacillus*, An existing genus; *Similiacidithiobacillus*: A genus related to but distinct from the existing genus Acidithiobacillus of similar.

Similiacidithrix

L. masc. adjective *similis*, similar; L. fem. n. *Acidithrix*, An existing genus; *Similiacidithrix*: A genus related to but distinct from the existing genus Acidithrix of similar.

Similiacidocella

L. masc. adjective *similis*, similar; L. fem. n. *Acidocella*, An existing genus; *Similiacidocella*: A genus related to but distinct from the existing genus Acidocella of similar.

Similiacidovorax

L. masc. adjective *similis*, similar; L. masc. n. *Acidovorax*, An existing genus; *Similiacidovorax*: A genus related to but distinct from the existing genus Acidovorax of similar.

Similiacinetobacter

L. masc. adjective *similis*, similar; L. masc. n. *Acinetobacter*, An existing genus; *Similiacinetobacter*: A genus related to but distinct from the existing genus Acinetobacter of similar.

Similiacrocarpospora

L. masc. adjective *similis*, similar; L. fem. n. *Acrocarpospora*, An existing genus; *Similiacrocarpospora*: A genus related to but distinct from the existing genus Acrocarpospora of similar.

Similiactibacter

L. masc. adjective *similis*, similar; L. masc. n. *Actibacter*, An existing genus; *Similiactibacter*: A genus related to but distinct from the existing genus Actibacter of similar.

Similiactibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Actibacterium*, An existing genus; *Similiactibacterium*: A genus related to but distinct from the existing genus Actibacterium of similar.

Similiactimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Actimicrobium*, An existing genus; *Similiactimicrobium*: A genus related to but distinct from the existing genus Actimicrobium of similar.

Similiactinaurispora

L. masc. adjective *similis*, similar; L. fem. n. *Actinaurispora*, An existing genus; *Similiactinaurispora*: A genus related to but distinct from the existing genus Actinaurispora of similar.

Similiactinoallomurus

L. masc. adjective *similis*, similar; L. masc. n. *Actinoallomurus*, An existing genus; *Similiactinoallomurus*: A genus related to but distinct from the existing genus Actinoallomurus of similar.

Similiactinobispora

L. masc. adjective *similis*, similar; L. fem. n. *Actinobispora*, An existing genus; *Similiactinobispora*: A genus related to but distinct from the existing genus Actinobispora of similar.

Similiactinocatenispora

L. masc. adjective *similis*, similar; L. fem. n. *Actinocatenispora*, An existing genus; *Similiactinocatenispora*: A genus related to but distinct from the existing genus Actinocatenispora of similar.

Similiactinocorallia

L. masc. adjective *similis*, similar; L. fem. n. *Actinocorallia*, An existing genus; *Similiactinocorallia*: A genus related to but distinct from the existing genus Actinocorallia of similar.

Similiactinocrinis

L. masc. adjective *similis*, similar; L. masc. n. *Actinocrinis*, An existing genus; *Similiactinocrinis*: A genus related to but distinct from the existing genus Actinocrinis of similar.

Similiactinocrispum

L. masc. adjective *similis*, similar; L. neut. n. *Actinocrispum*, An existing genus; *Similiactinocrispum*: A genus related to but distinct from the existing genus Actinocrispum of similar.

Similiactinokineospora

L. masc. adjective *similis*, similar; L. fem. n. *Actinokineospora*, An existing genus; *Similiactinokineospora*: A genus related to but distinct from the existing genus Actinokineospora of similar.

Similiactinomadura

L. masc. adjective *similis*, similar; L. fem. n. *Actinomadura*, An existing genus; *Similiactinomadura*: A genus related to but distinct from the existing genus Actinomadura of similar.

Similiactinomarinicola

L. masc. adjective *similis*, similar; L. fem. n. *Actinomarinicola*, An existing genus; *Similiactinomarinicola*: A genus related to but distinct from the existing genus Actinomarinicola of similar.

Similiactinomyces

L. masc. adjective *similis*, similar; L. masc. n. *Actinomyces*, An existing genus; *Similiactinomyces*: A genus related to but distinct from the existing genus Actinomyces of similar.

Similiactinomycetospora

L. masc. adjective *similis*, similar; L. fem. n. *Actinomycetospora*, An existing genus; *Similiactinomycetospora*: A genus related to but distinct from the existing genus Actinomycetospora of similar.

Similiactinophytocola

L. masc. adjective *similis*, similar; L. masc. n. *Actinophytocola*, An existing genus; *Similiactinophytocola*: A genus related to but distinct from the existing genus Actinophytocola of similar.

Similiactinoplanes

L. masc. adjective *similis*, similar; L. masc. n. *Actinoplanes*, An existing genus; *Similiactinoplanes*: A genus related to but distinct from the existing genus Actinoplanes of similar.

Similiactinopolymorpha

L. masc. adjective *similis*, similar; L. fem. n. *Actinopolymorpha*, An existing genus; *Similiactinopolymorpha*: A genus related to but distinct from the existing genus Actinopolymorpha of similar.

Similiactinopolyspora

L. masc. adjective *similis*, similar; L. fem. n. *Actinopolyspora*, An existing genus; *Similiactinopolyspora*: A genus related to but distinct from the existing genus Actinopolyspora of similar.

Similiactinorectispora

L. masc. adjective *similis*, similar; L. fem. n. *Actinorectispora*, An existing genus; *Similiactinorectispora*: A genus related to but distinct from the existing genus Actinorectispora of similar.

Similiactinorhabdospora

L. masc. adjective *similis*, similar; L. fem. n. *Actinorhabdospora*, An existing genus; *Similiactinorhabdospora*: A genus related to but distinct from the existing genus Actinorhabdospora of similar.

Similiactinorugispora

L. masc. adjective *similis*, similar; L. fem. n. *Actinorugispora*, An existing genus; *Similiactinorugispora*: A genus related to but distinct from the existing genus Actinorugispora of similar.

Similiactinospica

L. masc. adjective *similis*, similar; L. fem. n. *Actinospica*, An existing genus; *Similiactinospica*: A genus related to but distinct from the existing genus Actinospica of similar.

Similiactinosporangium

L. masc. adjective *similis*, similar; L. neut. n. *Actinosporangium*, An existing genus; *Similiactinosporangium*: A genus related to but distinct from the existing genus Actinosporangium of similar.

Similiactinosynnema

L. masc. adjective *similis*, similar; L. neut. n. *Actinosynnema*, An existing genus; *Similiactinosynnema*: A genus related to but distinct from the existing genus Actinosynnema of similar.

Similiactinotalea

L. masc. adjective *similis*, similar; L. fem. n. *Actinotalea*, An existing genus; *Similiactinotalea*: A genus related to but distinct from the existing genus Actinotalea of similar.

Similiactinotignum

L. masc. adjective *similis*, similar; L. neut. n. *Actinotignum*, An existing genus; *Similiactinotignum*: A genus related to but distinct from the existing genus Actinotignum of similar.

Similiacutalibacter

L. masc. adjective *similis*, similar; L. masc. n. *Acutalibacter*, An existing genus; *Similiacutalibacter*: A genus related to but distinct from the existing genus Acutalibacter of similar.

Similiacuticoccus

L. masc. adjective *similis*, similar; L. masc. n. *Acuticoccus*, An existing genus; *Similiacuticoccus*: A genus related to but distinct from the existing genus Acuticoccus of similar.

Similiadhaeribacter

L. masc. adjective *similis*, similar; L. masc. n. *Adhaeribacter*, An existing genus; *Similiadhaeribacter*: A genus related to but distinct from the existing genus Adhaeribacter of similar.

Similiadlercreutzia

L. masc. adjective *similis*, similar; L. fem. n. *Adlercreutzia*, An existing genus; *Similiadlercreutzia*: A genus related to but distinct from the existing genus Adlercreutzia of similar.

Similiadvenella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Advenella*, An existing genus; *Similiadvenella*: A genus related to but distinct from the existing genus Advenella of similar.

Similiaegyptianella

L. masc. adjective *similis*, similar; L. fem. n. *Aegyptianella*, An existing genus; *Similiaegyptianella*: A genus related to but distinct from the existing genus Aegyptianella of similar.

Similiaequoribacter

L. masc. adjective *similis*, similar; L. masc. n. *Aequoribacter*, An existing genus; *Similiaequoribacter*: A genus related to but distinct from the existing genus Aequoribacter of similar.

Similiaequorivita

L. masc. adjective *similis*, similar; L. fem. n. *Aequorivita*, An existing genus; *Similiaequorivita*: A genus related to but distinct from the existing genus Aequorivita of similar.

Similiaeribacillus

L. masc. adjective *similis*, similar; L. masc. n. *Aeribacillus*, An existing genus; *Similiaeribacillus*: A genus related to but distinct from the existing genus Aeribacillus of similar.

Similiaeriscardovia

L. masc. adjective *similis*, similar; L. fem. n. *Aeriscardovia*, An existing genus; *Similiaeriscardovia*: A genus related to but distinct from the existing genus Aeriscardovia of similar.

Similiaerococcus

L. masc. adjective *similis*, similar; L. masc. n. *Aerococcus*, An existing genus; *Similiaerococcus*: A genus related to but distinct from the existing genus Aerococcus of similar.

Similiaeromicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Aeromicrobium*, An existing genus; *Similiaeromicrobium*: A genus related to but distinct from the existing genus Aeromicrobium of similar.

Similiaeropyrum

L. masc. adjective *similis*, similar; L. neut. n. *Aeropyrum*, An existing genus; *Similiaeropyrum*: A genus related to but distinct from the existing genus Aeropyrum of similar.

Similiaerosakkonema

L. masc. adjective *similis*, similar; L. neut. n. *Aerosakkonema*, An existing genus; *Similiaerosakkonema*: A genus related to but distinct from the existing genus Aerosakkonema of similar.

Similiaestuariibacter

L. masc. adjective *similis*, similar; L. masc. n. *Aestuariibacter*, An existing genus; *Similiaestuariibacter*: A genus related to but distinct from the existing genus Aestuariibacter of similar.

Similiaestuariibaculum

L. masc. adjective *similis*, similar; L. neut. n. *Aestuariibaculum*, An existing genus; *Similiaestuariibaculum*: A genus related to but distinct from the existing genus Aestuariibaculum of similar.

Similiaestuariibius

L. masc. adjective *similis*, similar; L. masc. n. *Aestuariibius*, An existing genus; *Similiaestuariibius*: A genus related to but distinct from the existing genus Aestuariibius of similar.

Similiaestuariicella

L. masc. adjective *similis*, similar; L. fem. n. *Aestuariicella*, An existing genus; *Similiaestuariicella*: A genus related to but distinct from the existing genus Aestuariicella of similar.

Similiaestuariicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Aestuariicoccus*, An existing genus; *Similiaestuariicoccus*: A genus related to but distinct from the existing genus Aestuariicoccus of similar.

Similiaestuariicola

L. masc. adjective *similis*, similar; L. masc. n. *Aestuariicola*, An existing genus; *Similiaestuariicola*: A genus related to but distinct from the existing genus Aestuariicola of similar.

Similiaestuariihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Aestuariihabitans*, An existing genus; *Similiaestuariihabitans*: A genus related to but distinct from the existing genus Aestuariihabitans of similar.

Similiaestuariimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Aestuariimicrobium*, An existing genus; *Similiaestuariimicrobium*: A genus related to but distinct from the existing genus Aestuariimicrobium of similar.

Similiaestuariirhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Aestuariirhabdus*, An existing genus; *Similiaestuariirhabdus*: A genus related to but distinct from the existing genus Aestuariirhabdus of similar.

Similiaestuariisphingobium

L. masc. adjective *similis*, similar; L. neut. n. *Aestuariisphingobium*, An existing genus; *Similiaestuariisphingobium*: A genus related to but distinct from the existing genus Aestuariisphingobium of similar.

Similiaestuariivirga

L. masc. adjective *similis*, similar; L. fem. n. *Aestuariivirga*, An existing genus; *Similiaestuariivirga*: A genus related to but distinct from the existing genus Aestuariivirga of similar.

Similiaestuariivita

L. masc. adjective *similis*, similar; L. fem. n. *Aestuariivita*, An existing genus; *Similiaestuariivita*: A genus related to but distinct from the existing genus Aestuariivita of similar.

Similiaestuarium

L. masc. adjective *similis*, similar; L. neut. n. *Aestuarium*, An existing genus; *Similiaestuarium*: A genus related to but distinct from the existing genus Aestuarium of similar.

Similiaetherobacter

L. masc. adjective *similis*, similar; L. masc. n. *Aetherobacter*, An existing genus; *Similiaetherobacter*: A genus related to but distinct from the existing genus Aetherobacter of similar.

Similiafifella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Afifella*, An existing genus; *Similiafifella*: A genus related to but distinct from the existing genus Afifella of similar.

Similiafipia

L. masc. adjective *similis*, similar; L. fem. n. *Afipia*, An existing genus; *Similiafipia*: A genus related to but distinct from the existing genus Afipia of similar.

Similiagaribacter

L. masc. adjective *similis*, similar; L. masc. n. *Agaribacter*, An existing genus; *Similiagaribacter*: A genus related to but distinct from the existing genus Agaribacter of similar.

Similiagaribacterium

L. masc. adjective *similis*, similar; L. neut. n. *Agaribacterium*, An existing genus; *Similiagaribacterium*: A genus related to but distinct from the existing genus Agaribacterium of similar.

Similiagaricicola

L. masc. adjective *similis*, similar; L. masc. n. *Agaricicola*, An existing genus; *Similiagaricicola*: A genus related to but distinct from the existing genus Agaricicola of similar.

Similiagarilytica

L. masc. adjective *similis*, similar; L. fem. n. *Agarilytica*, An existing genus; *Similiagarilytica*: A genus related to but distinct from the existing genus Agarilytica of similar.

Similiagarivorans

L. masc. adjective *similis*, similar; L. masc. n. *Agarivorans*, An existing genus; *Similiagarivorans*: A genus related to but distinct from the existing genus Agarivorans of similar.

Similiagathobacter

L. masc. adjective *similis*, similar; L. masc. n. *Agathobacter*, An existing genus; *Similiagathobacter*: A genus related to but distinct from the existing genus Agathobacter of similar.

Similiagathobaculum

L. masc. adjective *similis*, similar; L. neut. n. *Agathobaculum*, An existing genus; *Similiagathobaculum*: A genus related to but distinct from the existing genus Agathobaculum of similar.

Similiaggregatibacter

L. masc. adjective *similis*, similar; L. masc. n. *Aggregatibacter*, An existing genus; *Similiaggregatibacter*: A genus related to but distinct from the existing genus Aggregatibacter of similar.

Similiaggregatilinea

L. masc. adjective *similis*, similar; L. fem. n. *Aggregatilinea*, An existing genus; *Similiaggregatilinea*: A genus related to but distinct from the existing genus Aggregatilinea of similar.

Similiaggregicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Aggregicoccus*, An existing genus; *Similiaggregicoccus*: A genus related to but distinct from the existing genus Aggregicoccus of similar.

Similiagitococcus

L. masc. adjective *similis*, similar; L. masc. n. *Agitococcus*, An existing genus; *Similiagitococcus*: A genus related to but distinct from the existing genus Agitococcus of similar.

Similiagreia

L. masc. adjective *similis*, similar; L. fem. n. *Agreia*, An existing genus; *Similiagreia*: A genus related to but distinct from the existing genus Agreia of similar.

Similiagrilactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Agrilactobacillus*, An existing genus; *Similiagrilactobacillus*: A genus related to but distinct from the existing genus Agrilactobacillus of similar.

Similiagrobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Agrobacterium*, An existing genus; *Similiagrobacterium*: A genus related to but distinct from the existing genus Agrobacterium of similar.

Similiagrococcus

L. masc. adjective *similis*, similar; L. masc. n. *Agrococcus*, An existing genus; *Similiagrococcus*: A genus related to but distinct from the existing genus Agrococcus of similar.

Similiagromonas

L. masc. adjective *similis*, similar; L. fem. n. *Agromonas*, An existing genus; *Similiagromonas*: A genus related to but distinct from the existing genus Agromonas of similar.

Similiagromyces

L. masc. adjective *similis*, similar; L. masc. n. *Agromyces*, An existing genus; *Similiagromyces*: A genus related to but distinct from the existing genus Agromyces of similar.

Similiahniella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Ahniella*, An existing genus; *Similiahniella*: A genus related to but distinct from the existing genus Ahniella of similar.

Similiahrensia

L. masc. adjective *similis*, similar; L. fem. n. *Ahrensia*, An existing genus; *Similiahrensia*: A genus related to but distinct from the existing genus Ahrensia of similar.

Similiaidingibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Aidingibacillus*, An existing genus; *Similiaidingibacillus*: A genus related to but distinct from the existing genus Aidingibacillus of similar.

Similiaidingimonas

L. masc. adjective *similis*, similar; L. fem. n. *Aidingimonas*, An existing genus; *Similiaidingimonas*: A genus related to but distinct from the existing genus Aidingimonas of similar.

Similiakkermansia

L. masc. adjective *similis*, similar; L. fem. n. *Akkermansia*, An existing genus; *Similiakkermansia*: A genus related to but distinct from the existing genus Akkermansia of similar.

Similialbertania

L. masc. adjective *similis*, similar; L. fem. n. *Albertania*, An existing genus; *Similialbertania*: A genus related to but distinct from the existing genus Albertania of similar.

Similialbibacter

L. masc. adjective *similis*, similar; L. masc. n. *Albibacter*, An existing genus; *Similialbibacter*: A genus related to but distinct from the existing genus Albibacter of similar.

Similialbibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Albibacterium*, An existing genus; *Similialbibacterium*: A genus related to but distinct from the existing genus Albibacterium of similar.

Similialbidiferax

L. masc. adjective *similis*, similar; L. masc. n. *Albidiferax*, An existing genus; *Similialbidiferax*: A genus related to but distinct from the existing genus Albidiferax of similar.

Similialbidovulum

L. masc. adjective *similis*, similar; L. neut. n. *Albidovulum*, An existing genus; *Similialbidovulum*: A genus related to but distinct from the existing genus Albidovulum of similar.

Similialbimonas

L. masc. adjective *similis*, similar; L. fem. n. *Albimonas*, An existing genus; *Similialbimonas*: A genus related to but distinct from the existing genus Albimonas of similar.

Similialbirhodobacter

L. masc. adjective *similis*, similar; L. masc. n. *Albirhodobacter*, An existing genus; *Similialbirhodobacter*: A genus related to but distinct from the existing genus Albirhodobacter of similar.

Similialbrightia

L. masc. adjective *similis*, similar; L. fem. n. *Albrightia*, An existing genus; *Similialbrightia*: A genus related to but distinct from the existing genus Albrightia of similar.

Similialcaligenes

L. masc. adjective *similis*, similar; L. masc. n. *Alcaligenes*, An existing genus; *Similialcaligenes*: A genus related to but distinct from the existing genus Alcaligenes of similar.

Similialcanivorax

L. masc. adjective *similis*, similar; L. masc. n. *Alcanivorax*, An existing genus; *Similialcanivorax*: A genus related to but distinct from the existing genus Alcanivorax of similar.

Similialdersonia

L. masc. adjective *similis*, similar; L. fem. n. *Aldersonia*, An existing genus; *Similialdersonia*: A genus related to but distinct from the existing genus Aldersonia of similar.

Similialgibacter

L. masc. adjective *similis*, similar; L. masc. n. *Algibacter*, An existing genus; *Similialgibacter*: A genus related to but distinct from the existing genus Algibacter of similar.

Similialgicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Algicoccus*, An existing genus; *Similialgicoccus*: A genus related to but distinct from the existing genus Algicoccus of similar.

Similialgicola

L. masc. adjective *similis*, similar; L. fem. n. *Algicola*, An existing genus; *Similialgicola*: A genus related to but distinct from the existing genus Algicola of similar.

Similialgihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Algihabitans*, An existing genus; *Similialgihabitans*: A genus related to but distinct from the existing genus Algihabitans of similar.

Similialgimonas

L. masc. adjective *similis*, similar; L. fem. n. *Algimonas*, An existing genus; *Similialgimonas*: A genus related to but distinct from the existing genus Algimonas of similar.

Similialginatibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Alginatibacterium*, An existing genus; *Similialginatibacterium*: A genus related to but distinct from the existing genus Alginatibacterium of similar.

Similialgiphilus

L. masc. adjective *similis*, similar; L. masc. n. *Algiphilus*, An existing genus; *Similialgiphilus*: A genus related to but distinct from the existing genus Algiphilus of similar.

Similialgisphaera

L. masc. adjective *similis*, similar; L. fem. n. *Algisphaera*, An existing genus; *Similialgisphaera*: A genus related to but distinct from the existing genus Algisphaera of similar.

Similialgitalea

L. masc. adjective *similis*, similar; L. fem. n. *Algitalea*, An existing genus; *Similialgitalea*: A genus related to but distinct from the existing genus Algitalea of similar.

Similialgivirga

L. masc. adjective *similis*, similar; L. fem. n. *Algivirga*, An existing genus; *Similialgivirga*: A genus related to but distinct from the existing genus Algivirga of similar.

Similialgoriella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Algoriella*, An existing genus; *Similialgoriella*: A genus related to but distinct from the existing genus Algoriella of similar.

Similialgorimarina

L. masc. adjective *similis*, similar; L. fem. n. *Algorimarina*, An existing genus; *Similialgorimarina*: A genus related to but distinct from the existing genus Algorimarina of similar.

Similialgoriphagus

L. masc. adjective *similis*, similar; L. masc. n. *Algoriphagus*, An existing genus; *Similialgoriphagus*: A genus related to but distinct from the existing genus Algoriphagus of similar.

Similialiagarivorans

L. masc. adjective *similis*, similar; L. masc. n. *Aliagarivorans*, An existing genus; *Similialiagarivorans*: A genus related to but distinct from the existing genus Aliagarivorans of similar.

Similialiarcobacter

L. masc. adjective *similis*, similar; L. masc. n. *Aliarcobacter*, An existing genus; *Similialiarcobacter*: A genus related to but distinct from the existing genus Aliarcobacter of similar.

Similialicycliphilus

L. masc. adjective *similis*, similar; L. masc. n. *Alicycliphilus*, An existing genus; *Similialicycliphilus*: A genus related to but distinct from the existing genus Alicycliphilus of similar.

Similialicyclobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Alicyclobacillus*, An existing genus; *Similialicyclobacillus*: A genus related to but distinct from the existing genus Alicyclobacillus of similar.

Similialienimonas

L. masc. adjective *similis*, similar; L. fem. n. *Alienimonas*, An existing genus; *Similialienimonas*: A genus related to but distinct from the existing genus Alienimonas of similar.

Similialiibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Aliibacillus*, An existing genus; *Similialiibacillus*: A genus related to but distinct from the existing genus Aliibacillus of similar.

Similialiicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Aliicoccus*, An existing genus; *Similialiicoccus*: A genus related to but distinct from the existing genus Aliicoccus of similar.

Similialiidiomarina

L. masc. adjective *similis*, similar; L. fem. n. *Aliidiomarina*, An existing genus; *Similialiidiomarina*: A genus related to but distinct from the existing genus Aliidiomarina of similar.

Similialiidongia

L. masc. adjective *similis*, similar; L. fem. n. *Aliidongia*, An existing genus; *Similialiidongia*: A genus related to but distinct from the existing genus Aliidongia of similar.

Similialiifodinibius

L. masc. adjective *similis*, similar; L. masc. n. *Aliifodinibius*, An existing genus; *Similialiifodinibius*: A genus related to but distinct from the existing genus Aliifodinibius of similar.

Similialiiglaciecola

L. masc. adjective *similis*, similar; L. fem. n. *Aliiglaciecola*, An existing genus; *Similialiiglaciecola*: A genus related to but distinct from the existing genus Aliiglaciecola of similar.

Similialiihoeflea

L. masc. adjective *similis*, similar; L. fem. n. *Aliihoeflea*, An existing genus; *Similialiihoeflea*: A genus related to but distinct from the existing genus Aliihoeflea of similar.

Similialiikangiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Aliikangiella*, An existing genus; *Similialiikangiella*: A genus related to but distinct from the existing genus Aliikangiella of similar.

Similialiinostoc

L. masc. adjective *similis*, similar; L. neut. n. *Aliinostoc*, An existing genus; *Similialiinostoc*: A genus related to but distinct from the existing genus Aliinostoc of similar.

Similialiiroseovarius

L. masc. adjective *similis*, similar; L. masc. n. *Aliiroseovarius*, An existing genus; *Similialiiroseovarius*: A genus related to but distinct from the existing genus Aliiroseovarius of similar.

Similialiisedimentitalea

L. masc. adjective *similis*, similar; L. fem. n. *Aliisedimentitalea*, An existing genus; *Similialiisedimentitalea*: A genus related to but distinct from the existing genus Aliisedimentitalea of similar.

Similialiishimia

L. masc. adjective *similis*, similar; L. fem. n. *Aliishimia*, An existing genus; *Similialiishimia*: A genus related to but distinct from the existing genus Aliishimia of similar.

Similialiivibrio

L. masc. adjective *similis*, similar; L. masc. n. *Aliivibrio*, An existing genus; *Similialiivibrio*: A genus related to but distinct from the existing genus Aliivibrio of similar.

Similialishewanella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Alishewanella*, An existing genus; *Similialishewanella*: A genus related to but distinct from the existing genus Alishewanella of similar.

Similialistipes

L. masc. adjective *similis*, similar; L. masc. n. *Alistipes*, An existing genus; *Similialistipes*: A genus related to but distinct from the existing genus Alistipes of similar.

Similialiterella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Aliterella*, An existing genus; *Similialiterella*: A genus related to but distinct from the existing genus Aliterella of similar.

Similialkalibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Alkalibacillus*, An existing genus; *Similialkalibacillus*: A genus related to but distinct from the existing genus Alkalibacillus of similar.

Similialkalibacter

L. masc. adjective *similis*, similar; L. masc. n. *Alkalibacter*, An existing genus; *Similialkalibacter*: A genus related to but distinct from the existing genus Alkalibacter of similar.

Similialkalibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Alkalibacterium*, An existing genus; *Similialkalibacterium*: A genus related to but distinct from the existing genus Alkalibacterium of similar.

Similialkalibaculum

L. masc. adjective *similis*, similar; L. neut. n. *Alkalibaculum*, An existing genus; *Similialkalibaculum*: A genus related to but distinct from the existing genus Alkalibaculum of similar.

Similialkalicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Alkalicoccus*, An existing genus; *Similialkalicoccus*: A genus related to but distinct from the existing genus Alkalicoccus of similar.

Similialkaliflexus

L. masc. adjective *similis*, similar; L. masc. n. *Alkaliflexus*, An existing genus; *Similialkaliflexus*: A genus related to but distinct from the existing genus Alkaliflexus of similar.

Similialkalihalobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Alkalihalobacillus*, An existing genus; *Similialkalihalobacillus*: A genus related to but distinct from the existing genus Alkalihalobacillus of similar.

Similialkalilactibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Alkalilactibacillus*, An existing genus; *Similialkalilactibacillus*: A genus related to but distinct from the existing genus Alkalilactibacillus of similar.

Similialkalilacustris

L. masc. adjective *similis*, similar; L. masc. n. *Alkalilacustris*, An existing genus; *Similialkalilacustris*: A genus related to but distinct from the existing genus Alkalilacustris of similar.

Similialkalimarinus

L. masc. adjective *similis*, similar; L. masc. n. *Alkalimarinus*, An existing genus; *Similialkalimarinus*: A genus related to but distinct from the existing genus Alkalimarinus of similar.

Similialkalimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Alkalimicrobium*, An existing genus; *Similialkalimicrobium*: A genus related to but distinct from the existing genus Alkalimicrobium of similar.

Similialkalimonas

L. masc. adjective *similis*, similar; L. fem. n. *Alkalimonas*, An existing genus; *Similialkalimonas*: A genus related to but distinct from the existing genus Alkalimonas of similar.

Similialkalinema

L. masc. adjective *similis*, similar; L. neut. n. *Alkalinema*, An existing genus; *Similialkalinema*: A genus related to but distinct from the existing genus Alkalinema of similar.

Similialkaliphilus

L. masc. adjective *similis*, similar; L. masc. n. *Alkaliphilus*, An existing genus; *Similialkaliphilus*: A genus related to but distinct from the existing genus Alkaliphilus of similar.

Similialkalispirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Alkalispirillum*, An existing genus; *Similialkalispirillum*: A genus related to but distinct from the existing genus Alkalispirillum of similar.

Similialkalispirochaeta

L. masc. adjective *similis*, similar; L. fem. n. *Alkalispirochaeta*, An existing genus; *Similialkalispirochaeta*: A genus related to but distinct from the existing genus Alkalispirochaeta of similar.

Similialkalitalea

L. masc. adjective *similis*, similar; L. fem. n. *Alkalitalea*, An existing genus; *Similialkalitalea*: A genus related to but distinct from the existing genus Alkalitalea of similar.

Similialkanibacter

L. masc. adjective *similis*, similar; L. masc. n. *Alkanibacter*, An existing genus; *Similialkanibacter*: A genus related to but distinct from the existing genus Alkanibacter of similar.

Similialkanindiges

L. masc. adjective *similis*, similar; L. masc. n. *Alkanindiges*, An existing genus; *Similialkanindiges*: A genus related to but distinct from the existing genus Alkanindiges of similar.

Similiallisonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Allisonella*, An existing genus; *Similiallisonella*: A genus related to but distinct from the existing genus Allisonella of similar.

Similialloactinosynnema

L. masc. adjective *similis*, similar; L. neut. n. *Alloactinosynnema*, An existing genus; *Similialloactinosynnema*: A genus related to but distinct from the existing genus Alloactinosynnema of similar.

Similiallobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Allobacillus*, An existing genus; *Similiallobacillus*: A genus related to but distinct from the existing genus Allobacillus of similar.

Similiallobaculum

L. masc. adjective *similis*, similar; L. neut. n. *Allobaculum*, An existing genus; *Similiallobaculum*: A genus related to but distinct from the existing genus Allobaculum of similar.

Similiallobranchiibius

L. masc. adjective *similis*, similar; L. masc. n. *Allobranchiibius*, An existing genus; *Similiallobranchiibius*: A genus related to but distinct from the existing genus Allobranchiibius of similar.

Similiallocatelliglobosispora

L. masc. adjective *similis*, similar; L. fem. n. *Allocatelliglobosispora*, An existing genus; *Similiallocatelliglobosispora*: A genus related to but distinct from the existing genus Allocatelliglobosispora of similar.

Similiallochromatium

L. masc. adjective *similis*, similar; L. neut. n. *Allochromatium*, An existing genus; *Similiallochromatium*: A genus related to but distinct from the existing genus Allochromatium of similar.

Similiallofrancisella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Allofrancisella*, An existing genus; *Similiallofrancisella*: A genus related to but distinct from the existing genus Allofrancisella of similar.

Similiallofustis

L. masc. adjective *similis*, similar; L. masc. n. *Allofustis*, An existing genus; *Similiallofustis*: A genus related to but distinct from the existing genus Allofustis of similar.

Similiallohahella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Allohahella*, An existing genus; *Similiallohahella*: A genus related to but distinct from the existing genus Allohahella of similar.

Similiallohumibacter

L. masc. adjective *similis*, similar; L. masc. n. *Allohumibacter*, An existing genus; *Similiallohumibacter*: A genus related to but distinct from the existing genus Allohumibacter of similar.

Similialloiococcus

L. masc. adjective *similis*, similar; L. masc. n. *Alloiococcus*, An existing genus; *Similialloiococcus*: A genus related to but distinct from the existing genus Alloiococcus of similar.

Similiallokutzneria

L. masc. adjective *similis*, similar; L. fem. n. *Allokutzneria*, An existing genus; *Similiallokutzneria*: A genus related to but distinct from the existing genus Allokutzneria of similar.

Similiallomonas

L. masc. adjective *similis*, similar; L. fem. n. *Allomonas*, An existing genus; *Similiallomonas*: A genus related to but distinct from the existing genus Allomonas of similar.

Similiallonocardiopsis

L. masc. adjective *similis*, similar; L. fem. n. *Allonocardiopsis*, An existing genus; *Similiallonocardiopsis*: A genus related to but distinct from the existing genus Allonocardiopsis of similar.

Similialloprevotella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Alloprevotella*, An existing genus; *Similialloprevotella*: A genus related to but distinct from the existing genus Alloprevotella of similar.

Similiallopseudarcicella

L. masc. adjective *similis*, similar; L. fem. n. *Allopseudarcicella*, An existing genus; *Similiallopseudarcicella*: A genus related to but distinct from the existing genus Allopseudarcicella of similar.

Similiallorhizobium

L. masc. adjective *similis*, similar; L. neut. n. *Allorhizobium*, An existing genus; *Similiallorhizobium*: A genus related to but distinct from the existing genus Allorhizobium of similar.

Similiallorhizocola

L. masc. adjective *similis*, similar; L. masc. n. *Allorhizocola*, An existing genus; *Similiallorhizocola*: A genus related to but distinct from the existing genus Allorhizocola of similar.

Similiallosalinactinospora

L. masc. adjective *similis*, similar; L. fem. n. *Allosalinactinospora*, An existing genus; *Similiallosalinactinospora*: A genus related to but distinct from the existing genus Allosalinactinospora of similar.

Similialloscardovia

L. masc. adjective *similis*, similar; L. fem. n. *Alloscardovia*, An existing genus; *Similialloscardovia*: A genus related to but distinct from the existing genus Alloscardovia of similar.

Similiallostreptomyces

L. masc. adjective *similis*, similar; L. masc. n. *Allostreptomyces*, An existing genus; *Similiallostreptomyces*: A genus related to but distinct from the existing genus Allostreptomyces of similar.

Similialpinimonas

L. masc. adjective *similis*, similar; L. fem. n. *Alpinimonas*, An existing genus; *Similialpinimonas*: A genus related to but distinct from the existing genus Alpinimonas of similar.

Similialsobacter

L. masc. adjective *similis*, similar; L. masc. n. *Alsobacter*, An existing genus; *Similialsobacter*: A genus related to but distinct from the existing genus Alsobacter of similar.

Similiaterythrobacter

L. masc. adjective *similis*, similar; L. masc. n. *Altererythrobacter*, An existing genus; *Similiaterythrobacter*: A genus related to but distinct from the existing genus Altererythrobacter of similar.

Similialteribacillus

L. masc. adjective *similis*, similar; L. masc. n. *Alteribacillus*, An existing genus; *Similialteribacillus*: A genus related to but distinct from the existing genus Alteribacillus of similar.

Similialterileibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Alterileibacterium*, An existing genus; *Similialterileibacterium*: A genus related to but distinct from the existing genus Alterileibacterium of similar.

Similialterococcus

L. masc. adjective *similis*, similar; L. masc. n. *Alterococcus*, An existing genus; *Similialterococcus*: A genus related to but distinct from the existing genus Alterococcus of similar.

Similialteromonas

L. masc. adjective *similis*, similar; L. fem. n. *Alteromonas*, An existing genus; *Similialteromonas*: A genus related to but distinct from the existing genus Alteromonas of similar.

Similialtuibacter

L. masc. adjective *similis*, similar; L. masc. n. *Altuibacter*, An existing genus; *Similialtuibacter*: A genus related to but distinct from the existing genus Altuibacter of similar.

Similialysiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Alysiella*, An existing genus; *Similialysiella*: A genus related to but distinct from the existing genus Alysiella of similar.

Similiamantichitinum

L. masc. adjective *similis*, similar; L. neut. n. *Amantichitinum*, An existing genus; *Similiamantichitinum*: A genus related to but distinct from the existing genus Amantichitinum of similar.

Similiamaricoccus

L. masc. adjective *similis*, similar; L. masc. n. *Amaricoccus*, An existing genus; *Similiamaricoccus*: A genus related to but distinct from the existing genus Amaricoccus of similar.

Similiamazoninema

L. masc. adjective *similis*, similar; L. neut. n. *Amazoninema*, An existing genus; *Similiamazoninema*: A genus related to but distinct from the existing genus Amazoninema of similar.

Similiamedibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Amedibacillus*, An existing genus; *Similiamedibacillus*: A genus related to but distinct from the existing genus Amedibacillus of similar.

Similiamedibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Amedibacterium*, An existing genus; *Similiamedibacterium*: A genus related to but distinct from the existing genus Amedibacterium of similar.

Similiameyamaea

L. masc. adjective *similis*, similar; L. fem. n. *Ameyamaea*, An existing genus; *Similiameyamaea*: A genus related to but distinct from the existing genus Ameyamaea of similar.

Similiaminiphilus

L. masc. adjective *similis*, similar; L. masc. n. *Aminiphilus*, An existing genus; *Similiaminiphilus*: A genus related to but distinct from the existing genus Aminiphilus of similar.

Similiaminipila

L. masc. adjective *similis*, similar; L. fem. n. *Aminipila*, An existing genus; *Similiaminipila*: A genus related to but distinct from the existing genus Aminipila of similar.

Similiaminivibrio

L. masc. adjective *similis*, similar; L. masc. n. *Aminivibrio*, An existing genus; *Similiaminivibrio*: A genus related to but distinct from the existing genus Aminivibrio of similar.

Similiaminobacter

L. masc. adjective *similis*, similar; L. masc. n. *Aminobacter*, An existing genus; *Similiaminobacter*: A genus related to but distinct from the existing genus Aminobacter of similar.

Similiaminobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Aminobacterium*, An existing genus; *Similiaminobacterium*: A genus related to but distinct from the existing genus Aminobacterium of similar.

Similiaminomonas

L. masc. adjective *similis*, similar; L. fem. n. *Aminomonas*, An existing genus; *Similiaminomonas*: A genus related to but distinct from the existing genus Aminomonas of similar.

Similiammassolinea

L. masc. adjective *similis*, similar; L. fem. n. *Ammassolinea*, An existing genus; *Similiammassolinea*: A genus related to but distinct from the existing genus Ammassolinea of similar.

Similiammonifex

L. masc. adjective *similis*, similar; L. masc. n. *Ammonifex*, An existing genus; *Similiammonifex*: A genus related to but distinct from the existing genus Ammonifex of similar.

Similiammoniibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Ammoniibacillus*, An existing genus; *Similiammoniibacillus*: A genus related to but distinct from the existing genus Ammoniibacillus of similar.

Similiammoniphilus

L. masc. adjective *similis*, similar; L. masc. n. *Ammoniphilus*, An existing genus; *Similiammoniphilus*: A genus related to but distinct from the existing genus Ammoniphilus of similar.

Similiamnibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Amnibacterium*, An existing genus; *Similiamnibacterium*: A genus related to but distinct from the existing genus Amnibacterium of similar.

Similiamniculibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Amniculibacterium*, An existing genus; *Similiamniculibacterium*: A genus related to but distinct from the existing genus Amniculibacterium of similar.

Similiamnimonas

L. masc. adjective *similis*, similar; L. fem. n. *Amnimonas*, An existing genus; *Similiamnimonas*: A genus related to but distinct from the existing genus Amnimonas of similar.

Similiamoebobacter

L. masc. adjective *similis*, similar; L. masc. n. *Amoebobacter*, An existing genus; *Similiamoebobacter*: A genus related to but distinct from the existing genus Amoebobacter of similar.

Similiamorphosporangium

L. masc. adjective *similis*, similar; L. neut. n. *Amorphosporangium*, An existing genus; *Similiamorphosporangium*: A genus related to but distinct from the existing genus Amorphosporangium of similar.

Similiamorphus

L. masc. adjective *similis*, similar; L. masc. n. *Amorphus*, An existing genus; *Similiamorphus*: A genus related to but distinct from the existing genus Amorphus of similar.

Similiamphibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Amphibacillus*, An existing genus; *Similiamphibacillus*: A genus related to but distinct from the existing genus Amphibacillus of similar.

Similiamphiheterocytum

L. masc. adjective *similis*, similar; L. neut. n. *Amphiheterocytum*, An existing genus; *Similiamphiheterocytum*: A genus related to but distinct from the existing genus Amphiheterocytum of similar.

Similiamphiplicatus

L. masc. adjective *similis*, similar; L. masc. n. *Amphiplicatus*, An existing genus; *Similiamphiplicatus*: A genus related to but distinct from the existing genus Amphiplicatus of similar.

Similiampullariella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Ampullariella*, An existing genus; *Similiampullariella*: A genus related to but distinct from the existing genus Ampullariella of similar.

Similiampullimonas

L. masc. adjective *similis*, similar; L. fem. n. *Ampullimonas*, An existing genus; *Similiampullimonas*: A genus related to but distinct from the existing genus Ampullimonas of similar.

Similiamycolata

L. masc. adjective *similis*, similar; L. fem. n. *Amycolata*, An existing genus; *Similiamycolata*: A genus related to but distinct from the existing genus Amycolata of similar.

Similiamycolatopsis

L. masc. adjective *similis*, similar; L. fem. n. *Amycolatopsis*, An existing genus; *Similiamycolatopsis*: A genus related to but distinct from the existing genus Amycolatopsis of similar.

Similiamycolicicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Amycolicicoccus*, An existing genus; *Similiamycolicicoccus*: A genus related to but distinct from the existing genus Amycolicicoccus of similar.

Similiamylibacter

L. masc. adjective *similis*, similar; L. masc. n. *Amylibacter*, An existing genus; *Similiamylibacter*: A genus related to but distinct from the existing genus Amylibacter of similar.

Similiamylolactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Amylolactobacillus*, An existing genus; *Similiamylolactobacillus*: A genus related to but distinct from the existing genus Amylolactobacillus of similar.

Similianaerobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Anaerobacillus*, An existing genus; *Similianaerobacillus*: A genus related to but distinct from the existing genus Anaerobacillus of similar.

Similianaerobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Anaerobacterium*, An existing genus; *Similianaerobacterium*: A genus related to but distinct from the existing genus Anaerobacterium of similar.

Similianaerobaculum

L. masc. adjective *similis*, similar; L. neut. n. *Anaerobaculum*, An existing genus; *Similianaerobaculum*: A genus related to but distinct from the existing genus Anaerobaculum of similar.

Similianaerobiospirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Anaerobiospirillum*, An existing genus; *Similianaerobiospirillum*: A genus related to but distinct from the existing genus Anaerobiospirillum of similar.

Similianaerobium

L. masc. adjective *similis*, similar; L. neut. n. *Anaerobium*, An existing genus; *Similianaerobium*: A genus related to but distinct from the existing genus Anaerobium of similar.

Similianaerobranca

L. masc. adjective *similis*, similar; L. fem. n. *Anaerobranca*, An existing genus; *Similianaerobranca*: A genus related to but distinct from the existing genus Anaerobranca of similar.

Similianaerobutyricum

L. masc. adjective *similis*, similar; L. neut. n. *Anaerobutyricum*, An existing genus; *Similianaerobutyricum*: A genus related to but distinct from the existing genus Anaerobutyricum of similar.

Similianaerocella

L. masc. adjective *similis*, similar; L. fem. n. *Anaerocella*, An existing genus; *Similianaerocella*: A genus related to but distinct from the existing genus Anaerocella of similar.

Similianaerococcus

L. masc. adjective *similis*, similar; L. masc. n. *Anaerococcus*, An existing genus; *Similianaerococcus*: A genus related to but distinct from the existing genus Anaerococcus of similar.

Similianaerofilum

L. masc. adjective *similis*, similar; L. neut. n. *Anaerofilum*, An existing genus; *Similianaerofilum*: A genus related to but distinct from the existing genus Anaerofilum of similar.

Similianaeroglobus

L. masc. adjective *similis*, similar; L. masc. n. *Anaeroglobus*, An existing genus; *Similianaeroglobus*: A genus related to but distinct from the existing genus Anaeroglobus of similar.

Similianaerohalosphaera

L. masc. adjective *similis*, similar; L. fem. n. *Anaerohalosphaera*, An existing genus; *Similianaerohalosphaera*: A genus related to but distinct from the existing genus Anaerohalosphaera of similar.

Similianaerolactibacter

L. masc. adjective *similis*, similar; L. masc. n. *Anaerolactibacter*, An existing genus; *Similianaerolactibacter*: A genus related to but distinct from the existing genus Anaerolactibacter of similar.

Similianaerolinea

L. masc. adjective *similis*, similar; L. fem. n. *Anaerolinea*, An existing genus; *Similianaerolinea*: A genus related to but distinct from the existing genus Anaerolinea of similar.

Similianaeromicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Anaeromicrobium*, An existing genus; *Similianaeromicrobium*: A genus related to but distinct from the existing genus Anaeromicrobium of similar.

Similianaeromusa

L. masc. adjective *similis*, similar; L. fem. n. *Anaeromusa*, An existing genus; *Similianaeromusa*: A genus related to but distinct from the existing genus Anaeromusa of similar.

Similianaeromyxobacter

L. masc. adjective *similis*, similar; L. masc. n. *Anaeromyxobacter*, An existing genus; *Similianaeromyxobacter*: A genus related to but distinct from the existing genus Anaeromyxobacter of similar.

Similianaerophaga

L. masc. adjective *similis*, similar; L. fem. n. *Anaerophaga*, An existing genus; *Similianaerophaga*: A genus related to but distinct from the existing genus Anaerophaga of similar.

Similianaerophilus

L. masc. adjective *similis*, similar; L. masc. n. *Anaerophilus*, An existing genus; *Similianaerophilus*: A genus related to but distinct from the existing genus Anaerophilus of similar.

Similianaeroplasma

L. masc. adjective *similis*, similar; L. neut. n. *Anaeroplasma*, An existing genus; *Similianaeroplasma*: A genus related to but distinct from the existing genus Anaeroplasma of similar.

Similianaerorhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Anaerorhabdus*, An existing genus; *Similianaerorhabdus*: A genus related to but distinct from the existing genus Anaerorhabdus of similar.

Similianaerosalibacter

L. masc. adjective *similis*, similar; L. masc. n. *Anaerosalibacter*, An existing genus; *Similianaerosalibacter*: A genus related to but distinct from the existing genus Anaerosalibacter of similar.

Similianaerosolibacter

L. masc. adjective *similis*, similar; L. masc. n. *Anaerosolibacter*, An existing genus; *Similianaerosolibacter*: A genus related to but distinct from the existing genus Anaerosolibacter of similar.

Similianaerosphaera

L. masc. adjective *similis*, similar; L. fem. n. *Anaerosphaera*, An existing genus; *Similianaerosphaera*: A genus related to but distinct from the existing genus Anaerosphaera of similar.

Similianaerospora

L. masc. adjective *similis*, similar; L. fem. n. *Anaerospora*, An existing genus; *Similianaerospora*: A genus related to but distinct from the existing genus Anaerospora of similar.

Similianaerosporobacter

L. masc. adjective *similis*, similar; L. masc. n. *Anaerosporobacter*, An existing genus; *Similianaerosporobacter*: A genus related to but distinct from the existing genus Anaerosporobacter of similar.

Similianaerosporomusa

L. masc. adjective *similis*, similar; L. fem. n. *Anaerosporomusa*, An existing genus; *Similianaerosporomusa*: A genus related to but distinct from the existing genus Anaerosporomusa of similar.

Similianaerotignum

L. masc. adjective *similis*, similar; L. neut. n. *Anaerotignum*, An existing genus; *Similianaerotignum*: A genus related to but distinct from the existing genus Anaerotignum of similar.

Similianaerotruncus

L. masc. adjective *similis*, similar; L. masc. n. *Anaerotruncus*, An existing genus; *Similianaerotruncus*: A genus related to but distinct from the existing genus Anaerotruncus of similar.

Similianaerovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Anaerovibrio*, An existing genus; *Similianaerovibrio*: A genus related to but distinct from the existing genus Anaerovibrio of similar.

Similianaerovirgula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Anaerovirgula*, An existing genus; *Similianaerovirgula*: A genus related to but distinct from the existing genus Anaerovirgula of similar.

Similianaerovorax

L. masc. adjective *similis*, similar; L. masc. n. *Anaerovorax*, An existing genus; *Similianaerovorax*: A genus related to but distinct from the existing genus Anaerovorax of similar.

Similianaplasma

L. masc. adjective *similis*, similar; L. neut. n. *Anaplasma*, An existing genus; *Similianaplasma*: A genus related to but distinct from the existing genus Anaplasma of similar.

Similiancalochloris

L. masc. adjective *similis*, similar; L. fem. n. *Ancalochloris*, An existing genus; *Similiancalochloris*: A genus related to but distinct from the existing genus Ancalochloris of similar.

Similiancalomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Ancalomicrobium*, An existing genus; *Similiancalomicrobium*: A genus related to but distinct from the existing genus Ancalomicrobium of similar.

Similiancylobacter

L. masc. adjective *similis*, similar; L. masc. n. *Ancylobacter*, An existing genus; *Similiancylobacter*: A genus related to but distinct from the existing genus Ancylobacter of similar.

Similiancylomarina

L. masc. adjective *similis*, similar; L. fem. n. *Ancylomarina*, An existing genus; *Similiancylomarina*: A genus related to but distinct from the existing genus Ancylomarina of similar.

Similiancylothrix

L. masc. adjective *similis*, similar; L. fem. n. *Ancylothrix*, An existing genus; *Similiancylothrix*: A genus related to but distinct from the existing genus Ancylothrix of similar.

Similianderseniella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Anderseniella*, An existing genus; *Similianderseniella*: A genus related to but distinct from the existing genus Anderseniella of similar.

Similiandreesenia

L. masc. adjective *similis*, similar; L. fem. n. *Andreesenia*, An existing genus; *Similiandreesenia*: A genus related to but distinct from the existing genus Andreesenia of similar.

Similiandreprevotia

L. masc. adjective *similis*, similar; L. fem. n. *Andreprevotia*, An existing genus; *Similiandreprevotia*: A genus related to but distinct from the existing genus Andreprevotia of similar.

Similianeurinibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Aneurinibacillus*, An existing genus; *Similianeurinibacillus*: A genus related to but distinct from the existing genus Aneurinibacillus of similar.

Similiangelakisella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Angelakisella*, An existing genus; *Similiangelakisella*: A genus related to but distinct from the existing genus Angelakisella of similar.

Similiangiococcus

L. masc. adjective *similis*, similar; L. masc. n. *Angiococcus*, An existing genus; *Similiangiococcus*: A genus related to but distinct from the existing genus Angiococcus of similar.

Similiangulomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Angulomicrobium*, An existing genus; *Similiangulomicrobium*: A genus related to but distinct from the existing genus Angulomicrobium of similar.

Similiangustibacter

L. masc. adjective *similis*, similar; L. masc. n. *Angustibacter*, An existing genus; *Similiangustibacter*: A genus related to but distinct from the existing genus Angustibacter of similar.

Similiannwoodia

L. masc. adjective *similis*, similar; L. fem. n. *Annwoodia*, An existing genus; *Similiannwoodia*: A genus related to but distinct from the existing genus Annwoodia of similar.

Similianoxybacillus

L. masc. adjective *similis*, similar; L. masc. n. *Anoxybacillus*, An existing genus; *Similianoxybacillus*: A genus related to but distinct from the existing genus Anoxybacillus of similar.

Similianoxybacter

L. masc. adjective *similis*, similar; L. masc. n. *Anoxybacter*, An existing genus; *Similianoxybacter*: A genus related to but distinct from the existing genus Anoxybacter of similar.

Similianoxynatronum

L. masc. adjective *similis*, similar; L. neut. n. *Anoxynatronum*, An existing genus; *Similianoxynatronum*: A genus related to but distinct from the existing genus Anoxynatronum of similar.

Similianseongella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Anseongella*, An existing genus; *Similianseongella*: A genus related to but distinct from the existing genus Anseongella of similar.

Similiantarcticibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Antarcticibacterium*, An existing genus; *Similiantarcticibacterium*: A genus related to but distinct from the existing genus Antarcticibacterium of similar.

Similiantarcticimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Antarcticimicrobium*, An existing genus; *Similiantarcticimicrobium*: A genus related to but distinct from the existing genus Antarcticimicrobium of similar.

Similiantarcticimonas

L. masc. adjective *similis*, similar; L. fem. n. *Antarcticimonas*, An existing genus; *Similiantarcticimonas*: A genus related to but distinct from the existing genus Antarcticimonas of similar.

Similiantarctobacter

L. masc. adjective *similis*, similar; L. masc. n. *Antarctobacter*, An existing genus; *Similiantarctobacter*: A genus related to but distinct from the existing genus Antarctobacter of similar.

Similiantribacter

L. masc. adjective *similis*, similar; L. masc. n. *Antribacter*, An existing genus; *Similiantribacter*: A genus related to but distinct from the existing genus Antribacter of similar.

Similiantricoccus

L. masc. adjective *similis*, similar; L. masc. n. *Antricoccus*, An existing genus; *Similiantricoccus*: A genus related to but distinct from the existing genus Antricoccus of similar.

Similiaphanizomenon

L. masc. adjective *similis*, similar; L. neut. n. *Aphanizomenon*, An existing genus; *Similiaphanizomenon*: A genus related to but distinct from the existing genus Aphanizomenon of similar.

Similiapibacter

L. masc. adjective *similis*, similar; L. masc. n. *Apibacter*, An existing genus; *Similiapibacter*: A genus related to but distinct from the existing genus Apibacter of similar.

Similiapilactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Apilactobacillus*, An existing genus; *Similiapilactobacillus*: A genus related to but distinct from the existing genus Apilactobacillus of similar.

Similiaplanobacter

L. masc. adjective *similis*, similar; L. masc. n. *Aplanobacter*, An existing genus; *Similiaplanobacter*: A genus related to but distinct from the existing genus Aplanobacter of similar.

Similiaquabacter

L. masc. adjective *similis*, similar; L. masc. n. *Aquabacter*, An existing genus; *Similiaquabacter*: A genus related to but distinct from the existing genus Aquabacter of similar.

Similiaquabacterium

L. masc. adjective *similis*, similar; L. neut. n. *Aquabacterium*, An existing genus; *Similiaquabacterium*: A genus related to but distinct from the existing genus Aquabacterium of similar.

Similiaquamicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Aquamicrobium*, An existing genus; *Similiaquamicrobium*: A genus related to but distinct from the existing genus Aquamicrobium of similar.

Similiaquaspirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Aquaspirillum*, An existing genus; *Similiaquaspirillum*: A genus related to but distinct from the existing genus Aquaspirillum of similar.

Similiaquaticitalea

L. masc. adjective *similis*, similar; L. fem. n. *Aquaticitalea*, An existing genus; *Similiaquaticitalea*: A genus related to but distinct from the existing genus Aquaticitalea of similar.

Similiaquella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Aquella*, An existing genus; *Similiaquella*: A genus related to but distinct from the existing genus Aquella of similar.

Similiaquibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Aquibacillus*, An existing genus; *Similiaquibacillus*: A genus related to but distinct from the existing genus Aquibacillus of similar.

Similiaquibacter

L. masc. adjective *similis*, similar; L. masc. n. *Aquibacter*, An existing genus; *Similiaquibacter*: A genus related to but distinct from the existing genus Aquibacter of similar.

Similiaquicella

L. masc. adjective *similis*, similar; L. fem. n. *Aquicella*, An existing genus; *Similiaquicella*: A genus related to but distinct from the existing genus Aquicella of similar.

Similiaquichromatium

L. masc. adjective *similis*, similar; L. neut. n. *Aquichromatium*, An existing genus; *Similiaquichromatium*: A genus related to but distinct from the existing genus Aquichromatium of similar.

Similiaquicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Aquicoccus*, An existing genus; *Similiaquicoccus*: A genus related to but distinct from the existing genus Aquicoccus of similar.

Similiaquidulcibacter

L. masc. adjective *similis*, similar; L. masc. n. *Aquidulcibacter*, An existing genus; *Similiaquidulcibacter*: A genus related to but distinct from the existing genus Aquidulcibacter of similar.

Similiaquifex

L. masc. adjective *similis*, similar; L. masc. n. *Aquifex*, An existing genus; *Similiaquifex*: A genus related to but distinct from the existing genus Aquifex of similar.

Similiaquiflexum

L. masc. adjective *similis*, similar; L. neut. n. *Aquiflexum*, An existing genus; *Similiaquiflexum*: A genus related to but distinct from the existing genus Aquiflexum of similar.

Similiaquihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Aquihabitans*, An existing genus; *Similiaquihabitans*: A genus related to but distinct from the existing genus Aquihabitans of similar.

Similiaquimarina

L. masc. adjective *similis*, similar; L. fem. n. *Aquimarina*, An existing genus; *Similiaquimarina*: A genus related to but distinct from the existing genus Aquimarina of similar.

Similiaquimixticola

L. masc. adjective *similis*, similar; L. masc. n. *Aquimixticola*, An existing genus; *Similiaquimixticola*: A genus related to but distinct from the existing genus Aquimixticola of similar.

Similiaquimonas

L. masc. adjective *similis*, similar; L. fem. n. *Aquimonas*, An existing genus; *Similiaquimonas*: A genus related to but distinct from the existing genus Aquimonas of similar.

Similiaquincola

L. masc. adjective *similis*, similar; L. masc. n. *Aquincola*, An existing genus; *Similiaquincola*: A genus related to but distinct from the existing genus Aquincola of similar.

Similiaquipuribacter

L. masc. adjective *similis*, similar; L. masc. n. *Aquipuribacter*, An existing genus; *Similiaquipuribacter*: A genus related to but distinct from the existing genus Aquipuribacter of similar.

Similiaquirufa

L. masc. adjective *similis*, similar; L. fem. n. *Aquirufa*, An existing genus; *Similiaquirufa*: A genus related to but distinct from the existing genus Aquirufa of similar.

Similiaquisalibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Aquisalibacillus*, An existing genus; *Similiaquisalibacillus*: A genus related to but distinct from the existing genus Aquisalibacillus of similar.

Similiaquisalimonas

L. masc. adjective *similis*, similar; L. fem. n. *Aquisalimonas*, An existing genus; *Similiaquisalimonas*: A genus related to but distinct from the existing genus Aquisalimonas of similar.

Similiaquisalinus

L. masc. adjective *similis*, similar; L. masc. n. *Aquisalinus*, An existing genus; *Similiaquisalinus*: A genus related to but distinct from the existing genus Aquisalinus of similar.

Similiaquisediminimonas

L. masc. adjective *similis*, similar; L. fem. n. *Aquisediminimonas*, An existing genus; *Similiaquisediminimonas*: A genus related to but distinct from the existing genus Aquisediminimonas of similar.

Similiaquisphaera

L. masc. adjective *similis*, similar; L. fem. n. *Aquisphaera*, An existing genus; *Similiaquisphaera*: A genus related to but distinct from the existing genus Aquisphaera of similar.

Similiaquitalea

L. masc. adjective *similis*, similar; L. fem. n. *Aquitalea*, An existing genus; *Similiaquitalea*: A genus related to but distinct from the existing genus Aquitalea of similar.

Similiarachidicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Arachidicoccus*, An existing genus; *Similiarachidicoccus*: A genus related to but distinct from the existing genus Arachidicoccus of similar.

Similiarachnia

L. masc. adjective *similis*, similar; L. fem. n. *Arachnia*, An existing genus; *Similiarachnia*: A genus related to but distinct from the existing genus Arachnia of similar.

Similiarcanobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Arcanobacterium*, An existing genus; *Similiarcanobacterium*: A genus related to but distinct from the existing genus Arcanobacterium of similar.

Similiarchaeoglobus

L. masc. adjective *similis*, similar; L. masc. n. *Archaeoglobus*, An existing genus; *Similiarchaeoglobus*: A genus related to but distinct from the existing genus Archaeoglobus of similar.

Similiarchangium

L. masc. adjective *similis*, similar; L. neut. n. *Archangium*, An existing genus; *Similiarchangium*: A genus related to but distinct from the existing genus Archangium of similar.

Similiarcicella

L. masc. adjective *similis*, similar; L. fem. n. *Arcicella*, An existing genus; *Similiarcicella*: A genus related to but distinct from the existing genus Arcicella of similar.

Similiarcobacter

L. masc. adjective *similis*, similar; L. masc. n. *Arcobacter*, An existing genus; *Similiarcobacter*: A genus related to but distinct from the existing genus Arcobacter of similar.

Similiarcticibacter

L. masc. adjective *similis*, similar; L. masc. n. *Arcticibacter*, An existing genus; *Similiarcticibacter*: A genus related to but distinct from the existing genus Arcticibacter of similar.

Similiarcticibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Arcticibacterium*, An existing genus; *Similiarcticibacterium*: A genus related to but distinct from the existing genus Arcticibacterium of similar.

Similiarcticiflavibacter

L. masc. adjective *similis*, similar; L. masc. n. *Arcticiflavibacter*, An existing genus; *Similiarcticiflavibacter*: A genus related to but distinct from the existing genus Arcticiflavibacter of similar.

Similiardenticatena

L. masc. adjective *similis*, similar; L. fem. n. *Ardenticatena*, An existing genus; *Similiardenticatena*: A genus related to but distinct from the existing genus Ardenticatena of similar.

Similiarenibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Arenibacillus*, An existing genus; *Similiarenibacillus*: A genus related to but distinct from the existing genus Arenibacillus of similar.

Similiarenibacter

L. masc. adjective *similis*, similar; L. masc. n. *Arenibacter*, An existing genus; *Similiarenibacter*: A genus related to but distinct from the existing genus Arenibacter of similar.

Similiarenicella

L. masc. adjective *similis*, similar; L. fem. n. *Arenicella*, An existing genus; *Similiarenicella*: A genus related to but distinct from the existing genus Arenicella of similar.

Similiarenimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Arenimicrobium*, An existing genus; *Similiarenimicrobium*: A genus related to but distinct from the existing genus Arenimicrobium of similar.

Similiarenimonas

L. masc. adjective *similis*, similar; L. fem. n. *Arenimonas*, An existing genus; *Similiarenimonas*: A genus related to but distinct from the existing genus Arenimonas of similar.

Similiarenitalea

L. masc. adjective *similis*, similar; L. fem. n. *Arenitalea*, An existing genus; *Similiarenitalea*: A genus related to but distinct from the existing genus Arenitalea of similar.

Similiarhodomonas

L. masc. adjective *similis*, similar; L. fem. n. *Arhodomonas*, An existing genus; *Similiarhodomonas*: A genus related to but distinct from the existing genus Arhodomonas of similar.

Similiaridibacter

L. masc. adjective *similis*, similar; L. masc. n. *Aridibacter*, An existing genus; *Similiaridibacter*: A genus related to but distinct from the existing genus Aridibacter of similar.

Similiarmatimonas

L. masc. adjective *similis*, similar; L. fem. n. *Armatimonas*, An existing genus; *Similiarmatimonas*: A genus related to but distinct from the existing genus Armatimonas of similar.

Similiarsenicibacter

L. masc. adjective *similis*, similar; L. masc. n. *Arsenicibacter*, An existing genus; *Similiarsenicibacter*: A genus related to but distinct from the existing genus Arsenicibacter of similar.

Similiarsenicicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Arsenicicoccus*, An existing genus; *Similiarsenicicoccus*: A genus related to but distinct from the existing genus Arsenicicoccus of similar.

Similiarsenicitalea

L. masc. adjective *similis*, similar; L. fem. n. *Arsenicitalea*, An existing genus; *Similiarsenicitalea*: A genus related to but distinct from the existing genus Arsenicitalea of similar.

Similiarsenophonus

L. masc. adjective *similis*, similar; L. masc. n. *Arsenophonus*, An existing genus; *Similiarsenophonus*: A genus related to but distinct from the existing genus Arsenophonus of similar.

Similiarsukibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Arsukibacterium*, An existing genus; *Similiarsukibacterium*: A genus related to but distinct from the existing genus Arsukibacterium of similar.

Similiarthrobacter

L. masc. adjective *similis*, similar; L. masc. n. *Arthrobacter*, An existing genus; *Similiarthrobacter*: A genus related to but distinct from the existing genus Arthrobacter of similar.

Similiarthrospira

L. masc. adjective *similis*, similar; L. fem. n. *Arthrospira*, An existing genus; *Similiarthrospira*: A genus related to but distinct from the existing genus Arthrospira of similar.

Similiarthrospiribacter

L. masc. adjective *similis*, similar; L. masc. n. *Arthrospiribacter*, An existing genus; *Similiarthrospiribacter*: A genus related to but distinct from the existing genus Arthrospiribacter of similar.

Similiarundinibacter

L. masc. adjective *similis*, similar; L. masc. n. *Arundinibacter*, An existing genus; *Similiarundinibacter*: A genus related to but distinct from the existing genus Arundinibacter of similar.

Similiarvibacter

L. masc. adjective *similis*, similar; L. masc. n. *Arvibacter*, An existing genus; *Similiarvibacter*: A genus related to but distinct from the existing genus Arvibacter of similar.

Similiasaccharobacter

L. masc. adjective *similis*, similar; L. masc. n. *Asaccharobacter*, An existing genus; *Similiasaccharobacter*: A genus related to but distinct from the existing genus Asaccharobacter of similar.

Similiasaccharospora

L. masc. adjective *similis*, similar; L. fem. n. *Asaccharospora*, An existing genus; *Similiasaccharospora*: A genus related to but distinct from the existing genus Asaccharospora of similar.

Similiasaia

L. masc. adjective *similis*, similar; L. fem. n. *Asaia*, An existing genus; *Similiasaia*: A genus related to but distinct from the existing genus Asaia of similar.

Similiasanoa

L. masc. adjective *similis*, similar; L. fem. n. *Asanoa*, An existing genus; *Similiasanoa*: A genus related to but distinct from the existing genus Asanoa of similar.

Similiascidiaceibacter

L. masc. adjective *similis*, similar; L. masc. n. *Ascidiaceibacter*, An existing genus; *Similiascidiaceibacter*: A genus related to but distinct from the existing genus Ascidiaceibacter of similar.

Similiascidiaceihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Ascidiaceihabitans*, An existing genus; *Similiascidiaceihabitans*: A genus related to but distinct from the existing genus Ascidiaceihabitans of similar.

Similiascidiimonas

L. masc. adjective *similis*, similar; L. fem. n. *Ascidiimonas*, An existing genus; *Similiascidiimonas*: A genus related to but distinct from the existing genus Ascidiimonas of similar.

Similiasinibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Asinibacterium*, An existing genus; *Similiasinibacterium*: A genus related to but distinct from the existing genus Asinibacterium of similar.

Similiasprobacter

L. masc. adjective *similis*, similar; L. masc. n. *Asprobacter*, An existing genus; *Similiasprobacter*: A genus related to but distinct from the existing genus Asprobacter of similar.

Similiaspromonas

L. masc. adjective *similis*, similar; L. fem. n. *Aspromonas*, An existing genus; *Similiaspromonas*: A genus related to but distinct from the existing genus Aspromonas of similar.

Similiasteroleplasma

L. masc. adjective *similis*, similar; L. neut. n. *Asteroleplasma*, An existing genus; *Similiasteroleplasma*: A genus related to but distinct from the existing genus Asteroleplasma of similar.

Similiasticcacaulis

L. masc. adjective *similis*, similar; L. masc. n. *Asticcacaulis*, An existing genus; *Similiasticcacaulis*: A genus related to but distinct from the existing genus Asticcacaulis of similar.

Similiathalassotoga

L. masc. adjective *similis*, similar; L. fem. n. *Athalassotoga*, An existing genus; *Similiathalassotoga*: A genus related to but distinct from the existing genus Athalassotoga of similar.

Similiatlantibacter

L. masc. adjective *similis*, similar; L. masc. n. *Atlantibacter*, An existing genus; *Similiatlantibacter*: A genus related to but distinct from the existing genus Atlantibacter of similar.

Similiatopobacter

L. masc. adjective *similis*, similar; L. masc. n. *Atopobacter*, An existing genus; *Similiatopobacter*: A genus related to but distinct from the existing genus Atopobacter of similar.

Similiatopobium

L. masc. adjective *similis*, similar; L. neut. n. *Atopobium*, An existing genus; *Similiatopobium*: A genus related to but distinct from the existing genus Atopobium of similar.

Similiatopococcus

L. masc. adjective *similis*, similar; L. masc. n. *Atopococcus*, An existing genus; *Similiatopococcus*: A genus related to but distinct from the existing genus Atopococcus of similar.

Similiatopostipes

L. masc. adjective *similis*, similar; L. masc. n. *Atopostipes*, An existing genus; *Similiatopostipes*: A genus related to but distinct from the existing genus Atopostipes of similar.

Similiaurantiacicella

L. masc. adjective *similis*, similar; L. fem. n. *Aurantiacicella*, An existing genus; *Similiaurantiacicella*: A genus related to but distinct from the existing genus Aurantiacicella of similar.

Similiaurantibacter

L. masc. adjective *similis*, similar; L. masc. n. *Aurantibacter*, An existing genus; *Similiaurantibacter*: A genus related to but distinct from the existing genus Aurantibacter of similar.

Similiaurantimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Aurantimicrobium*, An existing genus; *Similiaurantimicrobium*: A genus related to but distinct from the existing genus Aurantimicrobium of similar.

Similiaurantimonas

L. masc. adjective *similis*, similar; L. fem. n. *Aurantimonas*, An existing genus; *Similiaurantimonas*: A genus related to but distinct from the existing genus Aurantimonas of similar.

Similiaurantisolimonas

L. masc. adjective *similis*, similar; L. fem. n. *Aurantisolimonas*, An existing genus; *Similiaurantisolimonas*: A genus related to but distinct from the existing genus Aurantisolimonas of similar.

Similiaurantivirga

L. masc. adjective *similis*, similar; L. fem. n. *Aurantivirga*, An existing genus; *Similiaurantivirga*: A genus related to but distinct from the existing genus Aurantivirga of similar.

Similiauraticoccus

L. masc. adjective *similis*, similar; L. masc. n. *Auraticoccus*, An existing genus; *Similiauraticoccus*: A genus related to but distinct from the existing genus Auraticoccus of similar.

Similiaureibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Aureibacillus*, An existing genus; *Similiaureibacillus*: A genus related to but distinct from the existing genus Aureibacillus of similar.

Similiaureibacter

L. masc. adjective *similis*, similar; L. masc. n. *Aureibacter*, An existing genus; *Similiaureibacter*: A genus related to but distinct from the existing genus Aureibacter of similar.

Similiaureibaculum

L. masc. adjective *similis*, similar; L. neut. n. *Aureibaculum*, An existing genus; *Similiaureibaculum*: A genus related to but distinct from the existing genus Aureibaculum of similar.

Similiaureicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Aureicoccus*, An existing genus; *Similiaureicoccus*: A genus related to but distinct from the existing genus Aureicoccus of similar.

Similiaureimonas

L. masc. adjective *similis*, similar; L. fem. n. *Aureimonas*, An existing genus; *Similiaureimonas*: A genus related to but distinct from the existing genus Aureimonas of similar.

Similiaureisphaera

L. masc. adjective *similis*, similar; L. fem. n. *Aureisphaera*, An existing genus; *Similiaureisphaera*: A genus related to but distinct from the existing genus Aureisphaera of similar.

Similiaureispira

L. masc. adjective *similis*, similar; L. fem. n. *Aureispira*, An existing genus; *Similiaureispira*: A genus related to but distinct from the existing genus Aureispira of similar.

Similiaureitalea

L. masc. adjective *similis*, similar; L. fem. n. *Aureitalea*, An existing genus; *Similiaureitalea*: A genus related to but distinct from the existing genus Aureitalea of similar.

Similiaureivirga

L. masc. adjective *similis*, similar; L. fem. n. *Aureivirga*, An existing genus; *Similiaureivirga*: A genus related to but distinct from the existing genus Aureivirga of similar.

Similiaureliella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Aureliella*, An existing genus; *Similiaureliella*: A genus related to but distinct from the existing genus Aureliella of similar.

Similiaureobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Aureobacterium*, An existing genus; *Similiaureobacterium*: A genus related to but distinct from the existing genus Aureobacterium of similar.

Similiauricoccus

L. masc. adjective *similis*, similar; L. masc. n. *Auricoccus*, An existing genus; *Similiauricoccus*: A genus related to but distinct from the existing genus Auricoccus of similar.

Similiauritidibacter

L. masc. adjective *similis*, similar; L. masc. n. *Auritidibacter*, An existing genus; *Similiauritidibacter*: A genus related to but distinct from the existing genus Auritidibacter of similar.

Similiaustwickia

L. masc. adjective *similis*, similar; L. fem. n. *Austwickia*, An existing genus; *Similiaustwickia*: A genus related to but distinct from the existing genus Austwickia of similar.

Similiavibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Avibacterium*, An existing genus; *Similiavibacterium*: A genus related to but distinct from the existing genus Avibacterium of similar.

Similiazoarcus

L. masc. adjective *similis*, similar; L. masc. n. *Azoarcus*, An existing genus; *Similiazoarcus*: A genus related to but distinct from the existing genus Azoarcus of similar.

Similiazohydromonas

L. masc. adjective *similis*, similar; L. fem. n. *Azohydromonas*, An existing genus; *Similiazohydromonas*: A genus related to but distinct from the existing genus Azohydromonas of similar.

Similiazomonas

L. masc. adjective *similis*, similar; L. fem. n. *Azomonas*, An existing genus; *Similiazomonas*: A genus related to but distinct from the existing genus Azomonas of similar.

Similiazonexus

L. masc. adjective *similis*, similar; L. masc. n. *Azonexus*, An existing genus; *Similiazonexus*: A genus related to but distinct from the existing genus Azonexus of similar.

Similiazorhizobium

L. masc. adjective *similis*, similar; L. neut. n. *Azorhizobium*, An existing genus; *Similiazorhizobium*: A genus related to but distinct from the existing genus Azorhizobium of similar.

Similiazospira

L. masc. adjective *similis*, similar; L. fem. n. *Azospira*, An existing genus; *Similiazospira*: A genus related to but distinct from the existing genus Azospira of similar.

Similiazospirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Azospirillum*, An existing genus; *Similiazospirillum*: A genus related to but distinct from the existing genus Azospirillum of similar.

Similiazotobacter

L. masc. adjective *similis*, similar; L. masc. n. *Azotobacter*, An existing genus; *Similiazotobacter*: A genus related to but distinct from the existing genus Azotobacter of similar.

Similiazovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Azovibrio*, An existing genus; *Similiazovibrio*: A genus related to but distinct from the existing genus Azovibrio of similar.

Similibacilliculturomica

L. masc. adjective *similis*, similar; L. fem. n. *Bacilliculturomica*, An existing genus; *Similibacilliculturomica*: A genus related to but distinct from the existing genus Bacilliculturomica of similar.

Similibacteriolyticum

L. masc. adjective *similis*, similar; L. neut. n. *Bacteriolyticum*, An existing genus; *Similibacteriolyticum*: A genus related to but distinct from the existing genus Bacteriolyticum of similar.

Similibacterionema

L. masc. adjective *similis*, similar; L. neut. n. *Bacterionema*, An existing genus; *Similibacterionema*: A genus related to but distinct from the existing genus Bacterionema of similar.

Similibacterioplanes

L. masc. adjective *similis*, similar; L. masc. n. *Bacterioplanes*, An existing genus; *Similibacterioplanes*: A genus related to but distinct from the existing genus Bacterioplanes of similar.

Similibacterioplanoides

L. masc. adjective *similis*, similar; L. neut. n. *Bacterioplanoides*, An existing genus; *Similibacterioplanoides*: A genus related to but distinct from the existing genus Bacterioplanoides of similar.

Similibacteriovorax

L. masc. adjective *similis*, similar; L. masc. n. *Bacteriovorax*, An existing genus; *Similibacteriovorax*: A genus related to but distinct from the existing genus Bacteriovorax of similar.

Similibacteroides

L. masc. adjective *similis*, similar; L. masc. n. *Bacteroides*, An existing genus; *Similibacteroides*: A genus related to but distinct from the existing genus Bacteroides of similar.

Similibaekduia

L. masc. adjective *similis*, similar; L. fem. n. *Baekduia*, An existing genus; *Similibaekduia*: A genus related to but distinct from the existing genus Baekduia of similar.

Similibaia

L. masc. adjective *similis*, similar; L. fem. n. *Baia*, An existing genus; *Similibaia*: A genus related to but distinct from the existing genus Baia of similar.

Similibailinhaonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Bailinhaonella*, An existing genus; *Similibailinhaonella*: A genus related to but distinct from the existing genus Bailinhaonella of similar.

Similibalnearium

L. masc. adjective *similis*, similar; L. neut. n. *Balnearium*, An existing genus; *Similibalnearium*: A genus related to but distinct from the existing genus Balnearium of similar.

Similibalneicella

L. masc. adjective *similis*, similar; L. fem. n. *Balneicella*, An existing genus; *Similibalneicella*: A genus related to but distinct from the existing genus Balneicella of similar.

Similibalneimonas

L. masc. adjective *similis*, similar; L. fem. n. *Balneimonas*, An existing genus; *Similibalneimonas*: A genus related to but distinct from the existing genus Balneimonas of similar.

Similibarnesiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Barnesiella*, An existing genus; *Similibarnesiella*: A genus related to but distinct from the existing genus Barnesiella of similar.

Similibarrientosiimonas

L. masc. adjective *similis*, similar; L. fem. n. *Barrientosiimonas*, An existing genus; *Similibarrientosiimonas*: A genus related to but distinct from the existing genus Barrientosiimonas of similar.

Similibartonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Bartonella*, An existing genus; *Similibartonella*: A genus related to but distinct from the existing genus Bartonella of similar.

Similibasfia

L. masc. adjective *similis*, similar; L. fem. n. *Basfia*, An existing genus; *Similibasfia*: A genus related to but distinct from the existing genus Basfia of similar.

Similibasilea

L. masc. adjective *similis*, similar; L. fem. n. *Basilea*, An existing genus; *Similibasilea*: A genus related to but distinct from the existing genus Basilea of similar.

Similibauldia

L. masc. adjective *similis*, similar; L. fem. n. *Bauldia*, An existing genus; *Similibauldia*: A genus related to but distinct from the existing genus Bauldia of similar.

Similibavariicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Bavariicoccus*, An existing genus; *Similibavariicoccus*: A genus related to but distinct from the existing genus Bavariicoccus of similar.

Similibdellovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Bdellovibrio*, An existing genus; *Similibdellovibrio*: A genus related to but distinct from the existing genus Bdellovibrio of similar.

Similibeduinibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Beduinibacterium*, An existing genus; *Similibeduinibacterium*: A genus related to but distinct from the existing genus Beduinibacterium of similar.

Similibeggiatoa

L. masc. adjective *similis*, similar; L. fem. n. *Beggiatoa*, An existing genus; *Similibeggiatoa*: A genus related to but distinct from the existing genus Beggiatoa of similar.

Similibeijerinckia

L. masc. adjective *similis*, similar; L. fem. n. *Beijerinckia*, An existing genus; *Similibeijerinckia*: A genus related to but distinct from the existing genus Beijerinckia of similar.

Similibelliella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Belliella*, An existing genus; *Similibelliella*: A genus related to but distinct from the existing genus Belliella of similar.

Similibellilinea

L. masc. adjective *similis*, similar; L. fem. n. *Bellilinea*, An existing genus; *Similibellilinea*: A genus related to but distinct from the existing genus Bellilinea of similar.

Similibelnapia

L. masc. adjective *similis*, similar; L. fem. n. *Belnapia*, An existing genus; *Similibelnapia*: A genus related to but distinct from the existing genus Belnapia of similar.

Similibeneckea

L. masc. adjective *similis*, similar; L. fem. n. *Beneckea*, An existing genus; *Similibeneckea*: A genus related to but distinct from the existing genus Beneckea of similar.

Similibergeriella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Bergeriella*, An existing genus; *Similibergeriella*: A genus related to but distinct from the existing genus Bergeriella of similar.

Similibergeyella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Bergeyella*, An existing genus; *Similibergeyella*: A genus related to but distinct from the existing genus Bergeyella of similar.

Similibermanella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Bermanella*, An existing genus; *Similibermanella*: A genus related to but distinct from the existing genus Bermanella of similar.

Similibernardetia

L. masc. adjective *similis*, similar; L. fem. n. *Bernardetia*, An existing genus; *Similibernardetia*: A genus related to but distinct from the existing genus Bernardetia of similar.

Similibeutenbergia

L. masc. adjective *similis*, similar; L. fem. n. *Beutenbergia*, An existing genus; *Similibeutenbergia*: A genus related to but distinct from the existing genus Beutenbergia of similar.

Similibhargavaea

L. masc. adjective *similis*, similar; L. fem. n. *Bhargavaea*, An existing genus; *Similibhargavaea*: A genus related to but distinct from the existing genus Bhargavaea of similar.

Similibibersteinia

L. masc. adjective *similis*, similar; L. fem. n. *Bibersteinia*, An existing genus; *Similibibersteinia*: A genus related to but distinct from the existing genus Bibersteinia of similar.

Similibifidobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Bifidobacterium*, An existing genus; *Similibifidobacterium*: A genus related to but distinct from the existing genus Bifidobacterium of similar.

Similibilophila

L. masc. adjective *similis*, similar; L. fem. n. *Bilophila*, An existing genus; *Similibilophila*: A genus related to but distinct from the existing genus Bilophila of similar.

Similibiomaibacter

L. masc. adjective *similis*, similar; L. masc. n. *Biomaibacter*, An existing genus; *Similibiomaibacter*: A genus related to but distinct from the existing genus Biomaibacter of similar.

Similibiostraticola

L. masc. adjective *similis*, similar; L. masc. n. *Biostraticola*, An existing genus; *Similibiostraticola*: A genus related to but distinct from the existing genus Biostraticola of similar.

Similibisgaardia

L. masc. adjective *similis*, similar; L. fem. n. *Bisgaardia*, An existing genus; *Similibisgaardia*: A genus related to but distinct from the existing genus Bisgaardia of similar.

Similibizionia

L. masc. adjective *similis*, similar; L. fem. n. *Bizionia*, An existing genus; *Similibizionia*: A genus related to but distinct from the existing genus Bizionia of similar.

Similiblastochloris

L. masc. adjective *similis*, similar; L. fem. n. *Blastochloris*, An existing genus; *Similiblastochloris*: A genus related to but distinct from the existing genus Blastochloris of similar.

Similiblastococcus

L. masc. adjective *similis*, similar; L. masc. n. *Blastococcus*, An existing genus; *Similiblastococcus*: A genus related to but distinct from the existing genus Blastococcus of similar.

Similiblastopirellula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Blastopirellula*, An existing genus; *Similiblastopirellula*: A genus related to but distinct from the existing genus Blastopirellula of similar.

Similiblattabacterium

L. masc. adjective *similis*, similar; L. neut. n. *Blattabacterium*, An existing genus; *Similiblattabacterium*: A genus related to but distinct from the existing genus Blattabacterium of similar.

Similiblautia

L. masc. adjective *similis*, similar; L. fem. n. *Blautia*, An existing genus; *Similiblautia*: A genus related to but distinct from the existing genus Blautia of similar.

Similibogoriella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Bogoriella*, An existing genus; *Similibogoriella*: A genus related to but distinct from the existing genus Bogoriella of similar.

Similibombella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Bombella*, An existing genus; *Similibombella*: A genus related to but distinct from the existing genus Bombella of similar.

Similibombilactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Bombilactobacillus*, An existing genus; *Similibombilactobacillus*: A genus related to but distinct from the existing genus Bombilactobacillus of similar.

Similibombiscardovia

L. masc. adjective *similis*, similar; L. fem. n. *Bombiscardovia*, An existing genus; *Similibombiscardovia*: A genus related to but distinct from the existing genus Bombiscardovia of similar.

Similibordetella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Bordetella*, An existing genus; *Similibordetella*: A genus related to but distinct from the existing genus Bordetella of similar.

Similiborrelia

L. masc. adjective *similis*, similar; L. fem. n. *Borrelia*, An existing genus; *Similiborrelia*: A genus related to but distinct from the existing genus Borrelia of similar.

Similiborreliella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Borreliella*, An existing genus; *Similiborreliella*: A genus related to but distinct from the existing genus Borreliella of similar.

Similibosea

L. masc. adjective *similis*, similar; L. fem. n. *Bosea*, An existing genus; *Similibosea*: A genus related to but distinct from the existing genus Bosea of similar.

Similiboseongicola

L. masc. adjective *similis*, similar; L. masc. n. *Boseongicola*, An existing genus; *Similiboseongicola*: A genus related to but distinct from the existing genus Boseongicola of similar.

Similibotryobacter

L. masc. adjective *similis*, similar; L. masc. n. *Botryobacter*, An existing genus; *Similibotryobacter*: A genus related to but distinct from the existing genus Botryobacter of similar.

Similiboudabousia

L. masc. adjective *similis*, similar; L. fem. n. *Boudabousia*, An existing genus; *Similiboudabousia*: A genus related to but distinct from the existing genus Boudabousia of similar.

Similibounagaea

L. masc. adjective *similis*, similar; L. fem. n. *Bounagaea*, An existing genus; *Similibounagaea*: A genus related to but distinct from the existing genus Bounagaea of similar.

Similibowmanella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Bowmanella*, An existing genus; *Similibowmanella*: A genus related to but distinct from the existing genus Bowmanella of similar.

Similibrachyspira

L. masc. adjective *similis*, similar; L. fem. n. *Brachyspira*, An existing genus; *Similibrachyspira*: A genus related to but distinct from the existing genus Brachyspira of similar.

Similibradyrhizobium

L. masc. adjective *similis*, similar; L. neut. n. *Bradyrhizobium*, An existing genus; *Similibradyrhizobium*: A genus related to but distinct from the existing genus Bradyrhizobium of similar.

Similibranchiibius

L. masc. adjective *similis*, similar; L. masc. n. *Branchiibius*, An existing genus; *Similibranchiibius*: A genus related to but distinct from the existing genus Branchiibius of similar.

Similibranhamella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Branhamella*, An existing genus; *Similibranhamella*: A genus related to but distinct from the existing genus Branhamella of similar.

Similibrassicibacter

L. masc. adjective *similis*, similar; L. masc. n. *Brassicibacter*, An existing genus; *Similibrassicibacter*: A genus related to but distinct from the existing genus Brassicibacter of similar.

Similibremerella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Bremerella*, An existing genus; *Similibremerella*: A genus related to but distinct from the existing genus Bremerella of similar.

Similibrenneria

L. masc. adjective *similis*, similar; L. fem. n. *Brenneria*, An existing genus; *Similibrenneria*: A genus related to but distinct from the existing genus Brenneria of similar.

Similibreoghania

L. masc. adjective *similis*, similar; L. fem. n. *Breoghania*, An existing genus; *Similibreoghania*: A genus related to but distinct from the existing genus Breoghania of similar.

Similibrevifollis

L. masc. adjective *similis*, similar; L. masc. n. *Brevifollis*, An existing genus; *Similibrevifollis*: A genus related to but distinct from the existing genus Brevifollis of similar.

Similibrevilactibacter

L. masc. adjective *similis*, similar; L. masc. n. *Brevilactibacter*, An existing genus; *Similibrevilactibacter*: A genus related to but distinct from the existing genus Brevilactibacter of similar.

Similibrevinema

L. masc. adjective *similis*, similar; L. neut. n. *Brevinema*, An existing genus; *Similibrevinema*: A genus related to but distinct from the existing genus Brevinema of similar.

Similibrevirhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Brevirhabdus*, An existing genus; *Similibrevirhabdus*: A genus related to but distinct from the existing genus Brevirhabdus of similar.

Similibrevundimonas

L. masc. adjective *similis*, similar; L. fem. n. *Brevundimonas*, An existing genus; *Similibrevundimonas*: A genus related to but distinct from the existing genus Brevundimonas of similar.

Similibreznakia

L. masc. adjective *similis*, similar; L. fem. n. *Breznakia*, An existing genus; *Similibreznakia*: A genus related to but distinct from the existing genus Breznakia of similar.

Similibreznakibacter

L. masc. adjective *similis*, similar; L. masc. n. *Breznakibacter*, An existing genus; *Similibreznakibacter*: A genus related to but distinct from the existing genus Breznakibacter of similar.

Similibrochothrix

L. masc. adjective *similis*, similar; L. fem. n. *Brochothrix*, An existing genus; *Similibrochothrix*: A genus related to but distinct from the existing genus Brochothrix of similar.

Similibrockia

L. masc. adjective *similis*, similar; L. fem. n. *Brockia*, An existing genus; *Similibrockia*: A genus related to but distinct from the existing genus Brockia of similar.

Similibrooklawnia

L. masc. adjective *similis*, similar; L. fem. n. *Brooklawnia*, An existing genus; *Similibrooklawnia*: A genus related to but distinct from the existing genus Brooklawnia of similar.

Similibrucella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Brucella*, An existing genus; *Similibrucella*: A genus related to but distinct from the existing genus Brucella of similar.

Similibrumimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Brumimicrobium*, An existing genus; *Similibrumimicrobium*: A genus related to but distinct from the existing genus Brumimicrobium of similar.

Similibryantella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Bryantella*, An existing genus; *Similibryantella*: A genus related to but distinct from the existing genus Bryantella of similar.

Similibryobacter

L. masc. adjective *similis*, similar; L. masc. n. *Bryobacter*, An existing genus; *Similibryobacter*: A genus related to but distinct from the existing genus Bryobacter of similar.

Similibryocella

L. masc. adjective *similis*, similar; L. fem. n. *Bryocella*, An existing genus; *Similibryocella*: A genus related to but distinct from the existing genus Bryocella of similar.

Similibuchananella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Buchananella*, An existing genus; *Similibuchananella*: A genus related to but distinct from the existing genus Buchananella of similar.

Similibuchnera

L. masc. adjective *similis*, similar; L. fem. n. *Buchnera*, An existing genus; *Similibuchnera*: A genus related to but distinct from the existing genus Buchnera of similar.

Similibudvicia

L. masc. adjective *similis*, similar; L. fem. n. *Budvicia*, An existing genus; *Similibudvicia*: A genus related to but distinct from the existing genus Budvicia of similar.

Similibulleidia

L. masc. adjective *similis*, similar; L. fem. n. *Bulleidia*, An existing genus; *Similibulleidia*: A genus related to but distinct from the existing genus Bulleidia of similar.

Similiburkholderia

L. masc. adjective *similis*, similar; L. fem. n. *Burkholderia*, An existing genus; *Similiburkholderia*: A genus related to but distinct from the existing genus Burkholderia of similar.

Similibuttiauxella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Buttiauxella*, An existing genus; *Similibuttiauxella*: A genus related to but distinct from the existing genus Buttiauxella of similar.

Similibutyratibacter

L. masc. adjective *similis*, similar; L. masc. n. *Butyratibacter*, An existing genus; *Similibutyratibacter*: A genus related to but distinct from the existing genus Butyratibacter of similar.

Similibutyricicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Butyricicoccus*, An existing genus; *Similibutyricicoccus*: A genus related to but distinct from the existing genus Butyricicoccus of similar.

Similibutyrivibrio

L. masc. adjective *similis*, similar; L. masc. n. *Butyrivibrio*, An existing genus; *Similibutyrivibrio*: A genus related to but distinct from the existing genus Butyrivibrio of similar.

Similibyssophaga

L. masc. adjective *similis*, similar; L. fem. n. *Byssophaga*, An existing genus; *Similibyssophaga*: A genus related to but distinct from the existing genus Byssophaga of similar.

Similibyssovorax

L. masc. adjective *similis*, similar; L. fem. n. *Byssovorax*, An existing genus; *Similibyssovorax*: A genus related to but distinct from the existing genus Byssovorax of similar.

Similibythopirellula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Bythopirellula*, An existing genus; *Similibythopirellula*: A genus related to but distinct from the existing genus Bythopirellula of similar.

Similicaballeronia

L. masc. adjective *similis*, similar; L. fem. n. *Caballeronia*, An existing genus; *Similicaballeronia*: A genus related to but distinct from the existing genus Caballeronia of similar.

Similicaecibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Caecibacterium*, An existing genus; *Similicaecibacterium*: A genus related to but distinct from the existing genus Caecibacterium of similar.

Similicaedibacter

L. masc. adjective *similis*, similar; L. masc. n. *Caedibacter*, An existing genus; *Similicaedibacter*: A genus related to but distinct from the existing genus Caedibacter of similar.

Similicaedimonas

L. masc. adjective *similis*, similar; L. fem. n. *Caedimonas*, An existing genus; *Similicaedimonas*: A genus related to but distinct from the existing genus Caedimonas of similar.

Similicaenibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Caenibacillus*, An existing genus; *Similicaenibacillus*: A genus related to but distinct from the existing genus Caenibacillus of similar.

Similicaenibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Caenibacterium*, An existing genus; *Similicaenibacterium*: A genus related to but distinct from the existing genus Caenibacterium of similar.

Similicaenimonas

L. masc. adjective *similis*, similar; L. fem. n. *Caenimonas*, An existing genus; *Similicaenimonas*: A genus related to but distinct from the existing genus Caenimonas of similar.

Similicaenispirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Caenispirillum*, An existing genus; *Similicaenispirillum*: A genus related to but distinct from the existing genus Caenispirillum of similar.

Similicalculibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Calculibacillus*, An existing genus; *Similicalculibacillus*: A genus related to but distinct from the existing genus Calculibacillus of similar.

Similicaldalkalibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Caldalkalibacillus*, An existing genus; *Similicaldalkalibacillus*: A genus related to but distinct from the existing genus Caldalkalibacillus of similar.

Similicaldanaerobacter

L. masc. adjective *similis*, similar; L. masc. n. *Caldanaerobacter*, An existing genus; *Similicaldanaerobacter*: A genus related to but distinct from the existing genus Caldanaerobacter of similar.

Similicaldanaerobius

L. masc. adjective *similis*, similar; L. masc. n. *Caldanaerobius*, An existing genus; *Similicaldanaerobius*: A genus related to but distinct from the existing genus Caldanaerobius of similar.

Similicaldanaerovirga

L. masc. adjective *similis*, similar; L. fem. n. *Caldanaerovirga*, An existing genus; *Similicaldanaerovirga*: A genus related to but distinct from the existing genus Caldanaerovirga of similar.

Similicalderihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Calderihabitans*, An existing genus; *Similicalderihabitans*: A genus related to but distinct from the existing genus Calderihabitans of similar.

Similicalderobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Calderobacterium*, An existing genus; *Similicalderobacterium*: A genus related to but distinct from the existing genus Calderobacterium of similar.

Similicaldibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Caldibacillus*, An existing genus; *Similicaldibacillus*: A genus related to but distinct from the existing genus Caldibacillus of similar.

Similicaldicellulosiruptor

L. masc. adjective *similis*, similar; L. masc. n. *Caldicellulosiruptor*, An existing genus; *Similicaldicellulosiruptor*: A genus related to but distinct from the existing genus Caldicellulosiruptor of similar.

Similicaldicoprobacter

L. masc. adjective *similis*, similar; L. masc. n. *Caldicoprobacter*, An existing genus; *Similicaldicoprobacter*: A genus related to but distinct from the existing genus Caldicoprobacter of similar.

Similicaldilinea

L. masc. adjective *similis*, similar; L. fem. n. *Caldilinea*, An existing genus; *Similicaldilinea*: A genus related to but distinct from the existing genus Caldilinea of similar.

Similicaldimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Caldimicrobium*, An existing genus; *Similicaldimicrobium*: A genus related to but distinct from the existing genus Caldimicrobium of similar.

Similicaldimonas

L. masc. adjective *similis*, similar; L. fem. n. *Caldimonas*, An existing genus; *Similicaldimonas*: A genus related to but distinct from the existing genus Caldimonas of similar.

Similicaldinitratiruptor

L. masc. adjective *similis*, similar; L. masc. n. *Caldinitratiruptor*, An existing genus; *Similicaldinitratiruptor*: A genus related to but distinct from the existing genus Caldinitratiruptor of similar.

Similicaldisalinibacter

L. masc. adjective *similis*, similar; L. masc. n. *Caldisalinibacter*, An existing genus; *Similicaldisalinibacter*: A genus related to but distinct from the existing genus Caldisalinibacter of similar.

Similicaldisericum

L. masc. adjective *similis*, similar; L. neut. n. *Caldisericum*, An existing genus; *Similicaldisericum*: A genus related to but distinct from the existing genus Caldisericum of similar.

Similicaldisphaera

L. masc. adjective *similis*, similar; L. fem. n. *Caldisphaera*, An existing genus; *Similicaldisphaera*: A genus related to but distinct from the existing genus Caldisphaera of similar.

Similicalditerricola

L. masc. adjective *similis*, similar; L. masc. n. *Calditerricola*, An existing genus; *Similicalditerricola*: A genus related to but distinct from the existing genus Calditerricola of similar.

Similicalditerrivibrio

L. masc. adjective *similis*, similar; L. masc. n. *Calditerrivibrio*, An existing genus; *Similicalditerrivibrio*: A genus related to but distinct from the existing genus Calditerrivibrio of similar.

Similicaldithrix

L. masc. adjective *similis*, similar; L. fem. n. *Caldithrix*, An existing genus; *Similicaldithrix*: A genus related to but distinct from the existing genus Caldithrix of similar.

Similicaldovatus

L. masc. adjective *similis*, similar; L. masc. n. *Caldovatus*, An existing genus; *Similicaldovatus*: A genus related to but distinct from the existing genus Caldovatus of similar.

Similicalenema

L. masc. adjective *similis*, similar; L. neut. n. *Calenema*, An existing genus; *Similicalenema*: A genus related to but distinct from the existing genus Calenema of similar.

Similicalidifontibacter

L. masc. adjective *similis*, similar; L. masc. n. *Calidifontibacter*, An existing genus; *Similicalidifontibacter*: A genus related to but distinct from the existing genus Calidifontibacter of similar.

Similicalidifontimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Calidifontimicrobium*, An existing genus; *Similicalidifontimicrobium*: A genus related to but distinct from the existing genus Calidifontimicrobium of similar.

Similicalidithermus

L. masc. adjective *similis*, similar; L. masc. n. *Calidithermus*, An existing genus; *Similicalidithermus*: A genus related to but distinct from the existing genus Calidithermus of similar.

Similicalochaete

L. masc. adjective *similis*, similar; L. fem. n. *Calochaete*, An existing genus; *Similicalochaete*: A genus related to but distinct from the existing genus Calochaete of similar.

Similicaloramator

L. masc. adjective *similis*, similar; L. masc. n. *Caloramator*, An existing genus; *Similicaloramator*: A genus related to but distinct from the existing genus Caloramator of similar.

Similicaloranaerobacter

L. masc. adjective *similis*, similar; L. masc. n. *Caloranaerobacter*, An existing genus; *Similicaloranaerobacter*: A genus related to but distinct from the existing genus Caloranaerobacter of similar.

Similicaloribacterium

L. masc. adjective *similis*, similar; L. neut. n. *Caloribacterium*, An existing genus; *Similicaloribacterium*: A genus related to but distinct from the existing genus Caloribacterium of similar.

Similicalorimonas

L. masc. adjective *similis*, similar; L. fem. n. *Calorimonas*, An existing genus; *Similicalorimonas*: A genus related to but distinct from the existing genus Calorimonas of similar.

Similicalorithrix

L. masc. adjective *similis*, similar; L. fem. n. *Calorithrix*, An existing genus; *Similicalorithrix*: A genus related to but distinct from the existing genus Calorithrix of similar.

Similicalothrix

L. masc. adjective *similis*, similar; L. fem. n. *Calothrix*, An existing genus; *Similicalothrix*: A genus related to but distinct from the existing genus Calothrix of similar.

Similicalymmatobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Calymmatobacterium*, An existing genus; *Similicalymmatobacterium*: A genus related to but distinct from the existing genus Calymmatobacterium of similar.

Similicamelimonas

L. masc. adjective *similis*, similar; L. fem. n. *Camelimonas*, An existing genus; *Similicamelimonas*: A genus related to but distinct from the existing genus Camelimonas of similar.

Similicamelliibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Camelliibacillus*, An existing genus; *Similicamelliibacillus*: A genus related to but distinct from the existing genus Camelliibacillus of similar.

Similicaminibacter

L. masc. adjective *similis*, similar; L. masc. n. *Caminibacter*, An existing genus; *Similicaminibacter*: A genus related to but distinct from the existing genus Caminibacter of similar.

Similicaminicella

L. masc. adjective *similis*, similar; L. fem. n. *Caminicella*, An existing genus; *Similicaminicella*: A genus related to but distinct from the existing genus Caminicella of similar.

Similicampylobacter

L. masc. adjective *similis*, similar; L. masc. n. *Campylobacter*, An existing genus; *Similicampylobacter*: A genus related to but distinct from the existing genus Campylobacter of similar.

Similicanaleparolina

L. masc. adjective *similis*, similar; L. fem. n. *Canaleparolina*, An existing genus; *Similicanaleparolina*: A genus related to but distinct from the existing genus Canaleparolina of similar.

Similicandidimonas

L. masc. adjective *similis*, similar; L. fem. n. *Candidimonas*, An existing genus; *Similicandidimonas*: A genus related to but distinct from the existing genus Candidimonas of similar.

Similicanibacter

L. masc. adjective *similis*, similar; L. masc. n. *Canibacter*, An existing genus; *Similicanibacter*: A genus related to but distinct from the existing genus Canibacter of similar.

Similicapillus

L. masc. adjective *similis*, similar; L. masc. n. *Capillus*, An existing genus; *Similicapillus*: A genus related to but distinct from the existing genus Capillus of similar.

Similicapnocytophaga

L. masc. adjective *similis*, similar; L. fem. n. *Capnocytophaga*, An existing genus; *Similicapnocytophaga*: A genus related to but distinct from the existing genus Capnocytophaga of similar.

Similicaproicibacter

L. masc. adjective *similis*, similar; L. masc. n. *Caproicibacter*, An existing genus; *Similicaproicibacter*: A genus related to but distinct from the existing genus Caproicibacter of similar.

Similicaproiciproducens

L. masc. adjective *similis*, similar; L. masc. n. *Caproiciproducens*, An existing genus; *Similicaproiciproducens*: A genus related to but distinct from the existing genus Caproiciproducens of similar.

Similicapsularis

L. masc. adjective *similis*, similar; L. masc. n. *Capsularis*, An existing genus; *Similicapsularis*: A genus related to but distinct from the existing genus Capsularis of similar.

Similicapsulimonas

L. masc. adjective *similis*, similar; L. fem. n. *Capsulimonas*, An existing genus; *Similicapsulimonas*: A genus related to but distinct from the existing genus Capsulimonas of similar.

Similicarbophilus

L. masc. adjective *similis*, similar; L. masc. n. *Carbophilus*, An existing genus; *Similicarbophilus*: A genus related to but distinct from the existing genus Carbophilus of similar.

Similicarboxydocella

L. masc. adjective *similis*, similar; L. fem. n. *Carboxydocella*, An existing genus; *Similicarboxydocella*: A genus related to but distinct from the existing genus Carboxydocella of similar.

Similicarboxydothermus

L. masc. adjective *similis*, similar; L. masc. n. *Carboxydothermus*, An existing genus; *Similicarboxydothermus*: A genus related to but distinct from the existing genus Carboxydothermus of similar.

Similicardiobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Cardiobacterium*, An existing genus; *Similicardiobacterium*: A genus related to but distinct from the existing genus Cardiobacterium of similar.

Similicarideicomes

L. masc. adjective *similis*, similar; L. masc. n. *Carideicomes*, An existing genus; *Similicarideicomes*: A genus related to but distinct from the existing genus Carideicomes of similar.

Similicarnimonas

L. masc. adjective *similis*, similar; L. fem. n. *Carnimonas*, An existing genus; *Similicarnimonas*: A genus related to but distinct from the existing genus Carnimonas of similar.

Similicarnobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Carnobacterium*, An existing genus; *Similicarnobacterium*: A genus related to but distinct from the existing genus Carnobacterium of similar.

Similicartusia

L. masc. adjective *similis*, similar; L. fem. n. *Cartusia*, An existing genus; *Similicartusia*: A genus related to but distinct from the existing genus Cartusia of similar.

Similicaryophanon

L. masc. adjective *similis*, similar; L. neut. n. *Caryophanon*, An existing genus; *Similicaryophanon*: A genus related to but distinct from the existing genus Caryophanon of similar.

Similicaseobacter

L. masc. adjective *similis*, similar; L. masc. n. *Caseobacter*, An existing genus; *Similicaseobacter*: A genus related to but distinct from the existing genus Caseobacter of similar.

Similicasimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Casimicrobium*, An existing genus; *Similicasimicrobium*: A genus related to but distinct from the existing genus Casimicrobium of similar.

Similicastellaniella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Castellaniella*, An existing genus; *Similicastellaniella*: A genus related to but distinct from the existing genus Castellaniella of similar.

Similicatabacter

L. masc. adjective *similis*, similar; L. masc. n. *Catabacter*, An existing genus; *Similicatabacter*: A genus related to but distinct from the existing genus Catabacter of similar.

Similicatalinimonas

L. masc. adjective *similis*, similar; L. fem. n. *Catalinimonas*, An existing genus; *Similicatalinimonas*: A genus related to but distinct from the existing genus Catalinimonas of similar.

Similicatellatospora

L. masc. adjective *similis*, similar; L. fem. n. *Catellatospora*, An existing genus; *Similicatellatospora*: A genus related to but distinct from the existing genus Catellatospora of similar.

Similicatellibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Catellibacterium*, An existing genus; *Similicatellibacterium*: A genus related to but distinct from the existing genus Catellibacterium of similar.

Similicatellicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Catellicoccus*, An existing genus; *Similicatellicoccus*: A genus related to but distinct from the existing genus Catellicoccus of similar.

Similicatelliglobosispora

L. masc. adjective *similis*, similar; L. fem. n. *Catelliglobosispora*, An existing genus; *Similicatelliglobosispora*: A genus related to but distinct from the existing genus Catelliglobosispora of similar.

Similicatenibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Catenibacillus*, An existing genus; *Similicatenibacillus*: A genus related to but distinct from the existing genus Catenibacillus of similar.

Similicatenibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Catenibacterium*, An existing genus; *Similicatenibacterium*: A genus related to but distinct from the existing genus Catenibacterium of similar.

Similicatenisphaera

L. masc. adjective *similis*, similar; L. fem. n. *Catenisphaera*, An existing genus; *Similicatenisphaera*: A genus related to but distinct from the existing genus Catenisphaera of similar.

Similicatenococcus

L. masc. adjective *similis*, similar; L. masc. n. *Catenococcus*, An existing genus; *Similicatenococcus*: A genus related to but distinct from the existing genus Catenococcus of similar.

Similicatenovulum

L. masc. adjective *similis*, similar; L. neut. n. *Catenovulum*, An existing genus; *Similicatenovulum*: A genus related to but distinct from the existing genus Catenovulum of similar.

Similicatenulispora

L. masc. adjective *similis*, similar; L. fem. n. *Catenulispora*, An existing genus; *Similicatenulispora*: A genus related to but distinct from the existing genus Catenulispora of similar.

Similicatenuloplanes

L. masc. adjective *similis*, similar; L. masc. n. *Catenuloplanes*, An existing genus; *Similicatenuloplanes*: A genus related to but distinct from the existing genus Catenuloplanes of similar.

Similicatonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Catonella*, An existing genus; *Similicatonella*: A genus related to but distinct from the existing genus Catonella of similar.

Similicaulifigura

L. masc. adjective *similis*, similar; L. fem. n. *Caulifigura*, An existing genus; *Similicaulifigura*: A genus related to but distinct from the existing genus Caulifigura of similar.

Similicaulobacter

L. masc. adjective *similis*, similar; L. masc. n. *Caulobacter*, An existing genus; *Similicaulobacter*: A genus related to but distinct from the existing genus Caulobacter of similar.

Similicavicella

L. masc. adjective *similis*, similar; L. fem. n. *Cavicella*, An existing genus; *Similicavicella*: A genus related to but distinct from the existing genus Cavicella of similar.

Similicaviibacter

L. masc. adjective *similis*, similar; L. masc. n. *Caviibacter*, An existing genus; *Similicaviibacter*: A genus related to but distinct from the existing genus Caviibacter of similar.

Similicaviibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Caviibacterium*, An existing genus; *Similicaviibacterium*: A genus related to but distinct from the existing genus Caviibacterium of similar.

Similicecembia

L. masc. adjective *similis*, similar; L. fem. n. *Cecembia*, An existing genus; *Similicecembia*: A genus related to but distinct from the existing genus Cecembia of similar.

Similicedecea

L. masc. adjective *similis*, similar; L. fem. n. *Cedecea*, An existing genus; *Similicedecea*: A genus related to but distinct from the existing genus Cedecea of similar.

Similicelerinatantimonas

L. masc. adjective *similis*, similar; L. fem. n. *Celerinatantimonas*, An existing genus; *Similicelerinatantimonas*: A genus related to but distinct from the existing genus Celerinatantimonas of similar.

Similicellulomonas

L. masc. adjective *similis*, similar; L. fem. n. *Cellulomonas*, An existing genus; *Similicellulomonas*: A genus related to but distinct from the existing genus Cellulomonas of similar.

Similicellulophaga

L. masc. adjective *similis*, similar; L. fem. n. *Cellulophaga*, An existing genus; *Similicellulophaga*: A genus related to but distinct from the existing genus Cellulophaga of similar.

Similicellulosibacter

L. masc. adjective *similis*, similar; L. masc. n. *Cellulosibacter*, An existing genus; *Similicellulosibacter*: A genus related to but distinct from the existing genus Cellulosibacter of similar.

Similicellulosilyticum

L. masc. adjective *similis*, similar; L. neut. n. *Cellulosilyticum*, An existing genus; *Similicellulosilyticum*: A genus related to but distinct from the existing genus Cellulosilyticum of similar.

Similicellulosimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Cellulosimicrobium*, An existing genus; *Similicellulosimicrobium*: A genus related to but distinct from the existing genus Cellulosimicrobium of similar.

Similicellvibrio

L. masc. adjective *similis*, similar; L. masc. n. *Cellvibrio*, An existing genus; *Similicellvibrio*: A genus related to but distinct from the existing genus Cellvibrio of similar.

Similicenarchaeum

L. masc. adjective *similis*, similar; L. neut. n. *Cenarchaeum*, An existing genus; *Similicenarchaeum*: A genus related to but distinct from the existing genus Cenarchaeum of similar.

Similicephalothrix

L. masc. adjective *similis*, similar; L. fem. n. *Cephalothrix*, An existing genus; *Similicephalothrix*: A genus related to but distinct from the existing genus Cephalothrix of similar.

Similicephaloticoccus

L. masc. adjective *similis*, similar; L. masc. n. *Cephaloticoccus*, An existing genus; *Similicephaloticoccus*: A genus related to but distinct from the existing genus Cephaloticoccus of similar.

Similicerasibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Cerasibacillus*, An existing genus; *Similicerasibacillus*: A genus related to but distinct from the existing genus Cerasibacillus of similar.

Similicerasicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Cerasicoccus*, An existing genus; *Similicerasicoccus*: A genus related to but distinct from the existing genus Cerasicoccus of similar.

Similicereibacter

L. masc. adjective *similis*, similar; L. masc. n. *Cereibacter*, An existing genus; *Similicereibacter*: A genus related to but distinct from the existing genus Cereibacter of similar.

Similicesiribacter

L. masc. adjective *similis*, similar; L. masc. n. *Cesiribacter*, An existing genus; *Similicesiribacter*: A genus related to but distinct from the existing genus Cesiribacter of similar.

Similicetobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Cetobacterium*, An existing genus; *Similicetobacterium*: A genus related to but distinct from the existing genus Cetobacterium of similar.

Similichachezhania

L. masc. adjective *similis*, similar; L. fem. n. *Chachezhania*, An existing genus; *Similichachezhania*: A genus related to but distinct from the existing genus Chachezhania of similar.

Similichainia

L. masc. adjective *similis*, similar; L. fem. n. *Chainia*, An existing genus; *Similichainia*: A genus related to but distinct from the existing genus Chainia of similar.

Similichakia

L. masc. adjective *similis*, similar; L. fem. n. *Chakia*, An existing genus; *Similichakia*: A genus related to but distinct from the existing genus Chakia of similar.

Similichakrabartia

L. masc. adjective *similis*, similar; L. fem. n. *Chakrabartia*, An existing genus; *Similichakrabartia*: A genus related to but distinct from the existing genus Chakrabartia of similar.

Similichalicogloea

L. masc. adjective *similis*, similar; L. fem. n. *Chalicogloea*, An existing genus; *Similichalicogloea*: A genus related to but distinct from the existing genus Chalicogloea of similar.

Similichamaethrix

L. masc. adjective *similis*, similar; L. fem. n. *Chamaethrix*, An existing genus; *Similichamaethrix*: A genus related to but distinct from the existing genus Chamaethrix of similar.

Similichangchengzhania

L. masc. adjective *similis*, similar; L. fem. n. *Changchengzhania*, An existing genus; *Similichangchengzhania*: A genus related to but distinct from the existing genus Changchengzhania of similar.

Similichania

L. masc. adjective *similis*, similar; L. fem. n. *Chania*, An existing genus; *Similichania*: A genus related to but distinct from the existing genus Chania of similar.

Similicharonomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Charonomicrobium*, An existing genus; *Similicharonomicrobium*: A genus related to but distinct from the existing genus Charonomicrobium of similar.

Similichelativorans

L. masc. adjective *similis*, similar; L. masc. n. *Chelativorans*, An existing genus; *Similichelativorans*: A genus related to but distinct from the existing genus Chelativorans of similar.

Similichelatobacter

L. masc. adjective *similis*, similar; L. masc. n. *Chelatobacter*, An existing genus; *Similichelatobacter*: A genus related to but distinct from the existing genus Chelatobacter of similar.

Similichelatococcus

L. masc. adjective *similis*, similar; L. masc. n. *Chelatococcus*, An existing genus; *Similichelatococcus*: A genus related to but distinct from the existing genus Chelatococcus of similar.

Similichelonobacter

L. masc. adjective *similis*, similar; L. masc. n. *Chelonobacter*, An existing genus; *Similichelonobacter*: A genus related to but distinct from the existing genus Chelonobacter of similar.

Similichenggangzhangella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Chenggangzhangella*, An existing genus; *Similichenggangzhangella*: A genus related to but distinct from the existing genus Chenggangzhangella of similar.

Similichengkuizengella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Chengkuizengella*, An existing genus; *Similichengkuizengella*: A genus related to but distinct from the existing genus Chengkuizengella of similar.

Similichiayiivirga

L. masc. adjective *similis*, similar; L. fem. n. *Chiayiivirga*, An existing genus; *Similichiayiivirga*: A genus related to but distinct from the existing genus Chiayiivirga of similar.

Similichimaereicella

L. masc. adjective *similis*, similar; L. fem. n. *Chimaereicella*, An existing genus; *Similichimaereicella*: A genus related to but distinct from the existing genus Chimaereicella of similar.

Similichimaeribacter

L. masc. adjective *similis*, similar; L. masc. n. *Chimaeribacter*, An existing genus; *Similichimaeribacter*: A genus related to but distinct from the existing genus Chimaeribacter of similar.

Similichishuiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Chishuiella*, An existing genus; *Similichishuiella*: A genus related to but distinct from the existing genus Chishuiella of similar.

Similichitinasiproducens

L. masc. adjective *similis*, similar; L. masc. n. *Chitinasiproducens*, An existing genus; *Similichitinasiproducens*: A genus related to but distinct from the existing genus Chitinasiproducens of similar.

Similichitinibacter

L. masc. adjective *similis*, similar; L. masc. n. *Chitinibacter*, An existing genus; *Similichitinibacter*: A genus related to but distinct from the existing genus Chitinibacter of similar.

Similichitinilyticum

L. masc. adjective *similis*, similar; L. neut. n. *Chitinilyticum*, An existing genus; *Similichitinilyticum*: A genus related to but distinct from the existing genus Chitinilyticum of similar.

Similichitiniphilus

L. masc. adjective *similis*, similar; L. masc. n. *Chitiniphilus*, An existing genus; *Similichitiniphilus*: A genus related to but distinct from the existing genus Chitiniphilus of similar.

Similichitinispirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Chitinispirillum*, An existing genus; *Similichitinispirillum*: A genus related to but distinct from the existing genus Chitinispirillum of similar.

Similichitinivibrio

L. masc. adjective *similis*, similar; L. masc. n. *Chitinivibrio*, An existing genus; *Similichitinivibrio*: A genus related to but distinct from the existing genus Chitinivibrio of similar.

Similichitinivorax

L. masc. adjective *similis*, similar; L. masc. n. *Chitinivorax*, An existing genus; *Similichitinivorax*: A genus related to but distinct from the existing genus Chitinivorax of similar.

Similichitinolyticbacter

L. masc. adjective *similis*, similar; L. masc. n. *Chitinolyticbacter*, An existing genus; *Similichitinolyticbacter*: A genus related to but distinct from the existing genus Chitinolyticbacter of similar.

Similichitinophaga

L. masc. adjective *similis*, similar; L. fem. n. *Chitinophaga*, An existing genus; *Similichitinophaga*: A genus related to but distinct from the existing genus Chitinophaga of similar.

Similichlamydia

L. masc. adjective *similis*, similar; L. fem. n. *Chlamydia*, An existing genus; *Similichlamydia*: A genus related to but distinct from the existing genus Chlamydia of similar.

Similichlamydophila

L. masc. adjective *similis*, similar; L. fem. n. *Chlamydophila*, An existing genus; *Similichlamydophila*: A genus related to but distinct from the existing genus Chlamydophila of similar.

Similichloracidobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Chloracidobacterium*, An existing genus; *Similichloracidobacterium*: A genus related to but distinct from the existing genus Chloracidobacterium of similar.

Similichlorobaculum

L. masc. adjective *similis*, similar; L. neut. n. *Chlorobaculum*, An existing genus; *Similichlorobaculum*: A genus related to but distinct from the existing genus Chlorobaculum of similar.

Similichlorobium

L. masc. adjective *similis*, similar; L. neut. n. *Chlorobium*, An existing genus; *Similichlorobium*: A genus related to but distinct from the existing genus Chlorobium of similar.

Similichloroflexus

L. masc. adjective *similis*, similar; L. masc. n. *Chloroflexus*, An existing genus; *Similichloroflexus*: A genus related to but distinct from the existing genus Chloroflexus of similar.

Similichloroherpeton

L. masc. adjective *similis*, similar; L. neut. n. *Chloroherpeton*, An existing genus; *Similichloroherpeton*: A genus related to but distinct from the existing genus Chloroherpeton of similar.

Similichloronema

L. masc. adjective *similis*, similar; L. neut. n. *Chloronema*, An existing genus; *Similichloronema*: A genus related to but distinct from the existing genus Chloronema of similar.

Similichondromyces

L. masc. adjective *similis*, similar; L. masc. n. *Chondromyces*, An existing genus; *Similichondromyces*: A genus related to but distinct from the existing genus Chondromyces of similar.

Similichristensenella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Christensenella*, An existing genus; *Similichristensenella*: A genus related to but distinct from the existing genus Christensenella of similar.

Similichroakolemma

L. masc. adjective *similis*, similar; L. neut. n. *Chroakolemma*, An existing genus; *Similichroakolemma*: A genus related to but distinct from the existing genus Chroakolemma of similar.

Similichromatium

L. masc. adjective *similis*, similar; L. neut. n. *Chromatium*, An existing genus; *Similichromatium*: A genus related to but distinct from the existing genus Chromatium of similar.

Similichromatocurvus

L. masc. adjective *similis*, similar; L. masc. n. *Chromatocurvus*, An existing genus; *Similichromatocurvus*: A genus related to but distinct from the existing genus Chromatocurvus of similar.

Similichromobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Chromobacterium*, An existing genus; *Similichromobacterium*: A genus related to but distinct from the existing genus Chromobacterium of similar.

Similichromohalobacter

L. masc. adjective *similis*, similar; L. masc. n. *Chromohalobacter*, An existing genus; *Similichromohalobacter*: A genus related to but distinct from the existing genus Chromohalobacter of similar.

Similichroococcus

L. masc. adjective *similis*, similar; L. masc. n. *Chroococcus*, An existing genus; *Similichroococcus*: A genus related to but distinct from the existing genus Chroococcus of similar.

Similichryseobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Chryseobacterium*, An existing genus; *Similichryseobacterium*: A genus related to but distinct from the existing genus Chryseobacterium of similar.

Similichryseoglobus

L. masc. adjective *similis*, similar; L. masc. n. *Chryseoglobus*, An existing genus; *Similichryseoglobus*: A genus related to but distinct from the existing genus Chryseoglobus of similar.

Similichryseolinea

L. masc. adjective *similis*, similar; L. fem. n. *Chryseolinea*, An existing genus; *Similichryseolinea*: A genus related to but distinct from the existing genus Chryseolinea of similar.

Similichryseomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Chryseomicrobium*, An existing genus; *Similichryseomicrobium*: A genus related to but distinct from the existing genus Chryseomicrobium of similar.

Similichryseomonas

L. masc. adjective *similis*, similar; L. fem. n. *Chryseomonas*, An existing genus; *Similichryseomonas*: A genus related to but distinct from the existing genus Chryseomonas of similar.

Similichryseotalea

L. masc. adjective *similis*, similar; L. fem. n. *Chryseotalea*, An existing genus; *Similichryseotalea*: A genus related to but distinct from the existing genus Chryseotalea of similar.

Similichrysiogenes

L. masc. adjective *similis*, similar; L. masc. n. *Chrysiogenes*, An existing genus; *Similichrysiogenes*: A genus related to but distinct from the existing genus Chrysiogenes of similar.

Similichthoniobacter

L. masc. adjective *similis*, similar; L. masc. n. *Chthoniobacter*, An existing genus; *Similichthoniobacter*: A genus related to but distinct from the existing genus Chthoniobacter of similar.

Similichthonobacter

L. masc. adjective *similis*, similar; L. masc. n. *Chthonobacter*, An existing genus; *Similichthonobacter*: A genus related to but distinct from the existing genus Chthonobacter of similar.

Similichthonomonas

L. masc. adjective *similis*, similar; L. fem. n. *Chthonomonas*, An existing genus; *Similichthonomonas*: A genus related to but distinct from the existing genus Chthonomonas of similar.

Similichujaibacter

L. masc. adjective *similis*, similar; L. masc. n. *Chujaibacter*, An existing genus; *Similichujaibacter*: A genus related to but distinct from the existing genus Chujaibacter of similar.

Similichungangia

L. masc. adjective *similis*, similar; L. fem. n. *Chungangia*, An existing genus; *Similichungangia*: A genus related to but distinct from the existing genus Chungangia of similar.

Similiciceribacter

L. masc. adjective *similis*, similar; L. masc. n. *Ciceribacter*, An existing genus; *Similiciceribacter*: A genus related to but distinct from the existing genus Ciceribacter of similar.

Similicitreibacter

L. masc. adjective *similis*, similar; L. masc. n. *Citreibacter*, An existing genus; *Similicitreibacter*: A genus related to but distinct from the existing genus Citreibacter of similar.

Similicitreicella

L. masc. adjective *similis*, similar; L. fem. n. *Citreicella*, An existing genus; *Similicitreicella*: A genus related to but distinct from the existing genus Citreicella of similar.

Similicitreimonas

L. masc. adjective *similis*, similar; L. fem. n. *Citreimonas*, An existing genus; *Similicitreimonas*: A genus related to but distinct from the existing genus Citreimonas of similar.

Similicitreitalea

L. masc. adjective *similis*, similar; L. fem. n. *Citreitalea*, An existing genus; *Similicitreitalea*: A genus related to but distinct from the existing genus Citreitalea of similar.

Similicitricoccus

L. masc. adjective *similis*, similar; L. masc. n. *Citricoccus*, An existing genus; *Similicitricoccus*: A genus related to but distinct from the existing genus Citricoccus of similar.

Similicitrimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Citrimicrobium*, An existing genus; *Similicitrimicrobium*: A genus related to but distinct from the existing genus Citrimicrobium of similar.

Similicitrobacter

L. masc. adjective *similis*, similar; L. masc. n. *Citrobacter*, An existing genus; *Similicitrobacter*: A genus related to but distinct from the existing genus Citrobacter of similar.

Similicitromicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Citromicrobium*, An existing genus; *Similicitromicrobium*: A genus related to but distinct from the existing genus Citromicrobium of similar.

Similicitroniella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Citroniella*, An existing genus; *Similicitroniella*: A genus related to but distinct from the existing genus Citroniella of similar.

Similiclavibacter

L. masc. adjective *similis*, similar; L. masc. n. *Clavibacter*, An existing genus; *Similiclavibacter*: A genus related to but distinct from the existing genus Clavibacter of similar.

Similiclevelandina

L. masc. adjective *similis*, similar; L. fem. n. *Clevelandina*, An existing genus; *Similiclevelandina*: A genus related to but distinct from the existing genus Clevelandina of similar.

Similicloacibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Cloacibacillus*, An existing genus; *Similicloacibacillus*: A genus related to but distinct from the existing genus Cloacibacillus of similar.

Similicloacibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Cloacibacterium*, An existing genus; *Similicloacibacterium*: A genus related to but distinct from the existing genus Cloacibacterium of similar.

Similiclostridiisalibacter

L. masc. adjective *similis*, similar; L. masc. n. *Clostridiisalibacter*, An existing genus; *Similiclostridiisalibacter*: A genus related to but distinct from the existing genus Clostridiisalibacter of similar.

Similiclostridioides

L. masc. adjective *similis*, similar; L. neut. n. *Clostridioides*, An existing genus; *Similiclostridioides*: A genus related to but distinct from the existing genus Clostridioides of similar.

Similiclostridium

L. masc. adjective *similis*, similar; L. neut. dim. n. *Clostridium*, An existing genus; *Similiclostridium*: A genus related to but distinct from the existing genus Clostridium of similar.

Similicnuella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Cnuella*, An existing genus; *Similicnuella*: A genus related to but distinct from the existing genus Cnuella of similar.

Similicnuibacter

L. masc. adjective *similis*, similar; L. masc. n. *Cnuibacter*, An existing genus; *Similicnuibacter*: A genus related to but distinct from the existing genus Cnuibacter of similar.

Similicobetia

L. masc. adjective *similis*, similar; L. fem. n. *Cobetia*, An existing genus; *Similicobetia*: A genus related to but distinct from the existing genus Cobetia of similar.

Similicochleicola

L. masc. adjective *similis*, similar; L. masc. n. *Cochleicola*, An existing genus; *Similicochleicola*: A genus related to but distinct from the existing genus Cochleicola of similar.

Similicocleimonas

L. masc. adjective *similis*, similar; L. fem. n. *Cocleimonas*, An existing genus; *Similicocleimonas*: A genus related to but distinct from the existing genus Cocleimonas of similar.

Similicoenonia

L. masc. adjective *similis*, similar; L. fem. n. *Coenonia*, An existing genus; *Similicoenonia*: A genus related to but distinct from the existing genus Coenonia of similar.

Similicoetzeea

L. masc. adjective *similis*, similar; L. fem. n. *Coetzeea*, An existing genus; *Similicoetzeea*: A genus related to but distinct from the existing genus Coetzeea of similar.

Similicognaticolwellia

L. masc. adjective *similis*, similar; L. fem. n. *Cognaticolwellia*, An existing genus; *Similicognaticolwellia*: A genus related to but distinct from the existing genus Cognaticolwellia of similar.

Similicognatishimia

L. masc. adjective *similis*, similar; L. fem. n. *Cognatishimia*, An existing genus; *Similicognatishimia*: A genus related to but distinct from the existing genus Cognatishimia of similar.

Similicognatiyoonia

L. masc. adjective *similis*, similar; L. fem. n. *Cognatiyoonia*, An existing genus; *Similicognatiyoonia*: A genus related to but distinct from the existing genus Cognatiyoonia of similar.

Similicohaesibacter

L. masc. adjective *similis*, similar; L. masc. n. *Cohaesibacter*, An existing genus; *Similicohaesibacter*: A genus related to but distinct from the existing genus Cohaesibacter of similar.

Similicohnella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Cohnella*, An existing genus; *Similicohnella*: A genus related to but distinct from the existing genus Cohnella of similar.

Similicoleofasciculus

L. masc. adjective *similis*, similar; L. masc. dim. n. *Coleofasciculus*, An existing genus; *Similicoleofasciculus*: A genus related to but distinct from the existing genus Coleofasciculus of similar.

Similicollimonas

L. masc. adjective *similis*, similar; L. fem. n. *Collimonas*, An existing genus; *Similicollimonas*: A genus related to but distinct from the existing genus Collimonas of similar.

Similicollinsella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Collinsella*, An existing genus; *Similicollinsella*: A genus related to but distinct from the existing genus Collinsella of similar.

Similicolteronema

L. masc. adjective *similis*, similar; L. neut. n. *Colteronema*, An existing genus; *Similicolteronema*: A genus related to but distinct from the existing genus Colteronema of similar.

Similicolwellia

L. masc. adjective *similis*, similar; L. fem. n. *Colwellia*, An existing genus; *Similicolwellia*: A genus related to but distinct from the existing genus Colwellia of similar.

Similicomamonas

L. masc. adjective *similis*, similar; L. fem. n. *Comamonas*, An existing genus; *Similicomamonas*: A genus related to but distinct from the existing genus Comamonas of similar.

Similicommensalibacter

L. masc. adjective *similis*, similar; L. masc. n. *Commensalibacter*, An existing genus; *Similicommensalibacter*: A genus related to but distinct from the existing genus Commensalibacter of similar.

Similicompactonostoc

L. masc. adjective *similis*, similar; L. neut. n. *Compactonostoc*, An existing genus; *Similicompactonostoc*: A genus related to but distinct from the existing genus Compactonostoc of similar.

Similicompanilactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Companilactobacillus*, An existing genus; *Similicompanilactobacillus*: A genus related to but distinct from the existing genus Companilactobacillus of similar.

Similicompostibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Compostibacillus*, An existing genus; *Similicompostibacillus*: A genus related to but distinct from the existing genus Compostibacillus of similar.

Similicompostimonas

L. masc. adjective *similis*, similar; L. fem. n. *Compostimonas*, An existing genus; *Similicompostimonas*: A genus related to but distinct from the existing genus Compostimonas of similar.

Similiconchiformibius

L. masc. adjective *similis*, similar; L. masc. n. *Conchiformibius*, An existing genus; *Similiconchiformibius*: A genus related to but distinct from the existing genus Conchiformibius of similar.

Similiconexibacter

L. masc. adjective *similis*, similar; L. masc. n. *Conexibacter*, An existing genus; *Similiconexibacter*: A genus related to but distinct from the existing genus Conexibacter of similar.

Similiconfluentibacter

L. masc. adjective *similis*, similar; L. masc. n. *Confluentibacter*, An existing genus; *Similiconfluentibacter*: A genus related to but distinct from the existing genus Confluentibacter of similar.

Similiconfluentimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Confluentimicrobium*, An existing genus; *Similiconfluentimicrobium*: A genus related to but distinct from the existing genus Confluentimicrobium of similar.

Similiconglomeromonas

L. masc. adjective *similis*, similar; L. fem. n. *Conglomeromonas*, An existing genus; *Similiconglomeromonas*: A genus related to but distinct from the existing genus Conglomeromonas of similar.

Similicongregibacter

L. masc. adjective *similis*, similar; L. masc. n. *Congregibacter*, An existing genus; *Similicongregibacter*: A genus related to but distinct from the existing genus Congregibacter of similar.

Similiconservatibacter

L. masc. adjective *similis*, similar; L. masc. n. *Conservatibacter*, An existing genus; *Similiconservatibacter*: A genus related to but distinct from the existing genus Conservatibacter of similar.

Similiconsotaella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Consotaella*, An existing genus; *Similiconsotaella*: A genus related to but distinct from the existing genus Consotaella of similar.

Similiconstrictibacter

L. masc. adjective *similis*, similar; L. masc. n. *Constrictibacter*, An existing genus; *Similiconstrictibacter*: A genus related to but distinct from the existing genus Constrictibacter of similar.

Similiconvivina

L. masc. adjective *similis*, similar; L. fem. n. *Convivina*, An existing genus; *Similiconvivina*: A genus related to but distinct from the existing genus Convivina of similar.

Similiconyzicola

L. masc. adjective *similis*, similar; L. fem. n. *Conyzicola*, An existing genus; *Similiconyzicola*: A genus related to but distinct from the existing genus Conyzicola of similar.

Similicoprobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Coprobacillus*, An existing genus; *Similicoprobacillus*: A genus related to but distinct from the existing genus Coprobacillus of similar.

Similicoprobacter

L. masc. adjective *similis*, similar; L. masc. n. *Coprobacter*, An existing genus; *Similicoprobacter*: A genus related to but distinct from the existing genus Coprobacter of similar.

Similicoprococcus

L. masc. adjective *similis*, similar; L. masc. n. *Coprococcus*, An existing genus; *Similicoprococcus*: A genus related to but distinct from the existing genus Coprococcus of similar.

Similicoprothermobacter

L. masc. adjective *similis*, similar; L. masc. n. *Coprothermobacter*, An existing genus; *Similicoprothermobacter*: A genus related to but distinct from the existing genus Coprothermobacter of similar.

Similicoraliitalea

L. masc. adjective *similis*, similar; L. fem. n. *Coraliitalea*, An existing genus; *Similicoraliitalea*: A genus related to but distinct from the existing genus Coraliitalea of similar.

Similicoraliomargarita

L. masc. adjective *similis*, similar; L. fem. n. *Coraliomargarita*, An existing genus; *Similicoraliomargarita*: A genus related to but distinct from the existing genus Coraliomargarita of similar.

Similicorallibacter

L. masc. adjective *similis*, similar; L. masc. n. *Corallibacter*, An existing genus; *Similicorallibacter*: A genus related to but distinct from the existing genus Corallibacter of similar.

Similicorallincola

L. masc. adjective *similis*, similar; L. masc. n. *Corallincola*, An existing genus; *Similicorallincola*: A genus related to but distinct from the existing genus Corallincola of similar.

Similicorallococcus

L. masc. adjective *similis*, similar; L. masc. n. *Corallococcus*, An existing genus; *Similicorallococcus*: A genus related to but distinct from the existing genus Corallococcus of similar.

Similicoralloluteibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Coralloluteibacterium*, An existing genus; *Similicoralloluteibacterium*: A genus related to but distinct from the existing genus Coralloluteibacterium of similar.

Similicorallomonas

L. masc. adjective *similis*, similar; L. fem. n. *Corallomonas*, An existing genus; *Similicorallomonas*: A genus related to but distinct from the existing genus Corallomonas of similar.

Similicoralslurrinella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Coralslurrinella*, An existing genus; *Similicoralslurrinella*: A genus related to but distinct from the existing genus Coralslurrinella of similar.

Similicorticicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Corticicoccus*, An existing genus; *Similicorticicoccus*: A genus related to but distinct from the existing genus Corticicoccus of similar.

Similicorynebacterium

L. masc. adjective *similis*, similar; L. neut. n. *Corynebacterium*, An existing genus; *Similicorynebacterium*: A genus related to but distinct from the existing genus Corynebacterium of similar.

Similicosenzaea

L. masc. adjective *similis*, similar; L. fem. n. *Cosenzaea*, An existing genus; *Similicosenzaea*: A genus related to but distinct from the existing genus Cosenzaea of similar.

Similicostertonia

L. masc. adjective *similis*, similar; L. fem. n. *Costertonia*, An existing genus; *Similicostertonia*: A genus related to but distinct from the existing genus Costertonia of similar.

Similicouchioplanes

L. masc. adjective *similis*, similar; L. masc. n. *Couchioplanes*, An existing genus; *Similicouchioplanes*: A genus related to but distinct from the existing genus Couchioplanes of similar.

Similicowdria

L. masc. adjective *similis*, similar; L. fem. n. *Cowdria*, An existing genus; *Similicowdria*: A genus related to but distinct from the existing genus Cowdria of similar.

Similicoxiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Coxiella*, An existing genus; *Similicoxiella*: A genus related to but distinct from the existing genus Coxiella of similar.

Similicrabtreella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Crabtreella*, An existing genus; *Similicrabtreella*: A genus related to but distinct from the existing genus Crabtreella of similar.

Similicrassaminicella

L. masc. adjective *similis*, similar; L. fem. n. *Crassaminicella*, An existing genus; *Similicrassaminicella*: A genus related to but distinct from the existing genus Crassaminicella of similar.

Similicrateriforma

L. masc. adjective *similis*, similar; L. fem. n. *Crateriforma*, An existing genus; *Similicrateriforma*: A genus related to but distinct from the existing genus Crateriforma of similar.

Similicraterilacuibacter

L. masc. adjective *similis*, similar; L. masc. n. *Craterilacuibacter*, An existing genus; *Similicraterilacuibacter*: A genus related to but distinct from the existing genus Craterilacuibacter of similar.

Similicraurococcus

L. masc. adjective *similis*, similar; L. masc. n. *Craurococcus*, An existing genus; *Similicraurococcus*: A genus related to but distinct from the existing genus Craurococcus of similar.

Similicrenalkalicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Crenalkalicoccus*, An existing genus; *Similicrenalkalicoccus*: A genus related to but distinct from the existing genus Crenalkalicoccus of similar.

Similicrenotalea

L. masc. adjective *similis*, similar; L. fem. n. *Crenotalea*, An existing genus; *Similicrenotalea*: A genus related to but distinct from the existing genus Crenotalea of similar.

Similicriblamydia

L. masc. adjective *similis*, similar; L. fem. n. *Criblamydia*, An existing genus; *Similicriblamydia*: A genus related to but distinct from the existing genus Criblamydia of similar.

Similicribrihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Cribrihabitans*, An existing genus; *Similicribrihabitans*: A genus related to but distinct from the existing genus Cribrihabitans of similar.

Similicricetibacter

L. masc. adjective *similis*, similar; L. masc. n. *Cricetibacter*, An existing genus; *Similicricetibacter*: A genus related to but distinct from the existing genus Cricetibacter of similar.

Similicristispira

L. masc. adjective *similis*, similar; L. fem. n. *Cristispira*, An existing genus; *Similicristispira*: A genus related to but distinct from the existing genus Cristispira of similar.

Similicroceibacter

L. masc. adjective *similis*, similar; L. masc. n. *Croceibacter*, An existing genus; *Similicroceibacter*: A genus related to but distinct from the existing genus Croceibacter of similar.

Similicroceibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Croceibacterium*, An existing genus; *Similicroceibacterium*: A genus related to but distinct from the existing genus Croceibacterium of similar.

Similicroceicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Croceicoccus*, An existing genus; *Similicroceicoccus*: A genus related to but distinct from the existing genus Croceicoccus of similar.

Similicroceifilum

L. masc. adjective *similis*, similar; L. neut. n. *Croceifilum*, An existing genus; *Similicroceifilum*: A genus related to but distinct from the existing genus Croceifilum of similar.

Similicroceitalea

L. masc. adjective *similis*, similar; L. fem. n. *Croceitalea*, An existing genus; *Similicroceitalea*: A genus related to but distinct from the existing genus Croceitalea of similar.

Similicroceivirga

L. masc. adjective *similis*, similar; L. fem. n. *Croceivirga*, An existing genus; *Similicroceivirga*: A genus related to but distinct from the existing genus Croceivirga of similar.

Similicrocinitomix

L. masc. adjective *similis*, similar; L. fem. n. *Crocinitomix*, An existing genus; *Similicrocinitomix*: A genus related to but distinct from the existing genus Crocinitomix of similar.

Similicrocosphaera

L. masc. adjective *similis*, similar; L. fem. n. *Crocosphaera*, An existing genus; *Similicrocosphaera*: A genus related to but distinct from the existing genus Crocosphaera of similar.

Similicronobacter

L. masc. adjective *similis*, similar; L. masc. n. *Cronobacter*, An existing genus; *Similicronobacter*: A genus related to but distinct from the existing genus Cronobacter of similar.

Similicrossiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Crossiella*, An existing genus; *Similicrossiella*: A genus related to but distinct from the existing genus Crossiella of similar.

Similicruoricaptor

L. masc. adjective *similis*, similar; L. masc. n. *Cruoricaptor*, An existing genus; *Similicruoricaptor*: A genus related to but distinct from the existing genus Cruoricaptor of similar.

Similicryobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Cryobacterium*, An existing genus; *Similicryobacterium*: A genus related to but distinct from the existing genus Cryobacterium of similar.

Similicryomorpha

L. masc. adjective *similis*, similar; L. fem. n. *Cryomorpha*, An existing genus; *Similicryomorpha*: A genus related to but distinct from the existing genus Cryomorpha of similar.

Similicryptanaerobacter

L. masc. adjective *similis*, similar; L. masc. n. *Cryptanaerobacter*, An existing genus; *Similicryptanaerobacter*: A genus related to but distinct from the existing genus Cryptanaerobacter of similar.

Similicryptobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Cryptobacterium*, An existing genus; *Similicryptobacterium*: A genus related to but distinct from the existing genus Cryptobacterium of similar.

Similicryptococcum

L. masc. adjective *similis*, similar; L. neut. n. *Cryptococcum*, An existing genus; *Similicryptococcum*: A genus related to but distinct from the existing genus Cryptococcum of similar.

Similicryptosporangium

L. masc. adjective *similis*, similar; L. neut. n. *Cryptosporangium*, An existing genus; *Similicryptosporangium*: A genus related to but distinct from the existing genus Cryptosporangium of similar.

Similicucumibacter

L. masc. adjective *similis*, similar; L. masc. n. *Cucumibacter*, An existing genus; *Similicucumibacter*: A genus related to but distinct from the existing genus Cucumibacter of similar.

Similicumulibacter

L. masc. adjective *similis*, similar; L. masc. n. *Cumulibacter*, An existing genus; *Similicumulibacter*: A genus related to but distinct from the existing genus Cumulibacter of similar.

Similicuneatibacter

L. masc. adjective *similis*, similar; L. masc. n. *Cuneatibacter*, An existing genus; *Similicuneatibacter*: A genus related to but distinct from the existing genus Cuneatibacter of similar.

Similicuniculiplasma

L. masc. adjective *similis*, similar; L. neut. n. *Cuniculiplasma*, An existing genus; *Similicuniculiplasma*: A genus related to but distinct from the existing genus Cuniculiplasma of similar.

Similicupriavidus

L. masc. adjective *similis*, similar; L. masc. n. *Cupriavidus*, An existing genus; *Similicupriavidus*: A genus related to but distinct from the existing genus Cupriavidus of similar.

Similicurtobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Curtobacterium*, An existing genus; *Similicurtobacterium*: A genus related to but distinct from the existing genus Curtobacterium of similar.

Similicurvibacter

L. masc. adjective *similis*, similar; L. masc. n. *Curvibacter*, An existing genus; *Similicurvibacter*: A genus related to but distinct from the existing genus Curvibacter of similar.

Similicutibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Cutibacterium*, An existing genus; *Similicutibacterium*: A genus related to but distinct from the existing genus Cutibacterium of similar.

Similicyanocohniella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Cyanocohniella*, An existing genus; *Similicyanocohniella*: A genus related to but distinct from the existing genus Cyanocohniella of similar.

Similicyanocomperia

L. masc. adjective *similis*, similar; L. fem. n. *Cyanocomperia*, An existing genus; *Similicyanocomperia*: A genus related to but distinct from the existing genus Cyanocomperia of similar.

Similicyanoderma

L. masc. adjective *similis*, similar; L. neut. n. *Cyanoderma*, An existing genus; *Similicyanoderma*: A genus related to but distinct from the existing genus Cyanoderma of similar.

Similicyanosaccus

L. masc. adjective *similis*, similar; L. masc. n. *Cyanosaccus*, An existing genus; *Similicyanosaccus*: A genus related to but distinct from the existing genus Cyanosaccus of similar.

Similicyclobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Cyclobacterium*, An existing genus; *Similicyclobacterium*: A genus related to but distinct from the existing genus Cyclobacterium of similar.

Similicycloclasticus

L. masc. adjective *similis*, similar; L. masc. n. *Cycloclasticus*, An existing genus; *Similicycloclasticus*: A genus related to but distinct from the existing genus Cycloclasticus of similar.

Similicysteiniphilum

L. masc. adjective *similis*, similar; L. neut. n. *Cysteiniphilum*, An existing genus; *Similicysteiniphilum*: A genus related to but distinct from the existing genus Cysteiniphilum of similar.

Similicystobacter

L. masc. adjective *similis*, similar; L. masc. n. *Cystobacter*, An existing genus; *Similicystobacter*: A genus related to but distinct from the existing genus Cystobacter of similar.

Similicytobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Cytobacillus*, An existing genus; *Similicytobacillus*: A genus related to but distinct from the existing genus Cytobacillus of similar.

Similicytophaga

L. masc. adjective *similis*, similar; L. fem. n. *Cytophaga*, An existing genus; *Similicytophaga*: A genus related to but distinct from the existing genus Cytophaga of similar.

Similidactylosporangium

L. masc. adjective *similis*, similar; L. neut. n. *Dactylosporangium*, An existing genus; *Similidactylosporangium*: A genus related to but distinct from the existing genus Dactylosporangium of similar.

Similidaeguia

L. masc. adjective *similis*, similar; L. fem. n. *Daeguia*, An existing genus; *Similidaeguia*: A genus related to but distinct from the existing genus Daeguia of similar.

Similidaejeonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Daejeonella*, An existing genus; *Similidaejeonella*: A genus related to but distinct from the existing genus Daejeonella of similar.

Similidaejeonia

L. masc. adjective *similis*, similar; L. fem. n. *Daejeonia*, An existing genus; *Similidaejeonia*: A genus related to but distinct from the existing genus Daejeonia of similar.

Similidankookia

L. masc. adjective *similis*, similar; L. fem. n. *Dankookia*, An existing genus; *Similidankookia*: A genus related to but distinct from the existing genus Dankookia of similar.

Similidaptobacter

L. masc. adjective *similis*, similar; L. masc. n. *Daptobacter*, An existing genus; *Similidaptobacter*: A genus related to but distinct from the existing genus Daptobacter of similar.

Similidasania

L. masc. adjective *similis*, similar; L. fem. n. *Dasania*, An existing genus; *Similidasania*: A genus related to but distinct from the existing genus Dasania of similar.

Similidechlorobacter

L. masc. adjective *similis*, similar; L. masc. n. *Dechlorobacter*, An existing genus; *Similidechlorobacter*: A genus related to but distinct from the existing genus Dechlorobacter of similar.

Similidechloromonas

L. masc. adjective *similis*, similar; L. fem. n. *Dechloromonas*, An existing genus; *Similidechloromonas*: A genus related to but distinct from the existing genus Dechloromonas of similar.

Similidechlorosoma

L. masc. adjective *similis*, similar; L. neut. n. *Dechlorosoma*, An existing genus; *Similidechlorosoma*: A genus related to but distinct from the existing genus Dechlorosoma of similar.

Similideefgea

L. masc. adjective *similis*, similar; L. fem. n. *Deefgea*, An existing genus; *Similideefgea*: A genus related to but distinct from the existing genus Deefgea of similar.

Similideferribacter

L. masc. adjective *similis*, similar; L. masc. n. *Deferribacter*, An existing genus; *Similideferribacter*: A genus related to but distinct from the existing genus Deferribacter of similar.

Similideferrisoma

L. masc. adjective *similis*, similar; L. neut. n. *Deferrisoma*, An existing genus; *Similideferrisoma*: A genus related to but distinct from the existing genus Deferrisoma of similar.

Similidefluvibacter

L. masc. adjective *similis*, similar; L. masc. n. *Defluvibacter*, An existing genus; *Similidefluvibacter*: A genus related to but distinct from the existing genus Defluvibacter of similar.

Similidefluviicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Defluviicoccus*, An existing genus; *Similidefluviicoccus*: A genus related to but distinct from the existing genus Defluviicoccus of similar.

Similidefluviimonas

L. masc. adjective *similis*, similar; L. fem. n. *Defluviimonas*, An existing genus; *Similidefluviimonas*: A genus related to but distinct from the existing genus Defluviimonas of similar.

Similidefluviitalea

L. masc. adjective *similis*, similar; L. fem. n. *Defluviitalea*, An existing genus; *Similidefluviitalea*: A genus related to but distinct from the existing genus Defluviitalea of similar.

Similidefluviitoga

L. masc. adjective *similis*, similar; L. fem. n. *Defluviitoga*, An existing genus; *Similidefluviitoga*: A genus related to but distinct from the existing genus Defluviitoga of similar.

Similidehalobacter

L. masc. adjective *similis*, similar; L. masc. n. *Dehalobacter*, An existing genus; *Similidehalobacter*: A genus related to but distinct from the existing genus Dehalobacter of similar.

Similidehalobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Dehalobacterium*, An existing genus; *Similidehalobacterium*: A genus related to but distinct from the existing genus Dehalobacterium of similar.

Similidehalogenimonas

L. masc. adjective *similis*, similar; L. fem. n. *Dehalogenimonas*, An existing genus; *Similidehalogenimonas*: A genus related to but distinct from the existing genus Dehalogenimonas of similar.

Similideinobacter

L. masc. adjective *similis*, similar; L. masc. n. *Deinobacter*, An existing genus; *Similideinobacter*: A genus related to but distinct from the existing genus Deinobacter of similar.

Similideinobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Deinobacterium*, An existing genus; *Similideinobacterium*: A genus related to but distinct from the existing genus Deinobacterium of similar.

Similideinococcus

L. masc. adjective *similis*, similar; L. masc. n. *Deinococcus*, An existing genus; *Similideinococcus*: A genus related to but distinct from the existing genus Deinococcus of similar.

Similideleya

L. masc. adjective *similis*, similar; L. fem. n. *Deleya*, An existing genus; *Similideleya*: A genus related to but distinct from the existing genus Deleya of similar.

Similidelftia

L. masc. adjective *similis*, similar; L. fem. n. *Delftia*, An existing genus; *Similidelftia*: A genus related to but distinct from the existing genus Delftia of similar.

Similidellaglioa

L. masc. adjective *similis*, similar; L. fem. n. *Dellaglioa*, An existing genus; *Similidellaglioa*: A genus related to but distinct from the existing genus Dellaglioa of similar.

Similidemequina

L. masc. adjective *similis*, similar; L. fem. n. *Demequina*, An existing genus; *Similidemequina*: A genus related to but distinct from the existing genus Demequina of similar.

Similidemetria

L. masc. adjective *similis*, similar; L. fem. n. *Demetria*, An existing genus; *Similidemetria*: A genus related to but distinct from the existing genus Demetria of similar.

Similideminuibacter

L. masc. adjective *similis*, similar; L. masc. n. *Deminuibacter*, An existing genus; *Similideminuibacter*: A genus related to but distinct from the existing genus Deminuibacter of similar.

Similidenitratimonas

L. masc. adjective *similis*, similar; L. fem. n. *Denitratimonas*, An existing genus; *Similidenitratimonas*: A genus related to but distinct from the existing genus Denitratimonas of similar.

Similidenitratisoma

L. masc. adjective *similis*, similar; L. neut. n. *Denitratisoma*, An existing genus; *Similidenitratisoma*: A genus related to but distinct from the existing genus Denitratisoma of similar.

Similidenitrobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Denitrobacterium*, An existing genus; *Similidenitrobacterium*: A genus related to but distinct from the existing genus Denitrobacterium of similar.

Similidenitrobaculum

L. masc. adjective *similis*, similar; L. neut. n. *Denitrobaculum*, An existing genus; *Similidenitrobaculum*: A genus related to but distinct from the existing genus Denitrobaculum of similar.

Similidenitrovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Denitrovibrio*, An existing genus; *Similidenitrovibrio*: A genus related to but distinct from the existing genus Denitrovibrio of similar.

Similidermacoccus

L. masc. adjective *similis*, similar; L. masc. n. *Dermacoccus*, An existing genus; *Similidermacoccus*: A genus related to but distinct from the existing genus Dermacoccus of similar.

Similidermatophilus

L. masc. adjective *similis*, similar; L. masc. n. *Dermatophilus*, An existing genus; *Similidermatophilus*: A genus related to but distinct from the existing genus Dermatophilus of similar.

Similiderxia

L. masc. adjective *similis*, similar; L. fem. n. *Derxia*, An existing genus; *Similiderxia*: A genus related to but distinct from the existing genus Derxia of similar.

Similidesemzia

L. masc. adjective *similis*, similar; L. fem. n. *Desemzia*, An existing genus; *Similidesemzia*: A genus related to but distinct from the existing genus Desemzia of similar.

Similidesertibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Desertibacillus*, An existing genus; *Similidesertibacillus*: A genus related to but distinct from the existing genus Desertibacillus of similar.

Similidesertibacter

L. masc. adjective *similis*, similar; L. masc. n. *Desertibacter*, An existing genus; *Similidesertibacter*: A genus related to but distinct from the existing genus Desertibacter of similar.

Similidesertifilum

L. masc. adjective *similis*, similar; L. neut. n. *Desertifilum*, An existing genus; *Similidesertifilum*: A genus related to but distinct from the existing genus Desertifilum of similar.

Similidesertihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Desertihabitans*, An existing genus; *Similidesertihabitans*: A genus related to but distinct from the existing genus Desertihabitans of similar.

Similidesertimonas

L. masc. adjective *similis*, similar; L. fem. n. *Desertimonas*, An existing genus; *Similidesertimonas*: A genus related to but distinct from the existing genus Desertimonas of similar.

Similidesikacharya

L. masc. adjective *similis*, similar; L. fem. n. *Desikacharya*, An existing genus; *Similidesikacharya*: A genus related to but distinct from the existing genus Desikacharya of similar.

Similidesmospora

L. masc. adjective *similis*, similar; L. fem. n. *Desmospora*, An existing genus; *Similidesmospora*: A genus related to but distinct from the existing genus Desmospora of similar.

Similidesnuesiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Desnuesiella*, An existing genus; *Similidesnuesiella*: A genus related to but distinct from the existing genus Desnuesiella of similar.

Similidesulfacinum

L. masc. adjective *similis*, similar; L. neut. n. *Desulfacinum*, An existing genus; *Similidesulfacinum*: A genus related to but distinct from the existing genus Desulfacinum of similar.

Similidesulfallas

L. masc. adjective *similis*, similar; L. masc. n. *Desulfallas*, An existing genus; *Similidesulfallas*: A genus related to but distinct from the existing genus Desulfallas of similar.

Similidesulfarculus

L. masc. adjective *similis*, similar; L. masc. n. *Desulfarculus*, An existing genus; *Similidesulfarculus*: A genus related to but distinct from the existing genus Desulfarculus of similar.

Similidesulfatibacillum

L. masc. adjective *similis*, similar; L. neut. n. *Desulfatibacillum*, An existing genus; *Similidesulfatibacillum*: A genus related to but distinct from the existing genus Desulfatibacillum of similar.

Similidesulfatiferula

L. masc. adjective *similis*, similar; L. fem. n. *Desulfatiferula*, An existing genus; *Similidesulfatiferula*: A genus related to but distinct from the existing genus Desulfatiferula of similar.

Similidesulfatiglans

L. masc. adjective *similis*, similar; L. fem. n. *Desulfatiglans*, An existing genus; *Similidesulfatiglans*: A genus related to but distinct from the existing genus Desulfatiglans of similar.

Similidesulfatirhabdium

L. masc. adjective *similis*, similar; L. neut. dim. n. *Desulfatirhabdium*, An existing genus; *Similidesulfatirhabdium*: A genus related to but distinct from the existing genus Desulfatirhabdium of similar.

Similidesulfatitalea

L. masc. adjective *similis*, similar; L. fem. n. *Desulfatitalea*, An existing genus; *Similidesulfatitalea*: A genus related to but distinct from the existing genus Desulfatitalea of similar.

Similidesulfitibacter

L. masc. adjective *similis*, similar; L. masc. n. *Desulfitibacter*, An existing genus; *Similidesulfitibacter*: A genus related to but distinct from the existing genus Desulfitibacter of similar.

Similidesulfitispora

L. masc. adjective *similis*, similar; L. fem. n. *Desulfitispora*, An existing genus; *Similidesulfitispora*: A genus related to but distinct from the existing genus Desulfitispora of similar.

Similidesulfitobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Desulfitobacterium*, An existing genus; *Similidesulfitobacterium*: A genus related to but distinct from the existing genus Desulfitobacterium of similar.

Similidesulfobacca

L. masc. adjective *similis*, similar; L. fem. n. *Desulfobacca*, An existing genus; *Similidesulfobacca*: A genus related to but distinct from the existing genus Desulfobacca of similar.

Similidesulfobacter

L. masc. adjective *similis*, similar; L. masc. n. *Desulfobacter*, An existing genus; *Similidesulfobacter*: A genus related to but distinct from the existing genus Desulfobacter of similar.

Similidesulfobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Desulfobacterium*, An existing genus; *Similidesulfobacterium*: A genus related to but distinct from the existing genus Desulfobacterium of similar.

Similidesulfobacula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Desulfobacula*, An existing genus; *Similidesulfobacula*: A genus related to but distinct from the existing genus Desulfobacula of similar.

Similidesulfobaculum

L. masc. adjective *similis*, similar; L. neut. n. *Desulfobaculum*, An existing genus; *Similidesulfobaculum*: A genus related to but distinct from the existing genus Desulfobaculum of similar.

Similidesulfobotulus

L. masc. adjective *similis*, similar; L. masc. n. *Desulfobotulus*, An existing genus; *Similidesulfobotulus*: A genus related to but distinct from the existing genus Desulfobotulus of similar.

Similidesulfobulbus

L. masc. adjective *similis*, similar; L. masc. n. *Desulfobulbus*, An existing genus; *Similidesulfobulbus*: A genus related to but distinct from the existing genus Desulfobulbus of similar.

Similidesulfocapsa

L. masc. adjective *similis*, similar; L. fem. n. *Desulfocapsa*, An existing genus; *Similidesulfocapsa*: A genus related to but distinct from the existing genus Desulfocapsa of similar.

Similidesulfocarbo

L. masc. adjective *similis*, similar; L. masc. n. *Desulfocarbo*, An existing genus; *Similidesulfocarbo*: A genus related to but distinct from the existing genus Desulfocarbo of similar.

Similidesulfocella

L. masc. adjective *similis*, similar; L. fem. n. *Desulfocella*, An existing genus; *Similidesulfocella*: A genus related to but distinct from the existing genus Desulfocella of similar.

Similidesulfococcus

L. masc. adjective *similis*, similar; L. masc. n. *Desulfococcus*, An existing genus; *Similidesulfococcus*: A genus related to but distinct from the existing genus Desulfococcus of similar.

Similidesulfocucumis

L. masc. adjective *similis*, similar; L. masc. n. *Desulfocucumis*, An existing genus; *Similidesulfocucumis*: A genus related to but distinct from the existing genus Desulfocucumis of similar.

Similidesulfocurvibacter

L. masc. adjective *similis*, similar; L. masc. n. *Desulfocurvibacter*, An existing genus; *Similidesulfocurvibacter*: A genus related to but distinct from the existing genus Desulfocurvibacter of similar.

Similidesulfocurvus

L. masc. adjective *similis*, similar; L. masc. n. *Desulfocurvus*, An existing genus; *Similidesulfocurvus*: A genus related to but distinct from the existing genus Desulfocurvus of similar.

Similidesulfofaba

L. masc. adjective *similis*, similar; L. fem. n. *Desulfofaba*, An existing genus; *Similidesulfofaba*: A genus related to but distinct from the existing genus Desulfofaba of similar.

Similidesulfofarcimen

L. masc. adjective *similis*, similar; L. neut. n. *Desulfofarcimen*, An existing genus; *Similidesulfofarcimen*: A genus related to but distinct from the existing genus Desulfofarcimen of similar.

Similidesulfofrigus

L. masc. adjective *similis*, similar; L. neut. n. *Desulfofrigus*, An existing genus; *Similidesulfofrigus*: A genus related to but distinct from the existing genus Desulfofrigus of similar.

Similidesulfofundulus

L. masc. adjective *similis*, similar; L. masc. n. *Desulfofundulus*, An existing genus; *Similidesulfofundulus*: A genus related to but distinct from the existing genus Desulfofundulus of similar.

Similidesulfofustis

L. masc. adjective *similis*, similar; L. masc. n. *Desulfofustis*, An existing genus; *Similidesulfofustis*: A genus related to but distinct from the existing genus Desulfofustis of similar.

Similidesulfoglaeba

L. masc. adjective *similis*, similar; L. fem. n. *Desulfoglaeba*, An existing genus; *Similidesulfoglaeba*: A genus related to but distinct from the existing genus Desulfoglaeba of similar.

Similidesulfohalobium

L. masc. adjective *similis*, similar; L. neut. n. *Desulfohalobium*, An existing genus; *Similidesulfohalobium*: A genus related to but distinct from the existing genus Desulfohalobium of similar.

Similidesulfohalophilus

L. masc. adjective *similis*, similar; L. masc. n. *Desulfohalophilus*, An existing genus; *Similidesulfohalophilus*: A genus related to but distinct from the existing genus Desulfohalophilus of similar.

Similidesulfohalotomaculum

L. masc. adjective *similis*, similar; L. neut. n. *Desulfohalotomaculum*, An existing genus; *Similidesulfohalotomaculum*: A genus related to but distinct from the existing genus Desulfohalotomaculum of similar.

Similidesulfohalovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Desulfohalovibrio*, An existing genus; *Similidesulfohalovibrio*: A genus related to but distinct from the existing genus Desulfohalovibrio of similar.

Similidesulfoluna

L. masc. adjective *similis*, similar; L. fem. n. *Desulfoluna*, An existing genus; *Similidesulfoluna*: A genus related to but distinct from the existing genus Desulfoluna of similar.

Similidesulfomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Desulfomicrobium*, An existing genus; *Similidesulfomicrobium*: A genus related to but distinct from the existing genus Desulfomicrobium of similar.

Similidesulfomonas

L. masc. adjective *similis*, similar; L. fem. n. *Desulfomonas*, An existing genus; *Similidesulfomonas*: A genus related to but distinct from the existing genus Desulfomonas of similar.

Similidesulfomonile

L. masc. adjective *similis*, similar; L. neut. n. *Desulfomonile*, An existing genus; *Similidesulfomonile*: A genus related to but distinct from the existing genus Desulfomonile of similar.

Similidesulfomusa

L. masc. adjective *similis*, similar; L. fem. n. *Desulfomusa*, An existing genus; *Similidesulfomusa*: A genus related to but distinct from the existing genus Desulfomusa of similar.

Similidesulfonatronobacter

L. masc. adjective *similis*, similar; L. masc. n. *Desulfonatronobacter*, An existing genus; *Similidesulfonatronobacter*: A genus related to but distinct from the existing genus Desulfonatronobacter of similar.

Similidesulfonatronospira

L. masc. adjective *similis*, similar; L. fem. n. *Desulfonatronospira*, An existing genus; *Similidesulfonatronospira*: A genus related to but distinct from the existing genus Desulfonatronospira of similar.

Similidesulfonatronovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Desulfonatronovibrio*, An existing genus; *Similidesulfonatronovibrio*: A genus related to but distinct from the existing genus Desulfonatronovibrio of similar.

Similidesulfonatronum

L. masc. adjective *similis*, similar; L. neut. n. *Desulfonatronum*, An existing genus; *Similidesulfonatronum*: A genus related to but distinct from the existing genus Desulfonatronum of similar.

Similidesulfonauticus

L. masc. adjective *similis*, similar; L. masc. n. *Desulfonauticus*, An existing genus; *Similidesulfonauticus*: A genus related to but distinct from the existing genus Desulfonauticus of similar.

Similidesulfonema

L. masc. adjective *similis*, similar; L. neut. n. *Desulfonema*, An existing genus; *Similidesulfonema*: A genus related to but distinct from the existing genus Desulfonema of similar.

Similidesulfonispora

L. masc. adjective *similis*, similar; L. fem. n. *Desulfonispora*, An existing genus; *Similidesulfonispora*: A genus related to but distinct from the existing genus Desulfonispora of similar.

Similidesulfopila

L. masc. adjective *similis*, similar; L. fem. n. *Desulfopila*, An existing genus; *Similidesulfopila*: A genus related to but distinct from the existing genus Desulfopila of similar.

Similidesulfoplanes

L. masc. adjective *similis*, similar; L. masc. n. *Desulfoplanes*, An existing genus; *Similidesulfoplanes*: A genus related to but distinct from the existing genus Desulfoplanes of similar.

Similidesulfoprunum

L. masc. adjective *similis*, similar; L. neut. n. *Desulfoprunum*, An existing genus; *Similidesulfoprunum*: A genus related to but distinct from the existing genus Desulfoprunum of similar.

Similidesulforegula

L. masc. adjective *similis*, similar; L. fem. n. *Desulforegula*, An existing genus; *Similidesulforegula*: A genus related to but distinct from the existing genus Desulforegula of similar.

Similidesulforhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Desulforhabdus*, An existing genus; *Similidesulforhabdus*: A genus related to but distinct from the existing genus Desulforhabdus of similar.

Similidesulforhopalus

L. masc. adjective *similis*, similar; L. masc. n. *Desulforhopalus*, An existing genus; *Similidesulforhopalus*: A genus related to but distinct from the existing genus Desulforhopalus of similar.

Similidesulfosalsimonas

L. masc. adjective *similis*, similar; L. fem. n. *Desulfosalsimonas*, An existing genus; *Similidesulfosalsimonas*: A genus related to but distinct from the existing genus Desulfosalsimonas of similar.

Similidesulfosarcina

L. masc. adjective *similis*, similar; L. fem. n. *Desulfosarcina*, An existing genus; *Similidesulfosarcina*: A genus related to but distinct from the existing genus Desulfosarcina of similar.

Similidesulfosoma

L. masc. adjective *similis*, similar; L. neut. n. *Desulfosoma*, An existing genus; *Similidesulfosoma*: A genus related to but distinct from the existing genus Desulfosoma of similar.

Similidesulfospira

L. masc. adjective *similis*, similar; L. fem. n. *Desulfospira*, An existing genus; *Similidesulfospira*: A genus related to but distinct from the existing genus Desulfospira of similar.

Similidesulfosporomusa

L. masc. adjective *similis*, similar; L. fem. n. *Desulfosporomusa*, An existing genus; *Similidesulfosporomusa*: A genus related to but distinct from the existing genus Desulfosporomusa of similar.

Similidesulfosporosinus

L. masc. adjective *similis*, similar; L. masc. n. *Desulfosporosinus*, An existing genus; *Similidesulfosporosinus*: A genus related to but distinct from the existing genus Desulfosporosinus of similar.

Similidesulfotalea

L. masc. adjective *similis*, similar; L. fem. n. *Desulfotalea*, An existing genus; *Similidesulfotalea*: A genus related to but distinct from the existing genus Desulfotalea of similar.

Similidesulfothermobacter

L. masc. adjective *similis*, similar; L. masc. n. *Desulfothermobacter*, An existing genus; *Similidesulfothermobacter*: A genus related to but distinct from the existing genus Desulfothermobacter of similar.

Similidesulfothermus

L. masc. adjective *similis*, similar; L. masc. n. *Desulfothermus*, An existing genus; *Similidesulfothermus*: A genus related to but distinct from the existing genus Desulfothermus of similar.

Similidesulfotignum

L. masc. adjective *similis*, similar; L. neut. n. *Desulfotignum*, An existing genus; *Similidesulfotignum*: A genus related to but distinct from the existing genus Desulfotignum of similar.

Similidesulfotomaculum

L. masc. adjective *similis*, similar; L. neut. n. *Desulfotomaculum*, An existing genus; *Similidesulfotomaculum*: A genus related to but distinct from the existing genus Desulfotomaculum of similar.

Similidesulfovermiculus

L. masc. adjective *similis*, similar; L. masc. n. *Desulfovermiculus*, An existing genus; *Similidesulfovermiculus*: A genus related to but distinct from the existing genus Desulfovermiculus of similar.

Similidesulfovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Desulfovibrio*, An existing genus; *Similidesulfovibrio*: A genus related to but distinct from the existing genus Desulfovibrio of similar.

Similidesulfovirga

L. masc. adjective *similis*, similar; L. fem. n. *Desulfovirga*, An existing genus; *Similidesulfovirga*: A genus related to but distinct from the existing genus Desulfovirga of similar.

Similidesulfovirgula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Desulfovirgula*, An existing genus; *Similidesulfovirgula*: A genus related to but distinct from the existing genus Desulfovirgula of similar.

Similidesulfurella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Desulfurella*, An existing genus; *Similidesulfurella*: A genus related to but distinct from the existing genus Desulfurella of similar.

Similidesulfuribacillus

L. masc. adjective *similis*, similar; L. masc. n. *Desulfuribacillus*, An existing genus; *Similidesulfuribacillus*: A genus related to but distinct from the existing genus Desulfuribacillus of similar.

Similidesulfurispira

L. masc. adjective *similis*, similar; L. fem. n. *Desulfurispira*, An existing genus; *Similidesulfurispira*: A genus related to but distinct from the existing genus Desulfurispira of similar.

Similidesulfurispirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Desulfurispirillum*, An existing genus; *Similidesulfurispirillum*: A genus related to but distinct from the existing genus Desulfurispirillum of similar.

Similidesulfurispora

L. masc. adjective *similis*, similar; L. fem. n. *Desulfurispora*, An existing genus; *Similidesulfurispora*: A genus related to but distinct from the existing genus Desulfurispora of similar.

Similidesulfurivibrio

L. masc. adjective *similis*, similar; L. masc. n. *Desulfurivibrio*, An existing genus; *Similidesulfurivibrio*: A genus related to but distinct from the existing genus Desulfurivibrio of similar.

Similidesulfurobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Desulfurobacterium*, An existing genus; *Similidesulfurobacterium*: A genus related to but distinct from the existing genus Desulfurobacterium of similar.

Similidesulfurococcus

L. masc. adjective *similis*, similar; L. masc. n. *Desulfurococcus*, An existing genus; *Similidesulfurococcus*: A genus related to but distinct from the existing genus Desulfurococcus of similar.

Similidesulfuromonas

L. masc. adjective *similis*, similar; L. fem. n. *Desulfuromonas*, An existing genus; *Similidesulfuromonas*: A genus related to but distinct from the existing genus Desulfuromonas of similar.

Similidesulfuromusa

L. masc. adjective *similis*, similar; L. fem. n. *Desulfuromusa*, An existing genus; *Similidesulfuromusa*: A genus related to but distinct from the existing genus Desulfuromusa of similar.

Similidethiobacter

L. masc. adjective *similis*, similar; L. masc. n. *Dethiobacter*, An existing genus; *Similidethiobacter*: A genus related to but distinct from the existing genus Dethiobacter of similar.

Similidethiosulfatarculus

L. masc. adjective *similis*, similar; L. masc. dim. n. *Dethiosulfatarculus*, An existing genus; *Similidethiosulfatarculus*: A genus related to but distinct from the existing genus Dethiosulfatarculus of similar.

Similidethiosulfatibacter

L. masc. adjective *similis*, similar; L. masc. n. *Dethiosulfatibacter*, An existing genus; *Similidethiosulfatibacter*: A genus related to but distinct from the existing genus Dethiosulfatibacter of similar.

Similidethiosulfovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Dethiosulfovibrio*, An existing genus; *Similidethiosulfovibrio*: A genus related to but distinct from the existing genus Dethiosulfovibrio of similar.

Similidevosia

L. masc. adjective *similis*, similar; L. fem. n. *Devosia*, An existing genus; *Similidevosia*: A genus related to but distinct from the existing genus Devosia of similar.

Similidevriesea

L. masc. adjective *similis*, similar; L. fem. n. *Devriesea*, An existing genus; *Similidevriesea*: A genus related to but distinct from the existing genus Devriesea of similar.

Similidiaminobutyricibacter

L. masc. adjective *similis*, similar; L. masc. n. *Diaminobutyricibacter*, An existing genus; *Similidiaminobutyricibacter*: A genus related to but distinct from the existing genus Diaminobutyricibacter of similar.

Similidiaminobutyricimonas

L. masc. adjective *similis*, similar; L. fem. n. *Diaminobutyricimonas*, An existing genus; *Similidiaminobutyricimonas*: A genus related to but distinct from the existing genus Diaminobutyricimonas of similar.

Similidiaphorobacter

L. masc. adjective *similis*, similar; L. masc. n. *Diaphorobacter*, An existing genus; *Similidiaphorobacter*: A genus related to but distinct from the existing genus Diaphorobacter of similar.

Similidichelobacter

L. masc. adjective *similis*, similar; L. masc. n. *Dichelobacter*, An existing genus; *Similidichelobacter*: A genus related to but distinct from the existing genus Dichelobacter of similar.

Similidichotomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Dichotomicrobium*, An existing genus; *Similidichotomicrobium*: A genus related to but distinct from the existing genus Dichotomicrobium of similar.

Similidickeya

L. masc. adjective *similis*, similar; L. fem. n. *Dickeya*, An existing genus; *Similidickeya*: A genus related to but distinct from the existing genus Dickeya of similar.

Similidictyobacter

L. masc. adjective *similis*, similar; L. masc. n. *Dictyobacter*, An existing genus; *Similidictyobacter*: A genus related to but distinct from the existing genus Dictyobacter of similar.

Similidictyoglomus

L. masc. adjective *similis*, similar; L. neut. n. *Dictyoglomus*, An existing genus; *Similidictyoglomus*: A genus related to but distinct from the existing genus Dictyoglomus of similar.

Similidielma

L. masc. adjective *similis*, similar; L. fem. n. *Dielma*, An existing genus; *Similidielma*: A genus related to but distinct from the existing genus Dielma of similar.

Similidietzia

L. masc. adjective *similis*, similar; L. fem. n. *Dietzia*, An existing genus; *Similidietzia*: A genus related to but distinct from the existing genus Dietzia of similar.

Similidinghuibacter

L. masc. adjective *similis*, similar; L. masc. n. *Dinghuibacter*, An existing genus; *Similidinghuibacter*: A genus related to but distinct from the existing genus Dinghuibacter of similar.

Similidinoroseobacter

L. masc. adjective *similis*, similar; L. masc. n. *Dinoroseobacter*, An existing genus; *Similidinoroseobacter*: A genus related to but distinct from the existing genus Dinoroseobacter of similar.

Similidiplocalyx

L. masc. adjective *similis*, similar; L. masc. n. *Diplocalyx*, An existing genus; *Similidiplocalyx*: A genus related to but distinct from the existing genus Diplocalyx of similar.

Similidiplorickettsia

L. masc. adjective *similis*, similar; L. fem. n. *Diplorickettsia*, An existing genus; *Similidiplorickettsia*: A genus related to but distinct from the existing genus Diplorickettsia of similar.

Similidiplosphaera

L. masc. adjective *similis*, similar; L. fem. n. *Diplosphaera*, An existing genus; *Similidiplosphaera*: A genus related to but distinct from the existing genus Diplosphaera of similar.

Similidissulfuribacter

L. masc. adjective *similis*, similar; L. masc. n. *Dissulfuribacter*, An existing genus; *Similidissulfuribacter*: A genus related to but distinct from the existing genus Dissulfuribacter of similar.

Similidissulfurimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Dissulfurimicrobium*, An existing genus; *Similidissulfurimicrobium*: A genus related to but distinct from the existing genus Dissulfurimicrobium of similar.

Similidissulfurirhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Dissulfurirhabdus*, An existing genus; *Similidissulfurirhabdus*: A genus related to but distinct from the existing genus Dissulfurirhabdus of similar.

Similidokdonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Dokdonella*, An existing genus; *Similidokdonella*: A genus related to but distinct from the existing genus Dokdonella of similar.

Similidokdonia

L. masc. adjective *similis*, similar; L. fem. n. *Dokdonia*, An existing genus; *Similidokdonia*: A genus related to but distinct from the existing genus Dokdonia of similar.

Similidolosicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Dolosicoccus*, An existing genus; *Similidolosicoccus*: A genus related to but distinct from the existing genus Dolosicoccus of similar.

Similidolosigranulum

L. masc. adjective *similis*, similar; L. neut. n. *Dolosigranulum*, An existing genus; *Similidolosigranulum*: A genus related to but distinct from the existing genus Dolosigranulum of similar.

Similidomibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Domibacillus*, An existing genus; *Similidomibacillus*: A genus related to but distinct from the existing genus Domibacillus of similar.

Similidonghaeana

L. masc. adjective *similis*, similar; L. fem. n. *Donghaeana*, An existing genus; *Similidonghaeana*: A genus related to but distinct from the existing genus Donghaeana of similar.

Similidonghicola

L. masc. adjective *similis*, similar; L. masc. n. *Donghicola*, An existing genus; *Similidonghicola*: A genus related to but distinct from the existing genus Donghicola of similar.

Similidongia

L. masc. adjective *similis*, similar; L. fem. n. *Dongia*, An existing genus; *Similidongia*: A genus related to but distinct from the existing genus Dongia of similar.

Similidongshaea

L. masc. adjective *similis*, similar; L. fem. n. *Dongshaea*, An existing genus; *Similidongshaea*: A genus related to but distinct from the existing genus Dongshaea of similar.

Similidorea

L. masc. adjective *similis*, similar; L. fem. n. *Dorea*, An existing genus; *Similidorea*: A genus related to but distinct from the existing genus Dorea of similar.

Similidraconibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Draconibacterium*, An existing genus; *Similidraconibacterium*: A genus related to but distinct from the existing genus Draconibacterium of similar.

Similidrancourtella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Drancourtella*, An existing genus; *Similidrancourtella*: A genus related to but distinct from the existing genus Drancourtella of similar.

Similidrouetiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Drouetiella*, An existing genus; *Similidrouetiella*: A genus related to but distinct from the existing genus Drouetiella of similar.

Similidubosiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Dubosiella*, An existing genus; *Similidubosiella*: A genus related to but distinct from the existing genus Dubosiella of similar.

Similiduganella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Duganella*, An existing genus; *Similiduganella*: A genus related to but distinct from the existing genus Duganella of similar.

Similidulcicalothrix

L. masc. adjective *similis*, similar; L. fem. n. *Dulcicalothrix*, An existing genus; *Similidulcicalothrix*: A genus related to but distinct from the existing genus Dulcicalothrix of similar.

Similiduncaniella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Duncaniella*, An existing genus; *Similiduncaniella*: A genus related to but distinct from the existing genus Duncaniella of similar.

Similidyadobacter

L. masc. adjective *similis*, similar; L. masc. n. *Dyadobacter*, An existing genus; *Similidyadobacter*: A genus related to but distinct from the existing genus Dyadobacter of similar.

Similidyella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Dyella*, An existing genus; *Similidyella*: A genus related to but distinct from the existing genus Dyella of similar.

Similidysgonomonas

L. masc. adjective *similis*, similar; L. fem. n. *Dysgonomonas*, An existing genus; *Similidysgonomonas*: A genus related to but distinct from the existing genus Dysgonomonas of similar.

Similidysosmobacter

L. masc. adjective *similis*, similar; L. masc. n. *Dysosmobacter*, An existing genus; *Similidysosmobacter*: A genus related to but distinct from the existing genus Dysosmobacter of similar.

Similiechinicola

L. masc. adjective *similis*, similar; L. fem. n. *Echinicola*, An existing genus; *Similiechinicola*: A genus related to but distinct from the existing genus Echinicola of similar.

Similiechinimonas

L. masc. adjective *similis*, similar; L. fem. n. *Echinimonas*, An existing genus; *Similiechinimonas*: A genus related to but distinct from the existing genus Echinimonas of similar.

Similiectothiorhodosinus

L. masc. adjective *similis*, similar; L. masc. n. *Ectothiorhodosinus*, An existing genus; *Similiectothiorhodosinus*: A genus related to but distinct from the existing genus Ectothiorhodosinus of similar.

Similiectothiorhodospira

L. masc. adjective *similis*, similar; L. fem. n. *Ectothiorhodospira*, An existing genus; *Similiectothiorhodospira*: A genus related to but distinct from the existing genus Ectothiorhodospira of similar.

Similiedaphobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Edaphobacillus*, An existing genus; *Similiedaphobacillus*: A genus related to but distinct from the existing genus Edaphobacillus of similar.

Similiedaphobacter

L. masc. adjective *similis*, similar; L. masc. n. *Edaphobacter*, An existing genus; *Similiedaphobacter*: A genus related to but distinct from the existing genus Edaphobacter of similar.

Similiedaphocola

L. masc. adjective *similis*, similar; L. masc. n. *Edaphocola*, An existing genus; *Similiedaphocola*: A genus related to but distinct from the existing genus Edaphocola of similar.

Similiedwardiiplasma

L. masc. adjective *similis*, similar; L. neut. n. *Edwardiiplasma*, An existing genus; *Similiedwardiiplasma*: A genus related to but distinct from the existing genus Edwardiiplasma of similar.

Similiedwardsiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Edwardsiella*, An existing genus; *Similiedwardsiella*: A genus related to but distinct from the existing genus Edwardsiella of similar.

Similieffluviibacter

L. masc. adjective *similis*, similar; L. masc. n. *Effluviibacter*, An existing genus; *Similieffluviibacter*: A genus related to but distinct from the existing genus Effluviibacter of similar.

Similieffusibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Effusibacillus*, An existing genus; *Similieffusibacillus*: A genus related to but distinct from the existing genus Effusibacillus of similar.

Similieggerthella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Eggerthella*, An existing genus; *Similieggerthella*: A genus related to but distinct from the existing genus Eggerthella of similar.

Similieggerthia

L. masc. adjective *similis*, similar; L. fem. n. *Eggerthia*, An existing genus; *Similieggerthia*: A genus related to but distinct from the existing genus Eggerthia of similar.

Similiegibacter

L. masc. adjective *similis*, similar; L. masc. n. *Egibacter*, An existing genus; *Similiegibacter*: A genus related to but distinct from the existing genus Egibacter of similar.

Similiegicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Egicoccus*, An existing genus; *Similiegicoccus*: A genus related to but distinct from the existing genus Egicoccus of similar.

Similiehrlichia

L. masc. adjective *similis*, similar; L. fem. n. *Ehrlichia*, An existing genus; *Similiehrlichia*: A genus related to but distinct from the existing genus Ehrlichia of similar.

Similieikenella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Eikenella*, An existing genus; *Similieikenella*: A genus related to but distinct from the existing genus Eikenella of similar.

Similieilatimonas

L. masc. adjective *similis*, similar; L. fem. n. *Eilatimonas*, An existing genus; *Similieilatimonas*: A genus related to but distinct from the existing genus Eilatimonas of similar.

Similieionea

L. masc. adjective *similis*, similar; L. fem. n. *Eionea*, An existing genus; *Similieionea*: A genus related to but distinct from the existing genus Eionea of similar.

Similieisenbergiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Eisenbergiella*, An existing genus; *Similieisenbergiella*: A genus related to but distinct from the existing genus Eisenbergiella of similar.

Similieisenibacter

L. masc. adjective *similis*, similar; L. masc. n. *Eisenibacter*, An existing genus; *Similieisenibacter*: A genus related to but distinct from the existing genus Eisenibacter of similar.

Similielainella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Elainella*, An existing genus; *Similielainella*: A genus related to but distinct from the existing genus Elainella of similar.

Similielioraea

L. masc. adjective *similis*, similar; L. fem. n. *Elioraea*, An existing genus; *Similielioraea*: A genus related to but distinct from the existing genus Elioraea of similar.

Similielizabethkingia

L. masc. adjective *similis*, similar; L. fem. n. *Elizabethkingia*, An existing genus; *Similielizabethkingia*: A genus related to but distinct from the existing genus Elizabethkingia of similar.

Similiellagibacter

L. masc. adjective *similis*, similar; L. masc. n. *Ellagibacter*, An existing genus; *Similiellagibacter*: A genus related to but distinct from the existing genus Ellagibacter of similar.

Similielstera

L. masc. adjective *similis*, similar; L. fem. n. *Elstera*, An existing genus; *Similielstera*: A genus related to but distinct from the existing genus Elstera of similar.

Similielusimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Elusimicrobium*, An existing genus; *Similielusimicrobium*: A genus related to but distinct from the existing genus Elusimicrobium of similar.

Similielytrosporangium

L. masc. adjective *similis*, similar; L. neut. n. *Elytrosporangium*, An existing genus; *Similielytrosporangium*: A genus related to but distinct from the existing genus Elytrosporangium of similar.

Similiembleya

L. masc. adjective *similis*, similar; L. fem. n. *Embleya*, An existing genus; *Similiembleya*: A genus related to but distinct from the existing genus Embleya of similar.

Similiemcibacter

L. masc. adjective *similis*, similar; L. masc. n. *Emcibacter*, An existing genus; *Similiemcibacter*: A genus related to but distinct from the existing genus Emcibacter of similar.

Similiempedobacter

L. masc. adjective *similis*, similar; L. masc. n. *Empedobacter*, An existing genus; *Similiempedobacter*: A genus related to but distinct from the existing genus Empedobacter of similar.

Similiemticicia

L. masc. adjective *similis*, similar; L. fem. n. *Emticicia*, An existing genus; *Similiemticicia*: A genus related to but distinct from the existing genus Emticicia of similar.

Similiendobacter

L. masc. adjective *similis*, similar; L. masc. n. *Endobacter*, An existing genus; *Similiendobacter*: A genus related to but distinct from the existing genus Endobacter of similar.

Similiendobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Endobacterium*, An existing genus; *Similiendobacterium*: A genus related to but distinct from the existing genus Endobacterium of similar.

Similiendomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Endomicrobium*, An existing genus; *Similiendomicrobium*: A genus related to but distinct from the existing genus Endomicrobium of similar.

Similiendothiovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Endothiovibrio*, An existing genus; *Similiendothiovibrio*: A genus related to but distinct from the existing genus Endothiovibrio of similar.

Similiendozoicomonas

L. masc. adjective *similis*, similar; L. fem. n. *Endozoicomonas*, An existing genus; *Similiendozoicomonas*: A genus related to but distinct from the existing genus Endozoicomonas of similar.

Similienhydrobacter

L. masc. adjective *similis*, similar; L. masc. n. *Enhydrobacter*, An existing genus; *Similienhydrobacter*: A genus related to but distinct from the existing genus Enhydrobacter of similar.

Similienhygromyxa

L. masc. adjective *similis*, similar; L. fem. n. *Enhygromyxa*, An existing genus; *Similienhygromyxa*: A genus related to but distinct from the existing genus Enhygromyxa of similar.

Similienorma

L. masc. adjective *similis*, similar; L. fem. n. *Enorma*, An existing genus; *Similienorma*: A genus related to but distinct from the existing genus Enorma of similar.

Similiensifer

L. masc. adjective *similis*, similar; L. masc. n. *Ensifer*, An existing genus; *Similiensifer*: A genus related to but distinct from the existing genus Ensifer of similar.

Similienteractinococcus

L. masc. adjective *similis*, similar; L. masc. n. *Enteractinococcus*, An existing genus; *Similienteractinococcus*: A genus related to but distinct from the existing genus Enteractinococcus of similar.

Similienterobacter

L. masc. adjective *similis*, similar; L. masc. n. *Enterobacter*, An existing genus; *Similienterobacter*: A genus related to but distinct from the existing genus Enterobacter of similar.

Similienterocloster

L. masc. adjective *similis*, similar; L. masc. n. *Enterocloster*, An existing genus; *Similienterocloster*: A genus related to but distinct from the existing genus Enterocloster of similar.

Similienterococcus

L. masc. adjective *similis*, similar; L. masc. n. *Enterococcus*, An existing genus; *Similienterococcus*: A genus related to but distinct from the existing genus Enterococcus of similar.

Similienterorhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Enterorhabdus*, An existing genus; *Similienterorhabdus*: A genus related to but distinct from the existing genus Enterorhabdus of similar.

Similienteroscipio

L. masc. adjective *similis*, similar; L. masc. n. *Enteroscipio*, An existing genus; *Similienteroscipio*: A genus related to but distinct from the existing genus Enteroscipio of similar.

Similienterovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Enterovibrio*, An existing genus; *Similienterovibrio*: A genus related to but distinct from the existing genus Enterovibrio of similar.

Similientomomonas

L. masc. adjective *similis*, similar; L. fem. n. *Entomomonas*, An existing genus; *Similientomomonas*: A genus related to but distinct from the existing genus Entomomonas of similar.

Similientomoplasma

L. masc. adjective *similis*, similar; L. neut. n. *Entomoplasma*, An existing genus; *Similientomoplasma*: A genus related to but distinct from the existing genus Entomoplasma of similar.

Similieperythrozoon

L. masc. adjective *similis*, similar; L. neut. n. *Eperythrozoon*, An existing genus; *Similieperythrozoon*: A genus related to but distinct from the existing genus Eperythrozoon of similar.

Similiephemeroptericola

L. masc. adjective *similis*, similar; L. masc. n. *Ephemeroptericola*, An existing genus; *Similiephemeroptericola*: A genus related to but distinct from the existing genus Ephemeroptericola of similar.

Similiepibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Epibacterium*, An existing genus; *Similiepibacterium*: A genus related to but distinct from the existing genus Epibacterium of similar.

Similiepidermidibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Epidermidibacterium*, An existing genus; *Similiepidermidibacterium*: A genus related to but distinct from the existing genus Epidermidibacterium of similar.

Similiepigloeosphaera

L. masc. adjective *similis*, similar; L. fem. n. *Epigloeosphaera*, An existing genus; *Similiepigloeosphaera*: A genus related to but distinct from the existing genus Epigloeosphaera of similar.

Similiepilithonimonas

L. masc. adjective *similis*, similar; L. fem. n. *Epilithonimonas*, An existing genus; *Similiepilithonimonas*: A genus related to but distinct from the existing genus Epilithonimonas of similar.

Similiercella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Ercella*, An existing genus; *Similiercella*: A genus related to but distinct from the existing genus Ercella of similar.

Similiereboglobus

L. masc. adjective *similis*, similar; L. masc. n. *Ereboglobus*, An existing genus; *Similiereboglobus*: A genus related to but distinct from the existing genus Ereboglobus of similar.

Similieremococcus

L. masc. adjective *similis*, similar; L. masc. n. *Eremococcus*, An existing genus; *Similieremococcus*: A genus related to but distinct from the existing genus Eremococcus of similar.

Similierwinia

L. masc. adjective *similis*, similar; L. fem. n. *Erwinia*, An existing genus; *Similierwinia*: A genus related to but distinct from the existing genus Erwinia of similar.

Similierysipelothrix

L. masc. adjective *similis*, similar; L. fem. n. *Erysipelothrix*, An existing genus; *Similierysipelothrix*: A genus related to but distinct from the existing genus Erysipelothrix of similar.

Similierythrobacter

L. masc. adjective *similis*, similar; L. masc. n. *Erythrobacter*, An existing genus; *Similierythrobacter*: A genus related to but distinct from the existing genus Erythrobacter of similar.

Similierythromicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Erythromicrobium*, An existing genus; *Similierythromicrobium*: A genus related to but distinct from the existing genus Erythromicrobium of similar.

Similierythromonas

L. masc. adjective *similis*, similar; L. fem. n. *Erythromonas*, An existing genus; *Similierythromonas*: A genus related to but distinct from the existing genus Erythromonas of similar.

Similiescherichia

L. masc. adjective *similis*, similar; L. fem. n. *Escherichia*, An existing genus; *Similiescherichia*: A genus related to but distinct from the existing genus Escherichia of similar.

Similiethanoligenens

L. masc. adjective *similis*, similar; L. neut. n. *Ethanoligenens*, An existing genus; *Similiethanoligenens*: A genus related to but distinct from the existing genus Ethanoligenens of similar.

Similieubacterium

L. masc. adjective *similis*, similar; L. neut. n. *Eubacterium*, An existing genus; *Similieubacterium*: A genus related to but distinct from the existing genus Eubacterium of similar.

Similieucapsis

L. masc. adjective *similis*, similar; L. fem. n. *Eucapsis*, An existing genus; *Similieucapsis*: A genus related to but distinct from the existing genus Eucapsis of similar.

Similieudoraea

L. masc. adjective *similis*, similar; L. fem. n. *Eudoraea*, An existing genus; *Similieudoraea*: A genus related to but distinct from the existing genus Eudoraea of similar.

Similieuryhalocaulis

L. masc. adjective *similis*, similar; L. masc. n. *Euryhalocaulis*, An existing genus; *Similieuryhalocaulis*: A genus related to but distinct from the existing genus Euryhalocaulis of similar.

Similieuzebya

L. masc. adjective *similis*, similar; L. fem. n. *Euzebya*, An existing genus; *Similieuzebya*: A genus related to but distinct from the existing genus Euzebya of similar.

Similieuzebyella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Euzebyella*, An existing genus; *Similieuzebyella*: A genus related to but distinct from the existing genus Euzebyella of similar.

Similiewamiania

L. masc. adjective *similis*, similar; L. fem. n. *Ewamiania*, An existing genus; *Similiewamiania*: A genus related to but distinct from the existing genus Ewamiania of similar.

Similiewingella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Ewingella*, An existing genus; *Similiewingella*: A genus related to but distinct from the existing genus Ewingella of similar.

Similiexcellospora

L. masc. adjective *similis*, similar; L. fem. n. *Excellospora*, An existing genus; *Similiexcellospora*: A genus related to but distinct from the existing genus Excellospora of similar.

Similiexilibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Exilibacterium*, An existing genus; *Similiexilibacterium*: A genus related to but distinct from the existing genus Exilibacterium of similar.

Similiexilispira

L. masc. adjective *similis*, similar; L. fem. n. *Exilispira*, An existing genus; *Similiexilispira*: A genus related to but distinct from the existing genus Exilispira of similar.

Similiextensimonas

L. masc. adjective *similis*, similar; L. fem. n. *Extensimonas*, An existing genus; *Similiextensimonas*: A genus related to but distinct from the existing genus Extensimonas of similar.

Similiextibacter

L. masc. adjective *similis*, similar; L. masc. n. *Extibacter*, An existing genus; *Similiextibacter*: A genus related to but distinct from the existing genus Extibacter of similar.

Similifabibacter

L. masc. adjective *similis*, similar; L. masc. n. *Fabibacter*, An existing genus; *Similifabibacter*: A genus related to but distinct from the existing genus Fabibacter of similar.

Similifabivirga

L. masc. adjective *similis*, similar; L. fem. n. *Fabivirga*, An existing genus; *Similifabivirga*: A genus related to but distinct from the existing genus Fabivirga of similar.

Similifacilibium

L. masc. adjective *similis*, similar; L. neut. n. *Facilibium*, An existing genus; *Similifacilibium*: A genus related to but distinct from the existing genus Facilibium of similar.

Similifacklamia

L. masc. adjective *similis*, similar; L. fem. n. *Facklamia*, An existing genus; *Similifacklamia*: A genus related to but distinct from the existing genus Facklamia of similar.

Similifaecalibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Faecalibacillus*, An existing genus; *Similifaecalibacillus*: A genus related to but distinct from the existing genus Faecalibacillus of similar.

Similifaecalibacter

L. masc. adjective *similis*, similar; L. masc. n. *Faecalibacter*, An existing genus; *Similifaecalibacter*: A genus related to but distinct from the existing genus Faecalibacter of similar.

Similifaecalibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Faecalibacterium*, An existing genus; *Similifaecalibacterium*: A genus related to but distinct from the existing genus Faecalibacterium of similar.

Similifaecalibaculum

L. masc. adjective *similis*, similar; L. neut. n. *Faecalibaculum*, An existing genus; *Similifaecalibaculum*: A genus related to but distinct from the existing genus Faecalibaculum of similar.

Similifaecalicatena

L. masc. adjective *similis*, similar; L. fem. n. *Faecalicatena*, An existing genus; *Similifaecalicatena*: A genus related to but distinct from the existing genus Faecalicatena of similar.

Similifaecalicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Faecalicoccus*, An existing genus; *Similifaecalicoccus*: A genus related to but distinct from the existing genus Faecalicoccus of similar.

Similifaecalimonas

L. masc. adjective *similis*, similar; L. fem. n. *Faecalimonas*, An existing genus; *Similifaecalimonas*: A genus related to but distinct from the existing genus Faecalimonas of similar.

Similifaecalitalea

L. masc. adjective *similis*, similar; L. fem. n. *Faecalitalea*, An existing genus; *Similifaecalitalea*: A genus related to but distinct from the existing genus Faecalitalea of similar.

Similifaenia

L. masc. adjective *similis*, similar; L. fem. n. *Faenia*, An existing genus; *Similifaenia*: A genus related to but distinct from the existing genus Faenia of similar.

Similifalcatimonas

L. masc. adjective *similis*, similar; L. fem. n. *Falcatimonas*, An existing genus; *Similifalcatimonas*: A genus related to but distinct from the existing genus Falcatimonas of similar.

Similifalsarthrobacter

L. masc. adjective *similis*, similar; L. masc. n. *Falsarthrobacter*, An existing genus; *Similifalsarthrobacter*: A genus related to but distinct from the existing genus Falsarthrobacter of similar.

Similifalsibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Falsibacillus*, An existing genus; *Similifalsibacillus*: A genus related to but distinct from the existing genus Falsibacillus of similar.

Similifalsigemmobacter

L. masc. adjective *similis*, similar; L. masc. n. *Falsigemmobacter*, An existing genus; *Similifalsigemmobacter*: A genus related to but distinct from the existing genus Falsigemmobacter of similar.

Similifalsiporphyromonas

L. masc. adjective *similis*, similar; L. fem. n. *Falsiporphyromonas*, An existing genus; *Similifalsiporphyromonas*: A genus related to but distinct from the existing genus Falsiporphyromonas of similar.

Similifalsirhodobacter

L. masc. adjective *similis*, similar; L. masc. n. *Falsirhodobacter*, An existing genus; *Similifalsirhodobacter*: A genus related to but distinct from the existing genus Falsirhodobacter of similar.

Similifalsochrobactrum

L. masc. adjective *similis*, similar; L. neut. n. *Falsochrobactrum*, An existing genus; *Similifalsochrobactrum*: A genus related to but distinct from the existing genus Falsochrobactrum of similar.

Similifangia

L. masc. adjective *similis*, similar; L. fem. n. *Fangia*, An existing genus; *Similifangia*: A genus related to but distinct from the existing genus Fangia of similar.

Similifannyhessea

L. masc. adjective *similis*, similar; L. fem. n. *Fannyhessea*, An existing genus; *Similifannyhessea*: A genus related to but distinct from the existing genus Fannyhessea of similar.

Similifastidiosipila

L. masc. adjective *similis*, similar; L. fem. n. *Fastidiosipila*, An existing genus; *Similifastidiosipila*: A genus related to but distinct from the existing genus Fastidiosipila of similar.

Similifaucicola

L. masc. adjective *similis*, similar; L. fem. n. *Faucicola*, An existing genus; *Similifaucicola*: A genus related to but distinct from the existing genus Faucicola of similar.

Similifeifantangia

L. masc. adjective *similis*, similar; L. fem. n. *Feifantangia*, An existing genus; *Similifeifantangia*: A genus related to but distinct from the existing genus Feifantangia of similar.

Similifenollaria

L. masc. adjective *similis*, similar; L. fem. n. *Fenollaria*, An existing genus; *Similifenollaria*: A genus related to but distinct from the existing genus Fenollaria of similar.

Similifermentibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Fermentibacillus*, An existing genus; *Similifermentibacillus*: A genus related to but distinct from the existing genus Fermentibacillus of similar.

Similifermentimonas

L. masc. adjective *similis*, similar; L. fem. n. *Fermentimonas*, An existing genus; *Similifermentimonas*: A genus related to but distinct from the existing genus Fermentimonas of similar.

Similiferribacterium

L. masc. adjective *similis*, similar; L. neut. n. *Ferribacterium*, An existing genus; *Similiferribacterium*: A genus related to but distinct from the existing genus Ferribacterium of similar.

Similiferrigenium

L. masc. adjective *similis*, similar; L. neut. n. *Ferrigenium*, An existing genus; *Similiferrigenium*: A genus related to but distinct from the existing genus Ferrigenium of similar.

Similiferrimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Ferrimicrobium*, An existing genus; *Similiferrimicrobium*: A genus related to but distinct from the existing genus Ferrimicrobium of similar.

Similiferrimonas

L. masc. adjective *similis*, similar; L. fem. n. *Ferrimonas*, An existing genus; *Similiferrimonas*: A genus related to but distinct from the existing genus Ferrimonas of similar.

Similiferriphaselus

L. masc. adjective *similis*, similar; L. masc. n. *Ferriphaselus*, An existing genus; *Similiferriphaselus*: A genus related to but distinct from the existing genus Ferriphaselus of similar.

Similiferrithrix

L. masc. adjective *similis*, similar; L. fem. n. *Ferrithrix*, An existing genus; *Similiferrithrix*: A genus related to but distinct from the existing genus Ferrithrix of similar.

Similiferroglobus

L. masc. adjective *similis*, similar; L. masc. n. *Ferroglobus*, An existing genus; *Similiferroglobus*: A genus related to but distinct from the existing genus Ferroglobus of similar.

Similiferroplasma

L. masc. adjective *similis*, similar; L. neut. n. *Ferroplasma*, An existing genus; *Similiferroplasma*: A genus related to but distinct from the existing genus Ferroplasma of similar.

Similiferrovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Ferrovibrio*, An existing genus; *Similiferrovibrio*: A genus related to but distinct from the existing genus Ferrovibrio of similar.

Similiferruginibacter

L. masc. adjective *similis*, similar; L. masc. n. *Ferruginibacter*, An existing genus; *Similiferruginibacter*: A genus related to but distinct from the existing genus Ferruginibacter of similar.

Similiferruginivarius

L. masc. adjective *similis*, similar; L. masc. n. *Ferruginivarius*, An existing genus; *Similiferruginivarius*: A genus related to but distinct from the existing genus Ferruginivarius of similar.

Similifervidicella

L. masc. adjective *similis*, similar; L. fem. n. *Fervidicella*, An existing genus; *Similifervidicella*: A genus related to but distinct from the existing genus Fervidicella of similar.

Similifervidicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Fervidicoccus*, An existing genus; *Similifervidicoccus*: A genus related to but distinct from the existing genus Fervidicoccus of similar.

Similifervidicola

L. masc. adjective *similis*, similar; L. masc. n. *Fervidicola*, An existing genus; *Similifervidicola*: A genus related to but distinct from the existing genus Fervidicola of similar.

Similifervidobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Fervidobacterium*, An existing genus; *Similifervidobacterium*: A genus related to but distinct from the existing genus Fervidobacterium of similar.

Similifibrella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Fibrella*, An existing genus; *Similifibrella*: A genus related to but distinct from the existing genus Fibrella of similar.

Similifibrisoma

L. masc. adjective *similis*, similar; L. neut. n. *Fibrisoma*, An existing genus; *Similifibrisoma*: A genus related to but distinct from the existing genus Fibrisoma of similar.

Similifibrobacter

L. masc. adjective *similis*, similar; L. masc. n. *Fibrobacter*, An existing genus; *Similifibrobacter*: A genus related to but distinct from the existing genus Fibrobacter of similar.

Similifictibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Fictibacillus*, An existing genus; *Similifictibacillus*: A genus related to but distinct from the existing genus Fictibacillus of similar.

Similifilibacter

L. masc. adjective *similis*, similar; L. masc. n. *Filibacter*, An existing genus; *Similifilibacter*: A genus related to but distinct from the existing genus Filibacter of similar.

Similifilifactor

L. masc. adjective *similis*, similar; L. masc. n. *Filifactor*, An existing genus; *Similifilifactor*: A genus related to but distinct from the existing genus Filifactor of similar.

Similifilimonas

L. masc. adjective *similis*, similar; L. fem. n. *Filimonas*, An existing genus; *Similifilimonas*: A genus related to but distinct from the existing genus Filimonas of similar.

Similifilobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Filobacillus*, An existing genus; *Similifilobacillus*: A genus related to but distinct from the existing genus Filobacillus of similar.

Similifilobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Filobacterium*, An existing genus; *Similifilobacterium*: A genus related to but distinct from the existing genus Filobacterium of similar.

Similifilomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Filomicrobium*, An existing genus; *Similifilomicrobium*: A genus related to but distinct from the existing genus Filomicrobium of similar.

Similifimbriiglobus

L. masc. adjective *similis*, similar; L. masc. n. *Fimbriiglobus*, An existing genus; *Similifimbriiglobus*: A genus related to but distinct from the existing genus Fimbriiglobus of similar.

Similifimbriimonas

L. masc. adjective *similis*, similar; L. fem. n. *Fimbriimonas*, An existing genus; *Similifimbriimonas*: A genus related to but distinct from the existing genus Fimbriimonas of similar.

Similifinegoldia

L. masc. adjective *similis*, similar; L. fem. n. *Finegoldia*, An existing genus; *Similifinegoldia*: A genus related to but distinct from the existing genus Finegoldia of similar.

Similiflagellimonas

L. masc. adjective *similis*, similar; L. fem. n. *Flagellimonas*, An existing genus; *Similiflagellimonas*: A genus related to but distinct from the existing genus Flagellimonas of similar.

Similiflammeovirga

L. masc. adjective *similis*, similar; L. fem. n. *Flammeovirga*, An existing genus; *Similiflammeovirga*: A genus related to but distinct from the existing genus Flammeovirga of similar.

Similiflaviaesturariibacter

L. masc. adjective *similis*, similar; L. masc. n. *Flaviaesturariibacter*, An existing genus; *Similiflaviaesturariibacter*: A genus related to but distinct from the existing genus Flaviaesturariibacter of similar.

Similiflavicella

L. masc. adjective *similis*, similar; L. fem. n. *Flavicella*, An existing genus; *Similiflavicella*: A genus related to but distinct from the existing genus Flavicella of similar.

Similiflaviflagellibacter

L. masc. adjective *similis*, similar; L. masc. n. *Flaviflagellibacter*, An existing genus; *Similiflaviflagellibacter*: A genus related to but distinct from the existing genus Flaviflagellibacter of similar.

Similiflaviflexus

L. masc. adjective *similis*, similar; L. masc. n. *Flaviflexus*, An existing genus; *Similiflaviflexus*: A genus related to but distinct from the existing genus Flaviflexus of similar.

Similiflavihumibacter

L. masc. adjective *similis*, similar; L. masc. n. *Flavihumibacter*, An existing genus; *Similiflavihumibacter*: A genus related to but distinct from the existing genus Flavihumibacter of similar.

Similiflavilitoribacter

L. masc. adjective *similis*, similar; L. masc. n. *Flavilitoribacter*, An existing genus; *Similiflavilitoribacter*: A genus related to but distinct from the existing genus Flavilitoribacter of similar.

Similiflavimaricola

L. masc. adjective *similis*, similar; L. masc. n. *Flavimaricola*, An existing genus; *Similiflavimaricola*: A genus related to but distinct from the existing genus Flavimaricola of similar.

Similiflavimarina

L. masc. adjective *similis*, similar; L. fem. n. *Flavimarina*, An existing genus; *Similiflavimarina*: A genus related to but distinct from the existing genus Flavimarina of similar.

Similiflavimobilis

L. masc. adjective *similis*, similar; L. masc. n. *Flavimobilis*, An existing genus; *Similiflavimobilis*: A genus related to but distinct from the existing genus Flavimobilis of similar.

Similiflavimonas

L. masc. adjective *similis*, similar; L. fem. n. *Flavimonas*, An existing genus; *Similiflavimonas*: A genus related to but distinct from the existing genus Flavimonas of similar.

Similiflavipsychrobacter

L. masc. adjective *similis*, similar; L. masc. n. *Flavipsychrobacter*, An existing genus; *Similiflavipsychrobacter*: A genus related to but distinct from the existing genus Flavipsychrobacter of similar.

Similiflaviramulus

L. masc. adjective *similis*, similar; L. masc. dim. n. *Flaviramulus*, An existing genus; *Similiflaviramulus*: A genus related to but distinct from the existing genus Flaviramulus of similar.

Similiflavirhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Flavirhabdus*, An existing genus; *Similiflavirhabdus*: A genus related to but distinct from the existing genus Flavirhabdus of similar.

Similiflavisolibacter

L. masc. adjective *similis*, similar; L. masc. n. *Flavisolibacter*, An existing genus; *Similiflavisolibacter*: A genus related to but distinct from the existing genus Flavisolibacter of similar.

Similiflavitalea

L. masc. adjective *similis*, similar; L. fem. n. *Flavitalea*, An existing genus; *Similiflavitalea*: A genus related to but distinct from the existing genus Flavitalea of similar.

Similiflavivirga

L. masc. adjective *similis*, similar; L. fem. n. *Flavivirga*, An existing genus; *Similiflavivirga*: A genus related to but distinct from the existing genus Flavivirga of similar.

Similiflavobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Flavobacterium*, An existing genus; *Similiflavobacterium*: A genus related to but distinct from the existing genus Flavobacterium of similar.

Similiflavonifractor

L. masc. adjective *similis*, similar; L. masc. n. *Flavonifractor*, An existing genus; *Similiflavonifractor*: A genus related to but distinct from the existing genus Flavonifractor of similar.

Similiflectobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Flectobacillus*, An existing genus; *Similiflectobacillus*: A genus related to but distinct from the existing genus Flectobacillus of similar.

Similiflexibacter

L. masc. adjective *similis*, similar; L. masc. n. *Flexibacter*, An existing genus; *Similiflexibacter*: A genus related to but distinct from the existing genus Flexibacter of similar.

Similiflexilinea

L. masc. adjective *similis*, similar; L. fem. n. *Flexilinea*, An existing genus; *Similiflexilinea*: A genus related to but distinct from the existing genus Flexilinea of similar.

Similiflexistipes

L. masc. adjective *similis*, similar; L. masc. n. *Flexistipes*, An existing genus; *Similiflexistipes*: A genus related to but distinct from the existing genus Flexistipes of similar.

Similiflexithrix

L. masc. adjective *similis*, similar; L. fem. n. *Flexithrix*, An existing genus; *Similiflexithrix*: A genus related to but distinct from the existing genus Flexithrix of similar.

Similiflexivirga

L. masc. adjective *similis*, similar; L. fem. n. *Flexivirga*, An existing genus; *Similiflexivirga*: A genus related to but distinct from the existing genus Flexivirga of similar.

Similiflindersiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Flindersiella*, An existing genus; *Similiflindersiella*: A genus related to but distinct from the existing genus Flindersiella of similar.

Similiflintibacter

L. masc. adjective *similis*, similar; L. masc. n. *Flintibacter*, An existing genus; *Similiflintibacter*: A genus related to but distinct from the existing genus Flintibacter of similar.

Similifloricoccus

L. masc. adjective *similis*, similar; L. masc. n. *Floricoccus*, An existing genus; *Similifloricoccus*: A genus related to but distinct from the existing genus Floricoccus of similar.

Similifluoribacter

L. masc. adjective *similis*, similar; L. masc. n. *Fluoribacter*, An existing genus; *Similifluoribacter*: A genus related to but distinct from the existing genus Fluoribacter of similar.

Similifluviibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Fluviibacterium*, An existing genus; *Similifluviibacterium*: A genus related to but distinct from the existing genus Fluviibacterium of similar.

Similifluviicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Fluviicoccus*, An existing genus; *Similifluviicoccus*: A genus related to but distinct from the existing genus Fluviicoccus of similar.

Similifluviicola

L. masc. adjective *similis*, similar; L. masc. n. *Fluviicola*, An existing genus; *Similifluviicola*: A genus related to but distinct from the existing genus Fluviicola of similar.

Similifluviimonas

L. masc. adjective *similis*, similar; L. fem. n. *Fluviimonas*, An existing genus; *Similifluviimonas*: A genus related to but distinct from the existing genus Fluviimonas of similar.

Similifluviispira

L. masc. adjective *similis*, similar; L. fem. n. *Fluviispira*, An existing genus; *Similifluviispira*: A genus related to but distinct from the existing genus Fluviispira of similar.

Similifodinibacter

L. masc. adjective *similis*, similar; L. masc. n. *Fodinibacter*, An existing genus; *Similifodinibacter*: A genus related to but distinct from the existing genus Fodinibacter of similar.

Similifodinibius

L. masc. adjective *similis*, similar; L. masc. n. *Fodinibius*, An existing genus; *Similifodinibius*: A genus related to but distinct from the existing genus Fodinibius of similar.

Similifodinicola

L. masc. adjective *similis*, similar; L. masc. n. *Fodinicola*, An existing genus; *Similifodinicola*: A genus related to but distinct from the existing genus Fodinicola of similar.

Similifodinicurvata

L. masc. adjective *similis*, similar; L. fem. n. *Fodinicurvata*, An existing genus; *Similifodinicurvata*: A genus related to but distinct from the existing genus Fodinicurvata of similar.

Similifoliisarcina

L. masc. adjective *similis*, similar; L. fem. n. *Foliisarcina*, An existing genus; *Similifoliisarcina*: A genus related to but distinct from the existing genus Foliisarcina of similar.

Similifontibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Fontibacillus*, An existing genus; *Similifontibacillus*: A genus related to but distinct from the existing genus Fontibacillus of similar.

Similifontibacter

L. masc. adjective *similis*, similar; L. masc. n. *Fontibacter*, An existing genus; *Similifontibacter*: A genus related to but distinct from the existing genus Fontibacter of similar.

Similifonticella

L. masc. adjective *similis*, similar; L. fem. n. *Fonticella*, An existing genus; *Similifonticella*: A genus related to but distinct from the existing genus Fonticella of similar.

Similifontimonas

L. masc. adjective *similis*, similar; L. fem. n. *Fontimonas*, An existing genus; *Similifontimonas*: A genus related to but distinct from the existing genus Fontimonas of similar.

Similiformivibrio

L. masc. adjective *similis*, similar; L. masc. n. *Formivibrio*, An existing genus; *Similiformivibrio*: A genus related to but distinct from the existing genus Formivibrio of similar.

Similiformosa

L. masc. adjective *similis*, similar; L. fem. n. *Formosa*, An existing genus; *Similiformosa*: A genus related to but distinct from the existing genus Formosa of similar.

Similiformosimonas

L. masc. adjective *similis*, similar; L. fem. n. *Formosimonas*, An existing genus; *Similiformosimonas*: A genus related to but distinct from the existing genus Formosimonas of similar.

Similifournierella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Fournierella*, An existing genus; *Similifournierella*: A genus related to but distinct from the existing genus Fournierella of similar.

Similifrancisella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Francisella*, An existing genus; *Similifrancisella*: A genus related to but distinct from the existing genus Francisella of similar.

Similifranconibacter

L. masc. adjective *similis*, similar; L. masc. n. *Franconibacter*, An existing genus; *Similifranconibacter*: A genus related to but distinct from the existing genus Franconibacter of similar.

Similifrankia

L. masc. adjective *similis*, similar; L. fem. n. *Frankia*, An existing genus; *Similifrankia*: A genus related to but distinct from the existing genus Frankia of similar.

Similifrateuria

L. masc. adjective *similis*, similar; L. fem. n. *Frateuria*, An existing genus; *Similifrateuria*: A genus related to but distinct from the existing genus Frateuria of similar.

Similifrederiksenia

L. masc. adjective *similis*, similar; L. fem. n. *Frederiksenia*, An existing genus; *Similifrederiksenia*: A genus related to but distinct from the existing genus Frederiksenia of similar.

Similifretibacter

L. masc. adjective *similis*, similar; L. masc. n. *Fretibacter*, An existing genus; *Similifretibacter*: A genus related to but distinct from the existing genus Fretibacter of similar.

Similifretibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Fretibacterium*, An existing genus; *Similifretibacterium*: A genus related to but distinct from the existing genus Fretibacterium of similar.

Similifriedmanniella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Friedmanniella*, An existing genus; *Similifriedmanniella*: A genus related to but distinct from the existing genus Friedmanniella of similar.

Similifrigidibacter

L. masc. adjective *similis*, similar; L. masc. n. *Frigidibacter*, An existing genus; *Similifrigidibacter*: A genus related to but distinct from the existing genus Frigidibacter of similar.

Similifrigoribacterium

L. masc. adjective *similis*, similar; L. neut. n. *Frigoribacterium*, An existing genus; *Similifrigoribacterium*: A genus related to but distinct from the existing genus Frigoribacterium of similar.

Similifrischella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Frischella*, An existing genus; *Similifrischella*: A genus related to but distinct from the existing genus Frischella of similar.

Similifrisingicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Frisingicoccus*, An existing genus; *Similifrisingicoccus*: A genus related to but distinct from the existing genus Frisingicoccus of similar.

Similifrondibacter

L. masc. adjective *similis*, similar; L. masc. n. *Frondibacter*, An existing genus; *Similifrondibacter*: A genus related to but distinct from the existing genus Frondibacter of similar.

Similifrondicola

L. masc. adjective *similis*, similar; L. masc. n. *Frondicola*, An existing genus; *Similifrondicola*: A genus related to but distinct from the existing genus Frondicola of similar.

Similifrondihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Frondihabitans*, An existing genus; *Similifrondihabitans*: A genus related to but distinct from the existing genus Frondihabitans of similar.

Similifructilactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Fructilactobacillus*, An existing genus; *Similifructilactobacillus*: A genus related to but distinct from the existing genus Fructilactobacillus of similar.

Similifructobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Fructobacillus*, An existing genus; *Similifructobacillus*: A genus related to but distinct from the existing genus Fructobacillus of similar.

Similifuchsiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Fuchsiella*, An existing genus; *Similifuchsiella*: A genus related to but distinct from the existing genus Fuchsiella of similar.

Similifudania

L. masc. adjective *similis*, similar; L. fem. n. *Fudania*, An existing genus; *Similifudania*: A genus related to but distinct from the existing genus Fudania of similar.

Similifuerstia

L. masc. adjective *similis*, similar; L. fem. n. *Fuerstia*, An existing genus; *Similifuerstia*: A genus related to but distinct from the existing genus Fuerstia of similar.

Similifulvibacter

L. masc. adjective *similis*, similar; L. masc. n. *Fulvibacter*, An existing genus; *Similifulvibacter*: A genus related to but distinct from the existing genus Fulvibacter of similar.

Similifulvimarina

L. masc. adjective *similis*, similar; L. fem. n. *Fulvimarina*, An existing genus; *Similifulvimarina*: A genus related to but distinct from the existing genus Fulvimarina of similar.

Similifulvimonas

L. masc. adjective *similis*, similar; L. fem. n. *Fulvimonas*, An existing genus; *Similifulvimonas*: A genus related to but distinct from the existing genus Fulvimonas of similar.

Similifulvitalea

L. masc. adjective *similis*, similar; L. fem. n. *Fulvitalea*, An existing genus; *Similifulvitalea*: A genus related to but distinct from the existing genus Fulvitalea of similar.

Similifulvivirga

L. masc. adjective *similis*, similar; L. fem. n. *Fulvivirga*, An existing genus; *Similifulvivirga*: A genus related to but distinct from the existing genus Fulvivirga of similar.

Similifundibacter

L. masc. adjective *similis*, similar; L. masc. n. *Fundibacter*, An existing genus; *Similifundibacter*: A genus related to but distinct from the existing genus Fundibacter of similar.

Similifundicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Fundicoccus*, An existing genus; *Similifundicoccus*: A genus related to but distinct from the existing genus Fundicoccus of similar.

Similifurfurilactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Furfurilactobacillus*, An existing genus; *Similifurfurilactobacillus*: A genus related to but distinct from the existing genus Furfurilactobacillus of similar.

Similifuscovulum

L. masc. adjective *similis*, similar; L. neut. n. *Fuscovulum*, An existing genus; *Similifuscovulum*: A genus related to but distinct from the existing genus Fuscovulum of similar.

Similifusibacter

L. masc. adjective *similis*, similar; L. masc. n. *Fusibacter*, An existing genus; *Similifusibacter*: A genus related to but distinct from the existing genus Fusibacter of similar.

Similifusicatenibacter

L. masc. adjective *similis*, similar; L. masc. n. *Fusicatenibacter*, An existing genus; *Similifusicatenibacter*: A genus related to but distinct from the existing genus Fusicatenibacter of similar.

Similifusimonas

L. masc. adjective *similis*, similar; L. fem. n. *Fusimonas*, An existing genus; *Similifusimonas*: A genus related to but distinct from the existing genus Fusimonas of similar.

Similifusobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Fusobacterium*, An existing genus; *Similifusobacterium*: A genus related to but distinct from the existing genus Fusobacterium of similar.

Similigabonia

L. masc. adjective *similis*, similar; L. fem. n. *Gabonia*, An existing genus; *Similigabonia*: A genus related to but distinct from the existing genus Gabonia of similar.

Similigabonibacter

L. masc. adjective *similis*, similar; L. masc. n. *Gabonibacter*, An existing genus; *Similigabonibacter*: A genus related to but distinct from the existing genus Gabonibacter of similar.

Similigaetbulibacter

L. masc. adjective *similis*, similar; L. masc. n. *Gaetbulibacter*, An existing genus; *Similigaetbulibacter*: A genus related to but distinct from the existing genus Gaetbulibacter of similar.

Similigaetbulicola

L. masc. adjective *similis*, similar; L. masc. n. *Gaetbulicola*, An existing genus; *Similigaetbulicola*: A genus related to but distinct from the existing genus Gaetbulicola of similar.

Similigaetbulimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Gaetbulimicrobium*, An existing genus; *Similigaetbulimicrobium*: A genus related to but distinct from the existing genus Gaetbulimicrobium of similar.

Similigaiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Gaiella*, An existing genus; *Similigaiella*: A genus related to but distinct from the existing genus Gaiella of similar.

Similigalbibacter

L. masc. adjective *similis*, similar; L. masc. n. *Galbibacter*, An existing genus; *Similigalbibacter*: A genus related to but distinct from the existing genus Galbibacter of similar.

Similigalbitalea

L. masc. adjective *similis*, similar; L. fem. n. *Galbitalea*, An existing genus; *Similigalbitalea*: A genus related to but distinct from the existing genus Galbitalea of similar.

Similigallaecimonas

L. masc. adjective *similis*, similar; L. fem. n. *Gallaecimonas*, An existing genus; *Similigallaecimonas*: A genus related to but distinct from the existing genus Gallaecimonas of similar.

Similigallibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Gallibacterium*, An existing genus; *Similigallibacterium*: A genus related to but distinct from the existing genus Gallibacterium of similar.

Similigallicola

L. masc. adjective *similis*, similar; L. masc. n. *Gallicola*, An existing genus; *Similigallicola*: A genus related to but distinct from the existing genus Gallicola of similar.

Similigallionella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Gallionella*, An existing genus; *Similigallionella*: A genus related to but distinct from the existing genus Gallionella of similar.

Similigalliscardovia

L. masc. adjective *similis*, similar; L. fem. n. *Galliscardovia*, An existing genus; *Similigalliscardovia*: A genus related to but distinct from the existing genus Galliscardovia of similar.

Similigandjariella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Gandjariella*, An existing genus; *Similigandjariella*: A genus related to but distinct from the existing genus Gandjariella of similar.

Similigangjinia

L. masc. adjective *similis*, similar; L. fem. n. *Gangjinia*, An existing genus; *Similigangjinia*: A genus related to but distinct from the existing genus Gangjinia of similar.

Similigarciella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Garciella*, An existing genus; *Similigarciella*: A genus related to but distinct from the existing genus Garciella of similar.

Similigardnerella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Gardnerella*, An existing genus; *Similigardnerella*: A genus related to but distinct from the existing genus Gardnerella of similar.

Similigaricola

L. masc. adjective *similis*, similar; L. masc. n. *Garicola*, An existing genus; *Similigaricola*: A genus related to but distinct from the existing genus Garicola of similar.

Similigarritya

L. masc. adjective *similis*, similar; L. fem. n. *Garritya*, An existing genus; *Similigarritya*: A genus related to but distinct from the existing genus Garritya of similar.

Similigayadomonas

L. masc. adjective *similis*, similar; L. fem. n. *Gayadomonas*, An existing genus; *Similigayadomonas*: A genus related to but distinct from the existing genus Gayadomonas of similar.

Similigelatiniphilus

L. masc. adjective *similis*, similar; L. masc. n. *Gelatiniphilus*, An existing genus; *Similigelatiniphilus*: A genus related to but distinct from the existing genus Gelatiniphilus of similar.

Similigelidibacter

L. masc. adjective *similis*, similar; L. masc. n. *Gelidibacter*, An existing genus; *Similigelidibacter*: A genus related to but distinct from the existing genus Gelidibacter of similar.

Similigellertiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Gellertiella*, An existing genus; *Similigellertiella*: A genus related to but distinct from the existing genus Gellertiella of similar.

Similigelria

L. masc. adjective *similis*, similar; L. fem. n. *Gelria*, An existing genus; *Similigelria*: A genus related to but distinct from the existing genus Gelria of similar.

Similigemella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Gemella*, An existing genus; *Similigemella*: A genus related to but distinct from the existing genus Gemella of similar.

Similigeminicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Geminicoccus*, An existing genus; *Similigeminicoccus*: A genus related to but distinct from the existing genus Geminicoccus of similar.

Similigeminisphaera

L. masc. adjective *similis*, similar; L. fem. n. *Geminisphaera*, An existing genus; *Similigeminisphaera*: A genus related to but distinct from the existing genus Geminisphaera of similar.

Similigeminobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Geminobacterium*, An existing genus; *Similigeminobacterium*: A genus related to but distinct from the existing genus Geminobacterium of similar.

Similigemmata

L. masc. adjective *similis*, similar; L. fem. n. *Gemmata*, An existing genus; *Similigemmata*: A genus related to but distinct from the existing genus Gemmata of similar.

Similigemmatimonas

L. masc. adjective *similis*, similar; L. fem. n. *Gemmatimonas*, An existing genus; *Similigemmatimonas*: A genus related to but distinct from the existing genus Gemmatimonas of similar.

Similigemmatirosa

L. masc. adjective *similis*, similar; L. fem. n. *Gemmatirosa*, An existing genus; *Similigemmatirosa*: A genus related to but distinct from the existing genus Gemmatirosa of similar.

Similigemmiger

L. masc. adjective *similis*, similar; L. masc. n. *Gemmiger*, An existing genus; *Similigemmiger*: A genus related to but distinct from the existing genus Gemmiger of similar.

Similigeoalkalibacter

L. masc. adjective *similis*, similar; L. masc. n. *Geoalkalibacter*, An existing genus; *Similigeoalkalibacter*: A genus related to but distinct from the existing genus Geoalkalibacter of similar.

Similigeobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Geobacillus*, An existing genus; *Similigeobacillus*: A genus related to but distinct from the existing genus Geobacillus of similar.

Similigeobacter

L. masc. adjective *similis*, similar; L. masc. n. *Geobacter*, An existing genus; *Similigeobacter*: A genus related to but distinct from the existing genus Geobacter of similar.

Similigeodermatophilus

L. masc. adjective *similis*, similar; L. masc. n. *Geodermatophilus*, An existing genus; *Similigeodermatophilus*: A genus related to but distinct from the existing genus Geodermatophilus of similar.

Similigeofilum

L. masc. adjective *similis*, similar; L. neut. n. *Geofilum*, An existing genus; *Similigeofilum*: A genus related to but distinct from the existing genus Geofilum of similar.

Similigeoglobus

L. masc. adjective *similis*, similar; L. masc. n. *Geoglobus*, An existing genus; *Similigeoglobus*: A genus related to but distinct from the existing genus Geoglobus of similar.

Similigeojedonia

L. masc. adjective *similis*, similar; L. fem. n. *Geojedonia*, An existing genus; *Similigeojedonia*: A genus related to but distinct from the existing genus Geojedonia of similar.

Similigeomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Geomicrobium*, An existing genus; *Similigeomicrobium*: A genus related to but distinct from the existing genus Geomicrobium of similar.

Similigeomonas

L. masc. adjective *similis*, similar; L. fem. n. *Geomonas*, An existing genus; *Similigeomonas*: A genus related to but distinct from the existing genus Geomonas of similar.

Similigeopsychrobacter

L. masc. adjective *similis*, similar; L. masc. n. *Geopsychrobacter*, An existing genus; *Similigeopsychrobacter*: A genus related to but distinct from the existing genus Geopsychrobacter of similar.

Similigeorgenia

L. masc. adjective *similis*, similar; L. fem. n. *Georgenia*, An existing genus; *Similigeorgenia*: A genus related to but distinct from the existing genus Georgenia of similar.

Similigeorgfuchsia

L. masc. adjective *similis*, similar; L. fem. n. *Georgfuchsia*, An existing genus; *Similigeorgfuchsia*: A genus related to but distinct from the existing genus Georgfuchsia of similar.

Similigeorhizobium

L. masc. adjective *similis*, similar; L. neut. n. *Georhizobium*, An existing genus; *Similigeorhizobium*: A genus related to but distinct from the existing genus Georhizobium of similar.

Similigeosporobacter

L. masc. adjective *similis*, similar; L. masc. n. *Geosporobacter*, An existing genus; *Similigeosporobacter*: A genus related to but distinct from the existing genus Geosporobacter of similar.

Similigeothermobacter

L. masc. adjective *similis*, similar; L. masc. n. *Geothermobacter*, An existing genus; *Similigeothermobacter*: A genus related to but distinct from the existing genus Geothermobacter of similar.

Similigeothermobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Geothermobacterium*, An existing genus; *Similigeothermobacterium*: A genus related to but distinct from the existing genus Geothermobacterium of similar.

Similigeothermomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Geothermomicrobium*, An existing genus; *Similigeothermomicrobium*: A genus related to but distinct from the existing genus Geothermomicrobium of similar.

Similigeothrix

L. masc. adjective *similis*, similar; L. fem. n. *Geothrix*, An existing genus; *Similigeothrix*: A genus related to but distinct from the existing genus Geothrix of similar.

Similigeotoga

L. masc. adjective *similis*, similar; L. fem. n. *Geotoga*, An existing genus; *Similigeotoga*: A genus related to but distinct from the existing genus Geotoga of similar.

Similigeovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Geovibrio*, An existing genus; *Similigeovibrio*: A genus related to but distinct from the existing genus Geovibrio of similar.

Similighiorsea

L. masc. adjective *similis*, similar; L. fem. n. *Ghiorsea*, An existing genus; *Similighiorsea*: A genus related to but distinct from the existing genus Ghiorsea of similar.

Similigibbsiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Gibbsiella*, An existing genus; *Similigibbsiella*: A genus related to but distinct from the existing genus Gibbsiella of similar.

Similigiesbergeria

L. masc. adjective *similis*, similar; L. fem. n. *Giesbergeria*, An existing genus; *Similigiesbergeria*: A genus related to but distinct from the existing genus Giesbergeria of similar.

Similigilliamella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Gilliamella*, An existing genus; *Similigilliamella*: A genus related to but distinct from the existing genus Gilliamella of similar.

Similigillisia

L. masc. adjective *similis*, similar; L. fem. n. *Gillisia*, An existing genus; *Similigillisia*: A genus related to but distinct from the existing genus Gillisia of similar.

Similigilvibacter

L. masc. adjective *similis*, similar; L. masc. n. *Gilvibacter*, An existing genus; *Similigilvibacter*: A genus related to but distinct from the existing genus Gilvibacter of similar.

Similigilvimarinus

L. masc. adjective *similis*, similar; L. masc. n. *Gilvimarinus*, An existing genus; *Similigilvimarinus*: A genus related to but distinct from the existing genus Gilvimarinus of similar.

Similigimesia

L. masc. adjective *similis*, similar; L. fem. n. *Gimesia*, An existing genus; *Similigimesia*: A genus related to but distinct from the existing genus Gimesia of similar.

Similiglaciecola

L. masc. adjective *similis*, similar; L. fem. n. *Glaciecola*, An existing genus; *Similiglaciecola*: A genus related to but distinct from the existing genus Glaciecola of similar.

Similiglaciibacter

L. masc. adjective *similis*, similar; L. masc. n. *Glaciibacter*, An existing genus; *Similiglaciibacter*: A genus related to but distinct from the existing genus Glaciibacter of similar.

Similiglaciihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Glaciihabitans*, An existing genus; *Similiglaciihabitans*: A genus related to but distinct from the existing genus Glaciihabitans of similar.

Similiglaciimonas

L. masc. adjective *similis*, similar; L. fem. n. *Glaciimonas*, An existing genus; *Similiglaciimonas*: A genus related to but distinct from the existing genus Glaciimonas of similar.

Similiglaesserella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Glaesserella*, An existing genus; *Similiglaesserella*: A genus related to but distinct from the existing genus Glaesserella of similar.

Similigleimia

L. masc. adjective *similis*, similar; L. fem. n. *Gleimia*, An existing genus; *Similigleimia*: A genus related to but distinct from the existing genus Gleimia of similar.

Similiglobicatella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Globicatella*, An existing genus; *Similiglobicatella*: A genus related to but distinct from the existing genus Globicatella of similar.

Similigloeobacter

L. masc. adjective *similis*, similar; L. masc. n. *Gloeobacter*, An existing genus; *Similigloeobacter*: A genus related to but distinct from the existing genus Gloeobacter of similar.

Similigloeomargarita

L. masc. adjective *similis*, similar; L. fem. n. *Gloeomargarita*, An existing genus; *Similigloeomargarita*: A genus related to but distinct from the existing genus Gloeomargarita of similar.

Similiglucerabacter

L. masc. adjective *similis*, similar; L. masc. n. *Glucerabacter*, An existing genus; *Similiglucerabacter*: A genus related to but distinct from the existing genus Glucerabacter of similar.

Similigluconacetobacter

L. masc. adjective *similis*, similar; L. masc. n. *Gluconacetobacter*, An existing genus; *Similigluconacetobacter*: A genus related to but distinct from the existing genus Gluconacetobacter of similar.

Similigluconobacter

L. masc. adjective *similis*, similar; L. masc. n. *Gluconobacter*, An existing genus; *Similigluconobacter*: A genus related to but distinct from the existing genus Gluconobacter of similar.

Similiglutamicibacter

L. masc. adjective *similis*, similar; L. masc. n. *Glutamicibacter*, An existing genus; *Similiglutamicibacter*: A genus related to but distinct from the existing genus Glutamicibacter of similar.

Similiglycocaulis

L. masc. adjective *similis*, similar; L. masc. n. *Glycocaulis*, An existing genus; *Similiglycocaulis*: A genus related to but distinct from the existing genus Glycocaulis of similar.

Similiglycomyces

L. masc. adjective *similis*, similar; L. masc. n. *Glycomyces*, An existing genus; *Similiglycomyces*: A genus related to but distinct from the existing genus Glycomyces of similar.

Similigodleya

L. masc. adjective *similis*, similar; L. fem. n. *Godleya*, An existing genus; *Similigodleya*: A genus related to but distinct from the existing genus Godleya of similar.

Similigomontiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Gomontiella*, An existing genus; *Similigomontiella*: A genus related to but distinct from the existing genus Gomontiella of similar.

Similigoodfellowia

L. masc. adjective *similis*, similar; L. fem. n. *Goodfellowia*, An existing genus; *Similigoodfellowia*: A genus related to but distinct from the existing genus Goodfellowia of similar.

Similigoodfellowiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Goodfellowiella*, An existing genus; *Similigoodfellowiella*: A genus related to but distinct from the existing genus Goodfellowiella of similar.

Similigordona

L. masc. adjective *similis*, similar; L. fem. n. *Gordona*, An existing genus; *Similigordona*: A genus related to but distinct from the existing genus Gordona of similar.

Similigordonia

L. masc. adjective *similis*, similar; L. fem. n. *Gordonia*, An existing genus; *Similigordonia*: A genus related to but distinct from the existing genus Gordonia of similar.

Similigordonibacter

L. masc. adjective *similis*, similar; L. masc. n. *Gordonibacter*, An existing genus; *Similigordonibacter*: A genus related to but distinct from the existing genus Gordonibacter of similar.

Similigorillibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Gorillibacterium*, An existing genus; *Similigorillibacterium*: A genus related to but distinct from the existing genus Gorillibacterium of similar.

Similigottschalkia

L. masc. adjective *similis*, similar; L. fem. n. *Gottschalkia*, An existing genus; *Similigottschalkia*: A genus related to but distinct from the existing genus Gottschalkia of similar.

Similigracilibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Gracilibacillus*, An existing genus; *Similigracilibacillus*: A genus related to but distinct from the existing genus Gracilibacillus of similar.

Similigracilibacter

L. masc. adjective *similis*, similar; L. masc. n. *Gracilibacter*, An existing genus; *Similigracilibacter*: A genus related to but distinct from the existing genus Gracilibacter of similar.

Similigracilimonas

L. masc. adjective *similis*, similar; L. fem. n. *Gracilimonas*, An existing genus; *Similigracilimonas*: A genus related to but distinct from the existing genus Gracilimonas of similar.

Similigrahamella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Grahamella*, An existing genus; *Similigrahamella*: A genus related to but distinct from the existing genus Grahamella of similar.

Similigramella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Gramella*, An existing genus; *Similigramella*: A genus related to but distinct from the existing genus Gramella of similar.

Similigranulibacter

L. masc. adjective *similis*, similar; L. masc. n. *Granulibacter*, An existing genus; *Similigranulibacter*: A genus related to but distinct from the existing genus Granulibacter of similar.

Similigranulicella

L. masc. adjective *similis*, similar; L. fem. n. *Granulicella*, An existing genus; *Similigranulicella*: A genus related to but distinct from the existing genus Granulicella of similar.

Similigranulicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Granulicoccus*, An existing genus; *Similigranulicoccus*: A genus related to but distinct from the existing genus Granulicoccus of similar.

Similigranulosicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Granulosicoccus*, An existing genus; *Similigranulosicoccus*: A genus related to but distinct from the existing genus Granulosicoccus of similar.

Similigrimontia

L. masc. adjective *similis*, similar; L. fem. n. *Grimontia*, An existing genus; *Similigrimontia*: A genus related to but distinct from the existing genus Grimontia of similar.

Similigryllotalpicola

L. masc. adjective *similis*, similar; L. masc. n. *Gryllotalpicola*, An existing genus; *Similigryllotalpicola*: A genus related to but distinct from the existing genus Gryllotalpicola of similar.

Similigudongella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Gudongella*, An existing genus; *Similigudongella*: A genus related to but distinct from the existing genus Gudongella of similar.

Similiguggenheimella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Guggenheimella*, An existing genus; *Similiguggenheimella*: A genus related to but distinct from the existing genus Guggenheimella of similar.

Similigulbenkiania

L. masc. adjective *similis*, similar; L. fem. n. *Gulbenkiania*, An existing genus; *Similigulbenkiania*: A genus related to but distinct from the existing genus Gulbenkiania of similar.

Similigulosibacter

L. masc. adjective *similis*, similar; L. masc. n. *Gulosibacter*, An existing genus; *Similigulosibacter*: A genus related to but distinct from the existing genus Gulosibacter of similar.

Similiguyparkeria

L. masc. adjective *similis*, similar; L. fem. n. *Guyparkeria*, An existing genus; *Similiguyparkeria*: A genus related to but distinct from the existing genus Guyparkeria of similar.

Similigynuella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Gynuella*, An existing genus; *Similigynuella*: A genus related to but distinct from the existing genus Gynuella of similar.

Similigynurincola

L. masc. adjective *similis*, similar; L. masc. n. *Gynurincola*, An existing genus; *Similigynurincola*: A genus related to but distinct from the existing genus Gynurincola of similar.

Similihaematomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Haematomicrobium*, An existing genus; *Similihaematomicrobium*: A genus related to but distinct from the existing genus Haematomicrobium of similar.

Similihaemobartonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Haemobartonella*, An existing genus; *Similihaemobartonella*: A genus related to but distinct from the existing genus Haemobartonella of similar.

Similihaemophilus

L. masc. adjective *similis*, similar; L. masc. n. *Haemophilus*, An existing genus; *Similihaemophilus*: A genus related to but distinct from the existing genus Haemophilus of similar.

Similihahella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Hahella*, An existing genus; *Similihahella*: A genus related to but distinct from the existing genus Hahella of similar.

Similihahyoungchilella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Hahyoungchilella*, An existing genus; *Similihahyoungchilella*: A genus related to but distinct from the existing genus Hahyoungchilella of similar.

Similihaladaptatus

L. masc. adjective *similis*, similar; L. masc. n. *Haladaptatus*, An existing genus; *Similihaladaptatus*: A genus related to but distinct from the existing genus Haladaptatus of similar.

Similihalalkaliarchaeum

L. masc. adjective *similis*, similar; L. neut. n. *Halalkaliarchaeum*, An existing genus; *Similihalalkaliarchaeum*: A genus related to but distinct from the existing genus Halalkaliarchaeum of similar.

Similihalalkalibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Halalkalibacillus*, An existing genus; *Similihalalkalibacillus*: A genus related to but distinct from the existing genus Halalkalibacillus of similar.

Similihalalkalicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Halalkalicoccus*, An existing genus; *Similihalalkalicoccus*: A genus related to but distinct from the existing genus Halalkalicoccus of similar.

Similihalanaeroarchaeum

L. masc. adjective *similis*, similar; L. neut. n. *Halanaeroarchaeum*, An existing genus; *Similihalanaeroarchaeum*: A genus related to but distinct from the existing genus Halanaeroarchaeum of similar.

Similihalanaerobacter

L. masc. adjective *similis*, similar; L. masc. n. *Halanaerobacter*, An existing genus; *Similihalanaerobacter*: A genus related to but distinct from the existing genus Halanaerobacter of similar.

Similihalanaerobium

L. masc. adjective *similis*, similar; L. neut. n. *Halanaerobium*, An existing genus; *Similihalanaerobium*: A genus related to but distinct from the existing genus Halanaerobium of similar.

Similihalanaerocella

L. masc. adjective *similis*, similar; L. fem. n. *Halanaerocella*, An existing genus; *Similihalanaerocella*: A genus related to but distinct from the existing genus Halanaerocella of similar.

Similihalapricum

L. masc. adjective *similis*, similar; L. neut. n. *Halapricum*, An existing genus; *Similihalapricum*: A genus related to but distinct from the existing genus Halapricum of similar.

Similihalarchaeum

L. masc. adjective *similis*, similar; L. neut. n. *Halarchaeum*, An existing genus; *Similihalarchaeum*: A genus related to but distinct from the existing genus Halarchaeum of similar.

Similihalarsenatibacter

L. masc. adjective *similis*, similar; L. masc. n. *Halarsenatibacter*, An existing genus; *Similihalarsenatibacter*: A genus related to but distinct from the existing genus Halarsenatibacter of similar.

Similihalegenticoccus

L. masc. adjective *similis*, similar; L. masc. n. *Halegenticoccus*, An existing genus; *Similihalegenticoccus*: A genus related to but distinct from the existing genus Halegenticoccus of similar.

Similihaliangium

L. masc. adjective *similis*, similar; L. neut. n. *Haliangium*, An existing genus; *Similihaliangium*: A genus related to but distinct from the existing genus Haliangium of similar.

Similihaliea

L. masc. adjective *similis*, similar; L. fem. n. *Haliea*, An existing genus; *Similihaliea*: A genus related to but distinct from the existing genus Haliea of similar.

Similihalioglobus

L. masc. adjective *similis*, similar; L. masc. n. *Halioglobus*, An existing genus; *Similihalioglobus*: A genus related to but distinct from the existing genus Halioglobus of similar.

Similihalioxenophilus

L. masc. adjective *similis*, similar; L. masc. n. *Halioxenophilus*, An existing genus; *Similihalioxenophilus*: A genus related to but distinct from the existing genus Halioxenophilus of similar.

Similihaliscomenobacter

L. masc. adjective *similis*, similar; L. masc. n. *Haliscomenobacter*, An existing genus; *Similihaliscomenobacter*: A genus related to but distinct from the existing genus Haliscomenobacter of similar.

Similihallella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Hallella*, An existing genus; *Similihallella*: A genus related to but distinct from the existing genus Hallella of similar.

Similihaloactinobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Haloactinobacterium*, An existing genus; *Similihaloactinobacterium*: A genus related to but distinct from the existing genus Haloactinobacterium of similar.

Similihaloactinomyces

L. masc. adjective *similis*, similar; L. masc. n. *Haloactinomyces*, An existing genus; *Similihaloactinomyces*: A genus related to but distinct from the existing genus Haloactinomyces of similar.

Similihaloactinopolyspora

L. masc. adjective *similis*, similar; L. fem. n. *Haloactinopolyspora*, An existing genus; *Similihaloactinopolyspora*: A genus related to but distinct from the existing genus Haloactinopolyspora of similar.

Similihaloactinospora

L. masc. adjective *similis*, similar; L. fem. n. *Haloactinospora*, An existing genus; *Similihaloactinospora*: A genus related to but distinct from the existing genus Haloactinospora of similar.

Similihaloarchaeobius

L. masc. adjective *similis*, similar; L. masc. n. *Haloarchaeobius*, An existing genus; *Similihaloarchaeobius*: A genus related to but distinct from the existing genus Haloarchaeobius of similar.

Similihaloarcula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Haloarcula*, An existing genus; *Similihaloarcula*: A genus related to but distinct from the existing genus Haloarcula of similar.

Similihalobacteriovorax

L. masc. adjective *similis*, similar; L. masc. n. *Halobacteriovorax*, An existing genus; *Similihalobacteriovorax*: A genus related to but distinct from the existing genus Halobacteriovorax of similar.

Similihalobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Halobacterium*, An existing genus; *Similihalobacterium*: A genus related to but distinct from the existing genus Halobacterium of similar.

Similihalobacteroides

L. masc. adjective *similis*, similar; L. masc. n. *Halobacteroides*, An existing genus; *Similihalobacteroides*: A genus related to but distinct from the existing genus Halobacteroides of similar.

Similihalobaculum

L. masc. adjective *similis*, similar; L. neut. n. *Halobaculum*, An existing genus; *Similihalobaculum*: A genus related to but distinct from the existing genus Halobaculum of similar.

Similihalobellus

L. masc. adjective *similis*, similar; L. masc. n. *Halobellus*, An existing genus; *Similihalobellus*: A genus related to but distinct from the existing genus Halobellus of similar.

Similihalobiforma

L. masc. adjective *similis*, similar; L. fem. n. *Halobiforma*, An existing genus; *Similihalobiforma*: A genus related to but distinct from the existing genus Halobiforma of similar.

Similihalobium

L. masc. adjective *similis*, similar; L. neut. n. *Halobium*, An existing genus; *Similihalobium*: A genus related to but distinct from the existing genus Halobium of similar.

Similihalocalculus

L. masc. adjective *similis*, similar; L. masc. n. *Halocalculus*, An existing genus; *Similihalocalculus*: A genus related to but distinct from the existing genus Halocalculus of similar.

Similihalocella

L. masc. adjective *similis*, similar; L. fem. n. *Halocella*, An existing genus; *Similihalocella*: A genus related to but distinct from the existing genus Halocella of similar.

Similihalochromatium

L. masc. adjective *similis*, similar; L. neut. n. *Halochromatium*, An existing genus; *Similihalochromatium*: A genus related to but distinct from the existing genus Halochromatium of similar.

Similihalococcoides

L. masc. adjective *similis*, similar; L. neut. n. *Halococcoides*, An existing genus; *Similihalococcoides*: A genus related to but distinct from the existing genus Halococcoides of similar.

Similihalococcus

L. masc. adjective *similis*, similar; L. masc. n. *Halococcus*, An existing genus; *Similihalococcus*: A genus related to but distinct from the existing genus Halococcus of similar.

Similihalocynthiibacter

L. masc. adjective *similis*, similar; L. masc. n. *Halocynthiibacter*, An existing genus; *Similihalocynthiibacter*: A genus related to but distinct from the existing genus Halocynthiibacter of similar.

Similihalodesulfovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Halodesulfovibrio*, An existing genus; *Similihalodesulfovibrio*: A genus related to but distinct from the existing genus Halodesulfovibrio of similar.

Similihalodesulfurarchaeum

L. masc. adjective *similis*, similar; L. neut. n. *Halodesulfurarchaeum*, An existing genus; *Similihalodesulfurarchaeum*: A genus related to but distinct from the existing genus Halodesulfurarchaeum of similar.

Similihalodurantibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Halodurantibacterium*, An existing genus; *Similihalodurantibacterium*: A genus related to but distinct from the existing genus Halodurantibacterium of similar.

Similihaloechinothrix

L. masc. adjective *similis*, similar; L. fem. n. *Haloechinothrix*, An existing genus; *Similihaloechinothrix*: A genus related to but distinct from the existing genus Haloechinothrix of similar.

Similihaloferax

L. masc. adjective *similis*, similar; L. neut. n. *Haloferax*, An existing genus; *Similihaloferax*: A genus related to but distinct from the existing genus Haloferax of similar.

Similihaloferula

L. masc. adjective *similis*, similar; L. fem. n. *Haloferula*, An existing genus; *Similihaloferula*: A genus related to but distinct from the existing genus Haloferula of similar.

Similihalofilum

L. masc. adjective *similis*, similar; L. neut. n. *Halofilum*, An existing genus; *Similihalofilum*: A genus related to but distinct from the existing genus Halofilum of similar.

Similihaloflavibacter

L. masc. adjective *similis*, similar; L. masc. n. *Haloflavibacter*, An existing genus; *Similihaloflavibacter*: A genus related to but distinct from the existing genus Haloflavibacter of similar.

Similihalogeometricum

L. masc. adjective *similis*, similar; L. neut. n. *Halogeometricum*, An existing genus; *Similihalogeometricum*: A genus related to but distinct from the existing genus Halogeometricum of similar.

Similihaloglycomyces

L. masc. adjective *similis*, similar; L. masc. n. *Haloglycomyces*, An existing genus; *Similihaloglycomyces*: A genus related to but distinct from the existing genus Haloglycomyces of similar.

Similihalogranum

L. masc. adjective *similis*, similar; L. neut. n. *Halogranum*, An existing genus; *Similihalogranum*: A genus related to but distinct from the existing genus Halogranum of similar.

Similihalohasta

L. masc. adjective *similis*, similar; L. fem. n. *Halohasta*, An existing genus; *Similihalohasta*: A genus related to but distinct from the existing genus Halohasta of similar.

Similihaloimpatiens

L. masc. adjective *similis*, similar; L. masc. n. *Haloimpatiens*, An existing genus; *Similihaloimpatiens*: A genus related to but distinct from the existing genus Haloimpatiens of similar.

Similihaloincola

L. masc. adjective *similis*, similar; L. masc. n. *Haloincola*, An existing genus; *Similihaloincola*: A genus related to but distinct from the existing genus Haloincola of similar.

Similihalolactibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Halolactibacillus*, An existing genus; *Similihalolactibacillus*: A genus related to but distinct from the existing genus Halolactibacillus of similar.

Similihalolamina

L. masc. adjective *similis*, similar; L. fem. n. *Halolamina*, An existing genus; *Similihalolamina*: A genus related to but distinct from the existing genus Halolamina of similar.

Similihaloleptolyngbya

L. masc. adjective *similis*, similar; L. fem. n. *Haloleptolyngbya*, An existing genus; *Similihaloleptolyngbya*: A genus related to but distinct from the existing genus Haloleptolyngbya of similar.

Similihalomarina

L. masc. adjective *similis*, similar; L. fem. n. *Halomarina*, An existing genus; *Similihalomarina*: A genus related to but distinct from the existing genus Halomarina of similar.

Similihalomethanococcus

L. masc. adjective *similis*, similar; L. masc. n. *Halomethanococcus*, An existing genus; *Similihalomethanococcus*: A genus related to but distinct from the existing genus Halomethanococcus of similar.

Similihalomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Halomicrobium*, An existing genus; *Similihalomicrobium*: A genus related to but distinct from the existing genus Halomicrobium of similar.

Similihalomicrococcus

L. masc. adjective *similis*, similar; L. masc. n. *Halomicrococcus*, An existing genus; *Similihalomicrococcus*: A genus related to but distinct from the existing genus Halomicrococcus of similar.

Similihalomicronema

L. masc. adjective *similis*, similar; L. neut. n. *Halomicronema*, An existing genus; *Similihalomicronema*: A genus related to but distinct from the existing genus Halomicronema of similar.

Similihalomonas

L. masc. adjective *similis*, similar; L. fem. n. *Halomonas*, An existing genus; *Similihalomonas*: A genus related to but distinct from the existing genus Halomonas of similar.

Similihalonatronum

L. masc. adjective *similis*, similar; L. neut. n. *Halonatronum*, An existing genus; *Similihalonatronum*: A genus related to but distinct from the existing genus Halonatronum of similar.

Similihalonotius

L. masc. adjective *similis*, similar; L. masc. n. *Halonotius*, An existing genus; *Similihalonotius*: A genus related to but distinct from the existing genus Halonotius of similar.

Similihaloparvum

L. masc. adjective *similis*, similar; L. neut. n. *Haloparvum*, An existing genus; *Similihaloparvum*: A genus related to but distinct from the existing genus Haloparvum of similar.

Similihalopelagius

L. masc. adjective *similis*, similar; L. masc. n. *Halopelagius*, An existing genus; *Similihalopelagius*: A genus related to but distinct from the existing genus Halopelagius of similar.

Similihalopenitus

L. masc. adjective *similis*, similar; L. masc. n. *Halopenitus*, An existing genus; *Similihalopenitus*: A genus related to but distinct from the existing genus Halopenitus of similar.

Similihalopeptonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Halopeptonella*, An existing genus; *Similihalopeptonella*: A genus related to but distinct from the existing genus Halopeptonella of similar.

Similihalopiger

L. masc. adjective *similis*, similar; L. masc. n. *Halopiger*, An existing genus; *Similihalopiger*: A genus related to but distinct from the existing genus Halopiger of similar.

Similihaloplanus

L. masc. adjective *similis*, similar; L. masc. n. *Haloplanus*, An existing genus; *Similihaloplanus*: A genus related to but distinct from the existing genus Haloplanus of similar.

Similihaloplasma

L. masc. adjective *similis*, similar; L. neut. n. *Haloplasma*, An existing genus; *Similihaloplasma*: A genus related to but distinct from the existing genus Haloplasma of similar.

Similihalopolyspora

L. masc. adjective *similis*, similar; L. fem. n. *Halopolyspora*, An existing genus; *Similihalopolyspora*: A genus related to but distinct from the existing genus Halopolyspora of similar.

Similihaloprofundus

L. masc. adjective *similis*, similar; L. masc. n. *Haloprofundus*, An existing genus; *Similihaloprofundus*: A genus related to but distinct from the existing genus Haloprofundus of similar.

Similihaloquadratum

L. masc. adjective *similis*, similar; L. neut. n. *Haloquadratum*, An existing genus; *Similihaloquadratum*: A genus related to but distinct from the existing genus Haloquadratum of similar.

Similihalorhodospira

L. masc. adjective *similis*, similar; L. fem. n. *Halorhodospira*, An existing genus; *Similihalorhodospira*: A genus related to but distinct from the existing genus Halorhodospira of similar.

Similihalorientalis

L. masc. adjective *similis*, similar; L. fem. n. *Halorientalis*, An existing genus; *Similihalorientalis*: A genus related to but distinct from the existing genus Halorientalis of similar.

Similihalorubellus

L. masc. adjective *similis*, similar; L. masc. n. *Halorubellus*, An existing genus; *Similihalorubellus*: A genus related to but distinct from the existing genus Halorubellus of similar.

Similihalorubrobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Halorubrobacterium*, An existing genus; *Similihalorubrobacterium*: A genus related to but distinct from the existing genus Halorubrobacterium of similar.

Similihalorubrum

L. masc. adjective *similis*, similar; L. neut. n. *Halorubrum*, An existing genus; *Similihalorubrum*: A genus related to but distinct from the existing genus Halorubrum of similar.

Similihalorussus

L. masc. adjective *similis*, similar; L. masc. n. *Halorussus*, An existing genus; *Similihalorussus*: A genus related to but distinct from the existing genus Halorussus of similar.

Similihalosarcina

L. masc. adjective *similis*, similar; L. fem. n. *Halosarcina*, An existing genus; *Similihalosarcina*: A genus related to but distinct from the existing genus Halosarcina of similar.

Similihalosiccatus

L. masc. adjective *similis*, similar; L. masc. n. *Halosiccatus*, An existing genus; *Similihalosiccatus*: A genus related to but distinct from the existing genus Halosiccatus of similar.

Similihalosimplex

L. masc. adjective *similis*, similar; L. neut. n. *Halosimplex*, An existing genus; *Similihalosimplex*: A genus related to but distinct from the existing genus Halosimplex of similar.

Similihalospina

L. masc. adjective *similis*, similar; L. fem. n. *Halospina*, An existing genus; *Similihalospina*: A genus related to but distinct from the existing genus Halospina of similar.

Similihalospirulina

L. masc. adjective *similis*, similar; L. fem. n. *Halospirulina*, An existing genus; *Similihalospirulina*: A genus related to but distinct from the existing genus Halospirulina of similar.

Similihalostagnicola

L. masc. adjective *similis*, similar; L. fem. n. *Halostagnicola*, An existing genus; *Similihalostagnicola*: A genus related to but distinct from the existing genus Halostagnicola of similar.

Similihalotalea

L. masc. adjective *similis*, similar; L. fem. n. *Halotalea*, An existing genus; *Similihalotalea*: A genus related to but distinct from the existing genus Halotalea of similar.

Similihaloterrigena

L. masc. adjective *similis*, similar; L. fem. n. *Haloterrigena*, An existing genus; *Similihaloterrigena*: A genus related to but distinct from the existing genus Haloterrigena of similar.

Similihalothermothrix

L. masc. adjective *similis*, similar; L. fem. n. *Halothermothrix*, An existing genus; *Similihalothermothrix*: A genus related to but distinct from the existing genus Halothermothrix of similar.

Similihalothiobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Halothiobacillus*, An existing genus; *Similihalothiobacillus*: A genus related to but distinct from the existing genus Halothiobacillus of similar.

Similihalotia

L. masc. adjective *similis*, similar; L. fem. n. *Halotia*, An existing genus; *Similihalotia*: A genus related to but distinct from the existing genus Halotia of similar.

Similihalovarius

L. masc. adjective *similis*, similar; L. masc. n. *Halovarius*, An existing genus; *Similihalovarius*: A genus related to but distinct from the existing genus Halovarius of similar.

Similihalovenus

L. masc. adjective *similis*, similar; L. fem. n. *Halovenus*, An existing genus; *Similihalovenus*: A genus related to but distinct from the existing genus Halovenus of similar.

Similihalovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Halovibrio*, An existing genus; *Similihalovibrio*: A genus related to but distinct from the existing genus Halovibrio of similar.

Similihalovivax

L. masc. adjective *similis*, similar; L. masc. n. *Halovivax*, An existing genus; *Similihalovivax*: A genus related to but distinct from the existing genus Halovivax of similar.

Similihalovulum

L. masc. adjective *similis*, similar; L. neut. n. *Halovulum*, An existing genus; *Similihalovulum*: A genus related to but distinct from the existing genus Halovulum of similar.

Similihalpernia

L. masc. adjective *similis*, similar; L. fem. n. *Halpernia*, An existing genus; *Similihalpernia*: A genus related to but distinct from the existing genus Halpernia of similar.

Similihamadaea

L. masc. adjective *similis*, similar; L. fem. n. *Hamadaea*, An existing genus; *Similihamadaea*: A genus related to but distinct from the existing genus Hamadaea of similar.

Similihankyongella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Hankyongella*, An existing genus; *Similihankyongella*: A genus related to but distinct from the existing genus Hankyongella of similar.

Similihansschlegelia

L. masc. adjective *similis*, similar; L. fem. n. *Hansschlegelia*, An existing genus; *Similihansschlegelia*: A genus related to but distinct from the existing genus Hansschlegelia of similar.

Similihanstruepera

L. masc. adjective *similis*, similar; L. fem. n. *Hanstruepera*, An existing genus; *Similihanstruepera*: A genus related to but distinct from the existing genus Hanstruepera of similar.

Similihaoranjiania

L. masc. adjective *similis*, similar; L. fem. n. *Haoranjiania*, An existing genus; *Similihaoranjiania*: A genus related to but distinct from the existing genus Haoranjiania of similar.

Similihaploangium

L. masc. adjective *similis*, similar; L. neut. n. *Haploangium*, An existing genus; *Similihaploangium*: A genus related to but distinct from the existing genus Haploangium of similar.

Similiharryflintia

L. masc. adjective *similis*, similar; L. fem. n. *Harryflintia*, An existing genus; *Similiharryflintia*: A genus related to but distinct from the existing genus Harryflintia of similar.

Similihartmannibacter

L. masc. adjective *similis*, similar; L. masc. n. *Hartmannibacter*, An existing genus; *Similihartmannibacter*: A genus related to but distinct from the existing genus Hartmannibacter of similar.

Similihasllibacter

L. masc. adjective *similis*, similar; L. masc. n. *Hasllibacter*, An existing genus; *Similihasllibacter*: A genus related to but distinct from the existing genus Hasllibacter of similar.

Similihathewaya

L. masc. adjective *similis*, similar; L. fem. n. *Hathewaya*, An existing genus; *Similihathewaya*: A genus related to but distinct from the existing genus Hathewaya of similar.

Similihazenella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Hazenella*, An existing genus; *Similihazenella*: A genus related to but distinct from the existing genus Hazenella of similar.

Similihelcococcus

L. masc. adjective *similis*, similar; L. masc. n. *Helcococcus*, An existing genus; *Similihelcococcus*: A genus related to but distinct from the existing genus Helcococcus of similar.

Similihelicobacter

L. masc. adjective *similis*, similar; L. masc. n. *Helicobacter*, An existing genus; *Similihelicobacter*: A genus related to but distinct from the existing genus Helicobacter of similar.

Similiheliimonas

L. masc. adjective *similis*, similar; L. fem. n. *Heliimonas*, An existing genus; *Similiheliimonas*: A genus related to but distinct from the existing genus Heliimonas of similar.

Similiheliobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Heliobacterium*, An existing genus; *Similiheliobacterium*: A genus related to but distinct from the existing genus Heliobacterium of similar.

Similiheliophilum

L. masc. adjective *similis*, similar; L. neut. n. *Heliophilum*, An existing genus; *Similiheliophilum*: A genus related to but distinct from the existing genus Heliophilum of similar.

Similiheliorestis

L. masc. adjective *similis*, similar; L. fem. n. *Heliorestis*, An existing genus; *Similiheliorestis*: A genus related to but distinct from the existing genus Heliorestis of similar.

Similihellea

L. masc. adjective *similis*, similar; L. fem. n. *Hellea*, An existing genus; *Similihellea*: A genus related to but distinct from the existing genus Hellea of similar.

Similihenriciella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Henriciella*, An existing genus; *Similihenriciella*: A genus related to but distinct from the existing genus Henriciella of similar.

Similiherbaspirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Herbaspirillum*, An existing genus; *Similiherbaspirillum*: A genus related to but distinct from the existing genus Herbaspirillum of similar.

Similiherbiconiux

L. masc. adjective *similis*, similar; L. fem. n. *Herbiconiux*, An existing genus; *Similiherbiconiux*: A genus related to but distinct from the existing genus Herbiconiux of similar.

Similiherbidospora

L. masc. adjective *similis*, similar; L. fem. n. *Herbidospora*, An existing genus; *Similiherbidospora*: A genus related to but distinct from the existing genus Herbidospora of similar.

Similiherbihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Herbihabitans*, An existing genus; *Similiherbihabitans*: A genus related to but distinct from the existing genus Herbihabitans of similar.

Similiherbinix

L. masc. adjective *similis*, similar; L. fem. n. *Herbinix*, An existing genus; *Similiherbinix*: A genus related to but distinct from the existing genus Herbinix of similar.

Similiherbivorax

L. masc. adjective *similis*, similar; L. fem. n. *Herbivorax*, An existing genus; *Similiherbivorax*: A genus related to but distinct from the existing genus Herbivorax of similar.

Similiherminiimonas

L. masc. adjective *similis*, similar; L. fem. n. *Herminiimonas*, An existing genus; *Similiherminiimonas*: A genus related to but distinct from the existing genus Herminiimonas of similar.

Similiherpetosiphon

L. masc. adjective *similis*, similar; L. masc. n. *Herpetosiphon*, An existing genus; *Similiherpetosiphon*: A genus related to but distinct from the existing genus Herpetosiphon of similar.

Similihespellia

L. masc. adjective *similis*, similar; L. fem. n. *Hespellia*, An existing genus; *Similihespellia*: A genus related to but distinct from the existing genus Hespellia of similar.

Similiheteroscytonema

L. masc. adjective *similis*, similar; L. neut. n. *Heteroscytonema*, An existing genus; *Similiheteroscytonema*: A genus related to but distinct from the existing genus Heteroscytonema of similar.

Similihippea

L. masc. adjective *similis*, similar; L. fem. n. *Hippea*, An existing genus; *Similihippea*: A genus related to but distinct from the existing genus Hippea of similar.

Similihirschia

L. masc. adjective *similis*, similar; L. fem. n. *Hirschia*, An existing genus; *Similihirschia*: A genus related to but distinct from the existing genus Hirschia of similar.

Similihistidinibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Histidinibacterium*, An existing genus; *Similihistidinibacterium*: A genus related to but distinct from the existing genus Histidinibacterium of similar.

Similihistophilus

L. masc. adjective *similis*, similar; L. masc. n. *Histophilus*, An existing genus; *Similihistophilus*: A genus related to but distinct from the existing genus Histophilus of similar.

Similiholdemanella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Holdemanella*, An existing genus; *Similiholdemanella*: A genus related to but distinct from the existing genus Holdemanella of similar.

Similiholdemania

L. masc. adjective *similis*, similar; L. fem. n. *Holdemania*, An existing genus; *Similiholdemania*: A genus related to but distinct from the existing genus Holdemania of similar.

Similihollandina

L. masc. adjective *similis*, similar; L. fem. n. *Hollandina*, An existing genus; *Similihollandina*: A genus related to but distinct from the existing genus Hollandina of similar.

Similiholophaga

L. masc. adjective *similis*, similar; L. fem. n. *Holophaga*, An existing genus; *Similiholophaga*: A genus related to but distinct from the existing genus Holophaga of similar.

Similiholospora

L. masc. adjective *similis*, similar; L. fem. n. *Holospora*, An existing genus; *Similiholospora*: A genus related to but distinct from the existing genus Holospora of similar.

Similiholzapfelia

L. masc. adjective *similis*, similar; L. fem. n. *Holzapfelia*, An existing genus; *Similiholzapfelia*: A genus related to but distinct from the existing genus Holzapfelia of similar.

Similihomoserinibacter

L. masc. adjective *similis*, similar; L. masc. n. *Homoserinibacter*, An existing genus; *Similihomoserinibacter*: A genus related to but distinct from the existing genus Homoserinibacter of similar.

Similihomoserinimonas

L. masc. adjective *similis*, similar; L. fem. n. *Homoserinimonas*, An existing genus; *Similihomoserinimonas*: A genus related to but distinct from the existing genus Homoserinimonas of similar.

Similihongia

L. masc. adjective *similis*, similar; L. fem. n. *Hongia*, An existing genus; *Similihongia*: A genus related to but distinct from the existing genus Hongia of similar.

Similihongiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Hongiella*, An existing genus; *Similihongiella*: A genus related to but distinct from the existing genus Hongiella of similar.

Similihoppeia

L. masc. adjective *similis*, similar; L. fem. n. *Hoppeia*, An existing genus; *Similihoppeia*: A genus related to but distinct from the existing genus Hoppeia of similar.

Similihormathonema

L. masc. adjective *similis*, similar; L. neut. n. *Hormathonema*, An existing genus; *Similihormathonema*: A genus related to but distinct from the existing genus Hormathonema of similar.

Similihormoscilla

L. masc. adjective *similis*, similar; L. fem. n. *Hormoscilla*, An existing genus; *Similihormoscilla*: A genus related to but distinct from the existing genus Hormoscilla of similar.

Similihowardella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Howardella*, An existing genus; *Similihowardella*: A genus related to but distinct from the existing genus Howardella of similar.

Similihoyosella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Hoyosella*, An existing genus; *Similihoyosella*: A genus related to but distinct from the existing genus Hoyosella of similar.

Similihuaishuia

L. masc. adjective *similis*, similar; L. fem. n. *Huaishuia*, An existing genus; *Similihuaishuia*: A genus related to but distinct from the existing genus Huaishuia of similar.

Similihuakuichenia

L. masc. adjective *similis*, similar; L. fem. n. *Huakuichenia*, An existing genus; *Similihuakuichenia*: A genus related to but distinct from the existing genus Huakuichenia of similar.

Similihuanghella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Huanghella*, An existing genus; *Similihuanghella*: A genus related to but distinct from the existing genus Huanghella of similar.

Similihugenholtzia

L. masc. adjective *similis*, similar; L. fem. n. *Hugenholtzia*, An existing genus; *Similihugenholtzia*: A genus related to but distinct from the existing genus Hugenholtzia of similar.

Similihugonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Hugonella*, An existing genus; *Similihugonella*: A genus related to but distinct from the existing genus Hugonella of similar.

Similihumibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Humibacillus*, An existing genus; *Similihumibacillus*: A genus related to but distinct from the existing genus Humibacillus of similar.

Similihumibacter

L. masc. adjective *similis*, similar; L. masc. n. *Humibacter*, An existing genus; *Similihumibacter*: A genus related to but distinct from the existing genus Humibacter of similar.

Similihumicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Humicoccus*, An existing genus; *Similihumicoccus*: A genus related to but distinct from the existing genus Humicoccus of similar.

Similihungateiclostridium

L. masc. adjective *similis*, similar; L. neut. dim. n. *Hungateiclostridium*, An existing genus; *Similihungateiclostridium*: A genus related to but distinct from the existing genus Hungateiclostridium of similar.

Similihungatella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Hungatella*, An existing genus; *Similihungatella*: A genus related to but distinct from the existing genus Hungatella of similar.

Similihwangdonia

L. masc. adjective *similis*, similar; L. fem. n. *Hwangdonia*, An existing genus; *Similihwangdonia*: A genus related to but distinct from the existing genus Hwangdonia of similar.

Similihwanghaeella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Hwanghaeella*, An existing genus; *Similihwanghaeella*: A genus related to but distinct from the existing genus Hwanghaeella of similar.

Similihwanghaeicola

L. masc. adjective *similis*, similar; L. masc. n. *Hwanghaeicola*, An existing genus; *Similihwanghaeicola*: A genus related to but distinct from the existing genus Hwanghaeicola of similar.

Similihyalangium

L. masc. adjective *similis*, similar; L. neut. n. *Hyalangium*, An existing genus; *Similihyalangium*: A genus related to but distinct from the existing genus Hyalangium of similar.

Similihydrobacter

L. masc. adjective *similis*, similar; L. masc. n. *Hydrobacter*, An existing genus; *Similihydrobacter*: A genus related to but distinct from the existing genus Hydrobacter of similar.

Similihydrocarboniclastica

L. masc. adjective *similis*, similar; L. fem. n. *Hydrocarboniclastica*, An existing genus; *Similihydrocarboniclastica*: A genus related to but distinct from the existing genus Hydrocarboniclastica of similar.

Similihydrocarboniphaga

L. masc. adjective *similis*, similar; L. fem. n. *Hydrocarboniphaga*, An existing genus; *Similihydrocarboniphaga*: A genus related to but distinct from the existing genus Hydrocarboniphaga of similar.

Similihydrogenibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Hydrogenibacillus*, An existing genus; *Similihydrogenibacillus*: A genus related to but distinct from the existing genus Hydrogenibacillus of similar.

Similihydrogeniiclostridium

L. masc. adjective *similis*, similar; L. neut. dim. n. *Hydrogeniiclostridium*, An existing genus; *Similihydrogeniiclostridium*: A genus related to but distinct from the existing genus Hydrogeniiclostridium of similar.

Similihydrogenimonas

L. masc. adjective *similis*, similar; L. fem. n. *Hydrogenimonas*, An existing genus; *Similihydrogenimonas*: A genus related to but distinct from the existing genus Hydrogenimonas of similar.

Similihydrogenispora

L. masc. adjective *similis*, similar; L. fem. n. *Hydrogenispora*, An existing genus; *Similihydrogenispora*: A genus related to but distinct from the existing genus Hydrogenispora of similar.

Similihydrogenivirga

L. masc. adjective *similis*, similar; L. fem. n. *Hydrogenivirga*, An existing genus; *Similihydrogenivirga*: A genus related to but distinct from the existing genus Hydrogenivirga of similar.

Similihydrogenoanaerobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Hydrogenoanaerobacterium*, An existing genus; *Similihydrogenoanaerobacterium*: A genus related to but distinct from the existing genus Hydrogenoanaerobacterium of similar.

Similihydrogenobacter

L. masc. adjective *similis*, similar; L. masc. n. *Hydrogenobacter*, An existing genus; *Similihydrogenobacter*: A genus related to but distinct from the existing genus Hydrogenobacter of similar.

Similihydrogenophaga

L. masc. adjective *similis*, similar; L. fem. n. *Hydrogenophaga*, An existing genus; *Similihydrogenophaga*: A genus related to but distinct from the existing genus Hydrogenophaga of similar.

Similihydrogenophilus

L. masc. adjective *similis*, similar; L. masc. n. *Hydrogenophilus*, An existing genus; *Similihydrogenophilus*: A genus related to but distinct from the existing genus Hydrogenophilus of similar.

Similihydrogenovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Hydrogenovibrio*, An existing genus; *Similihydrogenovibrio*: A genus related to but distinct from the existing genus Hydrogenovibrio of similar.

Similihydromonas

L. masc. adjective *similis*, similar; L. fem. n. *Hydromonas*, An existing genus; *Similihydromonas*: A genus related to but distinct from the existing genus Hydromonas of similar.

Similihydrotalea

L. masc. adjective *similis*, similar; L. fem. n. *Hydrotalea*, An existing genus; *Similihydrotalea*: A genus related to but distinct from the existing genus Hydrotalea of similar.

Similihylemonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Hylemonella*, An existing genus; *Similihylemonella*: A genus related to but distinct from the existing genus Hylemonella of similar.

Similihymenobacter

L. masc. adjective *similis*, similar; L. masc. n. *Hymenobacter*, An existing genus; *Similihymenobacter*: A genus related to but distinct from the existing genus Hymenobacter of similar.

Similihypericibacter

L. masc. adjective *similis*, similar; L. masc. n. *Hypericibacter*, An existing genus; *Similihypericibacter*: A genus related to but distinct from the existing genus Hypericibacter of similar.

Similihyperthermus

L. masc. adjective *similis*, similar; L. masc. n. *Hyperthermus*, An existing genus; *Similihyperthermus*: A genus related to but distinct from the existing genus Hyperthermus of similar.

Similihyphobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Hyphobacterium*, An existing genus; *Similihyphobacterium*: A genus related to but distinct from the existing genus Hyphobacterium of similar.

Similihyphococcus

L. masc. adjective *similis*, similar; L. masc. n. *Hyphococcus*, An existing genus; *Similihyphococcus*: A genus related to but distinct from the existing genus Hyphococcus of similar.

Similihyphomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Hyphomicrobium*, An existing genus; *Similihyphomicrobium*: A genus related to but distinct from the existing genus Hyphomicrobium of similar.

Similihyphomonas

L. masc. adjective *similis*, similar; L. fem. n. *Hyphomonas*, An existing genus; *Similihyphomonas*: A genus related to but distinct from the existing genus Hyphomonas of similar.

Similihypnocyclicus

L. masc. adjective *similis*, similar; L. masc. n. *Hypnocyclicus*, An existing genus; *Similihypnocyclicus*: A genus related to but distinct from the existing genus Hypnocyclicus of similar.

Similihyunsoonleella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Hyunsoonleella*, An existing genus; *Similihyunsoonleella*: A genus related to but distinct from the existing genus Hyunsoonleella of similar.

Similiiamia

L. masc. adjective *similis*, similar; L. fem. n. *Iamia*, An existing genus; *Similiiamia*: A genus related to but distinct from the existing genus Iamia of similar.

Similiichthyobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Ichthyobacterium*, An existing genus; *Similiichthyobacterium*: A genus related to but distinct from the existing genus Ichthyobacterium of similar.

Similiideonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Ideonella*, An existing genus; *Similiideonella*: A genus related to but distinct from the existing genus Ideonella of similar.

Similiidiomarina

L. masc. adjective *similis*, similar; L. fem. n. *Idiomarina*, An existing genus; *Similiidiomarina*: A genus related to but distinct from the existing genus Idiomarina of similar.

Similiignatzschineria

L. masc. adjective *similis*, similar; L. fem. n. *Ignatzschineria*, An existing genus; *Similiignatzschineria*: A genus related to but distinct from the existing genus Ignatzschineria of similar.

Similiignavigranum

L. masc. adjective *similis*, similar; L. neut. n. *Ignavigranum*, An existing genus; *Similiignavigranum*: A genus related to but distinct from the existing genus Ignavigranum of similar.

Similiignicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Ignicoccus*, An existing genus; *Similiignicoccus*: A genus related to but distinct from the existing genus Ignicoccus of similar.

Similiignisphaera

L. masc. adjective *similis*, similar; L. fem. n. *Ignisphaera*, An existing genus; *Similiignisphaera*: A genus related to but distinct from the existing genus Ignisphaera of similar.

Similiileibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Ileibacterium*, An existing genus; *Similiileibacterium*: A genus related to but distinct from the existing genus Ileibacterium of similar.

Similiilumatobacter

L. masc. adjective *similis*, similar; L. masc. n. *Ilumatobacter*, An existing genus; *Similiilumatobacter*: A genus related to but distinct from the existing genus Ilumatobacter of similar.

Similiimhoffiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Imhoffiella*, An existing genus; *Similiimhoffiella*: A genus related to but distinct from the existing genus Imhoffiella of similar.

Similiimmundisolibacter

L. masc. adjective *similis*, similar; L. masc. n. *Immundisolibacter*, An existing genus; *Similiimmundisolibacter*: A genus related to but distinct from the existing genus Immundisolibacter of similar.

Similiimperialibacter

L. masc. adjective *similis*, similar; L. masc. n. *Imperialibacter*, An existing genus; *Similiimperialibacter*: A genus related to but distinct from the existing genus Imperialibacter of similar.

Similiimtechella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Imtechella*, An existing genus; *Similiimtechella*: A genus related to but distinct from the existing genus Imtechella of similar.

Similiindibacter

L. masc. adjective *similis*, similar; L. masc. n. *Indibacter*, An existing genus; *Similiindibacter*: A genus related to but distinct from the existing genus Indibacter of similar.

Similiindiicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Indiicoccus*, An existing genus; *Similiindiicoccus*: A genus related to but distinct from the existing genus Indiicoccus of similar.

Similiindioceanicola

L. masc. adjective *similis*, similar; L. masc. n. *Indioceanicola*, An existing genus; *Similiindioceanicola*: A genus related to but distinct from the existing genus Indioceanicola of similar.

Similiinediibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Inediibacterium*, An existing genus; *Similiinediibacterium*: A genus related to but distinct from the existing genus Inediibacterium of similar.

Similiinhella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Inhella*, An existing genus; *Similiinhella*: A genus related to but distinct from the existing genus Inhella of similar.

Similiiningainema

L. masc. adjective *similis*, similar; L. neut. n. *Iningainema*, An existing genus; *Similiiningainema*: A genus related to but distinct from the existing genus Iningainema of similar.

Similiinmirania

L. masc. adjective *similis*, similar; L. fem. n. *Inmirania*, An existing genus; *Similiinmirania*: A genus related to but distinct from the existing genus Inmirania of similar.

Similiinnacoccus

L. masc. adjective *similis*, similar; L. masc. n. *Innacoccus*, An existing genus; *Similiinnacoccus*: A genus related to but distinct from the existing genus Innacoccus of similar.

Similiinsolitispirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Insolitispirillum*, An existing genus; *Similiinsolitispirillum*: A genus related to but distinct from the existing genus Insolitispirillum of similar.

Similiintestinibacter

L. masc. adjective *similis*, similar; L. masc. n. *Intestinibacter*, An existing genus; *Similiintestinibacter*: A genus related to but distinct from the existing genus Intestinibacter of similar.

Similiintestinibaculum

L. masc. adjective *similis*, similar; L. neut. n. *Intestinibaculum*, An existing genus; *Similiintestinibaculum*: A genus related to but distinct from the existing genus Intestinibaculum of similar.

Similiintestinimonas

L. masc. adjective *similis*, similar; L. fem. n. *Intestinimonas*, An existing genus; *Similiintestinimonas*: A genus related to but distinct from the existing genus Intestinimonas of similar.

Similiintestinirhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Intestinirhabdus*, An existing genus; *Similiintestinirhabdus*: A genus related to but distinct from the existing genus Intestinirhabdus of similar.

Similiintrasporangium

L. masc. adjective *similis*, similar; L. neut. n. *Intrasporangium*, An existing genus; *Similiintrasporangium*: A genus related to but distinct from the existing genus Intrasporangium of similar.

Similiiodidimonas

L. masc. adjective *similis*, similar; L. fem. n. *Iodidimonas*, An existing genus; *Similiiodidimonas*: A genus related to but distinct from the existing genus Iodidimonas of similar.

Similiiodobacter

L. masc. adjective *similis*, similar; L. masc. n. *Iodobacter*, An existing genus; *Similiiodobacter*: A genus related to but distinct from the existing genus Iodobacter of similar.

Similiirregularibacter

L. masc. adjective *similis*, similar; L. masc. n. *Irregularibacter*, An existing genus; *Similiirregularibacter*: A genus related to but distinct from the existing genus Irregularibacter of similar.

Similiisachenkonia

L. masc. adjective *similis*, similar; L. fem. n. *Isachenkonia*, An existing genus; *Similiisachenkonia*: A genus related to but distinct from the existing genus Isachenkonia of similar.

Similiisobaculum

L. masc. adjective *similis*, similar; L. neut. n. *Isobaculum*, An existing genus; *Similiisobaculum*: A genus related to but distinct from the existing genus Isobaculum of similar.

Similiisochromatium

L. masc. adjective *similis*, similar; L. neut. n. *Isochromatium*, An existing genus; *Similiisochromatium*: A genus related to but distinct from the existing genus Isochromatium of similar.

Similiisoptericola

L. masc. adjective *similis*, similar; L. masc. n. *Isoptericola*, An existing genus; *Similiisoptericola*: A genus related to but distinct from the existing genus Isoptericola of similar.

Similiisosphaera

L. masc. adjective *similis*, similar; L. fem. n. *Isosphaera*, An existing genus; *Similiisosphaera*: A genus related to but distinct from the existing genus Isosphaera of similar.

Similiizhakiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Izhakiella*, An existing genus; *Similiizhakiella*: A genus related to but distinct from the existing genus Izhakiella of similar.

Similijacksonvillea

L. masc. adjective *similis*, similar; L. fem. n. *Jacksonvillea*, An existing genus; *Similijacksonvillea*: A genus related to but distinct from the existing genus Jacksonvillea of similar.

Similijahnella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Jahnella*, An existing genus; *Similijahnella*: A genus related to but distinct from the existing genus Jahnella of similar.

Similijanibacter

L. masc. adjective *similis*, similar; L. masc. n. *Janibacter*, An existing genus; *Similijanibacter*: A genus related to but distinct from the existing genus Janibacter of similar.

Similijanthinobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Janthinobacterium*, An existing genus; *Similijanthinobacterium*: A genus related to but distinct from the existing genus Janthinobacterium of similar.

Similijatrophihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Jatrophihabitans*, An existing genus; *Similijatrophihabitans*: A genus related to but distinct from the existing genus Jatrophihabitans of similar.

Similijejubacter

L. masc. adjective *similis*, similar; L. masc. n. *Jejubacter*, An existing genus; *Similijejubacter*: A genus related to but distinct from the existing genus Jejubacter of similar.

Similijejudonia

L. masc. adjective *similis*, similar; L. fem. n. *Jejudonia*, An existing genus; *Similijejudonia*: A genus related to but distinct from the existing genus Jejudonia of similar.

Similijejuia

L. masc. adjective *similis*, similar; L. fem. n. *Jejuia*, An existing genus; *Similijejuia*: A genus related to but distinct from the existing genus Jejuia of similar.

Similijeongeupia

L. masc. adjective *similis*, similar; L. fem. n. *Jeongeupia*, An existing genus; *Similijeongeupia*: A genus related to but distinct from the existing genus Jeongeupia of similar.

Similijeotgalibaca

L. masc. adjective *similis*, similar; L. fem. n. *Jeotgalibaca*, An existing genus; *Similijeotgalibaca*: A genus related to but distinct from the existing genus Jeotgalibaca of similar.

Similijeotgalibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Jeotgalibacillus*, An existing genus; *Similijeotgalibacillus*: A genus related to but distinct from the existing genus Jeotgalibacillus of similar.

Similijeotgalicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Jeotgalicoccus*, An existing genus; *Similijeotgalicoccus*: A genus related to but distinct from the existing genus Jeotgalicoccus of similar.

Similijhaorihella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Jhaorihella*, An existing genus; *Similijhaorihella*: A genus related to but distinct from the existing genus Jhaorihella of similar.

Similijiangella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Jiangella*, An existing genus; *Similijiangella*: A genus related to but distinct from the existing genus Jiangella of similar.

Similijiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Jiella*, An existing genus; *Similijiella*: A genus related to but distinct from the existing genus Jiella of similar.

Similijilinibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Jilinibacillus*, An existing genus; *Similijilinibacillus*: A genus related to but distinct from the existing genus Jilinibacillus of similar.

Similijindonia

L. masc. adjective *similis*, similar; L. fem. n. *Jindonia*, An existing genus; *Similijindonia*: A genus related to but distinct from the existing genus Jindonia of similar.

Similijishengella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Jishengella*, An existing genus; *Similijishengella*: A genus related to but distinct from the existing genus Jishengella of similar.

Similijiulongibacter

L. masc. adjective *similis*, similar; L. masc. n. *Jiulongibacter*, An existing genus; *Similijiulongibacter*: A genus related to but distinct from the existing genus Jiulongibacter of similar.

Similijohnsonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Johnsonella*, An existing genus; *Similijohnsonella*: A genus related to but distinct from the existing genus Johnsonella of similar.

Similijonesia

L. masc. adjective *similis*, similar; L. fem. n. *Jonesia*, An existing genus; *Similijonesia*: A genus related to but distinct from the existing genus Jonesia of similar.

Similijongsikchunia

L. masc. adjective *similis*, similar; L. fem. n. *Jongsikchunia*, An existing genus; *Similijongsikchunia*: A genus related to but distinct from the existing genus Jongsikchunia of similar.

Similijonquetella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Jonquetella*, An existing genus; *Similijonquetella*: A genus related to but distinct from the existing genus Jonquetella of similar.

Similijoostella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Joostella*, An existing genus; *Similijoostella*: A genus related to but distinct from the existing genus Joostella of similar.

Similikaiparowitsia

L. masc. adjective *similis*, similar; L. fem. n. *Kaiparowitsia*, An existing genus; *Similikaiparowitsia*: A genus related to but distinct from the existing genus Kaiparowitsia of similar.

Similikaistella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Kaistella*, An existing genus; *Similikaistella*: A genus related to but distinct from the existing genus Kaistella of similar.

Similikaistia

L. masc. adjective *similis*, similar; L. fem. n. *Kaistia*, An existing genus; *Similikaistia*: A genus related to but distinct from the existing genus Kaistia of similar.

Similikalamiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Kalamiella*, An existing genus; *Similikalamiella*: A genus related to but distinct from the existing genus Kalamiella of similar.

Similikallipyga

L. masc. adjective *similis*, similar; L. fem. n. *Kallipyga*, An existing genus; *Similikallipyga*: A genus related to but distinct from the existing genus Kallipyga of similar.

Similikallotenue

L. masc. adjective *similis*, similar; L. neut. n. *Kallotenue*, An existing genus; *Similikallotenue*: A genus related to but distinct from the existing genus Kallotenue of similar.

Similikandeliimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Kandeliimicrobium*, An existing genus; *Similikandeliimicrobium*: A genus related to but distinct from the existing genus Kandeliimicrobium of similar.

Similikandleria

L. masc. adjective *similis*, similar; L. fem. n. *Kandleria*, An existing genus; *Similikandleria*: A genus related to but distinct from the existing genus Kandleria of similar.

Similikangiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Kangiella*, An existing genus; *Similikangiella*: A genus related to but distinct from the existing genus Kangiella of similar.

Similikastovskya

L. masc. adjective *similis*, similar; L. fem. n. *Kastovskya*, An existing genus; *Similikastovskya*: A genus related to but distinct from the existing genus Kastovskya of similar.

Similikeratinibaculum

L. masc. adjective *similis*, similar; L. neut. n. *Keratinibaculum*, An existing genus; *Similikeratinibaculum*: A genus related to but distinct from the existing genus Keratinibaculum of similar.

Similikerstersia

L. masc. adjective *similis*, similar; L. fem. n. *Kerstersia*, An existing genus; *Similikerstersia*: A genus related to but distinct from the existing genus Kerstersia of similar.

Similiketobacter

L. masc. adjective *similis*, similar; L. masc. n. *Ketobacter*, An existing genus; *Similiketobacter*: A genus related to but distinct from the existing genus Ketobacter of similar.

Similiketogulonicigenium

L. masc. adjective *similis*, similar; L. neut. n. *Ketogulonicigenium*, An existing genus; *Similiketogulonicigenium*: A genus related to but distinct from the existing genus Ketogulonicigenium of similar.

Similikibdelosporangium

L. masc. adjective *similis*, similar; L. neut. n. *Kibdelosporangium*, An existing genus; *Similikibdelosporangium*: A genus related to but distinct from the existing genus Kibdelosporangium of similar.

Similikiloniella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Kiloniella*, An existing genus; *Similikiloniella*: A genus related to but distinct from the existing genus Kiloniella of similar.

Similikineobactrum

L. masc. adjective *similis*, similar; L. neut. n. *Kineobactrum*, An existing genus; *Similikineobactrum*: A genus related to but distinct from the existing genus Kineobactrum of similar.

Similikineococcus

L. masc. adjective *similis*, similar; L. masc. n. *Kineococcus*, An existing genus; *Similikineococcus*: A genus related to but distinct from the existing genus Kineococcus of similar.

Similikineosphaera

L. masc. adjective *similis*, similar; L. fem. n. *Kineosphaera*, An existing genus; *Similikineosphaera*: A genus related to but distinct from the existing genus Kineosphaera of similar.

Similikineosporia

L. masc. adjective *similis*, similar; L. fem. n. *Kineosporia*, An existing genus; *Similikineosporia*: A genus related to but distinct from the existing genus Kineosporia of similar.

Similikineothrix

L. masc. adjective *similis*, similar; L. fem. n. *Kineothrix*, An existing genus; *Similikineothrix*: A genus related to but distinct from the existing genus Kineothrix of similar.

Similikingella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Kingella*, An existing genus; *Similikingella*: A genus related to but distinct from the existing genus Kingella of similar.

Similikinneretia

L. masc. adjective *similis*, similar; L. fem. n. *Kinneretia*, An existing genus; *Similikinneretia*: A genus related to but distinct from the existing genus Kinneretia of similar.

Similikiritimatiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Kiritimatiella*, An existing genus; *Similikiritimatiella*: A genus related to but distinct from the existing genus Kiritimatiella of similar.

Similikistimonas

L. masc. adjective *similis*, similar; L. fem. n. *Kistimonas*, An existing genus; *Similikistimonas*: A genus related to but distinct from the existing genus Kistimonas of similar.

Similikitasatoa

L. masc. adjective *similis*, similar; L. fem. n. *Kitasatoa*, An existing genus; *Similikitasatoa*: A genus related to but distinct from the existing genus Kitasatoa of similar.

Similikitasatospora

L. masc. adjective *similis*, similar; L. fem. n. *Kitasatospora*, An existing genus; *Similikitasatospora*: A genus related to but distinct from the existing genus Kitasatospora of similar.

Similiklebsiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Klebsiella*, An existing genus; *Similiklebsiella*: A genus related to but distinct from the existing genus Klebsiella of similar.

Similiklenkia

L. masc. adjective *similis*, similar; L. fem. n. *Klenkia*, An existing genus; *Similiklenkia*: A genus related to but distinct from the existing genus Klenkia of similar.

Similiklisinema

L. masc. adjective *similis*, similar; L. neut. n. *Klisinema*, An existing genus; *Similiklisinema*: A genus related to but distinct from the existing genus Klisinema of similar.

Similiklugiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Klugiella*, An existing genus; *Similiklugiella*: A genus related to but distinct from the existing genus Klugiella of similar.

Similikluyvera

L. masc. adjective *similis*, similar; L. fem. n. *Kluyvera*, An existing genus; *Similikluyvera*: A genus related to but distinct from the existing genus Kluyvera of similar.

Similikocuria

L. masc. adjective *similis*, similar; L. fem. n. *Kocuria*, An existing genus; *Similikocuria*: A genus related to but distinct from the existing genus Kocuria of similar.

Similikofleria

L. masc. adjective *similis*, similar; L. fem. n. *Kofleria*, An existing genus; *Similikofleria*: A genus related to but distinct from the existing genus Kofleria of similar.

Similikoinonema

L. masc. adjective *similis*, similar; L. neut. n. *Koinonema*, An existing genus; *Similikoinonema*: A genus related to but distinct from the existing genus Koinonema of similar.

Similikomagatabacter

L. masc. adjective *similis*, similar; L. masc. n. *Komagatabacter*, An existing genus; *Similikomagatabacter*: A genus related to but distinct from the existing genus Komagatabacter of similar.

Similikomagataeibacter

L. masc. adjective *similis*, similar; L. masc. n. *Komagataeibacter*, An existing genus; *Similikomagataeibacter*: A genus related to but distinct from the existing genus Komagataeibacter of similar.

Similikomarekiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Komarekiella*, An existing genus; *Similikomarekiella*: A genus related to but distinct from the existing genus Komarekiella of similar.

Similikomarkovaea

L. masc. adjective *similis*, similar; L. fem. n. *Komarkovaea*, An existing genus; *Similikomarkovaea*: A genus related to but distinct from the existing genus Komarkovaea of similar.

Similikordia

L. masc. adjective *similis*, similar; L. fem. n. *Kordia*, An existing genus; *Similikordia*: A genus related to but distinct from the existing genus Kordia of similar.

Similikordiimonas

L. masc. adjective *similis*, similar; L. fem. n. *Kordiimonas*, An existing genus; *Similikordiimonas*: A genus related to but distinct from the existing genus Kordiimonas of similar.

Similikoreibacter

L. masc. adjective *similis*, similar; L. masc. n. *Koreibacter*, An existing genus; *Similikoreibacter*: A genus related to but distinct from the existing genus Koreibacter of similar.

Similikosakonia

L. masc. adjective *similis*, similar; L. fem. n. *Kosakonia*, An existing genus; *Similikosakonia*: A genus related to but distinct from the existing genus Kosakonia of similar.

Similikoserella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Koserella*, An existing genus; *Similikoserella*: A genus related to but distinct from the existing genus Koserella of similar.

Similikosmotoga

L. masc. adjective *similis*, similar; L. fem. n. *Kosmotoga*, An existing genus; *Similikosmotoga*: A genus related to but distinct from the existing genus Kosmotoga of similar.

Similikovacikia

L. masc. adjective *similis*, similar; L. fem. n. *Kovacikia*, An existing genus; *Similikovacikia*: A genus related to but distinct from the existing genus Kovacikia of similar.

Similikozakia

L. masc. adjective *similis*, similar; L. fem. n. *Kozakia*, An existing genus; *Similikozakia*: A genus related to but distinct from the existing genus Kozakia of similar.

Similikrasilnikovia

L. masc. adjective *similis*, similar; L. fem. n. *Krasilnikovia*, An existing genus; *Similikrasilnikovia*: A genus related to but distinct from the existing genus Krasilnikovia of similar.

Similikrasilnikoviella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Krasilnikoviella*, An existing genus; *Similikrasilnikoviella*: A genus related to but distinct from the existing genus Krasilnikoviella of similar.

Similikribbella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Kribbella*, An existing genus; *Similikribbella*: A genus related to but distinct from the existing genus Kribbella of similar.

Similikribbia

L. masc. adjective *similis*, similar; L. fem. n. *Kribbia*, An existing genus; *Similikribbia*: A genus related to but distinct from the existing genus Kribbia of similar.

Similikriegella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Kriegella*, An existing genus; *Similikriegella*: A genus related to but distinct from the existing genus Kriegella of similar.

Similikrokinobacter

L. masc. adjective *similis*, similar; L. masc. n. *Krokinobacter*, An existing genus; *Similikrokinobacter*: A genus related to but distinct from the existing genus Krokinobacter of similar.

Similikroppenstedtia

L. masc. adjective *similis*, similar; L. fem. n. *Kroppenstedtia*, An existing genus; *Similikroppenstedtia*: A genus related to but distinct from the existing genus Kroppenstedtia of similar.

Similikryptousia

L. masc. adjective *similis*, similar; L. fem. n. *Kryptousia*, An existing genus; *Similikryptousia*: A genus related to but distinct from the existing genus Kryptousia of similar.

Similiktedonobacter

L. masc. adjective *similis*, similar; L. masc. n. *Ktedonobacter*, An existing genus; *Similiktedonobacter*: A genus related to but distinct from the existing genus Ktedonobacter of similar.

Similiktedonosporobacter

L. masc. adjective *similis*, similar; L. masc. n. *Ktedonosporobacter*, An existing genus; *Similiktedonosporobacter*: A genus related to but distinct from the existing genus Ktedonosporobacter of similar.

Similikurthia

L. masc. adjective *similis*, similar; L. fem. n. *Kurthia*, An existing genus; *Similikurthia*: A genus related to but distinct from the existing genus Kurthia of similar.

Similikushneria

L. masc. adjective *similis*, similar; L. fem. n. *Kushneria*, An existing genus; *Similikushneria*: A genus related to but distinct from the existing genus Kushneria of similar.

Similikutzneria

L. masc. adjective *similis*, similar; L. fem. n. *Kutzneria*, An existing genus; *Similikutzneria*: A genus related to but distinct from the existing genus Kutzneria of similar.

Similikyrpidia

L. masc. adjective *similis*, similar; L. fem. n. *Kyrpidia*, An existing genus; *Similikyrpidia*: A genus related to but distinct from the existing genus Kyrpidia of similar.

Similikyrtuthrix

L. masc. adjective *similis*, similar; L. fem. n. *Kyrtuthrix*, An existing genus; *Similikyrtuthrix*: A genus related to but distinct from the existing genus Kyrtuthrix of similar.

Similikytococcus

L. masc. adjective *similis*, similar; L. masc. n. *Kytococcus*, An existing genus; *Similikytococcus*: A genus related to but distinct from the existing genus Kytococcus of similar.

Simililabedaea

L. masc. adjective *similis*, similar; L. fem. n. *Labedaea*, An existing genus; *Simililabedaea*: A genus related to but distinct from the existing genus Labedaea of similar.

Simililabedella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Labedella*, An existing genus; *Simililabedella*: A genus related to but distinct from the existing genus Labedella of similar.

Simililabilibaculum

L. masc. adjective *similis*, similar; L. neut. n. *Labilibaculum*, An existing genus; *Simililabilibaculum*: A genus related to but distinct from the existing genus Labilibaculum of similar.

Simililabilithrix

L. masc. adjective *similis*, similar; L. fem. n. *Labilithrix*, An existing genus; *Simililabilithrix*: A genus related to but distinct from the existing genus Labilithrix of similar.

Simililabrenzia

L. masc. adjective *similis*, similar; L. fem. n. *Labrenzia*, An existing genus; *Simililabrenzia*: A genus related to but distinct from the existing genus Labrenzia of similar.

Simililabrys

L. masc. adjective *similis*, similar; L. masc. n. *Labrys*, An existing genus; *Simililabrys*: A genus related to but distinct from the existing genus Labrys of similar.

Simililaceyella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Laceyella*, An existing genus; *Simililaceyella*: A genus related to but distinct from the existing genus Laceyella of similar.

Simililachnoanaerobaculum

L. masc. adjective *similis*, similar; L. neut. n. *Lachnoanaerobaculum*, An existing genus; *Simililachnoanaerobaculum*: A genus related to but distinct from the existing genus Lachnoanaerobaculum of similar.

Simililachnobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Lachnobacterium*, An existing genus; *Simililachnobacterium*: A genus related to but distinct from the existing genus Lachnobacterium of similar.

Simililachnoclostridium

L. masc. adjective *similis*, similar; L. neut. n. *Lachnoclostridium*, An existing genus; *Simililachnoclostridium*: A genus related to but distinct from the existing genus Lachnoclostridium of similar.

Simililachnospira

L. masc. adjective *similis*, similar; L. fem. n. *Lachnospira*, An existing genus; *Simililachnospira*: A genus related to but distinct from the existing genus Lachnospira of similar.

Simililachnotalea

L. masc. adjective *similis*, similar; L. fem. n. *Lachnotalea*, An existing genus; *Simililachnotalea*: A genus related to but distinct from the existing genus Lachnotalea of similar.

Simililacibacter

L. masc. adjective *similis*, similar; L. masc. n. *Lacibacter*, An existing genus; *Simililacibacter*: A genus related to but distinct from the existing genus Lacibacter of similar.

Simililacibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Lacibacterium*, An existing genus; *Simililacibacterium*: A genus related to but distinct from the existing genus Lacibacterium of similar.

Simililacihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Lacihabitans*, An existing genus; *Simililacihabitans*: A genus related to but distinct from the existing genus Lacihabitans of similar.

Simililacimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Lacimicrobium*, An existing genus; *Simililacimicrobium*: A genus related to but distinct from the existing genus Lacimicrobium of similar.

Simililacimonas

L. masc. adjective *similis*, similar; L. fem. n. *Lacimonas*, An existing genus; *Simililacimonas*: A genus related to but distinct from the existing genus Lacimonas of similar.

Simililacinutrix

L. masc. adjective *similis*, similar; L. fem. n. *Lacinutrix*, An existing genus; *Simililacinutrix*: A genus related to but distinct from the existing genus Lacinutrix of similar.

Simililacipirellula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Lacipirellula*, An existing genus; *Simililacipirellula*: A genus related to but distinct from the existing genus Lacipirellula of similar.

Simililacisediminihabitans

L. masc. adjective *similis*, similar; L. fem. n. *Lacisediminihabitans*, An existing genus; *Simililacisediminihabitans*: A genus related to but distinct from the existing genus Lacisediminihabitans of similar.

Simililacisediminimonas

L. masc. adjective *similis*, similar; L. fem. n. *Lacisediminimonas*, An existing genus; *Simililacisediminimonas*: A genus related to but distinct from the existing genus Lacisediminimonas of similar.

Simililacrimispora

L. masc. adjective *similis*, similar; L. fem. n. *Lacrimispora*, An existing genus; *Simililacrimispora*: A genus related to but distinct from the existing genus Lacrimispora of similar.

Simililacticaseibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Lacticaseibacillus*, An existing genus; *Simililacticaseibacillus*: A genus related to but distinct from the existing genus Lacticaseibacillus of similar.

Simililacticigenium

L. masc. adjective *similis*, similar; L. neut. n. *Lacticigenium*, An existing genus; *Simililacticigenium*: A genus related to but distinct from the existing genus Lacticigenium of similar.

Simililactimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Lactimicrobium*, An existing genus; *Simililactimicrobium*: A genus related to but distinct from the existing genus Lactimicrobium of similar.

Simililactiplantibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Lactiplantibacillus*, An existing genus; *Simililactiplantibacillus*: A genus related to but distinct from the existing genus Lactiplantibacillus of similar.

Simililactivibrio

L. masc. adjective *similis*, similar; L. masc. n. *Lactivibrio*, An existing genus; *Simililactivibrio*: A genus related to but distinct from the existing genus Lactivibrio of similar.

Simililactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Lactobacillus*, An existing genus; *Simililactobacillus*: A genus related to but distinct from the existing genus Lactobacillus of similar.

Simililactococcus

L. masc. adjective *similis*, similar; L. masc. n. *Lactococcus*, An existing genus; *Simililactococcus*: A genus related to but distinct from the existing genus Lactococcus of similar.

Simililactonifactor

L. masc. adjective *similis*, similar; L. masc. n. *Lactonifactor*, An existing genus; *Simililactonifactor*: A genus related to but distinct from the existing genus Lactonifactor of similar.

Simililactosphaera

L. masc. adjective *similis*, similar; L. fem. n. *Lactosphaera*, An existing genus; *Simililactosphaera*: A genus related to but distinct from the existing genus Lactosphaera of similar.

Simililactovum

L. masc. adjective *similis*, similar; L. neut. n. *Lactovum*, An existing genus; *Simililactovum*: A genus related to but distinct from the existing genus Lactovum of similar.

Simililacunisphaera

L. masc. adjective *similis*, similar; L. fem. n. *Lacunisphaera*, An existing genus; *Simililacunisphaera*: A genus related to but distinct from the existing genus Lacunisphaera of similar.

Simililamprocystis

L. masc. adjective *similis*, similar; L. fem. n. *Lamprocystis*, An existing genus; *Simililamprocystis*: A genus related to but distinct from the existing genus Lamprocystis of similar.

Simililampropedia

L. masc. adjective *similis*, similar; L. fem. n. *Lampropedia*, An existing genus; *Simililampropedia*: A genus related to but distinct from the existing genus Lampropedia of similar.

Simililancefieldella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Lancefieldella*, An existing genus; *Simililancefieldella*: A genus related to but distinct from the existing genus Lancefieldella of similar.

Simililapidilactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Lapidilactobacillus*, An existing genus; *Simililapidilactobacillus*: A genus related to but distinct from the existing genus Lapidilactobacillus of similar.

Simililapillicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Lapillicoccus*, An existing genus; *Simililapillicoccus*: A genus related to but distinct from the existing genus Lapillicoccus of similar.

Simililaribacter

L. masc. adjective *similis*, similar; L. masc. n. *Laribacter*, An existing genus; *Simililaribacter*: A genus related to but distinct from the existing genus Laribacter of similar.

Simililarkinella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Larkinella*, An existing genus; *Simililarkinella*: A genus related to but distinct from the existing genus Larkinella of similar.

Simililarsenia

L. masc. adjective *similis*, similar; L. fem. n. *Larsenia*, An existing genus; *Simililarsenia*: A genus related to but distinct from the existing genus Larsenia of similar.

Simililarsenimonas

L. masc. adjective *similis*, similar; L. fem. n. *Larsenimonas*, An existing genus; *Simililarsenimonas*: A genus related to but distinct from the existing genus Larsenimonas of similar.

Simililaspinema

L. masc. adjective *similis*, similar; L. neut. n. *Laspinema*, An existing genus; *Simililaspinema*: A genus related to but distinct from the existing genus Laspinema of similar.

Simililatilactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Latilactobacillus*, An existing genus; *Simililatilactobacillus*: A genus related to but distinct from the existing genus Latilactobacillus of similar.

Simililautropia

L. masc. adjective *similis*, similar; L. fem. n. *Lautropia*, An existing genus; *Simililautropia*: A genus related to but distinct from the existing genus Lautropia of similar.

Simililawsonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Lawsonella*, An existing genus; *Simililawsonella*: A genus related to but distinct from the existing genus Lawsonella of similar.

Simililawsonia

L. masc. adjective *similis*, similar; L. fem. n. *Lawsonia*, An existing genus; *Simililawsonia*: A genus related to but distinct from the existing genus Lawsonia of similar.

Simililawsonibacter

L. masc. adjective *similis*, similar; L. masc. n. *Lawsonibacter*, An existing genus; *Simililawsonibacter*: A genus related to but distinct from the existing genus Lawsonibacter of similar.

Similileadbetterella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Leadbetterella*, An existing genus; *Similileadbetterella*: A genus related to but distinct from the existing genus Leadbetterella of similar.

Simililebetimonas

L. masc. adjective *similis*, similar; L. fem. n. *Lebetimonas*, An existing genus; *Simililebetimonas*: A genus related to but distinct from the existing genus Lebetimonas of similar.

Simililechevalieria

L. masc. adjective *similis*, similar; L. fem. n. *Lechevalieria*, An existing genus; *Simililechevalieria*: A genus related to but distinct from the existing genus Lechevalieria of similar.

Similileclercia

L. masc. adjective *similis*, similar; L. fem. n. *Leclercia*, An existing genus; *Similileclercia*: A genus related to but distinct from the existing genus Leclercia of similar.

Similileeia

L. masc. adjective *similis*, similar; L. fem. n. *Leeia*, An existing genus; *Similileeia*: A genus related to but distinct from the existing genus Leeia of similar.

Similileekyejoonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Leekyejoonella*, An existing genus; *Similileekyejoonella*: A genus related to but distinct from the existing genus Leekyejoonella of similar.

Similileeuwenhoekiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Leeuwenhoekiella*, An existing genus; *Similileeuwenhoekiella*: A genus related to but distinct from the existing genus Leeuwenhoekiella of similar.

Simililegionella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Legionella*, An existing genus; *Simililegionella*: A genus related to but distinct from the existing genus Legionella of similar.

Similileifsonia

L. masc. adjective *similis*, similar; L. fem. n. *Leifsonia*, An existing genus; *Similileifsonia*: A genus related to but distinct from the existing genus Leifsonia of similar.

Similileisingera

L. masc. adjective *similis*, similar; L. fem. n. *Leisingera*, An existing genus; *Similileisingera*: A genus related to but distinct from the existing genus Leisingera of similar.

Simililelliottia

L. masc. adjective *similis*, similar; L. fem. n. *Lelliottia*, An existing genus; *Simililelliottia*: A genus related to but distinct from the existing genus Lelliottia of similar.

Similileminorella

L. masc. adjective *similis*, similar; L. fem. n. *Leminorella*, An existing genus; *Similileminorella*: A genus related to but distinct from the existing genus Leminorella of similar.

Simililemmermanniella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Lemmermanniella*, An existing genus; *Simililemmermanniella*: A genus related to but distinct from the existing genus Lemmermanniella of similar.

Simililentibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Lentibacillus*, An existing genus; *Simililentibacillus*: A genus related to but distinct from the existing genus Lentibacillus of similar.

Simililentibacter

L. masc. adjective *similis*, similar; L. masc. n. *Lentibacter*, An existing genus; *Simililentibacter*: A genus related to but distinct from the existing genus Lentibacter of similar.

Simililentilactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Lentilactobacillus*, An existing genus; *Simililentilactobacillus*: A genus related to but distinct from the existing genus Lentilactobacillus of similar.

Simililentilitoribacter

L. masc. adjective *similis*, similar; L. masc. n. *Lentilitoribacter*, An existing genus; *Simililentilitoribacter*: A genus related to but distinct from the existing genus Lentilitoribacter of similar.

Simililentimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Lentimicrobium*, An existing genus; *Simililentimicrobium*: A genus related to but distinct from the existing genus Lentimicrobium of similar.

Simililentisphaera

L. masc. adjective *similis*, similar; L. fem. n. *Lentisphaera*, An existing genus; *Simililentisphaera*: A genus related to but distinct from the existing genus Lentisphaera of similar.

Simililentzea

L. masc. adjective *similis*, similar; L. fem. n. *Lentzea*, An existing genus; *Simililentzea*: A genus related to but distinct from the existing genus Lentzea of similar.

Similileptobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Leptobacterium*, An existing genus; *Similileptobacterium*: A genus related to but distinct from the existing genus Leptobacterium of similar.

Similileptolinea

L. masc. adjective *similis*, similar; L. fem. n. *Leptolinea*, An existing genus; *Similileptolinea*: A genus related to but distinct from the existing genus Leptolinea of similar.

Similileptonema

L. masc. adjective *similis*, similar; L. neut. n. *Leptonema*, An existing genus; *Similileptonema*: A genus related to but distinct from the existing genus Leptonema of similar.

Similileptospira

L. masc. adjective *similis*, similar; L. fem. n. *Leptospira*, An existing genus; *Similileptospira*: A genus related to but distinct from the existing genus Leptospira of similar.

Similileptospirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Leptospirillum*, An existing genus; *Similileptospirillum*: A genus related to but distinct from the existing genus Leptospirillum of similar.

Similileptothoe

L. masc. adjective *similis*, similar; L. fem. n. *Leptothoe*, An existing genus; *Similileptothoe*: A genus related to but distinct from the existing genus Leptothoe of similar.

Similileptothrix

L. masc. adjective *similis*, similar; L. fem. n. *Leptothrix*, An existing genus; *Similileptothrix*: A genus related to but distinct from the existing genus Leptothrix of similar.

Similileptotrichia

L. masc. adjective *similis*, similar; L. fem. n. *Leptotrichia*, An existing genus; *Similileptotrichia*: A genus related to but distinct from the existing genus Leptotrichia of similar.

Similileucobacter

L. masc. adjective *similis*, similar; L. masc. n. *Leucobacter*, An existing genus; *Similileucobacter*: A genus related to but distinct from the existing genus Leucobacter of similar.

Similileuconostoc

L. masc. adjective *similis*, similar; L. neut. n. *Leuconostoc*, An existing genus; *Similileuconostoc*: A genus related to but distinct from the existing genus Leuconostoc of similar.

Similileucothrix

L. masc. adjective *similis*, similar; L. fem. n. *Leucothrix*, An existing genus; *Similileucothrix*: A genus related to but distinct from the existing genus Leucothrix of similar.

Simililevilactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Levilactobacillus*, An existing genus; *Simililevilactobacillus*: A genus related to but distinct from the existing genus Levilactobacillus of similar.

Simililevilinea

L. masc. adjective *similis*, similar; L. fem. n. *Levilinea*, An existing genus; *Simililevilinea*: A genus related to but distinct from the existing genus Levilinea of similar.

Simililevinea

L. masc. adjective *similis*, similar; L. fem. n. *Levinea*, An existing genus; *Simililevinea*: A genus related to but distinct from the existing genus Levinea of similar.

Simililevispirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Levispirillum*, An existing genus; *Simililevispirillum*: A genus related to but distinct from the existing genus Levispirillum of similar.

Simililewinella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Lewinella*, An existing genus; *Simililewinella*: A genus related to but distinct from the existing genus Lewinella of similar.

Simililibanicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Libanicoccus*, An existing genus; *Simililibanicoccus*: A genus related to but distinct from the existing genus Libanicoccus of similar.

Simililiberibacter

L. masc. adjective *similis*, similar; L. masc. n. *Liberibacter*, An existing genus; *Simililiberibacter*: A genus related to but distinct from the existing genus Liberibacter of similar.

Simililichenibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Lichenibacterium*, An existing genus; *Simililichenibacterium*: A genus related to but distinct from the existing genus Lichenibacterium of similar.

Simililichenicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Lichenicoccus*, An existing genus; *Simililichenicoccus*: A genus related to but distinct from the existing genus Lichenicoccus of similar.

Simililichenihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Lichenihabitans*, An existing genus; *Simililichenihabitans*: A genus related to but distinct from the existing genus Lichenihabitans of similar.

Simililightfootiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Lightfootiella*, An existing genus; *Simililightfootiella*: A genus related to but distinct from the existing genus Lightfootiella of similar.

Simililigilactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Ligilactobacillus*, An existing genus; *Simililigilactobacillus*: A genus related to but distinct from the existing genus Ligilactobacillus of similar.

Simililignipirellula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Lignipirellula*, An existing genus; *Simililignipirellula*: A genus related to but distinct from the existing genus Lignipirellula of similar.

Simililihuaxuella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Lihuaxuella*, An existing genus; *Simililihuaxuella*: A genus related to but distinct from the existing genus Lihuaxuella of similar.

Simililimibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Limibacillus*, An existing genus; *Simililimibacillus*: A genus related to but distinct from the existing genus Limibacillus of similar.

Simililimibacter

L. masc. adjective *similis*, similar; L. masc. n. *Limibacter*, An existing genus; *Simililimibacter*: A genus related to but distinct from the existing genus Limibacter of similar.

Simililimibaculum

L. masc. adjective *similis*, similar; L. neut. n. *Limibaculum*, An existing genus; *Simililimibaculum*: A genus related to but distinct from the existing genus Limibaculum of similar.

Simililimihaloglobus

L. masc. adjective *similis*, similar; L. masc. n. *Limihaloglobus*, An existing genus; *Simililimihaloglobus*: A genus related to but distinct from the existing genus Limihaloglobus of similar.

Simililimimaricola

L. masc. adjective *similis*, similar; L. masc. n. *Limimaricola*, An existing genus; *Simililimimaricola*: A genus related to but distinct from the existing genus Limimaricola of similar.

Simililimimonas

L. masc. adjective *similis*, similar; L. fem. n. *Limimonas*, An existing genus; *Simililimimonas*: A genus related to but distinct from the existing genus Limimonas of similar.

Simililimisphaera

L. masc. adjective *similis*, similar; L. fem. n. *Limisphaera*, An existing genus; *Simililimisphaera*: A genus related to but distinct from the existing genus Limisphaera of similar.

Simililimnobacter

L. masc. adjective *similis*, similar; L. masc. n. *Limnobacter*, An existing genus; *Simililimnobacter*: A genus related to but distinct from the existing genus Limnobacter of similar.

Simililimnobaculum

L. masc. adjective *similis*, similar; L. neut. n. *Limnobaculum*, An existing genus; *Simililimnobaculum*: A genus related to but distinct from the existing genus Limnobaculum of similar.

Simililimnochorda

L. masc. adjective *similis*, similar; L. fem. n. *Limnochorda*, An existing genus; *Simililimnochorda*: A genus related to but distinct from the existing genus Limnochorda of similar.

Simililimnoglobus

L. masc. adjective *similis*, similar; L. masc. n. *Limnoglobus*, An existing genus; *Simililimnoglobus*: A genus related to but distinct from the existing genus Limnoglobus of similar.

Simililimnohabitans

L. masc. adjective *similis*, similar; L. masc. n. *Limnohabitans*, An existing genus; *Simililimnohabitans*: A genus related to but distinct from the existing genus Limnohabitans of similar.

Simililimnolyngbya

L. masc. adjective *similis*, similar; L. fem. n. *Limnolyngbya*, An existing genus; *Simililimnolyngbya*: A genus related to but distinct from the existing genus Limnolyngbya of similar.

Simililimnospira

L. masc. adjective *similis*, similar; L. fem. n. *Limnospira*, An existing genus; *Simililimnospira*: A genus related to but distinct from the existing genus Limnospira of similar.

Simililimoniibacter

L. masc. adjective *similis*, similar; L. masc. n. *Limoniibacter*, An existing genus; *Simililimoniibacter*: A genus related to but distinct from the existing genus Limoniibacter of similar.

Simililimosilactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Limosilactobacillus*, An existing genus; *Simililimosilactobacillus*: A genus related to but distinct from the existing genus Limosilactobacillus of similar.

Simililipingzhangella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Lipingzhangella*, An existing genus; *Simililipingzhangella*: A genus related to but distinct from the existing genus Lipingzhangella of similar.

Simililiquorilactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Liquorilactobacillus*, An existing genus; *Simililiquorilactobacillus*: A genus related to but distinct from the existing genus Liquorilactobacillus of similar.

Simililishizhenia

L. masc. adjective *similis*, similar; L. fem. n. *Lishizhenia*, An existing genus; *Simililishizhenia*: A genus related to but distinct from the existing genus Lishizhenia of similar.

Simililisteria

L. masc. adjective *similis*, similar; L. fem. n. *Listeria*, An existing genus; *Simililisteria*: A genus related to but distinct from the existing genus Listeria of similar.

Simililistonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Listonella*, An existing genus; *Simililistonella*: A genus related to but distinct from the existing genus Listonella of similar.

Simililitoreibacter

L. masc. adjective *similis*, similar; L. masc. n. *Litoreibacter*, An existing genus; *Simililitoreibacter*: A genus related to but distinct from the existing genus Litoreibacter of similar.

Simililitoribacillus

L. masc. adjective *similis*, similar; L. masc. n. *Litoribacillus*, An existing genus; *Simililitoribacillus*: A genus related to but distinct from the existing genus Litoribacillus of similar.

Simililitoribacter

L. masc. adjective *similis*, similar; L. masc. n. *Litoribacter*, An existing genus; *Simililitoribacter*: A genus related to but distinct from the existing genus Litoribacter of similar.

Simililitoribaculum

L. masc. adjective *similis*, similar; L. neut. n. *Litoribaculum*, An existing genus; *Simililitoribaculum*: A genus related to but distinct from the existing genus Litoribaculum of similar.

Simililitoribrevibacter

L. masc. adjective *similis*, similar; L. masc. n. *Litoribrevibacter*, An existing genus; *Simililitoribrevibacter*: A genus related to but distinct from the existing genus Litoribrevibacter of similar.

Simililitoricola

L. masc. adjective *similis*, similar; L. fem. n. *Litoricola*, An existing genus; *Simililitoricola*: A genus related to but distinct from the existing genus Litoricola of similar.

Simililitorihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Litorihabitans*, An existing genus; *Simililitorihabitans*: A genus related to but distinct from the existing genus Litorihabitans of similar.

Simililitorilinea

L. masc. adjective *similis*, similar; L. fem. n. *Litorilinea*, An existing genus; *Simililitorilinea*: A genus related to but distinct from the existing genus Litorilinea of similar.

Simililitorilituus

L. masc. adjective *similis*, similar; L. masc. n. *Litorilituus*, An existing genus; *Simililitorilituus*: A genus related to but distinct from the existing genus Litorilituus of similar.

Simililitorimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Litorimicrobium*, An existing genus; *Simililitorimicrobium*: A genus related to but distinct from the existing genus Litorimicrobium of similar.

Simililitorimonas

L. masc. adjective *similis*, similar; L. fem. n. *Litorimonas*, An existing genus; *Simililitorimonas*: A genus related to but distinct from the existing genus Litorimonas of similar.

Simililitorisediminicola

L. masc. adjective *similis*, similar; L. masc. n. *Litorisediminicola*, An existing genus; *Simililitorisediminicola*: A genus related to but distinct from the existing genus Litorisediminicola of similar.

Simililitorisediminivivens

L. masc. adjective *similis*, similar; L. masc. n. *Litorisediminivivens*, An existing genus; *Simililitorisediminivivens*: A genus related to but distinct from the existing genus Litorisediminivivens of similar.

Simililitorivita

L. masc. adjective *similis*, similar; L. fem. n. *Litorivita*, An existing genus; *Simililitorivita*: A genus related to but distinct from the existing genus Litorivita of similar.

Simililitorivivens

L. masc. adjective *similis*, similar; L. fem. n. *Litorivivens*, An existing genus; *Simililitorivivens*: A genus related to but distinct from the existing genus Litorivivens of similar.

Simililoigolactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Loigolactobacillus*, An existing genus; *Simililoigolactobacillus*: A genus related to but distinct from the existing genus Loigolactobacillus of similar.

Simililokiarchaeum

L. masc. adjective *similis*, similar; L. neut. n. *Lokiarchaeum*, An existing genus; *Simililokiarchaeum*: A genus related to but distinct from the existing genus Lokiarchaeum of similar.

Simililoktanella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Loktanella*, An existing genus; *Simililoktanella*: A genus related to but distinct from the existing genus Loktanella of similar.

Simililonepinella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Lonepinella*, An existing genus; *Simililonepinella*: A genus related to but distinct from the existing genus Lonepinella of similar.

Simililongibaculum

L. masc. adjective *similis*, similar; L. neut. n. *Longibaculum*, An existing genus; *Simililongibaculum*: A genus related to but distinct from the existing genus Longibaculum of similar.

Simililongicatena

L. masc. adjective *similis*, similar; L. fem. n. *Longicatena*, An existing genus; *Simililongicatena*: A genus related to but distinct from the existing genus Longicatena of similar.

Simililongilinea

L. masc. adjective *similis*, similar; L. fem. n. *Longilinea*, An existing genus; *Simililongilinea*: A genus related to but distinct from the existing genus Longilinea of similar.

Simililongimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Longimicrobium*, An existing genus; *Simililongimicrobium*: A genus related to but distinct from the existing genus Longimicrobium of similar.

Simililongimycelium

L. masc. adjective *similis*, similar; L. neut. n. *Longimycelium*, An existing genus; *Simililongimycelium*: A genus related to but distinct from the existing genus Longimycelium of similar.

Simililongirhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Longirhabdus*, An existing genus; *Simililongirhabdus*: A genus related to but distinct from the existing genus Longirhabdus of similar.

Simililongispora

L. masc. adjective *similis*, similar; L. fem. n. *Longispora*, An existing genus; *Simililongispora*: A genus related to but distinct from the existing genus Longispora of similar.

Simililongivirga

L. masc. adjective *similis*, similar; L. fem. n. *Longivirga*, An existing genus; *Simililongivirga*: A genus related to but distinct from the existing genus Longivirga of similar.

Simililonsdalea

L. masc. adjective *similis*, similar; L. fem. n. *Lonsdalea*, An existing genus; *Simililonsdalea*: A genus related to but distinct from the existing genus Lonsdalea of similar.

Simililoriella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Loriella*, An existing genus; *Simililoriella*: A genus related to but distinct from the existing genus Loriella of similar.

Simililoriellopsis

L. masc. adjective *similis*, similar; L. fem. n. *Loriellopsis*, An existing genus; *Simililoriellopsis*: A genus related to but distinct from the existing genus Loriellopsis of similar.

Simililottiidibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Lottiidibacillus*, An existing genus; *Simililottiidibacillus*: A genus related to but distinct from the existing genus Lottiidibacillus of similar.

Simililucibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Lucibacterium*, An existing genus; *Simililucibacterium*: A genus related to but distinct from the existing genus Lucibacterium of similar.

Simililuedemannella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Luedemannella*, An existing genus; *Simililuedemannella*: A genus related to but distinct from the existing genus Luedemannella of similar.

Simililuethyella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Luethyella*, An existing genus; *Simililuethyella*: A genus related to but distinct from the existing genus Luethyella of similar.

Simililujinxingia

L. masc. adjective *similis*, similar; L. fem. n. *Lujinxingia*, An existing genus; *Simililujinxingia*: A genus related to but distinct from the existing genus Lujinxingia of similar.

Simililuminiphilus

L. masc. adjective *similis*, similar; L. masc. n. *Luminiphilus*, An existing genus; *Simililuminiphilus*: A genus related to but distinct from the existing genus Luminiphilus of similar.

Simililunatimonas

L. masc. adjective *similis*, similar; L. fem. n. *Lunatimonas*, An existing genus; *Simililunatimonas*: A genus related to but distinct from the existing genus Lunatimonas of similar.

Simililusitaniella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Lusitaniella*, An existing genus; *Simililusitaniella*: A genus related to but distinct from the existing genus Lusitaniella of similar.

Simililutaonella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Lutaonella*, An existing genus; *Simililutaonella*: A genus related to but distinct from the existing genus Lutaonella of similar.

Simililuteibacter

L. masc. adjective *similis*, similar; L. masc. n. *Luteibacter*, An existing genus; *Simililuteibacter*: A genus related to but distinct from the existing genus Luteibacter of similar.

Simililuteibaculum

L. masc. adjective *similis*, similar; L. neut. n. *Luteibaculum*, An existing genus; *Simililuteibaculum*: A genus related to but distinct from the existing genus Luteibaculum of similar.

Simililuteimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Luteimicrobium*, An existing genus; *Simililuteimicrobium*: A genus related to but distinct from the existing genus Luteimicrobium of similar.

Simililuteimonas

L. masc. adjective *similis*, similar; L. fem. n. *Luteimonas*, An existing genus; *Simililuteimonas*: A genus related to but distinct from the existing genus Luteimonas of similar.

Simililuteipulveratus

L. masc. adjective *similis*, similar; L. masc. n. *Luteipulveratus*, An existing genus; *Simililuteipulveratus*: A genus related to but distinct from the existing genus Luteipulveratus of similar.

Simililuteitalea

L. masc. adjective *similis*, similar; L. fem. n. *Luteitalea*, An existing genus; *Simililuteitalea*: A genus related to but distinct from the existing genus Luteitalea of similar.

Simililuteithermobacter

L. masc. adjective *similis*, similar; L. masc. n. *Luteithermobacter*, An existing genus; *Simililuteithermobacter*: A genus related to but distinct from the existing genus Luteithermobacter of similar.

Simililuteivirga

L. masc. adjective *similis*, similar; L. fem. n. *Luteivirga*, An existing genus; *Simililuteivirga*: A genus related to but distinct from the existing genus Luteivirga of similar.

Simililuteococcus

L. masc. adjective *similis*, similar; L. masc. n. *Luteococcus*, An existing genus; *Simililuteococcus*: A genus related to but distinct from the existing genus Luteococcus of similar.

Simililuteolibacter

L. masc. adjective *similis*, similar; L. masc. n. *Luteolibacter*, An existing genus; *Simililuteolibacter*: A genus related to but distinct from the existing genus Luteolibacter of similar.

Simililuteovulum

L. masc. adjective *similis*, similar; L. neut. n. *Luteovulum*, An existing genus; *Simililuteovulum*: A genus related to but distinct from the existing genus Luteovulum of similar.

Simililutibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Lutibacterium*, An existing genus; *Simililutibacterium*: A genus related to but distinct from the existing genus Lutibacterium of similar.

Simililutimaribacter

L. masc. adjective *similis*, similar; L. masc. n. *Lutimaribacter*, An existing genus; *Simililutimaribacter*: A genus related to but distinct from the existing genus Lutimaribacter of similar.

Simililutimonas

L. masc. adjective *similis*, similar; L. fem. n. *Lutimonas*, An existing genus; *Simililutimonas*: A genus related to but distinct from the existing genus Lutimonas of similar.

Simililutispora

L. masc. adjective *similis*, similar; L. fem. n. *Lutispora*, An existing genus; *Simililutispora*: A genus related to but distinct from the existing genus Lutispora of similar.

Simililysinibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Lysinibacillus*, An existing genus; *Simililysinibacillus*: A genus related to but distinct from the existing genus Lysinibacillus of similar.

Simililysinibacter

L. masc. adjective *similis*, similar; L. masc. n. *Lysinibacter*, An existing genus; *Simililysinibacter*: A genus related to but distinct from the existing genus Lysinibacter of similar.

Simililysinimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Lysinimicrobium*, An existing genus; *Simililysinimicrobium*: A genus related to but distinct from the existing genus Lysinimicrobium of similar.

Simililysinimonas

L. masc. adjective *similis*, similar; L. fem. n. *Lysinimonas*, An existing genus; *Simililysinimonas*: A genus related to but distinct from the existing genus Lysinimonas of similar.

Simililysobacter

L. masc. adjective *similis*, similar; L. masc. n. *Lysobacter*, An existing genus; *Simililysobacter*: A genus related to but distinct from the existing genus Lysobacter of similar.

Simililyticum

L. masc. adjective *similis*, similar; L. neut. n. *Lyticum*, An existing genus; *Simililyticum*: A genus related to but distinct from the existing genus Lyticum of similar.

Similimabikibacter

L. masc. adjective *similis*, similar; L. masc. n. *Mabikibacter*, An existing genus; *Similimabikibacter*: A genus related to but distinct from the existing genus Mabikibacter of similar.

Similimacellibacteroides

L. masc. adjective *similis*, similar; L. masc. n. *Macellibacteroides*, An existing genus; *Similimacellibacteroides*: A genus related to but distinct from the existing genus Macellibacteroides of similar.

Similimacrochaete

L. masc. adjective *similis*, similar; L. fem. n. *Macrochaete*, An existing genus; *Similimacrochaete*: A genus related to but distinct from the existing genus Macrochaete of similar.

Similimacrococcus

L. masc. adjective *similis*, similar; L. masc. n. *Macrococcus*, An existing genus; *Similimacrococcus*: A genus related to but distinct from the existing genus Macrococcus of similar.

Similimageeibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Mageeibacillus*, An existing genus; *Similimageeibacillus*: A genus related to but distinct from the existing genus Mageeibacillus of similar.

Similimagnetococcus

L. masc. adjective *similis*, similar; L. masc. n. *Magnetococcus*, An existing genus; *Similimagnetococcus*: A genus related to but distinct from the existing genus Magnetococcus of similar.

Similimagnetospira

L. masc. adjective *similis*, similar; L. fem. n. *Magnetospira*, An existing genus; *Similimagnetospira*: A genus related to but distinct from the existing genus Magnetospira of similar.

Similimagnetospirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Magnetospirillum*, An existing genus; *Similimagnetospirillum*: A genus related to but distinct from the existing genus Magnetospirillum of similar.

Similimagnetovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Magnetovibrio*, An existing genus; *Similimagnetovibrio*: A genus related to but distinct from the existing genus Magnetovibrio of similar.

Similimahella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Mahella*, An existing genus; *Similimahella*: A genus related to but distinct from the existing genus Mahella of similar.

Similimalacoplasma

L. masc. adjective *similis*, similar; L. neut. n. *Malacoplasma*, An existing genus; *Similimalacoplasma*: A genus related to but distinct from the existing genus Malacoplasma of similar.

Similimaledivibacter

L. masc. adjective *similis*, similar; L. masc. n. *Maledivibacter*, An existing genus; *Similimaledivibacter*: A genus related to but distinct from the existing genus Maledivibacter of similar.

Similimalikia

L. masc. adjective *similis*, similar; L. fem. n. *Malikia*, An existing genus; *Similimalikia*: A genus related to but distinct from the existing genus Malikia of similar.

Similimaliponia

L. masc. adjective *similis*, similar; L. fem. n. *Maliponia*, An existing genus; *Similimaliponia*: A genus related to but distinct from the existing genus Maliponia of similar.

Similimameliella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Mameliella*, An existing genus; *Similimameliella*: A genus related to but distinct from the existing genus Mameliella of similar.

Similimangrovibacter

L. masc. adjective *similis*, similar; L. masc. n. *Mangrovibacter*, An existing genus; *Similimangrovibacter*: A genus related to but distinct from the existing genus Mangrovibacter of similar.

Similimangrovibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Mangrovibacterium*, An existing genus; *Similimangrovibacterium*: A genus related to but distinct from the existing genus Mangrovibacterium of similar.

Similimangrovicella

L. masc. adjective *similis*, similar; L. fem. n. *Mangrovicella*, An existing genus; *Similimangrovicella*: A genus related to but distinct from the existing genus Mangrovicella of similar.

Similimangrovicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Mangrovicoccus*, An existing genus; *Similimangrovicoccus*: A genus related to but distinct from the existing genus Mangrovicoccus of similar.

Similimangroviflexus

L. masc. adjective *similis*, similar; L. masc. n. *Mangroviflexus*, An existing genus; *Similimangroviflexus*: A genus related to but distinct from the existing genus Mangroviflexus of similar.

Similimangrovihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Mangrovihabitans*, An existing genus; *Similimangrovihabitans*: A genus related to but distinct from the existing genus Mangrovihabitans of similar.

Similimangrovimonas

L. masc. adjective *similis*, similar; L. fem. n. *Mangrovimonas*, An existing genus; *Similimangrovimonas*: A genus related to but distinct from the existing genus Mangrovimonas of similar.

Similimangrovitalea

L. masc. adjective *similis*, similar; L. fem. n. *Mangrovitalea*, An existing genus; *Similimangrovitalea*: A genus related to but distinct from the existing genus Mangrovitalea of similar.

Similimannheimia

L. masc. adjective *similis*, similar; L. fem. n. *Mannheimia*, An existing genus; *Similimannheimia*: A genus related to but distinct from the existing genus Mannheimia of similar.

Similimarasmitruncus

L. masc. adjective *similis*, similar; L. masc. n. *Marasmitruncus*, An existing genus; *Similimarasmitruncus*: A genus related to but distinct from the existing genus Marasmitruncus of similar.

Similimaribacillus

L. masc. adjective *similis*, similar; L. masc. n. *Maribacillus*, An existing genus; *Similimaribacillus*: A genus related to but distinct from the existing genus Maribacillus of similar.

Similimaribacter

L. masc. adjective *similis*, similar; L. masc. n. *Maribacter*, An existing genus; *Similimaribacter*: A genus related to but distinct from the existing genus Maribacter of similar.

Similimaribaculum

L. masc. adjective *similis*, similar; L. neut. n. *Maribaculum*, An existing genus; *Similimaribaculum*: A genus related to but distinct from the existing genus Maribaculum of similar.

Similimaribellus

L. masc. adjective *similis*, similar; L. masc. n. *Maribellus*, An existing genus; *Similimaribellus*: A genus related to but distinct from the existing genus Maribellus of similar.

Similimaribius

L. masc. adjective *similis*, similar; L. masc. n. *Maribius*, An existing genus; *Similimaribius*: A genus related to but distinct from the existing genus Maribius of similar.

Similimaricaulis

L. masc. adjective *similis*, similar; L. masc. n. *Maricaulis*, An existing genus; *Similimaricaulis*: A genus related to but distinct from the existing genus Maricaulis of similar.

Similimarichromatium

L. masc. adjective *similis*, similar; L. neut. n. *Marichromatium*, An existing genus; *Similimarichromatium*: A genus related to but distinct from the existing genus Marichromatium of similar.

Similimaricurvus

L. masc. adjective *similis*, similar; L. masc. n. *Maricurvus*, An existing genus; *Similimaricurvus*: A genus related to but distinct from the existing genus Maricurvus of similar.

Similimarihabitans

L. masc. adjective *similis*, similar; L. neut. n. *Marihabitans*, An existing genus; *Similimarihabitans*: A genus related to but distinct from the existing genus Marihabitans of similar.

Similimarileptolyngbya

L. masc. adjective *similis*, similar; L. fem. n. *Marileptolyngbya*, An existing genus; *Similimarileptolyngbya*: A genus related to but distinct from the existing genus Marileptolyngbya of similar.

Similimarimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Marimicrobium*, An existing genus; *Similimarimicrobium*: A genus related to but distinct from the existing genus Marimicrobium of similar.

Similimarimonas

L. masc. adjective *similis*, similar; L. fem. n. *Marimonas*, An existing genus; *Similimarimonas*: A genus related to but distinct from the existing genus Marimonas of similar.

Similimarinactinospora

L. masc. adjective *similis*, similar; L. fem. n. *Marinactinospora*, An existing genus; *Similimarinactinospora*: A genus related to but distinct from the existing genus Marinactinospora of similar.

Similimarinagarivorans

L. masc. adjective *similis*, similar; L. masc. n. *Marinagarivorans*, An existing genus; *Similimarinagarivorans*: A genus related to but distinct from the existing genus Marinagarivorans of similar.

Similimarinibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Marinibacillus*, An existing genus; *Similimarinibacillus*: A genus related to but distinct from the existing genus Marinibacillus of similar.

Similimarinibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Marinibacterium*, An existing genus; *Similimarinibacterium*: A genus related to but distinct from the existing genus Marinibacterium of similar.

Similimarinibactrum

L. masc. adjective *similis*, similar; L. neut. n. *Marinibactrum*, An existing genus; *Similimarinibactrum*: A genus related to but distinct from the existing genus Marinibactrum of similar.

Similimarinibaculum

L. masc. adjective *similis*, similar; L. neut. n. *Marinibaculum*, An existing genus; *Similimarinibaculum*: A genus related to but distinct from the existing genus Marinibaculum of similar.

Similimariniblastus

L. masc. adjective *similis*, similar; L. masc. n. *Mariniblastus*, An existing genus; *Similimariniblastus*: A genus related to but distinct from the existing genus Mariniblastus of similar.

Similimarinicauda

L. masc. adjective *similis*, similar; L. fem. n. *Marinicauda*, An existing genus; *Similimarinicauda*: A genus related to but distinct from the existing genus Marinicauda of similar.

Similimarinicaulis

L. masc. adjective *similis*, similar; L. masc. n. *Marinicaulis*, An existing genus; *Similimarinicaulis*: A genus related to but distinct from the existing genus Marinicaulis of similar.

Similimarinicella

L. masc. adjective *similis*, similar; L. fem. n. *Marinicella*, An existing genus; *Similimarinicella*: A genus related to but distinct from the existing genus Marinicella of similar.

Similimarinicola

L. masc. adjective *similis*, similar; L. masc. n. *Marinicola*, An existing genus; *Similimarinicola*: A genus related to but distinct from the existing genus Marinicola of similar.

Similimarinicrinis

L. masc. adjective *similis*, similar; L. masc. n. *Marinicrinis*, An existing genus; *Similimarinicrinis*: A genus related to but distinct from the existing genus Marinicrinis of similar.

Similimarinifilum

L. masc. adjective *similis*, similar; L. neut. n. *Marinifilum*, An existing genus; *Similimarinifilum*: A genus related to but distinct from the existing genus Marinifilum of similar.

Similimariniflexile

L. masc. adjective *similis*, similar; L. neut. n. *Mariniflexile*, An existing genus; *Similimariniflexile*: A genus related to but distinct from the existing genus Mariniflexile of similar.

Similimarinilabilia

L. masc. adjective *similis*, similar; L. fem. n. *Marinilabilia*, An existing genus; *Similimarinilabilia*: A genus related to but distinct from the existing genus Marinilabilia of similar.

Similimarinilactibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Marinilactibacillus*, An existing genus; *Similimarinilactibacillus*: A genus related to but distinct from the existing genus Marinilactibacillus of similar.

Similimariniluteicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Mariniluteicoccus*, An existing genus; *Similimariniluteicoccus*: A genus related to but distinct from the existing genus Mariniluteicoccus of similar.

Similimarinimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Marinimicrobium*, An existing genus; *Similimarinimicrobium*: A genus related to but distinct from the existing genus Marinimicrobium of similar.

Similimarininema

L. masc. adjective *similis*, similar; L. neut. n. *Marininema*, An existing genus; *Similimarininema*: A genus related to but distinct from the existing genus Marininema of similar.

Similimariniphaga

L. masc. adjective *similis*, similar; L. fem. n. *Mariniphaga*, An existing genus; *Similimariniphaga*: A genus related to but distinct from the existing genus Mariniphaga of similar.

Similimariniradius

L. masc. adjective *similis*, similar; L. masc. n. *Mariniradius*, An existing genus; *Similimariniradius*: A genus related to but distinct from the existing genus Mariniradius of similar.

Similimarinirhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Marinirhabdus*, An existing genus; *Similimarinirhabdus*: A genus related to but distinct from the existing genus Marinirhabdus of similar.

Similimarinisporobacter

L. masc. adjective *similis*, similar; L. masc. n. *Marinisporobacter*, An existing genus; *Similimarinisporobacter*: A genus related to but distinct from the existing genus Marinisporobacter of similar.

Similimarinitalea

L. masc. adjective *similis*, similar; L. fem. n. *Marinitalea*, An existing genus; *Similimarinitalea*: A genus related to but distinct from the existing genus Marinitalea of similar.

Similimarinitenerispora

L. masc. adjective *similis*, similar; L. fem. n. *Marinitenerispora*, An existing genus; *Similimarinitenerispora*: A genus related to but distinct from the existing genus Marinitenerispora of similar.

Similimarinithermofilum

L. masc. adjective *similis*, similar; L. neut. n. *Marinithermofilum*, An existing genus; *Similimarinithermofilum*: A genus related to but distinct from the existing genus Marinithermofilum of similar.

Similimarinithermus

L. masc. adjective *similis*, similar; L. masc. n. *Marinithermus*, An existing genus; *Similimarinithermus*: A genus related to but distinct from the existing genus Marinithermus of similar.

Similimarinitoga

L. masc. adjective *similis*, similar; L. fem. n. *Marinitoga*, An existing genus; *Similimarinitoga*: A genus related to but distinct from the existing genus Marinitoga of similar.

Similimarinivirga

L. masc. adjective *similis*, similar; L. fem. n. *Marinivirga*, An existing genus; *Similimarinivirga*: A genus related to but distinct from the existing genus Marinivirga of similar.

Similimarinobacter

L. masc. adjective *similis*, similar; L. masc. n. *Marinobacter*, An existing genus; *Similimarinobacter*: A genus related to but distinct from the existing genus Marinobacter of similar.

Similimarinobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Marinobacterium*, An existing genus; *Similimarinobacterium*: A genus related to but distinct from the existing genus Marinobacterium of similar.

Similimarinococcus

L. masc. adjective *similis*, similar; L. masc. n. *Marinococcus*, An existing genus; *Similimarinococcus*: A genus related to but distinct from the existing genus Marinococcus of similar.

Similimarinomonas

L. masc. adjective *similis*, similar; L. fem. n. *Marinomonas*, An existing genus; *Similimarinomonas*: A genus related to but distinct from the existing genus Marinomonas of similar.

Similimarinoscillum

L. masc. adjective *similis*, similar; L. neut. n. *Marinoscillum*, An existing genus; *Similimarinoscillum*: A genus related to but distinct from the existing genus Marinoscillum of similar.

Similimarinospirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Marinospirillum*, An existing genus; *Similimarinospirillum*: A genus related to but distinct from the existing genus Marinospirillum of similar.

Similimarinosulfonomonas

L. masc. adjective *similis*, similar; L. fem. n. *Marinosulfonomonas*, An existing genus; *Similimarinosulfonomonas*: A genus related to but distinct from the existing genus Marinosulfonomonas of similar.

Similimarinovum

L. masc. adjective *similis*, similar; L. neut. n. *Marinovum*, An existing genus; *Similimarinovum*: A genus related to but distinct from the existing genus Marinovum of similar.

Similimariprofundus

L. masc. adjective *similis*, similar; L. masc. n. *Mariprofundus*, An existing genus; *Similimariprofundus*: A genus related to but distinct from the existing genus Mariprofundus of similar.

Similimaripseudobacter

L. masc. adjective *similis*, similar; L. masc. n. *Maripseudobacter*, An existing genus; *Similimaripseudobacter*: A genus related to but distinct from the existing genus Maripseudobacter of similar.

Similimarisediminicola

L. masc. adjective *similis*, similar; L. fem. n. *Marisediminicola*, An existing genus; *Similimarisediminicola*: A genus related to but distinct from the existing genus Marisediminicola of similar.

Similimarisediminitalea

L. masc. adjective *similis*, similar; L. fem. n. *Marisediminitalea*, An existing genus; *Similimarisediminitalea*: A genus related to but distinct from the existing genus Marisediminitalea of similar.

Similimarispirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Marispirillum*, An existing genus; *Similimarispirillum*: A genus related to but distinct from the existing genus Marispirillum of similar.

Similimarispirochaeta

L. masc. adjective *similis*, similar; L. fem. n. *Marispirochaeta*, An existing genus; *Similimarispirochaeta*: A genus related to but distinct from the existing genus Marispirochaeta of similar.

Similimaritalea

L. masc. adjective *similis*, similar; L. fem. n. *Maritalea*, An existing genus; *Similimaritalea*: A genus related to but distinct from the existing genus Maritalea of similar.

Similimaritimibacter

L. masc. adjective *similis*, similar; L. masc. n. *Maritimibacter*, An existing genus; *Similimaritimibacter*: A genus related to but distinct from the existing genus Maritimibacter of similar.

Similimaritimimonas

L. masc. adjective *similis*, similar; L. fem. n. *Maritimimonas*, An existing genus; *Similimaritimimonas*: A genus related to but distinct from the existing genus Maritimimonas of similar.

Similimarivibrio

L. masc. adjective *similis*, similar; L. masc. n. *Marivibrio*, An existing genus; *Similimarivibrio*: A genus related to but distinct from the existing genus Marivibrio of similar.

Similimarivirga

L. masc. adjective *similis*, similar; L. fem. n. *Marivirga*, An existing genus; *Similimarivirga*: A genus related to but distinct from the existing genus Marivirga of similar.

Similimarivita

L. masc. adjective *similis*, similar; L. fem. n. *Marivita*, An existing genus; *Similimarivita*: A genus related to but distinct from the existing genus Marivita of similar.

Similimarixanthomonas

L. masc. adjective *similis*, similar; L. fem. n. *Marixanthomonas*, An existing genus; *Similimarixanthomonas*: A genus related to but distinct from the existing genus Marixanthomonas of similar.

Similimarmoricola

L. masc. adjective *similis*, similar; L. masc. n. *Marmoricola*, An existing genus; *Similimarmoricola*: A genus related to but distinct from the existing genus Marmoricola of similar.

Similimarortus

L. masc. adjective *similis*, similar; L. masc. n. *Marortus*, An existing genus; *Similimarortus*: A genus related to but distinct from the existing genus Marortus of similar.

Similimartelella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Martelella*, An existing genus; *Similimartelella*: A genus related to but distinct from the existing genus Martelella of similar.

Similimarvinbryantia

L. masc. adjective *similis*, similar; L. fem. n. *Marvinbryantia*, An existing genus; *Similimarvinbryantia*: A genus related to but distinct from the existing genus Marvinbryantia of similar.

Similimassilibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Massilibacterium*, An existing genus; *Similimassilibacterium*: A genus related to but distinct from the existing genus Massilibacterium of similar.

Similimassiliimalia

L. masc. adjective *similis*, similar; L. fem. n. *Massiliimalia*, An existing genus; *Similimassiliimalia*: A genus related to but distinct from the existing genus Massiliimalia of similar.

Similimechercharimyces

L. masc. adjective *similis*, similar; L. masc. n. *Mechercharimyces*, An existing genus; *Similimechercharimyces*: A genus related to but distinct from the existing genus Mechercharimyces of similar.

Similimediterraneibacter

L. masc. adjective *similis*, similar; L. masc. n. *Mediterraneibacter*, An existing genus; *Similimediterraneibacter*: A genus related to but distinct from the existing genus Mediterraneibacter of similar.

Similimegamonas

L. masc. adjective *similis*, similar; L. fem. n. *Megamonas*, An existing genus; *Similimegamonas*: A genus related to but distinct from the existing genus Megamonas of similar.

Similimeganema

L. masc. adjective *similis*, similar; L. neut. n. *Meganema*, An existing genus; *Similimeganema*: A genus related to but distinct from the existing genus Meganema of similar.

Similimegasphaera

L. masc. adjective *similis*, similar; L. fem. n. *Megasphaera*, An existing genus; *Similimegasphaera*: A genus related to but distinct from the existing genus Megasphaera of similar.

Similimeiothermus

L. masc. adjective *similis*, similar; L. masc. n. *Meiothermus*, An existing genus; *Similimeiothermus*: A genus related to but distinct from the existing genus Meiothermus of similar.

Similimelaminivora

L. masc. adjective *similis*, similar; L. fem. n. *Melaminivora*, An existing genus; *Similimelaminivora*: A genus related to but distinct from the existing genus Melaminivora of similar.

Similimelghiribacillus

L. masc. adjective *similis*, similar; L. masc. n. *Melghiribacillus*, An existing genus; *Similimelghiribacillus*: A genus related to but distinct from the existing genus Melghiribacillus of similar.

Similimelghirimyces

L. masc. adjective *similis*, similar; L. masc. n. *Melghirimyces*, An existing genus; *Similimelghirimyces*: A genus related to but distinct from the existing genus Melghirimyces of similar.

Similimelioribacter

L. masc. adjective *similis*, similar; L. masc. n. *Melioribacter*, An existing genus; *Similimelioribacter*: A genus related to but distinct from the existing genus Melioribacter of similar.

Similimelissococcus

L. masc. adjective *similis*, similar; L. masc. n. *Melissococcus*, An existing genus; *Similimelissococcus*: A genus related to but distinct from the existing genus Melissococcus of similar.

Similimelitea

L. masc. adjective *similis*, similar; L. fem. n. *Melitea*, An existing genus; *Similimelitea*: A genus related to but distinct from the existing genus Melitea of similar.

Similimelittangium

L. masc. adjective *similis*, similar; L. neut. n. *Melittangium*, An existing genus; *Similimelittangium*: A genus related to but distinct from the existing genus Melittangium of similar.

Similimembranicola

L. masc. adjective *similis*, similar; L. masc. n. *Membranicola*, An existing genus; *Similimembranicola*: A genus related to but distinct from the existing genus Membranicola of similar.

Similimeniscus

L. masc. adjective *similis*, similar; L. masc. n. *Meniscus*, An existing genus; *Similimeniscus*: A genus related to but distinct from the existing genus Meniscus of similar.

Similimerdibacter

L. masc. adjective *similis*, similar; L. masc. n. *Merdibacter*, An existing genus; *Similimerdibacter*: A genus related to but distinct from the existing genus Merdibacter of similar.

Similimerdimonas

L. masc. adjective *similis*, similar; L. fem. n. *Merdimonas*, An existing genus; *Similimerdimonas*: A genus related to but distinct from the existing genus Merdimonas of similar.

Similimeridianimaribacter

L. masc. adjective *similis*, similar; L. masc. n. *Meridianimaribacter*, An existing genus; *Similimeridianimaribacter*: A genus related to but distinct from the existing genus Meridianimaribacter of similar.

Similimeridianimarinicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Meridianimarinicoccus*, An existing genus; *Similimeridianimarinicoccus*: A genus related to but distinct from the existing genus Meridianimarinicoccus of similar.

Similimesoaciditoga

L. masc. adjective *similis*, similar; L. fem. n. *Mesoaciditoga*, An existing genus; *Similimesoaciditoga*: A genus related to but distinct from the existing genus Mesoaciditoga of similar.

Similimesobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Mesobacillus*, An existing genus; *Similimesobacillus*: A genus related to but distinct from the existing genus Mesobacillus of similar.

Similimesocricetibacter

L. masc. adjective *similis*, similar; L. masc. n. *Mesocricetibacter*, An existing genus; *Similimesocricetibacter*: A genus related to but distinct from the existing genus Mesocricetibacter of similar.

Similimesoflavibacter

L. masc. adjective *similis*, similar; L. masc. n. *Mesoflavibacter*, An existing genus; *Similimesoflavibacter*: A genus related to but distinct from the existing genus Mesoflavibacter of similar.

Similimesohalobacter

L. masc. adjective *similis*, similar; L. masc. n. *Mesohalobacter*, An existing genus; *Similimesohalobacter*: A genus related to but distinct from the existing genus Mesohalobacter of similar.

Similimesomycoplasma

L. masc. adjective *similis*, similar; L. neut. n. *Mesomycoplasma*, An existing genus; *Similimesomycoplasma*: A genus related to but distinct from the existing genus Mesomycoplasma of similar.

Similimesonia

L. masc. adjective *similis*, similar; L. fem. n. *Mesonia*, An existing genus; *Similimesonia*: A genus related to but distinct from the existing genus Mesonia of similar.

Similimesophilobacter

L. masc. adjective *similis*, similar; L. masc. n. *Mesophilobacter*, An existing genus; *Similimesophilobacter*: A genus related to but distinct from the existing genus Mesophilobacter of similar.

Similimesoplasma

L. masc. adjective *similis*, similar; L. neut. n. *Mesoplasma*, An existing genus; *Similimesoplasma*: A genus related to but distinct from the existing genus Mesoplasma of similar.

Similimesorhizobium

L. masc. adjective *similis*, similar; L. neut. n. *Mesorhizobium*, An existing genus; *Similimesorhizobium*: A genus related to but distinct from the existing genus Mesorhizobium of similar.

Similimesosutterella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Mesosutterella*, An existing genus; *Similimesosutterella*: A genus related to but distinct from the existing genus Mesosutterella of similar.

Similimesotoga

L. masc. adjective *similis*, similar; L. fem. n. *Mesotoga*, An existing genus; *Similimesotoga*: A genus related to but distinct from the existing genus Mesotoga of similar.

Similimetabacillus

L. masc. adjective *similis*, similar; L. masc. n. *Metabacillus*, An existing genus; *Similimetabacillus*: A genus related to but distinct from the existing genus Metabacillus of similar.

Similimetakosakonia

L. masc. adjective *similis*, similar; L. fem. n. *Metakosakonia*, An existing genus; *Similimetakosakonia*: A genus related to but distinct from the existing genus Metakosakonia of similar.

Similimetallibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Metallibacterium*, An existing genus; *Similimetallibacterium*: A genus related to but distinct from the existing genus Metallibacterium of similar.

Similimetalliresistens

L. masc. adjective *similis*, similar; L. masc. n. *Metalliresistens*, An existing genus; *Similimetalliresistens*: A genus related to but distinct from the existing genus Metalliresistens of similar.

Similimetallosphaera

L. masc. adjective *similis*, similar; L. fem. n. *Metallosphaera*, An existing genus; *Similimetallosphaera*: A genus related to but distinct from the existing genus Metallosphaera of similar.

Similimetalysinibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Metalysinibacillus*, An existing genus; *Similimetalysinibacillus*: A genus related to but distinct from the existing genus Metalysinibacillus of similar.

Similimetamycoplasma

L. masc. adjective *similis*, similar; L. neut. n. *Metamycoplasma*, An existing genus; *Similimetamycoplasma*: A genus related to but distinct from the existing genus Metamycoplasma of similar.

Similimetaplanococcus

L. masc. adjective *similis*, similar; L. masc. n. *Metaplanococcus*, An existing genus; *Similimetaplanococcus*: A genus related to but distinct from the existing genus Metaplanococcus of similar.

Similimetascardovia

L. masc. adjective *similis*, similar; L. fem. n. *Metascardovia*, An existing genus; *Similimetascardovia*: A genus related to but distinct from the existing genus Metascardovia of similar.

Similimetasolibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Metasolibacillus*, An existing genus; *Similimetasolibacillus*: A genus related to but distinct from the existing genus Metasolibacillus of similar.

Similimethanobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Methanobacterium*, An existing genus; *Similimethanobacterium*: A genus related to but distinct from the existing genus Methanobacterium of similar.

Similimethanobrevibacter

L. masc. adjective *similis*, similar; L. masc. n. *Methanobrevibacter*, An existing genus; *Similimethanobrevibacter*: A genus related to but distinct from the existing genus Methanobrevibacter of similar.

Similimethanocalculus

L. masc. adjective *similis*, similar; L. masc. n. *Methanocalculus*, An existing genus; *Similimethanocalculus*: A genus related to but distinct from the existing genus Methanocalculus of similar.

Similimethanocaldococcus

L. masc. adjective *similis*, similar; L. masc. n. *Methanocaldococcus*, An existing genus; *Similimethanocaldococcus*: A genus related to but distinct from the existing genus Methanocaldococcus of similar.

Similimethanocella

L. masc. adjective *similis*, similar; L. fem. n. *Methanocella*, An existing genus; *Similimethanocella*: A genus related to but distinct from the existing genus Methanocella of similar.

Similimethanococcoides

L. masc. adjective *similis*, similar; L. neut. n. *Methanococcoides*, An existing genus; *Similimethanococcoides*: A genus related to but distinct from the existing genus Methanococcoides of similar.

Similimethanococcus

L. masc. adjective *similis*, similar; L. masc. n. *Methanococcus*, An existing genus; *Similimethanococcus*: A genus related to but distinct from the existing genus Methanococcus of similar.

Similimethanocorpusculum

L. masc. adjective *similis*, similar; L. neut. n. *Methanocorpusculum*, An existing genus; *Similimethanocorpusculum*: A genus related to but distinct from the existing genus Methanocorpusculum of similar.

Similimethanoculleus

L. masc. adjective *similis*, similar; L. masc. n. *Methanoculleus*, An existing genus; *Similimethanoculleus*: A genus related to but distinct from the existing genus Methanoculleus of similar.

Similimethanofervidicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Methanofervidicoccus*, An existing genus; *Similimethanofervidicoccus*: A genus related to but distinct from the existing genus Methanofervidicoccus of similar.

Similimethanofollis

L. masc. adjective *similis*, similar; L. masc. n. *Methanofollis*, An existing genus; *Similimethanofollis*: A genus related to but distinct from the existing genus Methanofollis of similar.

Similimethanogenium

L. masc. adjective *similis*, similar; L. neut. n. *Methanogenium*, An existing genus; *Similimethanogenium*: A genus related to but distinct from the existing genus Methanogenium of similar.

Similimethanohalobium

L. masc. adjective *similis*, similar; L. neut. n. *Methanohalobium*, An existing genus; *Similimethanohalobium*: A genus related to but distinct from the existing genus Methanohalobium of similar.

Similimethanohalophilus

L. masc. adjective *similis*, similar; L. masc. n. *Methanohalophilus*, An existing genus; *Similimethanohalophilus*: A genus related to but distinct from the existing genus Methanohalophilus of similar.

Similimethanolacinia

L. masc. adjective *similis*, similar; L. fem. n. *Methanolacinia*, An existing genus; *Similimethanolacinia*: A genus related to but distinct from the existing genus Methanolacinia of similar.

Similimethanolinea

L. masc. adjective *similis*, similar; L. fem. n. *Methanolinea*, An existing genus; *Similimethanolinea*: A genus related to but distinct from the existing genus Methanolinea of similar.

Similimethanomassiliicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Methanomassiliicoccus*, An existing genus; *Similimethanomassiliicoccus*: A genus related to but distinct from the existing genus Methanomassiliicoccus of similar.

Similimethanomethylovorans

L. masc. adjective *similis*, similar; L. fem. n. *Methanomethylovorans*, An existing genus; *Similimethanomethylovorans*: A genus related to but distinct from the existing genus Methanomethylovorans of similar.

Similimethanomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Methanomicrobium*, An existing genus; *Similimethanomicrobium*: A genus related to but distinct from the existing genus Methanomicrobium of similar.

Similimethanonatronarchaeum

L. masc. adjective *similis*, similar; L. neut. n. *Methanonatronarchaeum*, An existing genus; *Similimethanonatronarchaeum*: A genus related to but distinct from the existing genus Methanonatronarchaeum of similar.

Similimethanoplanus

L. masc. adjective *similis*, similar; L. masc. n. *Methanoplanus*, An existing genus; *Similimethanoplanus*: A genus related to but distinct from the existing genus Methanoplanus of similar.

Similimethanopyrus

L. masc. adjective *similis*, similar; L. masc. n. *Methanopyrus*, An existing genus; *Similimethanopyrus*: A genus related to but distinct from the existing genus Methanopyrus of similar.

Similimethanoregula

L. masc. adjective *similis*, similar; L. fem. n. *Methanoregula*, An existing genus; *Similimethanoregula*: A genus related to but distinct from the existing genus Methanoregula of similar.

Similimethanosaeta

L. masc. adjective *similis*, similar; L. fem. n. *Methanosaeta*, An existing genus; *Similimethanosaeta*: A genus related to but distinct from the existing genus Methanosaeta of similar.

Similimethanosalsum

L. masc. adjective *similis*, similar; L. neut. n. *Methanosalsum*, An existing genus; *Similimethanosalsum*: A genus related to but distinct from the existing genus Methanosalsum of similar.

Similimethanosarcina

L. masc. adjective *similis*, similar; L. fem. n. *Methanosarcina*, An existing genus; *Similimethanosarcina*: A genus related to but distinct from the existing genus Methanosarcina of similar.

Similimethanosphaera

L. masc. adjective *similis*, similar; L. fem. n. *Methanosphaera*, An existing genus; *Similimethanosphaera*: A genus related to but distinct from the existing genus Methanosphaera of similar.

Similimethanosphaerula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Methanosphaerula*, An existing genus; *Similimethanosphaerula*: A genus related to but distinct from the existing genus Methanosphaerula of similar.

Similimethanospirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Methanospirillum*, An existing genus; *Similimethanospirillum*: A genus related to but distinct from the existing genus Methanospirillum of similar.

Similimethanothermobacter

L. masc. adjective *similis*, similar; L. masc. n. *Methanothermobacter*, An existing genus; *Similimethanothermobacter*: A genus related to but distinct from the existing genus Methanothermobacter of similar.

Similimethanothermococcus

L. masc. adjective *similis*, similar; L. masc. n. *Methanothermococcus*, An existing genus; *Similimethanothermococcus*: A genus related to but distinct from the existing genus Methanothermococcus of similar.

Similimethanothermus

L. masc. adjective *similis*, similar; L. masc. n. *Methanothermus*, An existing genus; *Similimethanothermus*: A genus related to but distinct from the existing genus Methanothermus of similar.

Similimethanothrix

L. masc. adjective *similis*, similar; L. fem. n. *Methanothrix*, An existing genus; *Similimethanothrix*: A genus related to but distinct from the existing genus Methanothrix of similar.

Similimethanotorris

L. masc. adjective *similis*, similar; L. masc. n. *Methanotorris*, An existing genus; *Similimethanotorris*: A genus related to but distinct from the existing genus Methanotorris of similar.

Similimethermicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Methermicoccus*, An existing genus; *Similimethermicoccus*: A genus related to but distinct from the existing genus Methermicoccus of similar.

Similimethylacidimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Methylacidimicrobium*, An existing genus; *Similimethylacidimicrobium*: A genus related to but distinct from the existing genus Methylacidimicrobium of similar.

Similimethylarcula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Methylarcula*, An existing genus; *Similimethylarcula*: A genus related to but distinct from the existing genus Methylarcula of similar.

Similimethylibium

L. masc. adjective *similis*, similar; L. neut. n. *Methylibium*, An existing genus; *Similimethylibium*: A genus related to but distinct from the existing genus Methylibium of similar.

Similimethylicorpusculum

L. masc. adjective *similis*, similar; L. neut. n. *Methylicorpusculum*, An existing genus; *Similimethylicorpusculum*: A genus related to but distinct from the existing genus Methylicorpusculum of similar.

Similimethylobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Methylobacillus*, An existing genus; *Similimethylobacillus*: A genus related to but distinct from the existing genus Methylobacillus of similar.

Similimethylobacter

L. masc. adjective *similis*, similar; L. masc. n. *Methylobacter*, An existing genus; *Similimethylobacter*: A genus related to but distinct from the existing genus Methylobacter of similar.

Similimethylobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Methylobacterium*, An existing genus; *Similimethylobacterium*: A genus related to but distinct from the existing genus Methylobacterium of similar.

Similimethylobrevis

L. masc. adjective *similis*, similar; L. masc. n. *Methylobrevis*, An existing genus; *Similimethylobrevis*: A genus related to but distinct from the existing genus Methylobrevis of similar.

Similimethylocaldum

L. masc. adjective *similis*, similar; L. neut. n. *Methylocaldum*, An existing genus; *Similimethylocaldum*: A genus related to but distinct from the existing genus Methylocaldum of similar.

Similimethylocapsa

L. masc. adjective *similis*, similar; L. fem. n. *Methylocapsa*, An existing genus; *Similimethylocapsa*: A genus related to but distinct from the existing genus Methylocapsa of similar.

Similimethyloceanibacter

L. masc. adjective *similis*, similar; L. masc. n. *Methyloceanibacter*, An existing genus; *Similimethyloceanibacter*: A genus related to but distinct from the existing genus Methyloceanibacter of similar.

Similimethylocella

L. masc. adjective *similis*, similar; L. fem. n. *Methylocella*, An existing genus; *Similimethylocella*: A genus related to but distinct from the existing genus Methylocella of similar.

Similimethylococcus

L. masc. adjective *similis*, similar; L. masc. n. *Methylococcus*, An existing genus; *Similimethylococcus*: A genus related to but distinct from the existing genus Methylococcus of similar.

Similimethylocucumis

L. masc. adjective *similis*, similar; L. masc. n. *Methylocucumis*, An existing genus; *Similimethylocucumis*: A genus related to but distinct from the existing genus Methylocucumis of similar.

Similimethylocystis

L. masc. adjective *similis*, similar; L. fem. n. *Methylocystis*, An existing genus; *Similimethylocystis*: A genus related to but distinct from the existing genus Methylocystis of similar.

Similimethyloferula

L. masc. adjective *similis*, similar; L. fem. n. *Methyloferula*, An existing genus; *Similimethyloferula*: A genus related to but distinct from the existing genus Methyloferula of similar.

Similimethylogaea

L. masc. adjective *similis*, similar; L. fem. n. *Methylogaea*, An existing genus; *Similimethylogaea*: A genus related to but distinct from the existing genus Methylogaea of similar.

Similimethyloglobulus

L. masc. adjective *similis*, similar; L. masc. dim. n. *Methyloglobulus*, An existing genus; *Similimethyloglobulus*: A genus related to but distinct from the existing genus Methyloglobulus of similar.

Similimethylohalobius

L. masc. adjective *similis*, similar; L. masc. n. *Methylohalobius*, An existing genus; *Similimethylohalobius*: A genus related to but distinct from the existing genus Methylohalobius of similar.

Similimethylohalomonas

L. masc. adjective *similis*, similar; L. fem. n. *Methylohalomonas*, An existing genus; *Similimethylohalomonas*: A genus related to but distinct from the existing genus Methylohalomonas of similar.

Similimethyloligella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Methyloligella*, An existing genus; *Similimethyloligella*: A genus related to but distinct from the existing genus Methyloligella of similar.

Similimethylolobus

L. masc. adjective *similis*, similar; L. masc. n. *Methylolobus*, An existing genus; *Similimethylolobus*: A genus related to but distinct from the existing genus Methylolobus of similar.

Similimethylomagnum

L. masc. adjective *similis*, similar; L. neut. n. *Methylomagnum*, An existing genus; *Similimethylomagnum*: A genus related to but distinct from the existing genus Methylomagnum of similar.

Similimethylomarinovum

L. masc. adjective *similis*, similar; L. neut. n. *Methylomarinovum*, An existing genus; *Similimethylomarinovum*: A genus related to but distinct from the existing genus Methylomarinovum of similar.

Similimethylomarinum

L. masc. adjective *similis*, similar; L. neut. n. *Methylomarinum*, An existing genus; *Similimethylomarinum*: A genus related to but distinct from the existing genus Methylomarinum of similar.

Similimethylomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Methylomicrobium*, An existing genus; *Similimethylomicrobium*: A genus related to but distinct from the existing genus Methylomicrobium of similar.

Similimethylomonas

L. masc. adjective *similis*, similar; L. fem. n. *Methylomonas*, An existing genus; *Similimethylomonas*: A genus related to but distinct from the existing genus Methylomonas of similar.

Similimethylomusa

L. masc. adjective *similis*, similar; L. fem. n. *Methylomusa*, An existing genus; *Similimethylomusa*: A genus related to but distinct from the existing genus Methylomusa of similar.

Similimethylonatrum

L. masc. adjective *similis*, similar; L. neut. n. *Methylonatrum*, An existing genus; *Similimethylonatrum*: A genus related to but distinct from the existing genus Methylonatrum of similar.

Similimethyloparacoccus

L. masc. adjective *similis*, similar; L. masc. n. *Methyloparacoccus*, An existing genus; *Similimethyloparacoccus*: A genus related to but distinct from the existing genus Methyloparacoccus of similar.

Similimethylophaga

L. masc. adjective *similis*, similar; L. fem. n. *Methylophaga*, An existing genus; *Similimethylophaga*: A genus related to but distinct from the existing genus Methylophaga of similar.

Similimethylophilus

L. masc. adjective *similis*, similar; L. masc. n. *Methylophilus*, An existing genus; *Similimethylophilus*: A genus related to but distinct from the existing genus Methylophilus of similar.

Similimethylopila

L. masc. adjective *similis*, similar; L. fem. n. *Methylopila*, An existing genus; *Similimethylopila*: A genus related to but distinct from the existing genus Methylopila of similar.

Similimethyloprofundus

L. masc. adjective *similis*, similar; L. masc. n. *Methyloprofundus*, An existing genus; *Similimethyloprofundus*: A genus related to but distinct from the existing genus Methyloprofundus of similar.

Similimethylorhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Methylorhabdus*, An existing genus; *Similimethylorhabdus*: A genus related to but distinct from the existing genus Methylorhabdus of similar.

Similimethylorosula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Methylorosula*, An existing genus; *Similimethylorosula*: A genus related to but distinct from the existing genus Methylorosula of similar.

Similimethylorubrum

L. masc. adjective *similis*, similar; L. neut. n. *Methylorubrum*, An existing genus; *Similimethylorubrum*: A genus related to but distinct from the existing genus Methylorubrum of similar.

Similimethylosarcina

L. masc. adjective *similis*, similar; L. fem. n. *Methylosarcina*, An existing genus; *Similimethylosarcina*: A genus related to but distinct from the existing genus Methylosarcina of similar.

Similimethylosinus

L. masc. adjective *similis*, similar; L. masc. n. *Methylosinus*, An existing genus; *Similimethylosinus*: A genus related to but distinct from the existing genus Methylosinus of similar.

Similimethylosoma

L. masc. adjective *similis*, similar; L. neut. n. *Methylosoma*, An existing genus; *Similimethylosoma*: A genus related to but distinct from the existing genus Methylosoma of similar.

Similimethylosphaera

L. masc. adjective *similis*, similar; L. fem. n. *Methylosphaera*, An existing genus; *Similimethylosphaera*: A genus related to but distinct from the existing genus Methylosphaera of similar.

Similimethylosulfonomonas

L. masc. adjective *similis*, similar; L. fem. n. *Methylosulfonomonas*, An existing genus; *Similimethylosulfonomonas*: A genus related to but distinct from the existing genus Methylosulfonomonas of similar.

Similimethylotenera

L. masc. adjective *similis*, similar; L. fem. n. *Methylotenera*, An existing genus; *Similimethylotenera*: A genus related to but distinct from the existing genus Methylotenera of similar.

Similimethyloterricola

L. masc. adjective *similis*, similar; L. fem. n. *Methyloterricola*, An existing genus; *Similimethyloterricola*: A genus related to but distinct from the existing genus Methyloterricola of similar.

Similimethyloterrigena

L. masc. adjective *similis*, similar; L. fem. n. *Methyloterrigena*, An existing genus; *Similimethyloterrigena*: A genus related to but distinct from the existing genus Methyloterrigena of similar.

Similimethylothermus

L. masc. adjective *similis*, similar; L. masc. n. *Methylothermus*, An existing genus; *Similimethylothermus*: A genus related to but distinct from the existing genus Methylothermus of similar.

Similimethylotuvimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Methylotuvimicrobium*, An existing genus; *Similimethylotuvimicrobium*: A genus related to but distinct from the existing genus Methylotuvimicrobium of similar.

Similimethyloversatilis

L. masc. adjective *similis*, similar; L. fem. n. *Methyloversatilis*, An existing genus; *Similimethyloversatilis*: A genus related to but distinct from the existing genus Methyloversatilis of similar.

Similimethylovirgula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Methylovirgula*, An existing genus; *Similimethylovirgula*: A genus related to but distinct from the existing genus Methylovirgula of similar.

Similimethylovorus

L. masc. adjective *similis*, similar; L. masc. n. *Methylovorus*, An existing genus; *Similimethylovorus*: A genus related to but distinct from the existing genus Methylovorus of similar.

Similimethylovulum

L. masc. adjective *similis*, similar; L. neut. n. *Methylovulum*, An existing genus; *Similimethylovulum*: A genus related to but distinct from the existing genus Methylovulum of similar.

Similimicavibrio

L. masc. adjective *similis*, similar; L. masc. n. *Micavibrio*, An existing genus; *Similimicavibrio*: A genus related to but distinct from the existing genus Micavibrio of similar.

Similimicroaerobacter

L. masc. adjective *similis*, similar; L. masc. n. *Microaerobacter*, An existing genus; *Similimicroaerobacter*: A genus related to but distinct from the existing genus Microaerobacter of similar.

Similimicrobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Microbacterium*, An existing genus; *Similimicrobacterium*: A genus related to but distinct from the existing genus Microbacterium of similar.

Similimicrobispora

L. masc. adjective *similis*, similar; L. fem. n. *Microbispora*, An existing genus; *Similimicrobispora*: A genus related to but distinct from the existing genus Microbispora of similar.

Similimicrobulbifer

L. masc. adjective *similis*, similar; L. masc. n. *Microbulbifer*, An existing genus; *Similimicrobulbifer*: A genus related to but distinct from the existing genus Microbulbifer of similar.

Similimicrocella

L. masc. adjective *similis*, similar; L. fem. n. *Microcella*, An existing genus; *Similimicrocella*: A genus related to but distinct from the existing genus Microcella of similar.

Similimicrococcoides

L. masc. adjective *similis*, similar; L. neut. n. *Micrococcoides*, An existing genus; *Similimicrococcoides*: A genus related to but distinct from the existing genus Micrococcoides of similar.

Similimicrococcus

L. masc. adjective *similis*, similar; L. masc. n. *Micrococcus*, An existing genus; *Similimicrococcus*: A genus related to but distinct from the existing genus Micrococcus of similar.

Similimicrocyclus

L. masc. adjective *similis*, similar; L. masc. n. *Microcyclus*, An existing genus; *Similimicrocyclus*: A genus related to but distinct from the existing genus Microcyclus of similar.

Similimicrocystis

L. masc. adjective *similis*, similar; L. fem. n. *Microcystis*, An existing genus; *Similimicrocystis*: A genus related to but distinct from the existing genus Microcystis of similar.

Similimicroellobosporia

L. masc. adjective *similis*, similar; L. fem. n. *Microellobosporia*, An existing genus; *Similimicroellobosporia*: A genus related to but distinct from the existing genus Microellobosporia of similar.

Similimicrolunatus

L. masc. adjective *similis*, similar; L. masc. n. *Microlunatus*, An existing genus; *Similimicrolunatus*: A genus related to but distinct from the existing genus Microlunatus of similar.

Similimicromonas

L. masc. adjective *similis*, similar; L. fem. n. *Micromonas*, An existing genus; *Similimicromonas*: A genus related to but distinct from the existing genus Micromonas of similar.

Similimicromonospora

L. masc. adjective *similis*, similar; L. fem. n. *Micromonospora*, An existing genus; *Similimicromonospora*: A genus related to but distinct from the existing genus Micromonospora of similar.

Similimicropepsis

L. masc. adjective *similis*, similar; L. fem. n. *Micropepsis*, An existing genus; *Similimicropepsis*: A genus related to but distinct from the existing genus Micropepsis of similar.

Similimicropolyspora

L. masc. adjective *similis*, similar; L. fem. n. *Micropolyspora*, An existing genus; *Similimicropolyspora*: A genus related to but distinct from the existing genus Micropolyspora of similar.

Similimicropruina

L. masc. adjective *similis*, similar; L. fem. n. *Micropruina*, An existing genus; *Similimicropruina*: A genus related to but distinct from the existing genus Micropruina of similar.

Similimicroscilla

L. masc. adjective *similis*, similar; L. fem. n. *Microscilla*, An existing genus; *Similimicroscilla*: A genus related to but distinct from the existing genus Microscilla of similar.

Similimicrosphaera

L. masc. adjective *similis*, similar; L. fem. n. *Microsphaera*, An existing genus; *Similimicrosphaera*: A genus related to but distinct from the existing genus Microsphaera of similar.

Similimicroterricola

L. masc. adjective *similis*, similar; L. fem. n. *Microterricola*, An existing genus; *Similimicroterricola*: A genus related to but distinct from the existing genus Microterricola of similar.

Similimicrotetraspora

L. masc. adjective *similis*, similar; L. fem. n. *Microtetraspora*, An existing genus; *Similimicrotetraspora*: A genus related to but distinct from the existing genus Microtetraspora of similar.

Similimicrovirgula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Microvirgula*, An existing genus; *Similimicrovirgula*: A genus related to but distinct from the existing genus Microvirgula of similar.

Similimillisia

L. masc. adjective *similis*, similar; L. fem. n. *Millisia*, An existing genus; *Similimillisia*: A genus related to but distinct from the existing genus Millisia of similar.

Similiminicystis

L. masc. adjective *similis*, similar; L. fem. n. *Minicystis*, An existing genus; *Similiminicystis*: A genus related to but distinct from the existing genus Minicystis of similar.

Similiminiimonas

L. masc. adjective *similis*, similar; L. fem. n. *Miniimonas*, An existing genus; *Similiminiimonas*: A genus related to but distinct from the existing genus Miniimonas of similar.

Similiminiphocibacter

L. masc. adjective *similis*, similar; L. masc. n. *Miniphocibacter*, An existing genus; *Similiminiphocibacter*: A genus related to but distinct from the existing genus Miniphocibacter of similar.

Similiminunostoc

L. masc. adjective *similis*, similar; L. neut. n. *Minunostoc*, An existing genus; *Similiminunostoc*: A genus related to but distinct from the existing genus Minunostoc of similar.

Similiminwuia

L. masc. adjective *similis*, similar; L. fem. n. *Minwuia*, An existing genus; *Similiminwuia*: A genus related to but distinct from the existing genus Minwuia of similar.

Similimitsuaria

L. masc. adjective *similis*, similar; L. fem. n. *Mitsuaria*, An existing genus; *Similimitsuaria*: A genus related to but distinct from the existing genus Mitsuaria of similar.

Similimitsuokella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Mitsuokella*, An existing genus; *Similimitsuokella*: A genus related to but distinct from the existing genus Mitsuokella of similar.

Similimixta

L. masc. adjective *similis*, similar; L. fem. n. *Mixta*, An existing genus; *Similimixta*: A genus related to but distinct from the existing genus Mixta of similar.

Similimizugakiibacter

L. masc. adjective *similis*, similar; L. masc. n. *Mizugakiibacter*, An existing genus; *Similimizugakiibacter*: A genus related to but distinct from the existing genus Mizugakiibacter of similar.

Similimobilicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Mobilicoccus*, An existing genus; *Similimobilicoccus*: A genus related to but distinct from the existing genus Mobilicoccus of similar.

Similimobilifilum

L. masc. adjective *similis*, similar; L. neut. n. *Mobilifilum*, An existing genus; *Similimobilifilum*: A genus related to but distinct from the existing genus Mobilifilum of similar.

Similimobilisporobacter

L. masc. adjective *similis*, similar; L. masc. n. *Mobilisporobacter*, An existing genus; *Similimobilisporobacter*: A genus related to but distinct from the existing genus Mobilisporobacter of similar.

Similimobilitalea

L. masc. adjective *similis*, similar; L. fem. n. *Mobilitalea*, An existing genus; *Similimobilitalea*: A genus related to but distinct from the existing genus Mobilitalea of similar.

Similimobiluncus

L. masc. adjective *similis*, similar; L. masc. n. *Mobiluncus*, An existing genus; *Similimobiluncus*: A genus related to but distinct from the existing genus Mobiluncus of similar.

Similimodestobacter

L. masc. adjective *similis*, similar; L. masc. n. *Modestobacter*, An existing genus; *Similimodestobacter*: A genus related to but distinct from the existing genus Modestobacter of similar.

Similimodicisalibacter

L. masc. adjective *similis*, similar; L. masc. n. *Modicisalibacter*, An existing genus; *Similimodicisalibacter*: A genus related to but distinct from the existing genus Modicisalibacter of similar.

Similimoellerella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Moellerella*, An existing genus; *Similimoellerella*: A genus related to but distinct from the existing genus Moellerella of similar.

Similimogibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Mogibacterium*, An existing genus; *Similimogibacterium*: A genus related to but distinct from the existing genus Mogibacterium of similar.

Similimoheibacter

L. masc. adjective *similis*, similar; L. masc. n. *Moheibacter*, An existing genus; *Similimoheibacter*: A genus related to but distinct from the existing genus Moheibacter of similar.

Similimonaibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Monaibacterium*, An existing genus; *Similimonaibacterium*: A genus related to but distinct from the existing genus Monaibacterium of similar.

Similimonashia

L. masc. adjective *similis*, similar; L. fem. n. *Monashia*, An existing genus; *Similimonashia*: A genus related to but distinct from the existing genus Monashia of similar.

Similimongoliibacter

L. masc. adjective *similis*, similar; L. masc. n. *Mongoliibacter*, An existing genus; *Similimongoliibacter*: A genus related to but distinct from the existing genus Mongoliibacter of similar.

Similimongoliicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Mongoliicoccus*, An existing genus; *Similimongoliicoccus*: A genus related to but distinct from the existing genus Mongoliicoccus of similar.

Similimongoliimonas

L. masc. adjective *similis*, similar; L. fem. n. *Mongoliimonas*, An existing genus; *Similimongoliimonas*: A genus related to but distinct from the existing genus Mongoliimonas of similar.

Similimongoliitalea

L. masc. adjective *similis*, similar; L. fem. n. *Mongoliitalea*, An existing genus; *Similimongoliitalea*: A genus related to but distinct from the existing genus Mongoliitalea of similar.

Similimonoglobus

L. masc. adjective *similis*, similar; L. masc. n. *Monoglobus*, An existing genus; *Similimonoglobus*: A genus related to but distinct from the existing genus Monoglobus of similar.

Similimoorea

L. masc. adjective *similis*, similar; L. fem. n. *Moorea*, An existing genus; *Similimoorea*: A genus related to but distinct from the existing genus Moorea of similar.

Similimooreia

L. masc. adjective *similis*, similar; L. fem. n. *Mooreia*, An existing genus; *Similimooreia*: A genus related to but distinct from the existing genus Mooreia of similar.

Similimoorella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Moorella*, An existing genus; *Similimoorella*: A genus related to but distinct from the existing genus Moorella of similar.

Similimoraxella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Moraxella*, An existing genus; *Similimoraxella*: A genus related to but distinct from the existing genus Moraxella of similar.

Similimorganella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Morganella*, An existing genus; *Similimorganella*: A genus related to but distinct from the existing genus Morganella of similar.

Similimoritella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Moritella*, An existing genus; *Similimoritella*: A genus related to but distinct from the existing genus Moritella of similar.

Similimorococcus

L. masc. adjective *similis*, similar; L. masc. n. *Morococcus*, An existing genus; *Similimorococcus*: A genus related to but distinct from the existing genus Morococcus of similar.

Similimoryella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Moryella*, An existing genus; *Similimoryella*: A genus related to but distinct from the existing genus Moryella of similar.

Similimotilibacter

L. masc. adjective *similis*, similar; L. masc. n. *Motilibacter*, An existing genus; *Similimotilibacter*: A genus related to but distinct from the existing genus Motilibacter of similar.

Similimotilimonas

L. masc. adjective *similis*, similar; L. fem. n. *Motilimonas*, An existing genus; *Similimotilimonas*: A genus related to but distinct from the existing genus Motilimonas of similar.

Similimotiliproteus

L. masc. adjective *similis*, similar; L. masc. n. *Motiliproteus*, An existing genus; *Similimotiliproteus*: A genus related to but distinct from the existing genus Motiliproteus of similar.

Similimucinivorans

L. masc. adjective *similis*, similar; L. masc. n. *Mucinivorans*, An existing genus; *Similimucinivorans*: A genus related to but distinct from the existing genus Mucinivorans of similar.

Similimucispirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Mucispirillum*, An existing genus; *Similimucispirillum*: A genus related to but distinct from the existing genus Mucispirillum of similar.

Similimumia

L. masc. adjective *similis*, similar; L. fem. n. *Mumia*, An existing genus; *Similimumia*: A genus related to but distinct from the existing genus Mumia of similar.

Similimurdochiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Murdochiella*, An existing genus; *Similimurdochiella*: A genus related to but distinct from the existing genus Murdochiella of similar.

Similimuribacter

L. masc. adjective *similis*, similar; L. masc. n. *Muribacter*, An existing genus; *Similimuribacter*: A genus related to but distinct from the existing genus Muribacter of similar.

Similimuribaculum

L. masc. adjective *similis*, similar; L. neut. n. *Muribaculum*, An existing genus; *Similimuribaculum*: A genus related to but distinct from the existing genus Muribaculum of similar.

Similimuricauda

L. masc. adjective *similis*, similar; L. fem. n. *Muricauda*, An existing genus; *Similimuricauda*: A genus related to but distinct from the existing genus Muricauda of similar.

Similimuricoccus

L. masc. adjective *similis*, similar; L. masc. n. *Muricoccus*, An existing genus; *Similimuricoccus*: A genus related to but distinct from the existing genus Muricoccus of similar.

Similimuricomes

L. masc. adjective *similis*, similar; L. masc. n. *Muricomes*, An existing genus; *Similimuricomes*: A genus related to but distinct from the existing genus Muricomes of similar.

Similimuriicola

L. masc. adjective *similis*, similar; L. masc. n. *Muriicola*, An existing genus; *Similimuriicola*: A genus related to but distinct from the existing genus Muriicola of similar.

Similimurimonas

L. masc. adjective *similis*, similar; L. fem. n. *Murimonas*, An existing genus; *Similimurimonas*: A genus related to but distinct from the existing genus Murimonas of similar.

Similimurinocardiopsis

L. masc. adjective *similis*, similar; L. fem. n. *Murinocardiopsis*, An existing genus; *Similimurinocardiopsis*: A genus related to but distinct from the existing genus Murinocardiopsis of similar.

Similimyceligenerans

L. masc. adjective *similis*, similar; L. neut. n. *Myceligenerans*, An existing genus; *Similimyceligenerans*: A genus related to but distinct from the existing genus Myceligenerans of similar.

Similimycetocola

L. masc. adjective *similis*, similar; L. masc. n. *Mycetocola*, An existing genus; *Similimycetocola*: A genus related to but distinct from the existing genus Mycetocola of similar.

Similimycoavidus

L. masc. adjective *similis*, similar; L. masc. n. *Mycoavidus*, An existing genus; *Similimycoavidus*: A genus related to but distinct from the existing genus Mycoavidus of similar.

Similimycobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Mycobacterium*, An existing genus; *Similimycobacterium*: A genus related to but distinct from the existing genus Mycobacterium of similar.

Similimycobacteroides

L. masc. adjective *similis*, similar; L. neut. n. *Mycobacteroides*, An existing genus; *Similimycobacteroides*: A genus related to but distinct from the existing genus Mycobacteroides of similar.

Similimycolicibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Mycolicibacillus*, An existing genus; *Similimycolicibacillus*: A genus related to but distinct from the existing genus Mycolicibacillus of similar.

Similimycolicibacter

L. masc. adjective *similis*, similar; L. masc. n. *Mycolicibacter*, An existing genus; *Similimycolicibacter*: A genus related to but distinct from the existing genus Mycolicibacter of similar.

Similimycolicibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Mycolicibacterium*, An existing genus; *Similimycolicibacterium*: A genus related to but distinct from the existing genus Mycolicibacterium of similar.

Similimycoplana

L. masc. adjective *similis*, similar; L. fem. n. *Mycoplana*, An existing genus; *Similimycoplana*: A genus related to but distinct from the existing genus Mycoplana of similar.

Similimycoplasma

L. masc. adjective *similis*, similar; L. neut. n. *Mycoplasma*, An existing genus; *Similimycoplasma*: A genus related to but distinct from the existing genus Mycoplasma of similar.

Similimycoplasmoides

L. masc. adjective *similis*, similar; L. neut. n. *Mycoplasmoides*, An existing genus; *Similimycoplasmoides*: A genus related to but distinct from the existing genus Mycoplasmoides of similar.

Similimycoplasmopsis

L. masc. adjective *similis*, similar; L. fem. n. *Mycoplasmopsis*, An existing genus; *Similimycoplasmopsis*: A genus related to but distinct from the existing genus Mycoplasmopsis of similar.

Similimyroides

L. masc. adjective *similis*, similar; L. masc. n. *Myroides*, An existing genus; *Similimyroides*: A genus related to but distinct from the existing genus Myroides of similar.

Similimyxacorys

L. masc. adjective *similis*, similar; L. fem. n. *Myxacorys*, An existing genus; *Similimyxacorys*: A genus related to but distinct from the existing genus Myxacorys of similar.

Similimyxococcus

L. masc. adjective *similis*, similar; L. masc. n. *Myxococcus*, An existing genus; *Similimyxococcus*: A genus related to but distinct from the existing genus Myxococcus of similar.

Similimzabimyces

L. masc. adjective *similis*, similar; L. masc. n. *Mzabimyces*, An existing genus; *Similimzabimyces*: A genus related to but distinct from the existing genus Mzabimyces of similar.

Similinaasia

L. masc. adjective *similis*, similar; L. fem. n. *Naasia*, An existing genus; *Similinaasia*: A genus related to but distinct from the existing genus Naasia of similar.

Similinafulsella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Nafulsella*, An existing genus; *Similinafulsella*: A genus related to but distinct from the existing genus Nafulsella of similar.

Similinakamurella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Nakamurella*, An existing genus; *Similinakamurella*: A genus related to but distinct from the existing genus Nakamurella of similar.

Similinamhaeicola

L. masc. adjective *similis*, similar; L. masc. n. *Namhaeicola*, An existing genus; *Similinamhaeicola*: A genus related to but distinct from the existing genus Namhaeicola of similar.

Similinannocystis

L. masc. adjective *similis*, similar; L. fem. n. *Nannocystis*, An existing genus; *Similinannocystis*: A genus related to but distinct from the existing genus Nannocystis of similar.

Similinatranaerobaculum

L. masc. adjective *similis*, similar; L. neut. n. *Natranaerobaculum*, An existing genus; *Similinatranaerobaculum*: A genus related to but distinct from the existing genus Natranaerobaculum of similar.

Similinatranaerobius

L. masc. adjective *similis*, similar; L. masc. n. *Natranaerobius*, An existing genus; *Similinatranaerobius*: A genus related to but distinct from the existing genus Natranaerobius of similar.

Similinatranaerovirga

L. masc. adjective *similis*, similar; L. fem. n. *Natranaerovirga*, An existing genus; *Similinatranaerovirga*: A genus related to but distinct from the existing genus Natranaerovirga of similar.

Similinatrarchaeobaculum

L. masc. adjective *similis*, similar; L. neut. n. *Natrarchaeobaculum*, An existing genus; *Similinatrarchaeobaculum*: A genus related to but distinct from the existing genus Natrarchaeobaculum of similar.

Similinatrarchaeobius

L. masc. adjective *similis*, similar; L. masc. n. *Natrarchaeobius*, An existing genus; *Similinatrarchaeobius*: A genus related to but distinct from the existing genus Natrarchaeobius of similar.

Similinatrialba

L. masc. adjective *similis*, similar; L. fem. n. *Natrialba*, An existing genus; *Similinatrialba*: A genus related to but distinct from the existing genus Natrialba of similar.

Similinatribacillus

L. masc. adjective *similis*, similar; L. masc. n. *Natribacillus*, An existing genus; *Similinatribacillus*: A genus related to but distinct from the existing genus Natribacillus of similar.

Similinatribaculum

L. masc. adjective *similis*, similar; L. neut. n. *Natribaculum*, An existing genus; *Similinatribaculum*: A genus related to but distinct from the existing genus Natribaculum of similar.

Similinatrinema

L. masc. adjective *similis*, similar; L. neut. n. *Natrinema*, An existing genus; *Similinatrinema*: A genus related to but distinct from the existing genus Natrinema of similar.

Similinatroniella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Natroniella*, An existing genus; *Similinatroniella*: A genus related to but distinct from the existing genus Natroniella of similar.

Similinatronoarchaeum

L. masc. adjective *similis*, similar; L. neut. n. *Natronoarchaeum*, An existing genus; *Similinatronoarchaeum*: A genus related to but distinct from the existing genus Natronoarchaeum of similar.

Similinatronobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Natronobacillus*, An existing genus; *Similinatronobacillus*: A genus related to but distinct from the existing genus Natronobacillus of similar.

Similinatronobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Natronobacterium*, An existing genus; *Similinatronobacterium*: A genus related to but distinct from the existing genus Natronobacterium of similar.

Similinatronobiforma

L. masc. adjective *similis*, similar; L. fem. n. *Natronobiforma*, An existing genus; *Similinatronobiforma*: A genus related to but distinct from the existing genus Natronobiforma of similar.

Similinatronocella

L. masc. adjective *similis*, similar; L. fem. n. *Natronocella*, An existing genus; *Similinatronocella*: A genus related to but distinct from the existing genus Natronocella of similar.

Similinatronococcus

L. masc. adjective *similis*, similar; L. masc. n. *Natronococcus*, An existing genus; *Similinatronococcus*: A genus related to but distinct from the existing genus Natronococcus of similar.

Similinatronoflexus

L. masc. adjective *similis*, similar; L. masc. n. *Natronoflexus*, An existing genus; *Similinatronoflexus*: A genus related to but distinct from the existing genus Natronoflexus of similar.

Similinatronolimnobius

L. masc. adjective *similis*, similar; L. masc. n. *Natronolimnobius*, An existing genus; *Similinatronolimnobius*: A genus related to but distinct from the existing genus Natronolimnobius of similar.

Similinatronolimnohabitans

L. masc. adjective *similis*, similar; L. masc. n. *Natronolimnohabitans*, An existing genus; *Similinatronolimnohabitans*: A genus related to but distinct from the existing genus Natronolimnohabitans of similar.

Similinatronomonas

L. masc. adjective *similis*, similar; L. fem. n. *Natronomonas*, An existing genus; *Similinatronomonas*: A genus related to but distinct from the existing genus Natronomonas of similar.

Similinatronorubrum

L. masc. adjective *similis*, similar; L. neut. n. *Natronorubrum*, An existing genus; *Similinatronorubrum*: A genus related to but distinct from the existing genus Natronorubrum of similar.

Similinatronospira

L. masc. adjective *similis*, similar; L. fem. n. *Natronospira*, An existing genus; *Similinatronospira*: A genus related to but distinct from the existing genus Natronospira of similar.

Similinatronospirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Natronospirillum*, An existing genus; *Similinatronospirillum*: A genus related to but distinct from the existing genus Natronospirillum of similar.

Similinatronovirga

L. masc. adjective *similis*, similar; L. fem. n. *Natronovirga*, An existing genus; *Similinatronovirga*: A genus related to but distinct from the existing genus Natronovirga of similar.

Similinaumannella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Naumannella*, An existing genus; *Similinaumannella*: A genus related to but distinct from the existing genus Naumannella of similar.

Similinautella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Nautella*, An existing genus; *Similinautella*: A genus related to but distinct from the existing genus Nautella of similar.

Similinautilia

L. masc. adjective *similis*, similar; L. fem. n. *Nautilia*, An existing genus; *Similinautilia*: A genus related to but distinct from the existing genus Nautilia of similar.

Similinaxibacter

L. masc. adjective *similis*, similar; L. masc. n. *Naxibacter*, An existing genus; *Similinaxibacter*: A genus related to but distinct from the existing genus Naxibacter of similar.

Similinecropsobacter

L. masc. adjective *similis*, similar; L. masc. n. *Necropsobacter*, An existing genus; *Similinecropsobacter*: A genus related to but distinct from the existing genus Necropsobacter of similar.

Similinegadavirga

L. masc. adjective *similis*, similar; L. fem. n. *Negadavirga*, An existing genus; *Similinegadavirga*: A genus related to but distinct from the existing genus Negadavirga of similar.

Similinegativicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Negativicoccus*, An existing genus; *Similinegativicoccus*: A genus related to but distinct from the existing genus Negativicoccus of similar.

Similineiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Neiella*, An existing genus; *Similineiella*: A genus related to but distinct from the existing genus Neiella of similar.

Similineisseria

L. masc. adjective *similis*, similar; L. fem. n. *Neisseria*, An existing genus; *Similineisseria*: A genus related to but distinct from the existing genus Neisseria of similar.

Similinemorella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Nemorella*, An existing genus; *Similinemorella*: A genus related to but distinct from the existing genus Nemorella of similar.

Similinemorincola

L. masc. adjective *similis*, similar; L. fem. n. *Nemorincola*, An existing genus; *Similinemorincola*: A genus related to but distinct from the existing genus Nemorincola of similar.

Similineoasaia

L. masc. adjective *similis*, similar; L. fem. n. *Neoasaia*, An existing genus; *Similineoasaia*: A genus related to but distinct from the existing genus Neoasaia of similar.

Similineobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Neobacillus*, An existing genus; *Similineobacillus*: A genus related to but distinct from the existing genus Neobacillus of similar.

Similineochlamydia

L. masc. adjective *similis*, similar; L. fem. n. *Neochlamydia*, An existing genus; *Similineochlamydia*: A genus related to but distinct from the existing genus Neochlamydia of similar.

Similineokomagataea

L. masc. adjective *similis*, similar; L. fem. n. *Neokomagataea*, An existing genus; *Similineokomagataea*: A genus related to but distinct from the existing genus Neokomagataea of similar.

Similineolyngbya

L. masc. adjective *similis*, similar; L. fem. n. *Neolyngbya*, An existing genus; *Similineolyngbya*: A genus related to but distinct from the existing genus Neolyngbya of similar.

Similineomegalonema

L. masc. adjective *similis*, similar; L. neut. n. *Neomegalonema*, An existing genus; *Similineomegalonema*: A genus related to but distinct from the existing genus Neomegalonema of similar.

Similineomicrococcus

L. masc. adjective *similis*, similar; L. masc. n. *Neomicrococcus*, An existing genus; *Similineomicrococcus*: A genus related to but distinct from the existing genus Neomicrococcus of similar.

Similineorhizobium

L. masc. adjective *similis*, similar; L. neut. n. *Neorhizobium*, An existing genus; *Similineorhizobium*: A genus related to but distinct from the existing genus Neorhizobium of similar.

Similineorickettsia

L. masc. adjective *similis*, similar; L. fem. n. *Neorickettsia*, An existing genus; *Similineorickettsia*: A genus related to but distinct from the existing genus Neorickettsia of similar.

Similineoscardovia

L. masc. adjective *similis*, similar; L. fem. n. *Neoscardovia*, An existing genus; *Similineoscardovia*: A genus related to but distinct from the existing genus Neoscardovia of similar.

Similineowestiellopsis

L. masc. adjective *similis*, similar; L. fem. n. *Neowestiellopsis*, An existing genus; *Similineowestiellopsis*: A genus related to but distinct from the existing genus Neowestiellopsis of similar.

Similineptunicella

L. masc. adjective *similis*, similar; L. fem. n. *Neptunicella*, An existing genus; *Similineptunicella*: A genus related to but distinct from the existing genus Neptunicella of similar.

Similineptunicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Neptunicoccus*, An existing genus; *Similineptunicoccus*: A genus related to but distinct from the existing genus Neptunicoccus of similar.

Similineptuniibacter

L. masc. adjective *similis*, similar; L. masc. n. *Neptuniibacter*, An existing genus; *Similineptuniibacter*: A genus related to but distinct from the existing genus Neptuniibacter of similar.

Similineptunitalea

L. masc. adjective *similis*, similar; L. fem. n. *Neptunitalea*, An existing genus; *Similineptunitalea*: A genus related to but distinct from the existing genus Neptunitalea of similar.

Similineptunomonas

L. masc. adjective *similis*, similar; L. fem. n. *Neptunomonas*, An existing genus; *Similineptunomonas*: A genus related to but distinct from the existing genus Neptunomonas of similar.

Similinereida

L. masc. adjective *similis*, similar; L. fem. n. *Nereida*, An existing genus; *Similinereida*: A genus related to but distinct from the existing genus Nereida of similar.

Similinesiotobacter

L. masc. adjective *similis*, similar; L. masc. n. *Nesiotobacter*, An existing genus; *Similinesiotobacter*: A genus related to but distinct from the existing genus Nesiotobacter of similar.

Similinesterenkonia

L. masc. adjective *similis*, similar; L. fem. n. *Nesterenkonia*, An existing genus; *Similinesterenkonia*: A genus related to but distinct from the existing genus Nesterenkonia of similar.

Similinevskia

L. masc. adjective *similis*, similar; L. fem. n. *Nevskia*, An existing genus; *Similinevskia*: A genus related to but distinct from the existing genus Nevskia of similar.

Similinguyenibacter

L. masc. adjective *similis*, similar; L. masc. n. *Nguyenibacter*, An existing genus; *Similinguyenibacter*: A genus related to but distinct from the existing genus Nguyenibacter of similar.

Similiniabella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Niabella*, An existing genus; *Similiniabella*: A genus related to but distinct from the existing genus Niabella of similar.

Similiniastella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Niastella*, An existing genus; *Similiniastella*: A genus related to but distinct from the existing genus Niastella of similar.

Similinibrella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Nibrella*, An existing genus; *Similinibrella*: A genus related to but distinct from the existing genus Nibrella of similar.

Similinibribacter

L. masc. adjective *similis*, similar; L. masc. n. *Nibribacter*, An existing genus; *Similinibribacter*: A genus related to but distinct from the existing genus Nibribacter of similar.

Similinibricoccus

L. masc. adjective *similis*, similar; L. masc. n. *Nibricoccus*, An existing genus; *Similinibricoccus*: A genus related to but distinct from the existing genus Nibricoccus of similar.

Similinicoletella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Nicoletella*, An existing genus; *Similinicoletella*: A genus related to but distinct from the existing genus Nicoletella of similar.

Similiningiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Ningiella*, An existing genus; *Similiningiella*: A genus related to but distinct from the existing genus Ningiella of similar.

Similinioella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Nioella*, An existing genus; *Similinioella*: A genus related to but distinct from the existing genus Nioella of similar.

Similinitratifractor

L. masc. adjective *similis*, similar; L. masc. n. *Nitratifractor*, An existing genus; *Similinitratifractor*: A genus related to but distinct from the existing genus Nitratifractor of similar.

Similinitratireductor

L. masc. adjective *similis*, similar; L. masc. n. *Nitratireductor*, An existing genus; *Similinitratireductor*: A genus related to but distinct from the existing genus Nitratireductor of similar.

Similinitratiruptor

L. masc. adjective *similis*, similar; L. masc. n. *Nitratiruptor*, An existing genus; *Similinitratiruptor*: A genus related to but distinct from the existing genus Nitratiruptor of similar.

Similinitriliruptor

L. masc. adjective *similis*, similar; L. masc. n. *Nitriliruptor*, An existing genus; *Similinitriliruptor*: A genus related to but distinct from the existing genus Nitriliruptor of similar.

Similinitrincola

L. masc. adjective *similis*, similar; L. masc. n. *Nitrincola*, An existing genus; *Similinitrincola*: A genus related to but distinct from the existing genus Nitrincola of similar.

Similinitritalea

L. masc. adjective *similis*, similar; L. fem. n. *Nitritalea*, An existing genus; *Similinitritalea*: A genus related to but distinct from the existing genus Nitritalea of similar.

Similinitrobacter

L. masc. adjective *similis*, similar; L. masc. n. *Nitrobacter*, An existing genus; *Similinitrobacter*: A genus related to but distinct from the existing genus Nitrobacter of similar.

Similinitrococcus

L. masc. adjective *similis*, similar; L. masc. n. *Nitrococcus*, An existing genus; *Similinitrococcus*: A genus related to but distinct from the existing genus Nitrococcus of similar.

Similinitrolancea

L. masc. adjective *similis*, similar; L. fem. n. *Nitrolancea*, An existing genus; *Similinitrolancea*: A genus related to but distinct from the existing genus Nitrolancea of similar.

Similinitrosarchaeum

L. masc. adjective *similis*, similar; L. neut. n. *Nitrosarchaeum*, An existing genus; *Similinitrosarchaeum*: A genus related to but distinct from the existing genus Nitrosarchaeum of similar.

Similinitrosococcus

L. masc. adjective *similis*, similar; L. masc. n. *Nitrosococcus*, An existing genus; *Similinitrosococcus*: A genus related to but distinct from the existing genus Nitrosococcus of similar.

Similinitrosolobus

L. masc. adjective *similis*, similar; L. masc. n. *Nitrosolobus*, An existing genus; *Similinitrosolobus*: A genus related to but distinct from the existing genus Nitrosolobus of similar.

Similinitrosomonas

L. masc. adjective *similis*, similar; L. fem. n. *Nitrosomonas*, An existing genus; *Similinitrosomonas*: A genus related to but distinct from the existing genus Nitrosomonas of similar.

Similinitrosopumilus

L. masc. adjective *similis*, similar; L. masc. n. *Nitrosopumilus*, An existing genus; *Similinitrosopumilus*: A genus related to but distinct from the existing genus Nitrosopumilus of similar.

Similinitrososphaera

L. masc. adjective *similis*, similar; L. fem. n. *Nitrososphaera*, An existing genus; *Similinitrososphaera*: A genus related to but distinct from the existing genus Nitrososphaera of similar.

Similinitrosospira

L. masc. adjective *similis*, similar; L. fem. n. *Nitrosospira*, An existing genus; *Similinitrosospira*: A genus related to but distinct from the existing genus Nitrosospira of similar.

Similinitrospina

L. masc. adjective *similis*, similar; L. fem. n. *Nitrospina*, An existing genus; *Similinitrospina*: A genus related to but distinct from the existing genus Nitrospina of similar.

Similinitrospira

L. masc. adjective *similis*, similar; L. fem. n. *Nitrospira*, An existing genus; *Similinitrospira*: A genus related to but distinct from the existing genus Nitrospira of similar.

Similiniveibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Niveibacterium*, An existing genus; *Similiniveibacterium*: A genus related to but distinct from the existing genus Niveibacterium of similar.

Similiniveispirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Niveispirillum*, An existing genus; *Similiniveispirillum*: A genus related to but distinct from the existing genus Niveispirillum of similar.

Similiniveitalea

L. masc. adjective *similis*, similar; L. fem. n. *Niveitalea*, An existing genus; *Similiniveitalea*: A genus related to but distinct from the existing genus Niveitalea of similar.

Similinocardia

L. masc. adjective *similis*, similar; L. fem. n. *Nocardia*, An existing genus; *Similinocardia*: A genus related to but distinct from the existing genus Nocardia of similar.

Similinocardioides

L. masc. adjective *similis*, similar; L. masc. n. *Nocardioides*, An existing genus; *Similinocardioides*: A genus related to but distinct from the existing genus Nocardioides of similar.

Similinocardiopsis

L. masc. adjective *similis*, similar; L. fem. n. *Nocardiopsis*, An existing genus; *Similinocardiopsis*: A genus related to but distinct from the existing genus Nocardiopsis of similar.

Similinodosilinea

L. masc. adjective *similis*, similar; L. fem. n. *Nodosilinea*, An existing genus; *Similinodosilinea*: A genus related to but distinct from the existing genus Nodosilinea of similar.

Similinonhongiella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Nonhongiella*, An existing genus; *Similinonhongiella*: A genus related to but distinct from the existing genus Nonhongiella of similar.

Similinonomuraea

L. masc. adjective *similis*, similar; L. fem. n. *Nonomuraea*, An existing genus; *Similinonomuraea*: A genus related to but distinct from the existing genus Nonomuraea of similar.

Similinosocomiicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Nosocomiicoccus*, An existing genus; *Similinosocomiicoccus*: A genus related to but distinct from the existing genus Nosocomiicoccus of similar.

Similinostoc

L. masc. adjective *similis*, similar; L. neut. n. *Nostoc*, An existing genus; *Similinostoc*: A genus related to but distinct from the existing genus Nostoc of similar.

Similinotoacmeibacter

L. masc. adjective *similis*, similar; L. masc. n. *Notoacmeibacter*, An existing genus; *Similinotoacmeibacter*: A genus related to but distinct from the existing genus Notoacmeibacter of similar.

Similinovibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Novibacillus*, An existing genus; *Similinovibacillus*: A genus related to but distinct from the existing genus Novibacillus of similar.

Similinoviherbaspirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Noviherbaspirillum*, An existing genus; *Similinoviherbaspirillum*: A genus related to but distinct from the existing genus Noviherbaspirillum of similar.

Similinovimethylophilus

L. masc. adjective *similis*, similar; L. masc. n. *Novimethylophilus*, An existing genus; *Similinovimethylophilus*: A genus related to but distinct from the existing genus Novimethylophilus of similar.

Similinovipirellula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Novipirellula*, An existing genus; *Similinovipirellula*: A genus related to but distinct from the existing genus Novipirellula of similar.

Similinovispirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Novispirillum*, An existing genus; *Similinovispirillum*: A genus related to but distinct from the existing genus Novispirillum of similar.

Similinovosphingobium

L. masc. adjective *similis*, similar; L. neut. n. *Novosphingobium*, An existing genus; *Similinovosphingobium*: A genus related to but distinct from the existing genus Novosphingobium of similar.

Similinovosphingopyxis

L. masc. adjective *similis*, similar; L. fem. n. *Novosphingopyxis*, An existing genus; *Similinovosphingopyxis*: A genus related to but distinct from the existing genus Novosphingopyxis of similar.

Similinubsella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Nubsella*, An existing genus; *Similinubsella*: A genus related to but distinct from the existing genus Nubsella of similar.

Similinumidum

L. masc. adjective *similis*, similar; L. neut. n. *Numidum*, An existing genus; *Similinumidum*: A genus related to but distinct from the existing genus Numidum of similar.

Similiobesumbacterium

L. masc. adjective *similis*, similar; L. neut. n. *Obesumbacterium*, An existing genus; *Similiobesumbacterium*: A genus related to but distinct from the existing genus Obesumbacterium of similar.

Similioblitimonas

L. masc. adjective *similis*, similar; L. fem. n. *Oblitimonas*, An existing genus; *Similioblitimonas*: A genus related to but distinct from the existing genus Oblitimonas of similar.

Similioccallatibacter

L. masc. adjective *similis*, similar; L. masc. n. *Occallatibacter*, An existing genus; *Similioccallatibacter*: A genus related to but distinct from the existing genus Occallatibacter of similar.

Similioccidentia

L. masc. adjective *similis*, similar; L. fem. n. *Occidentia*, An existing genus; *Similioccidentia*: A genus related to but distinct from the existing genus Occidentia of similar.

Similioceanibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Oceanibacterium*, An existing genus; *Similioceanibacterium*: A genus related to but distinct from the existing genus Oceanibacterium of similar.

Similioceanibaculum

L. masc. adjective *similis*, similar; L. neut. n. *Oceanibaculum*, An existing genus; *Similioceanibaculum*: A genus related to but distinct from the existing genus Oceanibaculum of similar.

Similioceanibium

L. masc. adjective *similis*, similar; L. neut. n. *Oceanibium*, An existing genus; *Similioceanibium*: A genus related to but distinct from the existing genus Oceanibium of similar.

Similioceanicella

L. masc. adjective *similis*, similar; L. fem. n. *Oceanicella*, An existing genus; *Similioceanicella*: A genus related to but distinct from the existing genus Oceanicella of similar.

Similioceanicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Oceanicoccus*, An existing genus; *Similioceanicoccus*: A genus related to but distinct from the existing genus Oceanicoccus of similar.

Similioceanicola

L. masc. adjective *similis*, similar; L. masc. n. *Oceanicola*, An existing genus; *Similioceanicola*: A genus related to but distinct from the existing genus Oceanicola of similar.

Similioceaniglobus

L. masc. adjective *similis*, similar; L. masc. n. *Oceaniglobus*, An existing genus; *Similioceaniglobus*: A genus related to but distinct from the existing genus Oceaniglobus of similar.

Similioceanimonas

L. masc. adjective *similis*, similar; L. fem. n. *Oceanimonas*, An existing genus; *Similioceanimonas*: A genus related to but distinct from the existing genus Oceanimonas of similar.

Similioceaniradius

L. masc. adjective *similis*, similar; L. masc. n. *Oceaniradius*, An existing genus; *Similioceaniradius*: A genus related to but distinct from the existing genus Oceaniradius of similar.

Similioceanirhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Oceanirhabdus*, An existing genus; *Similioceanirhabdus*: A genus related to but distinct from the existing genus Oceanirhabdus of similar.

Similioceanisphaera

L. masc. adjective *similis*, similar; L. fem. n. *Oceanisphaera*, An existing genus; *Similioceanisphaera*: A genus related to but distinct from the existing genus Oceanisphaera of similar.

Similioceanispirochaeta

L. masc. adjective *similis*, similar; L. fem. n. *Oceanispirochaeta*, An existing genus; *Similioceanispirochaeta*: A genus related to but distinct from the existing genus Oceanispirochaeta of similar.

Similioceanitalea

L. masc. adjective *similis*, similar; L. fem. n. *Oceanitalea*, An existing genus; *Similioceanitalea*: A genus related to but distinct from the existing genus Oceanitalea of similar.

Similioceanithermus

L. masc. adjective *similis*, similar; L. masc. n. *Oceanithermus*, An existing genus; *Similioceanithermus*: A genus related to but distinct from the existing genus Oceanithermus of similar.

Similioceanivirga

L. masc. adjective *similis*, similar; L. fem. n. *Oceanivirga*, An existing genus; *Similioceanivirga*: A genus related to but distinct from the existing genus Oceanivirga of similar.

Similioceanobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Oceanobacillus*, An existing genus; *Similioceanobacillus*: A genus related to but distinct from the existing genus Oceanobacillus of similar.

Similioceanobacter

L. masc. adjective *similis*, similar; L. masc. n. *Oceanobacter*, An existing genus; *Similioceanobacter*: A genus related to but distinct from the existing genus Oceanobacter of similar.

Similioceanococcus

L. masc. adjective *similis*, similar; L. masc. n. *Oceanococcus*, An existing genus; *Similioceanococcus*: A genus related to but distinct from the existing genus Oceanococcus of similar.

Similioceanospirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Oceanospirillum*, An existing genus; *Similioceanospirillum*: A genus related to but distinct from the existing genus Oceanospirillum of similar.

Similioceanotoga

L. masc. adjective *similis*, similar; L. fem. n. *Oceanotoga*, An existing genus; *Similioceanotoga*: A genus related to but distinct from the existing genus Oceanotoga of similar.

Similiochrobactrum

L. masc. adjective *similis*, similar; L. neut. n. *Ochrobactrum*, An existing genus; *Similiochrobactrum*: A genus related to but distinct from the existing genus Ochrobactrum of similar.

Similiochrovirga

L. masc. adjective *similis*, similar; L. fem. n. *Ochrovirga*, An existing genus; *Similiochrovirga*: A genus related to but distinct from the existing genus Ochrovirga of similar.

Similioctadecabacter

L. masc. adjective *similis*, similar; L. masc. n. *Octadecabacter*, An existing genus; *Similioctadecabacter*: A genus related to but distinct from the existing genus Octadecabacter of similar.

Similioculatella

L. masc. adjective *similis*, similar; L. fem. n. *Oculatella*, An existing genus; *Similioculatella*: A genus related to but distinct from the existing genus Oculatella of similar.

Similiodorella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Odorella*, An existing genus; *Similiodorella*: A genus related to but distinct from the existing genus Odorella of similar.

Similiodoribacter

L. masc. adjective *similis*, similar; L. masc. n. *Odoribacter*, An existing genus; *Similiodoribacter*: A genus related to but distinct from the existing genus Odoribacter of similar.

Similioenococcus

L. masc. adjective *similis*, similar; L. masc. n. *Oenococcus*, An existing genus; *Similioenococcus*: A genus related to but distinct from the existing genus Oenococcus of similar.

Similioerskovia

L. masc. adjective *similis*, similar; L. fem. n. *Oerskovia*, An existing genus; *Similioerskovia*: A genus related to but distinct from the existing genus Oerskovia of similar.

Similioharaeibacter

L. masc. adjective *similis*, similar; L. masc. n. *Oharaeibacter*, An existing genus; *Similioharaeibacter*: A genus related to but distinct from the existing genus Oharaeibacter of similar.

Similiohtaekwangia

L. masc. adjective *similis*, similar; L. fem. n. *Ohtaekwangia*, An existing genus; *Similiohtaekwangia*: A genus related to but distinct from the existing genus Ohtaekwangia of similar.

Similiokeania

L. masc. adjective *similis*, similar; L. fem. n. *Okeania*, An existing genus; *Similiokeania*: A genus related to but distinct from the existing genus Okeania of similar.

Similiokibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Okibacterium*, An existing genus; *Similiokibacterium*: A genus related to but distinct from the existing genus Okibacterium of similar.

Similiolegusella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Olegusella*, An existing genus; *Similiolegusella*: A genus related to but distinct from the existing genus Olegusella of similar.

Similioleiagrimonas

L. masc. adjective *similis*, similar; L. fem. n. *Oleiagrimonas*, An existing genus; *Similioleiagrimonas*: A genus related to but distinct from the existing genus Oleiagrimonas of similar.

Similioleibacter

L. masc. adjective *similis*, similar; L. masc. n. *Oleibacter*, An existing genus; *Similioleibacter*: A genus related to but distinct from the existing genus Oleibacter of similar.

Similioleiharenicola

L. masc. adjective *similis*, similar; L. masc. n. *Oleiharenicola*, An existing genus; *Similioleiharenicola*: A genus related to but distinct from the existing genus Oleiharenicola of similar.

Similioleiliquidispirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Oleiliquidispirillum*, An existing genus; *Similioleiliquidispirillum*: A genus related to but distinct from the existing genus Oleiliquidispirillum of similar.

Similioleisolibacter

L. masc. adjective *similis*, similar; L. masc. n. *Oleisolibacter*, An existing genus; *Similioleisolibacter*: A genus related to but distinct from the existing genus Oleisolibacter of similar.

Similioleispira

L. masc. adjective *similis*, similar; L. fem. n. *Oleispira*, An existing genus; *Similioleispira*: A genus related to but distinct from the existing genus Oleispira of similar.

Similioligella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Oligella*, An existing genus; *Similioligella*: A genus related to but distinct from the existing genus Oligella of similar.

Similioligoflexus

L. masc. adjective *similis*, similar; L. masc. n. *Oligoflexus*, An existing genus; *Similioligoflexus*: A genus related to but distinct from the existing genus Oligoflexus of similar.

Similioligosphaera

L. masc. adjective *similis*, similar; L. fem. n. *Oligosphaera*, An existing genus; *Similioligosphaera*: A genus related to but distinct from the existing genus Oligosphaera of similar.

Similioligotropha

L. masc. adjective *similis*, similar; L. fem. n. *Oligotropha*, An existing genus; *Similioligotropha*: A genus related to but distinct from the existing genus Oligotropha of similar.

Similiolivibacter

L. masc. adjective *similis*, similar; L. masc. n. *Olivibacter*, An existing genus; *Similiolivibacter*: A genus related to but distinct from the existing genus Olivibacter of similar.

Similiolleya

L. masc. adjective *similis*, similar; L. fem. n. *Olleya*, An existing genus; *Similiolleya*: A genus related to but distinct from the existing genus Olleya of similar.

Similiolsenella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Olsenella*, An existing genus; *Similiolsenella*: A genus related to but distinct from the existing genus Olsenella of similar.

Similionodrimia

L. masc. adjective *similis*, similar; L. fem. n. *Onodrimia*, An existing genus; *Similionodrimia*: A genus related to but distinct from the existing genus Onodrimia of similar.

Similiopitutus

L. masc. adjective *similis*, similar; L. masc. n. *Opitutus*, An existing genus; *Similiopitutus*: A genus related to but distinct from the existing genus Opitutus of similar.

Similiorenia

L. masc. adjective *similis*, similar; L. fem. n. *Orenia*, An existing genus; *Similiorenia*: A genus related to but distinct from the existing genus Orenia of similar.

Similioribacterium

L. masc. adjective *similis*, similar; L. neut. n. *Oribacterium*, An existing genus; *Similioribacterium*: A genus related to but distinct from the existing genus Oribacterium of similar.

Similioribaculum

L. masc. adjective *similis*, similar; L. neut. n. *Oribaculum*, An existing genus; *Similioribaculum*: A genus related to but distinct from the existing genus Oribaculum of similar.

Similioricola

L. masc. adjective *similis*, similar; L. fem. n. *Oricola*, An existing genus; *Similioricola*: A genus related to but distinct from the existing genus Oricola of similar.

Similiornatilinea

L. masc. adjective *similis*, similar; L. fem. n. *Ornatilinea*, An existing genus; *Similiornatilinea*: A genus related to but distinct from the existing genus Ornatilinea of similar.

Similiornithinibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Ornithinibacillus*, An existing genus; *Similiornithinibacillus*: A genus related to but distinct from the existing genus Ornithinibacillus of similar.

Similiornithinibacter

L. masc. adjective *similis*, similar; L. masc. n. *Ornithinibacter*, An existing genus; *Similiornithinibacter*: A genus related to but distinct from the existing genus Ornithinibacter of similar.

Similiornithinicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Ornithinicoccus*, An existing genus; *Similiornithinicoccus*: A genus related to but distinct from the existing genus Ornithinicoccus of similar.

Similiornithinimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Ornithinimicrobium*, An existing genus; *Similiornithinimicrobium*: A genus related to but distinct from the existing genus Ornithinimicrobium of similar.

Similiornithobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Ornithobacterium*, An existing genus; *Similiornithobacterium*: A genus related to but distinct from the existing genus Ornithobacterium of similar.

Similiorrella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Orrella*, An existing genus; *Similiorrella*: A genus related to but distinct from the existing genus Orrella of similar.

Similioryzihumus

L. masc. adjective *similis*, similar; L. fem. n. *Oryzihumus*, An existing genus; *Similioryzihumus*: A genus related to but distinct from the existing genus Oryzihumus of similar.

Similioryzisolibacter

L. masc. adjective *similis*, similar; L. masc. n. *Oryzisolibacter*, An existing genus; *Similioryzisolibacter*: A genus related to but distinct from the existing genus Oryzisolibacter of similar.

Similioryzobacter

L. masc. adjective *similis*, similar; L. masc. n. *Oryzobacter*, An existing genus; *Similioryzobacter*: A genus related to but distinct from the existing genus Oryzobacter of similar.

Similioryzomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Oryzomicrobium*, An existing genus; *Similioryzomicrobium*: A genus related to but distinct from the existing genus Oryzomicrobium of similar.

Similioryzomonas

L. masc. adjective *similis*, similar; L. fem. n. *Oryzomonas*, An existing genus; *Similioryzomonas*: A genus related to but distinct from the existing genus Oryzomonas of similar.

Similioscillatoria

L. masc. adjective *similis*, similar; L. fem. n. *Oscillatoria*, An existing genus; *Similioscillatoria*: A genus related to but distinct from the existing genus Oscillatoria of similar.

Similioscillibacter

L. masc. adjective *similis*, similar; L. masc. n. *Oscillibacter*, An existing genus; *Similioscillibacter*: A genus related to but distinct from the existing genus Oscillibacter of similar.

Similioscillochloris

L. masc. adjective *similis*, similar; L. fem. n. *Oscillochloris*, An existing genus; *Similioscillochloris*: A genus related to but distinct from the existing genus Oscillochloris of similar.

Similioscillospira

L. masc. adjective *similis*, similar; L. fem. n. *Oscillospira*, An existing genus; *Similioscillospira*: A genus related to but distinct from the existing genus Oscillospira of similar.

Similiotariodibacter

L. masc. adjective *similis*, similar; L. masc. n. *Otariodibacter*, An existing genus; *Similiotariodibacter*: A genus related to but distinct from the existing genus Otariodibacter of similar.

Similiottowia

L. masc. adjective *similis*, similar; L. fem. n. *Ottowia*, An existing genus; *Similiottowia*: A genus related to but distinct from the existing genus Ottowia of similar.

Similiowenweeksia

L. masc. adjective *similis*, similar; L. fem. n. *Owenweeksia*, An existing genus; *Similiowenweeksia*: A genus related to but distinct from the existing genus Owenweeksia of similar.

Similioxalobacter

L. masc. adjective *similis*, similar; L. masc. n. *Oxalobacter*, An existing genus; *Similioxalobacter*: A genus related to but distinct from the existing genus Oxalobacter of similar.

Similioxalophagus

L. masc. adjective *similis*, similar; L. masc. n. *Oxalophagus*, An existing genus; *Similioxalophagus*: A genus related to but distinct from the existing genus Oxalophagus of similar.

Similioxobacter

L. masc. adjective *similis*, similar; L. masc. n. *Oxobacter*, An existing genus; *Similioxobacter*: A genus related to but distinct from the existing genus Oxobacter of similar.

Similioxynema

L. masc. adjective *similis*, similar; L. neut. n. *Oxynema*, An existing genus; *Similioxynema*: A genus related to but distinct from the existing genus Oxynema of similar.

Similipacificibacter

L. masc. adjective *similis*, similar; L. masc. n. *Pacificibacter*, An existing genus; *Similipacificibacter*: A genus related to but distinct from the existing genus Pacificibacter of similar.

Similipaenactinomyces

L. masc. adjective *similis*, similar; L. masc. n. *Paenactinomyces*, An existing genus; *Similipaenactinomyces*: A genus related to but distinct from the existing genus Paenactinomyces of similar.

Similipaenalcaligenes

L. masc. adjective *similis*, similar; L. masc. n. *Paenalcaligenes*, An existing genus; *Similipaenalcaligenes*: A genus related to but distinct from the existing genus Paenalcaligenes of similar.

Similipaenarthrobacter

L. masc. adjective *similis*, similar; L. masc. n. *Paenarthrobacter*, An existing genus; *Similipaenarthrobacter*: A genus related to but distinct from the existing genus Paenarthrobacter of similar.

Similipaenibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Paenibacillus*, An existing genus; *Similipaenibacillus*: A genus related to but distinct from the existing genus Paenibacillus of similar.

Similipaeniclostridium

L. masc. adjective *similis*, similar; L. neut. dim. n. *Paeniclostridium*, An existing genus; *Similipaeniclostridium*: A genus related to but distinct from the existing genus Paeniclostridium of similar.

Similipaeniglutamicibacter

L. masc. adjective *similis*, similar; L. masc. n. *Paeniglutamicibacter*, An existing genus; *Similipaeniglutamicibacter*: A genus related to but distinct from the existing genus Paeniglutamicibacter of similar.

Similipaenimaribius

L. masc. adjective *similis*, similar; L. masc. n. *Paenimaribius*, An existing genus; *Similipaenimaribius*: A genus related to but distinct from the existing genus Paenimaribius of similar.

Similipaenirhodobacter

L. masc. adjective *similis*, similar; L. masc. n. *Paenirhodobacter*, An existing genus; *Similipaenirhodobacter*: A genus related to but distinct from the existing genus Paenirhodobacter of similar.

Similipaenisporosarcina

L. masc. adjective *similis*, similar; L. fem. n. *Paenisporosarcina*, An existing genus; *Similipaenisporosarcina*: A genus related to but distinct from the existing genus Paenisporosarcina of similar.

Similipaenochrobactrum

L. masc. adjective *similis*, similar; L. neut. n. *Paenochrobactrum*, An existing genus; *Similipaenochrobactrum*: A genus related to but distinct from the existing genus Paenochrobactrum of similar.

Similipalaeococcus

L. masc. adjective *similis*, similar; L. masc. n. *Palaeococcus*, An existing genus; *Similipalaeococcus*: A genus related to but distinct from the existing genus Palaeococcus of similar.

Similipalleronia

L. masc. adjective *similis*, similar; L. fem. n. *Palleronia*, An existing genus; *Similipalleronia*: A genus related to but distinct from the existing genus Palleronia of similar.

Similipaludibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Paludibacterium*, An existing genus; *Similipaludibacterium*: A genus related to but distinct from the existing genus Paludibacterium of similar.

Similipaludibaculum

L. masc. adjective *similis*, similar; L. neut. n. *Paludibaculum*, An existing genus; *Similipaludibaculum*: A genus related to but distinct from the existing genus Paludibaculum of similar.

Similipaludicola

L. masc. adjective *similis*, similar; L. masc. n. *Paludicola*, An existing genus; *Similipaludicola*: A genus related to but distinct from the existing genus Paludicola of similar.

Similipaludifilum

L. masc. adjective *similis*, similar; L. neut. n. *Paludifilum*, An existing genus; *Similipaludifilum*: A genus related to but distinct from the existing genus Paludifilum of similar.

Similipaludisphaera

L. masc. adjective *similis*, similar; L. fem. n. *Paludisphaera*, An existing genus; *Similipaludisphaera*: A genus related to but distinct from the existing genus Paludisphaera of similar.

Similipanacagrimonas

L. masc. adjective *similis*, similar; L. fem. n. *Panacagrimonas*, An existing genus; *Similipanacagrimonas*: A genus related to but distinct from the existing genus Panacagrimonas of similar.

Similipanacibacter

L. masc. adjective *similis*, similar; L. masc. n. *Panacibacter*, An existing genus; *Similipanacibacter*: A genus related to but distinct from the existing genus Panacibacter of similar.

Similipandoraea

L. masc. adjective *similis*, similar; L. fem. n. *Pandoraea*, An existing genus; *Similipandoraea*: A genus related to but distinct from the existing genus Pandoraea of similar.

Similipannonibacter

L. masc. adjective *similis*, similar; L. masc. n. *Pannonibacter*, An existing genus; *Similipannonibacter*: A genus related to but distinct from the existing genus Pannonibacter of similar.

Similipannus

L. masc. adjective *similis*, similar; L. masc. n. *Pannus*, An existing genus; *Similipannus*: A genus related to but distinct from the existing genus Pannus of similar.

Similipantanalinema

L. masc. adjective *similis*, similar; L. neut. n. *Pantanalinema*, An existing genus; *Similipantanalinema*: A genus related to but distinct from the existing genus Pantanalinema of similar.

Similipantoea

L. masc. adjective *similis*, similar; L. fem. n. *Pantoea*, An existing genus; *Similipantoea*: A genus related to but distinct from the existing genus Pantoea of similar.

Similipapillibacter

L. masc. adjective *similis*, similar; L. masc. n. *Papillibacter*, An existing genus; *Similipapillibacter*: A genus related to but distinct from the existing genus Papillibacter of similar.

Similiparabacteroides

L. masc. adjective *similis*, similar; L. masc. n. *Parabacteroides*, An existing genus; *Similiparabacteroides*: A genus related to but distinct from the existing genus Parabacteroides of similar.

Similiparablastomonas

L. masc. adjective *similis*, similar; L. fem. n. *Parablastomonas*, An existing genus; *Similiparablastomonas*: A genus related to but distinct from the existing genus Parablastomonas of similar.

Similiparaburkholderia

L. masc. adjective *similis*, similar; L. fem. n. *Paraburkholderia*, An existing genus; *Similiparaburkholderia*: A genus related to but distinct from the existing genus Paraburkholderia of similar.

Similiparacandidimonas

L. masc. adjective *similis*, similar; L. fem. n. *Paracandidimonas*, An existing genus; *Similiparacandidimonas*: A genus related to but distinct from the existing genus Paracandidimonas of similar.

Similiparachlamydia

L. masc. adjective *similis*, similar; L. fem. n. *Parachlamydia*, An existing genus; *Similiparachlamydia*: A genus related to but distinct from the existing genus Parachlamydia of similar.

Similiparaclostridium

L. masc. adjective *similis*, similar; L. neut. dim. n. *Paraclostridium*, An existing genus; *Similiparaclostridium*: A genus related to but distinct from the existing genus Paraclostridium of similar.

Similiparacnuella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Paracnuella*, An existing genus; *Similiparacnuella*: A genus related to but distinct from the existing genus Paracnuella of similar.

Similiparacoccus

L. masc. adjective *similis*, similar; L. masc. n. *Paracoccus*, An existing genus; *Similiparacoccus*: A genus related to but distinct from the existing genus Paracoccus of similar.

Similiparaconexibacter

L. masc. adjective *similis*, similar; L. masc. n. *Paraconexibacter*, An existing genus; *Similiparaconexibacter*: A genus related to but distinct from the existing genus Paraconexibacter of similar.

Similiparacraurococcus

L. masc. adjective *similis*, similar; L. masc. n. *Paracraurococcus*, An existing genus; *Similiparacraurococcus*: A genus related to but distinct from the existing genus Paracraurococcus of similar.

Similiparadesulfovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Paradesulfovibrio*, An existing genus; *Similiparadesulfovibrio*: A genus related to but distinct from the existing genus Paradesulfovibrio of similar.

Similiparadevosia

L. masc. adjective *similis*, similar; L. fem. n. *Paradevosia*, An existing genus; *Similiparadevosia*: A genus related to but distinct from the existing genus Paradevosia of similar.

Similiparadonghicola

L. masc. adjective *similis*, similar; L. masc. n. *Paradonghicola*, An existing genus; *Similiparadonghicola*: A genus related to but distinct from the existing genus Paradonghicola of similar.

Similiparaeggerthella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Paraeggerthella*, An existing genus; *Similiparaeggerthella*: A genus related to but distinct from the existing genus Paraeggerthella of similar.

Similiparaferrimonas

L. masc. adjective *similis*, similar; L. fem. n. *Paraferrimonas*, An existing genus; *Similiparaferrimonas*: A genus related to but distinct from the existing genus Paraferrimonas of similar.

Similiparafilimonas

L. masc. adjective *similis*, similar; L. fem. n. *Parafilimonas*, An existing genus; *Similiparafilimonas*: A genus related to but distinct from the existing genus Parafilimonas of similar.

Similiparaflavitalea

L. masc. adjective *similis*, similar; L. fem. n. *Paraflavitalea*, An existing genus; *Similiparaflavitalea*: A genus related to but distinct from the existing genus Paraflavitalea of similar.

Similiparafrigoribacterium

L. masc. adjective *similis*, similar; L. neut. n. *Parafrigoribacterium*, An existing genus; *Similiparafrigoribacterium*: A genus related to but distinct from the existing genus Parafrigoribacterium of similar.

Similiparageobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Parageobacillus*, An existing genus; *Similiparageobacillus*: A genus related to but distinct from the existing genus Parageobacillus of similar.

Similiparaglaciecola

L. masc. adjective *similis*, similar; L. fem. n. *Paraglaciecola*, An existing genus; *Similiparaglaciecola*: A genus related to but distinct from the existing genus Paraglaciecola of similar.

Similiparaglycomyces

L. masc. adjective *similis*, similar; L. masc. n. *Paraglycomyces*, An existing genus; *Similiparaglycomyces*: A genus related to but distinct from the existing genus Paraglycomyces of similar.

Similiparahaliea

L. masc. adjective *similis*, similar; L. fem. n. *Parahaliea*, An existing genus; *Similiparahaliea*: A genus related to but distinct from the existing genus Parahaliea of similar.

Similiparaherbaspirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Paraherbaspirillum*, An existing genus; *Similiparaherbaspirillum*: A genus related to but distinct from the existing genus Paraherbaspirillum of similar.

Similiparalactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Paralactobacillus*, An existing genus; *Similiparalactobacillus*: A genus related to but distinct from the existing genus Paralactobacillus of similar.

Similiparalcaligenes

L. masc. adjective *similis*, similar; L. masc. n. *Paralcaligenes*, An existing genus; *Similiparalcaligenes*: A genus related to but distinct from the existing genus Paralcaligenes of similar.

Similiparaliobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Paraliobacillus*, An existing genus; *Similiparaliobacillus*: A genus related to but distinct from the existing genus Paraliobacillus of similar.

Similiparalkalibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Paralkalibacillus*, An existing genus; *Similiparalkalibacillus*: A genus related to but distinct from the existing genus Paralkalibacillus of similar.

Similiparamaledivibacter

L. masc. adjective *similis*, similar; L. masc. n. *Paramaledivibacter*, An existing genus; *Similiparamaledivibacter*: A genus related to but distinct from the existing genus Paramaledivibacter of similar.

Similiparamesonia

L. masc. adjective *similis*, similar; L. fem. n. *Paramesonia*, An existing genus; *Similiparamesonia*: A genus related to but distinct from the existing genus Paramesonia of similar.

Similiparamoritella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Paramoritella*, An existing genus; *Similiparamoritella*: A genus related to but distinct from the existing genus Paramoritella of similar.

Similiparamuribaculum

L. masc. adjective *similis*, similar; L. neut. n. *Paramuribaculum*, An existing genus; *Similiparamuribaculum*: A genus related to but distinct from the existing genus Paramuribaculum of similar.

Similiparaoerskovia

L. masc. adjective *similis*, similar; L. fem. n. *Paraoerskovia*, An existing genus; *Similiparaoerskovia*: A genus related to but distinct from the existing genus Paraoerskovia of similar.

Similiparapedobacter

L. masc. adjective *similis*, similar; L. masc. n. *Parapedobacter*, An existing genus; *Similiparapedobacter*: A genus related to but distinct from the existing genus Parapedobacter of similar.

Similiparaperlucidibaca

L. masc. adjective *similis*, similar; L. fem. n. *Paraperlucidibaca*, An existing genus; *Similiparaperlucidibaca*: A genus related to but distinct from the existing genus Paraperlucidibaca of similar.

Similiparaphaeobacter

L. masc. adjective *similis*, similar; L. masc. n. *Paraphaeobacter*, An existing genus; *Similiparaphaeobacter*: A genus related to but distinct from the existing genus Paraphaeobacter of similar.

Similiparaphotobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Paraphotobacterium*, An existing genus; *Similiparaphotobacterium*: A genus related to but distinct from the existing genus Paraphotobacterium of similar.

Similiparaprevotella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Paraprevotella*, An existing genus; *Similiparaprevotella*: A genus related to but distinct from the existing genus Paraprevotella of similar.

Similiparapseudoflavitalea

L. masc. adjective *similis*, similar; L. fem. n. *Parapseudoflavitalea*, An existing genus; *Similiparapseudoflavitalea*: A genus related to but distinct from the existing genus Parapseudoflavitalea of similar.

Similiparapusillimonas

L. masc. adjective *similis*, similar; L. fem. n. *Parapusillimonas*, An existing genus; *Similiparapusillimonas*: A genus related to but distinct from the existing genus Parapusillimonas of similar.

Similipararcticibacter

L. masc. adjective *similis*, similar; L. masc. n. *Pararcticibacter*, An existing genus; *Similipararcticibacter*: A genus related to but distinct from the existing genus Pararcticibacter of similar.

Similipararheinheimera

L. masc. adjective *similis*, similar; L. fem. n. *Pararheinheimera*, An existing genus; *Similipararheinheimera*: A genus related to but distinct from the existing genus Pararheinheimera of similar.

Similipararhizobium

L. masc. adjective *similis*, similar; L. neut. n. *Pararhizobium*, An existing genus; *Similipararhizobium*: A genus related to but distinct from the existing genus Pararhizobium of similar.

Similipararhodobacter

L. masc. adjective *similis*, similar; L. masc. n. *Pararhodobacter*, An existing genus; *Similipararhodobacter*: A genus related to but distinct from the existing genus Pararhodobacter of similar.

Similipararhodospirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Pararhodospirillum*, An existing genus; *Similipararhodospirillum*: A genus related to but distinct from the existing genus Pararhodospirillum of similar.

Similipararobbsia

L. masc. adjective *similis*, similar; L. fem. n. *Pararobbsia*, An existing genus; *Similipararobbsia*: A genus related to but distinct from the existing genus Pararobbsia of similar.

Similiparasaccharibacter

L. masc. adjective *similis*, similar; L. masc. n. *Parasaccharibacter*, An existing genus; *Similiparasaccharibacter*: A genus related to but distinct from the existing genus Parasaccharibacter of similar.

Similiparascardovia

L. masc. adjective *similis*, similar; L. fem. n. *Parascardovia*, An existing genus; *Similiparascardovia*: A genus related to but distinct from the existing genus Parascardovia of similar.

Similiparasedimentitalea

L. masc. adjective *similis*, similar; L. fem. n. *Parasedimentitalea*, An existing genus; *Similiparasedimentitalea*: A genus related to but distinct from the existing genus Parasedimentitalea of similar.

Similiparasediminibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Parasediminibacterium*, An existing genus; *Similiparasediminibacterium*: A genus related to but distinct from the existing genus Parasediminibacterium of similar.

Similiparasegetibacter

L. masc. adjective *similis*, similar; L. masc. n. *Parasegetibacter*, An existing genus; *Similiparasegetibacter*: A genus related to but distinct from the existing genus Parasegetibacter of similar.

Similiparashewanella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Parashewanella*, An existing genus; *Similiparashewanella*: A genus related to but distinct from the existing genus Parashewanella of similar.

Similiparasphaerochaeta

L. masc. adjective *similis*, similar; L. fem. n. *Parasphaerochaeta*, An existing genus; *Similiparasphaerochaeta*: A genus related to but distinct from the existing genus Parasphaerochaeta of similar.

Similiparasphingopyxis

L. masc. adjective *similis*, similar; L. fem. n. *Parasphingopyxis*, An existing genus; *Similiparasphingopyxis*: A genus related to but distinct from the existing genus Parasphingopyxis of similar.

Similiparasphingorhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Parasphingorhabdus*, An existing genus; *Similiparasphingorhabdus*: A genus related to but distinct from the existing genus Parasphingorhabdus of similar.

Similiparasporobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Parasporobacterium*, An existing genus; *Similiparasporobacterium*: A genus related to but distinct from the existing genus Parasporobacterium of similar.

Similiparasutterella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Parasutterella*, An existing genus; *Similiparasutterella*: A genus related to but distinct from the existing genus Parasutterella of similar.

Similiparemcibacter

L. masc. adjective *similis*, similar; L. masc. n. *Paremcibacter*, An existing genus; *Similiparemcibacter*: A genus related to but distinct from the existing genus Paremcibacter of similar.

Similiparendozoicomonas

L. masc. adjective *similis*, similar; L. fem. n. *Parendozoicomonas*, An existing genus; *Similiparendozoicomonas*: A genus related to but distinct from the existing genus Parendozoicomonas of similar.

Similiparoceanicella

L. masc. adjective *similis*, similar; L. fem. n. *Paroceanicella*, An existing genus; *Similiparoceanicella*: A genus related to but distinct from the existing genus Paroceanicella of similar.

Similiparolsenella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Parolsenella*, An existing genus; *Similiparolsenella*: A genus related to but distinct from the existing genus Parolsenella of similar.

Similiparvibium

L. masc. adjective *similis*, similar; L. neut. n. *Parvibium*, An existing genus; *Similiparvibium*: A genus related to but distinct from the existing genus Parvibium of similar.

Similiparvimonas

L. masc. adjective *similis*, similar; L. fem. n. *Parvimonas*, An existing genus; *Similiparvimonas*: A genus related to but distinct from the existing genus Parvimonas of similar.

Similiparviterribacter

L. masc. adjective *similis*, similar; L. masc. n. *Parviterribacter*, An existing genus; *Similiparviterribacter*: A genus related to but distinct from the existing genus Parviterribacter of similar.

Similiparvularcula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Parvularcula*, An existing genus; *Similiparvularcula*: A genus related to but distinct from the existing genus Parvularcula of similar.

Similipasteurella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Pasteurella*, An existing genus; *Similipasteurella*: A genus related to but distinct from the existing genus Pasteurella of similar.

Similipasteuria

L. masc. adjective *similis*, similar; L. fem. n. *Pasteuria*, An existing genus; *Similipasteuria*: A genus related to but distinct from the existing genus Pasteuria of similar.

Similipatiriisocius

L. masc. adjective *similis*, similar; L. masc. n. *Patiriisocius*, An existing genus; *Similipatiriisocius*: A genus related to but distinct from the existing genus Patiriisocius of similar.

Similipatulibacter

L. masc. adjective *similis*, similar; L. masc. n. *Patulibacter*, An existing genus; *Similipatulibacter*: A genus related to but distinct from the existing genus Patulibacter of similar.

Similipaucibacter

L. masc. adjective *similis*, similar; L. masc. n. *Paucibacter*, An existing genus; *Similipaucibacter*: A genus related to but distinct from the existing genus Paucibacter of similar.

Similipaucilactobacillus

L. masc. adjective *similis*, similar; L. masc. n. *Paucilactobacillus*, An existing genus; *Similipaucilactobacillus*: A genus related to but distinct from the existing genus Paucilactobacillus of similar.

Similipaucimonas

L. masc. adjective *similis*, similar; L. fem. n. *Paucimonas*, An existing genus; *Similipaucimonas*: A genus related to but distinct from the existing genus Paucimonas of similar.

Similipaucisalibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Paucisalibacillus*, An existing genus; *Similipaucisalibacillus*: A genus related to but distinct from the existing genus Paucisalibacillus of similar.

Similipauljensenia

L. masc. adjective *similis*, similar; L. fem. n. *Pauljensenia*, An existing genus; *Similipauljensenia*: A genus related to but distinct from the existing genus Pauljensenia of similar.

Similipectinatus

L. masc. adjective *similis*, similar; L. masc. n. *Pectinatus*, An existing genus; *Similipectinatus*: A genus related to but distinct from the existing genus Pectinatus of similar.

Similipectobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Pectobacterium*, An existing genus; *Similipectobacterium*: A genus related to but distinct from the existing genus Pectobacterium of similar.

Similipediococcus

L. masc. adjective *similis*, similar; L. masc. n. *Pediococcus*, An existing genus; *Similipediococcus*: A genus related to but distinct from the existing genus Pediococcus of similar.

Similipedobacter

L. masc. adjective *similis*, similar; L. masc. n. *Pedobacter*, An existing genus; *Similipedobacter*: A genus related to but distinct from the existing genus Pedobacter of similar.

Similipedococcus

L. masc. adjective *similis*, similar; L. masc. n. *Pedococcus*, An existing genus; *Similipedococcus*: A genus related to but distinct from the existing genus Pedococcus of similar.

Similipedomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Pedomicrobium*, An existing genus; *Similipedomicrobium*: A genus related to but distinct from the existing genus Pedomicrobium of similar.

Similipegethrix

L. masc. adjective *similis*, similar; L. fem. n. *Pegethrix*, An existing genus; *Similipegethrix*: A genus related to but distinct from the existing genus Pegethrix of similar.

Similipelagibaca

L. masc. adjective *similis*, similar; L. fem. n. *Pelagibaca*, An existing genus; *Similipelagibaca*: A genus related to but distinct from the existing genus Pelagibaca of similar.

Similipelagibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Pelagibacillus*, An existing genus; *Similipelagibacillus*: A genus related to but distinct from the existing genus Pelagibacillus of similar.

Similipelagibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Pelagibacterium*, An existing genus; *Similipelagibacterium*: A genus related to but distinct from the existing genus Pelagibacterium of similar.

Similipelagibaculum

L. masc. adjective *similis*, similar; L. neut. n. *Pelagibaculum*, An existing genus; *Similipelagibaculum*: A genus related to but distinct from the existing genus Pelagibaculum of similar.

Similipelagibius

L. masc. adjective *similis*, similar; L. masc. n. *Pelagibius*, An existing genus; *Similipelagibius*: A genus related to but distinct from the existing genus Pelagibius of similar.

Similipelagicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Pelagicoccus*, An existing genus; *Similipelagicoccus*: A genus related to but distinct from the existing genus Pelagicoccus of similar.

Similipelagicola

L. masc. adjective *similis*, similar; L. masc. n. *Pelagicola*, An existing genus; *Similipelagicola*: A genus related to but distinct from the existing genus Pelagicola of similar.

Similipelagihabitans

L. masc. adjective *similis*, similar; L. masc. n. *Pelagihabitans*, An existing genus; *Similipelagihabitans*: A genus related to but distinct from the existing genus Pelagihabitans of similar.

Similipelagimonas

L. masc. adjective *similis*, similar; L. fem. n. *Pelagimonas*, An existing genus; *Similipelagimonas*: A genus related to but distinct from the existing genus Pelagimonas of similar.

Similipelagirhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Pelagirhabdus*, An existing genus; *Similipelagirhabdus*: A genus related to but distinct from the existing genus Pelagirhabdus of similar.

Similipelagitalea

L. masc. adjective *similis*, similar; L. fem. n. *Pelagitalea*, An existing genus; *Similipelagitalea*: A genus related to but distinct from the existing genus Pelagitalea of similar.

Similipelagivirga

L. masc. adjective *similis*, similar; L. fem. n. *Pelagivirga*, An existing genus; *Similipelagivirga*: A genus related to but distinct from the existing genus Pelagivirga of similar.

Similipelczaria

L. masc. adjective *similis*, similar; L. fem. n. *Pelczaria*, An existing genus; *Similipelczaria*: A genus related to but distinct from the existing genus Pelczaria of similar.

Similipelistega

L. masc. adjective *similis*, similar; L. fem. n. *Pelistega*, An existing genus; *Similipelistega*: A genus related to but distinct from the existing genus Pelistega of similar.

Similipelobium

L. masc. adjective *similis*, similar; L. neut. n. *Pelobium*, An existing genus; *Similipelobium*: A genus related to but distinct from the existing genus Pelobium of similar.

Similipelodictyon

L. masc. adjective *similis*, similar; L. neut. n. *Pelodictyon*, An existing genus; *Similipelodictyon*: A genus related to but distinct from the existing genus Pelodictyon of similar.

Similipelolinea

L. masc. adjective *similis*, similar; L. fem. n. *Pelolinea*, An existing genus; *Similipelolinea*: A genus related to but distinct from the existing genus Pelolinea of similar.

Similipelomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Pelomicrobium*, An existing genus; *Similipelomicrobium*: A genus related to but distinct from the existing genus Pelomicrobium of similar.

Similipelomonas

L. masc. adjective *similis*, similar; L. fem. n. *Pelomonas*, An existing genus; *Similipelomonas*: A genus related to but distinct from the existing genus Pelomonas of similar.

Similipeloploca

L. masc. adjective *similis*, similar; L. fem. n. *Peploploca*, An existing genus; *Similipeloploca*: A genus related to but distinct from the existing genus Peploploca of similar.

Similipelosinus

L. masc. adjective *similis*, similar; L. masc. n. *Pelosinus*, An existing genus; *Similipelosinus*: A genus related to but distinct from the existing genus Pelosinus of similar.

Similipelospora

L. masc. adjective *similis*, similar; L. fem. n. *Pelospora*, An existing genus; *Similipelospora*: A genus related to but distinct from the existing genus Pelospora of similar.

Similipelotomaculum

L. masc. adjective *similis*, similar; L. neut. n. *Pelotomaculum*, An existing genus; *Similipelotomaculum*: A genus related to but distinct from the existing genus Pelotomaculum of similar.

Similipeptacetobacter

L. masc. adjective *similis*, similar; L. masc. n. *Peptacetobacter*, An existing genus; *Similipeptacetobacter*: A genus related to but distinct from the existing genus Peptacetobacter of similar.

Similipeptidiphaga

L. masc. adjective *similis*, similar; L. fem. n. *Peptidiphaga*, An existing genus; *Similipeptidiphaga*: A genus related to but distinct from the existing genus Peptidiphaga of similar.

Similipeptoanaerobacter

L. masc. adjective *similis*, similar; L. masc. n. *Peptoanaerobacter*, An existing genus; *Similipeptoanaerobacter*: A genus related to but distinct from the existing genus Peptoanaerobacter of similar.

Similipeptoclostridium

L. masc. adjective *similis*, similar; L. neut. dim. n. *Peptoclostridium*, An existing genus; *Similipeptoclostridium*: A genus related to but distinct from the existing genus Peptoclostridium of similar.

Similipeptococcus

L. masc. adjective *similis*, similar; L. masc. n. *Peptococcus*, An existing genus; *Similipeptococcus*: A genus related to but distinct from the existing genus Peptococcus of similar.

Similipeptoniphilus

L. masc. adjective *similis*, similar; L. masc. n. *Peptoniphilus*, An existing genus; *Similipeptoniphilus*: A genus related to but distinct from the existing genus Peptoniphilus of similar.

Similipeptostreptococcus

L. masc. adjective *similis*, similar; L. masc. n. *Peptostreptococcus*, An existing genus; *Similipeptostreptococcus*: A genus related to but distinct from the existing genus Peptostreptococcus of similar.

Similiperedibacter

L. masc. adjective *similis*, similar; L. masc. n. *Peredibacter*, An existing genus; *Similiperedibacter*: A genus related to but distinct from the existing genus Peredibacter of similar.

Similiperexilibacter

L. masc. adjective *similis*, similar; L. masc. n. *Perexilibacter*, An existing genus; *Similiperexilibacter*: A genus related to but distinct from the existing genus Perexilibacter of similar.

Similiperibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Peribacillus*, An existing genus; *Similiperibacillus*: A genus related to but distinct from the existing genus Peribacillus of similar.

Similiperlucidibaca

L. masc. adjective *similis*, similar; L. fem. n. *Perlucidibaca*, An existing genus; *Similiperlucidibaca*: A genus related to but distinct from the existing genus Perlucidibaca of similar.

Similipermianibacter

L. masc. adjective *similis*, similar; L. masc. n. *Permianibacter*, An existing genus; *Similipermianibacter*: A genus related to but distinct from the existing genus Permianibacter of similar.

Similipersicimonas

L. masc. adjective *similis*, similar; L. fem. n. *Persicimonas*, An existing genus; *Similipersicimonas*: A genus related to but distinct from the existing genus Persicimonas of similar.

Similipersicirhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Persicirhabdus*, An existing genus; *Similipersicirhabdus*: A genus related to but distinct from the existing genus Persicirhabdus of similar.

Similipersicitalea

L. masc. adjective *similis*, similar; L. fem. n. *Persicitalea*, An existing genus; *Similipersicitalea*: A genus related to but distinct from the existing genus Persicitalea of similar.

Similipersicivirga

L. masc. adjective *similis*, similar; L. fem. n. *Persicivirga*, An existing genus; *Similipersicivirga*: A genus related to but distinct from the existing genus Persicivirga of similar.

Similipersicobacter

L. masc. adjective *similis*, similar; L. masc. n. *Persicobacter*, An existing genus; *Similipersicobacter*: A genus related to but distinct from the existing genus Persicobacter of similar.

Similipersinema

L. masc. adjective *similis*, similar; L. neut. n. *Persinema*, An existing genus; *Similipersinema*: A genus related to but distinct from the existing genus Persinema of similar.

Similiperspicuibacter

L. masc. adjective *similis*, similar; L. masc. n. *Perspicuibacter*, An existing genus; *Similiperspicuibacter*: A genus related to but distinct from the existing genus Perspicuibacter of similar.

Similipetrimonas

L. masc. adjective *similis*, similar; L. fem. n. *Petrimonas*, An existing genus; *Similipetrimonas*: A genus related to but distinct from the existing genus Petrimonas of similar.

Similipetrobacter

L. masc. adjective *similis*, similar; L. masc. n. *Petrobacter*, An existing genus; *Similipetrobacter*: A genus related to but distinct from the existing genus Petrobacter of similar.

Similipetrocella

L. masc. adjective *similis*, similar; L. fem. n. *Petrocella*, An existing genus; *Similipetrocella*: A genus related to but distinct from the existing genus Petrocella of similar.

Similipetroclostridium

L. masc. adjective *similis*, similar; L. neut. dim. n. *Petroclostridium*, An existing genus; *Similipetroclostridium*: A genus related to but distinct from the existing genus Petroclostridium of similar.

Similipetrothermobacter

L. masc. adjective *similis*, similar; L. masc. n. *Petrothermobacter*, An existing genus; *Similipetrothermobacter*: A genus related to but distinct from the existing genus Petrothermobacter of similar.

Similipetrotoga

L. masc. adjective *similis*, similar; L. fem. n. *Petrotoga*, An existing genus; *Similipetrotoga*: A genus related to but distinct from the existing genus Petrotoga of similar.

Similipfennigia

L. masc. adjective *similis*, similar; L. fem. n. *Pfennigia*, An existing genus; *Similipfennigia*: A genus related to but distinct from the existing genus Pfennigia of similar.

Similiphaeobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Phaeobacterium*, An existing genus; *Similiphaeobacterium*: A genus related to but distinct from the existing genus Phaeobacterium of similar.

Similiphaeochromatium

L. masc. adjective *similis*, similar; L. neut. n. *Phaeochromatium*, An existing genus; *Similiphaeochromatium*: A genus related to but distinct from the existing genus Phaeochromatium of similar.

Similiphaeocystidibacter

L. masc. adjective *similis*, similar; L. masc. n. *Phaeocystidibacter*, An existing genus; *Similiphaeocystidibacter*: A genus related to but distinct from the existing genus Phaeocystidibacter of similar.

Similiphaeodactylibacter

L. masc. adjective *similis*, similar; L. masc. n. *Phaeodactylibacter*, An existing genus; *Similiphaeodactylibacter*: A genus related to but distinct from the existing genus Phaeodactylibacter of similar.

Similiphaeospirillum

L. masc. adjective *similis*, similar; L. neut. dim. n. *Phaeospirillum*, An existing genus; *Similiphaeospirillum*: A genus related to but distinct from the existing genus Phaeospirillum of similar.

Similiphaeovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Phaeovibrio*, An existing genus; *Similiphaeovibrio*: A genus related to but distinct from the existing genus Phaeovibrio of similar.

Similiphaeovulum

L. masc. adjective *similis*, similar; L. neut. n. *Phaeovulum*, An existing genus; *Similiphaeovulum*: A genus related to but distinct from the existing genus Phaeovulum of similar.

Similiphascolarctobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Phascolarctobacterium*, An existing genus; *Similiphascolarctobacterium*: A genus related to but distinct from the existing genus Phascolarctobacterium of similar.

Similiphaselicystis

L. masc. adjective *similis*, similar; L. fem. n. *Phaselicystis*, An existing genus; *Similiphaselicystis*: A genus related to but distinct from the existing genus Phaselicystis of similar.

Similiphaseolibacter

L. masc. adjective *similis*, similar; L. masc. n. *Phaseolibacter*, An existing genus; *Similiphaseolibacter*: A genus related to but distinct from the existing genus Phaseolibacter of similar.

Similiphenylobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Phenylobacterium*, An existing genus; *Similiphenylobacterium*: A genus related to but distinct from the existing genus Phenylobacterium of similar.

Similiphocaeicola

L. masc. adjective *similis*, similar; L. masc. n. *Phocaeicola*, An existing genus; *Similiphocaeicola*: A genus related to but distinct from the existing genus Phocaeicola of similar.

Similiphocoenobacter

L. masc. adjective *similis*, similar; L. masc. n. *Phocoenobacter*, An existing genus; *Similiphocoenobacter*: A genus related to but distinct from the existing genus Phocoenobacter of similar.

Similiphorcysia

L. masc. adjective *similis*, similar; L. fem. n. *Phorcysia*, An existing genus; *Similiphorcysia*: A genus related to but distinct from the existing genus Phorcysia of similar.

Similiphotobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Photobacterium*, An existing genus; *Similiphotobacterium*: A genus related to but distinct from the existing genus Photobacterium of similar.

Similiphotorhabdus

L. masc. adjective *similis*, similar; L. fem. n. *Photorhabdus*, An existing genus; *Similiphotorhabdus*: A genus related to but distinct from the existing genus Photorhabdus of similar.

Similiphragmitibacter

L. masc. adjective *similis*, similar; L. masc. n. *Phragmitibacter*, An existing genus; *Similiphragmitibacter*: A genus related to but distinct from the existing genus Phragmitibacter of similar.

Similiphreatobacter

L. masc. adjective *similis*, similar; L. masc. n. *Phreatobacter*, An existing genus; *Similiphreatobacter*: A genus related to but distinct from the existing genus Phreatobacter of similar.

Similiphycicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Phycicoccus*, An existing genus; *Similiphycicoccus*: A genus related to but distinct from the existing genus Phycicoccus of similar.

Similiphycicola

L. masc. adjective *similis*, similar; L. masc. n. *Phycicola*, An existing genus; *Similiphycicola*: A genus related to but distinct from the existing genus Phycicola of similar.

Similiphycisphaera

L. masc. adjective *similis*, similar; L. fem. n. *Phycisphaera*, An existing genus; *Similiphycisphaera*: A genus related to but distinct from the existing genus Phycisphaera of similar.

Similiphycocomes

L. masc. adjective *similis*, similar; L. masc. n. *Phycocomes*, An existing genus; *Similiphycocomes*: A genus related to but distinct from the existing genus Phycocomes of similar.

Similiphyllonema

L. masc. adjective *similis*, similar; L. neut. n. *Phyllonema*, An existing genus; *Similiphyllonema*: A genus related to but distinct from the existing genus Phyllonema of similar.

Similiphytoactinopolyspora

L. masc. adjective *similis*, similar; L. fem. n. *Phytoactinopolyspora*, An existing genus; *Similiphytoactinopolyspora*: A genus related to but distinct from the existing genus Phytoactinopolyspora of similar.

Similiphytobacter

L. masc. adjective *similis*, similar; L. masc. n. *Phytobacter*, An existing genus; *Similiphytobacter*: A genus related to but distinct from the existing genus Phytobacter of similar.

Similiphytohabitans

L. masc. adjective *similis*, similar; L. masc. n. *Phytohabitans*, An existing genus; *Similiphytohabitans*: A genus related to but distinct from the existing genus Phytohabitans of similar.

Similiphytohalomonas

L. masc. adjective *similis*, similar; L. fem. n. *Phytohalomonas*, An existing genus; *Similiphytohalomonas*: A genus related to but distinct from the existing genus Phytohalomonas of similar.

Similiphytomonospora

L. masc. adjective *similis*, similar; L. fem. n. *Phytomonospora*, An existing genus; *Similiphytomonospora*: A genus related to but distinct from the existing genus Phytomonospora of similar.

Similipibocella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Pibocella*, An existing genus; *Similipibocella*: A genus related to but distinct from the existing genus Pibocella of similar.

Similipicrophilus

L. masc. adjective *similis*, similar; L. masc. n. *Picrophilus*, An existing genus; *Similipicrophilus*: A genus related to but distinct from the existing genus Picrophilus of similar.

Similipiezobacter

L. masc. adjective *similis*, similar; L. masc. n. *Piezobacter*, An existing genus; *Similipiezobacter*: A genus related to but distinct from the existing genus Piezobacter of similar.

Similipigmentiphaga

L. masc. adjective *similis*, similar; L. fem. n. *Pigmentiphaga*, An existing genus; *Similipigmentiphaga*: A genus related to but distinct from the existing genus Pigmentiphaga of similar.

Similipilibacter

L. masc. adjective *similis*, similar; L. masc. n. *Pilibacter*, An existing genus; *Similipilibacter*: A genus related to but distinct from the existing genus Pilibacter of similar.

Similipilimelia

L. masc. adjective *similis*, similar; L. fem. n. *Pilimelia*, An existing genus; *Similipilimelia*: A genus related to but distinct from the existing genus Pilimelia of similar.

Similipillotina

L. masc. adjective *similis*, similar; L. fem. n. *Pillotina*, An existing genus; *Similipillotina*: A genus related to but distinct from the existing genus Pillotina of similar.

Similipimelobacter

L. masc. adjective *similis*, similar; L. masc. n. *Pimelobacter*, An existing genus; *Similipimelobacter*: A genus related to but distinct from the existing genus Pimelobacter of similar.

Similipinisolibacter

L. masc. adjective *similis*, similar; L. masc. n. *Pinisolibacter*, An existing genus; *Similipinisolibacter*: A genus related to but distinct from the existing genus Pinisolibacter of similar.

Similipinocchia

L. masc. adjective *similis*, similar; L. fem. n. *Pinocchia*, An existing genus; *Similipinocchia*: A genus related to but distinct from the existing genus Pinocchia of similar.

Similipirella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Pirella*, An existing genus; *Similipirella*: A genus related to but distinct from the existing genus Pirella of similar.

Similipirellula

L. masc. adjective *similis*, similar; L. fem. dim. n. *Pirellula*, An existing genus; *Similipirellula*: A genus related to but distinct from the existing genus Pirellula of similar.

Similipiscicoccus

L. masc. adjective *similis*, similar; L. masc. n. *Piscicoccus*, An existing genus; *Similipiscicoccus*: A genus related to but distinct from the existing genus Piscicoccus of similar.

Similipisciglobus

L. masc. adjective *similis*, similar; L. masc. n. *Pisciglobus*, An existing genus; *Similipisciglobus*: A genus related to but distinct from the existing genus Pisciglobus of similar.

Similipiscinibacter

L. masc. adjective *similis*, similar; L. masc. n. *Piscinibacter*, An existing genus; *Similipiscinibacter*: A genus related to but distinct from the existing genus Piscinibacter of similar.

Similipiscirickettsia

L. masc. adjective *similis*, similar; L. fem. n. *Piscirickettsia*, An existing genus; *Similipiscirickettsia*: A genus related to but distinct from the existing genus Piscirickettsia of similar.

Similipistricoccus

L. masc. adjective *similis*, similar; L. masc. n. *Pistricoccus*, An existing genus; *Similipistricoccus*: A genus related to but distinct from the existing genus Pistricoccus of similar.

Similiplanctobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Planctobacterium*, An existing genus; *Similiplanctobacterium*: A genus related to but distinct from the existing genus Planctobacterium of similar.

Similiplanctomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Planctomicrobium*, An existing genus; *Similiplanctomicrobium*: A genus related to but distinct from the existing genus Planctomicrobium of similar.

Similiplanctomonas

L. masc. adjective *similis*, similar; L. fem. n. *Planctomonas*, An existing genus; *Similiplanctomonas*: A genus related to but distinct from the existing genus Planctomonas of similar.

Similiplanctomyces

L. masc. adjective *similis*, similar; L. masc. n. *Planctomyces*, An existing genus; *Similiplanctomyces*: A genus related to but distinct from the existing genus Planctomyces of similar.

Similiplanctopirus

L. masc. adjective *similis*, similar; L. fem. n. *Planctopirus*, An existing genus; *Similiplanctopirus*: A genus related to but distinct from the existing genus Planctopirus of similar.

Similiplanifilum

L. masc. adjective *similis*, similar; L. neut. n. *Planifilum*, An existing genus; *Similiplanifilum*: A genus related to but distinct from the existing genus Planifilum of similar.

Similiplanktomarina

L. masc. adjective *similis*, similar; L. fem. n. *Planktomarina*, An existing genus; *Similiplanktomarina*: A genus related to but distinct from the existing genus Planktomarina of similar.

Similiplanktosalinus

L. masc. adjective *similis*, similar; L. masc. n. *Planktosalinus*, An existing genus; *Similiplanktosalinus*: A genus related to but distinct from the existing genus Planktosalinus of similar.

Similiplanktotalea

L. masc. adjective *similis*, similar; L. fem. n. *Planktotalea*, An existing genus; *Similiplanktotalea*: A genus related to but distinct from the existing genus Planktotalea of similar.

Similiplanktothrix

L. masc. adjective *similis*, similar; L. fem. n. *Planktothrix*, An existing genus; *Similiplanktothrix*: A genus related to but distinct from the existing genus Planktothrix of similar.

Similiplanobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Planobacterium*, An existing genus; *Similiplanobacterium*: A genus related to but distinct from the existing genus Planobacterium of similar.

Similiplanobispora

L. masc. adjective *similis*, similar; L. fem. n. *Planobispora*, An existing genus; *Similiplanobispora*: A genus related to but distinct from the existing genus Planobispora of similar.

Similiplanococcus

L. masc. adjective *similis*, similar; L. masc. n. *Planococcus*, An existing genus; *Similiplanococcus*: A genus related to but distinct from the existing genus Planococcus of similar.

Similiplanomicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Planomicrobium*, An existing genus; *Similiplanomicrobium*: A genus related to but distinct from the existing genus Planomicrobium of similar.

Similiplanomonospora

L. masc. adjective *similis*, similar; L. fem. n. *Planomonospora*, An existing genus; *Similiplanomonospora*: A genus related to but distinct from the existing genus Planomonospora of similar.

Similiplanopolyspora

L. masc. adjective *similis*, similar; L. fem. n. *Planopolyspora*, An existing genus; *Similiplanopolyspora*: A genus related to but distinct from the existing genus Planopolyspora of similar.

Similiplanosporangium

L. masc. adjective *similis*, similar; L. neut. n. *Planosporangium*, An existing genus; *Similiplanosporangium*: A genus related to but distinct from the existing genus Planosporangium of similar.

Similiplanotetraspora

L. masc. adjective *similis*, similar; L. fem. n. *Planotetraspora*, An existing genus; *Similiplanotetraspora*: A genus related to but distinct from the existing genus Planotetraspora of similar.

Similiplantactinospora

L. masc. adjective *similis*, similar; L. fem. n. *Plantactinospora*, An existing genus; *Similiplantactinospora*: A genus related to but distinct from the existing genus Plantactinospora of similar.

Similiplastorhodobacter

L. masc. adjective *similis*, similar; L. masc. n. *Plastorhodobacter*, An existing genus; *Similiplastorhodobacter*: A genus related to but distinct from the existing genus Plastorhodobacter of similar.

Similipleionea

L. masc. adjective *similis*, similar; L. fem. n. *Pleionea*, An existing genus; *Similipleionea*: A genus related to but distinct from the existing genus Pleionea of similar.

Similipleomorphobacterium

L. masc. adjective *similis*, similar; L. neut. n. *Pleomorphobacterium*, An existing genus; *Similipleomorphobacterium*: A genus related to but distinct from the existing genus Pleomorphobacterium of similar.

Similipleomorphochaeta

L. masc. adjective *similis*, similar; L. fem. n. *Pleomorphochaeta*, An existing genus; *Similipleomorphochaeta*: A genus related to but distinct from the existing genus Pleomorphochaeta of similar.

Similipleomorphomonas

L. masc. adjective *similis*, similar; L. fem. n. *Pleomorphomonas*, An existing genus; *Similipleomorphomonas*: A genus related to but distinct from the existing genus Pleomorphomonas of similar.

Similipleomorphovibrio

L. masc. adjective *similis*, similar; L. masc. n. *Pleomorphovibrio*, An existing genus; *Similipleomorphovibrio*: A genus related to but distinct from the existing genus Pleomorphovibrio of similar.

Similiplesiocystis

L. masc. adjective *similis*, similar; L. fem. n. *Plesiocystis*, An existing genus; *Similiplesiocystis*: A genus related to but distinct from the existing genus Plesiocystis of similar.

Similiplesiomonas

L. masc. adjective *similis*, similar; L. fem. n. *Plesiomonas*, An existing genus; *Similiplesiomonas*: A genus related to but distinct from the existing genus Plesiomonas of similar.

Similipleurocapsa

L. masc. adjective *similis*, similar; L. fem. n. *Pleurocapsa*, An existing genus; *Similipleurocapsa*: A genus related to but distinct from the existing genus Pleurocapsa of similar.

Similipluralibacter

L. masc. adjective *similis*, similar; L. masc. n. *Pluralibacter*, An existing genus; *Similipluralibacter*: A genus related to but distinct from the existing genus Pluralibacter of similar.

Similipokkaliibacter

L. masc. adjective *similis*, similar; L. masc. n. *Pokkaliibacter*, An existing genus; *Similipokkaliibacter*: A genus related to but distinct from the existing genus Pokkaliibacter of similar.

Similipolaribacter

L. masc. adjective *similis*, similar; L. masc. n. *Polaribacter*, An existing genus; *Similipolaribacter*: A genus related to but distinct from the existing genus Polaribacter of similar.

Similipolaromonas

L. masc. adjective *similis*, similar; L. fem. n. *Polaromonas*, An existing genus; *Similipolaromonas*: A genus related to but distinct from the existing genus Polaromonas of similar.

Similipolyangium

L. masc. adjective *similis*, similar; L. neut. n. *Polyangium*, An existing genus; *Similipolyangium*: A genus related to but distinct from the existing genus Polyangium of similar.

Similipolycladidibacter

L. masc. adjective *similis*, similar; L. masc. n. *Polycladidibacter*, An existing genus; *Similipolycladidibacter*: A genus related to but distinct from the existing genus Polycladidibacter of similar.

Similipolycladomyces

L. masc. adjective *similis*, similar; L. masc. n. *Polycladomyces*, An existing genus; *Similipolycladomyces*: A genus related to but distinct from the existing genus Polycladomyces of similar.

Similipolycyclovorans

L. masc. adjective *similis*, similar; L. masc. n. *Polycyclovorans*, An existing genus; *Similipolycyclovorans*: A genus related to but distinct from the existing genus Polycyclovorans of similar.

Similipolygonibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Polygonibacillus*, An existing genus; *Similipolygonibacillus*: A genus related to but distinct from the existing genus Polygonibacillus of similar.

Similipolymorphospora

L. masc. adjective *similis*, similar; L. fem. n. *Polymorphospora*, An existing genus; *Similipolymorphospora*: A genus related to but distinct from the existing genus Polymorphospora of similar.

Similipolymorphum

L. masc. adjective *similis*, similar; L. neut. n. *Polymorphum*, An existing genus; *Similipolymorphum*: A genus related to but distinct from the existing genus Polymorphum of similar.

Similipolynucleobacter

L. masc. adjective *similis*, similar; L. masc. n. *Polynucleobacter*, An existing genus; *Similipolynucleobacter*: A genus related to but distinct from the existing genus Polynucleobacter of similar.

Similipolystyrenella

L. masc. adjective *similis*, similar; L. fem. dim. n. *Polystyrenella*, An existing genus; *Similipolystyrenella*: A genus related to but distinct from the existing genus Polystyrenella of similar.

Similipontibaca

L. masc. adjective *similis*, similar; L. fem. n. *Pontibaca*, An existing genus; *Similipontibaca*: A genus related to but distinct from the existing genus Pontibaca of similar.

Similipontibacillus

L. masc. adjective *similis*, similar; L. masc. n. *Pontibacillus*, An existing genus; *Similipontibacillus*: A genus related to but distinct from the existing genus Pontibacillus of similar.

Similipontibacter

L. masc. adjective *similis*, similar; L. masc. n. *Pontibacter*, An existing genus; *Similipontibacter*: A genus related to but distinct from the existing genus Pontibacter of similar.

Similipontibacterium

L. masc. adjective *similis*, similar; L. neut. n. *Pontibacterium*, An existing genus; *Similipontibacterium*: A genus related to but distinct from the existing genus Pontibacterium of similar.

Similiponticaulis

L. masc. adjective *similis*, similar; L. masc. n. *Ponticaulis*, An existing genus; *Similiponticaulis*: A genus related to but distinct from the existing genus Ponticaulis of similar.

Similiponticoccus

L. masc. adjective *similis*, similar; L. masc. n. *Ponticoccus*, An existing genus; *Similiponticoccus*: A genus related to but distinct from the existing genus Ponticoccus of similar.

Similipontimicrobium

L. masc. adjective *similis*, similar; L. neut. n. *Pontimicrobium*, An existing genus; *Similipontimicrobium*: A genus related to but distinct from the existing genus Pontimicrobium of similar.

Similipontimonas

L. masc. adjective *similis*, similar; L. fem. n. *Pontimonas*, An existing genus; *Similipontimonas*: A genus related to but distinct from the existing genus Pontimonas of similar.

Similipontirhabdus
